

### **Rider SELECT Resource Center**

The Teaching and Learning Center maintains a Rider SELECT lending library of books, workbooks, and videos geared toward inquiry-based teaching and learning, literacy in math and science, and cognitive research. The collection is located in the Faculty Lounge in the Bristol-Myers Squibb Center for Science Teaching and Learning (BMS CSTL, 3<sup>rd</sup> floor of the Science & Technology building). To borrow an item, please come to the BMS CSTL reception desk (9 AM – 3:30 PM) and sign it out. After hours, please use the sign out sheet on the library shelf.

**You can access the collection online.** Items in the collection are cataloged in an online data base called LibraryThing, a library-quality catalog, which enables you to view and search the collection, read comments and reviews, and connect with people who read the same things. You can also make requests or recommendations for acquisitions.

#### **To access the catalog:**

- Go to [www.librarything.com](http://www.librarything.com).
- In “Join Now,” fill in a user name and password of your choice. (There is no cost to join.)
- Once logged in, choose the “Search” tab (top of page)
- In the “Members and Locations” box, enter “RiderSELECT” (all one word).
- Click the Search button.
- One result will be found: RiderSELECT. Click on the link to go to the RiderSELECT profile page.
- Click on “See Library” to view/search the entire collection, or click on any tag to see a specific topic.

*We are grateful to the following donors whose grants have funded many of the items in the collection: Johnson & Johnson and the NJ Commission on Higher Education.*
