Examines the pre-Columbian and colonial periods of Latin-American history. Discusses the Indian, African, and European peoples and pays particular attention to the colonial Spanish and Portuguese societies from their establishment up to the revolutions that brought about political independence.

### HIS 283 Modern Latin America 3 Credits

Considers the post-independence history of Latin America, emphasizing the rise of export economies and external economic domination, modernization, and pan- Americanism. Examines the changes undergone by Latin-American nations in the 20th century through an analysis of Mexico, Argentina, Chile, Brazil, Peru, Cuba, and Central America.

### HIS 284 Caribbean History 3 Credits

Analyzes the history of the West Indian islands and the lands bordering the Caribbean Sea from pre-Columbian times to the present.

### IND 210 Global Encounters: Special Education Abroad: A Comparative Experience 3 Credits

This course provides students with an exposure to foreign cultures consisting of both travel and study components. Destinations may include countries in Europe, Latin America, or Asia. While traveling, students will be required to attend lecture/discussion sessions, site tours, and other planned activities. This experience will be preceded and/or followed by additional academic work to be conducted on campus. Study topics may include aspects of the historical, social, economic, political, and aesthetic cultural components appropriate to the location(s) visited. The travel component of the course will be scheduled to avoid conflict with normal semester offerings. A travel fee is required. No foreign language skills are required unless otherwise indicated.

### IND 316 Nature's Business 3 Credits

This interdisciplinary, team-taught, experiential learning course brings together various science, liberal arts, and business perspectives in examining the relationships among biological, social, environmental, economic, geological, and political issues. Topics to be discussed and researched by students can include, but are not limited to, ecotourism, sustainable development, biodiversity, local and regional environmental and historical geology, cultural norms, and the legal and political systems of the country being visited. The study tour component of the course provides students with a first-hand opportunity to observe and record field data from settings outside of the United States and in their discipline of interest. Typically, there are approximately 12 hours of pre-trip lectures, seminars, and/or faculty/student presentations during the fall semester, an international study tour, 9-14 days in length, during January (exact dates and length depend on the international location), and approximately three hours of post-trip meetings, seminars, and student presentations during the spring semester. Students enroll in the course during the spring semester. Note: This course is cross-listed as CBA 316; Students may not get credit for both CBA 316 and IND 316. For Business students who take the course as CBA 316, the course will count as a business course. If taken as IND 316, the Business student will receive credit as a liberal arts and science course.

**Prerequisite(s):** Permission of Instructor.

### LAC 420 From Colonies to Nations 3 Credits

This course consists of a panoramic survey of Colonial and Post-Colonial Latin American literature in light of the unique social, cultural and political history from the pre-Columbian to the Independence period (1825). The approach brings together vivid accounts of places and events, speeches, profiles, oral histories, excerpts from a wide range of literature, policy papers, and other readings. The analysis and discussion of selected literary works and representative films will show how Latin American and Caribbean artistic and creative endeavors express the social, cultural and political context of the Americas. Videos and films will provide the sights and sounds of this vast and vital region. Note: This course is cross-listed as LAC 420. Students may not get credit for both SPA 420 and LAC 420.

**Prerequisite(s):** SPA 201, or placement test at 300-level or above or SPA 300 or above.

### LIT 340 Hispanic Literature & Film in English Translations 3 Credits

This course explores literary and cinematic masterpieces in English translation. Attention is focused on their relationship to the intellectual, artistic, and historical background of Spain, Latin America, and/or United States Latino cultures. No knowledge of Spanish is required. Open to Spanish majors, but no credit given toward the specific requirements of the major.

**MUS 308 World Music 3 Credits**

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures.

**POL 272 Politics of Latin America 3 Credits**

The course will begin by discussing Latin American nations from the point of view of their common ancestry in European colonization, including the ways in which European cultural and economic patterns were introduced into indigenously populated areas, how these persisted after independence from European imperialist regimes and the U.S., and how these legacies have their continued effects into the present. The course continues with inquiry into the domestic politics and governmental systems of a number of Latin American nations. The course also takes up present day relations between Latin American political systems, the United States, and various organizations of the global economy such as International Monetary Fund, the World Bank, and the World Trade Organization.

**SOC 341 Developing Societies 3 Credits**

Examines theories explaining patterns of development; indicators and measures of social well-being; and problems such as population, hunger and environmental crises in developing countries. Focuses especially on patterns of development in Latin America or China.

**Prerequisite(s):** SOC 101.

**SPA 200 Spanish III 3 Credits**

An intensive review of Spanish grammar with emphasis on aural-oral (listening and speaking skills) and composition writing. Literary and cultural readings will be used to develop these skills. A special section may be offered to address the needs of native speakers. Students may be required to work with audio and/or video materials and online sources. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** SPA 101 or placement test.

**SPA 201 Spanish IV 3 Credits**

A continuation of Spanish grammar review with emphasis on aural-oral and written skills to prepare students for further study. The discussion of distinctive cultural aspects of the Hispanic world is an integral part of this course. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisites:** SPA 200 or placement test.

**SPA 301 Spanish for Business 3 Credits**

A solid foundation in business vocabulary and cultural concepts; situational practice in geographic and cultural contexts necessary to be successful in today's Spanish-speaking world. Practice in writing business letters and other documents. Oral and written assignments to help students improve their critical thinking and become better communicators.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 311 Latin American Latino Culture 3 Credits**

A panoramic survey of Latin American cultural achievements in light of the unique social and political history from the pre-Columbian period to the present. The cross-cultural perspective includes a study of Latino culture in the United States. Classes are in English. No knowledge of Spanish is required.

**SPA 325 Introduction to Latin-American/Latino Literature 3 Credits**

A study of the development of Latin-American and Latino literature from its origins to the present through the reading, analysis and discussion of representative works by major authors. This course increases the understanding of how social, historical, and political events, together with native as well as foreign literary movements, create a unique literature, conveying the Hispanic-American reality. Required for majors. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 412 Hispanic Theater and Film 3 Credits**

This course explores through theater and cinema the compelling issues that have shaped Hispanic cultures and consciousness throughout the centuries. Sample topics include war and remembrance; myth and history; freedom and authority; immigration; globalization; and race, class, and gender. The course may focus on specific authors or historical periods. Representative playwrights include Lope de Vega, Zayas, Zorrilla, Avellaneda, Lorca, Buero Vallejo, Sastre, Solorzano, Carballido, Lopez Mozo, and Pedrero. Directors include Buñuel, Saura, Gutiérrez Alea, Almodovar, Rocha, Salles, Erice, Zambrano, and Bollain.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 413 The Hispanic Short Story: Transatlantic Connections 3 Credits**

This course will introduce students to the most representative writers of the short story in Spain and Latin America from Romanticism to the present. Students will be prepared to perform close readings of the literary genre under study, to analyze the form and content of the texts read, paying due attention to all internal and external aspects that impact the narrative process and the evolution of the short story. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 420 From Colonies to Nations 3 Credits**

This course consists of a panoramic survey of Colonial Latin American literature in light of the unique social, cultural and political history from the pre-Columbian to the Independence period (1825). Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Note: This course is cross-listed as LAC 420. Students may not get credit for both SPA 420 and LAC 420.

**SPA 426 Latin American/Latino Film and Fiction 3 Credits**

A study of the main trends in contemporary Hispanic fiction written in Latin America and the United States. Analysis and discussion of selected novels and short stories, and their cinematic representation on film. Required for majors. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 496 Special Studies 3 Credits**

A seminar open to a variety of topics treating a particular author, period, genre, or theme.

**Prerequisite(s):** permission of instructor.

## Marine Sciences

### Program Overview

The Marine Sciences major prepares students for meaningful and productive post-baccalaureate employment and/or admission to high-quality graduate programs. Although administered by the Department of Geological, Environmental, and Marine Sciences (GEMS), the Marine Sciences major is truly interdisciplinary in nature, both in its curriculum and faculty. The program investigates and emphasizes the multiple feedback interactions among unicellular and vertebrate marine organisms, the physiochemistry of the water in which they live, and the substrates in or on which they dwell. Often, students who major in the Marine Sciences also double major or minor in the following programs: Biology, Chemistry, Earth and Environmental Sciences, Environmental Sciences, Geosciences, and Psychology (for marine mammal training).

### Curriculum Overview

A number of different Marine Sciences field courses are offered by GEMS and are taught during the spring/summer at various field stations, including the Bermuda Institute of Ocean Sciences (BIOS), Bermuda; the Newfound Harbor Marine Institute, Big Pine Key, Florida; and, in most years, the Roatan Institute of Marine Sciences (RIMS), Roatan, Honduras. Rider University also is a member of the New Jersey Marine Sciences Consortium.

These field courses focus on the biological, physiochemical, and sedimentological aspects of various habitats, which can include mangrove, rocky intertidal, sponge, coral reef, kelp bed, and soft coral communities, depending upon location. Course emphasis is on team exercises in each habitat, team mapping projects, and individual experimental projects. Most habitats are located in shallow water accessible by wading or snorkeling. SCUBA certification is not required or needed for these courses.

### Honors Program in Marine Sciences

Honors in Marine Sciences are awarded in recognition of majors who have demonstrated outstanding academic ability. Enrollment in the Honors Program is by invitation of the department faculty. Eligibility requirements include maintenance of at least a minimum GPA of 3.5 in courses required for the major and satisfactory completion of an independent research and study project or a senior thesis. In addition, an honors candidate must maintain an overall GPA of 3.0.

### Degree Offered

- B.S. in Marine Sciences

## Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

<sup>2</sup> Please note that elective credits may be used to complete requirements in a second major or minor.

## Courses and Descriptions

### MAR 120 Oceanography 3 Credits

In this course, students will investigate the geological, chemical, physical, and biological processes that shape the ocean. Emphasis will be placed on how these processes interact with each other and with human populations. These interactions influence important global phenomena that impact all our lives, including weather and climate, the distribution of marine organisms and other natural resources, and coastal processes. Understanding these phenomena will enable students to make more informed decisions and contribute to serious global marine issues. Students will learn through a combination of hands-on exercises designed to foster a deeper understanding of the scientific content as well as the scientific process, practical experiences with real data, readings, and some lectures. CLAS general education areas addressed: DP & GP.

### MAR 121 Introductory Oceanography Lab 1 Credits

This lab course introduces students to the fundamental aspects of geological, chemical, physical and biological oceanography. Students learn through inquiry-based, hands-on exercises and activities using actual data collected in the lab and in the field. Independent projects and local field trips during lab and on weekends may be required. One three-hour lab per week. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Corequisite(s):** MAR 120 or GLS 120 or as prerequisite(s).

### MAR 210 Marine Life through Time 4 Credits

Survey of the important developments in marine life over the last three billion years from the Pre-Cambrian evolution of one-celled organisms, through the Cambrian explosion of complex marine invertebrate life and subsequent diversification of backboned organisms in the Ordovician time, to the colonization of marginal marine and freshwater habitats in the Silurian-Devonian geological periods, and ultimately to extinctions during global crises of the late Devonian, Permian, Triassic, Cretaceous, and Pleistocene time intervals. The emphasis is on evolutionary adaptive breakthroughs within each phylum, particularly the significant morphological and anatomical innovations, and the subsequent radiation of these higher taxa into new habitats and niches through geologic time. Three hours of lecture and one three-hour lab per week.

**Prerequisite(s):** GEO 100 & GEO 102; or GEO 113 & GEO 102 (can be signed in to take 102 with 113); or BIO 115; or BIO 116; or permission of instructor.

### MAR 210L Marine Life through Time Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course. Corequisite(s): MAR 210.

**Prerequisite(s):** GEO 100 & GEO 102; or GEO 113 & GEO 102 (can be signed in to take 102 with 113); or BIO 115; or BIO 116; or permission of instructor.

### MAR 290 Directed Research and Study in Marine Sciences 1-4 Credits

Provides an opportunity for freshman and sophomore students to gain hands-on research experience in the marine sciences. This is an individual program of study and each student will work with a selected faculty member on a topic of mutual interest. The course consists of a combination of project meetings, supervised research, and guided readings. The focus will be on formulating research questions, designing and conducting experiments, collecting the necessary data, reviewing the scientific literature as it relates to each student's research topic in a weekly meetings with the instructor, and communicating the findings by writing a final project report.

### MAR 300 Introduction to Field Marine Science 4 Credits

In this two-week field course, students will explore various topics in marine science through practical, hands-on, inquiry-based exercises and activities. The course will focus on the biological, geological, chemical, and physical processes that influence diverse marine flora and fauna found in selected marine environments, emphasizing shallow subtidal and intertidal environments such as coral reefs, sandy beaches, turtle grass beds, rocky intertidal pools, coastal wetlands, mangrove swamps, etc. Topics will be examined using field team exercises, a group mapping project, and individual research projects. Activities will help students develop their skills in research, use of field and laboratory equipment, computer analysis of data, and scientific writing, along with gaining content knowledge about the components and processes of environments studied. The course is taught at an appropriate marine field station at a U.S. or international location. Field portion of course is completed during the summer. Additional travel costs vary, depending on location.

**Prerequisite(s):** BIO 115 or 116 or any 200 or higher level lab science class; and MAR 120; and permission of instructor.

**MAR 325 Marine Vertebrates 4 Credits**

A survey of the biology of marine vertebrate animals, including fish (jawless fish, sharks, rays, and bony fish), reptiles (sea turtles and sea snakes), sea birds, and mammals (manatees, seals, and whales). The evolution, physiology, natural history, ecological relationships, and human interactions of these groups are emphasized. Three hours of lecture and one three-hour lab per week. Field trips may be required. Prerequisite(s): BIO 272 and BIO 272L.

**Corequisite(s):** MAR 325L.

**MAR 325L Marine Vertebrates Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** MAR 325.

**MAR 330 Chemical Oceanography 4 Credits**

Introduction to the chemical aspects of the oceans and their influence on marine ecosystems and Earth processes. Emphasis is placed on chemical and physical properties of seawater, atmosphere-ocean interactions, biogeochemical cycles with marine components, production and destruction of marine organic matter, chemical ecology, and marine pollution. During the lab portion of this course, students gain hands-on experience in analyzing ocean water samples, experimental design, and interpreting marine chemical data. Three hours of lecture and one three-hour lab per week. Weekend field trips and independent projects may be required. Prerequisite(s): CHE 120, CHE 121, MAR 120, and MAR 121; or permission of instructor.

**Corequisite(s):** MAR 330L.

**MAR 330L Chemical Oceanography Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** MAR 330.

**MAR 340 Marine Processes and Environments: Seminar 3 Credits**

This course is designed as a seminar course. Therefore, students will learn to lead class discussions, to analyze and critique peer-reviewed journal articles, and to enhance their presentation skills. Students will interpret graphical, spatial, and numerical data to support their positions. Content will emphasize the interactions among marine processes, biological features, and geologic landforms.

**Prerequisite(s):** MAR 120 or GEO 100; GEO 306.

**MAR 360 Plankton Ecology 4 Credits**

Examines the diversity, physiology, and ecology of marine phytoplankton and zooplankton. Students will survey the dominant plankton groups, their distribution, nutritional requirements, growth kinetics, and behavior. Planktonic predator/prey interactions and food web dynamics will be discussed. Students will also examine the interdisciplinary nature and role of plankton in biogeochemical cycles. Three hours of lecture and one three-hour lab per week. Weekend field trips may be required. Prerequisite(s): MAR 120 and MAR 121; or BIO 116.

**Corequisite(s):** MAR 360L.

**MAR 360L Plankton Ecology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** MAR 360.

**MAR 401 Marine Ecology 4 Credits**

The purpose of this course is to introduce students to fundamental principles in ecology, as it relates to marine systems. Topics include the marine environment and its influence on the organisms living there; biodiversity and speciation; factors regulating population dynamics in marine systems; larval and fisheries ecology; species interactions such as predation, competition, and symbiosis; factors regulating productivity and energy flow in marine systems; and marine conservation. Hands-on laboratory exercises will provide students with the opportunity to design and conduct experiments related to marine ecology, and to collect, analyze, and interpret data from those experiments. Ecosystem modeling will also be introduced. Three hours of lecture and one three-hour lab per week. Weekend field trips may be introduced. Prerequisite(s): BIO 272, BIO 272L.

**Corequisite(s):** MAR 401L.

**MAR 401L Marine Ecology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** MAR 401.

**MAR 410 Physical Oceanography 3 Credits**

Introduction to the physical aspects and processes of the oceans and their influence on marine ecosystems and Earth processes. Topics include distribution of salinity and water temperature and their effect on water movement, the oceanic heat budget, atmospheric and oceanic interactions, ocean currents including surface and deep water circulation, waves, tides, and medium- to small-scale circulation features. Throughout the course, emphasis is placed on how these physical processes affect the biology and chemistry of the ocean. Three hours of lecture per week. Weekend field trips may be required.

**Prerequisite(s):** MAR 120.

**MAR 480 Senior Thesis 3 Credits**

A senior thesis is optional for marine sciences majors. However, a senior thesis is required for eligibility to graduate with honors in marine sciences. The topic for investigation will be chosen by the student in consultation with the faculty of the Department of Geological, Environmental, and Marine Sciences. The student must initiate consideration of a proposal to the Department. The proposal must contain a discussion of the proposed project and a timetable to be followed in the study. A departmental committee consisting of a major and minor advisor will evaluate the written paper submitted at the conclusion of the study or other approved venue. An oral presentation before the department at the conclusion of the semester in which the study is completed is required. Proposals must be submitted in final form no later than the end of the ninth week of the semester prior to the semester in which the study is undertaken.

**Prerequisite(s):** senior standing in the marine sciences major and permission of department chair.

**MAR 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**MAR 491 Internship in Marine Sciences 1-4 Credits**

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placements may be in private, public, non-profit, or governmental organizations. These can include consulting firms, regulatory agencies, advocacy groups, and educational or research institutions. Normally, 50 hours of internship per credit is required. A mutually agreed upon method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and could include a term paper or project report and a poster presentation.

**Prerequisite(s):** 2.5 GPA and permission of instructor.

**MAR 580 Independent Marine Science Field Study 4 Credits**

This field-based course provides a practical experience in integrating marine science with pedagogical concepts. Students will use scientific methodology to explain marine ecosystems through specially designed, inquiry-based exercises. During these activities, students will address the process of applying college-level content to their own classroom settings, considering national and state standards. Hands-on, field-based exercises will provide experience with a diversity of marine habitats and the biological, geological, hydrological, and physical processes that influence them. Visited habitats can include rocky intertidal, salt marsh, tidal flat, beach and channel sand bars. As a result, students will develop field and laboratory skills in marine science and use them in designing materials for their own classroom use.

**BIO 115 Principles of Biology I 4 Credits**

An introductory biology course focusing on major themes of biology: what is life?; Cells as fundamental structure and functional unit of life; information transmission, storage and retrieval; Diversity and unity of life explained by evolution. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** BIO 115L.

**BIO 115L Principles of Biology I Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 115.

**BIO 116 Principles of Biology II 4 Credits**

An introductory biology course focusing on major themes of biology: Energy and matter to carry out life's essential functions; Interdependent relationships characterize biological systems (homeostasis, growth & development); Behavior of living things; Ecology and the environment. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** BIO 116L.

**BIO 116L Principles of Biology II Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 116.

**BIO 272 Intro to Marine Biology 4 Credits**

Introduces students to the study of marine environments, emphasizing the diversity, ecology, and physiology of marine animals, algae, and plants. Aspects of the human impact on marine environments are also discussed. Prerequisite(s): BIO 115 or BIO 116 or BNS 118 and grade of "C" or better.

**Corequisite(s):** BIO 272L.

**BIO 272L Marine Biology Laboratory 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 272.

**BIO 372 Behavior of Marine Organisms: Evolutionary Approach 4 Credits**

An examination of the underlying mechanisms and evolutionary causes of behavior, including habitat use, feeding, and mate choice, particularly in marine organisms. The laboratory will involve collecting, analyzing and interpreting field data and performing experiments in the lab using a variety of marine organisms including fish and crabs. Three hours of lecture and one three-hour lab per week. Some full-day field trips (usually on a weekend) are required. Prerequisite(s): BIO 115, BIO 116 with a grade of C or better in each course.

**Corequisite(s):** BIO 372L.

**BIO 372L Behavior of Marine Organisms: Evolutionary Approach Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 372.

**GEO 100 Earth Systems Science 3 Credits**

Investigates the major global processes that occur on Earth. These processes can be grouped into four major systems: atmosphere, hydrosphere, lithosphere, and cosmosphere. Each system interacts with and affects the other systems creating, in a sense, a single Earth process. With this approach, the student will view the Earth as a whole, and understand that the many seemingly separate components that make up this planet are, in fact, a set of interacting processes, that operate in cycles through time, within a single global system. Three hours of lecture per week. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**GEO 102 Earth Materials and Processes Lab 1 Credits**

This lab course introduces students to the origin, identification, and significance of geologic materials, processes, and landforms. Hands-on experiences with mineral and rock specimens, topographic and geologic maps, and GPS and other data collection techniques are emphasized, along with field trip and in-lab observations, measurements, and interpretations. One three-hour lab per week.

**Prerequisite(s):** concurrent enrollment in, or prior completion of, GEO 100 or GEO 113 is required.

**GEO 306 Sedimentology and Stratigraphy 4 Credits**

The principles of weathering, erosion, transportation, and deposition of sediment are the focus of this course. Sediment characteristics are examined to identify the processes involved in transporting grains and the specific environment in which the grains were deposited. Students will learn how to collect, analyze, and interpret sedimentary data and how to interpret surface and subsurface stratigraphic data using various techniques, such as lithostratigraphic, biostratigraphic, and geophysical, correlations. Field trips will expose students to different sedimentary environments and provide opportunities for students to learn how to conduct fieldwork. Three hours of lecture and one three-hour lab per week. Weekend field trips may be required. Prerequisite(s): GEO 100.

**Corequisite(s):** GEO 306L.

**GEO 306L Sedimentology and Stratigraphy Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** GEO 306.

**ENV 200 Statistical and Computer Applications in the Natural Sciences 4 Credits**

This course introduces important statistical concepts, their application, and the usage of computer technology relevant to biological, environmental, geological, and marine problems. Students will learn various graphical and statistical techniques and how to execute them on personal computers. The curriculum emphasizes the integrated nature of these techniques and their importance to meaningful data evaluation and representation. Laboratory exercises are designed to emphasize useful solutions to problems found in many scientific disciplines using computer-based methodologies. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** ENV 200L.

**ENV 200L Statistical and Computer Applications in the Natural Sciences Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** ENV 200.

**ENV 205 Introduction to Geographic Information Systems 3 Credits**

This course introduces the computer-based concepts and skills of Geographic Information Systems (GIS). It covers the basic GIS concepts, such as map characteristics and projections, spatial data models and analysis, and relational databases. It explores data sources, data quality, and metadata, as well as implementation and management of specific GIS projects. Hands-on experience with ArcGIS software is provided through a series of student exercises completed throughout the semester. Students will also be taught how to process both vector and raster data using ArcGIS software. The course is relevant for students from numerous disciplines in the natural sciences, social sciences, and business, which require the analysis and graphical representation of spatial data. Three hours of lecture per week. Note: This course is cross-listed as GLS 205. Students may not receive credit for both ENV 205 and GLS 205.

**CHE 120 Principles of Chemistry 3 Credits**

For students who have successfully completed one year of high school chemistry. This systematic study of the fundamental principles and concepts of chemistry covers atomic structure, bonding, stoichiometric relationships, including solution and oxidation-reduction reactions, and molecular structure. Three hours of lecture per week. Prerequisite(s): High school chemistry or CHE 100 is recommended before taking this course.

**Corequisite(s):** CHE 121.

**CHE 121 Principles of Chemistry Lab 1 Credits**

For students concurrently taking CHE 120. Experiments involve gravimetric, volumetric, and spectrophotometric quantitative analysis. One three-hour lab per week. Fall.

**CHE 122 Intro to Chemical Systems 3 Credits**

A continuation of CHE 120. For students majoring in the sciences but may be taken by others. Chemical systems in which the study of kinetics, thermodynamics, equilibrium, and radiochemistry are emphasized. Three hours of lecture per week. Prerequisite(s): CHE 120, MTH 105 or higher.

**Corequisite(s):** CHE 123.

**CHE 123 Quantitative Methods Lab 1 Credits**

Usually taken concurrently with CHE 122. Primarily for students majoring in the sciences. A number of quantitative classical and instrumental methods of analysis are used to determine thermodynamic properties and reaction mechanisms. One three-hour lab per week. Prerequisite(s): CHE 121.

**Corequisite(s):** CHE 122.

**PHY 100 Principles of Physics I 3 Credits**

Introductory noncalculus physics with applications for pre-professional, biology, and geological, environmental and marine sciences majors. Classical mechanics, energy, mechanical waves, fluid statics and dynamics, thermodynamics. Elements of modern physics are interwoven with those of classical physics from the beginning. Not open to chemistry, physics, or mathematics majors. Three hours of lecture per week. Prerequisite(s): MTH 105, MTH 210, MTH 211 or MTH 212.

**Corequisite(s):** PHY 100L.

**PHY 100L Principles of Physics I Lab 1 Credits**

For students concurrently taking PHY 100. One three-hour lab per week.

**Corequisite(s):** PHY 100.

**PHY 101 Principles of Physics II 3 Credits**

Continuation of Physics 100. Electrostatics, electricity, and magnetism; DC and AC circuits, physical and geometrical optics, introduction to elementary particle and quantum physics. Three hours of lecture per week. Prerequisite(s): PHY 100.

**Corequisite(s):** PHY 101L.

**PHY 101L Principles of Physics II Lab 1 Credits**

For students concurrently taking Physics 101. One three-hour lab per week.

**Corequisite(s):** PHY 101.

## Mathematics

### Program Overview

Students majoring in mathematics at Rider are met with rigorous and insightful instruction. Courses progress from foundational topics to advanced theories and techniques. Faculty members are active in research and will invite, stimulate and support students' curiosity and understanding.

Graduates of Rider's mathematics program go on to careers in such fields as education, scientific and medical research, engineering, computer science, architecture, pharmaceutical research, actuarial science, and urban planning and development.

### Curriculum Overview

Requirements for the math major total 50 semester hours and include calculus I, II and III, linear algebra, differential equations, advanced calculus, modern geometry, probability and statistical analysis I, modern algebra, complex analysis and mathematics electives. Also required are general physics I and II.

### Honors Program in Mathematics

Superior students majoring in mathematics may participate in a program leading to graduation with honors in mathematics. A candidate must submit a written application by March 1 of the junior year to the departmental honors committee. Admission to the program will be based on a 3.25 cumulative average in mathematics courses taken in the first five semesters and sponsorship by a member of the

departmental faculty. During the senior year, the student will be enrolled in MTH 490 Independent Study: Research and Creative Expression. Honors in mathematics is based on earning a 3.4 average in seven mathematics courses at the 300 and 400 levels (excluding MTH 490) and an acceptable senior thesis. Further information on the program can be obtained from the department.

## Courses and Descriptions

### MTH 100 Intermediate Algebra 1 Credits

This course prepares science and mathematics majors for college level mathematics courses. Topics include linear and absolute value equations and inequalities, quadratic and polynomial functions and their graphs, rational and radical equations, and systems of linear equations. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

### MTH 100S Math Skills Lab 1 Credits

The Math Skills Lab helps science majors master arithmetic and elementary algebra necessary for college level mathematics courses. Students are required to attend regular class sessions. Students have access to tutors, computer-assisted instruction, and structured workshops. The one supplemental education unit does not count toward graduation; grading is done on a Y/Z (pass/not pass) basis.

### MTH 102 Finite Mathematics 3 Credits

This mathematically rigorous course begins with a review of the rational numbers, repeating decimals, irrational numbers and non-repeating decimals. The elementary theory of sets is discussed with applications to surveys and data mining. This is followed by a discussion of the cardinality of infinite sets. An introduction to elementary number theory includes various applications. The Cartesian plane and the idea of a function and its graph are introduced with applications. Counting theory then precedes an elementary discussion of probability.

### MTH 105 Algebra and Trigonometry 4 Credits

The course is an in depth and rigorous study of functions and graphs, equations and inequalities, polynomial and rational functions, exponential, and logarithmic functions, basic trigonometric functions and their inverses, trigonometric identities.

**Prerequisite(s):** A mathematics SAT score of 570, departmental placement or MTH 100.

### MTH 120 Introduction to Applied Statistics 3 Credits

Collection and presentation of data. Measures of location and variation, sampling theory, hypothesis testing, confidence intervals, t-tests, chi-square tests, regression, and correlation. Emphasizes practical applications. Not open to business administration, chemistry, environmental, geosciences, marine sciences, math or liberal studies: marine ecological or environmental emphasis majors.

**Prerequisite(s):** MTH 102 or MTH 105.

### MTH 150 Mathematics for Education Majors I 3 Credits

This is the first course in a three-course sequence for education majors. This course covers the concept of Numbers, starting with counting numbers, decimals, negative numbers, fractions, and real numbers; different ways of representing numbers, and the relations between them are explored; different meanings and applications of the arithmetic operations are studied; standard and non-standard algorithms for arithmetic are considered in light of the representation of numbers. May not be used by CLAS students to satisfy the mathematics component of the core.

**MTH 151 Mathematics for Education Majors II 3 Credits**

This is the second course in a three-course sequence for elementary education majors. In this course, students will study proportional reasoning, Number Theory, Algebra, Geometry, and measurement. May not be used by SLAS students to satisfy the mathematics component of the core.

**Prerequisite(s):** MTH 150.

**MTH 152 Mathematics for Education Majors III 3 Credits**

This is the third course in a three-course sequence for elementary education majors. In this course, students will study area and volume, transformational geometry, statistics and probability.

**Prerequisite(s):** MTH 151.

**MTH 210 Calculus I 4 Credits**

Introduces analytic geometry, functions, limits, and derivatives; differentiation of algebraic and trigonometric functions, curve sketching, maxima and minima, and higher derivatives.

**Prerequisite(s):** Math SAT 650 or higher or Math ACT score of 28 or higher or successful completion of MTH 105.

**MTH 211 Calculus II 4 Credits**

The definite integral, differentiation of transcendental functions, methods of integration and approximate integration, determination of area, volume, and surface area.

**Prerequisite(s):** MTH 210.

**MTH 212 Calculus III 4 Credits**

Infinite series; functions of two and three variables, vectors and tangent planes, partial derivatives, multiple integrals, determination of volume and density.

**Prerequisite(s):** MTH 211.

**MTH 230 Discrete Mathematics 4 Credits**

An introduction to topics in Discrete Mathematics. This course covers methods of proof, induction and recursion, and other topics in discrete mathematics. Topics may include graph theory, trees, and symmetry groups.

**Prerequisite(s):** MTH 102, MTH 105 or MTH 210.

**MTH 240 Linear Algebra 3 Credits**

Systems of linear equations; vector spaces; linear independence; determinants; orthogonality; linear maps; eigenvectors.

**Prerequisite(s):** MTH 210 or as corequisite; sophomore standing; or permission of instructor.

**MTH 250 Differential Equations 3 Credits**

First order differential equations, separable and exact; integrating factors; second order linear differential equations; series solutions of second order linear differential equations; higher order equations; existence and uniqueness theorems; systems of linear differential equations.

**Prerequisite(s):** MTH 240, MTH 211.

**Corequisite(s):** MTH 212 or as prerequisite.

**MTH 308 Advanced Calculus 3 Credits**

Vectors, gradients, and directional derivatives, Lagrange multipliers, Taylor's theorem, multiple integrals, change of variables, line and surface integrals, Stokes' theorem.

**Prerequisite(s):** "B" average in MTH 210 and MTH 211; MTH 212, MTH 240.

**MTH 315 Modern Geometry 3 Credits**

Covers geometry from a modern point of view, with emphasis on non-Euclidean geometry, particularly projective geometry.

**Prerequisite(s):** MTH 211, MTH 240.

**MTH 340 Probability & Statistical Analysis I 3 Credits**

Theory of sets and probability; discrete and continuous random variables and probability distributions. Emphasizes foundations and utilizes the techniques of the calculus.

**Prerequisite(s):** MTH 212 or MSD 111.

**MTH 341 Probability & Statistical Analysis II 3 Credits**

Continuation of MTH 340. Foundations of mathematical statistics: normal distributions, estimation, confidence intervals and hypothesis testing; topics chosen from student's t-test, chi-square tests, analysis of variance and regression analysis. Emphasizes foundations and utilizes the techniques of the calculus.

**Prerequisite:** MTH 340. Spring.

**MTH 401 Modern Algebra 3 Credits**

Provides an introduction to modern abstract algebra. It emphasizes the axiomatic method to analyze the major algebraic systems. The instructor will choose the topics to be studied from among the following algebraic structures: integral domains, fields, complete ordered fields, groups, polynomials, rings, ideals and modules.

**Prerequisite(s):** MTH 240.

**MTH 402 Topics in Advanced Mathematics 3 Credits**

Chosen from advanced pure or applied mathematics. Topics vary, depending on instructor.

**Prerequisite(s):** MTH 308.

**MTH 410 Complex Analysis 3 Credits**

Analytic functions, conformal mapping, power series, Cauchy's theorem, calculus of residues.

**Prerequisite(s):** MTH 308.

**MTH 420 Number Theory 3 Credits**

Covers topics including divisibility theory, the prime numbers, the theories of congruences and of quadratic reciprocity, and Fermat's Last Theorem. Other topics may also include applications to cryptography, Pell's equations, continued fractions, and the theory of partitions.

**Prerequisite(s):** MTH 240 or permission of instructor.

**MTH 430 Introduction to Topology 3 Credits**

A comprehensive introduction to elementary topology. The concepts of topological spaces and metric spaces will be introduced. Connectedness, compactness and properties of subsets of the real numbers rooted in topology will also be considered. The quotient topology will be used to construct surfaces as identification spaces, and tools will be developed to distinguish one surface from another.

**Prerequisite(s):** MTH 212.

**MTH 440 Real Analysis 3 Credits**

Covers the theory of sets, the real number system and its properties, convergence of sequences and series of numbers and functions, and the theory of integration, including: measure theory, the Riemann integral, and introduction to the Lebesgue theory of integration.

**Prerequisite(s):** MTH 308 or as corequisite.

**MTH 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in research and mathematical literature. If possible, the student will publish the results or present them at a scientific meeting.

## Movement Science Minor

### Program Overview

The Movement Science Minor is designed to foster a deeper knowledge and understanding of the fundamental aspects of human performance. Upon completion of the program, the student will be able to:

- Demonstrate knowledge of theoretical and practical scientific concepts of movement and movement science (i.e., anatomy, physiology, nutrition, biomechanics/kinesiology, and biopsychosocial and behavioral health.)
- Identify and explain disease which may result from and affect biological and behavioral health.
- Articulate a philosophy that demonstrates the role of movement in the development and maintenance of overall health and the prevention of disease.

## Movement Science Minor Requirements

(21-22 credits)

Code	Title	Credits
<b>Select one of the following:</b>		
BIO 100	Life Science	3-4
	or BIO 115/BIO Principles of Biology I 115L	
	or BIO 116/BIO Principles of Biology II 116L	
	or BNS 107	Life Science: Brain and Behavior
BIO 221 & 221L	Human Anatomy & Physiology I and Human Anatomy & Physiology I Lab	4
BIO 222 & 222L	Human Anatomy & Physiology II and Human Anatomy & Phys II Lab	4
DAN 180	History of Movement Theory	3
HSC 100	Intro to Human Nutrition	3
HSC 302 & 302L	Kinesiology and Kinesiology Lab	4
Total Credits		21-22

Note:

1. Health Science majors who declare a Movement Science Minor may not count HSC 100 or HSC 302 / HSC 302L toward their major requirements.
2. DAN 180 is offered every other year. Work with your advisor to plan accordingly.

### Courses

#### BIO 100 Life Science 3 Credits

An introductory course for non-science majors in which students develop an understanding of the nature of science and are introduced to foundational topics in the biological life sciences and how they relate to human affairs. The course may emphasize human evolution, genetics, aging, disease, reproduction, bioethics or other topics in biology. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

#### BIO 115 Principles of Biology I 4 Credits

An introductory biology course focusing on major themes of biology: what is life?; Cells as fundamental structure and functional unit of life; information transmission, storage and retrieval; Diversity and unity of life explained by evolution. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** BIO 115L.

#### BIO 115L Principles of Biology I Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 115.

#### BIO 116 Principles of Biology II 4 Credits

An introductory biology course focusing on major themes of biology: Energy and matter to carry out life's essential functions; Interdependent relationships characterize biological systems (homeostasis, growth & development); Behavior of living things; Ecology and the environment. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** BIO 116L.

**BIO 116L Principles of Biology II Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 116.

**BIO 221 Human Anatomy & Physiology I 4 Credits**

A comprehensive survey of the structure and function of musculo-skeletal systems, neuroendocrine systems and related tissues and cellular interactions. Physiological applications include homeostasis, muscle dynamics, and cell activities. Laboratory exercises complement lecture material through the use of animal dissections, wet labs, computer-assisted investigations, microscopy, and models. Exams, case histories, personal investigations, and lab practicums assess learning. Course emphasis supports allied health and pre-professional training. Three hours of lecture and one three-hour lab per week. Designed for allied health students; does not satisfy requirements for the biology major. Prerequisite(s): HSC major ONLY or Permission of instructor.

**Corequisite(s):** BIO 221L.

**BIO 221L Human Anatomy & Physiology I Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 221.

**BIO 222 Human Anatomy & Physiology II 4 Credits**

A comprehensive survey of the organ systems of the body including special senses, cardiovascular, respiratory, digestive, excretory, reproduction and development. Physiological components include electrolytes, metabolism, nutrition, and the mechanisms of homeostasis and cell reception. Lab studies support lecture material through dissections, wet labs, computer-assisted learning, microscopy, and models. Assessment includes lab practicums, exams, and reports. Course emphasis supports allied health and pre-professional training. Designed for allied health students; does not satisfy requirements for the biology major. Prerequisite(s): BIO 221.

**Corequisite(s):** BIO 222L.

**BIO 222L Human Anatomy & Phys II Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. Prerequisite(s): BIO 221L.

**Corequisite(s):** BIO 222.

**BNS 107 Life Science: Brain and Behavior 3 Credits**

An introduction to the biology of the human brain and the rest of the human nervous system. Topics in neuroscience are covered in molecular, cellular, and systematic terms. Additional material is presented on the origins and effects of neurological and psychiatric diseases. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**DAN 180 History of Movement Theory 3 Credits**

Investigation of the mind-body connection, somatic experience, body therapies, movement and theories. The essential questions are: How is it that we move with awareness, fluidity, efficiency and precision?.

**HSC 100 Intro to Human Nutrition 3 Credits**

This course is designed to offer the student understanding of fundamental human nutrition concepts including, but not limited to, digestion, absorption, metabolism, functions and sources of macronutrients and micronutrients. The theme of the course will align with human health and disease states and the important conceptions about the food industry and its relation to healthy dietetic choices.

**HSC 302 Kinesiology 4 Credits**

The purpose of this course is to explore human movement during performance of activities. This course will explore the relationship between anatomical structures and function in the production of movement. The application and relationships between the fundamental principles of mechanics and musculoskeletal system function will be addressed within the framework of clinical and research perspectives. Both qualitative and quantitative approaches will be applied towards a better understanding of human movement, the analysis of physical activity. Prerequisite(s): BIO 221 & MTH 105 (or equivalent) or POI.

**Corequisite:** HSC 302L.

**HSC 302L Kinesiology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** HSC 302.

## Multicultural Studies

### Program Overview

In this minor, students will learn how different cultures interact to shape individual identities and to structure U.S. society. Because organizations today need employees who can perform effectively in a diverse workplace environment, the minor can also enhance employment options.

For coursework, each student chooses a theme or thread within multicultural studies that suits his or her special interests. The minor also provides students with career-relevant knowledge and experience.

In these various ways, the multicultural studies minor plays an important role in preparing Rider students, whatever their ethnic heritage, for an increasingly multicultural world.

21

## Courses and Descriptions

### MCS 110 Race, Class and Gender in Contemporary American Society 3 Credits

This interdisciplinary course analyzes the ways in which race, class, gender and ethnic relationships shape the experience of all persons in this society. It examines the categories of race, class and gender as social constructs that have been historically developed and sustained by economic, social, political, and cultural factors.

### MCS 110S Introduction to Race, Class and Gender in Contemporary Society 1 Credits

This course introduces students to the concepts of race, class and gender as essential components in understanding how social identities are socially constructed in the United States. Using historical and contemporary references, the course explores the ways in which race, class, gender and ethnic relationships shape the experiences of people in the United States, and the implications of those experiences for social relationships. Part of this exploration is to expose students to inter-relatedness of race, class and gender, as identity markers, both historically and in contemporary society.

### MCS 220 Issues in Multicultural Studies 3 Credits

An examination of issues and questions posed by the existence of diversity in social life. Students build on what they have learned in MCS 110 by focusing in greater depth on selected aspects of multicultural interaction. Topics change each semester and are listed in the course roster. Recent topics include "Understanding Privilege," "The Meaning of Difference," and "Narratives of Human Difference: Science, Politics, Literature."

**Prerequisite(s):** MCS 110 or permission of instructor.

### MCS 280 Directed Study in Multicultural Studies 1-4 Credits

An intensive study experience in multicultural studies. The student designs and carries out a course of focused study under the supervision of a multicultural studies faculty member. The student's proposed plan of work must be reviewed and approved by the faculty sponsor and by the multicultural studies advisory committee. May be repeated once for credit.

### MCS 490 Independent Study: Research and Creative Expression 1-4 Credits

Individual program of study under close supervision by the instructor, with weekly meetings and reports. Topics to be approved by the department. Available to seniors who have a minimum of a 3.0 GPA. No more than six credits allowed toward graduation.

### MCS 491 Internship in Multicultural Studies 1-4 Credits

A supervised community service of work experience at an approved site. Placements are made in accordance with each student's particular theme within multicultural studies. A minimum of three hours per week on site per credit (39 hours per semester); in addition, students complete readings and reports and meet weekly with the instructor. Primarily for multicultural studies minors in their junior or senior year.

## Organizational Psychology

### Program Overview

Are you interested in knowing what motivates a person to perform well at a job, or what qualities a company needs to look for to make a great hire? Today's businesses and organizations need professionals who understand human behavior, group dynamics and how to make the workplace function better. A major in Organizational Psychology from Rider University will help prepare you for a career in one of America's fastest-growing professions.

### Curriculum Overview

Rider University's program is one of just a handful in the nation offering a unique interdisciplinary major that combines business and psychology. This versatile degree can have a real impact on an organization's bottom line by helping to improve employee satisfaction and job performance.

Majors in this program will gain a comprehensive understanding of the important contributions that organizational psychology plays in today's workplace.

The Organizational Psychology program focuses on the behavioral aspects of managing and supervising the human resources of an organization or business. You will learn the key concepts of management and psychology, including perception and attitudes, employee motivation and engagement, and organizational leadership and power — and gain an in-depth understanding of what makes employees and organizations function at their best.

As an Organizational Psychology major, you will:

- Develop a comprehensive understanding of human behavior in work settings
- Learn how to enhance performance within an organization or business
- Benefit from networking and gain real-world experience through internships and other professional opportunities

The U.S. Bureau of Labor Statistics ranks Industrial-Organizational Psychology at the top of its list of 20-fastest growing occupations, with a projected growth rate of 53 percent between now and 2022. Organizational psychologists are in demand because their expertise results in better hires, increased productivity, reduced turnover and lower labor costs. They can work as consultants to organizations, or serve in-house in a variety of jobs, including:

- Human resource officer
- Employee development manager
- Organizational development director
- Quality performance manager
- Organizational psychologist
- Testing specialist
- Compensation and benefits specialist

## Honors Program in Psychology

A student may receive honors in psychology by fulfilling the following conditions beyond the basic requirements for the psychology major: complete one Independent Research and Study project (490); earn a cumulative average of 3.25 and an average of 3.5 in psychology at the time of graduation.

## Degree Offered

- B.A. in Organizational Psychology

**Courses and Descriptions****COM 253 Organizational Communication 3 Credits**

Focuses on the ongoing communication processes in organizations. This course examines how and why organizations develop policies and procedures that both encourage and yet constrain creativity and autonomy in employees. It also introduces various management skills to balance the dynamic in organizations. Finally, the course introduces students to various communication technologies that enable communication processes in organizations. Students will also have opportunities to participate in creating organizational dynamics through role-playing exercises, case studies, and other kinds of experiential learning.

**COM 290 Professional/Strategic Speech 3 Credits**

Provides students with practical information necessary for effective communication in various business and professional settings. Covers communication processes, principles, and models in the modern organization. Class assignments are given with emphasis on developing a knowledge and practical understanding of informative, persuasive, and impromptu presentations. Limited to students enrolled in the College of Business Administration.

**COM 350 Team & Group Communication 3 Credits**

Examines the communication process as it relates to the small group. Theoretical constructs including motivation, group climate, attraction, leadership, decision making, problem solving and roles are analyzed. Utilizes group experience to study and evaluate the dynamics and effectiveness of interpersonal systems.

**HRM 315 Employee Selection & Training 3 Credits**

This course explains the processes involved in selecting and training employees. With regards to selection, specific examples include, evaluating applicant credentials, administering pre-employment tests and complying with equal employment opportunity legislation. With regards to training, topics include assessing the need for training, designing effective training programs, utilizing methods such as technology to deliver training, and evaluating the effectiveness of training programs.

**Prerequisite(s):** MGT 310.

**HRM 316 Employee Compensation Systems 3 Credits**

The goal of this course is to familiarize you with the common methods of compensation used by today's organizations and how these methods could be used to increase motivation, job satisfaction, and performance in the workplace. To accomplish this, we will first discuss the bases of motivation in the workplace. Next, we will then talk about the various compensation options and techniques and the strengths and weaknesses of each in maximizing motivation and performance in an organization.

**Prerequisite(s):** MGT 310.

**HRM 333 Employee Engagement 3 Credits**

Employee Engagement is commonly described as a focused passion and enthusiasm that employees bring to their work that produces high-quality performance and positive organizational outcomes such as enhanced firm reputation, customer loyalty, and profitability. In this course, students will explore the concept and value of Employee Engagement, and strategies for energizing an organization's workforce. Projects and activities will focus on the role of the Human Resource function in measuring employee attitudes, designing relevant interventions, and influencing a culture of engagement.

**Prerequisite(s):** MGT 310.

**MGT 201 Fund Management & Org Behavior 3 Credits**

This course deals with the fundamentals of organizational behavior as they relate to management such as motivation, communications, and leadership. Behavior is examined at the individual, group, and organizational level. The management functions of planning, organizing, leading and controlling are addressed. The effects of global operations and the requirements of ethical behavior on managers are also explored.

**Prerequisite(s):** minimum 30 credits completed.

**MGT 310 Intro to Human Resource Mgmt 3 Credits**

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

**Prerequisite(s):** MGT 201 or PSY 210.

**MGT 320 Managing Workforce Diversity 3 Credits**

Demographic shifts, changing patterns of labor force participation, global competition, and a growing cultural emphasis on the celebration of difference have all contributed to the creation of diversity as a hot topic in management. This course explores the opportunities and challenges of the increasingly diverse workforce emerging in the United States today. We will address the knowledge and skills managers must develop in working with others who are different from themselves.

Some of these differences are obvious- gender, race, age, and physical characteristics. Other differences are not as easily observed - family structure, educational level, social class, and sexual orientation. This class incorporates experiential learning techniques for personal growth.

**Prerequisite(s):** MGT 201 or PSY 210.

**MGT 355 Team Management 3 Credits**

This course prepares students to work in organizations that use teams as an integral part of their functioning-an increasingly common practice. The class involves intensive group interaction, focusing on individual growth in group settings. Working with other students in role-plays, exercises, and team assignments allows the student to develop better communication and leadership skills.

**Prerequisite(s):** MGT 201 or PSY 210.

**MGT 490 Independent Research and Study 1-4 Credits**

Topic to be approved in advance by supervising instructor, chairperson, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation, and can be used as free elective or MGT major elective.

**Prerequisite(s):** MGT 201 or permission of instructor.

**MSD 200 Statistical Methods I 3 Credits**

This course is designed to give the student an understanding of continuous random variables, the elements of statistical inference, and an introduction to how these tools may be useful in one's attempt to reach intelligent conclusions in real-world settings. The focus is on the normal random variable, descriptive statistics, sampling distributions, and the frameworks of estimation and hypothesis testing, particularly as they apply to inference for unknown population means and proportions in the one- and two-sample settings.

**Prerequisite(s):** MSD 105 or equivalent.

**MSD 201 Statistical Methods II 3 Credits**

The sequel to Statistical Methods I is designed to prepare the student to be able to recognize a variety of additional common inferential scenarios, select and apply appropriate techniques in their analyses, and be aware of the usefulness of computer packages in performing certain relatively complicated statistical calculations. The course covers the one-way analysis of variance, Chi-square tests for non parametric inferences, and regression analysis. Students are expected to submit, for evaluation, the analysis of a real-world data set.

**Prerequisite(s):** MSD 200.

**PSY 100 Introduction to Psychology 3 Credits**

An orientation to psychology, covering major facts, principles and concepts about human and animal behavior and experience, research findings, major problems, basic vocabulary, methodologies, and contributions in the field. Topics include psychology as a science; human development; individual differences; intelligence and its measurement; special aptitudes and interests; personality and social behavior; motivation and emotion; frustration and personality deviations; and learning, thinking, remembering and forgetting.

**PSY 105 Introduction to Research in Psychology 3 Credits**

Students will be introduced to the basic research methods used in psychology including, surveys, experiments and observation. Students will collect data and learn to describe this data using basic tools of analysis including graphic display and statistical analysis. Students will read original psychological research and learn to write using the conventions of the American Psychological Association.

**Prerequisite(s):** a grade of "C" in PSY 100.

**PSY 201 Statistics and Research Design 3 Credits**

Introduces students to statistics and research methods in the behavioral sciences. Covers the fundamentals of descriptive and inferential statistics, a variety of issues in research design, selected research designs including the case study, correlational and experimental designs. In addition, students will explore the literature in psychology in order to examine the use of statistics and research design in real research problems.

**Prerequisite(s):** grade of "C" in PSY 105.

**PSY 210 Organizational Psychology 3 Credits**

Focuses on issues related to human behavior in work settings. Topics include personnel issues such as hiring and promotion decisions, performance appraisals, and methods of on-the-job training. Issues of job satisfaction, motivation, productivity, and effective leadership styles are also examined. Finally, organizational structure as it relates to communication within organizations will be examined.

**Prerequisite(s):** PSY 100.

**PSY 215 Personality 3 Credits**

A synthesis of the most recent research in the field of personality development. Topics include interplay of biological, cultural, and subjective personal processes; analysis of the broad trends in personality theories; and introduction to personality measurement.

**Prerequisite(s):** PSY 100.

**PSY 225 Learning Theory 3 Credits**

A broad coverage of the expanding fields of learning, memory, and cognition is provided, while addressing their relevance and impact on human behavior. Continuity between early associationistic and contemporary cognitive theories is established. Topics range from basic conditioning to the more complex processes of memory, concept learning, thinking, and problem solving. Prerequisite(s): PSY 100.

**PSY 240 Social Psychology 3 Credits**

Deals with the scientific study of human beings in social situations, focusing on reciprocal influence of the individual and the group, especially aspects of behavior that are socially determined. The nature of attitudes: their development and change; the nature of social influence; interpersonal perception and attraction; dynamics of social behavior; and social phenomena, such as prejudice and social movements, are covered.

**Prerequisite(s):** PSY 100.

**PSY 315 Psychological Tests 3 Credits**

Examines the history of psychological testing. Issues concerning the construction of psychological tests are discussed, including concepts concerning reliability, validity, and item analysis. The rationale and structure of the major tests of intelligence, aptitude, and personality are reviewed, including the Rorschach, WAIS, TAT, MMPI, and Bender-Gestalt. In the last section of the course, students are given hands-on experience in the administration, scoring, and interpretation of a standard test battery.

**Prerequisite(s):** any statistics course.

**PSY 329 Research Methods in Organizational Psychology 4 Credits**

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

**PSY 329L Research Methods in Organizational Psychology 0 Credits**

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

**PSY 400 Senior Seminar 3 Credits**

This capstone course will provide a synthesis and evaluation of important critical issues in psychology, such as the role of modern psychology in solving social problems, the scientific vs. human services perspectives on behavior, emotion and cognition; and the nature of mental illness and well-being. Students will be expected to draw broadly from their education in psychology; to grapple with conflicting points of view; and produce professional quality writing, oral or multimedia presentations.

**PSY 490 Independent Study: Research and Creative Expression 1-4 Credits**

Provides students with an opportunity to design and carry out original research in an area of their choice. Students designate a faculty supervisor and work closely with him/her during the semester. All students must have approval from the department and the dean to register for PSY 490.

**Prerequisite(s):** PSY 201.

## Philosophy

### Program Overview

The study of philosophy explores fundamental questions about persons and the universe. What is knowledge? What is the meaning of life? What is reality? How do psychology, religion, art, history, and science contribute to an understanding of the world and our place in it?

At Rider, philosophy students are encouraged to apply these questions toward pragmatic ends, with emphasis on both the academic discourse community and developing specific skills useful beyond the classroom. Specifically, the program teaches students how to formulate and defend positions, speak articulately and listen objectively, write clearly and persuasively, read complex material with comprehension, summarize and organize challenging materials and reason analytically and inferentially.

### Curriculum Overview

Students begin with introductory courses in the teachings of Plato and Aristotle, the basics of logic and language and an historical and systematic analysis of ethics. Later coursework can focus on particular movements of philosophy including Modern Philosophy, Asian philosophy, Existentialism, Nietzsche's concept of nihilism, the philosophies of Wittgenstein and Hume, as well as a wide range of other courses related to the field. Most major classes are taught as small

weekly meetings in which students discuss the material in an intimate, supportive setting.

Introductory philosophy courses also hold small weekly discussion groups. In both upper and lower division courses students are also given the opportunity to develop their ability to verbally express their opinions and argue their basic points persuasively. During their senior year, students hone their writing and rhetorical skills by completing a thesis on a philosophic topic of their choice in consultation with a faculty advisor.

## Honors Program

Honors in philosophy may be achieved, upon the recommendation of the department, by earning a 3.5 cumulative average in the discipline and completing the senior thesis with distinction.

## Degrees Offered

- B.A. in Philosophy

<sup>2</sup> Please note that elective credits may be used to complete requirements in a second major or minor.

## Courses and Descriptions

### PHL 100 Plato and Aristotle 3 Credits

The beginnings of Western scientific and humanistic thought among the early Greeks and their progress into the two great systems of Plato and Aristotle. Selections from Plato and Aristotle are read and discussed to determine the meaning and significance of philosophical ideas that have subsequently influenced the whole history of Western civilization. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### PHL 102 Philosophical Thinking 3 Credits

An introduction to philosophical thought with an emphasis on the enduring questions and problems of philosophy. We will explore such questions as: how do I know I am not dreaming? Is there an external world? What is truth? Is there a self? Is there a God? What is the relationship between the mind and the body? How can I tell right from wrong? What makes government legitimate? What is justice? What is the meaning of life? We will consider answers to these questions from diverse philosophical traditions, reading such philosophers as Plato, Descartes, Zhuangzi, Hume, Vasubandhu, Berkeley, Aquinas, Avicenna, Udayana, Kant, Mill, Russell, Camus, and Nishitani. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### PHL 110 Logic and Language 3 Credits

A study of the logical structure of argumentation in ordinary language, with an emphasis on the relation of logic to the uses of language in practical affairs. Traditional informal fallacies are studied as well. Discussions explore the nature of validity, truth, meaning, and evidence in relation to the evaluation of arguments. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### PHL 115 Ethics 3 Credits

A combined historical and systematic analysis of the problems of ethics. Such problems as the nature and meaning of moral values and judgments, moral responsibility and freedom, conscience and happiness, the good life, and the relativity of value, are explored through the writings of such philosophers as Plato, Aristotle, Aquinas, Kant, Mill, and Nietzsche. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### PHL 120 American Philosophy 3 Credits

The development of philosophical thought in the United States from the colonial era to the 20th century. Studies such thinkers as Edwards, Jefferson, Emerson, Thoreau, Peirce, James, Dewey, and King, and their ideas on human nature, free will, religion, morality, and politics. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 125 Philosophies of Education 3 Credits**

Studies classical and contemporary theories of the nature, structure, and aims of education, including major works of such philosophers as Plato, Rousseau, and Dewey. The course will also introduce students to methods of critical philosophical analysis. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 130 Political Philosophy 3 Credits**

An introduction to the problems of political philosophy with an emphasis on recent and contemporary issues, such as the conflict between liberal and conservative ideologies, fascism, revolution, civil disobedience, and the concept of legitimate political authority. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 202 Social Philosophy 3 Credits**

Emphasizes social ethics through critical studies of such contemporary problems as abortion, euthanasia, the death penalty, pornography and censorship, animal rights, drug use, sexual morality, environmental ethics, and world hunger. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 203 Business Ethics 3 Credits**

Surveys and examines ethical problems concerning the institutions and practices of contemporary business. Problems considered include: the conflicts of economic freedom and social responsibility; the relation of profits to work and alienation; the responsibilities of business to employees, minorities, consumers and the environment; the role of truthfulness in business practices; and the ethics of self-fulfillment and career ambitions. Readings selected from works of contemporary and historical philosophers, social theorists, and business people.

**PHL 207 Asian Philosophy 3 Credits**

A survey of the principal philosophical perspectives of Asia. Emphasis on the traditional Indian schools of Hinduism, Jainism, and Buddhism, Chinese Confucianism and Taoism, and the development of Zen Buddhism in China and Japan. Philosophical topics include: mystical experience, the ultimate nature of reality, the existence of a soul, the causes of human suffering, and the possibility of release; the nature of virtue and its development, and the nature of society and government. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 210 Symbolic Logic 3 Credits**

An introduction to logic from the standpoint of modern symbolic methods, including techniques of formal deductive proof, quantification, the logic of relations, and properties of formal deductive systems. Discussions focus on philosophical issues in recent and contemporary logical theory. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 215 Environmental Ethics 3 Credits**

A comprehensive introduction to environmental ethics that examines the major theoretical approaches, including anthropocentric (human-centered), zoocentric or sentientist (animal-centered), and biocentric or ecocentric (nature-centered) value systems, as well as the most important critiques of these ethical approaches. We will examine and analyze several classical ethical theories that are particularly relevant to a study of contemporary environmental controversies. We will also address specific issues such as biodiversity and wilderness preservation; human use of animals as food, entertainment, and research subjects; environmental racism and toxic dumping; sustainable development, population and consumption. Students will analyze and discuss the ethical dimensions of several contemporary environmental controversies. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 225 Modern Philosophy 3 Credits**

Examines one of the most exciting periods in the history of philosophy during which philosophers from Descartes to Kant tried to come to terms with the following questions: What is knowledge? Can we know the physical world exists? Can we have scientific knowledge? Can we know God exists? Can we even know whether we exist? The works of Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume and Kant are read and discussed. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 230 Philosophy of the Sexes 3 Credits**

Studies philosophical views of the differences between the sexes, sexual equality, love, marriage, and the family from ancient Greece to the 20th century. Texts from the contemporary women's and men's movements will also be examined. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 252 The Nature of Art 3 Credits**

An inquiry into the nature of art, creativity, aesthetic experience, and value. Special attention to the importance of art in relation to the nature of man and society. Readings from classical theories of art (Plato, Hegel, Schopenhauer, Croce, Santayana), as well as from contemporary analyses of 20th-century art.

**PHL 303 Philosophy of Law 3 Credits**

An examination and analysis of selected topics including classical and contemporary theories in the philosophy of law and moral philosophy. Such topics as the nature of the law and legal reasoning, the legal enforcement of morality, protection of personal liberty, and the moral justification of punishment are considered. Such philosophers as Aquinas, Austin, Holmes, Bentham, Hart, and Dworkin are read and discussed.

**PHL 304 Medical Ethics 3 Credits**

Introduces the student to ethical problems associated with the practice of medicine, the pursuit of biomedical research, and health care social policy. The course will explore such issues as: Is a physician morally obligated to tell a terminally ill patient that he or she is dying? Is society ever justified in enacting laws that would commit an individual, against his or her will, to a mental institution? Does society have a moral obligation to ensure that all its members have access to health care? To what extent, if at all, is it ethically acceptable to clone a human being? Under what conditions is human experimentation ethically acceptable?

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 305 Philosophy of Religion 3 Credits**

An inquiry into the meaning, significance, and fundamental problems of religion as they appear in their philosophical perspective. The relation between religion and science, between faith and reason; religious experience, religious truth, and symbolism, etc. will be explored. Selections from the works of Anselm, Aquinas, Augustine, Paley, Hume, Kant, James, and Wittgenstein will be discussed.

**PHL 310 Problems in 20th-Century Philosophy 3 Credits**

Consideration of major philosophical movements in the 20th century such as phenomenology, existentialism, pragmatism, and analytic philosophy. Within these movements such topics as the function of analysis, language and meaning, the nature of values, the nature of persons, the synthetic-analytic distinction, the mind-body problem, and the possibility of metaphysics are considered. The work of such figures as Wittgenstein, Russell, Heidegger, Husserl, Sartre, Whitehead, and Dewey are read and discussed.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 315 Existentialism 3 Credits**

Historical development and contemporary problems of existentialism with emphasis on the nature of man, his ability to know his situation, the relation between existence and essence, and the meaning of human life and activity. The works of such figures as Kierkegaard, Sartre, Heidegger, Camus, Kafka, Beckett, Buber, Laing, and Frankl are read and discussed.

**PHL 320 Philosophy of Science 3 Credits**

The logic of fundamental concepts of science and scientific methods are studied. Patterns of explanation are examined to understand the functions of laws, theories, and predictions in science. Inquiry is made into the relation between mathematics and empirical science; similarities and distinctions between the natural and social sciences. The role of science in human affairs and the value of scientific knowledge.

**PHL 334 Theories of Knowledge 3 Credits**

An investigation of selected, representative theories of knowledge from classical and contemporary sources. Considers the analytic-synthetic distinctions, necessary truth, and the foundations of empirical knowledge. Such philosophers as Leibniz, Hume, Kant, Russell, and Quine are read and discussed.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 336 Philosophy of Mind 3 Credits**

An investigation of the nature, existence, and capacities of the mind and self in the light of recent philosophical and psychological theories, including psychoanalysis and behaviorism. Considers such topics as the interaction of mind and body, the unconscious, minds and machines, freedom of thought and action.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 343 Theories of Reality 3 Credits**

An examination of metaphysical problems with an emphasis on philosophical views of human nature from ancient Greece to contemporary evolutionary theories. The writings of such classical, modern, and contemporary figures as Plato, Aristotle, Descartes, Kant, Hegel, and Darwin are read and discussed. Issues studied include the relation between mind and matter, freedom and determinism, and the existence of God.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 348 Indian Philosophy 3 Credits**

Consideration of major movements in the philosophical tradition of India. Emphasis on the disputes between the traditional Hindu and Buddhist schools of the classical period over logic, knowledge, and reality. Philosophical topics include: skepticism, the problem of universals, realism and idealism, the nature of perception, the problem of induction, the nature of causality, and the problem of identity over time. Philosophers such as Nagarjuna, Vasubandhu, Vatsyayana, Dharmakirti, and Udayana will be read and discussed.

**PHL 358 Chinese Philosophy 3 Credits**

Consideration of major movements in the philosophical tradition of China. Emphasis on the political philosophies of ancient China. Topics include: human nature and the development of virtue, the nature and purpose of government, and the cognitive value of mystical experience. Philosophers such as Confucius, Laozi, Xunzi, Mencius, Mozi, and Zhuangzi will be read and discussed.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 360 Contemporary Ethics 3 Credits**

An examination of recent and contemporary challenges to traditional ethical theory including such movements as logical positivism, cultural relativism, feminism, environmentalism, multiculturalism, and postmodernism. Such problems as the meaning and cognitive status of value judgments, the relation between fact and value, the relativity of values, and how value judgments can be justified are considered.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 368 Japanese Philosophy 3 Credits**

Consideration of major movements in the philosophical tradition of Japan, with an emphasis on Zen Buddhism in Medieval Japan and the Kyoto school in the 20th century. Topics include: the use of meditation and koans in Zen practice, the relationship between practice and enlightenment, the nature of time, meaning and nihilism, and the relationship between science and religion. Philosophers such as Kukai, Mumon, Dogen, and Nishitani will be read and discussed.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 402 Nietzsche and Nihilism 3 Credits**

A seminar dealing with Nietzsche's provocative ideas on nihilism and the possibility of creating meaning, value, and truth for human existence. Many of his important works are read, analyzed, and critically discussed. Recent scholarly interpretations of Nietzsche's philosophy are considered.

**Prerequisite(s):** any previous philosophy course or permission of instructor.

**PHL 404 Philosophy of Wittgenstein 3 Credits**

Seminar involving a concentrated study of Wittgenstein's contributions to philosophy with special attention to his analysis of language, meaning, and mental concepts.

**Prerequisite(s):** any previous philosophy course or permission of instructor.

**PHL 406 Philosophy of David Hume 3 Credits**

Seminar involving a concentrated study of Hume's contributions to philosophy, including his work on epistemology, metaphysics, ethics, philosophy of science, and philosophy of religion.

**Prerequisite(s):** any previous philosophy course or permission of instructor.

**PHL 408 The Philosophy of William James 3 Credits**

Seminar involving a concentrated study of William James' contributions to philosophy with special attention to his pragmatism, pluralism, and radical empiricism. Many of James' philosophical works are read, analyzed, and critically discussed. Recent scholarly interpretations of James' philosophy are considered.

**PHL 418 Great Buddhist Thinkers 3 Credits**

Concentrated study of a single Buddhist philosopher, emphasizing the systematic views of that philosopher across a range of philosophical issues. Through an examination of primary sources in translation and recent scholarship, students will investigate the views and arguments of one important figure from the Buddhist philosophical tradition on a variety of philosophical problems regarding knowledge, existence, consciousness, religion, and ethics.

**PHL 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**PHL 491 Internship in Philosophy 1-4 Credits**

Students will work under supervision within an area hospital, corporation, or legal agency. The specific duties and tasks will be developed jointly by the intern, intern agency, and faculty supervisor. Within the hospital setting, students will work with the Hospital Medical Ethics Committee. Within the corporate setting, there will be two types of internships: students will work in the corporate office responsible for addressing the ethical issues that arise in the business environment; or students will work in a department that allows them to explore the potential business applications of their philosophic intellectual training. Within the legal setting, students will work with the federal magistrate, prosecutor, or public defender, exploring issues in the philosophy of law that arise in the practice of law. Students must have completed four philosophy courses, one at the 300 level, before applying for the internship. No more than six credits will be allowed toward graduation. A member of the department of philosophy will supervise the internship.

**Prerequisite(s):** juniors and seniors with a minimum of 2.7 cumulative GPA and 3.0 GPA in philosophy, or permission of the department of philosophy.

**PHL 494 Preparation and Research for Senior Philosophy Thesis 1 Credits**

Supervised by a faculty member, the Philosophy major chooses a topic, composes an outline and a bibliography. Must be completed prior to enrolling in PHL 495.

**PHL 495 Senior Philosophy Thesis 3 Credits**

In a tutorial setting, the Philosophy major will write a thesis which serves as the Capstone Experience in the Department.

**Prerequisite(s):** PHL 494.

## Physics

### Program Overview

Physics students at Rider develop a rigorous understanding of the natural world and the forces that govern it through a combination of traditional

classes and hands-on laboratory experience. The small classes focus on a variety of topics including classical and modern physics, as well as scientific computing techniques and astrophysics. Physics students are presented with multiple research opportunities with our faculty, who actively attend national meetings and publish in international peer-reviewed journals.

The physics minor helps students seeking entrance to graduate or medical school as well as careers in physics, law, education, and business. This minor helps students develop laboratory skills, written and oral skills, as well as understanding how the laws of physics apply and can be manipulated or utilized in the real world.

### Physics Minor Requirements

(20 credits)

Code	Title	Credits
PHY 200 & 200L	General Physics I and General Physics I Lab	4
PHY 201 & 201L	General Physics II and General Physics II Lab	4
PHY 203	Introduction to Modern Physics	3
PHY 300	Mechanics	3
PHY 305	Electricity and Magnetism	3
One additional 300- or 400-level physics (PHY) course		3
Total Credits		20

### Courses and Descriptions

**PHY 200 General Physics I 4 Credits**

Introductory classical physics; Newtonian mechanics, including the conservation laws, wave motion, gravity, thermodynamics. Three hours of lecture and one three-hour lab per week. Prerequisite(s): MTH 210 or as corequisite.

**Corequisite(s):** PHY 200L.

**PHY 200L General Physics I Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PHY 200.

**PHY 201 General Physics II 4 Credits**

A continuation of the concepts developed in Physics 200. Electricity, electrical circuits, magnetism, Maxwell's equations. Light and optics, including lenses, interference, and diffraction. Three hours of lecture and one three-hour lab per week. Prerequisite(s): PHY 200, MTH 211 or concurrent enrollment.

**Corequisite(s):** PHY 201L.

**PHY 201L General Physics II Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PHY 201.

**PHY 203 Introduction to Modern Physics 3 Credits**

Covers space-time relativity, elementary particles, and basic quantum mechanics, including solutions of the Schrodinger wave equation. Applications of quantum theory in atomic, nuclear, and solid-state physics.

**Prerequisite(s):** PHY 201 or permission of instructor.

**PHY 300 Mechanics 3 Credits**

Kinematics and dynamics of particles and systems, analysis of harmonic oscillator systems, normal modes, Lagrangian and Hamiltonian dynamics and classical waves are studied.

**Prerequisite(s):** PHY 201, MTH 250.

**PHY 305 Electricity and Magnetism 3 Credits**

Electro- and magnetostatics, fields and potentials, and boundary value problems are covered.

**Prerequisite(s):** PHY 201, MTH 250.

**PHY 310 Advanced Electricity and Magnetism 3 Credits**

Maxwell's equations; electromagnetic waves in vacuum and in material media; radiation, propagation, reflection, and refraction.

**Prerequisite(s):** PHY 305, MTH 308.

**PHY 315 Thermodynamics and Statistical Mechanics 3 Credits**

Thermodynamic systems; the first and second laws of thermodynamics; entropy and thermodynamic potentials; distribution of molecular speeds; Maxwell-Boltzmann, Bose-Einstein, and Fermi-Dirac distributions.

**Prerequisite(s):** PHY 201.

**PHY 320 Quantum Mechanics 3 Credits**

Historical background; the Bohr Theory; the Schrodinger equation, its interpretation and applications; the uncertainty and exclusion principles; development of the formalism.

**Prerequisite(s):** PHY 300.

**PHY 330 Basic Electronics 3 Credits**

An experimental study of devices and circuits in analog and digital electronics. No previous experience with electronic circuits is assumed; introductory topics including signal acquisition, computer interfaces, and analog/digital signal processing will be covered. One hour of lecture plus two three-hour labs per week.

**Prerequisite(s):** PHY 201 or permission of instructor.

**PHY 350 Advanced Laboratory 2 Credits**

Experiments in atomic and nuclear physics, electricity and magnetism, and physical optics. Students have the opportunity to work intensively on a particular experiment. Minimum of five to six hours per week.

**PHY 400 Atomic Physics 3 Credits**

Quantum mechanics and the one-electron atom; atomic structure and optical spectra of multi-electron atoms. Quantum statistics, band theory of solids.

**Prerequisite(s):** PHY 320.

**PHY 405 Fundamentals of Nuclear Physics 3 Credits**

Nuclear mass and size; nuclear forces and some models of the nucleus; radioactivity and detection; subnuclear particles and resonances.

**Prerequisite(s):** PHY 320.

**PHY 415 Physical Optics 3 Credits**

Waves and the superposition principle; interference, Fraunhofer and Fresnel diffraction; electromagnetic nature of light; absorption and scattering; dispersion; polarization.

**Prerequisite(s):** PHY 201, MTH 250.

**PHY 416 Modern Experimental Optics Lab 1 Credits**

A laboratory course in geometrical and physical (wave) optics, designed to supplement the material presented in PHY 415. Serves as an introduction to the optical equipment and techniques that are employed in laboratory research. A series of experiments cover the topics of polarization, interference, image formation, Fourier optics and lasers, and optical spectroscopy.

**Prerequisite(s):** PHY 201.

**PHY 450 Topics in Modern Physics 3 Credits**

A selected topic of contemporary interest in physics, e.g., general relativity and gravity waves, is studied. Emphasis on current journal literature and research. May be taken more than once with departmental approval. An excellent introduction to independent research in one area of physics.

**Prerequisite(s):** PHY 201.

**PHY 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**PHY 491 Internship in Physics 1-4 Credits**

A supervised research experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations under the guidance of a mentor. The mentor and student will have regular consultation with the departmental internship coordinator to assess the student's progress. Normally, 50 hours of internship per credit is required. The grade for the course will be determined by the student's overall performance in their research work, a research paper documenting their work with their internship mentor and an oral or poster presentation at the end of the semester.

**Prerequisite(s):** 2.5 GPA and permission of the instructor.

## Political Communication

### Program Overview

Political communication is an interdisciplinary minor that is designed to investigate the manner in which new technologies and strategies of communication change the emerging political order, and the manner in which the emerging political order structures the dissemination of information among citizens of the United States and other nations.

The minor in political communications provides preparation for those students planning further study in graduate or law school, careers in governments, international affairs, political campaigns, political journalism, or private business concerned with government activity. Moreover, students should further their abilities to construct arguments based upon ethical and relevant data, think clearly and critically, and develop the facility to express themselves persuasively.

- <sup>1</sup> May not be counted toward the minor by Communication and Journalism majors.
- <sup>2</sup> Only one special project may be counted toward the minor.

## Courses and Descriptions

### COM 102 Introduction to News Writing 3 Credits

Introduces students to routines of journalism, including reporting, writing and preparing content for print and web. Incorporates contemporary practices in multimedia journalism, including digital audio, video and photos, into traditional skills, with an emphasis on accuracy, clarity and professional style and voice. Class exercises are completed in a laboratory newsroom.

### COM 103 Introduction to Communication Studies: Theory & Practice 3 Credits

Provides a foundation for the study of communication across the discipline. Open to freshmen only, it is designed to assist the first year student majoring in communication or journalism to gain a broad understanding of the scope and breadth of the field. Fundamental communication theories, principles, concepts, terms, and issues are introduced.

### COM 104 Speech Communication 3 Credits

Examines basic communication principles and strategies of public speaking. Various genres of oral communication are studied, with an emphasis on extemporaneous and impromptu forms of delivery. Students research, prepare, and deliver speeches that are then used as the focal point for the discussion of effective speaking and listening. A number of speeches are videotaped. Students who received credit for COM 104S may not take this course. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

### COM 104S Intro to Speech Communication 1 Credits

As part of the EOP program, this course is designed to improve the speaking and language skills of new college students. Through directed practice, students have the opportunity to develop poise and confidence in oral communication, as well as competence in analyzing and synthesizing messages. Emphasis is placed on development, organization, and delivery of speeches. To receive credit, a grade of "C" or higher must be earned. Students who receive credit for COM 104S may not take COM 104.

### COM 105 Communication, Culture and Media 3 Credits

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**COM 106 Writing for the Communication Professions 3 Credits**

Provides students with written communication writing strategies and tools. Applies theory and practice in communication to targeted audiences. Emphasizes the critical role writing plays in the communication workplace and provides an opportunity to evaluate and respond to real-life writing samples and situations.

**COM 107 Writing for the Media 3 Credits**

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

**COM 131 Fundamentals of Video Production 3 Credits**

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

**COM 201 Communication Theory 3 Credits**

Explores selected theories, models, and research methods in human communication, the dynamics of the communication process in various settings, and the role of communication in human interaction.

**COM 203 Introduction to Social Media 3 Credits**

Introduces the tools and techniques of social media as an effective means of communication in a variety of organizational settings. Students will practice with a variety of social media platforms, explore the roles and responsibilities of a social media manager, discuss the importance of establishing social media policies, and learn how to develop a social media strategy as well as how to measure its effectiveness through social media analytics. In addition, students will discuss important issues such as how to handle an online crisis, and the legal and ethical implications of digital communication.

**COM 204 Advanced Speech Communication 3 Credits**

Provides students with the opportunity to further their study and practice of various types of speech communication. Moving beyond an introductory perspective, this course focuses on the development of critical, analytical, and pragmatic aspects of speech. The focus is divided between the discussion of theoretical models and a demonstrated competence of that material.

**Prerequisite(s):** COM 104 or COM 290.

**COM 205 Theories of Persuasion 3 Credits**

Analyzes the motivations that lead individuals and audiences to beliefs and actions and the techniques of achieving objectives through persuasion. Attention, interest, empathy, ethos, fear, and techniques of speakers, and those who use persuasion professionally are studied.

**COM 207 Social Media and Social Change 3 Credits**

Introduces students to Web/ social media tools and information distribution networks that have enabled people to mobilize new types of collective action, inform publics and advocate positions. Community production and sharing of knowledge (Wikipedia), culture (YouTube, Flickr, the blogosphere), and political organizing (colorofchange.org) are current manifestations of social changes that are continuing to bloom in the 21st century. In this course, Rider University students will become literate in active Web and social media participation with a focus on engaging with current social, political and cultural issues.

**Prerequisite(s):** COM 201 or COM 205.

**COM 210 News Reporting and Writing 3 Credits**

Develops skills in hard-news reporting. Employs off-campus reporting assignments to refine information-gathering techniques such as interviewing, observation, and use of government documents and other contextual materials. Includes reporting and writing about police news, state and local government, the criminal justice system, science, business, and sports.

**Prerequisite(s):** COM 102.

**COM 211 Copy Editing 3 Credits**

Teaches all phases of copy editing for news and public relations: marking of copy, online editing, fact checking, building and shaping news and feature stories, applying mechanical style, building an ear for graceful English, and safeguarding against legal and ethical problems. Provides comprehensive review of grammar, spelling and punctuation, along with intensive practice in writing headlines and captions and editing wire copy.

**Prerequisite(s):** COM 102.

**COM 212 Digital Publication Design 3 Credits**

Students will explore the relationships between theory and practice, tradition and innovation, history and ever changing technological and aesthetic trends in publication design. Students will learn to use graphic image and typography as design elements in print media, such as newspaper and newsletter, as well as online media, such as e-magazine and e-book. Students will also learn the interactivity design for online publications. The course directs students to apply these concepts and skills to the production of published materials with digital publishing systems.

**COM 213 Typography 3 Credits**

Introduces students to the basics of typographic techniques and design aesthetics and provides an overview of the basic fundamentals of type design as they apply to graphics, advertising, the arts, and other areas of visual communication. The course focuses on how typography can be used as a communicative device as well as a graphic, compositional, and expressive element.

**COM 220 Voice and Articulation 3 Credits**

Increases the student's knowledge of the vocal elements of oral communication and improves use of voice and articulation. Introduces anatomy and physiology for enhanced vocal production. Analyzes volume, rate, pitch, quality, phrasing, stress, and inflection. Presents the International Phonetic Alphabet as a means of developing correct articulation and pronunciation. Uses classroom exercises and tape recording for feedback and learning.

**COM 221 Speaking for Broadcast and New Media 3 Credits**

Introduces the principles and techniques of speaking in traditional and digital media through the preparation and presentation of copy for live television and radio as well as recorded video and audio for the web. Students will apply the principles and techniques to a number of contexts including television and radio news, music and sports announcing, interviewing and talk programs, as well as public service announcements.

**Prerequisite(s):** COM 104 or COM 290.

**COM 230 Radio & TV Communication 3 Credits**

Examines the field of electronic communication and its role in society. Scrutinizes the history, technology, structure, and regulation of broadcasting including issues, trends, and the impact of new communication technologies. Introduces basic principles of effective communication in broadcast writing and producing.

**COM 231 Film and Television Special Studies 1 Credits**

Course descriptions will vary from topic to topic. This course will be offered Pass/Fail.

**COM 233 Writing for Broadcast 3 Credits**

Introduces diverse and highly structured writing styles and formats used in writing for broadcast. With focus on effective and creative writing using broadcast style, students will be exposed to the fundamentals of writing dramatic and non-dramatic material for radio and television including station IDs and liners, public service announcements and commercials, news and public affairs programs, and short dramatic and documentary scripts. Through lectures, case discussions, in-class assignments, and critiques, emphasis will be on the practical application of basic rules and conventions common to broadcast writing from copy preparation to on-air delivery.

**COM 234 Audio Production 3 Credits**

Provides a laboratory study of audio production techniques, and performance. Introduces the fundamental properties of sound as applied in modern audio production at radio and television stations, sound studios, and production houses. Students conduct lab exercises in editing, mixing, and digital recording using ProTools. Students perform a variety of genres including news, commercials, dramas, and promos.

**COM 235 Digital Filmmaking 3 Credits**

This course will provide students with an introduction to basic narrative film production including theories, techniques and applications. Students will gain competency in a number of film production areas including: idea generation and scripting, production planning, cinematography, lighting, sound and digital editing. Working as individuals and in groups, students will develop and produce short narrative film projects. Students will continue to develop proficiency and mastery of the use of specialized vocabulary of the film industry as well as the ability to analyze film and its narrative structure. In addition students will break down the "narrative" focusing on genre conventions and subtext. Students will additionally examine the relevance of film to society while developing proficiency and mastery in the study of how to create film projects.

**COM 236 The Aesthetics of Filmmaking 3 Credits**

Introduces students to basic terminology, techniques, theories and criticism commonly used in digital filmmaking. Through lecture, class discussion and screenings, students will learn how film theory, criticism and aesthetics impact the filmmaking process. Students will review and analyze films of different genres; the different approaches adopted by filmmakers; and the various elements and techniques that contribute to the creation of powerful and effective films. Aesthetic elements such as production design, mise en scene, cinematography, lighting, editing, sound design and script development will be introduced and practiced.

**COM 237 Rhetoric in the Digital Age 3 Credits**

Focuses on the critical examination of the major public discourses in digital media. Students will learn classical and modern rhetorical theory such as Aristotle's Rhetoric, power, publics and counterpublics, and argumentation. Students will apply these theoretical aspects to critically engage digital texts such as memes, emojis, hashtags, trolls, blogs/ reviews, and video game narratives.

**COM 238 Screenplay Fundamentals 3 Credits**

Screenplay Fundamentals will instruct students in how to write for the screen. Students will learn how to convey story and character through the medium of film and television, how to write effective dialogue, and understand the basics of dramatic writing and scene structure.

**Prerequisite:** COM 131.

**COM 240 Public Relations 3 Credits**

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

**COM 251 Interpersonal Communication 3 Credits**

Focuses on the study of various communication concepts and theories and the development of interpersonal skills and sensitivities. More specifically, students will participate in lectures, exercises, and projects while exploring the role and function of relationships in their professional, social, and personal lives.

**COM 252 Intercultural Communication 1.5-3 Credits**

Develops intercultural communication competence through an awareness and understanding of diverse cultures and their impact on communication. It will introduce students to those general factors that influence communication with people from diverse cultures both internationally and within the United States, and offer a blend of skill development, communication theory, and hands-on application. Note: This course is crosslisted as GLS 252. Students may not get credit for both COM 252 and GLS 252.

**COM 253 Organizational Communication 3 Credits**

Focuses on the ongoing communication processes in organizations. This course examines how and why organizations develop policies and procedures that both encourage and yet constrain creativity and autonomy in employees. It also introduces various management skills to balance the dynamic in organizations. Finally, the course introduces students to various communication technologies that enable communication processes in organizations. Students will also have opportunities to participate in creating organizational dynamics through role-playing exercises, case studies, and other kinds of experiential learning.

**COM 254 Intro to Health Communication 3 Credits**

Health communication has been shown to have a positive impact on a number of facets of the medical visit, including patient outcomes, patient satisfaction, and job performance and satisfaction. This course will provide students with tools to implement health communication practices in a healthcare setting in order to improve these areas. In addition, health communication is particularly useful in cross-cultural situations, both in regard to the patient-provider relationship, when the ethnicities of the two parties may be different, and when cultural beliefs may impact a patient's medical wishes. Part of the tools for implementing health communication into the practice setting includes an understanding of the role that culture can play in healthcare and the development of strategies to provide optimal medical care while also respecting cultural intricacies.

**COM 261 Introduction to Web Design 3 Credits**

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

**COM 262 Graphic Imaging for Digital Media 3 Credits**

Teaches students techniques for image development, and image preparation for various multimedia applications. Emphasis is placed on color calibration and palette issues, image manipulation, advanced image selection techniques, transparency and masking, multimedia authoring file formats, and dynamic image design. Students will be expected to participate in critiques of professional designs in order to learn to critically evaluate their work and their fellow students' work.

**Prerequisite(s):** COM 261 or permission of instructor.

**COM 263 History and Principles of Graphic Design 3 Credits**

Covers the history and principles of graphic design from analog art through the digital revolution. The elements and principles of design will be used to study stylistic progressions, artistic techniques, design innovations, and mechanical inventions. Material will be presented through a combination of illustrated lectures and discussions.

**COM 264 Intro to Media Convergence 3 Credits**

Introduces the ways that the merging of media industries and the intersection and integration of various media platforms and technologies impact our lives. While the primary focus will be on digital and mobile technologies and practices, the course will also cover the convergence of digital technologies in a wide range of media areas, including journalism, social media, television and entertainment. The course will offer students broad conceptual frameworks for thinking about how the emergence and evolution of digital as well as mobile communication technologies have changed the communication and journalism industries and how they are reshaping content. In addition, the course is intended to allow students to use different digital communication technologies.

**COM 265 3D Graphic Animation 3 Credits**

Provides students with an introduction to the basics of 3D graphic animation techniques including modeling, texturing, rendering, visual effects and animation. Through various projects the students will learn: to model characters, sets and props, how to apply textures and color to their models, and how to bring their creations to life using various animation techniques. In addition to the technical aspects of creating successful animation, the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation, dramatization and narrative.

**COM 270 Sports Multimedia Reporting 3 Credits**

COM 270 Sports Multimedia Reporting. Develops skills in hard-news sports reporting, game coverage, and the production of introductory multimedia and social media sports content. Employs out-of-the-classroom reporting assignments to refine information gathering techniques such as interviewing, observation, and use of documents and other contextual materials. Includes reporting and writing on sports games, teams, players, coaches, athletic issues/controversies, and the business of sports.

**Prerequisite(s):** COM 102. Introduction to News Writing.

**COM 280 Issues in Event Planning 3 Credits**

Offers students education in event planning, production, and supervision for varied professional applications. Emphasis will be placed on planning, budgeting, and organizing small and large events for educational, institutional, non-profit, and professional groups. Students will participate in the entire process of event planning, with specific experiences in applying communication theory to actual projects.

**Prerequisite(s):** COM 240 or MKT 200.

**COM 290 Professional/Strategic Speech 3 Credits**

Provides students with practical information necessary for effective communication in various business and professional settings. Covers communication processes, principles, and models in the modern organization. Class assignments are given with emphasis on developing a knowledge and practical understanding of informative, persuasive, and impromptu presentations. Limited to students enrolled in the College of Business Administration.

**COM 291 Documentary Film and Video 3 Credits**

Surveys the history of documentary film, including reportorial, exploratory, persuasive, symphonic, compilational, reflexive, and fictional traditions through screenings, lectures, and readings. Provides practice in film criticism. Explores philosophical questions about the relationship between non-fiction films and videos and the reality they purport to record. Analyzes ethical problems of filmmaking.

**COM 292 Content for Social Media 3 Credits**

Focuses on creating social media content that will inform, entertain, and engage audiences within a variety of organizational and business contexts. Students will learn about message planning for specific platforms and creative ways to use digital content to support public relations, branding, customer, and media relations.

**COM 295 Cinematography I 3 Credits**

This course introduces the art of cinematography from historical, aesthetic and practical perspectives. Students will learn the principles of cinematic composition, lenses, lighting, and camera operation while studying the work of great cinematographers in film history.

**Prerequisite(s):** COM 131.

**COM 301 Communication Law 3 Credits**

Critically examines the legal limits and privileges affecting freedom of expression, especially in publishing, advertising, film, telecasting, and cyberspace. Places particular emphasis on the historical and philosophical foundations of the freedoms and limitations of communication in the United States.

**COM 302 Communication Ethics 3 Credits**

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

**COM 304 Rhetoric for Politics and Law 3 Credits**

Introduces the theory and strategy of crafting persuasive messages and cultivating relationships with the media in the context of judicial, deliberative, and epideictic genres of rhetoric. In addition, students will learn how to plan and coordinate media briefings and how to prepare and participate in a media interview.

**Prerequisite(s):** COM 104 or COM 290.

**COM 312 Special Topics in Journalistic Writing 3 Credits**

Provides students with the opportunity to explore specialized topics in journalistic reporting and writing. Each course will focus on a specific area in the broad field of journalism. Examples include business reporting, health reporting, and sports reporting.

**Prerequisite(s):** COM 102 or COM 107.

**COM 315 Computer Assisted Reporting 3 Credits**

Develops advanced reporting techniques for researching and writing in-depth news stories and investigative articles. Uses state-of-the-art computer-assisted reporting methods including finding and mining data bases on the Internet, creating spreadsheets to analyze data, and employing data base manager software to sort and summarize information in government documents and other specialized resources. Focuses on conceptualizing of story ideas, planning major projects, gathering information by means of data bases, participant-observation, interviews, and analysis of public documents. Emphasizes organizing large quantities of material and presenting it in a meaningful context, including with information graphics.

**Prerequisite(s):** COM 210 or permission of instructor.

**COM 316 Feature Writing 3 Credits**

Focuses on problems and requirements of newspaper, magazine, public relations, and free-lance nonfiction writing. Students write features designed for acceptance in print, broadcast and digital media and learn marketing techniques.

**Prerequisite(s):** COM 102 or COM 107, English writing concentration, or permission of instructor.

**COM 318 Gender and Communication 3 Credits**

Focuses on interactive relationships between gender and communication in contemporary American society. It connects theory and research with practice to explore multiple ways communication in families, schools, media, and society in general creates and perpetuates gender roles. It is designed to heighten students' awareness of how we enact socially created gender differences in public and private settings and how this affects success, satisfaction, and self-esteem. Note: This course is crosslisted as GND 318. Students may not get credit for both COM 318 and GND 318.

**COM 322 Argumentation and Advocacy 3 Credits**

Investigates the theory and practice of speech communication that seeks to persuade by inferential argumentation. Concentrates on theories, practices, and research in argumentation and debate, blended with speaking experience in analyzing and advocating controversial topics.

**Prerequisite(s):** COM 104 or COM 290.

**COM 323 Oral Interpretation of Literature 3 Credits**

Provides an orientation to the field of oral performance. Students select literary texts, adapt the material to the audience and prepare it for presentation. Emphasizes the development of voice, articulation, and kinesic behavior. Presentations to the class are critiqued.

**Prerequisite(s):** COM 104 or COM 290 or permission of instructor.

**COM 325 Rhetoric of American Labor 3 Credits**

This course examines speeches, tracts, lyrics, newspapers, posters, poems, and films of the labor movement in America. The course also examines the historical context of the labor movement to better understand and appreciate the public discourse of labor. The course explores how rhetoric has been used to give force to ideas and lead to actions, how we develop a sense of how the values and norms of our society were reflected and shaped, and we understand how that history influences our collective perception in the present. Special attention is paid to the nature and locus of power, the interplay of conflict and confrontation, and the speaker's attempt to maintain or change the allocation of that power.

**COM 328 Sitcoms and American Culture 3 Credits**

Provides an overview to the unique and highly structured form of the American television situation comedy. The primary focus will be on history and development with in-depth study of situation comedy themes, characters, and settings. Through lectures, case discussions, in-class assignments, and class projects, students will examine the social and cultural meanings and implications of this incredibly popular and durable genre of programming.

**COM 330 Documenting Cultures Through Travel 3 Credits**

Offers students, through travel and study, a unique opportunity to gain firsthand experience of a foreign culture and to learn how to record and document their experiences using multiple media, including print, audio, video, photography and/or the Web. While traveling, students will be required to attend lecture/discussion sessions, site tours, and other planned activities. This experience will be preceded and/or followed by additional academic work to be conducted on campus. Study topics may include aspects of the historical, social, economic, political and aesthetic cultural components appropriate to the location(s) to be visited. The travel component of the course will be scheduled to avoid conflict with normal semester offerings. No foreign language skills are required.

**COM 331 Television Production 3 Credits**

Explores the technological capabilities and limitations of the television medium in team productions using a range of styles and formats. Students learn principles of studio production, electronic field production, and electronic news gathering. Exercises include use of computer graphics, audio production, and non-linear video editing. Stresses electronic communication skills and aesthetic values in a professional production setting.

**Prerequisite(s):** COM 131 or COM 230.

**COM 333 Broadcast Programming 3 Credits**

Analyzes the theory, practice, structure, and function of broadcast programming. Examines the structure of the industry as it relates to entertainment, information, and the audience. Studies program categories, formats, genres, trends, consistency, accountability, and ratings as well as cable, satellites, and home video. Critical standards are developed by introducing humanistic and scientific modes of program analysis.

**Prerequisite(s):** COM 230.

**COM 335 Television Field Production 3 Credits**

Provides an in-depth study of advanced techniques in Field Production for television. Individual and group field production assignments will involve planning and executing single camera production in a non-studio setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit documentaries.

**Prerequisite(s):** COM 331.

**COM 337 Music Production for Mass Media 3 Credits**

Offers students education in audio production techniques for music and other advanced audio material. Building on theory and practice introduced in the prerequisite, the class will instruct students in the theory behind acoustics and electronics as well as the digital tools and media. Those theoretical studies will be put to practice through exercises in recording music, making selections from music libraries, multi-track recording, arranging, editing, mixing and mastering. Students will begin to develop both an engineer's attention to audio detail and a musician's sense of artistry. Putting these skills to use, the students will produce complete musical works of varying musical styles, working both individually and in teams.

**Prerequisite(s):** COM 234.

**COM 338 Writing for Broadcast II 3 Credits**

Building on COM 233 Writing for Broadcast, this course provides a hands-on approach to more sophisticated reporting and interviewing techniques and writing formats used in long-form radio and television programs. This course will expose students to the following broadcast script writing areas: features, documentaries and reality programs. It will also cover writing for interview/talk show programs, music, comedy and variety programs. Students will also be exposed to writing for corporate, educational and children's programming. Students will have hands-on experiences writing, producing and editing news pieces and webcasts for student and area media outlets and web sites.

**COM 339 Developing The Feature-Length Script 3 Credits**

Developing the Feature Length Script will instruct students how to write a full-length film or television program. Students will learn the mechanics of 3-act and 7-act structure, and during the course they will develop a logline, synopsis, treatment, and sample scenes of a full-length project.

**Prerequisite(s):** COM 238.

**COM 341 Publicity Methods 3 Credits**

Applies communication theory to writing and editorial processes and production techniques to create public relations materials; includes press releases, industrial publications, social media, trade publications, brochures, newsletters, stockholder reports, and multimedia platforms.

**Prerequisite(s):** COM 107, COM 240, or permission of instructor.

**COM 347 Sports Communication 3 Credits**

Critically examines the symbiotic relationship between the mass media and professional sports franchises and major college athletic programs. This course deals with the workings and processes behind executing the proper techniques of sports information and media relations, as well as an analysis of the culture of sports in modern society. Students will develop a practical focus on sports information and promotion, including the role of the sports information director and events promoter, with emphasis on advanced concepts of public relations, publicity and marketing.

**Prerequisite(s):** COM 240 or permission of instructor.

**COM 348 Communication Research Methods 3 Credits**

Introduces students to the research methods used to study communication problems and processes. Students will learn how researchers plan and design research studies, explore the methodological considerations of both qualitative and quantitative methods, and have an opportunity to gain hands-on experience in conducting research on communication-related issues.

**Prerequisite(s):** COM 105.

**COM 350 Team & Group Communication 3 Credits**

Examines the communication process as it relates to the small group. Theoretical constructs including motivation, group climate, attraction, leadership, decision making, problem solving and roles are analyzed. Utilizes group experience to study and evaluate the dynamics and effectiveness of interpersonal systems.

**COM 352 Chinese and American Intercultural Communication 3 Credits**

Instructs students about Chinese culture and communication. Culture impacts communication practices and styles in significant and subtle ways. Through readings, lectures, discussions, and first-hand interactions with Chinese international students, the students of this course will gain both conceptual and practical understanding of major communication differences between the two cultures, and become a more skilled intercultural communicator. Note: This course is crosslisted as GLS 352. Students may not get credit for both COM 352 and GLS 352.

**COM 353 Nonverbal Communication 3 Credits**

Investigates studies in and theories of nonverbal communication. Lectures and experiential activities explore the effect of status, culture, and gender upon kinesics, physical characteristics, proxemics, tactile communication, paralanguages, artifacts, and environmental factors.

**Prerequisite(s):** COM 104 or COM 290 or permission of instructor.

**COM 360 Advanced Publication Design and Presentation 3 Credits**

Builds on elementary knowledge of graphic design to teach the principles of advanced layout, and computer graphics. Introduces students to industry standard drawing software and builds on their knowledge of layout software gained in the prerequisite course. Provides an understanding of the use of logos, infographics and magazine layout, and of the theoretical bases of color for print production.

**Prerequisite(s):** COM 212.

**COM 361 Photography 3 Credits**

Using digital SLR cameras, introduces students to professional methods of shooting varied subjects while applying a range of compositions and styles. Using Photoshop, students edit images for publication in print and on the Internet. Hands-on coursework is grounded in theory, history, aesthetics, and ethics. Some cameras are available for loan from the University.

**COM 363 Converging Digital Media 3 Credits**

Examines the digital technologies that make up the new world of digital convergence. The course will examine the effects of digital media convergence on social life, ethics, industry, and local and global communities through a variety of theories and paradigms. This course will also help students develop necessary digital media production skills and use them critically to solve media development problems.

**COM 364 Web Design II 3 Credits**

Equips students with the theories and practical techniques required to produce effective digital text, graphics, and animations for the Web. Discusses theories behind the use of these media in terms of effective communication and interaction. Introduces students to different computer platforms and requirements for cross-platform media.

**Prerequisite(s):** COM 261 or permission of instructor.

**COM 365 Graphic Animation 3 Credits**

Offers students education in graphic animation theories, animation development techniques, and animation preparation for various multimedia applications. Emphasis is placed on the design principles in animated communication and animation techniques. The course covers the integration of static images in animation, graphic animation techniques, animation compression, animation rendering, input/output file formats, and animation delivery. The primary software for this course is Adobe Photoshop and MacMedia Flash. Students will be expected to participate in critiques of professional animation designs in order to learn to evaluate critically their own work and their fellow students' work.

**Prerequisite(s):** COM 262 or permission of instructor.

**COM 366 Project Management in Graphic Design 3 Credits**

Explores the creative process of graphic design while developing an understanding of the methods employed in problem solving in the industry standard design software packages. Students learn how to create a hierarchy of information through the ordering of elements into a comprehensive visual unity. They consider the relationship between content and page size, proportion, grid and margins. Students learn about typography as a design element and how it works with other visual elements in design. In order to develop an understanding of the project-planning process for either printer or Web projects, students will develop and present a series of projects that will build on one another to develop their "visual voice." Students will be evaluated on their ability to apply course material to the projects to create professional-quality work; their ability to apply exchange ideas and accept and apply constructive criticism; and on their participation in class discussions, critiques and presentations.

**Prerequisite(s):** COM 262, COM 360.

**COM 367 3D Graphic Animation II 3 Credits**

Continue to learn the techniques of 3D computer animation including modeling, texturing, rendering, visual effects and animation. In addition to the technical aspects of creating successful 3D animation the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation.

**Prerequisite(s):** COM 265.

**COM 370 Sports Television and Field Production 3 Credits**

Provides an in-depth study of advanced techniques in sports field production for television. Individual and group field production assignments will involve planning and executing single camera production in a sports setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of sports field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit sports content.

**Prerequisite(s):** COM 131.

**COM 371 Sports Feature Writing 3 Credits**

Focuses on developing reporting and writing skills for newspaper, magazine, public relations, and free-lance nonfiction sports writing. Students will study published examples of outstanding sports feature writing, and write their own sports feature articles with social media and multimedia components. Instead of traditional game coverage, this course focuses on covering sports personalities, issues and themes.

**Prerequisite(s):** COM 102, COM 270.

**COM 380 Television Production Practicum 3 Credits**

Provides a workshop dedicated to the planning and creation of professional caliber television content for the campus television network and beyond. This course will provide an opportunity for students to develop writing, graphic, audio, video design and production skills in an experiential setting. Students will create materials to be used by the Rider University Network and for broadcast, cable and Internet distribution. Students can be involved in any and all phases of creating content from project conception through implementation. Students will gain valuable experience with, a greater appreciation for, and increased competency in creating professional media content. This class will also prepare students to more effectively function in the communication industry as an effective member of a professional production team. Since topics will vary by semester and instructor, this course may be repeated once.

**Prerequisite(s):** permission of instructor.

**COM 390 Communication and Society 3 Credits**

Examines in a topical manner the influence of communication upon significant issues and movements affecting people and society. Investigates interpersonal and mass media factors as they relate to a major issue such as changing sex roles, radicalism, racism, evangelism, election campaigns, and technology. May be taken more than once with different emphasis.

**COM 391 Communication Criticism 3 Credits**

Investigates and analyzes various methods of communication criticism and their applications to the understanding and evaluation of public and media discourses. Introduces theories and perspectives to assist in the analysis of those discourses. Methods include Aristotelean, Burkean, and ideological criticism.

**COM 392 Media History: Personalities and Trend 3 Credits**

Presents in a topical manner the history of the media from various perspectives, seeking to place the material into a meaningful economic, cultural, political, and/or social context. Different issues and related individuals are examined, such as the golden age of radio, motion picture economics, and media empire builders, with a view toward understanding their significant impact on the development and functioning of the media today. This course may be taken more than once with a different emphasis.

**COM 393 International Communication 3 Credits**

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is crosslisted as GLS 393. Students may not get credit for both COM 393 and GLS 393.

**COM 394 Social Media Capstone 3 Credits**

A client-based social media campaign will be developed from conception to evaluation based on research and digital media strategies. Focus will be on engagement with audiences, managing social media, and evaluation using social media metrics. As the capstone course, this is the last course that students take in the Social Media Strategies Minor or Certificate program through CCS. Permission of department required. Prerequisites: COM 261 & COM 292.

**COM 399 The Co-Operative Experience 3-12 Credits**

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. Prerequisite(s): junior standing and 2.75 GPA at the time of registration; Pass/fail.

**Corequisite(s):** IND 398 The Co-operative Experience Seminar, IND 398 and (dept) 399 combined cannot exceed 15 credits.

**COM 400 Senior Seminar Communication 3 Credits**

Provides students with the opportunity to explore critical issues in communication and journalism in a dynamic and engaging context. Students conceptualize problems, develop hypotheses, review literature, design appropriate techniques of inquiry, conduct their research, and present their findings orally to the seminar and in writing to the instructor. Senior journalism and communication majors only.

**COM 402 Directing for Film 3 Credits**

This course approaches directing both creatively and critically, and examines the role and importance of the director to the filmmaking process. The transformation of the written script into a film is explored through readings, viewing and analyzing the films of accomplished directors. Lectures and exercises illustrated with film clips and readings emphasize plot development, script analysis, developing storyboards and shot lists, rehearsal, blocking, collaborating with talent and production crew, and using the camera to effectively capture action and performance. Students will gain an effective understanding of the role of the director through the various stages of film production, and be provided the opportunity to demonstrate and cultivate his/her effectiveness as a director through individual and group assignments.

**Prerequisite(s):** COM 235 and COM 338.

**COM 415 In-Depth Reporting 3 Credits**

Utilizes advanced tools and techniques of contemporary in-depth reporting for print and multimedia. Covering multifaceted stories, students will learn how to do balanced multi-sourced field reporting and writing using primary and secondary sources including human sources, electronic documents and databases, both online and offline. Emphasis will be placed on writing stories that answer not only who, what, when and where questions but also the why, the how and the "so what?" questions. Students will also be exposed to some of the best investigative work of journalists past and present as models for analysis and discussion.

**Prerequisite(s):** COM 210.

**COM 431 Adv TV Research & Production 3 Credits**

Explores the theoretical and practical application of aesthetic technique in modern television/video production situations. While the prerequisite courses emphasized competency in equipment operations and basic production skills, this course moves to a higher platform by emphasizing concepts of production and how to apply them for effective communication. Thus this course places emphasis on advanced techniques: design and aesthetics as applied to enhance the overall video presentation as practiced in both the commercial and organizational communication arenas. In the current state of the art of video production, a mastery of aesthetic skills is necessary for the effective expression of ideas in optimal fashion and for a variety of audiences. Students will be exposed to as many techniques as practical through class discussion (including heavy participation by the student), individual and group lab activities and contact when possible with current practitioners and equipment. As most television production is done for a client, that process will form the basis for much of the course discussion and activities including projects.

**COM 434 Advanced Radio Production 3 Credits**

Provides in-depth study of advanced techniques in audio recording and radio programming and production. Individual and group production of short and long-form radio projects including: promotional spots, features, music programming, and news. Students will be involved in all phases of programming and production for radio including: project conception, development, management, and implementation. Selected student projects will air on the student radio station, 107.7 The Bronc.

**Prerequisite(s):** COM 234.

**COM 435 Advanced Digital Filmmaking 3 Credits**

This is an intensive hands-on course in advanced digital filmmaking. Students will gain experience with and proficiencies in a number of filmmaking areas including: creativity, production planning, aesthetics, scripting, script breakdown, camera movement, selecting and directing talent, creating scenes and sequences, visualizing action, establishing mood and conflict, as well as advanced lighting, sound and digital editing techniques. The students' use of high definition digital imaging systems as a medium for narrative cinematography will be developed and refined. In addition, students will explore how filmmaking techniques and technology can impact the visual story telling process. While often working cooperatively in groups, modeling the interdependent structure of film crews today, the creative and leadership role of the director in the contemporary film industry will be emphasized. Throughout the class, there will be an important integration of theory and practice which will enable students to produce meaningful film projects that will not only be technically effective, but strong in content and context as well.

**COM 440 Cases & Campaigns in Public Relations 3 Credits**

Critically analyzes public relations case problems in industry, labor, education, government, social welfare, and trade associations.

Emphasizes problem solving through the use of communication theories, public relations techniques, creative thinking, and the development of professional goals and standards. Employs realistic simulation exercises and actual case studies to develop and critique students' ability to demonstrate this knowledge in professional situations.

**Prerequisite(s):** COM 341 or permission of instructor.

**COM 452 Seminar in Communication Studies 3 Credits**

Offers an in-depth investigation of relational communication. Students explore the many complexities involved in human interaction and interpersonal dynamics. Social and psychological implications of various communicative relationships ranging from cross-gender communication to dysfunctional family systems to intercultural interactions are included.

**Prerequisite(s):** COM 348, COM 350, or permission of instructor.

**COM 460 Web Design III 3 Credits**

Builds on previous courses to refine students' understanding of theories and procedures of digital media development. Further develops Web site creation and project management theories. Students develop advanced Web creation techniques, including responsible site production.

**Prerequisite(s):** COM 364.

**COM 462 Advanced Graphic Design and Portfolio 3 Credits**

Explores the processes of graphic design by creating independent and creative solutions to a series of design problems. Students expand their proficiency in all aspects of the design process, including creative brainstorming, conceptualizing, critical thinking and presentation. Students take a design project to both print and digital formats using Photoshop, Illustrator, and InDesign. Students develop and present a balanced portfolio as the culmination of their experience in the course.

**Prerequisite(s):** ART 103, ART 105, COM 262, and COM 360.

**COM 470 Live Sports Reporting Capstone 3 Credits**

Focuses on student production of live, professional-level sports media content. Students will combine reporting, writing, social media and multimedia from live sporting events. Live-coverage will include Rider University teams and regional or professional sporting events. The course is open to senior Sports Media Majors, or with the permission of the instructor.

**Prerequisite(s):** COM 370, COM 371.

**COM 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**COM 491 Internship in Communication 1-4 Credits**

Places qualified students in a professional area related directly to their communication training. Students may intern in a communication position with a corporation, small business, media outlet, public relations agency, non-profit organization, political party, sports organization, or other similar organizations. A minimum of 50 hours of internship per credit is required. Written reports, a final project, and supervisor evaluations are used to analyze and evaluate the experience. For students majoring in the Department of Communication and Journalism only, primarily juniors and seniors. No more than two internships are permitted for each student; exceptions may be made. The deadline for registration is the first Friday of the semester.

**Prerequisite(s):** 3.2 GPA and permission of instructor.

**POL 100 Introduction to American Politics 3 Credits**

An examination of basic principles of the U.S. constitutional system; the operation of the democratic process; the organization, powers and procedures of Congress, the presidency and the federal judiciary; and the functions, services, and financing of the national government. Emphasis is on public issues, national priorities, and civil liberties. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Note: This course is cross-listed as HLS 100. Students may not get credit for both POL 100 and HLS 100.

**POL 102 Understanding Politics 3 Credits**

Introduction to the study of politics and government, including major political theories and ideologies, systems of government (i.e., presidential, parliamentary, authoritarian, totalitarian), public opinion and behavior, international relations and war, and contemporary policy issues. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**POL 200 NJ Government and Politics 3 Credits**

Political institutions, processes, and problems of state and local governments of New Jersey. Analysis of legislative, executive, judicial, regulatory bodies, special districts, and autonomous agencies. Aspects of personnel, finance, and services.

**POL 201 Policy Issues, Advocacy, and Budgeting 3 Credits**

Surveys various domestic economic and social policy issues, the government budgeting process, and how citizens and groups advocate their interest through organizing, coalition-building and lobbying. Emphasis on developing practical skills in issue analysis, lobbying, legislative tracking, and public budgeting.

**POL 202 The Political System - Theories and Themes 3 Credits**

This course serves as a gateway to the subfields of comparative politics and international relations. The concept of the political system helps political scientists to organize political interrelations into patterns that allow systematic selection and interpretation of information and the study of processes and outcomes of politics in a variety of settings. The course introduces students to the main brands of normative theory prescribing the principles directing the operation of the political system, to some of the most important methods used to compare political systems and/or their components, and to the foremost approaches utilized in the study of the relations between political systems and their environments. Note: This course is cross-listed as HLS 202. Students may not get credit for both POL 202 and HLS 202.

**POL 203 Homeland Security 3 Credits**

The course is designed to help students increase their knowledge and understanding of homeland security policy. The course will consider why and how homeland security problems impact the public agenda, why some solutions are adopted and others rejected, and why some policies appear to succeed while others appear to fail. The course will primarily examine policy making at the national level in the United States, but will also analyze examples at the state and local level, as well as placing U.S. policy in a comparative perspective. Note: This course is cross-listed as HLS 203. Students may not get credit for both HLS 203 and POL 203.

**POL 204 Development and Structure of the US Intelligence Community 3 Credits**

This course provides a historical review of intelligence following World War II. It will examine the major functions of intelligence, as well as intelligence as a part of the foreign policy process: collection, analysis, counterintelligence, and covert action. Students will be introduced to a range of collection procedures: human, open source, electronic, photographic, and signal, with emphasis placed on interpreting and writing intelligence summaries. Note: This course is cross-listed as HLS 204. Students may not get credit for both POL 204 and HLS 204.

**POL 205 Introduction to Public Policy 3 Credits**

The course provides students with an introduction to the study of public policy by linking the theoretical with the practical. The course focuses on three areas of analysis: 1) descriptive 2) evaluative and 3) prescriptive. Students will develop skills required to define and critically examine policy problems, articulate relevant decision-making criteria and assess alternative policy options. Last the course provides examples of public policy problems through the substantive policy areas of health, environment and education.

**POL 206 Healthcare Regulation and Governance 3 Credits**

Health Regulation and Governance explores the institutions, processes and actors involved in governing and regulating the healthcare system in the US. The course engages the topic through the lens of federalism by examining the role of the Executive, Legislative and Judicial branches of government in regulating and governing healthcare at the national level as well as the role of the states in this policy area. Students will not only be introduced to the structure of regulation and governance of healthcare in the US, but will also be able to contextualize contemporary issues in healthcare in order to not simply address problems in the sector, but to also begin to identify solutions to issues that impact the population.

**POL 210 Public Opinion 3 Credits**

Public opinion as a social force and as expression of public sentiment on political and social issues. Topics include: development and dissemination of opinions, the measurement of public opinion, public opinion and governmental processes, and the reciprocal relationship between mass media and public opinion. Note: This course is cross-listed as GLS 210. Students may not get credit for both POL 210 and GLS 210.

**POL 215 Global Politics 3 Credits**

The struggle for power, wealth, and order at the global level involving nation-states, intergovernmental organizations (such as the United Nations, the European Union, etc.), non-governmental organizations, transnational enterprises and other non-state entities, using military, economic, diplomatic, legal, and communication instruments. Overview of global problems such as the proliferation of weapons of destruction, ethnic and religious conflicts, human rights, and the global environment at the threshold of the 21st century. Real-time use of the Internet is an integral aspect of this course in terms of readings and assignments. (This course is a prerequisite for POL 295 Special Projects in Political Science: Model United Nations.) Note: This course is cross-listed as GLS 215. Students may not get credit for both POL 215 and GLS 215.

**POL 216 Comparative Political Systems 3 Credits**

A general introduction to types of government and political regimes of the world as they try to cope with the dual challenge of ethnic micropolitics and transnational globalization. Major prototypes of democracy: the British parliamentary system, the American separation of powers system, and various combinations of these two. Traditional autocracy, totalitarian dictatorships, and late 20th-century authoritarian regimes. Students are expected to acquire in-depth knowledge of comparative political systems, and to develop a basic understanding and appreciation of the major concepts and themes in comparative political systems studies.

**POL 218 Asian Political Systems 3 Credits**

(Formerly the Pacific Rim in the 21st Century) This course aims to provide students with an understanding of the fundamentals of the government, politics, economic development as well as the history and culture of countries along the Pacific Rim. The countries examined include China, Taiwan, Hong Kong, Singapore, Japan, South Korea and North Korea. Students are expected to understand 1) the democratization wave and efforts across the Pacific Rim countries and regions, 2) the economic development of these countries and regions and the consequential sociopolitical impact, and 3) concepts of political institutions and political culture in a comparative perspective.

**POL 220 Terrorism & Counter Terrorism 3 Credits**

This course introduces students to the arguments about the definition of terrorism, the historical use of terrorism and the roles of ideology, religion, and psychological factors that help explain and predict it. The course seeks to identify the components of national security policy aimed at countering such elements and their cost, both in financial and civil right terms. Finally, to illuminate both the definition and the policies discussed, the course will offer brief comparisons with other states, especially Israel, the UK, and Russia.

**POL 225 Nationalism in World Politics 3 Credits**

Nations and nationalism. An overview of nationalistic manifestations in the world today. Nations, states, nation-states. Multinational states, stateless nations. Imperialism, anti-imperialism; nativism vs. internationalism and globalism. Topics include nationalisms in the Holy Land; in the former Yugoslavia; in the former Soviet Union and its successor states; and economic Nationalism vs. Globalization. Note: This course is cross-listed as GLS 225. Students may not get credit for both POL 225 and GLS 225.

**POL 230 Methods of Political Analysis 3 Credits**

An overview of the various qualitative and quantitative methods that political scientists use to study their discipline. Themes include analyses of political participation and support, methods of studying elections, measures of political tolerance and liberalism.

**POL 235 Race and Ethnicity in American Politics 3 Credits**

Examines the changing political, economic, and social situation of racial and ethnic groups in American politics since the 1950s. Topics include the relationship between race/ethnicity and voting behavior, political parties, and election results. Includes an analysis of specific areas of contemporary racial and ethnic conflict, such as voting rights, immigration, and affirmative action.

**POL 239 Political Thinkers & Thought 3 Credits**

A survey of the most significant political thought from ancient times into the modern era. Subject matter includes discussion of such questions as the nature of freedom, natural law and right, constitutionalism, political obligation, justice, form of regime.

**POL 247 Political Campaigning 3 Credits**

This course entails the study of campaigning for political office at the federal, state and local levels in the United States. While attention will be given to how the broader political environment and specific factors, e.g., the decline in partisanship, hot button issues, local interests, and money, affect the nature of campaigns, the course's primary focus will be on how to organize and conduct a successful and ethical campaign, including how to collect and analyze pertinent data, manage a staff, develop a communications plan, and get out the vote.

**POL 255 European Politics 3 Credits**

A comparative analysis of the social and political systems of Britain, France, Germany and other Western countries within the European framework. Emphasis will be on the identification of ways in which countries similar in social characteristics are also similar in their political systems and on the extent and circumstances under which they differ. Similarities and contrasts will also be drawn with political structures and processes in the United States. This course, on occasion, may contain an optional travel component during January.

**POL 260 Politics of Law and Order 3 Credits**

The constitutional, legal, political, and administrative aspects of the criminal justice system in the United States are studied, including the court system at all levels of government, law enforcement agencies, correctional programs and institutions, probation, parole, and the relationship of our legal institutions to the broader political system.

**POL 267 China in Transition 3 Credits**

This course aims to provide students with an understanding of the history, government, politics, economic development as well as political culture of the People's Republic of China. Students are expected to acquire in-depth knowledge of China's political history, government structure and China's economic development and consequential sociopolitical impact. At the same time, students are expected to develop a basic understanding of the concepts of studying Chinese political institutions and political culture in a comparative perspective.

**POL 270 Interest Groups and Lobbying 3 Credits**

The course will introduce students to the area of interest groups and lobbying. Topics to be covered include theoretical developments, methodological approaches of group formation, organizational maintenance, and strategies used to influence public policy in the executive, legislative, and judicial branches of government.

**POL 272 Politics of Latin America 3 Credits**

The course will begin by discussing Latin American nations from the point of view of their common ancestry in European colonization, including the ways in which European cultural and economic patterns were introduced into indigenously populated areas, how these persisted after independence from European imperialist regimes and the U.S., and how these legacies have their continued effects into the present. The course continues with inquiry into the domestic politics and governmental systems of a number of Latin American nations. The course also takes up present day relations between Latin American political systems, the United States, and various organizations of the global economy such as International Monetary Fund, the World Bank, and the World Trade Organization.

**POL 280 Sex & Politics 3 Credits**

The bearing of gender upon politics: whether political activity is more characteristic of one or the other sex; the comparative fates of male and female in political society; the political implications of change in the content and mutual status of masculinity and femininity. Inquiry into classical, traditional, and contemporary views.

**POL 295 Special Topics in Political Science 3 Credits**

For non-seniors who engage in serious research in political science. Topic to be approved by instructor and department chairperson.

**POL 300 U.S. Constitutional Law 3 Credits**

The role of the Supreme Court in the American political system is assessed. Topics include the staffing and functioning of the Supreme Court and the federal judicial bureaucracy, the origins and development of judicial review, and the role of the Supreme Court in national policy-making. Note: This course is cross-listed as HLS 300. Students may not get credit for both HLS 300 and POL 300.

**POL 301 Civil Liberties in the U.S. 3 Credits**

The American doctrine of civil liberties in theory and practice. Emphasis on analyzing the freedoms of speech, press, assembly, and religion, the right of privacy, and the problem of discrimination in the context of contemporary issues and problems. Particular attention to the role of the Supreme Court in this area. Note: This course is cross-listed as HLS 301. Students may not get credit for both HLS 301 and POL 301.

**POL 302 Insurgency 3 Credits**

The course explores the occurrence of insurgencies and civil wars. It examines the causes of such conflicts by focusing on the role of resources, state capacity, ethnic/religious differences and power in the initiation of violence. Students will learn how recruitment tactics and access to funding sustain guerrilla warfare. Lastly, the course will focus on conflict management by emphasizing specific tools for terminating and preventing intrastate conflicts including the impact of international interventions, counterinsurgency strategy of winning the hearts and minds, institutional design, and reconciliation.

**POL 303 Global Justice 3 Credits**

This course examines some of the most vexing problems in today's world of global interconnectedness. How can we harness the potential of global cooperation to solve problems that cross national borders? We will critically analyze the potential for human rights to protect vulnerable individuals, including victims of human trafficking. We will also evaluate the distribution of global resources and costs, including natural resources, extreme poverty and environmental degradation. What do we owe those who live in distant lands? Throughout we will ask how reality matches up to our best hopes for the present and future.

**POL 304 Political Behavior: Fear, Risk and Crisis 3 Credits**

The course focuses on various analytical approaches in behavioral political science. It does so by advancing students' knowledge of the cognitive aspects of whether citizens engage in various types of political behavior-e.g., voting/non-voting, the formation of political partisanship and ideology, issue perceptions, responding to risk and uncertainty in the political environment, and engaging in civic political participation. Note: This course is cross-listed as HLS 304. Students may not get credit for both POL 304 and HLS 304.

**POL 305 Political Parties and Electoral Behavior 3 Credits**

The structure, character, and functions of U.S. political parties and pressure groups, and their impact on public policy. Parties are analyzed within the broader scope of organizational theory and comparative party systems. Major emphases on their historical origins, their role in contemporary political life, and particular aspects of party politics—local organization, membership, campaigning and elections, policy-making roles, and leadership.

**POL 306 Political Film 3 Credits**

This course analyzes the structure, history, and impact of the genre of political film. It begins with a discussion of how one distinguishes a political film from other forms of cinema. It then proposes insights into the manner in which these films evoke a particular time and place in politics, affect the viewer's interpretation of a political event or figure, and have an effect upon a viewer's political perceptions or behavior. The student will also learn to review films critically, both as political statements and as effective (or ineffective) conveyors of political messages. Note: This course is cross-listed as GLS 306. Students may not get credit for both POL 306 and GLS 306.

**POL 307 Political Communication 3 Credits**

The meaning and uses of political communication are examined, the manner and forms such communication takes, and the history of political discourse. Major topics include the role of communication in elections and the development of public policy, how political communication strategies have changed with the rise of mass media, and the development of national and international publics for discourse. Note: This course is cross-listed as GLS 307. Students may not get credit for both POL 307 and GLS 307.

**POL 308 Capitalism and Inequality 3 Credits**

This class is about market economies: how they are theorized, how they operate, and how they affect the humans who live and work within them. The first part of this course offers an overview of major modern theorists of capitalism (with selections chosen for a political science audience), including Smith, Veblen, Schumpeter and Keynes. These thinkers have made influential contributions to debates about the proper role of government in regulating and shaping economic relations and conditions. We then turn to contemporary theories of distributive justice, including libertarianism and egalitarianism. The second half of the course explores realities of socioeconomic inequality, the experience of poverty in the U.S., as well as the kinds of policies which might alleviate or resolve various dimensions of inequality and poverty. This course prepares students to evaluate public policies and articulate policy positions while attending to their economic and human costs.

**POL 309 Will China Be Next Superpower? 3 Credits**

This course has two focal points: one is the rise and fall of great powers in the history of world transformation; the other is China's whereabouts in this transition. The former deals with a group of International Relations theories, which focuses on systematic transformation. Students are expected to learn extant theoretical knowledge on how and why a great power rises and falls. The latter is our empirical referent. Students are led to study China's contemporary history, geopolitics, political economy, and international relations as to make a learned connection between theoretical wisdom and practical data on China. This course will provide students with a better understanding of China in general and its superpower status in the making in world politics in particular, offer students a chance to review the sources and consequences of different national approaches to greatness, and help students find his or her own analytical framework for understanding international political events that may have transforming effects in Northeast Asia as well as on the world stage. This course is cross-listed as GLS 309. Students may not get credit for both POL 309 and GLS 309.

**POL 310 Political Psychology and Human Nature 3 Credits**

The 2016 presidential campaign season saw a marked increase in partisanship, polarization, animosity and resentment among Americans, mirroring a worldwide trend toward "tribalistic" group identification at the expense of outsiders. Why can't we all just get along? What makes it so hard to sympathize with those who seem different or unfamiliar, and so easy to assume the worst about them? This course will bring together classic political theory, psychology and the social sciences, in order to help explain political beliefs and behaviors. We will begin by considering how classic political theory has conceptualized human nature, and the various implications for political life. We will then consider scientific perspectives: evolutionary anthropology, social psychology and cognitive neuroscience. We will examine the role of bias in cognition and politics and we will critically interrogate assumptions about rationality. We will also see that different psychological dispositions underlay conservatism and liberalism. Ultimately, this course will consider how these features of human cognition shed light on partisanship and polarization, racial bias, and policy preferences, including popular reception of science concerning vital issues such as climate change and the safety of GMOs. We will conclude with considerations of how a better understanding of psychology might propel us toward a more productive political discourse.

**POL 311 Sovereignty, the State and Borders 2 Credits**

Borders have a prominent place in politics and human history. In the twentieth century, the best known barriers were the militarized Maginot Line and the Iron Curtain. Today, the political popularity of borders persists but the nature and quality of these borders and the threats they are created to repel have changed. Modern borders are designed not to keep militaries out, but to deter a perceived invasion of "undesirables"—with terrorists and unwanted immigrants leading the list of state concerns. Nowhere is this more evident than along the geographic fault lines dividing rich and poor regions, e.g. the Mediterranean Sea and the U.S.-Mexican border region. This course will examine the dynamic interactions between the question of how to govern one's borders and the twenty-first century liberal state with its diluted sovereignty—due to immigration, trade and international laws and regimes. In the first post-Cold War decades it was intellectually fashionable to dismiss borders as increasingly irrelevant to the human experience in the age of globalization. Scholars saw the significance of national borders for the Western world as having been vastly reduced by the three forces of military change, economic development and modern communication technologies (Horsman and Marshall 1994). Some free market liberals have even popularized the notion of an emergent "borderless world" (Ohmae 1990). These cheerful views stressing the benign, pacifying effects of economic integration and interdependence that must lead to a rollback of the state and the erosion of borders, came crashing down on September 11, 2001. After two decades of debordering, the new rules of the game focus on rebordering, and the importance of state with its reassertion of border controls and an ideological redefinition of border functions (Andreas and Snyder 2000). To be sure, borders, with all their practical and formal features, are increasingly just one element in a larger emergent operational sp.

**POL 312 Congressional Politics 3 Credits**

An intensive analysis of the legislative process in the United States, considering both the internal organization and operation of Congress, and Congress' role in the broader American political system. Fundamental issues include the theory and practice of representation; the committee system, seniority and expertise; executive and legislative interaction; and the politics of congressional reform.

**POL 313 American Presidency 3 Credits**

A description and analysis of the American presidency: its historical development, the internal organization, and ecological context. Basic issues include the intent of the framers of the Constitution, the historical accumulation of presidential powers, and institutional limits on presidential power (e.g., Congress and the bureaucracy).

**POL 314 Congressional Power and National Security Policy 3 Credits**

The purpose of this course is for students to identify, examine, analyze, and interpret the role of Congress in shaping national security policy with a particular emphasis on the institution's role in the Global War on Terror. Particular attention is paid to the role of the US government being able to balance individual rights and liberties within the national security state. Last, the course also takes an in-depth analysis of the U.S. Congress, looking comparatively at how legislatures in other nations have dealt with crafting their own security policies. The course will address the following questions: First, what is the role of Congress in national security policy, what does it do, and why? Second, what are the various ways of studying the relationship between the legislative and executive branches of government in the US system as it relates to the Global War on Terror? Note: This course is cross-listed as HLS 314. Students may not get credit for both HLS 314 and POL 314.

**POL 315 Global Issues 3 Credits**

Military, economic, demographic, and environmental threats to global security in the post-Cold War era. Forces of transnational integration vs. forces of intrastate fragmentation. Inadequacy of international law and organization to deal with these problems within the confines of the sovereign nation-state system. Note: This course is cross-listed as GLS 315. Students may not get credit for both POL 315 and GLS 315.

**POL 316 Presidential Power and National Security Policy 3 Credits**

This course examines the development of the National Security State since the Second World War, and the ways in which it has affected, and been affected by, the Federal Executive. Topics to be covered will include the post-World War II redefinition of "national security", the Cold War (with a special focus upon war powers during Korea and Vietnam) and the changes that have occurred with the "War on Terror." Note: This course is cross-listed as HLS 316. Students may not get credit for both POL 316 and HLS 316.

**POL 317 Model United Nations 3 Credits**

For non-seniors who engage in serious research in political science. Topic to be approved by instructor and department chairperson.

**POL 318 Conflict Resolution 3 Credits**

How do you craft a peace deal in a war-ravaged environment? Can negotiations with rogue regimes succeed and prevent the onset of conflict? With massive casualties, and unspeakable human rights abuses, conflicts continue to present a challenge to people around the globe. In this course, we will explore the dynamics of conflict management designed to keep countries from waging violence against each other. Our focus is both on ending existing violent conflicts and on preventing escalation of tensions. We will explore the impact of mediators and external interventions by international organizations or individual countries on conflict management. We will also examine the role of the International Court of Justice in resolving disputes when direct negotiations fail to succeed. Finally, we will study existing peacebuilding efforts designed to improve relations among victims and killers in post-conflict environment. Insights from theory on commitment problems will help us understand why peace is more vulnerable in domestic than in international conflicts. Throughout the semester, we will rely on various case illustrations from international and domestic conflicts, and participate in a simulation activity that will allow us to assume the roles of negotiators in disputes.

**POL 319 Terrorism and Leadership 3 Credits**

Revolutions are the mad inspiration of history. Trotsky's characterization calls attention to three important dimensions of violent political participation: the historical settings, ideology, and emotional fervor of the practitioners. The course focuses on these dimensions by analyzing revolutionary and terrorist movements in the 20th century. Special attention is given to the use of violence in the post-Cold War new world disorder.

**POL 320 Politics of the Middle East 3 Credits**

The course emphasizes the relationships between social and political structures, the role of religion, and the problems of modernization in the Middle East. Similarities and contrasts will be drawn between the Arab and non-Arab countries of the Middle East. The political systems of Egypt, Syria, Israel and Saudi Arabia are examined in terms of political culture, structure, and political processes.

**POL 321 International Law 3 Credits**

This course covers the basic doctrines of international law and their relationship to the contemporary international community. These include the jurisprudence of international law; the history of the international legal system; customary international law; Treaty law; sovereignty, statehood and recognition; jurisdiction and immunities; the role of international organizations; international criminal responsibility; and the relationship of the international legal system to the U.S. domestic legal system. The objectives of international law are to foster the peaceful settlement of disputes; facilitate transnational communication and commerce; encourage respect for human rights; as well as to preserve the environment. This course is cross-listed as GLS 321. Students may not get credit for both POL 321 and GLS 321.

**POL 322 African Politics 3 Credits**

Africa is in a process of transition, a continent of growing strategic importance to the U.S. and a land with considerable variation in political and economic success. The course is an introduction to the politics of sub-Saharan Africa. To understand the continent's current challenges, the course examines the legacies of colonial rule, including colonial mark on the politics of ethnicity; focuses on the rise of authoritarianism in Africa in the 1970s and 1980s; examines the success and failure of democratization that is transforming the continent today; embarks on the quest to understand the continent's struggle with poverty and debt. Lastly, the course explores some of the biggest obstacle to Africa's stability, including state collapse, wars, corruption, while contemplating the future that lies ahead.

**POL 325 Public Administration 3 Credits**

Public administration in modern society, emphasizing the administrative formulation of public policy and its implementation. Attention on who gets what, when, and how from the decisions of administrative units; the role administrators have in policy-making compared to elected legislators, chief executives and judges; the effect administrators have on the benefits citizens receive from government; and the effect administrators have on citizens' behavior. Note: This course is cross-listed as HLS 325. Students may not get credit for both HLS 325 and POL 325.

**POL 326 Power in American Politics 3 Credits**

Examines various explanations of who has power in American politics. Explores the roles of appointed and elected officials, business and interest groups, the media, and the general public in shaping public policy. Special attention to political change, including the impact of broad social movements on the responsiveness of the political system.

**POL 327 Contemporary Issues in American Public Policy 3 Credits**

An in-depth examination of current issues in American politics. Drunk driving, political corruption, drug policy, education, and poverty are among the issues to be considered. Emphasis on analyzing policy problems and on developing and evaluating proposed solutions.

**POL 328 Environmental Politics 3 Credits**

Environmental Politics examines how policymakers deal with the political challenges of unsustainable resource consumption, which is a primary determinant of environmental problems such as climate change, adverse health effects, and biodiversity loss. The course introduces students to environmental politics and policies at the local, state, national, and international levels. The course is designed to provide students with a framework for understanding how varied interests compete within political institutions in order to transform contending ideas into public policy. With that in mind, students will not only become more informed consumers of political information, but will also become more effective at analyzing and advocating for policies as it relates to the environment.

**POL 329 Comparative Environmental Policy 3 Credits**

Comparative Environmental Policy analyzes cross-national approaches in developing, implementing, and evaluating policy responses to environmental problems. The course analyzes the political factors, actors, and tools that help and explain why some societies have been more likely to develop effective responses to environmental threats. Note: This course is cross-listed as GLS 329. Students may not get credit for both GLS 329 and POL 329.

**POL 330 Geopolitics of Energy 3 Credits**

Geopolitics of Energy Security explores the role of energy in shaping global politics, natural resource management practices and volatility in economic markets. The course begins with an overview of energy security and explores issues associated with energy production, national security, energy consumption, and environmental conservation. Throughout the course students will become familiar with basic data, trends, issues and options in the exploration and production of renewable and non-renewable energy sources.

**POL 331 Political Corruptions 3 Credits**

This course will introduce students to one of the central political issues in the USA as well as abroad: corruption. Whereas this was considered in earlier days as 'temporary malady' of third world systems, today it is considered a pervasive phenomenon in democratic systems as well. As such it acquired widespread scholarly as well as public attention in established democracies such as the USA (at least since the elections of 2016). The course will utilize a range of approaches to examine the meaning of corruption, the link between what the law defines as corruption and what is understood by the term by broad publics, the interaction between both conceptions and system legitimacy, and the methods by which corruption may be contained.

**POL 335 Urban Politics 3 Credits**

Political structure and administration of municipalities in the United States. Emphasis on problems posed by suburbanization, global and regional shifts in business, economic dislocation, housing, race relations, and policing.

**POL 340 Modern Democracy and Its Critics 3 Credits**

The course examines the fundamental assumptions underlying modern democratic theories and the main theoretical attacks launched against them. Among the contending theories to be discussed are right and left-wing anarchism, the old and the new left, fascism, intellectual elitism, and techno-conservatism. Note: This course is cross-listed as GLS 340. Students may not get credit for both POL 340 and GLS 340.

**POL 342 Contemporary Political Theory: Freedom and Authority 3 Credits**

Concepts of freedom and authority in 19th and 20th-century political theory. Emphasis on such important thinkers as Nietzsche, Freud, Sartre, Camus, and Marcuse. Note: This course is cross-listed as GLS 342. Students may not get credit for both POL 342 and GLS 342.

**POL 343 American Political Thought 3 Credits**

The philosophical background and moral principles of American political society: liberty, equality, natural law and natural right; constitutionalism and nation-building. The development of the ideologies of liberalism, conservatism, and libertarianism are also covered.

**POL 345 Ancient Political Theory: Justice 3 Credits**

The existence of society over time requires high degree of predictability and hence laws, whether explicit or implicit. These derive their capacity to regulate life from the widespread notion that they are proper and that they should be obeyed. In a word, they accord to our notions of justice. These, however, are not stable. Resting on the understandings of man, society, nature and the relations between them, they develop under the impact of human thought and changing realities. The result is what can be compared to a layered cake. This course treats some of the main contributions made by philosophers from Plato to Rawls to our concept of justice and the manner by which they have shaped our concepts of justice in the US and West in general. Cases in which courts (mainly the US Supreme Court) made use and applied the thinking of earlier philosophies of justice will illustrate the process by which we adjust the boundaries between legality and criminality and determine how we should behave towards each other.

**POL 346 Liberal Democracy in Times of Stress 3 Credits**

This course examines historic and present day cases, ranging across Europe and the US, in which liberal democratic governments, under stress because of subversion, sabotage, invasion, rebellion, or the effects of economically caused chaos, take on emergency powers to become so-called "states of exception." While in some cases such states have imposed mild and limited emergency measures, others have employed more draconian measures, suspending, if not dissolving, constitutionally guaranteed civil liberties, often for indeterminate and protracted periods. How various states have behaved in emergency situations will be the major content of this course. Note: This course is cross-listed as HLS 346. Students may not get credit for both HLS 346 and POL 346.

**POL 350 U.S. Foreign Policy and Security Policy 3 Credits**

Principles, institutions, and processes involved in the formulation and implementation of policies regarding the nation's military, economic, and environmental security within the global framework. Strands, trends, and problem areas in U.S. foreign policy, with focus on the changing global environment of the post-Cold World War. Note: This course is cross-listed as HLS 350, GLS 350. Students may get credit for only one.

**POL 351 Critical Views of Global Security 3 Credits**

This course will examine the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspective on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (environment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security. Note: This course is cross-listed as HLS 351. Students may not get credit for both HLS 351 and POL 351.

**POL 361 Courts, Judges and Politics 3 Credits**

In-depth examination of the nature of judicial decision-making and the impact that judicial decisions have on society. Considers the sources of judicial authority, judicial fact-finding, statutory and constitutional interpretation, individual and collective processes of judicial decision-making, relations between judges and other government officials, and the political consequences of judicial decisions with particular emphasis on federal courts and judges. Note: This course is cross-listed as HLS 361. Students may not get credit for both POL 361 and HLS 361.

**POL 363 Human Rights in Global Context 3 Credits**

Examines human rights – *droits de l'homme*, *derechos humanos*, *Menschenrechte*, “the rights of man” – are, literally, the rights that one has because one is human. What does it mean to have a right? How are being human and having rights related? This course provides an introduction to theory and global practice of human rights. Human rights claims play an increasingly central role in political and social struggles across the world. The adoption of the Universal Declaration of Human Rights in 1948 signaled a proliferation of international human rights law and transnational non-governmental activism. While the promotion of human rights has become global, adherence to those standards remains highly uneven and gross violations and atrocities continue to occur. Given the breath and complexity of the human rights movement, including its engagement with law, politics and morals, in radically different cultures, this course is by its very nature multidisciplinary. Note: This course is cross-listed as HLS 363. Students may not get credit for both HLS 363 and POL 363.

**POL 365 Third World Politics 3 Credits**

Studies the major political issues of the Third World. Particular reference to political systems of Africa, Asia, Latin America, and the Middle East according to the relevance of the examples to large conceptual issues, and according to the major interests of the instructor. Typical issues include neocolonial dependency, the role of the state in newly developed countries, military rule and democratization. Note: This course is cross-listed as GLS 365. Students may not get credit for both POL 365 and GLS 365.

**POL 366 Communist Systems: Politics and Policies 3 Credits**

The course aims to provide students with an understanding of the origin, development, and history of communism, as well as the current political systems and practices of communist regimes in the world. Students are expected to acquire in-depth knowledge about the origin and development of communism, the influence of communism in world politics, and political systems and policies of contemporary communism regimes. Topics examined include Communist Manifesto, communism in the USSR, communism in China, McCarthyism in the U.S., Cold War, collapse of the USSR, fall of Berlin Wall, and communism in contemporary Cuba and Korea.

**POL 367 Politics of Exile, Asylum and Diaspora 3 Credits**

This course analyzes mass migrations and refugee movements and what they mean for the stability of nations, the increasing potential of severe culture clashes within societies, and the root causes of (forced) migration movements, such as problems of violence, terror and genocide, as recently seen in Darfur, Rwanda and Bosnia. In certain European countries the frequently failed integration and assimilation policies resulted in an Islamic alienation; terrorist attaches and race riots are some of the consequences. Particular attention will be given to the conflict between the refugees' and migrants' needs that result from violent, socio-economic or ecological catastrophes in the countries of origin and the various forms of reception within the host countries. Students will explore theoretical, political, legal, and socio-economic dimensions of the refugee and immigration phenomena in a global world. Other themes will include international human rights and refugee laws, theories of immigration, for example, the feminization of migration, as well as problems of acculturation, assimilation and integration in different host societies. Note: This course is cross-listed as GLS 367. Students may not get credit for both POL 367 and GLS 367.

**POL 368 International Organizations 3 Credits**

This course introduces students to the study of international organizations. The course examines mostly formal and governmental institutions as well as informal institutions or regimes. Topics to be covered include and are not limited to: the establishment of international organizations, evolution of international organizations, structure of international organizations, decision-making of international organizations and influence of international organizations. This course employs both theoretical and practical approaches in its examination on international organizations. Note: This course is cross-listed as GLS 368. Students may not get credit for GLS 368 and POL 368.

**POL 371 The Arab-Israeli Conflict 3 Credits**

The course will begin by introducing the main players: the neo-patrimonial Arab regimes on the one hand, and the democratic, economically modern Jewish sector in Palestine on the other. The analysis will focus on the impact of the social, economic, political and religious differences between the sides on their conception of the conflict among the participants and powers outside the region. The course will concurrently examine the impacts of the dynamics of the conflict itself, relations within Islam on the one hand and between Islam and the West on the other. The latter part of the course will consider the sources of perceptual shift that led simultaneously to the narrowing of the conflict with the withdrawal of some of its participants (most Arab states) and its widening with the addition of Al Qaeda and Iran (via Hezbollah). Note: This course is cross-listed as GLS 371. Students may not get credit for both GLS 371 and POL 371.

**POL 399 The Co-operative Experience 3-12 Credits**

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. IND 398 and (dept.) 399 combined cannot exceed 15 credits. Pass/fail. Prerequisite(s): junior standing and 2.75 GPA at the time of registration.

**Corequisite(s):** IND 398 The Co-operative Experience Seminar.

**POL 415 Political Internship 3-6 Credits****POL 450 Seminar in Political Science 3 Credits**

A multidimensional framework within which to integrate the variety of perspectives and methodologies extant in the field of political science. Topics for discussion and analysis may range from broad concepts of political discourse such as power and interdependence to specific political issues such as executive-legislative relations and judicial policymaking.

**POL 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**POL 491 Internship in Political Science 1-4 Credits**

Students work under supervision in a public agency, political party, or public interest group. A minimum of 52 hours of fieldwork per credit required, with regular reports and a concluding critique analyzing and evaluating the experience. Primarily for seniors and qualified juniors. No more than six credits allowed toward graduation.

**Prerequisite(s):** permission of instructor.

**POL 499 Senior Honors Thesis 3-6 Credits**

Majors having completed the department's core requirements and having a minimum GPA of 3.5 in political science courses may apply for honors in their sixth semester. Applicants enroll in POL 490 Independent Research and Study in their seventh semester to develop and submit a thesis proposal to the department. With departmental approval, applicants prepare an honors thesis in their last semester. Upon acceptance of the thesis by the department, the student will be graduated with honors in political science.

**POL 501 Homeland Security 3 Credits**

This course is designed to help students increase their knowledge and understanding of problems impact the public agenda, why some solutions are adopted and other rejected, and why some policies appear to succeed while others appear to fail. The course will primarily examine policy making at the national level in the United States, but will also analyze examples at the state and local level, as well as placing U.S. policy in a comparative perspective.

**POL 502 The Development and Structure of U.S. Intelligence Agencies 3 Credits**

This course will provide an historical review of intelligence during the following World War II. It will examine the major functions of intelligence, as well as intelligence as a part of the foreign policy process: collection, analysis, counterintelligence and covert action. Students will be introduced to a range of collection procedures: human, open source, electronic, photographic, and signal. With emphasis placed on interpreting and writing intelligence summaries.

## Political Science

### Program Overview

How did American politics become so polarized? How can we understand the global shift to the right in electoral politics? What is freedom and how is it best protected? What causes politics to turn violent, what can be done about it? How can citizens affect change in their own communities and beyond?

These are just some of the big questions students will confront in Political Science courses at Rider University. Through these courses, students will examine politics at every level: local, state, national, international and global. They will acquire a variety of methodological skills and theoretical perspectives in order to develop a broad understanding of political institutions and processes, political cultures, and political actors. Students enjoy experiential learning in many of their courses, including Congressional simulations, mock trials, and creative problem solving in foreign policy.

### Curriculum Overview

Students take courses in many subfields of political science:

- American politics
- comparative politics
- constitutional law
- political theory
- international relations

Beyond the Political Science major, the department also offers majors in Health Care Policy (p. 697) and Global Studies (p. 680); as well as minors in Homeland Security Policy (p. 713), Global Studies (p. 680), and Political Communication (p. 760).

We also offer a Master's degree in Homeland Security (p. 713), which Rider undergraduates can complete in one additional (fifth) year of study.

Rider's Political Science students have many opportunities for hands-on Engaged Learning:

- The Rebovich Institute for New Jersey Politics (<http://www.rider.edu/offices/services/rebovich-institute-new-jersey-politics>) places students in internships in NJ, PA, NY, DC and beyond, offering fellowships to support students during unpaid summer internships.

The Institute also brings many noteworthy speakers to campus, including former Speaker of the House Newt Gingrich (R) and Rep. Bonnie Watson Coleman (NJ-D).

- Rider's award winning Model United Nations (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-science/liberal-arts-programs/political-science/model-united-nations>) (MUN) team has received Outstanding Delegation (the highest award) eight out of the last nine years. Students in MUN earn course credit while preparing to represent their delegation in an annual week-long conference at the United Nations in New York City.
- Washington Semester Program (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-science/liberal-arts-programs/political-science/washington-semester-program>) gives students the opportunity to intern in Washington, D.C. while taking courses at American University.
- Student Global Village® course GLS 285 allow students to take a semester long course virtually alongside students in Iraq, Northern Ireland, or another international university.
- Political Science faculty offer multiple teach-ins every semester, where they offer expert analysis of current events in politics. Students also lead teach-ins about their experiences outside the classroom, including Model UN.
- In addition to joining the Political Science Club, students are encouraged to join the College Democrats or College Republicans.

Our political science faculty members are active researchers and practitioners who bring their expertise into the classroom. Rider students find many opportunities to collaborate with faculty on research and present their work at disciplinary conferences. Recent research areas include:

- the politics of gas and oil pipelines
- campaign finance and political corruption
- the role of Hip Hop for under-privileged migrant youth
- world opinion and the Northern Ireland Peace Process
- the role of private military companies in African conflicts
- the role of ignorance in American politics and political thought

The study of politics and government is an important part of a well-rounded liberal arts education. Studying political science and the liberal arts will enhance a student's skills in critical thinking, written and oral communication, and problem solving which will serve them well in any career. More and more business leaders, including Rider alumni, report that they seek precisely these skills in potential employees.

Graduates in Political Science pursue a wide range of careers and public service opportunities, as well as advanced study, including:

- local and national politics and government
- international politics and IGOs (international governmental organizations)
- non-governmental organizations (NGOs)
- Peace Corps and Teach for America
- community and political organizing
- think tanks and policy analysis
- business
- journalism
- education
- graduate and law school

## Honors Program in Political Science

Political Science majors who have completed eight courses in political science with a cumulative average of 3.5 may request candidacy for graduation with honors in political science. Students should submit to the chairperson of the department early in their sixth semester (March 15 or October 15), an Independent Research and Study project signed by a faculty sponsor and approved by the department. Applicants typically enroll in POL 490 in their seventh semester to develop a thesis proposal. Upon approval, the honors candidate will enroll in POL 499.

Students also take a Senior Honors Thesis, for six credits, in the last semester. A substantive research work should be presented no later than April 1 or November 1 before a committee made up of the thesis advisor and two faculty members approved by the department. Honors in political science is awarded upon the successful completion and defense of the thesis.

<sup>3</sup> One Social Perspectives General Education Requirement is included in the major.

**Courses and Descriptions****POL 100 Introduction to American Politics 3 Credits**

An examination of basic principles of the U.S. constitutional system; the operation of the democratic process; the organization, powers and procedures of Congress, the presidency and the federal judiciary; and the functions, services, and financing of the national government. Emphasis is on public issues, national priorities, and civil liberties. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Note: This course is cross-listed as HLS 100. Students may not get credit for both POL 100 and HLS 100.

**POL 102 Understanding Politics 3 Credits**

Introduction to the study of politics and government, including major political theories and ideologies, systems of government (i.e., presidential, parliamentary, authoritarian, totalitarian), public opinion and behavior, international relations and war, and contemporary policy issues. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**POL 200 NJ Government and Politics 3 Credits**

Political institutions, processes, and problems of state and local governments of New Jersey. Analysis of legislative, executive, judicial, regulatory bodies, special districts, and autonomous agencies. Aspects of personnel, finance, and services.

**POL 201 Policy Issues, Advocacy, and Budgeting 3 Credits**

Surveys various domestic economic and social policy issues, the government budgeting process, and how citizens and groups advocate their interest through organizing, coalition-building and lobbying. Emphasis on developing practical skills in issue analysis, lobbying, legislative tracking, and public budgeting.

**POL 202 The Political System - Theories and Themes 3 Credits**

This course serves as a gateway to the subfields of comparative politics and international relations. The concept of the political system helps political scientists to organize political interrelations into patterns that allow systematic selection and interpretation of information and the study of processes and outcomes of politics in a variety of settings. The course introduces students to the main brands of normative theory prescribing the principles directing the operation of the political system, to some of the most important methods used to compare political systems and/or their components, and to the foremost approaches utilized in the study of the relations between political systems and their environments. Note: This course is cross-listed as HLS 202. Students may not get credit for both POL 202 and HLS 202.

**POL 203 Homeland Security 3 Credits**

The course is designed to help students increase their knowledge and understanding of homeland security policy. The course will consider why and how homeland security problems impact the public agenda, why some solutions are adopted and others rejected, and why some policies appear to succeed while others appear to fail. The course will primarily examine policy making at the national level in the United States, but will also analyze examples at the state and local level, as well as placing U.S. policy in a comparative perspective. Note: This course is cross-listed as HLS 203. Students may not get credit for both HLS 203 and POL 203.

**POL 204 Development and Structure of the US Intelligence Community 3 Credits**

This course provides a historical review of intelligence following World War II. It will examine the major functions of intelligence, as well as intelligence as a part of the foreign policy process: collection, analysis, counterintelligence, and covert action. Students will be introduced to a range of collection procedures: human, open source, electronic, photographic, and signal, with emphasis placed on interpreting and writing intelligence summaries. Note: This course is cross-listed as HLS 204. Students may not get credit for both POL 204 and HLS 204.

**POL 205 Introduction to Public Policy 3 Credits**

The course provides students with an introduction to the study of public policy by linking the theoretical with the practical. The course focuses on three areas of analysis: 1) descriptive 2) evaluative and 3) prescriptive. Students will develop skills required to define and critically examine policy problems, articulate relevant decision-making criteria and assess alternative policy options. Last the course provides examples of public policy problems through the substantive policy areas of health, environment and education.

**POL 206 Healthcare Regulation and Governance 3 Credits**

Health Regulation and Governance explores the institutions, processes and actors involved in governing and regulating the healthcare system in the US. The course engages the topic through the lens of federalism by examining the role of the Executive, Legislative and Judicial branches of government in regulating and governing healthcare at the national level as well as the role of the states in this policy area. Students will not only be introduced to the structure of regulation and governance of healthcare in the US, but will also be able to contextualize contemporary issues in healthcare in order to not simply addresses problems in the sector, but to also begin to identify solutions to issues that impact the population.

**POL 210 Public Opinion 3 Credits**

Public opinion as a social force and as expression of public sentiment on political and social issues. Topics include: development and dissemination of opinions, the measurement of public opinion, public opinion and governmental processes, and the reciprocal relationship between mass media and public opinion. Note: This course is cross-listed as GLS 210. Students may not get credit for both POL 210 and GLS 210.

**POL 215 Global Politics 3 Credits**

The struggle for power, wealth, and order at the global level involving nation-states, intergovernmental organizations (such as the United Nations, the European Union, etc.), non-governmental organizations, transnational enterprises and other non-state entities, using military, economic, diplomatic, legal, and communication instruments. Overview of global problems such as the proliferation of weapons of destruction, ethnic and religious conflicts, human rights, and the global environment at the threshold of the 21st century. Real-time use of the Internet is an integral aspect of this course in terms of readings and assignments. (This course is a prerequisite for POL 295 Special Projects in Political Science: Model United Nations.) Note: This course is cross-listed as GLS 215. Students may not get credit for both POL 215 and GLS 215.

**POL 216 Comparative Political Systems 3 Credits**

A general introduction to types of government and political regimes of the world as they try to cope with the dual challenge of ethnic micropolitics and transnational globalization. Major prototypes of democracy: the British parliamentary system, the American separation of powers system, and various combinations of these two. Traditional autocracy, totalitarian dictatorships, and late 20th-century authoritarian regimes. Students are expected to acquire in-depth knowledge of comparative political systems, and to develop a basic understanding and appreciation of the major concepts and themes in comparative political systems studies.

**POL 218 Asian Political Systems 3 Credits**

(Formerly the Pacific Rim in the 21st Century) This course aims to provide students with an understanding of the fundamentals of the government, politics, economic development as well as the history and culture of countries along the Pacific Rim. The countries examined include China, Taiwan, Hong Kong, Singapore, Japan, South Korea and North Korea. Students are expected to understand 1) the democratization wave and efforts across the Pacific Rim countries and regions, 2) the economic development of these countries and regions and the consequential sociopolitical impact, and 3) concepts of political institutions and political culture in a comparative perspective.

**POL 220 Terrorism & Counter Terrorism 3 Credits**

This course introduces students to the arguments about the definition of terrorism, the historical use of terrorism and the roles of ideology, religion, and psychological factors that help explain and predict it. The course seeks to identify the components of national security policy aimed at countering such elements and their cost, both in financial and civil right terms. Finally, to illuminate both the definition and the policies discussed, the course will offer brief comparisons with other states, especially Israel, the UK, and Russia.

**POL 225 Nationalism in World Politics 3 Credits**

Nations and nationalism. An overview of nationalistic manifestations in the world today. Nations, states, nation-states. Multinational states, stateless nations. Imperialism, anti-imperialism; nativism vs. internationalism and globalism. Topics include nationalisms in the Holy Land; in the former Yugoslavia; in the former Soviet Union and its successor states; and economic Nationalism vs. Globalization. Note: This course is cross-listed as GLS 225. Students may not get credit for both POL 225 and GLS 225.

**POL 230 Methods of Political Analysis 3 Credits**

An overview of the various qualitative and quantitative methods that political scientists use to study their discipline. Themes include analyses of political participation and support, methods of studying elections, measures of political tolerance and liberalism.

**POL 235 Race and Ethnicity in American Politics 3 Credits**

Examines the changing political, economic, and social situation of racial and ethnic groups in American politics since the 1950s. Topics include the relationship between race/ethnicity and voting behavior, political parties, and election results. Includes an analysis of specific areas of contemporary racial and ethnic conflict, such as voting rights, immigration, and affirmative action.

**POL 239 Political Thinkers & Thought 3 Credits**

A survey of the most significant political thought from ancient times into the modern era. Subject matter includes discussion of such questions as the nature of freedom, natural law and right, constitutionalism, political obligation, justice, form of regime.

**POL 247 Political Campaigning 3 Credits**

This course entails the study of campaigning for political office at the federal, state and local levels in the United States. While attention will be given to how the broader political environment and specific factors, e.g., the decline in partisanship, hot button issues, local interests, and money, affect the nature of campaigns, the course's primary focus will be on how to organize and conduct a successful and ethical campaign, including how to collect and analyze pertinent data, manage a staff, develop a communications plan, and get out the vote.

**POL 255 European Politics 3 Credits**

A comparative analysis of the social and political systems of Britain, France, Germany and other Western countries within the European framework. Emphasis will be on the identification of ways in which countries similar in social characteristics are also similar in their political systems and on the extent and circumstances under which they differ. Similarities and contrasts will also be drawn with political structures and processes in the United States. This course, on occasion, may contain an optional travel component during January.

**POL 260 Politics of Law and Order 3 Credits**

The constitutional, legal, political, and administrative aspects of the criminal justice system in the United States are studied, including the court system at all levels of government, law enforcement agencies, correctional programs and institutions, probation, parole, and the relationship of our legal institutions to the broader political system.

**POL 267 China in Transition 3 Credits**

This course aims to provide students with an understanding of the history, government, politics, economic development as well as political culture of the People's Republic of China. Students are expected to acquire in-depth knowledge of China's political history, government structure and China's economic development and consequential sociopolitical impact. At the same time, students are expected to develop a basic understanding of the concepts of studying Chinese political institutions and political culture in a comparative perspective.

**POL 270 Interest Groups and Lobbying 3 Credits**

The course will introduce students to the area of interest groups and lobbying. Topics to be covered include theoretical developments, methodological approaches of group formation, organizational maintenance, and strategies used to influence public policy in the executive, legislative, and judicial branches of government.

**POL 272 Politics of Latin America 3 Credits**

The course will begin by discussing Latin American nations from the point of view of their common ancestry in European colonization, including the ways in which European cultural and economic patterns were introduced into indigenously populated areas, how these persisted after independence from European imperialist regimes and the U.S., and how these legacies have their continued effects into the present. The course continues with inquiry into the domestic politics and governmental systems of a number of Latin American nations. The course also takes up present day relations between Latin American political systems, the United States, and various organizations of the global economy such as International Monetary Fund, the World Bank, and the World Trade Organization.

**POL 280 Sex & Politics 3 Credits**

The bearing of gender upon politics: whether political activity is more characteristic of one or the other sex; the comparative fates of male and female in political society; the political implications of change in the content and mutual status of masculinity and femininity. Inquiry into classical, traditional, and contemporary views.

**POL 295 Special Topics in Political Science 3 Credits**

For non-seniors who engage in serious research in political science. Topic to be approved by instructor and department chairperson.

**POL 300 U.S. Constitutional Law 3 Credits**

The role of the Supreme Court in the American political system is assessed. Topics include the staffing and functioning of the Supreme Court and the federal judicial bureaucracy, the origins and development of judicial review, and the role of the Supreme Court in national policy-making. Note: This course is cross-listed as HLS 300. Students may not get credit for both HLS 300 and POL 300.

**POL 301 Civil Liberties in the U.S. 3 Credits**

The American doctrine of civil liberties in theory and practice. Emphasis on analyzing the freedoms of speech, press, assembly, and religion, the right of privacy, and the problem of discrimination in the context of contemporary issues and problems. Particular attention to the role of the Supreme Court in this area. Note: This course is cross-listed as HLS 301. Students may not get credit for both HLS 301 and POL 301.

**POL 302 Insurgency 3 Credits**

The course explores the occurrence of insurgencies and civil wars. It examines the causes of such conflicts by focusing on the role of resources, state capacity, ethnic/religious differences and power in the initiation of violence. Students will learn how recruitment tactics and access to funding sustain guerrilla warfare. Lastly, the course will focus on conflict management by emphasizing specific tools for terminating and preventing intrastate conflicts including the impact of international interventions, counterinsurgency strategy of winning the hearts and minds, institutional design, and reconciliation.

**POL 303 Global Justice 3 Credits**

This course examines some of the most vexing problems in today's world of global interconnectedness. How can we harness the potential of global cooperation to solve problems that cross national borders? We will critically analyze the potential for human rights to protect vulnerable individuals, including victims of human trafficking. We will also evaluate the distribution of global resources and costs, including natural resources, extreme poverty and environmental degradation. What do we owe those who live in distant lands? Throughout we will ask how reality matches up to our best hopes for the present and future.

**POL 304 Political Behavior: Fear, Risk and Crisis 3 Credits**

The course focuses on various analytical approaches in behavioral political science. It does so by advancing students' knowledge of the cognitive aspects of whether citizens engage in various types of political behavior-e.g., voting/non-voting, the formation of political partisanship and ideology, issue perceptions, responding to risk and uncertainty in the political environment, and engaging in civic political participation. Note: This course is cross-listed as HLS 304. Students may not get credit for both POL 304 and HLS 304.

**POL 305 Political Parties and Electoral Behavior 3 Credits**

The structure, character, and functions of U.S. political parties and pressure groups, and their impact on public policy. Parties are analyzed within the broader scope of organizational theory and comparative party systems. Major emphases on their historical origins, their role in contemporary political life, and particular aspects of party politics—local organization, membership, campaigning and elections, policy-making roles, and leadership.

**POL 306 Political Film 3 Credits**

This course analyzes the structure, history, and impact of the genre of political film. It begins with a discussion of how one distinguishes a political film from other forms of cinema. It then proposes insights into the manner in which these films evoke a particular time and place in politics, affect the viewer's interpretation of a political event or figure, and have an effect upon a viewer's political perceptions or behavior. The student will also learn to review films critically, both as political statements and as effective (or ineffective) conveyors of political messages. Note: This course is cross-listed as GLS 306. Students may not get credit for both POL 306 and GLS 306.

**POL 307 Political Communication 3 Credits**

The meaning and uses of political communication are examined, the manner and forms such communication takes, and the history of political discourse. Major topics include the role of communication in elections and the development of public policy, how political communication strategies have changed with the rise of mass media, and the development of national and international publics for discourse. Note: This course is cross-listed as GLS 307. Students may not get credit for both POL 307 and GLS 307.

**POL 308 Capitalism and Inequality 3 Credits**

This class is about market economies: how they are theorized, how they operate, and how they affect the humans who live and work within them. The first part of this course offers an overview of major modern theorists of capitalism (with selections chosen for a political science audience), including Smith, Veblen, Schumpeter and Keynes. These thinkers have made influential contributions to debates about the proper role of government in regulating and shaping economic relations and conditions. We then turn to contemporary theories of distributive justice, including libertarianism and egalitarianism. The second half of the course explores realities of socioeconomic inequality, the experience of poverty in the U.S., as well as the kinds of policies which might alleviate or resolve various dimensions of inequality and poverty. This course prepares students to evaluate public policies and articulate policy positions while attending to their economic and human costs.

**POL 309 Will China Be Next Superpower? 3 Credits**

This course has two focal points: one is the rise and fall of great powers in the history of world transformation; the other is China's whereabouts in this transition. The former deals with a group of International Relations theories, which focuses on systematic transformation. Students are expected to learn extant theoretical knowledge on how and why a great power rises and falls. The latter is our empirical referent. Students are led to study China's contemporary history, geopolitics, political economy, and international relations as to make a learned connection between theoretical wisdom and practical data on China. This course will provide students with a better understanding of China in general and its superpower status in the making in world politics in particular, offer students a chance to review the sources and consequences of different national approaches to greatness, and help students find his or her own analytical framework for understanding international political events that may have transforming effects in Northeast Asia as well as on the world stage. This course is cross-listed as GLS 309. Students may not get credit for both POL 309 and GLS 309.

**POL 310 Political Psychology and Human Nature 3 Credits**

The 2016 presidential campaign season saw a marked increase in partisanship, polarization, animosity and resentment among Americans, mirroring a worldwide trend toward "tribalistic" group identification at the expense of outsiders. Why can't we all just get along? What makes it so hard to sympathize with those who seem different or unfamiliar, and so easy to assume the worst about them? This course will bring together classic political theory, psychology and the social sciences, in order to help explain political beliefs and behaviors. We will begin by considering how classic political theory has conceptualized human nature, and the various implications for political life. We will then consider scientific perspectives: evolutionary anthropology, social psychology and cognitive neuroscience. We will examine the role of bias in cognition and politics and we will critically interrogate assumptions about rationality. We will also see that different psychological dispositions underlay conservatism and liberalism. Ultimately, this course will consider how these features of human cognition shed light on partisanship and polarization, racial bias, and policy preferences, including popular reception of science concerning vital issues such as climate change and the safety of GMOs. We will conclude with considerations of how a better understanding of psychology might propel us toward a more productive political discourse.

**POL 311 Sovereignty, the State and Borders 2 Credits**

Borders have a prominent place in politics and human history. In the twentieth century, the best known barriers were the militarized Maginot Line and the Iron Curtain. Today, the political popularity of borders persists but the nature and quality of these borders and the threats they are created to repel have changed. Modern borders are designed not to keep militaries out, but to deter a perceived invasion of "undesirables"—with terrorists and unwanted immigrants leading the list of state concerns. Nowhere is this more evident than along the geographic fault lines dividing rich and poor regions, e.g. the Mediterranean Sea and the U.S.-Mexican border region. This course will examine the dynamic interactions between the question of how to govern one's borders and the twenty-first century liberal state with its diluted sovereignty—due to immigration, trade and international laws and regimes. In the first post-Cold War decades it was intellectually fashionable to dismiss borders as increasingly irrelevant to the human experience in the age of globalization. Scholars saw the significance of national borders for the Western world as having been vastly reduced by the three forces of military change, economic development and modern communication technologies (Horsman and Marshall 1994). Some free market liberals have even popularized the notion of an emergent "borderless world" (Ohmae 1990). These cheerful views stressing the benign, pacifying effects of economic integration and interdependence that must lead to a rollback of the state and the erosion of borders, came crashing down on September 11, 2001. After two decades of debordering, the new rules of the game focus on rebordering, and the importance of state with its reassertion of border controls and an ideological redefinition of border functions (Andreas and Snyder 2000). To be sure, borders, with all their practical and formal features, are increasingly just one element in a larger emergent operational space.

**POL 312 Congressional Politics 3 Credits**

An intensive analysis of the legislative process in the United States, considering both the internal organization and operation of Congress, and Congress' role in the broader American political system. Fundamental issues include the theory and practice of representation; the committee system, seniority and expertise; executive and legislative interaction; and the politics of congressional reform.

**POL 313 American Presidency 3 Credits**

A description and analysis of the American presidency: its historical development, the internal organization, and ecological context. Basic issues include the intent of the framers of the Constitution, the historical accumulation of presidential powers, and institutional limits on presidential power (e.g., Congress and the bureaucracy).

**POL 314 Congressional Power and National Security Policy 3 Credits**

The purpose of this course is for students to identify, examine, analyze, and interpret the role of Congress in shaping national security policy with a particular emphasis on the institution's role in the Global War on Terror. Particular attention is paid to the role of the US government being able to balance individual rights and liberties within the national security state. Last, the course also takes an in-depth analysis of the U.S. Congress, looking comparatively at how legislatures in other nations have dealt with crafting their own security policies. The course will address the following questions: First, what is the role of Congress in national security policy, what does it do, and why? Second, what are the various ways of studying the relationship between the legislative and executive branches of government in the US system as it relates to the Global War on Terror? Note: This course is cross-listed as HLS 314. Students may not get credit for both HLS 314 and POL 314.

**POL 315 Global Issues 3 Credits**

Military, economic, demographic, and environmental threats to global security in the post-Cold War era. Forces of transnational integration vs. forces of intrastate fragmentation. Inadequacy of international law and organization to deal with these problems within the confines of the sovereign nation-state system. Note: This course is cross-listed as GLS 315. Students may not get credit for both POL 315 and GLS 315.

**POL 316 Presidential Power and National Security Policy 3 Credits**

This course examines the development of the National Security State since the Second World War, and the ways in which it has affected, and been affected by, the Federal Executive. Topics to be covered will include the post-World War II redefinition of "national security", the Cold War (with a special focus upon war powers during Korea and Vietnam) and the changes that have occurred with the "War on Terror." Note: This course is cross-listed as HLS 316. Students may not get credit for both POL 316 and HLS 316.

**POL 317 Model United Nations 3 Credits**

For non-seniors who engage in serious research in political science. Topic to be approved by instructor and department chairperson.

**POL 318 Conflict Resolution 3 Credits**

How do you craft a peace deal in a war-ravaged environment? Can negotiations with rogue regimes succeed and prevent the onset of conflict? With massive casualties, and unspeakable human rights abuses, conflicts continue to present a challenge to people around the globe. In this course, we will explore the dynamics of conflict management designed to keep countries from waging violence against each other. Our focus is both on ending existing violent conflicts and on preventing escalation of tensions. We will explore the impact of mediators and external interventions by international organizations or individual countries on conflict management. We will also examine the role of the International Court of Justice in resolving disputes when direct negotiations fail to succeed. Finally, we will study existing peacebuilding efforts designed to improve relations among victims and killers in post-conflict environment. Insights from theory on commitment problems will help us understand why peace is more vulnerable in domestic than in international conflicts. Throughout the semester, we will rely on various case illustrations from international and domestic conflicts, and participate in a simulation activity that will allow us to assume the roles of negotiators in disputes.

**POL 319 Terrorism and Leadership 3 Credits**

Revolutions are the mad inspiration of history. Trotsky's characterization calls attention to three important dimensions of violent political participation: the historical settings, ideology, and emotional fervor of the practitioners. The course focuses on these dimensions by analyzing revolutionary and terrorist movements in the 20th century. Special attention is given to the use of violence in the post-Cold War new world disorder.

**POL 320 Politics of the Middle East 3 Credits**

The course emphasizes the relationships between social and political structures, the role of religion, and the problems of modernization in the Middle East. Similarities and contrasts will be drawn between the Arab and non-Arab countries of the Middle East. The political systems of Egypt, Syria, Israel and Saudi Arabia are examined in terms of political culture, structure, and political processes.

**POL 321 International Law 3 Credits**

This course covers the basic doctrines of international law and their relationship to the contemporary international community. These include the jurisprudence of international law; the history of the international legal system; customary international law; Treaty law; sovereignty, statehood and recognition; jurisdiction and immunities; the role of international organizations; international criminal responsibility; and the relationship of the international legal system to the U.S. domestic legal system. The objectives of international law are to foster the peaceful settlement of disputes; facilitate transnational communication and commerce; encourage respect for human rights; as well as to preserve the environment. This course is cross-listed as GLS 321. Students may not get credit for both POL 321 and GLS 321.

**POL 322 African Politics 3 Credits**

Africa is in a process of transition, a continent of growing strategic importance to the U.S. and a land with considerable variation in political and economic success. The course is an introduction to the politics of sub-Saharan Africa. To understand the continent's current challenges, the course examines the legacies of colonial rule, including colonialism on the politics of ethnicity; focuses on the rise of authoritarianism in Africa in the 1970s and 1980s; examines the success and failure of democratization that is transforming the continent today; embarks on the quest to understand the continent's struggle with poverty and debt. Lastly, the course explores some of the biggest obstacle to Africa's stability, including state collapse, wars, corruption, while contemplating the future that lies ahead.

**POL 325 Public Administration 3 Credits**

Public administration in modern society, emphasizing the administrative formulation of public policy and its implementation. Attention on who gets what, when, and how from the decisions of administrative units; the role administrators have in policy-making compared to elected legislators, chief executives and judges; the effect administrators have on the benefits citizens receive from government; and the effect administrators have on citizens' behavior. Note: This course is cross-listed as HLS 325. Students may not get credit for both HLS 325 and POL 325.

**POL 326 Power in American Politics 3 Credits**

Examines various explanations of who has power in American politics. Explores the roles of appointed and elected officials, business and interest groups, the media, and the general public in shaping public policy. Special attention to political change, including the impact of broad social movements on the responsiveness of the political system.

**POL 327 Contemporary Issues in American Public Policy 3 Credits**

An in-depth examination of current issues in American politics. Drunk driving, political corruption, drug policy, education, and poverty are among the issues to be considered. Emphasis on analyzing policy problems and on developing and evaluating proposed solutions.

**POL 328 Environmental Politics 3 Credits**

Environmental Politics examines how policymakers deal with the political challenges of unsustainable resource consumption, which is a primary determinant of environmental problems such as climate change, adverse health effects, and biodiversity loss. The course introduces students to environmental politics and policies at the local, state, national, and international levels. The course is designed to provide students with a framework for understanding how varied interests compete within political institutions in order to transform contending ideas into public policy. With that in mind, students will not only become more informed consumers of political information, but will also become more effective at analyzing and advocating for policies as it relates to the environment.

**POL 329 Comparative Environmental Policy 3 Credits**

Comparative Environmental Policy analyzes cross-national approaches in developing, implementing, and evaluating policy responses to environmental problems. The course analyzes the political factors, actors, and tools that help and explain why some societies have been more likely to develop effective responses to environmental threats. Note: This course is cross-listed as GLS 329. Students may not get credit for both GLS 329 and POL 329.

**POL 330 Geopolitics of Energy 3 Credits**

Geopolitics of Energy Security explores the role of energy in shaping global politics, natural resource management practices and volatility in economic markets. The course begins with an overview of energy security and explores issues associated with energy production, national security, energy consumption, and environmental conservation. Throughout the course students will become familiar with basic data, trends, issues and options in the exploration and production of renewable and non-renewable energy sources.

**POL 331 Political Corruptions 3 Credits**

This course will introduce students to one of the central political issues in the USA as well as abroad: corruption. Whereas this was considered in earlier days as 'temporary malady' of third world systems, today it is considered a pervasive phenomenon in democratic systems as well. As such it acquired widespread scholarly as well as public attention in established democracies such as the USA (at least since the elections of 2016). The course will utilize a range of approaches to examine the meaning of corruption, the link between what the law defines as corruption and what is understood by the term by broad publics, the interaction between both conceptions and system legitimacy, and the methods by which corruption may be contained.

**POL 335 Urban Politics 3 Credits**

Political structure and administration of municipalities in the United States. Emphasis on problems posed by suburbanization, global and regional shifts in business, economic dislocation, housing, race relations, and policing.

**POL 340 Modern Democracy and Its Critics 3 Credits**

The course examines the fundamental assumptions underlying modern democratic theories and the main theoretical attacks launched against them. Among the contending theories to be discussed are right and left-wing anarchism, the old and the new left, fascism, intellectual elitism, and techno-conservatism. Note: This course is cross-listed as GLS 340. Students may not get credit for both POL 340 and GLS 340.

**POL 342 Contemporary Political Theory: Freedom and Authority 3 Credits**

Concepts of freedom and authority in 19th and 20th-century political theory. Emphasis on such important thinkers as Nietzsche, Freud, Sartre, Camus, and Marcuse. Note: This course is cross-listed as GLS 342. Students may not get credit for both POL 342 and GLS 342.

**POL 343 American Political Thought 3 Credits**

The philosophical background and moral principles of American political society: liberty, equality, natural law and natural right; constitutionalism and nation-building. The development of the ideologies of liberalism, conservatism, and libertinism are also covered.

**POL 345 Ancient Political Theory: Justice 3 Credits**

The existence of society over time requires high degree of predictability and hence laws, whether explicit or implicit. These derive their capacity to regulate life from the widespread notion that they are proper and that they should be obeyed. In a word, they accord to our notions of justice. These, however, are not stable. Resting on the understandings of man, society, nature and the relations between them, they develop under the impact of human thought and changing realities. The result is what can be compared to a layered cake. This course treats some of the main contributions made by philosophers from Plato to Rawls to our concept of justice and the manner by which they have shaped our concepts of justice in the US and West in general. Cases in which courts (mainly the US Supreme Court) made use and applied the thinking of earlier philosophies of justice will illustrate the process by which we adjust the boundaries between legality and criminality and determine how we should behave towards each other.

**POL 346 Liberal Democracy in Times of Stress 3 Credits**

This course examines historic and present day cases, ranging across Europe and the US, in which liberal democratic governments, under stress because of subversion, sabotage, invasion, rebellion, or the effects of economically caused chaos, take on emergency powers to become so-called "states of exception." While in some cases such states have imposed mild and limited emergency measures, others have employed more draconian measures, suspending, if not dissolving, constitutionally guaranteed civil liberties, often for indeterminate and protracted periods. How various states have behaved in emergency situations will be the major content of this course. Note: This course is cross-listed as HLS 346. Students may not get credit for both HLS 346 and POL 346.

**POL 350 U.S. Foreign Policy and Security Policy 3 Credits**

Principles, institutions, and processes involved in the formulation and implementation of policies regarding the nation's military, economic, and environmental security within the global framework. Strands, trends, and problem areas in U.S. foreign policy, with focus on the changing global environment of the post-Cold World War. Note: This course is cross-listed as HLS 350, GLS 350. Students may get credit for only one.

**POL 351 Critical Views of Global Security 3 Credits**

This course will examine the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspective on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (environment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security. Note: This course is cross-listed as HLS 351. Students may not get credit for both HLS 351 and POL 351.

**POL 361 Courts, Judges and Politics 3 Credits**

In-depth examination of the nature of judicial decision-making and the impact that judicial decisions have on society. Considers the sources of judicial authority, judicial fact-finding, statutory and constitutional interpretation, individual and collective processes of judicial decision-making, relations between judges and other government officials, and the political consequences of judicial decisions with particular emphasis on federal courts and judges. Note: This course is cross-listed as HLS 361. Students may not get credit for both POL 361 and HLS 361.

**POL 363 Human Rights in Global Context 3 Credits**

Examines human rights – droits de l'homme, derechos humanos, Menschenrechte, "the rights of man" – are, literally, the rights that one has because one is human. What does it mean to have a right? How are being human and having rights related? This course provides an introduction to theory and global practice of human rights. Human rights claims play an increasingly central role in political and social struggles across the world. The adoption of the Universal Declaration of Human Rights in 1948 signaled a proliferation of international human rights law and transnational non-governmental activism. While the promotion of human rights has become global, adherence to those standards remains highly uneven and gross violations and atrocities continue to occur. Given the breath and complexity of the human rights movement, including its engagement with law, politics and morals, in radically different cultures, this course is by its very nature multidisciplinary. Note: This course is cross-listed as HLS 363. Students may not get credit for both HLS 363 and POL 363.

**POL 365 Third World Politics 3 Credits**

Studies the major political issues of the Third World. Particular reference to political systems of Africa, Asia, Latin America, and the Middle East according to the relevance of the examples to large conceptual issues, and according to the major interests of the instructor. Typical issues include neocolonial dependency, the role of the state in newly developed countries, military rule and democratization. Note: This course is cross-listed as GLS 365. Students may not get credit for both POL 365 and GLS 365.

**POL 366 Communist Systems: Politics and Policies 3 Credits**

The course aims to provide students with an understanding of the origin, development, and history of communism, as well as the current political systems and practices of communist regimes in the world. Students are expected to acquire in-depth knowledge about the origin and development of communism, the influence of communism in world politics, and political systems and policies of contemporary communism regimes. Topics examined include Communist Manifesto, communism in the USSR, communism in China, McCarthyism in the U.S., Cold War, collapse of the USSR, fall of Berlin Wall, and communism in contemporary Cuba and Korea.

**POL 367 Politics of Exile, Asylum and Diaspora 3 Credits**

This course analyzes mass migrations and refugee movements and what they mean for the stability of nations, the increasing potential of severe culture clashes within societies, and the root causes of (forced) migration movements, such as problems of violence, terror and genocide, as recently seen in Darfur, Rwanda and Bosnia. In certain European countries the frequently failed integration and assimilation policies resulted in an Islamic alienation; terrorist attacks and race riots are some of the consequences. Particular attention will be given to the conflict between the refugees' and migrants' needs that result from violent, socio-economic or ecological catastrophes in the countries of origin and the various forms of reception within the host countries. Students will explore theoretical, political, legal, and socio-economic dimensions of the refugee and immigration phenomena in a global world. Other themes will include international human rights and refugee laws, theories of immigration, for example, the feminization of migration, as well as problems of acculturation, assimilation and integration in different host societies. Note: This course is cross-listed as GLS 367. Students may not get credit for both POL 367 and GLS 367.

**POL 368 International Organizations 3 Credits**

This course introduces students to the study of international organizations. The course examines mostly formal and governmental institutions as well as informal institutions or regimes. Topics to be covered include and are not limited to: the establishment of international organizations, evolution of international organizations, structure of international organizations, decision-making of international organizations and influence of international organizations. This course employs both theoretical and practical approaches in its examination on international organizations. Note: This course is cross-listed as GLS 368. Students may not get credit for GLS 368 and POL 368.

**POL 371 The Arab-Israeli Conflict 3 Credits**

The course will begin by introducing the main players: the neo-patrimonial Arab regimes on the one hand, and the democratic, economically modern Jewish sector in Palestine on the other. The analysis will focus on the impact of the social, economic, political and religious differences between the sides on their conception of the conflict among the participants and powers outside the region. The course will concurrently examine the impacts of the dynamics of the conflict itself, relations within Islam on the one hand and between Islam and the West on the other. The latter part of the course will consider the sources of perceptual shift that led simultaneously to the narrowing of the conflict with the withdrawal of some of its participants (most Arab states) and its widening with the addition of Al Qaeda and Iran (via Hezbollah). Note: This course is cross-listed as GLS 371. Students may not get credit for both GLS 371 and POL 371.

**POL 399 The Co-operative Experience 3-12 Credits**

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. IND 398 and (dept.) 399 combined cannot exceed 15 credits. Pass/fail. Prerequisite(s): junior standing and 2.75 GPA at the time of registration.

**Corequisite(s):** IND 398 The Co-operative Experience Seminar.

**POL 415 Political Internship 3-6 Credits****POL 450 Seminar in Political Science 3 Credits**

A multidimensional framework within which to integrate the variety of perspectives and methodologies extant in the field of political science. Topics for discussion and analysis may range from broad concepts of political discourse such as power and interdependence to specific political issues such as executive-legislative relations and judicial policymaking.

**POL 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**POL 491 Internship in Political Science 1-4 Credits**

Students work under supervision in a public agency, political party, or public interest group. A minimum of 52 hours of fieldwork per credit required, with regular reports and a concluding critique analyzing and evaluating the experience. Primarily for seniors and qualified juniors. No more than six credits allowed toward graduation.

**Prerequisite(s):** permission of instructor.

**POL 499 Senior Honors Thesis 3-6 Credits**

Majors having completed the department's core requirements and having a minimum GPA of 3.5 in political science courses may apply for honors in their sixth semester. Applicants enroll in POL 490 Independent Research and Study in their seventh semester to develop and submit a thesis proposal to the department. With departmental approval, applicants prepare an honors thesis in their last semester. Upon acceptance of the thesis by the department, the student will be graduated with honors in political science.

## Professional Writing

### Overview

The Certificate in Professional Writing enables students in any major to earn a separate career-focused credential. This 12-credit program is designed to fortify qualifications for employment in many fields and enhance preparation for success in the workplace. Students may choose from a range of applied-writing courses regularly offered by the Department of English.

### Admission Requirements

Admission to the program requires completion of CMP 125 with a final grade of C+ or better. English majors are eligible to apply.

### Degree Offered

- Certificate in Professional Writing

### Contact

**Arlene Wilner**, Ph.D.  
Professor, Department of English  
Fine Arts 315  
609-895-5567  
wilner@rider.edu

**Associated Department:** (mmorse@rider.edu)English (p. 611)

### Certificate Requirements

(12 credits)

Code	Title	Credits
Select any four courses (12 credits) from the list below, including at least two Professional Writing courses (ENG 321, ENG 322, ENG 323, ENG 324, ENG 407) and no more than one grammar-focused course (ENG 236, ENG 336).		
ENG 236	Applied Grammar & Syntax	12
ENG 318	Food Writing	
ENG 320	Editing for Literary Publishing	
ENG 321	Business & Professional Contexts	
ENG 322	Grant Proposals, Fundraising and Development	
ENG 323	Reviewing and Publishing	
ENG 324	Workplace Writing: Online Contexts	
ENG 325	Jobs in Book Publishing	
ENG 336	Grammar and Style	
ENG 405	Advanced Prose Style	
ENG 407	Advanced Workplace Writing	
ENG 490	Independent Study: Research and Creative Expression (if focused on workplace-related writing)	
Total Credits		12

### Program Completion and Certification

To earn the Certificate in Workplace Writing, students must complete the selected courses with an average grade of B or better. In addition, students must submit a final e-portfolio representing their best work from each of the courses taken, including a short commentary on each piece. The portfolio must meet Department of English standards for competency and completeness.

### Courses and Descriptions

**ENG 236 Applied Grammar & Syntax 3 Credits**

This course offers a review of the essential elements of English grammar and syntax and fosters understanding of how these elements work in notable argumentative and expository writing as well as in the student's own compositions. Focus is on both expert reading and effective writing. Changing attitudes toward usage, including influence of digital media on language use, are discussed. May be taken as preparation for, or independently of ENG 336, which addresses grammar, syntax, and style at a more advanced level.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 318 Food Writing 3 Credits**

Food Writing is a thematically based course in essay writing. It develops students' ability to write effective informal prose while also extending their knowledge about food sources, preparation, and consumption. They learn through readings and exercises, however, that food writing is about more than food. It encompasses the pleasures of the table, history, culture, science, and politics.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 320 Editing for Literary Publishing 3 Credits**

This course introduces students to the process of publishing literary magazines and books. Student will learn all aspects of publishing from solicitation of manuscripts to the production of copy. Specific skills will include copyediting, proofreading, and layout.

**ENG 321 Workplace Writing 3 Credits**

Students practice writing effectively to achieve specific purposes in typical business and professional workplace environments. Genres include various kinds of internal and external communication, including print and social media, for a range of audiences.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 322 Workplace Writing: Grant Proposals, Fundraising and Development 3 Credits**

Students employ their analytical and writing skills to research and write grants for non-profit organizations in their local or regional communities. Fundraising and development activities on behalf of area organizations introduce them to career opportunities in this growing field.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 323 Workplace Writing: Reviewing and Publishing 3 Credits**

Students learn to write arts and literary criticism through studying the work of prominent critics in literature, theatre, film, dance, visual arts, and music. Students learn how to market themselves as potential reviewers for print and online publications.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 324 Workplace Writing: Online Contexts 3 Credits**

This course will help students adapt their writing to online environments. A writing-intensive course grounded in rhetorical principles, it focuses upon planning, writing and producing online texts distributed entirely through virtual portals. Genres include E-mail, instant messages, text messages, blogs, wikis, workplace social-media, and online team collaborations.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 325 Jobs in Book Publishing 3 Credits**

Students will practice the forms of writing used by literary agents and publishing professionals working in acquisitions, editorial, and production at trade, academic, and small literary presses. These forms may include the query letter, book proposal, reader's report, and marketing plan.

**Prerequisite(s):** Completion of composition requirements or permission of instructor.

**ENG 336 Grammar and Style 3 Credits**

By building a comprehensive knowledge of the conventions of English grammar, punctuation and syntax, students will learn how to analyze the way words, phrases, sentences, and paragraphs work in expert writing, and they will apply this knowledge to their own writing. Emphasis is on argument, exposition, and analysis.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 405 Advanced Prose Style 3 Credits**

Students analyze prose styles in English from the Renaissance to the present, focusing on the development of syntax, diction, and content. Students will be encouraged to imitate stylistic models and to develop their own prose style.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 407 Advanced Workplace Writing 3 Credits**

Students will learn to adapt their writing skills to match specialized writing needs in publishing; corporate and personal finance; health, medicine, science, and technology. This course helps students build a portfolio and introduces them to corporate and freelance writing opportunities in our NJ/PA/NY area.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. To count toward the Certificate in Workplace Writing, an ENG 490 project must focus on workplace-related writing and be structured to include substantial formative feedback and revision. No more than one ENG 490 may be counted toward the certificate.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

## Psychology

### Program Overview

The psychology major is designed to meet the needs of various types of students and to develop a broad understanding of the many topic areas within the field of psychology.

The program is committed to helping students understand and appreciate both the scientific foundations and human service aspects of the field of psychology; develop and apply oral, written, analytical and critical-thinking skills applied to psychological issues, questions and problems; understand issues in contemporary psychology and recognize and apply psychological knowledge in order to provide solutions to real world problems and develop both interpersonal and intrapersonal knowledge through academic experiences and extra-curricular activities.

The program is designed to foster self-awareness and personal growth, the development of leadership skills and a respect and understanding for human development and human diversity.

More information is available on the Department's website: Department of Psychology (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-sciences/liberal-arts-programs/psychology>)

### Curriculum Overview

The curriculum develops the fundamental skills that predict success in the profession of psychology, human services, corporate jobs, education and graduate school. Classes stress the development of writing skills, both technical report writing and literature research papers and provide a range of instruction on the statistical data analysis, online control of laboratory experiments, text processing and presentation software. In fieldwork placements, students gain work experience in a variety of human services programs within the community.

Members of the psychology faculty encourage students to become involved in research projects. Many Rider psychology seniors bound for graduate school receive offers of substantial financial aid in the form of assistantships and tuition waivers. These offers are made because our majors carry out research of high quality. Students have coauthored journal publications with the faculty and presented papers at regional and national conferences. Laboratories are always open for students and faculty supervision is always available.

## Honors Program in Psychology

A student may receive honors in psychology by fulfilling the following conditions beyond the basic requirements for the psychology major: complete one Independent Research and Study project (490); earn a cumulative average of 3.25 and an average of 3.5 in psychology at the time of graduation.

## Degrees Offered

- B.A. in Psychology

## 4 + 1 Master's in Applied Psychology

The 4+1 Masters in Applied Psychology, Applied Behavior Analysis concentration, is designed for students who wish to combine undergraduate study in psychology leading to a Bachelor's of Arts degree with graduate study leading to a Masters of Arts in Applied Psychology.

The admission process for this program ensures that only capable students are enrolled. Freshman students are encouraged to seek advice about the program from their advisor and the program coordinator.

The following courses must be completed if the student intends to apply to the program: PSY 212 Introduction to Applied Behavior Analysis and PSY 299 Field Placement in Applied Behavior Analysis. PSY 299 is intended to assist the student in determining if the program is a good match for them. The additional undergraduate courses in Applied Behavior Analysis (PSY 339 Research Methods in Applied Behavior Analysis & Lab, PSY 388 Learning & The Experimental Analysis of Behavior, and PSY 389 Professional Issues in Applied Behavior Analysis) may be taken following application to the graduate program but must be completed prior to completion of the undergraduate program requirements. During the first semester of the junior year, the student will formally apply to the Applied Psychology program through the Graduate Admissions Office. The process involves the following:

- A completed application form for admission to the Applied Psychology program, accompanied by a \$50 nonrefundable application fee;
- Receipt of official transcripts from every college or university attended (including Rider University);
- A statement of objectives prepared by the student that presents the student's reasons for wanting to enter the Applied Psychology program;
- An interview with faculty from the Applied Psychology program; and
- Completion of PSY 212 and PSY 299 (prior to application).
- Completion of PSY 339 & PSY 339L, PSY 388, and PSY 389 (prior to completion of the requirements for the degree in psychology)

Students accepted into the Applied Psychology program at the end of their junior year will complete one graduate-level elective course during each semester of their senior year.

Students will be awarded the BA degree when they complete the requirements for that degree in psychology. The MA will be awarded upon completion of the Applied Psychology requirements.

## Courses and Descriptions

### PSY 100 Introduction to Psychology 3 Credits

An orientation to psychology, covering major facts, principles and concepts about human and animal behavior and experience, research findings, major problems, basic vocabulary, methodologies, and contributions in the field. Topics include psychology as a science; human development; individual differences; intelligence and its measurement; special aptitudes and interests; personality and social behavior; motivation and emotion; frustration and personality deviations; and learning, thinking, remembering and forgetting.

### PSY 102 Explorations in Psychology Honors 3 Credits

The course introduces the history of psychology, and demonstrates how the discipline is a science. It provides students with experience exploring the mind, behavior, and the relationship between the two, from multiple perspectives, including biological, behavioral, cognitive, developmental, humanistic, social, and abnormal. It tackles questions including (but not limited to) how different areas of the brain are involved in behavior and are affected by injury, how humans sense and perceive the world, how states of consciousness differ from one another, how humans learn, remember, communicate, and develop, what motivates humans to behave in particular ways, how social groups affect behavior and decision-making, and what happens when behavior and emotions deviate from what is typical.

### PSY 105 Introduction to Research in Psychology 3 Credits

Students will be introduced to the basic research methods used in psychology including, surveys, experiments and observation. Students will collect data and learn to describe this data using basic tools of analysis including graphic display and statistical analysis. Students will read original psychological research and learn to write using the conventions of the American Psychological Association.

**Prerequisite(s):** a grade of "C" in PSY 100.

### PSY 110 Psychology: The Science of Well-being 3 Credits

This course uses theory and methods of psychology to examine the question: How to make a good life? Students will learn how psychology examines the ways motivation, intellect, relationships, self-respect and a healthy lifestyle contribute to happiness, well-being, and flourishing. Students will learn how psychology examines human nature through observation and experimentation. Students will understand how psychology applies research to improve human well-being. Students will leave the course with a better understanding of themselves and their connection to others, and apply their self-knowledge to their personal goals and relationships. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### PSY 131 The Science of Mental Illness 3 Credits

The Science of Mental Illness explores the biological bases of mental health and mental illness, focusing on anxiety, mood disorders, schizophrenia, and Alzheimer's Disease. This course examines the neural networks of these conditions, common psychiatric medications for treating them, studies of the long-term efficacy and effects of using psychiatric medications, and the psychological and biological capacities for improving mental health. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### PSY 201 Statistics and Research Design 3 Credits

Introduces students to statistics and research methods in the behavioral sciences. Covers the fundamentals of descriptive and inferential statistics, a variety of issues in research design, selected research designs including the case study, correlational and experimental designs. In addition, students will explore the literature in psychology in order to examine the use of statistics and research design in real research problems.

**Prerequisite(s):** grade of "C" in PSY 105.

**PSY 210 Organizational Psychology 3 Credits**

Focuses on issues related to human behavior in work settings. Topics include personnel issues such as hiring and promotion decisions, performance appraisals, and methods of on-the-job training. Issues of job satisfaction, motivation, productivity, and effective leadership styles are also examined. Finally, organizational structure as it relates to communication within organizations will be examined.

**Prerequisite(s):** PSY 100.

**PSY 212 Introduction to Applied Behavior Analysis 3 Credits**

Presents a review of classical and operant conditioning, data collection and research design, data analysis and interpretation. In addition, assessment and treatment strategies in a variety of settings, contingency management in institution, classroom and home, systematic self-desensitization, and ethical consideration are discussed.

**Prerequisite(s):** PSY 100.

**PSY 215 Personality 3 Credits**

A synthesis of the most recent research in the field of personality development. Topics include interplay of biological, cultural, and subjective personal processes; analysis of the broad trends in personality theories; and introduction to personality measurement.

**Prerequisite(s):** PSY 100.

**PSY 218 Psychology of Women 3 Credits**

Examines the psychological development of women in our culture from birth to maturity, with an emphasis on the interaction of biological and social influences on personality, social behavior, and achievement of women. Investigates psychological sex differences in terms of current measurement approaches. Readings and text are drawn from psychological theory and research.

**Prerequisite(s):** PSY 100.

**PSY 220 Abnormal Psychology 3 Credits**

The development of abnormal personalities is discussed, with a survey of the various types of mental abnormalities, including their symptoms, diagnoses, and treatments. Neuroses and psychoses are emphasized.

**Prerequisite(s):** PSY 100.

**PSY 225 Learning Theory 3 Credits**

A broad coverage of the expanding fields of learning, memory, and cognition is provided, while addressing their relevance and impact on human behavior. Continuity between early associationistic and contemporary cognitive theories is established. Topics range from basic conditioning to the more complex processes of memory, concept learning, thinking, and problem solving. Prerequisite(s): PSY 100.

**PSY 226 Cognitive Psychology 3 Credits**

The study of the mind has been the focus of psychology since its inception in the 19th century. Today, the majority of psychological research focuses on the cognitive system and its biological basis. This course will provide an overview of knowledge regarding the components of the human cognitive system (e.g., attention, memory, executive processes) and how they form the basis for higher-order cognitive skills (e.g., language and decision making). The course will provide a history of the field and the methodologies that have been and are currently being used to study the human mind. Each section of the course will include an overview of basic and applied research to demonstrate how knowledge of the cognitive system can be used to enhance human functioning in applied settings and better understand human limitations and tendencies to commit certain types of errors.

**Prerequisite(s):** PSY 100.

**PSY 230 Child Development 3 Credits**

Presents theory and research on the social, emotional and cognitive development of children birth to age 12.

**PSY 231 Youth and Adolescent Development 3 Credits**

Presents theories, research and problems concerning development in youth and adolescence.

**Prerequisite(s):** PSY 100.

**PSY 237 Cognitive Disabilities 3 Credits**

Investigates various types of intellectual differences, focusing on etiology, methods of diagnosis, programs and services available to individuals and families. Considers problems relating to adjustment in academic, social, and vocational areas.

**PSY 238 Sensation and Perception 3 Credits**

The facts and theories of sensation and perception, their role in the total psychology of the individual, and current application are examined.

**Prerequisite(s):** PSY 100.

**PSY 240 Social Psychology 3 Credits**

Deals with the scientific study of human beings in social situations, focusing on reciprocal influence of the individual and the group, especially aspects of behavior that are socially determined. The nature of attitudes: their development and change; the nature of social influence; interpersonal perception and attraction; dynamics of social behavior; and social phenomena, such as prejudice and social movements, are covered.

**Prerequisite(s):** PSY 100.

**PSY 250 Psychology of Aging 3 Credits**

This survey course focuses on basic psychological issues in the aging process and in the elderly. It examines myths and stereotypes about aging and the elderly by way of research evidence pertaining to physical, psychological, and social changes accompanying aging.

**Prerequisite(s):** PSY 100.

**PSY 255 Biopsychology 3 Credits**

Basic biological structures and processes underlying behavior, including general neuroanatomy and neurophysiology; sensory physiology; structure and function of the motor systems; physiology of emotions, motivation, learning, memory; brain dysfunction; psychoactive drugs.

**Prerequisite(s):** PSY 100.

**PSY 279 Psychology and Law 3 Credits**

Introduces students to a study of selected topics in psychology and law. Topics include eyewitness testimony, jury selection, and decision making

**Prerequisite(s):** PSY 100.

**PSY 283 Sport Psychology 3 Credits**

This survey course will focus on the social and psychological factors related to performance and participation in sport and exercise, health, and injury rehabilitation settings. Two general questions will be explored: (a) how do social and psychological variables influence performance and participation in physical activity pursuits? And (b) how does physical activity participation affect the psychological well-being of the individual? To better understand these questions, this course will overview theoretical and methodological approaches to a variety of sport and exercise psychology topics, including: socialization, motivation, group processes, competition, and performance enhancement. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Prerequisite(s):** PSY 100.

**PSY 295 Directed Study in Psychology 1-4 Credits**

Provides an opportunity for students to obtain research experiences in psychology. Consists of a combination of project meetings, assigned readings and supervised research. Each student will work with a selected faculty member on a topic of mutual interest. Projects may include learning some components of research methods and applying these techniques to the collection and analysis of data. Provides focused reading and discussion as it relates to each student's research topic.

**Prerequisite(s):** PSY 100; psychology majors or minors and permission of instructor and chair.

**PSY 299 Field Placement in Applied Behavior Analysis 1-4 Credits**

The practicum provides hands-on experience using the tools of applied behavior analysis in a field setting. Provides supervised field placement experience in an approved institution or agency in order for students to gain knowledge in applications of applied behavior analysis. Placement is made in various community institutions and agencies that offer services to diverse populations.

**Prerequisite(s):** PSY 100, PSY 212.

**PSY 302 Research Methods: Cognition 4 Credits**

Provides students with an in-depth coverage of the expanding field of cognition and memory. Addresses issues and research within the field. Emphasis is on current views of human memory. Students learn how to design and conduct their own experiments from the topic areas of information processing, psycholinguistics, problem solving, learning and memory, social cognition, and cognitive neuroscience. Laboratory skills include programming computers, developing multimedia stimuli, recording psycho-physiological data, and composing an APA-format research report in a network-based writing lab. **Prerequisite(s):** a grade of "C" in PSY 201; PSY 225, PSY 237 or PSY 325 or permission of instructor.

**Corequisite(s):** PSY 302L.

**PSY 302L Research Methods: Cognition Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 302.

**PSY 303 Research Methods: Social Psychology 4 Credits**

Covers research methodology within the context of social psychology (i.e., topics include altruism, aggression, attraction and social perception). Both experimental and descriptive methodologies will be covered. Students learn about various aspects of the research process (e.g., design and execution of a social psychological study, analyzing and interpreting the results). Students also learn to integrate their research findings to produce an APA-style paper. Students use computer-based word processing and statistical analysis packages to achieve these goals. **Prerequisite(s):** a grade of "C" in PSY 201; PSY 240 or PSY 279 or permission of instructor.

**Corequisite(s):** PSY 303L.

**PSY 303L Research Methods: Social Psychology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 303.

**PSY 305 Theories of Psychotherapy 3 Credits**

An exploration of the history and theory of the psychoanalytic, behavioral, and humanistic approaches to psychotherapy. Comparisons and contrasts between these therapeutic modalities are discussed, as well as the theory underlying specific therapeutic techniques such as dynamic interpretations, dream analysis, the analysis of resistance and transference, counter-conditioning, modeling, and cognitive restructuring. Class exercises in addition to transcripts and tape recordings from therapy sessions are used to illustrate the various therapeutic approaches.

**Prerequisite(s):** PSY 215 or PSY 220 or permission of instructor.

**PSY 306 Research Methods: Sensation & Perception 4 Credits**

Provides instruction in research design, research methods, and integration of data analysis and methodology within the content framework of sensation and perception. All the general psychology research methods are taught. Special emphasis is given to the study of human vision and audition. Students design, conduct, and report laboratory research in the areas of sensation and perception. The computer-based components of the laboratory include lessons on interactive software instrumentation for research, and network-based technical writing using APA format. Projects are conducted during the term. Each student uses a dedicated networked Macintosh computer to: a) develop and generate research stimuli and procedures, b) analyze and report research data, and c) write formal research reports. **Prerequisite(s):** a grade of "C" in PSY 201 or permission of instructor.

**Corequisite(s):** PSY 306L.

**PSY 306L Sensation & Perception Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 306.

**PSY 315 Psychological Tests 3 Credits**

Examines the history of psychological testing. Issues concerning the construction of psychological tests are discussed, including concepts concerning reliability, validity, and item analysis. The rationale and structure of the major tests of intelligence, aptitude, and personality are reviewed, including the Rorschach, WAIS, TAT, MMPI, and Bender-Gestalt. In the last section of the course, students are given hands-on experience in the administration, scoring, and interpretation of a standard test battery.

**Prerequisite(s):** any statistics course.

**PSY 324 Play and Imagination 3 Credits**

This course surveys two of the most important manifestations of children's imagination: pretend play and imaginary companions. It will discuss the evolution of play, the purpose of play, the role of play in the development of creativity, and individual differences in play (e.g., among children of different gender, cultures, and ability levels). Finally, it will discuss the application of play to therapeutic methods for children.

**PSY 325 Cognitive Development 3 Credits**

Compares and analyzes the major theories of cognitive development: Piaget, Information Processing, Vygotsky, Gardner, and Sternberg. The course describes cognitive growth from infancy to adulthood. Particular topics will include: concept formation, language acquisition, memory reading and writing, mathematical skills and sociocultural skills. Also of interest will be the use of cognitive theory in education, and understanding variations from the typical pattern of cognitive development as in mental retardation and prodigies.

**Prerequisite(s):** PSY 100.

**PSY 329 Research Methods in Organizational Psychology 4 Credits**

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

**PSY 329L Research Methods in Organizational Psychology 0 Credits**

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

**PSY 330 Developmental Disabilities 3 Credits**

Introduces students to the genetic, biological, sensory-motor, cognitive, and social-emotional foundations of developmental disabilities. Selected syndromes will be reviewed in depth, as will treatments and intervention at the individual and family levels.

**Prerequisite(s):** PSY 230, PSY 231 or PSY 237.

**PSY 333 Autism Spectrum Disorders 3 Credits**

Provides students with a general understanding of the etiology, neurocognitive underpinnings, and general characteristics of the autism spectrum disorders. The course will examine the history of the study of these disorders, the main problems associated with these conditions, and will explore psycho-educational treatment alternatives.

**Prerequisite(s):** PSY 230, PSY 231, PSY 237, or PSY 330.

**PSY 335 Research Methods: Human Cognitive Neuroscience 4 Credits**

Covers the interdisciplinary study of the nervous system integrating neurobiology, physiology, pharmacology, and psychology as explanations for both normal and pathological human behavior. Topics integrate molecular levels of analysis, such as neuron structure and function, neurotransmitters, action potentials, and receptors, with molar levels, such as sensory and hormonal processes, learning and memory, emotions, drug use, and biological rhythms. Introduces research techniques used to study the function of the nervous system and the neural bases of behavior in humans. Neuroanatomical, electrophysiological, pharmacological, and neuropsychological assessment techniques may be explored as part of laboratory or field research projects designed in collaboration with the instructor.

**Prerequisite(s):** grade of "C" or better in PSY 201 and PSY 255 or permission of instructor.

**PSY 335L Research Methods: Human Cognitive Neuroscience Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 335.

**PSY 336 Research Methods: Animal Learning & Behavior 4 Credits**

Provides a comprehensive overview of the acquisition and modification of the behavior of animals, especially on laboratory strains of rodents and pigeons. Core topics include respondent and operant conditioning, animal cognition, observational learning, animal safety and welfare, single-subject and between-groups approaches to methodology, and the statistical analysis of the results of studies of behavior. The laboratory component of the course provides a comprehensive overview of animal handling and maintenance, animal welfare, and the recording of experimental results. Two substantial projects are undertaken; demonstration of a conditioned taste aversion and its effect upon the acquisition and extinction of an operant (bar press) response and subsequent discrimination and reversal learning. Results of both projects are written into APA-formatted reports. **Prerequisite(s):** a grade of "C" in PSY 201, PSY 225 or permission of instructor.

**Corequisite(s):** PSY 336L.

**PSY 336L Animal Learning and Behavior Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 336.

**PSY 339 Research Methods in Applied Behavior Analysis 4 Credits**

This upper-level laboratory course will provide students with in-depth study of the principles and applications of Applied Behavior Analysis. Students will examine behavioral principles, ethical considerations and real-life applications of ABA. Each student will design and implement a self-management plan to alter a behavior of their choosing.

**Prerequisite(s):** PSY 100.

**Corequisite(s):** PSY 339L.

**PSY 339L Research Methods in ABA Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 339.

**PSY 340 Research Methods: Group Dynamics 4 Credits**

Focuses on selected issues pertaining to group dynamics. Emphasizes an understanding of the personality and social factors that influence the functioning of unstructured and task-oriented groups. Students participate in a task group for the purpose of conducting a comprehensive research project on selected issues in group dynamics and the psychology of groups. The task group prepares an APA-style paper describing their research as well as an in-class presentation. Each student also submits a midterm and final written analysis of the interactional processes and development of the task group.

**Prerequisite(s):** a grade of "C" in PSY 201 or permission of instructor.

**Corequisite(s):** PSY 340L.

**PSY 340L Group Dynamics Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 340.

**PSY 345 Health Psychology 3 Credits**

This course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

**Prerequisite(s):** PSY 100.

**PSY 350 Research Methods: Developmental Psychology 4 Credits**

Focuses on one or more research areas in cognitive, personality, or social development. Includes an overview of major theoretical approaches to age-related change. Students review original research on selected aspects of behavioral change. The laboratory component of the course presents an overview of developmental research designs and methods focusing on the measurement of age-related change in psychological functioning. Students conduct field research projects designed in collaboration with the instructor and prepare an APA-style research report. **Prerequisite(s):** a grade of "C" in PSY 201 and PSY 230 or permission of instructor.

**Corequisite(s):** PSY 350L.

**PSY 350L Developmental Psychology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 350.

**PSY 360 Psychology of Peace & Conflict 3 Credits**

This course examines issues related to peace, conflict, violence, and conflict resolution. Theories and strategies that suggest ways of reducing and eliminating conflict are discussed. Psychological and social causes and consequences of violence and nonviolence are considered.

**PSY 365 Drugs and Human Behavior 3 Credits**

Presents the student with an in-depth analysis of the effects of alcohol and selected chemical substances on the behavior and body of the user. Commonly abused substances will be discussed in terms of their history, sources of production, routes of administration, distribution, metabolism and excretion, neurophysiology, tolerance, properties of addiction, withdrawal course and symptoms, and potential beneficial and harmful effects.

**Prerequisite(s):** PSY 100.

**PSY 367 Creativity and Innovation 3 Credits**

What is creativity, and how do we measure, study, and enhance it? This course will survey the modern theories of creativity from a psychological perspective, with an emphasis on the processes that underlie creative thinking and the variables that influence creative idea generation. Specific topics will include: convergent and divergent thinking, the role of the unconscious in creative ideation, flow and mindfulness, individual and group creativity, techniques such as brainstorming and creative problem solving, the neuroscience of creativity, the role of motivation, and creativity and innovation in organizations. Discussions of theoretical findings will be complemented by in-class activities and assignments that highlight applications to day-to-day living and to larger-scale challenges that require creativity and innovation.

**Prerequisite(s):** PSY 100.

**PSY 372 States of Consciousness 3 Credits**

This course explores the variety of states that comprise normal and altered consciousness. It highlights how these states are determined by complex interactions between conscious and unconscious mental functions. Key psychological concepts are applied in an investigation of various states of consciousness, especially meditative states and dreams. The course examines both the psychopathological aspects of altered states, as well as their potential beneficial effects on creativity and the development of the self.

**Prerequisite(s):** PSY 100.

**PSY 373 Cyberpsychology 3 Credits**

Cyberpsychology is the study of how emerging computer technologies, especially social media, affect the way people think, feel, and behave both online and in the face-to-face world. This course explores a wide range of topics concerning this rapidly developing field of psychology, including how individuals, interpersonal relationships, and groups function in cyberspace with both positive and negative consequences for mental health. It emphasizes an understanding of the basic concepts of cyberpsychology along with the implications of this knowledge for improving wellbeing in the digital age.

**Prerequisite(s):** PSY 100.

**PSY 374 Psychology of the Family 3 Credits**

This course examines the significance of family in human development. Using prominent themes of developmental psychology, such as: the role of attachment in forming human relationships, the significance of context in understanding human development, and the resilience of development; this course will explore the existing research on the family. Students are asked to consider their own experiences as members of a family, as well as to understand the varieties of ways family impacts development across the lifespan.

**Prerequisite(s):** PSY 100, PSY 230 or permission of instructor.

**PSY 375 Psychology and Film 3 Credits**

Attitudes, perceptions and memories are shaped by motion pictures. Filmmakers create enduring images by using cinematic techniques to portray social and interpersonal themes. This course will examine various cinematic techniques as well as how film portrays interpersonal relations, gender roles, race relations, mental illness, The Holocaust, and other genocides.

**Prerequisite(s):** PSY 100.

**PSY 377 Developmental Psychopathology 3 Credits**

This course provides an in-depth view of developmental psychopathology as an applied and prevention science. Developmental psychopathology is concerned with the emergence and continuity or discontinuity of psychopathology, or maladaptive behaviors, across the lifespan. An emphasis is placed on exploring individual, environmental, social, and especially cultural influences in explaining normal and abnormal behavior.

**Prerequisite(s):** PSY 230 or PSY 231.

**PSY 381 Psychology of Gender 3 Credits**

This course examines the meaning of sex and gender in modern society. The course readings and discussion will review and analyze the influence of gender on human behavior and emotions. The course will examine the significance of gender in shaping experience. Topics will include: gender differences in behavior, gender role development, gender and sexual identity, gender and social roles, cross-cultural perspectives on gender and transcending gender.

**Prerequisite(s):** PSY 100, PSY 218 or permission of instructor.

**PSY 382 Aging, Brain, and Cognition 3 Credits**

This course covers the biological structures and processes underlying cognition in humans and explores modulating factors such as age, sex, disease, stress, and environment. The theoretical and methodological issues of developmental cognitive neuroscience research are addressed. Focus of the course is on brain structure and function in the largest growing segment of our population, persons over the age of 65, and the link between structure and cognitive abilities, both intact and declining. Special attention is paid to those factors related to successful aging and treatments with putative cognitive enhancers.

**Prerequisite(s):** PSY 100.

**PSY 383 Psychology and Culture 3 Credits**

Students enrolled in this course will critically examine the intersection of culture and psychology. Topics covered include cultural influences on: identity, the perceptions and manifestations of mental illness, and treatment seeking.

**Prerequisite(s):** PSY 100.

**PSY 384 Positive Psychology 3 Credits**

Historically, the field of psychology has placed great attention on the question of, "What is wrong with people and how do we fix it?" This course will focus on the question of, "What is right with people and how can we build on that?" We will explore this by examining empirical research centered on the nature of happiness and psychological well-being. Positive psychology is the rigorous study of what is right and positive about people and institutions. Positive psychologists call for as much focus on strength as on weakness, as much attention on positive emotions as negative emotions, as much interest in building the best things in life as in repairing the worst, and as much attention to promoting the fulfillment of lives of healthy people as to healing the wounds of the distressed. This course will first present an introduction to the core assumptions and research findings associated with human strengths and positive emotions, then move on to explore interventions and applications informed by this perspective in counseling and psychotherapy, as well as in domains personally relevant to the lives of students such as school, work, family and other close relationships. PSY 384 is crosslisted with PSY 584.

**Prerequisite(s):** PSY 100.

**PSY 385 Death, Dying and Suicide 3 Credits**

Everything that is alive eventually dies, thus death is a part of life. Understanding death can help us to understand and experience life more fully, and it can help us to make appropriate, compassionate responses to death and dying. Class members will examine difficult and controversial psychosocial issues related to dying and death, death perceptions from childhood through older adulthood, religious and death attitudes, the dying process, living with dying, dying in the American health care system, euthanasia and biomedical issues, pain management, suicide, cross-cultural perspectives on dying and death, the business of dying, the legal aspects of dying, and the bereavement process.

**Prerequisite(s):** PSY 100.

**PSY 386 Introduction to Child Life: Working with Children and Families in Healthcare Settings 3 Credits**

The course provides the student with an introduction to the practice of Child Life in healthcare settings, serving as an educational foundation for those interested in pursuing a Child Life internship or other career working with children and families in a healthcare setting. Child Life programs seek to promote optimum development of children, adolescents, and families within a healthcare setting by helping to maintain normal living patterns and minimizing psychological trauma. Various theoretical positions related to the field (including but not limited to child development, play, stress, illness, trauma, and bereavement) will be described and their implications discussed. Classroom activities and assignments will help to develop relevant clinical skills including therapeutic play techniques, procedural preparation and support, coping strategies, child assessment, promoting advocacy/family-centered care, and health education. Official documents created by the Child Life Council, the certifying body for the field, will be reviewed, in addition to other seminal Child Life publications. The necessity for evidence-based practice will be discussed and relevant empirical studies will be presented (including those conducted in analogous academic fields such as developmental pediatrics and behavioral medicine).

**Prerequisite:** PSY 230.

**PSY 388 Learning and the Experimental Analysis of Behavior 3 Credits**

Students will review principles of behavior covered in PSY 212 Intro to ABA and move into more complex concepts and principles of behavior analysis including respondent behavior, respondent conditioning, motivating operations, schedules of reinforcement, and verbal operants. Students will also learn elements of behavior change and specific behavior-change procedures including: verbal behavior training, discrete trial training, interventions based on motivating operations and discriminative stimuli, and stimulus equivalence procedures.

**PSY 389 Professional Issues in ABA 3 Credits**

This course will provide students interested in working in the field of applied behavior analysis at the bachelor's level content based on the task list of the Behavior Analyst Certification Board (BACB) The course covers ethical and professional considerations relevant to the profession of applied behavior analysis as well as ethical and disciplinary standards of the profession. In addition, the course covers behavioral assessment and intervention, competency-based training, and evaluating the effectiveness of behavioral programs. Students will also have the opportunity to read seminal and current research literature on the topics.

**PSY 395 Special Topics in Psychology 3 Credits**

This course examines contemporary issues in psychology, with the particular topic varying each time it is offered. New directions in the field and/or current controversies will be the focus. Past offerings include Positive Psychology, Creativity, and Brain Games.

**PSY 400 Senior Seminar 3 Credits**

This capstone course will provide a synthesis and evaluation of important critical issues in psychology, such as the role of modern psychology in solving social problems, the scientific vs. human services perspectives on behavior, emotion and cognition; and the nature of mental illness and well-being. Students will be expected to draw broadly from their education in psychology; to grapple with conflicting points of view; and produce professional quality writing, oral or multimedia presentations.

**PSY 420 History of Psychology 3 Credits**

Provides a coverage of systems and schools of psychology; great psychologists, their contributions, and later influence in psychology. Current psychological problems are also discussed.

**PSY 490 Independent Study: Research and Creative Expression 1-4 Credits**

Provides students with an opportunity to design and carry out original research in an area of their choice. Students designate a faculty supervisor and work closely with him/her during the semester. All students must have approval from the department and the dean to register for PSY 490.

**Prerequisite(s):** PSY 201.

**PSY 491 Internship in Psychology 1-4 Credits**

Provides supervised work experience in an approved institution or agency in order for students to gain knowledge in applications of psychology. Placement is made in various community institutions and agencies that offer services to both exceptional and normal individuals.

**Prerequisite(s):** senior psychology majors or minors.

## Public Relations

### Program Overview

The field of public relations is one of the fastest-growing and most rewarding professions in today's information-based global economy.

As Public Relations majors at Rider University, students learn how organizations and individuals proactively manage communication challenges and opportunities in real world contexts. In classes lead by expert professors as well as professionals in the field, students examine case studies and current trends, as well as explore the importance of cultivating and maintaining productive relationships with clients, the media and opinion leaders. Throughout the program, students sharpen their skills by developing print and Web-based communication materials, planning and organizing events, and creating an effective presence on social media. In the capstone course, students work with local corporate or nonprofit clients to learn all facets of planning and executing a public relations campaign.

Outside the classroom, Rider's Public Relations majors are encouraged to gain experience by working as interns in a variety of fields including fashion, sports, healthcare, government or a number of other exciting industries. In addition, students have the opportunity to join the nationally recognized Rider chapter of the Public Relations Student Society of America (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-sciences/liberal-arts-programs/communication-journalism/club-activities>).

The Public Relations Student Society of America (PRSSA) is the foremost organization for students interested in public relations and communication. The organization seeks to advance the public relations profession by nurturing generations of future professionals. As a chartered chapter of the national organization, Rider University's Public Relations Major meets rigorous academic standards for public relations education, and subscribes to the highest ethical principles and diversity in the profession.

PRSSA is made up of more than 11,000 members in more than 300 chapters worldwide. Joining PRSSA gives you access to a variety of member benefits that will enhance your education, broaden your professional network, and launch your career. At the local level, the Rider University Chapter offers opportunities to meet leaders in the field through agency tours, guest speakers, workshops, professional mentoring, and trips to regional and national conferences. The Rider Chapter also provides opportunities to build your public relations portfolio through the chapter's activities including social media, event planning,

and public relations consulting activities. Dr. Nancy Wiencek (<http://www.rider.edu/faculty/nancy-wiencek>) is the advisor.

For more information, please visit the Rider University Chapter of PRSSA social media pages: Facebook (<http://www.facebook.com/RiderPRSociety>) and Twitter (<https://twitter.com/search?q=riderprsociety>).

## Curriculum Overview

Core classes in the Public Relations major include advanced speech, publication design, public relations, feature writing, publicity methods, communication research methods, and cases and campaigns in public relations.

Other classes include theories of persuasion, news reporting and writing, writing for broadcast, sports media relations, organizational communication, marketing principles, advertising principles and more.

## Degree Offered

- B.A. in Public Relations

## Contact

**Shawn Kildea, Ph.D.**

MKT 205	Advertising Principles	
Total Credits		27

<sup>1</sup> Students may not carry a double major within the department. Communication and journalism majors may declare only one minor in the department. No more than two courses may be used to meet the requirements for both a major and a minor in the department.

<sup>2</sup> If a student receives a grade lower than "C" in a course required in a major or minor in the department, the student must repeat the course. Credit will only be awarded once for a course that is repeatable. The student must also repeat the course before enrolling in any course which it is a prerequisite.

## Public Relations Minor

(21 credits)

Code	Title	Credits
COM 104	Speech Communication	3
COM 107	Persuasive Writing for Media	3
COM 212	Publication Design	3
COM 240	Public Relations	3
COM 316	Feature Writing	3
COM 341	Publicity Methods	3
COM 440	Cases & Campaigns in PR	3
Total Credits		21

<sup>1</sup> Note: Communication and Journalism majors may declare only one minor in the department. No more than two courses may be used to meet the requirements for both a major and a minor in the department. (Exception: If a student elects either the Advertising or Event Planning and Production minor, then three courses may be used to meet the requirements for both the major and that minor in the department.)

## Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different

plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

## Courses and Descriptions

### COM 102 Introduction to News Writing 3 Credits

Introduces students to routines of journalism, including reporting, writing and preparing content for print and web. Incorporates contemporary practices in multimedia journalism, including digital audio, video and photos, into traditional skills, with an emphasis on accuracy, clarity and professional style and voice. Class exercises are completed in a laboratory newsroom.

### COM 103 Introduction to Communication Studies: Theory & Practice 3 Credits

Provides a foundation for the study of communication across the discipline. Open to freshmen only, it is designed to assist the first year student majoring in communication or journalism to gain a broad understanding of the scope and breadth of the field. Fundamental communication theories, principles, concepts, terms, and issues are introduced.

### COM 104 Speech Communication 3 Credits

Examines basic communication principles and strategies of public speaking. Various genres of oral communication are studied, with an emphasis on extemporaneous and impromptu forms of delivery. Students research, prepare, and deliver speeches that are then used as the focal point for the discussion of effective speaking and listening. A number of speeches are videotaped. Students who received credit for COM 104S may not take this course. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

### COM 104S Intro to Speech Communication 1 Credits

As part of the EOP program, this course is designed to improve the speaking and language skills of new college students. Through directed practice, students have the opportunity to develop poise and confidence in oral communication, as well as competence in analyzing and synthesizing messages. Emphasis is placed on development, organization, and delivery of speeches. To receive credit, a grade of "C" or higher must be earned. Students who receive credit for COM 104S may not take COM 104.

### COM 105 Communication, Culture and Media 3 Credits

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### COM 106 Writing for the Communication Professions 3 Credits

Provides students with written communication writing strategies and tools. Applies theory and practice in communication to targeted audiences. Emphasizes the critical role writing plays in the communication workplace and provides an opportunity to evaluate and respond to real-life writing samples and situations.

### COM 107 Writing for the Media 3 Credits

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

### COM 131 Fundamentals of Video Production 3 Credits

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

### COM 201 Communication Theory 3 Credits

Explores selected theories, models, and research methods in human communication, the dynamics of the communication process in various settings, and the role of communication in human interaction.

### COM 203 Introduction to Social Media 3 Credits

Introduces the tools and techniques of social media as an effective means of communication in a variety of organizational settings. Students will practice with a variety of social media platforms, explore the roles and responsibilities of a social media manager, discuss the importance of establishing social media policies, and learn how to develop a social media strategy as well as how to measure its effectiveness through social media analytics. In addition, students will discuss important issues such as how to handle an online crisis, and the legal and ethical implications of digital communication.

### COM 204 Advanced Speech Communication 3 Credits

Provides students with the opportunity to further their study and practice of various types of speech communication. Moving beyond an introductory perspective, this course focuses on the development of critical, analytical, and pragmatic aspects of speech. The focus is divided between the discussion of theoretical models and a demonstrated competence of that material.

**Prerequisite(s):** COM 104 or COM 290.

### COM 205 Theories of Persuasion 3 Credits

Analyzes the motivations that lead individuals and audiences to beliefs and actions and the techniques of achieving objectives through persuasion. Attention, interest, empathy, ethos, fear, and techniques of speakers, and those who use persuasion professionally are studied.

**COM 207 Social Media and Social Change 3 Credits**

Introduces students to Web/ social media tools and information distribution networks that have enabled people to mobilize new types of collective action, inform publics and advocate positions. Community production and sharing of knowledge (Wikipedia), culture (YouTube, Flickr, the blogosphere), and political organizing (colorofchange.org) are current manifestations of social changes that are continuing to bloom in the 21st century. In this course, Rider University students will become literate in active Web and social media participation with a focus on engaging with current social, political and cultural issues.

**Prerequisite(s):** COM 201 or COM 205.

**COM 210 News Reporting and Writing 3 Credits**

Develops skills in hard-news reporting. Employs off-campus reporting assignments to refine information-gathering techniques such as interviewing, observation, and use of government documents and other contextual materials. Includes reporting and writing about police news, state and local government, the criminal justice system, science, business, and sports.

**Prerequisite(s):** COM 102.

**COM 211 Copy Editing 3 Credits**

Teaches all phases of copy editing for news and public relations: marking of copy, online editing, fact checking, building and shaping news and feature stories, applying mechanical style, building an ear for graceful English, and safeguarding against legal and ethical problems. Provides comprehensive review of grammar, spelling and punctuation, along with intensive practice in writing headlines and captions and editing wire copy.

**Prerequisite(s):** COM 102.

**COM 212 Digital Publication Design 3 Credits**

Students will explore the relationships between theory and practice, tradition and innovation, history and ever changing technological and aesthetic trends in publication design. Students will learn to use graphic image and typography as design elements in print media, such as newspaper and newsletter, as well as online media, such as e-magazine and e-book. Students will also learn the interactivity design for online publications. The course directs students to apply these concepts and skills to the production of published materials with digital publishing systems.

**COM 213 Typography 3 Credits**

Introduces students to the basics of typographic techniques and design aesthetics and provides an overview of the basic fundamentals of type design as they apply to graphics, advertising, the arts, and other areas of visual communication. The course focuses on how typography can be used as a communicative device as well as a graphic, compositional, and expressive element.

**COM 220 Voice and Articulation 3 Credits**

Increases the student's knowledge of the vocal elements of oral communication and improves use of voice and articulation. Introduces anatomy and physiology for enhanced vocal production. Analyzes volume, rate, pitch, quality, phrasing, stress, and inflection. Presents the International Phonetic Alphabet as a means of developing correct articulation and pronunciation. Uses classroom exercises and tape recording for feedback and learning.

**COM 221 Speaking for Broadcast and New Media 3 Credits**

Introduces the principles and techniques of speaking in traditional and digital media through the preparation and presentation of copy for live television and radio as well as recorded video and audio for the web. Students will apply the principles and techniques to a number of contexts including television and radio news, music and sports announcing, interviewing and talk programs, as well as public service announcements.

**Prerequisite(s):** COM 104 or COM 290.

**COM 230 Radio & TV Communication 3 Credits**

Examines the field of electronic communication and its role in society. Scrutinizes the history, technology, structure, and regulation of broadcasting including issues, trends, and the impact of new communication technologies. Introduces basic principles of effective communication in broadcast writing and producing.

**COM 231 Film and Television Special Studies 1 Credits**

Course descriptions will vary from topic to topic. This course will be offered Pass/Fail.

**COM 233 Writing for Broadcast 3 Credits**

Introduces diverse and highly structured writing styles and formats used in writing for broadcast. With focus on effective and creative writing using broadcast style, students will be exposed to the fundamentals of writing dramatic and non-dramatic material for radio and television including station IDs and liners, public service announcements and commercials, news and public affairs programs, and short dramatic and documentary scripts. Through lectures, case discussions, in-class assignments, and critiques, emphasis will be on the practical application of basic rules and conventions common to broadcast writing from copy preparation to on-air delivery.

**COM 234 Audio Production 3 Credits**

Provides a laboratory study of audio production techniques, and performance. Introduces the fundamental properties of sound as applied in modern audio production at radio and television stations, sound studios, and production houses. Students conduct lab exercises in editing, mixing, and digital recording using ProTools. Students perform a variety of genres including news, commercials, dramas, and promos.

**COM 235 Digital Filmmaking 3 Credits**

This course will provide students with an introduction to basic narrative film production including theories, techniques and applications. Students will gain competency in a number of film production areas including: idea generation and scripting, production planning, cinematography, lighting, sound and digital editing. Working as individuals and in groups, students will develop and produce short narrative film projects. Students will continue to develop proficiency and mastery of the use of specialized vocabulary of the film industry as well as the ability to analyze film and its narrative structure. In addition students will break down the "narrative" focusing on genre conventions and subtext. Students will additionally examine the relevance of film to society while developing proficiency and mastery in the study of how to create film projects.

**COM 236 The Aesthetics of Filmmaking 3 Credits**

Introduces students to basic terminology, techniques, theories and criticism commonly used in digital filmmaking. Through lecture, class discussion and screenings, students will learn how film theory, criticism and aesthetics impact the filmmaking process. Students will review and analyze films of different genres; the different approaches adopted by filmmakers; and the various elements and techniques that contribute to the creation of powerful and effective films. Aesthetic elements such as production design, mise en scene, cinematography, lighting, editing, sound design and script development will be introduced and practiced.

**COM 237 Rhetoric in the Digital Age 3 Credits**

Focuses on the critical examination of the major public discourses in digital media. Students will learn classical and modern rhetorical theory such as Aristotle's Rhetoric, power, publics and counterpublics, and argumentation. Students will apply these theoretical aspects to critically engage digital texts such as memes, emojis, hashtags, trolls, blogs/ reviews, and video game narratives.

**COM 238 Screenplay Fundamentals 3 Credits**

Screenplay Fundamentals will instruct students in how to write for the screen. Students will learn how to convey story and character through the medium of film and television, how to write effective dialogue, and understand the basics of dramatic writing and scene structure.

**Prerequisite:** COM 131.

**COM 240 Public Relations 3 Credits**

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

**COM 251 Interpersonal Communication 3 Credits**

Focuses on the study of various communication concepts and theories and the development of interpersonal skills and sensitivities. More specifically, students will participate in lectures, exercises, and projects while exploring the role and function of relationships in their professional, social, and personal lives.

**COM 252 Intercultural Communication 1.5-3 Credits**

Develops intercultural communication competence through an awareness and understanding of diverse cultures and their impact on communication. It will introduce students to those general factors that influence communication with people from diverse cultures both internationally and within the United States, and offer a blend of skill development, communication theory, and hands-on application. Note: This course is crosslisted as GLS 252. Students may not get credit for both COM 252 and GLS 252.

**COM 253 Organizational Communication 3 Credits**

Focuses on the ongoing communication processes in organizations. This course examines how and why organizations develop policies and procedures that both encourage and yet constrain creativity and autonomy in employees. It also introduces various management skills to balance the dynamic in organizations. Finally, the course introduces students to various communication technologies that enable communication processes in organizations. Students will also have opportunities to participate in creating organizational dynamics through role-playing exercises, case studies, and other kinds of experiential learning.

**COM 254 Intro to Health Communication 3 Credits**

Health communication has been shown to have a positive impact on a number of facets of the medical visit, including patient outcomes, patient satisfaction, and job performance and satisfaction. This course will provide students with tools to implement health communication practices in a healthcare setting in order to improve these areas. In addition, health communication is particularly useful in cross-cultural situations, both in regard to the patient-provider relationship, when the ethnicities of the two parties may be different, and when cultural beliefs may impact a patient's medical wishes. Part of the tools for implementing health communication into the practice setting includes an understanding of the role that culture can play in healthcare and the development of strategies to provide optimal medical care while also respecting cultural intricacies.

**COM 261 Introduction to Web Design 3 Credits**

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

**COM 262 Graphic Imaging for Digital Media 3 Credits**

Teaches students techniques for image development, and image preparation for various multimedia applications. Emphasis is placed on color calibration and palette issues, image manipulation, advanced image selection techniques, transparency and masking, multimedia authoring file formats, and dynamic image design. Students will be expected to participate in critiques of professional designs in order to learn to critically evaluate their work and their fellow students' work.

**Prerequisite(s):** COM 261 or permission of instructor.

**COM 263 History and Principles of Graphic Design 3 Credits**

Covers the history and principles of graphic design from analog art through the digital revolution. The elements and principles of design will be used to study stylistic progressions, artistic techniques, design innovations, and mechanical inventions. Material will be presented through a combination of illustrated lectures and discussions.

**COM 264 Intro to Media Convergence 3 Credits**

Introduces the ways that the merging of media industries and the intersection and integration of various media platforms and technologies impact our lives. While the primary focus will be on digital and mobile technologies and practices, the course will also cover the convergence of digital technologies in a wide range of media areas, including journalism, social media, television and entertainment. The course will offer students broad conceptual frameworks for thinking about how the emergence and evolution of digital as well as mobile communication technologies have changed the communication and journalism industries and how they are reshaping content. In addition, the course is intended to allow students to use different digital communication technologies.

**COM 265 3D Graphic Animation 3 Credits**

Provides students with an introduction to the basics of 3D graphic animation techniques including modeling, texturing, rendering, visual effects and animation. Through various projects the students will learn: to model characters, sets and props, how to apply textures and color to their models, and how to bring their creations to life using various animation techniques. In addition to the technical aspects of creating successful animation, the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation, dramatization and narrative.

**COM 270 Sports Multimedia Reporting 3 Credits**

COM 270 Sports Multimedia Reporting. Develops skills in hard-news sports reporting, game coverage, and the production of introductory multimedia and social media sports content. Employs out-of-the-classroom reporting assignments to refine information gathering techniques such as interviewing, observation, and use of documents and other contextual materials. Includes reporting and writing on sports games, teams, players, coaches, athletic issues/controversies, and the business of sports.

**Prerequisite(s):** COM 102. Introduction to News Writing.

**COM 280 Issues in Event Planning 3 Credits**

Offers students education in event planning, production, and supervision for varied professional applications. Emphasis will be placed on planning, budgeting, and organizing small and large events for educational, institutional, non-profit, and professional groups. Students will participate in the entire process of event planning, with specific experiences in applying communication theory to actual projects.

**Prerequisite(s):** COM 240 or MKT 200.

**COM 290 Professional/Strategic Speech 3 Credits**

Provides students with practical information necessary for effective communication in various business and professional settings. Covers communication processes, principles, and models in the modern organization. Class assignments are given with emphasis on developing a knowledge and practical understanding of informative, persuasive, and impromptu presentations. Limited to students enrolled in the College of Business Administration.

**COM 291 Documentary Film and Video 3 Credits**

Surveys the history of documentary film, including reportorial, exploratory, persuasive, symphonic, compilation, reflexive, and fictional traditions through screenings, lectures, and readings. Provides practice in film criticism. Explores philosophical questions about the relationship between non-fiction films and videos and the reality they purport to record. Analyzes ethical problems of filmmaking.

**COM 292 Content for Social Media 3 Credits**

Focuses on creating social media content that will inform, entertain, and engage audiences within a variety of organizational and business contexts. Students will learn about message planning for specific platforms and creative ways to use digital content to support public relations, branding, customer, and media relations.

**COM 295 Cinematography I 3 Credits**

This course introduces the art of cinematography from historical, aesthetic and practical perspectives. Students will learn the principles of cinematic composition, lenses, lighting, and camera operation while studying the work of great cinematographers in film history.

**Prerequisite(s):** COM 131.

**COM 301 Communication Law 3 Credits**

Critically examines the legal limits and privileges affecting freedom of expression, especially in publishing, advertising, film, telecasting, and cyberspace. Places particular emphasis on the historical and philosophical foundations of the freedoms and limitations of communication in the United States.

**COM 302 Communication Ethics 3 Credits**

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

**COM 304 Rhetoric for Politics and Law 3 Credits**

Introduces the theory and strategy of crafting persuasive messages and cultivating relationships with the media in the context of judicial, deliberative, and epideictic genres of rhetoric. In addition, students will learn how to plan and coordinate media briefings and how to prepare and participate in a media interview.

**Prerequisite(s):** COM 104 or COM 290.

**COM 312 Special Topics in Journalistic Writing 3 Credits**

Provides students with the opportunity to explore specialized topics in journalistic reporting and writing. Each course will focus on a specific area in the broad field of journalism. Examples include business reporting, health reporting, and sports reporting.

**Prerequisite(s):** COM 102 or COM 107.

**COM 315 Computer Assisted Reporting 3 Credits**

Develops advanced reporting techniques for researching and writing in-depth news stories and investigative articles. Uses state-of-the-art computer-assisted reporting methods including finding and mining data bases on the Internet, creating spreadsheets to analyze data, and employing data base manager software to sort and summarize information in government documents and other specialized resources. Focuses on conceptualizing of story ideas, planning major projects, gathering information by means of data bases, participant-observation, interviews, and analysis of public documents. Emphasizes organizing large quantities of material and presenting it in a meaningful context, including with information graphics.

**Prerequisite(s):** COM 210 or permission of instructor.

**COM 316 Feature Writing 3 Credits**

Focuses on problems and requirements of newspaper, magazine, public relations, and free-lance nonfiction writing. Students write features designed for acceptance in print, broadcast and digital media and learn marketing techniques.

**Prerequisite(s):** COM 102 or COM 107, English writing concentration, or permission of instructor.

**COM 318 Gender and Communication 3 Credits**

Focuses on interactive relationships between gender and communication in contemporary American society. It connects theory and research with practice to explore multiple ways communication in families, schools, media, and society in general creates and perpetuates gender roles. It is designed to heighten students' awareness of how we enact socially created gender differences in public and private settings and how this affects success, satisfaction, and self-esteem. Note: This course is crosslisted as GND 318. Students may not get credit for both COM 318 and GND 318.

**COM 322 Argumentation and Advocacy 3 Credits**

Investigates the theory and practice of speech communication that seeks to persuade by inferential argumentation. Concentrates on theories, practices, and research in argumentation and debate, blended with speaking experience in analyzing and advocating controversial topics.

**Prerequisite(s):** COM 104 or COM 290.

**COM 323 Oral Interpretation of Literature 3 Credits**

Provides an orientation to the field of oral performance. Students select literary texts, adapt the material to the audience and prepare it for presentation. Emphasizes the development of voice, articulation, and kinesic behavior. Presentations to the class are critiqued.

**Prerequisite(s):** COM 104 or COM 290 or permission of instructor.

**COM 325 Rhetoric of American Labor 3 Credits**

This course examines speeches, tracts, lyrics, newspapers, posters, poems, and films of the labor movement in America. The course also examines the historical context of the labor movement to better understand and appreciate the public discourse of labor. The course explores how rhetoric has been used to give force to ideas and lead to actions, how we develop a sense of how the values and norms of our society were reflected and shaped, and we understand how that history influences our collective perception in the present. Special attention is paid to the nature and locus of power, the interplay of conflict and confrontation, and the speaker's attempt to maintain or change the allocation of that power.

**COM 328 Sitcoms and American Culture 3 Credits**

Provides an overview to the unique and highly structured form of the American television situation comedy. The primary focus will be on history and development with in-depth study of situation comedy themes, characters, and settings. Through lectures, case discussions, in-class assignments, and class projects, students will examine the social and cultural meanings and implications of this incredibly popular and durable genre of programming.

**COM 330 Documenting Cultures Through Travel 3 Credits**

Offers students, through travel and study, a unique opportunity to gain firsthand experience of a foreign culture and to learn how to record and document their experiences using multiple media, including print, audio, video, photography and/or the Web. While traveling, students will be required to attend lecture/discussion sessions, site tours, and other planned activities. This experience will be preceded and/or followed by additional academic work to be conducted on campus. Study topics may include aspects of the historical, social, economic, political and aesthetic cultural components appropriate to the location(s) to be visited. The travel component of the course will be scheduled to avoid conflict with normal semester offerings. No foreign language skills are required.

**COM 331 Television Production 3 Credits**

Explores the technological capabilities and limitations of the television medium in team productions using a range of styles and formats. Students learn principles of studio production, electronic field production, and electronic news gathering. Exercises include use of computer graphics, audio production, and non-linear video editing. Stresses electronic communication skills and aesthetic values in a professional production setting.

**Prerequisite(s):** COM 131 or COM 230.

**COM 333 Broadcast Programming 3 Credits**

Analyzes the theory, practice, structure, and function of broadcast programming. Examines the structure of the industry as it relates to entertainment, information, and the audience. Studies program categories, formats, genres, trends, consistency, accountability, and ratings as well as cable, satellites, and home video. Critical standards are developed by introducing humanistic and scientific modes of program analysis.

**Prerequisite(s):** COM 230.

**COM 335 Television Field Production 3 Credits**

Provides an in-depth study of advanced techniques in Field Production for television. Individual and group field production assignments will involve planning and executing single camera production in a non-studio setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit documentaries.

**Prerequisite(s):** COM 331.

**COM 337 Music Production for Mass Media 3 Credits**

Offers students education in audio production techniques for music and other advanced audio material. Building on theory and practice introduced in the prerequisite, the class will instruct students in the theory behind acoustics and electronics as well as the digital tools and media. Those theoretical studies will be put to practice through exercises in recording music, making selections from music libraries, multi-track recording, arranging, editing, mixing and mastering. Students will begin to develop both an engineer's attention to audio detail and a musician's sense of artistry. Putting these skills to use, the students will produce complete musical works of varying musical styles, working both individually and in teams.

**Prerequisite(s):** COM 234.

**COM 338 Writing for Broadcast II 3 Credits**

Building on COM 233 Writing for Broadcast, this course provides a hands-on approach to more sophisticated reporting and interviewing techniques and writing formats used in long-form radio and television programs. This course will expose students to the following broadcast script writing areas: features, documentaries and reality programs. It will also cover writing for interview/talk show programs, music, comedy and variety programs. Students will also be exposed to writing for corporate, educational and children's programming. Students will have hands-on experiences writing, producing and editing news pieces and webcasts for student and area media outlets and web sites.

**COM 339 Developing The Feature-Length Script 3 Credits**

Developing the Feature Length Script will instruct students how to write a full-length film or television program. Students will learn the mechanics of 3-act and 7-act structure, and during the course they will develop a logline, synopsis, treatment, and sample scenes of a full-length project.

**Prerequisite(s):** COM 238.

**COM 341 Publicity Methods 3 Credits**

Applies communication theory to writing and editorial processes and production techniques to create public relations materials; includes press releases, industrial publications, social media, trade publications, brochures, newsletters, stockholder reports, and multimedia platforms.

**Prerequisite(s):** COM 107, COM 240, or permission of instructor.

**COM 347 Sports Communication 3 Credits**

Critically examines the symbiotic relationship between the mass media and professional sports franchises and major college athletic programs. This course deals with the workings and processes behind executing the proper techniques of sports information and media relations, as well as an analysis of the culture of sports in modern society. Students will develop a practical focus on sports information and promotion, including the role of the sports information director and events promoter, with emphasis on advanced concepts of public relations, publicity and marketing.

**Prerequisite(s):** COM 240 or permission of instructor.

**COM 348 Communication Research Methods 3 Credits**

Introduces students to the research methods used to study communication problems and processes. Students will learn how researchers plan and design research studies, explore the methodological considerations of both qualitative and quantitative methods, and have an opportunity to gain hands-on experience in conducting research on communication-related issues.

**Prerequisite(s):** COM 105.

**COM 350 Team & Group Communication 3 Credits**

Examines the communication process as it relates to the small group. Theoretical constructs including motivation, group climate, attraction, leadership, decision making, problem solving and roles are analyzed. Utilizes group experience to study and evaluate the dynamics and effectiveness of interpersonal systems.

**COM 352 Chinese and American Intercultural Communication 3 Credits**

Instructs students about Chinese culture and communication. Culture impacts communication practices and styles in significant and subtle ways. Through readings, lectures, discussions, and first-hand interactions with Chinese international students, the students of this course will gain both conceptual and practical understanding of major communication differences between the two cultures, and become a more skilled intercultural communicator. Note: This course is crosslisted as GLS 352. Students may not get credit for both COM 352 and GLS 352.

**COM 353 Nonverbal Communication 3 Credits**

Investigates studies in and theories of nonverbal communication. Lectures and experiential activities explore the effect of status, culture, and gender upon kinesics, physical characteristics, proxemics, tactile communication, paralanguages, artifacts, and environmental factors.

**Prerequisite(s):** COM 104 or COM 290 or permission of instructor.

**COM 360 Advanced Publication Design and Presentation 3 Credits**

Builds on elementary knowledge of graphic design to teach the principles of advanced layout, and computer graphics. Introduces students to industry standard drawing software and builds on their knowledge of layout software gained in the prerequisite course. Provides an understanding of the use of logos, infographics and magazine layout, and of the theoretical bases of color for print production.

**Prerequisite(s):** COM 212.

**COM 361 Photography 3 Credits**

Using digital SLR cameras, introduces students to professional methods of shooting varied subjects while applying a range of compositions and styles. Using Photoshop, students edit images for publication in print and on the Internet. Hands-on coursework is grounded in theory, history, aesthetics, and ethics. Some cameras are available for loan from the University.

**COM 363 Converging Digital Media 3 Credits**

Examines the digital technologies that make up the new world of digital convergence. The course will examine the effects of digital media convergence on social life, ethics, industry, and local and global communities through a variety of theories and paradigms. This course will also help students develop necessary digital media production skills and use them critically to solve media development problems.

**COM 364 Web Design II 3 Credits**

Equips students with the theories and practical techniques required to produce effective digital text, graphics, and animations for the Web. Discusses theories behind the use of these media in terms of effective communication and interaction. Introduces students to different computer platforms and requirements for cross-platform media.

**Prerequisite(s):** COM 261 or permission of instructor.

**COM 365 Graphic Animation 3 Credits**

Offers students education in graphic animation theories, animation development techniques, and animation preparation for various multimedia applications. Emphasis is placed on the design principles in animated communication and animation techniques. The course covers the integration of static images in animation, graphic animation techniques, animation compression, animation rendering, input/output file formats, and animation delivery. The primary software for this course is Adobe Photoshop and MacMedia Flash. Students will be expected to participate in critiques of professional animation designs in order to learn to evaluate critically their own work and their fellow students' work.

**Prerequisite(s):** COM 262 or permission of instructor.

**COM 366 Project Management in Graphic Design 3 Credits**

Explores the creative process of graphic design while developing an understanding of the methods employed in problem solving in the industry standard design software packages. Students learn how to create a hierarchy of information through the ordering of elements into a comprehensive visual unity. They consider the relationship between content and page size, proportion, grid and margins. Students learn about typography as a design element and how it works with other visual elements in design. In order to develop an understanding of the project-planning process for either printer or Web projects, students will develop and present a series of projects that will build on one another to develop their "visual voice." Students will be evaluated on their ability to apply course material to the projects to create professional-quality work; their ability to apply exchange ideas and accept and apply constructive criticism; and on their participation in class discussions, critiques and presentations.

**Prerequisite(s):** COM 262, COM 360.

**COM 367 3D Graphic Animation II 3 Credits**

Continue to learn the techniques of 3D computer animation including modeling, texturing, rendering, visual effects and animation. In addition to the technical aspects of creating successful 3D animation the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation.

**Prerequisite(s):** COM 265.

**COM 370 Sports Television and Field Production 3 Credits**

Provides an in-depth study of advanced techniques in sports field production for television. Individual and group field production assignments will involve planning and executing single camera production in a sports setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of sports field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit sports content.

**Prerequisite(s):** COM 131.

**COM 371 Sports Feature Writing 3 Credits**

Focuses on developing reporting and writing skills for newspaper, magazine, public relations, and free-lance nonfiction sports writing. Students will study published examples of outstanding sports feature writing, and write their own sports feature articles with social media and multimedia components. Instead of traditional game coverage, this course focuses on covering sports personalities, issues and themes.

**Prerequisite(s):** COM 102, COM 270.

**COM 380 Television Production Practicum 3 Credits**

Provides a workshop dedicated to the planning and creation of professional caliber television content for the campus television network and beyond. This course will provide an opportunity for students to develop writing, graphic, audio, video design and production skills in an experiential setting. Students will create materials to be used by the Rider University Network and for broadcast, cable and Internet distribution. Students can be involved in any and all phases of creating content from project conception through implementation. Students will gain valuable experience with, a greater appreciation for, and increased competency in creating professional media content. This class will also prepare students to more effectively function in the communication industry as an effective member of a professional production team. Since topics will vary by semester and instructor, this course may be repeated once.

**Prerequisite(s):** permission of instructor.

**COM 390 Communication and Society 3 Credits**

Examines in a topical manner the influence of communication upon significant issues and movements affecting people and society. Investigates interpersonal and mass media factors as they relate to a major issue such as changing sex roles, radicalism, racism, evangelism, election campaigns, and technology. May be taken more than once with different emphasis.

**COM 391 Communication Criticism 3 Credits**

Investigates and analyzes various methods of communication criticism and their applications to the understanding and evaluation of public and media discourses. Introduces theories and perspectives to assist in the analysis of those discourses. Methods include Aristotelean, Burkean, and ideological criticism.

**COM 392 Media History: Personalities and Trend 3 Credits**

Presents in a topical manner the history of the media from various perspectives, seeking to place the material into a meaningful economic, cultural, political, and/or social context. Different issues and related individuals are examined, such as the golden age of radio, motion picture economics, and media empire builders, with a view toward understanding their significant impact on the development and functioning of the media today. This course may be taken more than once with a different emphasis.

**COM 393 International Communication 3 Credits**

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is crosslisted as GLS 393. Students may not get credit for both COM 393 and GLS 393.

**COM 394 Social Media Capstone 3 Credits**

A client-based social media campaign will be developed from conception to evaluation based on research and digital media strategies. Focus will be on engagement with audiences, managing social media, and evaluation using social media metrics. As the capstone course, this is the last course that students take in the Social Media Strategies Minor or Certificate program through CCS. Permission of department required. Prerequisites: COM 261 & COM 292.

**COM 399 The Co-Operative Experience 3-12 Credits**

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. Prerequisite(s): junior standing and 2.75 GPA at the time of registration; Pass/fail.

**Corequisite(s):** IND 398 The Co-operative Experience Seminar, IND 398 and (dept) 399 combined cannot exceed 15 credits.

**COM 400 Senior Seminar Communication 3 Credits**

Provides students with the opportunity to explore critical issues in communication and journalism in a dynamic and engaging context. Students conceptualize problems, develop hypotheses, review literature, design appropriate techniques of inquiry, conduct their research, and present their findings orally to the seminar and in writing to the instructor. Senior journalism and communication majors only.

**COM 402 Directing for Film 3 Credits**

This course approaches directing both creatively and critically, and examines the role and importance of the director to the filmmaking process. The transformation of the written script into a film is explored through readings, viewing and analyzing the films of accomplished directors. Lectures and exercises illustrated with film clips and readings emphasize plot development, script analysis, developing storyboards and shot lists, rehearsal, blocking, collaborating with talent and production crew, and using the camera to effectively capture action and performance. Students will gain an effective understanding of the role of the director through the various stages of film production, and be provided the opportunity to demonstrate and cultivate his/her effectiveness as a director through individual and group assignments.

**Prerequisite(s):** COM 235 and COM 338.

**COM 415 In-Depth Reporting 3 Credits**

Utilizes advanced tools and techniques of contemporary in-depth reporting for print and multimedia. Covering multifaceted stories, students will learn how to do balanced multi-sourced field reporting and writing using primary and secondary sources including human sources, electronic documents and databases, both online and offline. Emphasis will be placed on writing stories that answer not only who, what, when and where questions but also the why, the how and the "so what?" questions. Students will also be exposed to some of the best investigative work of journalists past and present as models for analysis and discussion.

**Prerequisite(s):** COM 210.

**COM 431 Adv TV Research & Production 3 Credits**

Explores the theoretical and practical application of aesthetic technique in modern television/video production situations. While the prerequisite courses emphasized competency in equipment operations and basic production skills, this course moves to a higher platform by emphasizing concepts of production and how to apply them for effective communication. Thus this course places emphasis on advanced techniques: design and aesthetics as applied to enhance the overall video presentation as practiced in both the commercial and organizational communication arenas. In the current state of the art of video production, a mastery of aesthetic skills is necessary for the effective expression of ideas in optimal fashion and for a variety of audiences. Students will be exposed to as many techniques as practical through class discussion (including heavy participation by the student), individual and group lab activities and contact when possible with current practitioners and equipment. As most television production is done for a client, that process will form the basis for much of the course discussion and activities including projects.

**COM 434 Advanced Radio Production 3 Credits**

Provides in-depth study of advanced techniques in audio recording and radio programming and production. Individual and group production of short and long-form radio projects including: promotional spots, features, music programming, and news. Students will be involved in all phases of programming and production for radio including: project conception, development, management, and implementation. Selected student projects will air on the student radio station, 107.7 The Bronc.

**Prerequisite(s):** COM 234.

**COM 435 Advanced Digital Filmmaking 3 Credits**

This is an intensive hands-on course in advanced digital filmmaking. Students will gain experience with and proficiencies in a number of filmmaking areas including: creativity, production planning, aesthetics, scripting, script breakdown, camera movement, selecting and directing talent, creating scenes and sequences, visualizing action, establishing mood and conflict, as well as advanced lighting, sound and digital editing techniques. The students' use of high definition digital imaging systems as a medium for narrative cinematography will be developed and refined. In addition, students will explore how filmmaking techniques and technology can impact the visual story telling process. While often working cooperatively in groups, modeling the interdependent structure of film crews today, the creative and leadership role of the director in the contemporary film industry will be emphasized. Throughout the class, there will be an important integration of theory and practice which will enable students to produce meaningful film projects that will not only be technically effective, but strong in content and context as well.

**COM 440 Cases & Campaigns in Public Relations 3 Credits**

Critically analyzes public relations case problems in industry, labor, education, government, social welfare, and trade associations. Emphasizes problem solving through the use of communication theories, public relations techniques, creative thinking, and the development of professional goals and standards. Employs realistic simulation exercises and actual case studies to develop and critique students' ability to demonstrate this knowledge in professional situations.

**Prerequisite(s):** COM 341 or permission of instructor.

**COM 452 Seminar in Communication Studies 3 Credits**

Offers an in-depth investigation of relational communication. Students explore the many complexities involved in human interaction and interpersonal dynamics. Social and psychological implications of various communicative relationships ranging from cross-gender communication to dysfunctional family systems to intercultural interactions are included.

**Prerequisite(s):** COM 348, COM 350, or permission of instructor.

**COM 460 Web Design III 3 Credits**

Builds on previous courses to refine students' understanding of theories and procedures of digital media development. Further develops Web site creation and project management theories. Students develop advanced Web creation techniques, including responsible site production.

**Prerequisite(s):** COM 364.

**COM 462 Advanced Graphic Design and Portfolio 3 Credits**

Explores the processes of graphic design by creating independent and creative solutions to a series of design problems. Students expand their proficiency in all aspects of the design process, including creative brainstorming, conceptualizing, critical thinking and presentation. Students take a design project to both print and digital formats using Photoshop, Illustrator, and InDesign. Students develop and present a balanced portfolio as the culmination of their experience in the course.

**Prerequisite(s):** ART 103, ART 105, COM 262, and COM 360.

**COM 470 Live Sports Reporting Capstone 3 Credits**

Focuses on student production of live, professional-level sports media content. Students will combine reporting, writing, social media and multimedia from live sporting events. Live-coverage will include Rider University teams and regional or professional sporting events. The course is open to senior Sports Media Majors, or with the permission of the instructor.

**Prerequisite(s):** COM 370, COM 371.

**COM 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**COM 491 Internship in Communication 1-4 Credits**

Places qualified students in a professional area related directly to their communication training. Students may intern in a communication position with a corporation, small business, media outlet, public relations agency, non-profit organization, political party, sports organization, or other similar organizations. A minimum of 50 hours of internship per credit is required. Written reports, a final project, and supervisor evaluations are used to analyze and evaluate the experience. For students majoring in the Department of Communication and Journalism only, primarily juniors and seniors. No more than two internships are permitted for each student; exceptions may be made. The deadline for registration is the first Friday of the semester.

**Prerequisite(s):** 3.2 GPA and permission of instructor.

**Social Justice Through Civic Engagement**

**Program Overview**

A morally and civically responsible individual recognizes himself or herself as a member of a larger social fabric and therefore considers social problems to be at least partly his or her own. Such an individual is willing to see the moral and civic dimensions of issues, to make and justify informed moral and civic judgments, and to take action when appropriate. The Social Justice through Civic Engagement minor focuses on those populations that are "non-hegemonic" in society, adding to a students' diversity of ideas regarding these groups.

**Curriculum Overview**

The minor is available to students from all colleges/schools, allowing them to combine rigorous coursework with experiential learning. The coursework provides students with an academically meaningful foundation from which they can put their experiences in a larger social context. The broad range of courses available address social topics such as economics, politics, ethnicity, culture, or gender, fostering discussions that allow a student to reflect on their own experiences and consider new solutions to social problems.

## Courses and Descriptions

### **AMS 212 Multicultural America 3 Credits**

Focusing primarily on the new century, this course explores the experiences of the remarkably diverse range of ethnic groups who have come to the U.S. in recent years, including Hispanics, Europeans, Asians and Africans. How these groups have impacted the communities where they have settled, how they have interacted with other ethnic groups, and how they have assimilated (or not) and prospered (or not) are among the issues examined and discussed.

### **AMS 227 Philosophy of Martin Luther King Jr. 3 Credits**

A study of Martin Luther King, Jr.'s philosophical writings and his impact on civil speeches and sermons, and critical assessments of the significance of his thought.

### **AMS 309 Hip Hop and American Culture 3 Credits**

Examines and critiques hip hop as a part of American culture. Students will engage with scholarship from several fields in studying the social conditions that fostered the creation of hip hop music, and discuss how these conditions have and/or have not changed in America since the 1970s, when hip hop was born. Students will delve into such issues as how women relate to hip hop, hip hop poetics and rhyme structures, race relations in hip hop, censorship, and the ethics and legalities of digital sampling.

### **ECO 336 Economics of Health Care Sys 3 Credits**

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomic tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes.

**Prerequisite(s):** ECO 201 or HTH 205.

### **ENG 228 Black American Lit 3 Credits**

A survey of writings by black Americans, presented historically from early slave narratives through emancipation, reconstruction, the Harlem Renaissance, and literature from the 1930s to the present. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### **ENG 229 Multi-Ethnic Literature in America 3 Credits**

Surveys the literature of various ethnic groups including African Americans, American Indians, Asian Americans, Hispanic Americans, Jewish Americans and European Americans. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### **ENG 230 Women In Literature 3 Credits**

A range of literary presentations of the female experience and of the conditions of women's lives is explored. These works are placed in historical and social contexts in order to see behind and beyond traditional literary conventions. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### **HIS 200 Native American History 3 Credits**

Traces the experiences of North American Indians from early colonial times to the present day, demonstrating how Indian life has varied and changed throughout our nation's history. Topics include strategies of resistance and accommodation to colonial powers, 19th-century impacts of U.S. government removal and cultural assimilation policies, and 20th-century cultural and political developments among the nation's surviving tribes. Rather than "vanishing," American Indians are a vital and expanding force in modern America.

### **HIS 201 African American History 3 Credits**

Examines the actions and thought of peoples of African ancestry in the United States. Briefly considers Africa before the Atlantic slave trade, then concentrates on major themes in African-American history—the slave trade, slavery, and the genesis of African American society, emancipation and its consequences, urbanization and industrialization, Black Nationalism, the Civil Rights Movement, and African Americans today. Emphasizes African Americans' dynamic and creative role both in shaping their society and establishing their place in United States society. The on-going struggle for freedom and equality provides thematic continuity for analyzing nearly 400 years of African-American history.

### **HIS 307 The Immigrant in American Life 3 Credits**

Examines the experiences of immigrants in the United States, their assimilation, the reactions to them, and their contributions.

### **HIS 309 Women in American History 3 Credits**

Examines the roles, status, and influence of women from the colonial era to the present. Studies the origins and development of feminism, including legal, political, educational, economic, and sexual rights; and studies social feminism, including reform movements in such fields as abolition, prohibition, pacifism, child labor, and social welfare.

### **HIS 319 Gender and Sexuality in American History 3 Credits**

What makes a man, exactly, and what makes a woman? What kinds of sex are normal, and what kinds are abnormal? Who decides, and why? The answers to these questions are not fixed. Throughout American history, popular understandings of gender and sexual norms evolved in close relationship with the political, economic, racial, and social dictates of the time. This course will trace the evolution of ideas on sex and gender from the 18th century to the present using various historical sources including fiction and film, particular attention will be given to analyzing dominant models of proper behavior and the complex relationships of power enmeshed within them.

### **PHL 230 Philosophy of the Sexes 3 Credits**

Studies philosophical views of the differences between the sexes, sexual equality, love, marriage, and the family from ancient Greece to the 20th century. Texts from the contemporary women's and men's movements will also be examined. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### **POL 205 Introduction to Public Policy 3 Credits**

The course provides students with an introduction to the study of public policy by linking the theoretical with the practical. The course focuses on three areas of analysis: 1) descriptive 2) evaluative and 3) prescriptive. Students will develop skills required to define and critically examine policy problems, articulate relevant decision-making criteria and assess alternative policy options. Last the course provides examples of public policy problems through the substantive policy areas of health, environment and education.

**POL 235 Race and Ethnicity in American Politics 3 Credits**

Examines the changing political, economic, and social situation of racial and ethnic groups in American politics since the 1950s. Topics include the relationship between race/ethnicity and voting behavior, political parties, and election results. Includes an analysis of specific areas of contemporary racial and ethnic conflict, such as voting rights, immigration, and affirmative action.

**POL 280 Sex & Politics 3 Credits**

The bearing of gender upon politics: whether political activity is more characteristic of one or the other sex; the comparative fates of male and female in political society; the political implications of change in the content and mutual status of masculinity and femininity. Inquiry into classical, traditional, and contemporary views.

**POL 327 Contemporary Issues in American Public Policy 3 Credits**

An in-depth examination of current issues in American politics. Drunk driving, political corruption, drug policy, education, and poverty are among the issues to be considered. Emphasis on analyzing policy problems and on developing and evaluating proposed solutions.

**POL 328 Environmental Politics 3 Credits**

Environmental Politics examines how policymakers deal with the political challenges of unsustainable resource consumption, which is a primary determinant of environmental problems such as climate change, adverse health effects, and biodiversity loss. The course introduces students to environmental politics and policies at the local, state, national, and international levels. The course is designed to provide students with a framework for understanding how varied interests compete within political institutions in order to transform contending ideas into public policy. With that in mind, students will not only become more informed consumers of political information, but will also become more effective at analyzing and advocating for policies as it relates to the environment.

**POL 363 Human Rights in Global Context 3 Credits**

Examines human rights – droits de l'homme, derechos humanos, Menschenrechte, "the rights of man" – are, literally, the rights that one has because one is human. What does it mean to have a right? How are being human and having rights related? This course provides an introduction to theory and global practice of human rights. Human rights claims play an increasingly central role in political and social struggles across the world. The adoption of the Universal Declaration of Human Rights in 1948 signaled a proliferation of international human rights law and transnational non-governmental activism. While the promotion of human rights has become global, adherence to those standards remains highly uneven and gross violations and atrocities continue to occur. Given the breath and complexity of the human rights movement, including its engagement with law, politics and morals, in radically different cultures, this course is by its very nature multidisciplinary. Note: This course is cross-listed as HLS 363. Students may not get credit for both HLS 363 and POL 363.

**PSY 218 Psychology of Women 3 Credits**

Examines the psychological development of women in our culture from birth to maturity, with an emphasis on the interaction of biological and social influences on personality, social behavior, and achievement of women. Investigates psychological sex differences in terms of current measurement approaches. Readings and text are drawn from psychological theory and research.

**Prerequisite(s):** PSY 100.

**SOC 207 Racial and Ethnic Relations 3 Credits**

Examines the social origins of prejudice and discrimination, and analyzes intergroup trends in conflict, competition, and cooperation. Considers issues of immigration, economic and political power, and ethnic, racial, and religious pluralism.

**Prerequisite(s):** SOC 101.

**SOC 230 Foundations of Civic Engagement 3 Credits**

This course is an introduction to civic engagement: its meanings, opportunities and limitations. Students will learn about the different opportunities for civic engagement in the community as well as the theories and skills associated with it. Students will learn the role of formal and informal institutions in community engagement and will identify a specific organization for in depth investigation.

**Prerequisite(s):** SOC 101.

**SOC 245 Social Problems 3 Credits**

American social, economic, and political institutions and their interrelationships are analyzed, with an emphasis on the causes, directions, and consequences of social change in American society.

**Prerequisite(s):** SOC 101.

**SOC 312 Women in Society 3 Credits**

Examines changes in women's roles and in male-female relationships. Focuses on impact of law, economy and social movements in shaping women's positions as wives and as workers. Explores theories and evidence concerning the nature and extent of sex differences. Attention to women's socialization through language, schools and media.

**Prerequisite(s):** SOC 101.

**SOC 313 Gender and Criminal Justice 3 Credits**

This course will examine women's experiences with the criminal justice system as offenders, victims, prisoners, and practitioners. It will consider how gender has shaped theories of crime and criminological research. It will explore how cultural constructions of gender have influenced substantive and procedural criminal law, the ways criminal justice agencies respond to crime, and how these have changed historically. Attention will be given to the development of new approaches, reforms, and challenges.

**Prerequisite(s):** SOC 101.

**SOC 340 Power and Politics 3 Credits**

Examines the nature and distribution of power in contemporary societies; analyzes the relationships between power and politics.

**Prerequisite(s):** SOC 101.

**SOC 345 Race and Crime 3 Credits**

Examines the impact of crime policy on minority communities in the United States, with particular attention to the impact of "The War on Drugs", three-strike laws, and mandatory sentencing on minorities and minority communities. Drawing on sociological research, the course explores myths and realities concerning the relationship between race and crime. The relationship between racial attitudes, historical race relations, and mass incarceration are discussed.

**Prerequisite(s):** SOC 101.

**SOC 346 Health Care and Society 3 Credits**

Application and contributions of sociology to medicine; the strategy and methods of sociomedical research; sociology of illness, addictive and mental disorder; medical institutions; health services and medical care; and current status of medical sociology.

**Prerequisite(s):** SOC 101.

**SOC 350 Social Policy 3 Credits**

Investigates the relationship between economic development and social policy in comparative and historical context. The main features of preindustrial, early industrial, and advanced industrial social welfare systems are described. Social, economic and political factors that shape social policy are investigated.

**Prerequisite(s):** SOC 101.

**SOC 490 Independent Study: Research and Creative Expression 1-4 Credits**

Juniors or seniors who have completed at least 12 credit hours in sociology may propose an independent research project with the aid and advice of any full-time faculty member of the department. Proposals must be reviewed and approved by the sponsoring faculty member and submitted to the department's Independent Study Committee at least four weeks prior to the last day of classes for the semester preceding Independent Study.

**Prerequisite(s):** SOC 101.

**SOC 491 Internship in Sociology 1-4 Credits**

A supervised work experience in an approved organization to gain knowledge of applications of sociology in work settings and to analyze work settings using sociological knowledge and research methods. Placements are made in business, government, and community offices that utilize sociological knowledge or research skills.

**Prerequisite(s):** 2.75 GPA.

## Social Media Strategies

### Overview

Social media has forever changed the communication and journalism professions. For today's students, being able to effectively plan, manage, and evaluate social media as an integrated communication tool has become a requirement for success in the communication discipline. This minor will provide students with a foundation to employ social media as an effective communication tool in a variety of professional settings by providing practical and applied learning.

The program combines theory and best professional practices with hands-on application, development of critical media skills (including writing and multimedia content creation), and necessary management and strategy in a variety of organizational settings that will culminate in a capstone experience. The Social Media Strategies minor will provide students with the background needed and qualifications required in a wide variety of communication positions.

### Courses and Descriptions

**COM 131 Fundamentals of Video Production 3 Credits**

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

**COM 207 Social Media and Social Change 3 Credits**

Introduces students to Web/ social media tools and information distribution networks that have enabled people to mobilize new types of collective action, inform publics and advocate positions. Community production and sharing of knowledge (Wikipedia), culture (YouTube, Flickr, the blogosphere), and political organizing (colorofchange.org) are current manifestations of social changes that are continuing to bloom in the 21st century. In this course, Rider University students will become literate in active Web and social media participation with a focus on engaging with current social, political and cultural issues.

**Prerequisite(s):** COM 201 or COM 205.

**COM 240 Public Relations 3 Credits**

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

**COM 261 Introduction to Web Design 3 Credits**

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

**COM 264 Intro to Media Convergence 3 Credits**

Introduces the ways that the merging of media industries and the intersection and integration of various media platforms and technologies impact our lives. While the primary focus will be on digital and mobile technologies and practices, the course will also cover the convergence of digital technologies in a wide range of media areas, including journalism, social media, television and entertainment. The course will offer students broad conceptual frameworks for thinking about how the emergence and evolution of digital as well as mobile communication technologies have changed the communication and journalism industries and how they are reshaping content. In addition, the course is intended to allow students to use different digital communication technologies.

## Social Work

### Program Overview

In a sequence of three social work courses, students learn about the development of welfare and social service programs; they acquire skills in interviewing, case management, and group dynamics; and they gain work experience in a social service agency.

### Minor Offered

- Minor in Social Work

Code	Title	Credits
SOW 200	Social Services & Social Work	3
SOW 300	Methods Social Work Practice	3
SOW 301	Field Work Experience	3
Select one course from each of the following two groups:		
<b>Group I</b>		<b>3</b>
SOC 205	Families	
SOC 248	Social Service Organizations	
SOC 350	Social Policy	
<b>Group II</b>		<b>3</b>
PSY 230	Child Development <sup>1</sup>	
PSY 231	Youth and Adolescent Development	

One additional course in an area of concentration relevant to social work <sup>2</sup>	3
--	---

Total Credits	18
---------------	----

<sup>1</sup> PSY 100 is a prerequisite for all Psychology courses.

<sup>2</sup> Examples of such areas are: Aging, Human Service Organizations, Psychological Counseling, and Criminal Justice. This course is chosen in consultation with an advisor.

## Courses and Descriptions

### SOW 200 Social Services & Social Work 3 Credits

An overview of the historical development of social work. Emphasis on current issues in social welfare and social service programs in the United States. Among the programs explored are those in public welfare, mental health, medical services, child abuse/neglect, school social work, and care for the elderly.

### SOW 300 Methods Social Work Practice 3 Credits

Interviewing techniques are taught and practiced. Skills in forming and running small groups, working with community organizations, and administering social programs are emphasized. Students study how to gather pertinent psycho-social facts about clients, make an assessment, plan an intervention, and successfully complete service to the client. Students who next will take SOW 301 Field Work Experience will be placed in a social service agency by the end of the semester.

**Prerequisite(s):** SOW 200.

### SOW 301 Field Work Experience 3 Credits

Students observe and work in a social service agency. They study the structure of the agency and the people and roles within it, and develop helping skills with clients. Approximately six to eight hours of field work a week for each three credits are required, plus class sessions during the semester.

**Prerequisite(s):** SOW 200, SOW 300. May be taken twice in two separate semesters for a maximum of six credits toward the total credits required for graduation.

### SOC 205 Families 3 Credits

Examines families in the United States, past and present, emphasizing the variety of family experiences in different social contexts and the relationship between family life and social change. Includes comparative material on families in other countries and considers possible alternatives to current family forms.

**Prerequisite(s):** SOC 101.

### SOC 248 Social Service Organizations 3 Credits

Examines the growth and variety of social service organizations. The training of providers, such as teachers and physicians, and relationships between professionals and clients in settings such as schools and hospitals are studied as well as organizational decision-making, finances, and community relations.

**Prerequisite(s):** SOC 101.

### SOC 350 Social Policy 3 Credits

Investigates the relationship between economic development and social policy in comparative and historical context. The main features of preindustrial, early industrial, and advanced industrial social welfare systems are described. Social, economic and political factors that shape social policy are investigated.

**Prerequisite(s):** SOC 101.

**PSY 230 Child Development 3 Credits**

Presents theory and research on the social, emotional and cognitive development of children birth to age 12.

**PSY 231 Youth and Adolescent Development 3 Credits**

Presents theories, research and problems concerning development in youth and adolescence.

**Prerequisite(s):** PSY 100.

## Sociology

### Program Overview

Sociology helps people understand how social groups, organizations, social institutions and societies function, how they change over time, how they impact our lives — and how they are created and sustained, as well as how they can be changed.

Sociology is the root of many other areas of study of human endeavor, and remains a source of their new developments. Sociological research and scholarship provided the foundation for management studies, communication and media studies, legal studies, and criminology and criminal justice studies, to name a few. That is why training in sociology can provide excellent background and skills for such a wide range of careers such as test marketing, public opinion polls, census data gathering and analysis. Some sociology majors decide to pursue further education and to obtain graduate degrees, for example, in law, urban planning, social work.

### Curriculum Overview

The curriculum includes introductory courses in sociology and anthropology, a sequence of skills courses for majors and minors, and a variety of substantive courses on specific topics. Sociology majors with a grade point average above 3.00 may complete a senior thesis for the sociology honors program.

Sociology students take a total of 15 three-credit courses to complete the major, including a sequence of required courses designed specifically for majors including those double majoring in sociology and education.

Seminars at the freshman and senior levels provide extensive class participation, personalized instruction, and carefully supervised individual research. Courses in research methods and statistics instruct students in diverse techniques of information gathering and analysis. In addition to these courses, sociology students select a set of courses in substantive areas. Through consultation with their faculty advisers, students are able to focus on such areas of special career or academic interest to them as criminal justice, law, education, social services, management, or marketing.

### Honors Program in Sociology

Honors in sociology may be achieved by earning a 3.5 cumulative average in the discipline and completing, through honors in sociology (SOC 496), a senior honors thesis with distinction.

### Degree Offered

- B.A. in Sociology

## Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year, who change their major, or those who transfer to Rider will follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

## Courses and Descriptions

### SOC 101 Sociological Imagination 3 Credits

Introduction to principles and concepts for the sociological analysis of human societies. Social relations, social structure, and institutions characteristic of societies past and present are examined, and causes and directions of social change are considered. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### SOC 110 Cultural Anthropology 3 Credits

The anthropological perspective is introduced, placing human behavior and institutions within their evolutionary, ecological, structural, and ideological contexts. Examples are drawn from the full range of human societies, with an emphasis on nonindustrial forms.

### SOC 201 Intro Seminar in Sociology 3 Credits

Designed for students considering a major or minor in sociology. The seminar locates sociology in relation to other disciplines; reviews the basic perspectives used by sociologists to study human behavior; and considers the methods and applications of sociological inquiry.

**Prerequisite(s):** SOC 101.

**SOC 205 Families 3 Credits**

Examines families in the United States, past and present, emphasizing the variety of family experiences in different social contexts and the relationship between family life and social change. Includes comparative material on families in other countries and considers possible alternatives to current family forms.

**Prerequisite(s):** SOC 101.

**SOC 206 Deviance and Crime 3 Credits**

Considers deviant behavior as violation of social norms. Examines the concepts of deviance and crime in socio-historical context. Evaluates major theories advanced to explain deviance. Surveys different types of deviance, including conventional crime, non-criminal deviant behavior, and white-collar corporate, and government crime.

**Prerequisite(s):** SOC 101.

**SOC 207 Racial and Ethnic Relations 3 Credits**

Examines the social origins of prejudice and discrimination, and analyzes intergroup trends in conflict, competition, and cooperation. Considers issues of immigration, economic and political power, and ethnic, racial, and religious pluralism.

**Prerequisite(s):** SOC 101.

**SOC 211 Social Movements 3 Credits**

This course examines social movements that seek change in the social, cultural and political structures of society. The social, economic and political contexts of these movements are treated as well as their origins, tactics, organization, recruitment, and successes and failures. Case studies focus on movements in the areas of labor, civil rights, feminism, the environment, "right wing politics", and neighborhood activism.

**Prerequisite(s):** SOC 101.

**SOC 216 Youth and Crime 3 Credits**

In-depth examination of the nature and extent of youth criminality in the U.S. Explores changes in youth culture and theories of delinquency. Social policies are related to youth criminality and the youth justice system is considered.

**Prerequisite(s):** SOC 101.

**SOC 219 Introduction to Criminal Justice: Police, Courts, Corrections 3 Credits**

This course introduces students to the sociological study of the criminal justice system. It examines the cultural and social foundations of this system, and review debates about problems with the criminal justice system and proposals to change it. Topics covered include nature of the crime problem, requirements of criminal law, policing, the role of the courts and legal professionals, sentencing, incarceration and alternatives to it. [FORMERLY SOC-319 Criminal Justice and Corrections] Pre-requisite SOC 101 3 Credit hours.

**SOC 225 Population Study 3 Credits**

Demography; its definition, historical emergence, and growth; population as a social problem in developing and developed nations; population theories, sources and methods of demographic data, population composition, and distribution; demographic processes including fertility, mortality, and migration.

**Prerequisite(s):** SOC 101.

**SOC 230 Foundations of Civic Engagement 3 Credits**

This course is an introduction to civic engagement: its meanings, opportunities and limitations. Students will learn about the different opportunities for civic engagement in the community as well as the theories and skills associated with it. Students will learn the role of formal and informal institutions in community engagement and will identify a specific organization for in depth investigation.

**Prerequisite(s):** SOC 101.

**SOC 245 Social Problems 3 Credits**

American social, economic, and political institutions and their interrelationships are analyzed, with an emphasis on the causes, directions, and consequences of social change in American society.

**Prerequisite(s):** SOC 101.

**SOC 246 Drugs, Crime & American Society 3 Credits**

Explores the nature and extent of drug use in the U.S., how drugs are legally defined and socially constructed, and considers how and why drug policies have developed and changed historically. Considers how the criminalization of drugs has impacted policing strategies, courts, probation programs, sentencing and corrections, as well as other social institutions. Examines the role of local and federal agencies in enforcing drug laws, and considers debates about directions for legal reforms.

**Prerequisite(s):** SOC 101.

**SOC 247 Aging 3 Credits**

The emergence of social gerontology, demographic foundation of aging, the aging process, comparative study of aging and aged, effect of aging on the individual, social institutions and aging, and problems of aging and some solutions.

**Prerequisite(s):** SOC 101.

**SOC 248 Social Service Organizations 3 Credits**

Examines the growth and variety of social service organizations. The training of providers, such as teachers and physicians, and relationships between professionals and clients in settings such as schools and hospitals are studied as well as organizational decision-making, finances, and community relations.

**Prerequisite(s):** SOC 101.

**SOC 252 Media, Culture and Society 3 Credits**

Examines mass-produced commercial culture, how it has developed, and the role it plays in modern society. Analyzes the content of these cultural forms, how its production is organized, and how audiences perceive it.

**Prerequisite(s):** SOC 101.

**SOC 261 Schools and Schooling 3 Credits**

Schools and the process of schooling are analyzed within a broad historical perspective as well as within the structural and cultural context of American society. Education within a global perspective is also considered. Issues discussed include school funding, integration, tracking, technology, bureaucratization, and the "cultural wars" fought within the schools.

**Prerequisite(s):** SOC 101.

**SOC 269 Physical Anthropology 3 Credits**

An analysis of the biological development of the human capacity for culture. Topics include: modern theories of evolution and their application to human evolution; the relationship of human beings to other primates, the human fossil record, and variation among modern human populations. A background in biological studies is not necessary.

**Prerequisite(s):** SOC 101.

**SOC 270 Area Studies: Africa 3 Credits**

An intensive investigation of problems arising from historical and contemporary studies of tribal, peasant, and transitional societies in Africa south of the Sahara.

**Prerequisite(s):** SOC 101.

**SOC 271 Area Studies 3 Credits**

Studies problems arising from historical and contemporary studies of peasant populations of Europe.

**Prerequisite(s):** SOC 101.

**SOC 272 Area Studies: Indians of North America 3 Credits**

Societies and cultures of the Indians of North America from the Arctic to Mesoamerica. Emphasis on evidence of these tribal groups prior to extensive acculturation and their contemporary situation.

**Prerequisite(s):** SOC 101.

**SOC 300 Work and Occupations 3 Credits**

Analyzes the nature and organization of work in modern society. Focuses on such issues as division of labor, specialization, alienation, professionalization, and the role of technological change. Includes an examination of the historical development of work in the 20th century, and a consideration of contemporary and future patterns of work organization.

**Prerequisite(s):** SOC 101.

**SOC 301 Methods of Sociological Research 3 Credits**

The second in a series of required courses for majors. Builds upon the Introductory Seminar in Sociology. Social research methods using documents, observations, and questionnaires are taught, and used in completing research projects.

**Prerequisite(s):** SOC 201.

**SOC 308 Cities And Suburbs 3 Credits**

Examines the growth of an urban way of life under the influence of industrialism. Study of community, political, and economic institutions in cities. Comparisons between urban and suburban areas.

**Prerequisite(s):** SOC 101.

**SOC 309 Peasant Society 3 Credits**

A comparative view of peasants and their significance in agrarian, colonial, and industrial societies. Peasant economic, political, and social institutions are analyzed with an eye to both their internal operation and the way they relate to non-peasant groups who hold power in these societies. The changes that have occurred in the peasant world are viewed both as a consequence and a cause of wide reaching political and economic upheaval.

**Prerequisite(s):** SOC 101.

**SOC 310 Pre-Industrial Economies 3 Credits**

The anthropological study of technology, production, and exchange in nonmarket cultures, as related to the social, ideological, and ecological systems in which they are embedded. The question of whether the concepts that derive from market economies can be applied to all economic systems is considered in detail.

**Prerequisite(s):** SOC 101.

**SOC 311 Social and Cultural Change 3 Credits**

Investigates the process of change in both industrial and nonindustrial settings. Particular attention paid to the role of the individual in change as well as the roles played by the mode of production, social organization, and ideological constructs. Case studies are drawn from non-Western as well as Western sources.

**Prerequisite(s):** SOC 101.

**SOC 312 Women in Society 3 Credits**

Examines changes in women's roles and in male-female relationships. Focuses on impact of law, economy and social movements in shaping women's positions as wives and as workers. Explores theories and evidence concerning the nature and extent of sex differences. Attention to women's socialization through language, schools and media.

**Prerequisite(s):** SOC 101.

**SOC 313 Gender and Criminal Justice 3 Credits**

This course will examine women's experiences with the criminal justice system as offenders, victims, prisoners, and practitioners. It will consider how gender has shaped theories of crime and criminological research. It will explore how cultural constructions of gender have influenced substantive and procedural criminal law, the ways criminal justice agencies respond to crime, and how these have changed historically. Attention will be given to the development of new approaches, reforms, and challenges.

**Prerequisite(s):** SOC 101.

**SOC 314 Social Theory 3 Credits**

Introduces the major thinkers and conceptual problems characterizing the development of sociological thought. Required of sociology majors.

**Prerequisite(s):** SOC 201.

**SOC 315 Issues in Modern Social Theory 3 Credits**

Examines current trends and issues in sociological thought.

**Prerequisite(s):** SOC 314 or permission of instructor.

**SOC 316 Feminist Social Thought 3 Credits**

An introduction to feminist social theory, with emphasis on its breadth and variety. Special attention paid to the ways feminist theorists have analyzed the relationship of gender to other kinds of group differences.

**Prerequisite(s):** SOC 101.

**SOC 317 Law and Lawyers 3 Credits**

Relationships between law, the economy, and the state are explored. Discussion of laws, legal systems and legal reasoning using cross-cultural comparisons and historical analysis of these in the United States. Particular attention given to impact of law on corporations, workers, women, and minorities. Changes in legal profession and legal education are examined.

**Prerequisite(s):** SOC 101.

**SOC 320 Religion and Belief Systems 3 Credits**

The relation of religious phenomena to social structures and processes; religion in cross-cultural perspective.

**Prerequisite(s):** SOC 101.

**SOC 321 White Collar & Corporate Crime 3 Credits****SOC 322 Punishment and Corrections 3 Credits**

This course explores the nature, forms, rationales, and effectiveness of punishment as a form of crime control. It traces the development of corrections in the U.S., identifies cultural trends and developments in penology, including mass incarceration and supermax prisons, considers the ways race and class have shaped these, and the reverberating effects penal policies have had on American culture and society beyond the criminal justice system. It examines the role of laws, politics, crime control agencies, as well as of media, and corporations in shaping penal policies. Topics also include: prison subcultures, inmate rights, correctional practices, privatization of prisons, and alternatives to punitive policies of incarceration and capital punishment.

**Prerequisite(s):** SOC 101.

**SOC 325 Population Study 3 Credits****SOC 330 Class and Economic Inequality 3 Credits**

Social, economic, and political aspects of the division of society into classes are considered. Theories of stratification and the distribution of wealth, power, and prestige in societies past and present are examined.

**Prerequisite(s):** SOC 101.

**SOC 340 Power and Politics 3 Credits**

Examines the nature and distribution of power in contemporary societies; analyzes the relationships between power and politics.

**Prerequisite(s):** SOC 101.

**SOC 341 Developing Societies 3 Credits**

Examines theories explaining patterns of development; indicators and measures of social well-being; and problems such as population, hunger and environmental crises in developing countries. Focuses especially on patterns of development in Latin America or China.

**Prerequisite(s):** SOC 101.

**SOC 342 Police and American Society 3 Credits**

This course examines important issues regarding police in American society, such as the paradoxes inherent in police work, police organization and strategies and their effectiveness, the dilemmas of supervising police work, police unionism, the nature and implications of police occupational subculture, the use of police discretion, forms of police misconduct and accountability, professionalization of police and the trend toward police privatization. It also considers the diversity of the police force, trends in the delivery of policing services, the impact of new technologies on policing, and the challenges of policing in a multicultural society.

**Prerequisite(s):** SOC 101.

**SOC 343 Policing and Counter Terrorism 3 Credits**

This course is designed as an upper level (undergraduate/graduate) combination lecture and discussion section on the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspectives on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (environment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security.

**Prerequisite(s):** SOC 101.

**SOC 345 Race and Crime 3 Credits**

Examines the impact of crime policy on minority communities in the United States, with particular attention to the impact of "The War on Drugs", three-strike laws, and mandatory sentencing on minorities and minority communities. Drawing on sociological research, the course explores myths and realities concerning the relationship between race and crime. The relationship between racial attitudes, historical race relations, and mass incarceration are discussed.

**Prerequisite(s):** SOC 101.

**SOC 346 Health Care and Society 3 Credits**

Application and contributions of sociology to medicine; the strategy and methods of sociomedical research; sociology of illness, addictive and mental disorder; medical institutions; health services and medical care; and current status of medical sociology.

**Prerequisite(s):** SOC 101.

**SOC 347 Aging and the Elderly 3 Credits****SOC 348 Human Service Organizations 3 Credits****SOC 349 Retirement and Leisure 3 Credits**

Examines the social phenomena of retirement as an event, process, social role, and life stage. Explores the meaning of leisure, time utilization, and creativity among the elderly. Defines related problems and issues, i.e., financial, physical, psychosocial, and environmental. Positive as well as negative implications are presented and evaluated.

**Prerequisite(s):** SOC 247 recommended.

**SOC 350 Social Policy 3 Credits**

Investigates the relationship between economic development and social policy in comparative and historical context. The main features of preindustrial, early industrial, and advanced industrial social welfare systems are described. Social, economic and political factors that shape social policy are investigated.

**Prerequisite(s):** SOC 101.

**SOC 355 Social Interaction 3 Credits**

Examines the interpersonal relation between and among people in private life, public places, and at work. Explains how such relations affect and are affected by changes in the larger social structure.

**Prerequisite(s):** SOC 101.

**SOC 360 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 361 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 362 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 363 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 364 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 365 Selected Top: Social Movements 3 Credits**

FALL 2012 - This course examines movements that seek change in the social, cultural and political structures of society. The social, economic and political contexts of these movements are treated as well as their origins, tactics, organization, recruitment, and successes and failures. Case studies focus on movements in the areas of labor, civil rights, feminism, the environment, "right wing politics", and neighborhood activism. In today's world, social movements abound. Movements such as the Tea Party and the Occupy movements demonstrate that they can take place across the political spectrum of society. Moreover, the interconnectedness of the world economy creates social movements throughout the world, whether in Asia, the Mid-East or Europe that have direct effects on the United States. Because the coverage of these movements are given considerable media exposure, students (and the public) tend to accept the interpretations of these movements as presented in the narratives of the media coverage. This class will provide a systematic academic treatment of social movements. Because social movements target structural and cultural institutions in society, the study of these movements will not only provide an understanding of these movements, but of larger social problems in society as well.

**Prerequisite(s):** SOC 101.

**SOC 367 Selected Topics: Environment 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 368 Selected Topics in Sociology 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 369 Selected Topics in Sociology 3 Credits****SOC 396 Applied Sociology 3 Credits**

Shows how sociology can be applied in work settings. As participant observers in organizations related to their career objectives, students learn to apply sociological knowledge, perspectives, and skills. In class meetings and individual consultations with the instructor, students examine the applied dimensions of sociology, the uses of sociology in various occupations, the ethical issues involved in applied sociology, and the culture and structure of their work organization.

**Prerequisite(s):** SOC 101.

**SOC 400 Senior Seminar 3 Credits**

For sociology majors only. This seminar involves in-depth examination and research of a specific issue of current importance in the discipline. Learning to do sociology is emphasized.

**Prerequisite(s):** SOC 201, SOC 301, SOC 314.

**SOC 401 Sex and the Body in Society 3 Credits**

Examines cultural meanings and social practices associated with sex and the body. Contemporary cultural norms and practices in the U.S. will be compared to other societies, historically and cross-culturally. Variations in sexual practices, ideals of sexual attractiveness according to age, gender, race, ethnicity, class and sexual orientation also will be discussed. Topics may include beauty industries (e.g. cosmetics, diet, fashion, surgery, drugs), sex and the workplace, the impact of media, social policy, and technology on ideals of sexual attractiveness, birth control, and sexual violence.

**Prerequisite(s):** SOC 101.

**SOC 490 Independent Study: Research and Creative Expression 1-4 Credits**

Juniors or seniors who have completed at least 12 credit hours in sociology may propose an independent research project with the aid and advice of any full-time faculty member of the department. Proposals must be reviewed and approved by the sponsoring faculty member and submitted to the department's Independent Study Committee at least four weeks prior to the last day of classes for the semester preceding Independent Study.

**Prerequisite(s):** SOC 101.

**SOC 491 Internship in Sociology 1-4 Credits**

A supervised work experience in an approved organization to gain knowledge of applications of sociology in work settings and to analyze work settings using sociological knowledge and research methods. Placements are made in business, government, and community offices that utilize sociological knowledge or research skills.

**Prerequisite(s):** 2.75 GPA.

**SOC 496 Honors in Sociology 3-6 Credits**

Training in the efficient collection of data that has a bearing on the problem being investigated. Stresses the technique of proper summarization of the collected material as well as the integration of that material into a comprehensive report. A research design is prepared and hypotheses tested in the field. The original library research is then combined with the findings to produce a mini-thesis. Approval of student's program by a sponsoring faculty member and the department Independent Study Committee is required.

**Prerequisite(s):** SOC 201, SOC 301.

**SOC 497 Honors in Sociology 3-6 Credits**

Training in the efficient collection of data that has a bearing on the problem being investigated. Stresses the technique of proper summarization of the collected material as well as the integration of that material into a comprehensive report. A research design is prepared and hypotheses tested in the field. The original library research is then combined with the findings to produce a mini-thesis. Approval of student's program by a sponsoring faculty member and the department Independent Study Committee is required.

**Prerequisite(s):** SOC 201, SOC 301.

## Spanish

### Program Overview

Majoring in a foreign language such as Spanish allows students to pursue careers in business, management, law, government, teaching, translation, publishing, communications, and travel.

At Rider, Spanish majors acquire an international perspective and a unique intercultural sensitivity. Advanced foreign language skills

combined with intercultural expertise increase the employment prospects of students in the global market place of today.

A major or minor in Spanish offers students the opportunity to receive a practical grounding in language and culture through a challenging curriculum which may include study abroad. In addition, our language, literature, film and culture courses prepare students to understand cultural diversity abroad and at home, to appreciate their own language and culture, and to gain global awareness. An individual fluent in another language acquires insight into the world in which we live. Advanced foreign language skills, combined with an international perspective and intercultural expertise, position our students for productive careers in the global and multicultural marketplaces of the 21st century. Faculty engagement in research and teaching excellence combines with our unique "accent on the individual" through advisement and co-curricular opportunities to create a challenging yet supportive atmosphere in which students can realize their potential.

A major or minor in Spanish will complement many degree programs in business, education, music and the liberal arts.

Students have access to a state-of-the-art Foreign Language Media Center with 25 computer work stations with Internet access for self-paced work and classroom instruction including interactive audio, video and text-based materials.

## Curriculum Overview

Classes in the Spanish major include Spanish for business, advanced communication in Spanish, Spanish culture and civilization, Latin American/Latino culture, Introduction to Spanish literature, Cervantes, the Spanish golden age, and modern Hispanic literature and cinema.

Some requirements may be met by studying abroad. Students may also minor in French or Chinese.

## Honors Programs in Languages, Literatures and Cultures

The department faculty will identify prospective honors students at the earliest possible moment and offer them challenges and encouragement to develop to their highest potential. A student who has a 3.25 cumulative average and a 3.5 in the major may be invited by the department, upon recommendation of a faculty member, to become a candidate for the 3-credit honors thesis or capstone project. Details of the thesis or capstone project will be arranged to accommodate the interests of the individual student.

The thesis/capstone project is completed during the senior year. It represents the culmination of a student's academic experience, and is an irreplaceable learning experience for the development of research, writing and critical thinking skills for graduate school admissions and success, as well as work in numerous careers. Students who successfully complete the thesis or capstone project and retain the required cumulative and major grade point average will graduate with honors.

## Degree Offered

- B.A. in Spanish

## Courses and Descriptions

### SPA 100 Spanish I 3 Credits

Introduction to the fundamentals of Spanish grammar, with emphasis on communicative skills, in culturally authentic contexts. Students are required to work extensively with audio and/or video materials and online sources. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** placement test if Spanish has been studied elsewhere.

### SPA 101 Spanish II 3 Credits

Continuation of Spanish 100. Emphasizes the use of language for communicative and cultural competency while developing a solid grammar foundation in Spanish. Students are required to work extensively with audio and/or video materials and online sources. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** SPA 100 or placement test.

**SPA 102 Elementary Spanish II Abroad 3 Credits**

This course is the second part of the first year experience in Spanish and is designed for students who have taken Spanish for Beginners I and who are interested in experiences abroad in a Spanish speaking culture. The aim is to develop the four basic skills (listening comprehension, speaking, reading, and writing) in and beyond the classroom. The discussion of distinctive cultural aspects of the Hispanic world is an integral part of this course as well as to encourage students to experience the world through the eyes of the other culture by exposing them to the literature and arts of the local culture.

**SPA 200 Spanish III 3 Credits**

An intensive review of Spanish grammar with emphasis on aural-oral (listening and speaking skills) and composition writing. Literary and cultural readings will be used to develop these skills. A special section may be offered to address the needs of native speakers. Students may be required to work with audio and/or video materials and online sources. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** SPA 101 or placement test.

**SPA 201 Spanish IV 3 Credits**

A continuation of Spanish grammar review with emphasis on aural-oral and written skills to prepare students for further study. The discussion of distinctive cultural aspects of the Hispanic world is an integral part of this course. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisites:** SPA 200 or placement test.

**SPA 300 Advanced Grammar & Composition 3 Credits**

A systematic review of grammatical structure. The development of writing skills, in preparation for upper level courses in literature, culture and professional language.

**Prerequisite(s):** SPA 201, placement test at 300-level or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 301 Spanish for Business 3 Credits**

A solid foundation in business vocabulary and cultural concepts; situational practice in geographic and cultural contexts necessary to be successful in today's Spanish-speaking world. Practice in writing business letters and other documents. Oral and written assignments to help students improve their critical thinking and become better communicators.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 302 Writing and Translating 3 Credits**

Practice in writing and an introduction to translation for students who will use Spanish in their professional lives. Using literary, cultural and journalistic sources, students learn various writing discourses including narration, description, exposition, argumentation, and journalistic and letter writing. Translation involves preliminary study of translation theory and techniques, and practice with texts from students' chosen careers. Additional study of Spanish grammar as necessary.

**Prerequisite(s):** SPA 201, placement test at 300-level or above, or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 303 Advanced Communication in Spanish 3 Credits**

The focus of the course is to strengthen the student's aural comprehension and speaking skills by providing a framework for regular guided practice of fundamental grammar structures and vocabulary enhancement in the context of Hispanic cultures. Listening activities will include live speech, video recordings, film shorts and one full-length movie. Speaking tasks will be reinforced with written exercises.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 305 Cervantes 3 Credits**

A detailed study of Cervantes' masterpiece *El ingenioso hidalgo Don Quijote de la Mancha*. Lectures, discussions, and supplementary readings.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 310 Spanish Culture & Civilization 3 Credits**

Spain's cultural achievements are studied in light of the country's unique historical and social reality through the use of historical, artistic, architectural, cinematic and literary sources. Cross-cultural awareness is enhanced through exercises that compare Spanish and American society. Classes are in English. No knowledge of Spanish required. This course may contain an optional travel component offered before or after the semester or during spring break.

**SPA 311 Latin American Latino Culture 3 Credits**

A panoramic survey of Latin American cultural achievements in light of the unique social and political history from the pre-Columbian period to the present. The cross-cultural perspective includes a study of Latino culture in the United States. Classes are in English. No knowledge of Spanish is required.

**SPA 320 Introduction to Spanish Literature 3 Credits**

Examines through lectures, readings and class discussions selected texts and their relationship to the main currents of European literary history. Introduction to the practice of literary analysis through written composition. Required for majors. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 325 Introduction to Latin-American/Latino Literature 3 Credits**

A study of the development of Latin-American and Latino literature from its origins to the present through the reading, analysis and discussion of representative works by major authors. This course increases the understanding of how social, historical, and political events, together with native as well as foreign literary movements, create a unique literature, conveying the Hispanic-American reality. Required for majors. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 395 Phonetics for Communication 3 Credits**

A systematic study of the production of Spanish sounds with practice in phonetic transcription and a preliminary investigation of dialects.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 403 Medieval Literature 3 Credits**

Surveys the literature of Spain during the Middle Ages, with special emphasis on major writers such as Gonzalo de Berceo and Don Juan Manuel, and attention to the epic and the medieval ballad. Modern versions of medieval Spanish are used.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 410 Modern Hispanic Poetry 3 Credits**

Surveys the poetic genre, emphasizing how to read, analyze, and appreciate poetry. Major poets from Spain and Spanish America of the 19th and 20th centuries representing the main currents of modern lyricism are studied. Focuses on such major writers as Rosalía de Castro, Darío, Jiménez, Machado, Vallejo, Mistral, Neruda, Lorca, Paz, Ana Rossetti, Nicolas Guillen, and Nancy Morejon.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 411 Modern Spanish Novel 3 Credits**

Traces the development of the Spanish novel, paying particular attention to the masters of the 19th-century Realism (Galdos and Clarín), the innovations and experimentation of the Generation of '98 (Unamuno, Baroja, Valle-Inclan, and Pérez de Ayala), and the novelists of the post-Civil War and contemporary periods (Cela, Delibes, Goytisolo, Martín Gaité, Matute, Fernandez Cubas, and Javier Marías). Emphasis on the aesthetics of the novel as a literary form.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 412 Hispanic Theater and Film 3 Credits**

This course explores through theater and cinema the compelling issues that have shaped Hispanic cultures and consciousness throughout the centuries. Sample topics include war and remembrance; myth and history; freedom and authority; immigration; globalization; and race, class, and gender. The course may focus on specific authors or historical periods. Representative playwrights include Lope de Vega, Zayas, Zorrilla, Avellaneda, Lorca, Buero Vallejo, Sastre, Solorzano, Carballido, Lopez Mozo, and Pedrero. Directors include Buñuel, Saura, Gutiérrez Alea, Almodovar, Rocha, Salles, Erice, Zambrano, and Bollain.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 413 The Hispanic Short Story: Transatlantic Connections 3 Credits**

This course will introduce students to the most representative writers of the short story in Spain and Latin America from Romanticism to the present. Students will be prepared to perform close readings of the literary genre under study, to analyze the form and content of the texts read, paying due attention to all internal and external aspects that impact the narrative process and the evolution of the short story. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 415 Spanish Renaissance 3 Credits**

The origins and evolution of the Renaissance in Spain and of the literary expression of Renaissance culture as reflected in the development and perfection of prose and lyrical styles through the 16th century. Topics include the medieval heritage, Spanish Humanism, the Celestina, the Renaissance ideal in amatory prose and poetry, mysticism, the ballad, and the picaresque novel.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 416 The Spanish Golden Age 3 Credits**

The literature of Spain during a period of political decline and outstanding aesthetic achievement: Lope de Vega and the rise of a national theatre; Calderon's drama of ideas; the development of the novella and the picaresque novel; the poetry and prose of Gongora, Quevedo, and Gracian. Also includes an introduction to literary theory.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 420 From Colonies to Nations 3 Credits**

This course consists of a panoramic survey of Colonial Latin American literature in light of the unique social, cultural and political history from the pre-Columbian to the Independence period (1825). Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Note: This course is cross-listed as LAC 420. Students may not get credit for both SPA 420 and LAC 420.

**SPA 426 Latin American/Latino Film and Fiction 3 Credits**

A study of the main trends in contemporary Hispanic fiction written in Latin America and the United States. Analysis and discussion of selected novels and short stories, and their cinematic representation on film. Required for majors. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**SPA 491 Internship in Foreign Languages 1-4 Credits**

A supervised work experience in an approved organization to gain knowledge of the importance and interrelationship of foreign languages and cultures in the workplace. Placements can be made in international governmental agencies, international trade associations, multinational corporations, social service agencies and other appropriate workplace environments both in the United States and abroad. With permission of the supervisor and faculty advisor, a three-credit internship may be substituted for a collateral requirement as credit toward the major.

**Prerequisite(s):** students should have completed at least one 300-level course in the foreign language.

**SPA 496 Special Studies 3 Credits**

A seminar open to a variety of topics treating a particular author, period, genre, or theme.

**Prerequisite(s):** permission of instructor.

**SPA 500 The Poety of Resistance in the Time of the Generals in Latin America 3 Credits**

This course offers a broad overview of important historical literature about dictatorships in Latin America. The weekly readings and writing assignments have been selected in order to: 1) introduce major concepts, arguments, and figures in the field of Latin American literature and culture; 2) appreciate the evolution of the role of artists and intellectuals during the years of the "dirty war" in Latin America; 3) sharpen analytical writing; and, 4) demonstrate the connection (and the limits of the connection) between literature, culture, and society. This course is predominantly a study of Latin American governments in the twentieth century and of the role of artists, primarily writers of fiction and poetry, as a corps of truth-tellers and resisters in the face of government propaganda, censorship, and cultural/political repression.

**SPA 510 Marks of Identity: The Journey of the Self in Spanish Theater 3 Credits**

What markers of class, race, ethnicity, gender and even species shape individual and group identity? How does identity change over time? How do I know who I am, and how does my identity further my interests and those of society? Offered in translation, this course explores the staging of identity in Spanish theater from the seventeenth to the twenty-first century. Topics may include the 17th-century honor code and gender, the myth of Don Juan, imperialist imaginings of New World subjects, the romantic hero and the angel of love, identity and the grotesque, identity and erotic desire, identity and media technologies, and non-human animal subjects. Film, art, music and live-theater attendance.

## Sports Media

### Program Overview

Sports Media students at Rider focus their interest and communication skills to prepare themselves to be professionals in the growing area of sports media.

### Curriculum Overview

Students will learn the fundamental and advanced procedures involved with journalism, television and public relations. All of these academic areas are focused on sports content in order to make a student well versed in both communication skills and the inner workings of the sports media industry.

Classes will utilize the Communication and Journalism Department's three state-of-the-art journalism labs, television studio, radio studio and have access to college and professional sports organizations.

Because of Rider's commitment to personalized learning, students will be able to produce content for The Rider News, The Rider University Network, Bronc Vision, and intern with the many college and professional teams located within minutes from campus.

The capstone experience for Sports Media students is a live sports reporting class in which students attend multiple live sporting events and create content from the press box and have access to post-game interviews.

## BRONCast Sports Media Academy

Rider University's BRONCast Sports Media Academy (<https://www.rider.edu/academics/colleges-schools/college-continuing-studies/summer-session/high-school-students/sports-media-camp>) introduces high school students to a comprehensive, behind-the-scenes experience in the sports broadcasting and journalism arena. Students are immersed into learning all facets of sports media for their professional goals, from interviewing skills, traits of sports journalism to fast-action motion photography and much more!

<sup>3</sup> Please note that elective credits may be used to complete requirements in a second major or minor.

## Courses and Descriptions

### COM 102 Introduction to News Writing 3 Credits

Introduces students to routines of journalism, including reporting, writing and preparing content for print and web. Incorporates contemporary practices in multimedia journalism, including digital audio, video and photos, into traditional skills, with an emphasis on accuracy, clarity and professional style and voice. Class exercises are completed in a laboratory newsroom.

### COM 104 Speech Communication 3 Credits

Examines basic communication principles and strategies of public speaking. Various genres of oral communication are studied, with an emphasis on extemporaneous and impromptu forms of delivery. Students research, prepare, and deliver speeches that are then used as the focal point for the discussion of effective speaking and listening. A number of speeches are videotaped. Students who received credit for COM 104S may not take this course. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

### COM 105 Communication, Culture and Media 3 Credits

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### COM 107 Writing for the Media 3 Credits

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

### COM 264 Intro to Media Convergence 3 Credits

Introduces the ways that the merging of media industries and the intersection and integration of various media platforms and technologies impact our lives. While the primary focus will be on digital and mobile technologies and practices, the course will also cover the convergence of digital technologies in a wide range of media areas, including journalism, social media, television and entertainment. The course will offer students broad conceptual frameworks for thinking about how the emergence and evolution of digital as well as mobile communication technologies have changed the communication and journalism industries and how they are reshaping content. In addition, the course is intended to allow students to use different digital communication technologies.

### COM 270 Sports Multimedia Reporting 3 Credits

COM 270 Sports Multimedia Reporting. Develops skills in hard-news sports reporting, game coverage, and the production of introductory multimedia and social media sports content. Employs out-of-the-classroom reporting assignments to refine information gathering techniques such as interviewing, observation, and use of documents and other contextual materials. Includes reporting and writing on sports games, teams, players, coaches, athletic issues/controversies, and the business of sports.

**Prerequisite(s):** COM 102. Introduction to News Writing.

### COM 301 Communication Law 3 Credits

Critically examines the legal limits and privileges affecting freedom of expression, especially in publishing, advertising, film, telecasting, and cyberspace. Places particular emphasis on the historical and philosophical foundations of the freedoms and limitations of communication in the United States.

### COM 302 Communication Ethics 3 Credits

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

### COM 370 Sports Television and Field Production 3 Credits

Provides an in-depth study of advanced techniques in sports field production for television. Individual and group field production assignments will involve planning and executing single camera production in a sports setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of sports field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit sports content.

**Prerequisite(s):** COM 131.

### COM 371 Sports Feature Writing 3 Credits

Focuses on developing reporting and writing skills for newspaper, magazine, public relations, and free-lance nonfiction sports writing. Students will study published examples of outstanding sports feature writing, and write their own sports feature articles with social media and multimedia components. Instead of traditional game coverage, this course focuses on covering sports personalities, issues and themes.

**Prerequisite(s):** COM 102, COM 270.

### COM 347 Sports Communication 3 Credits

Critically examines the symbiotic relationship between the mass media and professional sports franchises and major college athletic programs. This course deals with the workings and processes behind executing the proper techniques of sports information and media relations, as well as an analysis of the culture of sports in modern society. Students will develop a practical focus on sports information and promotion, including the role of the sports information director and events promoter, with emphasis on advanced concepts of public relations, publicity and marketing.

**Prerequisite(s):** COM 240 or permission of instructor.

### COM 361 Photography 3 Credits

Using digital SLR cameras, introduces students to professional methods of shooting varied subjects while applying a range of compositions and styles. Using Photoshop, students edit images for publication in print and on the Internet. Hands-on coursework is grounded in theory, history, aesthetics, and ethics. Some cameras are available for loan from the University.

### COM 400 Senior Seminar Communication 3 Credits

Provides students with the opportunity to explore critical issues in communication and journalism in a dynamic and engaging context. Students conceptualize problems, develop hypotheses, review literature, design appropriate techniques of inquiry, conduct their research, and present their findings orally to the seminar and in writing to the instructor. Senior journalism and communication majors only.

**COM 470 Live Sports Reporting Capstone 3 Credits**

Focuses on student production of live, professional-level sports media content. Students will combine reporting, writing, social media and multimedia from live sporting events. Live-coverage will include Rider University teams and regional or professional sporting events. The course is open to senior Sports Media Majors, or with the permission of the instructor.

**Prerequisite(s):** COM 370, COM 371.

**SPT 250 Introduction to the Business of Sports 3 Credits**

This course is designed to introduce the student to the business of sports. Business principles, such as management, marketing, law, finance and economics will be applied to the business of sports. The course will also explore the various career opportunities in the world of sports.

## Sustainability Studies

### Program Overview

Environmental sustainability is clearly a defining issue of the 21st century. Alarming patterns of environmental degradation have emerged since the beginning of the industrial revolution. Creating social, systematic, and commercial structures that reverse this trend by explicitly acknowledging and nurturing the interconnectedness of the natural and human environment is the main challenge facing Rider's graduates. Educators, entrepreneurs, chemists, journalists, psychologists and analysts will all need to understand the ways that our economic, natural and social systems work together to sustain the collective human enterprise.

Concentrating on the interdependence of natural, economic and human systems, the **sustainability studies minor program** helps students explore the complex task of protecting the earth while generating economic welfare and ensuring social justice. Because the program draws on a network of approaches (social, scientific, practical), students completing the minor will be equipped to take on increasingly pressing challenges in areas ranging from education and energy, communications and design to ecosystems management, business and government.

The program also provides students with opportunities to get under the hood, exploring what "going green" really means. Coursework is application-intensive. The introductory course will expose students to a wide range of issues, from food to packaging, from natural lands preservation to building sustainable communities. Other coursework complements students exploration of these issues. A broad range of internship and independent study opportunities are available for interested students. The capstone course brings together a team of students to address a real problem on the Rider campus, hopefully making significant changes along the way.

Students in the sustainability studies minor will take seven courses (23-24 credits) in environmental and social sciences, ethics and business. Sustainability-related courses that contribute to the minor are offered within many majors. The introductory course is deeply interdisciplinary, drawing on expertise from across the University in the social sciences, business, history, philosophy, ecology, physics and marketing. After this introduction, students are expected to complete an independent study or internship project on or off campus that provides hands-on experience with the complex tasks required to make systems more sustainable. The capstone course draws on the interests and expertise of the enrolled students who together will identify a specific sustainability challenge on the Rider campus and devise, implement, and measure the effects of a plan to address it.

## Courses and Descriptions

### SUS 100 Introduction to Sustainability Studies 4 Credits

Sustainability is an idea that will shape the lives of all in the 21st century. Students will explore how we arrived at our current precarious environmental situation and investigate cutting-edge methods that support human development and protect the natural ecosystems on which we will depend. By exploring principles of sustainability (whole-systems approaches, resource limitations, stewardship) through many different lenses, students will appreciate the interdisciplinarity of the sustainability enterprise. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Corequisite(s):** SUS 100L.

### SUS 100L Intro to Sustainability Lab 0 Credits

For students concurrently taking SUS 100. Field trips, visiting speakers, and films to complement topics covered in the introductory course. One three-hour laboratory per week.

**Corequisite(s):** SUS 100.

### SUS 400 Sustainability Studies Seminar 3 Credits

To synthesize sustainability studies coursework and internship experiences, students will collaboratively develop and implement a sustainability project on the Rider campus, aiming to simultaneously reduce both depletable resource use and environmental impact. Seminar sessions will explore the historical development of current systems and innovative thinking related to sustainability planning related to the focal issue. Specific topic at discretion of the instructor. Prerequisite(s): SUS 100, SUS 100L.

**Corequisite(s):** SUS 400 or as prerequisite or permission of instructor.

### SUS 490 Independent Study: Research and Creative Expression 1-4 Credits

Immerses the student in applying sustainability principles in a field setting. Students are expected to assess the outcomes of their projects and communicate their results verbally and in writing to interested audiences.

### SUS 491 Internship in Sustainability 1-4 Credits

A supervised work/service experience in an approved organization where students gain understanding and experience with applying sustainability principles. Placements may be in private, public, educational, non-profit or governmental organizations. Students are expected to include measurement and documentation of the environmental, social, and economic impact of their work. A minimum of 50 hours of work is required for one credit. At least 150 hours are required to earn 3 credits.

## Web Design

### Program Overview

Designing and implementing web pages and interactive media, as well as learning the secrets of effective print design and production, are the focuses of Rider's Web Design minor. Students learn about design and visual-communication theory while creating portfolios and web-based interactive resumes. In the capstone course, students work with real clients to create a web presence.

### Curriculum Overview

Core classes in the minor include writing for the communication professions, publication design, multimedia production I: interactive design, advanced publication design, multimedia production II: web design and multimedia production II: advanced interactive design.

Other classes include communication theory, advanced speech, theories of persuasion, audio production, graphic imaging for multimedia and photography, 3D graphic animation, covering digital media and more.

<sup>1</sup> Note: Communication and Journalism majors may declare only one minor in the department. No more than two courses may be used to meet the requirements for both a major and a minor in the department. (Exception: If a student elects the Event Planning and Production minor, then three courses may be used to meet the requirements for both the major and that minor in the department.)

## Courses and Descriptions

### COM 102 Introduction to News Writing 3 Credits

Introduces students to routines of journalism, including reporting, writing and preparing content for print and web. Incorporates contemporary practices in multimedia journalism, including digital audio, video and photos, into traditional skills, with an emphasis on accuracy, clarity and professional style and voice. Class exercises are completed in a laboratory newsroom.

### COM 103 Introduction to Communication Studies: Theory & Practice 3 Credits

Provides a foundation for the study of communication across the discipline. Open to freshmen only, it is designed to assist the first year student majoring in communication or journalism to gain a broad understanding of the scope and breadth of the field. Fundamental communication theories, principles, concepts, terms, and issues are introduced.

### COM 104 Speech Communication 3 Credits

Examines basic communication principles and strategies of public speaking. Various genres of oral communication are studied, with an emphasis on extemporaneous and impromptu forms of delivery. Students research, prepare, and deliver speeches that are then used as the focal point for the discussion of effective speaking and listening. A number of speeches are videotaped. Students who received credit for COM 104S may not take this course. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

### COM 104S Intro to Speech Communication 1 Credits

As part of the EOP program, this course is designed to improve the speaking and language skills of new college students. Through directed practice, students have the opportunity to develop poise and confidence in oral communication, as well as competence in analyzing and synthesizing messages. Emphasis is placed on development, organization, and delivery of speeches. To receive credit, a grade of "C" or higher must be earned. Students who receive credit for COM 104S may not take COM 104.

### COM 105 Communication, Culture and Media 3 Credits

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

### COM 106 Writing for the Communication Professions 3 Credits

Provides students with written communication writing strategies and tools. Applies theory and practice in communication to targeted audiences. Emphasizes the critical role writing plays in the communication workplace and provides an opportunity to evaluate and respond to real-life writing samples and situations.

### COM 107 Writing for the Media 3 Credits

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

### COM 131 Fundamentals of Video Production 3 Credits

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

### COM 201 Communication Theory 3 Credits

Explores selected theories, models, and research methods in human communication, the dynamics of the communication process in various settings, and the role of communication in human interaction.

### COM 203 Introduction to Social Media 3 Credits

Introduces the tools and techniques of social media as an effective means of communication in a variety of organizational settings. Students will practice with a variety of social media platforms, explore the roles and responsibilities of a social media manager, discuss the importance of establishing social media policies, and learn how to develop a social media strategy as well as how to measure its effectiveness through social media analytics. In addition, students will discuss important issues such as how to handle an online crisis, and the legal and ethical implications of digital communication.

**COM 204 Advanced Speech Communication 3 Credits**

Provides students with the opportunity to further their study and practice of various types of speech communication. Moving beyond an introductory perspective, this course focuses on the development of critical, analytical, and pragmatic aspects of speech. The focus is divided between the discussion of theoretical models and a demonstrated competence of that material.

**Prerequisite(s):** COM 104 or COM 290.

**COM 205 Theories of Persuasion 3 Credits**

Analyzes the motivations that lead individuals and audiences to beliefs and actions and the techniques of achieving objectives through persuasion. Attention, interest, empathy, ethos, fear, and techniques of speakers, and those who use persuasion professionally are studied.

**COM 207 Social Media and Social Change 3 Credits**

Introduces students to Web/ social media tools and information distribution networks that have enabled people to mobilize new types of collective action, inform publics and advocate positions. Community production and sharing of knowledge (Wikipedia), culture (YouTube, Flickr, the blogosphere), and political organizing (colorofchange.org) are current manifestations of social changes that are continuing to bloom in the 21st century. In this course, Rider University students will become literate in active Web and social media participation with a focus on engaging with current social, political and cultural issues.

**Prerequisite(s):** COM 201 or COM 205.

**COM 210 News Reporting and Writing 3 Credits**

Develops skills in hard-news reporting. Employs off-campus reporting assignments to refine information-gathering techniques such as interviewing, observation, and use of government documents and other contextual materials. Includes reporting and writing about police news, state and local government, the criminal justice system, science, business, and sports.

**Prerequisite(s):** COM 102.

**COM 211 Copy Editing 3 Credits**

Teaches all phases of copy editing for news and public relations: marking of copy, online editing, fact checking, building and shaping news and feature stories, applying mechanical style, building an ear for graceful English, and safeguarding against legal and ethical problems. Provides comprehensive review of grammar, spelling and punctuation, along with intensive practice in writing headlines and captions and editing wire copy.

**Prerequisite(s):** COM 102.

**COM 212 Digital Publication Design 3 Credits**

Students will explore the relationships between theory and practice, tradition and innovation, history and ever changing technological and aesthetic trends in publication design. Students will learn to use graphic image and typography as design elements in print media, such as newspaper and newsletter, as well as online media, such as e-magazine and e-book. Students will also learn the interactivity design for online publications. The course directs students to apply these concepts and skills to the production of published materials with digital publishing systems.

**COM 213 Typography 3 Credits**

Introduces students to the basics of typographic techniques and design aesthetics and provides an overview of the basic fundamentals of type design as they apply to graphics, advertising, the arts, and other areas of visual communication. The course focuses on how typography can be used as a communicative device as well as a graphic, compositional, and expressive element.

**COM 220 Voice and Articulation 3 Credits**

Increases the student's knowledge of the vocal elements of oral communication and improves use of voice and articulation. Introduces anatomy and physiology for enhanced vocal production. Analyzes volume, rate, pitch, quality, phrasing, stress, and inflection. Presents the International Phonetic Alphabet as a means of developing correct articulation and pronunciation. Uses classroom exercises and tape recording for feedback and learning.

**COM 221 Speaking for Broadcast and New Media 3 Credits**

Introduces the principles and techniques of speaking in traditional and digital media through the preparation and presentation of copy for live television and radio as well as recorded video and audio for the web. Students will apply the principles and techniques to a number of contexts including television and radio news, music and sports announcing, interviewing and talk programs, as well as public service announcements.

**Prerequisite(s):** COM 104 or COM 290.

**COM 230 Radio & TV Communication 3 Credits**

Examines the field of electronic communication and its role in society. Scrutinizes the history, technology, structure, and regulation of broadcasting including issues, trends, and the impact of new communication technologies. Introduces basic principles of effective communication in broadcast writing and producing.

**COM 231 Film and Television Special Studies 1 Credits**

Course descriptions will vary from topic to topic. This course will be offered Pass/Fail.

**COM 233 Writing for Broadcast 3 Credits**

Introduces diverse and highly structured writing styles and formats used in writing for broadcast. With focus on effective and creative writing using broadcast style, students will be exposed to the fundamentals of writing dramatic and non-dramatic material for radio and television including station IDs and liners, public service announcements and commercials, news and public affairs programs, and short dramatic and documentary scripts. Through lectures, case discussions, in-class assignments, and critiques, emphasis will be on the practical application of basic rules and conventions common to broadcast writing from copy preparation to on-air delivery.

**COM 234 Audio Production 3 Credits**

Provides a laboratory study of audio production techniques, and performance. Introduces the fundamental properties of sound as applied in modern audio production at radio and television stations, sound studios, and production houses. Students conduct lab exercises in editing, mixing, and digital recording using ProTools. Students perform a variety of genres including news, commercials, dramas, and promos.

**COM 235 Digital Filmmaking 3 Credits**

This course will provide students with an introduction to basic narrative film production including theories, techniques and applications. Students will gain competency in a number of film production areas including: idea generation and scripting, production planning, cinematography, lighting, sound and digital editing. Working as individuals and in groups, students will develop and produce short narrative film projects. Students will continue to develop proficiency and mastery of the use of specialized vocabulary of the film industry as well as the ability to analyze film and its narrative structure. In addition students will break down the "narrative" focusing on genre conventions and subtext. Students will additionally examine the relevance of film to society while developing proficiency and mastery in the study of how to create film projects.

**COM 236 The Aesthetics of Filmmaking 3 Credits**

Introduces students to basic terminology, techniques, theories and criticism commonly used in digital filmmaking. Through lecture, class discussion and screenings, students will learn how film theory, criticism and aesthetics impact the filmmaking process. Students will review and analyze films of different genres; the different approaches adopted by filmmakers; and the various elements and techniques that contribute to the creation of powerful and effective films. Aesthetic elements such as production design, mise en scene, cinematography, lighting, editing, sound design and script development will be introduced and practiced.

**COM 237 Rhetoric in the Digital Age 3 Credits**

Focuses on the critical examination of the major public discourses in digital media. Students will learn classical and modern rhetorical theory such as Aristotle's Rhetoric, power, publics and counterpublics, and argumentation. Students will apply these theoretical aspects to critically engage digital texts such as memes, emojis, hashtags, trolls, blogs/reviews, and video game narratives.

**COM 238 Screenplay Fundamentals 3 Credits**

Screenplay Fundamentals will instruct students in how to write for the screen. Students will learn how to convey story and character through the medium of film and television, how to write effective dialogue, and understand the basics of dramatic writing and scene structure.

**Prerequisite:** COM 131.

**COM 240 Public Relations 3 Credits**

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

**COM 251 Interpersonal Communication 3 Credits**

Focuses on the study of various communication concepts and theories and the development of interpersonal skills and sensitivities. More specifically, students will participate in lectures, exercises, and projects while exploring the role and function of relationships in their professional, social, and personal lives.

**COM 252 Intercultural Communication 1.5-3 Credits**

Develops intercultural communication competence through an awareness and understanding of diverse cultures and their impact on communication. It will introduce students to those general factors that influence communication with people from diverse cultures both internationally and within the United States, and offer a blend of skill development, communication theory, and hands-on application. Note: This course is crosslisted as GLS 252. Students may not get credit for both COM 252 and GLS 252.

**COM 253 Organizational Communication 3 Credits**

Focuses on the ongoing communication processes in organizations. This course examines how and why organizations develop policies and procedures that both encourage and yet constrain creativity and autonomy in employees. It also introduces various management skills to balance the dynamic in organizations. Finally, the course introduces students to various communication technologies that enable communication processes in organizations. Students will also have opportunities to participate in creating organizational dynamics through role-playing exercises, case studies, and other kinds of experiential learning.

**COM 254 Intro to Health Communication 3 Credits**

Health communication has been shown to have a positive impact on a number of facets of the medical visit, including patient outcomes, patient satisfaction, and job performance and satisfaction. This course will provide students with tools to implement health communication practices in a healthcare setting in order to improve these areas. In addition, health communication is particularly useful in cross-cultural situations, both in regard to the patient-provider relationship, when the ethnicities of the two parties may be different, and when cultural beliefs may impact a patient's medical wishes. Part of the tools for implementing health communication into the practice setting includes an understanding of the role that culture can play in healthcare and the development of strategies to provide optimal medical care while also respecting cultural intricacies.

**COM 261 Introduction to Web Design 3 Credits**

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

**COM 262 Graphic Imaging for Digital Media 3 Credits**

Teaches students techniques for image development, and image preparation for various multimedia applications. Emphasis is placed on color calibration and palette issues, image manipulation, advanced image selection techniques, transparency and masking, multimedia authoring file formats, and dynamic image design. Students will be expected to participate in critiques of professional designs in order to learn to critically evaluate their work and their fellow students' work.

**Prerequisite(s):** COM 261 or permission of instructor.

**COM 263 History and Principles of Graphic Design 3 Credits**

Covers the history and principles of graphic design from analog art through the digital revolution. The elements and principles of design will be used to study stylistic progressions, artistic techniques, design innovations, and mechanical inventions. Material will be presented through a combination of illustrated lectures and discussions.

**COM 264 Intro to Media Convergence 3 Credits**

Introduces the ways that the merging of media industries and the intersection and integration of various media platforms and technologies impact our lives. While the primary focus will be on digital and mobile technologies and practices, the course will also cover the convergence of digital technologies in a wide range of media areas, including journalism, social media, television and entertainment. The course will offer students broad conceptual frameworks for thinking about how the emergence and evolution of digital as well as mobile communication technologies have changed the communication and journalism industries and how they are reshaping content. In addition, the course is intended to allow students to use different digital communication technologies.

**COM 265 3D Graphic Animation 3 Credits**

Provides students with an introduction to the basics of 3D graphic animation techniques including modeling, texturing, rendering, visual effects and animation. Through various projects the students will learn: to model characters, sets and props, how to apply textures and color to their models, and how to bring their creations to life using various animation techniques. In addition to the technical aspects of creating successful animation, the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation, dramatization and narrative.

**COM 270 Sports Multimedia Reporting 3 Credits**

COM 270 Sports Multimedia Reporting. Develops skills in hard-news sports reporting, game coverage, and the production of introductory multimedia and social media sports content. Employs out-of-the-classroom reporting assignments to refine information gathering techniques such as interviewing, observation, and use of documents and other contextual materials. Includes reporting and writing on sports games, teams, players, coaches, athletic issues/controversies, and the business of sports.

**Prerequisite(s):** COM 102. Introduction to News Writing.

**COM 280 Issues in Event Planning 3 Credits**

Offers students education in event planning, production, and supervision for varied professional applications. Emphasis will be placed on planning, budgeting, and organizing small and large events for educational, institutional, non-profit, and professional groups. Students will participate in the entire process of event planning, with specific experiences in applying communication theory to actual projects.

**Prerequisite(s):** COM 240 or MKT 200.

**COM 290 Professional/Strategic Speech 3 Credits**

Provides students with practical information necessary for effective communication in various business and professional settings. Covers communication processes, principles, and models in the modern organization. Class assignments are given with emphasis on developing a knowledge and practical understanding of informative, persuasive, and impromptu presentations. Limited to students enrolled in the College of Business Administration.

**COM 291 Documentary Film and Video 3 Credits**

Surveys the history of documentary film, including reportorial, exploratory, persuasive, symphonic, compilational, reflexive, and fictional traditions through screenings, lectures, and readings. Provides practice in film criticism. Explores philosophical questions about the relationship between non-fiction films and videos and the reality they purport to record. Analyzes ethical problems of filmmaking.

**COM 292 Content for Social Media 3 Credits**

Focuses on creating social media content that will inform, entertain, and engage audiences within a variety of organizational and business contexts. Students will learn about message planning for specific platforms and creative ways to use digital content to support public relations, branding, customer, and media relations.

**COM 295 Cinematography I 3 Credits**

This course introduces the art of cinematography from historical, aesthetic and practical perspectives. Students will learn the principles of cinematic composition, lenses, lighting, and camera operation while studying the work of great cinematographers in film history.

**Prerequisite(s):** COM 131.

**COM 301 Communication Law 3 Credits**

Critically examines the legal limits and privileges affecting freedom of expression, especially in publishing, advertising, film, telecasting, and cyberspace. Places particular emphasis on the historical and philosophical foundations of the freedoms and limitations of communication in the United States.

**COM 302 Communication Ethics 3 Credits**

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

**COM 304 Rhetoric for Politics and Law 3 Credits**

Introduces the theory and strategy of crafting persuasive messages and cultivating relationships with the media in the context of judicial, deliberative, and epideictic genres of rhetoric. In addition, students will learn how to plan and coordinate media briefings and how to prepare and participate in a media interview.

**Prerequisite(s):** COM 104 or COM 290.

**COM 312 Special Topics in Journalistic Writing 3 Credits**

Provides students with the opportunity to explore specialized topics in journalistic reporting and writing. Each course will focus on a specific area in the broad field of journalism. Examples include business reporting, health reporting, and sports reporting.

**Prerequisite(s):** COM 102 or COM 107.

**COM 315 Computer Assisted Reporting 3 Credits**

Develops advanced reporting techniques for researching and writing in-depth news stories and investigative articles. Uses state-of-the-art computer-assisted reporting methods including finding and mining data bases on the Internet, creating spreadsheets to analyze data, and employing data base manager software to sort and summarize information in government documents and other specialized resources. Focuses on conceptualizing of story ideas, planning major projects, gathering information by means of data bases, participant-observation, interviews, and analysis of public documents. Emphasizes organizing large quantities of material and presenting it in a meaningful context, including with information graphics.

**Prerequisite(s):** COM 210 or permission of instructor.

**COM 316 Feature Writing 3 Credits**

Focuses on problems and requirements of newspaper, magazine, public relations, and free-lance nonfiction writing. Students write features designed for acceptance in print, broadcast and digital media and learn marketing techniques.

**Prerequisite(s):** COM 102 or COM 107, English writing concentration, or permission of instructor.

**COM 318 Gender and Communication 3 Credits**

Focuses on interactive relationships between gender and communication in contemporary American society. It connects theory and research with practice to explore multiple ways communication in families, schools, media, and society in general creates and perpetuates gender roles. It is designed to heighten students' awareness of how we enact socially created gender differences in public and private settings and how this affects success, satisfaction, and self-esteem. Note: This course is crosslisted as GND 318. Students may not get credit for both COM 318 and GND 318.

**COM 322 Argumentation and Advocacy 3 Credits**

Investigates the theory and practice of speech communication that seeks to persuade by inferential argumentation. Concentrates on theories, practices, and research in argumentation and debate, blended with speaking experience in analyzing and advocating controversial topics.

**Prerequisite(s):** COM 104 or COM 290.

**COM 323 Oral Interpretation of Literature 3 Credits**

Provides an orientation to the field of oral performance. Students select literary texts, adapt the material to the audience and prepare it for presentation. Emphasizes the development of voice, articulation, and kinesic behavior. Presentations to the class are critiqued.

**Prerequisite(s):** COM 104 or COM 290 or permission of instructor.

**COM 325 Rhetoric of American Labor 3 Credits**

This course examines speeches, tracts, lyrics, newspapers, posters, poems, and films of the labor movement in America. The course also examines the historical context of the labor movement to better understand and appreciate the public discourse of labor. The course explores how rhetoric has been used to give force to ideas and lead to actions, how we develop a sense of how the values and norms of our society were reflected and shaped, and we understand how that history influences our collective perception in the present. Special attention is paid to the nature and locus of power, the interplay of conflict and confrontation, and the speaker's attempt to maintain or change the allocation of that power.

**COM 328 Sitcoms and American Culture 3 Credits**

Provides an overview to the unique and highly structured form of the American television situation comedy. The primary focus will be on history and development with in-depth study of situation comedy themes, characters, and settings. Through lectures, case discussions, in-class assignments, and class projects, students will examine the social and cultural meanings and implications of this incredibly popular and durable genre of programming.

**COM 330 Documenting Cultures Through Travel 3 Credits**

Offers students, through travel and study, a unique opportunity to gain firsthand experience of a foreign culture and to learn how to record and document their experiences using multiple media, including print, audio, video, photography and/or the Web. While traveling, students will be required to attend lecture/discussion sessions, site tours, and other planned activities. This experience will be preceded and/or followed by additional academic work to be conducted on campus. Study topics may include aspects of the historical, social, economic, political and aesthetic cultural components appropriate to the location(s) to be visited. The travel component of the course will be scheduled to avoid conflict with normal semester offerings. No foreign language skills are required.

**COM 331 Television Production 3 Credits**

Explores the technological capabilities and limitations of the television medium in team productions using a range of styles and formats. Students learn principles of studio production, electronic field production, and electronic news gathering. Exercises include use of computer graphics, audio production, and non-linear video editing. Stresses electronic communication skills and aesthetic values in a professional production setting.

**Prerequisite(s):** COM 131 or COM 230.

**COM 333 Broadcast Programming 3 Credits**

Analyzes the theory, practice, structure, and function of broadcast programming. Examines the structure of the industry as it relates to entertainment, information, and the audience. Studies program categories, formats, genres, trends, consistency, accountability, and ratings as well as cable, satellites, and home video. Critical standards are developed by introducing humanistic and scientific modes of program analysis.

**Prerequisite(s):** COM 230.

**COM 335 Television Field Production 3 Credits**

Provides an in-depth study of advanced techniques in Field Production for television. Individual and group field production assignments will involve planning and executing single camera production in a non-studio setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit documentaries.

**Prerequisite(s):** COM 331.

**COM 337 Music Production for Mass Media 3 Credits**

Offers students education in audio production techniques for music and other advanced audio material. Building on theory and practice introduced in the prerequisite, the class will instruct students in the theory behind acoustics and electronics as well as the digital tools and media. Those theoretical studies will be put to practice through exercises in recording music, making selections from music libraries, multi-track recording, arranging, editing, mixing and mastering. Students will begin to develop both an engineer's attention to audio detail and a musician's sense of artistry. Putting these skills to use, the students will produce complete musical works of varying musical styles, working both individually and in teams.

**Prerequisite(s):** COM 234.

**COM 338 Writing for Broadcast II 3 Credits**

Building on COM 233 Writing for Broadcast, this course provides a hands-on approach to more sophisticated reporting and interviewing techniques and writing formats used in long-form radio and television programs. This course will expose students to the following broadcast script writing areas: features, documentaries and reality programs. It will also cover writing for interview/talk show programs, music, comedy and variety programs. Students will also be exposed to writing for corporate, educational and children's programming. Students will have hands-on experiences writing, producing and editing news pieces and webcasts for student and area media outlets and web sites.

**COM 339 Developing The Feature-Length Script 3 Credits**

Developing the Feature Length Script will instruct students how to write a full-length film or television program. Students will learn the mechanics of 3-act and 7-act structure, and during the course they will develop a logline, synopsis, treatment, and sample scenes of a full-length project.

**Prerequisite(s):** COM 238.

**COM 341 Publicity Methods 3 Credits**

Applies communication theory to writing and editorial processes and production techniques to create public relations materials; includes press releases, industrial publications, social media, trade publications, brochures, newsletters, stockholder reports, and multimedia platforms.

**Prerequisite(s):** COM 107, COM 240, or permission of instructor.

**COM 347 Sports Communication 3 Credits**

Critically examines the symbiotic relationship between the mass media and professional sports franchises and major college athletic programs. This course deals with the workings and processes behind executing the proper techniques of sports information and media relations, as well as an analysis of the culture of sports in modern society. Students will develop a practical focus on sports information and promotion, including the role of the sports information director and events promoter, with emphasis on advanced concepts of public relations, publicity and marketing.

**Prerequisite(s):** COM 240 or permission of instructor.

**COM 348 Communication Research Methods 3 Credits**

Introduces students to the research methods used to study communication problems and processes. Students will learn how researchers plan and design research studies, explore the methodological considerations of both qualitative and quantitative methods, and have an opportunity to gain hands-on experience in conducting research on communication-related issues.

**Prerequisite(s):** COM 105.

**COM 350 Team & Group Communication 3 Credits**

Examines the communication process as it relates to the small group. Theoretical constructs including motivation, group climate, attraction, leadership, decision making, problem solving and roles are analyzed. Utilizes group experience to study and evaluate the dynamics and effectiveness of interpersonal systems.

**COM 352 Chinese and American Intercultural Communication 3 Credits**

Instructs students about Chinese culture and communication. Culture impacts communication practices and styles in significant and subtle ways. Through readings, lectures, discussions, and first-hand interactions with Chinese international students, the students of this course will gain both conceptual and practical understanding of major communication differences between the two cultures, and become a more skilled intercultural communicator. Note: This course is crosslisted as GLS 352. Students may not get credit for both COM 352 and GLS 352.

**COM 353 Nonverbal Communication 3 Credits**

Investigates studies in and theories of nonverbal communication. Lectures and experiential activities explore the effect of status, culture, and gender upon kinesics, physical characteristics, proxemics, tactile communication, paralanguages, artifacts, and environmental factors.

**Prerequisite(s):** COM 104 or COM 290 or permission of instructor.

**COM 360 Advanced Publication Design and Presentation 3 Credits**

Builds on elementary knowledge of graphic design to teach the principles of advanced layout, and computer graphics. Introduces students to industry standard drawing software and builds on their knowledge of layout software gained in the prerequisite course. Provides an understanding of the use of logos, infographics and magazine layout, and of the theoretical bases of color for print production.

**Prerequisite(s):** COM 212.

**COM 361 Photography 3 Credits**

Using digital SLR cameras, introduces students to professional methods of shooting varied subjects while applying a range of compositions and styles. Using Photoshop, students edit images for publication in print and on the Internet. Hands-on coursework is grounded in theory, history, aesthetics, and ethics. Some cameras are available for loan from the University.

**COM 363 Converging Digital Media 3 Credits**

Examines the digital technologies that make up the new world of digital convergence. The course will examine the effects of digital media convergence on social life, ethics, industry, and local and global communities through a variety of theories and paradigms. This course will also help students develop necessary digital media production skills and use them critically to solve media development problems.

**COM 364 Web Design II 3 Credits**

Equips students with the theories and practical techniques required to produce effective digital text, graphics, and animations for the Web. Discusses theories behind the use of these media in terms of effective communication and interaction. Introduces students to different computer platforms and requirements for cross-platform media.

**Prerequisite(s):** COM 261 or permission of instructor.

**COM 365 Graphic Animation 3 Credits**

Offers students education in graphic animation theories, animation development techniques, and animation preparation for various multimedia applications. Emphasis is placed on the design principles in animated communication and animation techniques. The course covers the integration of static images in animation, graphic animation techniques, animation compression, animation rendering, input/output file formats, and animation delivery. The primary software for this course is Adobe Photoshop and MacMedia Flash. Students will be expected to participate in critiques of professional animation designs in order to learn to evaluate critically their own work and their fellow students' work.

**Prerequisite(s):** COM 262 or permission of instructor.

**COM 366 Project Management in Graphic Design 3 Credits**

Explores the creative process of graphic design while developing an understanding of the methods employed in problem solving in the industry standard design software packages. Students learn how to create a hierarchy of information through the ordering of elements into a comprehensive visual unity. They consider the relationship between content and page size, proportion, grid and margins. Students learn about typography as a design element and how it works with other visual elements in design. In order to develop an understanding of the project-planning process for either printer or Web projects, students will develop and present a series of projects that will build on one another to develop their "visual voice." Students will be evaluated on their ability to apply course material to the projects to create professional-quality work; their ability to apply exchange ideas and accept and apply constructive criticism; and on their participation in class discussions, critiques and presentations.

**Prerequisite(s):** COM 262, COM 360.

**COM 367 3D Graphic Animation II 3 Credits**

Continue to learn the techniques of 3D computer animation including modeling, texturing, rendering, visual effects and animation. In addition to the technical aspects of creating successful 3D animation the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation.

**Prerequisite(s):** COM 265.

**COM 370 Sports Television and Field Production 3 Credits**

Provides an in-depth study of advanced techniques in sports field production for television. Individual and group field production assignments will involve planning and executing single camera production in a sports setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of sports field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit sports content.

**Prerequisite(s):** COM 131.

**COM 371 Sports Feature Writing 3 Credits**

Focuses on developing reporting and writing skills for newspaper, magazine, public relations, and free-lance nonfiction sports writing. Students will study published examples of outstanding sports feature writing, and write their own sports feature articles with social media and multimedia components. Instead of traditional game coverage, this course focuses on covering sports personalities, issues and themes.

**Prerequisite(s):** COM 102, COM 270.

**COM 380 Television Production Practicum 3 Credits**

Provides a workshop dedicated to the planning and creation of professional caliber television content for the campus television network and beyond. This course will provide an opportunity for students to develop writing, graphic, audio, video design and production skills in an experiential setting. Students will create materials to be used by the Rider University Network and for broadcast, cable and Internet distribution. Students can be involved in any and all phases of creating content from project conception through implementation. Students will gain valuable experience with, a greater appreciation for, and increased competency in creating professional media content. This class will also prepare students to more effectively function in the communication industry as an effective member of a professional production team. Since topics will vary by semester and instructor, this course may be repeated once.

**Prerequisite(s):** permission of instructor.

**COM 390 Communication and Society 3 Credits**

Examines in a topical manner the influence of communication upon significant issues and movements affecting people and society. Investigates interpersonal and mass media factors as they relate to a major issue such as changing sex roles, radicalism, racism, evangelism, election campaigns, and technology. May be taken more than once with different emphasis.

**COM 391 Communication Criticism 3 Credits**

Investigates and analyzes various methods of communication criticism and their applications to the understanding and evaluation of public and media discourses. Introduces theories and perspectives to assist in the analysis of those discourses. Methods include Aristotelean, Burkean, and ideological criticism.

**COM 392 Media History: Personalities and Trend 3 Credits**

Presents in a topical manner the history of the media from various perspectives, seeking to place the material into a meaningful economic, cultural, political, and/or social context. Different issues and related individuals are examined, such as the golden age of radio, motion picture economics, and media empire builders, with a view toward understanding their significant impact on the development and functioning of the media today. This course may be taken more than once with a different emphasis.

**COM 393 International Communication 3 Credits**

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is crosslisted as GLS 393. Students may not get credit for both COM 393 and GLS 393.

**COM 394 Social Media Capstone 3 Credits**

A client-based social media campaign will be developed from conception to evaluation based on research and digital media strategies. Focus will be on engagement with audiences, managing social media, and evaluation using social media metrics. As the capstone course, this is the last course that students take in the Social Media Strategies Minor or Certificate program through CCS. Permission of department required. Prerequisites: COM 261 & COM 292.

**COM 399 The Co-Operative Experience 3-12 Credits**

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. Prerequisite(s): junior standing and 2.75 GPA at the time of registration; Pass/fail.

**Corequisite(s):** IND 398 The Co-operative Experience Seminar, IND 398 and (dept) 399 combined cannot exceed 15 credits.

**COM 400 Senior Seminar Communication 3 Credits**

Provides students with the opportunity to explore critical issues in communication and journalism in a dynamic and engaging context. Students conceptualize problems, develop hypotheses, review literature, design appropriate techniques of inquiry, conduct their research, and present their findings orally to the seminar and in writing to the instructor. Senior journalism and communication majors only.

**COM 402 Directing for Film 3 Credits**

This course approaches directing both creatively and critically, and examines the role and importance of the director to the filmmaking process. The transformation of the written script into a film is explored through readings, viewing and analyzing the films of accomplished directors. Lectures and exercises illustrated with film clips and readings emphasize plot development, script analysis, developing storyboards and shot lists, rehearsal, blocking, collaborating with talent and production crew, and using the camera to effectively capture action and performance. Students will gain an effective understanding of the role of the director through the various stages of film production, and be provided the opportunity to demonstrate and cultivate his/her effectiveness as a director through individual and group assignments.

**Prerequisite(s):** COM 235 and COM 338.

**COM 415 In-Depth Reporting 3 Credits**

Utilizes advanced tools and techniques of contemporary in-depth reporting for print and multimedia. Covering multifaceted stories, students will learn how to do balanced multi-sourced field reporting and writing using primary and secondary sources including human sources, electronic documents and databases, both online and offline. Emphasis will be placed on writing stories that answer not only who, what, when and where questions but also the why, the how and the “so what?” questions. Students will also be exposed to some of the best investigative work of journalists past and present as models for analysis and discussion.

**Prerequisite(s):** COM 210.

**COM 431 Adv TV Research & Production 3 Credits**

Explores the theoretical and practical application of aesthetic technique in modern television/video production situations. While the prerequisite courses emphasized competency in equipment operations and basic production skills, this course moves to a higher platform by emphasizing concepts of production and how to apply them for effective communication. Thus this course places emphasis on advanced techniques: design and aesthetics as applied to enhance the overall video presentation as practiced in both the commercial and organizational communication arenas. In the current state of the art of video production, a mastery of aesthetic skills is necessary for the effective expression of ideas in optimal fashion and for a variety of audiences. Students will be exposed to as many techniques as practical through class discussion (including heavy participation by the student), individual and group lab activities and contact when possible with current practitioners and equipment. As most television production is done for a client, that process will form the basis for much of the course discussion and activities including projects.

**COM 434 Advanced Radio Production 3 Credits**

Provides in-depth study of advanced techniques in audio recording and radio programming and production. Individual and group production of short and long-form radio projects including: promotional spots, features, music programming, and news. Students will be involved in all phases of programming and production for radio including: project conception, development, management, and implementation. Selected student projects will air on the student radio station, 107.7 The Bronc.

**Prerequisite(s):** COM 234.

**COM 435 Advanced Digital Filmmaking 3 Credits**

This is an intensive hands-on course in advanced digital filmmaking. Students will gain experience with and proficiencies in a number of filmmaking areas including: creativity, production planning, aesthetics, scripting, script breakdown, camera movement, selecting and directing talent, creating scenes and sequences, visualizing action, establishing mood and conflict, as well as advanced lighting, sound and digital editing techniques. The students' use of high definition digital imaging systems as a medium for narrative cinematography will be developed and refined. In addition, students will explore how filmmaking techniques and technology can impact the visual story telling process. While often working cooperatively in groups, modeling the interdependent structure of film crews today, the creative and leadership role of the director in the contemporary film industry will be emphasized. Throughout the class, there will be an important integration of theory and practice which will enable students to produce meaningful film projects that will not only be technically effective, but strong in content and context as well.

**COM 440 Cases & Campaigns in Public Relations 3 Credits**

Critically analyzes public relations case problems in industry, labor, education, government, social welfare, and trade associations. Emphasizes problem solving through the use of communication theories, public relations techniques, creative thinking, and the development of professional goals and standards. Employs realistic simulation exercises and actual case studies to develop and critique students' ability to demonstrate this knowledge in professional situations.

**Prerequisite(s):** COM 341 or permission of instructor.

**COM 452 Seminar in Communication Studies 3 Credits**

Offers an in-depth investigation of relational communication. Students explore the many complexities involved in human interaction and interpersonal dynamics. Social and psychological implications of various communicative relationships ranging from cross-gender communication to dysfunctional family systems to intercultural interactions are included.

**Prerequisite(s):** COM 348, COM 350, or permission of instructor.

**COM 460 Web Design III 3 Credits**

Builds on previous courses to refine students' understanding of theories and procedures of digital media development. Further develops Web site creation and project management theories. Students develop advanced Web creation techniques, including responsible site production.

**Prerequisite(s):** COM 364.

**COM 462 Advanced Graphic Design and Portfolio 3 Credits**

Explores the processes of graphic design by creating independent and creative solutions to a series of design problems. Students expand their proficiency in all aspects of the design process, including creative brainstorming, conceptualizing, critical thinking and presentation. Students take a design project to both print and digital formats using Photoshop, Illustrator, and InDesign. Students develop and present a balanced portfolio as the culmination of their experience in the course.

**Prerequisite(s):** ART 103, ART 105, COM 262, and COM 360.

**COM 470 Live Sports Reporting Capstone 3 Credits**

Focuses on student production of live, professional-level sports media content. Students will combine reporting, writing, social media and multimedia from live sporting events. Live-coverage will include Rider University teams and regional or professional sporting events. The course is open to senior Sports Media Majors, or with the permission of the instructor.

**Prerequisite(s):** COM 370, COM 371.

**COM 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**COM 491 Internship in Communication 1-4 Credits**

Places qualified students in a professional area related directly to their communication training. Students may intern in a communication position with a corporation, small business, media outlet, public relations agency, non-profit organization, political party, sports organization, or other similar organizations. A minimum of 50 hours of internship per credit is required. Written reports, a final project, and supervisor evaluations are used to analyze and evaluate the experience. For students majoring in the Department of Communication and Journalism only, primarily juniors and seniors. No more than two internships are permitted for each student; exceptions may be made. The deadline for registration is the first Friday of the semester.

**Prerequisite(s):** 3.2 GPA and permission of instructor.

**CLAS General Education Curriculum**

The College of Liberal Arts and Sciences General Education Curriculum (CLAS GEC) provides the opportunity for exploration across a broad array of disciplinary offerings. Balancing structure with choice, students will examine the complex worlds in which they live from a variety of perspectives.

Courses may satisfy both general education requirements as well as major or minor requirements when expressly permitted.

For students entering CLAS in **Fall 2018 through Fall 2019**, [click here](#) (p. ).

For students who entered CLAS in **Fall 2017**, [click here](#) (p. ).

For students who entered CLAS **prior to the start of the Fall 2017 semester**, [click here](http://catalog.rider.edu/undergraduate/colleges-schools/liberal-arts-sciences/core-requirements) (http://catalog.rider.edu/undergraduate/colleges-schools/liberal-arts-sciences/core-requirements) for curricular requirements.

**General Education Curriculum for students entering in Fall 2018 through Fall 2019:**

Code	Title	Credits
<b>I. ESSENTIAL COMPETENCIES:</b>		
<b>Reading and Writing:</b> <sup>1</sup>		6-9
CMP 115	Intro to Expository Writing <sup>1</sup>	
CMP 120	Expository Writing	
or BHP 100	Honors Seminar: Great Ideas I	
Select one of the following:		
CMP 125	Research Writing	
or BHP 150	Honors Seminar: Great Ideas II	
CMP 203	Literature and Composition	
<b>Mathematical Reasoning:</b> <sup>2</sup>		3-4
Select one of the following:		
MTH 102	Finite Mathematics	
MTH 105	Algebra and Trigonometry	
<b>Foreign Language Proficiency:</b> <sup>3</sup>		6
Select two Chinese courses:		
CHI 100	Chinese I	
CHI 101	Chinese II	
CHI 200	Chinese III	
CHI 201	Chinese IV	

OR select two French courses:		
FRE 100	French I	
FRE 101	French II	
FRE 200	French III	
FRE 201	French IV	
OR select two Spanish courses:		
SPA 100	Spanish I	
SPA 101	Spanish II	
SPA 200	Spanish III	
SPA 201	Spanish IV	
<b>Oral Communication:</b>		3
COM 104	Speech Communication	
<b>II. DISCIPLINARY PERSPECTIVES</b>		
<b>Scientific Perspectives:</b> <sup>2</sup>		4-6
To fulfill the Scientific Perspectives requirement, students may take either a lecture/lab combination (4 credits) or two 3-credit non-lab courses (6 credits). Students who have taken a PSY course to fulfill the Social Perspectives requirement may not take a PSY course to fulfill the Scientific Perspective requirement.		
<b>A. Lecture/Lab Combination Courses</b>		
CHE 114 & 114L	Chemistry in the Kitchen and Chemistry in the Kitchen Lab	
ENV 100 & 100L	Introduction to Environmental Sciences and Introduction to Environmental Sciences Lab	
ENV 110 & 110L	Future of Natural Resources and Future of Natural Resources Lab	
GEO 100 & GEO 102	Earth Systems Science and Earth Materials and Processes Lab	
MAR 120 & MAR 121	Oceanography and Introductory Oceanography Lab	
SUS 100 & 100L	Introduction to Sustainability Studies and Intro to Sustainability Lab	
<b>B. 3-Credit Non-Lab Courses</b>		
BIO 100	Life Science	
BNS 107	Life Science: Brain and Behavior	
GEO 168	Mesozoic Ruling Reptiles	
GEO 100	Earth Systems Science	
GEO 113	Environmental Geology	
MAR 120	Oceanography	
PSY 131	The Science of Mental Illness <sup>4</sup>	
<b>Social Perspectives:</b>		6
Select two of the following. The two courses selected in this category cannot be from the same academic department. Students who have taken a PSY course to fulfill the Scientific Perspectives requirement may not take a PSY course to fulfill the Social Perspectives requirement.		
BHP 203	Nineteen Eighty-Four in Context: George Orwell's Enduring Legacy	
BHP 212	Children and the Media	
BHP 302	Mirrors of the Mind: The Interplay of Literature and Psychology	
BHP 322	Honors Seminar: Guilty and Innocent	
COM 105	Communication, Culture and Media	
POL 100	Introduction to American Politics	
POL 102	Understanding Politics	

PSY 102	Explorations in Psychology Honors	
PSY 110	Psychology: The Science of Well-being <sup>4</sup>	
PSY 283	Sport Psychology <sup>4</sup>	
SOC 101	Sociological Imagination	
<b>Historical Perspectives:</b>		6
HIS 150	World History to 1500	
HIS 151	World History Since 1500	
<b>Aesthetic Perspectives:</b>		6
Select two of the following, one course in Fine Arts and one course in Literature.		
<b>A. Fine Arts</b>		
DAN 105	Survey of Dance History	
MUS 105	Survey of Music History I	
MUS 106	Survey of Music History II	
MUS 120	Music and Society	
THE 105	Theatre History to 1700	
THE 106	Theater History Since 1700	
THE 120	Theater Appreciation	
<b>B. Literature</b>		
BHP 203	Nineteen Eighty-Four in Context: George Orwell's Enduring Legacy	
BHP 268	Honors Seminar: Love and Chivalry in the Arthurian Tradition	
BHP 302	Mirrors of the Mind: The Interplay of Literature and Psychology	
BHP 322	Honors Seminar: Guilty and Innocent	
CHI 307	Images of Women in Chinese Literature and Film	
ENG 205	Understanding Literature	
ENG 208	Arthurian Legends in Literature	
ENG 210	Major American Authors	
ENG 211	Major British Authors	
ENG 213	Literature and Mythology	
ENG 214	Monsters in Literature	
ENG 215	Satire and Comedy	
ENG 217	Introduction To Shakespeare	
ENG 218	Literature and the Environment	
ENG 219	Literature and Violence	
ENG 220	Literature & Society	
ENG 221	Literature and Psychology	
ENG 222	Crime and Literature	
ENG 224	Science Fiction	
ENG 228	Black American Lit	
ENG 229	Multi-Ethnic Literature in America	
ENG 230	Women In Literature	
ENG 270	Major Poets	
ENG 290	The Short Story	
ENG 295	Human Relationships in Literature (HONORS)	
ENG 337	Global Literature	
FRE 422	Cultural Expression in French Film and Television	
FRE 425	Portrait of the Hero in French Fiction	
FRE 430	Mask & Reality in French Theater	
FRE 435	Self in French Prose & Poetry	

FRE 440	A Quest for Identity: Francophone Literature and Culture	
LIT 250	Masterworks of Western Literature I	
SPA 413	The Hispanic Short Story: Transatlantic Connections	
SPA 426	Latin American/Latino Film and Fiction	
<b>Philosophical Perspectives:</b>		3
PHL 100	Plato and Aristotle	
PHL 102	Philosophical Thinking	
PHL 110	Logic and Language	
PHL 115	Ethics	
PHL 120	American Philosophy	
PHL 125	Philosophies of Education	
PHL 130	Political Philosophy	
PHL 202	Social Philosophy	
PHL 207	Asian Philosophy	
PHL 210	Symbolic Logic	
PHL 215	Environmental Ethics	
PHL 225	Modern Philosophy	
PHL 230	Philosophy of the Sexes	
PHL 304	Medical Ethics	
PHL 310	Problems in 20th-Century Philosophy	
PHL 320	Philosophy of Science	
PHL 334	Theories of Knowledge	
PHL 336	Philosophy of Mind	
PHL 343	Theories of Reality	
PHL 348	Indian Philosophy	
PHL 358	Chinese Philosophy	
PHL 360	Contemporary Ethics	
PHL 368	Japanese Philosophy	
PHL 418	Great Buddhist Thinkers	
<b>III. GLOBAL PERSPECTIVES</b>		3-4
Select one course that emphasizes an international, global, and/or non-U.S. cultural perspective and follows the Global Perspective (GP) designation.		
BHP 322	Honors Seminar: Guilty and Innocent	
CHI 307	Images of Women in Chinese Literature and Film	
ENG 337	Global Literature	
ENV 110	Future of Natural Resources	
FMS 250/ENG 281	Global Film History: Origins to 1960	
FMS 251/ENG 282	Global Film History: 1961 to Present	
FRE 422	Cultural Expression in French Film and Television	
FRE 425	Portrait of the Hero in French Fiction	
FRE 430	Mask & Reality in French Theater	
FRE 435	Self in French Prose & Poetry	
FRE 440	A Quest for Identity: Francophone Literature and Culture	
GEO 100	Earth Systems Science	
GEO 113	Environmental Geology	
GEO 168	Mesozoic Ruling Reptiles	
GSS 312	Gender, War and Peace	

HIS 273	Imperial Russia
HIS 274	Modern Russia
HIS 333	20th-Century Europe
HIS 334	The Era of World War II
HIS 335	Nazi Germany & Hitler's Europe
HIS 343	Ottoman Empire and the Balkans
HIS 352	History of Socialism
LIT 250	Masterworks of Western Literature I
MAR 120	Oceanography
MCS 110/GSS 110	Race, Class and Gender in Contemporary American Society
PHL 102	Philosophical Thinking
PHL 207	Asian Philosophy
PHL 334	Theories of Knowledge
PHL 336	Philosophy of Mind
PHL 343	Theories of Reality
PHL 348	Indian Philosophy
PHL 358	Chinese Philosophy
PHL 368	Japanese Philosophy
PHL 418	Great Buddhist Thinkers
SPA 320	Introduction to Spanish Literature
SPA 325	Introduction to Latin-American/Latino Literature
SPA 420	From Colonies to Nations
SUS 100	Introduction to Sustainability Studies
<hr/>	
Total Credits	46-53

1. CMP 115 will be waived for students who attain a 570 or above on the EBRW section of the SAT or an ACT English score of 23 or above.
2. Appropriate mathematics and science courses may be substituted if required by the major. Students may also fulfill this requirement by taking an upper-level MTH course. (e.g., MTH 210, MTH 211)
3. Students who place at the 101-level or above are required to take a minimum of 3 credits at the level of placement. Students who are native speakers of other languages may have their requirement waived upon documentation of proficiency. To initiate a request for a waiver, students should see the chairperson of the Department of Languages, Literatures, and Cultures (<https://www.rider.edu/academics/colleges-schools/claes/liberal-arts-programs/foreign-language-literatures>).
4. Students who choose a Psychology course to fulfill a requirement for Scientific Perspectives may not choose a Psychology course to fulfill a requirement for Social Perspectives, and vice versa.

## General Education Curriculum for students who entered in Fall 2017:

Code	Title	Credits
<b>Fall 2017 General Education Requirements</b>		
<b>Essential Competencies:</b>		
<b>Reading and Writing:</b>		6-9
CMP 115	Intro to Expository Writing <sup>1</sup>	
CMP 120	Expository Writing	
	or BHP 100 Honors Seminar: Great Ideas I	
Select one of the following:		

CMP 125	Research Writing	
BHP 150	Honors Seminar: Great Ideas II	
CMP 203	Literature and Composition	
<b>Mathematical Reasoning:</b> <sup>2</sup>		3-4
Select one of the following:		
MTH 102	Finite Mathematics	
MTH 105	Algebra and Trigonometry	
<b>Foreign Language Proficiency:</b> <sup>3</sup>		6
CHI 100	Chinese I	
& CHI 101	and Chinese II	
FRE 100	French I	
& FRE 101	and French II	
GER 100	German I	
& GER 101	and German II	
SPA 100	Spanish I	
& SPA 101	and Spanish II	
<b>Oral Communication:</b>		
COM 104	Speech Communication	3
<b>Science</b> <sup>2</sup>		6
Select two of the following:		
BNS 107	Life Science: Brain and Behavior	
BIO 100	Life Science	
CHE 100	Intro to College Chemistry	
CHE 115	Chem and Contemporary Society	
GEO 100	Earth Systems Science	
GEO 113	Environmental Geology	
GEO 168	Mesozoic Ruling Reptiles	
MAR 120	Oceanography	
MAR 300	Introduction to Field Marine Science	
PHY 103	Science of Light and Color	
PHY 104	Energy, the Environment & Man	
PHY 180	Astronomy	
PSY 100	Introduction to Psychology	
<b>Social Science</b>		6
Select two of the following:		
ECO 200	Principles of Macroeconomics	
or ECO 201	Principles of Microeconomics	
COM 105	Communication, Culture and Media	
POL 100	Introduction to American Politics	
or POL 102	Understanding Politics	
SOC 101	Sociological Imagination	
SOC 110	Cultural Anthropology	
<b>History</b>		6
HIS 150	World History to 1500	
HIS 151	World History Since 1500	
<b>Humanities</b>		9
Select one course in the fine arts, one course in literature, and one course in philosophy from the following:		
<b>Fine Arts</b>		
ART 104	Survey of Art History I	
ART 106	Survey of Art History II	
ART 120	Art and Society	
MUS 105	Survey of Music History I	

MUS 106	Survey of Music History II
MUS 120	Music and Society
THE 105	Theatre History to 1700
THE 106	Theater History Since 1700
THE 120	Theater Appreciation
ART 199/MUS 199/ THE 199	Arts in Contemporary Civilization
<b>Literature</b>	
ENG 205	Understanding Literature
ENG 208	Arthurian Legends in Literature
ENG 210	Major American Authors
ENG 211	Major British Authors
ENG 213	Literature and Mythology
ENG 214	Monsters in Literature
ENG 215	Satire and Comedy
ENG 217	Introduction To Shakespeare
ENG 218	Literature and the Environment
ENG 219	Literature and Violence
ENG 220	Literature & Society
ENG 221	Literature and Psychology
ENG 222	Crime and Literature
ENG 224	Science Fiction
ENG 228	Black American Lit
ENG 229	Multi-Ethnic Literature in America
ENG 230	Women In Literature
ENG 270	Major Poets
ENG 275	Posthumanism: Bodies and Technology in Literature
ENG 290	The Short Story
ENG 295	Human Relationships in Literature (HONORS)
LAW 204	Law, Literature, and Film in America
LIT 250	Masterworks of Western Literature I
LIT 251	Masterworks of Western Literature II
LIT 310	Russian Literature 988-1850
LIT 311	Russian Literature 1850-1917
LIT 312	20th Century Russian Literature
LIT 315	Tolstoy
LIT 317	Dostoevsky
LIT 322	German Literature & Film in English Translation
LIT 325	The Folk Tale
LIT 340	Hispanic Literature & Film in English Translations
LIT 370	European Short Novel
LIT 390	The Bible As Literature
Any Literature course in Foreign Languages	
<b>Philosophy</b> <span style="float: right;">3</span>	
Select one of the following:	
Any course in the Philosophy (PHL) department	
AMS 227	Philosophy of Martin Luther King Jr.

Total Credits 48-52

<sup>1</sup> CMP 115 will be waived for students who attain a 570 or above on the EBRW section of the SAT or an ACT English score of 23 or above.

## Faculty

### John A. Adamovics

Priority Adjunct Associate Professor, Department of Chemistry and Biochemistry  
B.A. Portland State University; Ph.D. Colorado State University

### Wendy Adlai-Gail

Priority Adjunct Assistant Professor, Department of Psychology  
B.A. Brown University; M.A. University of Chicago; Ph.D. University of Chicago

### Md Liakat Ali

Assistant Professor, Department of Chemistry and Biochemistry  
B.S. International Islamic University; M.S. Blekinge Institute of Technology; Ph.D. Pace University

### Nadia S. Ansary

Professor, Department of Psychology  
B.A. Rutgers, The State University of New Jersey; M.A. Teachers College, Columbia University; M.Phil. Teachers College, Columbia University; Ph.D. Teachers College, Columbia University

### Anthony Bahri

Professor, Department of Mathematics  
B.Sc. The University of Sydney; M.Sc. University of Oxford; D.Phil. University of Oxford

### Kelly A. Bidle

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. Rutgers, The State University of New Jersey; Ph.D. University of Maryland

### Pauline Blaimont

Lecturer I, Department of Biology, Behavioral Neuroscience, and Health Sciences

### Ciprian S. Borcea

Professor, Department of Mathematics  
B.S. University of Bucharest, Romania; Diploma in Mathematics University of Bucharest, Romania; Ph.D. University of Bucharest, Romania

### Michael J. Brogan

Associate Professor, Department of Political Science  
B.A. University of Delaware; M.P.A. Rutgers, The State University of New Jersey - Camden; M.Phil. The Graduate Center, City University of New York; Ph.D. The Graduate Center, City University of New York

### Gary M. Brosvic

Professor, Department of Psychology  
B.S. John Carroll University; M.A. The American University; Ph.D. The American University

### Kathleen M. Browne

Associate Professor, Department of Geological, Environmental, and Marine Sciences  
B.A. Colgate University; M.A. Binghamton University, State University of New York; Ph.D. Rosenstiel School of Marine and Atmospheric Science, University of Miami

### Robert Burger

Priority Adjunct Assistant Professor, Department of Communication and Journalism  
B.F.A. Pratt Institute; M.F.A. Miami International University of Art & Design

### Michael Carlin

Associate Professor, Department of Psychology  
B.A. Wheeling Jesuit University; Ph.D. Vanderbilt University

### Feng Chen

Associate Professor, Department of Chemistry and Biochemistry  
B.S. Hunan University, P. R. China; Ph.D. Northeastern University

### Lisa Chong

Priority Adjunct Instructor, Department of English  
B.S. Cairn University; M.A. Arcadia University; M.Ed. University of Pennsylvania

### Roberta Clipper

Professor, Department of English  
B.A. Indiana University Bloomington; M.A. University of California, Berkeley; Ph.D. University of California, Berkeley

### Daria Cohen

Professor, Department of Languages, Literatures and Cultures  
B.A. Douglass College, Rutgers, The State University of New Jersey; M.A. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

### Deborah Cordonnier

Priority Adjunct Instructor, Department of English  
B.S. University of Missouri; M.A. Texas A & M University; M.Div. Princeton Theological Seminary; Th.M. Princeton Theological Seminary; M.F.A. Goddard College

### Mack Costello

Assistant Professor, Department of Psychology  
B.S. University of Florida; M.A. Western Michigan University

### Michele D'Angelo

Priority Adjunct Assistant Professor, Department of English  
B.A. The College of New Jersey; MAT The College of New Jersey; Ed.S. Rider University

### Melissa M. DeWees

Priority Adjunct Assistant Professor, Department of Psychology  
B.A. Towson State University; M.A. Alliant International University; Psy.D. Alliant International University

### David R. Dewberry

Associate Professor, Department of Communication and Journalism  
B.A. University of Arkansas; M.A. University of Arkansas; Ph.D. University of Denver

### Cara J. DiYanni

Associate Professor, Department of Psychology  
B.A. Georgetown University; M.A. Boston University; Ph.D. Boston University

### Chrystina A. Dolyniuk

Associate Professor, Department of Psychology  
B.A. University of California, Los Angeles; M.A. California State University, Northridge; Ph.D. University of Calgary

**Julie Drawbridge**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. The University of Maine; Ph.D. The University of Texas at Austin

**Daniel L. Druckenbrod**

Associate Professor, Department of Geological, Environmental, and Marine Sciences  
B.S. University of Notre Dame; Ph.D. University of Virginia

**Bosah L. Ebo**

Professor, Department of Communication and Journalism  
B.S. University of Wisconsin-Stevens Point; B.S. University of Wisconsin-Stevens Point; M.A. University of Wisconsin-Stevens Point; Ph.D. The University of Iowa

**Jeff Edelstein**

Priority Adjunct Instructor, Department of Communication and Journalism  
B.A. Rider University

**Alice Faroh**

Priority Adjunct Assistant Professor, Department of Languages, Literatures and Cultures  
B.A. Universidad Pedagógica Experimental de Barquisimeto; M.A. Maryville University

**Joel Feldman**

Associate Professor, Department of History and Philosophy  
B.A. Hampshire College; Ph.D. The University of Texas at Austin

**Roberta Fiske-Rusciano**

Priority Adjunct Assistant Professor, Department of Political Science  
B.A. Simmons College; M.A. University of Chicago; Ph.D. Rutgers, The State University of New Jersey

**Rosemary Fliszar**

Assistant Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. Cedar Crest College; M.S.N. DeSales University; Ph.D. Duquesne University

**William F. Fobare**

Priority Adjunct Assistant Professor, Department of Chemistry and Biochemistry  
A.B. Hope College; Ph.D. University of South Carolina

**Hernán Fontanet**

Professor, Department of Languages, Literatures and Cultures  
B.A. The University of Buenos Aires; A.M. Universidad Complutense de Madrid; Ph.D. Universidad Autónoma de Madrid

**Jessica Franko-Oliano**

Priority Adjunct Assistant Professor, Department of Communication and Journalism  
B.A. Rider University; MBA Rider University

**Barbara Franz**

Professor, Department of Political Science  
M.A. University of Vienna; M.A. Syracuse University; M.A. Syracuse University; Ph.D. Syracuse University

**Lucien J. Frary**

Professor, Department of History and Philosophy  
B.A. University of St. Thomas; M.A. University of Minnesota, Twin Cities; Ph.D. University of Minnesota, Twin Cities

**Daniel C. Garro**

Priority Adjunct Instructor, Department of History and Philosophy  
B.A. Washington College; M.A. Texas Tech University

**Matthew B. Goldie**

Professor, Department of English  
B.A. Victoria University; M.F.A. Brooklyn College; Ph.D. The Graduate Center, City University of New York

**Selma C. Goldstein**

Priority Adjunct Instructor, Department of English  
B.S. Cornell University; MBA Fairleigh Dickinson University

**Stephanie Golski**

Associate Professor, Department of Psychology  
B.A. McDaniel College; Ph.D. The Johns Hopkins University

**Alexander Grushow**

Professor, Department of Chemistry and Biochemistry  
B.A. Franklin & Marshall College; Ph.D. University of Minnesota

**Sophie Guderian**

Lecturer I, Department of Biology, Behavioral Neuroscience, and Health Sciences

**John Guers**

Assistant Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences

**Myra G. Gutin**

Professor, Department of Communication and Journalism  
B.A. Emerson College; M.A. Emerson College; Ph.D. University of Michigan

**Hussein Hajazi**

Lecturer I, Department of Chemistry and Biochemistry

**Jeffrey Halpern**

Associate Professor, Department of Sociology and Criminology  
B.A. The City College of New York; Ph.D. University of Pittsburgh

**Samaneh Hamidi**

Assistant Professor, Department of Mathematics  
B.A. Islamic Azad University; M.S. Khayyam University; Ph.D. University of Malaya

**Laurel Harris**

Assistant Professor, Department of English  
B.A. Oberlin College; M.A. University of Chicago; Ph.D. The Graduate Center, City University of New York

**Catrinel Haught Tromp**

Associate Professor, Department of Psychology  
B.A. Queens University of Charlotte; Ph.D. Princeton University

**Wendy P. Heath**

Professor, Department of Psychology  
B.A. Boston University; M.S. The University of Texas at Arlington; Ph.D. The University of Texas at Arlington

**Mickey Hess**

Professor, Department of English  
Ph.D. University of Louisville

**Sheena C. Howard**

Associate Professor, Department of Communication and Journalism  
B.B.A. Iona College; M.A. New York Institute of Technology; Ph.D. Howard University

**Brooke B. Hunter**

Associate Professor, Department of History and Philosophy  
B.A. University of California, Irvine; M.A. University of Delaware; Ph.D. University of Delaware

**Jonathan M. Husch**

Professor, Department of Geological, Environmental, and Marine Sciences  
B.A. Colgate University; M.A. Princeton University; Ph.D. Princeton University

**Jacqueline Soteropoulos Incollingo**

Assistant Professor, Department of Communication and Journalism  
B.A. Connecticut College; M.A. Philip Merrill College of Journalism, University of Maryland; Ph.D. Philip Merrill College of Journalism, University of Maryland

**Robert Isenhower**

Assistant Professor, Department of Psychology  
B.S. Clemson University; Ph.D. University of Connecticut

**Danielle L. Jacobs**

Associate Professor, Department of Chemistry and Biochemistry  
B.S. Haverford College; Ph.D. The University of North Carolina at Chapel Hill

**Barry T. Janes**

Professor, Department of Communication and Journalism  
B.A. Rutgers, The State University of New Jersey; M.A. Rutgers, The State University of New Jersey; Ph.D. New York University

**Paul R. Jivoff**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.A. Hartwick College; M.S. The Ohio State University; Ph.D. University of Maryland

**Howard H. Joffe**

Priority Adjunct Associate Professor, Department of Communication and Journalism  
B.A. Rutgers, The State University of New Jersey; J.D. Benjamin N. Cardozo School of Law, Yeshiva University

**Terra Walston Joseph**

Associate Professor, Department of English  
B.A. Indiana University; M.A. University of Illinois; Ph.D. University of Illinois

**Jonathan Karp**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.A. Colgate University; Ph.D. Vanderbilt University

**Shawn P. Kildea**

Associate Professor, Department of Communication and Journalism  
B.A. Rider University; M.A. Rider University; Ph.D. Rutgers, The State University of New Jersey

**Arkady K. Kitover**

Priority Adjunct Professor, Department of Mathematics  
M.S. Saint Petersburg State University; Ph.D. Saint Petersburg State University

**Joanna Kubik**

Assistant Professor, Department of Sociology and Criminology

**Anne Law**

Professor, Department of Psychology  
B.A. University of New Hampshire; M.A. University of New Hampshire; Ph.D. University of New Hampshire

**Maxim J. Losi**

Priority Adjunct Assistant Professor, Department of English  
A.B. Princeton University; M.A. New York University; Ph.D. New York University

**Phillip L. Lowrey**

Associate Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. Vanderbilt University; Ph.D. Northwestern University

**Cynthia Lucia**

Professor, Department of English  
B.S. Indiana University of Pennsylvania; M.A. New York University; M.A. New York University; Ph.D. New York University

**Jamie Ludwig**

Assistant Professor, Department of Chemistry and Biochemistry  
B.A. Illinois Wesleyan University; Ph.D. University of Texas Southwestern Medical Center

**Katherine G. Magrino**

Priority Adjunct Instructor, Department of Communication and Journalism  
B.A. The College of New Jersey; M.A. Thomas Edison State College

**Andrew Markoe**

Professor, Department of Mathematics  
B.S. The City College of New York; Ph.D. Brown University

**Cynthia Martinez**

Assistant Professor, Department of Languages, Literatures and Cultures

**Adam McMahan**

Assistant Professor, Department of Political Science  
B.A. Bowling Green State University; M.S. Portland State University; Ph.D. City University of New York

**Susan J McManimon**

Priority Adjunct Assistant Professor, Department of Communication and Journalism  
B.A. Kean University; M.A. Montclair State University; Ph.D. Indiana University of Pennsylvania

**Jonathan Mendilow**

Professor, Department of Political Science  
B.A. The Hebrew University of Jerusalem; M.A. The Hebrew University of Jerusalem; Ph.D. The Hebrew University of Jerusalem

**Ahmad Mojiri**

Associate Professor, Department of Mathematics  
B.S. Isfahan University of Technology; M.S. Isfahan University of  
Technology; Ph.D. University of Ottawa

**Aaron J. Moore**

Associate Professor, Department of Communication and Journalism  
B.A. La Salle University; M.A. Temple University; Ph.D. Temple University

**Mourya Reddy Narasareddygar**

Assistant Professor, Department of Chemistry and Biochemistry

**Stéphane Natan**

Professor, Department of Languages, Literatures and Cultures  
B.A. Université Jean Moulin Lyon 3, France; M.A. Université Lumière Lyon  
2, France; Ph.D. Université Jean Moulin Lyon 3, France

**Vanita Neelakanta**

Associate Professor, Department of English  
B.A. Jadavpur University, India; M.A. Jadavpur University, India; Ph.D.  
Brandeis University

**Olivia Newman**

Associate Professor, Department of Political Science  
B.A. The Evergreen State College; M.A. The New School; Ph.D. The New  
School

**Carol J. Nicholson**

Professor, Department of History and Philosophy  
B.A. Earlham College; Ph.D. Bryn Mawr College

**Seiwoong Oh**

Professor, Department of English  
B.A. Chung-Ang University, Seoul; M.A. West Texas A&M University; Ph.D.  
University of North Texas

**Anne R. Osborne**

Professor, Department of History and Philosophy  
B.A. New York University; M.A. Columbia University; Ph.D. Columbia  
University

**Francis A. Perrin**

Priority Adjunct Assistant Professor, Department of Psychology  
B.S. Stockton University; M.S. Temple University; Ph.D. Temple University

**Pearlie Peters**

Professor, Department of English  
B.S. Grambling State University; Ph.D. State University of New York at  
Buffalo

**Mary Poteau-Tralie**

Professor, Department of Languages, Literatures and Cultures  
B.A. Temple University; M.A. Princeton University; Ph.D. Princeton  
University

**Susan Power**

Priority Adjunct Assistant Professor, Department of Biology, Behavioral  
Neuroscience, and Health Sciences  
B.A. Trinity College; Ph.D. University College Dublin

**Magnolia Pérez-Garrido**

Priority Adjunct Assistant Professor, Department of Languages,  
Literatures and Cultures  
B.A. The College of New Jersey; M.A. Villanova University

**William Quirk**

Priority Adjunct Instructor, Department of English  
B.A. University of Colorado; M.A. University of Washington

**Elizabeth Radziszewski**

Assistant Professor, Department of Political Science  
B.A. Rutgers, The State University of New Jersey; M.A. University of  
Illinois at Urbana–Champaign; Ph.D. University of Illinois at Urbana–  
Champaign

**James E. Riggs**

Professor, Department of Biology, Behavioral Neuroscience, and Health  
Sciences  
B.S. Delaware Valley College; M.S. University of Massachusetts Amherst;  
Ph.D. University of Massachusetts Amherst

**Jane E. Rosenbaum**

Priority Adjunct Assistant Professor, Department of English  
B.A. The City College of New York; M.A. University of Pittsburgh; Ph.D.  
University of Pittsburgh

**Kelly Ross**

Assistant Professor, Department of English  
B.A. The College of William & Mary; M.A. The University of North Carolina  
at Chapel Hill; Ph.D. The University of North Carolina at Chapel Hill

**Erica Rubine**

Priority Adjunct Professor, Department of English  
B.A. Scripps College; M.A. University of Pennsylvania; Ph.D. University of  
Pennsylvania

**Frank L. Rusciano**

Professor, Department of Political Science  
B.A. Cornell University; M.A. University of Chicago; Ph.D. University of  
Chicago

**Erica J. Ryan**

Associate Professor, Department of History and Philosophy  
B.A. Sarah Lawrence College; A.M. Brown University; Ph.D. Brown  
University

**George Otto Schneller**

Priority Adjunct Associate Professor, Department of Mathematics  
B.S. Mount Union University; M.A. Lehigh University; Ph.D. Lehigh  
University

**Reed A. Schwimmer**

Associate Professor, Department of Geological, Environmental, and  
Marine Sciences  
B.S. Rider University; M.A. Bryn Mawr College; Ph.D. University of  
Delaware

**Elaine A. Scorpio**

Associate Professor, Department of Psychology  
B.A. Rhode Island College; M.A. Rhode Island College; Ph.D. Syracuse  
University

**Kerrie Sendall**

Assistant Professor, Department of Biology, Behavioral Neuroscience, and  
Health Sciences

**Raymond Setters, II**

Priority Adjunct Assistant Professor, Department of English  
B.A. Rider University; M.F.A. Rosemont College

**Nikki Shepardson**

Associate Professor, Department of History and Philosophy  
B.A. University of Rochester; M.A. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

**Gabriela W. Smalley**

Associate Professor, Department of Geological, Environmental, and Marine Sciences  
B.S. University of Maryland; Ph.D. University of Maryland

**Bryan D. Spiegelberg**

Associate Professor, Department of Chemistry and Biochemistry  
B.S. Denison University; Ph.D. Duke University

**Drue Stapleton**

Assistant Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
A.A. Hudson Valley Community College; B.S. State University of New York at Cortland; M.Ed. Salisbury University; Ph.D. West Virginia University

**Jay Stern**

Assistant Professor, Department of Communication and Journalism  
B.A. Columbia University; M.A. European Graduate School

**Joshua Stratton**

Assistant Professor, Department of Chemistry and Biochemistry  
B.A. Wartburg College; Ph.D. Colorado State University

**Susan Strom**

Priority Adjunct Instructor, Department of English  
B.A. University of Toronto; M.A. University of Cincinnati; M.Ed. Temple University

**John R. Suler**

Professor, Department of Psychology  
B.A. State University of New York at Stony Brook; Ph.D. State University of New York at Buffalo

**Helen T. Sullivan**

Priority Adjunct Assistant Professor, Department of Psychology  
B.F.A. Saint Mary's College; M.S. Saint Louis University; Ph.D. Saint Louis University

**Jack Sullivan**

Professor, Department of English  
B.A. Furman University; M.A. Columbia University; M.Phil. Columbia University; Ph.D. Columbia University

**Hongbing Sun**

Professor, Department of Geological, Environmental, and Marine Sciences  
B.A. Nanjing University, China; M.S. Chinese Academy of Geological Sciences, Beijing; Ph.D. Florida State University

**Alison D. Thomas-Cottingham**

Associate Professor, Department of Psychology  
B.S. University of Maryland; M.A. Binghamton University, State University of New York; Ph.D. Binghamton University, State University of New York

**Victor R. Thompson**

Associate Professor, Department of Sociology and Criminology  
B.A. University of Illinois at Urbana-Champaign; M.A. Stanford University; Ph.D. Stanford University

**Megan L. Titus**

Associate Professor, Department of English  
B.A. Muhlenberg College; M.A. Montclair State University; Ph.D. Ohio University

**Sarah Trocchio**

Assistant Professor, Department of Sociology and Criminology

**Barry E. Truchil**

Associate Professor, Department of Sociology and Criminology  
B.A. American University; M.A. American University; Ph.D. Binghamton University, State University of New York

**Cynthia Vieth**

Lecturer I, Department of Communication and Journalism  
B.A. Rutgers, The State University of New Jersey; M.C.I.S. Rutgers, The State University of New Jersey; Ed.D. Rowan University

**Maria F. Villalobos-Buehner**

Associate Professor, Department of Languages, Literatures and Cultures  
B.A. Universidad del Valle, Cali-Colombia; M.A. University of Portsmouth, Portsmouth-England; Ph.D. Michigan State University

**Shunzhu Wang**

Professor, Department of Languages, Literatures and Cultures  
B.A. Soochow University, Suzhou, China; M.A. Wayne State College; Ph.D. Purdue University

**Nancy C. Weber**

Priority Adjunct Instructor, Department of Chemistry and Biochemistry  
B.S. Alderson Broaddus University; M.S. The Pennsylvania State University

**E. Todd Weber**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. Slippery Rock University; M.S. The University of Illinois at Urbana-Champaign; Ph.D. The University of Illinois at Urbana-Champaign

**Allison D. Weidhaas**

Associate Professor, Department of Communication and Journalism  
B.A. Rowan University; M.A. Rowan University; M.S. University of South Florida; Ph.D. University of South Florida

**Nancy A. Wienczek**

Associate Professor, Department of Communication and Journalism  
B.A. Douglass College, Rutgers, The State University of New Jersey; M.S. University of Louisiana at Lafayette; Ph.D. Rutgers, The State University of New Jersey

**Arlene F. Wilner**

Professor, Department of English  
B.A. Cornell University; M.A. Columbia University; M.Phil. Columbia University; Ph.D. Columbia University

**James Wojtowicz**

Lecturer I, Department of Sociology and Criminology  
B.A. Rutgers University; M.S. Rutgers University

**Yun Xia**

Professor, Department of Communication and Journalism  
B.A. Sichuan University, China; M.A. Sichuan University, China; Ph.D. Southern Illinois University

**Jonathan Yavelow**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences

B.S. American University; Ph.D. University of Southern California

**Richard A. Zdan**

Lecturer I, Department of Sociology and Criminology

B.Sc. Carnegie Mellon University; M.A. The University of Chicago

**Westminster College of the Arts**

[www.rider.edu/](http://www.rider.edu/) (<http://www.rider.edu/sfpa>)wca (<http://www.rider.edu/wca>)

**Westminster College of the Arts (WCA)** offers Rider students the opportunity to study intensively in the arts - whether that plan includes a lifetime career in the arts or personal expression and enrichment found through its exploration. Students can choose from a wide variety of undergraduate and graduate majors including arts administration, dance, fine arts, music education, music theatre, organ performance, piano, music, popular music culture, sacred music, theatre, theory and composition, voice performance and other areas of concentration. See the links below for specific information pertaining to each of the schools in WCA.

- Westminster Choir College (p. 909)
- School of Fine and Performing Arts (p. 846)

**School of Fine and Performing Arts**

A division of the Westminster College of the Arts, the School of Fine and Performing Arts is located on the Lawrenceville campus. The school offers Bachelor of Arts, Bachelor of Fine Arts and Bachelor of Music degrees, as well as widespread opportunities for students – regardless of major – to participate in the arts. Exhibitions, plays, concerts, and productions are presented in the 442-seat Yvonne Theater, the 90-seat Spitz Studio Theater, and the recently-expanded 374-seat Bart Luedeke Theater.

Several experiences, including ensembles and classes, are open to all university students. Dramatic plays and musical theatre productions are open to all students by audition. The Rider University Art Gallery showcases leading regional and national artists, as well as selected student work. Artist lectures and gallery performances bring additional opportunities for artistic enrichment. The Arts Administration Center provides a forum for students to work with campus and community organizations on a variety of issues and activities. Rider Dances involves student dancers, choreographers and musicians. Each year, many education majors elect a second second major from the School of Fine & Performing Arts, choosing from tracks in Dance Studies, Popular Music Studies or Theatre Studies.

**Mission****Westminster College of the Arts**

*Westminster College of the Arts inspires and empowers innovative artists and leaders to transform communities through the arts.*

**The School of Fine and Performing Arts**

The School of Fine and Performing Arts focuses on dance, music, musical theatre, theatre and arts administration. Through programs that provide a historical, aesthetic, practical and professional perspective, students develop the skills to excel in a professional career while growing

intellectually from a broadly based liberal arts curriculum. The school fosters meaningful engagement in the arts to students who wish to become professional artists as well as students who view the arts as an integral part of overall intellectual growth. The school nurtures and challenges the artist within all students and prepares them to contribute to an ever-changing global society.

**Health and Safety**

Westminster Choir College/Westminster College of the Arts of Rider University, as required by the National Association of Schools of Music, is obligated to inform students and faculty of health and safety issues, hazards, and procedures inherent in practice, performance, teaching, and listening both in general and as applicable to their specific specializations. This includes but is not limited to information regarding hearing, vocal and musculoskeletal health, injury prevention, and the use, proper handling, and operation of potentially dangerous materials, equipment, and technology.

It is important to note that health and safety depends largely on personal decisions made by informed individuals. Rider University has health and safety responsibilities, but fulfillment of these responsibilities cannot and will not ensure any individual's health and safety. Too many factors beyond the university's control are involved.

Each individual is personally responsible for avoiding risk and preventing injuries to themselves before, during, and after study or employment at Rider University. The policies, protocols, and operational procedures developed do not alter or cancel any individual's personal responsibility, or in any way shift personal responsibility for the results of any individual's personal decisions or actions in any instance or over time to the University.

All members of the WCA community are encouraged to visit the university web site for a series of recommendations and resources designed to help each individual to become aware of attend to various issues. The URL for the page is [www.rider.edu/wca\\_healthsafety](http://www.rider.edu/wca_healthsafety) ([http://www.rider.edu/wca\\_healthsafety](http://www.rider.edu/wca_healthsafety)) [www.rider.edu/student-life/health-wellness/student-health-services/health-safety-sfpa-wcc-students](http://www.rider.edu/student-life/health-wellness/student-health-services/health-safety-sfpa-wcc-students) (<http://www.rider.edu/student-life/health-wellness/student-health-services/health-safety-sfpa-wcc-students>)

**Full-Time Tuition Inclusion**

Full-time tuition charges are incurred by students who enroll for credit loads, including credit equivalents for non-credit and audited courses, which fall within the ranges indicated below. Further charges (p. 238) are incurred when full-time students exceed maximum load levels, excluding, for School of Fine and Performing Arts majors, recital credits or participation in auditioned choirs or productions.

**Full Undergraduate Tuition Includes**

- A minimum of 12 and maximum of 18 credits per semester or the equivalent including non-credit courses.
- Primary applied study to the maximum required credits/semesters. (see below)
- Applied dance study to the maximum required credits/semesters. (see below)
- Once all applied music or dance requirements have been completed, all additional lessons or courses will be billed at the elective rate.

- Music students in double major programs with two different primary instruments will be billed for the second applied lesson at the elective rate.

## Applied Music Study

Effective as of the fall 2009 semester for all new or readmitted Rider University students on both campuses: For all students whose major or minor program does not require applied music study, or for those students who have completed applied music requirements, elective fees will apply. All part-time students are charged an applied music fee. Please see below. Registration for applied music study follows this table of suffixes. Students will register for the appropriate course number and suffix, as indicated in the curriculum pages later in this section.

Maximum enrollment under full-time tuition: In B.A.- Popular Music Studies, one half-hour per week of applied music instruction for three semesters; in B.F.A.- Musical Theatre, one hour per week of applied music instruction for six semesters, and one half-hour lesson per week for two semesters; in B.M.- Music Theatre/Piano Track, one hour per week of applied music instruction for eight semesters.

### Full-Time Students

Suffix A – One-hour, 2-credit required lesson. Included in tuition – no extra charge. Example: Musical Theatre major in first six semesters.

Suffix B – Half-hour, 1-credit required lesson. Included in tuition – no extra charge. Example: B.F.A./Musical Theatre/Voice majors in semesters 7 and 8.

Suffix C – One-hour, 2-credit elective lesson. Not included in tuition – \$1500 extra per semester. Examples: Student who has completed all required lessons in their major or a student whose major does not require lessons.

Suffix D – Half-hour, 1-credit elective lesson. Not included in tuition – \$740 extra per semester. Examples: Student who has completed all required lessons in their major, or student whose major does not require lessons.

Suffix G – One-hour, 2-credit required/elective lesson. Half-hour is required and is included in tuition. The second half-hour is elective – fee of \$740 per semester. Example: Popular Music Studies majors up to 3 semesters.

### Part-Time Students

(all students, both campuses, regardless of major or requirements)

Suffix E – One-hour, 2-credit required or elective lesson – \$2,090 per semester.

Suffix F – Half-hour, 1-credit required or elective lesson – \$1,050 per semester.

## Dance Study

Effective as of the fall 2014 semester for all new or readmitted Rider University students on both campuses: For all students whose major or minor program does not require applied dance study under the DAN prefix, or for those students who have completed dance requirements, elective fees will apply. All part-time students are charged a dance fee. Please see below. Registration for applied dance study follows this table of courses. Students will register for the appropriate course number, as indicated in the curriculum pages later in this section.

Maximum enrollment under full-time tuition: In B.A.-Dance/Performance Track, a total of 15 credits of applied dance instruction, including all dance courses taken at Rider University and at Princeton Ballet School (PBS); in B.A.- Dance/Dance Studies Track, a total of 14 credits of applied dance instruction, including all dance courses taken at Rider University and at Princeton Ballet School; in Dance Minor, a total of 8 credits of applied dance instruction, including all dance courses taken at Rider University and at Princeton Ballet School.

Registration for DAN 100 and DAN 300 require a placement completed with dance faculty.

### Full-Time Students

#### DAN 100

- DAN-100-01 – 1-credit required course taken at PBS. Included in tuition – no extra charge. Example: B.A./Dance majors and minors up to the maximum stated above.
- DAN-100-01F – 1-credit elective course taken at PBS. Not included in tuition – \$740 extra per semester. Examples: Student who has completed all required applied dance study in their major, student who has completed all required applied dance study in their minor, or student whose major or minor does not require lessons.

DAN 151 Pilates and Modern – 1-credit course taken at Lawrenceville campus. Included in tuition – no extra charge. Course counts toward the maximum stated above.

DAN 152 World Dance & Improvisation – 1-credit course taken at Lawrenceville campus. Included in tuition – no extra charge. Course counts toward the maximum stated above.

#### DAN 300

- DAN-300-01 – 2-credit required course taken at PBS. Included in tuition – no extra charge. Example: B.A./Dance majors and minors up to the maximum stated above.
- DAN-300-01F – 2-credit elective course taken at PBS. Not included in tuition – \$1,500 extra per semester. Examples: Student who has completed all required applied dance study in their major, student who has completed all required applied dance study in their minor, or student whose major or minor does not require lessons.

**Note:** Students choosing to register for both DAN 100-01F and DAN 300-01F as elective study in the same semester will be charged a total fee of \$2,000.00.

### Part-Time Students

(all students, both campuses, regardless of major or requirements)

#### DAN 100

- DAN-100-01P – 1-credit course taken at PBS. Not included in tuition – \$1,050 extra per semester. For majors and minors, course counts toward the maximum stated above.
- DAN-300-01P – 2-credit course taken at PBS. Not included in tuition – \$2,090 extra per semester. For majors and minors, course counts toward the maximum stated above.

**Note:** Part-time students choosing to register for both DAN-100-01P and DAN-300-01P in the same semester will be charged a total fee of \$3,050.00.

## Admission as a Freshman

Students may apply for admission to undergraduate study for the fall or spring term. Applicants are encouraged to begin the application process late in the junior or early in the senior year of high school. Westminster College of the Arts uses a rolling admissions policy. Completed applications are reviewed on a regular basis and students are notified of decisions. Students initiate the application process by first completing the Rider University application. All items must be in the Admissions Office before a decision can be reached. The following are necessary for admission:

### Applications

Students may request application forms by contacting the Admissions Office, or through the Rider University Web site.

### Audition/Interview

Certain majors and minors require either an audition or an interview. Please see individual program requirements below. Audition requirements may be found on our Web site.

### Credentials

Applicants for admission to the School of Fine and Performing Arts should be graduates or prospective graduates of accredited secondary schools where they have pursued college preparatory courses. Four secondary school credits must be presented in English as well as other credits in disciplines such as natural sciences, history and social studies, mathematics, and foreign languages. It is each student's responsibility to have an official and final high school transcript sent to the Admissions Office in order to document high school diploma conferral. Applicants who hold high school equivalency diplomas and high school graduates who have pursued business courses will be considered. Two letters of recommendation and an essay are required. Transfer applicants must submit both an official high school transcript and an official transcript from any and all colleges or universities attended.

### Standardized Test Scores

Beginning with the freshman class entering in the fall of 2019, Rider University has established a test-optional admission policy. Some restrictions apply. For more information, please see this link: <https://www.rider.edu/admissions/undergraduate/how-to-apply/test-optional-admission>

### Placement Testing

Entering freshmen may be required to complete various placement examinations, in accordance with university policies listed elsewhere in this catalog. Students exempted from any graduation requirement as a result of those examinations must replace those credits with free electives, as appropriate, in order to meet the minimum number of credits required for graduation.

### Music Theory Placement

All students in the B.A.- Popular Music Studies, B.M.- Music Theater/Music Theatre Direction, and B.F.A.- Musical Theatre degree programs must take the music theory placement examination. Students placed into MUS 109S Basic Music Theory will be graded on a pass ("Y") or fail ("Z") basis. A passing grade must be earned before the student will be permitted to enroll in MUS 110 Music Theory I. MUS 109S does not count toward graduation credits for students in these majors.

### Credit-by-Exam

Musical Theatre majors will be required to take an exam in music theory. Successful completion of the exam with a passing grade will result in credit-by-exam, granting the student credit for the course in lieu of taking the course. Placement exams for sight singing and piano will be given at the student's request after they have started their studies at Rider, but prior to the semester in which they would normally take these classes.

### Minimum Grades Needed

For all majors offered in the Theatre & Dance Department students must earn a minimum grade of "C" in those courses required in the major area in order to make satisfactory progress. If a grade of "C-" or lower is earned, the student must repeat the course.

B.F.A. – Musical Theatre majors must earn a minimum grade of "B-" each semester in the primary applied music field in order to make satisfactory progress. If a grade of "C+" or lower is earned, the student must repeat the course.

At the graduate level, the grade of "D" is not awarded. The lowest passing grade in a graduate course is a "C-."

### Course Repeat Policy

All undergraduate and graduate students who are enrolled in a major or minor offered by the Westminster College of the Arts may enroll for a second or subsequent time in any *non-repeatable* WCA course from which they have withdrawn, in which they have earned an "F," or in which they have failed to earn the required minimum grade\* according to the following rules:

- 1) Students who have withdrawn from, failed, or failed to achieve the required minimum grade in a required course\* in their first attempt at the course may enroll for a 2<sup>nd</sup> time without permission. All other students must have the permission of the Associate Dean.
- 2) Permission of the dean or associate dean of the college (FPA or WCC) offering the course in question is required in order to enroll in a course for the 3<sup>rd</sup> time.
- 3) Permission of the Academic Standing Committee of the college (FPA or WCC) offering the course in question is required in order to enroll in a course for the 4<sup>th</sup> time. Permission for a 4<sup>th</sup> enrollment will be granted only in rare, extenuating, and documented circumstances.

In all instances, the most recent grade is calculated into the grade point average, and all listings and grades will remain on the transcript.

\* Examples include: a minimum grade of "B-" is required in Piano Secondary, a minimum grade of "C" is required in foreign language study in order to progress to the next level in that language.

### Academic Dismissal/Conditional Academic Standing

In the Westminster College of the Arts, decisions regarding academic conditional standing and dismissal for poor scholarship are the responsibility of the School of Fine and Performing Arts Academic Standing Committee, the Westminster Choir College Academic Standing Committee, and the Westminster Choir College Graduate Committee. These committees review the academic progress of students, and may recommend a letter of concern, placement on Conditional Academic Standing, or dismissal.

Because a 2.0 cumulative average is required for graduation a student is expected to maintain a 2.0 cumulative grade point average while enrolled at Rider. Students who fail to maintain at least a 2.0 cumulative average will be reviewed by an academic standing committee and may be dismissed or placed on conditional standing.

Students who have not done satisfactory work may be dismissed from the University for poor scholarship at the end of any semester, after an appropriate review of their scholastic records by the academic standing committee of their college. An academic standing committee may require any student who does unsatisfactory work to pursue a specific course of study during a particular academic session. There must be substantial evidence of proper motivation and a capacity for doing college level work to warrant maintaining a student in school with a record of continued conditional status.

Any student who fails to pursue a course of study prescribed by an academic standing committee, or who does unsatisfactory work in the prescribed course of study, may be dismissed without right of further appeal.

Students may also be subject to academic dismissals if their cumulative grade point averages fall below the required minimum for two or more consecutive semesters, or the grade points fall below the required averages established at the freshman, sophomore, junior and senior levels. Academic dismissal at the end of the fall semester is effective prior to the beginning of the spring semester.

The School of Fine and Performing Arts Academic Standing Committee has the sole authority to dismiss students for academic reasons. Students may be placed on conditional academic standing or dismissed from the Westminster College of the Arts upon failure to meet academic standards. In the School of Fine and Performing Arts, the Academic Standing Committee will review the academic record of undergraduate students who fail to maintain a 2.0 cumulative grade point average or a 2.5 cumulative grade point average in courses required for the major.

Students must earn a minimum cumulative grade point average of 2.0 and a minimum of 2.5 in the major. Students dropped from a major because of failure to maintain the minimum grade point average may apply for readmission. Readmission will depend on various criteria, including the GPA, current academic progress, and the student's general standing.

A dismissed student may appeal in writing to the appropriate committee for immediate rescission of a dismissal decision. Evidence should be submitted to suggest that it is in the interests of both the student and the college for the dismissal to be rescinded. However, any student who fails to pursue a course of study prescribed by an academic standing committee, or who does unsatisfactory work in the prescribed course of study, may be dismissed without right of further appeal.

Students dismissed by the university may not enroll for courses nor participate in university-sponsored activities or ensembles at either campus of Rider University for a period of one year following their dismissal. Students dismissed by the School of Fine and Performing Arts but not Rider University may apply for enrollment in other colleges of the university. Students dismissed by the School of Fine and Performing Arts but not Rider University may not enroll in SFPA courses, ensembles, or activities until they have been readmitted to SFPA. Before permission to enroll in the School of Fine and Performing Arts or Rider University, as appropriate, will be granted, students must follow the process for readmission.

## Dismissal from a Major

Following notification that their standing in the major is in jeopardy and the passage of a suitable amount of time permitted to address stated issues, typically one semester, academic departments reserve the right to dismiss a student from a major. Such dismissal may be based upon any of the following conditions: failure to maintain a satisfactory or minimum GPA; failure to sustain academic progress in the courses of the major; conduct in violation of the standards of the department or profession; failure to meet conditions or requirements as stated in University catalogs; or the student's general standing at Rider University. Such dismissal will become effective at the end of the semester in which the decision is reached.

## Readmission

If more than one year has elapsed since the date of last enrollment, students may be required to reapply and/or re-audition or re-interview for the program. Students must meet all requirements of the application process in order to be readmitted.

## General Requirements

In addition to the information given here and on the following pages, students are referred to individual department handbooks for additional information and requirements.

Students in any School of Fine and Performing Arts degree must earn a minimum of 120 credits.

## Courses and Descriptions

### ART 103 Fundamentals of Drawing 3 Credits

An intensive study of drawing techniques in charcoal, pencil, and pen and ink.

### ART 104 Survey of Art History I 3 Credits

The history of Western art, architecture, sculpture, painting from prehistoric times through the Middle Ages, emphasizing the relation between the arts and ideas of each period.

### ART 105 Design 3 Credits

Basic concepts of composition, form, texture, value, and color in two-dimensional design are explored.

### ART 106 Survey of Art History II 3 Credits

The history of Western art, architecture, sculpture, painting from the Renaissance to the present, emphasizing the relation between the arts and ideas of each period.

### ART 201 Art of the Ancient World 3 Credits

The arts of ancient man from prehistoric times to the fall of the Roman Empire.

### ART 207 Medieval and Renaissance Art 3 Credits

A study of the major monuments of architecture, painting, and sculpture created in Western Europe between 300 and 1600. Particular emphasis on the history of Christian art, from its beginnings in the Roman catacombs, to the great monasteries and cathedrals of the High Middle Ages, to the revival of ancient Roman grandeur and forms in the Renaissance.

### ART 209 Art of the Baroque 3 Credits

The art of the 17th century in southern and northern Europe.

### ART 214 American Art 3 Credits

The development of the arts from colonial America to World War I. Discusses major economic, social, and political factors that influenced the course of American art history.

### ART 230 Three-Dimensional Design 3 Credits

Beginning problems in traditional sculptural materials (clay, wood, stone) and design-construction in mixed media.

### ART 303 19th Century Art 3 Credits

An in-depth study of the major art movements in 19th-century Europe, from Neoclassicism to Postimpressionism.

### ART 304 Drawing II 3 Credits

Studies the art of drawing beyond the introductory level with an emphasis on greater self-expression, advanced technical skills, and a variety of drawing media.

**Prerequisite(s):** ART 103.

**ART 305 Intermediate Painting A-B-C 3 Credits**

Studio courses designed to expand the student's creative experience in painting with emphasis of greater self-expression. Students will be presented with specific painting projects that originate from conceptual or perceptual responses to reality (still life, landscape, figure) and to imagination (dreams, fantasy, invention). Class trips to galleries and museums are included. May be taken three times.

**Prerequisite(s):** ART 204.

**ART 306 Art of the 20th Century 3 Credits**

The major artists and movements in the history of 20th-century painting and sculpture from Postimpressionism. Slide lectures, class discussion, field trips.

**ART 310 Figure Drawing and Painting 3 Credits**

Students will draw and paint from various sources, including the live model, clothed and nude, to understand the structures, gestures, and psychological aspects of the human body in art.

**Prerequisite(s):** ART 103 and ART 204.

**ART 335 Printmaking 3 Credits**

A studio introduction to various traditional and contemporary relief printmaking techniques.

**ART 493 Special Topics in Studio Art 3 Credits**

Study in drawing and painting of a particular style, such as abstraction or subject, such as still life; or particular aspects on a museum collection, such as the Metropolitan.

**Prerequisite(s):** ART 103 and ART 105 or Permission of Instructor.

**ART 495 Selected Topics in Art History 3 Credits**

An intensive study of a particular art history topic, e.g., a single artist, artistic center, or artistic medium. Slide lectures, class discussion, field trips, class reports. Topics to be announced.

**MUS 105 Survey of Music History I 3 Credits**

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

**MUS 106 Survey of Music History II 3 Credits**

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

**MUS 204 Jazz History 3 Credits**

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

**Prerequisite(s):** CMP 120 or LL 131.

**MUS 205 History of Pop and Rock Part I 3 Credits**

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

**MUS 206 History of Pop and Rock Part 2 3 Credits**

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

**MUS 208 Music of the Theater 3 Credits**

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

**MUS 209 Great Composers 3 Credits**

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

**MUS 218 Postmodernism & Pop Culture 3 Credits**

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

**MUS 300 Beethoven and the Romantic Age 3 Credits**

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

**MUS 304 Music of the Beatles 3 Credits**

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

**MUS 306 Contemp Music Experience 3 Credits**

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

**MUS 309 Film Music 3 Credits**

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

**MUS 315 Black Music in America 3 Credits**

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip hop and everything in between.

**THE 105 Theatre History to 1700 3 Credits**

The history of theater from the primitive time through the Baroque era. Examines major plays and playwrights, emphasizing the Greek, Roman, Medieval, and Elizabethan eras. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 106 Theater History Since 1700 3 Credits**

The history of theater from the Restoration to the present. Examines major plays and playwrights, emphasizing the Restoration, Romantic, and Realistic movements. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 306 American Theatre History 3 Credits**

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions. Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

**THE 307 Contemporary American Theater 3 Credits**

Today's most influential theatre artists are discussed. Focusing on playwrights, the form and content of dramatic literature considered most significant today are examined along with recent innovations in design and staging practices.

**THE 308 Modern Drama 3 Credits**

Surveys American and European drama from 1920 to 1970. All plays are read in English translation. In these plays, theatrical artists address the great themes of this century. While doing so, they also expand the limits of theatrical expression.

**THE 495 Selected Topics in Theatre His 3 Credits**

Intensive study of a particular topic, such as the work of one dramatic movement, one period in dramatic history, or one nation's history. Students become deeply involved in an area through research, class discussions, and individual consultation with the instructor.

## Arts and Entertainment Industries Management

### Program Overview

Arts and Entertainment Industries Management combines passion for the arts with the business know-how that keeps the arts an active and integral part of communities. A wide variety of opportunities abound for satisfying and rewarding careers in managing the arts, whether in the growing nonprofit sector or in for-profit entertainment, including: entertainment law, venue management, artist management and representation, producing, producing management, stage management, touring management, fundraising, marketing, educational programming, artist research and development, advocacy, policy development, outreach and gallery management.

### Curriculum Overview

The degree requirements within Arts and Entertainment Industries Management (BA) incorporate a core curriculum of 39 credits, as well as a chosen emphasis or concentration comprising 12-15 credits depending upon the emphasis chosen. Each emphasis incorporates studio or applied skills, historical and practical coursework within one or a combination of two chosen arts discipline(s). In addition, majors select 9 credits of electives - courses selected from a list of options which expand professional skills development beyond those specific to the Arts. These range from public relations and communications to professional writing and other options housed beyond the School of Fine and Performing Arts. Rounding out the degree are the general university requirements and a number of "free electives" which commonly are applied to minors or second majors in one of the arts disciplines or related administrative fields of interest (ie: marketing (p. 343), event planning and production (p. 647), business administration (p. 283), etc.).

### Degrees Offered

- B.A. in Arts and Entertainment Industries Management: Art Emphasis
- B.A. in Arts and Entertainment Industries Management: Dance Emphasis
- B.A. in Arts and Entertainment Industries Management: General Emphasis
- B.A. in Arts and Entertainment Industries Management: Music Emphasis

- B.A. in Arts and Entertainment Industries Management: Theatre Emphasis

## Arts and Entertainment Industries Management Major Requirements

(57 - 60 credits)

To complete the major you must select one area of emphasis to complement your program: Art, Dance, General, Music or Theatre. The requirements for each emphasis are outlined below.

Code	Title	Credits
<b>Select one of the following Emphases:</b>		
<b>Art Emphasis</b>		12
ART 103	Fundamentals of Drawing	
ART 104	Survey of Art History I	
or ART 106	Survey of Art History II	
ART 227	Gallery Management	
One upper level Studio course (painting, drawing, 3-dimensional)		
<b>OR Dance Emphasis</b>		12
AAD 307	Touring and Production Management	
Three credits of studio dance classes (i.e. Ballet, jazz, hip hop, etc)		3
DAN 350	History of Ballet, Modern & Jazz Dance	
THE 107	Acting I: Intro to Acting (or a Design course)	
<b>OR General Emphasis</b>		15
AAD 307	Touring and Production Management	
or ART 227	Gallery Management	
Two studio/applied courses in two different disciplines: MUS, THE, DAN, ART		
Two history courses in two different disciplines: MUS, THE, DAN, ART		
<b>OR Music Emphasis</b>		15
AAD 306	Business and Art of Recording	
AAD 307	Touring and Production Management	
MUS 106	Survey of Music History II	

or MUS 206 History of Pop and Rock Part 2

MUS 213	Digital Comp of Pop Music I	
Three credits of a Music ensemble or MUS applied/studio course		
<b>OR Theatre Emphasis</b>		<b>12</b>
AAD 307	Touring and Production Management	
THE 106	Theater History Since 1700	
THE 107	Acting I: Intro to Acting (or a Design course)	
THE 115	Stagecraft	

**In addition to the Emphasis requirements, the following courses must be completed:**

Code	Title	Credits
<b>General Education Requirements</b>		<b>33</b>
<b>Arts and Entertainment Management Core Requirements</b>		<b>33</b>
AAD 100	Arts Administration Laboratory <sup>1</sup>	
AAD 121	Intro to Arts Administration

MGT 363	Management Skills
MKT 330	International Marketing
MKT 340	Personal Selling
MUS 312	The Arts Abroad

**Arts and Entertainment Industries Management minors may also select from the following electives:**

AAD 307	Touring and Production Management
AAD 350	Arts Venue and Patron Services Management
Total Credits 120	

- <sup>1</sup> Must complete three semesters. It is highly recommended that these courses be taken as a sequence: Sophomore fall semester; Sophomore spring semester, and Junior fall semester.
- <sup>2</sup> Must complete three semesters.
- <sup>3</sup> AAD 491 may be taken as part of the Arts/Institutional Path as well as to fulfill the Music, Theatre, Dance or Art Emphasis.
- <sup>4</sup> Not available to Music Emphasis students.
- <sup>5</sup> This course may be taken more than once for credit.
- <sup>6</sup> Requires a proposal and approval of the Dean. May be repeated once for credit.
- <sup>7</sup> Offered to minors only.
- <sup>8</sup> Not available to Art Emphasis students.

## Arts and Entertainment Industries Management Minor Requirements

(18 credits)

Any Rider University student may choose to pursue the Arts Administration minor. Interested students should declare the minor by completing a form available in the Department Office.

Code	Title	Credits
<b>Required Courses</b>		
AAD 121	Intro to Arts Administration	3
AAD 202	Commun/Marketing in Arts	3
AAD 204	Arts Outreach & Education	3
or AAD 350	Arts Venue and Patron Services Management	
<b>AAD Electives</b>		6

AAD 375	Special Topics: Arts Admin	
ART 227	Gallery Management	
<b>Other Elective</b>		3
Select one of the following:		
ACC 210	Introduction to Accounting	
CBA 110	Introduction to Business	
COM 212	Publication Design	
ENG 322	Grant Proposals, Fundraising and Development	
MKT 340	Personal Selling	

Total Credits 18

## Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

### Art Emphasis (p. 854)

### Dance Emphasis (p. 855)

### General Emphasis (p. 855)

### Music Emphasis (p. 856)

### Theatre Emphasis (p. 857)

### ART EMPHASIS

**Courses and Descriptions**

**AAD 100 Arts Administration Laboratory 0 Credits**

Arts Administration majors explore, expand and employ practical application skillsets relative to required Practicum work and sequentially in preparation for required Internship(s) and eventual employment over three sequential semesters: Sophomore Fall, Sophomore Spring and Junior Fall. Lab coincides with and supports work being done in satisfaction of three, 1-credit practicum credits that must be registered simultaneously.

**AAD 121 Intro to Arts Administration 3 Credits**

A survey course that covers topics relevant to administering the arts, and includes reviewing state and federal legislation to non-profit organizations, non-profit agency structure, long range planning, board development, marketing, fundraising, public relations, advocacy, budget, human resources and ongoing compliance issues. Students will have opportunities to interact with professionals in the field and explore career options.

**AAD 202 Commun/Marketing in Arts 3 Credits**

Intended for arts or business majors interested in arts management, this course immerses students in the fundamentals of promoting the arts, from grassroots public relations to basic marketing concepts and applications. Students will have opportunities to interact with professionals in the field and explore career options.

**Prerequisite(s):** AAD 121 and LL 131, or permission of instructor.

**AAD 203 Arts Fundraising 3 Credits**

Provides students with an understanding of the ethics, strategies and practices of fundraising for non-profit arts agencies. Students gain an understanding of the role of the development office in a non-profit arts agency, prepare for careers in arts management by increasing the skills necessary to function, and learn to plan a multi-faceted fundraising campaign effectively.

**Prerequisite(s):** CMP 120 or LL 131.

**AAD 204 Arts Outreach & Education 3 Credits**

This course examines essential educational components of arts institutions, how they evolve and are produced, and will assess the importance of educational programming to arts organizations and the communities they serve.

**Prerequisite(s):** AAD 121.

**AAD 225 Arts Administration Practicum 1 Credits**

Under faculty advisement and project site supervision, students complete a total of three, 1-credit (33-hour) "mini-internships" or practicum projects in service to the field, sequentially in the Sophomore Fall, Sophomore Spring, and Junior Fall semesters, simultaneous to Arts Administration Lab. The first practicum project is in connection with Box Office and Patron Service to Rider Performing Arts. The second is in connection with a project of the student's choosing in service to the arts on campus or beyond. The third is in connection with a project of the student's choosing in service to the field in an outside, professional setting.

**Prerequisite(s):** AAD 121.

**AAD 306 Business and Art of Recording 3 Credits**

Survey of the recording industry. Responsibilities of the label and producer, copyrights, royalties, residuals, publishing, contracts and artist development, promotion, distribution, product management, domestic and international licensing, and related technology.

**Prerequisite(s):** AAD 121 and CBA 110 Introduction to Business.

**AAD 307 Touring and Production Management 3 Credits**

Organizing, marketing and managing tours. Responsibilities of the booking agent, tour manager, and performers. Case studies, relationships, contracts with venues, transportation companies, housing, and unions, budgeting, press kits, and insurance.

**Prerequisite(s):** AAD 121, CBA 110.

**AAD 308 Legal Aspects of the Arts 3 Credits**

A survey of legal issues in the arts and entertainment industries, examining the relationship between arts and the law – from cultural property rights to intellectual property, copyright and beyond.

**Prerequisite(s):** AAD 121.

**AAD 309 Arts Events & Festivals Mgt 3 Credits**

Students learn to develop, produce, and staff successful arts events while refining planning skills through practice with theoretical and real arts event venues and participating in the production and management of actual events.

**Prerequisite(s):** AAD 121.

**AAD 310 Acquiring & Managing Talent in Arts & Entertainment Industries 3 Credits**

This course teaches foundations of professional talent management and explores the many ways by which the role of today's artist manager has evolved and expanded, particularly in an era of "independent" artists seeking managers who can act as CEO's. The course explores the many facets which an artist manager oversees, from launching an artist's career to building a successful and enduring business and fan base. Topics of exploration include talent acquisition, the artist/manager partnership, contracts, strategic planning, branding and more relating to managing all key aspects of an artist's career. Students will gain deep understanding of the dynamic roles which managers and agents play in the entertainment business as the "backbone of our industry" and of the pathways to career success as artist managers & representatives. Aspiring artists will find guidance in self-management and choosing the right partners. Other aspiring entertainment professionals will learn how to effectively engage with artist managers & agents as essential components in the broader ecology of professional arts & entertainment.

**Prerequisite:** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 312 Art & Business of Commercial Deal-Making in Arts & Entertainment 3 Credits**

This course explores all practical aspects of deal-making in commercial entertainment and the art of negotiation as the catalyst for success. Through forensic analysis & discussion of multiple types and structures of short and long-form agreements and the wide variety of provisions to be found therein, students will gain knowledge of key legal, historical, discipline-specific and industry-wide contexts of deal-making. Readings and lectures will focus on the nuts and bolts of negotiation – from essential research processes to finding and exercising bargaining power to knowing when to compromise and when to withdraw. Skills gained will be exercised through role-play, writing and ongoing analysis of peer and professional contracts. Students will gain and exercise deep understanding of agreements across multiple disciplines and the common elements therein including agency, personal management, personal appearance, merchandising, endorsements, creative ownership and union influence will be explored, as well as the unique characteristics which apply to distinct disciplines.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 314 Commerce and Merchandising in Arts & Entertainment 3 Credits**

This course builds upon foundational knowledge gained in "Arts Marketing & Communications," exploring the far-reaching and highly lucrative aspects of commercializing and merchandizing creative output across the many disciplines which comprise the arts & entertainment industries. Creative output in the form of a commercial film, Broadway hit, top-selling album or live performance establishes a point of departure into a massive world of merchandising where brand is king, franchises flourish and sequels make (and break) futures. Students will gain deep understanding of how strategic marketing campaigns develop, run and catalyze broader merchandising, commerce and franchise potential. Readings, lectures and case-based analyses will investigate successful corporate models, strategies and tools for maximizing commercial potential and earnings in the global commercial arts & entertainment marketplace. From relationship and influencer-based approaches across traditional and digital platforms to the tools which maximize celebrity branding, tap global merchandising capacity and harness new technologies that drive innovation, this course introduces aspiring arts & entertainment leaders to the foundations of commercial success.

**Prerequisite:** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 316 Data Analytics in Commercial Entertainment 3 Credits**

Data analytics is a driving force of today's entertainment industry as companies face new business models for creating, marketing and distributing creative output to consumers who access content anywhere, at any time and on any device. It is transforming businesses, social interactions and how entertainment is marketed and consumed. With the explosion of social media, entertainment streaming platforms and online distribution, the amount of data available has reached unprecedented levels. Hiring skilled people who know how to collect and interpret big data is crucial. This course explores the many ways by which data is used to develop detailed understanding of consumer preferences and behaviors, inform production, advertising and distribution strategies, forecast performance and help increase efficiency. Students will learn how to retrieve, analyze and apply data for successful outcomes in today's entertainment industry, helping companies seize upon ever-expanding opportunities to utilize data to identify and understand new audiences, increase content exposure and identify new products and services.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 318 Music Publishing 3 Credits**

This course teaches foundational concepts, context, tools, and function of music publishing as an essential force in today's ever-evolving music industry. Students examine the many roles which the music publisher plays in the acquisition, market development and administration of copyrighted musical works. Through case-based analysis of the inner workings of major, independent and self-owned music publishing companies, students will gain understanding of the depth, breadth and scope of this fascinating aspect of the business. Discussion will encompass the fundamentals of copyright, types of publishing deals, income streams, registrations and collection, foreign sub-publishing deals, and the rights and royalties applicable to copyrighted musical work. Students will also learn how music is licensed for use in film, television, advertising, theatrical performance, game and other forms of interactive media, as well as an overview of the administrative aspects of these uses and the ways by which legislative action impacts opportunities and earnings of copyright holders. Lastly, students will explore the creative and administrative responsibilities involved in establishing their own music publishing company.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 320 Licensing & Distributing Arts & Entertainment 3 Credits**

Course Description: Licensing and/or distribution of creative output powers nearly every aspect of the arts and entertainment industries as significant brand builders and revenue-generators for intellectual property owners. This course delivers foundational knowledge of the many ways by which music, theater, dance film and other media are licensed for commercial use or otherwise distributed directly to vendors and consumers. Discussion encompasses the various types and purposes of license, key points of negotiation, parties, agreements and business constructs involved in licensing and distribution deals across multiple entertainment sectors. Through readings, lectures and case-based analysis students will study the means of directly and indirectly getting works out into the marketplace, as well as the risks and rewards that may result. Through comparative analysis of traditional and contemporary professional agreements, students will come to understand how licensing and distribution contracts, modalities, administration and payments have evolved, and what the future holds for this vital engine of the arts & entertainment industries.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 322 Policy Perspectives on Arts & Entertainment 3 Credits**

This course delivers foundational knowledge of the historical evolution, current state, and anticipated future of legislative actions, general policies and protocols impacting the many diverse components of arts and entertainment. Students will gain understanding of the several stakeholders, advocates and allies involved in the process of shaping policy and effectuating legislation, from lobbyists and industry leaders to politicians and the constituents whom they represent. Discussion will also encompass the expanding role and reach of the internet and streaming services which have often driven, and too often outpaced legislative agendas, putting the rights and benefits of intellectual property owners at risk through inequitable compensation practices, usurping of rights and expanding of global piracy. Case-based analysis will afford insight into current and anticipated lobbying agendas, legislative action (or inaction) on Capitol Hill, resolutions in process and recent legislation in action. Students will create an advocacy campaign around a pertinent issue facing arts & entertainment today, and strategize an effective lobbying process in order to gain direct insight and inspiration to become lifelong agents for change.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 308.

**AAD 350 Arts Venue and Patron Services Management 3 Credits**

Integrating workplace with organizational mission: administration, staff, general public, artists. Internal control, artist/employee contracts, collective bargaining, health and safety issues, facilities operation, inventory, cultivation and maintenance of clientele and audience.

**Prerequisite(s):** AAD 121.

**AAD 351 Crossing Cultural Borders 3 Credits**

Course includes two weeks at an international arts organization, meeting and shadowing administrative staff, studying management styles, finance, and operational procedures, and attending all possible events during the visit. Travel fee required. May be repeated.

**Prerequisite(s):** Junior standing.

**AAD 375 Special Topics: Arts Admin 3 Credits**

Intensive study or activity in a specific area of Arts Administration. The content will vary with social/cultural events and/or interests and qualifications of the professor. May be repeated for credit. Fee may be required.

**Prerequisite(s):** AAD 121 or CBA 110 or permission of instructor.

**AAD 401 New York Arts Network 3 Credits**

Students learn how arts institutions of varying scope, size and function and how administrators keep them running by spending focused, intensive time with them on their own turf.

**Prerequisite(s):** AAD 121, AAD 202 and AAD 203.

**AAD 490 Independent Research and Study 1-4 Credits**

This self-motivated, self-directed course culminates in a complete project. The student and the faculty advisor will mutually develop the scope of each project. It will be designed to demonstrate the student's entrepreneurial skills and provide an opportunity for practical application of the curriculum.

**Prerequisite(s):** AAD 202, AAD 203, and either AAD 121 or CBA 110.

**AAD 491 Arts Management Internship 3-12 Credits**

Arts Administration majors are required to spend 13 weeks of on-site participation in a broad range of daily operations at an internship site. In addition, there are group meetings with all students participating in internships and site-analysis assignments given under the direction of Arts and Sciences faculty. Students may enroll for a maximum of 6 credits of internships.

**Prerequisite(s):** Junior standing.

## Dance

### Program Overview

There are many ways to dance at Rider University. The Bachelor of Arts in Dance Performance provides courses in dance technique, history, movement theory, choreography and pedagogy, as well as numerous repertory and performance opportunities. Students have the option of earning a degree in Dance Studies (p. 466) if majoring in Elementary Education. There is also a concentration in dance with the Arts Entertainment and Industries Management degree, a Dance Minor, and a Movement Science Minor. Graduates of the program may also go on to earn a graduate degree in Clinical Mental Health Counseling with a Dance/Movement Therapy Concentration (<https://www.rider.edu/academics/colleges-schools/college-education-human-services/graduate-programs/counseling-services/ma-clinical-mental-health-counseling/dance-movement-therapy>).

### Degrees Offered

- B.A. in Dance Performance
- B.A. in Dance Studies
- Minor in Dance
- Minor in Movement Science
- M.A. in Clinical/Mental Health Counseling with Dance/Movement Therapy concentration

#### College of Education and Human Service Requirements

See the College of Education and Human Services Degree Programs for information on the programs available.

Total Credits 32

- 1 Studio elective can also be fulfilled by DAN 493 when applicable.
- 2 From the ART, MUS or THE courses in the list select no more than one from each discipline.
- 3 ART 120, MUS 120, and THE 120 will not fulfill this requirement.

#### Notes

1. Studio dance classes are taught at both the Lawrenceville campus of Rider University and the Princeton Ballet School.
2. All new dance students must take a placement exam.
3. All majors and minors must have a Dance Screening with a certified Dance Physical Therapist.
4. It is strongly suggested that DAN 210 and DAN 210T are taken at least once.
5. Majors and Minors must successfully complete Ballet 301 or equivalent to receive a degree.
6. All students enrolled in DAN 210 and performing in Rider Dances are expected to be concurrently enrolled in a dance studio course.

## Dance Minor Requirements

(19 credits)

Code	Title	Credits
<b>Choose two of the following:</b>		
DAN 105	Survey of Dance History	6

-----------------------------------	--	-----

**DAN 100 Fundamentals of Dance 1 Credits**

Designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for two classes per week at the Princeton Ballet School. One additional hour per week is comprised of video observation, lecture, or readings, and is taught at Rider's Lawrenceville campus. Prerequisite(s): permission of dance advisor; Dance Studio Courses Ballet I.

**DAN 100A Ballet I 0 Credits****DAN 100B Ballet II 0 Credits****DAN 100C Ballet III 0 Credits****DAN 100D Ballet IV 0 Credits****DAN 100E Ballet V 0 Credits****DAN 100F Ballet VI 0 Credits****DAN 100G Jazz I 0 Credits****DAN 100H Jazz II 0 Credits****DAN 100I Jazz III 0 Credits****DAN 100J Modern Dance I 0 Credits****DAN 100K Modern Dance II 0 Credits****DAN 100L Modern Dance III 0 Credits****DAN 100M Spanish Dance I 0 Credits****DAN 100N Spanish Dance II 0 Credits****DAN 100O Spanish Dance III 0 Credits****DAN 100P Pilates Mat Class 0 Credits****DAN 100Q Accelerated Adult Ballet I 0 Credits****DAN 100R Accelerated Adult Ballet II 0 Credits****DAN 100S Accelerated Adult Ballet III 0 Credits****DAN 100T Accelerated Adult Ballet IV 0 Credits****DAN 100U World Dance Forms 0 Credits****DAN 100V Yoga 0 Credits****DAN 100W Tap 0 Credits****DAN 100X Ballet VII 0 Credits****DAN 100Y Choreography 0 Credits****DAN 100Z Movement Fundamentals 0 Credits****DAN 105 Survey of Dance History 3 Credits**

An introductory course to familiarize students with the breadth and depth of dance in human society. It will chronologically examine dance through four lenses: Dance and Community, Dance and Religion, Dance and Politics, and Dance as Art. Students will be exposed to various dance forms from around the world with varying purposes, functions, and motivations from the beginning of recorded history to present.

**DAN 111 Dance Lab 0 Credits****DAN 112 Ballet I: The Point of Departure 1 Credits**

This is an entry-level, mandatory ballet class that covers all of the safest fundamental practices, including proper use of alignment, feet, rotation, and use of the core in the classical vocabulary.

**DAN 113 Ballet II: Next Steps 1 Credits**

This is a continuation of the safest fundamental practices covered in Ballet I, including proper use of alignment, feet, rotation, and use of the core in the classical vocabulary. In addition this course extends the coverage of discourse, terminology and vocabulary of the classical technique.

**DAN 121 Introduction to Dance Science 3 Credits**

This orientation to dance science will consider important aspects of the study of human performance including anatomy, biology, kinesiology, and psychology of movement and performance. Covered are the foundations and research findings in Movement Theory, Motor Development, and Well-Being. Topics include the Care and Prevention of Injuries, Movement Analysis, Dance Movement Therapy, Mind-body Connection, Dance Fitness and Optimal Performance.

**DAN 151 Pilates and Modern 1 Credits****DAN 152 World Dance & Improvisation 1 Credits****DAN 180 History of Movement Theory 3 Credits**

Investigation of the mind-body connection, somatic experience, body therapies, movement and theories. The essential questions are: How is it that we move with awareness, fluidity, efficiency and precision?

**DAN 190 Dalcroze Eurythmics 3 Credits**

This movement course familiarizes students with the basic elements of music theory (staff, clefs, time signatures, notations, chords, etc.) and the Dalcrozian principles regarding music, movement and improvisation.

**DAN 201 Vaganova I 1 Credits**

This studio course focuses on fundamental knowledge about the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique.

**DAN 202 Vaganova II 1 Credits**

This studio course continues the development of knowledge concerning the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique. Repeatable twice for total of three times taken. May only be repeated if there are open spots after those taking it for the first time have registered.

**Prerequisite(s):** DAN 201.

**DAN 210 Rider Dances: Repertory & Productions 1 Credits**

This course provides an in-depth experience with the art of dance production from creation to performance. Students will be chosen to learn and perform repertory; fulfill technical roles such as sound, lighting and costume design; and assume production and managerial responsibilities such as promotion, publicity, front of house management and stage management.

**Prerequisite(s):** permission of instructor.

**DAN 210T Rider Dances Rep&Produc:Tech 1 Credits****DAN 220 History of Choreography 3 Credits**

This course prepares the dance student for the creating of dance through critical analysis, reading, writing and practical assignments. Students will examine creative process as applied to dance artists and various forms of dance.

**DAN 300 Lecture & Studio in Dance 2 Credits**

Dance 300 series is also designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for four classes per week at the Princeton Ballet School. One additional hour is comprised of video observation, lecture, or readings and is held at Rider's Lawrenceville campus. **Prerequisite(s):** permission of instructor; Dance Studio Courses Ballet I.

**DAN 300A Ballet I 0 Credits****DAN 300B Ballet II 0 Credits****DAN 300C Ballet III 0 Credits****DAN 300D Ballet IV 0 Credits****DAN 300E Ballet V 0 Credits****DAN 300F Ballet VI 0 Credits****DAN 300G Jazz I 0 Credits****DAN 300H Jazz II 0 Credits****DAN 300I Jazz III 0 Credits****DAN 300J Modern Dance I 0 Credits****DAN 300K Modern Dance II 0 Credits****DAN 300L Modern Dance III 0 Credits****DAN 300M Spanish Dance I 0 Credits****DAN 300N Spanish Dance II 0 Credits****DAN 300O Spanish Dance III 0 Credits****DAN 300P Pilates Mat Class 0 Credits****DAN 300Q Accelerated Adult Ballet I 0 Credits****DAN 300R Accelerated Adult Ballet II 0 Credits****DAN 300S Accelerated Adult Ballet III 0 Credits****DAN 300T Accelerated Adult Ballet IV 0 Credits****DAN 300U World Dance Forms 0 Credits****DAN 300V Yoga 0 Credits****DAN 300W Tap 0 Credits****DAN 300X Ballet VII 0 Credits****DAN 300Y Choreography 0 Credits****DAN 300Z Movement Fundamentals 0 Credits****DAN 350 History of Ballet, Modern & Jazz Dance 3 Credits**

Studies the major periods in the development of Western Theatrical Dance from the Renaissance to the present focusing on ballet, modern, jazz, tap and musical theater dance. The course will examine the ideas and individuals that caused the development of choreographers, producers, designers and productions.

**DAN 450 Pedagogy and Methodology in Dance 3 Credits**

This course provides the student with first-hand experience inside a classroom setting to broaden the students' understanding of dance techniques, teaching styles and strategies, analysis of skills and critical feedback, class preparation and design, and assessment. Course requirements include off-campus field work. Cross-listing existing entry-level teaching course with analogous graduate-level course (CURR 711).

**DAN 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment. **Prerequisite(s):** junior or senior standing, good academic standing.

**DAN 491 Internship in Dance 1-4 Credits**

Provides junior or senior dance majors with the practical experience of working within an educational or professional dance environment. Students must be sponsored by a dance professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

**Prerequisite(s):** permission of instructor.

**DAN 493 Special Topics in Dance Studio 1 Credits**

This class covers a discrete movement style, technique, or form such as the choreography of Balanchine, the technique of Cecchiti or dance theater fusion.

**Prerequisite(s):** DAN 100.

**DAN 495 Selected Topics in Dance History 3 Credits**

Intensive study of a particular topic in dance history or theory. This may include one era, movement or nation's dance history and practice. Students will become deeply involved in an area through research, class discussions and group projects.

**DAN 498 Senior Capstone 3 Credits****DAN 499 Seniors Honor Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

## Dance Science

### Program Overview

A degree in Dance Science capitalizes on Rider's wide variety of science programs to produce a first-of-its-kind full Dance curriculum program incorporating a wide variety of courses focused on human performance. Students will study the art and movement of dance (including fundamentals of classical dance forms; history and theory of dance, composition and performance,) along with biology, nutrition, anatomy, exercise physiology, kinesiology and injury prevention. They will learn to integrate the mind and body in dance, develop strength, coordination, flexibility, musicality, and expression in dance, will understand socio-political-historical aspects of dance, and be able to discuss and comment upon meaning in movement.

### Curriculum Overview

Students will learn how to conceptualize, create, and analyze dance as they study the art of movement. They will receive a comprehensive education in both the art of dance and how the instrument of dance - the body - works. Each student will select a capstone or research project culminating in multi-disciplinary, project and/or internship working with a science professor or a Physical Therapist. Dancers will learn how to reach their optimal potential. Understanding biomechanics can only help to increase that understanding and will equip students with the skills, theoretical framework, and experience necessary to enter the workforce as dance teachers, choreographers, directors, producers, and candidates for graduate school in education, dance, or sciences.

## Courses and Descriptions

### BIO 115 Principles of Biology I 4 Credits

An introductory biology course focusing on major themes of biology: what is life?; Cells as fundamental structure and functional unit of life; information transmission, storage and retrieval; Diversity and unity of life explained by evolution. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** BIO 115L.

### BIO 115L Principles of Biology I Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 115.

### BIO 221 Human Anatomy & Physiology I 4 Credits

A comprehensive survey of the structure and function of musculo-skeletal systems, neuroendocrine systems and related tissues and cellular interactions. Physiological applications include homeostasis, muscle dynamics, and cell activities. Laboratory exercises complement lecture material through the use of animal dissections, wet labs, computer-assisted investigations, microscopy, and models. Exams, case histories, personal investigations, and lab practicums assess learning. Course emphasis supports allied health and pre-professional training. Three hours of lecture and one three-hour lab per week. Designed for allied health students; does not satisfy requirements for the biology major. Prerequisite(s): HSC major ONLY or Permission of instructor.

**Corequisite(s):** BIO 221L.

### BIO 221L Human Anatomy & Physiology I Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 221.

### BIO 222 Human Anatomy & Physiology II 4 Credits

A comprehensive survey of the organ systems of the body including special senses, cardiovascular, respiratory, digestive, excretory, reproduction and development. Physiological components include electrolytes, metabolism, nutrition, and the mechanisms of homeostasis and cell reception. Lab studies support lecture material through dissections, wet labs, computer-assisted learning, microscopy, and models. Assessment includes lab practicums, exams, and reports. Course emphasis supports allied health and pre-professional training. Designed for allied health students; does not satisfy requirements for the biology major. Prerequisite(s): BIO 221.

**Corequisite(s):** BIO 222L.

### BIO 222L Human Anatomy & Phys II Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course. Prerequisite(s): BIO 222.

**Corequisite(s):** BIO 222.

### DAN 100 Fundamentals of Dance 1 Credits

Designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for two classes per week at the Princeton Ballet School. One additional hour per week is comprised of video observation, lecture, or readings, and is taught at Rider's Lawrenceville campus. Prerequisite(s): permission of dance advisor; Dance Studio Courses Ballet I.

### DAN 105 Survey of Dance History 3 Credits

An introductory course to familiarize students with the breadth and depth of dance in human society. It will chronologically examine dance through four lenses: Dance and Community, Dance and Religion, Dance and Politics, and Dance as Art. Students will be exposed to various dance forms from around the world with varying purposes, functions, and motivations from the beginning of recorded history to present.

### DAN 111 Dance Lab 0 Credits

### DAN 112 Ballet I: The Point of Departure 1 Credits

This is an entry-level, mandatory ballet class that covers all of the safest fundamental practices, including proper use of alignment, feet, rotation, and use of the core in the classical vocabulary.

### DAN 113 Ballet II: Next Steps 1 Credits

This is a continuation of the safest fundamental practices covered in Ballet I, including proper use of alignment, feet, rotation, and use of the core in the classical vocabulary. In addition this course extends the coverage of discourse, terminology and vocabulary of the classical technique.

### DAN 151 Pilates and Modern 1 Credits

### DAN 152 World Dance & Improvisation 1 Credits

### DAN 180 History of Movement Theory 3 Credits

Investigation of the mind-body connection, somatic experience, body therapies, movement and theories. The essential questions are: How is it that we move with awareness, fluidity, efficiency and precision?

### DAN 190 Dalcroze Eurhythmics 3 Credits

This movement course familiarizes students with the basic elements of music theory (staff, clefs, time signatures, notations, chords, etc.) and the Dalcrozian principles regarding music, movement and improvisation.

### DAN 201 Vaganova I 1 Credits

This studio course focuses on fundamental knowledge about the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique.

### DAN 202 Vaganova II 1 Credits

This studio course continues the development of knowledge concerning the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique. Repeatable twice for total of three times taken. May only be repeated if there are open spots after those taking it for the first time have registered.

**Prerequisite(s):** DAN 201.

### DAN 121 Introduction to Dance Science 3 Credits

This orientation to dance science will consider important aspects of the study of human performance including anatomy, biology, kinesiology, and psychology of movement and performance. Covered are the foundations and research findings in Movement Theory, Motor Development, and Well-Being. Topics include the Care and Prevention of Injuries, Movement Analysis, Dance Movement Therapy, Mind-body Connection, Dance Fitness and Optimal Performance.

### DAN 210 Rider Dances: Repertory & Productions 1 Credits

This course provides an in-depth experience with the art of dance production from creation to performance. Students will be chosen to learn and perform repertory; fulfill technical roles such as sound, lighting and costume design; and assume production and managerial responsibilities such as promotion, publicity, front of house management and stage management.

**Prerequisite(s):** permission of instructor.

**DAN 210T Rider Dances Rep&Produc:Tech 1 Credits****DAN 220 History of Choreography 3 Credits**

This course prepares the dance student for the creating of dance through critical analysis, reading, writing and practical assignments. Students will examine creative process as applied to dance artists and various forms of dance.

**DAN 300 Lecture & Studio in Dance 2 Credits**

Dance 300 series is also designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for four classes per week at the Princeton Ballet School. One additional hour is comprised of video observation, lecture, or readings and is held at Rider's Lawrenceville campus. Prerequisite(s): permission of instructor; Dance Studio Courses Ballet I.

**DAN 350 History of Ballet, Modern & Jazz Dance 3 Credits**

Studies the major periods in the development of Western Theatrical Dance from the Renaissance to the present focusing on ballet, modern, jazz, tap and musical theater dance. The course will examine the ideas and individuals that caused the development of choreographers, producers, designers and productions.

**DAN 450 Pedagogy and Methodology in Dance 3 Credits**

This course provides the student with first-hand experience inside a classroom setting to broaden the students' understanding of dance techniques, teaching styles and strategies, analysis of skills and critical feedback, class preparation and design, and assessment. Course requirements include off-campus field work. Cross-listing existing entry-level teaching course with analogous graduate-level course (CURR 711).

**DAN 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment. Prerequisite(s): junior or senior standing, good academic standing.

**DAN 491 Internship in Dance 1-4 Credits**

Provides junior or senior dance majors with the practical experience of working within an educational or professional dance environment. Students must be sponsored by a dance professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

**EXS 320 Exercise Physiology 3 Credits**

An entry level exploration of the physiological processes, metabolic requirements, and consequences of exercise in humans. Emphasis is placed on bioenergetics, as well as circulatory, respiratory, and neuromuscular responses to the physical stress of exercise performed for health and disease prevention.

Prerequisite(s): BIO 221, BIO 222.

**EXS 321 Exercise Physiology Laboratory 1 Credits**

EXS 321 is the laboratory course that accompanies EXS 320. Topics will include entry-level practical skills and competencies related to exercise capacity evaluation, interpretation of exercise data, and application of exercise interventions in a clinical setting. Prerequisite(s): BIO 221, 222 Co-requisite(s): EXS 320.

**EXS 360 Foundations of Strength and Conditioning 4 Credits**

This course examines the advanced methods and techniques associated with the design of strength and conditioning programs to enhance human performance in sport and fitness. This course is designed to develop, enhance, and apply knowledge and skills to prepare the student for the profession of strength and conditioning.

Prerequisite(s): EXS 320, EXS 321, HSC 302.

**HSC 100 Intro to Human Nutrition 3 Credits**

This course is designed to offer the student understanding of fundamental human nutrition concepts including, but not limited to, digestion, absorption, metabolism, functions and sources of macronutrients and micronutrients. The theme of the course will align with human health and disease states and the important conceptions about the food industry and its relation to healthy dietetic choices.

**HSC 201 Nutrition for Exercise and Physical Activity 3 Credits**

An introductory exploration of evidence based nutritional theory and applications in sport and exercise.

**HSC 302 Kinesiology 4 Credits**

The purpose of this course is to explore human movement during performance of activities. This course will explore the relationship between anatomical structures and function in the production of movement. The application and relationships between the fundamental principles of mechanics and musculoskeletal system function will be addressed within the framework of clinical and research perspectives. Both qualitative and quantitative approaches will be applied towards a better understanding of human movement, the analysis of physical activity. Prerequisite(s): BIO 221 & MTH 105 (or equivalent) or POI.

Corequisite: HSC 302L.

**HSC 302L Kinesiology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): HSC 302.

**MTH 105 Algebra and Trigonometry 4 Credits**

The course is an in depth and rigorous study of functions and graphs, equations and inequalities, polynomial and rational functions, exponential, and logarithmic functions, basic trigonometric functions and their inverses, trigonometric identities.

Prerequisite(s): A mathematics SAT score of 570, departmental placement or MTH 100.

**PHL 303 Philosophy of Law 3 Credits**

An examination and analysis of selected topics including classical and contemporary theories in the philosophy of law and moral philosophy. Such topics as the nature of the law and legal reasoning, the legal enforcement of morality, protection of personal liberty, and the moral justification of punishment are considered. Such philosophers as Aquinas, Austin, Holmes, Bentham, Hart, and Dworkin are read and discussed.

**PSY 100 Introduction to Psychology 3 Credits**

An orientation to psychology, covering major facts, principles and concepts about human and animal behavior and experience, research findings, major problems, basic vocabulary, methodologies, and contributions in the field. Topics include psychology as a science; human development; individual differences; intelligence and its measurement; special aptitudes and interests; personality and social behavior; motivation and emotion; frustration and personality deviations; and learning, thinking, remembering and forgetting.

**PSY 283 Sport Psychology 3 Credits**

This survey course will focus on the social and psychological factors related to performance and participation in sport and exercise, health, and injury rehabilitation settings. Two general questions will be explored: (a) how do social and psychological variables influence performance and participation in physical activity pursuits? And (b) how does physical activity participation affect the psychological well-being of the individual? To better understand these questions, this course will overview theoretical and methodological approaches to a variety of sport and exercise psychology topics, including: socialization, motivation, group processes, competition, and performance enhancement. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Prerequisite(s):** PSY 100.

**PSY 345 Health Psychology 3 Credits**

This course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

**Prerequisite(s):** PSY 100.

**SOC 101 Sociological Imagination 3 Credits**

Introduction to principles and concepts for the sociological analysis of human societies. Social relations, social structure, and institutions characteristic of societies past and present are examined, and causes and directions of social change are considered. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

## Game and Interactive Media Design

### Overview

Students will learn to conceptualize, create, and analyze video games and related media (animation, sound, narrative, interface, and user experience.) All students complete courses in media theory, basic computer coding languages, and general education courses, and will choose an emphasis in visual, sound, or narrative design (or some combination of the three.) Culminating in a multi-disciplinary, project-based course and required internship, the degree will equip students with the skills, theoretical framework, and experience necessary to enter the gaming industry.

### Degree Offered

- B.A. in Game and Interactive Media Design

Total Credits 51-54

<sup>1</sup> The GAM courses shown above should be completed in the sequence as shown in the list of requirements.

## Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who

change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

## Courses and Descriptions

### ART 103 Fundamentals of Drawing 3 Credits

An intensive study of drawing techniques in charcoal, pencil, and pen and ink.

### ART 105 Design 3 Credits

Basic concepts of composition, form, texture, value, and color in two-dimensional design are explored.

### ART 106 Survey of Art History II 3 Credits

The history of Western art, architecture, sculpture, painting from the Renaissance to the present, emphasizing the relation between the arts and ideas of each period.

### CIS 200 Application Development with JavaScript 3 Credits

In the early 1990s, Tim Berners-Lee created a set of technologies to allow information sharing at the CERN particle accelerator in Europe. These technologies dramatically changed the face of computing and became what we know today as the Web. Understanding how to develop and manage applications for the Web is a requirement for the information system professional. Because of the ease of development, deployment, maintenance and general scalability of Web applications, this approach to building and managing applications has become the de facto standard for business application development. This class will examine Web application development in detail. Through a combination of lecture and labs, students will learn the architecture of Web applications, how to develop Web pages using HTML and CCS, how to control user interaction with those pages using the JavaScript programming language. The programming basics of variable declaration and usage, program flow of control, function declaration and calling, and object usage and declaration will also be shown. The use of the JQuery Javascript library to ease the development of Web pages will also be shown.

**COM 103 Introduction to Communication Studies: Theory & Practice 3 Credits**

Provides a foundation for the study of communication across the discipline. Open to freshmen only, it is designed to assist the first year student majoring in communication or journalism to gain a broad understanding of the scope and breadth of the field. Fundamental communication theories, principles, concepts, terms, and issues are introduced.

**COM 105 Communication, Culture and Media 3 Credits**

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**COM 131 Fundamentals of Video Production 3 Credits**

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

**COM 235 Digital Filmmaking 3 Credits**

This course will provide students with an introduction to basic narrative film production including theories, techniques and applications. Students will gain competency in a number of film production areas including: idea generation and scripting, production planning, cinematography, lighting, sound and digital editing. Working as individuals and in groups, students will develop and produce short narrative film projects. Students will continue to develop proficiency and mastery of the use of specialized vocabulary of the film industry as well as the ability to analyze film and its narrative structure. In addition students will break down the "narrative" focusing on genre conventions and subtext. Students will additionally examine the relevance of film to society while developing proficiency and mastery in the study of how to create film projects.

**COM 236 The Aesthetics of Filmmaking 3 Credits**

Introduces students to basic terminology, techniques, theories and criticism commonly used in digital filmmaking. Through lecture, class discussion and screenings, students will learn how film theory, criticism and aesthetics impact the filmmaking process. Students will review and analyze films of different genres; the different approaches adopted by filmmakers; and the various elements and techniques that contribute to the creation of powerful and effective films. Aesthetic elements such as production design, mise en scene, cinematography, lighting, editing, sound design and script development will be introduced and practiced.

**COM 265 3D Graphic Animation 3 Credits**

Provides students with an introduction to the basics of 3D graphic animation techniques including modeling, texturing, rendering, visual effects and animation. Through various projects the students will learn: to model characters, sets and props, how to apply textures and color to their models, and how to bring their creations to life using various animation techniques. In addition to the technical aspects of creating successful animation, the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation, dramatization and narrative.

**COM 302 Communication Ethics 3 Credits**

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

**COM 365 Graphic Animation 3 Credits**

Offers students education in graphic animation theories, animation development techniques, and animation preparation for various multimedia applications. Emphasis is placed on the design principles in animated communication and animation techniques. The course covers the integration of static images in animation, graphic animation techniques, animation compression, animation rendering, input/output file formats, and animation delivery. The primary software for this course is Adobe Photoshop and MacMedia Flash. Students will be expected to participate in critiques of professional animation designs in order to learn to evaluate critically their own work and their fellow students' work.

**Prerequisite(s):** COM 262 or permission of instructor.

**COM 367 3D Graphic Animation II 3 Credits**

Continue to learn the techniques of 3D computer animation including modeling, texturing, rendering, visual effects and animation. In addition to the technical aspects of creating successful 3D animation the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation.

**Prerequisite(s):** COM 265.

**COM 435 Advanced Digital Filmmaking 3 Credits**

This is an intensive hands-on course in advanced digital filmmaking. Students will gain experience with and proficiencies in a number of filmmaking areas including: creativity, production planning, aesthetics, scripting, script breakdown, camera movement, selecting and directing talent, creating scenes and sequences, visualizing action, establishing mood and conflict, as well as advanced lighting, sound and digital editing techniques. The students' use of high definition digital imaging systems as a medium for narrative cinematography will be developed and refined. In addition, students will explore how filmmaking techniques and technology can impact the visual story telling process. While often working cooperatively in groups, modeling the interdependent structure of film crews today, the creative and leadership role of the director in the contemporary film industry will be emphasized. Throughout the class, there will be an important integration of theory and practice which will enable students to produce meaningful film projects that will not only be technically effective, but strong in content and context as well.

**ENG 312 Creative Writing: Screenwriting 3 Credits**

A workshop teaching and analyzing how students write for the screen, both television and film, that pays particular attention to the demands of the genre. Through reading and writing assignments, students will discuss and analyze the development of their own dramatic scripts for production. A portfolio of revisions will serve as a final for the course.

**ENG 381 Studies in Film Genre 3 Credits**

Provides an in-depth examination of a variety of film genres (such as the gangster film, the western, the musical, the screwball comedy, the science fiction film, and the horror film, among others), to be examined through the perspective of film genre theory. Through close analysis of selected films and readings, students will define the aesthetic and thematic patterns characterizing specific genres, and will trace the development of those genres within the dual contexts of the film industry and cultural ideology. Note: This course is cross-listed as FMS 381.

**FMS 286 Writing Short Screenplays for Digital Cinema 3 Credits**

Writing Short Screenplays for Digital Cinema will focus solely on the creation of a short screenplay for digital film. The course will ask that students conceive of and execute a viably producible screenplay, shooting script, and industry pitch for the modern market.

**GAM 100 Game & Interactive Media Forum 0 Credits**

Game & Interactive Media Forum is a once-per-month gathering of all Game majors from across the university's different Colleges. The forum will be an opportunity for students focusing on different backgrounds to engage together in industry-related topics and skills.

**GAM 150 Intro to Game Studies 3 Credits**

Intro to Game Studies surveys the history of video games and gaming culture against the social and political contexts that shape and are shaped by games.

**GAM 200 Game Design 3 Credits**

Game Design introduces students to the basic concepts of game design, covering game rules, iterations, and playtesting. Students will work with hands-on material to develop design techniques and instincts outside of digital work spaces.

**GAM 201 Game Development I 3 Credits**

Game Development I introduces students to industry-standard software and the basics of user experience and collaborative game design.

**Prerequisite(s):** CIS 200 and GAM 200.

**GAM 301 Game Development II 3 Credits**

Game Development II extends students' knowledge of industry-standard software, building on GAM 201 and progressing toward advanced concepts of user experience and collaborative game design.

**Prerequisite(s):** GAM 201.

**GAM 310 Special Topics in Game Design 3 Credits**

Special Topics in Game Design applies students' knowledge of game design and the development software that helps them realize their design toward specific prototyping goals. The subject of GAM 310 will rotate each semester.

**Prerequisite(s):** GAM 301.

**GAM 330 Soundtracks and Foley 3 Credits**

Soundtracks and Foley covers dialog, music, and foley in filmic settings, with a specific focus on game environments.

**Prerequisite(s):** MUS 216.

**GAM 401 Game Workshop I 3 Credits**

Game Workshop I places students in multidisciplinary project teams. Each team will create a game prototype over the course of the semester that demonstrates each student's mastery of their area of specialization and the each group's ability to work together.

**Prerequisite(s):** GAM 310.

**GAM 402 Game Workshop II 3 Credits**

Game Workshop II places students in multidisciplinary project teams and builds on skills developed in Game Workshop I.

**Prerequisite(s):** GAM 310.

**GAM 491 Internship in Game Design 3-6 Credits**

Internship in Game Design places students in industry work environments, overseen by a site supervisor.

**Prerequisite(s):** GAM 310.

**MUS 113 Popular Music Theory I 3 Credits**

Popular Music Theory I covers basic elements of music, including the reading of music notation in traditional formats as well as in audio wave form and in the visualization of standard Digital Audio Workstations.

Practice in scales and chords; ear-training in rhythm, pitch, and timbre.

Techniques may be applied to the student's own instrument (e.g., guitar, piano, voice)

**Corequisite(s):** MUS 113L.

**MUS 213 Digital Comp of Pop Music I 3 Credits**

This course is about "the doing of music". It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music.

**MUS 216 Digital Comp of Pop Music II 3 Credits**

This course is about "the doing of music." It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music, continuing the content begun in The Digital Composition of Popular Music I.

**MUS 220 Pop Songwriting I 3 Credits**

The Songwriting I course is an introduction to songwriting in popular music styles. Students will learn to compose music by themselves and collaboratively. This course will develop comprehensive musicianship and compositional techniques, as well as learn to use the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L.

**MUS 316 Digital Mixing and Mastering 3 Credits**

Digital Mixing and Mastering is a practical skills class focusing on post-production skills in software interfaces. Students will learn how to work with multiple editing softwares and plug-in tools to achieve balanced, lively, professional mixes.

## Music Studies

### Program Overview

The music studies minor provides students with insights that can help connect them to professional careers in music. Students will work closely with renowned faculty and recognized professionals in a variety of areas of study.

### Degree Offered

## Courses

### MUS 105 Survey of Music History I 3 Credits

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

### MUS 106 Survey of Music History II 3 Credits

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

### MUS 204 Jazz History 3 Credits

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

**Prerequisite(s):** CMP 120 or LL 131.

### MUS 205 History of Pop and Rock Part I 3 Credits

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

### MUS 206 History of Pop and Rock Part 2 3 Credits

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

### MUS 208 Music of the Theater 3 Credits

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

### MUS 209 Great Composers 3 Credits

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

### MUS 217 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip-hop and everything in between.

### MUS 218 Postmodernism & Populr Culture 3 Credits

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

### MUS 300 Beethoven and the Romantic Age 3 Credits

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

### MUS 304 Music of the Beatles 3 Credits

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

### MUS 306 Contemp Music Experience 3 Credits

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

### MUS 307 The Music of Radiohead 3 Credits

This course investigates the music, lyrics, art and marketing strategies of the British so called "alternative" band, Radiohead, moving song by song through their demos, videos and albums.

### MUS 309 Film Music 3 Credits

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

### MUS 495 Selected Topics in Music 3 Credits

Studies specialized aspects of the literature, history, or theory of music, to supplement the established curriculum. Emphasis on creative investigative work and individual experiences in music.

## Musical Theatre: Musical Direction

### Program Overview

The musical theatre: musical direction major at Rider prepares students for a professional career in musical theatre working as a music director or in other aspects that focus on the music side of the industry. This program is provided in a nurturing liberal arts environment just one hour from New York City at Rider's Lawrenceville campus.

## Degree Offered

- B.M. in Musical Theatre: Musical Direction

## Related Programs

- Arts Entertainment Industries Management (p. 852)
- Dance (p. 860)
- Music (p. 874)
- Piano (p. 1074)

## General Requirements

B.M. - Musical Theatre majors must earn a minimum grade of "B-" each semester in the primary applied music field in order to make satisfactory progress. If a grade of "C+" or lower is earned, the student must repeat the semester.

Students must meet attendance and performance requirements in studio performance classes and Musical Theatre Lab.

All students must present a senior piano primary applied recital after qualifying according to applied area standards. Students must enroll for primary applied study during the term when any recital is to be presented unless specifically excused from this requirement by the Associate Dean.

## Applied Music – Piano Primary Study

Piano primary students in the B.M.-Musical Theatre degree must register for two credits of applied music in each semester of study, to a maximum of eight semesters. Four terms are taken under MUS 165A; four terms under MUS 365A. The section number corresponds to the instructor with whom the student will study.

## Musical Theatre Lab

All majors are required to attend a weekly musical theatre lab during every semester of enrollment. The lab supplements curricular instruction with presentations by guest artists, managers, agents, and casting directors. This interface provides each student with an opportunity for interaction with some of the most important professionals in the musical theatre business.

## Performing Opportunities at Rider University

The musical theatre program offers three fully staged productions led by faculty and experienced and notable directors, conductors and choreographers from the professional community. The Theatre and Dance Department also offers a well-established theatre program that provides additional performing opportunities in three major productions. Majors also are encouraged to participate in student-directed and produced events, presented each year on both campuses. The Voice Department at the Princeton campus offers two Opera Theater

productions each year. All productions are open by audition to all Rider University students except first-semester freshmen.

### Notes:

- <sup>1</sup> Students completing fewer than four (4) semesters of secondary applied music study must make up the credits in free electives, in order to meet the minimum number 123 credits for graduation.

- <sup>2</sup> MUS 210 is a prerequisite for all four courses.
- <sup>3</sup> Completion of French, German, Italian, or Latin II is required. Students exempted from one or more semesters of foreign language study must replace the missing credits with other Arts & Sciences electives.

### Additional Requirements

- Sophomore Review
- Piano Juries
- Senior Piano Recital

### Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

## Courses and Descriptions

### CR 215 Fundamentals of Conducting 3 Credits

This course provides the foundation of conducting technique and philosophy as it relates to choral ensemble. Primarily, it deals with the development of basic pedagogical proficiencies, specifically alignment, Laban gestural vocabulary, breathing, beat patterns, consistent tempo, and the development of expressive gesture for relaying various styles of music, i.e., legato, staccato and marcato. Basic philosophical understandings concerning the human aspects of the music making process and the role the conductor plays in that process also are emphasized. Specific techniques for dealing with technical elements, e.g., fermata, dynamics, changes of tempo, contrasts in style, also are covered. The overall focus of the course is to establish the important relationship between ear, body, and the choral sound.

**Prerequisite(s):** TH 141.

### CR 315 Techniques of Conducting 3 Credits

Continued development of conducting technique with emphasis on more complex styles and patterns, and on communication through appropriate gestures. Further improvement in conducting various dynamics and articulations, as well as more effective use of the left hand. Rehearsal procedures, repertoire programming, score preparation, and baton techniques are incorporated into the course.

**Prerequisite(s):** CR 215.

### MTR 105 Musical Theatre Practicum 1 Credits

This course explores the literature of musical theatre vocal ensembles. It emphasizes examining a wide range of styles. This is a studio/academic class, not a performance ensemble.

### MTR 109 Beginning Ballet I 1 Credits

This course introduces the basic elements of ballet technique. Technique is based on the five positions of the legs and feet, coupled with appropriate arm positions. The class consists of a basic ballet barre warm-up that includes stretching and developing strength and turn-out used in dance positions and combinations. Instruction includes jumping, turning, and connecting steps with movement. Ballet terminology is addressed.

### MTR 111 Musical Theatre Lab 0 Credits

### MTR 120 Hist of American Music Theater 3 Credits

The history of the American Musical from the first American production in 1750 of Gay's *The Beggar's Opera* up to the present will be traced. Emphasis will be placed upon those common elements which are solely intrinsic to the American stage. Developments and imported ideas (e.g., *The British Invasion*) will be highlighted.

### MTR 215 MT Performance: Song as Text 3 Credits

In this course the student will learn how to develop a performance of musical text by making doable, actable choices and applying those choices to musical monologues – solo songs.

**Prerequisite(s):** THE 110.

### MTR 218 Musical Theatre Scene Study I 3 Credits

Scene study class exploring the literature of the musical theatre – emphasis placed on two- and three-character scenes. Required of all second-year students.

**Prerequisite(s):** THE 208.

### MTR 255 Musical Theatre Repertoire I 3 Credits

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers through the 1950s. The thrust of this class is split between studio work and academic work.

**Prerequisite(s):** THE 106, THE 208.

### MTR 256 Musical Theater Repertoire II 3 Credits

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers since the 1950s. The thrust of this class is split between studio work and academic work.

**Prerequisite(s):** THE 106, THE 108.

### MTR 317 MT Auditions:Preparation/Tech 3 Credits

This course, building upon skill-sets established in the Music Theatre singer-actor curriculum, will introduce and hone the required skill-sets for preparing to audition in Music Theatre. Genres and styles of music most often required for auditioning in the industry will be prepared and explored. An audition "book," based upon the demands of the industry, as well as the most suitable material for each student will be built. When appropriate, guests from the industry will be invited to present master classes and evaluations in a "mock audition" process.

**Prerequisite(s):** MTR 207, MTR 216, MTR 217, MTR 492.

### MTR 493 Music Theater Production 1 Credits

Preparation and performance of a solo or ensemble role in a fully staged music theatre production. Concurrent participation in stage crew activities is required.

### MUS 106 Survey of Music History II 3 Credits

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

### MUS 110 Music Theory I 3 Credits

A practical introduction to the basic elements of music, beginning with the reading of music notation. Practice in scales and chords; ear-training in rhythm and pitch. Techniques may be applied to the student's own instrument (e.g., guitar, piano, winds) if he or she plays one.

**Prerequisite(s):** MUS 109S or placement.

**Corequisite(s):** MUS 110L.

### MUS 110L Music Theory I Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 110 (Music Theory I). **Prerequisite(s):** MUS 109S or placement.

**Corequisite(s):** MUS 110.

### MUS 111 Music Theory II 3 Credits

Continuation of MUS 110, leading to some original composition.

**Prerequisite(s):** MUS 110 and MUS 110L.

**Corequisite(s):** MUS 111L.

### MUS 111L Music Theory II Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 111 (Music Theory II). **Prerequisite(s):** MUS 110 and MUS 110L or placement.

**Corequisite(s):** MUS 111.

**MUS 165A Applied Piano 2 Credits****PI 513 Jazz Keyboard/Improv 3 Credits**

This course will enable pianists and organists to become familiar with the theory, harmony, and improvisational techniques of jazz piano. Emphasis will be placed upon getting each student to create spontaneous improvisations. The fundamental goal will be that of enabling students accustomed to following a score to move beyond it. Extensive exposure to material from the "Great American Songbook" as well as to jazz standards will provide a structural basis for the course.

**Prerequisite(s):** TH 142 and PI 201, or equivalent knowledge and technical proficiency.

**TH 251 Analytical Studies I 3 Credits**

An in-depth analytical study of a select body of tonal music to be determined by the instructor. The music, which will contain only the harmonic vocabulary and formal structures studied in TH 141 and TH 142, may vary each time the course is offered. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 253 Orchestration 3 Credits**

A study of the orchestra and its individual instruments from the standpoints of the composer, arranger and conductor. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 255 Song Writing 3 Credits**

Solo vocal composition in various styles. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 259 Electroacoustic Music 3 Credits**

An introduction to the history and literature of electro-acoustic music emphasizing hands-on creative opportunities in sequencing and digital sound processing. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**THE 106 Theater History Since 1700 3 Credits**

The history of theater from the Restoration to the present. Examines major plays and playwrights, emphasizing the Restoration, Romantic, and Realistic movements. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 105 Theatre History to 1700 3 Credits**

The history of theater from the primitive time through the Baroque era. Examines major plays and playwrights, emphasizing the Greek, Roman, Medieval, and Elizabethan eras. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 107 Acting I: Intro to Acting 3 Credits**

Exercises and improvisations developing the fundamental prerequisites for the actor are provided. The emphasis is on vocal and physical mobility and the ability to communicate emotional states from the stage.

**VC 103 Voice Secondary 1 Credits****Musical Theatre: Voice Primary (B.F.A)****Program Overview**

The musical theatre major at Rider prepares students for a professional career in musical theatre with veteran faculty and regular interface with top industry professionals. This program is provided in a nurturing

liberal arts environment just one hour from New York City at Rider's Lawrenceville campus.

The musical theatre program offers development of well-rounded, competitive musical theatre professionals. Rider's professional musical theatre faculty members are committed to developing students' talents and technique in all areas – vocal, dance and acting – preparing them to succeed in the highly competitive world of professional musical theatre.

Rider musical theatre majors enjoy affordable, student-sponsored Broadway performance trips, special student discounts, class-related Broadway field-trips and backstage tours or just a quick visit via the nearby train.

**Degree Offered**

- B.F.A. in Musical Theatre (voice primary)

**Contact****Ivan Fuller, Ph.D.**

**Musical Theatre: Voice Primary Program Requirements**

(121 credits)

**General Requirements**

For all majors offered in the Theatre & Dance Department students must earn a minimum grade of "C" in those courses required in the major area in order to make satisfactory progress. If a grade of "C-" or lower is earned, the student must repeat the course.

B.F.A. –Musical Theatre majors must earn a minimum grade of "B-" each semester in the primary applied music field in order to make satisfactory progress. If a grade of "C+" or lower is earned, the student must repeat the semester.

Students must meet attendance and performance requirements in studio performance classes and Musical Theatre Lab.

**Applied Music – Voice Primary Study**

Students in the B.F.A.-Musical Theatre degree must register for applied music in each semester of study, to a maximum of eight semesters. Six terms are taken under MUS 168A (2-credit, 1-hour lesson) and two

semesters are taken under MUS 168B (1-credit, half-hour lesson). The section number corresponds to the instructor with whom the student will study.

## Musical Theatre Lab

All majors are required to attend a weekly musical theatre lab during every semester of enrollment. The lab supplements curricular instruction with presentations by guest artists, managers, agents, and casting directors. This interface provides each student with an opportunity for interaction with some of the most important professionals in the musical theatre business.

## Performing Opportunities at Rider University

The musical theatre program offers three fully staged productions led by faculty and experienced and notable directors, conductors and choreographers from the professional community. The Theatre and Dance Department also offers a well-established theatre program that provides additional performing opportunities in three major productions. Majors also are encouraged to participate in student-directed and produced events, presented each year on both campuses. The Voice Department at the Westminster campus offers two Opera Theater productions each year. All productions are open by audition to all Rider University students except first-semester freshmen. Consult the Musical Theatre Handbook for the Audition Policy.

## Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

## Courses and Description

**MTR 105 Musical Theatre Practicum 1 Credits**

This course explores the literature of musical theatre vocal ensembles. It emphasizes examining a wide range of styles. This is a studio/academic class, not a performance ensemble.

**MTR 109 Beginning Ballet I 1 Credits**

This course introduces the basic elements of ballet technique. Technique is based on the five positions of the legs and feet, coupled with appropriate arm positions. The class consists of a basic ballet barre warm-up that includes stretching and developing strength and turn-out used in dance positions and combinations. Instruction includes jumping, turning, and connecting steps with movement. Ballet terminology is addressed.

**MTR 110 Ballet II 1 Credits**

Continuation of MTR 109, building upon techniques learned in that course.

**Prerequisite(s):** MTR 109.

**MTR 111 Musical Theatre Lab 0 Credits****MTR 112 Advanced Ballet I 1 Credits**

Continuation of MTR 109, building upon techniques learned in that course.

**MTR 113 Beginning Ballet II 1 Credits**

Intermediate ballet, expanding upon Ballet I and concentrating upon the American lineage of ballet training.

**MTR 114 Advanced Ballet II 1 Credits**

Continuation of MTR 113. Intermediate ballet, expanding upon Ballet I and concentrating upon the American lineage of ballet training.

**MTR 120 Hist of American Music Theater 3 Credits**

The history of the American Musical from the first American production in 1750 of Gay's *The Beggar's Opera* up to the present will be traced. Emphasis will be placed upon those common elements which are solely intrinsic to the American stage. Developments and imported ideas (e.g., *The British Invasion*) will be highlighted.

**MTR 131 Music Theory for MT 3 Credits**

Teaches students to understand musical form, structure, melody, rhythm and harmony by applying these concepts to musical theatre literature. Includes full analysis of musical theatre songs. Required in the first year.

**MTR 132 Group Piano 1 Credits**

Offers the musical theatre student appropriate keyboard technique to play any vocal part and to play a rudimentary accompaniment. Required of all second-year students.

**Prerequisite(s):** MTR 131.

**MTR 133 Sight Singing for MT 3 Credits**

Intensive class in reading music, designed for musical theatre students. Traditional solfeggio techniques used with musical theatre texts whenever possible. Required of first-year students.

**Prerequisite(s):** MTR 131.

**MTR 207 Music Theater Vocal Coaching 3 Credits**

Vocal coaching and repertoire preparation with a focus in developing the skill sets required to research and prepare music theater repertoire. Special emphasis is given to creating and maintaining the professional audition book. Open to music theater majors only.

**Prerequisite(s):** MTR 101.

**MTR 209 Tap Dance I 1 Credits**

Introduction to the basic elements of tap dancing. Tap technique is geared to enhance rhythm and motor skills, basic elements that will be used to connect several steps and movements into combinations. Other variations such as "soft shoe" or "clogging" are included.

**MTR 210 Tap Dance II 1 Credits**

Continuation of MTR 209. Combinations most often used in music theater productions are emphasized.

**Prerequisite(s):** MTR 209.

**MTR 211 Ballet III 1 Credits**

Intermediate ballet, expanding upon Ballet II and concentrating upon the American lineage of ballet training.

**Prerequisite(s):** MTR 110.

**MTR 212 Ballet IV 1 Credits**

Continuation of MTR 211. Intermediate ballet, expanding upon Ballet III and concentrating upon the American lineage of ballet training.

**Prerequisite(s):** MTR 211.

**MTR 215 MT Performance: Song as Text 3 Credits**

In this course the student will learn how to develop a performance of musical text by making doable, actable choices and applying those choices to musical monologues – solo songs.

**Prerequisite(s):** THE 110.

**MTR 216 Acting for Music Theater I 3 Credits**

This professional skills course, intended for music theater majors, builds upon the student's previous acting training. Through various exercises and activities (both individual and group), the student will begin to develop a clear method for preparation that addresses first their own instrument, and then (through various methods of analysis) the character and the play. Students will begin to utilize and apply the studied techniques and exercises to simple monologues and a scene. Behavioral truth will precede the more sophisticated studies of emotional truth.

**MTR 217 Acting for Music Theater Major II 3 Credits**

Continuation of MTR 216. Methods for preparation are expanded as students learn and experience techniques for exploring and developing characters. This semester will focus on the application of the skills and acting techniques studied in the first semester to the needs of dramatic and sung material. Students are expected to synthesize content and skills acquired in the Speech for the Actor, Body Awareness and Movement classes.

**Prerequisite(s):** MTR 216.

**MTR 218 Musical Theatre Scene Study I 3 Credits**

Scene study class exploring the literature of the musical theatre – emphasis placed on two- and three-character scenes. Required of all second-year students.

**Prerequisite(s):** THE 208.

**MTR 219 Musical Theatre Scene Study II 3 Credits**

Further exploration of scenes in the musical theatre literature – emphasis on more complex scenes. Required of all third-year students.

**Prerequisite(s):** MTR 218.

**MTR 251 Styles and Genres I 3 Credits**

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Standard, Classical, and Traditional periods of musical theater. Composers to be studied will include Rodgers and Hammerstein, Lerner and Loewe, Kern, Berlin, Gershwin, Porter, Arlen, Blitstein and Weill.

**Prerequisite(s):** MUS 111, MUS 111L, THE 107, MTR 216.

**MTR 252 Styles and Genres II 3 Credits**

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary (Non-Pop/Rock) period of music theater. Composers to be studied will include Sondheim, Styne, Kander and Ebb, Guettel, Matby and Shire, and Bernstein.

**Prerequisite(s):** MUS 111, MUS 111L, THE 107, MTR 216.

**MTR 253 Styles and Genres III 3 Credits**

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary, Pop/Rock period of music theater. Composers to be studied will include Webber, Schwartz, Fenn, Flaherty, Menkin, Brown, LaChiusa, and Lippa.

**Prerequisite(s):** MUS 111, MUS 111L, THE 107, MTR 216.

**MTR 255 Musical Theatre Repertoire I 3 Credits**

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers through the 1950s. The thrust of this class is split between studio work and academic work.

**Prerequisite(s):** THE 106, THE 208.

**MTR 256 Musical Theater Repertoire II 3 Credits**

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers since the 1950s. The thrust of this class is split between studio work and academic work.

**Prerequisite(s):** THE 106, THE 108.

**MTR 307 Tap III 1 Credits**

This course is designed for the moderately advanced tap dancer. Course to be taken in the fall.

**Prerequisite(s):** MTR 210.

**MTR 308 Tap IV 1 Credits**

The course will allow the more advanced student to complete the work begun in Tap III.

**Prerequisite(s):** MTR 307.

**MTR 309 Beginning Jazz Dance I 1 Credits**

Based upon the ballet foundation, this course explores the expressive style of jazz dance, and basic Western theatrical dance forms and social dances used most often on the stage.

**Prerequisite(s):** MTR 109.

**MTR 310 Jazz Dance II 1 Credits**

Continuation of work begun in MTR 309.

**Prerequisite(s):** MTR 309.

**MTR 311 Jazz Dance III 1 Credits**

This course continues the work begun in MTR 309 and 310.

**MTR 312 Advanced Jazz Dance II 1 Credits**

This course continues the work begun in MTR 309, MTR 310 and MTR 311.

**Prerequisite(s):** MTR 311.

**MTR 313 Ballet V 1 Credits**

Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

**Prerequisite(s):** MTR 212.

**MTR 314 Ballet VI 1 Credits**

Continuation of MTR 313. Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

**Prerequisite(s):** MTR 313.

**MTR 315 Advanced Jazz Dance I 1 Credits**

Continuation of work begun in MTR 309.

**MTR 316 Beginning Jazz Dance II 1 Credits**

This course continues the work begun in MTR 309 and 315.

**MTR 317 MT Auditions:Preparation/Tech 3 Credits**

This course, building upon skill-sets established in the Music Theatre singer-actor curriculum, will introduce and hone the required skill-sets for preparing to audition in Music Theatre. Genres and styles of music most often required for auditioning in the industry will be prepared and explored. An audition "book," based upon the demands of the industry, as well as the most suitable material for each student will be built. When appropriate, guests from the industry will be invited to present master classes and evaluations in a "mock audition" process.

**Prerequisite(s):** MTR 207, MTR 216, MTR 217, MTR 492.

**MTR 318 Advanced Jazz Dance II 1 Credits**

This course continues the work begun in MTR 309, MTR 315 and MTR 316.

**MTR 319 Jazz Dance III 1 Credits**

This course continues the work begun in MTR 318.

**MTR 320 Jazz Dance IV 1 Credits**

This course continues the work begun in MTR 319.

**MTR 335 Speech for the Actor 3 Credits**

This course introduces and develops speech techniques, specifically in the areas of relaxation, posture and alignment, respiration, phonation, support, registration, resonance, and articulation. Students learn to consistently produce a free, resonant, fully supported speaking voice. Exercises will increase flexibility and range of speaking and will foster heightened responsiveness to feeling. Regular practice in the delivery of both impromptu and prepared monologues is required. This course includes studies in Neutral American Speech.

**MTR 402 Directing Music Theater/Opera 3 Credits**

This elective course investigates how conceptual ideas and the process of script analysis are used in putting together a music theatre production for performance. Instruction includes staging ideas and elements needed for a complete production. Other theatrical aspects of choreography, properties, costumes, lighting, and set design are addressed. It is recommended that students complete MTR 496 before taking MTR 402.

**MTR 411 Musical Theatre Ensemble 1 Credits****MTR 415 Musical Theatre Dance I 1 Credits**

First capstone course in the Musical Theatre dance sequence. Practical and historical study of Broadway dance styles; main focus on jazz idiom. Emphases placed on technique, performance quality, and auditioning skills.

**Prerequisite(s):** Completion of Ballet, Tap, and Jazz requirements; senior standing.

**MTR 416 Musical Theatre Dance II 1 Credits**

Second capstone course in the Musical Theatre dance sequence. Continuing study of Broadway dance styles. Emphasis is placed on technique, performance quality, and auditioning skills.

**Prerequisite(s):** MTR 416.

**MTR 480 Dance for Performing Artist 3 Credits**

This course is a culmination of the dance elements and forms studied in ballet, tap, and jazz dance. Context areas include movement used most often in performance of music theater and movement fundamentals applicable to all aspects of presentation and principle to refine and articulate the performer's awareness and use of the body through singing and dance. Performance issues and movement as a basis for music and sound production are addressed.

**Prerequisite(s):** MTR 209, MTR 309.

**MTR 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

**Prerequisite(s):** junior or senior standing, good academic standing.

**MTR 491 Internship in Music Theater 1-12 Credits**

Provides junior or senior musical theatre majors with the opportunity to gain practical experience working within a professional environment. Students must be sponsored by a musical theatre or theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

**Prerequisite(s):** permission of instructor.

**MTR 492 Singing Actor: Music Theater 3 Credits**

This semester combines all dramatic and musical studies to create an authentic and believable character that is both emotionally truthful and musically expressive. Music is studied as "script" and dramatic choices are prepared in relationship to all elements present in the score.

**Prerequisite(s):** MTR 216 and MTR 217.

**MTR 493 Music Theater Production 1 Credits**

Preparation and performance of a solo or ensemble role in a fully staged music theatre production. Concurrent participation in stage crew activities is required.

**MTR 496 Music Theater Workshop 3 Credits**

This class, building upon the foundational studies associated with preparation and exploration (both dramatic and musical), focuses on performances. Students are taught methods for synthesizing all former training in acting, music, and movement to the needs of the character and the play/score. Each student fully prepares at least two complete roles from the music theater repertoire. The class culminates in a performance of scenes—the Junior Cabaret!

**Prerequisite(s):** MTR 216, MTR 217, MTR 492.

**MTR 511 Music Theater Ensemble 1 Credits**

The performance-based, auditioned music theater ensemble engages multiple singers/actors/dancers in performance, utilizing scenes from music theater literature as the primary material. Emphasis is placed upon group interaction and building an ensemble. This ensemble often is asked to perform for University sponsored events.

**MUS 001S Applied Voice Studio 0 Credits****MUS 105 Survey of Music History I 3 Credits**

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

**MUS 106 Survey of Music History II 3 Credits**

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

**MUS 109S Basic Music Theory 3 Credits**

This is a beginner's course in music theory. It familiarizes the student with the basic elements (e.g., staff, clefs, time signatures, musical notation, intervals, triads and chords). This course is ideal for both the student wanting to know only the essential, or the student wanting to go on to develop their theoretical skills. For non-music majors, MUS 109S counts toward graduation and grades are awarded on an A-F basis. For music majors, MUS 109S does not count toward graduation, and grading is on a pass ("Y") or fail ("Z") basis.

**MUS 110 Music Theory I 3 Credits**

A practical introduction to the basic elements of music, beginning with the reading of music notation. Practice in scales and chords; ear-training in rhythm and pitch. Techniques may be applied to the student's own instrument (e.g., guitar, piano, winds) if he or she plays one. Prerequisite(s): MUS 109S or placement.

**Corequisite(s):** MUS 110L.

**MUS 110L Music Theory I Lab 1 Credits**

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 110 (Music Theory I). Prerequisite(s): MUS 109S or placement.

**Corequisite(s):** MUS 110.

**MUS 111 Music Theory II 3 Credits**

Continuation of MUS 110, leading to some original composition. Prerequisite(s): MUS 110 and MUS 110L.

**Corequisite(s):** MUS 111L.

**MUS 111L Music Theory II Lab 1 Credits**

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 111 (Music Theory II). Prerequisite(s): MUS 110 and MUS 110L or placement.

**Corequisite(s):** MUS 111.

**MUS 113 Popular Music Theory I 3 Credits**

Popular Music Theory I covers basic elements of music, including the reading of music notation in traditional formats as well as in audio wave form and in the visualization of standard Digital Audio Workstations. Practice in scales and chords; ear-training in rhythm, pitch, and timbre. Techniques may be applied to the student's own instrument (e.g., guitar, piano, voice)

**Corequisite(s):** MUS 113L.

**MUS 113L Popular Music Theory Lab I 1 Credits**

Taken in conjunction with Popular Music Theory I, the lab applies theoretical concepts in a performance context. Applied aural training and improvisation skills on primary and secondary instruments.

**Corequisite(s):** MUS 113.

**MUS 114 Popular Music Theory II 3 Credits**

A continuation of Popular Music Theory I, progressing to intermediate elements of music, including the reading of music notation in traditional formats as well as in audio wave form and in the visualization of standard Digital Audio Workstations. Practice in scales and chords, ear-training in rhythm, pitch, and timbre. Techniques may be applied to the student's own instrument (e.g., guitar, piano, voice).

**MUS 114L Popular Music Theory Lab II 1 Credits**

Taken in conjunction with Popular Music Theory II, the lab applies theoretical concepts in a performance context. Applied aural training and improvisation skills on primary and secondary instruments.

**MUS 116 Digital DJing 3 Credits**

Digital DJing is a three-week, software-based course that develops musical mixing skills for the purpose of creating the kinds of DJ sets one may play on the radio or at live events. Includes repertory building across several popular and dance genres.

**MUS 120 Music and Society 3 Credits**

Introduction to the basic elements of music (rhythm, melody, harmony, etc.) and the appreciation of representative types of music from all historical periods.

**MUS 127 Pop, Rock & Hip-Hop Ensemble 1 Credits**

Ensemble rehearsal and performance of contemporary music. Maximum of eight credits are accepted in band, choir, and/or theater production.

**MUS 128 Choir 1 Credits**

Rehearsal and performance of multi-era Western and non-Western repertoire. Instruction in music fundamentals and vocal production. Pitch matching and part-singing abilities must be demonstrated in the first-week sectional hearing.

**MUS 129 Contemporary Vocal Ensemble 1 Credits**

The objective of the contemporary vocal ensemble course is to allow students to experience the aesthetics of popular music through the study, interpretation and performance of the music. Students will develop their ensemble skills, independent part singing, as they experience a wide range of popular music genres (jazz, pop, R&B, world, etc.) Students must pass an audition to participate in this course.

**MUS 130 Music in Children's Lives 3 Credits**

Students in this course will study how music interacts in the lives of children as they sing, listen, play instruments and move. Song repertoire and selections for listening and moving from the American, European and non-Western cultures will be introduced. Playing recorder as well as pitched and non-pitched percussion instruments will be demonstrated.

**MUS 131 Beginning Piano I 2 Credits**

Class approach to learning to play the piano. How to read music, basic piano technique, and appropriate piano pieces and songs are studied.

**MUS 132 Beginning Piano II 2 Credits**

Continuation of MUS 131. Emphasis on further development of technique and the ability to interpret piano music from a variety of styles.

**Prerequisite(s):** MUS 131 or equivalent.

**MUS 133 Class Voice I 2 Credits**

Class approach to learning pop vocals. How to read music, basic vocal production technique and appropriate vocal pieces and songs are studied, especially in popular genres.

**MUS 134 Class Voice II 2 Credits**

Continuation of class approach to learning pop vocals started in Class Voice I. Intermediate vocal technique for popular music

**Prerequisite(s):** MUS 133 or placement exam.

**MUS 135 Class Guitar I 2 Credits**

Class approach to learning to play the guitar. How to read tablature, basic guitar technique, and appropriate guitar pieces and songs are studied, especially in popular genres. Students must provide their own guitars; if electric, they should provide their own amps, too.

**MUS 136 Class Guitar II 2 Credits**

Continuation of class approach to learning to play the guitar started in Class Guitar I. Intermediate guitar technique for popular music. Students must provide their own guitars; if electric, they should provide their own amps, too.

**Prerequisite(s):** MUS 135 or placement exam.

**MUS 150A Applied Flute 2 Credits****MUS 150B Applied Flute 1 Credits****MUS 150C Applied Flute 2 Credits****MUS 150D Applied Flute Elective 1 Credits****MUS 151A Applied Oboe 2 Credits****MUS 151B Applied Oboe 1 Credits****MUS 151C Applied Oboe 2 Credits****MUS 151D Applied Oboe Elective 1 Credits****MUS 152A Applied Clarinet 2 Credits****MUS 152B Applied Clarinet 1 Credits****MUS 152C Applied Clarinet 2 Credits****MUS 152D Applied Clarinet Elective 1 Credits****MUS 153A Applied Bassoon 2 Credits****MUS 153D Applied Bassoon Elective 1 Credits****MUS 154A Applied Saxophone 2 Credits****MUS 154D Applied Saxophone Elective 1 Credits****MUS 155A Applied French Horn 2 Credits****MUS 155D Applied French Horn Elective 1 Credits****MUS 156A Applied Trumpet 2 Credits****MUS 156B Applied Trumpet 1 Credits****MUS 156C Applied Trumpet 2 Credits****MUS 156D Applied Trumpet Elective 1 Credits****MUS 157A Applied Trombone 2 Credits****MUS 157D Applied Trombone Elective 1 Credits****MUS 158A Applied Euphonium 2 Credits****MUS 158D Applied Euphonium Elective 1 Credits****MUS 159A Applied Tuba 2 Credits****MUS 159D Applied Tuba Elective 1 Credits****MUS 160A Applied Guitar 2 Credits****MUS 160B Applied Guitar 1 Credits****MUS 160C Applied Guitar 2 Credits****MUS 160D Applied Guitar Elective 1 Credits****MUS 160E Applied Guitar 2 Credits****MUS 161A Applied Violin 2 Credits****MUS 161B Applied Violin 1 Credits****MUS 161C Applied Violin 2 Credits****MUS 161D Applied Violin Elective 1 Credits****MUS 161E Applied Violin 2 Credits****MUS 161G Applied Violin 2 Credits****MUS 162A Applied Viola 2 Credits****MUS 162D Applied Viola Elective 1 Credits****MUS 163A Applied Cello 2 Credits****MUS 163D Applied Cello Elective 1 Credits****MUS 164A Applied String Bass 2 Credits****MUS 164B Applied String Bass 1 Credits****MUS 164C Applied String Bass 2 Credits****MUS 164D Applied String Bass Elective 1 Credits****MUS 165A Applied Piano 2 Credits**

**MUS 201 Skills Ensemble I 1 Credits**

A Contemporary Performance skills ensemble focusing on interactive musicianship, composition, ear training, transcription, and notation, for popular music studies majors. Students will develop proficiency in the following areas: • Developing ensemble skills • Preparing and rehearsing original compositions • Recognizing scales, intervals and chords • Harmonic, Melodic, and Rhythmic Transcription • Recognizing basic structural elements in different musical genres: Pop(Hip-Hop, R&B, Rock)/Jazz/Classical as well as understand their basic vernacular • Writing legible and clear musical scores (charts).

**MUS 204 Jazz History 3 Credits**

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

**Prerequisite(s):** CMP 120 or LL 131.

**MUS 205 History of Pop and Rock Part I 3 Credits**

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

**MUS 206 History of Pop and Rock Part 2 3 Credits**

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

**MUS 207 Masterworks in Music 3 Credits**

Major works by great composers from different historical periods Mozart, Beethoven, Brahms, and Wagner, among others are studied. Up to 10 compositions by six composers are covered, with an emphasis on listening to recorded and live performances of representative works.

**MUS 208 Music of the Theater 3 Credits**

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

**MUS 209 Great Composers 3 Credits**

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

**MUS 210 Music Theory III 3 Credits**

Analysis of musical forms, including binary, rounded binary, ternary, and popular song. Identification of techniques that support musical form, including harmonic language, contrast/repetition, compositional process. Advanced sight singing and aural drills.

**Prerequisite(s):** MUS 111 and MUS 111L.

**MUS 211 Music Theory for Music Theater 3 Credits**

Analysis of music theater songs, scenes and scores. Various techniques, placement of examples into historical, musical, artistic, and literary perspective. Reading of full and piano/vocal scores, conducting, orchestration and harmonic language will be emphasized.

**Prerequisite(s):** MUS 111 and MUS 111L.

**MUS 212 Cartoon and Anime Culture 3 Credits**

This course investigates the music and culture of animated films and television shows, anime, animated shorts including cartoons, and related incidental music for documentary films.

**MUS 213 Digital Comp of Pop Music I 3 Credits**

This course is about “the doing of music”. It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music.

**MUS 214 Writing about Music 3 Credits**

This course instructs students in the art of writing about music, from small-form criticism to large scale scholarship, focusing especially on the ability to translate what one hears into engaging prose.

**Prerequisite(s):** CMP 120 and 125, MUS 110, 110L and 213.

**MUS 215 Music & Techn/Mobile Society 3 Credits**

This course compares the recent history of music technology to past innovations, focusing on the aesthetic implications and ideological influences of an increasingly mobilized musical milieu.

**MUS 216 Digital Comp of Pop Music II 3 Credits**

This course is about “the doing of music.” It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music, continuing the content begun in The Digital Composition of Popular Music I.

**MUS 217 Black Music in America 3 Credits**

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip-hop and everything in between.

**MUS 218 Postmodernism & Pop Culture 3 Credits**

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

**MUS 219 Pop Music Arranging I 3 Credits**

The Pop Music Arranging I course is the first of a two-semester course sequence whose goal is to explore the fundamental arranging techniques for popular music styles. Students will learn to arrange popular music for the standard instrumentation found in a pop/rock ensemble (bass guitar, drumset, rhythm guitar, and keyboard). This course will develop comprehensive musicianship and fundamental arranging techniques, as well as develop skills as they relate to the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L.

**MUS 220 Pop Songwriting I 3 Credits**

The Songwriting I course is an introduction to songwriting in popular music styles. Students will learn to compose music by themselves and collaboratively. This course will develop comprehensive musicianship and compositional techniques, as well as learn to use the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L.

**MUS 233 Intermediate Piano 3-12 Credits**

Continuation of MUS 132 with further development of reading skills, piano techniques and interpretation. Each student studies a set of pieces selected together with the instructor tailored specifically to the students' needs and interests.

**MUS 300 Beethoven and the Romantic Age 3 Credits**

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

**MUS 301 Skills Ensemble II 1 Credits**

The Contemporary Performance Skills Ensemble II is a course whose focus is interactive musicianship, composition, ear training, transcription, and notation, for popular music studies majors. This course will require a higher level of musical ability, aptitude, and technical development than the Skills I Ensemble course. Students will develop proficiency in the following areas: • Developing ensemble skills • Preparing and rehearsing original compositions • Recognizing scales, intervals and chords • Harmonic, Melodic, and Rhythmic Transcription • Recognizing basic structural elements in different musical genres: Pop(Hip-Hop, R&B, Rock)/Jazz/Classical as well as understand their basic vernacular • Writing legible and clear musical scores (charts) • Improvisation.

**MUS 303 Music Literature: Baroque Era 3 Credits**

A survey of European musical styles from c. 1600 to 1750, approached by listening to the music of the period, including Bach, Handel, and many lesser known masters. Topics include the development of modern musical sound, instrumental forms, Lutheran and Catholic church music, and the beginnings of dramatic music.

**MUS 304 Music of the Beatles 3 Credits**

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

**MUS 305 Words and Music 3 Credits****MUS 306 Contemp Music Experience 3 Credits**

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

**MUS 307 The Music of Radiohead 3 Credits**

This course investigates the music, lyrics, art and marketing strategies of the British so called "alternative" band, Radiohead, moving song by song through their demos, videos and albums.

**MUS 308 World Music 3 Credits**

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures.

**MUS 309 Film Music 3 Credits**

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

**MUS 310 The Film Music of Stanley Kubrick 3 Credits**

This course is an in-depth study of the way in which music impacts society through the art of film. Focusing on the films of Stanley Kubrick (e.g. The Shining; 2001: A Space Odyssey; A Clockwork Orange; Full Metal Jacket; Eyes Wide Shut; Dr. Strangelove; Lolita) we will study a variety of strategies within which music integrates, counterpoints or ironically resists themes such as war, sex, politics, religion, gender etc. Also we will observe how music interacts with other aesthetics in film such as light, camera methods, 1. diegetic/source, 2. non-diegetic/underscore and 3. metadiegetic (i.e. 1. music in the film; 2. music only the audience can hear; 3. music that seems to be coming from the mind of a character in the film) method as part of the narrative itself. In this way we will investigate the way film both integrates aspects of society and also radiates messages, indeed challenges, to society, both as a mirror but also didactically—with the direct intent of creating change.

**MUS 311 Unpacking Bruce Springsteen 3 Credits**

This course will survey the music of Bruce Springsteen. It will 'unpack' Springsteen's musical development not only across his official career (i.e. from signing with Columbia for his first album 'Greetings from Asbury Park, New Jersey' in 1973 to the present) but also from his childhood through his youth in Freehold, NJ. By closely studying Springsteen's life, music and lyrics as well as the themes of each album the student will become an expert in understanding how The Boss was able to universalize the Jersey Shore as well as his personal concerns into vital musical messages of great value and import today. This will also involve looking at music as varied as The British Invasion (i.e. The Beatles, The Animals & the Rolling Stones et al); Motown; Country; Soul; Folk; Rock and the American Songbook.

**MUS 312 The Arts Abroad 3 Credits**

A two week trip abroad that includes a critical study of music and theater. Students are required to attend all performances, guided tours, and classes before and after the trip.

**MUS 315 Black Music in America 3 Credits**

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip hop and everything in between.

**MUS 316 Digital Mixing and Mastering 3 Credits**

Digital Mixing and Mastering is a practical skills class focusing on post-production skills in software interfaces. Students will learn how to work with multiple editing softwares and plug-in tools to achieve balanced, lively, professional mixes.

**MUS 319 Pop Music Arranging II 3 Credits**

The Pop Music Arranging II course is the terminal course of a two-semester sequence whose goal is to explore the advanced arranging techniques for popular music styles. Students will learn to arrange popular music for the standard instrumentation found in a pop/rock ensemble (bass guitar, drumset, rhythm guitar, and keyboard). This course will develop comprehensive musicianship and advanced arranging techniques, as well as develop advanced skills as they relate to the utilization of the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L, MUS 219.

**MUS 320 Pop Songwriting II 3 Credits**

The Pop Songwriting II course is a continuation of the songwriting course sequence whose goal is to explore advanced compositional techniques for popular music styles. Students will learn to compose music by themselves and collaboratively. This course will develop comprehensive musicianship and advanced compositional techniques, as well as develop advanced skills as they relate to the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L, MUS 220.

**MUS 350A Applied Flute 2 Credits****MUS 350B Applied Flute 1 Credits****MUS 351A Applied Oboe 2 Credits****MUS 351B Applied Oboe 1 Credits****MUS 352A Applied Clarinet 2 Credits****MUS 353A Applied Bassoon 2 Credits****MUS 354A Applied Saxophone 2 Credits****MUS 355A Applied French Horn 2 Credits****MUS 356A Applied Trumpet 2 Credits****MUS 356B Applied Trumpet 1 Credits****MUS 357A Applied Trombone 2 Credits****MUS 358A Applied Euphonium 2 Credits****MUS 359A Applied Tuba 2 Credits****MUS 360A Applied Guitar 2 Credits****MUS 360B Applied Guitar 1 Credits****MUS 361A Applied Violin 2 Credits****MUS 362A Applied Viola 2 Credits****MUS 363A Applied Cello 2 Credits****MUS 364A Applied String Bass 2 Credits****MUS 364B Applied String Bass 1 Credits****MUS 365A Applied Piano 2 Credits****MUS 365B Applied Piano 1 Credits****MUS 366A Applied Organ 2 Credits****MUS 367A Applied Percussion 2 Credits****MUS 368A Applied Voice 2 Credits****MUS 368B Applied Voice 1 Credits****MUS 368C Applied Voice 2 Credits****MUS 368E Applied Voice 2 Credits****MUS 369A Applied Composition 2 Credits****MUS 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

**Prerequisite(s):** junior or senior standing; good academic standing.

**MUS 491 Internship in Music 1-4 Credits**

Provides junior or senior music majors with the opportunity to gain practical experience working within a professional music environment. Students must be sponsored by a music professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

**Prerequisite(s):** permission of instructor.

**MUS 493 Selected Topics in Music Perf 3 Credits**

Intensive study of a particular topic in applied music for the intermediate to advanced student. Students are led to understand the historic and aesthetic elements in music through critical listening, performance, research, and class projects.

**MUS 495 Selected Topics in Music 3 Credits**

Studies specialized aspects of the literature, history, or theory of music, to supplement the established curriculum. Emphasis on creative investigative work and individual experiences in music.

**MUS 498 Popular Music Culture Capstone 3 Credits**

The capstone is an independent, student-led project resulting in a material product (recording/performance/event/presentation) that demonstrates a student's interests and skills in the area of popular music.

**MUS 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

**THE 105 Theatre History to 1700 3 Credits**

The history of theater from the primitive time through the Baroque era. Examines major plays and playwrights, emphasizing the Greek, Roman, Medieval, and Elizabethan eras. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 106 Theater History Since 1700 3 Credits**

The history of theater from the Restoration to the present. Examines major plays and playwrights, emphasizing the Restoration, Romantic, and Realistic movements. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 107 Acting I: Intro to Acting 3 Credits**

Exercises and improvisations developing the fundamental prerequisites for the actor are provided. The emphasis is on vocal and physical mobility and the ability to communicate emotional states from the stage.

**THE 110 Acting II: Scene Study 3 Credits**

Basic acting techniques. Emphasis on the ingredients of any action: what am I doing, where, why, who am I, what is my attitude toward partner?

**Prerequisite(s):** THE 107.

**THE 111 Theatre Lab 0 Credits**

This class serves as a forum for students to cultivate practical professional skills. Through seminars, guest speakers and master classes, this lab will give the students necessary tools to enter the professional theater. Theater majors must meet the weekly attendance and participation requirements during every semester up to a total of six.

**THE 115 Stagecraft 3 Credits**

The theory and practice of construction and rigging of stage scenery is offered. Emphasis is on actual productions and road show set-ups. One lecture and two labs per week.

**THE 116 Stagecraft Practicum 1 Credits**

Work in the various shops and stages specializing in different areas such as carpentry, scenic painting, lighting and electrics, costumes and props, assisting main stage productions under the supervision of the design or technical staff.

**Prerequisite(s):** THE 115.

**THE 118 Visual Imagination 3 Credits**

Introduction to the visual world of theater design. Visual examples, physical exercises and handcraft of composition and style, with dramatic input and meaning. The course explores how to translate ideas in a dramatic text into a visual context.

**THE 120 Theater Appreciation 3 Credits**

By exploration of dramatic literature, conclusions are drawn as to man's relationship to his particular period, style, political, social, and psychological environment. Appreciation of the theatrical event is included. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 127 Theatre Production 1 Credits**

Students rehearse and perform roles in a play produced by the department and directed by a member of its faculty. Students may also prepare a major element of design or technology for the production. Maximum of eight credits are accepted in theatre production, band and/or choir.

**THE 127T Theatre Production Tech 1-3 Credits**

Students carry out a technical theatre crew position for one or more theatre, musical theatre or dance productions during the semester of course registration. May be repeated seven times, for a total of eight credits.

**THE 199 The Arts in Contemporary Civil 3 Credits**

An integrated study of the arts and their place in contemporary American life. Includes attendance at several events in art, music, and drama.

**THE 206 American Theatre History 3 Credits**

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions. Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

**THE 218 Stage Lighting 3 Credits**

The theory and practice of stage lighting as utilized in concept, dance, and theatre. Considers the nature of light, controlling light, color theory, electricity, electrical safety, and lighting design.

**Prerequisite(s):** THE 115.

**THE 219 Stage Management 3 Credits**

Provide necessary tools to get started as a production stage manager (PSM), including management, leadership, communication and organizational skills. Providing guidelines to prepare production paperwork. Overview of the relationship between the PSM and other production personnel.

**Prerequisite(s):** THE 115.

**THE 220 Movement for the Actor 3 Credits**

This course is an introduction to movement training methodologies, and emphasizes physical awareness and expressivity as it relates to development of character.

**Prerequisite(s):** THE 107, Open to Theater majors or minor, or by permission of the instructor.

**THE 221 Voice for the Actor 3 Credits**

Focuses on exploration of the basic principles of vocal production and cultivating natural expressivity of the voice. Class work is based upon the classic progression of voice exercises of Kristin Linklater.

**Prerequisite(s):** THE 107; Open to Theatre majors or minor, or by permission of the instructor.

**THE 222 Speech and Dialects for the Actor 3 Credits**

Focuses on exploration of the International Phonetic Alphabet (IPA) and the use of the IPA in learning dialects (including Standard Neutral American) for the stage.

**Prerequisite(s):** THE 107; Open to Theater majors or minor, or by permission of the instructor.

**THE 223 Costume Design 3 Credits**

Introduction to tasks, skills and expertise of costume design and costuming techniques, relationship with other creative production and cast members. Students will create sketches and develop basic construction plans. Develop familiarity with fabrics, patterns, common challenges in costume design.

**Prerequisite(s):** THE 115, THE 118.

**THE 224 Stage Make Up 3 Credits**

Basic application of make up artistry and techniques for the stage. How it can help build a character, and how to apply to self and others.

**THE 225 Sound Design 3 Credits**

Introduction to sound design and its diverse use and practice for the staged productions, e.g. plays, musicals, operas and dance.

**Prerequisite(s):** THE 115.

**THE 226 Drafting for the Stage 3 Credits**

Covers essential drafting language for staged productions. Drafting of ground plans, sections, elevations, and renderings by hand and with computers.

**Prerequisite(s):** THE 115.

**THE 227 Properties and Scenic Painting 3 Credits**

Covers general aspects of scenic painting and props for the stage. Hands on exercises, needs and challenges of each area, how work is usually accomplished in the professional world. Explore different textures, materials and how to combine them.

**Prerequisite(s):** THE 115, THE 118.

**THE 240 Script Analysis 3 Credits**

This course provides students with a technique for analyzing any text by breaking down scenes into objectives, conflicts, beats, activities and subtext, allowing the actor to construct an approach to finding character.

**Prerequisite(s):** THE 107.

**THE 300 Acting for the Camera 3 Credits**

Focuses on the craft and artistry of acting in television and film. Examination of TV production and the styles needed for work in various media will be discussed. Physicalization, simplicity, listening, marking and other technical requirements will be explored. Staging involving different camera angles will be rehearsed. The emphasis of this class is on adapting the performance to the special needs of the camera.

**Prerequisite(s):** THE 107.

**THE 306 American Theatre History 3 Credits**

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions. Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

**THE 307 Contemporary American Theater 3 Credits**

Today's most influential theatre artists are discussed. Focusing on playwrights, the form and content of dramatic literature considered most significant today are examined along with recent innovations in design and staging practices.

**THE 308 Modern Drama 3 Credits**

Surveys American and European drama from 1920 to 1970. All plays are read in English translation. In these plays, theatrical artists address the great themes of this century. While doing so, they also expand the limits of theatrical expression.

**THE 310 Acting III 3 Credits**

Students will study in-depth techniques for exploring characterization. They will be introduced to the "magic if" and study techniques for placing themselves in the circumstances of the characters they are portraying. They will learn the interior and exterior analysis of characters using "Adler" and "Practical Aesthetics" techniques.

**Prerequisite(s):** THE 107, THE 110.

**THE 311 Acting IV 3 Credits**

Students will learn the appropriate techniques to explore characters in the three styles of Elizabethan, Restoration, and Commedia dell'arte theatre. Sessions will include movement, effective speech, and finding appropriate actions for each style. Students will also learn proper research techniques to understand cultural influences on plays and characters.

**Prerequisite(s):** THE 107, THE 110, THE 310.

**THE 312 The Arts Abroad 3 Credits**

A two-week trip abroad that includes a critical study of the music and theatre. Students are required to attend all performances, guided tours, and classes before and after the trip. A travel journal and final paper is required. A travel fee is required. Travel sites and artistic disciplines may vary year to year. May be taken more than once for credit.

**Prerequisite(s):** Permission of instructor.

**THE 317 Scenic Design 3 Credits**

The study and application of design principles as related to the stage. Incorporates the design process, decor research, styles, materials, and construction technology.

**THE 400 Directing 3 Credits**

The technique of play directing and production management. Lectures present aesthetic and theoretical concepts that are explored in workshops. Each student is required to direct and analyze a one-act play.

**Prerequisite(s):** THE 107, THE 110, THE 115.

**THE 410 Advanced Performance Workshop 3 Credits**

An opportunity to work an entire semester on a specific style or period of theatre, e.g., Shakespeare, farce, Readers' Theater.

**Prerequisite(s):** THE 107, THE 110.

**THE 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

**Prerequisite(s):** junior or senior standing, good academic standing.

**THE 491 Internship in Theater 1-12 Credits**

Provides junior or senior theatre majors the practical experience of working within a professional theater environment. Students must be sponsored by a theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

**Prerequisite(s):** permission of instructor.

**THE 495 Selected Topics in Theatre His 3 Credits**

Intensive study of a particular topic, such as the work of one dramatic movement, one period in dramatic history, or one nation's history. Students become deeply involved in an area through research, class discussions, and individual consultation with the instructor.

**THE 496 Senior Internship 6-12 Credits****THE 498 Senior Capstone 3 Credits**

The senior capstone is intended for technical theatre students in their final year. Depending on the required abilities, students will be able to design sets, lights, costumes, props or sound for a mainstage show at Rider University, do research on topics related to technical Theatre, internships outside Rider University or work on projects that will improve the use of facilities, storage or equipment for Theater and Dance Department.

**THE 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

## Popular Music Studies

### Program Overview

The popular music studies major presents students with a focused study in 20th- and 21st-century popular music in a unique context that will give them an unrivaled advantage in any professional aspect of popular music.

Students in the program have the opportunity to develop their own groups and to perform and record projects in an interactive and supportive environment. Rider also helps students gain internships that are tailored to their passions and interests.

Students also can get involved with performance groups such as the Brass Band, Rider Choir, Pep Band and student-run ensembles.

### Degree Offered

- B.A. in Popular Music Studies

### Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

**Note: Courses ART 120, MUS 120 and THE 120 do not fulfill any requirements of the major.**

**MUS 001S Applied Voice Studio 0 Credits****MUS 105 Survey of Music History I 3 Credits**

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

**MUS 106 Survey of Music History II 3 Credits**

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

**MUS 109S Basic Music Theory 3 Credits**

This is a beginner's course in music theory. It familiarizes the student with the basic elements (e.g., staff, clefs, time signatures, musical notation, intervals, triads and chords). This course is ideal for both the student wanting to know only the essential, or the student wanting to go on to develop their theoretical skills. For non-music majors, MUS 109S counts toward graduation and grades are awarded on an A-F basis. For music majors, MUS 109S does not count toward graduation, and grading is on a pass ("Y") or fail ("Z") basis.

**MUS 110 Music Theory I 3 Credits**

A practical introduction to the basic elements of music, beginning with the reading of music notation. Practice in scales and chords; ear-training in rhythm and pitch. Techniques may be applied to the student's own instrument (e.g., guitar, piano, winds) if he or she plays one. Prerequisite(s): MUS 109S or placement.

**Corequisite(s):** MUS 110L.

**MUS 110L Music Theory I Lab 1 Credits**

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 110 (Music Theory I). Prerequisite(s): MUS 109S or placement.

**Corequisite(s):** MUS 110.

**MUS 111 Music Theory II 3 Credits**

Continuation of MUS 110, leading to some original composition.

Prerequisite(s): MUS 110 and MUS 110L.

**Corequisite(s):** MUS 111L.

**MUS 111L Music Theory II Lab 1 Credits**

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 111 (Music Theory II). Prerequisite(s): MUS 110 and MUS 110L or placement.

**Corequisite(s):** MUS 111.

**MUS 113 Popular Music Theory I 3 Credits**

Popular Music Theory I covers basic elements of music, including the reading of music notation in traditional formats as well as in audio wave form and in the visualization of standard Digital Audio Workstations.

Practice in scales and chords; ear-training in rhythm, pitch, and timbre.

Techniques may be applied to the student's own instrument (e.g., guitar, piano, voice)

**Corequisite(s):** MUS 113L.

**MUS 113L Popular Music Theory Lab I 1 Credits**

Taken in conjunction with Popular Music Theory I, the lab applies theoretical concepts in a performance context. Applied aural training and improvisation skills on primary and secondary instruments.

**Corequisite(s):** MUS 113.

**MUS 114 Popular Music Theory II 3 Credits**

A continuation of Popular Music Theory I, progressing to intermediate elements of music, including the reading of music notation in traditional formats as well as in audio wave form and in the visualization of standard Digital Audio Workstations. Practice in scales and chords, ear-training in rhythm, pitch, and timbre. Techniques may be applied to the student's own instrument (e.g., guitar, piano, voice).

**MUS 114L Popular Music Theory Lab II 1 Credits**

Taken in conjunction with Popular Music Theory II, the lab applies theoretical concepts in a performance context. Applied aural training and improvisation skills on primary and secondary instruments.

**MUS 116 Digital DJing 3 Credits**

Digital DJing is a three-week, software-based course that develops musical mixing skills for the purpose of creating the kinds of DJ sets one may play on the radio or at live events. Includes repertory building across several popular and dance genres.

**MUS 120 Music and Society 3 Credits**

Introduction to the basic elements of music (rhythm, melody, harmony, etc.) and the appreciation of representative types of music from all historical periods.

**MUS 127 Pop, Rock & Hip-Hop Ensemble 1 Credits**

Ensemble rehearsal and performance of contemporary music. Maximum of eight credits are accepted in band, choir, and/or theater production.

**MUS 128 Choir 1 Credits**

Rehearsal and performance of multi-era Western and non-Western repertoire. Instruction in music fundamentals and vocal production. Pitch matching and part-singing abilities must be demonstrated in the first-week sectional hearing.

**MUS 129 Contemporary Vocal Ensemble 1 Credits**

The objective of the contemporary vocal ensemble course is to allow students to experience the aesthetics of popular music through the study, interpretation and performance of the music. Students will develop their ensemble skills, independent part singing, as they experience a wide range of popular music genres (jazz, pop, R&B, world, etc.) Students must pass an audition to participate in this course.

**MUS 130 Music in Children's Lives 3 Credits**

Students in this course will study how music interacts in the lives of children as they sing, listen, play instruments and move. Song repertoire and selections for listening and moving from the American, European and non-Western cultures will be introduced. Playing recorder as well as pitched and non-pitched percussion instruments will be demonstrated.

**MUS 131 Beginning Piano I 2 Credits**

Class approach to learning to play the piano. How to read music, basic piano technique, and appropriate piano pieces and songs are studied.

**MUS 132 Beginning Piano II 2 Credits**

Continuation of MUS 131. Emphasis on further development of technique and the ability to interpret piano music from a variety of styles.

**Prerequisite(s):** MUS 131 or equivalent.

**MUS 133 Class Voice I 2 Credits**

Class approach to learning pop vocals. How to read music, basic vocal production technique and appropriate vocal pieces and songs are studied, especially in popular genres.

**MUS 134 Class Voice II 2 Credits**

Continuation of class approach to learning pop vocals started in Class Voice I. Intermediate vocal technique for popular music

**Prerequisite(s):** MUS 133 or placement exam.

**MUS 135 Class Guitar I 2 Credits**

Class approach to learning to play the guitar. How to read tablature, basic guitar technique, and appropriate guitar pieces and songs are studied, especially in popular genres. Students must provide their own guitars; if electric, they should provide their own amps, too.

**MUS 136 Class Guitar II 2 Credits**

Continuation of class approach to learning to play the guitar started in Class Guitar I. Intermediate guitar technique for popular music. Students must provide their own guitars; if electric, they should provide their own amps, too.

**Prerequisite(s):** MUS 135 or placement exam.

**MUS 150A Applied Flute 2 Credits****MUS 150B Applied Flute 1 Credits****MUS 150C Applied Flute 2 Credits****MUS 150D Applied Flute Elective 1 Credits****MUS 151A Applied Oboe 2 Credits****MUS 151B Applied Oboe 1 Credits****MUS 151C Applied Oboe 2 Credits****MUS 151D Applied Oboe Elective 1 Credits****MUS 152A Applied Clarinet 2 Credits****MUS 152B Applied Clarinet 1 Credits****MUS 152C Applied Clarinet 2 Credits****MUS 152D Applied Clarinet Elective 1 Credits****MUS 153A Applied Bassoon 2 Credits****MUS 153D Applied Bassoon Elective 1 Credits****MUS 154A Applied Saxophone 2 Credits****MUS 154D Applied Saxophone Elective 1 Credits****MUS 155A Applied French Horn 2 Credits****MUS 155D Applied French Horn Elective 1 Credits****MUS 156A Applied Trumpet 2 Credits****MUS 156B Applied Trumpet 1 Credits****MUS 156C Applied Trumpet 2 Credits****MUS 156D Applied Trumpet Elective 1 Credits****MUS 157A Applied Trombone 2 Credits****MUS 157D Applied Trombone Elective 1 Credits****MUS 158A Applied Euphonium 2 Credits****MUS 158D Applied Euphonium Elective 1 Credits****MUS 159A Applied Tuba 2 Credits****MUS 159D Applied Tuba Elective 1 Credits****MUS 160A Applied Guitar 2 Credits****MUS 160B Applied Guitar 1 Credits****MUS 160C Applied Guitar 2 Credits****MUS 160D Applied Guitar Elective 1 Credits****MUS 160E Applied Guitar 2 Credits****MUS 161A Applied Violin 2 Credits****MUS 161B Applied Violin 1 Credits****MUS 161C Applied Violin 2 Credits****MUS 161D Applied Violin Elective 1 Credits****MUS 161E Applied Violin 2 Credits****MUS 161G Applied Violin 2 Credits****MUS 162A Applied Viola 2 Credits****MUS 162D Applied Viola Elective 1 Credits****MUS 163A Applied Cello 2 Credits****MUS 163D Applied Cello Elective 1 Credits****MUS 164A Applied String Bass 2 Credits****MUS 164B Applied String Bass 1 Credits****MUS 164C Applied String Bass 2 Credits****MUS 164D Applied String Bass Elective 1 Credits****MUS 165A Applied Piano 2 Credits**

**MUS 201 Skills Ensemble I 1 Credits**

A Contemporary Performance skills ensemble focusing on interactive musicianship, composition, ear training, transcription, and notation, for popular music studies majors. Students will develop proficiency in the following areas: • Developing ensemble skills • Preparing and rehearsing original compositions • Recognizing scales, intervals and chords • Harmonic, Melodic, and Rhythmic Transcription • Recognizing basic structural elements in different musical genres: Pop(Hip-Hop, R&B, Rock)/Jazz/Classical as well as understand their basic vernacular • Writing legible and clear musical scores (charts).

**MUS 204 Jazz History 3 Credits**

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

**Prerequisite(s):** CMP 120 or LL 131.

**MUS 205 History of Pop and Rock Part I 3 Credits**

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

**MUS 206 History of Pop and Rock Part 2 3 Credits**

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

**MUS 207 Masterworks in Music 3 Credits**

Major works by great composers from different historical periods Mozart, Beethoven, Brahms, and Wagner, among others are studied. Up to 10 compositions by six composers are covered, with an emphasis on listening to recorded and live performances of representative works.

**MUS 208 Music of the Theater 3 Credits**

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

**MUS 209 Great Composers 3 Credits**

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

**MUS 210 Music Theory III 3 Credits**

Analysis of musical forms, including binary, rounded binary, ternary, and popular song. Identification of techniques that support musical form, including harmonic language, contrast/repetition, compositional process. Advanced sight singing and aural drills.

**Prerequisite(s):** MUS 111 and MUS 111L.

**MUS 211 Music Theory for Music Theater 3 Credits**

Analysis of music theater songs, scenes and scores. Various techniques, placement of examples into historical, musical, artistic, and literary perspective. Reading of full and piano/vocal scores, conducting, orchestration and harmonic language will be emphasized.

**Prerequisite(s):** MUS 111 and MUS 111L.

**MUS 212 Cartoon and Anime Culture 3 Credits**

This course investigates the music and culture of animated films and television shows, anime, animated shorts including cartoons, and related incidental music for documentary films.

**MUS 213 Digital Comp of Pop Music I 3 Credits**

This course is about “the doing of music”. It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music.

**MUS 214 Writing about Music 3 Credits**

This course instructs students in the art of writing about music, from small-form criticism to large scale scholarship, focusing especially on the ability to translate what one hears into engaging prose.

**Prerequisite(s):** CMP 120 and 125, MUS 110, 110L and 213.

**MUS 215 Music & Techn/Mobile Society 3 Credits**

This course compares the recent history of music technology to past innovations, focusing on the aesthetic implications and ideological influences of an increasingly mobilized musical milieu.

**MUS 216 Digital Comp of Pop Music II 3 Credits**

This course is about “the doing of music.” It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music, continuing the content begun in The Digital Composition of Popular Music I.

**MUS 217 Black Music in America 3 Credits**

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip-hop and everything in between.

**MUS 218 Postmodernism & Pop Culture 3 Credits**

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

**MUS 219 Pop Music Arranging I 3 Credits**

The Pop Music Arranging I course is the first of a two-semester course sequence whose goal is to explore the fundamental arranging techniques for popular music styles. Students will learn to arrange popular music for the standard instrumentation found in a pop/rock ensemble (bass guitar, drumset, rhythm guitar, and keyboard). This course will develop comprehensive musicianship and fundamental arranging techniques, as well as develop skills as they relate to the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L.

**MUS 220 Pop Songwriting I 3 Credits**

The Songwriting I course is an introduction to songwriting in popular music styles. Students will learn to compose music by themselves and collaboratively. This course will develop comprehensive musicianship and compositional techniques, as well as learn to use the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L.

**MUS 233 Intermediate Piano 3-12 Credits**

Continuation of MUS 132 with further development of reading skills, piano techniques and interpretation. Each student studies a set of pieces selected together with the instructor tailored specifically to the students' needs and interests.

**MUS 300 Beethoven and the Romantic Age 3 Credits**

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

**MUS 301 Skills Ensemble II 1 Credits**

The Contemporary Performance Skills Ensemble II is a course whose focus is interactive musicianship, composition, ear training, transcription, and notation, for popular music studies majors. This course will require a higher level of musical ability, aptitude, and technical development than the Skills I Ensemble course. Students will develop proficiency in the following areas: • Developing ensemble skills • Preparing and rehearsing original compositions • Recognizing scales, intervals and chords • Harmonic, Melodic, and Rhythmic Transcription • Recognizing basic structural elements in different musical genres: Pop(Hip-Hop, R&B, Rock)/Jazz/Classical as well as understand their basic vernacular • Writing legible and clear musical scores (charts) • Improvisation.

**MUS 303 Music Literature: Baroque Era 3 Credits**

A survey of European musical styles from c. 1600 to 1750, approached by listening to the music of the period, including Bach, Handel, and many lesser known masters. Topics include the development of modern musical sound, instrumental forms, Lutheran and Catholic church music, and the beginnings of dramatic music.

**MUS 304 Music of the Beatles 3 Credits**

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

**MUS 305 Words and Music 3 Credits****MUS 306 Contemp Music Experience 3 Credits**

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

**MUS 307 The Music of Radiohead 3 Credits**

This course investigates the music, lyrics, art and marketing strategies of the British so called "alternative" band, Radiohead, moving song by song through their demos, videos and albums.

**MUS 308 World Music 3 Credits**

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures.

**MUS 309 Film Music 3 Credits**

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

**MUS 310 The Film Music of Stanley Kubrick 3 Credits**

This course is an in-depth study of the way in which music impacts society through the art of film. Focusing on the films of Stanley Kubrick (e.g. The Shining; 2001: A Space Odyssey; A Clockwork Orange; Full Metal Jacket; Eyes Wide Shut; Dr. Strangelove; Lolita) we will study a variety of strategies within which music integrates, counterpoints or ironically resists themes such as war, sex, politics, religion, gender etc. Also we will observe how music interacts with other aesthetics in film such as light, camera methods, 1. diegetic/source, 2. non-diegetic/underscore and 3. metadiegetic (i.e. 1. music in the film; 2. music only the audience can hear; 3. music that seems to be coming from the mind of a character in the film) method as part of the narrative itself. In this way we will investigate the way film both integrates aspects of society and also radiates messages, indeed challenges, to society, both as a mirror but also didactically—with the direct intent of creating change.

**MUS 311 Unpacking Bruce Springsteen 3 Credits**

This course will survey the music of Bruce Springsteen. It will 'unpack' Springsteen's musical development not only across his official career (i.e. from signing with Columbia for his first album 'Greetings from Asbury Park, New Jersey' in 1973 to the present) but also from his childhood through his youth in Freehold, NJ. By closely studying Springsteen's life, music and lyrics as well as the themes of each album the student will become an expert in understanding how The Boss was able to universalize the Jersey Shore as well as his personal concerns into vital musical messages of great value and import today. This will also involve looking at music as varied as The British Invasion (i.e. The Beatles, The Animals & the Rolling Stones et al); Motown; Country; Soul; Folk; Rock and the American Songbook.

**MUS 312 The Arts Abroad 3 Credits**

A two week trip abroad that includes a critical study of music and theater. Students are required to attend all performances, guided tours, and classes before and after the trip.

**MUS 315 Black Music in America 3 Credits**

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip hop and everything in between.

**MUS 316 Digital Mixing and Mastering 3 Credits**

Digital Mixing and Mastering is a practical skills class focusing on post-production skills in software interfaces. Students will learn how to work with multiple editing softwares and plug-in tools to achieve balanced, lively, professional mixes.

**MUS 319 Pop Music Arranging II 3 Credits**

The Pop Music Arranging II course is the terminal course of a two-semester sequence whose goal is to explore the advanced arranging techniques for popular music styles. Students will learn to arrange popular music for the standard instrumentation found in a pop/rock ensemble (bass guitar, drumset, rhythm guitar, and keyboard). This course will develop comprehensive musicianship and advanced arranging techniques, as well as develop advanced skills as they relate to the utilization of the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L, MUS 219.

**MUS 320 Pop Songwriting II 3 Credits**

The Pop Songwriting II course is a continuation of the songwriting course sequence whose goal is to explore advanced compositional techniques for popular music styles. Students will learn to compose music by themselves and collaboratively. This course will develop comprehensive musicianship and advanced compositional techniques, as well as develop advanced skills as they relate to the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L, MUS 220.

**MUS 350A Applied Flute 2 Credits****MUS 350B Applied Flute 1 Credits****MUS 351A Applied Oboe 2 Credits****MUS 351B Applied Oboe 1 Credits****MUS 352A Applied Clarinet 2 Credits****MUS 353A Applied Bassoon 2 Credits****MUS 354A Applied Saxophone 2 Credits****MUS 355A Applied French Horn 2 Credits****MUS 356A Applied Trumpet 2 Credits****MUS 356B Applied Trumpet 1 Credits****MUS 357A Applied Trombone 2 Credits****MUS 358A Applied Euphonium 2 Credits****MUS 359A Applied Tuba 2 Credits****MUS 360A Applied Guitar 2 Credits****MUS 360B Applied Guitar 1 Credits****MUS 361A Applied Violin 2 Credits****MUS 362A Applied Viola 2 Credits****MUS 363A Applied Cello 2 Credits****MUS 364A Applied String Bass 2 Credits****MUS 364B Applied String Bass 1 Credits****MUS 365A Applied Piano 2 Credits****MUS 365B Applied Piano 1 Credits****MUS 366A Applied Organ 2 Credits****MUS 367A Applied Percussion 2 Credits****MUS 368A Applied Voice 2 Credits****MUS 368B Applied Voice 1 Credits****MUS 368C Applied Voice 2 Credits****MUS 368E Applied Voice 2 Credits****MUS 369A Applied Composition 2 Credits****MUS 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

**Prerequisite(s):** junior or senior standing; good academic standing.

**MUS 491 Internship in Music 1-4 Credits**

Provides junior or senior music majors with the opportunity to gain practical experience working within a professional music environment. Students must be sponsored by a music professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

**Prerequisite(s):** permission of instructor.

**MUS 493 Selected Topics in Music Perf 3 Credits**

Intensive study of a particular topic in applied music for the intermediate to advanced student. Students are led to understand the historic and aesthetic elements in music through critical listening, performance, research, and class projects.

**MUS 495 Selected Topics in Music 3 Credits**

Studies specialized aspects of the literature, history, or theory of music, to supplement the established curriculum. Emphasis on creative investigative work and individual experiences in music.

**MUS 498 Popular Music Culture Capstone 3 Credits**

The capstone is an independent, student-led project resulting in a material product (recording/performance/event/presentation) that demonstrates a student's interests and skills in the area of popular music.

**MUS 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

## Theatre

### Program Overview

In addition to a full array of theatre coursework, six main-stage productions each year give students a wide variety of experiences and opportunities. As a theatre major at Rider, students have the choice of pursuing an acting, musical theatre, technical theatre or theatre studies track. Acting majors receive rich training in preparation for pursuing a career as a professional actor. Musical theatre majors receive an education in the various areas necessary to develop as a professional musical theatre performer. Technical theatre majors are offered a wide range of courses in the various aspects of theatre production. Theatre studies majors use their degree to pursue careers as educators, directors, theatre scholars, and dramaturgs. All four tracks allow you the ability to add a second major or minor.

### Audition or Interview

A satisfactory audition or interview must be completed before a student is accepted into this major. Audition and interview requirements may be found on the Admissions audition website (<http://www.rider.edu/ugauditions>).

### Degrees Offered

- B.A. in Theatre: Acting
- B.A. in Theatre: Musical Theatre
- B.A. in Theatre: Theatre Studies
- B.A. in Theatre: Technical Theatre

## Courses and Descriptions

**THE 105 Theatre History to 1700 3 Credits**

The history of theater from the primitive time through the Baroque era. Examines major plays and playwrights, emphasizing the Greek, Roman, Medieval, and Elizabethan eras. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 106 Theater History Since 1700 3 Credits**

The history of theater from the Restoration to the present. Examines major plays and playwrights, emphasizing the Restoration, Romantic, and Realistic movements. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 107 Acting I: Intro to Acting 3 Credits**

Exercises and improvisations developing the fundamental prerequisites for the actor are provided. The emphasis is on vocal and physical mobility and the ability to communicate emotional states from the stage.

**THE 110 Acting II: Scene Study 3 Credits**

Basic acting techniques. Emphasis on the ingredients of any action: what am I doing, where, why, who am I, what is my attitude toward partner?

**Prerequisite(s):** THE 107.

**THE 111 Theatre Lab 0 Credits**

This class serves as a forum for students to cultivate practical professional skills. Through seminars, guest speakers and master classes, this lab will give the students necessary tools to enter the professional theater. Theater majors must meet the weekly attendance and participation requirements during every semester up to a total of six.

**THE 115 Stagecraft 3 Credits**

The theory and practice of construction and rigging of stage scenery is offered. Emphasis is on actual productions and road show set-ups. One lecture and two labs per week.

**THE 116 Stagecraft Practicum 1 Credits**

Work in the various shops and stages specializing in different areas such as carpentry, scenic painting, lighting and electrics, costumes and props, assisting main stage productions under the supervision of the design or technical staff.

**Prerequisite(s):** THE 115.

**THE 118 Visual Imagination 3 Credits**

Introduction to the visual world of theater design. Visual examples, physical exercises and handcraft of composition and style, with dramatic input and meaning. The course explores how to translate ideas in a dramatic text into a visual context.

**THE 120 Theater Appreciation 3 Credits**

By exploration of dramatic literature, conclusions are drawn as to man's relationship to his particular period, style, political, social, and psychological environment. Appreciation of the theatrical event is included. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 127 Theatre Production 1 Credits**

Students rehearse and perform roles in a play produced by the department and directed by a member of its faculty. Students may also prepare a major element of design or technology for the production. Maximum of eight credits are accepted in theatre production, band and/or choir.

**THE 127T Theatre Production Tech 1-3 Credits**

Students carry out a technical theatre crew position for one or more theatre, musical theatre or dance productions during the semester of course registration. May be repeated seven times, for a total of eight credits.

**THE 199 The Arts in Contemporary Civil 3 Credits**

An integrated study of the arts and their place in contemporary American life. Includes attendance at several events in art, music, and drama.

**THE 206 American Theatre History 3 Credits**

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions. Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

**THE 218 Stage Lighting 3 Credits**

The theory and practice of stage lighting as utilized in concept, dance, and theatre. Considers the nature of light, controlling light, color theory, electricity, electrical safety, and lighting design.

**Prerequisite(s):** THE 115.

**THE 219 Stage Management 3 Credits**

Provide necessary tools to get started as a production stage manager (PSM), including management, leadership, communication and organizational skills. Providing guidelines to prepare production paperwork. Overview of the relationship between the PSM and other production personnel.

**Prerequisite(s):** THE 115.

**THE 220 Movement for the Actor 3 Credits**

This course is an introduction to movement training methodologies, and emphasizes physical awareness and expressivity as it relates to development of character.

**Prerequisite(s):** THE 107, Open to Theater majors or minor, or by permission of the instructor.

**THE 221 Voice for the Actor 3 Credits**

Focuses on exploration of the basic principles of vocal production and cultivating natural expressivity of the voice. Class work is based upon the classic progression of voice exercises of Kristin Linklater.

**Prerequisite(s):** THE 107; Open to Theatre majors or minor, or by permission of the instructor.

**THE 222 Speech and Dialects for the Actor 3 Credits**

Focuses on exploration of the International Phonetic Alphabet (IPA) and the use of the IPA in learning dialects (including Standard Neutral American) for the stage.

**Prerequisite(s):** THE 107; Open to Theater majors or minor, or by permission of the instructor.

**THE 223 Costume Design 3 Credits**

Introduction to tasks, skills and expertise of costume design and costuming techniques, relationship with other creative production and cast members. Students will create sketches and develop basic construction plans. Develop familiarity with fabrics, patterns, common challenges in costume design.

**Prerequisite(s):** THE 115, THE 118.

**THE 224 Stage Make Up 3 Credits**

Basic application of make up artistry and techniques for the stage. How it can help build a character, and how to apply to self and others.

**THE 225 Sound Design 3 Credits**

Introduction to sound design and its diverse use and practice for the staged productions, e.g. plays, musicals, operas and dance.

**Prerequisite(s):** THE 115.

**THE 226 Drafting for the Stage 3 Credits**

Covers essential drafting language for staged productions. Drafting of ground plans, sections, elevations, and renderings by hand and with computers.

**Prerequisite(s):** THE 115.

**THE 227 Properties and Scenic Painting 3 Credits**

Covers general aspects of scenic painting and props for the stage. Hands on exercises, needs and challenges of each area, how work is usually accomplished in the professional world. Explore different textures, materials and how to combine them.

**Prerequisite(s):** THE 115, THE 118.

**THE 240 Script Analysis 3 Credits**

This course provides students with a technique for analyzing any text by breaking down scenes into objectives, conflicts, beats, activities and subtext, allowing the actor to construct an approach to finding character.

**Prerequisite(s):** THE 107.

**THE 300 Acting for the Camera 3 Credits**

Focuses on the craft and artistry of acting in television and film. Examination of TV production and the styles needed for work in various media will be discussed. Physicalization, simplicity, listening, marking and other technical requirements will be explored. Staging involving different camera angles will be rehearsed. The emphasis of this class is on adapting the performance to the special needs of the camera.

**Prerequisite(s):** THE 107.

**THE 306 American Theatre History 3 Credits**

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions.

Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

**THE 307 Contemporary American Theater 3 Credits**

Today's most influential theatre artists are discussed. Focusing on playwrights, the form and content of dramatic literature considered most significant today are examined along with recent innovations in design and staging practices.

**THE 308 Modern Drama 3 Credits**

Surveys American and European drama from 1920 to 1970. All plays are read in English translation. In these plays, theatrical artists address the great themes of this century. While doing so, they also expand the limits of theatrical expression.

**THE 310 Acting III 3 Credits**

Students will study in-depth techniques for exploring characterization. They will be introduced to the "magic if" and study techniques for placing themselves in the circumstances of the characters they are portraying. They will learn the interior and exterior analysis of characters using "Adler" and "Practical Aesthetics" techniques.

**Prerequisite(s):** THE 107, THE 110.

**THE 311 Acting IV 3 Credits**

Students will learn the appropriate techniques to explore characters in the three styles of Elizabethan, Restoration, and Commedia dell'arte theatre. Sessions will include movement, effective speech, and finding appropriate actions for each style. Students will also learn proper research techniques to understand cultural influences on plays and characters.

**Prerequisite(s):** THE 107, THE 110, THE 310.

**THE 312 The Arts Abroad 3 Credits**

A two-week trip abroad that includes a critical study of the music and theatre. Students are required to attend all performances, guided tours, and classes before and after the trip. A travel journal and final paper is required. A travel fee is required. Travel sites and artistic disciplines may vary year to year. May be taken more than once for credit.

**Prerequisite(s):** Permission of instructor.

**THE 317 Scenic Design 3 Credits**

The study and application of design principles as related to the stage. Incorporates the design process, decor research, styles, materials, and construction technology.

**THE 400 Directing 3 Credits**

The technique of play directing and production management. Lectures present aesthetic and theoretical concepts that are explored in workshops. Each student is required to direct and analyze a one-act play.  
**Prerequisite(s):** THE 107, THE 110, THE 115.

**THE 410 Advanced Performance Workshop 3 Credits**

An opportunity to work an entire semester on a specific style or period of theatre, e.g., Shakespeare, farce, Readers' Theater.  
**Prerequisite(s):** THE 107, THE 110.

**THE 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.  
**Prerequisite(s):** junior or senior standing, good academic standing.

**THE 491 Internship in Theater 1-12 Credits**

Provides junior or senior theatre majors the practical experience of working within a professional theater environment. Students must be sponsored by a theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.  
**Prerequisite(s):** permission of instructor.

**THE 495 Selected Topics in Theatre His 3 Credits**

Intensive study of a particular topic, such as the work of one dramatic movement, one period in dramatic history, or one nation's history. Students become deeply involved in an area through research, class discussions, and individual consultation with the instructor.

**THE 496 Senior Internship 6-12 Credits****THE 498 Senior Capstone 3 Credits**

The senior capstone is intended for technical theatre students in their final year. Depending on the required abilities, students will be able to design sets, lights, costumes, props or sound for a mainstage show at Rider University, do research on topics related to technical Theatre, internships outside Rider University or work on projects that will improve the use of facilities, storage or equipment for Theater and Dance Department.

**THE 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

## Core Requirements

In addition to the information given here and on the following pages, students are referred to individual department handbooks for additional information and requirements.

Students in any School of Fine and Performing Arts degree must earn a minimum of 120 credits. The BFA in Musical Theatre requires a minimum of 121 credits.

## General Education Requirements

Students in the Fine Arts major (Art track) must complete the Core Curriculum requirements (<http://catalog.rider.edu/undergraduate/colleges-schools/liberal-arts-sciences/core-requirements>) as listed under

the College of Liberal Arts and Sciences. All other majors in the School of Fine and Performing Arts must complete these requirements:

Code	Title	Credits
<b>English</b>		
CMP 115	Intro to Expository Writing <sup>1</sup>	3
CMP 120	Expository Writing	3
or BHP 100	Honors Seminar: Great Ideas I	
Select one of the following:		3
CMP 125	Research Writing	
BHP 150	Honors Seminar: Great Ideas II	
CMP 203	Literature and Composition	
<b>Reading</b> <sup>2</sup>		
CRC 100	College Reading (0-2 Supplemental Education Units)	0-2
<b>Foreign Language</b>		
Two semesters of the same language are required. To be chosen from Chinese, French, German, Italian, Russian, or Spanish. <sup>3</sup>		6
<b>Mathematics</b> <sup>4</sup>		
Select one of the following:		3-4
MTH 102	Finite Mathematics	
MTH 105	Algebra and Trigonometry	
MTH 210	Calculus I	
<b>World History</b>		
HIS 150	World History to 1500	3
HIS 151	World History Since 1500	3
<b>Literature</b>		
Any course from the following list.		3
ENG 205	Understanding Literature	
ENG 208	Arthurian Legends in Literature	
ENG 210	Major American Authors	
ENG 211	Major British Authors	
ENG 213	Literature and Mythology	
ENG 214	Monsters in Literature	
ENG 215	Satire and Comedy	
ENG 217	Introduction To Shakespeare	
ENG 219	Literature and Violence	
ENG 220	Literature & Society	
ENG 221	Literature and Psychology	
ENG 224	Science Fiction	
ENG 228	Black American Lit

ENG 295	Human Relationships in Literature (HONORS)	
LAW 204	Law, Literature, and Film in America	
LIT 250	Masterworks of Western Literature I	
LIT 251	Masterworks of Western Lit II	
LIT 310	Russian Literature 988-1850	
LIT 311	Russian Literature 1850-1917	

LIT 312	20th Century Russian Lit
LIT 315	Tolstoy
LIT 317	Dostoevsky
LIT 322	German Lit & Film in Eng Trans
LIT 325	The Folk Tale
LIT 340	Hispanic Lit & Film Eng Trans
LIT 370	European Short Novel
LIT 390	The Bible As Literature

**Philosophy**

Select one of the following: 3

Any course in the Philosophy Department

AMS 227 Philosophy of Martin Luther King Jr.

**Social Science, Communication and Professional Preparation**

Select one of the following: 3

COM 104 Speech Communication

COM 105 Communication, Culture and Media

ECO 200 Principles of Macroeconomics

ECO 201 Principles of Microeconomics

POL 100 Introduction to American Politics

POL 102 Understanding Politics

SOC 101 Sociological Imagination

SOC 110 Cultural Anthropology

**Natural and Physical Science**

Any courses from the following list.

BIO 100 Life Science

BNS 107 Life Science: Brain and Behavior

CHE 100 Intro to College Chemistry

CHE 115 Chem and Contemporary Society

ENV 100 Introduction to Environmental Sciences

GEO 100 Earth Systems Science

GEO 113 Environmental Geology

GEO 168 Mesozoic Ruling Reptiles

MAR 120 Oceanography

PHY 103 Science of Light and Color

PHY 104 Energy, the Environment &amp; Man

PSY 100 Intro To Psychology

SP 408 Voice Science

SUS 100 Intro to Sustainability Studie

Total Credits 33-36

<sup>1</sup> CMP 115 may be waived by SAT of 530 or testing.<sup>2</sup> College Reading required only of those students scoring 470 or lower on the reading comprehension portion of the SAT.<sup>3</sup> Students who place at the 200-level or above are still expected to take a minimum of three (3) credits at the level of placement. Students who are native speakers of other languages may have the Foreign Language requirement waived upon documentation of proficiency. To initiate a request for a waiver, students should see the chairperson of the Department of Foreign Languages and Literature.<sup>4</sup> MTH 100S Math Skills Lab may be required based on ACT/SAT scores.

## Honors Program in Fine Arts

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a cumulative average of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

## Westminster Choir College

A division of Westminster College of the Arts, **Westminster Choir College of Rider University** is a professional college of music located on a 23-acre campus in Princeton, NJ, seven miles north of Rider's Lawrenceville campus. Here, the Bachelor of Music (B.M.) degree is offered with majors in music education, organ performance, piano, sacred music, theory/composition, and voice performance. The Master of Music (M.M.) degree is offered in American and Public Musicology choral conducting, composition, music education, organ performance, piano accompanying and coaching, piano pedagogy and performance, piano performance, sacred music, and voice pedagogy and performance. In addition, the college offers the Master of Music Education (M.M.E.), Master of Voice Pedagogy (M.V.P.), and Bachelor of Arts in Music degrees.

## A Tradition of Excellence

Choral music performance lies at the heart of the Westminster program, which involves daily choir rehearsals and required voice study for all its students. Preparation and performance of the choral/orchestral works at times takes precedence over all other facets of campus life. All undergraduates sing in one of the large ensembles: Chapel Choir, Schola Cantorum or Symphonic Choir. Auditioned ensembles include the Westminster Choir, Williamson Voices, Westminster Kantorei, Jubilee Singers, and Concert Bell Choir.

The Symphonic Choir has performed hundreds of times and made many recordings with the principal orchestras of New York, Philadelphia, and Washington. It also has performed in New York with many touring orchestras such as the Atlanta Symphony, Los Angeles Philharmonic, Berlin Philharmonic, and Vienna Philharmonic. Virtually every major conductor of the 20th century, from Toscanini and Walter through Bernstein, Muti, and Masur, has conducted the Symphonic Choir during the 80 years of the college's history.

## Private Study

Private study in voice, piano, or organ is available on the Westminster campus during the fall and/or spring terms. Travel to the Westminster campus is the responsibility of the student. Full-time students from Rider's Lawrenceville campus whose major program does not require private applied music study, or Westminster College of the Arts majors who have completed all applied music requirements, may apply to enroll in elective private study on a space available basis. Effective as of the fall 2009 semester for all new or readmitted Rider University students, there is a fee for these half-hour private lessons. Qualified Lawrenceville students may audition for organ study, for elective choirs, or for advanced courses in music for which they meet the prerequisites at Westminster Choir College.

**Visit the Westminster Choir College site for undergraduate and graduate catalog information.**

# GENERAL SKILLS REQUIREMENTS

---

The University community believes that the development of skills in critical thinking, communication, and computation are essential to the college experience. These skills are developed throughout students' academic programs to provide links among academic disciplines and to support students' intellectual progress and academic and career success. Principles of critical thinking are embedded in Rider University courses across the disciplines and are supported by curriculum development workshops for faculty. Core curriculum requirements are stated below.

All students entering the University as freshmen as of September 1, 1996 and thereafter are required to fulfill the general skills requirements by completing the following:

## Reading

Those students scoring 470 or lower on the reading comprehension portion of the SAT are required to successfully complete CRC 100 in the first semester of their Freshman year.

## Writing

CMP 115<sup>1</sup>; CMP 120 or BHP 100; and CMP 125 (or CMP 203 or BHP 150): 6–9 credits<sup>2</sup>.

## Computation

As required by the students' college or school: 3–6 credits<sup>2</sup>

<sup>1</sup> CMP 115 Intro to Expository Writing will be waived for students who attain a score of 570 or above on the EBRW section of the SAT or ACT 23 or above.

<sup>2</sup> Preparatory courses (bearing supplemental education units rather than graduation credits) may be required in reading and computation, as determined by placement testing. Supplemental education units count toward a student's academic load and corresponding tuition charges, but do not affect the student's grade point average or credits toward graduation.

# COURSES AND DESCRIPTIONS

## Accounting (ACC)

### ACC 210 Introduction to Accounting 3 Credits

This course provides an introduction to basic principles and methods of accounting essential to preparation, understanding and interpretation of financial statements. Topics include accounting for merchandising concerns, current assets, long-term assets, liabilities and equity accounts. A brief overview of internal control is also covered.

### ACC 220 Managerial Uses of Accounting 3 Credits

This course provides an introduction to the use of accounting information in managerial decision-making. Topics include cost behavior, cost classifications, and problem-solving functions of accounting as they pertain to planning, control, evaluation of performance, special decisions, and budgeting. The interpretation of published financial statements and the statement of cash flow are also covered.

**Prerequisite(s):** ACC 210.

### ACC 302 Cost Management 3 Credits

This course focuses on firm strategy and the role managerial accounting information plays in the decision making process. Topics include the balanced scorecard, the value chain, product life cycles, target costing, theory of constraints, strategic pricing, management and control of quality cost systems, traditional and activity-based costing, cost control, standard costs and variances, and capital budgeting.

**Prerequisite(s):** ACC 220 and CIS 185.

### ACC 302P Cost Management 3 Credits

This course focuses on firm strategy and the role managerial accounting information plays in the decision making process. Topics include the balanced scorecard, the value chain, product life cycles, target costing, theory of constraints, strategic pricing, management and control of quality cost systems, traditional and activity-based costing, cost control, standard costs and variances, and capital budgeting.

**Prerequisite(s):** ACC 220 and CIS 185. This course is restricted to students in the MAcc program.

### ACC 310 Acct Theory & Concepts I 3 Credits

This is the first upper-level course in a sequence in financial accounting courses. Topics include the conceptual framework, and standard setting process followed by application and evaluation of generally accepted accounting principles including content, and structure of financial statements, present value concepts, current assets, current liabilities, property, plant, and equipment, intangible assets and non-current liabilities are studied. An overview of comparable international financial reporting standards (IFRS) is also included.

**Prerequisite(s):** ACC 210 and ACC 220.

### ACC 310P Acct Theory & Concepts I 3 Credits

This is the first upper-level course in a sequence in financial accounting courses. Topics include the conceptual framework, and standard setting process followed by application and evaluation of generally accepted accounting principles including content, and structure of financial statements, present value concepts, current assets, current liabilities, property, plant, and equipment, intangible assets and non-current liabilities are studied. An overview of comparable international financial reporting standards (IFRS) is also included. **Prerequisite(s):** ACC 210 and ACC 220. This course is restricted to students in the MAcc program.

### ACC 311 Acct Theory & Concepts II 3 Credits

This course is a continuation of ACC 310. Topics include long-term investments, stockholders' equity, earnings per share, interperiod income tax allocation, accounting changes, revenue recognition, pensions, leases and cash flow analysis. An overview of comparable international financial reporting standards (IFRS) is also included.

**Prerequisite(s):** ACC 310.

### ACC 311P Acct Theory & Concepts II 3 Credits

This course is a continuation of ACC 310. Topics include long-term investments, stockholders' equity, earnings per share, interperiod income tax allocation, accounting changes, revenue recognition, pensions, leases and cash flow analysis. An overview of comparable international financial reporting standards (IFRS) is also included. Restricted to students in the MAcc program.

### ACC 320 Accounting Info Systems 3 Credits

This course provides an introduction to accounting information systems and enterprise-wide, process-focused information systems. Topics include quality of data for decision usefulness, internal control concepts and documentation tools, and database theory and applications.

**Prerequisite(s):** ACC 310.

### ACC 321 Internal Auditing 3 Credits

This course provides an introduction to the internal audit profession, including understanding the nature and activities associated with the internal audit process. Topics include: international auditing standards, risk assessment including internal control system evaluation, business processes, and the relationship of management and employee fraud to the internal audit process.

**Prerequisite(s):** ACC 220.

### ACC 325 Fraud Examination and Business Forensics 3 Credits

This course provides an introduction to the prevalence of fraud in all forms of business, including the many methods used by employees and managers to perpetrate fraud. Topics include: the motivation of individuals to commit fraud, various types of fraud schemes perpetrated in the workplace, as well as the various tools and techniques that are used to investigate, detect and prevent fraud.

**Prerequisite(s):** ACC 210.

### ACC 335 Small Business Taxation 3 Credits

This course provides an understanding of the key tax issues faced by small businesses and their business implications. It also familiarizes prospective business owners with various tax filing requirements so that they can use the expertise of tax professionals more effectively.

**Prerequisite(s):** ACC 210.

### ACC 399 The Co-Operative Experience 6 Credits

This course provides the student with a semester long supervised employment with participating companies. Students are evaluated periodically by senior staff members of the participating firms and required to complete a work journal, self-assessment and reflection paper. Eligible students include junior and senior accounting majors with a minimum GPA of 3.0 in accounting coursework. Co-op credits can be applied toward business or free elective requirements. Grading is on a pass/fail basis.

**Prerequisite(s):** ACC 210, ACC 220, and ACC 310 and permission of department chairperson.

**ACC 400 Principles of Auditing 3 Credits**

This course provides an introduction to financial statement audits performed by certified public accountants. Topics include corporate governance, the audit environment, professional standards, audit methodology, and audit report preparation. The course also provides an overview of other types of assurance and non-assurance services provided by CPA firms.

**Prerequisite(s):** ACC 302 and ACC 311.

**ACC 400P Principles of Auditing 3 Credits**

This course provides an introduction to financial statement audits performed by certified public accountants. Topics include corporate governance, the audit environment, professional standards, audit methodology, and audit report preparation. The course also provides an overview of other types of assurance and non-assurance services provided by CPA firms.

**Prerequisite(s):** ACC 302 and ACC 311. Restricted to students in the MAcc.

**ACC 405 Acct Problems & Practice 3 Credits**

This course provides additional coverage of financial reporting issues and procedures. Topics include business combinations, consolidated financial statements, foreign currency translation, the effects of diversity across countries, disclosure and SEC reporting issues. Governmental and not-for-profit accounting standards are also covered.

**Prerequisite(s):** ACC 302 and ACC 311.

**ACC 405P Acct Problems & Practice 3 Credits**

This course provides additional coverage of financial reporting issues and procedures. Topics include business combinations, consolidated financial statements, foreign currency translation, the effects of diversity across countries, disclosure and SEC reporting issues. Governmental and not-for-profit accounting standards are also covered.

**Prerequisite(s):** ACC 302 and ACC 311. Restricted to students in the MAcc program.

**ACC 406 Integrative Professional Capstone 3 Credits**

This course provides an integrative experience that applies financial statement and data analysis tools to a variety of accounting settings. Topics include issues of ethics and professionalism and linkages between accounting methods and company policy, equity valuation, bond ratings and other decision areas.

**Prerequisite(s):** ACC 405 or permission of department chairperson.

**ACC 410 Fund of Federal Taxation 3 Credits**

This course provides fundamental federal tax concepts applicable to individuals, partnerships, corporations, estates, and gifts. Topics are considered from a tax compliance and planning perspective. Preparation of individual and corporate tax returns is also included.

**Prerequisite(s):** ACC 311.

**ACC 410P Fund of Federal Taxation 3 Credits**

This course provides fundamental federal tax concepts applicable to individuals, partnerships, corporations, estates, and gifts. Topics are considered from a tax compliance and planning perspective. Preparation of individual and corporate tax returns is also included.

**Prerequisite(s):** ACC 311. Restricted to students in the MAcc program.

**ACC 450 Business Forensic Application 3 Credits**

This course provides an opportunity to perform complex investigative cases and analyses, thus demonstrating mastery of the knowledge and skills required to be effective forensic professionals. The course covers how to manage and present digital and technical evidence gathered for forensic litigation cases, including the ability to be an expert witness in court.

**Prerequisite(s):** ACC 325 and ACC 321.

**ACC 490 Independent Research and Study 3-4 Credits**

Topic to be approved by professor and department chairperson. Available to juniors and seniors.

**ACC 491 Accounting Internship 3 Credits**

This course provides the student with approximately two months of supervised employment with participating companies. Students are evaluated periodically by senior staff members of the participating firms and are required to complete a term paper. Eligible students include junior and senior accounting majors with a minimum GPA of 3.0 in accounting coursework. Upon completion of course, a letter grade will be awarded.

**Prerequisite(s):** Permission of department chairperson.

## Advertising (ADV)

**ADV 311 Advertising Copy and Layout 3 Credits**

This course focuses on the development and planning of creative and strategic advertisements for a variety of products. The course includes creating concepts for ads, designing ads, and writing copy for all media. The student will become familiar with the activities and responsibilities of copywriters and art directors. The relationship between creative advertising and other functions of advertising will be emphasized.

**Prerequisite(s):** either ADV 200 or MKT 205 and COM 212. Required for advertising majors.

**ADV 315 Media Planning and Strategy 3 Credits**

This course focuses on the essential principles, measurements, procedures and problems encountered in determining appropriate media in which to place specific kinds of advertising messages designed to reach closely defined target audiences. The advantages and disadvantages of all media will be discussed from an advertising perspective. Specific audience and cost calculations and analyses will be used to develop comprehensive media plans.

**Prerequisite(s):** either ADV 200 or MKT 205. Required for advertising majors.

**ADV 435 Advertising Campaigns 3 Credits**

This capstone course for advertising majors provides an opportunity for students to plan comprehensive advertising campaigns. Coverage includes segmentation research, creative development of the campaign, media planning, and determining advertising effectiveness. Integration of advertising into the marketing program will be emphasized. Required for advertising majors.

**Prerequisite(s):** ADV 311, ADV 315; advertising major or minor, senior standing or permission of instructor.

**ADV 490 Independent Research and Study 1-4 Credits**

Topic to be approved by the professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation, which may be counted as a business or free elective.

**ADV 491 Internship-Based Indep Study 3 Credits**

Provides the student an opportunity to supplement and apply classroom work in supervised employment with participating marketing and advertising firms. Requirements include a journal with a log of daily activities, and a project or term paper presented to and evaluated by the internship sponsor. Evaluation will also include a report by the company on the intern's performance. Credits may be used to satisfy business or free elective requirements.

**Prerequisite(s):** Permission of instructor.

**American Studies (AMS)****AMS 200 Introduction to American Studies 3 Credits**

An introduction to various historical definitions of the American experience or national identity, to selected topics which have been used to explain that identity, and to methods of study in the field.

**AMS 210 Growing Up American 3 Credits**

Studies the maturation and socialization process in modern America through comparative analysis of autobiographical texts and students' personal experiences. Texts represent the experiences of young Americans of both sexes and of different class, racial, ethnic, religious, and regional backgrounds.

**AMS 211 Sports in American Life 3 Credits**

Literary, sociological, and psychological views of sports in 20th-century American life are examined, focusing on sports as a symbol and reflection of our ideals and tensions.

**AMS 212 Multicultural America 3 Credits**

Focusing primarily on the new century, this course explores the experiences of the remarkably diverse range of ethnic groups who have come to the U.S. in recent years, including Hispanics, Europeans, Asians and Africans. How these groups have impacted the communities where they have settled, how they have interacted with other ethnic groups, and how they have assimilated (or not) and prospered (or not) are among the issues examined and discussed.

**AMS 213 American Myth in Literature, Landscape, and Music 3 Credits**

A study of the New World and related myths from an interdisciplinary perspective. Students will read essays, fiction, and poetry by Poe, Melville, Emerson, Whitman, James, and others. Paintings and musical works embodying New World concepts will be examined in connection with the above authors.

**AMS 214 Special Topics in American Studies 3 Credits**

Studies in specialized areas of American culture, including travel courses to New Orleans and Spoleto USA. Topics change each semester and are listed in the course roster.

**AMS 215 Alfred Hitchcock in America 3 Credits**

Explores the influence of American culture on the films of Alfred Hitchcock following his immigration to the United States. Students will study one of the cinema's greatest auteurs through the lens of American culture and its impact on Hitchcock's European sensibility. Also explores the reverse dynamic: how Hitchcock transformed American cinema.

**AMS 225 American Folklore 3 Credits**

An introduction to folk language, custom, and material culture in the United States. Proverbs; myths, legends, and tales; superstitions; music; arts and crafts are treated from both aesthetic and social perspectives. Students will collect and examine folklore within their own cultural contexts.

**AMS 226 The New South in Literature, Music and Film 3 Credits**

An exploration of Southern culture since World War II and how it has influenced American society as a whole. In literature, music, and film, the Sun Belt has been a significant, innovative region. From the spread of New Orleans jazz through the plays of Tennessee Williams to the fiction of Flannery O'Connor, Southern art has helped shape the larger American culture; this course examines that influence from an interdisciplinary perspective.

**AMS 227 Philosophy of Martin Luther King Jr. 3 Credits**

A study of Martin Luther King, Jr.'s philosophical writings and his impact on civil speeches and sermons, and critical assessments of the significance of his thought.

**AMS 228 Studies in American Jewish Culture 3 Credits**

Focuses on important fiction, criticism, social/philosophical commentary, history, and films by 20th-century Jewish American intellectuals, including Michael Gold, Anzia Yezierska, Saul Bellow, Bernard Malamud, Philip Roth, Cynthia Ozick, Grace Paley, Rebecca Goldstein, Art Spiegelman, Arthur Hertzberg, Leslie Fiedler, Chaim Potok, Woody Allen, and David Mamet.

**AMS 229 American Popular Culture 3 Credits**

An exploration of American popular culture and its profound impact on both the United States and the rest of the world. Pop-culture theorists regard American culture as a dominant force; this course examines the development of this trend from historical, political, and artistic perspectives.

**AMS 250 America and the Future 3 Credits**

Examines the projections of the American future in terms of the past and present. Emphasizes American studies methodologies, drawing upon philosophical, literary, environmental, and other varieties of futuristic speculations.

**AMS 304 Technology and Science in America 3 Credits**

An overview of the development and impact of technology and science on American institutions. Topics include innovation, economic growth, science and its relation to technology, social theory, and the politics of science.

**AMS 305 Religion in America 3 Credits**

Introduces the changing patterns of American development from the sectarianism of colonial America to the pluralism and growing secularism of the 20th-century American religious scene.

**AMS 306 Poetry and Poetics in American Culture 3 Credits**

Examines American poetry and poetics in relation to American culture and history of the 18th through the 21st centuries. Students read poems and statements about poetry, view artworks, hear recordings, and examine hypertext versions of poems.

**AMS 309 Hip Hop and American Culture 3 Credits**

Examines and critiques hip hop as a part of American culture. Students will engage with scholarship from several fields in studying the social conditions that fostered the creation of hip hop music, and discuss how these conditions have and/or have not changed in America since the 1970s, when hip hop was born. Students will delve into such issues as how women relate to hip hop, hip hop poetics and rhyme structures, race relations in hip hop, censorship, and the ethics and legalities of digital sampling.

**AMS 310 American Identity in the Arts 3 Credits**

Studies the place of the arts and the position of the creative artist in contemporary American society, with particular emphasis on the problems of the artist's search for an American identity in the complex cultural milieu.

**AMS 311 Radicalism in 20th-Century America 3 Credits**

Discusses a number of radical intellectual, literary, and political movements, organizations, and parties from the points of view of their members and leaders, and their historical genesis and development within the context of 20th-century American political life.

**AMS 312 American Photography 3 Credits**

An intensive analysis of the documentary, aesthetic, and expressive significance of photography in American culture from 1850 to the present. Particular emphasis on the interrelationships between photography and developments in American history, painting, literature, and the social sciences. This course does not deal with the technical aspects of still photography.

**AMS 338 Social Impact of Rock and Roll 3 Credits**

Explores rock and roll music as a communication medium of American popular culture. The focus is on both how rock and roll music has influenced, and is influenced by, society. It addresses the origins, development and impact of rock music in relation to some of the critical cultural dynamics that provided not only its context, but also much of its content.

**AMS 350 American Gothic 3 Credits**

An introduction to American Gothic literature as a genre, including its historical development, governing conventions, politics, and aesthetics, as well as its emotional and cultural impact.

**AMS 400 Seminar in American Studies I 3 Credits**

A study of arts and letters in America from the Puritan period through the Civil War. Should be taken junior year if possible.

**Prerequisite(s):** AMS 200.

**AMS 401 Seminar in American Studies II 3 Credits**

A study of arts and letters in America from Reconstruction to the present. Should be taken junior year if possible.

**Prerequisite(s):** AMS 200.

**AMS 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**AMS 491 Internship in American Studies 1-4 Credits**

A supervised work experience in an approved organization to gain knowledge of various manifestations of American society in workplace settings. Placements can be made in business, government, and non-profit organizations and local grassroots movements that draw on the knowledge acquired in the American studies curriculum.

**Arts Administration (AAD)****AAD 100 Arts Administration Laboratory 0 Credits**

Arts Administration majors explore, expand and employ practical application skillsets relative to required Practicum work and sequentially in preparation for required Internship(s) and eventual employment over three sequential semesters: Sophomore Fall, Sophomore Spring and Junior Fall. Lab coincides with and supports work being done in satisfaction of three, 1-credit practicum credits that must be registered simultaneously.

**AAD 121 Intro to Arts Administration 3 Credits**

A survey course that covers topics relevant to administering the arts, and includes reviewing state and federal legislation to non-profit organizations, non-profit agency structure, long range planning, board development, marketing, fundraising, public relations, advocacy, budget, human resources and ongoing compliance issues. Students will have opportunities to interact with professionals in the field and explore career options.

**AAD 202 Commun/Marketing in Arts 3 Credits**

Intended for arts or business majors interested in arts management, this course immerses students in the fundamentals of promoting the arts, from grassroots public relations to basic marketing concepts and applications. Students will have opportunities to interact with professionals in the field and explore career options.

**Prerequisite(s):** AAD 121 and LL 131, or permission of instructor.

**AAD 203 Arts Fundraising 3 Credits**

Provides students with an understanding of the ethics, strategies and practices of fundraising for non-profit arts agencies. Students gain an understanding of the role of the development office in a non-profit arts agency, prepare for careers in arts management by increasing the skills necessary to function, and learn to plan a multi-faceted fundraising campaign effectively.

**Prerequisite(s):** CMP 120 or LL 131.

**AAD 204 Arts Outreach & Education 3 Credits**

This course examines essential educational components of arts institutions, how they evolve and are produced, and will assess the importance of educational programming to arts organizations and the communities they serve.

**Prerequisite(s):** AAD 121.

**AAD 225 Arts Administration Practicum 1 Credits**

Under faculty advisement and project site supervision, students complete a total of three, 1-credit (33-hour) "mini-internships" or practicum projects in service to the field, sequentially in the Sophomore Fall, Sophomore Spring, and Junior Fall semesters, simultaneous to Arts Administration Lab. The first practicum project is in connection with Box Office and Patron Service to Rider Performing Arts. The second is in connection with a project of the student's choosing in service to the arts on campus or beyond. The third is in connection with a project of the student's choosing in service to the field in an outside, professional setting.

**Prerequisite(s):** AAD 121.

**AAD 306 Business and Art of Recording 3 Credits**

Survey of the recording industry. Responsibilities of the label and producer, copyrights, royalties, residuals, publishing, contracts and artist development, promotion, distribution, product management, domestic and international licensing, and related technology.

**Prerequisite(s):** AAD 121 and CBA 110 Introduction to Business.

**AAD 307 Touring and Production Management 3 Credits**

Organizing, marketing and managing tours. Responsibilities of the booking agent, tour manager, and performers. Case studies, relationships, contracts with venues, transportation companies, housing, and unions, budgeting, press kits, and insurance.

**Prerequisite(s):** AAD 121, CBA 110.

**AAD 308 Legal Aspects of the Arts 3 Credits**

A survey of legal issues in the arts and entertainment industries, examining the relationship between arts and the law – from cultural property rights to intellectual property, copyright and beyond.

**Prerequisite(s):** AAD 121.

**AAD 309 Arts Events & Festivals Mgt 3 Credits**

Students learn to develop, produce, and staff successful arts events while refining planning skills through practice with theoretical and real arts event venues and participating in the production and management of actual events.

**Prerequisite(s):** AAD 121.

**AAD 310 Acquiring & Managing Talent in Arts & Entertainment Industries 3 Credits**

This course teaches foundations of professional talent management and explores the many ways by which the role of today's artist manager has evolved and expanded, particularly in an era of "independent" artists seeking managers who can act as CEO's. The course explores the many facets which an artist manager oversees, from launching an artist's career to building a successful and enduring business and fan base. Topics of exploration include talent acquisition, the artist/manager partnership, contracts, strategic planning, branding and more relating to managing all key aspects of an artist's career. Students will gain deep understanding of the dynamic roles which managers and agents play in the entertainment business as the "backbone of our industry" and of the pathways to career success as artist managers & representatives. Aspiring artists will find guidance in self-management and choosing the right partners. Other aspiring entertainment professionals will learn how to effectively engage with artist managers & agents as essential components in the broader ecology of professional arts & entertainment.

**Prerequisite:** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 312 Art & Business of Commercial Deal-Making in Arts & Entertainment 3 Credits**

This course explores all practical aspects of deal-making in commercial entertainment and the art of negotiation as the catalyst for success. Through forensic analysis & discussion of multiple types and structures of short and long-form agreements and the wide variety of provisions to be found therein, students will gain knowledge of key legal, historical, discipline-specific and industry-wide contexts of deal-making. Readings and lectures will focus on the nuts and bolts of negotiation – from essential research processes to finding and exercising bargaining power to knowing when to compromise and when to withdraw. Skills gained will be exercised through role-play, writing and ongoing analysis of peer and professional contracts. Students will gain and exercise deep understanding of agreements across multiple disciplines and the common elements therein including agency, personal management, personal appearance, merchandising, endorsements, creative ownership and union influence will be explored, as well as the unique characteristics which apply to distinct disciplines.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 314 Commerce and Merchandising in Arts & Entertainment 3 Credits**

This course builds upon foundational knowledge gained in "Arts Marketing & Communications," exploring the far-reaching and highly lucrative aspects of commercializing and merchandizing creative output across the many disciplines which comprise the arts & entertainment industries. Creative output in the form of a commercial film, Broadway hit, top-selling album or live performance establishes a point of departure into a massive world of merchandising where brand is king, franchises flourish and sequels make (and break) futures. Students will gain deep understanding of how strategic marketing campaigns develop, run and catalyze broader merchandising, commerce and franchise potential. Readings, lectures and case-based analyses will investigate successful corporate models, strategies and tools for maximizing commercial potential and earnings in the global commercial arts & entertainment marketplace. From relationship and influencer-based approaches across traditional and digital platforms to the tools which maximize celebrity branding, tap global merchandising capacity and harness new technologies that drive innovation, this course introduces aspiring arts & entertainment leaders to the foundations of commercial success.

**Prerequisite:** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 316 Data Analytics in Commercial Entertainment 3 Credits**

Data analytics is a driving force of today's entertainment industry as companies face new business models for creating, marketing and distributing creative output to consumers who access content anywhere, at any time and on any device. It is transforming businesses, social interactions and how entertainment is marketed and consumed. With the explosion of social media, entertainment streaming platforms and online distribution, the amount of data available has reached unprecedented levels. Hiring skilled people who know how to collect and interpret big data is crucial. This course explores the many ways by which data is used to develop detailed understanding of consumer preferences and behaviors, inform production, advertising and distribution strategies, forecast performance and help increase efficiency. Students will learn how to retrieve, analyze and apply data for successful outcomes in today's entertainment industry, helping companies seize upon ever-expanding opportunities to utilize data to identify and understand new audiences, increase content exposure and identify new products and services.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 318 Music Publishing 3 Credits**

This course teaches foundational concepts, context, tools, and function of music publishing as an essential force in today's ever-evolving music industry. Students examine the many roles which the music publisher plays in the acquisition, market development and administration of copyrighted musical works. Through case-based analysis of the inner workings of major, independent and self-owned music publishing companies, students will gain understanding of the depth, breadth and scope of this fascinating aspect of the business. Discussion will encompass the fundamentals of copyright, types of publishing deals, income streams, registrations and collection, foreign sub-publishing deals, and the rights and royalties applicable to copyrighted musical work. Students will also learn how music is licensed for use in film, television, advertising, theatrical performance, game and other forms of interactive media, as well as an overview of the administrative aspects of these uses and the ways by which legislative action impacts opportunities and earnings of copyright holders. Lastly, students will explore the creative and administrative responsibilities involved in establishing their own music publishing company.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 320 Licensing & Distributing Arts & Entertainment 3 Credits**

Course Description: Licensing and/or distribution of creative output powers nearly every aspect of the arts and entertainment industries as significant brand builders and revenue-generators for intellectual property owners. This course delivers foundational knowledge of the many ways by which music, theater, dance film and other media are licensed for commercial use or otherwise distributed directly to vendors and consumers. Discussion encompasses the various types and purposes of license, key points of negotiation, parties, agreements and business constructs involved in licensing and distribution deals across multiple entertainment sectors. Through readings, lectures and case-based analysis students will study the means of directly and indirectly getting works out into the marketplace, as well as the risks and rewards that may result. Through comparative analysis of traditional and contemporary professional agreements, students will come to understand how licensing and distribution contracts, modalities, administration and payments have evolved, and what the future holds for this vital engine of the arts & entertainment industries.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 202.

**AAD 322 Policy Perspectives on Arts & Entertainment 3 Credits**

This course delivers foundational knowledge of the historical evolution, current state, and anticipated future of legislative actions, general policies and protocols impacting the many diverse components of arts and entertainment. Students will gain understanding of the several stakeholders, advocates and allies involved in the process of shaping policy and effectuating legislation, from lobbyists and industry leaders to politicians and the constituents whom they represent. Discussion will also encompass the expanding role and reach of the internet and streaming services which have often driven, and too often outpaced legislative agendas, putting the rights and benefits of intellectual property owners at risk through inequitable compensation practices, usurping of rights and expanding of global piracy. Case-based analysis will afford insight into current and anticipated lobbying agendas, legislative action (or inaction) on Capitol Hill, resolutions in process and recent legislation in action. Students will create an advocacy campaign around a pertinent issue facing arts & entertainment today, and strategize an effective lobbying process in order to gain direct insight and inspiration to become lifelong agents for change.

**Prerequisite(s):** Arts & Entertainment Industries Management majors or minors only except by permission of Dean. AAD 121, AAD 308.

**AAD 350 Arts Venue and Patron Services Management 3 Credits**

Integrating workplace with organizational mission: administration, staff, general public, artists. Internal control, artist/employee contracts, collective bargaining, health and safety issues, facilities operation, inventory, cultivation and maintenance of clientele and audience.

**Prerequisite(s):** AAD 121.

**AAD 351 Crossing Cultural Borders 3 Credits**

Course includes two weeks at an international arts organization, meeting and shadowing administrative staff, studying management styles, finance, and operational procedures, and attending all possible events during the visit. Travel fee required. May be repeated.

**Prerequisite(s):** Junior standing.

**AAD 375 Special Topics: Arts Admin 3 Credits**

Intensive study or activity in a specific area of Arts Administration. The content will vary with social/cultural events and/or interests and qualifications of the professor. May be repeated for credit. Fee may be required.

**Prerequisite(s):** AAD 121 or CBA 110 or permission of instructor.

**AAD 401 New York Arts Network 3 Credits**

Students learn how arts institutions of varying scope, size and function and how administrators keep them running by spending focused, intensive time with them on their own turf.

**Prerequisite(s):** AAD 121, AAD 202 and AAD 203.

**AAD 490 Independent Research and Study 1-4 Credits**

This self-motivated, self-directed course culminates in a complete project. The student and the faculty advisor will mutually develop the scope of each project. It will be designed to demonstrate the student's entrepreneurial skills and provide an opportunity for practical application of the curriculum.

**Prerequisite(s):** AAD 202, AAD 203, and either AAD 121 or CBA 110.

**AAD 491 Arts Management Internship 3-12 Credits**

Arts Administration majors are required to spend 13 weeks of on-site participation in a broad range of daily operations at an internship site. In addition, there are group meetings with all students participating in internships and site-analysis assignments given under the direction of Arts and Sciences faculty. Students may enroll for a maximum of 6 credits of internships.

**Prerequisite(s):** Junior standing.

**Baccalaureate Honors (BHP)****BHP 100 Honors Seminar: Great Ideas I 3 Credits**

Traces the impact of great ideas on society, politics, economics, science, and the arts. This writing-intensive course substitutes for CMP 120 Expository Writing. Freshmen only.

**BHP 150 Honors Seminar: Great Ideas II 3 Credits**

A continuation of Great Ideas I, the introductory Freshman Baccalaureate Honors Seminar. Great ideas are studied in their cultural and historical contexts and from an interdisciplinary perspective. Students are guided in writing an effective research paper. This writing-intensive course substitutes for CMP 125 Research Writing. Freshmen only.

**BHP 201 Honor Seminar: Age of Shakespeare - A Study in Cultural History 3 Credits**

Studies the cultural history of Elizabethan and Jacobean England and of its visual and literary arts. More specifically, the course will investigate the peculiarly English synthesis of the old and new, Medieval and Renaissance, Continental and English in the arts and ideas of the Age of Shakespeare.

**BHP 203 Nineteen Eighty-Four in Context: George Orwell's Enduring Legacy 3 Credits**

"Big Brother is watching you." "Some animals are more equal than others." Contemporary discussions of politics, journalism, and social issues regularly reflect the influence of George Orwell's classic novels, *Animal Farm* and *Nineteen Eighty-Four*. The term "Orwellian" routinely appears in modern speech and writings. Published in the aftermath of World War II, Orwell's dystopian projections, along with other provocative writing by this courageous thinker and writer, reflect the turbulent world experienced by Orwell from the waning of British colonialism to the rise of the Cold War. To contextualize the composition and importance of his most influential works, this course will explore a wide range of Orwell's writings; the historical and cultural contexts that shaped him; and the use of his work and ideas by his contemporaries and by subsequent artists, critics, and social analysts.

**Prerequisite(s):** BHP 150.

**BHP 206 Honors Seminar: Politics/Literacy 3 Credits**

Students will analyze literary texts in the context of selected political periods and ideologies, going beyond literary content to understand how language, genre, and structure mirror, otherwise represent, or criticize the political order within which the author writes.

**BHP 209 Honor Seminars: Law and Arts 3 Credits**

Fosters analysis of controversial art images from a range of genres (e.g., films, paintings, photographs, music, literature, and sculpture) and asks students to consider connections between the art and political/social/legal issues. Topics will include censorship, propaganda, and intellectual property.

**BHP 211 Seminar: Theories of Justice and the American Common Law 3 Credits**

Examines some of the 'perennial' theories of justice, both classical and modern, that have left their mark on the evolution of Western concepts of justice. The practical implications of such theories and the two-way traffic between them and social realities will be explored through their application by the American courts. In addition to studying actual cases, students will participate in the adjudication of theoretical cases, both fictional and taken from contemporary realities.

**BHP 212 Children and the Media 3 Credits**

This course examines how children and adolescents use and understand media and analyzes the role of media in their social and cognitive development. After studying the socializing presence of the media, students will analyze how exposure to television programs, movies, magazines and the Internet shapes children's socio-emotional development and their understanding of cultural norms. This course will also explore the effects that media use has on children's health, aggressiveness, and academic performance. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**BHP 213 Honors Seminar: Text and Context 3 Credits**

Studies the major themes of a period of cultural change as they are expressed in important social, scientific, literary, and artistic works. Students will immerse themselves in a single major literary work and will interpret it in light of a number of coordinate texts and works from the social sciences, from contemporary comment, and from the arts.

**BHP 215 Honors Seminar: Universe & Origin 3 Credits**

This course examines both the historical and ongoing scientific research that contributes to our understanding of how life arose on Earth. The evolution of primitive life to the present-day diversity of living organisms will also be explored. Over the course of the class, we will trace the development of theories concerning the evolution of life, with particular emphasis on biologic, geologic, and cosmic time scales.

**BHP 222 Honors Seminar: Existentialism in Literature 3 Credits**

Introduces students to Existentialism as a 20th-century movement with roots going back to the 19th century and as a philosophy that has special relevance and importance for understanding today's world. Reading and discussion are based on topics of special concern to Existentialist philosophers: lying and the nature of reality, faith and reason, reevaluation of values, and the meaninglessness of life. Readings will comprise a variety of fiction and non-fiction genres. Authors may include Dostoevsky, Unamuno, Camus, Sartre, Kierkegaard, Nietzsche, Brecht, Kafka, Pirandello, Weil, and Beckett.

**BHP 224 Worlds Apart: Global Perspectives on Development and Inequality 3 Credits**

This course will examine the causes and patterns of uneven societal development in the world today, including consideration of historical and contemporary factors such as colonialism and globalization. Consequences of increasing inequality for the well-being of populations across the globe will also be discussed.

**BHP 227 Race, Gender, and Sexuality in the Age of Empire 3 Credits**

This course examines the history and literature of British and American imperialism from 1890 to the present, focusing on the intersections of race, gender, class, and sexuality. The course will cover themes of national identity, representations of colonized peoples, and imperialism as a cultural project. The history of imperialism as understood through literary and cultural analyses will focus on the functioning of gender, sexuality, and race in the ideologies and strategies of imperialism and anti-imperialism and in the psychological impact of colonial rule. Overall, we will consider how such analyses can inform a(re)defining of the colonial project.

**BHP 230 Honors Seminar: Political Culture 3 Credits**

Explores social, political, and cultural transformations associated with the radical extension of cybernetic and reproductive technologies in modern society. In particular the course will focus on the impact of new so-called high technologies such as computer-based communications, robotics, and biotechnology on such areas as the structure of the world economy, the organization of work, patterns of consumption, styles of popular culture, the design of private and public space, and the liberal-democratic political process.

**BHP 231 Honors Seminar: Natural Adventures 3 Credits**

Examines connections among environmental history, biology, and ecology. Human attitudes toward the natural environment are complex and have changed overtime, ranging from terror to exaltation from exploitation to preservation. Focus will be on the impact of changes in human land use and technology on natural ecosystems, exploring feedbacks between the two. Hands-on experiences will supplement readings from the primary literature both in science and history as well as literary explorations of nature.

**BHP 232 Honors Seminar: Science and Politics of the Jersey Shoreline 3 Credits**

Designed to acquaint the student with the scientific basis for evaluation of coastal problems and the political realities of funding and policy, focusing on the New Jersey Shoreline. Course topics will include consideration of waste disposal in ocean systems, depletion of ocean resources, physical and biological ramifications of human activities on the environment, and the political problems in dealing with mitigation of environmental stresses.

**BHP 259 Honors Seminar: The Environment: a Conflict of Interest 3 Credits**

Examines critical environmental issues such as global warming; food, water and energy resources; population trends; and global industrialization. Topics for context will include the origin of the elements, the origin of solar systems, and the origin of life as well as the basic principles of the current biotechnical revolution. Scientific understanding will be combined with knowledge about strategies for raising community awareness in order to (re)formulate public policy. In teams, students will be asked to define the problems; research available and prospective solutions; identify the technical, social, political, and economic constraints; and finally propose a workable strategy for making progress toward solutions.

**BHP 260 Honors Seminar: Education and the Arts 3 Credits**

Through the study of classic and contemporary artistic works as well as influential philosophies and theories of education, this course explores representations of education in fiction, nonfiction, poetry, film, and music and the relationship between theory and practice. Society's shifting and ambivalent attitudes toward teachers and the educational process will be studied from multiple perspectives, including those of artists who are important educators themselves.

**BHP 268 Honors Seminar: Love and Chivalry in the Arthurian Tradition 3 Credits**

The legends attached to King Arthur of Britain and the Knights of the Roundtable have fascinated audiences for the past 1500 years. This course will examine the origins, development and meanings of love and chivalry, two essential themes in the Arthurian legends. Through study of the two major love triangles in the tradition—Arthur-Guinevere-Lancelot, and Tristan-Isolde-Mark—and the chivalrous quests of Lancelot, Tristan, Gawain, Parzival, and other Knights of the Roundtable, students will discover how Arthurian ideals regarding love, chivalry, kingship, and heroism were established and why they still resonate in popular culture. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**BHP 270 Interdisciplinary Studies 3 Credits**

Exploration of interdisciplinary topics and themes in honors courses team-taught by instructors representing different disciplinary specialties.

**BHP 271 Special Topics in Interdisciplinary Studies 3 Credits**

Exploration of interdisciplinary topics and themes in honors courses team-taught by instructors representing different disciplinary specialties.

**BHP 280 Honors Seminar: The World as a Social Construct 3 Credits**

Challenges students to view the world as a product of historical and philosophical traditions as reflected in global communication dynamics. Forms of both ancient and modern political governance and their influence on international socio-political alliances will be examined, especially as reflected in cosmopolitanism, urbanization, and migration. Topics include the impact of the revolution in modern means of communication and obstacles to communication among peoples of diverse nations.

**BHP 300 Honors Seminar: Cultural Politics 3 Credits**

With attention to genres such as literature, music, film, and the visual arts, this course explores the role of artistic expression as it reflects and/or subverts the structural elements and distribution of power in a selected culture and time period.

**BHP 302 Mirrors of the Mind: The Interplay of Literature and Psychology 3 Credits**

In exploring the longstanding and evolving partnership between literature and psychology, this course addresses the following questions: How does understanding of psychological theory enhance our reading of literature? How does reading of literature affect our judgements and our responses to real-world situations? How can literary texts aid psychologists in refining theories explaining human behavior? Readings include classics, as well selections by recent writers and theorists representing both disciplines. Among the themes typically discussed are struggles in achieving stage-salient goals in life (separation from parents during adolescence and beginning the assumption of adult roles, etc.); complexities in social interactions (familial, romantic, etc.); the development of empathy; perceptions of self and other; loss and grief, morality; and the influence of culture on personality and behavior.

**Prerequisite(s):** Completion of BHP 150 and minimum GPA 3.3; or POI.

**BHP 303 Honors Seminar: Politics & Philosophy of the 60's 3 Credits**

Examines three major American political movements of the 1960s—the black movement, the student movement, and the feminist movement—with an emphasis on the interactions among philosophy, politics, and culture. These themes are studied using original sources including theoretical writings by the movements' main proponents and texts describing particular events and developments in political and social history. Source materials may also include documentary films and recordings which represent the cultural assumptions of the period.

**BHP 304 Honors Seminar: Europe Armageddon 3 Credits**

Investigates the history and literature of World War I in order to understand how it shaped the civilization of the 20th century and how it affected the lives of those who experienced it.

**BHP 307 Honors Seminar: Presence of Mind - Artificial intelligence and Human Creativity 3 Credits**

What is Artificial Intelligence (AI)? In what ways can computers “think”? How is their “thinking” similar to and different from that of humans? Through readings, lectures, discussions, and creative projects, students will investigate evidence of intelligence and creativity in various disciplines including music composition, art, and human and non-human systems. We will examine predictions for AI that date back to the 1930s and ponder likely developments in this area in the 21st century. No prior experience with computers or music is required.

**BHP 309 Honors Seminar: Genetic Engineering and the Philosophy of Science 3 Credits**

Highlights the different perspectives held by scientists and philosophers regarding current bioethical issues. Topics include classical ethical theory, applied ethics, and basic biology as it relates to topics such as stem cells, cloning, and assisted reproduction. Students will learn how to construct and present rational, objective arguments during class discussions and presentations. At the end of this course, students will have gained a strong perspective both the ethical and biological foundations behind modern “hot-button” topics in genetics.

**BHP 310 Honors Seminar: European History 3 Credits**

Involves reading major European historical novels of the 19th century. Students will discuss why the vogue for historical fiction began and why the novels of Sir Walter Scott had such a tremendous impact on the genre. Examined will be such questions as the definition of historical fiction, the importance of historical accuracy, the relationship of literature and history, and the influence of historical differences in the development of historical fiction in different countries.

**BHP 312 Honors Seminar: Musical Expression 3 Credits**

Examines the relationships between political culture (e.g., enlightened reform, revolution, or reaction) and musical discourse in periods selected from Viennese classicism, Biedermeier/romanticism, post-romanticism and expressionism. Major emphasis will be placed upon how composers such as Mozart, Beethoven, Schubert, Mahler, and Schoenberg exploited and developed musical forms, and chose and set texts to respond to the imperatives of their political and cultural environments.

**BHP 314 Honors Seminar: Symbolism/Impressionism 3 Credits**

Examines Symbolist literature and Impressionist music. Students will come to understand some interrelationships between literary and musical creativity in the late 19th and 20th centuries by studying Symbolist literature and Impressionism in music history—two movements that had significant impact on Modernism and that continue to influence contemporary creative work.

**BHP 315 Honors Seminar: 20th Century European Ideologies 3 Credits**

Covers the origins and development of 20th-century European ideologies in a comparative perspective. Topics include the condition of European political culture at the turn of both centuries (i.e., 1900 and 2000), methods of spreading Nationalism and national culture, the First World War and the emergence of Fascism and Communism, the origins and consequences of the Cold War, the development and fate of the Socialist and Capitalist systems, and the ideology of Conservatism/Liberalism. We will also reflect upon the condition of European political culture in our day.

**BHP 318 Honors Seminar: The Bible as Literature and Philosophy 3 Credits**

Discusses selections from the three major divisions of The Bible: the Old Testament, the New Testament, and the Apocrypha. Stories such as Joseph and his brothers, Exodus, Samson and Delilah, Jonah and the Whale, Susannah and the Elders, the raising of Lazarus, and the trial and execution of Jesus will be read. Students will study many genres, including the short story (The Book of Ruth), poetry (Psalms), history (I and II Samuel), apocalypse (Revelations), letters (I and II Corinthians), and philosophical tales (The Book of Job).

**BHP 319 Honors Seminar: Arts of Memory 3 Credits**

Collective memory, cultural memory, computer memory, crises of memory: explores different ideas about memory through a variety of disciplinary lenses within the humanities, including film, music, rhetoric, literature, history, and fine art. Topics will include the nature of group and cultural memory, mnemotechnica (the structures and techniques of memory), the representation of memory, memory anomalies and problems, and historical and national memory.

**BHP 320 Honors Seminar: Gender and Music 3 Credits**

Through listening and reading assignments, introduces students to the role of gender in shaping the creation, performance, and reception of Western music. Topics include canon formation and the reception history of works by male and female composers; the historical conditions in which women became composers, performers, listeners, and patrons; the musical representations of gender difference and sexuality; definitions of feminine and masculine musical style; ideologies of genius; and gender issues in music aesthetics, music historiography, and in the biographies of composers.

**BHP 321 Gender and Sexuality in Hip Hop and R & B 3 Credits**

This course explores the formation of femininity, masculinity, and sexuality in Hip-Hop and R&B, focusing on the music, images, and politics of the genres. Because Hip-Hop and R&B also exist in dynamic relationship with a variety of other genres, including funk, soul, rock, disco, jazz, and electronic dance music (EDM), some of these other genres will be included in readings and discussions along the way. Related topics include racial identity theory, religion, and a variety of other social constructions as mediated through rhetoric and discourse conventions that shape who we are and how we understand ourselves.

**BHP 322 Honors Seminar: Guilty and Innocent 3 Credits**

Through the study of social theory and research, legal cases, fiction, non-fiction, film and poetry, this course examines theories of criminal motivation and behavior, determination of blame, and assignment of appropriate punishment. Topics include changes in legal and cultural understandings of individual and social responsibility for criminality; the nature, purpose, and effects of punishment; and the impact of race, class and gender on defining crime and determining guilt or innocence. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**BHP 323 Capitalism: On Trial 3 Credits**

Capitalism as a socio-economic system is put on trial! Readings for and against capitalism, drawn from a range of influential classic and contemporary texts, are examined and discussed in class. The competing theories are applied to current social, economic, and political issues. The role of government in the economy is also debated.

**BHP 325 Literature and Political Realities: Dictatorship to Democracy in Latin America 3 Credits**

Explores Latin American politics and government in the 20th century and of the role of artists, primarily writers of fiction and poetry, as a corps of truth-tellers and resisters in the face of government propaganda, censorship, and cultural/political repression. The course will center upon themes and theories that help us explain the current state of Latin American politics and culture, and the dynamics of their mutual influence. We will emphasize the vacillation between authoritarianism and democracy as well as the role of revolutionary change in the region. Analysis of economic, social, cultural, and historical influences on contemporary Latin American politics will be complemented and enriched by a study of representative works from important cultural and artistic movements.

**BHP 330 Campaign Persuasion 3 Credits**

This course will explore both political campaign communication history and practice, with a particular focus on current campaigns in New Jersey. The interface between communication theory and politics and the way in which messages are framed by the media will be explored. Guest speakers will share their perspectives on selected campaign issues. To move from the classroom and theory to real situations, students will be encouraged to volunteer for a campaign in New Jersey, and assignments will be focused on creating practical examples of political campaign communication materials.

**BHP 350 Genocide and Human Rights 3 Credits**

Explores one of the main paradoxes of the modern era: the development of human rights standards and, at the same time, the expansion and intensification of genocide, ethnic cleansing, systematic torture, and other crimes against humanity. A central question runs through the course: How are these two polar opposites, human rights and genocide, related? Concentrating on the period from the eighteenth century to the present, and encompassing virtually every area of the globe, we will discuss and debate the meaning of contested key terms, investigate particular historical cases of mass atrocities, and examine critically some of the recent efforts at redress, justice, and memory.

**BHP 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours.

**BHP 499 Baccalaureate Honors Thesis 3 Credits**

Students completing the Baccalaureate Honors Program undertake a capstone project, which may be research-based and/or creative. Minimum 3 credits in total, which may be completed in fall or spring of senior year or distributed across both semesters. For details, see BHP Web site: [http://www.rider.edu/15478\\_6437.htm](http://www.rider.edu/15478_6437.htm).

**Behavioral Neuroscience (BNS)****BNS 107 Life Science: Brain and Behavior 3 Credits**

An introduction to the biology of the human brain and the rest of the human nervous system. Topics in neuroscience are covered in molecular, cellular, and systematic terms. Additional material is presented on the origins and effects of neurological and psychiatric diseases. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**BNS 250 Biostatistics 4 Credits**

This course will assist students with acquiring the skills necessary to design, conduct, and interpret research studies. Emphasis will be on learning how to develop experimental designs to translate theoretical concepts into testable hypotheses. Experiments conducted during laboratory sessions will use laboratory mice and will use equipment for measuring animal behavior. Students will gain experience collecting, analyzing, writing and orally presenting their research results. Three hours of lecture and one three-hour lab per week. Prerequisite(s): MTH 105 or higher or placement into MTH 210, grade of "C" or better in one lab science course.

**Corequisite(s):** BNS 250L.

**BNS 250L Biostatistics Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. Corequisite(s): BNS 250.

**BNS 275 Behavioral Neuroscience 4 Credits**

An introductory behavioral neuroscience course including basic neuroanatomy and neurophysiology of movement, ingestive, reproductive, emotional, and learning behaviors. Emphasis is on the structure/function relationships that allow animals to make appropriate physiological and behavioral responses to the environment. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115 & BIO 116.

**Corequisite(s):** BNS 275L.

**BNS 275L Behavioral Neuroscience Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BNS 275.

**BNS 310 Neurobiology 4 Credits**

A lecture-laboratory course investigating the structure and function of the nervous system. Lecture topics include organization of the nervous system, neuroanatomy, neurophysiology, neurochemistry, physiology of sensory systems, biological aspects of nervous system diseases, and behavior. Laboratory exercises include study of anatomy of the nervous system, nerve cell recording, modern neuroanatomical techniques, and the neural basis of animal behavior. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 with a grade of C or better in each course. Corequisite(s): BNS 310L.

**BNS 310L Neurobiology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BNS 310.

**BNS 360 Neurochemistry 4 Credits**

Examines the fundamentals of neurochemistry, including the neuroanatomical distribution, pharmacology, and functions of neurotransmitters; signal transduction pathways; behavioral and physiological effects of chemicals either used therapeutically to treat biopsychological disorders or that may be abused for their psychotropic effects; and mechanisms and models for the study of drug action. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116, CHE 122, CHE 123 with a grade of C or better in each course.

**Corequisite(s):** BNS 360L.

**BNS 360L Neurochemistry Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. Corequisite(s): BNS 360.

**BNS 375 Neuroethology: Circuits of Behavior 4 Credits**

Neuroethology is the study of the neural and physiological basis of animal behavior. This course focuses on the specific behavioral problems faced by animals in their natural habitats, and the ways in which their nervous systems solve these problems. The mechanisms that underlie complex behaviors such as spatial orientation and navigation, escape mechanisms, and animal communication will be examined, as well as the extraordinary sensory adaptation of organisms to their environments (e.g., echolocation, electroreception, and magnetic reception). The neural control of motor programs and temporally-patterned behaviors will be studied in simpler neuronal systems. Finally, recent cellular and molecular approaches to the study of behavior will be addressed. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 with a grade of C or better in each course.

**Corequisite(s):** BNS 375L.

**BNS 375L Neuroethology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BNS 375.

**BNS 415 Seminar in Behavioral Neuroscience 3 Credits**

Critical analysis of the scientific literature pertaining to current topics in behavioral neuroscience. Topics include mechanisms through which the brain influences physiology and behavior and the integration of nervous and endocrine systems. Three hours of lecture per week.

**Prerequisite(s):** BIO 115, BIO 116 or BNS 118, BIO 117, junior standing and permission of instructor.

**BNS 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**BNS 491 Internship in Behavioral Neuroscience 1-4 Credits**

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations. These can include educational or research institutions. The method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and should include keeping a journal of activities, a term paper or project report and a poster presentation.

**Prerequisite(s):** 2.5 GPA and permission of the instructor.

## Biochemistry (BCH)

**BCH 225 Introduction to Organic and Biochemistry 4 Credits**

An introductory course describing the basic principles of organic chemistry and biochemistry as they relate to human metabolism and disease. The nature of the chemical structure and reactivity of organic functional groups such as alcohols, aldehydes, ketones, carboxylic acids and amines will be presented with biological processes in mind. The biochemistry of the macromolecules DNA, RNA, proteins, carbohydrates and lipids will be discussed leading in to a discussion of some of the more important metabolic pathways. This course is intended for science majors who do not take the full two semester sequence of organic chemistry and two semesters of biochemistry and desire a background in biochemistry. Non-science major students who have had one semester of general chemistry and one semester of biology may also enroll in the course. Three hours of lecture and one three-hour lab per week.

**Prerequisite(s):** CHE 120, CHE 121; BIO 115 or BIO 117.

**Corequisite(s):** BCH 225L.

**BCH 225L Introduction to Organic & Biochemistry Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BCH 225.

**BCH 325 Biochemistry I 3 Credits**

Outlines the chemistry and biological function of carbohydrates, proteins, lipids, nucleic acids, vitamins, and enzymes, and introduces enzyme kinetics and biological energetics. Degradative metabolic pathways of carbohydrates and lipids, and their controlled interrelationships are discussed in detail.

**Prerequisite(s):** CHE 214.

**BCH 326 Biochem and Enzymology I Lab 1 Credits**

The laboratory work illustrates techniques and methods essential to the biochemist. Methods for quantification of proteins, purification of enzymes and determination of their kinetic parameters, polarimetry, and structure proof of carbohydrates. The lab must be taken concurrently with BCH 325 by biochemistry and biology majors, but is optional for others.

**Prerequisite(s):** CHE 123, CHE 214.

**BCH 330 Biochemistry II 3 Credits**

Continuation of Biochemistry I. Includes molecular analysis of biological membrane structure and function and a molecular level analysis of information flow from DNA through RNA to proteins. Other topics include mechanisms of hormone action and an expansion on metabolic concepts.

**Prerequisite(s):** BCH 325.

**BCH 331 Biochemistry II Lab 1 Credits**

Methods of protein analysis, building on techniques and principles learned in BCH 326. Students will use bioinformatics and molecular biological techniques, including PCR, to harness and change protein sequence. They will implement modern protein purification techniques, develop enzyme essays, and perform equilibrium binding assays to investigate the relationships among protein sequence, structure, and function.

**Prerequisite(s):** BCH 326, BIO 117.

**BCH 425 Medicinal Chemistry 3 Credits**

A comprehensive description of the important principles of medicinal chemistry including principles of rationale drug design with synthetic strategies, mechanisms of drug actions, structure-activity relationships, the absorption, distribution, metabolism and elimination of drugs. Specific classes of drugs to be discussed include: anticancer agents, analgesics, anti-inflammatory drugs, steroids, drugs acting on the nervous system and antibiotics.

**Prerequisite(s):** BCH 325 or permission of instructor.

**BCH 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in laboratory research. The student learns to organize material, use the literature, make precise measurement, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**BCH 491 Internship in Biochemistry 1-4 Credits**

A supervised research experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit or governmental organizations under the guidance of a mentor. The mentor and student will have regular consultation with the departmental internship coordinator to assess the student's progress. Normally, 50 hours of internship per credit is required. The grade for the course will be determined by the students' overall performance in their research work, a research paper documenting their work with their internship mentor and an oral or poster presentation at the end of the semester.

**Prerequisite(s):** 2.5 GPA and permission of the instructor.

## Biology (BIO)

**BIO 100 Life Science 3 Credits**

An introductory course for non-science majors in which students develop an understanding of the nature of science and are introduced to foundational topics in the biological life sciences and how they relate to human affairs. The course may emphasize human evolution, genetics, aging, disease, reproduction, bioethics or other topics in biology. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**BIO 110 Life Science: Inquiry Approach 4 Credits**

An introductory course for non-science majors in which students develop an understanding of biological evolution, the molecular basis of heredity, the cell, matter, energy and organization in living systems, and the interdependence of organisms. In addition, students will develop an understanding of science as a human endeavor, the nature of scientific knowledge, and historical perspectives. Through investigative activities, students will develop an understanding about scientific inquiry and develop abilities necessary to do scientific inquiry. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** BIO 110L.

**BIO 110L Life Science: Inquiry Approach Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 110.

**BIO 115 Principles of Biology I 4 Credits**

An introductory biology course focusing on major themes of biology: what is life?; Cells as fundamental structure and functional unit of life; information transmission, storage and retrieval; Diversity and unity of life explained by evolution. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** BIO 115L.

**BIO 115L Principles of Biology I Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 115.

**BIO 116 Principles of Biology II 4 Credits**

An introductory biology course focusing on major themes of biology: Energy and matter to carry out life's essential functions; Interdependent relationships characterize biological systems (homeostasis, growth & development); Behavior of living things; Ecology and the environment. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** BIO 116L.

**BIO 116L Principles of Biology II Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 116.

**BIO 206 The Pharmaceutical Industry 3 Credits**

An introduction to drug discovery and development. Topics include how drugs are used to diagnose, cure, treat, and prevent disease and how drugs affect body function. The origins of diseases and the early attempts at treatment are also covered. Designed for business majors; does not satisfy requirements for the biology major.

**Prerequisite(s):** BIO 100 or BIO 101 or BIO 106 or BIO 108 or BNS 107 or CHE 115.

**BIO 210 Hospital Intern Program 2 Credits**

An internship that provides students with the experience in the practical aspects of medicine. Major departments in the hospital such as the emergency room, operating room, clinic, radiology, and the laboratory will be open for student rotations. Field trips to various medical schools in the area will provide information on professional school educational opportunities available in the health professions.

**Prerequisite(s):** sophomore standing or above and permission of instructor.

**BIO 215 Medical Microbiology 4 Credits**

Biology of prokaryotes of medical interest with emphasis placed on diversity and host-pathogen interaction. Current research literature will be covered and presented by students. Methods of microbial identification are introduced in the laboratory and applied in the identification of mock clinical isolates. Three hours of lecture and one three-hour lab per week.

**Prerequisite(s):** BIO 115, BIO 116 with a grade of C or better in each course,

**Corequisite(s):** BIO 215L.

**BIO 215L Microbiology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 215.

**BIO 221 Human Anatomy & Physiology I 4 Credits**

A comprehensive survey of the structure and function of musculo-skeletal systems, neuroendocrine systems and related tissues and cellular interactions. Physiological applications include homeostasis, muscle dynamics, and cell activities. Laboratory exercises complement lecture material through the use of animal dissections, wet labs, computer-assisted investigations, microscopy, and models. Exams, case histories, personal investigations, and lab practicums assess learning. Course emphasis supports allied health and pre-professional training. Three hours of lecture and one three-hour lab per week. Designed for allied health students; does not satisfy requirements for the biology major. Prerequisite(s): HSC major ONLY or Permission of instructor. **Corequisite(s):** BIO 221L.

**BIO 221L Human Anatomy & Physiology I Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. **Corequisite(s):** BIO 221.

**BIO 222 Human Anatomy & Physiology II 4 Credits**

A comprehensive survey of the organ systems of the body including special senses, cardiovascular, respiratory, digestive, excretory, reproduction and development. Physiological components include electrolytes, metabolism, nutrition, and the mechanisms of homeostasis and cell reception. Lab studies support lecture material through dissections, wet labs, computer-assisted learning, microscopy, and models. Assessment includes lab practicums, exams, and reports. Course emphasis supports allied health and pre-professional training. Designed for allied health students; does not satisfy requirements for the biology major. Prerequisite(s): BIO 221. **Corequisite(s):** BIO 222L.

**BIO 222L Human Anatomy & Phys II Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. Prerequisite(s): BIO 222. **Corequisite(s):** BIO 222.

**BIO 250 Field Natural History 4 Credits**

Identification, life history, and interrelationships of plants and animals in natural landscapes of New Jersey. Field, lab, discussion and lecture exercises will prepare students to lead informative and safe nature walks. Nature writing and natural resources management also covered. Three lectures and one three-hour laboratory per week; most labs take place outdoors. Two Saturday field trips (laboratory time will be adjusted accordingly). Designed for education majors; does not satisfy requirements for the biology major. **Corequisite(s):** BIO 250L.

**BIO 250L Field Natural History Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. **Corequisite(s):** BIO 250.

**BIO 260 Principles of Biology: Evolution, Diversity, and Biology of Cells 4 Credits**

Lectures and labs focus on basic cell biology. Cell diversity and function, genetics and biotechnology are emphasized. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115/115L and BIO 116/116L or BIO 115, BIO 117, (BNS 118 or BNS 275). **Corequisite(s):** BIO 260L.

**BIO 260L Principle of Biology: Cells Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. **Corequisite(s):** BIO 260.

**BIO 265 Genetics 4 Credits**

A comprehensive course focusing on molecular, Mendelian, and population genetics. Topics covered will include molecular advances in the study of genetics, including genomics and bioinformatics; evolution and the effects of genetic mutations; the application of population genetics to forensic science; genetic problem solving, including genetic crosses and statistical analysis; and regulation of gene expression. The laboratory for this course will introduce students to commonly used genetic model organisms and basic molecular biology techniques. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 and (BIO 260 or BIO 117) with a grade of C or better in each course. **Corequisite(s):** BIO 265L.

**BIO 265L Genetics Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. **Corequisite(s):** BIO 265.

**BIO 272 Intro to Marine Biology 4 Credits**

Introduces students to the study of marine environments, emphasizing the diversity, ecology, and physiology of marine animals, algae, and plants. Aspects of the human impact on marine environments are also discussed. Prerequisite(s): BIO 115 or BIO 116 or BNS 118 and grade of "C" or better. **Corequisite(s):** BIO 272L.

**BIO 272L Marine Biology Laboratory 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. **Corequisite(s):** BIO 272.

**BIO 290 Special Topics in Biology 3 Credits****BIO 300 Developmental Biology 4 Credits**

Lectures and laboratories explore molecular, cellular, and genetic mechanisms of animal development. Aspects of gametogenesis, fertilization, induction, cytoplasmic determinants, morphogenetic movements, differentiation and developmental evolution are discussed. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 and (BIO 260 or BIO 117) with a grade of C or better in each course. **Corequisite(s):** BIO 300L.

**BIO 300L Developmental Biology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. **Corequisite(s):** BIO 300.

**BIO 305 Vertebrate Physiology 4 Credits**

Study of the principles and mechanisms of mammalian physiology. Topics include the nervous system, muscle physiology, cardiovascular physiology, respiration, gastrointestinal activity, renal function, and endocrine physiology. Lectures and laboratory exercises emphasize homeostatic mechanisms and organ-system interactions. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 with a grade of C or better in each course. **Corequisite(s):** BIO 305L.

**BIO 305L Vertebrate Physiology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 305.

**BIO 321 Microbiology 4 Credits**

An introduction to the discipline of microbiology, with an emphasis on the biology of prokaryotes found in all the natural realms of our environment, including the oceans, soil, atmosphere, and extreme habitats. Emphasis will be placed on microbial diversity, fundamental microbial processes, and the continual interaction between microbes and the natural environment. Classical and modern methods of identification are introduced in the laboratory. Three hours of lecture and one three-hour lab per week. Some field trips are required. Prerequisite(s): BIO 115, BIO 116 with a grade of C or better in each course.

**Corequisite(s):** BIO 321L.

**BIO 321L Microbiology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 321.

**BIO 335 Plant Biology 4 Credits**

Biology of seed plants, including growth, development, and reproduction of flowering plants. Emphasis is placed on acclimation and adaptations demonstrating environmental influences on plant structure and function. Current literature involving molecular mechanisms of control will be discussed. Three hours of lecture and one three-hour lab per week. One Saturday field trip. Prerequisite(s): BIO 115, BIO 116, CHE 122.

**Corequisite(s):** BIO 335L.

**BIO 335L Modern Plant Biology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 335.

**BIO 340 Evolutionary Biology 4 Credits**

Where did we come from? This course will explore the generation of biological diversity on earth. Course topics will include: the history of evolutionary thought; the different lines of evidence and fields of inquiry that bear on our understanding of evolution; selection vs. random changes in populations over time; speciation; extinction; the molecular basis of evolution; and evolutionary developmental biology. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116, (BIO 260 or BIO 117) and BIO 265 with a grade of C or better in each course.

**Corequisite(s):** BIO 340L.

**BIO 340L Evolutionary Biology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. Corequisite(s): BIO 340.

**BIO 350 General Ecology 4 Credits**

An investigation of the processes that regulate the distribution of plants and animals throughout the biosphere. Relationships among species and their interactions with the environment are stressed. Quantitative analyses of experimental results and current research in basic and applied ecology are discussed. Laboratory activities explore conceptual models using both field activities and computer simulations. Three hours of lecture and one three-hour lab per week. One Saturday field trip (laboratory time will be adjusted accordingly). Prerequisite(s): BIO 115, BIO 116, with a grade of "C" or better in each course.

**Corequisite(s):** BIO 350L.

**BIO 350L General Ecology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 350.

**BIO 370 Immunology 4 Credits**

An introduction to the cells and molecules of the immune system with emphasis on recent advances. Topics include AIDS, autoimmunity, transplantation, and cancer. Readings from current journals will be discussed and presented by students. The laboratory will introduce current research techniques and then apply these to a research problem with critical analyses of the data generated. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 and (BIO 260 or BIO 117) with a grade of C or better in each course.

**Corequisite(s):** BIO 370L.

**BIO 370L Immunology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 370.

**BIO 372 Behavior of Marine Organisms: Evolutionary Approach 4 Credits**

An examination of the underlying mechanisms and evolutionary causes of behavior, including habitat use, feeding, and mate choice, particularly in marine organisms. The laboratory will involve collecting, analyzing and interpreting field data and performing experiments in the lab using a variety of marine organisms including fish and crabs. Three hours of lecture and one three-hour lab per week. Some full-day field trips (usually on a weekend) are required. Prerequisite(s): BIO 115, BIO 116 with a grade of C or better in each course.

**Corequisite(s):** BIO 372L.

**BIO 372L Behavior of Marine Organisms: Evolutionary Approach Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 372.

**BIO 390 Special Topics in Biology 4 Credits**

This course will provide students the opportunity to deeply explore a specialized topic in the broad field of biological sciences. The course entails 3 hours of lecture and 3 hours of laboratory per week, and may satisfy upper-level biology course requirements for the Biology, Behavioral Neuroscience, and/or Health Sciences majors. Examples may include such topics as ornithology, ethnobotany, entomology, neuroelectrophysiology, or exercise physiology, among other possibilities. Prerequisite(s): BIO 115 + BIO 115L and BIO 116 + BIO 116L.

**Corequisite(s):** BIO 390L.

**BIO 390L Special Topics in Biology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** BIO 390.

**BIO 400 Seminar in Cellular and Molecular Biology 3 Credits**

Critical analysis of the scientific literature pertaining to current topics in cell and molecular biology. Topics may include: genomics, regulation of gene expression, development, and molecular processes of disease. Three hours of lecture per week.

**Prerequisite(s):** BIO 115, BIO 116, (BIO 260 or BIO 117) with a grade of C or better in each course, junior standing, and permission of instructor.

**BIO 416 Bioinformatics 3 Credits**

A comprehensive overview of relevant computer-based technologies used in genome research, DNA sequence analysis, and evolutionary biology. Will focus extensively on Internet resources and predictive algorithm usage for determining evolutionary relationships of organisms based on molecular evidence. Lectures will focus on terms and concepts frequently used in genomic and bioinformatic research, while computer labs will allow students to perform hands-on projects with actual DNA sequence data.

**Prerequisite(s):** BIO 115, BIO 116, (BIO 260 or BIO 117) with a grade of C or better in each course, junior standing, permission of instructor and BIO 265 recommended.

**BIO 420 Seminar in Organismal Biology 3 Credits**

Critical analysis of the scientific literature pertaining to current topics in physiology and organismal biology. Topics may include hormonal control of behavior, immune pathogen interactions, and other aspects of whole animal and/or plant biology. Three hours of lecture per week.

**Prerequisite(s):** BIO 115, BIO 116 with a grade of C or better in each course; junior standing, and permission of instructor.

**BIO 450 Seminar in Ecology & Evolution 3 Credits**

Critical analysis of the scientific literature pertaining to current topics in ecology and evolutionary biology. Ecology and evolution of terrestrial and aquatic systems may include scales of adaptation, mechanisms, or human impacts. Three hours of lecture per week.

**Prerequisite(s):** BIO 115, BIO 116 with a grade of C or better in each course; junior standing, and permission of instructor.

**BIO 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**BIO 491 Internship in Biology 1-4 Credits**

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations. These can include educational or research institutions. The method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and should include keeping a journal of activities, a term paper or project report and a poster presentation. 2.5 GPA required.

**Prerequisite(s):** Permission of the instructor.

## Business Administration (BUS)

**BUS 210 Intro to Law: Contracts 3 Credits**

An introduction to the origin of current law, with emphasis on the development of business law, students are exposed to legal terminology and acquainted with the system of application of rules of law to actual situations. The laws of contracts, particularly common-law developments, are considered in great detail.

**BUS 211 Commercial Law 3 Credits**

The law as related to the sale of goods, commercial paper, and secured transactions as promulgated by the Uniform Commercial Code is considered in depth. Warranties, guarantees, remedies, and product liability are explored. The laws of bankruptcy and insurance are also considered.

**Prerequisite(s):** BUS 210.

**BUS 214 Advanced Business Law 3 Credits**

This course provides students with an introduction to the fundamentals of individual and organizational forms of doing business. The laws governing agency, partnerships, corporations, and the purchase and sale of securities will be explored. The legal consequences of the relationships, and the rights and duties of the parties and entities will be discussed, as will the rules of law governing real, personal, and intellectual property, including the transfer of title to real property, the various types of bailments, the landlord-tenant relationship, and the laws concerning wills, trusts, and estates. The concerns of businesses that compete in the global environment through the study of international law will also be discussed. This course replaces the property (BUS 213) and business associations (BUS 212) courses; you may not take this course if you have taken either of these courses.

**Prerequisite(s):** BUS 210.

**BUS 300 The Legal and Ethical Environment of Business 3 Credits**

The strategies by which organizations in the private as well as the public sectors interact with, adapt to, and attempt to influence their external environments are explored. The primary emphasis is on evaluating the effect of business and governmental decisions on the quality of life. The role of regulatory agencies and the impact of local and national legislation on organizational behavior are considered.

**Prerequisite(s):** 54 credits.

**BUS 315 Health Care Law, Ethics & Policy 3 Credits**

This course analyzes the role of the law in promoting the quality of health care, organizing the delivery of health care, assuring adequate access to health care, and protecting the rights of those who are provided care within the health care system. It will also examine the public policy, economic, and ethical issues raised by the health care system.

**Prerequisite(s):** 24 credits.

**BUS 375 International Business Law 3 Credits**

This course considers the impact of international organizations and treaties on global business and examines the various methods of international dispute resolution. Important legal and ethical issues related to conducting business overseas are discussed including the topics of labor and employment rights, environmental law, and intellectual property.

**Prerequisite(s):** 54 credits.

**BUS 400 Strategic Mgmt and Policy 3 Credits**

This capstone course for seniors in business administration provides a framework for problem identification, analysis, and decision making within the organization. Students are given the opportunity to integrate and apply previously acquired knowledge of accounting, decision sciences, economics, finance, marketing, management, and statistics. Case studies, critical incidents, and other appropriate techniques are utilized.

**Prerequisite(s):** 84 credits, CIS 185, ACC 210, ACC 220, MKT 200, MGT 201, FIN 220, MSD 340, BUS 300, CIS 385 or GSC 385.

**BUS 410 New Venture Planning 3 Credits**

This course will require students to select a business and prepare a complete new venture plan for it. This plan would identify the product and its target market, analyze its market potential, choose the location, scale of operation, layout, staffing, type of financing, estimate the revenues and profits, and present the income statement, balance sheet, and the cash flow projections.

**Prerequisite(s):** ENT 348 or permission of instructor.

**BUS 444 Selected Topics Business Policy 3 Credits**

The study of a selected topic of contemporary interest related to one or more of the following: strategic management, business law, business ethics, social responsibility, legal environment of business. Readings, research, lectures, discussions, and other methods will be used.

**Prerequisite(s):** to be determined by instructor.

**BUS 490 Independent Research and Study 3 Credits****BUS 491 Business Admin Internship 1-4 Credits****BUS 492 Global Business Internship 3 Credits**

## Business Data Analytics (BDA)

**BDA 205 Introduction to Business Data Analytics 3 Credits**

The primary objective of this course, as the introductory course in a business analytics sequence, is to familiarize students with business analytics and its value, application, and implications in various contexts. This course will utilize lectures, case studies, and guest speeches, and have a major hands-on component. The textbook and lectures will provide conceptual and theoretical knowledge about business analytics, and the students will be introduced in class to various tools and methods for analyzing and visualizing data. Case studies and guest speeches will expose the students to best practices as well as current and practical issues surrounding business analytics in today's organizations.

**Prerequisite(s):** CIS 185.

**BDA 360 Optimization and Stimulation 3 Credits**

This course is designed to provide undergraduate students with the current knowledge and practice of optimization and simulation in business analytics. Optimization is an area in business analytics that finds the optimal, or most efficient, way of using limited resources to achieve the objectives of an individual or a business. Simulation is a technique that measures and describes various characteristics of the bottom-line performance measure of a model when one or more values for the independent variables are uncertain. The main focus of this course will be on developing modeling skills by using Excel (and Analytic Solver add-on) to gain insights into a wide variety of business decision problems. First, they will learn how to analyze the problem and choose an appropriate optimization/simulation method. Next, they learn how to formulate the problem in a format that can be implemented in a spreadsheet. Then, they will be taught to use Excel with add-on to solve the problem. Once the results are obtained, the students will be trained to interpret them and conduct sensitivity analyses. Eventually, the students are required to make a recommendation to managers after considering some implementation issues.

**Prerequisite(s):** BDA 205- Introduction to Business Data Analytics.

**BDA 398 Business Data Analytics Practicum 3 Credits**

This course develops and sharpens the skills for a successful career in analytical business consulting, such as analysis, critical thinking, presentation, problem solving, and teamwork. This class will develop skills in each of these areas through discussion of the principles underlying best practices and feedbacks in a series of applied exercises and cases that will prepare students to obtain and succeed in analytical business consulting problems. The students will analyze the data provided by professionals from experts in the field, and they will present the project at the end of the semester.

**Prerequisite(s):** BDA 205; MSD 201 Statistical Methods II; Junior or Senior Standing; Completion of 12 credit hours in business analytics coursework or Permission of Instructor.

**BDA 399 The Co-Operative Experience 6 Credits**

BDA 399 is the Co-Operative Experience for Business Analytics majors. This course will provide students with supervised employment (approximately four months), where the students will have an opportunity to apply what they have learned in their business analytics and other business classes.

**Prerequisite(s):** Business Analytics major, Junior or Senior standing, GPA of 3.0 or above.

**BDA 491 Business Data Analytics Internship 3 Credits**

BDA 491 is the Internship course for Business Analytics majors. This course will provide students with supervised employment (approximately two months), where the students will have an opportunity to apply what they have learned in their business analytics and other business classes.

**Prerequisite(s):** Business Analytics major, Junior or Senior standing, GPA of 2.75 or above.

## Business Education - UG (BED)

**BED 410 Prin/Strat Voc & Coop Ed 3 Credits**

Designed as one of the specialized courses in the preparation of business and marketing education teachers and teacher-coordinators of cooperative work experience programs. The philosophy and history of education for and about work, including technology, are studied along with the principles and strategies for organizing and administering vocational cooperative education programs. Developmental/reflective evaluative techniques will be applied for the assessment of self, students, instruction and selected case studies. Current instructional concepts, organizational and administrative strategies, legislative enactments, and regulations pertaining to the employment of youth are included. Special attention is given to the role of vocational student organizations and advisory committees. Open to all students. A cumulative GPA of 2.75 is required.

**BED 415 Teaching Business Subjects 3 Credits**

Instructional strategies in the teaching of business and marketing subjects are analyzed and demonstrated. Students are required to prepare lesson plans, teach demonstration lessons, develop a unit plan, and compile a resource file of teaching materials. Videotaping of demonstration lessons is integrated with the course work to encourage developing teaching competency through a series of instructional modules appropriate to the student's certification interests. A cumulative GPA of 2.75 is required.

**BED 445 Work Exper Cooperative Program 3-6 Credits**

A minimum of 300 hours of a supervised occupational experience or a supervised internship program in an approved work station or institution. The experience is coordinated and supervised by a qualified coordinator of occupational education. A series of activities are designed to relate job and intern experiences to the student's future role as an employee or a professional teacher. The student will be evaluated by the supervising employer and the University supervisor.

**BED 490 Independent Research & Study 1-6 Credits**

Provides the student with an opportunity to study an area of personal interest. The outline for the study must be accepted by a sponsoring professor and approved by the student's department and academic dean. The number of semester hours credit to be assigned is determined by the department.

## Chemistry (CHE)

**CHE 100 Intro to College Chemistry 3 Credits**

Open to all students, but designed primarily for those who wish to major in a science which requires chemistry but whose chemistry background is not sufficient to allow entrance into Chemistry 120. It focuses on the nomenclature used in chemistry including the symbols used to designate the chemical elements, the construction of chemical formulas, and the writing and balancing of chemical equations. Other topics will include interpreting the Periodic Table, the valences of the elements, the mole concept, and simple stoichiometry. In addition, chemical calculations involving units, scientific notation, significant figures, and the algebraic manipulations of simple equations will be included. Three hours of lecture per week. This course does not satisfy the requirements for the biochemistry or chemistry degree, but does satisfy the core requirements for education and business majors.

**CHE 110 Survey of General Chemistry 4 Credits**

A one-semester survey of basic general chemical principles designed to be applied to questions in health-related fields. Students will explore the fundamental structures of atoms and simple compounds that comprise living beings; basic patterns in chemical reactivity, especially oxidation-reduction and acid-base reactions; quantitative analyses of biologically-relevant compounds and chemical reactions; properties of substances; and kinetic and thermodynamic principles underlying such chemicals and chemical processes. In the laboratory portion of this course, students will learn and apply principles of experimental safety and will apply knowledge gained in the class via application in basic experimental contexts. No prerequisites. Students who have completed CHE 120 and/or CHE 122 will not be permitted to enroll in CHE110/110L. Furthermore CHE 110 will not serve as a prerequisite for CHE 122.

**CHE 110L Survey of Gen Chemistry Lab 0 Credits**

In the laboratory portion of this course, students will learn and apply principles of experimental safety and will apply knowledge gained in the class via application in basic experimental contexts.

**CHE 114 Chemistry in the Kitchen 4 Credits**

Chemistry permeates aspects of our daily lives in which we are often unaware. In this course, students will learn the core tenets of chemistry including atomic and molecular structure, bonding, intermolecular and macromolecular interactions, and chemical reactivity, and will personally investigate these properties in the context of cooking, baking, metabolism, and other kitchen-related activities. This 4-credit course will include a weekly 3-hour lab in which students will perform experiments that allow them to prepare dishes that illustrate key chemical concepts. As part of the course, students will collaborate with the Trenton Area Soup Kitchen to prepare and serve food to the community, as well as share their understanding about the chemical properties that are involved in the development of various dishes. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Corequisite(s):** CHE 114L.

**CHE 114L Chemistry in the Kitchen Lab 0 Credits**

This is the laboratory portion of CHE 114.

**Corequisite(s):** CHE 114.

**CHE 115 Chem and Contemporary Society 3 Credits**

Designed to give the nonscientist an appreciation of the role of chemistry in today's world. The approach is conceptual rather than mathematical. Topics include basic principles of chemical theory, energy sources, elementary organic chemistry, drugs, food additives, polymers, chemistry of living systems, inorganic solids in modern technology, and problems involving pollution of the environment. Three hours of lecture per week. This course satisfies the core requirements for education and business majors.

**CHE 118 Exploration of Chemical Principles 4 Credits**

A one-semester introduction to the principles of chemical sciences. Students will utilize inquiry-based learning methods to examine contextual problems as a means to explore introductory models and concepts of chemistry. Students will also gain an understanding of how scientific models are used to explain experimental observations. The laboratory component of this course is designed to provide students with an experimental context within which to develop some of the models described in the classroom. Three hours of lecture and one three-hour lab per week.

**CHE 118L Exploration of Chemical Principles Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** CHE 118.

**CHE 120 Principles of Chemistry 3 Credits**

For students who have successfully completed one year of high school chemistry. This systematic study of the fundamental principles and concepts of chemistry covers atomic structure, bonding, stoichiometric relationships, including solution and oxidation-reduction reactions, and molecular structure. Three hours of lecture per week. Prerequisite(s): High school chemistry or CHE 100 is recommended before taking this course.

**Corequisite(s):** CHE 121.

**CHE 121 Principles of Chemistry Lab 1 Credits**

For students concurrently taking CHE 120. Experiments involve gravimetric, volumetric, and spectrophotometric quantitative analysis. One three-hour lab per week. Fall.

**CHE 122 Intro to Chemical Systems 3 Credits**

A continuation of CHE 120. For students majoring in the sciences but may be taken by others. Chemical systems in which the study of kinetics, thermodynamics, equilibrium, and radiochemistry are emphasized. Three hours of lecture per week. Prerequisite(s): CHE 120, MTH 105 or higher.

**Corequisite(s):** CHE 123.

**CHE 123 Quantitative Methods Lab 1 Credits**

Usually taken concurrently with CHE 122. Primarily for students majoring in the sciences. A number of quantitative classical and instrumental methods of analysis are used to determine thermodynamic properties and reaction mechanisms. One three-hour lab per week. Prerequisite(s): CHE 121.

**Corequisite(s):** CHE 122.

**CHE 211 Organic Chemistry I 4 Credits**

The structure, chemical properties, and methods of preparation of the more important classes of carbon compounds are studied, with an emphasis on the relationship of structure, stereochemistry, and conformation to chemical reactivity. The preparation and reactivity of organic functional groups is introduced. The use of infrared and nuclear magnetic resonance spectroscopy, and mass spectrometry for elucidating structures of organic molecules is discussed. Three hours of lecture and one three-hour lab per week. Prerequisite(s): CHE 122, CHE 123.

**Corequisite(s):** CHE 211L.

**CHE 211L Organic Chemistry I Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** CHE 211.

**CHE 214 Organic Chemistry II 4 Credits**

A continuation of Chemistry 211, emphasizing the mechanism of organic reactions, structural interpretations of properties, preparations, reactivity and identification of organic compounds. Three hours of lecture and one three-hour lab per week. Prerequisite(s): CHE 211.

**Corequisite(s):** CHE 214L.

**CHE 214L Organic Chemistry II Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** CHE 214.

**CHE 250 Quantitative Analysis and Statistics Methods 4 Credits**

This course will provide a deeper exploration of topics in chemistry that are steeped in numerical analysis. These topics include advanced analysis of equilibrium systems, acid-base systems and electrochemical systems. Additional detail will be given to methods of chemical measurement, statistical methods of data analysis and determination of data validity and reliability. Both lecture and laboratory will show an emphasis on using computer-based tools to analyze experimental data. Three hours of lecture and one three-hour lab per week. Prerequisite(s): CHE 122, CHE 123, MTH 210.

**Corequisite(s):** CHE 250L.

**CHE 250L Quantitative Analysis and Statistical Methods Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** CHE 250.

**CHE 305 Physical Chemistry I 3 Credits**

The mathematic and conceptual foundations of physical chemistry will be introduced with an over-arching theme of determination of energy allocation within atomic and molecular systems. Topics will include determination and measurement of energy states in atoms and molecules, simple quantum mechanical systems, distribution of energies and the connection to thermodynamic quantities, the three laws of thermodynamics, spontaneity, equilibrium and experimental kinetics.

**Prerequisite(s):** CHE 214, MTH 211, PHY 201.

**CHE 306 Physical Chemistry II 3 Credits**

Physical chemistry concepts are explored in more detail with emphasis on examination of systems that require multiple models in physical chemistry to explain. Topics will include, kinetic theory and transition state theory, statistical mechanics and its connections to thermodynamic functions, temperature dependence of spontaneity and equilibrium, the thermodynamics of condensed phases and multi-component equilibria, electrochemistry, multi-electron quantum mechanical systems, approximations in quantum mechanics, symmetry and advanced molecular spectroscopy.

**Prerequisite(s):** CHE 305, MTH 212.

**CHE 315 Inorganic Chemistry 3 Credits**

The periodic table as a tool for predicting the physical and chemical properties of chemical systems is developed and examined in conjunction with various theories of bonding, including valence bond, molecular orbital, valence shell electron repulsion, and ligand field theory. Emphasizes structure of crystalline solids, coordination compounds, reaction mechanisms, and structure-property relationships. Three hours of lecture per week.

**Prerequisite(s):** CHE 214.

**CHE 316 Inorganic Chemistry Laboratory 1 Credits**

Students will explore a variety of synthetic methodologies for the growth of inorganic molecular systems, and solid-state materials. A transition metal or main group metal plays a central structural role in all systems that will be examined. Modern analytical methods will be applied to characterize synthesis products, such as FT-IR spectroscopy, polarimetry, NMR, and powder X-ray diffraction analysis.

**Prerequisite(s):** CHE 315 or as corequisite.

**CHE 320 Polymer Chemistry 3 Credits**

Designed to acquaint students with the structure and properties of polymers, the contrast between small molecules and polymers, methods of measuring molecular weight, the mechanism of polymerization, and the methods of fabricating polymers.

**Prerequisite(s):** CHE 214, CHE 305 or CHE 306.

**CHE 325 Physical Chemistry Laboratory 1 Credits**

Measurements are made of physical properties of molecules and chemical dynamical processes. These measurements will be used to develop models which explain the physical chemical nature of the systems under examination. Experiments will utilize various instrumental techniques such as infrared spectrometry, nuclear magnetic resonance, fluorescence and UV/Vis spectrometry. One three-hour lab per week.

**Prerequisite(s):** CHE 250, CHE 305.

**CHE 330 Instrumental Analysis Laboratory 2 Credits**

This course is designed to give students practical experience using modern analytical instrumentation and to provide students with the background theory and principles of operation. The instrumental methods introduced in this course include: ultraviolet and visible spectroscopy, atomic emission spectroscopy, gas chromatography (GC), high performance liquid chromatography (HPLC), X-ray powder diffraction analysis and electrochemical analysis. This experimental laboratory course meets two times per week with three hours for each session. One session will be focused on instrumentation background theory and discussion and the other session will be experimental practice.

**Prerequisite(s):** CHE 214, CHE 250, PHY 201.

**CHE 350 Advanced Organic Synthesis 2 Credits**

The first of four experimental chemistry labs designed for chemistry majors. It presents the use of modern techniques, and instrumentation in organic chemistry, including distillation, chromatography, infrared, ultraviolet, nuclear magnetic spectroscopy, and mass spectrometry. Two three-hour labs per week.

**Prerequisite(s):** CHE 214.

**CHE 375 Computational Chemistry Lab 2 Credits**

This course will provide students with a means to explore various methods in computational chemistry. Basic computational methods will be developed from first principles and these methods will then be tested using various modeling and computational software packages. Methods will include, but are not limited to, molecular mechanics, semi-empirical molecular orbital calculations, ab initio methods, and density functional calculations. Students will be exposed to various computational software packages and the strengths and limitations of each methodology will be explored. The course will meet in a computer laboratory for two for three-hour lab periods a week.

**Prerequisite(s):** CHE 305.

**CHE 400 Chemical Bonding 3 Credits**

The effects of the chemical bond on the structure and properties of molecules are investigated. Molecular orbital theories of bonding are introduced. Emphasis is placed on group theoretical methods utilizing molecular symmetry to simplify the description of the electronic structure of molecules and to predict their geometric structures and reactivity.

Three hours of lecture per week.

**Prerequisite(s):** CHE 305, MTH 212.

**CHE 415 Special Topics in Chemistry 3 Credits**

An advanced level of one or more areas of modern chemistry. Emphasis on research and the literature of an area of current importance. Three hours of lecture per week.

**CHE 420 Physical Organic Chemistry 4 Credits**

In-depth studies of the methods for elucidating mechanisms of organic reactions for students who have completed one year of organic chemistry and physical chemistry. Topics include conformational analysis, linear free energy relationships, frontier molecular orbital theory, transition state theory, and chemical reaction kinetics. Isotopic scrambling, kinetic isotope effects, NMR and IR spectroscopy, polarimetry, and ultraviolet-visible spectrophotometry will be employed to investigate these concepts. Three hours of lecture and one three-hour lab per week.

**Prerequisite(s):** CHE 214, CHE 305.

**Corequisite(s):** CHE 214L.

**CHE 420L Physical Organic Chemistry Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** CHE 420.

**CHE 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**CHE 491 Internship in Chemistry 1-4 Credits**

A supervised research experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in a private, public, non-profit, or governmental organizations under the guidance of a mentor. The mentor and student will have regular consultation with the departmental internship coordinator to assess the student's progress. Normally, 50 hours of internship per credit is required. The grade for the course will be determined by the students' overall performance in their research work, a research paper documenting their work with their internship mentor and an oral or poster presentation at the end of the semester.

**Prerequisite(s):** 2.5 GPA and permission of the instructor.

**Chinese (CHI)****CHI 100 Chinese I 3 Credits**

This course is designed to foster mastery of the basic skills of Mandarin Chinese: speaking, listening, reading, and writing. The focus of the course is on communicative competency and accuracy. Together with Chinese 101, the course provides a thorough foundation in basic Chinese grammar. Students will have opportunities to work extensively with audio and/or video tapes, computer language programs and above all, students from China. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** placement test if Chinese has been studied elsewhere.

**CHI 101 Chinese II 3 Credits**

A continuation of Chinese 100. This course continues to foster mastery of the basic skills of Mandarin Chinese: speaking, listening, reading and writing. The focus of the course is on communicative competency and accuracy. Together with Chinese 100, the course provides a thorough foundation in basic Chinese grammar. Students will have opportunities to work extensively with audio and/or video tapes, computer language programs and above all, students from China. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** Chinese 100 or placement test.

**CHI 150 Chinese Culture and Basic Language 3 Credits**

This course integrates beginning-level functional Mandarin Chinese language skills acquisition with the knowledge of Chinese business practices and culture as well as hands-on information and strategies for successful inter-cultural encounters. Students gain practical basic language skills through classroom practice and the use of audio/video and computer materials. Readings, films, documentaries and lectures in English by members of the business community enable students to integrate language acquisition with practical cultural knowledge and cross-cultural awareness. Examination of Chinese customs highlights social relationships and cultural practices. No knowledge of Chinese language is required. This course does not fulfill the SLAS foreign language requirement.

**CHI 200 Chinese III 3 Credits**

This course is designed to foster mastery of the intermediate skills of Mandarin Chinese: speaking, listening, reading, and writing. The focus of the course is on communicative competency and accuracy. Together with Chinese 201, the course provides intermediate-level Chinese grammar, vocabulary and cultural knowledge through the use of film clips, simple newspaper articles, Internet, and other multimedia resources. Students are required to work extensively with audio and/or videotapes, computer language programs and they have a unique opportunity to work with students from China. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** CHI 101 or placement test.

**CHI 201 Chinese IV 3 Credits**

This course is designed to foster mastery of the intermediate skills of Mandarin Chinese: speaking, listening, reading and writing. The focus is on communicative competency and accuracy. Together with Chinese 200, the course provides intermediate-level Chinese grammar, vocabulary, and cultural knowledge through the use of film clips, simple newspaper articles, Internet and other multimedia resources. Students are required to work extensively with audio and/or videotapes, computer language programs and they have a unique opportunity to work with students from China. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** CHI 200 or placement test.

**CHI 300 Advanced Chinese Reading and Composition 3 Credits**

This course develops Chinese reading and writing skills within a cultural context and aided by a systematic review and expansion of grammar and vocabulary. Using literary, journalistic, business and other sources, students learn various writing discourses and their Chinese variants including narration, description, exposition, and journalistic, business documentation and letter writing. Some translation is used to encourage linguistic analysis. Interviews with Chinese foreign nationals, Chinese Americans, and working with students from China enhance the cultural understanding of students necessary for meaningful reading and writing.

**Prerequisite(s):** CHI 201 or placement test.

**CHI 307 Images of Women in Chinese Literature and Film 3 Credits**

This course will introduce students to the (change of) status of women in China through literature and film. Students will explore the rich Chinese literary traditions and examine how the images of women are represented by both male and female writers/directors in fiction and film of different historical periods. In the process of such exploration and examination, students will also examine how the literary movements and their historical, social, cultural and political contexts shape, and are shaped by, each other. They will learn to understand how diverse the experiences of Chinese women are. While students will be exposed to both classic and modern/contemporary literary traditions, the focus will be on the latter, such as May 4th New Culture Movement, Maoist revolutionary literature, (Post-Mao) wound literature, Root-Searching literature, etc. Classes are in English.

**CHI 310 Chinese Culture and Civilization 3 Credits**

This course introduces students to the history, people and culture of China. They will explore China's powerful dynasties and empire and their cultural and aesthetic achievements, and will learn about nationalism, Mao's revolutionary communism. They will study China's religions, calligraphic, pictorial and ceramic traditions, literature, Chinese opera and cinema. Through an examination of Chinese customs, students will gain an appreciation of social relationships and cultural practices. No knowledge of Chinese language is required.

**CHI 311 Calligraphy As a Window to Chinese Language and Culture 3 Credits**

This course provides students with a chance to gain an intimate knowledge of Chinese language and culture through calligraphy. Students will learn the basic principles and techniques of writing Chinese characters with the writing brush. They will be introduced to the pronunciation, the composition and evolution of Chinese characters so that they will be able to read and understand what they write. Students will also learn how calligraphy is immersed in various aspects of Chinese culture. The main content of the course derives from examining applications of calligraphy to poetry, painting, and core concepts of Confucianism, Daoism and Buddhism. They will have a chance to cross time and space, having dialogues with Confucius, experiencing Buddhist bliss of final "awakening" or "enlightenment" and abandoning themselves to the Daoist spontaneous flow with the movement of Nature and the cosmos. No knowledge of Chinese language is required.

**CHI 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

## College Reading (CRC)

**CRC 100 College Reading 3 Credits**

This elective course helps students develop greater skill and efficiency in meeting the demands of college reading. Primary emphasis is placed upon introducing, demonstrating, and practicing appropriate study strategies that will enhance overall academic performance. Instruction focuses on reading college textbooks more efficiently and effectively, improving comprehension and retention, and reading critically. Time management, note-taking skills, and other study strategies are introduced, demonstrated, and practiced. Reading and writing assignments complement and reinforce class instruction.

**Prerequisite:** Students with verbal SAT scores of 470 or ACT English score less than 21.

## College of Business (CBA)

**CBA 102 Career Plan & Perspective I 1 Credits**

In this course students will explore their own history, goals and values as input to their definition of success. The course will set the stage for the remainder of students' college career, and will encourage them to draw connections among their career goals, educational performance, extra-curricular experiences, and available resources.

**CBA 110 Introduction to Business 3 Credits****CBA 202 Career Plan & Perspect II 1 Credits**

In this course, students will build on their CBA 102 self assessments to identify specific occupations that match who they are and where they want to go. The course will provide students with the understanding of the changed nature of the current work and career environment they will be entering when they graduate from Rider. They will acquire career management skills and apply these skills to develop short and long term career goals and plans for achieving them while at Rider. The course will also touch on the intersection of work and family roles.

**Prerequisite(s):** CBA 102.

**CBA 302 Career Plan & Perspect III 1 Credits**

This one credit course will be targeted to second semester sophomores and juniors. In this course, students will build on their CBA 102 and 202 self assessments to develop strategies for a successful job search. The course will provide students with an understanding of the changed nature of the current work and career environment they will be entering when they graduate from Rider. They will acquire career management and job search skills and apply these skills to developing, networks, identify job search resources and enhance resume and interview skills. Students will understand how to research potential employers and translate their experiences into a successful job search strategy.

**Prerequisite(s):** CBA 102 and CBA 202.

**CBA 310 Global Business Studies-Paris 12-18 Credits**

A regular course load in an approved program at the Institut de Gestion Sociale Universite/American Business School in Paris, France. Courses will be selected from a list pre-approved by the global business program at Rider. All business courses are taught in English. Two of the regular courses for all students in the program will be French language and civilization courses.

**Prerequisite(s):** 2.5 GPA; junior standing; permission of global business program director and CBA dean.

**CBA 311 Global Business Studies-Paris 12-18 Credits**

A regular course load in an approved program at the Institut de Gestion Sociale Universite/American Business School in Paris, France. Courses will be selected from a list pre-approved by the global business program at Rider. All business courses are taught in English. Two of the regular courses for all students in the program will be French language and civilization courses.

**Prerequisite(s):** 2.5 GPA; junior standing; permission of global business program director and CBA dean.

**CBA 312 Global Business Studies-Paris 12-18 Credits**

A regular course load in an approved program. See director of global business major for details of any programs being offered abroad.

**Prerequisite(s):** 2.5 GPA; junior standing; permission of global business program director and CBA dean.

**CBA 313 Global Business Studies-Paris 12-18 Credits**

A regular course load in an approved program. See director of global business major for details of any programs being offered abroad.

**Prerequisite(s):** 2.5 GPA; junior standing; permission of global business program director and CBA dean.

**CBA 315 International Business Tour 3 Credits**

Provides students with the opportunity to observe various international business environments outside of the United States. Students should gain a better appreciation of how culture, history, and politics influence organizational dynamics, business functions, and business customs.

**Prerequisite(s):** Junior or senior standing and permission of instructor.

**CBA 316 Nature's Business 3 Credits**

This interdisciplinary business-science course examines the relationship between economic, legal, biological, and environmental concerns and analyzes how a particular country attempts to preserve its biological diversity without sacrificing its economic development. Topics include ecotourism and the biodiversity, geology, cultural norms, and legal and political systems of the country. The study tour component of the course provides students with an opportunity to observe various international business and scientific environments outside of the United States.

**Prerequisite(s):** Permission of instructor.

**CBA 317 Emerging Nations Study Tour 3 Credits**

Through readings, lectures, student-led discussions, guest speakers, and a short-term study abroad experience, students become familiar with the culture, history, religion, and political structure of an emerging country or region. This includes an overview of economic conditions and business practices, insights on doing business with the country or region, and the importance of the country or region in the global economy.

**Prerequisite(s):** junior or senior standing and permission of instructor.

**CBA 336 Career Planning 3 Credits**

How careers are shaped by individual needs and experience and assisted by organization systems and practices is the focus of this course. The meaning of work and the development of careers are discussed, and careers are examined in the context of important changes occurring today in the world of work. Students undertake self-assessments, learn career search strategies and resources, and enhance resume and interviewing skills to maximize their career preparation.

**CBA 366 Selected Topics in Business 3 Credits**

The study of a topic (or combination of topics) that represent some dimension of business or has important implications for business. This study may be theoretical and/or applied in nature.

**Prerequisite(s):** Permission of instructor.

**CBA 367 Selected Topics in Business 3 Credits**

The study of a topic (or combination of topics) that represent some dimension of business or has important implications for business. This study may be theoretical and/or applied in nature.

**Prerequisite(s):** Permission of instructor.

**CBA 368 Selected Topics in Business 3 Credits**

The study of a topic (or combination of topics) that represent some dimension of business or has important implications for business. This study may be theoretical and/or applied in nature.

**Prerequisite(s):** Permission of instructor.

**CBA 369 Selected Topics in Business 3 Credits**

The study of a topic (or combination of topics) that represent some dimension of business or has important implications for business. This study may be theoretical and/or applied in nature.

**Prerequisite(s):** Permission of instructor.

**CBA 399 CBA Co-Op 6 Credits**

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include junior and senior business students with a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in the major. Co-op credits can be applied toward business or free elective requirements. Grading is on a pass/fail basis.

**Prerequisite(s):** All 200 level business core and non business core courses, BUS 300, and FIN 300.

**CBA 410 Intercultural Communic Sem I 2 Credits**

The seminar provides non-U.S. native students with a supportive forum for discussing intercultural and communication challenges. The course seeks to make the Rider experience personal and academically fulfilling and successful. The specific course objectives include providing information about culture transitions and differences, providing cultural information and enhanced communication skills, reflecting upon and analyzing culture communication differences inside and outside of the classroom, and building study cases to help future international students with their transition and adaptation to U.S. life. Pass/fail.

**Prerequisite(s):** Permission of instructor.

**CBA 411 Intercultural Communic Sem II 1 Credits**

The seminar provides non-U.S. native students with a supportive forum for discussing intercultural and communication challenges. The course seeks to make the Rider experience personal and academically fulfilling and successful. The specific course objectives include providing information about culture transitions and differences, providing cultural information and enhanced communication skills, reflecting upon and analyzing culture communication differences inside and outside of the classroom, and building study cases to help future international students with their transition and adaptation to U.S. life. Pass/fail.

**Prerequisite(s):** Permission of instructor.

**CBA 490 Independent Research and Study 1-4 Credits****CBA 491 College of Business Internship 1-4 Credits**

Provides students an opportunity to supplement and apply classroom work in supervised employment with participating businesses, government offices or not-for-profit organizations. Requirements are to be determined by the faculty sponsor prior to the period of the internship and must include an academic component, preferably a written paper of project. There must also be a final evaluation from the organization on the intern's performance.

**Prerequisite(s):** Permission of instructor.

**Communication-UG (COM)****COM 102 Introduction to News Writing 3 Credits**

Introduces students to routines of journalism, including reporting, writing and preparing content for print and web. Incorporates contemporary practices in multimedia journalism, including digital audio, video and photos, into traditional skills, with an emphasis on accuracy, clarity and professional style and voice. Class exercises are completed in a laboratory newsroom.

**COM 103 Introduction to Communication Studies: Theory & Practice 3 Credits**

Provides a foundation for the study of communication across the discipline. Open to freshmen only, it is designed to assist the first year student majoring in communication or journalism to gain a broad understanding of the scope and breadth of the field. Fundamental communication theories, principles, concepts, terms, and issues are introduced.

**COM 104 Speech Communication 3 Credits**

Examines basic communication principles and strategies of public speaking. Various genres of oral communication are studied, with an emphasis on extemporaneous and impromptu forms of delivery. Students research, prepare, and deliver speeches that are then used as the focal point for the discussion of effective speaking and listening. A number of speeches are videotaped. Students who received credit for COM 104S may not take this course. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**COM 104S Intro to Speech Communication 1 Credits**

As part of the EOP program, this course is designed to improve the speaking and language skills of new college students. Through directed practice, students have the opportunity to develop poise and confidence in oral communication, as well as competence in analyzing and synthesizing messages. Emphasis is placed on development, organization, and delivery of speeches. To receive credit, a grade of "C" or higher must be earned. Students who receive credit for COM 104S may not take COM 104.

**COM 105 Communication, Culture and Media 3 Credits**

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**COM 106 Writing for the Communication Professions 3 Credits**

Provides students with written communication writing strategies and tools. Applies theory and practice in communication to targeted audiences. Emphasizes the critical role writing plays in the communication workplace and provides an opportunity to evaluate and respond to real-life writing samples and situations.

**COM 107 Writing for the Media 3 Credits**

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

**COM 131 Fundamentals of Video Production 3 Credits**

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

**COM 201 Communication Theory 3 Credits**

Explores selected theories, models, and research methods in human communication, the dynamics of the communication process in various settings, and the role of communication in human interaction.

**COM 203 Introduction to Social Media 3 Credits**

Introduces the tools and techniques of social media as an effective means of communication in a variety of organizational settings. Students will practice with a variety of social media platforms, explore the roles and responsibilities of a social media manager, discuss the importance of establishing social media policies, and learn how to develop a social media strategy as well as how to measure its effectiveness through social media analytics. In addition, students will discuss important issues such as how to handle an online crisis, and the legal and ethical implications of digital communication.

**COM 204 Advanced Speech Communication 3 Credits**

Provides students with the opportunity to further their study and practice of various types of speech communication. Moving beyond an introductory perspective, this course focuses on the development of critical, analytical, and pragmatic aspects of speech. The focus is divided between the discussion of theoretical models and a demonstrated competence of that material.

**Prerequisite(s):** COM 104 or COM 290.

**COM 205 Theories of Persuasion 3 Credits**

Analyzes the motivations that lead individuals and audiences to beliefs and actions and the techniques of achieving objectives through persuasion. Attention, interest, empathy, ethos, fear, and techniques of speakers, and those who use persuasion professionally are studied.

**COM 207 Social Media and Social Change 3 Credits**

Introduces students to Web/ social media tools and information distribution networks that have enabled people to mobilize new types of collective action, inform publics and advocate positions. Community production and sharing of knowledge (Wikipedia), culture (YouTube, Flickr, the blogosphere), and political organizing (colorofchange.org) are current manifestations of social changes that are continuing to bloom in the 21st century. In this course, Rider University students will become literate in active Web and social media participation with a focus on engaging with current social, political and cultural issues.

**Prerequisite(s):** COM 201 or COM 205.

**COM 210 News Reporting and Writing 3 Credits**

Develops skills in hard-news reporting. Employs off-campus reporting assignments to refine information-gathering techniques such as interviewing, observation, and use of government documents and other contextual materials. Includes reporting and writing about police news, state and local government, the criminal justice system, science, business, and sports.

**Prerequisite(s):** COM 102.

**COM 211 Copy Editing 3 Credits**

Teaches all phases of copy editing for news and public relations: marking of copy, online editing, fact checking, building and shaping news and feature stories, applying mechanical style, building an ear for graceful English, and safeguarding against legal and ethical problems. Provides comprehensive review of grammar, spelling and punctuation, along with intensive practice in writing headlines and captions and editing wire copy.

**Prerequisite(s):** COM 102.

**COM 212 Digital Publication Design 3 Credits**

Students will explore the relationships between theory and practice, tradition and innovation, history and ever changing technological and aesthetic trends in publication design. Students will learn to use graphic image and typography as design elements in print media, such as newspaper and newsletter, as well as online media, such as e-magazine and e-book. Students will also learn the interactivity design for online publications. The course directs students to apply these concepts and skills to the production of published materials with digital publishing systems.

**COM 213 Typography 3 Credits**

Introduces students to the basics of typographic techniques and design aesthetics and provides an overview of the basic fundamentals of type design as they apply to graphics, advertising, the arts, and other areas of visual communication. The course focuses on how typography can be used as a communicative device as well as a graphic, compositional, and expressive element.

**COM 220 Voice and Articulation 3 Credits**

Increases the student's knowledge of the vocal elements of oral communication and improves use of voice and articulation. Introduces anatomy and physiology for enhanced vocal production. Analyzes volume, rate, pitch, quality, phrasing, stress, and inflection. Presents the International Phonetic Alphabet as a means of developing correct articulation and pronunciation. Uses classroom exercises and tape recording for feedback and learning.

**COM 221 Speaking for Broadcast and New Media 3 Credits**

Introduces the principles and techniques of speaking in traditional and digital media through the preparation and presentation of copy for live television and radio as well as recorded video and audio for the web. Students will apply the principles and techniques to a number of contexts including television and radio news, music and sports announcing, interviewing and talk programs, as well as public service announcements.

**Prerequisite(s):** COM 104 or COM 290.

**COM 230 Radio & TV Communication 3 Credits**

Examines the field of electronic communication and its role in society. Scrutinizes the history, technology, structure, and regulation of broadcasting including issues, trends, and the impact of new communication technologies. Introduces basic principles of effective communication in broadcast writing and producing.

**COM 231 Film and Television Special Studies 1 Credits**

Course descriptions will vary from topic to topic. This course will be offered Pass/Fail.

**COM 233 Writing for Broadcast 3 Credits**

Introduces diverse and highly structured writing styles and formats used in writing for broadcast. With focus on effective and creative writing using broadcast style, students will be exposed to the fundamentals of writing dramatic and non-dramatic material for radio and television including station IDs and liners, public service announcements and commercials, news and public affairs programs, and short dramatic and documentary scripts. Through lectures, case discussions, in-class assignments, and critiques, emphasis will be on the practical application of basic rules and conventions common to broadcast writing from copy preparation to on-air delivery.

**COM 234 Audio Production 3 Credits**

Provides a laboratory study of audio production techniques, and performance. Introduces the fundamental properties of sound as applied in modern audio production at radio and television stations, sound studios, and production houses. Students conduct lab exercises in editing, mixing, and digital recording using ProTools. Students perform a variety of genres including news, commercials, dramas, and promos.

**COM 235 Digital Filmmaking 3 Credits**

This course will provide students with an introduction to basic narrative film production including theories, techniques and applications. Students will gain competency in a number of film production areas including: idea generation and scripting, production planning, cinematography, lighting, sound and digital editing. Working as individuals and in groups, students will develop and produce short narrative film projects. Students will continue to develop proficiency and mastery of the use of specialized vocabulary of the film industry as well as the ability to analyze film and its narrative structure. In addition students will break down the "narrative" focusing on genre conventions and subtext. Students will additionally examine the relevance of film to society while developing proficiency and mastery in the study of how to create film projects.

**COM 236 The Aesthetics of Filmmaking 3 Credits**

Introduces students to basic terminology, techniques, theories and criticism commonly used in digital filmmaking. Through lecture, class discussion and screenings, students will learn how film theory, criticism and aesthetics impact the filmmaking process. Students will review and analyze films of different genres; the different approaches adopted by filmmakers; and the various elements and techniques that contribute to the creation of powerful and effective films. Aesthetic elements such as production design, mise en scene, cinematography, lighting, editing, sound design and script development will be introduced and practiced.

**COM 237 Rhetoric in the Digital Age 3 Credits**

Focuses on the critical examination of the major public discourses in digital media. Students will learn classical and modern rhetorical theory such as Aristotle's Rhetoric, power, publics and counterpublics, and argumentation. Students will apply these theoretical aspects to critically engage digital texts such as memes, emojis, hashtags, trolls, blogs/reviews, and video game narratives.

**COM 238 Screenplay Fundamentals 3 Credits**

Screenplay Fundamentals will instruct students in how to write for the screen. Students will learn how to convey story and character through the medium of film and television, how to write effective dialogue, and understand the basics of dramatic writing and scene structure.

**Prerequisite:** COM 131.

**COM 240 Public Relations 3 Credits**

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

**COM 251 Interpersonal Communication 3 Credits**

Focuses on the study of various communication concepts and theories and the development of interpersonal skills and sensitivities. More specifically, students will participate in lectures, exercises, and projects while exploring the role and function of relationships in their professional, social, and personal lives.

**COM 252 Intercultural Communication 1.5-3 Credits**

Develops intercultural communication competence through an awareness and understanding of diverse cultures and their impact on communication. It will introduce students to those general factors that influence communication with people from diverse cultures both internationally and within the United States, and offer a blend of skill development, communication theory, and hands-on application. Note: This course is crosslisted as GLS 252. Students may not get credit for both COM 252 and GLS 252.

**COM 253 Organizational Communication 3 Credits**

Focuses on the ongoing communication processes in organizations. This course examines how and why organizations develop policies and procedures that both encourage and yet constrain creativity and autonomy in employees. It also introduces various management skills to balance the dynamic in organizations. Finally, the course introduces students to various communication technologies that enable communication processes in organizations. Students will also have opportunities to participate in creating organizational dynamics through role-playing exercises, case studies, and other kinds of experiential learning.

**COM 254 Intro to Health Communication 3 Credits**

Health communication has been shown to have a positive impact on a number of facets of the medical visit, including patient outcomes, patient satisfaction, and job performance and satisfaction. This course will provide students with tools to implement health communication practices in a healthcare setting in order to improve these areas. In addition, health communication is particularly useful in cross-cultural situations, both in regard to the patient-provider relationship, when the ethnicities of the two parties may be different, and when cultural beliefs may impact a patient's medical wishes. Part of the tools for implementing health communication into the practice setting includes an understanding of the role that culture can play in healthcare and the development of strategies to provide optimal medical care while also respecting cultural intricacies.

**COM 261 Introduction to Web Design 3 Credits**

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

**COM 262 Graphic Imaging for Digital Media 3 Credits**

Teaches students techniques for image development, and image preparation for various multimedia applications. Emphasis is placed on color calibration and palette issues, image manipulation, advanced image selection techniques, transparency and masking, multimedia authoring file formats, and dynamic image design. Students will be expected to participate in critiques of professional designs in order to learn to critically evaluate their work and their fellow students' work.

**Prerequisite(s):** COM 261 or permission of instructor.

**COM 263 History and Principles of Graphic Design 3 Credits**

Covers the history and principles of graphic design from analog art through the digital revolution. The elements and principles of design will be used to study stylistic progressions, artistic techniques, design innovations, and mechanical inventions. Material will be presented through a combination of illustrated lectures and discussions.

**COM 264 Intro to Media Convergence 3 Credits**

Introduces the ways that the merging of media industries and the intersection and integration of various media platforms and technologies impact our lives. While the primary focus will be on digital and mobile technologies and practices, the course will also cover the convergence of digital technologies in a wide range of media areas, including journalism, social media, television and entertainment. The course will offer students broad conceptual frameworks for thinking about how the emergence and evolution of digital as well as mobile communication technologies have changed the communication and journalism industries and how they are reshaping content. In addition, the course is intended to allow students to use different digital communication technologies.

**COM 265 3D Graphic Animation 3 Credits**

Provides students with an introduction to the basics of 3D graphic animation techniques including modeling, texturing, rendering, visual effects and animation. Through various projects the students will learn: to model characters, sets and props, how to apply textures and color to their models, and how to bring their creations to life using various animation techniques. In addition to the technical aspects of creating successful animation, the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation, dramatization and narrative.

**COM 270 Sports Multimedia Reporting 3 Credits**

COM 270 Sports Multimedia Reporting. Develops skills in hard-news sports reporting, game coverage, and the production of introductory multimedia and social media sports content. Employs out-of-the-classroom reporting assignments to refine information gathering techniques such as interviewing, observation, and use of documents and other contextual materials. Includes reporting and writing on sports games, teams, players, coaches, athletic issues/controversies, and the business of sports.

**Prerequisite(s):** COM 102. Introduction to News Writing.

**COM 280 Issues in Event Planning 3 Credits**

Offers students education in event planning, production, and supervision for varied professional applications. Emphasis will be placed on planning, budgeting, and organizing small and large events for educational, institutional, non-profit, and professional groups. Students will participate in the entire process of event planning, with specific experiences in applying communication theory to actual projects.

**Prerequisite(s):** COM 240 or MKT 200.

**COM 290 Professional/Strategic Speech 3 Credits**

Provides students with practical information necessary for effective communication in various business and professional settings. Covers communication processes, principles, and models in the modern organization. Class assignments are given with emphasis on developing a knowledge and practical understanding of informative, persuasive, and impromptu presentations. Limited to students enrolled in the College of Business Administration.

**COM 291 Documentary Film and Video 3 Credits**

Surveys the history of documentary film, including reportorial, exploratory, persuasive, symphonic, compilational, reflexive, and fictional traditions through screenings, lectures, and readings. Provides practice in film criticism. Explores philosophical questions about the relationship between non-fiction films and videos and the reality they purport to record. Analyzes ethical problems of filmmaking.

**COM 292 Content for Social Media 3 Credits**

Focuses on creating social media content that will inform, entertain, and engage audiences within a variety of organizational and business contexts. Students will learn about message planning for specific platforms and creative ways to use digital content to support public relations, branding, customer, and media relations.

**COM 295 Cinematography I 3 Credits**

This course introduces the art of cinematography from historical, aesthetic and practical perspectives. Students will learn the principles of cinematic composition, lenses, lighting, and camera operation while studying the work of great cinematographers in film history.

**Prerequisite(s):** COM 131.

**COM 301 Communication Law 3 Credits**

Critically examines the legal limits and privileges affecting freedom of expression, especially in publishing, advertising, film, telecasting, and cyberspace. Places particular emphasis on the historical and philosophical foundations of the freedoms and limitations of communication in the United States.

**COM 302 Communication Ethics 3 Credits**

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

**COM 304 Rhetoric for Politics and Law 3 Credits**

Introduces the theory and strategy of crafting persuasive messages and cultivating relationships with the media in the context of judicial, deliberative, and epideictic genres of rhetoric. In addition, students will learn how to plan and coordinate media briefings and how to prepare and participate in a media interview.

**Prerequisite(s):** COM 104 or COM 290.

**COM 312 Special Topics in Journalistic Writing 3 Credits**

Provides students with the opportunity to explore specialized topics in journalistic reporting and writing. Each course will focus on a specific area in the broad field of journalism. Examples include business reporting, health reporting, and sports reporting.

**Prerequisite(s):** COM 102 or COM 107.

**COM 315 Computer Assisted Reporting 3 Credits**

Develops advanced reporting techniques for researching and writing in-depth news stories and investigative articles. Uses state-of-the-art computer-assisted reporting methods including finding and mining data bases on the Internet, creating spreadsheets to analyze data, and employing data base manager software to sort and summarize information in government documents and other specialized resources. Focuses on conceptualizing of story ideas, planning major projects, gathering information by means of data bases, participant-observation, interviews, and analysis of public documents. Emphasizes organizing large quantities of material and presenting it in a meaningful context, including with information graphics.

**Prerequisite(s):** COM 210 or permission of instructor.

**COM 316 Feature Writing 3 Credits**

Focuses on problems and requirements of newspaper, magazine, public relations, and free-lance nonfiction writing. Students write features designed for acceptance in print, broadcast and digital media and learn marketing techniques.

**Prerequisite(s):** COM 102 or COM 107, English writing concentration, or permission of instructor.

**COM 318 Gender and Communication 3 Credits**

Focuses on interactive relationships between gender and communication in contemporary American society. It connects theory and research with practice to explore multiple ways communication in families, schools, media, and society in general creates and perpetuates gender roles. It is designed to heighten students' awareness of how we enact socially created gender differences in public and private settings and how this affects success, satisfaction, and self-esteem. Note: This course is crosslisted as GND 318. Students may not get credit for both COM 318 and GND 318.

**COM 322 Argumentation and Advocacy 3 Credits**

Investigates the theory and practice of speech communication that seeks to persuade by inferential argumentation. Concentrates on theories, practices, and research in argumentation and debate, blended with speaking experience in analyzing and advocating controversial topics.

**Prerequisite(s):** COM 104 or COM 290.

**COM 323 Oral Interpretation of Literature 3 Credits**

Provides an orientation to the field of oral performance. Students select literary texts, adapt the material to the audience and prepare it for presentation. Emphasizes the development of voice, articulation, and kinesic behavior. Presentations to the class are critiqued.

**Prerequisite(s):** COM 104 or COM 290 or permission of instructor.

**COM 325 Rhetoric of American Labor 3 Credits**

This course examines speeches, tracts, lyrics, newspapers, posters, poems, and films of the labor movement in America. The course also examines the historical context of the labor movement to better understand and appreciate the public discourse of labor. The course explores how rhetoric has been used to give force to ideas and lead to actions, how we develop a sense of how the values and norms of our society were reflected and shaped, and we understand how that history influences our collective perception in the present. Special attention is paid to the nature and locus of power, the interplay of conflict and confrontation, and the speaker's attempt to maintain or change the allocation of that power.

**COM 328 Sitcoms and American Culture 3 Credits**

Provides an overview to the unique and highly structured form of the American television situation comedy. The primary focus will be on history and development with in-depth study of situation comedy themes, characters, and settings. Through lectures, case discussions, in-class assignments, and class projects, students will examine the social and cultural meanings and implications of this incredibly popular and durable genre of programming.

**COM 330 Documenting Cultures Through Travel 3 Credits**

Offers students, through travel and study, a unique opportunity to gain firsthand experience of a foreign culture and to learn how to record and document their experiences using multiple media, including print, audio, video, photography and/or the Web. While traveling, students will be required to attend lecture/discussion sessions, site tours, and other planned activities. This experience will be preceded and/or followed by additional academic work to be conducted on campus. Study topics may include aspects of the historical, social, economic, political and aesthetic cultural components appropriate to the location(s) to be visited. The travel component of the course will be scheduled to avoid conflict with normal semester offerings. No foreign language skills are required.

**COM 331 Television Production 3 Credits**

Explores the technological capabilities and limitations of the television medium in team productions using a range of styles and formats. Students learn principles of studio production, electronic field production, and electronic news gathering. Exercises include use of computer graphics, audio production, and non-linear video editing. Stresses electronic communication skills and aesthetic values in a professional production setting.

**Prerequisite(s):** COM 131 or COM 230.

**COM 333 Broadcast Programming 3 Credits**

Analyzes the theory, practice, structure, and function of broadcast programming. Examines the structure of the industry as it relates to entertainment, information, and the audience. Studies program categories, formats, genres, trends, consistency, accountability, and ratings as well as cable, satellites, and home video. Critical standards are developed by introducing humanistic and scientific modes of program analysis.

**Prerequisite(s):** COM 230.

**COM 335 Television Field Production 3 Credits**

Provides an in-depth study of advanced techniques in Field Production for television. Individual and group field production assignments will involve planning and executing single camera production in a non-studio setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit documentaries.

**Prerequisite(s):** COM 331.

**COM 337 Music Production for Mass Media 3 Credits**

Offers students education in audio production techniques for music and other advanced audio material. Building on theory and practice introduced in the prerequisite, the class will instruct students in the theory behind acoustics and electronics as well as the digital tools and media. Those theoretical studies will be put to practice through exercises in recording music, making selections from music libraries, multi-track recording, arranging, editing, mixing and mastering. Students will begin to develop both an engineer's attention to audio detail and a musician's sense of artistry. Putting these skills to use, the students will produce complete musical works of varying musical styles, working both individually and in teams.

**Prerequisite(s):** COM 234.

**COM 338 Writing for Broadcast II 3 Credits**

Building on COM 233 Writing for Broadcast, this course provides a hands-on approach to more sophisticated reporting and interviewing techniques and writing formats used in long-form radio and television programs. This course will expose students to the following broadcast script writing areas: features, documentaries and reality programs. It will also cover writing for interview/talk show programs, music, comedy and variety programs. Students will also be exposed to writing for corporate, educational and children's programming. Students will have hands-on experiences writing, producing and editing news pieces and webcasts for student and area media outlets and web sites.

**COM 339 Developing The Feature-Length Script 3 Credits**

Developing the Feature Length Script will instruct students how to write a full-length film or television program. Students will learn the mechanics of 3-act and 7-act structure, and during the course they will develop a logline, synopsis, treatment, and sample scenes of a full-length project.

**Prerequisite(s):** COM 238.

**COM 341 Publicity Methods 3 Credits**

Applies communication theory to writing and editorial processes and production techniques to create public relations materials; includes press releases, industrial publications, social media, trade publications, brochures, newsletters, stockholder reports, and multimedia platforms.

**Prerequisite(s):** COM 107, COM 240, or permission of instructor.

**COM 347 Sports Communication 3 Credits**

Critically examines the symbiotic relationship between the mass media and professional sports franchises and major college athletic programs. This course deals with the workings and processes behind executing the proper techniques of sports information and media relations, as well as an analysis of the culture of sports in modern society. Students will develop a practical focus on sports information and promotion, including the role of the sports information director and events promoter, with emphasis on advanced concepts of public relations, publicity and marketing.

**Prerequisite(s):** COM 240 or permission of instructor.

**COM 348 Communication Research Methods 3 Credits**

Introduces students to the research methods used to study communication problems and processes. Students will learn how researchers plan and design research studies, explore the methodological considerations of both qualitative and quantitative methods, and have an opportunity to gain hands-on experience in conducting research on communication-related issues.

**Prerequisite(s):** COM 105.

**COM 350 Team & Group Communication 3 Credits**

Examines the communication process as it relates to the small group. Theoretical constructs including motivation, group climate, attraction, leadership, decision making, problem solving and roles are analyzed. Utilizes group experience to study and evaluate the dynamics and effectiveness of interpersonal systems.

**COM 352 Chinese and American Intercultural Communication 3 Credits**

Instructs students about Chinese culture and communication. Culture impacts communication practices and styles in significant and subtle ways. Through readings, lectures, discussions, and first-hand interactions with Chinese international students, the students of this course will gain both conceptual and practical understanding of major communication differences between the two cultures, and become a more skilled intercultural communicator. Note: This course is crosslisted as GLS 352. Students may not get credit for both COM 352 and GLS 352.

**COM 353 Nonverbal Communication 3 Credits**

Investigates studies in and theories of nonverbal communication. Lectures and experiential activities explore the effect of status, culture, and gender upon kinesics, physical characteristics, proxemics, tactile communication, paralanguages, artifacts, and environmental factors.

**Prerequisite(s):** COM 104 or COM 290 or permission of instructor.

**COM 360 Advanced Publication Design and Presentation 3 Credits**

Builds on elementary knowledge of graphic design to teach the principles of advanced layout, and computer graphics. Introduces students to industry standard drawing software and builds on their knowledge of layout software gained in the prerequisite course. Provides an understanding of the use of logos, infographics and magazine layout, and of the theoretical bases of color for print production.

**Prerequisite(s):** COM 212.

**COM 361 Photography 3 Credits**

Using digital SLR cameras, introduces students to professional methods of shooting varied subjects while applying a range of compositions and styles. Using Photoshop, students edit images for publication in print and on the Internet. Hands-on coursework is grounded in theory, history, aesthetics, and ethics. Some cameras are available for loan from the University.

**COM 363 Converging Digital Media 3 Credits**

Examines the digital technologies that make up the new world of digital convergence. The course will examine the effects of digital media convergence on social life, ethics, industry, and local and global communities through a variety of theories and paradigms. This course will also help students develop necessary digital media production skills and use them critically to solve media development problems.

**COM 364 Web Design II 3 Credits**

Equips students with the theories and practical techniques required to produce effective digital text, graphics, and animations for the Web. Discusses theories behind the use of these media in terms of effective communication and interaction. Introduces students to different computer platforms and requirements for cross-platform media.

**Prerequisite(s):** COM 261 or permission of instructor.

**COM 365 Graphic Animation 3 Credits**

Offers students education in graphic animation theories, animation development techniques, and animation preparation for various multimedia applications. Emphasis is placed on the design principles in animated communication and animation techniques. The course covers the integration of static images in animation, graphic animation techniques, animation compression, animation rendering, input/output file formats, and animation delivery. The primary software for this course is Adobe Photoshop and MacMedia Flash. Students will be expected to participate in critiques of professional animation designs in order to learn to evaluate critically their own work and their fellow students' work.

**Prerequisite(s):** COM 262 or permission of instructor.

**COM 366 Project Management in Graphic Design 3 Credits**

Explores the creative process of graphic design while developing an understanding of the methods employed in problem solving in the industry standard design software packages. Students learn how to create a hierarchy of information through the ordering of elements into a comprehensive visual unity. They consider the relationship between content and page size, proportion, grid and margins. Students learn about typography as a design element and how it works with other visual elements in design. In order to develop an understanding of the project-planning process for either printer or Web projects, students will develop and present a series of projects that will build on one another to develop their "visual voice." Students will be evaluated on their ability to apply course material to the projects to create professional-quality work; their ability to apply exchange ideas and accept and apply constructive criticism; and on their participation in class discussions, critiques and presentations.

**Prerequisite(s):** COM 262, COM 360.

**COM 367 3D Graphic Animation II 3 Credits**

Continue to learn the techniques of 3D computer animation including modeling, texturing, rendering, visual effects and animation. In addition to the technical aspects of creating successful 3D animation the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation.

**Prerequisite(s):** COM 265.

**COM 370 Sports Television and Field Production 3 Credits**

Provides an in-depth study of advanced techniques in sports field production for television. Individual and group field production assignments will involve planning and executing single camera production in a sports setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of sports field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit sports content.

**Prerequisite(s):** COM 131.

**COM 371 Sports Feature Writing 3 Credits**

Focuses on developing reporting and writing skills for newspaper, magazine, public relations, and free-lance nonfiction sports writing. Students will study published examples of outstanding sports feature writing, and write their own sports feature articles with social media and multimedia components. Instead of traditional game coverage, this course focuses on covering sports personalities, issues and themes.

**Prerequisite(s):** COM 102, COM 270.

**COM 380 Television Production Practicum 3 Credits**

Provides a workshop dedicated to the planning and creation of professional caliber television content for the campus television network and beyond. This course will provide an opportunity for students to develop writing, graphic, audio, video design and production skills in an experiential setting. Students will create materials to be used by the Rider University Network and for broadcast, cable and Internet distribution. Students can be involved in any and all phases of creating content from project conception through implementation. Students will gain valuable experience with, a greater appreciation for, and increased competency in creating professional media content. This class will also prepare students to more effectively function in the communication industry as an effective member of a professional production team. Since topics will vary by semester and instructor, this course may be repeated once.

**Prerequisite(s):** permission of instructor.

**COM 390 Communication and Society 3 Credits**

Examines in a topical manner the influence of communication upon significant issues and movements affecting people and society. Investigates interpersonal and mass media factors as they relate to a major issue such as changing sex roles, radicalism, racism, evangelism, election campaigns, and technology. May be taken more than once with different emphasis.

**COM 391 Communication Criticism 3 Credits**

Investigates and analyzes various methods of communication criticism and their applications to the understanding and evaluation of public and media discourses. Introduces theories and perspectives to assist in the analysis of those discourses. Methods include Aristotelean, Burkean, and ideological criticism.

**COM 392 Media History: Personalities and Trend 3 Credits**

Presents in a topical manner the history of the media from various perspectives, seeking to place the material into a meaningful economic, cultural, political, and/or social context. Different issues and related individuals are examined, such as the golden age of radio, motion picture economics, and media empire builders, with a view toward understanding their significant impact on the development and functioning of the media today. This course may be taken more than once with a different emphasis.

**COM 393 International Communication 3 Credits**

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is crosslisted as GLS 393. Students may not get credit for both COM 393 and GLS 393.

**COM 394 Social Media Capstone 3 Credits**

A client-based social media campaign will be developed from conception to evaluation based on research and digital media strategies. Focus will be on engagement with audiences, managing social media, and evaluation using social media metrics. As the capstone course, this is the last course that students take in the Social Media Strategies Minor or Certificate program through CCS. Permission of department required. Prerequisites: COM 261 & COM 292.

**COM 399 The Co-Operative Experience 3-12 Credits**

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. Prerequisite(s): junior standing and 2.75 GPA at the time of registration; Pass/fail.

**Corequisite(s):** IND 398 The Co-operative Experience Seminar, IND 398 and (dept) 399 combined cannot exceed 15 credits.

**COM 400 Senior Seminar Communication 3 Credits**

Provides students with the opportunity to explore critical issues in communication and journalism in a dynamic and engaging context. Students conceptualize problems, develop hypotheses, review literature, design appropriate techniques of inquiry, conduct their research, and present their findings orally to the seminar and in writing to the instructor. Senior journalism and communication majors only.

**COM 402 Directing for Film 3 Credits**

This course approaches directing both creatively and critically, and examines the role and importance of the director to the filmmaking process. The transformation of the written script into a film is explored through readings, viewing and analyzing the films of accomplished directors. Lectures and exercises illustrated with film clips and readings emphasize plot development, script analysis, developing storyboards and shot lists, rehearsal, blocking, collaborating with talent and production crew, and using the camera to effectively capture action and performance. Students will gain an effective understanding of the role of the director through the various stages of film production, and be provided the opportunity to demonstrate and cultivate his/her effectiveness as a director through individual and group assignments.

**Prerequisite(s):** COM 235 and COM 338.

**COM 415 In-Depth Reporting 3 Credits**

Utilizes advanced tools and techniques of contemporary in-depth reporting for print and multimedia. Covering multifaceted stories, students will learn how to do balanced multi-sourced field reporting and writing using primary and secondary sources including human sources, electronic documents and databases, both online and offline. Emphasis will be placed on writing stories that answer not only who, what, when and where questions but also the why, the how and the "so what?" questions. Students will also be exposed to some of the best investigative work of journalists past and present as models for analysis and discussion.

**Prerequisite(s):** COM 210.

**COM 431 Adv TV Research & Production 3 Credits**

Explores the theoretical and practical application of aesthetic technique in modern television/video production situations. While the prerequisite courses emphasized competency in equipment operations and basic production skills, this course moves to a higher platform by emphasizing concepts of production and how to apply them for effective communication. Thus this course places emphasis on advanced techniques: design and aesthetics as applied to enhance the overall video presentation as practiced in both the commercial and organizational communication arenas. In the current state of the art of video production, a mastery of aesthetic skills is necessary for the effective expression of ideas in optimal fashion and for a variety of audiences. Students will be exposed to as many techniques as practical through class discussion (including heavy participation by the student), individual and group lab activities and contact when possible with current practitioners and equipment. As most television production is done for a client, that process will form the basis for much of the course discussion and activities including projects.

**COM 434 Advanced Radio Production 3 Credits**

Provides in-depth study of advanced techniques in audio recording and radio programming and production. Individual and group production of short and long-form radio projects including: promotional spots, features, music programming, and news. Students will be involved in all phases of programming and production for radio including: project conception, development, management, and implementation. Selected student projects will air on the student radio station, 107.7 The Bronc.

**Prerequisite(s):** COM 234.

**COM 435 Advanced Digital Filmmaking 3 Credits**

This is an intensive hands-on course in advanced digital filmmaking. Students will gain experience with and proficiencies in a number of filmmaking areas including: creativity, production planning, aesthetics, scripting, script breakdown, camera movement, selecting and directing talent, creating scenes and sequences, visualizing action, establishing mood and conflict, as well as advanced lighting, sound and digital editing techniques. The students' use of high definition digital imaging systems as a medium for narrative cinematography will be developed and refined. In addition, students will explore how filmmaking techniques and technology can impact the visual story telling process. While often working cooperatively in groups, modeling the interdependent structure of film crews today, the creative and leadership role of the director in the contemporary film industry will be emphasized. Throughout the class, there will be an important integration of theory and practice which will enable students to produce meaningful film projects that will not only be technically effective, but strong in content and context as well.

**COM 440 Cases & Campaigns in Public Relations 3 Credits**

Critically analyzes public relations case problems in industry, labor, education, government, social welfare, and trade associations. Emphasizes problem solving through the use of communication theories, public relations techniques, creative thinking, and the development of professional goals and standards. Employs realistic simulation exercises and actual case studies to develop and critique students' ability to demonstrate this knowledge in professional situations.

**Prerequisite(s):** COM 341 or permission of instructor.

**COM 452 Seminar in Communication Studies 3 Credits**

Offers an in-depth investigation of relational communication. Students explore the many complexities involved in human interaction and interpersonal dynamics. Social and psychological implications of various communicative relationships ranging from cross-gender communication to dysfunctional family systems to intercultural interactions are included. **Prerequisite(s):** COM 348, COM 350, or permission of instructor.

**COM 460 Web Design III 3 Credits**

Builds on previous courses to refine students' understanding of theories and procedures of digital media development. Further develops Web site creation and project management theories. Students develop advanced Web creation techniques, including responsible site production. **Prerequisite(s):** COM 364.

**COM 462 Advanced Graphic Design and Portfolio 3 Credits**

Explores the processes of graphic design by creating independent and creative solutions to a series of design problems. Students expand their proficiency in all aspects of the design process, including creative brainstorming, conceptualizing, critical thinking and presentation. Students take a design project to both print and digital formats using Photoshop, Illustrator, and InDesign. Students develop and present a balanced portfolio as the culmination of their experience in the course. **Prerequisite(s):** ART 103, ART 105, COM 262, and COM 360.

**COM 470 Live Sports Reporting Capstone 3 Credits**

Focuses on student production of live, professional-level sports media content. Students will combine reporting, writing, social media and multimedia from live sporting events. Live-coverage will include Rider University teams and regional or professional sporting events. The course is open to senior Sports Media Majors, or with the permission of the instructor. **Prerequisite(s):** COM 370, COM 371.

**COM 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**COM 491 Internship in Communication 1-4 Credits**

Places qualified students in a professional area related directly to their communication training. Students may intern in a communication position with a corporation, small business, media outlet, public relations agency, non-profit organization, political party, sports organization, or other similar organizations. A minimum of 50 hours of internship per credit is required. Written reports, a final project, and supervisor evaluations are used to analyze and evaluate the experience. For students majoring in the Department of Communication and Journalism only, primarily juniors and seniors. No more than two internships are permitted for each student; exceptions may be made. The deadline for registration is the first Friday of the semester. **Prerequisite(s):** 3.2 GPA and permission of instructor.

**CIS 185 Information Systems Essentials 3 Credits**

This course will enable students to use Microsoft Excel and Access to design and create complex applications to support effective decision making. Students will use Excel to design and create spreadsheets to support business analytics. Access will be used to understand, design, create, and utilize relational databases.

**CIS 200 Application Development with JavaScript 3 Credits**

In the early 1990s, Tim Berners-Lee created a set of technologies to allow information sharing at the CERN particle accelerator in Europe. These technologies dramatically changed the face of computing and became what we know today as the Web. Understanding how to develop and manage applications for the Web is a requirement for the information system professional. Because of the ease of development, deployment, maintenance and general scalability of Web applications, this approach to building and managing applications has become the de facto standard for business application development. This class will examine Web application development in detail. Through a combination of lecture and labs, students will learn the architecture of Web applications, how to develop Web pages using HTML and CCS, how to control user interaction with those pages using the JavaScript programming language. The programming basics of variable declaration and usage, program flow of control, function declaration and calling, and object usage and declaration will also be shown. The use of the JQuery Javascript library to ease the development of Web pages will also be shown.

**CIS 220 Application Development with JavaScript and Python 3 Credits**

In the early 1990s, a set of network technologies was combined to create a platform for application development. These technologies are now referred to as the Web. Because of the ease of development, deployment, maintenance, and scalability of Web applications, this approach to building and managing applications has become the de facto standard for business application development. Understanding how to develop and manage applications for the Web is vital for information systems professionals. This class will examine Web application development in detail. Through a combination of lecture and labs, students will learn the architecture of Web applications, how to develop Web pages using the Hypertext Markup Language (HTML) and Cascading Style Sheets (CSS), and managing user interaction in those pages using the JavaScript programming language. The process of creating dynamic web pages using the PHP programming language on the Web server will also be taught. **Prerequisite(s):** CIS 200.

**CIS 230 Introduction to Cybersecurity 3 Credits**

This course introduces students to cybersecurity, the process of securing computers and the information they store. Coverage includes security attacks and attack prevention and mediation, security firewalls, PC and server security, authentication methods and procedures, and network security. Through lecture and hands-on labs students will learn how computer systems can be attacked and how computer professionals can manage the risks and potential damage from these attacks.

**CIS 255 Into to Game Design & Development 3 Credits**

The basic concepts, logic, techniques, tools, and vocabulary associated with interactive, digital game and simulation development will be explored through a combination of lectures, discussions, and hands-on learning. Knowledge and skills derived can be applied to a wide variety of business and other organizational settings globally for interactive simulations, games, and education.

## Computer Information Systems (CIS)

**CIS 260 Business Graphics 3 Credits**

Basic color theory, typography, and page/slide layout are presented. Students utilize presentation, word processing and photo editing applications to create and edit various documents through hands-on labs and projects.

**Prerequisite(s):** CIS 185 or permission of instructor.

**CIS 270 Computer Networking 3 Credits**

This course provides an introduction to business data communications and networking. The Internet and OSI models are discussed. Network technologies include local area networks, backbone, wide area networks, and the Internet. Introduction to network design, security, and network management are also provided.

**Prerequisite(s):** CIS 185.

**CIS 300 Programming with Java 3 Credits**

Students will learn the basic concepts of object-oriented programming as contrasted with traditionally structured programming and will develop applications using the Java programming language.

**Prerequisite(s):** CIS 200.

**CIS 309 Data Structures & Cmptr Archt 3 Credits**

An introduction to linked lists, stacks, queues, trees, pointers, and sorting and searching algorithms. Students will learn the technical details of data storage and manipulation along with the concepts of program execution, and will use tools such as hex-editors and debuggers.

**Prerequisite(s):** CIS 185 or permission of instructor.

**CIS 315 Integrated Business with SAP 3 Credits**

This course provides an introduction to enterprise resource planning (ERP) systems and addresses how integrated information systems improve business operations. Students will learn about functional business areas and business processes, and understand the problems inherent in un-integrated enterprise information systems. Using SAP software and case studies, students will learn how ERP systems are being used to facilitate integrated, real-time management decision making.

**Prerequisite(s):** CIS 185 and ACC 210.

**CIS 319 Computer Forensics 3 Credits**

Students will use computers to obtain and analyze evidence found on storage devices such as those confiscated under warrant, and learn how to trace digital activities. Criminal and investigative procedures will be explored in depth.

**Prerequisite(s):** CIS 185.

**CIS 320 Cloud Computing Administration 3 Credits**

Students will learn the process of creating or provisioning a cloud computing environment. Content will include the provisioning of operating system resources in a cloud environment, operating system installation, configuration and maintenance. Virtualization, the process of creating multiple operating system environments on a single piece of hardware will be covered in some detail. Troubleshooting problems in the virtualization environment and in the operating system environment will also be covered. Hands-on labs will be used throughout. Both Windows and Linux operating systems will be used.

**Prerequisites:** CIS 185.

**CIS 325 User-Centered Design 3 Credits**

This course introduces students to the design and evaluation of interactive and internet-based devices and systems, including methods to understand user needs and requirements, design and prototype alternative systems, and evaluate system usability. Topics include interaction design, human factors, requirement gathering techniques, protocol analysis, usability testing, and heuristics evaluation.

**Prerequisite(s):** Junior standing.

**CIS 330 Database Systems 3 Credits**

This course involves the study of computer databases. Major topics include relational databases, use of the structured query language (SQL) to query relational databases, and design and maintenance of relational databases.

**Prerequisite(s):** CIS 185.

**CIS 340 Electronic Commerce 3 Credits**

Students will learn about the most current e-commerce technologies and business models through readings, case studies, and hands-on projects. Students will gain experience using business data analytics tools to understand and evaluate the value of data that is generated and collected from various e-commerce platforms on the Internet.

**CIS 350 Practical Business Analytics with Excel 3 Credits**

CIS 350 – Practical Business Analytics with Excel is a required course for the proposed Business Analytics minor. This course will provide the student with an opportunity to gain proficiency in analyzing and visualizing data using Excel. The learning experience includes not only classic tools, such as pivot tables and VLOOKUP, but also more advanced Excel data tools such as building Excel data models, creating data mash ups, and using the Power Pivot add-in. The course also requires students to complete a data analysis project along with a presentation about the business insights drawn from the data analysis results. The project requires students to understand the business problem, identify and apply the appropriate analytic and visualization tools, and communicate the insight in an intuitive and effective manner.

**Prerequisite(s):** CIS 185, MSD 200.

**CIS 360 Data Mining 3 Credits**

This course deals with modern technologies for data analysis. Hands-on exercises for data retrieval, data visualization and predictive analytics will be carried out using up-to-date methodologies and software tools. The full data mining life cycle will be covered from recognizing business problems and opportunities amenable to data mining analysis through deploying and monitoring solutions.

**Prerequisite(s):** CIS 185.

**CIS 370 Systems Analysis and Design Project 3 Credits**

Topics include modeling techniques and methodologies to address the planning, analysis, design, and implementation of high quality systems, delivered on time and within budget. Using rapid application development tools, students will also construct an operational system within the span of a single semester. Issues and tools related to the management of project teams are also discussed.

**Prerequisite(s):** CIS 330.

**CIS 375 Business Process Design for a Global Economy 3 Credits**

The course is aimed at generating a comprehensive understanding of the emergent domain of global business process outsourcing. Various referred to as knowledge process outsourcing, IT-enabled services outsourcing, and business services outsourcing, the industry has seen enormous growth over the last decade and continues to grow. India commands the single largest share of this market but South Africa, Eastern Europe, Philippines, Morocco and Egypt have all emerged as other contenders in this global sector. The course is divided into four modules: the political economy of global outsourcing, process modeling, outsourcing management, and industry analysis. Please note: Students will not receive credit for both CIS 375 and GSC 375.

**Prerequisite(s):** junior standing.

**CIS 377 Risk Management and Compliance for Information Security 3 Credits**

This course will use a holistic approach to examine the management of information security risk in relation to the strategic goals of the business organization. Students taking this course will learn to identify threats, threat agents, potential exploits and the information assets which will be impacted by those exploits. The risk management process will specifically examine threat agents, and the amplifiers, catalysts, and inhibitors to those threats. Using a process which assigns a weight to various threats, and a comprehensive risk analysis model will be developed.

**CIS 385 Management Information Systems 3 Credits**

The course focuses on the management and use of information systems and technology for the strategic and operational advantage of the firm. Students explore the business value of information resources including current communication, database, as well as hardware and software technologies. GSC 385 can fulfill the CIS 385 requirement for all business majors. Please note: Students will not receive credit for both GSC 385 and CIS 385 without prior approval by the Dean's office.

**Prerequisite(s):** CIS 185 and junior or senior standing.

**CIS 388 Design Thinking 3 Credits**

This undergraduate course on Design Thinking provides students with a framework for dealing with unstructured problems to create innovative business solutions. Students in this course will learn about the complex and iterative process of design thinking and its several phases, including problem finding, observation, visualization and sense making, ideation, prototyping and testing, and explore the value of design thinking for creating business solutions with lasting impact. Students who have earned credits for CIS 388 or equivalent cannot take PMBA 8352 for credit.

**Prerequisite(s):** JR/SR, 54+ credits, or POI.

**CIS 390 Project Management 3 Credits**

This course introduces students to general project management, the process of organizing resources to achieve business goals. Topics include the identification, approval, analysis, and general management of complex business projects. Project management tools, reports, techniques, and approaches will be covered.

**Prerequisite(s):** CIS 185.

**CIS 399 The Co-Operative Experience 6 Credits**

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their computer information systems and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include junior computer information systems majors with a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in any computer information systems coursework completed prior to submission of the co-op application. Three of the co-op credits can be applied toward the computer information systems major, and three credits can be applied toward business or free elective requirements. Grading is on a pass/fail basis.

**Prerequisite(s):** Completion of two of the three courses: CIS 200, CIS 270, and CIS330.

**CIS 410 Selected Topics in Information Systems 3 Credits**

Information and communication technologies are evolving rapidly and continually. The Special Topics course facilitates the exploration of a selected topic (or combination of topics) that represents a recent technological advance with important and direct implications in the field of computer information systems. Current research, readings, lectures, discussions and/or hands-on computer experience or other appropriate measures will be employed to stimulate student learning.

**Prerequisite(s):** to be determined by instructor.

**CIS 430 Enterprise Integration 3 Credits**

The major focus of this course includes the forces driving enterprise integration as well as the management decisions associated with the design and implementation of enterprise systems. Students will use SAP ERP extensively to configure, build, test, and implement an enterprise system for a real business environment from the ground up.

**Prerequisite(s):** CIS 315.

**CIS 490 Independent Study: Research and Creative Expression 1-4 Credits**

Topic to be approved by professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

**Prerequisite(s):** permission of instructor.

**CIS 491 Computer Information Systems Internship 3 Credits**

This is an honors course that provides the student with approximately two months of supervised employment with participating companies. Students are given a variety of information technology experiences. They are required to complete a term paper and/or to make an oral presentation to the faculty. Grading is on a pass/fail basis.

**Prerequisite(s):** permission of instructor.

## Computer Science (CSC)

**CSC 110 Computer Science I 3 Credits**

This course is an introduction to computer science and modern computing fundamentals. Students will develop programs and algorithms to solve a variety of problems posed in the natural sciences. Students will learn to code in Python, a widely adopted language and learn the basics of algorithms, data types, program structure and development

**Prerequisite(s):** MTH 105 (Algebra & Trigonometry) or equivalent.

**CSC 120 Computer Science II 3 Credits**

This course is an introduction to developing algorithms using abstract data types and the object-oriented methodology. Students will design and implement robust ADTs using Java, an object-oriented programming language. Students will learn how to develop their own algorithms and the best techniques for analyzing their performance. Students will be able to adapt the course knowledge to real world, practical challenges.

**Prerequisite(s):** CSC 110.

**CSC 130 Data Structures and Algorithms 3 Credits**

This course is a study of data structures and the algorithms used to process them. Topics include stacks, queues, lists, trees, graphs, sorting and searching techniques, recursive algorithms, and efficiency considerations. This course will give students a comprehensive study in data structures and algorithms which are the building blocks in programming.

**Prerequisite(s):** CSC 120.

**CSC 140 Discrete Structures 3 Credits**

This course is an introduction to the ideas and techniques from discrete mathematics as widely applied to Computer Science. Topics include sets, numbers, algorithms, logic, combinatorics, recursion principles, graph theory, trees, and discrete probability.

**Prerequisite(s):** MTH 105, Algebra & Trigonometry or MTH 210, Calculus I.

**CSC 150 Cyber Ethics and Societal Impact 3 Credits**

This course will investigate the ethical and social challenges stemming from computing and telecommunication technology, as well as from mobile information-enabling devices. Topics include: cyber ethics, global and societal impact of the Internet, ethical analysis tools, ethical dimensions of computer system reliability, professional ethics, ethical frontiers in emerging technologies, privacy, security, intellectual property, cybercrime, and civil liberties in cyberspace. CS 150 is a required course for CS majors and minors. This course will be open to other math and science majors.

**Prerequisite(s):** CMP 115 or can be taken concurrently.

**CSC 220 Computer Organization and Architecture 3 Credits**

An introduction to the fundamental concepts of computer organization and architecture, this course explores how computer systems execute programs and manipulate data, working from the C programming language down to the microprocessor. Topics include: processor organization, Assembly and C programming languages, machine-level code, data representation, digital logic gates and Boolean algebra, computer arithmetic, code compilation, memory organization and management, interrupts, and performance evaluation and optimization. CS 220 is a required course for CS majors. The prerequisites for this course are CS 130 (Data Structures and Algorithms) and CS 140 (Discrete Structures).

**Prerequisite(s):** CSC 130, CSC 140.

**CSC 230 Probability for Computer Science 3 Credits**

This course is an overview of probability theory and its application to computer science. Students will develop an understanding of combinatorics, variables, distributions, and parameter estimation. Applications to real world data and large datasets are also studied, with an introduction to machine learning.

**Prerequisite(s):** MTH 211.

**CSC 240 Operating Systems 3 Credits**

The course will study the basic concepts, design and implementation of operating systems. Topics to be covered include an overview of basic computing hardware components, operating system structures, process management, memory management, concurrency, resource allocation and scheduling, file systems, input/output systems, protection and security. CS 240 is a required course for CS majors.

**Prerequisite(s):** CS 130, Data Structures and Algorithms.

**CSC 250 Software Security Engineering 3 Credits**

Secure software engineering focuses on both theoretical and practical perspectives in the development of software systems, exploring secure software design and development methods, software analysis, and reverse engineering. Emphasis is placed on security as part of the software engineering lifecycle, as well as on the correctness and robustness of code. CS 250 is a required course for CS majors.

**Prerequisite(s):** CSC 140.

**CSC 310 Theory of Computation 3 Credits**

This course introduces a formal framework for investigating both the computability and complexity of problems. Theoretical foundations of computer science and formal models of computation are covered. Students study several models of computation including finite automata, regular expressions, formal languages, Chomsky language hierarchy, context-free grammars and Turing machines. Topics include undecidable problems, the halting problem and the P versus NP problem.

**Prerequisite(s):** CSC 130 and CSC 140.

**CSC 320 Human-Computer Interaction 3 Credits**

This course presents Human-Computer Interaction (HCI) as a discipline that is concerned with technical advance, and that must integrate different disciplinary perspectives. Foundational theoretical issues deal with principles of human perception, visual representation and purposeful action, discussed in the context of novel interactive technologies and computer-based systems. It examines issues in the design of system interfaces from a number of perspectives: user, programmer, and designer.

**Prerequisite(s):** CSC 130.

**CSC 340 Cybersecurity Essentials 3 Credits**

This course is an in-depth study of the theories and practices for prevention of cyber attacks. Countermeasures discussed include education, encryption, virtual private networks, policies, practices, access controls, secure systems development, software assurance, verification and validation, firewall architectures, anti-virus, patching practices, personnel security practices, and physical security practices. Topics also include incident response, forensic investigations, business continuity plans, disaster recovery plans, and critical infrastructure protection.

**Prerequisite(s):** CSC 130.

**CSC 350 Analysis of Algorithms 3 Credits**

This course investigates methods for analyzing and designing efficient and reliable algorithms, emphasizing methods useful in practice. It introduces several algorithm design strategies that build on data structures and programming techniques learned in the introductory computer science course sequence. Topic coverage includes induction, divide-and-conquer, dynamic programming, network flow, randomization, complexity theory, greedy algorithms, searching and sorting algorithms, cryptographic algorithms, graph theory, hashing, and advanced data structures. CSC 350 is a required course for CS majors.

**Prerequisite(s):** CSC 130 and CSC 140.

**CSC 380 Parallel and Distributed Systems 3 Credits**

Widely deployed in scientific computing centers and commercial data centers, large-scale parallel and distributed systems (PDS) are crucial to scientific discovery, business success, national security, and technology innovation. This course examines the design and analysis of large scale computing systems for processor- and data-intensive applications with the focus on the technologies and factors that impact the performance, power, resilience, and scalability of modern parallel and distributed systems. Topics include the organization of multicore computers, parallel computer clusters, computing grids, supercomputers, client-server systems, and peer-to-peer systems; computer networks and network protocols; network security; multithreaded programming; and network programming.

**Prerequisite(s):** CSC 220 and CSC 240.

**CSC 410 Data Engineering 3 Credits**

This course serves as an introduction to the interdisciplinary and emerging fields of data engineering and data science. Students learn to combine tools and techniques from computer science, statistics, data visualization and the social sciences to solve problems using data. Central themes include: the data engineering and data science processes; tools.

**Prerequisite(s):** CSC 250 and CIS 330.

**CSC 491 Internship in Computer Science 1-4 Credits**

A supervised research experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations under the guidance of a mentor. The mentor and student will have regular consultation with the departmental internship coordinator to assess the student's progress. Normally, 50 hours of internship per credit is required. The grade for the course will be determined by the student's overall performance in their research work, a research paper documenting their work with their internship mentor and an oral or poster presentation at the end of the semester. Available for juniors and seniors.

**Prerequisite(s):** 2.5 GPA and permission of the instructor.

## Dance (DAN)

**DAN 100 Fundamentals of Dance 1 Credits**

Designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for two classes per week at the Princeton Ballet School. One additional hour per week is comprised of video observation, lecture, or readings, and is taught at Rider's Lawrenceville campus. Prerequisite(s): permission of dance advisor; Dance Studio Courses Ballet I.

**DAN 100A Ballet I 0 Credits****DAN 100B Ballet II 0 Credits****DAN 100C Ballet III 0 Credits****DAN 100D Ballet IV 0 Credits****DAN 100E Ballet V 0 Credits****DAN 100F Ballet VI 0 Credits****DAN 100G Jazz I 0 Credits****DAN 100H Jazz II 0 Credits****DAN 100I Jazz III 0 Credits****DAN 100J Modern Dance I 0 Credits****DAN 100K Modern Dance II 0 Credits****DAN 100L Modern Dance III 0 Credits****DAN 100M Spanish Dance I 0 Credits****DAN 100N Spanish Dance II 0 Credits****DAN 100O Spanish Dance III 0 Credits****DAN 100P Pilates Mat Class 0 Credits****DAN 100Q Accelerated Adult Ballet I 0 Credits****DAN 100R Accelerated Adult Ballet II 0 Credits****DAN 100S Accelerated Adult Ballet III 0 Credits****DAN 100T Accelerated Adult Ballet IV 0 Credits****DAN 100U World Dance Forms 0 Credits****DAN 100V Yoga 0 Credits****DAN 100W Tap 0 Credits****DAN 100X Ballet VII 0 Credits****DAN 100Y Choreography 0 Credits****DAN 100Z Movement Fundamentals 0 Credits****DAN 105 Survey of Dance History 3 Credits**

An introductory course to familiarize students with the breadth and depth of dance in human society. It will chronologically examine dance through four lenses: Dance and Community, Dance and Religion, Dance and Politics, and Dance as Art. Students will be exposed to various dance forms from around the world with varying purposes, functions, and motivations from the beginning of recorded history to present.

**DAN 111 Dance Lab 0 Credits****DAN 112 Ballet I: The Point of Departure 1 Credits**

This is an entry-level, mandatory ballet class that covers all of the safest fundamental practices, including proper use of alignment, feet, rotation, and use of the core in the classical vocabulary.

**DAN 113 Ballet II: Next Steps 1 Credits**

This is a continuation of the safest fundamental practices covered in Ballet I, including proper use of alignment, feet, rotation, and use of the core in the classical vocabulary. In addition this course extends the coverage of discourse, terminology and vocabulary of the classical technique .

**DAN 121 Introduction to Dance Science 3 Credits**

This orientation to dance science will consider important aspects of the study of human performance including anatomy, biology, kinesiology, and psychology of movement and performance. Covered are the foundations and research findings in Movement Theory, Motor Development, and Well-Being. Topics include the Care and Prevention of Injuries, Movement Analysis, Dance Movement Therapy, Mind-body Connection, Dance Fitness and Optimal Performance.

**DAN 151 Pilates and Modern 1 Credits****DAN 152 World Dance & Improvisation 1 Credits****DAN 180 History of Movement Theory 3 Credits**

Investigation of the mind-body connection, somatic experience, body therapies, movement and theories. The essential questions are: How is it that we move with awareness, fluidity, efficiency and precision?

**DAN 190 Dalcroze Eurythmics 3 Credits**

This movement course familiarizes students with the basic elements of music theory (staff, clefs, time signatures, notations, chords, etc.) and the Dalcrozean principles regarding music, movement and improvisation.

**DAN 201 Vaganova I 1 Credits**

This studio course focuses on fundamental knowledge about the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique.

**DAN 202 Vaganova II 1 Credits**

This studio course continues the development of knowledge concerning the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique. Repeatable twice for total of three times taken. May only be repeated if there are open spots after those taking it for the first time have registered.

**Prerequisite(s):** DAN 201.

**DAN 210 Rider Dances: Repertory & Productions 1 Credits**

This course provides an in-depth experience with the art of dance production from creation to performance. Students will be chosen to learn and perform repertory; fulfill technical roles such as sound, lighting and costume design; and assume production and managerial responsibilities such as promotion, publicity, front of house management and stage management.

**Prerequisite(s):** permission of instructor.

**DAN 210T Rider Dances Rep&Produc:Tech 1 Credits****DAN 220 History of Choreography 3 Credits**

This course prepares the dance student for the creating of dance through critical analysis, reading, writing and practical assignments. Students will examine creative process as applied to dance artists and various forms of dance.

**DAN 300 Lecture & Studio in Dance 2 Credits**

Dance 300 series is also designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for four classes per week at the Princeton Ballet School. One additional hour is comprised of video observation, lecture, or readings and is held at Rider's Lawrenceville campus. **Prerequisite(s):** permission of instructor; Dance Studio Courses Ballet I.

**DAN 300A Ballet I 0 Credits****DAN 300B Ballet II 0 Credits****DAN 300C Ballet III 0 Credits****DAN 300D Ballet IV 0 Credits****DAN 300E Ballet V 0 Credits****DAN 300F Ballet VI 0 Credits****DAN 300G Jazz I 0 Credits****DAN 300H Jazz II 0 Credits****DAN 300I Jazz III 0 Credits****DAN 300J Modern Dance I 0 Credits****DAN 300K Modern Dance II 0 Credits****DAN 300L Modern Dance III 0 Credits****DAN 300M Spanish Dance I 0 Credits****DAN 300N Spanish Dance II 0 Credits****DAN 300O Spanish Dance III 0 Credits****DAN 300P Pilates Mat Class 0 Credits****DAN 300Q Accelerated Adult Ballet I 0 Credits****DAN 300R Accelerated Adult Ballet II 0 Credits****DAN 300S Accelerated Adult Ballet III 0 Credits****DAN 300T Accelerated Adult Ballet IV 0 Credits****DAN 300U World Dance Forms 0 Credits****DAN 300V Yoga 0 Credits****DAN 300W Tap 0 Credits****DAN 300X Ballet VII 0 Credits****DAN 300Y Choreography 0 Credits****DAN 300Z Movement Fundamentals 0 Credits****DAN 350 History of Ballet, Modern & Jazz Dance 3 Credits**

Studies the major periods in the development of Western Theatrical Dance from the Renaissance to the present focusing on ballet, modern, jazz, tap and musical theater dance. The course will examine the ideas and individuals that caused the development of choreographers, producers, designers and productions.

**DAN 450 Pedagogy and Methodology in Dance 3 Credits**

This course provides the student with first-hand experience inside a classroom setting to broaden the students' understanding of dance techniques, teaching styles and strategies, analysis of skills and critical feedback, class preparation and design, and assessment. Course requirements include off-campus field work. Cross-listing existing entry-level teaching course with analogous graduate-level course (CURR 711).

**DAN 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment. **Prerequisite(s):** junior or senior standing, good academic standing.

**DAN 491 Internship in Dance 1-4 Credits**

Provides junior or senior dance majors with the practical experience of working within an educational or professional dance environment. Students must be sponsored by a dance professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

**Prerequisite(s):** permission of instructor.

**DAN 493 Special Topics in Dance Studio 1 Credits**

This class covers a discrete movement style, technique, or form such as the choreography of Balanchine, the technique of Cecchetti or dance theater fusion.

**Prerequisite(s):** DAN 100.

**DAN 495 Selected Topics in Dance History 3 Credits**

Intensive study of a particular topic in dance history or theory. This may include one era, movement or nation's dance history and practice. Students will become deeply involved in an area through research, class discussions and group projects.

**DAN 498 Senior Capstone 3 Credits****DAN 499 Seniors Honor Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

## Early Childhood Education-UG (ECE)

**ECE 200 Infant and Toddler Care and Education 3 Credits**

Focuses on nutritional and psychological influences on infant and toddler growth and development, including current research in infant development; childbirth; breast feeding; infant stimulation; intellectual development; attachment behavior; and infants in group care. Recognizing that there is increased demand for infant/toddler care, it is increasingly important to assure that America's infants receive a safe, healthy, emotionally secure, and intellectually rich start in life. High quality care and education of very young children are based upon responsive and respectful relationships among all of the people in each child's life.

**ECE 332 Families, Community, and Diversity in Early Childhood Education 3 Credits**

This course addresses the role of parents of young children within the context of school, home and society, as well as the influence of culture, traditions and current issues in early childhood education. Students will explore the efficacy of parenting techniques and behaviors on child development in the early years, including cognitive growth, emotional and social well-being and physical health. Students will investigate strategies for fostering home-school partnerships that enhance child development and educational success, as well as the influence of community, culture and socio-economic status on families and schools throughout our world. In addition, this course addresses current issues and challenges in the early childhood profession including inclusion of children with special needs, advocacy for quality care and education for all young children, and any other subject that might arise - either from the lives of children and families, teachers' professional development, or community agencies. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**ECE 450 Developmental Methods and Assessment in Early Childhood Education 3 Credits**

The focus of this course is developmentally appropriate and culturally responsive curriculum and teaching P-3 settings as delineated in the guidelines of the National Association for the Education of Young Children. Students will learn how to make curriculum and teaching decisions based on knowledge of child development, content area, curriculum content standards, and home and community cultures. In order to meet the ever-changing needs, interests, and growing strengths of individual children, careful observation and assessment provides teachers with information on which to base adjustments of teaching plans. This course will provide opportunities to deepen understanding of child development; gain an appreciation for the professional responsibility of ongoing assessment of children; and, develop the necessary skills to gather, record, and interpret information in a deliberate and reflective manner. Required: 6 hours per week field placement in a Preschool classroom. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

## Economics (ECO)

**ECO 200 Principles of Macroeconomics 3 Credits**

A collective view of income receiving and spending sectors of the national economy, including households, businesses, and governments. Issues discussed: What determines the level of output, income, and employment achieved by the economy? What determines the growth of national output and employment? National income accounting, income and employment theory, monetary system, general price level, business cycle, government policies designed to provide for full employment, price stability, and economic growth are also covered.

**Prerequisite(s):** Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

**ECO 201 Principles of Microeconomics 3 Credits**

Market price systems are analyzed. The nature and characteristics of consumer and producer behavior, the theory of pricing in competitive and noncompetitive markets, and determination of the distribution of output are re evaluated. Welfare, social control, monopoly, and income inequality are re explored in the light of price theory. The role of the United States in the world economy is explored.

**Prerequisite(s):** Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

**ECO 210 Intermediate Macroeconomics 3 Credits**

An analytical study of modern aggregate economic theory. Emphasizes the measurement and determination of income, employment, and price levels, as well as economic policy in theory and practice.

**Prerequisite(s):** ECO 200 and ECO 201.

**ECO 211 Intermediate Microeconomics 3 Credits**

This course is designed to give the student a thorough understanding of microeconomic theory. As such, the course will analyze the behavior of both consumers and producers, and how this behavior determines the price and quantity observed in the market. The course objective is to provide students with the necessary theoretical background to enable them to solve meaningful and practical problems. Thus, the course is both theoretical and applied in its orientation. The course will emphasize that economic theory can be used not only to solve market oriented problems, but social and public policy problems as well.

**Prerequisite(s):** ECO 200 and ECO 201.

**ECO 300 Bus Conditns Analysis/Forecast 3 Credits**

Business conditions change daily. Students study them as they change, learning to understand them in the light of economic theory, learning how each part of the economy is affected, and learning the advantages and limitations of the most reliable forecasting methods.

**Prerequisite(s):** ECO 200, MSD 201.

**ECO 301 Managerial Economics 3 Credits**

Intensively examines the theory of the firm with applications to the solution of such managerial problems as demand forecasting, the nature and behavior of costs, and product pricing. Introduces the use of simple mathematical and statistical tools that are employed with economic analysis for solving managerial problems.

**Prerequisite(s):** ECO 200 and ECO 201 and MSD 201 or permission of instructor.

**ECO 305 Internatl Trade and Investment 3 Credits**

Studies the theory, institutions, and structures underlying the international flow of trade and investment. Topics are: the theory of international trade; balance of payment analysis; the international monetary system; adjustment to balance of payment disequilibrium; regional economic integration; the economic effects of trade restrictions; and trade and foreign investment problems of developing nations.

**Prerequisite(s):** ECO 200 and ECO 201.

**ECO 315 Comparative Economic Systems 3 Credits**

Provides a conceptual framework for classifying and comparing economic systems. Presents theory of the capitalist market economy and case studies of the U.S., Japanese, French, and Swedish economies. Examines theory of the centrally planned economy, its transition, and case studies of the Soviet and its successor states, Chinese, and East European economies. Case studies are necessarily limited, concentrating on selected topics, such as transition strategies, industrial policy, etc.

**Prerequisite(s):** ECO 200 and ECO 201.

**ECO 325 Industrial Organization 3 Credits**

Explores the relationship between market structure and performance. Topics include concentration in individual industries, product differentiation and entry barriers, pricing and marketing policies, and antitrust policies and their consequences.

**Prerequisite(s):** ECO 200 and ECO 201.

**ECO 326 Economics of Sports 3 Credits**

The overall objective of this course is to deepen student understanding of microeconomic principles by applying microeconomic concepts to the analysis of professional and amateur sports. This course will utilize concepts from many different microeconomic specialties, (primarily Industrial Organization, Labor Economics and Public Finance). The tools from these different microeconomic fields will be used to explain and analyze the operation of professional sports teams and leagues in the U.S. with an emphasis on baseball, football, basketball and hockey. International comparisons will be made between professional sports in the U.S. and the rest of the world. The course will also analyze the not-for-profit sports sector, focusing on college sports and the National Collegiate Athletic Association.

**Prerequisite(s):** ECO 201.

**ECO 330 Labor Market Analysis 3 Credits**

Intensive study of the economics of the labor market, which examines the determinants of labor supply and demand, and market equilibrium in the labor market. This enables the student to understand what determines wages, labor force participation, occupational choice, the extent of education and training, unemployment, poverty, union membership, and discrimination in the labor market.

**Prerequisite(s):** ECO 200 and ECO 201.

**ECO 335 Economics of the Public Sector 3 Credits**

Analyzes the economic roles of government: allocation; distribution; and stabilization. The course examines the tools used by governments, especially the federal government, such as taxation, expenditures, regulations and laws in order to achieve economic goals. The course will give special attention to social regulation.

**Prerequisite(s):** ECO 200 and ECO 201.

**ECO 336 Economics of Health Care Sys 3 Credits**

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomic tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes.

**Prerequisite(s):** ECO 201 or HTH 205.

**ECO 365 Post-Soviet Economy 3 Credits**

Studies the contemporary post-Soviet economic system, with emphasis on institutions, policies and issues related to business opportunities in this area. Topics covered include the historic, geographic, political, and cultural setting, planning and plan implementation in the traditional system, current reforms and prospects for the future, with special reference to the foreign trade institutions and experience of foreign firms doing business in the post-Soviet Union and Eastern European countries.

**Prerequisite(s):** ECO 200 and ECO 201 or permission of instructor.

**ECO 450 Seminar in Economic Research 3 Credits**

Students in the course learn to conduct economic research by engaging in an actual community-based research project. At the beginning of the semester, students are assigned to a community-based organization. As a team, students meet with the client, devise a plan of action, collect and analyze data and other information, and write a report to the client. At the end of the semester, students present their findings to the client. Students are permitted to take ECO 450 up to two times for credit.

**Prerequisite(s):** Permission of instructor.

**ECO 490 Independent Research and Study 3 Credits**

Topic to be approved by professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

**ECO 491 Internship/Independent Study 3 Credits**

This course is available to qualified economics majors and minors. Evaluation is based on a performance appraisal provided by the participating firm and a project/paper judged by the major's internship director. This course can be used as a business or free elective. Grading is done on a pass/fail basis.

**Prerequisite(s):** Permission of instructor.

## Education Foundation (EDE)

**EDE 200 Effective Classroom Management 3 Credits**

Issues of classroom management often pose the biggest challenges for novice teachers. However, with the proper training many of these obstacles can be prevented, which results in more time spent on effective instruction. This course is based on two premises: (1) that most problems of classroom order can be prevented through the use of effective, research-based classroom management strategies, positive teacher-student relationships, and engaging instruction; and (2) that the goal of classroom management is the development of an environment conducive to both academic and social emotional learning. Given these premises, the course focuses not on disciplinary interventions designed to control students, but on ways of preventing disruptive behavior, creating a peaceful, caring community, resolving conflicts, and meeting the needs of diverse students through the use of effective motivational and instructional strategies. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**EDE 225 Guided Field Experience in K-12 Classrooms 3 Credits**

This is a field-based course in which students will spend an intensive three-week term in a designated school setting, mediated by University faculty. Students will participate in the daily routines of elementary, middle, or secondary schools. Field-site teachers will mentor students by articulating decisions that they make regarding classroom instruction and assessment. Students will meet regularly in seminar to analyze and discuss issues related to teaching and learning. This course will be offered J-Term, Summer I or other three week period.

**EDE 226 Teaching and Managing in the Urban Classroom 3 Credits**

This course focuses on teaching and managing K-12 classrooms in urban settings. Through four weeks of on-line instruction, students will learn key principles of classroom management and examine foundational issues that can underpin educational inequality, such as racial, ethnic and linguistic diversity, poverty, high student mobility and frequent teacher turnover. The course culminates with the Philadelphia Urban Seminar, a two-week residential experience (mediated by Rider University faculty) that includes ten days of intensive field experience in central Philadelphia classrooms, weekday seminars with faculty, and historical/cultural experiences and community service project activities on the weekend.

**EDE 306 Thinking Critically with Data 1 Credits**

This course will help students develop the kinds of data literacy skills needed for success in teaching. It will focus on five related that teachers need: (1) finding the relevant pieces of data in the data system or display available to them (data location); (2) understanding what the data signify (data comprehension); (3) figuring out what the data mean (data interpretation); (4) selecting an instructional approach that addresses the situation identified through the data (instructional decision making); (5).

**EDE 307 Assessment in 21st Century Classrooms 1 Credits**

This course offers an in-depth look at assessment to meet the need of 21st century teaching and learning. Students learn how to plan, develop, interpret, and manage valid assessments of student learning. Students will learn the following assessment-related skills and understandings: (1) the purpose of assessment in 21st century classrooms; (2), basics of assessments: reliability and validity; formative and summative assessment; alignment of assessments with objectives; and determining what can (what cannot) be reliably and validly assessed; (3) basics of rubric development; (4) holistic scoring; (5) assessment of critical thinking skills in diverse domains; (6) assesment of creativity in diverse domains. The course will be taught online.

**EDE 375 Applications for Teaching Mathematics in Grades 4-5 1 Credits**

This course will provide students the experience to share and learn about the practical applications of teaching mathematics to the 4th and 5th grade children as they are based on the field site classrooms of these grades. Students complete reflections about their work with mathematics and their observations of their cooperating teachers' lessons. The developmental aspect of math skills will be reviewed, looking at the Learning Progressions that are the basis for the new Common CORE State Standards. This course will provide an opportunity for students to have guidance in the teaching and learning of mathematics in the upper elementary grades. Upon completion of this course, students should have the knowledge, skills and confidence to meet the needs of all students, K-6. Prerequisite(s): ELD 375.

**Corequisite(s):** ELD 376 or ELD 308 or as prerequisite.

## Education-UG (EDU)

**EDU 106 Contexts Of Schooling 3 Credits**

Students in this field-based course will begin to examine aims, practices, and contemporary issues of schooling in their historical, sociological, philosophical, and futuristic contexts and from the perspectives of various multicultural constituencies– students, parents, local community, wider economic community, government, and the profession. In doing so, they will begin to develop professional skills of observation, reflection, analysis, and argument. This course must be taken concurrently with Developmental Educational Psychology. A cumulative GPA of 2.75 is required. All Elementary Education students must have taken the Praxis II Elementary Education: Multiple Subjects Test (test code 5031, described below). Elementary Education students do not need to have passed the test but only to have taken the tests to register for EDU 106 and EDU 206. There is no Praxis requirement for Secondary Education students registering for EDU 106 and EDU 206.

**EDU 206 Developmental Education Psychology 3 Credits**

This field-based course focuses on: a) the cognitive, personality, social, creative, and moral development of children and adolescents; b) influential theories, concepts, and research findings of educational psychology; and c) the translation of psychological theory into classroom practices. This course must be taken concurrently with EDU 106: Contexts of Schooling. A cumulative GPA of 2.75 is required.

**EDU 320 Introduction to Linguistics and Psycholinguistics 3 Credits**

This course provides an introduction to the properties of human languages and to their systematic study in the field of linguistics and psycholinguistics. Topics include the nature of human language as distinct from other communication systems; sound patterns (phonology), word-formation (morphology), sentence structure (syntax), and meaning (semantics) in the world's languages; relations to cognition, communication, and social organization; dialect variation and language standardization; language learning by children and adults; and the nature and history of writing systems. Intended for any undergraduate and graduate interested in language or its use. It is assumed that students have had no prior course work or exposure to linguistics and will begin with the basic assumptions that are shared by those who study language from a variety of perspectives. Students analyze their own speech patterns, investigate different speech acts in different languages and develop a research project using a linguistic construct in order to apply it to the second language classroom. Students present this project in a poster format to the university community at the end of the semester. A cumulative GPA of 2.75 is required. NOTE: This course is cross-listed as FLE 320. Students cannot get credit for both FLE 320 and EDU 320.

**EDU 358 Literacy and the Bilingual/Bicultural Child 3 Credits**

Presents multidisciplinary and interdisciplinary perspectives on bilingual/bicultural children and their reading process. Strategies and materials for second language reading instruction are suggested and discussed.

**EDU 420 Teaching a Second Language 3 Credits**

This course focuses on interactive methods of teaching a new language as well as cross-cultural understanding. Students learn to plan using national and state standards for language instruction, organize activities, design and direct language learning tasks, and assess learning. Includes theoretical positions on communicative language learning and teaching, the use and evaluation of currently used materials, the design of new materials, and field experiences in the language to be taught. Students develop their professional portfolio, participate in an E-seminar, prepare a unit of study, and present lesson segments. Open to prospective world language teachers, ESL and bilingual teachers, as well as practicing teachers seeking certification. A cumulative GPA of 2.75 is required. \*NOTE: This course is cross-listed as FLE 420. Students cannot get credit for both FLE 420 and EDU 420.

**Prerequisite(s):** EDU 106 and EDU 206.

**EDU 451 Special Topics in Education 1-6 Credits**

Student teachers, graduate interns, Rider faculty, cooperating teachers, and building-level administrators will engage in collaborative study of a topic through reading, writing, discussion, observation, and reflection on their work in classrooms. Work in these seminars will help student teachers synthesize knowledge from their professional courses and all participants extend their understanding of a particular topic pertaining to teaching. Teacher research methods will be employed as participants analyze their own teaching through perspectives of the seminar topic. Topics will vary each semester. This course is dual-listed for undergraduate and graduate credit. Enrollment is limited to students concurrently enrolled in student teaching and to cooperating teachers and principals working with them.

**EDU 460 Educating and Evaluating the Bilingual Child 3 Credits**

An examination of the historical, legal, and pedagogical aspects of the education of language minority students. Considers the design of school programs for minority students including legal mandates, testing, staffing, and funding. Emphasis is placed on the evaluation of bilingual students as they enter, develop and exit from special programs of study. A cumulative GPA of 2.75 is required.

**EDU 465 Student Teaching and Seminar 12 Credits**

A full-time program for seniors providing practical teaching experience in an accredited elementary or secondary school. Under the direct supervision of the cooperating teacher, student teachers are responsible for the planning of lessons and for teaching in their areas of specialization and for developing a high level of teaching competency. Supervisors from Rider observe the student teachers at work, confer with the cooperating teachers and student teachers, and evaluate the growth of the student teachers throughout the internship period. Special topics are considered in seminars held in conjunction with student teaching. These topics include school health and substance abuse, school law, teacher certification and placement, classroom management, mainstreaming, professionalism, and other topics deemed appropriate by the faculty and student teachers.

**Prerequisite(s):** 1. Satisfactory completion of junior-level professional courses; 2. Cumulative GPA of at least 3.0 prior to commencing the semester in which student teaching is to be completed; 3. All professional education courses, with the exception of those taken concurrently with student teaching, must be completed with a grade of "C +" or better; 4. A candidate for student teaching must be approved by the education division and the coordinator of student teaching. There is an additional fee for Student Teaching.

**Educational Technology (TEC)****TEC 200 Google® Educator Level One Training 3 Credits**

This course will provide the skills and knowledge for pre-service teachers in undergraduate education to successfully take the Google® Educator Level One Exam.

**TEC 201 Internet Ethics 1 Credits**

This course focuses on using the Internet to explore and reflect on current ethical issues involving technology. These include individual privacy, legal issues such as fair use and copyright laws, and social issues such as bullying and social networking. Students will explore these topics using a variety of search engines and will reflect on the information found in terms of its impact on society as well as its appropriate uses in personal life, education and business. Pass/fail.

**TEC 202 Smartboard 1 Credits**

This course is designed to provide an opportunity for students to become familiar with the features and applications of Smartboard, an interactive whiteboard that can be used in classrooms and professional presentations. Students will gain experience using the touch screen and in integrating the features of the program into learning and professional materials. Pass/fail.

**TEC 203 Desktop Publishing and Web Page Design 1 Credits**

This course provides students with the ability to use desktop publishing software to create materials suitable for use in classrooms, professional settings, and personal use, and with the ability to design web pages. The course is appropriate for anyone who will be involved in designing classroom and student publications and for those who will use web pages in their teaching or personal lives. Discussion will be held on how to use desktop publishing and web page design in elementary and secondary school settings. A project involving application of various desktop publishing and web page design techniques will be completed and demonstrated to the class. Pass/fail.

**TEC 204 Electronic Spreadsheets and Classroom Management Software 1 Credits**

Basic electronic spreadsheet concepts and applications are taught using a major spreadsheet program. Topics include writing basic formulas, copying formulas, playing "What If," customizing a worksheet, and printing a spreadsheet. Discussions will be held on how to integrate spreadsheets into elementary and secondary classes and activities. Pass/fail.

**TEC 206 Teaching and Presenting with Technology 1 Credits**

This course covers designing, planning, and using technology enhanced instruction and presentations. Group assignments will enable students to explore uses of technology to enhance instruction and presentations. Collaboration will be encouraged when discussing the efficient and effective use of technology. Three collaborative group reports will be submitted dealing with discussion questions and chapter topics. Appropriate web sites and programs will be visited. Students will design a final original application that could be used to create motivation and visual learning in a specific classroom or other professional setting related to their major areas of study. Emphasis will be given to technology integration strategies. A final oral presentation of individual projects will be given.

**TEC 207 Social Media for Education 3 Credits**

Social Media for Education will introduce students to the structure and culture of social media and how social networking applies to the educational environment. This three-credit course will foster a deep understanding of how social media in education can benefit students, teachers, administrators, staff, and stakeholders.

**TEC 307 Concepts Instruct Media & Tech 3 Credits**

Designed to provide the student with familiarity and appreciation of the role of educational technology in the workplace as it applies to students, teachers, administrators, and trainers. The student will explore the Internet, various educational multimedia, distance learning, virtual reality environments, learning theories, and integration models. Appropriate developmental/reflective strategies will be incorporated with instruction. Although multimedia microcomputers will be utilized throughout the course, prior microcomputer knowledge and experience is not a critical element. Multimedia expertise will be developed as the course progresses.

**TEC 308 Directed Study in Instruct 3 Credits**

Designed to enable the student to develop instructional presentations utilizing the advantages of multimedia technology. Each student will be required to create a multimedia portfolio that contains information presentations, cumulative records, presenter notes, work samples, photo library, video animation, and audio narration. Cooperative learning strategies will be utilized throughout the course. Developmental/reflective strategies will include self-reflection, peer feedback, and interaction with the instructor in class and via E-mail. Expertise will be developed as the course progresses.

**TEC 309 Instruct Media/Technology Management 3 Credits**

Designed to develop technology management skills that can be used for individual classrooms, training centers, subject area specializations, grade levels, school laboratories, curriculum integration, administrative functions, system networks, community services, communication systems and connecting linkages between educational/work environments and home. Various management strategies will be explored and each student will have an opportunity to design, via a multimedia microcomputer, an instructional technology system of their choice along with a management plan. Cooperative learning strategies will be utilized throughout the course. Developmental/reflective strategies will include self-reflection, peer feedback, and interaction with the instructor in class and via E-mail.

**Prerequisite(s):** At least six semester hours of technology courses or modules.

**TEC 404 Assistive and Augmentative Technology for Autism Spectrum Disorders and Other Disabilities 3 Credits**

This course will emphasize the use of assistive technology, augmentative communication modalities, visual supports, and related instructional methods and strategies that maximize the learning of individuals with autism spectrum disorders and other exceptional learning needs. Students will learn how to effectively customize materials and adapt learning environments using technology, with a specific focus on individuals with ASD. Students will become familiar with the use of high-tech, low-tech, and no-tech solutions that support the individualized needs of learners.

**TEC 490 Independent Research and Study 1-6 Credits**

Provides the student with an opportunity to study an area of personal interest. The outline for the study must be accepted by a sponsoring professor and approved by the student's department and academic dean. The number of semester hours credit to be assigned is determined by the department.

## Elementary Education (ELD)

**ELD 128 Developing Mathematical Ideas for Elementary School Teachers 1 Credits**

Prospective teachers will examine the mathematics content and curriculum that is taught in grades K-6, focusing upon the multi-layered aspects of the topics that successful elementary teachers need to understand profoundly in order to provide appropriate instruction. There will be a series of topics selected from those that have historically been especially difficult for teachers to thoroughly understand at the depth needed to teach effectively. Some of the topics may vary each semester.

**ELD 307 Emergent Literacy P-3 3 Credits**

This course is needed to meet the requirements for the specialized endorsement in Early Childhood. The course establishes a solid foundation of knowledge about literacy in the early years and dispels myths regarding readiness to read and write. In addition, the course contains the foundational aspects of literacy, including the relationship between oral language and literacy, the linguistic foundation of literacy, and the social contexts of literacy learning. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**ELD 308 Fostering Language and Literacy Development 3 Credits**

Explores current understanding of the fields of reading/language arts from the perspectives of theory and practice. Students write lesson plans, critique methods of instruction and assessment and develop a portfolio of an individual student from their field site. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206; ELD 307.

**ELD 350 Early Adolescence 1 Credits**

This course will focus on common dilemmas faced by young people as they move from childhood into adolescence. It will examine age-related differences between children and adolescents and consider ways to create stimulating environments that fit this developmental transition. Representations of adolescence in the media and in research will be compared, including common stereotypes. A cumulative GPA of 2.75 is required.

**ELD 355 Teaching in the Inclusive Middle School Classroom 1 Credits**

This course will highlight the legal and ethical responsibilities of general education teachers in the middle school classroom. The special education process will be discussed and methods to address special needs in the classroom will be shared. Strategies to differentiate instruction and work collaboratively with school community members will help pre-service teachers develop and implement effective instruction that meets diverse needs in the middle school inclusive classroom.

**Prerequisite(s):** EDU 106 and EDU 206 and a cumulative GPA of 2.75 is required.

**ELD 360 Structure and Culture of Middle School Classroom 1 Credits**

This course focuses on the teaching of those concepts critical to the understanding of the structure and culture of middle school education. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**ELD 375 Methods of Teaching Mathematics in Elementary Classrooms 3 Credits**

This course focuses on the teaching of mathematics that is developmentally appropriate for students from nursery to grade eight. In keeping with ACET, NAEYC, and NCTM Standards, emphasis is placed on planning for and implementing an integrated curriculum approach, discovery learning, hands-on experience, theme cycles, use of technology, and traditional and non-traditional assessment strategies. Field experiences will consist of classroom observations and teaching individuals and/or small groups of students. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206, MTH 102 or MTH 105 or MTH 210.

**ELD 376 Teaching Science, Social Studies and the Arts N-6 3 Credits**

This course focuses on methods and materials of instruction in science, social studies, and the arts that are developmentally appropriate for students in preschool through grade six (based on NCSS, NSTA, and NAEA Standards). Emphasis is placed on an integrated approach to curriculum, with lesson and unit planning activities that incorporate hands-on-experiences, discovery learning and traditional and non-traditional assessment strategies. Field experience will consist of observation and analysis of classroom instruction and the teaching of lessons to individual and/or small groups of children. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** ELD 307 and ELD 375.

**ELD 380 Methods of Teaching Mathematics in the Middle School 3 Credits**

This course focuses on the teaching of mathematics that is developmentally appropriate for students in grades six through eight. In keeping with the National Council of Teachers of Mathematics (NCTM) Standards, emphasis is placed on planning for and implementing an inquiry-based approach, hands-on experience, use of technology, and traditional and non-traditional assessment. Field experiences will consist of observations and teaching to individuals, small groups and whole classes of students. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**ELD 385 Teaching Science in the Middle School 3 Credits**

This course focuses on the teaching of sciences that is developmentally appropriate for students in grades six through eight. In keeping with the National Science Education Standards, emphasis is placed on planning for and implementing an inquiry-based approach, hands-on experiences, use of technology and traditional and non-traditional assessment strategies. Field experiences will consist of observations and teaching to individuals, small groups and whole classes of students. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**ELD 390 Teaching Social Studies in the Middle School 3 Credits**

This course focuses on the teaching of social studies that is developmentally appropriate for students in grades six through eight. Its focus will explore understanding of United States history, geography and civics from the perspective of the middle school. The course emphasizes the ten themes of social studies as developed by the National Council for the Social Studies. In addition to the facts, concepts and generalizations encompassed by the ten themes, the course works with academic, social, thinking and citizenship skills. The required, intensive field experience in a middle school promotes direct application of the concepts, skills and dispositions addressed in the course. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**ELD 395 Literacy Learning in the Middle School 3 Credits**

This course focuses on the teaching of literacy that is developmentally appropriate for students in grades six through eight. It explores processes in reading, writing, speaking, listening and viewing, relationships among the language arts and other subject areas, and the development of critical literacy and cognitive strategies. The intense field experience in a middle school promotes direct application of the concepts, skills and dispositions addressed in the course. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**ELD 490 Independent Study: Research and Creative Expression 1-6 Credits**

Provides the student with an opportunity to study an area of personal interest. The outline for the study must be accepted by a sponsoring professor and approved by the student's department and academic dean. The number of semester hour's credit to be assigned is determined by the department.

## English (ENG)

**ENG 205 Understanding Literature 3 Credits**

The novel, the short story, drama, and poetry are studied, with a view to the insights to be gained from literature. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 206 Introduction to Creative Writing 3 Credits**

A workshop that introduces students to basic conventions and techniques of creative writing. Students will read and study published writing in multiple genres, such as short fiction, drama, poetry, and creative nonfiction, and write and revise their own creative pieces.

**ENG 208 Arthurian Legends in Literature 3 Credits**

The legends attached to King Arthur and the Knights of the Round Table have become cultural touchstones in England and the United States. This survey of medieval to contemporary Arthurian literature examines the legends and their written versions within their respective cultural, historical, philosophical and aesthetic contexts. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 210 Major American Authors 3 Credits**

An introductory course focusing on major American poets, novelists, essayists, and playwrights. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 211 Major British Authors 3 Credits**

An introductory course focusing on major British poets, novelists, essayists, and playwrights. Students will learn to understand, interpret, and evaluate literary works. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 213 Literature and Mythology 3 Credits**

The interrelationships that exist between literary works and folklore, ritual, and religious scriptures and beliefs are explored. The primary emphasis is on analyzing the presence of mythic patterns in specific literary works; the secondary emphasis is on theories of mythology. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 214 Monsters in Literature 3 Credits**

This course examines various texts on the topic of monsters. Students read and watch films, and explore the answers to the following: Who are they? Undead, alien, satanic, outcast, hidden, hostile, tragic. Where are they? Crossroads, arctic wastes, moors, abandoned buildings, forests, outer reaches, inside. What do they want? Revenge, bodies, lives, escape, life, contact, humanity. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 215 Satire and Comedy 3 Credits**

Explores these two related modes of literature with the primary emphasis on satire. Possible readings include works by Euripedes, Jonson, Shakespeare, Moliere, Voltaire, Pope, Swift, Dickens, Twain, Wilde, Waugh, Orwell, and Heller. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 217 Introduction To Shakespeare 3 Credits**

Students in this course study Shakespearean drama on an introductory level through close reading, analysis, and discussion of selected plays. They learn the relevance and importance of Shakespeare's themes, characterizations, and imagery. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 218 Literature and the Environment 3 Credits**

Students examine literature on important environmental issues, such as climate change, pollution, dams, oil pipelines, and nuclear energy. The class focuses on how literature, which may include fiction, poetry, drama, and essays, helps readers understand and grapple with these complex global challenges.

**ENG 219 Literature and Violence 3 Credits**

This course will examine and critique themes of violence that have become a pervasive and recurring artistic thread in classic literary texts. Through careful, close textual readings and critical analyses of thematically selected texts that contain multiple artistic representations of violence in varied literary genres, students will explore literary violence as a possible metaphor for understanding dimensions of power, control and dominance. In analytical studies of thematically selected texts, students will gain new insights and critical perspectives on modern American society and the social causes and ills of violence. Students will delve into the root, cause and meaning of violence and they will further grow to understand why and how violence still maintains a pervasive presence in their daily lives and in the very literature they read. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 220 Literature & Society 3 Credits**

Literature is examined, emphasizing human behavior as it relates to such social phenomena as war, alienation, social disorganization, injustice, and poverty. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 221 Literature and Psychology 3 Credits**

Students will study Freudian and other psychoanalytical concepts as they appear in literature, plus psychological patterns of behavior such as aggression, frustration, and submission, that have been utilized by creative literary artists to expand the reader's understanding of the human experience. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 222 Crime and Literature 3 Credits**

This introductory course focuses on representations of crime in novels and short stories. The primary goal of this course is to equip you with the basic tools you need to interpret fiction. Examining how narrative elements such as plot, character, point of view, and setting function in literature will enable you to analyze, not just comprehend and summarize, fiction. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 224 Science Fiction 3 Credits**

This course is designed to introduce students to science fiction, its major themes and preoccupations, as well as some of its significant authors and genres. It has been argued that science fiction or "speculative" fiction represents a viable way to make sense of our everyday world. Our primary focus, therefore, will be on how these texts—written and visual—help us understand our culture and ourselves through encounters with alien and unfamiliar worlds, species, and technology. By the end of the course, students are expected to be able to critically engage with science fiction, and to identify its broad cultural impact. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 226 Introduction to Film 3 Credits**

Focuses on various cinematic techniques used to develop underlying thematic and symbolic concepts and to shape viewer response. Students will analyze classical and contemporary features for their masterful use of visual language.

**ENG 228 Black American Lit 3 Credits**

A survey of writings by black Americans, presented historically from early slave narratives through emancipation, reconstruction, the Harlem Renaissance, and literature from the 1930s to the present. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 229 Multi-Ethnic Literature in America 3 Credits**

Surveys the literature of various ethnic groups including African Americans, American Indians, Asian Americans, Hispanic Americans, Jewish Americans and European Americans. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 230 Women In Literature 3 Credits**

A range of literary presentations of the female experience and of the conditions of women's lives is explored. These works are placed in historical and social contexts in order to see behind and beyond traditional literary conventions. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 236 Applied Grammar & Syntax 3 Credits**

This course offers a review of the essential elements of English grammar and syntax and fosters understanding of how these elements work in notable argumentative and expository writing as well as in the student's own compositions. Focus is on both expert reading and effective writing. Changing attitudes toward usage, including influence of digital media on language use, are discussed. May be taken as preparation for, or independently of ENG 336, which addresses grammar, syntax, and style at a more advanced level.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 240 Methods of Literary Analysis 3 Credits**

The study and application of various modes of literary criticism practiced, including formal, structural, psychological, and sociocultural methods of analysis. Required of all English literature and writing majors.

**ENG 245 Creativity 3 Credits**

This course is an introduction to the history of literary creativity and the related topics of invention, genius, imagination, and originality. It examines theories of literary creativity throughout history from ancient ideas about the origins of inventiveness to recent theories. It looks at select works in English and other sources, and it looks at the subject of creativity in poetic, prose, and dramatic works.

**Prerequisite(s):** English Literature majors should take all Gateway Courses before they take 300- and 400- level courses.

**ENG 250 Literary History I 3 Credits**

Surveys British literature beginning with the old English epic of Beowulf and ending with the British Romantic writers of the early 1800s. There will be an emphasis on the cultural and historical contexts of the works discussed as well as an appreciation for the aesthetic qualities of the individual texts and the characteristics of literary movements. This course is a prerequisite to ENG 251 and is required of all English majors and minors.

**ENG 251 Literary History II 3 Credits**

Surveys American and British literature since the 1820s. There will be an emphasis on the cultural and historical contexts of the works discussed as well as an appreciation for the aesthetic qualities of the individual texts and the characteristics of literary movements. Required of all English majors and minors.

**Prerequisite(s):** ENG 250 or permission of the instructor or chairperson.

**ENG 270 Major Poets 3 Credits**

Studies major American and British poets. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 275 Posthumanism: Bodies and Technology in Literature 3 Credits**

This course explores the concept of posthumanism in speculative and futuristic literature. Who counts as human? How do advances in science and technology change what it means to be human? How much can we change our bodies before we stop being human? Categories of posthumanism that may be explored include virtual reality, cybercultures, and bodily transcendence; cyborgs; body modification, duplication, and replacement; cloning; genetic engineering; and postapocalyptic/ecocritical narratives.

**ENG 280 Special Topics in Literature 3 Credits**

Uses literary works to achieve insights into different areas of human experience. Topics change annually as announced by the English department.

**ENG 281 Global Film History: Origins to 1960 3 Credits**

Examines major technological and aesthetic developments in both American and international cinema of the period, with an emphasis on global cinema. From silent comedy and melodrama to German Expressionism and Soviet activist cinema; from French poetic realism and Italian Neo-realism to Hollywood sound cinema, this course will survey and assess the impact of influential movements, major film artists, and groundbreaking films of the period. ENG 281 is crosslisted with FMS 250 and this course counts towards the fulfillment of the Global Perspectives element of the CLAS general education curriculum.

**ENG 282 Global Film History: 1961 to Present 3 Credits**

Examines major technological, industrial and aesthetic developments in both American and international cinema of the period. From the decline of the studio system and the emergence of the 'New Hollywood' to the digital revolution; from the renaissance in Western and Eastern European cinemas to Latin American, Asian, and Middle Eastern cinema, this course will survey and assess the impact of influential movements, major film artists, and groundbreaking films of the period. ENG 282 is crosslisted with FMS 251 and fulfills the general education global perspectives requirement.

**ENG 284 Language of Film Analysis 3 Credits**

Provides students with the fundamentals necessary for achieving beginning proficiency in methods of cinema studies scholarship. The course provides an in-depth introduction to concepts of film analysis, theory, and history, as well as to the field of cinema studies as an academic discipline. Through close analysis of selected films and readings, students will examine the various and complex ways in which formal elements shape meaning. Students also will study key concepts in film theory, applying these concepts as a further means of understanding the ways in which film positions viewers and mediates ideology. Required of all English majors and minors with a cinema studies concentration. ENG 284 is crosslisted with FMS 284.

**ENG 285 American Film History: Origins to 1960 3 Credits**

Examines major technological and aesthetic developments in American cinema as it grew from the days of one-reel silent shorts exhibited in storefront theaters through the days of studio productions exhibited in lavish picture palaces and featuring iconic stars the system manufactured and promoted. From the inception of sound and color, to the later development of lightweight equipment that freed filmmakers from the confines of the studio, from the “golden age” to the gradual decline of the Hollywood studio system in the 1950s, we will study the lasting genres that grew out of the system, the filmmakers who flourished and those who rebelled against the system, and the ground-breaking films that established the American film industry as a dominant force within the world. ENG 285 is crosslisted with FMS 252.

**ENG 286 American Film History: 1961 to Present 3 Credits**

Examines the transitions of Hollywood in the post-studio era— the rise of the 1960’s-1970s New Hollywood and its ground-breaking films, the rise of the blockbuster as an industry standard; the responses of independent filmmakers and the avant-garde to blockbuster dominance; the transition from the Production Code to the ratings system, the move back to studio-owned theaters, and the emergence of digital cinema and CGI. We will look at how genres are being redefined, how major filmmakers are re-shaping their work to fit 21st century demands, how “gaming,” YouTube, and other media sources are altering the very definition of cinema. ENG 286 is crosslisted with FMS 253. This course counts towards the fulfillment of the Global Perspectives element of the CLAS general education curriculum.

**ENG 290 The Short Story 3 Credits**

Presents the development of the short story from the 19th century to the present with an emphasis on the techniques of plot, setting, characterization, theme, and point of view. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENG 295 Human Relationships in Literature (HONORS) 3 Credits**

Through in-depth analysis of significant pairs of literary works from a variety of time periods, students in this honors course will study the dynamics of human relationships as they are presented in literature. Emphasis will be on portrayal of interpersonal relationships as inflected by conventions, constraints, and taboos. Social and psychological theories will complement esthetic and formal analysis of fiction, drama, poetry, and film. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Prerequisite(s):** 3.3 GPA.

**ENG 303 Creative Writing: Poetry 3 Credits**

A workshop analyzing the techniques of poetic expression, with a focus on the student’s original experiments in traditional and contemporary verse forms.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 304 Creative Writing: Fiction 3 Credits**

Students write original fiction and analyze the techniques of writing fiction in discussion of both their own drafts and published examples of the form.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 305 Creative Writing: Nonfiction 3 Credits**

A workshop in Creative Nonfiction (aka Literary Nonfiction or Narrative Nonfiction, abbreviated CNF) in which students will write and read different forms of memoir and essay, including Personal Essay, Lyric Essay, Travel Writing, Oral History, and Personal Profiles. Creative Nonfiction (CNF) tells true stories using the literary techniques of fiction-writing, such as building dramatic scenes, establishing suspense, and developing a narrative sequence of events, or plot. CNF employs vivid sensory detail and builds characters and scenes to enhance the reader’s experience of the story. Challenging the traditional journalist’s stance of objectivity and emotional distance from her topics, CNF writers often put themselves into their stories to create a voice of reflection. We’ll talk about what types of creative license CNF gives writers, and also about the ethics of storytelling, especially when your story’s characters are real, living people.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 306 Creative Writing: Drama 3 Credits**

Examines cultural developments in the United States from the late 19th century to the present. Topics include popular culture, intellectual history, gender history, literary history, film, institutions like museums and department stores, subcultures and countercultures, popular commemorations like World’s Fairs, and political culture. Some of the largest trends explored include the development of the modern culture of consumption, the urban landscape, and the polarization of cultural values.

**ENG 311 Creative Writing: Playwriting 3 Credits**

A workshop teaching and analyzing how students write for the stage that pays particular attention to the demands of the genre. Through reading and writing assignments, students will discuss and analyze the development of their own dramatic scripts for theatrical performance. A portfolio of revisions will serve as a final for the course.

**ENG 312 Creative Writing: Screenwriting 3 Credits**

A workshop teaching and analyzing how students write for the screen, both television and film, that pays particular attention to the demands of the genre. Through reading and writing assignments, students will discuss and analyze the development of their own dramatic scripts for production. A portfolio of revisions will serve as a final for the course.

**ENG 313 Creative Writing: Experimental Writing 3 Credits**

A creative writing workshop dedicated to developing a wider range of literary techniques. For the purposes of this course, Experimental Writing is defined as writing that departs – in form, structure, or style – from the conventions of literary realism. Students will demonstrate proficiency in writing and reading experimental fiction, nonfiction, and poetry, with an emphasis on experimental narrative techniques such as metafiction, magic realism, the unreliable narrator, multi-genre and hybrid forms (works that blur the lines between poetry and prose, for example), nonlinear storytelling, fragmentation, and poetic techniques such as found text and readymades, self-imposed constraints, and the collage or mashup.

**Prerequisite(s):** ENG 206.

**ENG 315 Topics in Specialized Writing 3 Credits**

A workshop in which students will write on specialized topics chosen by the instructor.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 316 Theories of Writing & Tutoring 3 Credits**

A workshop on writing and tutoring theory for students interested in becoming writing tutors or teachers.

**Prerequisite(s):** minimum GPA 3.0, sophomore standing, and permission of the instructor.

**ENG 318 Food Writing 3 Credits**

Food Writing is a thematically based course in essay writing. It develops students' ability to write effective informal prose while also extending their knowledge about food sources, preparation, and consumption.

They learn through readings and exercises, however, that food writing is about more than food. It encompasses the pleasures of the table, history, culture, science, and politics.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 320 Editing for Literary Publishing 3 Credits**

This course introduces students to the process of publishing literary magazines and books. Student will learn all aspects of publishing from solicitation of manuscripts to the production of copy. Specific skills will include copyediting, proofreading, and layout.

**ENG 321 Workplace Writing 3 Credits**

Students practice writing effectively to achieve specific purposes in typical business and professional workplace environments. Genres include various kinds of internal and external communication, including print and social media, for a range of audiences.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 322 Workplace Writing: Grant Proposals, Fundraising and Development 3 Credits**

Students employ their analytical and writing skills to research and write grants for non-profit organizations in their local or regional communities. Fundraising and development activities on behalf of area organizations introduce them to career opportunities in this growing field.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 323 Workplace Writing: Reviewing and Publishing 3 Credits**

Students learn to write arts and literary criticism through studying the work of prominent critics in literature, theatre, film, dance, visual arts, and music. Students learn how to market themselves as potential reviewers for print and online publications.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 324 Workplace Writing: Online Contexts 3 Credits**

This course will help students adapt their writing to online environments. A writing-intensive course grounded in rhetorical principles, it focuses upon planning, writing and producing online texts distributed entirely through virtual portals. Genres include E-mail, instant messages, text messages, blogs, wikis, workplace social-media, and online team collaborations.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 325 Jobs in Book Publishing 3 Credits**

Students will practice the forms of writing used by literary agents and publishing professionals working in acquisitions, editorial, and production at trade, academic, and small literary presses. These forms may include the query letter, book proposal, reader's report, and marketing plan.

**Prerequisite(s):** Completion of composition requirements or permission of instructor.

**ENG 331 Medieval Literature 3 Credits**

A seminar in Old and Middle English authors, such as Bede, Chaucer, and Kempe, and texts, such as Beowulf, moralities, and mystery cycles. Students may be introduced to linguistic issues, historical and political concerns and critical topics such as literacy, canon formation, and gender.

**ENG 332 British Literature, 20th-Century to Present 3 Credits**

A seminar on literature in the United Kingdom from 1900 to the present, emphasizing formal experiments as well as historical contexts, and including such writers as Joyce, Woolf, Beckett, Rhys, Eliot, and Ishiguro.

**ENG 333 16th-Century Literature 3 Credits**

A seminar on Renaissance literature including such writers as More, Wyatt, Surrey, Spenser, Sidney, Shakespeare, and Marlowe.

**ENG 335 17th-Century Literature 3 Credits**

A seminar on literature in England from 1600 to 1660, including such writers as Donne, Jonson, Browne, Herbert, and Marvell.

**ENG 336 Grammar and Style 3 Credits**

By building a comprehensive knowledge of the conventions of English grammar, punctuation and syntax, students will learn how to analyze the way words, phrases, sentences, and paragraphs work in expert writing, and they will apply this knowledge to their own writing. Emphasis is on argument, exposition, and analysis.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 337 Global Literature 3 Credits**

A study of the recent literature, in English, of one or more writers whose cultural identification is with one of the former colonies of the British Empire, as it was defined at the beginning of the 20th century. Literature in the English language, written by authors of African, Caribbean, Pacific Island, East Asian, or South Asian cultures may be included.

**ENG 340 Restoration & 18th Century Literature 3 Credits**

An exploration of literature in England from 1660 to 1800, including such writers as Astell, Pope, Finch, Swift, Defoe, Fielding, Johnson, and Wollstonecraft.

**ENG 344 Biblical and Classical Influence in Literature 3 Credits**

This course surveys biblical and classical influences on western literature from Shakespeare to Atwood. Its primary objective is to introduce selections from the Old and New Testaments, Homer, Aeschylus, Sophocles, Ovid, and Dante so that you may recognize and appreciate references and allusions to these stories - their enduring influence - in early modern literature and culture.

**ENG 345 Romantic Literature 3 Credits**

A seminar on literature in England from 1780-1830, emphasizing a close study of the poetry of Blake, Wordsworth, Coleridge, Shelley, Byron, and Keats, as well as important novelists and female poets of the period.

**ENG 346 Victorian Literature, 1830-1900 3 Credits**

A seminar on literature in England from 1830 to 1900, emphasizing close study of the literary culture, including such writers as Dickens, Browning, Mill, and Ruskin.

**ENG 347 20th-Century British Literature 3 Credits**

A seminar on literature in the United Kingdom from 1900 to 1960, emphasizing formal experiments as well as historical contexts, and including such writers as Joyce, Woolf, Beckett, Rhys, Delaney, and Eliot.

**ENG 348 Contemporary British Literature 3 Credits**

A study of contemporary literature written in English after 1945, in the U.K. and elsewhere, by writers of British, Irish, Scots, Welsh, and other cultural traditions. Poetry, fiction, literary essays, and drama will be included.

**ENG 350 Sex and Sin in Early American Literature 3 Credits**

A seminar on literature in the United States from its beginnings to 1800, emphasizing the changing and conflicted nature of religious beliefs and sexual identities in Early America. Students will read and analyze diverse literary genres including diaries, letters, essays, novels, short stories, poems, and sermons.

**ENG 351 19th-Century American Literature 3 Credits**

A seminar on literature in the United States from 1800 to 1900, emphasizing literary genres and the definition of an American literature as distinct from English literature.

**ENG 353 Contemporary American Literature 3 Credits**

A seminar on American literature from 1945 to the present.

**ENG 354 Selected Topics in English 3 Credits**

Exploration of special topics, themes or methodologies in English. This course may be repeated for credit on different topics.

**ENG 355 Selected Topics in English 3 Credits**

Exploration of special topics, themes or methodologies in English. This course may be repeated for credit on different topics.

**ENG 356 Selected Topics in English 3 Credits**

Exploration of special topics, themes or methodologies in English. This course may be repeated for credit on different topics.

**ENG 357 American Literature, 20th century to Present 3 Credits**

"A seminar on American literature from 1900 to the present, including such writers as O'Neill, Hemingway, Faulkner, Richard Wright, Stevens, Moore, and Williams, and Morrison."

**ENG 361 Selected Topics in English 3 Credits**

Exploration of special topics, themes or methodologies in English. This course may be repeated for credit on different topics.

**ENG 362 The Novel 3 Credits**

A close reading of novels from various historical periods and cultures.

**ENG 363 The Drama 3 Credits**

A close reading of drama, with attention to cultural contexts and the genres of tragedy and comedy.

**ENG 364 The Poem 3 Credits**

A close reading of poetry, with attention to historical periods and poetic genres.

**ENG 365 Short Fiction 3 Credits**

A close reading of short fiction from a variety of cultures, with attention to the various genres of short fiction: short-short, short story, long story, and novella.

**ENG 366 Black and Multi-Ethnic Literature 3 Credits**

A Survey of the literary writings of selected writers of Black and Multi-Ethnic America. Writers may include Zora Neale Hurston, Dorothy West, Maxine Hong Kingston, Anzia Yezierska, Louise Erdrich, Don Lee and Amy Tan.

**ENG 371 Classics of Children's Literature 3 Credits**

An analytic study of classic and contemporary literature for children. Students will be introduced to a variety of critical approaches, including psychoanalytic, social/historical and feminist. The course may be of particular interest, but is not restricted, to students majoring in education or psychology.

**ENG 372 Children's Literature: The Adolescent Experience 3 Credits**

A study of enduring literature examines how exemplary writers chronicle the challenges of growing up. Texts may include influential Young Adult fiction, classics such as *The Catcher in the Rye* and *To Kill a Mockingbird*, and contemporary fiction by important writers who focus on the relevant themes.

**ENG 375 Literature and Sexuality 3 Credits**

The study and application of theories of gender and sexuality in various periods of British and/or American literature. Possible course topics include the literature of AIDS, the literary history of sexuality, Gothic literature and sexuality, colonialism and desire, and sensibility and sexuality in the later 18th century.

**ENG 381 Studies in Film Genre 3 Credits**

Provides an in-depth examination of a variety of film genres (such as the gangster film, the western, the musical, the screwball comedy, the science fiction film, and the horror film, among others), to be examined through the perspective of film genre theory. Through close analysis of selected films and readings, students will define the aesthetic and thematic patterns characterizing specific genres, and will trace the development of those genres within the dual contexts of the film industry and cultural ideology. Note: This course is cross-listed as FMS 381.

**ENG 382 Comparative Film Directors 3 Credits**

Provides an in-depth comparative study of major American, international, independent and avant-garde filmmakers. Through close analysis of selected films and readings, students will define the aesthetic and thematic patterns characterizing the work of individual directors and will draw meaningful comparisons among directors sharing similar aesthetic and thematic approaches. Students will trace the artistic development of directors through their careers, assessing individual works in the context of film criticism and theory, and in the context of multi-layered intertextual influences. Note: This course is cross-listed as FMS 382.

**ENG 383 Global Cinemas 3 Credits**

Provides an in-depth study of the history and defining characteristics of national cinemas. Through close analysis of selected films and readings, students will examine the general movements within the history and development of various national cinemas, with attention to film historiography when considering how patterns are to be viewed in light of the culture, politics, and history of a particular producing nation. Further, students will trace and evaluate the influence of selected film movements and issues upon both cinematic and critical practice. Note: This course is cross-listed as FMS 383.

**ENG 384 Film Adaptation 3 Credits**

Provides an in-depth study of intertextual influence, as film enters into "dialogue" with various literary forms. Through close analysis of selected films and various forms of literature-including novels, graphic novels, short stories, plays, poetry, and journalism- students will study the aesthetic specificity of both film and literary genres and will analyze the transformative qualities at play when a work is adapted from page or stage to screen. Note: This course is cross-listed as FMS 384.

**ENG 400 Creative Writing: Advanced Creative Writing 3 Credits**

An advanced workshop in creative writing.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 405 Advanced Prose Style 3 Credits**

Students analyze prose styles in English from the Renaissance to the present, focusing on the development of syntax, diction, and content. Students will be encouraged to imitate stylistic models and to develop their own prose style.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 407 Advanced Workplace Writing 3 Credits**

Students will learn to adapt their writing skills to match specialized writing needs in publishing; corporate and personal finance; health, medicine, science, and technology. This course helps students build a portfolio and introduces them to corporate and freelance writing opportunities in our NJ/PA/NY area.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 411 History of the English Language 3 Credits**

A seminar on the historical development of the English language, including phonetics, diversity, and present-day usage.

**ENG 425 Seminar in Shakespeare 3 Credits**

A seminar on Shakespearean drama and poetry.

**ENG 435 Seminar In Milton 3 Credits**

A seminar on Milton's lyric poetry, *Samson Agonistes*, *Paradise Lost*, and prose.

**ENG 440 Seminar in Selected Major Authors 3 Credits**

Seminar focusing on literature by one or two authors.

**ENG 441 Seminar in American Literature 3 Credits**

A seminar focusing on literature by one writer or by a small group of writers.

**ENG 443 Seminar in Literary Modernism 3 Credits**

A seminar on literature from 1900 to 1940, by British, Irish, and American writers such as Hardy, Yeats, Woolf, Joyce, Eliot, Williams, Hurston, and Faulkner.

**ENG 445 Seminar in Black/Multi-Ethnic Literature 3 Credits**

A seminar focusing on literature by black, Native American, Hispanic, Asian American and first-generation immigrant writers.

**ENG 455 Seminar in Chaucer 3 Credits**

An examination of Geoffrey Chaucer's writings from a number of critical perspectives, including close reading of the texts in Middle English, context and history, gender and sexuality, linguistics, and paleography and codicology.

**ENG 465 James Joyce 3 Credits**

This course will offer advanced English majors an in-depth exploration of the fiction of James Joyce with a particular focus on Joyce's novel *Ulysses*, considered one of the most (if not the most) important novels written in the twentieth century. Through a carefully scaffolded reading of Joyce's challenging work, students will explore the technical, aesthetic, and social innovations of modernist fiction and its contemporary and continuing cultural impact; recognize and articulate classical, biographical, and cultural influences on Joyce's work; and understand how editors, publishers, critics, and readers contribute to the production of seminal works of literature.

**ENG 484 Seminar in Cinema Studies 3 Credits**

Provides an in-depth study of areas central to discussion and debate in the field of cinema studies (such as film violence, cinema censorship, feminism and film, post-colonial cinema, African-American cinema, blaxploitation, The French New Wave, and Italian Neorealism, among others). Through close analysis of selected films and readings, students will examine the impact of specialized influential movements in film history and in film theory and criticism. Further, students will trace and evaluate the influence of selected film movements and issues upon both cinematic and critical practice. Note: This course is cross-listed as FMS 484.

**ENG 485 Cinema Studies for Teachers 3 Credits**

Designed for teachers and education students who (will) use film in their classrooms, ENG 485 provides approaches to teaching basic film analysis; approaches to helping students recognize the permeable boundaries between film, culture, and ideology; and approaches to understanding selected issues crucial in cinema studies as a field of scholarly study. The course provides teachers and prospective teachers with various methodological approaches and flexible uses of fiction and documentary films across the curriculum, whether to supplement or reinforce existing curricula or in stand-alone courses devoted to the study of film.

**ENG 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. To count toward the Certificate in Workplace Writing, an ENG 490 project must focus on workplace-related writing and be structured to include substantial formative feedback and revision. No more than one ENG 490 may be counted toward the certificate.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**ENG 491 Internship in Writing and Publishing 1-6 Credits**

Students work under the supervision of English faculty and on-site supervisors to complete real-world assignments in writing, publishing, and cinema studies. Their performance is assessed by professional standards. A minimum of 48 hours of field work per credit is required. Students report to faculty and on-site supervisors regularly, submit all work required by on-site supervisors, maintain a log, and complete a final report. Three credits required to count toward English writing concentration. Restricted to juniors and seniors.

**ENG 497 Advanced Study 3 Credits**

Qualified majors may apply for honors in their senior year. Upon approval from the department of English, a candidate for honors enrolls in Advanced Study, writes a thesis, and submits it for departmental approval. The student must achieve a course grade of "B+" or better to be graduated with honors in English.

**Prerequisite(s):** senior standing; 3.5 GPA in English; 3.25 cumulative GPA.

## English Composition (CMP)

**CMP 100S Intro to College Writing 1-3 Credits**

Students will develop their competence in the critical reading of challenging college-level texts that engage significant ideas and in writing effective essays that advance a clear and meaningful thesis while demonstrating understanding of those texts. Pass or fail.

**CMP 115 Intro to Expository Writing 3 Credits**

Students will develop college-level skills in critical reading of challenging texts and in writing expository essays responding to those texts. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** SAT EBRW score less than 550 or ACT English score less.

**CMP 120 Expository Writing 3 Credits**

Students will increase their competence in the critical reading of challenging college-level texts that engage significant ideas and in writing effective essays that advance a clear and meaningful thesis while demonstrating understanding of those texts. The second of the department's three-course composition sequence, This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** SAT EBRW score greater than or equal to 550 and SAT or CMP 115 with a minimum grade of D.

**CMP 125 Research Writing 3 Credits**

Introduces students to the process of library research and documented writing. Emphasis will be on the refinement of critical reading, thinking, and writing strategies applied to multiple sources and documented papers. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** CMP 120 or BHP 100.

**CMP 203 Literature and Composition 3 Credits**

Students will write research papers and do library research through the use of literary materials. The course emphasizes increasing the comprehension of ideas and experiences by means of selected readings. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** CMP 203 is open to students who receive a grade of "A" or "B" in CMP 120; it may be used as a substitute for CMP 125.

## Entrepreneurial Studies (ENT)

**ENT 100 Innovation and Entrepreneurship 3 Credits**

This course provides students with an introduction to creativity, innovation, and the concept of an entrepreneurial mindset. Students explore the excitement and challenges faced by individuals and businesses as they create, develop, and evaluate innovative business opportunities. We also discuss the probable paths of career development for students pursuing entrepreneurship. In this course, students evaluate their own views of innovation and entrepreneurship within the framework of entrepreneurial thinking, and putting this mindset into action.

**ENT 210 Sports Entrepreneurship 3 Credits**

Sports Entrepreneurship will introduce students to entrepreneurship in the sports industries as they explore opportunities and challenges for new ventures in this sector. Using an industry's business model, students will identify competitive advantages and understand what is required for startup success.

**ENT 260 Family Business Management 3 Credits**

This course is directed at understanding the family-owned and managed firm. Topics included are the strengths and weaknesses of a family firm, the dynamics of the family and business interactions, conflict resolution, succession planning and ownership transfer. The course will help individuals involved with a family firm, regardless if they are a family member.

**Prerequisite(s):** MGT 201 and junior standing.

**ENT 335 Small Business Tax Planning 3 Credits**

This course provides an understanding of the key tax issues faced by small businesses and their business implications. It also familiarizes prospective business owners with various tax filing requirements so that they can use the expertise of tax professionals more effectively.

**Prerequisite(s):** ACC 210.

**ENT 348 Small Business Management 3 Credits**

This course provides students with an introduction to ownership/management in the world of small business as well as an understanding of what is needed to start/buy/sell a small business. In addition, the course endeavors to help students move from a consumer orientation to a producer orientation, and to learn project management and research skills through participation in a hands-on project. The project has students investigate the market potential of an innovative business concept, and then use this research to evaluate the business concept as an entrepreneurial opportunity.

**ENT 350 Entrepreneurial Finance 3 Credits**

This course covers the techniques for acquiring financial resources as a firm advances through successive business stages: seed, start-up, struggling, growing, and stable. In addition, it examines recent trends in credit markets and the latest financial innovations as they impact the process of financing the venture's growth.

**Prerequisite(s):** FIN 300.

**ENT 375 International Entrepreneurship 3 Credits**

Students will learn how new or small ventures enter international markets. Requirements include developing a case about starting or running a venture in a single country of the student's choice.

**Prerequisite(s):** MGT 201 and junior standing.

**ENT 399 Entrepreneurship Co-Op 6 Credits**

This course provides students with a semester-long supervised employment with an entrepreneurial firm/organization. Students are required to maintain a journal, complete a reflection paper and are evaluated by the participating firm/organization. Eligible students are entrepreneurial studies juniors or seniors with a 3.0 GPA or better. Co-op credits count as free electives. Grading is on a pass/fail basis.

**Prerequisite(s):** ENT 348 or permission of program director.

**ENT 410 New Venture Planning 3 Credits**

This course will require students to select a business and prepare a complete new venture plan for it. This plan would identify the product and its target market, analyze its market potential, choose the location, scale of operation, layout, staffing, type of financing, estimate the revenues and profits, and present the income statement, balance sheet, and the cash flow projections.

**Prerequisite(s):** ENT 348 or permission of instructor.

**ENT 420 Student Venture Experience 3 Credits**

Students will start and run a small business while under the supervision and guidance of faculty. Students will take a business plan developed through New Venture Planning (ENT 410) and execute it. Students will experience the launch process and learn, hands on, how to adapt to the marketplace. Some businesses started in this class may also be eligible for seed venture funding from Rider.

**Prerequisite(s):** ENT 348, ENT 410, and permission of instructor.

**ENT 444 Special Topics 3 Credits****ENT 448 Small Business Consulting Sem 3 Credits**

This course utilizes student teams to assist existing small businesses in solving problems or researching opportunities. Students will spend the majority of time in the field utilizing an experiential learning approach. Weekly activity logs, proposal development, and project completion are required. Restricted to seniors.

**Prerequisite(s):** ENT 348 and permission of instructor.

**ENT 490 Independent Research and Study 3-4 Credits**

Topic to be approved by professor and program chairperson. Available to juniors and seniors.

**ENT 491 Internship 3 Credits**

## Environmental Sciences (ENV)

**ENV 100 Introduction to Environmental Sciences 4 Credits**

Examines how ecosystems function, with emphasis on the interactions between biological organisms and their physical environment, and the chemical processes that govern these interactions. The impact of human populations on natural ecosystems is investigated in detail using case studies from history and current events. The laboratory provides for hands-on experiences and/or short field trips to local sites for a better understanding of many of the concepts discussed. Weekday and weekend field trips may be required. Three hours of lecture and one three-hour lab per week. CLAS general education areas addressed: DP, SP, GP.

**Corequisite(s):** ENV 100L.

**ENV 100L Introduction to Environmental Sciences Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** ENV 100.

**ENV 110 Future of Natural Resources 4 Credits**

In this combined lecture and lab course, students are introduced to topics in the natural sciences through studies of human exploitation of selected natural resources (e.g. water, fisheries, mineral resources). The course work includes a study of the scientific process and how it can contribute to solutions to contemporary issues. Topics covered will include factors that influence real-world decisions to manage natural resources more sustainably (e.g. political, economic, ethical factors). During the six hours of class meetings each week, lecture and lab components will be integrated. Field trips will be required. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**ENV 110L Future of Natural Resources Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** ENV 110.

**ENV 200 Statistical and Computer Applications in the Natural Sciences 4 Credits**

This course introduces important statistical concepts, their application, and the usage of computer technology relevant to biological, environmental, geological, and marine problems. Students will learn various graphical and statistical techniques and how to execute them on personal computers. The curriculum emphasizes the integrated nature of these techniques and their importance to meaningful data evaluation and representation. Laboratory exercises are designed to emphasize useful solutions to problems found in many scientific disciplines using computer-based methodologies. Three hours of lecture and one three-hour lab per week.

**Corequisite(s):** ENV 200L.

**ENV 200L Statistical and Computer Applications in the Natural Sciences Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** ENV 200.

**ENV 205 Introduction to Geographic Information Systems 3 Credits**

This course introduces the computer-based concepts and skills of Geographic Information Systems (GIS). It covers the basic GIS concepts, such as map characteristics and projections, spatial data models and analysis, and relational databases. It explores data sources, data quality, and metadata, as well as implementation and management of specific GIS projects. Hands-on experience with ArcGIS software is provided through a series of student exercises completed throughout the semester. Students will also be taught how to process both vector and raster data using ArcGIS software. The course is relevant for students from numerous disciplines in the natural sciences, social sciences, and business, which require the analysis and graphical representation of spatial data. Three hours of lecture per week. Note: This course is cross-listed as GLS 205. Students may not receive credit for both ENV 205 and GLS 205.

**ENV 220 Weather and Climate Change 3 Credits**

This course introduces students to the concepts of weather and climate change. These concepts frame a continuum from short-term or daily changes in the atmosphere (meteorology) to those changes averaged over much longer periods of time (climatology). Students will learn the fundamentals of weather forecasting, the causes of natural variation in the Earth's climate, and the impact of human actions on the Earth's climate. Connections will be drawn to other current issues in the Earth system, including land use change, biodiversity, and pollution. Three hours of lecture per week.

**Prerequisite(s):** GEO 100 or permission of instructor.

**ENV 290 Directed Research and Study in Environmental Sciences 1-4 Credits**

Provides an opportunity for freshman and sophomore students to gain hands-on research experience in the environmental sciences. This is an individual program of study and each student will work with a selected faculty member on a topic of mutual interest. The course consists of a combination of project meetings, supervised research, and guided readings. The focus will be on formulating research questions, designing and conducting experiments, collecting the necessary data, reviewing the scientific literature as it relates to each student's research topic in weekly meetings with the instructor, and communicating the findings by writing a final project report.

**ENV 340 Environmental Field Methods and Data Analysis 3 Credits**

This course will provide students with practical experience in field methods and data analyses within the environmental sciences. The course will include advanced activities incorporating field-based exercises, GIS analyses, statistical analyses, and database management. Students will also complete an independent project focused on a relevant topic. Local field trips during lab and on weekends may be required.

**Prerequisite(s):** MTH 105, GEO 100, GEO 102, and ENV 100; or Permission of Instructor.

**ENV 350 Principles of Environmental Toxicology 3 Credits**

A comprehensive description of the important principles of toxicology, including the absorption, distribution, metabolism, and excretion of toxic substances. Target organs systems will be discussed as well as mechanisms of carcinogenesis and teratogenesis. Specific groups of toxins to be discussed include: pesticides, metals, radiation, solvents and vapors, and plant and animal toxins. Three hours of lecture per week.

**Prerequisite(s):** BCH 225 or CHE 211, BIO 115 or BIO 117.

**ENV 375 Environmental Biogeochemistry 3 Credits**

This course examines the biogeochemical interactions among various environmental components, including water, rock, soil, organisms, and atmosphere. Covered topics focus on the relation between the biosphere and changes in the Earth's environment and atmosphere. The transfer of energy and nutrients within terrestrial ecosystems also is explored. Case studies from various examples will be used to understand ecosystem dynamics. Long-term environmental change and present-day ecosystem restoration activities are examined in the context of biotic offsets and land-use planning. The biogeochemical cycles of some environmentally sensitive compounds and elements in natural systems, such pesticides, mercury, and lead, also may be examined. Three hours of lecture per week.

**Prerequisite(s):** GEO 100 or GEO 113, CHE 120, CHE 121, CHE 122, CHE 123.

**ENV 480 Senior Thesis 3 Credits**

A senior thesis is optional for environmental science majors. However, a senior thesis is required for eligibility to graduate with honors in environmental science. The topic for investigation will be chosen by the student in consultation with the faculty of the Department of Geological, Environmental, and Marine Sciences. The student must initiate consideration of a proposal to the Department. The proposal must contain a discussion of the proposed project and a timetable to be followed in the study. A departmental committee consisting of a major and minor advisor will evaluate the written paper submitted at the conclusion of the study. An oral presentation before the department at the conclusion of the semester in which the study is completed is required. Proposals must be submitted in final form no later than the end of the ninth week of the semester prior to the semester in which the study is undertaken.

**Prerequisite(s):** senior standing in the geosciences major and permission of instructor.

**ENV 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**ENV 491 Internship in Environmental Sciences 1-4 Credits**

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placements may be in private, public, non-profit, or governmental organizations. These can include consulting firms, regulatory agencies, advocacy groups, and educational or research institutions. Normally, 50 hours of internship per credit is required. A mutually agreed upon method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and could include a term paper or project report and a poster presentation.

**Prerequisite(s):** 2.5 GPA and permission of instructor.

## European Area Studies (EUR)

**EUR 250 Intro to European Area Studies 3 Credits**

This multi-disciplinary course introduces students to European Area Studies, and focuses upon how Europe has been conceptualized as a social, cultural, economic and political entity. Subjects surveyed through materials drawn from multiple disciplines and media include geography, ecology and climate; principal language systems and their development; historical, political and economic developments from antiquity to the modern era; architecture, city development and design; contemporary cultural life; and the formation and organization of the European Union. Required foundation courses for the European Area Studies minor.

## Exercise Science (EXS)

**EXS 121 Exercise Injury Control and Management 3 Credits**

This course is designed to provide the participant with entry level knowledge, competence, and skill in the care and prevention of injuries sustained during physical activity, sport, and exercise. This course includes units dealing with basic anatomy of common injuries, evaluation techniques, preventive measures to reduce the incidences of injuries and a knowledge of basic treatment procedures to be used after injuries occur. Legal and ethical issues will also be discussed.

**EXS 320 Exercise Physiology 3 Credits**

An entry level exploration of the physiological processes, metabolic requirements, and consequences of exercise in humans. Emphasis is placed on bioenergetics, as well as circulatory, respiratory, and neuromuscular responses to the physical stress of exercise performed for health and disease prevention.

**Prerequisite(s):** BIO 221, BIO 222.

**EXS 321 Exercise Physiology Laboratory 1 Credits**

EXS 321 is the laboratory course that accompanies EXS 320. Topics will include entry-level practical skills and competencies related to exercise capacity evaluation, interpretation of exercise data, and application of exercise interventions in a clinical setting. **Prerequisite(s):** BIO 221, 222 **Co-requisite(s):** EXS 320.

**EXS 340 Exercise Testing & Prescription 3 Credits**

An advanced, competency based course in the evidence based evaluation and prescription of exercise interventions in healthy and clinical populations. **Prerequisite(s):** EXS 320 **Co-requisite(s):** EXS 341.

**EXS 341 Exercise Testing & Prescription - Lab 1 Credits**

An advanced, competency based laboratory course in the evidence based evaluation and prescription of exercise interventions in healthy and clinical populations **Prerequisite(s):** EXS 320 **Co-requisite(s):** EXS 340.

**EXS 360 Foundations of Strength and Conditioning 4 Credits**

This course examines the advanced methods and techniques associated with the design of strength and conditioning programs to enhance human performance in sport and fitness. This course is designed to develop, enhance, and apply knowledge and skills to prepare the student for the profession of strength and conditioning.

**Prerequisite(s):** EXS 320, EXS 321, HSC 302.

**EXS 401 Organization and Administration in Exercise Science 3 Credits**

This course examines the various issues, policies, and procedures involved with administrative aspects of exercise science in traditional and non-traditional settings. Emphasis is on administrative concepts, facility design, budgeting and equipment purchasing, personnel management, record keeping, and legal liability.

**Prerequisite(s):** EXS 360.

**EXS 405 Special Populations & Considerations 3 Credits**

This course is an advanced course in exercise programming for a variety of unique populations. Pathophysiology and considerations relative to diseases of the musculoskeletal, neuromuscular, and immunologic systems will be discussed. Recommended modifications and evidence based techniques that support fitness programming for individuals with specific exercise needs will be explored.

**Prerequisite(s):** EXS 320.

## Film and Media Studies (FMS)

**FMS 250 Global Film History: Origins to 1960 3 Credits**

Examines major technological and aesthetic developments in both American and international cinema of the period, with an emphasis on global cinema. From silent comedy and melodrama to German Expressionism and Soviet activist cinema; from French poetic realism and Italian Neo-realism to Hollywood sound cinema, this course will survey and assess the impact of influential movements, major film artists, and groundbreaking films of the period. FMS 250 is cross-listed with ENG 281 and fulfills the general education global perspectives requirement.

**FMS 251 Global Film History: 1961 to Present 3 Credits**

Examines major technological, industrial, and aesthetic developments in both American and international cinema of the period, with an emphasis on global cinema. From the decline of the studio system and the emergence of the "New Hollywood" to the digital revolution; from the renaissance in Western and Eastern European cinemas to Latin American, Asian, and Middle Eastern cinema, this course will survey and assess the impact of influential movements, major film artists, and groundbreaking films of the period. FMS 251 is cross-listed with ENG 282 and fulfills the general education global perspectives requirement.

**FMS 252 American Film History: Origins to 1960 3 Credits**

Examines major technological and aesthetic developments in American cinema as it grew from the days of one-reel silent shorts exhibited in storefront theaters through the days of studio productions exhibited in lavish picture palaces and featuring iconic stars the system manufactured and promoted. From the inception of sound and color, to the later development of lightweight equipment that freed filmmakers from the confines of the studio, from the "golden age" to the gradual decline of the Hollywood studio system in the 1950s, we will study the lasting genres that grew out of the system, the filmmakers who flourished and those who rebelled against the system, and the ground-breaking films that established the American film industry as a dominant force within the world. FMS 252 is cross-listed with ENG 285.

**FMS 253 American Film History: 1961 to Present 3 Credits**

Examines the transitions of Hollywood in the post-studio era— the rise of the 1960s-1970s New Hollywood and its ground-breaking films, the rise of the blockbuster as an industry standard; the responses of independent filmmakers and the avant-garde to blockbuster dominance; the transition from the Production Code to the ratings system, the move back to studio-owned theaters, and the emergence of digital cinema and CGI. We will look at how genres are being redefined, how major filmmakers are re-shaping their work to fit 21st century demands, how "gaming," YouTube, and other media sources are altering the very definition of cinema. FMS 253 is cross-listed with ENG 286.

**FMS 260 Great Performances in Film 3 Credits**

Examines major accomplishments in film acting from the silent era to the present day. Students will acquire knowledge of the historical and critical contexts and the artistic vocabulary necessary to understanding, appreciating and assessing screen performances in a range of genres— from comedy and the musical, to the melodrama, psychological thriller, and "hard-boiled" film noir. Students will be asked to read, evaluate, and analyze film performance texts, as well as to research and write about performances in numerous films.

**FMS 284 Language of Film Analysis 3 Credits**

Provides students with the fundamentals necessary for achieving beginning proficiency in methods of cinema studies scholarship. The course provides an in-depth introduction to concepts of film analysis, theory, and history, as well as to the field of cinema studies as an academic discipline. Through close analysis of selected films and readings, students will examine the various and complex ways in which formal elements shape meaning. Students also will study key concepts in film theory, applying these concepts as a further means of understanding the ways in which film positions viewers and mediates ideology. Required of all Film and Media Studies minors. FMS 284 is cross-listed with ENG 284.

**FMS 286 Writing Short Screenplays for Digital Cinema 3 Credits**

Writing Short Screenplays for Digital Cinema will focus solely on the creation of a short screenplay for digital film. The course will ask that students conceive of and execute a viably producible screenplay, shooting script, and industry pitch for the modern market.

**FMS 300 Special Topics in Film and Media Studies 3 Credits**

Courses in specialized and interdisciplinary areas of Film and Media Studies explore all three phases of the media experience: the industry that produces, distributes and exhibits; the textual products themselves; and audience reception of these products. FMS 300 Special Topics in Film and Media Studies courses will focus on each of the phases individually and/or on intersections of all three phases. Special topics courses will devote attention to the relationship of film to both traditional as well as new media; the relationship of film to the other arts; the relationship of film to the ancillary products and industries it both creates and depends upon for financial profit; and the relationship of film as an industry and institution to the various cultural institutions film and media texts routinely represent.

**FMS 340 Film and Media Audiences 3 Credits**

Provides students with the fundamentals necessary for understanding media audiences and reception within the interdisciplinary framework of film and media studies. The course introduces students to the field of audience and reception studies, including theory, empirical scholarship and history. Students will learn about who composed audiences, how they behaved, how they responded to the medium and the texts it delivered, how they interpreted what it meant to be an audience, how audiences were defined and treated by others, both today and historically. This will include audiences of movies, radio, television and news media.

**FMS 342 Artists of the Cinema 3 Credits**

Provides the opportunity to delve into the work of an individual film artist (whether a director, producer, screenwriter, cinematographer, costume designer, art director, musical composer, actor) or to examine a creative team (various combinations of a director, actor, cinematographer, screenwriter) that has collaborated in producing a series of films together. The course will pose the daunting question: Who is the author of the film? Even when studying individual artists, we will explore the influences and the working relationships that have shaped their work, and we will look outward to the way in which they have influenced other artists of their own generation and beyond.

**FMS 381 Studies in Film Genre 3 Credits**

Provides an in-depth examination of a variety of film genres (such as the gangster film, the western, the musical, the screwball comedy, the science fiction film, and the horror film, among others), to be examined through the perspective of film genre theory. Through close analysis of selected films and readings, students will define the aesthetic and thematic patterns characterizing specific genres, and will trace the development of those genres within the dual contexts of the film industry and cultural ideology. Note: This course is cross-listed as ENG 381. Students may not get credit for both ENG 381 and FMS 381.

**FMS 382 Comparative Film Directors 3 Credits**

Provides an in-depth comparative study of major American, international, independent and avant-garde filmmakers. Through close analysis of selected films and readings, students will define the aesthetic and thematic patterns characterizing the work of individual directors and will draw meaningful comparisons among directors sharing similar aesthetic and thematic approaches. Students will trace the artistic development of directors through their careers, assessing individual works in the context of film criticism and theory, and in the context of multi-layered intertextual influences. Note: This course is cross-listed as ENG 382. Students may not get credit for both ENG 382 and FMS 382.

**FMS 383 Global Cinemas 3 Credits**

Provides an in-depth study of the history and defining characteristics of national cinemas. Through close analysis of selected films and readings, students will examine the general movements within the history and development of various national cinemas, with attention to film historiography when considering how patterns are to be viewed in light of the culture, politics, and history of a particular producing nation. Further, students will trace and evaluate the influence of selected film movements and issues upon both cinematic and critical practice. Note: This course is cross-listed as ENG 383. Students may not get credit for both ENG 383 and FMS 383.

**FMS 384 Film Adaptation 3 Credits**

Provides an in-depth study of intertextual influence, as film enters into "dialogue" with various literary forms. Through close analysis of selected films and various forms of literature-including novels, graphic novels, short stories, plays, poetry, and journalism-students will study the aesthetic specificity of both film and literary genres and will analyze the transformative qualities at play when a work is adapted from page or stage to screen. Note: This course is cross-listed as ENG 384. Students may not get credit for both ENG 384 and FMS 384.

**FMS 484 Seminar in Cinema Studies 3 Credits**

Provides an in-depth study of areas central to discussion and debate in the field of cinema studies (such as film violence, cinema censorship, feminism and film, post-colonial cinema, African-American cinema, blaxploitation, The French New Wave, and Italian Neorealism, among others). Through close analysis of selected films and readings, students will examine the impact of specialized influential movements in film history and in film theory and criticism. Further, students will trace and evaluate the influence of selected film movements and issues upon both cinematic and critical practice. Note: This course is cross-listed as ENG 484. Students may not get credit for both ENG 484 and FMS 484.

**FMS 490 Independent Study: Research and Creative Expression 1-4 Credits**

FMS 490 Independent Study will allow Film and Media Studies minors to pursue specialized areas of study, research and/or creative work relevant to the field of Film and Media Studies in consultation and close collaboration with a Film and Media Studies faculty member.

**FMS 491 Internship in Film and Media Studies 1-4 Credits**

FMS 491 Internship in Film and Media Studies will provide approved juniors and seniors minoring in Film and Media Studies with the opportunity to gain practical experience through work in various outside film and media-related publications, businesses, organizations, and production companies.

## Finance (FIN)

**FIN 200 Managing Your Money 3 Credits**

An introduction to the analysis of a wide range of financial decisions which individuals encounter over their careers and lifetime. Topics include financial goals, tax planning, home ownership versus renting, consumer credit, money management and investments, and managing risk with insurance. This course is open to all Rider students, and it counts as a free elective or a business elective. It cannot be used as finance elective.

**FIN 220 Introduction to Finance 3 Credits**

An introduction to the environment, concepts, and techniques of financial management. Topics include forms of business organization, taxes, analysis of financial performance, financial planning, financial markets and interest rates, time value of money, bond and stock valuation, risk and return, capital budgeting, cost of capital, and international financial management.

**Prerequisite(s):** ACC 210 and ECO 201.

**FIN 305 Personal Financial Planning 3 Credits**

This course focuses on practical issues and problems involving personal financial budgeting, use of credit, selection of banking services, insurance needs, real estate, investments, tax planning, and retirement planning. An important objective of the course is to provide the student with the tools that are utilized in making personal financial decisions and how to apply those tools for a variety of financial needs.

**Prerequisite(s):** FIN 220.

**FIN 307 Financial Markets & Institut 3 Credits**

This course provides an introduction to the organization and behavior of financial markets and institutions in the economy. The factors determining security prices and interest rates in the money and capital markets are analyzed. An overview of all major financial institutions is presented. In addition, market returns, the regulatory environment, and monetary policy are examined.

**Prerequisite(s):** FIN 220 or concurrent with FIN 220.

**FIN 308 International Finance 3 Credits**

Financial management in the international environment. Topics include balance of payments, foreign exchange markets, arbitrage, hedging of currency risk, country risk management, and the evaluation of foreign investment opportunities.

**Prerequisite(s):** FIN 220.

**FIN 309 Intermediate Corporate Finance 3 Credits**

This course builds on and extends the concepts of financial management learned in FIN 220. The course examines long-term corporate financing and investment decisions and how those decisions interface with each other. Topics covered include: cost of capital, financial planning and analysis, capital budgeting, capital structure and dividend policy.

**Prerequisite(s):** FIN 220.

**FIN 312 Investments 3 Credits**

The fundamentals of investing in stocks, bonds, and other negotiable instruments are covered. Major topics include trading on securities markets, mutual funds, international investing, margin accounts, short sales, determinants of securities prices, and investment risks. Stock options, financial futures, convertible securities, and implications of taxes on investment decisions are also discussed.

**Prerequisite(s):** FIN 220.

**FIN 315 Financial Modeling 3 Credits**

Provides instruction in computer use beyond what is available in other finance courses. Topics include more sophisticated applications of computers in financial management, investments, and other areas of finance and business. Students work on cases and projects which require more advanced usage of spreadsheets and other software and databases.

**Prerequisite(s):** CIS 185 and FIN 220.

**FIN 330 Corporate Cash Management 3 Credits**

This course is designed for business students seeking an understanding of modern principles and techniques for corporate treasury management. The course material is useful for finance, accounting, and banking professionals or small business owners. Topics include analysis of liquidity and solvency, credit and accounts receivable management, cash collection and disbursement systems, short-term investment and borrowing, management of treasury information and technology, multi-national cash management, and other related topics.

**Prerequisite(s):** FIN 220.

**FIN 340 Risk Management 3 Credits**

This course examines the risk management process as applied to the firm as a whole. It integrates the management of all risks facing the firm: strategic, financial, hazard, and operational. Techniques for identifying risk, measuring and analyzing it, and selecting an appropriate treatment will be explored.

**Prerequisite(s):** FIN 220.

**FIN 350 Entrepreneurial Finance 3 Credits**

This course covers the techniques for acquiring financial resources as a firm advances through successive business stages: seed, start-up, struggling, growing, and stable. In addition, it examines recent trends in credit markets and the latest financial innovations as they impact the process of financing the venture's growth.

**Prerequisite(s):** FIN 220.

**FIN 360 Fixed Income and Derivatives 3 Credits**

This course centers on the quantitative portion of the Chartered Financial Analyst (CFA) level 1 curriculum, which includes materials on fixed-income risk and return, fundamentals of risk analysis, derivative instruments and risk management applications of option strategies. The goal is to help students prepare for the exam, as well as introduce them to a variety of topics in finance.

**Prerequisite(s):** FIN 312.

**FIN 370 Financial Analysis and Ethics 3 Credits**

This course covers the topics of financial reporting and analysis and related ethical issues. The course would benefit students interested in augmenting their ability to understand, analyze and apply the information in financial statements. It provides essential knowledge for students seeking either the Certified Management Accountant (CMA) or Chartered Financial Analyst (CFA) certifications. Specifically, the course covers the Ethics and Professional Standards of the CFA curriculum, and materials on financial reporting quality and financial statement analysis. Course goals are to help students prepare for the certification exams, as well as introduce all interested students to a variety of topics in financial analysis and ethics.

**Prerequisite(s):** FIN 312 or POI.

**FIN 380 Real Estate 3 Credits**

Real estate finance and related subjects in real estate are examined. Topics include measuring cash flows and taxes, valuation methods for real estate investment decisions, location and value in real estate, home ownership, legal matters, and financing methods and techniques.

**Prerequisite(s):** FIN 220.

**FIN 399 The Co-Operative Experience 6 Credits**

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their finance and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include finance majors with at least junior status, a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in any finance coursework completed prior to the submission of the co-op application. Co-op credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

**Prerequisite(s):** FIN 220.

**FIN 405 Private Wealth Management 3 Credits**

This course utilizes the Chartered Financial Analyst (CFA) curriculum and focuses on private asset management for high-net-worth investors. A wide range of topics including managing individual investor portfolios, taxes, estate planning, concentrated single-asset positions and individual risk management will be covered via lecture discussions. The main objective for the course is to help students develop the skills for a career in wealth management.

**Prerequisite(s):** FIN 305.

**FIN 412 Investment Analysis 3 Credits**

Real-world application of the concepts and techniques of investment analysis and portfolio theory introduced in FIN 312. Students interact with and make recommendations to professional portfolio managers. Topics include analysis and forecasts of business conditions, market interest rates, international opportunities, and corporate profits. Emphasis is placed on the valuation of securities, stock selection, investment timing, technical analysis, and management of portfolio risk with options, futures, and other tools.

**Prerequisite(s):** FIN 312 or permission of instructor.

**FIN 469 Special Topics in Finance 3 Credits**

This course is occasionally offered, with the topics and prerequisites set by the finance program.

**FIN 490 Independent Study: Research and Creative Expression 3 Credits**

Topic to be approved in advance by supervising instructor, chairperson, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation. This course can be used as a business or free elective, but with prior approval it can also be used as finance elective.

**FIN 491 Finance Internship 1-3 Credits**

The internship offers qualified junior and senior finance majors supervised employment with participating companies. The internship may be taken during the fall or spring semester or during the summer session. Students are evaluated periodically by senior staff members of the participating firms and are required to complete a term paper that will be reviewed by the major's internship director. Internship credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

**Prerequisite(s):** permission of instructor.

## Fine Arts (ART)

**ART 103 Fundamentals of Drawing 3 Credits**

An intensive study of drawing techniques in charcoal, pencil, and pen and ink.

**ART 104 Survey of Art History I 3 Credits**

The history of Western art, architecture, sculpture, painting from prehistoric times through the Middle Ages, emphasizing the relation between the arts and ideas of each period.

**ART 105 Design 3 Credits**

Basic concepts of composition, form, texture, value, and color in two-dimensional design are explored.

**ART 106 Survey of Art History II 3 Credits**

The history of Western art, architecture, sculpture, painting from the Renaissance to the present, emphasizing the relation between the arts and ideas of each period.

**ART 120 Art and Society 3 Credits**

Masterpieces of architecture, painting, and sculpture are related to their historical periods, providing an appreciation for and understanding of the vital interaction of art and society.

**ART 199 Arts in Contemporary Civilization 3 Credits**

An integral study of the arts and their place in contemporary American life. Includes attendance at several events in art, music, and drama. Spring.

**ART 201 Art of the Ancient World 3 Credits**

The arts of ancient man from prehistoric times to the fall of the Roman Empire.

**ART 204 Fundamentals of Painting 3 Credits**

Introduces students to the materials and techniques of oil or acrylic painting. Emphasis on experimentation and the development of individual expression in a variety of subject matters.

**Prerequisite(s):** ART 103 or concurrently.

**ART 207 Medieval and Renaissance Art 3 Credits**

A study of the major monuments of architecture, painting, and sculpture created in Western Europe between 300 and 1600. Particular emphasis on the history of Christian art, from its beginnings in the Roman catacombs, to the great monasteries and cathedrals of the High Middle Ages, to the revival of ancient Roman grandeur and forms in the Renaissance.

**ART 209 Art of the Baroque 3 Credits**

The art of the 17th century in southern and northern Europe.

**ART 214 American Art 3 Credits**

The development of the arts from colonial America to World War I. Discusses major economic, social, and political factors that influenced the course of American art history.

**ART 227 Gallery Management 3 Credits**

Designed to provide students with the experience of working in all aspects of art gallery management. It is intended for students regardless of their major who wish to add the dimension of art to their college experience through direct hands-on curatorship of the Rider Art Gallery.

**ART 230 Three-Dimensional Design 3 Credits**

Beginning problems in traditional sculptural materials (clay, wood, stone) and design-construction in mixed media.

**ART 303 19th Century Art 3 Credits**

An in-depth study of the major art movements in 19th-century Europe, from Neoclassicism to Postimpressionism.

**ART 304 Drawing II 3 Credits**

Studies the art of drawing beyond the introductory level with an emphasis on greater self-expression, advanced technical skills, and a variety of drawing media.

**Prerequisite(s):** ART 103.

**ART 305 Intermediate Painting A-B-C 3 Credits**

Studio courses designed to expand the student's creative experience in painting with emphasis of greater self-expression. Students will be presented with specific painting projects that originate from conceptual or perceptual responses to reality (still life, landscape, figure) and to imagination (dreams, fantasy, invention). Class trips to galleries and museums are included. May be taken three times.

**Prerequisite(s):** ART 204.

**ART 306 Art of the 20th Century 3 Credits**

The major artists and movements in the history of 20th-century painting and sculpture from Postimpressionism. Slide lectures, class discussion, field trips.

**ART 310 Figure Drawing and Painting 3 Credits**

Students will draw and paint from various sources, including the live model, clothed and nude, to understand the structures, gestures, and psychological aspects of the human body in art.

**Prerequisite(s):** ART 103 and ART 204.

**ART 335 Printmaking 3 Credits**

A studio introduction to various traditional and contemporary relief printmaking techniques.

**ART 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.  
**Prerequisite(s):** junior or senior standing, good academic standing.

**ART 491 Internship in Art 1-12 Credits**

Provides junior or senior fine arts majors with concentrations in art with the practical experience of working with a museum or professional art gallery. Students must be sponsored by an art professor. For each academic credit, interns must work 48 hours for the semester or approximately 3.7 hours each week.  
**Prerequisite(s):** permission of instructor.

**ART 492 Advanced Studio Workshop 3 Credits**

Intensive course in various media for students working at an advanced level in studio disciplines. A high level of achievement is expected. May be taken more than once for credit.  
**Prerequisite(s):** two upper-level studio courses.

**ART 493 Special Topics in Studio Art 3 Credits**

Study in drawing and painting of a particular style, such as abstraction or subject, such as still life; or particular aspects on a museum collection, such as the Metropolitan.  
**Prerequisite(s):** ART 103 and ART 105 or Permission of Instructor.

**ART 495 Selected Topics in Art History 3 Credits**

An intensive study of a particular art history topic, e.g., a single artist, artistic center, or artistic medium. Slide lectures, class discussion, field trips, class reports. Topics to be announced.

**ART 496 Fine Arts Internship 6-12 Credits****ART 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

## Foreign Language and Literature Education (FLE)

**FLE 320 Introduction to Linguistics and Psycholinguistics 3 Credits**

This course provides an introduction to general linguistics and basic contrastive study of English, French, German, and Spanish sounds, forms, and syntax. Students visit schools where they interview language learners and sample their speech for analysis. Applications of these studies are made to creating instructional materials and to teaching. Theories of language acquisition as well as factors affecting second language learning, including learning styles and personality, are studied. A rationale for communicative language teaching and learning is constructed. Note: This course is cross-listed as EDU 320. Students may not get credit for both FLE 320 and EDU 320.

**FLE 420 Teaching a Second Language 3 Credits**

This course focuses on interactive methods of teaching a new language as well as cross-cultural understanding. Students learn to plan using national and state standards for language instruction, organize activities, design and direct language learning tasks, and assess learning. Includes theoretical positions on communicative learning and teaching, the use and evaluation of currently used materials, the design of new materials, and field experiences in the language to be taught. Students develop their professional portfolios and philosophy of second language teaching, prepare a thematic unit of study, and present lesson segments. Open to prospective world language teachers, ESL and bilingual teachers, as well as practicing teachers seeking certification. Note: This course is cross-listed as SED 420. Students may not get credit for both FLE 420 and SED 420. A cumulative GPA of 2.75 is required.  
**Prerequisite(s):** EDU 106 and EDU 206.

## Foreign Literature (LIT)

**LIT 250 Masterworks of Western Literature I 3 Credits**

Introduces the classical heritage and the development of a connected Western literary tradition as reflected in the classics of Western literature from the Greeks to the Renaissance. This course focuses particularly on the qualities, which make each work great. Works by Homer, Aeschylus, Sophocles, Euripedes, Virgil, St. Augustine, Dante, and Shakespeare are read and discussed in English. Required for all foreign language majors.

**LIT 251 Masterworks of Western Literature II 3 Credits**

Introduces modern world literature and the further development of the Western literary tradition from the Enlightenment, through Romanticism, to the contemporary period. Major writers such as Moliere, Racine, Voltaire, Rousseau, Goethe, Tolstoy, Baudelaire, Yeats, Rilke, Ibsen, Mann, Kafka, and Borges are read and discussed in English. Required for all foreign language majors.

**LIT 310 Russian Literature 988-1850 3 Credits**

A reading and discussion of some of the greatest Russian writers of the first half of the 19th century. Writers include Pushkin, Lermontov, Gogol, Turgenev, and Tolstoy. Classes are in English. No knowledge of Russian required. Required for majors.

**LIT 311 Russian Literature 1850-1917 3 Credits**

A reading and discussion of some of the greatest Russian writers of the second half of the 19th century and early 20th century. Writers include Dostoevsky, Leskov, Chekhov, Bunin, Gorky, Blok, Bely, and Sologub. Classes are in English. No knowledge of Russian required. Required for majors.

**LIT 312 20th Century Russian Literature 3 Credits**

A reading and discussion of some major Russian writers from 1917 to 1970. Writers include Akhmatova, Tsvetaeva, Babel, Bulgakov, Pasternak, Mayakovsky, and Evtushenko. Classes are in English. No knowledge of Russian required. Required for majors.

**LIT 315 Tolstoy 3 Credits**

Reading and discussion of selected works of Tolstoy including his fables; novellas, such as Master and Man and The Kreutzer Sonata; and either Anna Karenina or War and Peace. Classes are in English. No knowledge of Russian is required.

**LIT 317 Dostoevsky 3 Credits**

Reading and discussion of selected works of Dostoevsky, with special emphasis on Crime and Punishment and The Brothers Karamazov. Classes are in English. No knowledge of Russian required.

**LIT 322 German Literature & Film in English Translation 3 Credits**

Reading and discussion in English of German literary masterpieces and their film adaptations. The material varies from year to year, e.g., German-Jewish writers, German Romanticism, German literature to 1700, modern fiction, or 20th-century women's literature and film. No knowledge of German required.

**LIT 325 The Folk Tale 3 Credits**

Introduction to the study of folk tales from a literary point of view, to the place of folk tales in European culture, and to the contrast between folk tales and written fairy tales such as *Beauty and the Beast* and *Cupid and Psyche*.

**LIT 330 Russian Culture 3 Credits**

Readings highlighting both the uniqueness of Russian culture and the ways Russian culture has had the greatest impact on Western culture in general. The course is divided into topics such as folklore, religion, painting, music, ballet, and film. Readings from Russian literature will be used to illustrate significant aspects of Russian culture. Classes are in English. No knowledge of Russian is required.

**LIT 340 Hispanic Literature & Film in English Translations 3 Credits**

This course explores literary and cinematic masterpieces in English translation. Attention is focused on their relationship to the intellectual, artistic, and historical background of Spain, Latin America, and/or United States Latino cultures. No knowledge of Spanish is required. Open to Spanish majors, but no credit given toward the specific requirements of the major.

**LIT 370 European Short Novel 3 Credits**

Introduces students to the study of the novella as a distinct literary genre in Europe. Discusses various theories of the novella and the history of the novella in Europe. Will read and discuss such masterpieces of the novella as *O, The Queen of Spades*, *A Simple Heart*, and *Death in Venice*.

**LIT 390 The Bible As Literature 3 Credits**

This course takes a literary approach to the Bible: only one, of course, of the many possible approaches to this rich and fascinating text. Nevertheless this approach to the Bible is justified both because the Bible is a literary masterpiece and because such an approach provides a clear focus for students. Students will read and discuss selections from the three major divisions of the Bible: the Old Testament, the New Testament, and the Apocrypha. Students will also read famous stories such as *Joseph and his Brothers*, *Moses and Exodus*, *Samson and Delilah*, *Jonah and the Whale*, *Susanne and the Elders*, *The Raising of Lazarus*, and *The Trial and Execution of Jesus*.

## French (FRE)

**FRE 100 French I 3 Credits**

Conversational French is taught through basic vocabulary and grammar building. Students will enjoy an immersion-style method emphasizing real-life situations and vocabulary in authentic cultural context, through an interactive textbook, videos, on-line resources, and oral/aural skill building using the technology in the Foreign Language Media Center to enhance learning. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** Placement test if French has been studied elsewhere.

**FRE 101 French II 3 Credits**

Building on learning in French I, students will begin to converse using more complicated grammatical structures within immersion-style classroom interactions. While the focus is still on conversation and aural skill building, composition skills receive greater emphasis. Students will enjoy an interactive textbook, Internet usage, and authentic videos shot on location in France. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** FRE 100 or placement test.

**FRE 200 French III 3 Credits**

This course builds on linguistic skills previously acquired through an emphasis on conversation and oral comprehension, and through vocabulary building. Grammar study is continued at a more advanced level, and students begin to read short passages focusing mainly on francophone culture and civilization. Film clips, Internet resources, and other computer-aided learning tools are used to create a dynamic immersion-style learning experience. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** FRE 101 or placement test.

**FRE 201 French IV 3 Credits**

While continuing the emphasis on aural/oral production and grammar and vocabulary building, short passages of greater complexity taken from literary texts, newspapers, and magazines will become the focus of conversation/composition activities. Technological resources will continue to enhance the immersion-style learning experience consistent with a course in advanced French. Successful completion of this course, or its equivalent, serves as a prerequisite for French courses at the 300 and 400 level. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** FRE 200 or placement test.

**FRE 300 French Composition/Translation 3 Credits**

An in-depth study of style, shades of meaning, and correctness of expression. Translation of business/professional/scientific/political texts will receive emphasis, and students will continue to perfect their writing skills, and review and improve advanced grammatical structures.

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**FRE 301 French for Business 3 Credits**

The fundamentals needed to survive in the French professional and business world are taught. Students will continue to perfect oral/written/aural skills while learning about the cultural climate within which these skills will be used. Students will learn how to prepare effective business/professional correspondence and, through role-playing activities, will use their knowledge in such real-life situations as interviewing, telephone conversations, and business meetings.

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**FRE 305 An Introduction to French Literature 3 Credits**

A chronological overview of the evolution of French literature from the chansons de geste into the 20th century. Study and interpretation of selected works, authors or literary movements through the Renaissance, the classical period, Enlightenment, romanticism, realism, naturalism to representative works by authors of our century from Proust to existentialism, the nouveau Roman, theatre absurde and beyond.

Required for majors.

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**FRE 311 French Culture 3 Credits**

A study of modern France and French value orientations as they are rooted in tradition and history and continue to shape everyday life as well as institutions, social organizations, artistic expression, education, attitudes and human interaction. A comparative approach will examine the underlying differences between France and the United States.

Classes are in English.

**FRE 320 French Phonetics and Conversation 3 Credits**

This course is an introduction to French phonetics and is designed to help students further develop their skills in speaking French accurately and fluently. The course requires students to learn basic linguistic symbols and the phonetic alphabet as a theoretical step toward improving articulation and pronunciation. Moreover, special emphasis will be placed on the development of vocabulary and of appropriate communication techniques to participate in discussions in French. The course will be a mix of lectures, class discussions, debates, face-to-face conversations, and role games requiring a strong active participation.

Counts toward major and minor requirements.

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**FRE 422 Cultural Expression in French Film and Television 3 Credits**

A systematic analysis of selected French films and television broadcasts will reveal cultural value orientations as they relate to love, family, community, leisure, work, social, and political organization. A comparative approach will stress the underlying cultural differences between France and the United States. Course taught in French.

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**FRE 425 Portrait of the Hero in French Fiction 3 Credits**

This course deals with modern French fiction and its depiction of the role of the hero as a figure who gradually loses control over his fate (Stendhal, Balzac) and is changed into someone who struggles against ever increasing odds, only to be finally vanquished (Flaubert). The main character may find fulfillment in recollections of the past (Proust), explore the moral parameters of existence (Gide, Camus) or become the incapacitated anti-hero of Beckett's novels. Course taught in French

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above; exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**FRE 430 Mask & Reality in French Theater 3 Credits**

A study of theater through the optic of a unifying theme: the mask and reality. The goal is to gain a greater appreciation of the art of dramatic illusion whereby actors, while wearing the masks of the characters they play, allow us to examine ourselves and reality in true, unmasked form. Playwrights to be studied will range from the classical theater of Racine and Corneille, through the modern avant-garde, existentialist and Theater of the Absurd works of such playwrights as Ionesco and Beckett. Course taught in French.

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**FRE 435 Self in French Prose & Poetry 3 Credits**

Are we determining or pre-determined creatures? What is our essential nature? Is the quest for salvation justified? A study of the historical, political, and social realities in which the texts were composed will shed light on the concept of the self. Representative authors from the Renaissance to modern times will include: Montaigne, Descartes, Pascal, Montesquieu, Rousseau, Hugo, Baudelaire, Apollinaire, Sartre, Camus, Duras, Sarraute, Colette, de Beauvoir. Course taught in French.

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**FRE 440 A Quest for Identity: Francophone Literature and Culture 3 Credits**

This course introduces the cultures of countries or regions where French is used either as the (or one of the) official language(s) or, in a less official capacity, by a segment of the population. In readings, discussions, songs, film viewings, and written assignments, students will experience the Francophone cultures of specific areas and the amazing diversity of the Francophone world. They will also explore the difficult relation of the Francophone countries with France. The course considers issues of social status, history, resistance, and identity. Counts toward major and minor requirements. Course taught in French.

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**FRE 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**FRE 491 Internship in Foreign Languages 1-4 Credits**

A supervised work experience in an approved organization to gain knowledge of the importance and interrelationship of foreign languages and cultures in the workplace. Placements can be made in international governmental agencies, international trade associations, multinational corporations, social service agencies, and other appropriate workplace environments both in the United States and abroad. With permission of the supervisor and faculty advisor, a three-credit internship may be substituted for a collateral requirement as credit toward the major.

**Prerequisite(s):** students should have completed at least one 300-level course in the foreign language.

**FRE 496 Special Studies 3 Credits**

Offered as needed to complement the program in French. A seminar open to a variety of topics treating a particular author, period, genre or critical approach.

**Prerequisite(s):** FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

## Game and Interactive Media Design (GAM)

**GAM 100 Game & Interactive Media Forum 0 Credits**

Game & Interactive Media Forum is a once-per-month gathering of all Game majors from across the university's different Colleges. The forum will be an opportunity for students focusing on different backgrounds to engage together in industry-related topics and skills.

**GAM 150 Intro to Game Studies 3 Credits**

Intro to Game Studies surveys the history of video games and gaming culture against the social and political contexts that shape and are shaped by games.

**GAM 200 Game Design 3 Credits**

Game Design introduces students to the basic concepts of game design, covering game rules, iterations, and playtesting. Students will work with hands-on material to develop design techniques and instincts outside of digital work spaces.

**GAM 201 Game Development I 3 Credits**

Game Development I introduces students to industry-standard software and the basics of user experience and collaborative game design.

**Prerequisite(s):** CIS 200 and GAM 200.

**GAM 301 Game Development II 3 Credits**

Game Development II extends students' knowledge of industry-standard software, building on GAM 201 and progressing toward advanced concepts of user experience and collaborative game design.

**Prerequisite(s):** GAM 201.

**GAM 310 Special Topics in Game Design 3 Credits**

Special Topics in Game Design applies students' knowledge of game design and the development software that helps them realize their design toward specific prototyping goals. The subject of GAM 310 will rotate each semester.

**Prerequisite(s):** GAM 301.

**GAM 330 Soundtracks and Foley 3 Credits**

Soundtracks and Foley covers dialog, music, and foley in filmic settings, with a specific focus on game environments.

**Prerequisite(s):** MUS 216.

**GAM 401 Game Workshop I 3 Credits**

Game Workshop I places students in multidisciplinary project teams. Each team will create a game prototype over the course of the semester that demonstrates each student's mastery of their area of specialization and the each group's ability to work together.

**Prerequisite(s):** GAM 310.

**GAM 402 Game Workshop II 3 Credits**

Game Workshop II places students in multidisciplinary project teams and builds on skills developed in Game Workshop I.

**Prerequisite(s):** GAM 310.

**GAM 491 Internship in Game Design 3-6 Credits**

Internship in Game Design places students in industry work environments, overseen by a site supervisor.

**Prerequisite(s):** GAM 310.

## Gender and Sexuality Studies (GSS)

**GSS 100 Introductn to Gender Studies 3 Credits**

An introduction to the role of gender in human experience, examining the biological, historical, literary, artistic, and institutional manifestations of gender, and exploring the intersections of gender, sex, and sexuality.

**GSS 110 Race, Class and Gender in Contemporary American Society 3 Credits**

This interdisciplinary course analyzes the ways in which race, class, gender and ethnic relationships shape the experience of all persons in this society. It examines the categories of race, class and gender as social constructs that have been historically developed and sustained by economic, social, political, and cultural factors.

**GSS 200 Introduction to Women's Studies 3 Credits**

An interdisciplinary investigation of traditional and contemporary gender roles, and of women's status, identity, and potential. Required for minor.

**GSS 230 Women In Literature 3 Credits**

A range of literary presentations of the female experience and of the conditions of women's lives is explored. These works are placed in historical and social contexts in order to see behind and beyond traditional literary conventions. Cross-listed with ENG 230.

**GSS 240 Sex and Human Nature 3 Credits**

It is expected that students will gain a base of knowledge sufficient to understand science as a way of understanding the natural world and to evaluate scientific information provided in popular media for its validity as related to topics of biology and gender and/or sexuality.

**GSS 245 Popular Constructions of Gender and Sexuality 3 Credits**

This course takes an interdisciplinary approach to investigate the constructs that society creates and maintains with relation to sexuality and gender. As we are increasingly confronted with images of gender and sexuality, it becomes vital to interrogate the origins of these images from a variety of disciplinary perspectives in order to analyze and critique these constructs. Students will be introduced to theoretical approaches to analyzing popular constructs of gender and sexuality from a variety of areas, including (but not limited to) the humanities, the physical sciences, and the social sciences.

**GSS 300 Feminist Literary Criticism 3 Credits**

This seminar explores the diversity within feminist literary analysis. Various national, ethnic and cultural standpoints are represented and the different as well as the common assumptions within feminist thought will be discussed.

**GSS 309 Women in American History 3 Credits**

Examines the roles, status, and influence of women from the colonial era to the present. Studies the origins and development of feminism, including legal, political, educational, economic, and sexual rights; and studies social feminism, including reform movements in such fields as abolition, prohibition, pacifism, child labor, and social welfare.

**GSS 310 Special Topics 3 Credits**

Studies in specialized areas of feminist scholarship. Topics change according to instructor and are listed in the course roster.

**Prerequisite:** one previous course in gender and sexuality studies or permission of instructor.

**GSS 312 Gender, War and Peace 3 Credits**

Through readings in literature, history, political science, philosophy, and psychology, the course will explore critically the myths linking feminine gender with pacifism and masculine gender with aggression. Various perspectives on peace and war, the history of peace movements, and women's as well as men's participation in war will be considered.

**GSS 313 Gender and Ethics 3 Credits**

An interdisciplinary seminar involving a concentrated study of recent works in feminist theory, with special attention to issues such as: Do men and women have different ethical perspectives and different styles of moral reasoning? How do the "ethics of care" differ from the traditional "ethics of justice?" Can the models of justice and care be integrated into a more comprehensive theory?

**GSS 318 Gender and Communication 3 Credits**

Focuses on interactive relationships between gender and communication in contemporary American society. It connects theory and research with practice to explore multiple ways communication in families, schools, media, and society in general creates and perpetuates gender roles. It is designed to heighten students' awareness of how we enact socially created gender differences in public and private settings and how this affects success, satisfaction, and self-esteem. Note: This course is crosslisted as GSS 318. Students may not get credit for both COM 318 and GSS 318.

**GSS 319 Gender and Sexuality in American History 3 Credits**

What makes a man, exactly, and what makes a woman? What kinds of sex are normal, and what kinds are abnormal? Who decides, and why? The answers to these questions are not fixed. Throughout American history, popular understandings of gender and sexual norms evolved in close relationship with the political, economic, racial, and social dictates of the time. This course will trace the evolution of ideas on sex and gender from the 18th century to the present using various historical sources including fiction and film, particular attention will be given to analyzing dominant models of proper behavior and the complex relationships of power enmeshed within them.

**GSS 322 Witch Hunts: Femicide Through Centuries 3 Credits**

We will look at the perceived definitions of "witch" and "witchcraft" in relation to establishing medieval to modern gender codes. Our detailed study of perceptions of witches and their practices will reveal the power dynamics, social constructions and definitions that aided in the demise of countless women labeled as "witches" throughout history. Considerable time will be spent in exploring the internal controversy within the field of witchcraft studies regarding the use of words such as "genocide," "femicide," and "gendercide."

**GSS 333 Gender and Sport 3 Credits**

Typical thoughts of sport include ticket prices, player salaries, team rosters, and league standings; rarely is it viewed from a gender perspective. This course will go beyond the examination of Title IX to better understand the relationship between masculinity, femininity and sports. This course will examine various aspects of gender and sport, including media and gender representation, race and ethnicity, drugs and violence, men and masculinities, sexualities, policy and politics, the feminist critique of sport, the initiation rites and hazing in college sports, sports wagering, and the internationalization of sport, including but not limited to the Olympics and Paralympics.

**GSS 350 Leadership and Community 3 Credits**

Designed for all students whose future plans include community service, organizing, and leadership, this course will study organizing in response to domestic violence, discrimination on the basis of gender and sexuality, sexual harassment, and other issues that are significant for women and/or the LGBTQ community. Building coalitions, skills for leadership, and strategies for effective organization will be covered in readings and in class discussions and students will practice what they have learned by volunteering in a local nonprofit organization.

**GSS 375 Transgender Narratives 3 Credits**

An introduction for Gender and Sexuality Studies minors and other interested students to the interdisciplinary field of transgender studies. Students will learn to distinguish between transsexual, transgender, transvestite, and intersex identities; to explore cross-cultural gender diversity; to recognize diverse subcultural expressions of gender, such as cross-dressing, camp, and drag; to identify long-standing stereotypes about trans people; and to understand trans people's narratives about hormonal or surgical gender transition through literary and multimedia genres.

**GSS 400 Seminar in Transcultural Gender and Sexuality 3 Credits**

This seminar offers an opportunity for upper-level students to engage in a multidisciplinary study of the constructions of gender and sexuality in a variety of cultural contexts across the globe. Topics change according to instructor. Required for minor. Prerequisites: Junior or senior standing.

**GSS 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**GSS 491 Internship 1-4 Credits****Geosciences (GEO)**

**GEO 100 Earth Systems Science 3 Credits**

Investigates the major global processes that occur on Earth. These processes can be grouped into four major systems: atmosphere, hydrosphere, lithosphere, and cosmosphere. Each system interacts with and affects the other systems creating, in a sense, a single Earth process. With this approach, the student will view the Earth as a whole, and understand that the many seemingly separate components that make up this planet are, in fact, a set of interacting processes, that operate in cycles through time, within a single global system. Three hours of lecture per week. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**GEO 102 Earth Materials and Processes Lab 1 Credits**

This lab course introduces students to the origin, identification, and significance of geologic materials, processes, and landforms. Hands-on experiences with mineral and rock specimens, topographic and geologic maps, and GPS and other data collection techniques are emphasized, along with field trip and in-lab observations, measurements, and interpretations. One three-hour lab per week.

**Prerequisite(s):** concurrent enrollment in, or prior completion of, GEO 100 or GEO 113 is required.

**GEO 102SP Earth Materials and Processes Lab 1 Credits**

This lab course introduces students to the origin, identification, and significance of geologic materials, processes, and landforms. Hands-on experiences with mineral and rock specimens, topographic and geologic maps, and GPS and other data collection techniques are emphasized, along with field trip and in-lab observations, measurements, and interpretations. One three-hour lab per week. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Prerequisite(s):** concurrent enrollment in, or prior completion of, GEO 100 or GEO 113 is required.

**GEO 113 Environmental Geology 3 Credits**

Examines the fundamental premise that "society exists by geologic consent subject to change without notice" by studying a number of important global geologic processes and cycles, and the hazards and/or resources they present to individuals, societies, and the natural environment. Topics discussed include earthquakes, volcanism, stream flooding, coastal erosion, global climate change, and global water, soil, mineral, and energy resources. Cost/benefit considerations, hazard mitigation concepts, economic and political ramifications, and interactions among the lithosphere, hydrosphere, atmosphere, and biosphere also are presented. The course is designed to give non-science majors a deeper appreciation and understanding of the basic scientific concepts involved, as well as individual and societal connections to the global geologic environment, leading to better, more informed business, political, policy, and personal decisions. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Note: This course is cross-listed as GLS 113. Students may not get credit for both GEO 113 and GLS 113.

**GEO 168 Mesozoic Ruling Reptiles 3 Credits**

This course provides an introduction to the vertebrate groups that dominated the land (Dinosaurs), the seas (Mosasaurs, Plesiosaurs, Pliosaurus, Tylosaurus, and Ichthyosaurs) and the skies (Pterosaurs, Pterodactyls) during the Mesozoic Era (65-250 million years ago). Students study the diversity of skeletal architectures and their reconstructed function and the often controversial, inferred anatomy, physiology, reproductive strategy, habit, and social behaviors of these animals that are different from mainstream reptiles, birds, and mammals. They also learn about the paleogeographical, and paleoclimatological conditions that facilitated the evolutionary rise to dominance and diversification of these vertebrate groups and the debated causes of their eventual extinction. These topics also serve to illustrate how the scientific approach works and how competing hypotheses are evaluated. Three hours of lecture per week. Weekend field trips may be required. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**GEO 290 Directed Research and Study in Geosciences 1-4 Credits**

Directed Research and Study in Geosciences will provide an opportunity for freshman and sophomore students to gain hands-on research experience in the geosciences. This is an individual program of study and each student will work with a selected faculty member on a topic of mutual interest. The course consists of a combination of project meetings, supervised research, and guided readings. The focus will be on formulating research questions, designing and conducting experiments, collecting the necessary data, reviewing the scientific literature as it relates to each student's research topic in a weekly meetings with the instructor, and communicating the findings by writing a final project report.

**GEO 304 Elements of Mineralogy 4 Credits**

This course examines the physical properties, chemistry, atomic structure, crystallography, uses, and environmental impacts of important minerals found in the Earth's lithosphere and biosphere. In addition, lab assignments and exercises emphasize crystal symmetry and chemistry; polarizing microscope, ICP, SEM, and x-ray analytical techniques; the graphical display and interpretation of compositional data; optical properties of isotropic and uniaxial minerals; and the identification of mineral hand specimens. Three hours of lecture and one three-hour lab per week. At least one weekend field trip required. Prerequisite(s): GEO 100 or GEO 113, and GEO 102, and CHE 120, CHE 121 taken prior or concurrently; or permission of instructor.

**Corequisite(s):** GEO 304L.

**GEO 304L Mineralogy Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** GEO 304.

**GEO 305 Petrology and Petrography 4 Credits**

The origin, evolution, and terrestrial distribution of igneous and metamorphic rocks are presented and detailed. Classroom lectures and discussions emphasize rock geochemistry, mineralogic variability, the constraints placed on petrogenetic models by physio-chemical studies of natural and synthetic systems, and the relation of the various rock types to current plate tectonic theory and other whole-earth processes. The laboratory emphasizes the continuing development of optical microscopy skills, the identification of rock texture and mineralogy in thin section and hand specimen, the optical determination of mineral composition, and the recognition of possible petrogenetic processes as recorded in the rocks themselves. Three hours of lecture and one three-hour lab per week. Two weekend field trips required. Prerequisite(s): GEO 201, and CHE 122 and CHE 123 or taken prior or concurrently; or permission of instructor.

**Corequisite(s):** GEO 305L.

**GEO 305L Petrology and Petrography Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** GEO 305.

**GEO 306 Sedimentology and Stratigraphy 4 Credits**

The principles of weathering, erosion, transportation, and deposition of sediment are the focus of this course. Sediment characteristics are examined to identify the processes involved in transporting grains and the specific environment in which the grains were deposited. Students will learn how to collect, analyze, and interpret sedimentary data and how to interpret surface and subsurface stratigraphic data using various techniques, such as lithostratigraphic, biostratigraphic, and geophysical, correlations. Field trips will expose students to different sedimentary environments and provide opportunities for students to learn how to conduct fieldwork. Three hours of lecture and one three-hour lab per week. Weekend field trips may be required. Prerequisite(s): GEO 100.

**Corequisite(s):** GEO 306L.

**GEO 306L Sedimentology and Stratigraphy Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** GEO 306.

**GEO 310 Structural Geology 4 Credits**

The origin, distinguishing characteristics, and geographic distribution of deformational structures of the Earth's crust. In the laboratory, GPS, GIS, geologic maps, and three-dimensional problems are used in the study of typical surface and subsurface geologic problems. Three hours of lecture and one three-hour lab per week. Weekday and/or weekend field trips may be required. Prerequisite(s): GEO 100 or GEO 113, GEO 102.

**Corequisite(s):** GEO 310L.

**GEO 310L Structural Geology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** GEO 310.

**GEO 350 Soil and Surficial Processes 4 Credits**

This course examines the physical, chemical, hydrological, and biological aspects of soil and their relation to geomorphologic development. Specific topics include descriptions of soil texture and structures, soil classification, soil colloids, soil redox and pH, and their effect on vadose zone water chemistry. Soil genesis and erosion controls, microbiology/ecology, nutrient cycles, and modern soil pollution from sludge and pesticide applications, as well as domestic and industrial chemical spills, also are discussed. The lab portion of the course introduces the basic techniques of soil analysis, both physical and chemical, and field survey methods. Three hours of lecture and one three-hour lab per week. Prerequisite(s): GEO 100 or GEO 113, and GEO 102.

**Corequisite(s):** GEO 350L.

**GEO 350L Soil and Surficial Processes Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** GEO 350.

**GEO 407 Hydrology and Water Resources 4 Credits**

This course introduces the principles that govern both surface water and groundwater flows that have applications to societal water needs. Surface water topics cover the basics of the hydrologic cycle, the processes of precipitation, evapotranspiration, runoff, and infiltration, and various factors affecting water supply and water quality issues in a modern watershed. Groundwater topics examine the principles that govern flow through a porous medium and the basics of well hydraulics under different pumping conditions that community development requires. Laboratory exercises will give students hands-on experience with the delineation of watersheds, analysis of precipitation data, and flow contaminant transport modeling. The field portion of the laboratory includes runoff and stream discharge measurements, as well as hydraulic conductivity estimations from both slug and pumping tests. Three hours of lecture and one three-hour lab per week. Prerequisite(s): GEO 100 or GEO 113, GEO 102, and MTH 105.

**Corequisite(s):** GEO 407L.

**GEO 407L Hydrology and Water Resources Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** GEO 407.

**GEO 480 Senior Thesis 3 Credits**

A senior thesis is optional for geosciences majors. However, a senior thesis is required for eligibility to graduate with honors in geosciences. The topic for investigation will be chosen by the student in consultation with the faculty of the Department of Geological, Environmental, and Marine Sciences. The student must initiate consideration of a proposal to the Department. The proposal must contain a discussion of the proposed project and a timetable to be followed in the study. A departmental committee consisting of a major and minor advisor will evaluate the written paper submitted at the conclusion of the study or other approved venue. An oral presentation before the department at the conclusion of the semester in which the study is completed is required. Proposals must be submitted in final form no later than the end of the ninth week of the semester prior to the semester in which the study is undertaken.

**Prerequisite(s):** senior standing in the geosciences major and permission of instructor.

**GEO 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**GEO 491 Internship in Geosciences 1-4 Credits**

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placements may be in private, public, non-profit, or governmental organizations. These can include consulting firms, regulatory agencies, advocacy groups, and educational or research institutions. Normally, 50 hours of internship per credit is required. A mutually agreed upon method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and could include a term paper or project report and a poster presentation.

**Prerequisite(s):** 2.5 GPA and permission of instructor.

**German (GER)****GER 100 German I 3 Credits**

An introduction to German stressing the spoken language and the fundamentals of grammar. Students are required to work extensively with audio CDs. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** placement test if German has been studied elsewhere.

**GER 101 German II 3 Credits**

A continuation of German 100. Communication skills are broadened, fundamental grammar is studied, and a useful basic vocabulary is acquired. Students are required to work extensively with audio CDs. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** GER 100 or placement test.

**GER 200 German III 3 Credits**

Intensive review of German grammar and syntax with a systematic approach to oral expression and composition. Readings on contemporary German life and selections from modern literature. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** GER 101 or placement test.

**GER 201 German IV 3 Credits**

Continuation of grammar review and readings. Special emphasis on oral expression and composition of increasing sophistication, proceeding from concrete observations to theoretical and abstract discussion. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** GER 200 or placement test.

**GER 300 Composition & Conversation 3 Credits**

Practice in German communication skills through developing oral and written expression, comprehension and vocabulary.

**Prerequisite(s):** GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**GER 301 German for Business 3 Credits**

Basic fundamentals for applying the German language to business operations and correspondence. Emphasizes German business terminology as contained in business-related journal articles, letters, and documents.

**Prerequisite(s):** GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**GER 305 Intro to German Literature 3 Credits**

An introduction to works selected from the most important periods of German literature from the Hildebrandslied to the pre-classical period. Primary focus on close reading of complete works by Lessing and Goethe. Required for majors.

**Prerequisite(s):** GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**GER 307 German Literature and Film 3 Credits**

Focus on major works of 19th- and 20th-century German literature and their film adaptations. Readings include works by Büchner, Kafka, Mann, Brecht, Böll and Dürrenmatt. Films by Herzog, Welles, Visconti, Schlöndorff, and others.

**Prerequisite(s):** GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**GER 310 German Culture 3 Credits**

Introduction to the contemporary cultures of Germany, Austria and Switzerland. Selected readings from contemporary German fiction, newspapers and monthly magazines (all in English), films, and music. No knowledge of German required.

**GER 425 Self/Society in Short Fiction 3 Credits**

Reading and discussion of short prose works of Hauptmann, Schnitzler, Kafka, Grass, Frisch, and others.

**Prerequisite(s):** GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**GER 430 Modern German Drama 3 Credits**

Selected plays by major German, Austrian and Swiss playwrights of the 20th century are studied within a cultural and historical context.

**Prerequisite(s):** GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**GER 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**GER 491 Internship in Foreign Languages 1-4 Credits**

A supervised work experience in an approved organization to gain knowledge of the importance and interrelationship of foreign languages and cultures in the workplace. Placements can be made in international governmental agencies, international trade associations, multinational corporations, social service agencies, and other appropriate workplace environments both in the United States and abroad. With permission of the supervisor and faculty advisor, a three-credit internship may be substituted for a collateral requirement as credit toward the major.

**Prerequisite(s):** students should have completed at least one 300-level course in the foreign language.

**GER 496 Special Studies 3 Credits**

A seminar emphasizing a particular literary genre or the work of one author. Possible topics might be: Goethe's Faust, lyric poetry, the novella, romanticism, women writers, or other authors, periods, or genres in German literature.

**Prerequisite(s):** GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**Global Studies (GLS)****GLS 113 Environmental Geology 3 Credits**

Examines the premise that "our society exists by geologic consent subject to change without notice" by studying a number of important geologic processes and the hazards and/or resources they present to individuals, society, and the natural environment. Topics discussed include earthquakes, volcanism, stream flooding, coastal erosion, climate change, and water, soil, mineral, and energy resources. Cost/benefit considerations, hazard mitigation concepts, economic and political ramifications, and the interactions between the lithosphere, hydrosphere, atmosphere, and biosphere also are presented. The course is designed to give non-science majors a deeper appreciation of their connection to the surrounding geologic environment, leading to better, more informed business, political, and personal decisions. Three hours of lecture per week. Note: This course is cross-listed as GEO 113. Students may not get credit for both GLS 113 and GEO 113.

**GLS 120 Oceanography 3 Credits**

Investigates the interrelationships among the geological, chemical, physical, and biological aspects of oceanography. Topics include origin and evolution of ocean basins; physical characteristics of modern oceans; seawater chemistry; ocean and atmosphere interactions; ocean currents; waves and tides; coastal processes; biological productivity; and diversity, distribution and adaptations of marine organisms. Throughout the course, emphasis is placed on the processes that connect the seemingly separate topics to each other and to human life. Weekend field trips may be required. Three hours of lecture per week. Note: This course is cross-listed as MAR 120. Students may not get credit for both MAR 120 and GLS 120.

**GLS 121 Introductory Oceanography Lab 1 Credits**

Introduction to the fundamental aspects of geological, chemical, physical, and biological oceanography. Students learn through inquiry-based, hands-on exercises and activities using actual data collected in the lab and in the field. Independent projects and local field trips during lab and on weekends may be required. One three-hour lab per week. Note: This course is cross-listed as MAR 121. Students may not credit for both GLS 121 and MAR 121.

**Prerequisite(s):** Concurrent enrollment in, or previous completion of, MAR 120 or GLS 120 is required.

**GLS 180 Understanding Global Relations 3 Credits**

Offers an introduction to Global and Multinational Studies by exposing the student to basic concepts necessary to understand the dynamics underlying the emerging worldwide society of diverse nations. The student will become acquainted with the mechanisms by which contacts are built across nations, and the factors that shape the conception of and relations with "the other."

**GLS 200 The Social Construction of Global Society 3 Credits**

This course discusses the emergence of an "imagined global community" in the final years of the 20th century, and the beginning of the 21st. The course will examine the forces that contribute to these changes, including the global dissemination of values, the changes in communication technologies, the globalization of the economy, and the spread of international non-governmental institutions and lobbying forces.

**GLS 201 Politics of the Global Economy 3 Credits**

An examination of global political-economic institutions and governmental policies in a period of global structural change and economic crisis. Emphasis will be placed upon the attempts by advanced and newly industrializing governments to attract and to regulate transnational industrial and financial enterprise.

**GLS 205 Introduction to Geographic Information Systems 3 Credits**

This course introduces the computer-based concepts and skills of Geographic Information Systems (GIS). It covers the basic GIS concepts, such as map characteristics and projections, spatial data models and analysis, and relational databases. It explores data sources, data quality, and metadata, as well as implementation and management of specific GIS projects. Hands-on experience with ArcGIS software is provided through a series of student exercises completed throughout the semester. Students will also be taught how to process both vector and raster data using ArcGIS 9 software. The course is relevant for students from numerous disciplines in the natural sciences, social sciences, and business, which require the analysis and graphical representation of spatial data. Three hours of lecture per week. Note: This course is cross-listed as ENV 205. Students may not credit for both GLS 205 and ENV 205.

**GLS 210 Public Opinion 3 Credits**

Public opinion as a social force and as expression of public sentiment on political and social issues. Topics include: development and dissemination of opinions, the measurement of public opinion, public opinion and governmental processes, and the reciprocal relationship between mass media and public opinion. Note: This course is cross-listed as POL 210. Students may not get credit for both GLS 210 and POL 210.

**GLS 215 Global Politics 3 Credits**

The struggle for power, wealth, and order at the global level involving nation-states, intergovernmental organizations (such as the United Nations, the European Union, etc.), non-governmental organizations, transnational enterprises and other non-state entities, using military, economic, diplomatic, legal, and communication instruments. Overview of global problems such as the proliferation of weapons of destruction, ethnic and religious conflicts, human rights, and the global environment at the threshold of the 21st century. Real-time use of the Internet is an integral aspect of this course in terms of readings and assignments. (This course is a prerequisite for POL 295 Special Projects in Political Science: Model United Nations.) This course is cross-listed as POL 215. Students may not get credit for both GLS 215 and POL 215.

**GLS 216 Comparative Political Systems 3 Credits**

A general introduction to types of government and political regimes of the world as they try to cope with the dual challenge of ethnic micropolitics and transnational globalization. Major prototypes of democracy: the British parliamentary system, the American separation of powers system, and various combinations of these two. Traditional autocracy, totalitarian dictatorships, and late 20th-century authoritarian regimes. Students are expected to acquire in-depth knowledge of comparative political systems, and to develop a basic understanding and appreciation of the major concepts and themes in comparative political systems studies.

**GLS 219 Terrorism, Revolutions, and Political Violence 3 Credits**

Revolutions are the mad inspiration of history." Trotsky's characterization calls attention to three important dimensions of violent political participation: the historical settings, ideology, and emotional fervor of the practitioners. The course focuses on these dimensions by analyzing revolutionary and terrorist movements in the 20th century. Special attention is given to the use of violence in the post-Cold War new world disorder. Note: This course is cross-listed as POL-219. Students may not get credit for both GLS 219, POL-219 and HLS 219.

**GLS 225 Nationalism in World Politics 3 Credits**

Nations and nationalism. An overview of nationalistic manifestations in the world today. Nations, states, nation-states. Multinational states, stateless nations. Imperialism, anti-imperialism; nativism vs. internationalism and globalism. Topics include nationalisms in the Holy Land; in the former Yugoslavia; in the former Soviet Union and its successor states; and economic Nationalism vs. Globalization. Note: This course is cross-listed as POL 225. Students may not get credit for both GLS 225 and POL 225.

**GLS 252 Intercultural Communication 1.5-3 Credits**

Develops intercultural communication competence through an awareness and understanding of diverse cultures and their impact on communication. This course will be different from the international communication course, which focuses on communication between nations. This course will focus on the more personal aspects of communication—what happens when people from different cultures interact face-to-face. It will introduce students to those general factors that influence communication with people from diverse cultures both internationally and within the United States, and offer a blend of skill development, communication theory, and hands-on application. Note: This course is cross-listed as COM 252. Students may not get credit for both GLS 252 and COM 252.

**GLS 267 China in Transition 3 Credits**

This course has two focal points: one is the rise and fall of great powers in the history of world transformation; the other is China's whereabouts in this transition. The former deals with a group of international relations theories, which focuses on system transformation. Students are expected to learn extant theoretical knowledge on how and why a great power rises and falls. The latter is our empirical referent. Students are led to study China's contemporary history, geopolitics, political economy, and international relations as to make a learned connection between theoretical wisdom and practical data on China. This course will provide students with a better understanding of China in general and its superpower status in the making in world politics in particular, offer students a chance to review the sources consequences of different approaches to greatness, and help students find his or her own analytical framework for understanding international political events that may have transforming effects in Northeast Asia as well as on the world stage. Note: This course is cross-listed with POL 267. Students may not get credit for both GLS 267 and POL 267.

**GLS 285 The Student Global Village 3 Credits**

This course involves deliberative discussions carried out internationally among college students using videoconferencing technology. The project involves a series of 12 weekly videoconferences between students at Rider University and students at the American University of Cairo, or another international university. Students will be provided with materials to supplement their knowledge of the other country, and to allow them to discuss chosen themes in depth. The students will be required to write papers that describe their attitudes and impressions of the other country at the beginning and the end of the project, and to summarize what they have learned based upon the conferences and readings. Short papers will be required each week to prepare the students for the videoconference theme of the week.

**GLS 295 Emerging Issues in Global Multinational Studies 3 Credits**

The process of globalization defines a condition of rapid political, social, and economic change. As such, subjects for study become relevant at an alarming speed in the current international environment. This course will give students the opportunity to study a current critical issue or subject, chosen according to its relevance or the special expertise of a visiting or current professor. Topics may include political, economic, or social crises that exist currently, how to deal with specific global problems such as global warming, humanitarian crises, or wars, but may also concentrate on the background of relevant areas such as Iraq or the European Union.

**GLS 303 Global Justice 3 Credits**

This course examines some of the most vexing problems in today's world of global interconnectedness. How can we harness the potential of global cooperation to solve problems that cross national borders? We will critically analyze the potential for human rights to protect vulnerable individuals, including victims of human trafficking. We will also evaluate the distribution of global resources and costs, including natural resources, extreme poverty and environmental degradation. What do we owe those who live in distant lands? Throughout we will ask how reality matches up to our best hopes for the present and future.

**GLS 306 Political Film 3 Credits**

This course analyzes the structure, history, and impact of the genre of political film. It begins with a discussion of how one distinguishes a political film from other forms of cinema. It then proposes insights into the manner in which these films evoke a particular time and place in politics, affect the viewer's interpretation of a political event or figure, and have an effect upon a viewer's political perceptions or behavior. The student will also learn to review films critically, both as political statements and as effective (or ineffective) conveyors of political messages. Note: This course is cross-listed as POL 306. Students may not get credit for both GLS 306 and POL 306.

**GLS 307 Political Communication 3 Credits**

The meaning and uses of political communication are examined, the manner and forms such communication takes, and the history of political discourse. Major topics include the role of communication in elections and the development of public policy, how political communication strategies have changed with the rise of mass media, and the development of national and international publics for discourse. Note: This course is cross-listed as POL 307. Students may not get credit for both GLS 307 and POL 307.

**GLS 308 World Music 3 Credits**

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures. This course is cross-listed as MUS 308. Students may not get credit for both GLS 308 and MUS 308.

**GLS 309 Will China Be Next Superpower? 3 Credits**

This course has two focal points: one is the rise and fall of great powers in the history of world transformation; the other is China's whereabouts in this transition. The former deals with a group of International Relations theories, which focuses on systematic transformation. Students are expected to learn extant theoretical knowledge on how and why a great power rises and falls. The latter is our empirical referent. Students are led to study China's contemporary history, geopolitics, political economy, and international relations as to make a learned connection between theoretical wisdom and practical data on China. This course will provide students with a better understanding of China in general and its superpower status in the making in world politics in particular, offer students a chance to review the sources and consequences of different national approaches to greatness, and help students find his or her own analytical framework for understanding international political events that may have transforming effects in Northeast Asia as well as on the world stage. This course is cross-listed as POL 309. Students may not get credit for both GLS 309 and POL 309.

**GLS 310 Ethnographic Film 3 Credits**

Explores the manner in which different civilizations are depicted through the medium of documentary film. Discusses the manner in which film may contribute to ethnographic understanding of a given people, and the limitations of the genre that may misrepresent the subject matter. Special attention is given to the role of the filmmaker and his/her position as participant, observer, and recorder of the events shown on the film. The films will be analyzed in terms of how they reflect, and potentially affect, a civilization's international image and global standing. These factors will then be considered in terms of their effects upon the place and actions of the civilization in global politics.

**GLS 315 Global Issues 3 Credits**

Military, economic, demographic, and environmental threats to global security in the post-Cold War era. Forces of transnational integration vs. forces of intrastate fragmentation. Inadequacy of international law and organization to deal with these problems within the confines of the sovereign nation-state system. Note: This course is cross-listed as POL 315. Students may not get credit for both GLS 315 and POL 315.

**GLS 318 Global Political Film 3 Credits**

Political films are a powerful form of political communication. This power derives from the ability of the filmmaker to control the characters, plot, dialogue, setting, and other aspects of the context in which the political message is delivered. It is difficult to conceive of any other form of political communication in which the individual or individuals presenting the message have so much control. Even the most programmed of political events or "photo opportunities" provide instances where outside factors or events may intervene. Further, audiences who watch a film are willing to suspend disbelief for the period of viewing; as such, the filmmaker has a willing participant in the narrative he or she develops. Since political communication is the primary means by which political reality is constructed, and since films provide a very persuasive visual and auditory means of creative narratives, they are important subjects for study and analysis. Nearly all scholars recognize the importance of film as a means of affecting, and reflecting, the political climate of a society, especially during specific historical eras. President Woodrow Wilson, upon first seeing *Birth of a Nation*, said it was like "watching history written in lightning"; by contrast, James Baldwin referred to the film as "an elaborate justification for mass murder." Both recognized the persuasive powers of film and its potential propaganda value. Marshall McLuhan described film as a "cold" media because individuals could not choose to edit messages from it, as they could from "hot" media such as newspapers. These early observations mark the study of political film as a developing field. For several years, scholars have proposed a section on Politics and Film in the American Political Science Association. The present political film offering, POL 306/GLS 306 deals almost exclusively with political films from the United States. Our students have therefore not had the oppo.

**GLS 320 Politics of the Middle East 3 Credits**

The course emphasizes the relationships between social and political structures, the role of religion, and the problems of modernization in the Middle East. Similarities and contrasts will be drawn between the Arab and non-Arab countries of the Middle East. The political systems of Egypt, Syria, Israel and Saudi Arabia are examined in terms of political culture, structure, and political processes.

**GLS 321 International Law 3 Credits**

This course covers the basic doctrines of international law and their relationship to the contemporary international community. These include the jurisprudence of international law; the history of the international legal system; customary international law; Treaty law; sovereignty, statehood and recognition; jurisdiction and immunities; the role of international organizations; international criminal responsibility; and the relationship of the international legal system to the U.S. domestic legal system. The objectives of international law are to foster the peaceful settlement of disputes; facilitate transnational communication and commerce; encourage respect for human rights; as well as to preserve the environment. This course is cross-listed as POL 321. Students may not get credit for both POL 321 and GLS 321.

**GLS 325 Global Perspectives on Health and Illness 3 Credits**

Explores the different international perspectives on health and illness. Themes include how men, women, and children in respective civilizations are treated and viewed within their communities or nations, as they become ill. Particular attention is given to the contrast between various types of traditional healing and Western medical practices, and their interactions. Discussions will also compare the usefulness of national versus international health agencies in dealing with global health problems.

**GLS 328 Environmental Policy 3 Credits**

Environmental Politics examines how policymakers deal with the political challenges of unsustainable resource consumption, which is a primary determinant of environmental problems such as climate change, adverse health effects, and biodiversity loss. The course introduces students to environmental politics and policies at the local, state, national, and international levels. The course is designed to provide students with a framework for understanding how varied interests compete within political institutions in order to transform contending ideas into public policy. With that in mind, students will not only become more informed consumers of political information, but will also become more effective at analyzing and advocating for policies as it relates to the environment.

**GLS 329 Comparative Environmental Policy 3 Credits**

Analyzes cross-national approaches in developing, implementing, and evaluating policy responses to environmental problems. The course analyzes the political factors, actors, and tools that help and explain why some societies have been more likely to develop effective responses to environmental threats. Note: This course is cross-listed as POL 329. Students may not get credit for both GLS 329 and POL 329.

**GLS 340 Modern Democracy and Its Critics 3 Credits**

The course examines the fundamental assumptions underlying modern democratic theories and the main theoretical attacks launched against them. Among the contending theories to be discussed are right and left-wing anarchism, the old and the new left, fascism, intellectual elitism, and techno-conservatism. Note: This course is cross-listed as POL 340. Students may not get credit for both GLS 340 and POL 340.

**GLS 342 Freedom and Authority 3 Credits**

Concepts of freedom and authority in 19th and 20th-century political theory. Emphasis on such important thinkers as Nietzsche, Freud, Sartre, Camus, and Marcuse. This course is cross-listed as POL 342. Students may not get credit for both GLS 342 and POL 342.

**GLS 350 U.S. Foreign Policy and Security Policy 3 Credits**

Principles, institutions, and processes involved in the formulation and implementation of policies regarding the nation's military, economic, and environmental security within the global framework. Strands, trends, and problem areas in U.S. foreign policy, with focus on the changing global environment of the post-Cold War world. Note: This course is cross-listed as HLS 350, POL 350. Students may get credit for only once.

**GLS 352 Chinese and American Intercultural Communication 3 Credits**

Instructs students about Chinese culture and communication. Culture impacts communication practices and styles in significant and subtle ways. Through readings, lectures, discussions, and first-hand interactions with Chinese international students, the students of this course will gain both conceptual and practical understanding of major communication differences between the two cultures, and become a more skilled intercultural communicator. Note: This course is cross-listed as COM352. Students may not get credit for both GLS 352 and COM 352.

**GLS 365 Third World Politics 3 Credits**

Studies the major political issues of the Third World. Particular reference to political systems of Africa, Asia, Latin America, and the Middle East according to the relevance of the examples to large conceptual issues, and according to the major interests of the instructor. Typical issues include neocolonial dependency, the role of the state in newly developed countries, military rule and democratization. Note: This course is cross-listed as POL 365. Students may not get credit for both GLS 365 and POL 365.

**GLS 366 Communist Systems: Politics and Policies 3 Credits**

The course aims to provide students with an understanding of the origin, development, and history of communism, as well as the current political systems and practices of communist regimes in the world. Students are expected to acquire in-depth knowledge about the origin and development of communism, the influence of communism in world politics, and political systems and policies of contemporary communism regimes. Topics examined include Communist Manifesto, communism in the USSR, communism in China, McCarthyism in the U.S., Cold War, collapse of the USSR, fall of Berlin Wall, and communism in contemporary Cuba and Korea.

**GLS 367 Politics of Exile, Asylum and Diaspora 3 Credits**

This course analyzes mass migrations and refugee movements and what they mean for the stability of nations, the increasing potential of severe culture clashes within societies, and the root causes of (forced) migration movements, such as problems of violence, terror and genocide, as recently seen in Darfur, Rwanda and Bosnia. In certain European countries the frequently failed integration and assimilation policies resulted in an Islamic alienation; terrorist attacks and race riots are some of the consequences. Particular attention will be given to the conflict between the refugees' and migrants' needs that result from violent, socio-economic or ecological catastrophes in the countries of origin and the various forms of reception within the host countries. Students will explore theoretical, political, legal, and socio-economic dimensions of the refugee and immigration phenomena in a global world. Other themes will include international human rights and refugee laws, theories of immigration, for example, the feminization of migration, as well as problems of acculturation, assimilation and integration in different host societies. Note: This course is cross-listed as POL 367. Students may not get credit for both GLS 367 and POL 367.

**GLS 368 International Organizations 3 Credits**

This course introduces students to the study of international organizations. The course examines mostly formal and governmental institutions as well as informal institutions or regimes. Topics to be covered include and are not limited to: the establishment of international organizations, evolution of international organizations, structure of international organizations, decision-making of international organizations and influence of international organizations. This course employs both theoretical and practical approaches in its examination on international organizations. Note: This course is cross-listed as POL 368. Students may not get credit for both GLS 368 and POL 368.

**GLS 371 The Arab-Israeli Conflict 3 Credits**

The course will begin by introducing the main players: the neo-patrimonial Arab regimes on the one hand, and the democratic, economically modern Jewish sector in Palestine on the other. The analysis will focus on the impact of the social, economic, political and religious differences between the sides on their conception of the conflict among the participants and powers outside the region. The course will concurrently examine the impacts of the dynamics of the conflict itself, relations within Islam on the one hand and between Islam and the West on the other. The latter part of the course will consider the sources of perceptual shift that led simultaneously to the narrowing of the conflict with the withdrawal of some of its participants (most Arab states) and its widening with the addition of Al Qaeda and Iran (via Hezbollah). Note: This course is cross-listed as POL 371. Students may not get credit for both GLS 371 and POL 371.

**GLS 393 International Communication 3 Credits**

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is cross-listed as COM 393. Students may not get credit for both GLS 393 and COM 393.

**GLS 447 Global Literature 3 Credits**

An in-depth study of the recent literature in English of one or more writers whose cultural identification is with one of the former colonies of the British Empire, as it was defined at the beginning of the 20th century. Literature in the English language, written by authors of African, Caribbean, Pacific Island, East Asian, or South Asian cultures may be included.

**GLS 490 Independent Study: Research and Creative Expression 1-4 Credits**

This course allows students with permission of the instructor to conduct an independent research project in Global Studies in a relevant area of interest to the student and faculty member.

**GLS 491 Internship in Global Studies 1-4 Credits**

Students work under supervision, either in the United States or abroad, in an environment which provides experiential learning in institutions that operate in a global environment, including those in government, business, and international non-governmental organizations (INGOs). Domestic internships might also include work in agencies that deal with global problems such as an international environmental group or a refugee resettlement center. A minimum of 52 hours of field work per credit is required, with regular reports and a concluding critique analyzing the experience. No more than six credits allowed toward graduation.

**Global Supply Chain Management (GSC)****GSC 115 Introduction to Global Supply Chain Mgt. 3 Credits**

This course introduces students to components of global supply chains and issues of managing the global supply chain. It is designed as a survey course to give first or second year business students a general view of supply chain management at both domestic and international levels, as well as familiarize them with basic concepts and major challenges of supply chain management. Delivery of course material will include lectures and guest speakers from industry, and in-class logistics mini cases.

**GSC 235 Supply Chain External Focus: Customer and Supplier Logistics 3 Credits**

This course is a detailed discussion of some of the major issues and components of supply chain management that are mainly external to an organization. In other words, it provides an "outward looking" perspective of supply chain management. Topics to be covered include sourcing, procurement, transportation, customer logistics, and distribution. The linkages to internal issues and components of supply chain will be made.

**Prerequisite(s):** GSC 115.

**GSC 315 International Business Tour 3 Credits****GSC 345 Customer Focus 3 Credits**

Marketing and supply chain management programs are concerned with the creation and delivery of value to customers and organizations. No longer simply the domain of the warehouse manager or logistics director, supply chain management is viewed by most companies as a mission critical element. Marketing focuses on developing an understanding of customers and markets, creating products and services based on that understanding, and communicating and delivering the value added. This course will teach the student the essential role of marketing in all aspects of successful supply chain management - relationship management, technological and financial management - and it will help the student understand the structure, functions, principles and methods employed in discovering and translating consumer needs and wants into product and service specifications, and then transferring these goods and services from producers to consumers or end users.

**Prerequisite(s):** GSC 115 and MKT 200.

**GSC 355 Supply Chain Internal Focus: Firm Operations 3 Credits**

This course is a detailed discussion of some of the major issues and components of supply chain management that are mainly internal to an organization. In other words, it provides an "inward looking" perspective of supply chain management. Topics to be covered include: manufacturing, quality, product design, inventory, and warehousing. The linkages to external issues and components of supply chain will be made.

**Prerequisite(s):** GSC 115 and MSD 340.

**GSC 375 Adv.Sem in Global Outsourcing 3 Credits**

The course is aimed at generating a comprehensive understanding of the emergent domain of global business process outsourcing. Various referred to as knowledge process outsourcing, IT-enabled services outsourcing, and business services outsourcing, the industry has seen enormous growth over the last decade and continues to grow. India commands the single largest share of this market but South Africa, Eastern Europe, Philippines, Morocco and Egypt have all emerged as other contenders in this global sector. The course is divided into four modules: the political economy of global outsourcing, process modeling, outsourcing management, and industry analysis. Please note: Students will not receive credit for both CIS 375 and GSC 375.

**Prerequisite(s):** junior standing.

**GSC 385 Management Information Systems for Global Supply Chain Management 3 Credits**

The purpose of this junior level management information systems course is to prepare students for today's dynamic business environment by increasing their understanding of IT-enabled global information processing and management. This course has a specific emphasis on the impact and effective utilization of information systems and technology for the global supply chain. Students will gain a solid understanding of the value of business process integration through a combination of conceptual learning, business process analysis, and collaborative decision-making. This will be facilitated through hands-on experience with SAP ERP and analytical software as well as Microsoft Excel. GSC 385 is required for the Global Supply Chain Management major and can fulfill the CIS 385 requirement for all business majors. Please note: Students will not receive credit for both GSC 385 and CIS 385 without prior approval by the Dean's office.

**Prerequisite(s):** CIS 185 and junior standing.

**GSC 399 GSC Co-op Program 6 Credits**

The co-op program provides students with an opportunity to work full-time in an organization and apply what they have learned in their global supply chain and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first-step before they hire full-time employees. Eligible students include junior and senior global supply chain management majors with a minimum GPA of 3.0. The six credits are intended to be used as business electives, but it is also possible for them to be used as a combination of business and free electives.

**Prerequisite(s):** GSC 115 plus one additional course within the global supply chain management major, and permission of instructor.

**GSC 445 Supply Chain Strategy and Design 3 Credits**

This course introduces the student to the concepts and techniques necessary to design and operate global supply chains. It covers some of the strategic issues of managing a global supply chain and emphasizes the importance of understanding the organization, its value chain, industry, competitors, suppliers, and customers in a global framework. The course covers various strategies as well as different supply chain design models and approaches for efficient and effective supply chain operation.

**Prerequisite(s):** GSC 235 and GSC 355.

**GSC 490 Independent Study: Research and Creative Expression 3 Credits**

Topics to be approved by instructor, program director, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

**Prerequisite(s):** GSC 115 and permission of instructor.

**GSC 491 GSC Internship 3 Credits**

The Global Supply Chain Management (GSCM) Program formally sponsors an internship in global supply chain management. The intention of the course is to supplement theoretical foundations and other material introduced in the classroom with an opportunity to work in a sponsoring organization. Through the internship experience, the student will get a chance to see how supply chains are managed and will get a chance to apply supply chain concepts for themselves. If used in place of the co-op, internship credits will count toward GSCM major requirements, but can also be used as a business or free elective.

**Prerequisite(s):** GSC 115 plus one additional course within the GSCM major, and permission of instructor.

## Health Administration (HTH)

**HTH 201 Excel for Healthcare Management and Administration 1 Credits**

This course is a refresher on Excel designed to fill gaps in knowledge and application of skills for students who are preparing for their internships. Students will review the essentials of Microsoft Excel. Within seven weeks, students will learn to expertly navigate the Excel user interface, perform basic calculations with formulas and functions, professionally format spreadsheets, and create visualizations of data through charts and graphs. This course will provide students with a practical hands-on opportunity that is designed for students to gain the skills necessary to proficiently create pivot tables, analyze data, utilize more advanced Excel data tools, and interpret statistical results.

**HTH 205 Introduction to Health Care 3 Credits**

This course is an introduction to the components of the health care industry in the United States and to the interactions of these components in producing and supplying health care. We examine the nature of health, and the various institutions and personnel which seek to provide health services; we explore the means by which we pay for these services; we assess the relationship of technology to provision of health care services; we study the various ways that our government interacts with the providers of health care services; we investigate the ethical implications of issues in health care; and we explore health care sectors from an international perspective.

**HTH 215 Population Health Care Management 3 Credits**

In this course, we study how disease is distributed in populations and of the factors that influence or determine this distribution. This course introduces the basic methods and tools epidemiologists use to study the origin and control of non-communicable and communicable diseases so that policies and mechanisms to enhance the health of populations can be developed.

**Prerequisite(s):** MSD 201 or MTH 120 or ENV 200 or PSY 201.

**HTH 225 Health Care Financing 3 Credits**

The goals of this course are: (1) to provide a description of how Americans pay for health care; (2) to explain how payment arrangements affect the health care system; and (3) to evaluate newly emerging arrangements. Specifically, we will focus on insurance (both public and private) in the United States, provider payment reform, the incentives of the parties in these arrangements and how these incentives impact cost containment in health care.

**Prerequisite(s):** HTH 205 and sophomore standing.

**HTH 315 Health Care Law, Ethics and Policy 3 Credits**

This course analyzes the role of the law in promoting the quality of health care, organizing the delivery of health care, assuring adequate access to health care, and protecting the rights of those who are provided care within the health care system. It will also examine the public policy, economic, and ethical issues raised by the health care system.

**HTH 336 Economics of Health Care System 3 Credits**

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomics tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes.

**HTH 365 Health Care Information Systems 3 Credits**

The Electronic Health Record (EHR) is one of the most complex technological projects ever undertaken. EHR involves the shared management, potentially on a global scale, of a variety of private, time-sensitive, multimedia data across activities including capture, processing, storage and access. The purpose of this course is to provide the future Health Administration professional with specifics of the socio-technical issues involved in this effort. The goals of this course are to study data standards used in modern EHR systems, technology platforms used to implement EHR in various types of organizations, data governance and regulations associated with health data, analytics that support quality of care and evidence-based practice.

**Prerequisite(s):** HTH 205; CIS 385 or GSC 385; HTH 215 or CIS 360; and junior standing.

**HTH 367 Special Topics in Health Administration 3 Credits**

This course covers a current area of health care administration. Topics will vary from semester to semester.

**HTH 450 Seminar in Health Research 3 Credits**

Students in the course learn to conduct health administration-related research by engaging in an actual community-based research project. At the beginning of the semester, students are assigned to a health-related community-based organization. As a team, students meet with the client, devise a plan of action, collect and analyze data and other information, and write a report to the client. At the end of the semester, students present their findings to the client.

**Prerequisite(s):** Permission of instructor.

**HTH 490 Independent Study in Health Admin 3 Credits**

An independent study in health administration allows a student to conduct an in-depth exploration of a topic in health administration under the supervision of a faculty member. The project helps develop a student's research and written skills.

**Prerequisite(s):** JR or SR standing, Permission of Instructor.

**HTH 491 Health Management Internship 3 Credits**

This course provides students minoring in health administration an opportunity to supplement and apply their classroom work in a supervised employment setting with participating firms in the health care sector. Requirements include: a log of daily activities, oral and written reports to the faculty supervisor and a term paper. In addition, the employer will also submit an evaluation of the student's performance.

**Prerequisite(s):** HTH 205; junior or senior standing; and permission of faculty supervisor.

## Health Care Policy (HCP)

**HCP 301 Global Health Care Systems 3 Credits**

Global Health Care Systems is an introduction to visions of global health care, drawing upon the fields of medical anthropology, global public health, and public policy. The course focuses upon different understandings of health care, reflected in the actual health systems in place around the world. Because responsible health-giving health systems respond to societies' changing needs and situations, students will learn about the skills needed for this kind of problem-solving, but also come to understand that there is an urgent and vital global need for the exchange of ideas in global health care systems.

**HCP 302 Environmental Epidemiology, Pandemics and Globalization 3 Credits**

This course is intended to provide basic knowledge of principles and methods of environmental epidemiology for students whose career interests in a health-related field may include using epidemiologic information. The course presents a holistic view of global health by crossing several disciplines, including medical anthropology and disease history, focusing upon the social processes by which groups are stigmatized during disease outbreaks, and public health policies for confronting outbreaks of epidemics and pandemics. The course emphasizes the conceptual aspects of epidemiologic investigation and application of these concepts in global health policy and related professions. Topics include: disease surveillance; population screening; interpreting epidemiologic associations, and the health risks and benefits of globalization. Salient foci will be: the evaluation of the role of health diplomacy in addressing shared global health problems among countries, and the evaluation of cultural, ethical, social, systemic, and anthropological determinants of global health problems.

**HCP 303 Global Health and Human Rights 3 Credits**

This course introduces students to the basic concepts of human rights and their links to national/global health, as well as to issues where human rights and health collide. Students will become familiar with global efforts for developing practical and effective responses to global health challenges with a human rights framework.

**HCP 304 Community Based and Primary Health Care Policy 3 Credits**

Community Based and Primary Health Care Policy explores the politics of health care policy at the local level. The course identifies and evaluates various measures of the health and function of populations, organizations, partnerships, systems, and communities. The course provides students with an overview of the realities, challenges, and requirements of practicing community oriented primary health care.

**HCP 450 Seminar in Health Care Policy 3 Credits**

Rider University is uniquely positioned through Global Studies to have access to the nongovernmental organization United Front against River Blindness (UFAR). It is an African-inspired, U.S.-based nonprofit and tax exempt organization. Its primary mission has been to participate in partnerships with other global health organizations in the elimination of onchocerciasis (river blindness), as a major public health problem in the Democratic Republic of the Congo (DRC). UFAR was founded and registered in the U.S. in 2004 by Dr. Daniel Shungu, a former Merck & Co. Inc. employee, who is a Congolese by birth and a naturalized U.S. citizen. The U.S. office is in Lawrenceville, N.J. and the Congo office is in Kinshasa, DRC. Dr. Roberta Fiske-Rusciano of Rider University's Global Studies faculty is a founding UFAR board member and has hosted Dr. Shungu several times in her course Global Perspectives on Health and Illness. For the past eleven years UFAR in partnership with several organizations (World Health Organization, Sightsavers Intl., Merck, DRC coalition group for onchocerciasis, and the DRC Health Minister, have successfully treated three million (as of 2015) Congolese with Ivermectin (Mectizan), donated by Merck and Co., Inc. Taken once a year for approximately ten years prevents infection of river blindness, by interrupting the cycle of the parasite. Because of UFAR's continued success in its mission, it has been asked to expand its work to include more neglected tropical diseases, using the same method of health delivery system: community directed treatment with the appropriate medicament, e.g. Ivermectin. Now that treatments of other diseases have been added to UFAR's mission (trachoma, lymphatic filariasis, schistosomiasis, guinea worm and helminthes infestations), additional medical treatments are scheduled to be added once these conditions are thoroughly mapped in the population.

**HCP 491 Health Care Policy Internship 1-3 Credits**

Students will complete an internship that will build on prior work in the HCP major.

## Health Sciences (HSC)

**HSC 100 Intro to Human Nutrition 3 Credits**

This course is designed to offer the student understanding of fundamental human nutrition concepts including, but not limited to, digestion, absorption, metabolism, functions and sources of macronutrients and micronutrients. The theme of the course will align with human health and disease states and the important conceptions about the food industry and its relation to healthy dietetic choices.

**HSC 105 Introduction to Health Professions 1 Credits**

Course Description: This course will provide a basic overview of the health science professions including but not limited to: athletic training, clinical exercise physiology & cardiac rehabilitation, chiropractic, physician assistant, occupational therapy, nursing, community health education specialist, and physical therapy. The course will also cover the professional activities (i.e. professional organizations, certifications, professional issues, and professional liabilities) that are related to these professional applications.

**HSC 200 Environmental Health & Human Health 3 Credits**

The health of any individual is a function of both our genetics and environmental factors. Environmental factors most broadly defined include the air we breathe, the water we drink and the food we eat. This course will focus on numerous examples of how bacteria, viruses, and exposure to environmental chemicals result in human diseases. Examples range from failures in public health infrastructure (cholera, diphtheria, river blindness, etc), failures to vaccinate (polio, measles, hepatitis, etc) and chemical exposures (birth defects, cancer, etc). There is also much known about how diet and nutrition can prevent diseases.

**Prerequisite(s):** BIO 10X Life Science course or any biology laboratory course (BIO 115, 116 or 117).

**HSC 201 Nutrition for Exercise and Physical Activity 3 Credits**

An introductory exploration of evidence based nutritional theory and applications in sport and exercise.

**HSC 302 Kinesiology 4 Credits**

The purpose of this course is to explore human movement during performance of activities. This course will explore the relationship between anatomical structures and function in the production of movement. The application and relationships between the fundamental principles of mechanics and musculoskeletal system function will be addressed within the framework of clinical and research perspectives. Both qualitative and quantitative approaches will be applied towards a better understanding of human movement, the analysis of physical activity. **Prerequisite(s):** BIO 221 & MTH 105 (or equivalent) or POI.

**Corequisite:** HSC 302L.

**HSC 302L Kinesiology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** HSC 302.

**HSC 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in health science-related research. The student learns to organize material, use relevant medical/scientific literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**HSC 491 Internship in Health Sciences 1-4 Credits**

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations. These can include educational or research institutions. The method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty member and should include keeping a journal of activities, a term paper or project report and an oral or poster presentation.

**Prerequisite(s):** 2.5 GPA required.

## Courses and Descriptions

**HIS 150 World History to 1500 3 Credits**

This course traces both regional histories and global interactions, and covers the development of societies and states in Africa, the Americas, Asia and Europe from prehistoric times until about 1500. Certain major topics will be pursued, including agriculture, great empires, the major world religions, long-distance trade, and early modern exploration. While learning about these topics, students will also gain an understanding of the practice of history, especially of the kinds of sources historians use and how they reconstruct and interpret the past.

**HIS 151 World History Since 1500 3 Credits**

Learn what college students should know about history as a discipline and why history matters by tracing the development and interactions of the cultures of Europe, Africa, Asia and the Americas from 1500 to the present. Students will gain an appreciation for the value of historical thinking and a greater understanding of the relationships among modern nations so necessary for global citizenship.

**Prerequisite(s):** HIS 150.

**HIS 160 Seminar in History 3 Credits**

This course introduces students to the discipline of history and to the skills needed for its pursuit. Students will learn to analyze and evaluate primary sources and to identify the thesis and argument of secondary sources, as well as to locate sources using library databases. They will complete a short research paper in which they put these skills into practice. The seminar is intended for History majors and minors and Social Studies majors in their freshman year. Transfer students with fewer than 45 credits should consult their advisor on the suitability of the course for their program. Enrollment limited to 16.

**HIS 180 U.S. History I 3 Credits**

A survey of American history from the early 17th century through 1877. Among the topics covered will be settlement and regional differences, the American Revolution and the formation of a national government by 1787. The beginning stages of industrialization, the rise of democratic and reform politics, westward expansion, the debate over slavery and growing sectional tensions through the Civil War and Reconstruction will be major themes in the 19th century. Included will be discussions of African Americans, Native Americans, and women.

**HIS 181 U.S. History II 3 Credits**

A survey of United States history from the end of the Civil War through the present. Included will be discussions of the maturing of an industrial economy, and expansion in the west and overseas. The role of the United States as a world power and the growth of presidential power will be shaped and sometimes challenged by movements designed to expand democratic institutions and human rights. Included will be discussions of African Americans, Native Americans, and women.

**HIS 190 Europe to 1715 3 Credits**

Examines the development of European civilization from late Roman times until 1715, stressing the Classical heritage, the main currents of European thought and letters, the Renaissance and Reformation, the Age of Discoveries, and the development of the Old Regime.

**HIS 191 Europe Since 1715 3 Credits**

Examines major political, economic, social, and cultural developments in Europe and the West from 1715 to the present.

## History (HIS)

**HIS 200 Native American History 3 Credits**

Traces the experiences of North American Indians from early colonial times to the present day, demonstrating how Indian life has varied and changed throughout our nation's history. Topics include strategies of resistance and accommodation to colonial powers, 19th-century impacts of U.S. government removal and cultural assimilation policies, and 20th-century cultural and political developments among the nation's surviving tribes. Rather than "vanishing," American Indians are a vital and expanding force in modern America.

**HIS 201 African American History 3 Credits**

Examines the actions and thought of peoples of African ancestry in the United States. Briefly considers Africa before the Atlantic slave trade, then concentrates on major themes in African-American history—the slave trade, slavery, and the genesis of African American society, emancipation and its consequences, urbanization and industrialization, Black Nationalism, the Civil Rights Movement, and African Americans today. Emphasizes African Americans' dynamic and creative role both in shaping their society and establishing their place in United States society. The on-going struggle for freedom and equality provides thematic continuity for analyzing nearly 400 years of African-American history.

**HIS 224 American Environmental History 3 Credits**

Surveys the history of the North American environment from pre-Columbian times through the 20th century. Topics include Native American uses of the environment; the reshaping of ecosystems under European colonization; U.S. frontier expansion; the ecological impact of industrialization and urbanization; and the rise of the environmental movement.

**HIS 225 A History of American Business 3 Credits**

Examines the history of business in the United States from the Colonial Era to the present. Emphasizes such themes as the changing capitalist system, the function of business institutions, the roles of the entrepreneur, the relationship between government and business, and the emergence of the corporation.

**HIS 226 History of New Jersey 3 Credits**

Explores the history of New Jersey from the colonial period to the present including the role of New Jersey in the American Revolution, the establishment of the Constitution, and the course of industrialization. Examines the impact of national and international developments on New Jersey and emphasizes the distinctive characteristics of the Garden State.

**HIS 227 U.S. Cultural History I 3 Credits**

Examines cultural developments in the United States through the Civil War. Topics include popular culture, the history of the body, reading and print culture, public celebrations and holidays, religion, race and ethnicity, and material culture. Some of the larger trends explored include the creation of American nationalism, the development of a consumer society, and the rise and decline of 19th-century family life and culture.

**HIS 240 History of Ancient Greece 3 Credits**

Surveys the intellectual and cultural life of ancient Greek civilization against the background of its political, economic, and social history.

**HIS 241 History of Ancient Rome 3 Credits**

Studies the history and culture of Rome, emphasizing such topics as Roman law, government, literature, religion, art, and philosophy.

**HIS 243 Italy Middle Ages to Present 3 Credits**

Traces the history of Italy from the Middle Ages to the present, stressing the connection between culture, religion, politics, and wealth in successive historical periods. Students participating in the two-week travel component at the end of the course may receive four credits.

**HIS 245 Britain to 1688 3 Credits**

British history from pre-Roman times to the Glorious Revolution is examined, emphasizing the growth of royal government, parliament, and the origins of the British colonial empire.

**HIS 246 Modern Britain 3 Credits**

Examines British history from the Glorious Revolution to the present, stressing the reform movements of the 18th and 19th centuries, the Pax Britannica, the Industrial Revolution, imperialism, and the impact of the two world wars.

**HIS 248 History of Ireland 3 Credits**

Beginning with an overview of the Irish past, focuses upon the past century of the island's history—the problems, challenges, and accommodations that led to the present situation as one of the most protracted unresolved partitions in the modern nation-state system.

**HIS 249 Women in Europe from Antiquity to the French Revolution 3 Credits**

Traces the history of women in Europe from Rome to the French Revolution, covering the religious, social, political, and economic context in which women participated. Also offers a brief overview of theories and issues in women's history and gender history.

**HIS 255 History Abroad 3 Credits**

Two-week travel course to a destination chosen by the professor. Exposes students to historic and cultural sites and works of art that have been studied in class. Students must attend orientation sessions, read assigned writings, complete a travel journal, write a final paper on a topic relevant to the course, and attend all scheduled course activities abroad. Travel will take place in January or at the end of the spring semester.

**HIS 260 Craft of History 3 Credits**

This seminar focuses on historiography and research skills to further students' progress toward the major capstone experience of conducting independent historical research. Students will explore how historians approach, interpret, and write about a particular topic selected by the instructor, and discover how and why interpretations and methods have changed over time. Topics will vary by instructor. Course may be taken a second time on a different topic for 200-level credit. The course is required for History majors who are Sophomores or Juniors. Enrollment limited to 16.

**HIS 273 Imperial Russia 3 Credits**

Discusses the political, economic, social and cultural developments in Russia and its borderlands during the Imperial period, that is to say the 18th and 19th centuries from Peter the Great to the Revolutions of 1917. This course counts towards the fulfillment of the Global Perspectives element of the CLAS general education curriculum.

**HIS 274 Modern Russia 3 Credits**

Covers the background to the Russian revolutions of 1917, the revolutions themselves, and the evolution and dissolution of the Soviet regime. Cultural, social and economic aspects of this period receive as much attention as political aspects. This course counts towards the fulfillment of the Global Perspectives element of the CLAS general education curriculum.

**HIS 280 Vietnam in Peace and War 3 Credits**

Examines the history of modern Vietnam, with a focus on the struggle for independence from the late 18th century to the present. Discusses the traditional culture, French colonialism and the development of Vietnamese nationalism, the Japanese occupation in WWII, and the struggle against France and the U.S. in the First and Second Indochinese Wars, as well as the postwar period. Explores the American experience in Vietnam and the impact of the war in the United States.

**HIS 281 Modern Middle East 3 Credits**

Examines political, economic, social, and cultural developments in the Near East, from the rise of the Ottoman Empire to the present, stressing the impact of contacts with the West in the 19th and 20th centuries, and the emergence of the contemporary Arab World, Israel, Turkey, and Iran.

**HIS 282 Colonial Latin America 3 Credits**

Examines the pre-Columbian and colonial periods of Latin-American history. Discusses the Indian, African, and European peoples and pays particular attention to the colonial Spanish and Portuguese societies from their establishment up to the revolutions that brought about political independence.

**HIS 283 Modern Latin America 3 Credits**

Considers the post-independence history of Latin America, emphasizing the rise of export economies and external economic domination, modernization, and pan- Americanism. Examines the changes undergone by Latin-American nations in the 20th century through an analysis of Mexico, Argentina, Chile, Brazil, Peru, Cuba, and Central America.

**HIS 284 Caribbean History 3 Credits**

Analyzes the history of the West Indian islands and the lands bordering the Caribbean Sea from pre-Columbian times to the present.

**HIS 286 Modern East Asia 3 Credits**

Examines the disintegration of the Ch'ing dynasty in China and the Tokugawa Shogunate in Japan under internal stresses and foreign incursions, and the varied experience of those states in coming to terms with the challenges of modernization and westernization. Covers political, economic, social, and cultural factors in China, Japan, and East Asia.

**HIS 288 African History 3 Credits**

Traces the history of Africa, analyzing the unique problems of African historical evidence and the complexity of the continent's past. Examines the genesis of African culture, early African societies, and the character of African civilizations and empires, then considers external influences such as religion (especially Islam and Christianity), contacts with Europe, the slave trade, the colonial scramble for Africa, colonial rule, modernization and dependency, and concludes by assessing the rise of independent Africa after World War II, its present status and future prospects.

**HIS 289 History of Modern Japan 3 Credits**

Examines the history of modern Japan from the age of the samurai in the Tokugawa Shogunate to today's high-tech mass consumer society. It traces the interaction of elements of Japan's traditional culture with impacts from the outside to create a uniquely-Japanese modernity. It stresses social, economic, and cultural trends, as well as political history, and includes an examination of modern Japanese culture through fiction and film.

**HIS 298 Special Topics in History 3 Credits**

Exploration of special topics, themes or methodologies in history. This course may be repeated for credit on different topics.

**Prerequisite(s):** permission of instructor.

**HIS 300 Economic History of the U.S. 3 Credits**

Studies the main currents in the economic growth of America from colonial times to the present. Stresses the process of economic development from an agrarian to an industrial society, and examines the challenges and dislocations resulting from economic change.

**HIS 301 Constitutional History of U.S. 3 Credits**

Surveys the English, Colonial, and Confederation backgrounds of American law and constitutionalism; the framing, adoption, and implementation of the Federal Constitution and its later development; the role of law in the nation's history; the changing interpretations of federalism; the growth of judicial review; and the increasing role of the Supreme Court.

**HIS 302 American Worker: Social History 3 Credits**

Investigates the American workers' varied social, cultural, religious, and ethnic environment from post-Civil War to the present. Emphasizes worker response to industrialization, urbanization, the technical revolution, and automation.

**HIS 303 American Urban History 3 Credits**

Traces the growth of urbanism in America from colonial times to the present. Focuses on the interaction between the city dweller and the urban environment and explores the problems confronting urban America today.

**HIS 304 Civil War and Reconstruction 3 Credits**

Considers the Civil War as a watershed in the development of the American republic. Analyzes antebellum sectional conflict, the war years, and the era of Reconstruction.

**HIS 306 U.S. Cultural History II 3 Credits**

Examines cultural developments in the United States from the late 19th century to the present. Topics include popular culture, intellectual history, gender history, literary history, film, institutions like museums and department stores, subcultures and counter- cultures, popular commemorations like World's Fairs, and political culture. Some of the larger trends explored include the development of the modern culture of consumption, the urban landscape, and the polarization of cultural values.

**HIS 307 The Immigrant in American Life 3 Credits**

Examines the experiences of immigrants in the United States, their assimilation, the reactions to them, and their contributions.

**HIS 309 Women in American History 3 Credits**

Examines the roles, status, and influence of women from the colonial era to the present. Studies the origins and development of feminism, including legal, political, educational, economic, and sexual rights; and studies social feminism, including reform movements in such fields as abolition, prohibition, pacifism, child labor, and social welfare.

**HIS 318 The American Revolution 3 Credits**

Examines the growing rift between the American colonies and the British Empire, the War for Independence, and the creation of a new American republic. Explores the political, economic, social and cultural history of the Revolutionary era, and includes the experiences of various groups such as Native Americans, slaves, and women.

**HIS 319 Gender and Sexuality in American History 3 Credits**

What makes a man, exactly, and what makes a woman? What kinds of sex are normal, and what kinds are abnormal? Who decides, and why? The answers to these questions are not fixed. Throughout American history, popular understandings of gender and sexual norms evolved in close relationship with the political, economic, racial, and social dictates of the time. This course will trace the evolution of ideas on sex and gender from the 18th century to the present using various historical sources including fiction and film, particular attention will be given to analyzing dominant models of proper behavior and the complex relationships of power enmeshed within them.

**HIS 320 The History of Christianity 3 Credits**

Examines Christianity's role in world history from the life and times of Jesus to the present. Emphasizes the quest for the historical Jesus, the emergence of Christianity after his death and triumph during the later Roman Empire, and Christian relations with pagans, Jews, heretics, witches and Muslims. Traces the various branches of Christianity, its spread throughout the world, church-state relations and responses to secularism, capitalism and communism.

**HIS 325 Church & Society in Med Europe 3 Credits**

Studies the role of the church in the shaping of early medieval society. Emphasizes the emergence of Christianity as a world force, its challenge from Islam, and the church's impact on the politics, thought, and economy of early medieval Europe.

**HIS 326 Renaissance and Reformation 3 Credits**

Studies the Renaissance, including the development of humanism and art as well as the political and economic changes of the period. Discusses the Renaissance church and movements for religious reform, leading to a consideration of the origins, development, and consequences of the Reformation. Examines the influence of the Renaissance and Reformation on the development of capitalism and the dynamic, secular nation-state.

**HIS 333 20th-Century Europe 3 Credits**

This course covers the history of twentieth-century Europe, a time when major wars brought Europe from the heights of prosperity and power to the brink of ruin. Europe's experience in war, social upheaval, and ideological conflict shaped the twentieth century not just in Europe but globally. We begin with a look at the condition of Europe at the turn of the century and assess why the European states plunged into what was a disastrous series of conflicts. We will consider the First World War and its impact, including the Russian Revolution and the peace settlement, and then focus on attempts to find stability and the emergence of radically new political movements that challenged the postwar order. Next we will examine the ways in which Europe embarked on the path of near self-destruction during World War Two. A discussion of the origins and consequences of the Cold War and the fate of the socialist and capitalist systems follows. Throughout the course we will touch upon European art and culture. We will conclude with a look at the events of 1989 and attempt to understand the meaning of the twentieth century. This course counts towards the fulfillment of the Global Perspectives element of the CLAS general education curriculum.

**HIS 334 The Era of World War II 3 Credits**

Investigates selected topics relating to the origins, events, and outcome of World War II, emphasizing the war's impact on 20th-century civilization. Traces the roots of the conflict back to the World War I peace settlements, and examines the rise of totalitarianism, pre-war aggression and appeasement, the immediate causes of the war's outbreak, the course of military actions, the diplomacy of the belligerents, the War's impact on civilian life, and factors that shaped the post-war world. This course counts towards the fulfillment of the Global Perspectives element of the CLAS general education curriculum.

**HIS 335 Nazi Germany & Hitler's Europe 3 Credits**

Examines the Nazi dictatorship in all its complex dimensions, from the early life of Adolf Hitler to total war and genocide. Students will explore how the Nazi movement arose in the context of modern German and European history, and how the Nazis were able to win the support of significant segments of the German population. We will study the Nazis' massive project of social and biological engineering – pronatalism, forced sterilization, extermination of "social and biological deviants," and, ultimately, the genocide of the Jews. Through memoirs, state documents, and historical accounts, the class will examine life from the vantage point of perpetrators, accommodators, victims, and resisters. This course counts towards the fulfillment of the Global Perspectives element of the CLAS general education curriculum.

**HIS 336 Modern European Intellectual History 3 Credits**

Examines the 17th-century revolution in scientific, philosophical, and political thought; the Enlightenment; Romanticism; the ideologies of Conservatism, Liberalism, and Socialism; Positivism; Darwinism; the crisis of European thought (1880-1914); and the major intellectual trends of the 20th century.

**HIS 337 Post-1945 United States History 3 Credits**

This course will magnify American society, politics, culture, and foreign policy from 1945 to the present, tracing the rise and fall of the "American Century". We will focus on topics such as the Red Scare, suburbanization, mass culture, the power of the presidency, the Civil Rights movement, Vietnam, disco, and the war on terror, offering students a unique opportunity to delve deeply into our recent past.

**HIS 341 China in Revolution 3 Credits**

Treats the Chinese Revolution in terms of political, economic, and social transformation.

**HIS 342 Women in East Asia 3 Credits**

Treats the history of the relationship between women and society in traditional East Asia and the modern transformation of their relationship.

**HIS 343 Ottoman Empire and the Balkans 3 Credits**

This course is divided into two parts. Part one examines the rise, zenith, and gradual disintegration of the Ottoman Empire, one of the greatest, most extensive, and long lasting empires in history, with special focus on the southeastern projection of Europe, known as the Balkan Peninsula. The second half of the course concentrates on Balkan history proper, from the First World War until the demise of communist regimes in the late 1980s. Lastly, we will consider contemporary developments, especially the breakup of Yugoslavia and its aftermath. This course counts towards the fulfillment of the Global Perspectives element of the CLAS general education curriculum.

**HIS 351 Warfare in History 3 Credits**

Studies the evolution of international and intergroup conflict through the ages; principles, theories, and kinds of war; the great military practitioners and thinkers of world history. Briefly touches upon the American experience as a recent segment in world military and cultural history.

**HIS 352 History of Socialism 3 Credits**

Considers the historical development of socialist ideas and their adaptations from ancient times to the present, including ancient and Judaeo-Christian antecedents, Utopian Socialism, Marxism, Anarchism, Communism, and Democratic Socialism, emphasizing the historical comparisons among these schools. This course counts towards the fulfillment of the Global Perspectives element of the CLAS general education curriculum.

**HIS 353 Oral History 3 Credits**

A study of the theory and practice of oral history. Involves an examination of the methodology and functions of oral history, the nature and character of oral evidence, and the place of oral testimony within the historical discipline.

**HIS 398 Special Topics in History 3 Credits**

Advanced exploration of special topics, themes or methodologies in history. This course may be repeated for credit on different topics.

**Prerequisite(s):** Permission of Instructor.

**HIS 460 Research Seminar 3 Credits**

Students produce a major research paper in this topical capstone seminar. Topics and themes vary by instructor. The seminar has a maximum enrollment of 16 students, so professors and students have an opportunity to work together closely over the course of a semester. Students may substitute with HIS 490: Independent Research and Study.

**Prerequisite(s):** HIS 260, and permission of instructor.

**HIS 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours.

**Prerequisite:** Permission of instructor. When taken to substitute for HIS 460, HIS 260 and permission of instructor.

**HIS 491 Internship in History 1-4 Credits**

Internships to be offered each semester with such institutions as the New Jersey State Archives and the David Library of the American Revolution. Four credits may be taken for Category III History credit. Additional credits may be taken for Liberal Arts elective credit.

**Prerequisite:** Permission of internship coordinator.

## Homeland Security (HLS)

**HLS 100 Intro to American Politics 3 Credits**

An examination of basic principles of the U.S. constitutional system; the operation of the democratic process; the organization, powers and procedures of Congress, the presidency and the federal judiciary; and the functions, services, and financing of the national government. Emphasis is on public issues, national priorities, and civil liberties. Note: This course is cross-listed as POL 100. Students may not get credit for both HLS 100 and POL 100.

**HLS 202 The Political System - Theories/Theme 3 Credits**

This course serves as a gateway to the subfields of comparative politics and international relations. The concept of the political system helps political scientists to organize political interrelations into patterns that allow systematic selection and interpretation of information and the study of processes and outcomes of politics in a variety of settings. The course introduces students to the main brands of normative theory prescribing the principles directing the operation of the political system, to some of the most important methods used to compare political systems and/or their components, and to the foremost approaches utilized in the study of the relations between political systems and their environments. Note: This course is cross-listed as POL 202. Students may not get credit for both HLS 202 and POL 202.

**HLS 203 Homeland Security 3 Credits**

The course is designed to help students increase their knowledge and understanding of homeland security policy. The course will consider why and how homeland security problems impact the public agenda, why some solutions are adopted and others rejected, and why some policies appear to succeed while others appear to fail. The course will primarily examine policy making at the national level in the United States, but will also analyze examples at the state and local level, as well as placing U.S. policy in a comparative perspective. Note: This course is cross-listed as POL 203. Students may not get credit for both HLS 203 and POL 203.

**HLS 204 Development and Structure of the US Intelligence Community 3 Credits**

This course provides a historical review of intelligence following World War II. It will examine the major functions of intelligence, as well as intelligence as a part of the foreign policy process: collection, analysis, counterintelligence, and covert action. Students will be introduced to a range of collection procedures: human, open source, electronic, photographic, and signal, with emphasis placed on interpreting and writing intelligence summaries. Note: This course is cross-listed as POL 204. Students may not get credit for both POL 204 and HLS 204.

**HLS 205 Spies, Double Agents, and Moles: The World of Counterintelligence 3 Credits**

This course provides in-depth exposure to historical, open-source investigations and concepts that illustrate the defensive, offensive, investigative, and collection efforts of counterintelligence (CI) activities. This course looks through the ideological and political prisms of how and why the Western and Eastern blocs fought the Cold War with agents, double agents, sleepers, and moles, and how MICE (money, ideology, compromise, and ego) and RASCALS (reciprocation, authority, scarcity, commitment, liking, and social proof) caused thousands to betray their countries and become the 'enemy within'. Counterintelligence (CI) is a critical element of US national security policy and interests both in the United States and abroad, and the course will focus on activities that comprise counterintelligence functional activities, including the detection of espionage and elicitation; counterintelligence interviews/debriefings; and the collection of counterintelligence information.

**Prerequisite(s):** POL 100 or POL 102.

**HLS 219 Terrorism, Revolutions and Political Violence 3 Credits**

Revolutions are the mad inspiration of history." Trotsky's characterization calls attention to three important dimensions of violent political participation: the historical settings, ideology, and emotional fervor of the practitioners. The course focuses on these dimensions by analyzing revolutionary and terrorist movements in the 20th century. Special attention is given to the use of violence in the post-Cold War new world disorder. Note: This course is cross-listed as POL 219 and GLS 219. Students may only get credit for one course: HLS 219, GLS 219 or POL 219.

**HLS 220 Terrorism & Counter Terrorism 3 Credits**

This course introduces students to the arguments about the definition of terrorism, the historical use of terrorism and the roles of ideology, religion, and psychological factors that help explain and predict it. The course seeks to identify the components of national security policy aimed at countering such elements and their cost, both in financial and civil right terms. Finally, to illuminate both the definition and the policies discussed, the course will offer brief comparisons with other states, especially Israel, the UK, and Russia.

**HLS 270 Networking/Telecommunications 3 Credits**

This course provides an introduction to business data communications and networking. The Internet and OSI models are discussed. Network technologies include local area networks, backbone, wide area networks, and the Internet. Introduction to network design, security, and network management are also provided.

**Prerequisite(s):** CIS 185.

**HLS 300 U.S. Constitutional Law 3 Credits**

The role of the Supreme Court in the American political system is assessed. Topics include the staffing and functioning of the Supreme Court and the federal judicial bureaucracy, the origins and development of judicial review, and the role of the Supreme Court in national policy-making. Note: This course is cross-listed as POL 300. Students may not get credit for both HLS 300 and POL 300.

**HLS 301 Civil Liberties in the US 3 Credits**

The American doctrine of civil liberties in theory and practice. Emphasis on analyzing the freedoms of speech, press, assembly, and religion, the right of privacy, and the problem of discrimination in the context of contemporary issues and problems. Particular attention to the role of the Supreme Court in this area. Note: This course is cross-listed as POL 301. Students may not get credit for both HLS 301 and POL 301.

**HLS 304 Political Behavior: Fear, Risk and Crisis 3 Credits**

The course focuses on various analytical approaches in behavioral political science. It does so by advancing students' knowledge of the cognitive aspects of whether citizens engage in various types of political behavior—e.g., voting/non-voting, the formation of political partisanship and ideology, issue perceptions, responding to risk and uncertainty in the political environment, and engaging in civic political participation. Note: This course is cross-listed as POL 304. Students may not get credit for both HLS 304 and POL 304.

**HLS 311 Sovereignty, the State and Borders 2 Credits**

Borders have a prominent place in politics and human history. In the twentieth century, the best known barriers were the militarized Maginot Line and the Iron Curtain. Today, the political popularity of borders persists but the nature and quality of these borders and the threats they are created to repel have changed. Modern borders are designed not to keep militaries out, but to deter a perceived invasion of “undesirables”—with terrorists and unwanted immigrants leading the list of state concerns. Nowhere is this more evident than along the geographic fault lines dividing rich and poor regions, e.g. the Mediterranean Sea and the U.S.-Mexican border region. This course will examine the dynamic interactions between the question of how to govern one's borders and the twenty-first century liberal state with its diluted sovereignty—due to immigration, trade and international laws and regimes. In the first post-Cold War decades it was intellectually fashionable to dismiss borders as increasingly irrelevant to the human experience in the age of globalization. Scholars saw the significance of national borders for the Western world as having been vastly reduced by the three forces of military change, economic development and modern communication technologies (Horsman and Marshall 1994). Some free market liberals have even popularized the notion of an emergent “borderless world” (Ohmae 1990). These cheerful views stressing the benign, pacifying effects of economic integration and interdependence that must lead to a rollback of the state and the erosion of borders, came crashing down on September 11, 2001. After two decades of debordering, the new rules of the game focus on rebordering, and the importance of state with its reassertion of border controls and an ideological redefinition of border functions (Andreas and Snyder 2000). To be sure, borders, with all their practical and formal features, are increasingly just one element in a larger emergent operational sp.

**HLS 314 Congressional Power and National Security Policy 3 Credits**

The purpose of this course is for students to identify, examine, analyze, and interpret the role of Congress in shaping national security policy with a particular emphasis on the institution's role in the Global War on Terror. Particular attention is paid to the role of the US government being able to balance individual rights and liberties within the national security state. Last, the course also takes an in-depth analysis of the U.S. Congress, looking comparatively at how legislatures in other nations have dealt with crafting their own security policies. The course will address the following questions: First, what is the role of Congress in national security policy, what does it do, and why? Second, what are the various ways of studying the relationship between the legislative and executive branches of government in the US system as it relates to the Global War on Terror? Note: This course is cross-listed as POL 314. Students may not get credit for both HLS 314 and POL 314.

**HLS 316 Presidential Power and National Security Policy 3 Credits**

This course examines the development of the National Security State since the Second World War, and the ways in which it has affected, and been affected by, the Federal Executive. Topics to be covered will include the post-World War II redefinition of “national security”, the Cold War (with a special focus upon war powers during Korea and Vietnam) and the changes that have occurred with the “War on Terror.” Note: This course is cross-listed as POL 316. Students may not get credit for both POL 316 and HLS 316.

**HLS 325 Public Administration 3 Credits**

Public administration in modern society, emphasizing the administrative formulation of public policy and its implementation. Attention on who gets what, when, and how from the decisions of administrative units; the role administrators have in policy-making compared to elected legislators, chief executives and judges; the effect administrators have on the benefits citizens receive from government; and the effect administrators have on citizens' behavior. Note: This course is cross-listed as POL 325. Students may not get credit for both HLS 325 and POL 325.

**HLS 346 Liberal Democracy in Times of Stress 3 Credits**

This course explores historic and present day cases, ranging across Europe and the US, in which liberal democratic governments, under stress because of subversion, sabotage, invasion, rebellion, or the effects of economically caused chaos, take on emergency powers to become so-called “states of exception.” While in some cases such states have imposed mild and limited emergency measures, others have employed more draconian measures, suspending, if not dissolving, constitutionally guaranteed civil liberties, often for indeterminate and protracted periods. How various states have behaved in emergency situations will be the major content of this course. Note: This course is cross-listed as POL 346. Students may not get credit for both HLS 346 and POL 346.

**HLS 350 U.S. Foreign Policy and Security Policy 3 Credits**

Principles, institutions, and processes involved in the formulation and implementation of policies regarding the nation's military, economic, and environmental security within the global framework. Strands, trends, and problem areas in U.S. foreign policy, with focus on the changing global environment of the post-Cold War world. Note: This course is cross-listed as POL 350, GLS 350. Students may get credit only once.

**HLS 351 Critical Views of Global Security 3 Credits**

This course will examine the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspective on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (environment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security. Note: This course is cross-listed as HLS 351. Students may not get credit for both HLS 351 and POL 351.

**HLS 361 Courts, Judges and Politics 3 Credits**

In-depth examination of the nature of judicial decision-making and the impact that judicial decisions have on society. Considers the sources of judicial authority, judicial fact-finding, statutory and constitutional interpretation, individual and collective processes of judicial decision-making, relations between judges and other government officials, and the political consequences of judicial decisions with particular emphasis on federal courts and judges. Note: This course is cross-listed as POL 361. Students may not get credit for both POL 361 and HLS 361.

**HLS 363 Human Rights in Global Context 3 Credits**

Examines human rights – droits de l'homme, derechos humanos, Menschenrechte, "the rights of man" – are, literally, the rights that one has because one is human. What does it mean to have a right? How are being human and having rights related? This course provides an introduction to theory and global practice of human rights. Human rights claims play an increasingly central role in political and social struggles across the world. The adoption of the Universal Declaration of Human Rights in 1948 signaled a proliferation of international human rights law and transnational non-governmental activism. While the promotion of human rights has become global, adherence to those standards remains highly uneven and gross violations and atrocities continue to occur. Given the breadth and complexity of the human rights movement, including its engagement with law, politics and morals, in radically different cultures, this course is by its very nature multidisciplinary. Note: This course is cross-listed as POL 363. Students may not get credit for both HLS 363 and POL 363.

**HLS 420 Enterprise Security 3 Credits**

Students will be provided with complete coverage of computer security in all forms including hardware, network, and software program security. Through hands-on labs, students will learn firsthand how enterprise systems can be comprised and how computer professionals can prevent and provide counterattacks for security intrusions.

**Prerequisite(s):** CIS 310 or permission of instructor.

**HLS 491 Internship in NJ Homeland Security 1-4 Credits**

Students work under supervision in a public agency, political party, or public interest group. A minimum of 52 hours of field work per credit required, with regular reports and a concluding critique analyzing and evaluating the experience. Primarily for seniors and qualified juniors. No more than six credits allowed toward graduation.

**Prerequisite(s):** permission of instructor.

**Human Resource Mgt (HRM)****HRM 312 Intro to Labor Relations 3 Credits**

This course deals with the relationship of labor unions and management, the fundamentals of collective bargaining, and labor legislation. The structure and growth of unions as well as the relationships and problems that exist among private and public sector organizations, the labor force, and government are surveyed.

**Prerequisite(s):** MGT 310 or permission of instructor.

**HRM 313 Legal Aspects of Human Res Mgt 3 Credits**

This course deals with the various laws that affect human resource management, including social insurance, legislation, minimum wage laws, OSHA, ERISA, as well as equal employment opportunity legislation. This course is concerned not only with the provisions of these laws, but also with their constitutionality, their effects, and how they are administered.

**Prerequisite(s):** MGT 310 or permission of instructor.

**HRM 315 Employee Selection & Training 3 Credits**

This course explains the processes involved in selecting and training employees. With regards to selection, specific examples include, evaluating applicant credentials, administering pre-employment tests and complying with equal employment opportunity legislation. With regards to training, topics include assessing the need for training, designing effective training programs, utilizing methods such as technology to deliver training, and evaluating the effectiveness of training programs.

**Prerequisite(s):** MGT 310.

**HRM 316 Employee Compensation Systems 3 Credits**

The goal of this course is to familiarize you with the common methods of compensation used by today's organizations and how these methods could be used to increase motivation, job satisfaction, and performance in the workplace. To accomplish this, we will first discuss the bases of motivation in the workplace. Next, we will then talk about the various compensation options and techniques and the strengths and weaknesses of each in maximizing motivation and performance in an organization.

**Prerequisite(s):** MGT 310.

**HRM 333 Employee Engagement 3 Credits**

Employee Engagement is commonly described as a focused passion and enthusiasm that employees bring to their work that produces high-quality performance and positive organizational outcomes such as enhanced firm reputation, customer loyalty, and profitability. In this course, students will explore the concept and value of Employee Engagement, and strategies for energizing an organization's workforce. Projects and activities will focus on the role of the Human Resource function in measuring employee attitudes, designing relevant interventions, and influencing a culture of engagement.

**Prerequisite(s):** MGT 310.

**HRM 441 Sel. Topics: Human Res Mgt 3 Credits**

Deals with one area of study in the field of human resource management such as protective labor legislation, mediation and arbitration, the administration of labor unions, or case problems in human resource management. The topic varies each semester and is announced at the time of registration.

**Prerequisite(s):** MGT 310 or permission of instructor.

**HRM 490 Independent Research and Study 1-4 Credits**

Topic to be approved in advance by supervising instructor, chairperson, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation, and can be used as free elective or HRM major elective.

**Prerequisite(s):** MGT 310 or permission of instructor.

**HRM 491 Internship 1-4 Credits**

Provides the student with the opportunity to supplement and apply human resource management coursework in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing work experiences. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions.

**Prerequisite(s):** Junior or Senior; Major in human resource management and MGT 310; Requires a 2.75 GPA overall and 3.0 GPA in the major and permission of the instructor.

**HRM 492 Internship in Human Res Mgt 3 Credits**

Provides the student with the opportunity to supplement and apply their human resource management classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions. 2.75 GPA overall and 3.0 GPA in the major is required.

**Prerequisite(s):** major in human resource management or management and leadership, and MGT 310; senior status; and permission of instructor.

**Integrated Sciences and Math (ISM)****ISM 100 Introduction to the Integrated Sciences and Math 4 Credits**

Traditional lectures and laboratory experiences are blended to encourage students to begin asking questions and designing experiments to learn about the physical, life, and Earth sciences. This is the entry-level course for the integrated sciences and math major, though it is open to all students who want to actively explore the nature of science. Two three-hour combined lab/lecture sessions per week.

**ISM 410 Seminar in the Integrated Sciences and Math 3 Credits**

As a senior seminar course, class discussion, presentation, and participation will be emphasized. Science topics covered will extend beyond the range of a single science discipline. Students will evaluate articles (from popular science magazines, newspapers, etc.) to discern the connections among various scientific disciplines. Students will present written critiques of the articles focusing on the proper use of the scientific method, data analysis techniques (e.g., statistics, mathematics, etc.), and on the plausibility of the interpretations. Students will also present a semester-long project (both written and oral) that focuses on the connections among disciplines of a scientific issue.

**Prerequisite(s):** ISM 100, senior standing, or permission of instructor.

**Interdisciplinary Studies (IND)****IND 101 Introduction to Education 3 Credits**

High School Partnership introduces high schools students to the teaching profession through four main tenants: growth and development of learners, history, structure, and trends in teaching, classroom instruction, and analysis and reflection. Facilitated by their teacher-mentors (instructors of the course), students will work in small groups to learn about the development and structure of the American education system, explore careers in the teaching profession, analyze ways a teacher's personality, disposition, and cultural competence impact how students learn, and observe, develop, implement, and evaluate lesson plans and teaching strategies. Students will have the opportunity to explore the various joys and challenges of teaching diverse learners in today's classrooms along with an opportunity to examine their own motivations of why they wish to pursue the teaching profession.

**IND 133 Creativity: Edu & Psych Persp 3 Credits**

This course will examine both psychological and educational research about creativity. It will consider the various definitions of creativity that have guided research and theory; compare current theories of creativity in the fields of education and psychology, including cognitive, personality, and motivational theories; review research regarding what has been termed the "dark side" of creativity, including possible links to mental illness; and consider if and how schools and colleges might include creativity in admissions and promote creativity among students.

**IND 200 Study Away 3-17 Credits**

Study Away programs are domestic, off-campus programs that enable students to engage in experiential learning complemented by academic credit-bearing coursework at an accredited institution.

**Prerequisite(s):** 2.5 GPA, sophomore standing or above, and permission of Dean required.

**IND 210 Global Encounters: Special Education Abroad: A Comparative Experience 3 Credits**

This course provides students with an exposure to foreign cultures consisting of both travel and study components. Destinations may include countries in Europe, Latin America, or Asia. While traveling, students will be required to attend lecture/discussion sessions, site tours, and other planned activities. This experience will be preceded and/or followed by additional academic work to be conducted on campus. Study topics may include aspects of the historical, social, economic, political, and aesthetic cultural components appropriate to the location(s) visited. The travel component of the course will be scheduled to avoid conflict with normal semester offerings. A travel fee is required. No foreign language skills are required unless otherwise indicated.

**IND 233 The Development of Children's Imagination 3 Credits**

The Development of Children's Imagination will introduce students to key theories and research in developmental psychology related to the development of children's imaginations. It will focus especially on children's literature and how experiences with fiction in a variety of media influence the development of children's imaginations. Students will be introduced to relevant theory and research from the fields of developmental psychology and children's literature in class meetings at Rider University on weekends during Spring Term and use Disney World as a "laboratory" in which to apply developmental theory in a real-world context soon after Commencement.

**IND 252 Cultural Transition: From China to U.S. 3 Credits**

The primary purpose of this course is to help Sanda students adapting to American culture and college life at Rider. As a sequenced two-semester course, it will introduce students to a number of carefully selected intercultural theories/concepts that best explain major differences between Chinese and American culture and communication. In addition, this course is also designed to help Sanda students improving both oral and written communication in English. During the course, each Sanda student will be paired with a Rider student who takes Chinese language classes his or her study partner. This partnership is meant to be mutually beneficial to both Sanda and Rider students. Through their interaction, they can help each other to learn about their respective target languages and cultures. They will also be assigned a final project, such as a radio show or a presentation at the cultural event on campus, which will illustrate their effective collaboration and their understanding of each other's language and culture.

**IND 300 Supervised Study 1-4 Credits**

Juniors and seniors in good academic standing who, for reasons beyond their control, find that a required course has not been scheduled before they expect to graduate, may receive permission from a faculty sponsor, the chairperson, and the dean to register for a supervised study. Appropriate forms (available in the dean's office) must be completed and approved no later than the last day to add courses for the semester in which the supervised study is to be undertaken.

**IND 316 Nature's Business 3 Credits**

This interdisciplinary, team-taught, experiential learning course brings together various science, liberal arts, and business perspectives in examining the relationships among biological, social, environmental, economic, geological, and political issues. Topics to be discussed and researched by students can include, but are not limited to, ecotourism, sustainable development, biodiversity, local and regional environmental and historical geology, cultural norms, and the legal and political systems of the country being visited. The study tour component of the course provides students with a first-hand opportunity to observe and record field data from settings outside of the United States and in their discipline of interest. Typically, there are approximately 12 hours of pre-trip lectures, seminars, and/or faculty/student presentations during the fall semester, an international study tour, 9-14 days in length, during January (exact dates and length depend on the international location), and approximately three hours of post-trip meetings, seminars, and student presentations during the spring semester. Students enroll in the course during the spring semester. Note: This course is cross-listed as CBA 316; Students may not get credit for both CBA 316 and IND 316. For Business students who take the course as CBA 316, the course will count as a business course. If taken as IND 316, the Business student will receive credit as a liberal arts and science course.

**Prerequisite(s):** Permission of Instructor.

**IND 350 The Rider Shadow Experience 1 Credits**

The primary objective is to open The Rider Shadow Experience to more students. Consistent with the University's focus on engaged learning and career success, the benefits of The Rider Shadow Experience should be available to students earlier in their academic careers. Even more, by involving more students we will be involving more alumni in the program. The alumni serve as both professional mentors and members of the on-line listing from which students choose a host. As hosts, alumni afford the students the opportunity to spend 25 hours of time in a professional setting. It also provides students the opportunity to experience first-hand observational experiences in the professional realm, develop a mentor-mentee relationship with a successful career professional, make connections between classroom curriculum and real-world application and enhance resume building and networking opportunities. IND 350 is a pass/fail course. Must have a GPA of no less than a 3.0.

**Prerequisite(s):** This course is open to students with 45 or more completed credits.

**IND 381 Training Residence Educ I 1 Credits**

The focus of this course will be on the basics duties and skills of the resident advisor position. The skills introduced in this course will be used in their role as a resident advisor and will also enhance their everyday lives. Participation in shared learning experiences will be part of this course.

**IND 382 Training Residence Educ II 1 Credits**

This course builds upon the skills learned in IND 381, providing continued support and training for students to become successful resident advisors or house managers. Students will gain a greater understanding of the RA/HM position through the discussions and written reflection on their job experiences. Out of class readings will be used to reinforce the basic policies and procedures they have learned, as well as emphasizing the types of personal characteristics that will allow one to excel in the position. Participants are exposed to leadership content that deals with concepts such as diversity, teamwork, critical thinking, ethical decision making, and peer leadership.

**IND 383 Training Residence Educ III 1 Credits**

A reinforcement of the skills learned in IND 382 through discussions and written reflections of job experiences. Basic policies, procedures and leadership characteristics will be emphasized. Students will further examine the various concepts of diversity, teamwork, critical thinking, ethical decision making and peer leadership.

**IND 398 The Co-Operative Experience Seminar 3-6 Credits**

This course will typically meet one day per week during the co-operative experience. The seminar is designed to expose participants to appropriate interdisciplinary content, ethical principles, professionalism, group and organizational behavior, interpersonal communication skills, critical thinking and problem solving skills. Students may be assessed on presentations, papers, journals and other measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organizational representative of the placement site, and the student. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. Contact the appropriate department for additional information. Must have a 2.75 GPA at time of registration. Prerequisite(s): junior standing.

**Corequisite(s):** (dept) 399 The Cooperative Experience; IND 398 and (dept) 399 combined cannot exceed 15 credits.

**IND 403 New Literacy for New Learning 3 Credits**

As we consider the 21st century's rapid expansion of information and text it is timely to take a critical view of what literacy means in the 21st century. Many argue that the rapidly evolving use of technology is potentially shifting the ways in which we construct and comprehend information, or is it? In this hybrid (a mix of online and face-face meetings) course, we aim to explore these sometimes competing conceptions of text as we consider what these new literacies mean for our own work as readers and writers across the varied disciplines and social and professional settings in which we engage as well as how we make sense of the information that streams across our bound books, our digital devices, and our visual landscapes. What counts? What doesn't? How do we decide? Is the 21st century digital context in which we are situated shaping literacy differently than before the information explosion?

**IND 490 Independent Study: Research and Creative Expression 3 Credits**

Students who wish to pursue special topics that they have become interested in as a result of course work may take up to 12 semester hours of independent research and study toward graduation. To be eligible for independent research and study, however, a student must be a junior or a senior in good academic standing. Only one project can be scheduled in a semester, and for no more than four semester hours. Each independent research and study proposal must be approved by a faculty sponsor, the department chairperson, and the dean of liberal arts and sciences by no later than the third week of the semester in which the project is to be conducted.

**International Study (INT)****INT 314 Study Abroad 12-18 Credits**

Study Abroad options available to students through Rider study abroad agreements include a wide variety of academic locations and courses. Programs may include opportunities for intensive language study as well as courses in other academic disciplines that may include the local culture, literature, art, music, history, or politics of the site selected for study. Some sites provide courses taught in English. Students may be approved to enroll in Study Abroad for a semester, summer session, or a full year. Additional information is available from the study abroad office. **Prerequisite(s):** 2.5 GPA; sophomore standing or above.

**INT 315 Study Abroad 12-17 Credits**

Study Abroad options available to students through Rider study abroad agreements include a wide variety of academic locations and courses. Programs may include opportunities for intensive language study as well as courses in other academic disciplines that may include the local culture, literature, art, music, history, or politics of the site selected for study. Some sites provide courses taught in English. Students may be approved to enroll in Study Abroad for a semester, summer session, or a full year. Additional information is available from the study abroad office. **Prerequisite(s):** 2.5 GPA; sophomore standing or above.

**INT 316 Study Abroad 1-14 Credits**

Study Abroad options available to students through Rider study abroad agreements include a wide variety of academic locations and courses. Programs may include opportunities for intensive language study as well as courses in other academic disciplines that may include the local culture, literature, art, music, history, or politics of the site selected for study. Some sites provide courses taught in English. Students may be approved to enroll in Study Abroad for a semester, summer session, or a full year. Additional information is available from the study abroad office. **Prerequisite(s):** 2.5 GPA; sophomore standing or above.

**Latin American and Caribbean (LAC)****LAC 420 From Colonies to Nations 3 Credits**

This course consists of a panoramic survey of Colonial and Post-Colonial Latin American literature in light of the unique social, cultural and political history from the pre-Columbian to the Independence period (1825). The approach brings together vivid accounts of places and events, speeches, profiles, oral histories, excerpts from a wide range of literature, policy papers, and other readings. The analysis and discussion of selected literary works and representative films will show how Latin American and Caribbean artistic and creative endeavors express the social, cultural and political context of the Americas. Videos and films will provide the sights and sounds of this vast and vital region. Note: This course is cross-listed as LAC 420. Students may not get credit for both SPA 420 and LAC 420.

**Prerequisite(s):** SPA 201, or placement test at 300-level or above or SPA 300 or above.

**Law and Justice (LAW)****LAW 140 Intro Seminar in Law & Justice 3 Credits**

Introduces students to the interdisciplinary study of law and justice. The seminar is designed to enable students to think critically about legal issues, address legal problems from various viewpoints, and apply different types of theories of justice to analyze laws and legal institutions. Students will learn to examine law and legal issues from a variety of perspectives and approaches: anthropological, historical, literary, philosophical, political, psychological, and sociological. Open to freshmen and sophomores only.

**LAW 150 Introduction to Forensics 3 Credits**

Introduces students to principles of forensic science. Whether the issue is establishing paternity or cause of death, determining arson or liability, or deciding criminal guilt or innocence, collecting and evaluating forensic material is typically involved. Students will learn the meaning and significance of scientific evidence and its role in criminal investigations and civil and criminal trials. Students will learn how forensic scientists work, define a problem, collect data, and analyze results. Case studies, crime simulations and examination of criminal evidence will highlight the application of scientific principles.

**LAW 204 Law, Literature, and Film in America 3 Credits**

Focuses in an interdisciplinary manner on law and justice as represented in American literature and films. It analyzes novels, short stories, and selected non-fiction texts from the perspectives of literary criticism, social history, and cultural and American studies.

**LAW 207 Criminal Justice Practice 3 Credits**

This course explores the work and work settings of criminal justice practitioners and the work culture and organizational structure of various criminal justice agencies. Through case studies and projects students will examine types of and occupations related to criminal justice, assess new directions in these occupations, the effects of current laws and social policies on criminal justice careers, and consider the impact of social, economic, and technological changes on criminal justice agencies and practitioners.

**LAW 210 Criminal Investigation 3 Credits**

Approaches criminal investigation conceptually. Students consider the social issues involved in criminal investigation, as well as ethical and legal aspects of it. The course covers such topics such as the principles of criminal investigations, the rules and procedures of preliminary and follow-up investigations, the art of interrogation, recording of statements, confessions, and the collection and preservation of physical evidence at the crime scene. Emphasis is placed on the need for meticulous adherence to rules of law and ethical practices, as an investigation proceeds from initial actions to arrest, and eventual prosecution. The course also examines the methods used in scientific interpretation of evidence and the preparation of criminal cases for trials, as well as its role in today's criminal justice system.

**Prerequisite(s):** LAW 150.

**LAW 302 Crime & Justice in the Media 3 Credits**

This course focuses on the impact of media on Americans' perceptions and understanding of the extent and causes of crime, and the effectiveness and purposes of crime policy. It examines how criminals, types of crime, crime policies and the criminal justice system are portrayed in various media outlets, including film, tv, newspaper, and electronic/internet. It explores the historical and contemporary relationships between media representations of criminal behavior, crime as a social problem, and the nature of the criminal justice system and contrasts these to their social realities.

**LAW 304 Women and Law 3 Credits**

Explores the social, economic, political and cultural context of laws relating to women and gender, such as workplace discrimination, divorce and child custody and reproductive rights. It examines how such laws have changed historically and the impact such laws have had on women as well as on men and on American social institutions, such as the family, politics, and the workplace. The course also examines women in the legal profession and their impact on the practice of law and legal reasoning.

**LAW 305 Trial Advocacy 3 Credits**

Students will apply fundamental legal concepts and rules of evidence to specific cases. By engaging in trial simulations, students will evaluate various forms of evidence, identify legal principles and evidentiary rules that impact a criminal trial, learn about trial procedures, pursuit of case theories, and witness, exhibit and jury selection.

**LAW 307 Criminal Justice Practice 3 Credits**

This course will consider the ways criminal justice agencies and occupations are shaped by social, economic, political, technological and legal changes. Through case studies and projects students will examine the work, culture, and work settings of various criminal justice practitioners, assess the impact of social policies on criminal justice careers, and identify new directions in the field. Students will develop the reading and writing skills needed by an array of criminal justice practitioners.

**LAW 308 Conflict & Conflict Resolution 3 Credits**

Focuses on understanding the meaning of conflict and strategies for its resolution. The course examines the ways conflict functions in various social contexts including professional, community, family, education, and international relations. Traditional models of adjudication will be compared to alternative forms of dispute resolution. Students will be introduced to research on the practice and effectiveness of various forms of conflict and conflict resolution. Students will participate in various class exercises, including role-plays, simulations, and case studies.

**LAW 310 Cyberspace Law and Policy 3 Credits**

Explores the legal and policy concerns raised by the Internet, nationally and globally. The course considers issues of legal regulation of the Internet, and consider the debate about whether cyberspace can or should be regulated. Attention will be given to the applicability of principles of law and models of regulation. Topics addressed will include jurisdiction, freedom of expression, intellectual property, privacy protection, safety concerns, equal access, electronic commerce, and computer crime.

**LAW 355 Sports and the Law 3 Credits**

Examines the legal, ethical, economic, social and managerial issues related to sports. Topics include liability issues, contracts, employment discrimination, antitrust law, and constitutional law. Note: This course is cross-listed as SPT 355. Students may not get credit for both LAW 355 and SPT 355.

**LAW 365 The Rights of the Accused 3 Credits**

Analyzes the major substantive and procedural rights accorded to the criminally accused by the United States Constitution. Particular attention will be given to the right to counsel, confessions and self-incrimination, arrest, search and seizure. Students will learn to argue and write hypothetical case opinions.

**LAW 395 Selected Topics in Law/Justice 3 Credits**

Studies specialized areas of scholarship related to laws, legal institutions, legal or law-related occupations, and/or legal decision making. The course will provide an interdisciplinary examination of a selected topic. Topics vary and are listed in the course roster.

**LAW 401 Hate Crimes in the United States 3 Credits**

Provides an interdisciplinary exploration of hate crimes in the United States, its causes and consequences. It will examine the social, political, and legal issues that have shaped policies and laws designed to respond to hate crimes and assess their effectiveness. Debates about the nature of hate crimes and the special laws and sentencing provisions developed to deal with them will be discussed. Topics include hate crimes on college campuses, hate on the Internet, legal and constitutional issues, and criminal justice enforcement.

**LAW 405 Crime & Justice in the Media 3 Credits**

This course focuses on the impact of media on Americans' perceptions and understanding of the extent and causes of crime, and the effectiveness and purposes of crime policy. It examines how criminals, types of crime, crime policies and the criminal justice system are portrayed in various media outlets, including film, tv, newspaper, and electronic/internet. It explores the historical and contemporary relationships between media representations of criminal behavior, crime as a social problem, and the nature of the criminal justice system and contrasts these to their social realities.

**LAW 450 Law & Justice Senior Seminar 3 Credits**

Draws on and develops students' knowledge and understanding of law and legal institutions and applies it to a specific legal topic, method, institution, or controversy. Topics will vary. Students explore the social, political, ethical, and economic issues relevant to the topic. Students will be expected to contribute to seminar discussions and to complete projects related to the seminar theme. Required for seniors in law and justice minor and open to others by permission of the Director of the Law and Justice Program.

**LAW 460 Criminal Justice Senior Seminar 3 Credits**

Draws on and develops students' knowledge and understanding of crime, criminal law and criminal justice institutions, and applies these to a specific topic, method, institution, or controversy. Topics vary. Students will be expected to contribute to seminar discussions and to complete research projects related to the seminar theme. Required for criminal justice majors seniors; open to others only by permission of the director of the Law and Justice Program.

**LAW 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**LAW 491 Internship in Law and Justice 1-4 Credits**

Provides supervised work experience in an institution, office, or agency related to law or law enforcement, such as courts, prosecutor/defense attorney offices, private law offices, state agencies, and local police departments. Students are expected to apply and broaden the knowledge obtained from law and justice minor courses to their fieldwork experience.

**Prerequisite(s):** 2.75 GPA and permission of the Director of the Law and Justice program.

**LAW 496 Honors Thesis in Law & Justice 3-6 Credits**

Entails substantial research and writing on a topic selected by the student. Proposals must be reviewed and approved by the law and justice program committee. Proposals must be submitted at least four weeks prior to course registration.

**Prerequisite(s):** Seniors in the minor with a minimum cumulative GPA of 3.25 and a 3.25 GPA in law and justice minor courses.

**Leadership Development Program (LDP)****LDP 200 Foundations of Leadership 3 Credits**

This course provides students with a working model of leadership to guide their personal leadership development. It also exposes students to insights about leadership from respected commentators, scholars, and practitioners. Finally, it provides students with an opportunity to actively "do" leadership through experiential learning activities.

**LDP 220 Service Learning Through Minding Our Bus 3 Credits**

A community service mentoring project designed to promote leadership, teamwork, and entrepreneurship among Trenton youth through a school-based team mentoring model. Students will undergo intensive training in leadership skills, communication skills, team building skills, cultural diversity, small business entrepreneurship, and problems of early adolescent development prior to their fieldwork experience. Students will form teams to mentor groups of students at a Trenton middle-school in the creation and management of their own microbusinesses. Student journals, quizzes, field trips and class meetings will serve to organize and structure experiential learning.

**Prerequisite(s):** permission of instructor.

**LDP 398 The Co-op Experience Seminar 3-6 Credits**

This course will typically meet one day per week during the co-operative experience. The seminar is designed to expose participants to appropriate interdisciplinary content, ethical principles, professionalism, group and organizational behavior, interpersonal communication skills, critical thinking, and problem solving skills. Students may be assessed on presentations, papers, journals and other measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organizational representative of the placement site, and the student. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. Contact the appropriate department for additional information. Prerequisite(s): junior standing and 2.75 GPA at time of registration.

**Corequisite(s):** (dept) 399 The Co-operative Experience; LDP 398 and (dept) 399 combined cannot exceed 15 credits.

**Liberal Studies (LIB)****LIB 200 Intro to Liberal Studies 3 Credits**

Introduces students to the various perspectives and methods of the disciplines in liberal studies: natural and social sciences, humanities, and the arts. Students learn the multifaceted questions and answers offered by each discipline. They study the historical development of the university and the rise and transformation of liberal studies disciplines.

**LIB 400 Seminar in Liberal Studies 3 Credits**

A critical examination of the tradition of Western humanism and the way it has been transmitted through liberal arts education. Deals with a variable set of permanent problems in humanistic debate and learning e.g., specialization, the need for unifying theories of knowledge, the purpose of history, the place of intellectual life in mass society, the meaning of freedom, the modern problem of alienation, the responsibilities of the university, etc. Emphasis on why and how such problems have been addressed rather than any presumptive solutions.

**LIB 490 Independent & Supervised Study 1-4 Credits**

Independent and Supervised Study is available to CCS students for special study projects. Students must have completed a minimum of 45 credits applicable to a Rider degree and a minimum of 12 credit hours at Rider with a GPA of 2.5 or better. Each project may be taken for one-four credits and a maximum of six credits may be applied to the associate degree, 12 credits to the bachelor degree.

**Management Science (MSD)****MSD 104 Intro to Quantitative Methods 3 Credits**

The aim of this course is to give students the preparation in algebra needed for successful completion of other required courses in management sciences and the functional areas of business administration. Topics covered include linear and quadratic equations and functions, systems of linear equations, exponential functions, logarithms, linear inequalities, radicals, percent change, scientific notation and scientific digits.

**MSD 105 Quantitative Methods for Business 3 Credits**

The aim of this introductory course is to acquaint students with a number of basic mathematical techniques that will enhance their ability to become effective decision-makers in a realistic business environment. Topics covered include linear equations and inequalities, linear programming, summation notation, geometric series, counting techniques, event probability and discrete random variables. Where appropriate, these tools will be illustrated with examples chosen from business settings.

**Prerequisite(s):** MSD 104 or a passing grade on the Math Placement Exam.

**MSD 110 Math for Actuarial Science I 3 Credits**

The first of two courses designed to give the actuarial science student the necessary background in calculus. Topics include a brief review of a function, and introduces limits and continuity, the derivative and its applications, implicit differentiation, differentiating an inverse function, differentials, related rates, curve sketching, optimization problems, L'Hopital's rule, and an introduction to the indefinite integral. Fall.

**MSD 111 Math for Actuarial Science II 3 Credits**

A continuation of MSD 110. Topics include the definite integral and the fundamental theorem of calculus, change-of-variable theorems, the area between two graphs, integration by parts, improper integrals, infinite series, partial differentiation of a function of two variables and its optimization applications, and the double integral of a function of two variables.

**MSD 200 Statistical Methods I 3 Credits**

This course is designed to give the student an understanding of continuous random variables, the elements of statistical inference, and an introduction to how these tools may be useful in one's attempt to reach intelligent conclusions in real-world settings. The focus is on the normal random variable, descriptive statistics, sampling distributions, and the frameworks of estimation and hypothesis testing, particularly as they apply to inference for unknown population means and proportions in the one- and two-sample settings.

**Prerequisite(s):** MSD 105 or equivalent.

**MSD 201 Statistical Methods II 3 Credits**

The sequel to Statistical Methods I is designed to prepare the student to be able to recognize a variety of additional common inferential scenarios, select and apply appropriate techniques in their analyses, and be aware of the usefulness of computer packages in performing certain relatively complicated statistical calculations. The course covers the one-way analysis of variance, Chi-square tests for non parametric inferences, and regression analysis. Students are expected to submit, for evaluation, the analysis of a real-world data set.

**Prerequisite(s):** MSD 200.

**MSD 320 Statistics for Risk Modeling I 3 Credits**

This is the first course in a two course sequence to prepare actuarial science students for the Society of Actuaries' (SOA) new exam "Statistics for Risk Modeling." This course (SRM I), together with the second course of the sequence SRM II, cover all the topics in the SOA's proposed syllabus for the exam. The course covers two major topics: (i) Generalized Linear Models, and (ii) Regression-based time series models and forecasting.

**Prerequisite(s):** MSD 201 or MTH 341.

**MSD 325 Statistics for Risk Modeling II 3 Credits**

This course examines the use of applied linear statistical models to adequately describe practical relationships in business and economics. The implementation of a popular statistical computing package to analyze realistic data sets is an important component of the course. Topics include simple and multiple linear regression, model diagnostics and remedial measures, and the analysis of variance.

**Prerequisite(s):** MSD 201 or MTH 341.

**MSD 340 Production and Operations 3 Credits**

This course introduces the concepts and techniques of designing and managing manufacturing and service systems and their operations effectively and efficiently. Major topics include product and process design, facility location, forecasting, aggregate planning, inventory management, supply chain management, project management, just-in-time systems, quality assurance, linear programming, and the transportation problem. Current issues such as productivity, global competitiveness, and quality are also discussed.

**Prerequisite(s):** MSD 105 or MSD 110, MSD 200 or MTH 340, MSD 201 or MTH 341.

**MSD 350 Financial Mathematics 3 Credits**

A thorough treatment of the theory and applications of compound interest. Topics include the measurement of interest, elementary and general annuities, amortization schedules and sinking funds, and bonds and other securities.

**Prerequisite:** MSD 201 or equivalent.

**MSD 490 Independent Research and Study 3 Credits**

Topic to be approved by professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

**MSD 491 Summer Mgt Sciences Internship 3 Credits**

An honors course that provides the student with approximately two months of supervised employment with participating companies. Students are given a variety of work experiences. They are required to complete a term paper and to make an oral presentation to the faculty. Grading is on a pass/fail basis.

**Prerequisite(s):** Permission of instructor.

## Management and Leadership (MGT)

**MGT 201 Fund Management & Org Behavior 3 Credits**

This course deals with the fundamentals of organizational behavior as they relate to management such as motivation, communications, and leadership. Behavior is examined at the individual, group, and organizational level. The management functions of planning, organizing, leading and controlling are addressed. The effects of global operations and the requirements of ethical behavior on managers are also explored.

**Prerequisite(s):** minimum 30 credits completed.

**MGT 310 Intro to Human Resource Mgmt 3 Credits**

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

**Prerequisite(s):** MGT 201 or PSY 210.

**MGT 320 Managing Workforce Diversity 3 Credits**

Demographic shifts, changing patterns of labor force participation, global competition, and a growing cultural emphasis on the celebration of difference have all contributed to the creation of diversity as a hot topic in management. This course explores the opportunities and challenges of the increasingly diverse workforce emerging in the United States today. We will address the knowledge and skills managers must develop in working with others who are different from themselves. Some of these differences are obvious- gender, race, age, and physical characteristics. Other differences are not as easily observed - family structure, educational level, social class, and sexual orientation. This class incorporates experiential learning techniques for personal growth.

**Prerequisite(s):** MGT 201 or PSY 210.

**MGT 329 Research Methods in Organizational Psychology 4 Credits**

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

**MGT 329L Research Methods: Org Psy Lab 0 Credits**

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

**MGT 336 Career Management 3 Credits**

How careers are shaped by individual needs and experience and assisted by organization systems and practices is the focus of this course. The meaning of work and the development of careers are discussed, and students undertake self-assessment for the purpose of career planning. Careers are examined in the context of important changes occurring today in the world of work. The impact of the executive, organizational counselors and trainers, and the educational system upon the development of human potential is examined, along with the techniques for human resource planning and development.

**Prerequisite(s):** MGT 201 or permission of instructor.

**MGT 346 Negotiation 3 Credits**

The purpose of this course is first, to explore the major concepts and theories behind effective negotiating practices and second, to develop negotiating skills applicable to a wide range of contexts. A knowledge of negotiation is a crucial requirement for anyone interested in a business career since it is a common mechanism for implementing change and for resolving conflict in the workplace. Topics will include two-party negotiations, power and politics, mediation, arbitration, and collective bargaining. A variety of teaching techniques will be used including readings, discussion, and role-playing.

**Prerequisite(s):** MGT 201 or permission of the instructor.

**MGT 355 Team Management 3 Credits**

This course prepares students to work in organizations that use teams as an integral part of their functioning-an increasingly common practice. The class involves intensive group interaction, focusing on individual growth in group settings. Working with other students in role-plays, exercises, and team assignments allows the student to develop better communication and leadership skills.

**Prerequisite(s):** MGT 201 or PSY 210.

**MGT 363 Management Skills 3 Credits**

The focus of this course is on specific skills necessary for success in a management role. These skills include leading, communicating effectively, delegating, conflict and time management and motivating others. Students will have opportunities to practice skills and to apply their knowledge to business cases.

**Prerequisite(s):** MGT 201 or permission of instructor.

**MGT 375 International Management 3 Credits**

This course explores the ways in which culture impacts management practices and organizational behavior and dynamics. Topics include cross cultural communication, expatriate selection and training, leading and motivating cross cultural teams, developing organizational strategies to compete in a global market place, international business ethics, and current topics.

**Prerequisite(s):** MGT 201.

**MGT 410 Ethical Management 3 Credits**

Managers today face a broad range of ethically challenging situations. This course will help students to confront and analyze ethical dilemmas effectively in the workplace. Cases, simulations, hands-on content will engage students with the material, and will generate robust class discussion.

**Prerequisite(s):** Completion of MGT 201 and Leadership Requirement course.

**MGT 421 Sel Topics:Mgt & Organztn Behv 3 Credits**

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

**Prerequisite(s):** MGT 201 or permission of instructor.

**MGT 450 Advanced Leadership 3 Credits**

Leadership is the ability to influence a group of people towards a goal. In this course, students will increase their own leadership capacities so that they can become effective leaders of organizations and teams. They will integrate what they have learned from their experience and other coursework with diverse reading and writing assignments and team projects as they explore complex leadership issues related to vision, communication, motivation, ethics, team dynamics, power, and change management.

**Prerequisite(s):** MGT 201; Leadership elective (LDP 200, LDP 220, LDP 398, MGT 355, MGT 363).

**MGT 490 Independent Research and Study 1-4 Credits**

Topic to be approved in advance by supervising instructor, chairperson, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation, and can be used as free elective or MGT major elective.

**Prerequisite(s):** MGT 201 or permission of instructor.

**MGT 491 Intern Management/Org Behavior 3 Credits**

Provides the student with the opportunity to supplement and apply their management and leadership classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions.

**Prerequisite(s):** major in management and leadership or human resource management and MGT 363, or senior status; Requires a 2.75 GPA overall and 3.0 GPA in the major and permission of the instructor.

**Marine Sciences (MAR)****MAR 120 Oceanography 3 Credits**

In this course, students will investigate the geological, chemical, physical, and biological processes that shape the ocean. Emphasis will be placed on how these processes interact with each other and with human populations. These interactions influence important global phenomena that impact all our lives, including weather and climate, the distribution of marine organisms and other natural resources, and coastal processes. Understanding these phenomena will enable students to make more informed decisions and contribute to serious global marine issues. Students will learn through a combination of hands-on exercises designed to foster a deeper understanding of the scientific content as well as the scientific process, practical experiences with real data, readings, and some lectures. CLAS general education areas addressed: DP & GP.

**MAR 121 Introductory Oceanography Lab 1 Credits**

This lab course introduces students to the fundamental aspects of geological, chemical, physical and biological oceanography. Students learn through inquiry-based, hands-on exercises and activities using actual data collected in the lab and in the field. Independent projects and local field trips during lab and on weekends may be required. One three-hour lab per week. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Corequisite(s):** MAR 120 or GLS 120 or as prerequisite(s).

**MAR 210 Marine Life through Time 4 Credits**

Survey of the important developments in marine life over the last three billion years from the Pre-Cambrian evolution of one-celled organisms, through the Cambrian explosion of complex marine invertebrate life and subsequent diversification of backboned organisms in the Ordovician time, to the colonization of marginal marine and freshwater habitats in the Silurian-Devonian geological periods, and ultimately to extinctions during global crises of the late Devonian, Permian, Triassic, Cretaceous, and Pleistocene time intervals. The emphasis is on evolutionary adaptive breakthroughs within each phylum, particularly the significant morphological and anatomical innovations, and the subsequent radiation of these higher taxa into new habitats and niches through geologic time. Three hours of lecture and one three-hour lab per week.

**Prerequisite(s):** GEO 100 & GEO 102; or GEO 113 & GEO 102 (can be signed in to take 102 with 113); or BIO 115; or BIO 116; or permission of instructor.

**MAR 210L Marine Life through Time Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course. Corequisite(s): MAR 210.

**Prerequisite(s):** GEO 100 & GEO 102; or GEO 113 & GEO 102 (can be signed in to take 102 with 113); or BIO 115; or BIO 116; or permission of instructor.

**MAR 290 Directed Research and Study in Marine Sciences 1-4 Credits**

Provides an opportunity for freshman and sophomore students to gain hands-on research experience in the marine sciences. This is an individual program of study and each student will work with a selected faculty member on a topic of mutual interest. The course consists of a combination of project meetings, supervised research, and guided readings. The focus will be on formulating research questions, designing and conducting experiments, collecting the necessary data, reviewing the scientific literature as it relates to each student's research topic in a weekly meetings with the instructor, and communicating the findings by writing a final project report.

**MAR 300 Introduction to Field Marine Science 4 Credits**

In this two-week field course, students will explore various topics in marine science through practical, hands-on, inquiry-based exercises and activities. The course will focus on the biological, geological, chemical, and physical processes that influence diverse marine flora and fauna found in selected marine environments, emphasizing shallow subtidal and intertidal environments such as coral reefs, sandy beaches, turtle grass beds, rocky intertidal pools, coastal wetlands, mangrove swamps, etc. Topics will be examined using field team exercises, a group mapping project, and individual research projects. Activities will help students develop their skills in research, use of field and laboratory equipment, computer analysis of data, and scientific writing, along with gaining content knowledge about the components and processes of environments studied. The course is taught at an appropriate marine field station at a U.S. or international location. Field portion of course is completed during the summer. Additional travel costs vary, depending on location.

**Prerequisite(s):** BIO 115 or 116 or any 200 or higher level lab science class; and MAR 120; and permission of instructor.

**MAR 325 Marine Vertebrates 4 Credits**

A survey of the biology of marine vertebrate animals, including fish (jawless fish, sharks, rays, and bony fish), reptiles (sea turtles and sea snakes), sea birds, and mammals (manatees, seals, and whales). The evolution, physiology, natural history, ecological relationships, and human interactions of these groups are emphasized. Three hours of lecture and one three-hour lab per week. Field trips may be required. Prerequisite(s): BIO 272 and BIO 272L.

**Corequisite(s):** MAR 325L.

**MAR 325L Marine Vertebrates Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** MAR 325.

**MAR 330 Chemical Oceanography 4 Credits**

Introduction to the chemical aspects of the oceans and their influence on marine ecosystems and Earth processes. Emphasis is placed on chemical and physical properties of seawater, atmosphere-ocean interactions, biogeochemical cycles with marine components, production and destruction of marine organic matter, chemical ecology, and marine pollution. During the lab portion of this course, students gain hands-on experience in analyzing ocean water samples, experimental design, and interpreting marine chemical data. Three hours of lecture and one three-hour lab per week. Weekend field trips and independent projects may be required. Prerequisite(s): CHE 120, CHE 121, MAR 120, and MAR 121; or permission of instructor.

**Corequisite(s):** MAR 330L.

**MAR 330L Chemical Oceanography Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** MAR 330.

**MAR 340 Marine Processes and Environments: Seminar 3 Credits**

This course is designed as a seminar course. Therefore, students will learn to lead class discussions, to analyze and critique peer-reviewed journal articles, and to enhance their presentation skills. Students will interpret graphical, spatial, and numerical data to support their positions. Content will emphasize the interactions among marine processes, biological features, and geologic landforms.

**Prerequisite(s):** MAR 120 or GEO 100; GEO 306.

**MAR 360 Plankton Ecology 4 Credits**

Examines the diversity, physiology, and ecology of marine phytoplankton and zooplankton. Students will survey the dominant plankton groups, their distribution, nutritional requirements, growth kinetics, and behavior. Planktonic predator/prey interactions and food web dynamics will be discussed. Students will also examine the interdisciplinary nature and role of plankton in biogeochemical cycles. Three hours of lecture and one three-hour lab per week. Weekend field trips may be required.

**Prerequisite(s):** MAR 120 and MAR 121; or BIO 116.

**Corequisite(s):** MAR 360L.

**MAR 360L Plankton Ecology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** MAR 360.

**MAR 380 The Learning and Teaching of Marine Science 4 Credits**

This field-based course provides a practical experience in integrating marine science with pedagogical concepts. Students will use scientific methodology to explain marine ecosystems through specially designed, inquiry-based exercises. During these activities, students will address the process of applying college-level content to their own classroom settings, considering national and state standards. Hands-on, field-based exercises will provide experience with a diversity of marine habitats and the biological, geological, hydrological, and physical processes that influence them. Visited habitats can include rocky intertidal, salt marsh, tidal flat, beach and channel sand bars. As a result, students will develop field and laboratory skills in marine science and use them in designing materials for their own classroom use.

**MAR 401 Marine Ecology 4 Credits**

The purpose of this course is to introduce students to fundamental principles in ecology, as it relates to marine systems. Topics include the marine environment and its influence on the organisms living there; biodiversity and speciation; factors regulating population dynamics in marine systems; larval and fisheries ecology; species interactions such as predation, competition, and symbiosis; factors regulating productivity and energy flow in marine systems; and marine conservation. Hands-on laboratory exercises will provide students with the opportunity to design and conduct experiments related to marine ecology, and to collect, analyze, and interpret data from those experiments. Ecosystem modeling will also be introduced. Three hours of lecture and one three-hour lab per week. Weekend field trips may be introduced. Prerequisite(s): BIO 272, BIO 272L.

**Corequisite(s):** MAR 401L.

**MAR 401L Marine Ecology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** MAR 401.

**MAR 410 Physical Oceanography 3 Credits**

Introduction to the physical aspects and processes of the oceans and their influence on marine ecosystems and Earth processes. Topics include distribution of salinity and water temperature and their effect on water movement, the oceanic heat budget, atmospheric and oceanic interactions, ocean currents including surface and deep water circulation, waves, tides, and medium- to small-scale circulation features. Throughout the course, emphasis is placed on how these physical processes affect the biology and chemistry of the ocean. Three hours of lecture per week. Weekend field trips may be required.

**Prerequisite(s):** MAR 120.

**MAR 480 Senior Thesis 3 Credits**

A senior thesis is optional for marine sciences majors. However, a senior thesis is required for eligibility to graduate with honors in marine sciences. The topic for investigation will be chosen by the student in consultation with the faculty of the Department of Geological, Environmental, and Marine Sciences. The student must initiate consideration of a proposal to the Department. The proposal must contain a discussion of the proposed project and a timetable to be followed in the study. A departmental committee consisting of a major and minor advisor will evaluate the written paper submitted at the conclusion of the study or other approved venue. An oral presentation before the department at the conclusion of the semester in which the study is completed is required. Proposals must be submitted in final form no later than the end of the ninth week of the semester prior to the semester in which the study is undertaken.

**Prerequisite(s):** senior standing in the marine sciences major and permission of department chair.

**MAR 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**MAR 491 Internship in Marine Sciences 1-4 Credits**

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placements may be in private, public, non-profit, or governmental organizations. These can include consulting firms, regulatory agencies, advocacy groups, and educational or research institutions. Normally, 50 hours of internship per credit is required. A mutually agreed upon method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and could include a term paper or project report and a poster presentation.

**Prerequisite(s):** 2.5 GPA and permission of instructor.

**Marketing (MKT)****MKT 200 Marketing Principles 3 Credits**

This course examines market characteristics, consumer buying habits and motives, and functions of marketing within the framework of the strategic marketing planning process. Concepts and current practices in product development, pricing, promotion, distribution, and international marketing are studied.

**MKT 205 Advertising Principles 3 Credits**

Basic theory, functions, principles, and applications of advertising are the focus of this course. The relation of advertising to our economy, the advertising department and the ad agency, selection of media, advertising practices, and the use of research to improve advertising techniques are covered.

**Prerequisite:** MKT 200. Required for advertising majors.

**MKT 250 Retailing Management 3 Credits**

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

**Prerequisite(s):** MKT 200.

**MKT 260 Service Marketing 3 Credits**

Focuses on the unique challenges of managing services and delivering quality service to customers. Emphasis is placed on the total organization, and how effective marketing and customer focus must be coordinated across multiple functions. The course is applicable to service organizations and to organizations that depend on service excellence for competitive advantage. Topics include customer-focused management, and customer satisfaction, retention, lifetime value and profitability. Students will learn to map services, understand customer expectations, and develop relationship marketing strategies.

**Prerequisite(s):** MKT 200.

**MKT 280 Sports Marketing 3 Credits**

The course focuses on the unique challenges of marketing sports at a variety of levels: youth, college, professional, and international. The challenges of attracting and retaining fans and participants as well as of building and maintaining strong brand identity are at the heart of the course content. By evaluating case studies and examining current issues in sports marketing, students will gain an understanding of what it means to be a professional marketer of a sports organization and/or event.

**Prerequisite(s):** MKT 200.

**MKT 310 Business to Business Marketing 3 Credits**

This course examines the business-to-business marketplace, and the planning and control tools used by its entities in managing the product, pricing, promotion, channel and supply chain management strategies.

**Prerequisite(s):** MKT 200.

**MKT 320 Consumer Behavior 3 Credits**

The nature and determinants of consumer behavior are studied, with attention given to the influence of socio-psychological factors such as personality, small groups, demographic variables, social class, and culture on the formation of consumer attitudes, consumption patterns, and purchasing behavior.

**Prerequisite(s):** MKT 200; Required for advertising majors.

**MKT 330 International Marketing 3 Credits**

This course examines the global marketplace and the complexities of its environmental influences, and necessary adaptations in formulating the strategies for product, pricing, promotion, channel and supply chain management.

**Prerequisite(s):** MKT 200.

**MKT 340 Personal Selling 3 Credits**

Examines persuasive techniques utilized in sales presentations conducted on a person-to-person basis. Major course emphasis is on developing effective selling techniques; understanding the company, its products and the role of the salesperson in implementing product/market strategies; understanding the customers and the selling environment; application of effective sales presentation techniques; recognizing selling opportunities and careers.

**Prerequisite(s):** MKT 200.

**MKT 345 Customer Focus 3 Credits**

Marketing supply chain management programs are concerned with the creation and delivery of value to customer and organizations. No longer simply the domain of the warehouse manager or logistics director, supply chain management is viewed by most companies as a mission-critical element. Marketing focuses on developing an understanding of customers and markets, creating products and services based on that understanding, and communicating and delivering the value added. This course will teach the student the essential role of marketing in all aspects of successful supply chain management - relationship management, technological and financial - and it will help the student understand the structure, functions, principles and methods employed in discovering and translating consumer needs and wants into product and service specifications and then transferring these goods and services from producers to consumers or end users.

**Prerequisite(s):** MKT 200 and GSC 115 or permission of instructor.

**MKT 350 Retailing Management 3 Credits**

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

**Prerequisite(s):** MKT 200.

**MKT 366 Marketing Research 3 Credits**

Topics include specific research procedures in gathering, processing, analyzing, and presenting information relevant to marketing problems: advertising planning and effectiveness; product development; distribution channels; sales techniques; consumer behavior; and forecasting. Student learning about research planning, implementation, and interpretation is facilitated by the use of projects or cases.

**Prerequisite(s):** MKT 200; MSD 200, MSD 201; junior standing; Required for marketing and advertising majors.

**MKT 367 Marketing Web Analytics 3 Credits**

This course teaches web analytics through practical applications with a focus on deriving actionable insights. It provides a broad overview of key web analytics strategies, concepts, issues, challenges and tools. Topics covered include: • How to choose a web analytics tool • Metrics and key performance indicators • Best ways to analyze effectiveness of blogs, marketing campaigns, SEO, SEM and emails • How to utilize quantitative, qualitative and competitive tools to derive actionable insights • How to optimize web sites by incorporating testing and experimentation • Analytics in social, mobile and video • Best practices and pitfalls in web analytics

**Prerequisite(s):** MKT 200.

**MKT 369 International Advertising 3 Credits**

This course introduces students to the general landscape of international advertising with emphasis on understanding the opportunities and challenges entailed in international advertising management. The course will cover the subject from three aspects, including the international advertising environment, the international advertising industry, and international advertising strategies.

**Prerequisite:** MKT 200 or permission of instructor.

**MKT 370 Internet Marketing 3 Credits**

This course emphasizes the discipline of internet marketing, including practices of leading online marketing companies, state of the art online research and demonstrates how the Internet is creating value for customers and profits for businesses while also fitting into a firm's complete marketing strategy. This course will provide a strategic and tactical toolkit for the online marketer, help students understand how and why the Internet is changing traditional marketing and allow students to develop the skills, strategies and tactics important to develop successful Internet marketing plans.

**Prerequisite(s):** MKT 200 and CIS 185.

**MKT 375 Digital Advertising and Social Media 3 Credits**

This course surveys the concepts, principles, practices and industry standards of digital advertising, including standard display and rich media advertising, search advertising, email advertising, game advertising, and mobile advertising. It also introduces the strategies and tactics in social media marketing. The course emphasizes a strategic, holistic view of digital advertising and social media as marketing communication tools that are situated in the marketing strategic framework and employed to engage consumers in community building.

**Prerequisite(s):** MKT 200.

**MKT 380 Health Care Marketing 3 Credits**

The purpose of this course is to introduce students to the role, functions and tasks of healthcare marketing. Attention is devoted to applying basic marketing principles to the healthcare sector. Marketing decision making and analysis will be emphasized through the use of cases and current readings that focus on a variety of healthcare organizations, including hospitals, assisted living facilities, MCOs, and pharmaceutical companies.

**Prerequisite(s):** MKT 200 or permission of instructor.

**MKT 440 Sales Management 3 Credits**

By means of lectures, discussions, and case studies, the field of marketing management is analyzed from the viewpoint of sales executives. The responsibilities for planning and administering personal selling operations are emphasized. Considerable attention is given to other activities for which sales executives may be wholly or jointly responsible, such as decision making on promotion and brand management.

**Prerequisite(s):** MKT 200 and senior standing.

**MKT 444 Spec. Topics Honors: Mkt & Law 3 Credits****MKT 460 Marketing Management Seminar 3 Credits**

This capstone course for marketing majors employs a top management approach to the overall marketing task, including planning, organizing, controlling, and integrating all the activities of the marketing program. Integration of marketing with other operations of the business unit is emphasized. Major problems and current trends are identified and analyzed through case discussion.

**Prerequisite(s):** Marketing major and 15 semester hours of marketing; Required for marketing majors.

**MKT 469 Selected Topics in Marketing 3 Credits**

The study of a topic (or combination of topics) that represents some dimension of marketing or has important and direct implications for marketing management. Theoretical foundations as well as special applications of marketing decision making may be explored. Readings, research, lectures, discussions, or other appropriate methods are employed to stimulate student learning.

**Prerequisite(s):** MKT 200 and senior standing or permission of instructor.

**MKT 490 Independent Research and Study 1-4 Credits**

Topic to be approved by the professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation, which may be counted as a business or free elective.

**MKT 491 Internship-Based Indep Study 3 Credits**

Provides the student an opportunity to supplement and apply classroom work in supervised employment with participating marketing and advertising firms. Requirements include a journal with a log of daily activities, and a project or term paper presented to and evaluated by the internship sponsor. Evaluation will also include a report by the company on the intern's performance. Credits may be used to satisfy business or free elective requirements.

**Prerequisite(s):** permission of instructor.

## Mathematics (MTH)

**MTH 100 Intermediate Algebra 1 Credits**

This course prepares science and mathematics majors for college level mathematics courses. Topics include linear and absolute value equations and inequalities, quadratic and polynomial functions and their graphs, rational and radical equations, and systems of linear equations. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**MTH 100S Math Skills Lab 1 Credits**

The Math Skills Lab helps science majors master arithmetic and elementary algebra necessary for college level mathematics courses. Students are required to attend regular class sessions. Students have access to tutors, computer-assisted instruction, and structured workshops. The one supplemental education unit does not count toward graduation; grading is done on a Y/Z (pass/not pass) basis.

**MTH 102 Finite Mathematics 3 Credits**

This mathematically rigorous course begins with a review of the rational numbers, repeating decimals, irrational numbers and non-repeating decimals. The elementary theory of sets is discussed with applications to surveys and data mining. This is followed by a discussion of the cardinality of infinite sets. An introduction to elementary number theory includes various applications. The Cartesian plane and the idea of a function and its graph are introduced with applications. Counting theory then precedes an elementary discussion of probability.

**MTH 105 Algebra and Trigonometry 4 Credits**

The course is an in depth and rigorous study of functions and graphs, equations and inequalities, polynomial and rational functions, exponential, and logarithmic functions, basic trigonometric functions and their inverses, trigonometric identities.

**Prerequisite(s):** A mathematics SAT score of 570, departmental placement or MTH 100.

**MTH 120 Introduction to Applied Statistics 3 Credits**

Collection and presentation of data. Measures of location and variation, sampling theory, hypothesis testing, confidence intervals, t-tests, chi-square tests, regression, and correlation. Emphasizes practical applications. Not open to business administration, chemistry, environmental, geosciences, marine sciences, math or liberal studies: marine ecological or environmental emphasis majors.

**Prerequisite(s):** MTH 102 or MTH 105.

**MTH 150 Mathematics for Education Majors I 3 Credits**

This is the first course in a three-course sequence for education majors. This course covers the concept of Numbers, starting with counting numbers, decimals, negative numbers, fractions, and real numbers; different ways of representing numbers, and the relations between them are explored; different meanings and applications of the arithmetic operations are studied; standard and non-standard algorithms for arithmetic are considered in light of the representation of numbers. May not be used by CLAS students to satisfy the mathematics component of the core.

**MTH 151 Mathematics for Education Majors II 3 Credits**

This is the second course in a three-course sequence for elementary education majors. In this course, students will study proportional reasoning, Number Theory, Algebra, Geometry, and measurement. May not be used by SLAS students to satisfy the mathematics component of the core.

**Prerequisite(s):** MTH 150.

**MTH 152 Mathematics for Education Majors III 3 Credits**

This is the third course in a three-course sequence for elementary education majors. In this course, students will study area and volume, transformational geometry, statistics and probability.

**Prerequisite(s):** MTH 151.

**MTH 210 Calculus I 4 Credits**

Introduces analytic geometry, functions, limits, and derivatives; differentiation of algebraic and trigonometric functions, curve sketching, maxima and minima, and higher derivatives.

**Prerequisite(s):** Math SAT 650 or higher or Math ACT score of 28 or higher or successful completion of MTH 105.

**MTH 211 Calculus II 4 Credits**

The definite integral, differentiation of transcendental functions, methods of integration and approximate integration, determination of area, volume, and surface area.

**Prerequisite(s):** MTH 210.

**MTH 212 Calculus III 4 Credits**

Infinite series; functions of two and three variables, vectors and tangent planes, partial derivatives, multiple integrals, determination of volume and density.

**Prerequisite(s):** MTH 211.

**MTH 230 Discrete Mathematics 4 Credits**

An introduction to topics in Discrete Mathematics. This course covers methods of proof, induction and recursion, and other topics in discrete mathematics. Topics may include graph theory, trees, and symmetry groups.

**Prerequisite(s):** MTH 102, MTH 105 or MTH 210.

**MTH 240 Linear Algebra 3 Credits**

Systems of linear equations; vector spaces; linear independence; determinants; orthogonality; linear maps; eigenvectors.

**Prerequisite(s):** MTH 210 or as corequisite; sophomore standing; or permission of instructor.

**MTH 250 Differential Equations 3 Credits**

First order differential equations, separable and exact; integrating factors; second order linear differential equations; series solutions of second order linear differential equations; higher order equations; existence and uniqueness theorems; systems of linear differential equations.

**Prerequisite(s):** MTH 240, MTH 211.

**Corequisite(s):** MTH 212 or as prerequisite.

**MTH 308 Advanced Calculus 3 Credits**

Vectors, gradients, and directional derivatives, Lagrange multipliers, Taylor's theorem, multiple integrals, change of variables, line and surface integrals, Stokes' theorem.

**Prerequisite(s):** "B" average in MTH 210 and MTH 211; MTH 212, MTH 240.

**MTH 315 Modern Geometry 3 Credits**

Covers geometry from a modern point of view, with emphasis on non-Euclidean geometry, particularly projective geometry.

**Prerequisite(s):** MTH 211, MTH 240.

**MTH 340 Probability & Statistical Analysis I 3 Credits**

Theory of sets and probability; discrete and continuous random variables and probability distributions. Emphasizes foundations and utilizes the techniques of the calculus.

**Prerequisite(s):** MTH 212 or MSD 111.

**MTH 341 Probability & Statistical Analysis II 3 Credits**

Continuation of MTH 340. Foundations of mathematical statistics: normal distributions, estimation, confidence intervals and hypothesis testing; topics chosen from student's t-test, chi-square tests, analysis of variance and regression analysis. Emphasizes foundations and utilizes the techniques of the calculus.

**Prerequisite:** MTH 340. Spring.

**MTH 401 Modern Algebra 3 Credits**

Provides an introduction to modern abstract algebra. It emphasizes the axiomatic method to analyze the major algebraic systems. The instructor will choose the topics to be studied from among the following algebraic structures: integral domains, fields, complete ordered fields, groups, polynomials, rings, ideals and modules.

**Prerequisite(s):** MTH 240.

**MTH 402 Topics in Advanced Mathematics 3 Credits**

Chosen from advanced pure or applied mathematics. Topics vary, depending on instructor.

**Prerequisite(s):** MTH 308.

**MTH 410 Complex Analysis 3 Credits**

Analytic functions, conformal mapping, power series, Cauchy's theorem, calculus of residues.

**Prerequisite(s):** MTH 308.

**MTH 420 Number Theory 3 Credits**

Covers topics including divisibility theory, the prime numbers, the theories of congruences and of quadratic reciprocity, and Fermat's Last Theorem. Other topics may also include applications to cryptography, Pell's equations, continued fractions, and the theory of partitions.

**Prerequisite(s):** MTH 240 or permission of instructor.

**MTH 430 Introduction to Topology 3 Credits**

A comprehensive introduction to elementary topology. The concepts of topological spaces and metric spaces will be introduced. Connectedness, compactness and properties of subsets of the real numbers rooted in topology will also be considered. The quotient topology will be used to construct surfaces as identification spaces, and tools will be developed to distinguish one surface from another.

**Prerequisite(s):** MTH 212.

**MTH 440 Real Analysis 3 Credits**

Covers the theory of sets, the real number system and its properties, convergence of sequences and series of numbers and functions, and the theory of integration, including: measure theory, the Riemann integral, and introduction to the Lebesgue theory of integration.

**Prerequisite(s):** MTH 308 or as corequisite.

**MTH 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in research and mathematical literature. If possible, the student will publish the results or present them at a scientific meeting.

## Multicultural Studies (MCS)

**MCS 110 Race, Class and Gender in Contemporary American Society 3 Credits**

This interdisciplinary course analyzes the ways in which race, class, gender and ethnic relationships shape the experience of all persons in this society. It examines the categories of race, class and gender as social constructs that have been historically developed and sustained by economic, social, political, and cultural factors.

**MCS 110S Introduction to Race, Class and Gender in Contemporary Society 1 Credits**

This course introduces students to the concepts of race, class and gender as essential components in understanding how social identities are socially constructed in the United States. Using historical and contemporary references, the course explores the ways in which race, class, gender and ethnic relationships shape the experiences of people in the United States, and the implications of those experiences for social relationships. Part of this exploration is to expose students to inter-relatedness of race, class and gender, as identity markers, both historically and in contemporary society.

**MCS 220 Issues in Multicultural Studies 3 Credits**

An examination of issues and questions posed by the existence of diversity in social life. Students build on what they have learned in MCS 110 by focusing in greater depth on selected aspects of multicultural interaction. Topics change each semester and are listed in the course roster. Recent topics include "Understanding Privilege," "The Meaning of Difference," and "Narratives of Human Difference: Science, Politics, Literature."

**Prerequisite(s):** MCS 110 or permission of instructor.

**MCS 280 Directed Study in Multicultural Studies 1-4 Credits**

An intensive study experience in multicultural studies. The student designs and carries out a course of focused study under the supervision of a multicultural studies faculty member. The student's proposed plan of work must be reviewed and approved by the faculty sponsor and by the multicultural studies advisory committee. May be repeated once for credit.

**MCS 490 Independent Study: Research and Creative Expression 1-4 Credits**

Individual program of study under close supervision by the instructor, with weekly meetings and reports. Topics to be approved by the department. Available to seniors who have a minimum of a 3.0 GPA. No more than six credits allowed toward graduation.

**MCS 491 Internship in Multicultural Studies 1-4 Credits**

A supervised community service of work experience at an approved site. Placements are made in accordance with each student's particular theme within multicultural studies. A minimum of three hours per week on site per credit (39 hours per semester); in addition, students complete readings and reports and meet weekly with the instructor. Primarily for multicultural studies minors in their junior or senior year.

## Music (MUS)

**MUS 001S Applied Voice Studio 0 Credits****MUS 105 Survey of Music History I 3 Credits**

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

**MUS 106 Survey of Music History II 3 Credits**

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

**MUS 109S Basic Music Theory 3 Credits**

This is a beginner's course in music theory. It familiarizes the student with the basic elements (e.g., staff, clefs, time signatures, musical notation, intervals, triads and chords). This course is ideal for both the student wanting to know only the essential, or the student wanting to go on to develop their theoretical skills. For non-music majors, MUS 109S counts toward graduation and grades are awarded on an A-F basis. For music majors, MUS 109S does not count toward graduation, and grading is on a pass ("Y") or fail ("Z") basis.

**MUS 110 Music Theory I 3 Credits**

A practical introduction to the basic elements of music, beginning with the reading of music notation. Practice in scales and chords; ear-training in rhythm and pitch. Techniques may be applied to the student's own instrument (e.g., guitar, piano, winds) if he or she plays one. Prerequisite(s): MUS 109S or placement.

**Corequisite(s):** MUS 110L.

**MUS 110L Music Theory I Lab 1 Credits**

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 110 (Music Theory I). Prerequisite(s): MUS 109S or placement.

**Corequisite(s):** MUS 110.

**MUS 111 Music Theory II 3 Credits**

Continuation of MUS 110, leading to some original composition.

Prerequisite(s): MUS 110 and MUS 110L.

**Corequisite(s):** MUS 111L.

**MUS 111L Music Theory II Lab 1 Credits**

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 111 (Music Theory II). Prerequisite(s): MUS 110 and MUS 110L or placement.

**Corequisite(s):** MUS 111.

**MUS 113 Popular Music Theory I 3 Credits**

Popular Music Theory I covers basic elements of music, including the reading of music notation in traditional formats as well as in audio wave form and in the visualization of standard Digital Audio Workstations. Practice in scales and chords; ear-training in rhythm, pitch, and timbre. Techniques may be applied to the student's own instrument (e.g., guitar, piano, voice)

**Corequisite(s):** MUS 113L.

**MUS 113L Popular Music Theory Lab I 1 Credits**

Taken in conjunction with Popular Music Theory I, the lab applies theoretical concepts in a performance context. Applied aural training and improvisation skills on primary and secondary instruments.

**Corequisite(s):** MUS 113.

**MUS 114 Popular Music Theory II 3 Credits**

A continuation of Popular Music Theory I, progressing to intermediate elements of music, including the reading of music notation in traditional formats as well as in audio wave form and in the visualization of standard Digital Audio Workstations. Practice in scales and chords, ear-training in rhythm, pitch, and timbre. Techniques may be applied to the student's own instrument (e.g., guitar, piano, voice).

**MUS 114L Popular Music Theory Lab II 1 Credits**

Taken in conjunction with Popular Music Theory II, the lab applies theoretical concepts in a performance context. Applied aural training and improvisation skills on primary and secondary instruments.

**MUS 116 Digital DJing 3 Credits**

Digital DJing is a three-week, software-based course that develops musical mixing skills for the purpose of creating the kinds of DJ sets one may play on the radio or at live events. Includes repertory building across several popular and dance genres.

**MUS 120 Music and Society 3 Credits**

Introduction to the basic elements of music (rhythm, melody, harmony, etc.) and the appreciation of representative types of music from all historical periods.

**MUS 127 Pop, Rock & Hip-Hop Ensemble 1 Credits**

Ensemble rehearsal and performance of contemporary music. Maximum of eight credits are accepted in band, choir, and/or theater production.

**MUS 128 Choir 1 Credits**

Rehearsal and performance of multi-era Western and non-Western repertoire. Instruction in music fundamentals and vocal production. Pitch matching and part-singing abilities must be demonstrated in the first-week sectional hearing.

**MUS 129 Contemporary Vocal Ensemble 1 Credits**

The objective of the contemporary vocal ensemble course is to allow students to experience the aesthetics of popular music through the study, interpretation and performance of the music. Students will develop their ensemble skills, independent part singing, as they experience a wide range of popular music genres (jazz, pop, R&B, world, etc.) Students must pass an audition to participate in this course.

**MUS 130 Music in Children's Lives 3 Credits**

Students in this course will study how music interacts in the lives of children as they sing, listen, play instruments and move. Song repertoire and selections for listening and moving from the American, European and non-Western cultures will be introduced. Playing recorder as well as pitched and non-pitched percussion instruments will be demonstrated.

**MUS 131 Beginning Piano I 2 Credits**

Class approach to learning to play the piano. How to read music, basic piano technique, and appropriate piano pieces and songs are studied.

**MUS 132 Beginning Piano II 2 Credits**

Continuation of MUS 131. Emphasis on further development of technique and the ability to interpret piano music from a variety of styles.

**Prerequisite(s):** MUS 131 or equivalent.

**MUS 133 Class Voice I 2 Credits**

Class approach to learning pop vocals. How to read music, basic vocal production technique and appropriate vocal pieces and songs are studied, especially in popular genres.

**MUS 134 Class Voice II 2 Credits**

Continuation of class approach to learning pop vocals started in Class Voice I. Intermediate vocal technique for popular music

**Prerequisite(s):** MUS 133 or placement exam.

**MUS 135 Class Guitar I 2 Credits**

Class approach to learning to play the guitar. How to read tablature, basic guitar technique, and appropriate guitar pieces and songs are studied, especially in popular genres. Students must provide their own guitars; if electric, they should provide their own amps, too.

**MUS 136 Class Guitar II 2 Credits**

Continuation of class approach to learning to play the guitar started in Class Guitar I. Intermediate guitar technique for popular music. Students must provide their own guitars; if electric, they should provide their own amps, too.

**Prerequisite(s):** MUS 135 or placement exam.

MUS 150A Applied Flute 2 Credits  
 MUS 150B Applied Flute 1 Credits  
 MUS 150C Applied Flute 2 Credits  
 MUS 150D Applied Flute Elective 1 Credits  
 MUS 151A Applied Oboe 2 Credits  
 MUS 151B Applied Oboe 1 Credits  
 MUS 151C Applied Oboe 2 Credits  
 MUS 151D Applied Oboe Elective 1 Credits  
 MUS 152A Applied Clarinet 2 Credits  
 MUS 152B Applied Clarinet 1 Credits  
 MUS 152C Applied Clarinet 2 Credits  
 MUS 152D Applied Clarinet Elective 1 Credits  
 MUS 153A Applied Bassoon 2 Credits  
 MUS 153D Applied Bassoon Elective 1 Credits  
 MUS 154A Applied Saxophone 2 Credits  
 MUS 154D Applied Saxophone Elective 1 Credits  
 MUS 155A Applied French Horn 2 Credits  
 MUS 155D Applied French Horn Elective 1 Credits  
 MUS 156A Applied Trumpet 2 Credits  
 MUS 156B Applied Trumpet 1 Credits  
 MUS 156C Applied Trumpet 2 Credits  
 MUS 156D Applied Trumpet Elective 1 Credits  
 MUS 157A Applied Trombone 2 Credits  
 MUS 157D Applied Trombone Elective 1 Credits  
 MUS 158A Applied Euphonium 2 Credits  
 MUS 158D Applied Euphonium Elective 1 Credits  
 MUS 159A Applied Tuba 2 Credits  
 MUS 159D Applied Tuba Elective 1 Credits  
 MUS 160A Applied Guitar 2 Credits  
 MUS 160B Applied Guitar 1 Credits  
 MUS 160C Applied Guitar 2 Credits  
 MUS 160D Applied Guitar Elective 1 Credits  
 MUS 160E Applied Guitar 2 Credits  
 MUS 161A Applied Violin 2 Credits  
 MUS 161B Applied Violin 1 Credits  
 MUS 161C Applied Violin 2 Credits  
 MUS 161D Applied Violin Elective 1 Credits  
 MUS 161E Applied Violin 2 Credits  
 MUS 161G Applied Violin 2 Credits  
 MUS 162A Applied Viola 2 Credits  
 MUS 162D Applied Viola Elective 1 Credits  
 MUS 163A Applied Cello 2 Credits  
 MUS 163D Applied Cello Elective 1 Credits  
 MUS 164A Applied String Bass 2 Credits  
 MUS 164B Applied String Bass 1 Credits  
 MUS 164C Applied String Bass 2 Credits  
 MUS 164D Applied String Bass Elective 1 Credits  
 MUS 165A Applied Piano 2 Credits

### **MUS 201 Skills Ensemble I 1 Credits**

A Contemporary Performance skills ensemble focusing on interactive musicianship, composition, ear training, transcription, and notation, for popular music studies majors. Students will develop proficiency in the following areas: • Developing ensemble skills • Preparing and rehearsing original compositions • Recognizing scales, intervals and chords • Harmonic, Melodic, and Rhythmic Transcription • Recognizing basic structural elements in different musical genres: Pop(Hip-Hop, R&B, Rock)/Jazz/Classical as well as understand their basic vernacular • Writing legible and clear musical scores (charts).

### **MUS 204 Jazz History 3 Credits**

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

**Prerequisite(s):** CMP 120 or LL 131.

### **MUS 205 History of Pop and Rock Part I 3 Credits**

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

### **MUS 206 History of Pop and Rock Part 2 3 Credits**

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

### **MUS 207 Masterworks in Music 3 Credits**

Major works by great composers from different historical periods Mozart, Beethoven, Brahms, and Wagner, among others are studied. Up to 10 compositions by six composers are covered, with an emphasis on listening to recorded and live performances of representative works.

### **MUS 208 Music of the Theater 3 Credits**

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

### **MUS 209 Great Composers 3 Credits**

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

### **MUS 210 Music Theory III 3 Credits**

Analysis of musical forms, including binary, rounded binary, ternary, and popular song. Identification of techniques that support musical form, including harmonic language, contrast/repetition, compositional process. Advanced sight singing and aural drills.

**Prerequisite(s):** MUS 111 and MUS 111L.

### **MUS 211 Music Theory for Music Theater 3 Credits**

Analysis of music theater songs, scenes and scores. Various techniques, placement of examples into historical, musical, artistic, and literary perspective. Reading of full and piano/vocal scores, conducting, orchestration and harmonic language will be emphasized.

**Prerequisite(s):** MUS 111 and MUS 111L.

### **MUS 212 Cartoon and Anime Culture 3 Credits**

This course investigates the music and culture of animated films and television shows, anime, animated shorts including cartoons, and related incidental music for documentary films.

**MUS 213 Digital Comp of Pop Music I 3 Credits**

This course is about “the doing of music”. It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music.

**MUS 214 Writing about Music 3 Credits**

This course instructs students in the art of writing about music, from small-form criticism to large scale scholarship, focusing especially on the ability to translate what one hears into engaging prose.

**Prerequisite(s):** CMP 120 and 125, MUS 110, 110L and 213.

**MUS 215 Music & Techn/Mobile Society 3 Credits**

This course compares the recent history of music technology to past innovations, focusing on the aesthetic implications and ideological influences of an increasingly mobilized musical milieu.

**MUS 216 Digital Comp of Pop Music II 3 Credits**

This course is about “the doing of music.” It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music, continuing the content begun in The Digital Composition of Popular Music I.

**MUS 217 Black Music in America 3 Credits**

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip-hop and everything in between.

**MUS 218 Postmodernism & Pop Culture 3 Credits**

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

**MUS 219 Pop Music Arranging I 3 Credits**

The Pop Music Arranging I course is the first of a two-semester course sequence whose goal is to explore the fundamental arranging techniques for popular music styles. Students will learn to arrange popular music for the standard instrumentation found in a pop/rock ensemble (bass guitar, drumset, rhythm guitar, and keyboard). This course will develop comprehensive musicianship and fundamental arranging techniques, as well as develop skills as they relate to the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L.

**MUS 220 Pop Songwriting I 3 Credits**

The Songwriting I course is an introduction to songwriting in popular music styles. Students will learn to compose music by themselves and collaboratively. This course will develop comprehensive musicianship and compositional techniques, as well as learn to use the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L.

**MUS 233 Intermediate Piano 3-12 Credits**

Continuation of MUS 132 with further development of reading skills, piano techniques and interpretation. Each student studies a set of pieces selected together with the instructor tailored specifically to the students' needs and interests.

**MUS 300 Beethoven and the Romantic Age 3 Credits**

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

**MUS 301 Skills Ensemble II 1 Credits**

The Contemporary Performance Skills Ensemble II is a course whose focus is interactive musicianship, composition, ear training, transcription, and notation, for popular music studies majors. This course will require a higher level of musical ability, aptitude, and technical development than the Skills I Ensemble course. Students will develop proficiency in the following areas: • Developing ensemble skills • Preparing and rehearsing original compositions • Recognizing scales, intervals and chords • Harmonic, Melodic, and Rhythmic Transcription • Recognizing basic structural elements in different musical genres: Pop(Hip-Hop, R&B, Rock)/Jazz/Classical as well as understand their basic vernacular • Writing legible and clear musical scores (charts) • Improvisation.

**MUS 303 Music Literature: Baroque Era 3 Credits**

A survey of European musical styles from c. 1600 to 1750, approached by listening to the music of the period, including Bach, Handel, and many lesser known masters. Topics include the development of modern musical sound, instrumental forms, Lutheran and Catholic church music, and the beginnings of dramatic music.

**MUS 304 Music of the Beatles 3 Credits**

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

**MUS 305 Words and Music 3 Credits****MUS 306 Contemp Music Experience 3 Credits**

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

**MUS 307 The Music of Radiohead 3 Credits**

This course investigates the music, lyrics, art and marketing strategies of the British so called “alternative” band, Radiohead, moving song by song through their demos, videos and albums.

**MUS 308 World Music 3 Credits**

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures.

**MUS 309 Film Music 3 Credits**

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

**MUS 310 The Film Music of Stanley Kubrick 3 Credits**

This course is an in-depth study of the way in which music impacts society through the art of film. Focusing on the films of Stanley Kubrick (e.g. *The Shining*; *2001: A Space Odyssey*; *A Clockwork Orange*; *Full Metal Jacket*; *Eyes Wide Shut*; *Dr. Strangelove*; *Lolita*) we will study a variety of strategies within which music integrates, counterpoints or ironically resists themes such as war, sex, politics, religion, gender etc. Also we will observe how music interacts with other aesthetics in film such as light, camera methods, 1. diegetic/source, 2. non-diegetic/underscore and 3. metadiegetic (i.e. 1. music in the film; 2. music only the audience can hear; 3. music that seems to be coming from the mind of a character in the film) method as part of the narrative itself. In this way we will investigate the way film both integrates aspects of society and also radiates messages, indeed challenges, to society, both as a mirror but also didactically—with the direct intent of creating change.

**MUS 311 Unpacking Bruce Springsteen 3 Credits**

This course will survey the music of Bruce Springsteen. It will 'unpack' Springsteen's musical development not only across his official career (i.e. from signing with Columbia for his first album 'Greetings from Asbury Park, New Jersey' in 1973 to the present) but also from his childhood through his youth in Freehold, NJ. By closely studying Springsteen's life, music and lyrics as well as the themes of each album the student will become an expert in understanding how The Boss was able to universalize the Jersey Shore as well as his personal concerns into vital musical messages of great value and import today. This will also involve looking at music as varied as The British Invasion (i.e. The Beatles, The Animals & the Rolling Stones et al); Motown; Country; Soul; Folk; Rock and the American Songbook.

**MUS 312 The Arts Abroad 3 Credits**

A two week trip abroad that includes a critical study of music and theater. Students are required to attend all performances, guided tours, and classes before and after the trip.

**MUS 315 Black Music in America 3 Credits**

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip hop and everything in between.

**MUS 316 Digital Mixing and Mastering 3 Credits**

Digital Mixing and Mastering is a practical skills class focusing on post-production skills in software interfaces. Students will learn how to work with multiple editing softwares and plug-in tools to achieve balanced, lively, professional mixes.

**MUS 319 Pop Music Arranging II 3 Credits**

The Pop Music Arranging II course is the terminal course of a two-semester sequence whose goal is to explore the advanced arranging techniques for popular music styles. Students will learn to arrange popular music for the standard instrumentation found in a pop/rock ensemble (bass guitar, drumset, rhythm guitar, and keyboard). This course will develop comprehensive musicianship and advanced arranging techniques, as well as develop advanced skills as they relate to the utilization of the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L, MUS 219.

**MUS 320 Pop Songwriting II 3 Credits**

The Pop Songwriting II course is a continuation of the songwriting course sequence whose goal is to explore advanced compositional techniques for popular music styles. Students will learn to compose music by themselves and collaboratively. This course will develop comprehensive musicianship and advanced compositional techniques, as well as develop advanced skills as they relate to the software platforms Logic Pro X and Finale notation.

**Prerequisite(s):** MUS 110, MUS 110L, MUS 220.

**MUS 350A Applied Flute 2 Credits****MUS 350B Applied Flute 1 Credits****MUS 351A Applied Oboe 2 Credits****MUS 351B Applied Oboe 1 Credits****MUS 352A Applied Clarinet 2 Credits****MUS 353A Applied Bassoon 2 Credits****MUS 354A Applied Saxophone 2 Credits****MUS 355A Applied French Horn 2 Credits****MUS 356A Applied Trumpet 2 Credits****MUS 356B Applied Trumpet 1 Credits****MUS 357A Applied Trombone 2 Credits****MUS 358A Applied Euphonium 2 Credits****MUS 359A Applied Tuba 2 Credits****MUS 360A Applied Guitar 2 Credits****MUS 360B Applied Guitar 1 Credits****MUS 361A Applied Violin 2 Credits****MUS 362A Applied Viola 2 Credits****MUS 363A Applied Cello 2 Credits****MUS 364A Applied String Bass 2 Credits****MUS 364B Applied String Bass 1 Credits****MUS 365A Applied Piano 2 Credits****MUS 365B Applied Piano 1 Credits****MUS 366A Applied Organ 2 Credits****MUS 367A Applied Percussion 2 Credits****MUS 368A Applied Voice 2 Credits****MUS 368B Applied Voice 1 Credits****MUS 368C Applied Voice 2 Credits****MUS 368E Applied Voice 2 Credits****MUS 369A Applied Composition 2 Credits****MUS 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

**Prerequisite(s):** junior or senior standing; good academic standing.

**MUS 491 Internship in Music 1-4 Credits**

Provides junior or senior music majors with the opportunity to gain practical experience working within a professional music environment. Students must be sponsored by a music professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

**Prerequisite(s):** permission of instructor.

**MUS 493 Selected Topics in Music Perf 3 Credits**

Intensive study of a particular topic in applied music for the intermediate to advanced student. Students are led to understand the historic and aesthetic elements in music through critical listening, performance, research, and class projects.

**MUS 495 Selected Topics in Music 3 Credits**

Studies specialized aspects of the literature, history, or theory of music, to supplement the established curriculum. Emphasis on creative investigative work and individual experiences in music.

**MUS 498 Popular Music Culture Capstone 3 Credits**

The capstone is an independent, student-led project resulting in a material product (recording/performance/event/presentation) that demonstrates a student's interests and skills in the area of popular music.

**MUS 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

## Musical Theatre (MTR)

**MTR 105 Musical Theatre Practicum 1 Credits**

This course explores the literature of musical theatre vocal ensembles. It emphasizes examining a wide range of styles. This is a studio/academic class, not a performance ensemble.

**MTR 109 Beginning Ballet I 1 Credits**

This course introduces the basic elements of ballet technique. Technique is based on the five positions of the legs and feet, coupled with appropriate arm positions. The class consists of a basic ballet barre warm-up that includes stretching and developing strength and turn-out used in dance positions and combinations. Instruction includes jumping, turning, and connecting steps with movement. Ballet terminology is addressed.

**MTR 110 Ballet II 1 Credits**

Continuation of MTR 109, building upon techniques learned in that course.

**Prerequisite(s):** MTR 109.

**MTR 111 Musical Theatre Lab 0 Credits****MTR 112 Advanced Ballet I 1 Credits**

Continuation of MTR 109, building upon techniques learned in that course.

**MTR 113 Beginning Ballet II 1 Credits**

Intermediate ballet, expanding upon Ballet I and concentrating upon the American lineage of ballet training.

**MTR 114 Advanced Ballet II 1 Credits**

Continuation of MTR 113. Intermediate ballet, expanding upon Ballet I and concentrating upon the American lineage of ballet training.

**MTR 120 Hist of American Music Theater 3 Credits**

The history of the American Musical from the first American production in 1750 of Gay's *The Beggar's Opera* up to the present will be traced. Emphasis will be placed upon those common elements which are solely intrinsic to the American stage. Developments and imported ideas (e.g., *The British Invasion*) will be highlighted.

**MTR 131 Music Theory for MT 3 Credits**

Teaches students to understand musical form, structure, melody, rhythm and harmony by applying these concepts to musical theatre literature. Includes full analysis of musical theatre songs. Required in the first year.

**MTR 132 Group Piano 1 Credits**

Offers the musical theatre student appropriate keyboard technique to play any vocal part and to play a rudimentary accompaniment. Required of all second-year students.

**Prerequisite(s):** MTR 131.

**MTR 133 Sight Singing for MT 3 Credits**

Intensive class in reading music, designed for musical theatre students. Traditional solfeggio techniques used with musical theatre texts whenever possible. Required of first-year students.

**Prerequisite(s):** MTR 131.

**MTR 207 Music Theater Vocal Coaching 3 Credits**

Vocal coaching and repertoire preparation with a focus in developing the skill sets required to research and prepare music theater repertoire. Special emphasis is given to creating and maintaining the professional audition book. Open to music theater majors only.

**Prerequisite(s):** MTR 101.

**MTR 209 Tap Dance I 1 Credits**

Introduction to the basic elements of tap dancing. Tap technique is geared to enhance rhythm and motor skills, basic elements that will be used to connect several steps and movements into combinations. Other variations such as "soft shoe" or "clogging" are included.

**MTR 210 Tap Dance II 1 Credits**

Continuation of MTR 209. Combinations most often used in music theater productions are emphasized.

**Prerequisite(s):** MTR 209.

**MTR 211 Ballet III 1 Credits**

Intermediate ballet, expanding upon Ballet II and concentrating upon the American lineage of ballet training.

**Prerequisite(s):** MTR 110.

**MTR 212 Ballet IV 1 Credits**

Continuation of MTR 211. Intermediate ballet, expanding upon Ballet III and concentrating upon the American lineage of ballet training.

**Prerequisite(s):** MTR 211.

**MTR 215 MT Performance: Song as Text 3 Credits**

In this course the student will learn how to develop a performance of musical text by making doable, actable choices and applying those choices to musical monologues – solo songs.

**Prerequisite(s):** THE 110.

**MTR 216 Acting for Music Theater I 3 Credits**

This professional skills course, intended for music theater majors, builds upon the student's previous acting training. Through various exercises and activities (both individual and group), the student will begin to develop a clear method for preparation that addresses first their own instrument, and then (through various methods of analysis) the character and the play. Students will begin to utilize and apply the studied techniques and exercises to simple monologues and a scene. Behavioral truth will precede the more sophisticated studies of emotional truth.

**MTR 217 Acting for Music Theater Major II 3 Credits**

Continuation of MTR 216. Methods for preparation are expanded as students learn and experience techniques for exploring and developing characters. This semester will focus on the application of the skills and acting techniques studied in the first semester to the needs of dramatic and sung material. Students are expected to synthesize content and skills acquired in the Speech for the Actor, Body Awareness and Movement classes.

**Prerequisite(s):** MTR 216.

**MTR 218 Musical Theatre Scene Study I 3 Credits**

Scene study class exploring the literature of the musical theatre – emphasis placed on two- and three-character scenes. Required of all second-year students.

**Prerequisite(s):** THE 208.

**MTR 219 Musical Theatre Scene Study II 3 Credits**

Further exploration of scenes in the musical theatre literature – emphasis on more complex scenes. Required of all third-year students.

**Prerequisite(s):** MTR 218.

**MTR 251 Styles and Genres I 3 Credits**

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Standard, Classical, and Traditional periods of musical theater. Composers to be studied will include Rodgers and Hammerstein, Lerner and Loewe, Kern, Berlin, Gershwin, Porter, Arlen, Blitstein and Weill.

**Prerequisite(s):** MUS 111, MUS 111L, THE 107, MTR 216.

**MTR 252 Styles and Genres II 3 Credits**

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary (Non-Pop/Rock) period of music theater. Composers to be studied will include Sondheim, Styne, Kander and Ebb, Guettel, Matby and Shire, and Bernstein.

**Prerequisite(s):** MUS 111, MUS 111L, THE 107, MTR 216.

**MTR 253 Styles and Genres III 3 Credits**

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary, Pop/Rock period of music theater. Composers to be studied will include Webber, Schwartz, Fenn, Flaherty, Menkin, Brown, LaChiusa, and Lippa.

**Prerequisite(s):** MUS 111, MUS 111L, THE 107, MTR 216.

**MTR 255 Musical Theatre Repertoire I 3 Credits**

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers through the 1950s. The thrust of this class is split between studio work and academic work.

**Prerequisite(s):** THE 106, THE 208.

**MTR 256 Musical Theater Repertoire II 3 Credits**

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers since the 1950s. The thrust of this class is split between studio work and academic work.

**Prerequisite(s):** THE 106, THE 108.

**MTR 307 Tap III 1 Credits**

This course is designed for the moderately advanced tap dancer. Course to be taken in the fall.

**Prerequisite(s):** MTR 210.

**MTR 308 Tap IV 1 Credits**

The course will allow the more advanced student to complete the work begun in Tap III.

**Prerequisite(s):** MTR 307.

**MTR 309 Beginning Jazz Dance I 1 Credits**

Based upon the ballet foundation, this course explores the expressive style of jazz dance, and basic Western theatrical dance forms and social dances used most often on the stage.

**Prerequisite(s):** MTR 109.

**MTR 310 Jazz Dance II 1 Credits**

Continuation of work begun in MTR 309.

**Prerequisite(s):** MTR 309.

**MTR 311 Jazz Dance III 1 Credits**

This course continues the work begun in MTR 309 and 310.

**MTR 312 Advanced Jazz Dance II 1 Credits**

This course continues the work begun in MTR 309, MTR 310 and MTR 311.

**Prerequisite(s):** MTR 311.

**MTR 313 Ballet V 1 Credits**

Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

**Prerequisite(s):** MTR 212.

**MTR 314 Ballet VI 1 Credits**

Continuation of MTR 313. Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

**Prerequisite(s):** MTR 313.

**MTR 315 Advanced Jazz Dance I 1 Credits**

Continuation of work begun in MTR 309.

**MTR 316 Beginning Jazz Dance II 1 Credits**

This course continues the work begun in MTR 309 and 315.

**MTR 317 MT Auditions:Preparation/Tech 3 Credits**

This course, building upon skill-sets established in the Music Theatre singer-actor curriculum, will introduce and hone the required skill-sets for preparing to audition in Music Theatre. Genres and styles of music most often required for auditioning in the industry will be prepared and explored. An audition "book," based upon the demands of the industry, as well as the most suitable material for each student will be built. When appropriate, guests from the industry will be invited to present master classes and evaluations in a "mock audition" process.

**Prerequisite(s):** MTR 207, MTR 216, MTR 217, MTR 492.

**MTR 318 Advanced Jazz Dance II 1 Credits**

This course continues the work begun in MTR 309, MTR 315 and MTR 316.

**MTR 319 Jazz Dance III 1 Credits**

This course continues the work begun in MTR 318.

**MTR 320 Jazz Dance IV 1 Credits**

This course continues the work begun in MTR 319.

**MTR 335 Speech for the Actor 3 Credits**

This course introduces and develops speech techniques, specifically in the areas of relaxation, posture and alignment, respiration, phonation, support, registration, resonance, and articulation. Students learn to consistently produce a free, resonant, fully supported speaking voice. Exercises will increase flexibility and range of speaking and will foster heightened responsiveness to feeling. Regular practice in the delivery of both impromptu and prepared monologues is required. This course includes studies in Neutral American Speech.

**MTR 402 Directing Music Theater/Opera 3 Credits**

This elective course investigates how conceptual ideas and the process of script analysis are used in putting together a music theatre production for performance. Instruction includes staging ideas and elements needed for a complete production. Other theatrical aspects of choreography, properties, costumes, lighting, and set design are addressed. It is recommended that students complete MTR 496 before taking MTR 402.

**MTR 411 Musical Theatre Ensemble 1 Credits****MTR 415 Musical Theatre Dance I 1 Credits**

First capstone course in the Musical Theatre dance sequence. Practical and historical study of Broadway dance styles; main focus on jazz idiom. Emphases placed on technique, performance quality, and auditioning skills.

**Prerequisite(s):** Completion of Ballet, Tap, and Jazz requirements; senior standing.

**MTR 416 Musical Theatre Dance II 1 Credits**

Second capstone course in the Musical Theatre dance sequence. Continuing study of Broadway dance styles. Emphasis is placed on technique, performance quality, and auditioning skills.

**Prerequisite(s):** MTR 416.

**MTR 480 Dance for Performing Artist 3 Credits**

This course is a culmination of the dance elements and forms studied in ballet, tap, and jazz dance. Context areas include movement used most often in performance of music theater and movement fundamentals applicable to all aspects of presentation and principle to refine and articulate the performer's awareness and use of the body through singing and dance. Performance issues and movement as a basis for music and sound production are addressed.

**Prerequisite(s):** MTR 209, MTR 309.

**MTR 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

**Prerequisite(s):** junior or senior standing, good academic standing.

**MTR 491 Internship in Music Theater 1-12 Credits**

Provides junior or senior musical theatre majors with the opportunity to gain practical experience working within a professional environment. Students must be sponsored by a musical theatre or theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

**Prerequisite(s):** permission of instructor.

**MTR 492 Singing Actor: Music Theater 3 Credits**

This semester combines all dramatic and musical studies to create an authentic and believable character that is both emotionally truthful and musically expressive. Music is studied as "script" and dramatic choices are prepared in relationship to all elements present in the score.

**Prerequisite(s):** MTR 216 and MTR 217.

**MTR 493 Music Theater Production 1 Credits**

Preparation and performance of a solo or ensemble role in a fully staged music theatre production. Concurrent participation in stage crew activities is required.

**MTR 496 Music Theater Workshop 3 Credits**

This class, building upon the foundational studies associated with preparation and exploration (both dramatic and musical), focuses on performances. Students are taught methods for synthesizing all former training in acting, music, and movement to the needs of the character and the play/score. Each student fully prepares at least two complete roles from the music theater repertoire. The class culminates in a performance of scenes—the Junior Cabaret!

**Prerequisite(s):** MTR 216, MTR 217, MTR 492.

## Nursing (NUR)

**NUR 400 Professionalism and Professional Values 3 Credits**

Professionalism and the inherent values of altruism, autonomy, human dignity, integrity, and social justice are fundamental to nursing. This course provides a foundation of concepts of professionalism to facilitate participation and engagement in professional or community-based organizations that advocate for quality and access to health care. Learning activities and assignments will focus on strategies for self assessment and self reflection of one's values, moral integrity, and ability to act professionally at all times in complex health care delivery environments.

**NUR 401 Organizational and Healthcare Systems Leadership 3 Credits**

This course provides a foundation of principles of leadership based on contemporary needs for qualified nursing leaders who can function and manage in complex healthcare delivery environments. Learning activities and assignments will focus on strategies for self-assessment and self-reflection of one's own leadership skills, knowledge, and attitudes that foster and promote nursing leadership in diverse healthcare delivery settings, and strategies for best practice in nursing leadership in the 21st century.

**NUR 402 Scholarship in Evidence-Based Practice 3 Credits**

This course provides a foundation of evidence-based research principles to translate evidence into practice and how research informs professional nursing practice to improve patient safety and outcomes. Learning activities and assignments will focus on strategies for learning how to assess scientific merit of data-driven research, apply evidence-based practice in appropriate ways, monitor and evaluate the impact of evidence-based practice on informed nursing practice and outcomes of care as well as collaborate with interprofessional health care teams to improve patient safety and outcomes in a variety of healthcare delivery settings.

**NUR 403 Information Management and Application of Patient Care Technology 3 Credits**

This course provides a foundation of information management and application of patient care technology to enhance and improve patient safety and outcomes by examining linkages between information management systems and patient care technologies that support and are linked to safe nursing practice. The course examines how technology is used to inform nursing practice and enhance patient safety by applying safeguards and decision making support tools embedded in the technologies. Students are exposed to effective clinical information systems (CIS) to document nursing care, examine the ethical components of protecting patient information, challenges with data security, regulatory requirements, confidentiality and rights to privacy as well as examine the role of the professional nurse in updating and garnering information management resources and applying them in patient care settings.

**NUR 404 Healthcare Policy, Finance, and Regulatory Environments 3 Credits**

This course provides a foundation of U.S. healthcare policy, including financial and regulatory policies, as well as the nature and functioning of the U.S. healthcare delivery system. There is emphasis on policy processes at the organizational, local, state, national, and global levels. Learning activities and assignments focus on strategies for learning how to assess the role of the baccalaureate-prepared nurse in policy formation and reformation at all levels, demonstrating understanding of the political process at all levels, developing effective advocacy strategies for vulnerable populations, how to identify and influence key stakeholders in the policy process, the importance of effective communication of key healthcare issues, and how to influence change in the political process at all levels when there is social injustice.

**NUR 405 Interprofessional Collaboration and Communication for Improving Healthcare Outcomes 3 Credits**

This course provides a foundation of key concepts essential to promotion of effective interprofessional collaboration and communication for improving healthcare outcomes and patient safety. There is emphasis in the course on examination of the roles and perspectives of scope of practice for selected healthcare disciplines in intra-and interprofessional healthcare teams to improve healthcare outcomes and promote patient safety, and on effective strategies for advocacy and communication patterns in healthcare delivery settings as healthcare professionals develop trust and respect for all members of the healthcare team while recognizing unique differences and contributions of roles to patient safety and outcomes.

**NUR 406 Population Health Promotion and Prevention Across the Lifespan 3 Credits**

This course provides a foundation of key concepts essential to population-focused nursing, the aggregate, community or population as the unit of care. The focus of the course is on health promotion/disease prevention with emphasis on the professional nurse role in clinical prevention of disease and care of populations applying concepts of primary, secondary, and tertiary health promotion across the lifespan, identifying determinates of health, prioritizing primary prevention across the lifespan, actively identifying and targeting populations benefitting from evidence-based preventive initiatives and clinical preventive guidelines, assessment strategies for individuals and populations, applying evidence-based practice to health promotion/risk reduction, and being an advocate for vulnerable and disenfranchised populations without resources or a voice.

**NUR 407 Cultural Diversity in a Global Society 3 Credits**

This course provides a foundation of key concepts essential to nursing care and professional nursing leadership in assessment, planning, design, implementation, and evaluation of the knowledge, skills, and attitudes they must have as leaders of healthcare delivery focusing on improved system safety and effectiveness. There is particular emphasis on the nursing leadership role at the baccalaureate level for nursing to recognize, interrupt, evaluate, and correct healthcare errors and to implement safety principles and work with others to create a safe, caring environment for every healthcare delivery encounter as they provide care themselves, are acting in a leadership capacity, or are overseeing and delegating to other non-licensed assistive personnel. The course content focuses on identification, assessment, planning, design, and evaluation of evidence-based practice change to improve patient safety and outcomes.

**NUR 408 Gerontological Nursing Concept 3 Credits**

This course provides a foundation of key concepts essential to care of an aging population in a complex society. Given the diverse health status of the aging population, professional nurses must be able to develop competencies to provide high quality care to aging adults and their families or significant others. Specifically the course focuses on increased diversity and complexity of an aging society and selected health care needs, life transitions of aging adults, normal body system changes occurring with the aging process, the professional nurse role in principled care provided to a vulnerable population, and the role of the professional nurse as advocate and caregiver promoting the concepts of quality end-of-life care for aging adults, including pain and symptom management honoring the autonomy and self-wish of the aging client.

**NUR 409 BSN Capstone Evidence - Based Microsystem Practice Change 3 Credits**

This course provides a foundation for the baccalaureate nurse to have a solid understanding of the concepts of organizational and systems leadership, quality improvement, and safety that are essential to promoting high quality patient care impacting patient safety and outcomes. Professional nursing leadership skills are needed that emphasize ethical and critical decision-making, initiating and maintaining effective partnerships and working relationships, initiating and maintaining mutually respectful communication and collaboration skills within interprofessional healthcare teams, care coordination, delegation, and developing effective conflict resolution and consensus building strategies. Professional BSN nurses must be able to practice at the clinical microsystem level within ever changing, dynamic healthcare delivery settings and this course prepares the baccalaureate-prepared professional nurse with this knowledge, skills, and competencies to implement safety principles and work collaboratively with others on the interprofessional healthcare team to lead and participate in creating a safe, caring environment for healthcare delivery so every patient encounter is a safe, effective, and positive one through a 90-hour practicum in a selected healthcare organization.

**Philosophy (PHL)****PHL 100 Plato and Aristotle 3 Credits**

The beginnings of Western scientific and humanistic thought among the early Greeks and their progress into the two great systems of Plato and Aristotle. Selections from Plato and Aristotle are read and discussed to determine the meaning and significance of philosophical ideas that have subsequently influenced the whole history of Western civilization. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 102 Philosophical Thinking 3 Credits**

An introduction to philosophical thought with an emphasis on the enduring questions and problems of philosophy. We will explore such questions as: how do I know I am not dreaming? Is there an external world? What is truth? Is there a self? Is there a God? What is the relationship between the mind and the body? How can I tell right from wrong? What makes government legitimate? What is justice? What is the meaning of life? We will consider answers to these questions from diverse philosophical traditions, reading such philosophers as Plato, Descartes, Zhuangzi, Hume, Vasubandhu, Berkeley, Aquinas, Avicenna, Udayana, Kant, Mill, Russell, Camus, and Nishitani. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 110 Logic and Language 3 Credits**

A study of the logical structure of argumentation in ordinary language, with an emphasis on the relation of logic to the uses of language in practical affairs. Traditional informal fallacies are studied as well. Discussions explore the nature of validity, truth, meaning, and evidence in relation to the evaluation of arguments. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 115 Ethics 3 Credits**

A combined historical and systematic analysis of the problems of ethics. Such problems as the nature and meaning of moral values and judgments, moral responsibility and freedom, conscience and happiness, the good life, and the relativity of value, are explored through the writings of such philosophers as Plato, Aristotle, Aquinas, Kant, Mill, and Nietzsche. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 120 American Philosophy 3 Credits**

The development of philosophical thought in the United States from the colonial era to the 20th century. Studies such thinkers as Edwards, Jefferson, Emerson, Thoreau, Peirce, James, Dewey, and King, and their ideas on human nature, free will, religion, morality, and politics. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 125 Philosophies of Education 3 Credits**

Studies classical and contemporary theories of the nature, structure, and aims of education, including major works of such philosophers as Plato, Rousseau, and Dewey. The course will also introduce students to methods of critical philosophical analysis. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 130 Political Philosophy 3 Credits**

An introduction to the problems of political philosophy with an emphasis on recent and contemporary issues, such as the conflict between liberal and conservative ideologies, fascism, revolution, civil disobedience, and the concept of legitimate political authority. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 202 Social Philosophy 3 Credits**

Emphasizes social ethics through critical studies of such contemporary problems as abortion, euthanasia, the death penalty, pornography and censorship, animal rights, drug use, sexual morality, environmental ethics, and world hunger. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 203 Business Ethics 3 Credits**

Surveys and examines ethical problems concerning the institutions and practices of contemporary business. Problems considered include: the conflicts of economic freedom and social responsibility; the relation of profits to work and alienation; the responsibilities of business to employees, minorities, consumers and the environment; the role of truthfulness in business practices; and the ethics of self-fulfillment and career ambitions. Readings selected from works of contemporary and historical philosophers, social theorists, and business people.

**PHL 207 Asian Philosophy 3 Credits**

A survey of the principal philosophical perspectives of Asia. Emphasis on the traditional Indian schools of Hinduism, Jainism, and Buddhism, Chinese Confucianism and Taoism, and the development of Zen Buddhism in China and Japan. Philosophical topics include: mystical experience, the ultimate nature of reality, the existence of a soul, the causes of human suffering, and the possibility of release, the nature of virtue and its development, and the nature of society and government. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 210 Symbolic Logic 3 Credits**

An introduction to logic from the standpoint of modern symbolic methods, including techniques of formal deductive proof, quantification, the logic of relations, and properties of formal deductive systems. Discussions focus on philosophical issues in recent and contemporary logical theory. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 215 Environmental Ethics 3 Credits**

A comprehensive introduction to environmental ethics that examines the major theoretical approaches, including anthropocentric (human-centered), zoocentric or sentientist (animal-centered), and biocentric or ecocentric (nature-centered) value systems, as well as the most important critiques of these ethical approaches. We will examine and analyze several classical ethical theories that are particularly relevant to a study of contemporary environmental controversies. We will also address specific issues such as biodiversity and wilderness preservation; human use of animals as food, entertainment, and research subjects; environmental racism and toxic dumping; sustainable development, population and consumption. Students will analyze and discuss the ethical dimensions of several contemporary environmental controversies. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 225 Modern Philosophy 3 Credits**

Examines one of the most exciting periods in the history of philosophy during which philosophers from Descartes to Kant tried to come to terms with the following questions: What is knowledge? Can we know the physical world exists? Can we have scientific knowledge? Can we know God exists? Can we even know whether we exist? The works of Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume and Kant are read and discussed. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 226 Limits of Reason: 19th Century Philosophy 3 Credits**

Studies the nature and meaning of reason, freedom, individuality, and society in the writings of philosophers such as Fichte, Hegel, Schopenhauer, Emerson, Thoreau, Comte, Mill, Spencer, Marx, and Nietzsche. Examination of the impact of such philosophies as the dialectical theory of history, transcendentalism, evolutionary theory, positivism, and existentialism on ideas about the nature and limits of human reason.

**PHL 230 Philosophy of the Sexes 3 Credits**

Studies philosophical views of the differences between the sexes, sexual equality, love, marriage, and the family from ancient Greece to the 20th century. Texts from the contemporary women's and men's movements will also be examined. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PHL 252 The Nature of Art 3 Credits**

An inquiry into the nature of art, creativity, aesthetic experience, and value. Special attention to the importance of art in relation to the nature of man and society. Readings from classical theories of art (Plato, Hegel, Schopenhauer, Croce, Santayana), as well as from contemporary analyses of 20th-century art.

**PHL 300 Philosophy and Civilization 3 Credits**

An investigation of the rise and fall of civilizations in history, studying philosophical questions such as is history cyclical? Linear? Progressive? Directed toward a final goal? What is the role of the individual in history? Of economic, political, sociological, and psychological causes? Does history have a meaning? The works of St. Augustine, Vico, Hegel, Marx, and Toynbee, and the contemporary debate about the "clash of civilizations" between Islam and the West will be discussed.

**PHL 303 Philosophy of Law 3 Credits**

An examination and analysis of selected topics including classical and contemporary theories in the philosophy of law and moral philosophy. Such topics as the nature of the law and legal reasoning, the legal enforcement of morality, protection of personal liberty, and the moral justification of punishment are considered. Such philosophers as Aquinas, Austin, Holmes, Bentham, Hart, and Dworkin are read and discussed.

**PHL 304 Medical Ethics 3 Credits**

Introduces the student to ethical problems associated with the practice of medicine, the pursuit of biomedical research, and health care social policy. The course will explore such issues as: Is a physician morally obligated to tell a terminally ill patient that he or she is dying? Is society ever justified in enacting laws that would commit an individual, against his or her will, to a mental institution? Does society have a moral obligation to ensure that all its members have access to health care? To what extent, if at all, is it ethically acceptable to clone a human being? Under what conditions is human experimentation ethically acceptable?

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 305 Philosophy of Religion 3 Credits**

An inquiry into the meaning, significance, and fundamental problems of religion as they appear in their philosophical perspective. The relation between religion and science, between faith and reason; religious experience, religious truth, and symbolism, etc. will be explored. Selections from the works of Anselm, Aquinas, Augustine, Paley, Hume, Kant, James, and Wittgenstein will be discussed.

**PHL 310 Problems in 20th-Century Philosophy 3 Credits**

Consideration of major philosophical movements in the 20th century such as phenomenology, existentialism, pragmatism, and analytic philosophy. Within these movements such topics as the function of analysis, language and meaning, the nature of values, the nature of persons, the synthetic-analytic distinction, the mind-body problem, and the possibility of metaphysics are considered. The work of such figures as Wittgenstein, Russell, Heidegger, Husserl, Sartre, Whitehead, and Dewey are read and discussed.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 315 Existentialism 3 Credits**

Historical development and contemporary problems of existentialism with emphasis on the nature of man, his ability to know his situation, the relation between existence and essence, and the meaning of human life and activity. The works of such figures as Kierkegaard, Sartre, Heidegger, Camus, Kafka, Beckett, Buber, Laing, and Frankl are read and discussed.

**PHL 320 Philosophy of Science 3 Credits**

The logic of fundamental concepts of science and scientific methods are studied. Patterns of explanation are examined to understand the functions of laws, theories, and predictions in science. Inquiry is made into the relation between mathematics and empirical science; similarities and distinctions between the natural and social sciences. The role of science in human affairs and the value of scientific knowledge.

**PHL 334 Theories of Knowledge 3 Credits**

An investigation of selected, representative theories of knowledge from classical and contemporary sources. Considers the analytic-synthetic distinctions, necessary truth, and the foundations of empirical knowledge. Such philosophers as Leibniz, Hume, Kant, Russell, and Quine are read and discussed.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 336 Philosophy of Mind 3 Credits**

An investigation of the nature, existence, and capacities of the mind and self in the light of recent philosophical and psychological theories, including psychoanalysis and behaviorism. Considers such topics as the interaction of mind and body, the unconscious, minds and machines, freedom of thought and action.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 343 Theories of Reality 3 Credits**

An examination of metaphysical problems with an emphasis on philosophical views of human nature from ancient Greece to contemporary evolutionary theories. The writings of such classical, modern, and contemporary figures as Plato, Aristotle, Descartes, Kant, Hegel, and Darwin are read and discussed. Issues studied include the relation between mind and matter, freedom and determinism, and the existence of God.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 348 Indian Philosophy 3 Credits**

Consideration of major movements in the philosophical tradition of India. Emphasis on the disputes between the traditional Hindu and Buddhist schools of the classical period over logic, knowledge, and reality. Philosophical topics include: skepticism, the problem of universals, realism and idealism, the nature of perception, the problem of induction, the nature of causality, and the problem of identity over time. Philosophers such as Nagarjuna, Vasubandhu, Vatsyayana, Dharmakirti, and Udayana will be read and discussed.

**PHL 358 Chinese Philosophy 3 Credits**

Consideration of major movements in the philosophical tradition of China. Emphasis on the political philosophies of ancient China. Topics include: human nature and the development of virtue, the nature and purpose of government, and the cognitive value of mystical experience. Philosophers such as Confucius, Laozi, Xunzi, Mencius, Mozi, and Zhuangzi will be read and discussed.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 360 Contemporary Ethics 3 Credits**

An examination of recent and contemporary challenges to traditional ethical theory including such movements as logical positivism, cultural relativism, feminism, environmentalism, multiculturalism, and postmodernism. Such problems as the meaning and cognitive status of value judgments, the relation between fact and value, the relativity of values, and how value judgments can be justified are considered.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 368 Japanese Philosophy 3 Credits**

Consideration of major movements in the philosophical tradition of Japan, with an emphasis on Zen Buddhism in Medieval Japan and the Kyoto school in the 20th century. Topics include: the use of meditation and koans in Zen practice, the relationship between practice and enlightenment, the nature of time, meaning and nihilism, and the relationship between science and religion. Philosophers such as Kukai, Mumon, Dogen, and Nishitani will be read and discussed.

**Prerequisite(s):** CMP 125 or CMP 203 or BHP 150.

**PHL 402 Nietzsche and Nihilism 3 Credits**

A seminar dealing with Nietzsche's provocative ideas on nihilism and the possibility of creating meaning, value, and truth for human existence. Many of his important works are read, analyzed, and critically discussed. Recent scholarly interpretations of Nietzsche's philosophy are considered.

**Prerequisite(s):** any previous philosophy course or permission of instructor.

**PHL 404 Philosophy of Wittgenstein 3 Credits**

Seminar involving a concentrated study of Wittgenstein's contributions to philosophy with special attention to his analysis of language, meaning, and mental concepts.

**Prerequisite(s):** any previous philosophy course or permission of instructor.

**PHL 406 Philosophy of David Hume 3 Credits**

Seminar involving a concentrated study of Hume's contributions to philosophy, including his work on epistemology, metaphysics, ethics, philosophy of science, and philosophy of religion.

**Prerequisite(s):** any previous philosophy course or permission of instructor.

**PHL 407 Philosophy of Hannah Arendt 3 Credits**

Seminar involving a concentrated study of the philosophy of Hannah Arendt with special attention to her analysis of action, thought, and freedom.

**Prerequisite(s):** any previous philosophy course or permission of instructor.

**PHL 408 The Philosophy of William James 3 Credits**

Seminar involving a concentrated study of William James' contributions to philosophy with special attention to his pragmatism, pluralism, and radical empiricism. Many of James' philosophical works are read, analyzed, and critically discussed. Recent scholarly interpretations of James' philosophy are considered.

**PHL 418 Great Buddhist Thinkers 3 Credits**

Concentrated study of a single Buddhist philosopher, emphasizing the systematic views of that philosopher across a range of philosophical issues. Through an examination of primary sources in translation and recent scholarship, students will investigate the views and arguments of one important figure from the Buddhist philosophical tradition on a variety of philosophical problems regarding knowledge, existence, consciousness, religion, and ethics.

**PHL 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**PHL 491 Internship in Philosophy 1-4 Credits**

Students will work under supervision within an area hospital, corporation, or legal agency. The specific duties and tasks will be developed jointly by the intern, intern agency, and faculty supervisor. Within the hospital setting, students will work with the Hospital Medical Ethics Committee. Within the corporate setting, there will be two types of internships: students will work in the corporate office responsible for addressing the ethical issues that arise in the business environment; or students will work in a department that allows them to explore the potential business applications of their philosophic intellectual training. Within the legal setting, students will work with the federal magistrate, prosecutor, or public defender, exploring issues in the philosophy of law that arise in the practice of law. Students must have completed four philosophy courses, one at the 300 level, before applying for the internship. No more than six credits will be allowed toward graduation. A member of the department of philosophy will supervise the internship.

**Prerequisite(s):** juniors and seniors with a minimum of 2.7 cumulative GPA and 3.0 GPA in philosophy, or permission of the department of philosophy.

**PHL 494 Preparation and Research for Senior Philosophy Thesis 1 Credits**

Supervised by a faculty member, the Philosophy major chooses a topic, composes an outline and a bibliography. Must be completed prior to enrolling in PHL 495.

**PHL 495 Senior Philosophy Thesis 3 Credits**

In a tutorial setting, the Philosophy major will write a thesis which serves as the Capstone Experience in the Department.

**Prerequisite(s):** PHL 494.

## Physics (PHY)

**PHY 100 Principles of Physics I 3 Credits**

Introductory noncalculus physics with applications for pre-professional, biology, and geological, environmental and marine sciences majors. Classical mechanics, energy, mechanical waves, fluid statics and dynamics, thermodynamics. Elements of modern physics are interwoven with those of classical physics from the beginning. Not open to chemistry, physics, or mathematics majors. Three hours of lecture per week. **Prerequisite(s):** MTH 105, MTH 210, MTH 211 or MTH 212. **Corequisite(s):** PHY 100L.

**PHY 100L Principles of Physics I Lab 1 Credits**

For students concurrently taking PHY 100. One three-hour lab per week. **Corequisite(s):** PHY 100.

**PHY 101 Principles of Physics II 3 Credits**

Continuation of Physics 100. Electrostatics, electricity, and magnetism; DC and AC circuits, physical and geometrical optics, introduction to elementary particle and quantum physics. Three hours of lecture per week. Prerequisite(s): PHY 100.

**Corequisite(s):** PHY 101L.

**PHY 101L Principles of Physics II Lab 1 Credits**

For students concurrently taking Physics 101. One three-hour lab per week.

**Corequisite(s):** PHY 101.

**PHY 103 Science of Light and Color 3 Credits**

An introduction to the science of light, color, and optics. Covers history of theories of light and vision, applications in art, photography, natural phenomena (rainbows, mirages, etc.), and modern technology, e.g., lasers and telecommunications. Many topics are illustrated by in-class demonstration experiments with lasers and other optical devices.

**PHY 104 Energy, the Environment & Man 3 Credits**

The many vital roles played by energy in the universe at large, on the earth, and in the activities of man are examined, including the basic sources of energy, the impact upon the environment due to these processes and possible future sources. A high school course in physics or chemistry is desirable but not necessary.

**PHY 105 Matter, Forces, and Energy: A Exploration of Physics Concepts 4 Credits**

An introduction to the basic principles of physics focusing on the concepts of matter, force, and energy. The course will study, in depth, simple physical systems chosen to emphasize the interconnection of these three basic concepts. It will explore the behavior of these simple physical systems using directed group exercises coordinated with hands-on laboratory activities. One three-hour lecture and one three-hour lab per week.

**PHY 105L Matter, Forces and Energy Lab 0 Credits****PHY 180 Astronomy 3 Credits**

Examines mankind's quest to understand the origin and form of the universe. Emphasis on the ideas of modern cosmology and their impact on our changing perception of our place in the universe, making use of information gleaned by simply looking at the night sky as well as post Apollo-era views of the solar system and the evolving universe as a whole.

**PHY 200 General Physics I 4 Credits**

Introductory classical physics; Newtonian mechanics, including the conservation laws, wave motion, gravity, thermodynamics. Three hours of lecture and one three-hour lab per week. Prerequisite(s): MTH 210 or as corequisite.

**Corequisite(s):** PHY 200L.

**PHY 200L General Physics I Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PHY 200.

**PHY 201 General Physics II 4 Credits**

A continuation of the concepts developed in Physics 200. Electricity, electrical circuits, magnetism, Maxwell's equations. Light and optics, including lenses, interference, and diffraction. Three hours of lecture and one three-hour lab per week. Prerequisite(s): PHY 200, MTH 211 or concurrent enrollment.

**Corequisite(s):** PHY 201L.

**PHY 201L General Physics II Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PHY 201.

**PHY 203 Introduction to Modern Physics 3 Credits**

Covers space-time relativity, elementary particles, and basic quantum mechanics, including solutions of the Schrodinger wave equation. Applications of quantum theory in atomic, nuclear, and solid-state physics.

**Prerequisite(s):** PHY 201 or permission of instructor.

**PHY 250 Scientific Computing 3 Credits**

Introduces students to modern techniques and applications of scientific computing. Students will learn to write code in python, a popular, modern programming language used by scientists and industry around the world. They will also retrieve and analyze large datasets using SQL, a standard database language. Students will develop their own software and learn to manage it online using github, an online code repository.

**PHY 300 Mechanics 3 Credits**

Kinematics and dynamics of particles and systems, analysis of harmonic oscillator systems, normal modes, Lagrangian and Hamiltonian dynamics and classical waves are studied.

**Prerequisite(s):** PHY 201, MTH 250.

**PHY 305 Electricity and Magnetism 3 Credits**

Electro- and magnetostatics, fields and potentials, and boundary value problems are covered.

**Prerequisite(s):** PHY 201, MTH 250.

**PHY 310 Advanced Electricity and Magnetism 3 Credits**

Maxwell's equations; electromagnetic waves in vacuum and in material media; radiation, propagation, reflection, and refraction.

**Prerequisite(s):** PHY 305, MTH 308.

**PHY 315 Thermodynamics and Statistical Mechanics 3 Credits**

Thermodynamic systems; the first and second laws of thermodynamics; entropy and thermodynamic potentials; distribution of molecular speeds; Maxwell-Boltzmann, Bose-Einstein, and Fermi-Dirac distributions.

**Prerequisite(s):** PHY 201.

**PHY 320 Quantum Mechanics 3 Credits**

Historical background; the Bohr Theory; the Schrodinger equation, its interpretation and applications; the uncertainty and exclusion principles; development of the formalism.

**Prerequisite(s):** PHY 300.

**PHY 330 Basic Electronics 3 Credits**

An experimental study of devices and circuits in analog and digital electronics. No previous experience with electronic circuits is assumed; introductory topics including signal acquisition, computer interfaces, and analog/digital signal processing will be covered. One hour of lecture plus two three-hour labs per week.

**Prerequisite(s):** PHY 201 or permission of instructor.

**PHY 350 Advanced Laboratory 2 Credits**

Experiments in atomic and nuclear physics, electricity and magnetism, and physical optics. Students have the opportunity to work intensively on a particular experiment. Minimum of five to six hours per week.

**PHY 400 Atomic Physics 3 Credits**

Quantum mechanics and the one-electron atom; atomic structure and optical spectra of multi-electron atoms. Quantum statistics, band theory of solids.

**Prerequisite(s):** PHY 320.

**PHY 405 Fundamentals of Nuclear Physics 3 Credits**

Nuclear mass and size; nuclear forces and some models of the nucleus; radioactivity and detection; subnuclear particles and resonances.

**Prerequisite(s):** PHY 320.

**PHY 415 Physical Optics 3 Credits**

Waves and the superposition principle; interference, Fraunhofer and Fresnel diffraction; electromagnetic nature of light; absorption and scattering; dispersion; polarization.

**Prerequisite(s):** PHY 201, MTH 250.

**PHY 416 Modern Experimental Optics Lab 1 Credits**

A laboratory course in geometrical and physical (wave) optics, designed to supplement the material presented in PHY 415. Serves as an introduction to the optical equipment and techniques that are employed in laboratory research. A series of experiments cover the topics of polarization, interference, image formation, Fourier optics and lasers, and optical spectroscopy.

**Prerequisite(s):** PHY 201.

**PHY 450 Topics in Modern Physics 3 Credits**

A selected topic of contemporary interest in physics, e.g., general relativity and gravity waves, is studied. Emphasis on current journal literature and research. May be taken more than once with departmental approval. An excellent introduction to independent research in one area of physics.

**Prerequisite(s):** PHY 201.

**PHY 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

**PHY 491 Internship in Physics 1-4 Credits**

A supervised research experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations under the guidance of a mentor. The mentor and student will have regular consultation with the departmental internship coordinator to assess the student's progress. Normally, 50 hours of internship per credit is required. The grade for the course will be determined by the student's overall performance in their research work, a research paper documenting their work with their internship mentor and an oral or poster presentation at the end of the semester.

**Prerequisite(s):** 2.5 GPA and permission of the instructor.

**POL 100 Introduction to American Politics 3 Credits**

An examination of basic principles of the U.S. constitutional system; the operation of the democratic process; the organization, powers and procedures of Congress, the presidency and the federal judiciary; and the functions, services, and financing of the national government. Emphasis is on public issues, national priorities, and civil liberties. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Note: This course is cross-listed as HLS 100. Students may not get credit for both POL 100 and HLS 100.

**POL 102 Understanding Politics 3 Credits**

Introduction to the study of politics and government, including major political theories and ideologies, systems of government (i.e., presidential, parliamentary, authoritarian, totalitarian), public opinion and behavior, international relations and war, and contemporary policy issues. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**POL 200 NJ Government and Politics 3 Credits**

Political institutions, processes, and problems of state and local governments of New Jersey. Analysis of legislative, executive, judicial, regulatory bodies, special districts, and autonomous agencies. Aspects of personnel, finance, and services.

**POL 201 Policy Issues, Advocacy, and Budgeting 3 Credits**

Surveys various domestic economic and social policy issues, the government budgeting process, and how citizens and groups advocate their interest through organizing, coalition-building and lobbying. Emphasis on developing practical skills in issue analysis, lobbying, legislative tracking, and public budgeting.

**POL 202 The Political System - Theories and Themes 3 Credits**

This course serves as a gateway to the subfields of comparative politics and international relations. The concept of the political system helps political scientists to organize political interrelations into patterns that allow systematic selection and interpretation of information and the study of processes and outcomes of politics in a variety of settings. The course introduces students to the main brands of normative theory prescribing the principles directing the operation of the political system, to some of the most important methods used to compare political systems and/or their components, and to the foremost approaches utilized in the study of the relations between political systems and their environments. Note: This course is cross-listed as HLS 202. Students may not get credit for both POL 202 and HLS 202.

**POL 203 Homeland Security 3 Credits**

The course is designed to help students increase their knowledge and understanding of homeland security policy. The course will consider why and how homeland security problems impact the public agenda, why some solutions are adopted and others rejected, and why some policies appear to succeed while others appear to fail. The course will primarily examine policy making at the national level in the United States, but will also analyze examples at the state and local level, as well as placing U.S. policy in a comparative perspective. Note: This course is cross-listed as HLS 203. Students may not get credit for both HLS 203 and POL 203.

## Political Science (POL)

**POL 204 Development and Structure of the US Intelligence Community 3 Credits**

This course provides a historical review of intelligence following World War II. It will examine the major functions of intelligence, as well as intelligence as a part of the foreign policy process: collection, analysis, counterintelligence, and covert action. Students will be introduced to a range of collection procedures: human, open source, electronic, photographic, and signal, with emphasis placed on interpreting and writing intelligence summaries. Note: This course is cross-listed as HLS 204. Students may not get credit for both POL 204 and HLS 204.

**POL 205 Introduction to Public Policy 3 Credits**

The course provides students with an introduction to the study of public policy by linking the theoretical with the practical. The course focuses on three areas of analysis: 1) descriptive 2) evaluative and 3) prescriptive. Students will develop skills required to define and critically examine policy problems, articulate relevant decision-making criteria and assess alternative policy options. Last the course provides examples of public policy problems through the substantive policy areas of health, environment and education.

**POL 206 Healthcare Regulation and Governance 3 Credits**

Health Regulation and Governance explores the institutions, processes and actors involved in governing and regulating the healthcare system in the US. The course engages the topic through the lens of federalism by examining the role of the Executive, Legislative and Judicial branches of government in regulating and governing healthcare at the national level as well as the role of the states in this policy area. Students will not only be introduced to the structure of regulation and governance of healthcare in the US, but will also be able to contextualize contemporary issues in healthcare in order to not simply address problems in the sector, but to also begin to identify solutions to issues that impact the population.

**POL 210 Public Opinion 3 Credits**

Public opinion as a social force and as expression of public sentiment on political and social issues. Topics include: development and dissemination of opinions, the measurement of public opinion, public opinion and governmental processes, and the reciprocal relationship between mass media and public opinion. Note: This course is cross-listed as GLS 210. Students may not get credit for both POL 210 and GLS 210.

**POL 215 Global Politics 3 Credits**

The struggle for power, wealth, and order at the global level involving nation-states, intergovernmental organizations (such as the United Nations, the European Union, etc.), non-governmental organizations, transnational enterprises and other non-state entities, using military, economic, diplomatic, legal, and communication instruments. Overview of global problems such as the proliferation of weapons of destruction, ethnic and religious conflicts, human rights, and the global environment at the threshold of the 21st century. Real-time use of the Internet is an integral aspect of this course in terms of readings and assignments. (This course is a prerequisite for POL 295 Special Projects in Political Science: Model United Nations.) Note: This course is cross-listed as GLS 215. Students may not get credit for both POL 215 and GLS 215.

**POL 216 Comparative Political Systems 3 Credits**

A general introduction to types of government and political regimes of the world as they try to cope with the dual challenge of ethnic micropolitics and transnational globalization. Major prototypes of democracy: the British parliamentary system, the American separation of powers system, and various combinations of these two. Traditional autocracy, totalitarian dictatorships, and late 20th-century authoritarian regimes. Students are expected to acquire in-depth knowledge of comparative political systems, and to develop a basic understanding and appreciation of the major concepts and themes in comparative political systems studies.

**POL 218 Asian Political Systems 3 Credits**

(Formerly the Pacific Rim in the 21st Century) This course aims to provide students with an understanding of the fundamentals of the government, politics, economic development as well as the history and culture of countries along the Pacific Rim. The countries examined include China, Taiwan, Hong Kong, Singapore, Japan, South Korea and North Korea. Students are expected to understand 1) the democratization wave and efforts across the Pacific Rim countries and regions, 2) the economic development of these countries and regions and the consequential sociopolitical impact, and 3) concepts of political institutions and political culture in a comparative perspective.

**POL 220 Terrorism & Counter Terrorism 3 Credits**

This course introduces students to the arguments about the definition of terrorism, the historical use of terrorism and the roles of ideology, religion, and psychological factors that help explain and predict it. The course seeks to identify the components of national security policy aimed at countering such elements and their cost, both in financial and civil right terms. Finally, to illuminate both the definition and the policies discussed, the course will offer brief comparisons with other states, especially Israel, the UK, and Russia.

**POL 225 Nationalism in World Politics 3 Credits**

Nations and nationalism. An overview of nationalistic manifestations in the world today. Nations, states, nation-states. Multinational states, stateless nations. Imperialism, anti-imperialism; nativism vs. internationalism and globalism. Topics include nationalisms in the Holy Land; in the former Yugoslavia; in the former Soviet Union and its successor states; and economic Nationalism vs. Globalization. Note: This course is cross-listed as GLS 225. Students may not get credit for both POL 225 and GLS 225.

**POL 230 Methods of Political Analysis 3 Credits**

An overview of the various qualitative and quantitative methods that political scientists use to study their discipline. Themes include analyses of political participation and support, methods of studying elections, measures of political tolerance and liberalism.

**POL 235 Race and Ethnicity in American Politics 3 Credits**

Examines the changing political, economic, and social situation of racial and ethnic groups in American politics since the 1950s. Topics include the relationship between race/ethnicity and voting behavior, political parties, and election results. Includes an analysis of specific areas of contemporary racial and ethnic conflict, such as voting rights, immigration, and affirmative action.

**POL 239 Political Thinkers & Thought 3 Credits**

A survey of the most significant political thought from ancient times into the modern era. Subject matter includes discussion of such questions as the nature of freedom, natural law and right, constitutionalism, political obligation, justice, form of regime.

**POL 247 Political Campaigning 3 Credits**

This course entails the study of campaigning for political office at the federal, state and local levels in the United States. While attention will be given to how the broader political environment and specific factors, e.g., the decline in partisanship, hot button issues, local interests, and money, affect the nature of campaigns, the course's primary focus will be on how to organize and conduct a successful and ethical campaign, including how to collect and analyze pertinent data, manage a staff, develop a communications plan, and get out the vote.

**POL 255 European Politics 3 Credits**

A comparative analysis of the social and political systems of Britain, France, Germany and other Western countries within the European framework. Emphasis will be on the identification of ways in which countries similar in social characteristics are also similar in their political systems and on the extent and circumstances under which they differ. Similarities and contrasts will also be drawn with political structures and processes in the United States. This course, on occasion, may contain an optional travel component during January.

**POL 260 Politics of Law and Order 3 Credits**

The constitutional, legal, political, and administrative aspects of the criminal justice system in the United States are studied, including the court system at all levels of government, law enforcement agencies, correctional programs and institutions, probation, parole, and the relationship of our legal institutions to the broader political system.

**POL 267 China in Transition 3 Credits**

This course aims to provide students with an understanding of the history, government, politics, economic development as well as political culture of the People's Republic of China. Students are expected to acquire in-depth knowledge of China's political history, government structure and China's economic development and consequential sociopolitical impact. At the same time, students are expected to develop a basic understanding of the concepts of studying Chinese political institutions and political culture in a comparative perspective.

**POL 270 Interest Groups and Lobbying 3 Credits**

The course will introduce students to the area of interest groups and lobbying. Topics to be covered include theoretical developments, methodological approaches of group formation, organizational maintenance, and strategies used to influence public policy in the executive, legislative, and judicial branches of government.

**POL 272 Politics of Latin America 3 Credits**

The course will begin by discussing Latin American nations from the point of view of their common ancestry in European colonization, including the ways in which European cultural and economic patterns were introduced into indigenously populated areas, how these persisted after independence from European imperialist regimes and the U.S., and how these legacies have their continued effects into the present. The course continues with inquiry into the domestic politics and governmental systems of a number of Latin American nations. The course also takes up present day relations between Latin American political systems, the United States, and various organizations of the global economy such as International Monetary Fund, the World Bank, and the World Trade Organization.

**POL 280 Sex & Politics 3 Credits**

The bearing of gender upon politics: whether political activity is more characteristic of one or the other sex; the comparative fates of male and female in political society; the political implications of change in the content and mutual status of masculinity and femininity. Inquiry into classical, traditional, and contemporary views.

**POL 295 Special Topics in Political Science 3 Credits**

For non-seniors who engage in serious research in political science. Topic to be approved by instructor and department chairperson.

**POL 300 U.S. Constitutional Law 3 Credits**

The role of the Supreme Court in the American political system is assessed. Topics include the staffing and functioning of the Supreme Court and the federal judicial bureaucracy, the origins and development of judicial review, and the role of the Supreme Court in national policy-making. Note: This course is cross-listed as HLS 300. Students may not get credit for both HLS 300 and POL 300.

**POL 301 Civil Liberties in the U.S. 3 Credits**

The American doctrine of civil liberties in theory and practice. Emphasis on analyzing the freedoms of speech, press, assembly, and religion, the right of privacy, and the problem of discrimination in the context of contemporary issues and problems. Particular attention to the role of the Supreme Court in this area. Note: This course is cross-listed as HLS 301. Students may not get credit for both HLS 301 and POL 301.

**POL 302 Insurgency 3 Credits**

The course explores the occurrence of insurgencies and civil wars. It examines the causes of such conflicts by focusing on the role of resources, state capacity, ethnic/religious differences and power in the initiation of violence. Students will learn how recruitment tactics and access to funding sustain guerrilla warfare. Lastly, the course will focus on conflict management by emphasizing specific tools for terminating and preventing intrastate conflicts including the impact of international interventions, counterinsurgency strategy of winning the hearts and minds, institutional design, and reconciliation.

**POL 303 Global Justice 3 Credits**

This course examines some of the most vexing problems in today's world of global interconnectedness. How can we harness the potential of global cooperation to solve problems that cross national borders? We will critically analyze the potential for human rights to protect vulnerable individuals, including victims of human trafficking. We will also evaluate the distribution of global resources and costs, including natural resources, extreme poverty and environmental degradation. What do we owe those who live in distant lands? Throughout we will ask how reality matches up to our best hopes for the present and future.

**POL 304 Political Behavior: Fear, Risk and Crisis 3 Credits**

The course focuses on various analytical approaches in behavioral political science. It does so by advancing students' knowledge of the cognitive aspects of whether citizens engage in various types of political behavior-e.g., voting/non-voting, the formation of political partisanship and ideology, issue perceptions, responding to risk and uncertainty in the political environment, and engaging in civic political participation. Note: This course is cross-listed as HLS 304. Students may not get credit for both POL 304 and HLS 304.

**POL 305 Political Parties and Electoral Behavior 3 Credits**

The structure, character, and functions of U.S. political parties and pressure groups, and their impact on public policy. Parties are analyzed within the broader scope of organizational theory and comparative party systems. Major emphases on their historical origins, their role in contemporary political life, and particular aspects of party politics—local organization, membership, campaigning and elections, policy-making roles, and leadership.

**POL 306 Political Film 3 Credits**

This course analyzes the structure, history, and impact of the genre of political film. It begins with a discussion of how one distinguishes a political film from other forms of cinema. It then proposes insights into the manner in which these films evoke a particular time and place in politics, affect the viewer's interpretation of a political event or figure, and have an effect upon a viewer's political perceptions or behavior. The student will also learn to review films critically, both as political statements and as effective (or ineffective) conveyors of political messages. Note: This course is cross-listed as GLS 306. Students may not get credit for both POL 306 and GLS 306.

**POL 307 Political Communication 3 Credits**

The meaning and uses of political communication are examined, the manner and forms such communication takes, and the history of political discourse. Major topics include the role of communication in elections and the development of public policy, how political communication strategies have changed with the rise of mass media, and the development of national and international publics for discourse. Note: This course is cross-listed as GLS 307. Students may not get credit for both POL 307 and GLS 307.

**POL 308 Capitalism and Inequality 3 Credits**

This class is about market economies: how they are theorized, how they operate, and how they affect the humans who live and work within them. The first part of this course offers an overview of major modern theorists of capitalism (with selections chosen for a political science audience), including Smith, Veblen, Schumpeter and Keynes. These thinkers have made influential contributions to debates about the proper role of government in regulating and shaping economic relations and conditions. We then turn to contemporary theories of distributive justice, including libertarianism and egalitarianism. The second half of the course explores realities of socioeconomic inequality, the experience of poverty in the U.S., as well as the kinds of policies which might alleviate or resolve various dimensions of inequality and poverty. This course prepares students to evaluate public policies and articulate policy positions while attending to their economic and human costs.

**POL 309 Will China Be Next Superpower? 3 Credits**

This course has two focal points: one is the rise and fall of great powers in the history of world transformation; the other is China's whereabouts in this transition. The former deals with a group of International Relations theories, which focuses on systematic transformation. Students are expected to learn extant theoretical knowledge on how and why a great power rises and falls. The latter is our empirical referent. Students are led to study China's contemporary history, geopolitics, political economy, and international relations as to make a learned connection between theoretical wisdom and practical data on China. This course will provide students with a better understanding of China in general and its superpower status in the making in world politics in particular, offer students a chance to review the sources and consequences of different national approaches to greatness, and help students find his or her own analytical framework for understanding international political events that may have transforming effects in Northeast Asia as well as on the world stage. This course is cross-listed as GLS 309. Students may not get credit for both POL 309 and GLS 309.

**POL 310 Political Psychology and Human Nature 3 Credits**

The 2016 presidential campaign season saw a marked increase in partisanship, polarization, animosity and resentment among Americans, mirroring a worldwide trend toward "tribalistic" group identification at the expense of outsiders. Why can't we all just get along? What makes it so hard to sympathize with those who seem different or unfamiliar, and so easy to assume the worst about them? This course will bring together classic political theory, psychology and the social sciences, in order to help explain political beliefs and behaviors. We will begin by considering how classic political theory has conceptualized human nature, and the various implications for political life. We will then consider scientific perspectives: evolutionary anthropology, social psychology and cognitive neuroscience. We will examine the role of bias in cognition and politics and we will critically interrogate assumptions about rationality. We will also see that different psychological dispositions underlay conservatism and liberalism. Ultimately, this course will consider how these features of human cognition shed light on partisanship and polarization, racial bias, and policy preferences, including popular reception of science concerning vital issues such as climate change and the safety of GMOs. We will conclude with considerations of how a better understanding of psychology might propel us toward a more productive political discourse.

**POL 311 Sovereignty, the State and Borders 2 Credits**

Borders have a prominent place in politics and human history. In the twentieth century, the best known barriers were the militarized Maginot Line and the Iron Curtain. Today, the political popularity of borders persists but the nature and quality of these borders and the threats they are created to repel have changed. Modern borders are designed not to keep militaries out, but to deter a perceived invasion of "undesirables"—with terrorists and unwanted immigrants leading the list of state concerns. Nowhere is this more evident than along the geographic fault lines dividing rich and poor regions, e.g. the Mediterranean Sea and the U.S.-Mexican border region. This course will examine the dynamic interactions between the question of how to govern one's borders and the twenty-first century liberal state with its diluted sovereignty—due to immigration, trade and international laws and regimes. In the first post-Cold War decades it was intellectually fashionable to dismiss borders as increasingly irrelevant to the human experience in the age of globalization. Scholars saw the significance of national borders for the Western world as having been vastly reduced by the three forces of military change, economic development and modern communication technologies (Horsman and Marshall 1994). Some free market liberals have even popularized the notion of an emergent "borderless world" (Ohmae 1990). These cheerful views stressing the benign, pacifying effects of economic integration and interdependence that must lead to a rollback of the state and the erosion of borders, came crashing down on September 11, 2001. After two decades of debordering, the new rules of the game focus on rebordering, and the importance of state with its reassertion of border controls and an ideological redefinition of border functions (Andreas and Snyder 2000). To be sure, borders, with all their practical and formal features, are increasingly just one element in a larger emergent operational sp.

**POL 312 Congressional Politics 3 Credits**

An intensive analysis of the legislative process in the United States, considering both the internal organization and operation of Congress, and Congress' role in the broader American political system. Fundamental issues include the theory and practice of representation; the committee system, seniority and expertise; executive and legislative interaction; and the politics of congressional reform.

**POL 313 American Presidency 3 Credits**

A description and analysis of the American presidency: its historical development, the internal organization, and ecological context. Basic issues include the intent of the framers of the Constitution, the historical accumulation of presidential powers, and institutional limits on presidential power (e.g., Congress and the bureaucracy).

**POL 314 Congressional Power and National Security Policy 3 Credits**

The purpose of this course is for students to identify, examine, analyze, and interpret the role of Congress in shaping national security policy with a particular emphasis on the institution's role in the Global War on Terror. Particular attention is paid to the role of the US government being able to balance individual rights and liberties within the national security state. Last, the course also takes an in-depth analysis of the U.S. Congress, looking comparatively at how legislatures in other nations have dealt with crafting their own security policies. The course will address the following questions: First, what is the role of Congress in national security policy, what does it do, and why? Second, what are the various ways of studying the relationship between the legislative and executive branches of government in the US system as it relates to the Global War on Terror? Note: This course is cross-listed as HLS 314. Students may not get credit for both HLS 314 and POL 314.

**POL 315 Global Issues 3 Credits**

Military, economic, demographic, and environmental threats to global security in the post-Cold War era. Forces of transnational integration vs. forces of intrastate fragmentation. Inadequacy of international law and organization to deal with these problems within the confines of the sovereign nation-state system. Note: This course is cross-listed as GLS 315. Students may not get credit for both POL 315 and GLS 315.

**POL 316 Presidential Power and National Security Policy 3 Credits**

This course examines the development of the National Security State since the Second World War, and the ways in which it has affected, and been affected by, the Federal Executive. Topics to be covered will include the post-World War II redefinition of "national security", the Cold War (with a special focus upon war powers during Korea and Vietnam) and the changes that have occurred with the "War on Terror." Note: This course is cross-listed as HLS 316. Students may not get credit for both POL 316 and HLS 316.

**POL 317 Model United Nations 3 Credits**

For non-seniors who engage in serious research in political science. Topic to be approved by instructor and department chairperson.

**POL 318 Conflict Resolution 3 Credits**

How do you craft a peace deal in a war-ravaged environment? Can negotiations with rogue regimes succeed and prevent the onset of conflict? With massive casualties, and unspeakable human rights abuses, conflicts continue to present a challenge to people around the globe. In this course, we will explore the dynamics of conflict management designed to keep countries from waging violence against each other. Our focus is both on ending existing violent conflicts and on preventing escalation of tensions. We will explore the impact of mediators and external interventions by international organizations or individual countries on conflict management. We will also examine the role of the International Court of Justice in resolving disputes when direct negotiations fail to succeed. Finally, we will study existing peacebuilding efforts designed to improve relations among victims and killers in post-conflict environment. Insights from theory on commitment problems will help us understand why peace is more vulnerable in domestic than in international conflicts. Throughout the semester, we will rely on various case illustrations from international and domestic conflicts, and participate in a simulation activity that will allow us to assume the roles of negotiators in disputes.

**POL 319 Terrorism and Leadership 3 Credits**

Revolutions are the mad inspiration of history. Trotsky's characterization calls attention to three important dimensions of violent political participation: the historical settings, ideology, and emotional fervor of the practitioners. The course focuses on these dimensions by analyzing revolutionary and terrorist movements in the 20th century. Special attention is given to the use of violence in the post-Cold War new world disorder.

**POL 320 Politics of the Middle East 3 Credits**

The course emphasizes the relationships between social and political structures, the role of religion, and the problems of modernization in the Middle East. Similarities and contrasts will be drawn between the Arab and non-Arab countries of the Middle East. The political systems of Egypt, Syria, Israel and Saudi Arabia are examined in terms of political culture, structure, and political processes.

**POL 321 International Law 3 Credits**

This course covers the basic doctrines of international law and their relationship to the contemporary international community. These include the jurisprudence of international law; the history of the international legal system; customary international law; Treaty law; sovereignty, statehood and recognition; jurisdiction and immunities; the role of international organizations; international criminal responsibility; and the relationship of the international legal system to the U.S. domestic legal system. The objectives of international law are to foster the peaceful settlement of disputes; facilitate transnational communication and commerce; encourage respect for human rights; as well as to preserve the environment. This course is cross-listed as GLS 321. Students may not get credit for both POL 321 and GLS 321.

**POL 322 African Politics 3 Credits**

Africa is in a process of transition, a continent of growing strategic importance to the U.S. and a land with considerable variation in political and economic success. The course is an introduction to the politics of sub-Saharan Africa. To understand the continent's current challenges, the course examines the legacies of colonial rule, including colonial mark on the politics of ethnicity; focuses on the rise of authoritarianism in Africa in the 1970s and 1980s; examines the success and failure of democratization that is transforming the continent today; embarks on the quest to understand the continent's struggle with poverty and debt. Lastly, the course explores some of the biggest obstacle to Africa's stability, including state collapse, wars, corruption, while contemplating the future that lies ahead.

**POL 325 Public Administration 3 Credits**

Public administration in modern society, emphasizing the administrative formulation of public policy and its implementation. Attention on who gets what, when, and how from the decisions of administrative units; the role administrators have in policy-making compared to elected legislators, chief executives and judges; the effect administrators have on the benefits citizens receive from government; and the effect administrators have on citizens' behavior. Note: This course is cross-listed as HLS 325. Students may not get credit for both HLS 325 and POL 325.

**POL 326 Power in American Politics 3 Credits**

Examines various explanations of who has power in American politics. Explores the roles of appointed and elected officials, business and interest groups, the media, and the general public in shaping public policy. Special attention to political change, including the impact of broad social movements on the responsiveness of the political system.

**POL 327 Contemporary Issues in American Public Policy 3 Credits**

An in-depth examination of current issues in American politics. Drunk driving, political corruption, drug policy, education, and poverty are among the issues to be considered. Emphasis on analyzing policy problems and on developing and evaluating proposed solutions.

**POL 328 Environmental Politics 3 Credits**

Environmental Politics examines how policymakers deal with the political challenges of unsustainable resource consumption, which is a primary determinant of environmental problems such as climate change, adverse health effects, and biodiversity loss. The course introduces students to environmental politics and policies at the local, state, national, and international levels. The course is designed to provide students with a framework for understanding how varied interests compete within political institutions in order to transform contending ideas into public policy. With that in mind, students will not only become more informed consumers of political information, but will also become more effective at analyzing and advocating for policies as it relates to the environment.

**POL 329 Comparative Environmental Policy 3 Credits**

Comparative Environmental Policy analyzes cross-national approaches in developing, implementing, and evaluating policy responses to environmental problems. The course analyzes the political factors, actors, and tools that help and explain why some societies have been more likely to develop effective responses to environmental threats. Note: This course is cross-listed as GLS 329. Students may not get credit for both GLS 329 and POL 329.

**POL 330 Geopolitics of Energy 3 Credits**

Geopolitics of Energy Security explores the role of energy in shaping global politics, natural resource management practices and volatility in economic markets. The course begins with an overview of energy security and explores issues associated with energy production, national security, energy consumption, and environmental conservation. Throughout the course students will become familiar with basic data, trends, issues and options in the exploration and production of renewable and non-renewable energy sources.

**POL 331 Political Corruptions 3 Credits**

This course will introduce students to one of the central political issues in the USA as well as abroad: corruption. Whereas this was considered in earlier days as 'temporary malady' of third world systems, today it is considered a pervasive phenomenon in democratic systems as well. As such it acquired widespread scholarly as well as public attention in established democracies such as the USA (at least since the elections of 2016). The course will utilize a range of approaches to examine the meaning of corruption, the link between what the law defines as corruption and what is understood by the term by broad publics, the interaction between both conceptions and system legitimacy, and the methods by which corruption may be contained.

**POL 335 Urban Politics 3 Credits**

Political structure and administration of municipalities in the United States. Emphasis on problems posed by suburbanization, global and regional shifts in business, economic dislocation, housing, race relations, and policing.

**POL 340 Modern Democracy and Its Critics 3 Credits**

The course examines the fundamental assumptions underlying modern democratic theories and the main theoretical attacks launched against them. Among the contending theories to be discussed are right and left-wing anarchism, the old and the new left, fascism, intellectual elitism, and techno-conservatism. Note: This course is cross-listed as GLS 340. Students may not get credit for both POL 340 and GLS 340.

**POL 342 Contemporary Political Theory: Freedom and Authority 3 Credits**

Concepts of freedom and authority in 19th and 20th-century political theory. Emphasis on such important thinkers as Nietzsche, Freud, Sartre, Camus, and Marcuse. Note: This course is cross-listed as GLS 342. Students may not get credit for both POL 342 and GLS 342.

**POL 343 American Political Thought 3 Credits**

The philosophical background and moral principles of American political society: liberty, equality, natural law and natural right; constitutionalism and nation-building. The development of the ideologies of liberalism, conservatism, and libertarianism are also covered.

**POL 345 Ancient Political Theory: Justice 3 Credits**

The existence of society over time requires high degree of predictability and hence laws, whether explicit or implicit. These derive their capacity to regulate life from the widespread notion that they are proper and that they should be obeyed. In a word, they accord to our notions of justice. These, however, are not stable. Resting on the understandings of man, society, nature and the relations between them, they develop under the impact of human thought and changing realities. The result is what can be compared to a layered cake. This course treats some of the main contributions made by philosophers from Plato to Rawls to our concept of justice and the manner by which they have shaped our concepts of justice in the US and West in general. Cases in which courts (mainly the US Supreme Court) made use and applied the thinking of earlier philosophies of justice will illustrate the process by which we adjust the boundaries between legality and criminality and determine how we should behave towards each other.

**POL 346 Liberal Democracy in Times of Stress 3 Credits**

This course examines historic and present day cases, ranging across Europe and the US, in which liberal democratic governments, under stress because of subversion, sabotage, invasion, rebellion, or the effects of economically caused chaos, take on emergency powers to become so-called "states of exception." While in some cases such states have imposed mild and limited emergency measures, others have employed more draconian measures, suspending, if not dissolving, constitutionally guaranteed civil liberties, often for indeterminate and protracted periods. How various states have behaved in emergency situations will be the major content of this course. Note: This course is cross-listed as HLS 346. Students may not get credit for both HLS 346 and POL 346.

**POL 350 U.S. Foreign Policy and Security Policy 3 Credits**

Principles, institutions, and processes involved in the formulation and implementation of policies regarding the nation's military, economic, and environmental security within the global framework. Strands, trends, and problem areas in U.S. foreign policy, with focus on the changing global environment of the post-Cold World War. Note: This course is cross-listed as HLS 350, GLS 350. Students may get credit for only one.

**POL 351 Critical Views of Global Security 3 Credits**

This course will examine the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspective on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (environment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security. Note: This course is cross-listed as HLS 351. Students may not get credit for both HLS 351 and POL 351.

**POL 361 Courts, Judges and Politics 3 Credits**

In-depth examination of the nature of judicial decision-making and the impact that judicial decisions have on society. Considers the sources of judicial authority, judicial fact-finding, statutory and constitutional interpretation, individual and collective processes of judicial decision-making, relations between judges and other government officials, and the political consequences of judicial decisions with particular emphasis on federal courts and judges. Note: This course is cross-listed as HLS 361. Students may not get credit for both POL 361 and HLS 361.

**POL 363 Human Rights in Global Context 3 Credits**

Examines human rights – *droits de l'homme*, *derechos humanos*, *Menschenrechte*, “the rights of man” – are, literally, the rights that one has because one is human. What does it mean to have a right? How are being human and having rights related? This course provides an introduction to theory and global practice of human rights. Human rights claims play an increasingly central role in political and social struggles across the world. The adoption of the Universal Declaration of Human Rights in 1948 signaled a proliferation of international human rights law and transnational non-governmental activism. While the promotion of human rights has become global, adherence to those standards remains highly uneven and gross violations and atrocities continue to occur. Given the breath and complexity of the human rights movement, including its engagement with law, politics and morals, in radically different cultures, this course is by its very nature multidisciplinary. Note: This course is cross-listed as HLS 363. Students may not get credit for both HLS 363 and POL 363.

**POL 365 Third World Politics 3 Credits**

Studies the major political issues of the Third World. Particular reference to political systems of Africa, Asia, Latin America, and the Middle East according to the relevance of the examples to large conceptual issues, and according to the major interests of the instructor. Typical issues include neocolonial dependency, the role of the state in newly developed countries, military rule and democratization. Note: This course is cross-listed as GLS 365. Students may not get credit for both POL 365 and GLS 365.

**POL 366 Communist Systems: Politics and Policies 3 Credits**

The course aims to provide students with an understanding of the origin, development, and history of communism, as well as the current political systems and practices of communist regimes in the world. Students are expected to acquire in-depth knowledge about the origin and development of communism, the influence of communism in world politics, and political systems and policies of contemporary communism regimes. Topics examined include Communist Manifesto, communism in the USSR, communism in China, McCarthyism in the U.S., Cold War, collapse of the USSR, fall of Berlin Wall, and communism in contemporary Cuba and Korea.

**POL 367 Politics of Exile, Asylum and Diaspora 3 Credits**

This course analyzes mass migrations and refugee movements and what they mean for the stability of nations, the increasing potential of severe culture clashes within societies, and the root causes of (forced) migration movements, such as problems of violence, terror and genocide, as recently seen in Darfur, Rwanda and Bosnia. In certain European countries the frequently failed integration and assimilation policies resulted in an Islamic alienation; terrorist attacks and race riots are some of the consequences. Particular attention will be given to the conflict between the refugees' and migrants' needs that result from violent, socio-economic or ecological catastrophes in the countries of origin and the various forms of reception within the host countries. Students will explore theoretical, political, legal, and socio-economic dimensions of the refugee and immigration phenomena in a global world. Other themes will include international human rights and refugee laws, theories of immigration, for example, the feminization of migration, as well as problems of acculturation, assimilation and integration in different host societies. Note: This course is cross-listed as GLS 367. Students may not get credit for both POL 367 and GLS 367.

**POL 368 International Organizations 3 Credits**

This course introduces students to the study of international organizations. The course examines mostly formal and governmental institutions as well as informal institutions or regimes. Topics to be covered include and are not limited to: the establishment of international organizations, evolution of international organizations, structure of international organizations, decision-making of international organizations and influence of international organizations. This course employs both theoretical and practical approaches in its examination on international organizations. Note: This course is cross-listed as GLS 368. Students may not get credit for GLS 368 and POL 368.

**POL 371 The Arab-Israeli Conflict 3 Credits**

The course will begin by introducing the main players: the neo-patrimonial Arab regimes on the one hand, and the democratic, economically modern Jewish sector in Palestine on the other. The analysis will focus on the impact of the social, economic, political and religious differences between the sides on their conception of the conflict among the participants and powers outside the region. The course will concurrently examine the impacts of the dynamics of the conflict itself, relations within Islam on the one hand and between Islam and the West on the other. The latter part of the course will consider the sources of perceptual shift that led simultaneously to the narrowing of the conflict with the withdrawal of some of its participants (most Arab states) and its widening with the addition of Al Qaeda and Iran (via Hezbollah). Note: This course is cross-listed as GLS 371. Students may not get credit for both GLS 371 and POL 371.

**POL 399 The Co-operative Experience 3-12 Credits**

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. IND 398 and (dept.) 399 combined cannot exceed 15 credits. Pass/fail. Prerequisite(s): junior standing and 2.75 GPA at the time of registration.

**Corequisite(s):** IND 398 The Co-operative Experience Seminar.

**POL 415 Political Internship 3-6 Credits****POL 450 Seminar in Political Science 3 Credits**

A multidimensional framework within which to integrate the variety of perspectives and methodologies extant in the field of political science. Topics for discussion and analysis may range from broad concepts of political discourse such as power and interdependence to specific political issues such as executive-legislative relations and judicial policymaking.

**POL 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**POL 491 Internship in Political Science 1-4 Credits**

Students work under supervision in a public agency, political party, or public interest group. A minimum of 52 hours of fieldwork per credit required, with regular reports and a concluding critique analyzing and evaluating the experience. Primarily for seniors and qualified juniors. No more than six credits allowed toward graduation.

**Prerequisite(s):** permission of instructor.

**POL 499 Senior Honors Thesis 3-6 Credits**

Majors having completed the department's core requirements and having a minimum GPA of 3.5 in political science courses may apply for honors in their sixth semester. Applicants enroll in POL 490 Independent Research and Study in their seventh semester to develop and submit a thesis proposal to the department. With departmental approval, applicants prepare an honors thesis in their last semester. Upon acceptance of the thesis by the department, the student will be graduated with honors in political science.

**PSY 100 Introduction to Psychology 3 Credits**

An orientation to psychology, covering major facts, principles and concepts about human and animal behavior and experience, research findings, major problems, basic vocabulary, methodologies, and contributions in the field. Topics include psychology as a science; human development; individual differences; intelligence and its measurement; special aptitudes and interests; personality and social behavior; motivation and emotion; frustration and personality deviations; and learning, thinking, remembering and forgetting.

**PSY 102 Explorations in Psychology Honors 3 Credits**

The course introduces the history of psychology, and demonstrates how the discipline is a science. It provides students with experience exploring the mind, behavior, and the relationship between the two, from multiple perspectives, including biological, behavioral, cognitive, developmental, humanistic, social, and abnormal. It tackles questions including (but not limited to) how different areas of the brain are involved in behavior and are affected by injury, how humans sense and perceive the world, how states of consciousness differ from one another, how humans learn, remember, communicate, and develop, what motivates humans to behave in particular ways, how social groups affect behavior and decision-making, and what happens when behavior and emotions deviate from what is typical.

**PSY 105 Introduction to Research in Psychology 3 Credits**

Students will be introduced to the basic research methods used in psychology including, surveys, experiments and observation. Students will collect data and learn to describe this data using basic tools of analysis including graphic display and statistical analysis. Students will read original psychological research and learn to write using the conventions of the American Psychological Association.

**Prerequisite(s):** a grade of "C" in PSY 100.

**PSY 110 Psychology: The Science of Well-being 3 Credits**

This course uses theory and methods of psychology to examine the question: How to make a good life? Students will learn how psychology examines the ways motivation, intellect, relationships, self-respect and a healthy lifestyle contribute to happiness, well-being, and flourishing. Students will learn how psychology examines human nature through observation and experimentation. Students will understand how psychology applies research to improve human well-being. Students will leave the course with a better understanding of themselves and their connection to others, and apply their self-knowledge to their personal goals and relationships. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**PSY 131 The Science of Mental Illness 3 Credits**

The Science of Mental Illness explores the biological bases of mental health and mental illness, focusing on anxiety, mood disorders, schizophrenia, and Alzheimer's Disease. This course examines the neural networks of these conditions, common psychiatric medications for treating them, studies of the long-term efficacy and effects of using psychiatric medications, and the psychological and biological capacities for improving mental health. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

## Psychology (PSY)

**PSY 201 Statistics and Research Design 3 Credits**

Introduces students to statistics and research methods in the behavioral sciences. Covers the fundamentals of descriptive and inferential statistics, a variety of issues in research design, selected research designs including the case study, correlational and experimental designs. In addition, students will explore the literature in psychology in order to examine the use of statistics and research design in real research problems.

**Prerequisite(s):** grade of "C" in PSY 105.

**PSY 210 Organizational Psychology 3 Credits**

Focuses on issues related to human behavior in work settings. Topics include personnel issues such as hiring and promotion decisions, performance appraisals, and methods of on-the-job training. Issues of job satisfaction, motivation, productivity, and effective leadership styles are also examined. Finally, organizational structure as it relates to communication within organizations will be examined.

**Prerequisite(s):** PSY 100.

**PSY 212 Introduction to Applied Behavior Analysis 3 Credits**

Presents a review of classical and operant conditioning, data collection and research design, data analysis and interpretation. In addition, assessment and treatment strategies in a variety of settings, contingency management in institution, classroom and home, systematic self-desensitization, and ethical consideration are discussed.

**Prerequisite(s):** PSY 100.

**PSY 215 Personality 3 Credits**

A synthesis of the most recent research in the field of personality development. Topics include interplay of biological, cultural, and subjective personal processes; analysis of the broad trends in personality theories; and introduction to personality measurement.

**Prerequisite(s):** PSY 100.

**PSY 218 Psychology of Women 3 Credits**

Examines the psychological development of women in our culture from birth to maturity, with an emphasis on the interaction of biological and social influences on personality, social behavior, and achievement of women. Investigates psychological sex differences in terms of current measurement approaches. Readings and text are drawn from psychological theory and research.

**Prerequisite(s):** PSY 100.

**PSY 220 Abnormal Psychology 3 Credits**

The development of abnormal personalities is discussed, with a survey of the various types of mental abnormalities, including their symptoms, diagnoses, and treatments. Neuroses and psychoses are emphasized.

**Prerequisite(s):** PSY 100.

**PSY 225 Learning Theory 3 Credits**

A broad coverage of the expanding fields of learning, memory, and cognition is provided, while addressing their relevance and impact on human behavior. Continuity between early associationistic and contemporary cognitive theories is established. Topics range from basic conditioning to the more complex processes of memory, concept learning, thinking, and problem solving. Prerequisite(s): PSY 100.

**PSY 226 Cognitive Psychology 3 Credits**

The study of the mind has been the focus of psychology since its inception in the 19th century. Today, the majority of psychological research focuses on the cognitive system and its biological basis. This course will provide an overview of knowledge regarding the components of the human cognitive system (e.g., attention, memory, executive processes) and how they form the basis for higher-order cognitive skills (e.g., language and decision making). The course will provide a history of the field and the methodologies that have been and are currently being used to study the human mind. Each section of the course will include an overview of basic and applied research to demonstrate how knowledge of the cognitive system can be used to enhance human functioning in applied settings and better understand human limitations and tendencies to commit certain types of errors.

**Prerequisite(s):** PSY 100.

**PSY 230 Child Development 3 Credits**

Presents theory and research on the social, emotional and cognitive development of children birth to age 12.

**PSY 231 Youth and Adolescent Development 3 Credits**

Presents theories, research and problems concerning development in youth and adolescence.

**Prerequisite(s):** PSY 100.

**PSY 237 Cognitive Disabilities 3 Credits**

Investigates various types of intellectual differences, focusing on etiology, methods of diagnosis, programs and services available to individuals and families. Considers problems relating to adjustment in academic, social, and vocational areas.

**PSY 238 Sensation and Perception 3 Credits**

The facts and theories of sensation and perception, their role in the total psychology of the individual, and current application are examined.

**Prerequisite(s):** PSY 100.

**PSY 240 Social Psychology 3 Credits**

Deals with the scientific study of human beings in social situations, focusing on reciprocal influence of the individual and the group, especially aspects of behavior that are socially determined. The nature of attitudes: their development and change; the nature of social influence; interpersonal perception and attraction; dynamics of social behavior; and social phenomena, such as prejudice and social movements, are covered.

**Prerequisite(s):** PSY 100.

**PSY 250 Psychology of Aging 3 Credits**

This survey course focuses on basic psychological issues in the aging process and in the elderly. It examines myths and stereotypes about aging and the elderly by way of research evidence pertaining to physical, psychological, and social changes accompanying aging.

**Prerequisite(s):** PSY 100.

**PSY 255 Biopsychology 3 Credits**

Basic biological structures and processes underlying behavior, including general neuroanatomy and neurophysiology; sensory physiology; structure and function of the motor systems; physiology of emotions, motivation, learning, memory; brain dysfunction; psychoactive drugs.

**Prerequisite(s):** PSY 100.

**PSY 279 Psychology and Law 3 Credits**

Introduces students to a study of selected topics in psychology and law. Topics include eyewitness testimony, jury selection, and decision making

**Prerequisite(s):** PSY 100.

**PSY 283 Sport Psychology 3 Credits**

This survey course will focus on the social and psychological factors related to performance and participation in sport and exercise, health, and injury rehabilitation settings. Two general questions will be explored: (a) how do social and psychological variables influence performance and participation in physical activity pursuits? And (b) how does physical activity participation affect the psychological well-being of the individual? To better understand these questions, this course will overview theoretical and methodological approaches to a variety of sport and exercise psychology topics, including: socialization, motivation, group processes, competition, and performance enhancement. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Prerequisite(s):** PSY 100.

**PSY 295 Directed Study in Psychology 1-4 Credits**

Provides an opportunity for students to obtain research experiences in psychology. Consists of a combination of project meetings, assigned readings and supervised research. Each student will work with a selected faculty member on a topic of mutual interest. Projects may include learning some components of research methods and applying these techniques to the collection and analysis of data. Provides focused reading and discussion as it relates to each student's research topic.

**Prerequisite(s):** PSY 100; psychology majors or minors and permission of instructor and chair.

**PSY 299 Field Placement in Applied Behavior Analysis 1-4 Credits**

The practicum provides hands-on experience using the tools of applied behavior analysis in a field setting. Provides supervised field placement experience in an approved institution or agency in order for students to gain knowledge in applications of applied behavior analysis. Placement is made in various community institutions and agencies that offer services to diverse populations.

**Prerequisite(s):** PSY 100, PSY 212.

**PSY 302 Research Methods: Cognition 4 Credits**

Provides students with an in-depth coverage of the expanding field of cognition and memory. Addresses issues and research within the field. Emphasis is on current views of human memory. Students learn how to design and conduct their own experiments from the topic areas of information processing, psycholinguistics, problem solving, learning and memory, social cognition, and cognitive neuroscience. Laboratory skills include programming computers, developing multimedia stimuli, recording psycho-physiological data, and composing an APA-format research report in a network-based writing lab. **Prerequisite(s):** a grade of "C" in PSY 201; PSY 225, PSY 237 or PSY 325 or permission of instructor.

**Corequisite(s):** PSY 302L.

**PSY 302L Research Methods: Cognition Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 302.

**PSY 303 Research Methods: Social Psychology 4 Credits**

Covers research methodology within the context of social psychology (i.e., topics include altruism, aggression, attraction and social perception). Both experimental and descriptive methodologies will be covered. Students learn about various aspects of the research process (e.g., design and execution of a social psychological study, analyzing and interpreting the results). Students also learn to integrate their research findings to produce an APA-style paper. Students use computer-based word processing and statistical analysis packages to achieve these goals. **Prerequisite(s):** a grade of "C" in PSY 201; PSY 240 or PSY 279 or permission of instructor.

**Corequisite(s):** PSY 303L.

**PSY 303L Research Methods: Social Psychology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 303.

**PSY 305 Theories of Psychotherapy 3 Credits**

An exploration of the history and theory of the psychoanalytic, behavioral, and humanistic approaches to psychotherapy. Comparisons and contrasts between these therapeutic modalities are discussed, as well as the theory underlying specific therapeutic techniques such as dynamic interpretations, dream analysis, the analysis of resistance and transference, counter-conditioning, modeling, and cognitive restructuring. Class exercises in addition to transcripts and tape recordings from therapy sessions are used to illustrate the various therapeutic approaches.

**Prerequisite(s):** PSY 215 or PSY 220 or permission of instructor.

**PSY 306 Research Methods: Sensation & Perception 4 Credits**

Provides instruction in research design, research methods, and integration of data analysis and methodology within the content framework of sensation and perception. All the general psychology research methods are taught. Special emphasis is given to the study of human vision and audition. Students design, conduct, and report laboratory research in the areas of sensation and perception. The computer-based components of the laboratory include lessons on interactive software instrumentation for research, and network-based technical writing using APA format. Projects are conducted during the term. Each student uses a dedicated networked Macintosh computer to: a) develop and generate research stimuli and procedures, b) analyze and report research data, and c) write formal research reports. **Prerequisite(s):** a grade of "C" in PSY 201 or permission of instructor.

**Corequisite(s):** PSY 306L.

**PSY 306L Sensation & Perception Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 306.

**PSY 315 Psychological Tests 3 Credits**

Examines the history of psychological testing. Issues concerning the construction of psychological tests are discussed, including concepts concerning reliability, validity, and item analysis. The rationale and structure of the major tests of intelligence, aptitude, and personality are reviewed, including the Rorschach, WAIS, TAT, MMPI, and Bender-Gestalt. In the last section of the course, students are given hands-on experience in the administration, scoring, and interpretation of a standard test battery.

**Prerequisite(s):** any statistics course.

**PSY 324 Play and Imagination 3 Credits**

This course surveys two of the most important manifestations of children's imagination: pretend play and imaginary companions. It will discuss the evolution of play, the purpose of play, the role of play in the development of creativity, and individual differences in play (e.g., among children of different gender, cultures, and ability levels). Finally, it will discuss the application of play to therapeutic methods for children.

**PSY 325 Cognitive Development 3 Credits**

Compares and analyzes the major theories of cognitive development: Piaget, Information Processing, Vygotsky, Gardner, and Sternberg. The course describes cognitive growth from infancy to adulthood. Particular topics will include: concept formation, language acquisition, memory reading and writing, mathematical skills and sociocultural skills. Also of interest will be the use of cognitive theory in education, and understanding variations from the typical pattern of cognitive development as in mental retardation and prodigies.

**Prerequisite(s):** PSY 100.

**PSY 329 Research Methods in Organizational Psychology 4 Credits**

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

**PSY 329L Research Methods in Organizational Psychology 0 Credits**

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

**PSY 330 Developmental Disabilities 3 Credits**

Introduces students to the genetic, biological, sensory-motor, cognitive, and social-emotional foundations of developmental disabilities. Selected syndromes will be reviewed in depth, as will treatments and intervention at the individual and family levels.

**Prerequisite(s):** PSY 230, PSY 231 or PSY 237.

**PSY 333 Autism Spectrum Disorders 3 Credits**

Provides students with a general understanding of the etiology, neurocognitive underpinnings, and general characteristics of the autism spectrum disorders. The course will examine the history of the study of these disorders, the main problems associated with these conditions, and will explore psycho-educational treatment alternatives.

**Prerequisite(s):** PSY 230, PSY 231, PSY 237, or PSY 330.

**PSY 335 Research Methods: Human Cognitive Neuroscience 4 Credits**

Covers the interdisciplinary study of the nervous system integrating neurobiology, physiology, pharmacology, and psychology as explanations for both normal and pathological human behavior. Topics integrate molecular levels of analysis, such as neuron structure and function, neurotransmitters, action potentials, and receptors, with molar levels, such as sensory and hormonal processes, learning and memory, emotions, drug use, and biological rhythms. Introduces research techniques used to study the function of the nervous system and the neural bases of behavior in humans. Neuroanatomical, electrophysiological, pharmacological, and neuropsychological assessment techniques may be explored as part of laboratory or field research projects designed in collaboration with the instructor. Prerequisite(s): grade of "C" or better in PSY 201 and PSY 255 or permission of instructor.

**Corequisite(s):** PSY 335L.

**PSY 335L Research Methods: Human Cognitive Neuroscience Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 335.

**PSY 336 Research Methods: Animal Learning & Behavior 4 Credits**

Provides a comprehensive overview of the acquisition and modification of the behavior of animals, especially on laboratory strains of rodents and pigeons. Core topics include respondent and operant conditioning, animal cognition, observational learning, animal safety and welfare, single-subject and between-groups approaches to methodology, and the statistical analysis of the results of studies of behavior. The laboratory component of the course provides a comprehensive overview of animal handling and maintenance, animal welfare, and the recording of experimental results. Two substantial projects are undertaken; demonstration of a conditioned taste aversion and its effect upon the acquisition and extinction of an operant (bar press) response and subsequent discrimination and reversal learning. Results of both projects are written into APA-formatted reports. Prerequisite(s): a grade of "C" in PSY 201, PSY 225 or permission of instructor.

**Corequisite(s):** PSY 336L.

**PSY 336L Animal Learning and Behavior Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 336.

**PSY 339 Research Methods in Applied Behavior Analysis 4 Credits**

This upper-level laboratory course will provide students with in-depth study of the principles and applications of Applied Behavior Analysis. Students will examine behavioral principles, ethical considerations and real-life applications of ABA. Each student will design and implement a self-management plan to alter a behavior of their choosing. Prerequisite(s): PSY 100.

**Corequisite(s):** PSY 339L.

**PSY 339L Research Methods in ABA Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 339.

**PSY 340 Research Methods: Group Dynamics 4 Credits**

Focuses on selected issues pertaining to group dynamics. Emphasizes an understanding of the personality and social factors that influence the functioning of unstructured and task-oriented groups. Students participate in a task group for the purpose of conducting a comprehensive research project on selected issues in group dynamics and the psychology of groups. The task group prepares an APA-style paper describing their research as well as an in-class presentation. Each student also submits a midterm and final written analysis of the interactional processes and development of the task group. Prerequisite(s): a grade of "C" in PSY 201 or permission of instructor. **Corequisite(s):** PSY 340L.

**PSY 340L Group Dynamics Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 340.

**PSY 345 Health Psychology 3 Credits**

This course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

**Prerequisite(s):** PSY 100.

**PSY 350 Research Methods: Developmental Psychology 4 Credits**

Focuses on one or more research areas in cognitive, personality, or social development. Includes an overview of major theoretical approaches to age-related change. Students review original research on selected aspects of behavioral change. The laboratory component of the course presents an overview of developmental research designs and methods focusing on the measurement of age-related change in psychological functioning. Students conduct field research projects designed in collaboration with the instructor and prepare an APA-style research report. Prerequisite(s): a grade of "C" in PSY 201 and PSY 230 or permission of instructor.

**Corequisite(s):** PSY 350L.

**PSY 350L Developmental Psychology Lab 0 Credits**

This lab is a co-requisite and must be taken with the corresponding course.

**Corequisite(s):** PSY 350.

**PSY 360 Psychology of Peace & Conflict 3 Credits**

This course examines issues related to peace, conflict, violence, and conflict resolution. Theories and strategies that suggest ways of reducing and eliminating conflict are discussed. Psychological and social causes and consequences of violence and nonviolence are considered.

**PSY 365 Drugs and Human Behavior 3 Credits**

Presents the student with an in-depth analysis of the effects of alcohol and selected chemical substances on the behavior and body of the user. Commonly abused substances will be discussed in terms of their history, sources of production, routes of administration, distribution, metabolism and excretion, neurophysiology, tolerance, properties of addiction, withdrawal course and symptoms, and potential beneficial and harmful effects.

**Prerequisite(s):** PSY 100.

**PSY 367 Creativity and Innovation 3 Credits**

What is creativity, and how do we measure, study, and enhance it? This course will survey the modern theories of creativity from a psychological perspective, with an emphasis on the processes that underlie creative thinking and the variables that influence creative idea generation. Specific topics will include: convergent and divergent thinking, the role of the unconscious in creative ideation, flow and mindfulness, individual and group creativity, techniques such as brainstorming and creative problem solving, the neuroscience of creativity, the role of motivation, and creativity and innovation in organizations. Discussions of theoretical findings will be complemented by in-class activities and assignments that highlight applications to day-to-day living and to larger-scale challenges that require creativity and innovation.

**Prerequisite(s):** PSY 100.

**PSY 372 States of Consciousness 3 Credits**

This course explores the variety of states that comprise normal and altered consciousness. It highlights how these states are determined by complex interactions between conscious and unconscious mental functions. Key psychological concepts are applied in an investigation of various states of consciousness, especially meditative states and dreams. The course examines both the psychopathological aspects of altered states, as well as their potential beneficial effects on creativity and the development of the self.

**Prerequisite(s):** PSY 100.

**PSY 373 Cyberpsychology 3 Credits**

Cyberpsychology is the study of how emerging computer technologies, especially social media, affect the way people think, feel, and behave both online and in the face-to-face world. This course explores a wide range of topics concerning this rapidly developing field of psychology, including how individuals, interpersonal relationships, and groups function in cyberspace with both positive and negative consequences for mental health. It emphasizes an understanding of the basic concepts of cyberpsychology along with the implications of this knowledge for improving wellbeing in the digital age.

**Prerequisite(s):** PSY 100.

**PSY 374 Psychology of the Family 3 Credits**

This course examines the significance of family in human development. Using prominent themes of developmental psychology, such as: the role of attachment in forming human relationships, the significance of context in understanding human development, and the resilience of development; this course will explore the existing research on the family. Students are asked to consider their own experiences as members of a family, as well as to understand the varieties of ways family impacts development across the lifespan.

**Prerequisite(s):** PSY 100, PSY 230 or permission of instructor.

**PSY 375 Psychology and Film 3 Credits**

Attitudes, perceptions and memories are shaped by motion pictures. Filmmakers create enduring images by using cinematic techniques to portray social and interpersonal themes. This course will examine various cinematic techniques as well as how film portrays interpersonal relations, gender roles, race relations, mental illness, The Holocaust, and other genocides.

**Prerequisite(s):** PSY 100.

**PSY 377 Developmental Psychopathology 3 Credits**

This course provides an in-depth view of developmental psychopathology as an applied and prevention science. Developmental psychopathology is concerned with the emergence and continuity or discontinuity of psychopathology, or maladaptive behaviors, across the lifespan. An emphasis is placed on exploring individual, environmental, social, and especially cultural influences in explaining normal and abnormal behavior.

**Prerequisite(s):** PSY 230 or PSY 231.

**PSY 381 Psychology of Gender 3 Credits**

This course examines the meaning of sex and gender in modern society. The course readings and discussion will review and analyze the influence of gender on human behavior and emotions. The course will examine the significance of gender in shaping experience. Topics will include: gender differences in behavior, gender role development, gender and sexual identity, gender and social roles, cross-cultural perspectives on gender and transcending gender.

**Prerequisite(s):** PSY 100, PSY 218 or permission of instructor.

**PSY 382 Aging, Brain, and Cognition 3 Credits**

This course covers the biological structures and processes underlying cognition in humans and explores modulating factors such as age, sex, disease, stress, and environment. The theoretical and methodological issues of developmental cognitive neuroscience research are addressed. Focus of the course is on brain structure and function in the largest growing segment of our population, persons over the age of 65, and the link between structure and cognitive abilities, both intact and declining. Special attention is paid to those factors related to successful aging and treatments with putative cognitive enhancers.

**Prerequisite(s):** PSY 100.

**PSY 383 Psychology and Culture 3 Credits**

Students enrolled in this course will critically examine the intersection of culture and psychology. Topics covered include cultural influences on: identity, the perceptions and manifestations of mental illness, and treatment seeking.

**Prerequisite(s):** PSY 100.

**PSY 384 Positive Psychology 3 Credits**

Historically, the field of psychology has placed great attention on the question of, "What is wrong with people and how do we fix it?" This course will focus on the question of, "What is right with people and how can we build on that?" We will explore this by examining empirical research centered on the nature of happiness and psychological well-being. Positive psychology is the rigorous study of what is right and positive about people and institutions. Positive psychologists call for as much focus on strength as on weakness, as much attention on positive emotions as negative emotions, as much interest in building the best things in life as in repairing the worst, and as much attention to promoting the fulfillment of lives of healthy people as to healing the wounds of the distressed. This course will first present an introduction to the core assumptions and research findings associated with human strengths and positive emotions, then move on to explore interventions and applications informed by this perspective in counseling and psychotherapy, as well as in domains personally relevant to the lives of students such as school, work, family and other close relationships. PSY 384 is crosslisted with PSY 584.

**Prerequisite(s):** PSY 100.

**PSY 385 Death, Dying and Suicide 3 Credits**

Everything that is alive eventually dies, thus death is a part of life. Understanding death can help us to understand and experience life more fully, and it can help us to make appropriate, compassionate responses to death and dying. Class members will examine difficult and controversial psychosocial issues related to dying and death, death perceptions from childhood through older adulthood, religious and death attitudes, the dying process, living with dying, dying in the American health care system, euthanasia and biomedical issues, pain management, suicide, cross-cultural perspectives on dying and death, the business of dying, the legal aspects of dying, and the bereavement process.

**Prerequisite(s):** PSY 100.

**PSY 386 Introduction to Child Life: Working with Children and Families in Healthcare Settings 3 Credits**

The course provides the student with an introduction to the practice of Child Life in healthcare settings, serving as an educational foundation for those interested in pursuing a Child Life internship or other career working with children and families in a healthcare setting. Child Life programs seek to promote optimum development of children, adolescents, and families within a healthcare setting by helping to maintain normal living patterns and minimizing psychological trauma. Various theoretical positions related to the field (including but not limited to child development, play, stress, illness, trauma, and bereavement) will be described and their implications discussed. Classroom activities and assignments will help to develop relevant clinical skills including therapeutic play techniques, procedural preparation and support, coping strategies, child assessment, promoting advocacy/family-centered care, and health education. Official documents created by the Child Life Council, the certifying body for the field, will be reviewed, in addition to other seminal Child Life publications. The necessity for evidence-based practice will be discussed and relevant empirical studies will be presented (including those conducted in analogous academic fields such as developmental pediatrics and behavioral medicine).

**Prerequisite:** PSY 230.

**PSY 388 Learning and the Experimental Analysis of Behavior 3 Credits**

Students will review principles of behavior covered in PSY 212 Intro to ABA and move into more complex concepts and principles of behavior analysis including respondent behavior, respondent conditioning, motivating operations, schedules of reinforcement, and verbal operants. Students will also learn elements of behavior change and specific behavior-change procedures including: verbal behavior training, discrete trial training, interventions based on motivating operations and discriminative stimuli, and stimulus equivalence procedures.

**PSY 389 Professional Issues in ABA 3 Credits**

This course will provide students interested in working in the field of applied behavior analysis at the bachelor's level content based on the task list of the Behavior Analyst Certification Board (BACB) The course covers ethical and professional considerations relevant to the profession of applied behavior analysis as well as ethical and disciplinary standards of the profession. In addition, the course covers behavioral assessment and intervention, competency-based training, and evaluating the effectiveness of behavioral programs. Students will also have the opportunity to read seminal and current research literature on the topics.

**PSY 395 Special Topics in Psychology 3 Credits**

This course examines contemporary issues in psychology, with the particular topic varying each time it is offered. New directions in the field and/or current controversies will be the focus. Past offerings include Positive Psychology, Creativity, and Brain Games.

**PSY 400 Senior Seminar 3 Credits**

This capstone course will provide a synthesis and evaluation of important critical issues in psychology, such as the role of modern psychology in solving social problems, the scientific vs. human services perspectives on behavior, emotion and cognition; and the nature of mental illness and well-being. Students will be expected to draw broadly from their education in psychology; to grapple with conflicting points of view; and produce professional quality writing, oral or multimedia presentations.

**PSY 420 History of Psychology 3 Credits**

Provides a coverage of systems and schools of psychology; great psychologists, their contributions, and later influence in psychology. Current psychological problems are also discussed.

**PSY 490 Independent Study: Research and Creative Expression 1-4 Credits**

Provides students with an opportunity to design and carry out original research in an area of their choice. Students designate a faculty supervisor and work closely with him/her during the semester. All students must have approval from the department and the dean to register for PSY 490.

**Prerequisite(s):** PSY 201.

**PSY 491 Internship in Psychology 1-4 Credits**

Provides supervised work experience in an approved institution or agency in order for students to gain knowledge in applications of psychology. Placement is made in various community institutions and agencies that offer services to both exceptional and normal individuals.

**Prerequisite(s):** senior psychology majors or minors.

**Integrated Sciences (SCI)****SCI 480 Science Seminar Series 1 Credits**

A companion 1 credit pass/fail seminar series to the Science Seminar series. Students in this class will critically evaluate journal articles in multiple scientific disciplines suggested by speakers and discuss them with peers and faculty mentors.

**Secondary Education (SED)****SED 370 Teaching in the High School 3 Credits**

This field-based course focuses on general pedagogy in grades nine through 12. Emphasis will be on generic teaching approaches, planning lessons and developing units of study, learning styles, issues and techniques of evaluation, and multiculturalism. Working in local high schools, students continue observing and begin teaching lessons in their subject area specialization. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**SED 400 Teaching English Language Arts in the Secondary School 3 Credits**

Students preparing to teach English in middle schools and senior high schools explore strategies for the imaginative teaching of literature, poetry, drama, grammar, composing processes, vocabulary, and oral language use. Students research, develop, and critique thematic units, analyze curriculum, and study the selection, development, and use of a wide variety of teaching materials. Traditional and alternative methods of assessment are explored. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**SED 405 Teaching Social Studies in Secondary Schools 3 Credits**

The theoretical foundations of teaching social studies in junior and senior high schools. Basic goals and aims of social studies instruction are studied, and specific methodological techniques are described and practiced. Demonstration lessons are prepared and presented. Considers typical problems with which teachers are confronted. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**SED 410 Teaching Science in Secondary Schools 3 Credits**

Classroom interaction analysis systems are utilized in the study of the teaching-learning process. Students develop their own repertoire of teaching strategies. Emphasis on the investigation and interpretation of recent curriculum developments, and the use of the laboratory in science instruction. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**SED 415 Teaching Mathematics in Secondary Schools 3 Credits**

The critical analysis of the aims of teaching mathematics in the secondary school; review of recent research in the content and teaching of mathematics by individuals and groups; demonstration lessons (reflective teaching) to illustrate techniques of teaching; the planning of lessons; selection and organization of materials and subject matter; and evaluation of lesson presentation. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**SED 420 Teaching a Second Language 3 Credits**

This course focuses on interactive methods of teaching a new language as well as cross-cultural understanding. Students learn to plan using national and state standards for language instruction, organize activities, design and direct language learning tasks, and assess learning. Includes theoretical positions on communicative language learning and teaching, the use and evaluation of currently used materials, the design of new materials, and field experiences in the language to be taught. Students keep a journal and develop their professional portfolio, participate in an E-seminar, prepare a unit of study, and present lesson segments. Open to prospective world language teachers, ESL and bilingual teachers, as well as practicing teachers seeking certification. A cumulative GPA of 2.75 is required. \*NOTE: This course is cross-listed as FLE 420. Students cannot get credit for both FLE 420 and SED 420.

**Prerequisite(s):** EDU 106 and EDU 206.

**SED 431 Content Area Reading and Writing 3 Credits**

Explores theoretical and methodological issues concerned with teaching reading and writing within content area classes. Students analyze junior high and high school textbooks and other reading materials, study methods of adjusting instruction to varying reading and writing needs of students, prepare directed reading activities in their specific content areas, and use informal diagnostic reading tools. Included is the preparation of content area writing assignments and the evaluation of student writing as well as the teaching of study skills? Emphasis throughout is on the integration of reading and writing into secondary school subject classes. A cumulative GPA of 2.75 is required.

**Prerequisite(s):** EDU 106 and EDU 206.

**SED 490 Independent Research and Study 1-6 Credits**

The outline for study must be accepted by the professor and approved by the department. The semester hours credit to be assigned is determined by the department.

**Seminars or Workshops (NCT)**

**NCT 010 Freshman Seminar 0 Credits**

**NCT 011 Freshman Seminar II 0 Credits**

**NCT 020 Sophomore Series 0 Credits**

**NCT 021 Sophomore Series, II 0 Credits**

**NCT 022 Success Strategies 0 Credits**

**NCT 023 Success Strategies Science 0 Credits**

**NCT 087 Mngrial Uses of Accounting Lab 0 Credits**

**NCT 088 Quant Methods for BUS Lab 0 Credits**

**NCT 089 Intro to Quant Methds/BUS Lab 0 Credits**

**NCT 091 Macroeconomics Lab 0 Credits**

**NCT 092 Theories & Concepts I Lab 0 Credits**

**NCT 093 Intro to Financial Acctnng Lab 0 Credits**

**NCT 094 Math Workshop 0 Credits**

**NCT 095 Intro to Music Theory & Vocal 0 Credits**

**NCT 096 Strat for College Success 0 Credits**

**NCT 097 Scholastic Enrichment 0 Credits**

**NCT 098 Finite Math Workshop 0 Credits**

**NCT 099 Strategic Learning Workshop 0 Credits**

**NCT 101 Algebra Workshop I 0 Credits**

**NCT 102 Algebra Workshop II 0 Credits**

**NCT 493 Non-Credit Bearing Intern LAS 0 Credits**

**Social Studies Topics (SST)**

**SST 300 Historical & Contemporary Issues in the Social Studies 3 Credits**

This course is designed to provide education and non-education majors a comprehensive introduction to, and understanding of, social studies knowledge. This knowledge covers a broad array of academic disciplines, including American/World History, Government and Politics, Geography, Economics, and the various behavioral sciences. The course is aimed at engendering a theoretical grasp of the essential elements of these disciplines, as well as a practical understanding of how the content areas exist in both human society and contemporary policies/issues.

**Social Work (SOW)**

**SOW 200 Social Services & Social Work 3 Credits**

An overview of the historical development of social work. Emphasis on current issues in social welfare and social service programs in the United States. Among the programs explored are those in public welfare, mental health, medical services, child abuse/neglect, school social work, and care for the elderly.

**SOW 300 Methods Social Work Practice 3 Credits**

Interviewing techniques are taught and practiced. Skills in forming and running small groups, working with community organizations, and administering social programs are emphasized. Students study how to gather pertinent psycho-social facts about clients, make an assessment, plan an intervention, and successfully complete service to the client. Students who next will take SOW 301 Field Work Experience will be placed in a social service agency by the end of the semester.

**Prerequisite(s):** SOW 200.

**SOW 301 Field Work Experience 3 Credits**

Students observe and work in a social service agency. They study the structure of the agency and the people and roles within it, and develop helping skills with clients. Approximately six to eight hours of field work a week for each three credits are required, plus class sessions during the semester.

**Prerequisite(s):** SOW 200, SOW 300. May be taken twice in two separate semesters for a maximum of six credits toward the total credits required for graduation.

**Sociology (SOC)****SOC 101 Sociological Imagination 3 Credits**

Introduction to principles and concepts for the sociological analysis of human societies. Social relations, social structure, and institutions characteristic of societies past and present are examined, and causes and directions of social change are considered. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**SOC 110 Cultural Anthropology 3 Credits**

The anthropological perspective is introduced, placing human behavior and institutions within their evolutionary, ecological, structural, and ideological contexts. Examples are drawn from the full range of human societies, with an emphasis on nonindustrial forms.

**SOC 201 Intro Seminar in Sociology 3 Credits**

Designed for students considering a major or minor in sociology. The seminar locates sociology in relation to other disciplines; reviews the basic perspectives used by sociologists to study human behavior; and considers the methods and applications of sociological inquiry.

**Prerequisite(s):** SOC 101.

**SOC 205 Families 3 Credits**

Examines families in the United States, past and present, emphasizing the variety of family experiences in different social contexts and the relationship between family life and social change. Includes comparative material on families in other countries and considers possible alternatives to current family forms.

**Prerequisite(s):** SOC 101.

**SOC 206 Deviance and Crime 3 Credits**

Considers deviant behavior as violation of social norms. Examines the concepts of deviance and crime in socio-historical context. Evaluates major theories advanced to explain deviance. Surveys different types of deviance, including conventional crime, non-criminal deviant behavior, and white-collar corporate, and government crime.

**Prerequisite(s):** SOC 101.

**SOC 207 Racial and Ethnic Relations 3 Credits**

Examines the social origins of prejudice and discrimination, and analyzes intergroup trends in conflict, competition, and cooperation. Considers issues of immigration, economic and political power, and ethnic, racial, and religious pluralism.

**Prerequisite(s):** SOC 101.

**SOC 211 Social Movements 3 Credits**

This course examines social movements that seek change in the social, cultural and political structures of society. The social, economic and political contexts of these movements are treated as well as their origins, tactics, organization, recruitment, and successes and failures. Case studies focus on movements in the areas of labor, civil rights, feminism, the environment, "right wing politics", and neighborhood activism.

**Prerequisite(s):** SOC 101.

**SOC 216 Youth and Crime 3 Credits**

In-depth examination of the nature and extent of youth criminality in the U.S. Explores changes in youth culture and theories of delinquency. Social policies are related to youth criminality and the youth justice system is considered.

**Prerequisite(s):** SOC 101.

**SOC 219 Introduction to Criminal Justice: Police, Courts, Corrections 3 Credits**

This course introduces students to the sociological study of the criminal justice system. It examines the cultural and social foundations of this system, and review debates about problems with the criminal justice system and proposals to change it. Topics covered include nature of the crime problem, requirements of criminal law, policing, the role of the courts and legal professionals, sentencing, incarceration and alternatives to it. [FORMERLY SOC-319 Criminal Justice and Corrections] Pre-requisite SOC 101 3 Credit hours.

**SOC 225 Population Study 3 Credits**

Demography; its definition, historical emergence, and growth; population as a social problem in developing and developed nations; population theories, sources and methods of demographic data, population composition, and distribution; demographic processes including fertility, mortality, and migration.

**Prerequisite(s):** SOC 101.

**SOC 230 Foundations of Civic Engagement 3 Credits**

This course is an introduction to civic engagement: its meanings, opportunities and limitations. Students will learn about the different opportunities for civic engagement in the community as well as the theories and skills associated with it. Students will learn the role of formal and informal institutions in community engagement and will identify a specific organization for in depth investigation.

**Prerequisite(s):** SOC 101.

**SOC 245 Social Problems 3 Credits**

American social, economic, and political institutions and their interrelationships are analyzed, with an emphasis on the causes, directions, and consequences of social change in American society.

**Prerequisite(s):** SOC 101.

**SOC 246 Drugs, Crime & American Society 3 Credits**

Explores the nature and extent of drug use in the U.S., how drugs are legally defined and socially constructed, and considers how and why drug policies have developed and changed historically. Considers how the criminalization of drugs has impacted policing strategies, courts, probation programs, sentencing and corrections, as well as other social institutions. Examines the role of local and federal agencies in enforcing drug laws, and considers debates about directions for legal reforms.

**Prerequisite(s):** SOC 101.

**SOC 247 Aging 3 Credits**

The emergence of social gerontology, demographic foundation of aging, the aging process, comparative study of aging and aged, effect of aging on the individual, social institutions and aging, and problems of aging and some solutions.

**Prerequisite(s):** SOC 101.

**SOC 248 Social Service Organizations 3 Credits**

Examines the growth and variety of social service organizations. The training of providers, such as teachers and physicians, and relationships between professionals and clients in settings such as schools and hospitals are studied as well as organizational decision-making, finances, and community relations.

**Prerequisite(s):** SOC 101.

**SOC 252 Media, Culture and Society 3 Credits**

Examines mass-produced commercial culture, how it has developed, and the role it plays in modern society. Analyzes the content of these cultural forms, how its production is organized, and how audiences perceive it.

**Prerequisite(s):** SOC 101.

**SOC 261 Schools and Schooling 3 Credits**

Schools and the process of schooling are analyzed within a broad historical perspective as well as within the structural and cultural context of American society. Education within a global perspective is also considered. Issues discussed include school funding, integration, tracking, technology, bureaucratization, and the "cultural wars" fought within the schools.

**Prerequisite(s):** SOC 101.

**SOC 269 Physical Anthropology 3 Credits**

An analysis of the biological development of the human capacity for culture. Topics include: modern theories of evolution and their application to human evolution; the relationship of human beings to other primates, the human fossil record, and variation among modern human populations. A background in biological studies is not necessary.

**Prerequisite(s):** SOC 101.

**SOC 270 Area Studies: Africa 3 Credits**

An intensive investigation of problems arising from historical and contemporary studies of tribal, peasant, and transitional societies in Africa south of the Sahara.

**Prerequisite(s):** SOC 101.

**SOC 271 Area Studies 3 Credits**

Studies problems arising from historical and contemporary studies of peasant populations of Europe.

**Prerequisite(s):** SOC 101.

**SOC 272 Area Studies: Indians of North America 3 Credits**

Societies and cultures of the Indians of North America from the Arctic to Mesoamerica. Emphasis on evidence of these tribal groups prior to extensive acculturation and their contemporary situation.

**Prerequisite(s):** SOC 101.

**SOC 300 Work and Occupations 3 Credits**

Analyzes the nature and organization of work in modern society. Focuses on such issues as division of labor, specialization, alienation, professionalization, and the role of technological change. Includes an examination of the historical development of work in the 20th century, and a consideration of contemporary and future patterns of work organization.

**Prerequisite(s):** SOC 101.

**SOC 301 Methods of Sociological Research 3 Credits**

The second in a series of required courses for majors. Builds upon the Introductory Seminar in Sociology. Social research methods using documents, observations, and questionnaires are taught, and used in completing research projects.

**Prerequisite(s):** SOC 201.

**SOC 308 Cities And Suburbs 3 Credits**

Examines the growth of an urban way of life under the influence of industrialism. Study of community, political, and economic institutions in cities. Comparisons between urban and suburban areas.

**Prerequisite(s):** SOC 101.

**SOC 309 Peasant Society 3 Credits**

A comparative view of peasants and their significance in agrarian, colonial, and industrial societies. Peasant economic, political, and social institutions are analyzed with an eye to both their internal operation and the way they relate to non-peasant groups who hold power in these societies. The changes that have occurred in the peasant world are viewed both as a consequence and a cause of wide reaching political and economic upheaval.

**Prerequisite(s):** SOC 101.

**SOC 310 Pre-Industrial Economies 3 Credits**

The anthropological study of technology, production, and exchange in nonmarket cultures, as related to the social, ideological, and ecological systems in which they are embedded. The question of whether the concepts that derive from market economies can be applied to all economic systems is considered in detail.

**Prerequisite(s):** SOC 101.

**SOC 311 Social and Cultural Change 3 Credits**

Investigates the process of change in both industrial and nonindustrial settings. Particular attention paid to the role of the individual in change as well as the roles played by the mode of production, social organization, and ideological constructs. Case studies are drawn from non-Western as well as Western sources.

**Prerequisite(s):** SOC 101.

**SOC 312 Women in Society 3 Credits**

Examines changes in women's roles and in male-female relationships. Focuses on impact of law, economy and social movements in shaping women's positions as wives and as workers. Explores theories and evidence concerning the nature and extent of sex differences. Attention to women's socialization through language, schools and media.

**Prerequisite(s):** SOC 101.

**SOC 313 Gender and Criminal Justice 3 Credits**

This course will examine women's experiences with the criminal justice system as offenders, victims, prisoners, and practitioners. It will consider how gender has shaped theories of crime and criminological research. It will explore how cultural constructions of gender have influenced substantive and procedural criminal law, the ways criminal justice agencies respond to crime, and how these have changed historically. Attention will be given to the development of new approaches, reforms, and challenges.

**Prerequisite(s):** SOC 101.

**SOC 314 Social Theory 3 Credits**

Introduces the major thinkers and conceptual problems characterizing the development of sociological thought. Required of sociology majors.

**Prerequisite(s):** SOC 201.

**SOC 315 Issues in Modern Social Theory 3 Credits**

Examines current trends and issues in sociological thought.

**Prerequisite(s):** SOC 314 or permission of instructor.

**SOC 316 Feminist Social Thought 3 Credits**

An introduction to feminist social theory, with emphasis on its breadth and variety. Special attention paid to the ways feminist theorists have analyzed the relationship of gender to other kinds of group differences.

**Prerequisite(s):** SOC 101.

**SOC 317 Law and Lawyers 3 Credits**

Relationships between law, the economy, and the state are explored. Discussion of laws, legal systems and legal reasoning using cross-cultural comparisons and historical analysis of these in the United States. Particular attention given to impact of law on corporations, workers, women, and minorities. Changes in legal profession and legal education are examined.

**Prerequisite(s):** SOC 101.

**SOC 320 Religion and Belief Systems 3 Credits**

The relation of religious phenomena to social structures and processes; religion in cross-cultural perspective.

**Prerequisite(s):** SOC 101.

**SOC 321 White Collar & Corporate Crime 3 Credits****SOC 322 Punishment and Corrections 3 Credits**

This course explores the nature, forms, rationales, and effectiveness of punishment as a form of crime control. It traces the development of corrections in the U.S., identifies cultural trends and developments in penology, including mass incarceration and supermax prisons, considers the ways race and class have shaped these, and the reverberating effects penal policies have had on American culture and society beyond the criminal justice system. It examines the role of laws, politics, crime control agencies, as well as of media, and corporations in shaping penal policies. Topics also include: prison subcultures, inmate rights, correctional practices, privatization of prisons, and alternatives to punitive policies of incarceration and capital punishment.

**Prerequisite(s):** SOC 101.

**SOC 325 Population Study 3 Credits****SOC 330 Class and Economic Inequality 3 Credits**

Social, economic, and political aspects of the division of society into classes are considered. Theories of stratification and the distribution of wealth, power, and prestige in societies past and present are examined.

**Prerequisite(s):** SOC 101.

**SOC 340 Power and Politics 3 Credits**

Examines the nature and distribution of power in contemporary societies; analyzes the relationships between power and politics.

**Prerequisite(s):** SOC 101.

**SOC 341 Developing Societies 3 Credits**

Examines theories explaining patterns of development; indicators and measures of social well-being; and problems such as population, hunger and environmental crises in developing countries. Focuses especially on patterns of development in Latin America or China.

**Prerequisite(s):** SOC 101.

**SOC 342 Police and American Society 3 Credits**

This course examines important issues regarding police in American society, such as the paradoxes inherent in police work, police organization and strategies and their effectiveness, the dilemmas of supervising police work, police unionism, the nature and implications of police occupational subculture, the use of police discretion, forms of police misconduct and accountability, professionalization of police and the trend toward police privatization. It also considers the diversity of the police force, trends in the delivery of policing services, the impact of new technologies on policing, and the challenges of policing in a multicultural society.

**Prerequisite(s):** SOC 101.

**SOC 343 Policing and Counter Terrorism 3 Credits**

This course is designed as an upper level (undergraduate/graduate) combination lecture and discussion section on the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspectives on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (environment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security.

**Prerequisite(s):** SOC 101.

**SOC 345 Race and Crime 3 Credits**

Examines the impact of crime policy on minority communities in the United States, with particular attention to the impact of "The War on Drugs", three-strike laws, and mandatory sentencing on minorities and minority communities. Drawing on sociological research, the course explores myths and realities concerning the relationship between race and crime. The relationship between racial attitudes, historical race relations, and mass incarceration are discussed.

**Prerequisite(s):** SOC 101.

**SOC 346 Health Care and Society 3 Credits**

Application and contributions of sociology to medicine; the strategy and methods of sociomedical research; sociology of illness, addictive and mental disorder; medical institutions; health services and medical care; and current status of medical sociology.

**Prerequisite(s):** SOC 101.

**SOC 347 Aging and the Elderly 3 Credits****SOC 348 Human Service Organizations 3 Credits****SOC 349 Retirement and Leisure 3 Credits**

Examines the social phenomena of retirement as an event, process, social role, and life stage. Explores the meaning of leisure, time utilization, and creativity among the elderly. Defines related problems and issues, i.e., financial, physical, psychosocial, and environ-mental. Positive as well as negative implications are presented and evaluated.

**Prerequisite(s):** SOC 247 recommended.

**SOC 350 Social Policy 3 Credits**

Investigates the relationship between economic development and social policy in comparative and historical context. The main features of preindustrial, early industrial, and advanced industrial social welfare systems are described. Social, economic and political factors that shape social policy are investigated.

**Prerequisite(s):** SOC 101.

**SOC 355 Social Interaction 3 Credits**

Examines the interpersonal relation between and among people in private life, public places, and at work. Explains how such relations affect and are affected by changes in the larger social structure.

**Prerequisite(s):** SOC 101.

**SOC 360 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 361 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 362 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 363 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 364 Selected Topics 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 365 Selected Top: Social Movements 3 Credits**

FALL 2012 - This course examines movements that seek change in the social, cultural and political structures of society. The social, economic and political contexts of these movements are treated as well as their origins, tactics, organization, recruitment, and successes and failures. Case studies focus on movements in the areas of labor, civil rights, feminism, the environment, "right wing politics", and neighborhood activism. In today's world, social movements abound. Movements such as the Tea Party and the Occupy movements demonstrate that they can take place across the political spectrum of society. Moreover, the interconnectedness of the world economy creates social movements throughout the world, whether in Asia, the Mid-East or Europe that have direct affects on the United States. Because the coverage of these movements are given considerable media exposure, students (and the public) tend to accept the interpretations of these movements as presented in the narratives of the media coverage. This class will provide a systematic academic treatment of social movements. Because social movements target structural and cultural institutions in society, the study of these movements will not only provide an understanding of these movements, but of larger social problems in society as well.

**Prerequisite(s):** SOC 101.

**SOC 367 Selected Topics: Environment 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 368 Selected Topics in Sociology 3 Credits**

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

**Prerequisite(s):** SOC 101.

**SOC 369 Selected Topics in Sociology 3 Credits****SOC 396 Applied Sociology 3 Credits**

Shows how sociology can be applied in work settings. As participant observers in organizations related to their career objectives, students learn to apply sociological knowledge, perspectives, and skills. In class meetings and individual consultations with the instructor, students examine the applied dimensions of sociology, the uses of sociology in various occupations, the ethical issues involved in applied sociology, and the culture and structure of their work organization.

**Prerequisite(s):** SOC 101.

**SOC 400 Senior Seminar 3 Credits**

For sociology majors only. This seminar involves in-depth examination and research of a specific issue of current importance in the discipline. Learning to do sociology is emphasized.

**Prerequisite(s):** SOC 201, SOC 301, SOC 314.

**SOC 401 Sex and the Body in Society 3 Credits**

Examines cultural meanings and social practices associated with sex and the body. Contemporary cultural norms and practices in the U.S. will be compared to other societies, historically and cross-culturally. Variations in sexual practices, ideals of sexual attractiveness according to age, gender, race, ethnicity, class and sexual orientation also will be discussed. Topics may include beauty industries (e.g. cosmetics, diet, fashion, surgery, drugs), sex and the workplace, the impact of media, social policy, and technology on ideals of sexual attractiveness, birth control, and sexual violence.

**Prerequisite(s):** SOC 101.

**SOC 490 Independent Study: Research and Creative Expression 1-4 Credits**

Juniors or seniors who have completed at least 12 credit hours in sociology may propose an independent research project with the aid and advice of any full-time faculty member of the department. Proposals must be reviewed and approved by the sponsoring faculty member and submitted to the department's Independent Study Committee at least four weeks prior to the last day of classes for the semester preceding Independent Study.

**Prerequisite(s):** SOC 101.

**SOC 491 Internship in Sociology 1-4 Credits**

A supervised work experience in an approved organization to gain knowledge of applications of sociology in work settings and to analyze work settings using sociological knowledge and research methods. Placements are made in business, government, and community offices that utilize sociological knowledge or research skills.

**Prerequisite(s):** 2.75 GPA.

**SOC 496 Honors in Sociology 3-6 Credits**

Training in the efficient collection of data that has a bearing on the problem being investigated. Stresses the technique of proper summarization of the collected material as well as the integration of that material into a comprehensive report. A research design is prepared and hypotheses tested in the field. The original library research is then combined with the findings to produce a mini-thesis. Approval of student's program by a sponsoring faculty member and the department Independent Study Committee is required.

**Prerequisite(s):** SOC 201, SOC 301.

**SOC 497 Honors in Sociology 3-6 Credits**

Training in the efficient collection of data that has a bearing on the problem being investigated. Stresses the technique of proper summarization of the collected material as well as the integration of that material into a comprehensive report. A research design is prepared and hypotheses tested in the field. The original library research is then combined with the findings to produce a mini-thesis. Approval of student's program by a sponsoring faculty member and the department Independent Study Committee is required.

**Prerequisite(s):** SOC 201, SOC 301.

## Spanish (SPA)

**SPA 100 Spanish I 3 Credits**

Introduction to the fundamentals of Spanish grammar, with emphasis on communicative skills, in culturally authentic contexts. Students are required to work extensively with audio and/or video materials and online sources. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** placement test if Spanish has been studied elsewhere.

**SPA 101 Spanish II 3 Credits**

Continuation of Spanish 100. Emphasizes the use of language for communicative and cultural competency while developing a solid grammar foundation in Spanish. Students are required to work extensively with audio and/or video materials and online sources. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** SPA 100 or placement test.

**SPA 102 Elementary Spanish II Abroad 3 Credits**

This course is the second part of the first year experience in Spanish and is designed for students who have taken Spanish for Beginners I and who are interested in experiences abroad in a Spanish speaking culture. The aim is to develop the four basic skills (listening comprehension, speaking, reading, and writing) in and beyond the classroom. The discussion of distinctive cultural aspects of the Hispanic world is an integral part of this course as well as to encourage students to experience the world through the eyes of the other culture by exposing them to the literature and arts of the local culture.

**SPA 200 Spanish III 3 Credits**

An intensive review of Spanish grammar with emphasis on aural-oral (listening and speaking skills) and composition writing. Literary and cultural readings will be used to develop these skills. A special section may be offered to address the needs of native speakers. Students may be required to work with audio and/or video materials and online sources. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisite(s):** SPA 101 or placement test.

**SPA 201 Spanish IV 3 Credits**

A continuation of Spanish grammar review with emphasis on aural-oral and written skills to prepare students for further study. The discussion of distinctive cultural aspects of the Hispanic world is an integral part of this course. This course counts towards the fulfillment of the Essential Competencies element of the CLAS general education curriculum.

**Prerequisites:** SPA 200 or placement test.

**SPA 300 Advanced Grammar & Composition 3 Credits**

A systematic review of grammatical structure. The development of writing skills, in preparation for upper level courses in literature, culture and professional language.

**Prerequisite(s):** SPA 201, placement test at 300-level or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 301 Spanish for Business 3 Credits**

A solid foundation in business vocabulary and cultural concepts; situational practice in geographic and cultural contexts necessary to be successful in today's Spanish-speaking world. Practice in writing business letters and other documents. Oral and written assignments to help students improve their critical thinking and become better communicators.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 302 Writing and Translating 3 Credits**

Practice in writing and an introduction to translation for students who will use Spanish in their professional lives. Using literary, cultural and journalistic sources, students learn various writing discourses including narration, description, exposition, argumentation, and journalistic and letter writing. Translation involves preliminary study of translation theory and techniques, and practice with texts from students' chosen careers. Additional study of Spanish grammar as necessary.

**Prerequisite(s):** SPA 201, placement test at 300-level or above, or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 303 Advanced Communication in Spanish 3 Credits**

The focus of the course is to strengthen the student's aural comprehension and speaking skills by providing a framework for regular guided practice of fundamental grammar structures and vocabulary enhancement in the context of Hispanic cultures. Listening activities will include live speech, video recordings, film shorts and one full-length movie. Speaking tasks will be reinforced with written exercises.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 305 Cervantes 3 Credits**

A detailed study of Cervantes' masterpiece *El ingenioso hidalgo Don Quijote de la Mancha*. Lectures, discussions, and supplementary readings.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 310 Spanish Culture & Civilization 3 Credits**

Spain's cultural achievements are studied in light of the country's unique historical and social reality through the use of historical, artistic, architectural, cinematic and literary sources. Cross-cultural awareness is enhanced through exercises that compare Spanish and American society. Classes are in English. No knowledge of Spanish required. This course may contain an optional travel component offered before or after the semester or during spring break.

**SPA 311 Latin American Latino Culture 3 Credits**

A panoramic survey of Latin American cultural achievements in light of the unique social and political history from the pre-Columbian period to the present. The cross-cultural perspective includes a study of Latino culture in the United States. Classes are in English. No knowledge of Spanish is required.

**SPA 320 Introduction to Spanish Literature 3 Credits**

Examines through lectures, readings and class discussions selected texts and their relationship to the main currents of European literary history. Introduction to the practice of literary analysis through written composition. Required for majors. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 325 Introduction to Latin-American/Latino Literature 3 Credits**

A study of the development of Latin-American and Latino literature from its origins to the present through the reading, analysis and discussion of representative works by major authors. This course increases the understanding of how social, historical, and political events, together with native as well as foreign literary movements, create a unique literature, conveying the Hispanic-American reality. Required for majors. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 395 Phonetics for Communication 3 Credits**

A systematic study of the production of Spanish sounds with practice in phonetic transcription and a preliminary investigation of dialects.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 403 Medieval Literature 3 Credits**

Surveys the literature of Spain during the Middle Ages, with special emphasis on major writers such as Gonzalo de Berceo and Don Juan Manuel, and attention to the epic and the medieval ballad. Modern versions of medieval Spanish are used.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 410 Modern Hispanic Poetry 3 Credits**

Surveys the poetic genre, emphasizing how to read, analyze, and appreciate poetry. Major poets from Spain and Spanish America of the 19th and 20th centuries representing the main currents of modern lyricism are studied. Focuses on such major writers as Rosalía de Castro, Darío, Jiménez, Machado, Vallejo, Mistral, Neruda, Lorca, Paz, Ana Rossetti, Nicolas Guillen, and Nancy Morejon.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 411 Modern Spanish Novel 3 Credits**

Traces the development of the Spanish novel, paying particular attention to the masters of the 19th-century Realism (Galdos and Clarin), the innovations and experimentation of the Generation of '98 (Unamuno, Baroja, Valle-Inclan, and Pérez de Ayala), and the novelists of the post-Civil War and contemporary periods (Cela, Delibes, Goytisolo, Martín Gaité, Matute, Fernandez Cubas, and Javier Marías). Emphasis on the aesthetics of the novel as a literary form.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 412 Hispanic Theater and Film 3 Credits**

This course explores through theater and cinema the compelling issues that have shaped Hispanic cultures and consciousness throughout the centuries. Sample topics include war and remembrance; myth and history; freedom and authority; immigration; globalization; and race, class, and gender. The course may focus on specific authors or historical periods. Representative playwrights include Lope de Vega, Zayas, Zorrilla, Avellaneda, Lorca, Buero Vallejo, Sastre, Solorzano, Carballido, Lopez Mozo, and Pedrero. Directors include Buñuel, Saura, Gutiérrez Alea, Almodovar, Rocha, Salles, Erice, Zambrano, and Bollain.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 413 The Hispanic Short Story: Transatlantic Connections 3 Credits**

This course will introduce students to the most representative writers of the short story in Spain and Latin America from Romanticism to the present. Students will be prepared to perform close readings of the literary genre under study, to analyze the form and content of the texts read, paying due attention to all internal and external aspects that impact the narrative process and the evolution of the short story. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 415 Spanish Renaissance 3 Credits**

The origins and evolution of the Renaissance in Spain and of the literary expression of Renaissance culture as reflected in the development and perfection of prose and lyrical styles through the 16th century. Topics include the medieval heritage, Spanish Humanism, the Celestina, the Renaissance ideal in amatory prose and poetry, mysticism, the ballad, and the picaresque novel.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 416 The Spanish Golden Age 3 Credits**

The literature of Spain during a period of political decline and outstanding aesthetic achievement: Lope de Vega and the rise of a national theatre; Calderon's drama of ideas; the development of the novella and the picaresque novel; the poetry and prose of Gongora, Quevedo, and Gracian. Also includes an introduction to literary theory.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 420 From Colonies to Nations 3 Credits**

This course consists of a panoramic survey of Colonial Latin American literature in light of the unique social, cultural and political history from the pre-Columbian to the Independence period (1825). Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Note: This course is cross-listed as LAC 420. Students may not get credit for both SPA 420 and LAC 420.

**SPA 426 Latin American/Latino Film and Fiction 3 Credits**

A study of the main trends in contemporary Hispanic fiction written in Latin America and the United States. Analysis and discussion of selected novels and short stories, and their cinematic representation on film. Required for majors. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum. Course taught in Spanish.

**Prerequisite(s):** SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

**SPA 490 Independent Study: Research and Creative Expression 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

**SPA 491 Internship in Foreign Languages 1-4 Credits**

A supervised work experience in an approved organization to gain knowledge of the importance and interrelationship of foreign languages and cultures in the workplace. Placements can be made in international governmental agencies, international trade associations, multinational corporations, social service agencies and other appropriate workplace environments both in the United States and abroad. With permission of the supervisor and faculty advisor, a three-credit internship may be substituted for a collateral requirement as credit toward the major.

**Prerequisite(s):** students should have completed at least one 300-level course in the foreign language.

**SPA 496 Special Studies 3 Credits**

A seminar open to a variety of topics treating a particular author, period, genre, or theme.

**Prerequisite(s):** permission of instructor.

## Special Education-UG (SPE)

**SPE 201 Foundations in Special Education and Inclusive Practice 3 Credits**

This course emphasizes the foundations of special education and introduces students to inclusive practice. Philosophical, historical, and legal foundations of special education and characteristics of students with disabilities will be examined. Students will learn the components of an Individualized Education Program (IEP), how to adapt learning environments and curricular materials, as well as how to select and implement modifications for students with disabilities. Inclusive educational practices including communication, coteaching, and collaborative partnerships will be addressed through case studies and fieldwork. Students will be required to complete a minimum of 15 field hours in addition to regularly scheduled class hours.

**Prerequisite(s):** A cumulative GPA of 2.75 is required.

**SPE 202 Teaching Students with Autism Spectrum Disorder and Low-Incidence Disabilities 3 Credits**

This course is designed to examine the characteristics of individuals with Autism Spectrum Disorder (ASD) and strategies to support their academic, communication, and social/behavioral growth, including the use of assistive technology and positive behavioral supports. Methods and strategies for ASD and other low incidence disabilities will be explored. Through active participation in class and field sites, students will become aware of the various social issues related to family, education, transition, community resources and work experiences of individuals with these disabilities. Students will be required to complete a minimum of 30 weekday field hours in addition to regularly scheduled class hours.

**Prerequisite(s):** A cumulative GPA of 2.75 and SPE 201.

**SPE 210 Global Encounters 3 Credits**

This course is an international learning experience focused on exploring educational opportunities in the United States and abroad. Students will study the history, policy and practice of special education in the United States and compare it with another country and culture first hand, through lectures, school visits and reflection. Current strategies and challenges of educators and families supporting individuals with disabilities will be examined. Through this cross-cultural experience, students will broaden perspectives and develop cultural awareness, knowledge, and understanding of diversity. This course is open to all students and disciplines. There are no prerequisites.

**SPE 300 Inclusive Practices for General Education Teachers 3 Credits**

This online course is designed to introduce preservice general education teachers students to special education and the inclusive classroom. Students will explore current issues and practices in special education. Assignments and activities will enable students to develop the knowledge and skills to design and manage the instructional environment for diverse learners in inclusive and classroom setting. Attitudes and behaviors that influence children with special needs will be addressed. Students will be required to complete a minimum of 15 field hours in addition to regularly scheduled class hours. Prerequisite(s): EDU 106 and EDU 206. A cumulative gpa of 2.75 is required.

**SPE 303 Assessment and Instruction for Students with Disabilities 3 Credits**

This course will emphasize the relationship between assessment and instructional design and implementation. Coursework includes the evaluation, selection, development, and adaptation of standardized, normreferenced, and functional assessments, such as a Functional Behavioral Assessment (FBA) and Ecological Assessment. Strategies to support literacy instruction for students with disabilities will be examined. Transition planning, program development, and agencies available to support students with disabilities and their families will be explored. This course requires a field experience in order to help students apply theory to practice.

**Prerequisite(s):** A cumulative GPA of 2.75 and SPE 201.

**SPE 304 Assessment and Instruction in the Inclusive Classroom 3 Credits**

This course will emphasize assessment, planning, and instructional design to maximize the learning of all students, including those with exceptional learning needs, in the inclusive classroom. Students will have the opportunity to explore a variety of instructional strategies to meet the needs of diverse learners. Organization of learning environments and the collaborative process, including co-teaching models, will be utilized to design a long-term unit plan. This course requires a field experience in order to help students apply theory to practice.

**Prerequisite(s):** A cumulative GPA of 2.75 and SPE 201.

**SPE 305 Assessment and Instruction for Students with Autism Spectrum Disorders 3 Credits**

Through this course, teacher candidates will learn both theories related to teaching students with Autism Spectrum Disorder (ASD) as well as best practices in the classroom related to academic instruction, as well as emotional, behavioral, and communicative interventions. This course also includes a field component, in which teacher candidates are expected to complete 10 hours of observation in a classroom with students with ASD. The course begins by examining the characteristics of the disability, causes, early warning signs, diagnostic procedures, and early intervention practices. Specific practices related to instruction and intervention as well as how to best structure a classroom for students will be examined. Teacher candidates will receive instruction in a variety of strategies and practices, even those that do not yet qualify as EBPs, as well as their theoretical underpinnings. Strategies for communicating effectively and efficiently with parents, as well as the most current and/or special issues in the field will also be discussed. Issues related to post-secondary transition will also be examined. A cumulative GPA of 2.75 is required.

## Sport Management (SPT)

### Courses and Descriptions

**SPT 250 Introduction to the Business of Sports 3 Credits**

This course is designed to introduce the student to the business of sports. Business principles, such as management, marketing, law, finance and economics will be applied to the business of sports. The course will also explore the various career opportunities in the world of sports.

**SPT 320 Business of Global Sport 3 Credits**

The course explores the diverse challenges and issues facing the managers of sports enterprises in the context of the global marketplace. Issues of governance, cross-cultural interactions and business activities will be examined as they relate to modern sport at the international level. By evaluating case studies and examining current issues in the field, students will gain an understanding of the relationships and responsibilities associated with being a business professional in the global sport industry.

**SPT 322 Sports Analytics 3 Credits**

This course will address the theory, development, and application of analytics in sports. Analytics refers to the use of statistical techniques and visualizations to measure performance and make decisions. Students will learn about the application of analytics in sports for purposes of strategy, player performance, team management, sports operations and fantasy competitions. Classwork will consist of readings, lectures, discussions, presentations from guest speakers, and hands-on labs. Students will work on projects related to the use of analytics in the various professional sports leagues and college sports. Pre-reqs: CIS 185, MSD 200 and SPT 250.

**SPT 325 Financial Management in the Sport Industry 3 Credits**

This course is designed to build upon earlier knowledge from courses in economics, accounting and finance that emphasizes the sports industry and the challenge for financial managers in areas such as stadium/arena financing, financial analysis and valuation. Business models and their financial implications for media and sports related enterprises as well as the business of college athletics will also be covered.

**SPT 355 Sports and the Law 3 Credits**

Examines the legal, ethical, economic, social and managerial issues related to sports. Topics include liability issues, contracts, employment discrimination, antitrust law, and constitutional law. This course is cross-listed as LAW 355. Students may not get credit for both SPT 355 and LAW 355.

**SPT 444 Selected Topics in Sport Management 3 Credits**

This course is offered occasionally with topics and prerequisites set by the Business of Sports Program faculty. This course can be used as an elective for the Sport Management major, Sport Studies minor, or as a free elective. This course is graded on a letter grade basis.

**Prerequisite:** SPT 250.

**SPT 450 Contemporary Issues in Sport Management 3 Credits**

This course will address the theory, development, and application of analytics in sports. Analytics refers to the use of data and quantitative methods to measure performance and make decisions. Students will learn about the application of analytics in sports for purposes of strategy, player performance, team management, sports operations, and fantasy competitions. The class will consist of lectures, discussions, and guest speakers from the sports industry. Students will work on projects related to the use of analytics in the various professional sports leagues and college sports.

**Prerequisite:** SPT 250, senior standing, and completion of 15 credit hours in business of sports coursework or permission of instructor.

**SPT 490 Independent Research and Study 1-4 Credits**

Topic to be approved by the professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation, which may be counted as a business or free elective.

**Prerequisite(s):** Junior standing, 9 credits in Sport Management courses (including SPT 250) and permission of instructor.

**SPT 491 Sport Management Internship 1-3 Credits**

Sports related internships can be used to satisfy an elective requirement for the Sport Management Major, Business of Sports Minor and Sport Studies Minor. The course is graded as Pass/Fail.

## Sustainability Studies (SUS)

**SUS 100 Introduction to Sustainability Studies 4 Credits**

Sustainability is an idea that will shape the lives of all in the 21st century. Students will explore how we arrived at our current precarious environmental situation and investigate cutting-edge methods that support human development and protect the natural ecosystems on which we will depend. By exploring principles of sustainability (whole-systems approaches, resource limitations, stewardship) through many different lenses, students will appreciate the interdisciplinarity of the sustainability enterprise. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**Corequisite(s):** SUS 100L.

**SUS 100L Intro to Sustainability Lab 0 Credits**

For students concurrently taking SUS 100. Field trips, visiting speakers, and films to complement topics covered in the introductory course. One three-hour laboratory per week.

**Corequisite(s):** SUS 100.

**SUS 400 Sustainability Studies Seminar 3 Credits**

To synthesize sustainability studies coursework and internship experiences, students will collaboratively develop and implement a sustainability project on the Rider campus, aiming to simultaneously reduce both depletable resource use and environmental impact. Seminar sessions will explore the historical development of current systems and innovative thinking related to sustainability planning related to the focal issue. Specific topic at discretion of the instructor. Prerequisite(s): SUS 100, SUS 100L.

**Corequisite(s):** SUS 400 or as prerequisite or permission of instructor.

**SUS 490 Independent Study: Research and Creative Expression 1-4 Credits**

Immerses the student in applying sustainability principles in a field setting. Students are expected to assess the outcomes of their projects and communicate their results verbally and in writing to interested audiences.

**SUS 491 Internship in Sustainability 1-4 Credits**

A supervised work/service experience in an approved organization where students gain understanding and experience with applying sustainability principles. Placements may be in private, public, educational, non-profit or governmental organizations. Students are expected to include measurement and documentation of the environmental, social, and economic impact of their work. A minimum of 50 hours of work is required for one credit. At least 150 hours are required to earn 3 credits.

## Theatre (THE)

**THE 105 Theatre History to 1700 3 Credits**

The history of theater from the primitive time through the Baroque era. Examines major plays and playwrights, emphasizing the Greek, Roman, Medieval, and Elizabethan eras. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 106 Theater History Since 1700 3 Credits**

The history of theater from the Restoration to the present. Examines major plays and playwrights, emphasizing the Restoration, Romantic, and Realistic movements. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 107 Acting I: Intro to Acting 3 Credits**

Exercises and improvisations developing the fundamental prerequisites for the actor are provided. The emphasis is on vocal and physical mobility and the ability to communicate emotional states from the stage.

**THE 110 Acting II: Scene Study 3 Credits**

Basic acting techniques. Emphasis on the ingredients of any action: what am I doing, where, why, who am I, what is my attitude toward partner?

**Prerequisite(s):** THE 107.

**THE 111 Theatre Lab 0 Credits**

This class serves as a forum for students to cultivate practical professional skills. Through seminars, guest speakers and master classes, this lab will give the students necessary tools to enter the professional theater. Theater majors must meet the weekly attendance and participation requirements during every semester up to a total of six.

**THE 115 Stagecraft 3 Credits**

The theory and practice of construction and rigging of stage scenery is offered. Emphasis is on actual productions and road show set-ups. One lecture and two labs per week.

**THE 116 Stagecraft Practicum 1 Credits**

Work in the various shops and stages specializing in different areas such as carpentry, scenic painting, lighting and electrics, costumes and props, assisting main stage productions under the supervision of the design or technical staff.

**Prerequisite(s):** THE 115.

**THE 118 Visual Imagination 3 Credits**

Introduction to the visual world of theater design. Visual examples, physical exercises and handcraft of composition and style, with dramatic input and meaning. The course explores how to translate ideas in a dramatic text into a visual context.

**THE 120 Theater Appreciation 3 Credits**

By exploration of dramatic literature, conclusions are drawn as to man's relationship to his particular period, style, political, social, and psychological environment. Appreciation of the theatrical event is included. This course counts towards the fulfillment of the Disciplinary Perspectives element of the CLAS general education curriculum.

**THE 127 Theatre Production 1 Credits**

Students rehearse and perform roles in a play produced by the department and directed by a member of its faculty. Students may also prepare a major element of design or technology for the production. Maximum of eight credits are accepted in theatre production, band and/or choir.

**THE 127T Theatre Production Tech 1-3 Credits**

Students carry out a technical theatre crew position for one or more theatre, musical theatre or dance productions during the semester of course registration. May be repeated seven times, for a total of eight credits.

**THE 199 The Arts in Contemporary Civil 3 Credits**

An integrated study of the arts and their place in contemporary American life. Includes attendance at several events in art, music, and drama.

**THE 206 American Theatre History 3 Credits**

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions. Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

**THE 218 Stage Lighting 3 Credits**

The theory and practice of stage lighting as utilized in concept, dance, and theatre. Considers the nature of light, controlling light, color theory, electricity, electrical safety, and lighting design.

**Prerequisite(s):** THE 115.

**THE 219 Stage Management 3 Credits**

Provide necessary tools to get started as a production stage manager (PSM), including management, leadership, communication and organizational skills. Providing guidelines to prepare production paperwork. Overview of the relationship between the PSM and other production personnel.

**Prerequisite(s):** THE 115.

**THE 220 Movement for the Actor 3 Credits**

This course is an introduction to movement training methodologies, and emphasizes physical awareness and expressivity as it relates to development of character.

**Prerequisite(s):** THE 107, Open to Theater majors or minor, or by permission of the instructor.

**THE 221 Voice for the Actor 3 Credits**

Focuses on exploration of the basic principles of vocal production and cultivating natural expressivity of the voice. Class work is based upon the classic progression of voice exercises of Kristin Linklater.

**Prerequisite(s):** THE 107; Open to Theatre majors or minor, or by permission of the instructor.

**THE 222 Speech and Dialects for the Actor 3 Credits**

Focuses on exploration of the International Phonetic Alphabet (IPA) and the use of the IPA in learning dialects (including Standard Neutral American) for the stage.

**Prerequisite(s):** THE 107; Open to Theater majors or minor, or by permission of the instructor.

**THE 223 Costume Design 3 Credits**

Introduction to tasks, skills and expertise of costume design and costuming techniques, relationship with other creative production and cast members. Students will create sketches and develop basic construction plans. Develop familiarity with fabrics, patterns, common challenges in costume design.

**Prerequisite(s):** THE 115, THE 118.

**THE 224 Stage Make Up 3 Credits**

Basic application of make up artistry and techniques for the stage. How it can help build a character, and how to apply to self and others.

**THE 225 Sound Design 3 Credits**

Introduction to sound design and its diverse use and practice for the staged productions, e.g. plays, musicals, operas and dance.

**Prerequisite(s):** THE 115.

**THE 226 Drafting for the Stage 3 Credits**

Covers essential drafting language for staged productions. Drafting of ground plans, sections, elevations, and renderings by hand and with computers.

**Prerequisite(s):** THE 115.

**THE 227 Properties and Scenic Painting 3 Credits**

Covers general aspects of scenic painting and props for the stage. Hands on exercises, needs and challenges of each area, how work is usually accomplished in the professional world. Explore different textures, materials and how to combine them.

**Prerequisite(s):** THE 115, THE 118.

**THE 240 Script Analysis 3 Credits**

This course provides students with a technique for analyzing any text by breaking down scenes into objectives, conflicts, beats, activities and subtext, allowing the actor to construct an approach to finding character.

**Prerequisite(s):** THE 107.

**THE 300 Acting for the Camera 3 Credits**

Focuses on the craft and artistry of acting in television and film. Examination of TV production and the styles needed for work in various media will be discussed. Physicalization, simplicity, listening, marking and other technical requirements will be explored. Staging involving different camera angles will be rehearsed. The emphasis of this class is on adapting the performance to the special needs of the camera.

**Prerequisite(s):** THE 107.

**THE 306 American Theatre History 3 Credits**

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions.

Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

**THE 307 Contemporary American Theater 3 Credits**

Today's most influential theatre artists are discussed. Focusing on playwrights, the form and content of dramatic literature considered most significant today are examined along with recent innovations in design and staging practices.

**THE 308 Modern Drama 3 Credits**

Surveys American and European drama from 1920 to 1970. All plays are read in English translation. In these plays, theatrical artists address the great themes of this century. While doing so, they also expand the limits of theatrical expression.

**THE 310 Acting III 3 Credits**

Students will study in-depth techniques for exploring characterization. They will be introduced to the "magic if" and study techniques for placing themselves in the circumstances of the characters they are portraying. They will learn the interior and exterior analysis of characters using "Adler" and "Practical Aesthetics" techniques.

**Prerequisite(s):** THE 107, THE 110.

**THE 311 Acting IV 3 Credits**

Students will learn the appropriate techniques to explore characters in the three styles of Elizabethan, Restoration, and Commedia dell'arte theatre. Sessions will include movement, effective speech, and finding appropriate actions for each style. Students will also learn proper research techniques to understand cultural influences on plays and characters.

**Prerequisite(s):** THE 107, THE 110, THE 310.

**THE 312 The Arts Abroad 3 Credits**

A two-week trip abroad that includes a critical study of the music and theatre. Students are required to attend all performances, guided tours, and classes before and after the trip. A travel journal and final paper is required. A travel fee is required. Travel sites and artistic disciplines may vary year to year. May be taken more than once for credit.

**Prerequisite(s):** Permission of instructor.

**THE 317 Scenic Design 3 Credits**

The study and application of design principles as related to the stage. Incorporates the design process, decor research, styles, materials, and construction technology.

**THE 400 Directing 3 Credits**

The technique of play directing and production management. Lectures present aesthetic and theoretical concepts that are explored in workshops. Each student is required to direct and analyze a one-act play.

**Prerequisite(s):** THE 107, THE 110, THE 115.

**THE 410 Advanced Performance Workshop 3 Credits**

An opportunity to work an entire semester on a specific style or period of theatre, e.g., Shakespeare, farce, Readers' Theater.

**Prerequisite(s):** THE 107, THE 110.

**THE 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

**Prerequisite(s):** junior or senior standing, good academic standing.

**THE 491 Internship in Theater 1-12 Credits**

Provides junior or senior theatre majors the practical experience of working within a professional theater environment. Students must be sponsored by a theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

**Prerequisite(s):** permission of instructor.

**THE 495 Selected Topics in Theatre His 3 Credits**

Intensive study of a particular topic, such as the work of one dramatic movement, one period in dramatic history, or one nation's history.

Students become deeply involved in an area through research, class discussions, and individual consultation with the instructor.

**THE 496 Senior Internship 6-12 Credits****THE 498 Senior Capstone 3 Credits**

The senior capstone is intended for technical theatre students in their final year. Depending on the required abilities, students will be able to design sets, lights, costumes, props or sound for a mainstage show at Rider University, do research on topics related to technical Theatre, internships outside Rider University or work on projects that will improve the use of facilities, storage or equipment for Theater and Dance Department.

**THE 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

# FACULTY

---

## Frank Abrahams

Professor, Department of WCC Music Education  
B.M.E. Temple University; M.M. New England Conservatory; Ed.D. Temple University

## John A. Adamovics

Priority Adjunct Associate Professor, Department of Chemistry and Biochemistry  
B.A. Portland State University; Ph.D. Colorado State University

## Edward Adams

Priority Adjunct Assistant Professor, Department of Finance and Economics  
B.S. Rider University; MBA St. John's Univeristy

## Wendy Adlai-Gail

Priority Adjunct Assistant Professor, Department of Psychology  
B.A. Brown University; M.A. University of Chicago; Ph.D. University of Chicago

## Md Liakat Ali

Assistant Professor, Department of Chemistry and Biochemistry  
B.S. International Islamic University; M.S. Blekinge Institute of Technology; Ph.D. Pace University

## Stephen A. Allen

Professor, Department of Fine Arts  
D.Phil. University of Oxford; B.A. Birmingham Conservatoire; LTCL Trinity College London; ABSM Birmingham Conservatoire

## William J. Amadio

Associate Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. Brooklyn College; M.S. Polytechnic Institute of Brooklyn; Ph.D. Polytechnic Institute of Brooklyn

## Nadia S. Ansary

Professor, Department of Psychology  
B.A. Rutgers, The State University of New Jersey; M.A. Teachers College, Columbia University; M.Phil. Teachers College, Columbia University; Ph.D. Teachers College, Columbia University

## Christopher Arneson

Professor, Department of WCC Piano and Voice  
B.A. Binghamton University, State University of New York; M.M. Binghamton University, State University of New York; D.M. Rutgers, The State University of New Jersey

## Susan Ashbaker

Associate Professor, Department of WCC Piano and Voice  
B.M. Southern Illinois University; M.M. Southern Illinois University; M.M. University of Illinois

## Barry D. Ashmen

Assistant Professor, Department of Marketing  
B.S. Rider University; M.A. Rider University; Ed.D. Temple University

## John Baer

Professor, Department of Teacher Education  
B.A. Yale University; M.A. Hood College; M.S. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

## Anthony Bahri

Professor, Department of Mathematics  
B.Sc. The University of Sydney; M.Sc. University of Oxford; D.Phil. University of Oxford

## Devon Baranek

Assistant Professor, Department of Accounting  
B.S. Villanova University; MBA Baruch College; Ph.D. Baruch College

## Jerome T. Bentley

Associate Professor, Department of Finance and Economics  
B.A. St. Vincent College; Ph.D. University of Pittsburgh

## Kelly A. Bidle

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. Rutgers, The State University of New Jersey; Ph.D. University of Maryland

## Pauline Blaimont

Lecturer I, Department of Biology, Behavioral Neuroscience, and Health Sciences

## Trent Blanton

Associate Professor, Department of Theatre and Dance  
B.A. Georgia College; M.F.A. Florida Atlantic University

## Ciprian S. Borcea

Professor, Department of Mathematics  
B.S. University of Bucharest, Romania; Diploma in Mathematics University of Bucharest, Romania; Ph.D. University of Bucharest, Romania

## Tim Brent

Assistant Professor, Department of Fine Arts  
B.M. Western Michigan University; M.M. University of Miami; Ph.D. University of Miami

## Michael J. Brogan

Associate Professor, Department of Political Science  
B.A. University of Delaware; M.P.A. Rutgers, The State University of New Jersey - Camden; M.Phil. The Graduate Center, City University of New York; Ph.D. The Graduate Center, City University of New York

## Gary M. Brosvic

Professor, Department of Psychology  
B.S. John Carroll University; M.A. The American University; Ph.D. The American University

## Kathleen M. Browne

Associate Professor, Department of Geological, Environmental, and Marine Sciences  
B.A. Colgate University; M.A. Binghamton University, State University of New York; Ph.D. Rosenstiel School of Marine and Atmospheric Science, University of Miami

**Robert Burger**

Priority Adjunct Assistant Professor, Department of Communication and Journalism  
B.F.A. Pratt Institute; M.F.A. Miami International University of Art & Design

**Mark N. Burgess**

Priority Adjunct Instructor, Department of Marketing  
B.A. University of Pittsburgh; MBA Fairleigh Dickinson University

**Justin D. Burton**

Associate Professor, Department of Fine Arts  
M.A. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

**Diane K. Campbell**

Associate Professor-Librarian, University Libraries  
B.A. The University of North Carolina at Chapel Hill; M.L.I.S. Rutgers, The State University of New Jersey; MBA Rider University

**Janet E. Cape**

Associate Professor, Department of WCC Music Education  
B.M. University of Victoria; M.M. Arizona State University; D.M.A. Arizona State University

**Christian B. Carey**

Associate Professor, Department of WCC Music Composition, History and Theory  
B.M. The Juilliard School; M.Mus. Boston University; Ph.D. Rutgers, The State University of New Jersey

**Michael Carlin**

Associate Professor, Department of Psychology  
B.A. Wheeling Jesuit University; Ph.D. Vanderbilt University

**Diane Casale-Giannola**

Professor, Department of Teacher Education  
B.A. University at Albany, State University of New York; M.S. University at Albany, State University of New York; Ed.D. New York University

**Heather Casey**

Professor, Department of Teacher Education  
B.A. Rutgers, The State University of New Jersey; M.Ed. Graduate School of Education, Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

**Claudia Catania**

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice  
B.M. Temple University; M.A. Boston Graduate School of Psychoanalysis

**Nandini Chandar**

Associate Professor, Department of Accounting  
B.Com. Osmania University, India; PGDM Indian Institute of Management Calcutta; Ph.D. Case Western Reserve University

**Feng Chen**

Associate Professor, Department of Chemistry and Biochemistry  
B.S. Hunan University, P. R. China; Ph.D. Northeastern University

**Chih-Chieh (Jason) Chiu**

Associate Professor, Department of Finance and Economics  
B.Sc. University of Witwatersrand; MBA Columbia University; Ph.D. Baruch College

**Lisa Chong**

Priority Adjunct Instructor, Department of English  
B.S. Cairn University; M.A. Arcadia University; M.Ed. University of Pennsylvania

**Ingrid Clarfield**

Professor, Department of WCC Piano and Voice  
B.M. Oberlin College; M.M. Eastman School of Music, University of Rochester

**Roberta Clipper**

Professor, Department of English  
B.A. Indiana University Bloomington; M.A. University of California, Berkeley; Ph.D. University of California, Berkeley

**Daria Cohen**

Professor, Department of Languages, Literatures and Cultures  
B.A. Douglass College, Rutgers, The State University of New Jersey; M.A. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

**Robert J. Congleton**

Associate Professor-Librarian, University Libraries  
B.A. Rider University; M.A. University of Connecticut; M.L.S. Rutgers, The State University of New Jersey

**Ronald G. Cook**

Professor, Department of Management  
B.S.B.A. State University of New York at Oswego; MBA Syracuse University; Ph.D. Syracuse University

**Mariann Cook**

Associate Professor, Department of Theatre and Dance  
B.M.E. University of Central Oklahoma; M.M. The University of Oklahoma

**Deborah Cordonnier**

Priority Adjunct Instructor, Department of English  
B.S. University of Missouri; M.A. Texas A & M University; M.Div. Princeton Theological Seminary; Th.M. Princeton Theological Seminary; M.F.A. Goddard College

**Mack Costello**

Assistant Professor, Department of Psychology  
B.S. University of Florida; M.A. Western Michigan University

**Quinn W. Cunningham**

Assistant Professor, Department of Management  
B.A. Randolph-Macon College; M.S. Virginia Commonwealth University; Ph.D. Drexel University

**Michael G. Curran, Jr.**

Professor, Department of Teacher Education  
B.S. Rider University; M.A. Rider University; Ed.D. Temple University

**Margaret Cusack**

Professor, Department of WCC Piano and Voice  
B.M. Oberlin College Conservatory of Music; M.M.T. Oberlin College Conservatory of Music

**Michele D'Angelo**

Priority Adjunct Assistant Professor, Department of English  
B.A. The College of New Jersey; MAT The College of New Jersey; Ed.S. Rider University

**Heather A. Dalal**

Associate Professor-Librarian, University Libraries  
B.A. Northwestern University; M.L.I.S. Rutgers, The State University of New Jersey; M.Ed. University of Massachusetts

**Patricia H. Dawson**

Associate Professor-Librarian, University Libraries  
B.A. Western Michigan University; M.S. Rutgers, The State University of New Jersey; M.L.S. Rutgers, The State University of New Jersey

**Melissa M. DeWees**

Priority Adjunct Assistant Professor, Department of Psychology  
B.A. Towson State University; M.A. Alliant International University; Psy.D. Alliant International University

**Lauren B. Delisio**

Assistant Professor, Department of Teacher Education  
B.A. Rider University; M.S. Pace University; Ph.D. University of Central Florida

**Todd M. Dellinger**

Associate Professor, Department of Fine Arts  
B.A. The American University; M.A. The American University

**David R. Dewberry**

Associate Professor, Department of Communication and Journalism  
B.A. University of Arkansas; M.A. University of Arkansas; Ph.D. University of Denver

**Cara J. DiYanni**

Associate Professor, Department of Psychology  
B.A. Georgetown University; M.A. Boston University; Ph.D. Boston University

**Jie Joyce Ding**

Associate Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. Xi'an Jiaotong University, P.R. China; M.S. Xi'an Jiaotong University, P.R. China; Ph.D. The University of Texas at Austin

**Chrystina A. Dolyniuk**

Associate Professor, Department of Psychology  
B.A. University of California, Los Angeles; M.A. California State University, Northridge; Ph.D. University of Calgary

**John J. Donovan**

Associate Professor, Department of Management  
B.A. University at Albany, State University of New York; Ph.D. University at Albany, State University of New York

**Susan Dougherty**

Associate Professor, Department of Teacher Education  
B.S. The Pennsylvania State University; M.Ed. Rutgers, The State University of New Jersey; M.Ed. Boston University; Ed.D. Boston University

**Julie Drawbridge**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. The University of Maine; Ph.D. The University of Texas at Austin

**Daniel L. Druckenbrod**

Associate Professor, Department of Geological, Environmental, and Marine Sciences  
B.S. University of Notre Dame; Ph.D. University of Virginia

**Kathleen Dunne**

Associate Professor, Department of Accounting  
B.A. University at Buffalo, The State University of New York; M.S. State University College of Buffalo; Ph.D. Temple University

**Kathleen Ebling Shaw**

Priority Adjunct Instructor, Department of WCC Conducting, Organ and Sacred Music  
B.M. Westminster Choir College, Rider University

**Bosah L. Ebo**

Professor, Department of Communication and Journalism  
B.S. University of Wisconsin-Stevens Point; B.S. University of Wisconsin-Stevens Point; M.A. University of Wisconsin-Stevens Point; Ph.D. The University of Iowa

**Jeff Edelstein**

Priority Adjunct Instructor, Department of Communication and Journalism  
B.A. Rider University

**Lauren B. Eder**

Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. Boston University; MBA Drexel University; Ph.D. Drexel University

**Elem Eley**

Professor, Department of WCC Piano and Voice  
B.M. Baylor University; M.M. Southwestern Baptist Theological Seminary

**Rochelle K. Ellis**

Priority Adjunct Associate Professor, Department of WCC Piano and Voice  
B.M.Ed. Conservatory of Music and Dance, University of Missouri, Kansas City; M.M.E. Westminster Choir College, Rider University

**Faith Esham**

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice  
B.A. Columbia Union College; B.M. The Juilliard School; M.M. The Juilliard School

**Alice Faroh**

Priority Adjunct Assistant Professor, Department of Languages, Literatures and Cultures  
B.A. Universidad Pedagógica Experimental de Barquisimeto; M.A. Maryville University

**Joel Feldman**

Associate Professor, Department of History and Philosophy  
B.A. Hampshire College; Ph.D. The University of Texas at Austin

**Roberta Fiske-Rusciano**

Priority Adjunct Assistant Professor, Department of Political Science  
B.A. Simmons College; M.A. University of Chicago; Ph.D. Rutgers, The State University of New Jersey

**Rosemary Fliszar**

Assistant Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. Cedar Crest College; M.S.N. DeSales University; Ph.D. Duquesne University

**William F. Fobare**

Priority Adjunct Assistant Professor, Department of Chemistry and Biochemistry  
A.B. Hope College; Ph.D. University of South Carolina

**Hernán Fontanet**

Professor, Department of Languages, Literatures and Cultures  
B.A. The University of Buenos Aires; A.M. Universidad Complutense de Madrid; Ph.D. Universidad Autónoma de Madrid

**Jessica Franko-Oliano**

Priority Adjunct Assistant Professor, Department of Communication and Journalism  
B.A. Rider University; MBA Rider University

**Barbara Franz**

Professor, Department of Political Science  
M.A. University of Vienna; M.A. Syracuse University; M.A. Syracuse University; Ph.D. Syracuse University

**Lucien J. Frary**

Professor, Department of History and Philosophy  
B.A. University of St. Thomas; M.A. University of Minnesota, Twin Cities; Ph.D. University of Minnesota, Twin Cities

**Ivan Fuller**

Professor, Department of Theatre and Dance  
B.A. Butler University; M.A. Bowling Green State University; Ph.D. Bowling Green State University

**Zhihong Gao**

Professor, Department of Marketing  
B.A. Peking University; M.A. Wake Forest University; Ph.D. University of Illinois at Urbana-Champaign

**Tracey Garrett**

Professor, Department of Teacher Education  
B.S. East Stroudsburg University; B.S. East Stroudsburg University; M.A. Kean University; Ed.D. Rutgers Graduate School of Education

**Daniel C. Garro**

Priority Adjunct Instructor, Department of History and Philosophy  
B.A. Washington College; M.A. Texas Tech University

**Herbert E. Gishlick**

Professor, Department of Finance and Economics  
A.B. Muhlenberg College; M.A. University of Pennsylvania; Ph.D. University of Pennsylvania

**Ilene V. Goldberg**

Associate Professor, Department of Marketing, Sport Management and Legal Studies  
B.A. The Pennsylvania State University; J.D. Temple University James E. Beasley School of Law

**Louis F. Goldberg**

Priority Adjunct Assistant Professor, Department of Theatre and Dance  
B.A. Colgate University; M.M. Syracuse University; M.F.A. Syracuse University

**Matthew B. Goldie**

Professor, Department of English  
B.A. Victoria University; M.F.A. Brooklyn College; Ph.D. The Graduate Center, City University of New York

**Selma C. Goldstein**

Priority Adjunct Instructor, Department of English  
B.S. Cornell University; MBA Fairleigh Dickinson University

**James E. Goldsworthy**

Professor, Department of WCC Piano and Voice  
B.M. Southern Methodist University; M.M. Southern Methodist University; D.M.A. Stanford University

**Stephanie Golski**

Associate Professor, Department of Psychology  
B.A. McDaniel College; Ph.D. The Johns Hopkins University

**Linguo Gong**

Associate Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. Tsinghua University, Beijing, China; M.S. Tsinghua University, Beijing, China; Ph.D. The University of Texas at Austin

**Alexander Grushow**

Professor, Department of Chemistry and Biochemistry  
B.A. Franklin & Marshall College; Ph.D. University of Minnesota

**Sophie Guderian**

Lecturer I, Department of Biology, Behavioral Neuroscience, and Health Sciences

**John Guers**

Assistant Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences

**Myra G. Gutin**

Professor, Department of Communication and Journalism  
B.A. Emerson College; M.A. Emerson College; Ph.D. University of Michigan

**Hussein Hajazi**

Lecturer I, Department of Chemistry and Biochemistry

**Cengiz Haksever**

Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. Middle East Technical University, Ankara, Turkey; M.S. Middle East Technical University, Ankara, Turkey; MBA Texas A & M University; Ph.D. The University of Texas at Austin

**Jeffrey Halpern**

Associate Professor, Department of Sociology and Criminology  
B.A. The City College of New York; Ph.D. University of Pittsburgh

**Samaneh Hamidi**

Assistant Professor, Department of Mathematics  
B.A. Islamic Azad University; M.S. Khayyam University; Ph.D. University of Malaya

**Laurel Harris**

Assistant Professor, Department of English  
B.A. Oberlin College; M.A. University of Chicago; Ph.D. The Graduate Center, City University of New York

**Catrinel Haught Tromp**

Associate Professor, Department of Psychology  
B.A. Queens University of Charlotte; Ph.D. Princeton University

**M. Elizabeth Haywood-Sullivan**

Associate Professor, Department of Accounting  
B.S. The College of Charleston; M.P.A. The University of Texas at Austin; Ph.D. The University of Georgia

**Wendy P. Heath**

Professor, Department of Psychology  
B.A. Boston University; M.S. The University of Texas at Arlington; Ph.D. The University of Texas at Arlington

**Ronald A. Hemmel**

Professor, Department of WCC Music Composition, History and Theory  
B.M. Westminster Choir College; M.M. James Madison University; M.Phil. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

**Joshua Henry**

Assistant Professor, University Libraries  
B.M. Oklahoma City University; M.M. Oklahoma City University; M.L.I.S. University of Wisconsin-Milwaukee

**Mickey Hess**

Professor, Department of English  
Ph.D. University of Louisville

**Peter R. Hester**

Associate Professor, Department of Teacher Education  
B.S. California Polytechnic State University, San Luis Obispo; MAT Northern Arizona University; Ph.D. University of Colorado Boulder

**Melissa A. Hofmann**

Associate Professor-Librarian, University Libraries  
B.A. The College of New Jersey; M.L.I.S. Rutgers, The State University of New Jersey; M.A. The College of New Jersey

**Al D. Holcomb**

Associate Professor, Department of WCC Music Education  
B.M.E. Texas Christian University; M.M.E. University of Hartford; Ph.D. University of Hartford

**Sheena C. Howard**

Associate Professor, Department of Communication and Journalism  
B.B.A. Iona College; M.A. New York Institute of Technology; Ph.D. Howard University

**Ma Lei Hsieh**

Associate Professor-Librarian, University Libraries  
B.A. Tunghai University; M.L.S. Indiana University Bloomington; M.A. Wheaton College Graduate School

**Meng-Chen (Melinda) Hsieh**

Assistant Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S.B.A. National Taiwan University; M.S. National Chengchi University; M.S. New York University Stern School of Business; Ph.D. New York University Stern School of Business

**Brooke B. Hunter**

Associate Professor, Department of History and Philosophy  
B.A. University of California, Irvine; M.A. University of Delaware; Ph.D. University of Delaware

**Nathan Hurwitz**

Associate Professor, Department of Theatre and Dance  
B.F.A. New York University; M.A. Northwestern University; Ph.D. University of Pittsburgh

**Jonathan M. Husch**

Professor, Department of Geological, Environmental, and Marine Sciences  
B.A. Colgate University; M.A. Princeton University; Ph.D. Princeton University

**Jacqueline Soteropoulos Incollingo**

Assistant Professor, Department of Communication and Journalism  
B.A. Connecticut College; M.A. Philip Merrill College of Journalism, University of Maryland; Ph.D. Philip Merrill College of Journalism, University of Maryland

**Robert Isenhower**

Assistant Professor, Department of Psychology  
B.S. Clemson University; Ph.D. University of Connecticut

**Danielle L. Jacobs**

Associate Professor, Department of Chemistry and Biochemistry  
B.S. Haverford College; Ph.D. The University of North Carolina at Chapel Hill

**Mayank Jaiswal**

Assistant Professor, Department of Management  
B.E. University of Delhi; M.B.A. University of Chicago; Ph.D. Georgia Institute of Technology

**Barry T. Janes**

Professor, Department of Communication and Journalism  
B.A. Rutgers, The State University of New Jersey; M.A. Rutgers, The State University of New Jersey; Ph.D. New York University

**Paul R. Jivoff**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.A. Hartwick College; M.S. The Ohio State University; Ph.D. University of Maryland

**Howard H. Joffe**

Priority Adjunct Associate Professor, Department of Communication and Journalism  
B.A. Rutgers, The State University of New Jersey; J.D. Benjamin N. Cardozo School of Law, Yeshiva University

**Carol A. Johnson**

Priority Adjunct Assistant Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. Rider University; M.A. Rider University; M.A. Rider University; Ed.S. Rider University

**Katherine L. Johnson**

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice  
B.M. University of Calgary; M.M. Manhattan School of Music

**Rachelle Jonck**

Priority Adjunct Associate Professor, Department of WCC Piano and Voice  
B.Mus. University of Stellenbosch, South Africa

**James Jordan**

Professor, Department of WCC Conducting, Organ and Sacred Music  
B.M. Susquehanna University; M.M. Temple University; Ph.D. Temple University; D.Mus. University of Aberdeen

**Terra Walston Joseph**

Associate Professor, Department of English  
B.A. Indiana University; M.A. University of Illinois; Ph.D. University of Illinois

**Sangmi Kang**

Assistant Professor, Department of WCC Music Education  
B.M. Seoul National University; M.A. Seoul National University; Ph.D. University of Florida

**Jonathan Karp**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.A. Colgate University; Ph.D. Vanderbilt University

**Jay A. Kawarsky**

Professor, Department of WCC Music Composition, History and Theory  
B.M. Iowa State University; M.M. Northwestern University; D.M. Northwestern University

**Shawn P. Kildea**

Associate Professor, Department of Communication and Journalism  
B.A. Rider University; M.A. Rider University; Ph.D. Rutgers, The State University of New Jersey

**Joe H. Kim**

Associate Professor, Department of Marketing  
B.A. Soongsil University; MBA Yonsei University; Ph.D. Saint Louis University

**Hee Young Kim**

Assistant Professor, Department of Management  
B.A. University of Pennsylvania; Ph.D. Stern School of Business, New York University

**Arkady K. Kitover**

Priority Adjunct Professor, Department of Mathematics  
M.S. Saint Petersburg State University; Ph.D. Saint Petersburg State University

**Anthony J. Kosar**

Professor, Department of WCC Music Composition, History and Theory  
B.M. West Liberty University; M.M. Southern Illinois University; Ph.D. The Ohio State University

**Joanna Kubik**

Assistant Professor, Department of Sociology and Criminology

**Eugene J. Kutcher**

Associate Professor, Department of Management  
B.S. Rutgers, The State University of New Jersey; M.A. Montclair State University; Ph.D. Virginia Polytechnic Institute and State University

**Robert J. Lackie**

Professor-Librarian, University Libraries  
B.S. The University of the State of New York; M.L.I.S. University of South Carolina; M.A. Rider University

**Anne Law**

Professor, Department of Psychology  
B.A. University of New Hampshire; M.A. University of New Hampshire; Ph.D. University of New Hampshire

**Robin W. Lewis**

Associate Professor, Department of Theatre and Dance  
B.S. The University of Alabama at Birmingham

**Sherry Fang Li**

Associate Professor, Department of Accounting  
B.Ec. Tsinghua University; Ph.D. University of Massachusetts Amherst

**Wil Lindsay**

Assistant Professor, Department of Fine Arts

**Feng-Ying Liu**

Professor, Department of Finance and Economics  
B.S.B.A. National Taiwan University; MBA Drexel University; Ph.D. Drexel University

**Charmen Loh**

Associate Professor, Department of Finance and Economics  
B.S.I.E. University of Arkansas; MBA University of Arkansas; Ph.D. University of Arkansas

**Linda Lorence-Critelli**

Assistant Professor, Department of Fine Arts

**Maxim J. Losi**

Priority Adjunct Assistant Professor, Department of English  
A.B. Princeton University; M.A. New York University; Ph.D. New York University

**Phillip L. Lowrey**

Associate Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. Vanderbilt University; Ph.D. Northwestern University

**Cynthia Lucia**

Professor, Department of English  
B.S. Indiana University of Pennsylvania; M.A. New York University; M.A. New York University; Ph.D. New York University

**Jamie Ludwig**

Assistant Professor, Department of Chemistry and Biochemistry  
B.A. Illinois Wesleyan University; Ph.D. University of Texas Southwestern Medical Center

**Katherine G. Magrino**

Priority Adjunct Instructor, Department of Communication and Journalism  
B.A. The College of New Jersey; M.A. Thomas Edison State College

**Bhesh Manali**

Assistant Professor, Department of Teacher Education

**Andrew Markoe**

Professor, Department of Mathematics  
B.S. The City College of New York; Ph.D. Brown University

**Cynthia Martinez**

Assistant Professor, Department of Languages, Literatures and Cultures

**Morteza Mashayekhy**

Assistant Professor, Department of Information Systems, Analytics, and Supply Chain Management

**Robin Massie**

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice  
B.M. Westminster Choir College of Rider University; M.M. Yale University

**Biju Mathew**

Associate Professor, Department of Information Systems, Analytics, and Supply Chain Management

B.A. Nizam College, Hyderabad, India; M.A. XLRI – Xavier School of Management, Jamshedpur, India; Ph.D. University of Pittsburgh

**Sean McCarther**

Associate Professor, Department of WCC Piano and Voice  
B.M. Baylor University; M.M. Indiana University; D.M. Indiana University

**Kristin McCarthy**

Assistant Professor, Department of Finance and Economics  
B.A. Dickinson College; M.P.H. Hunter College; Dr.P.H. Columbia University

**Evelyn A. McDowell**

Associate Professor, Department of Accounting  
B.B.A. Baldwin Wallace University; MAcc Case Western Reserve University; Ph.D. Case Western Reserve University; CPA, CGMA

**Sharon McKool**

Associate Professor, Department of Teacher Education  
B.S.Ed. Texas State University; M.Ed. Texas State University; Ph.D. The University of Texas at Austin

**Adam McMahan**

Assistant Professor, Department of Political Science  
B.A. Bowling Green State University; M.S. Portland State University; Ph.D. City University of New York

**Susan J McManimon**

Priority Adjunct Assistant Professor, Department of Communication and Journalism  
B.A. Kean University; M.A. Montclair State University; Ph.D. Indiana University of Pennsylvania

**Dorothy A. McMullen**

Associate Professor, Department of Accounting  
B.S. LaSalle University; MBA Drexel University; Ph.D. Drexel University

**Jonathan Mendilow**

Professor, Department of Political Science  
B.A. The Hebrew University of Jerusalem; M.A. The Hebrew University of Jerusalem; Ph.D. The Hebrew University of Jerusalem

**Tan Miller**

Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.A. Haverford College; MBA The Wharton School, University of Pennsylvania; M.A. University of Pennsylvania; Ph.D. University of Pennsylvania

**Joe M. Miller**

Professor, Department of WCC Conducting, Organ and Sacred Music  
B.S. The University of Tennessee; M.M. College-Conservatory of Music, University of Cincinnati; D.M.A. College-Conservatory of Music, University of Cincinnati

**Eri Millrod**

Assistant Professor, Department of Theatre and Dance

**Miriam N. Mills**

Associate Professor, Department of Theatre and Dance  
B.A. Rutgers, The State University of New Jersey; M.F.A. Mason Gross School of the Arts, Rutgers, The State University of New Jersey

**Sharon Mirchandani**

Professor, Department of WCC Music Composition, History and Theory  
B.M. Bowling Green State University; M.M. Temple University; Ph.D. Rutgers, The State University of New Jersey

**Anubha Mishra**

Associate Professor, Department of Marketing  
B.Com. Symbiosis College of Arts and Commerce; MBA Pune University; Ph.D. University of Arizona

**Ahmad Mojiri**

Associate Professor, Department of Mathematics  
B.S. Isfahan University of Technology; M.S. Isfahan University of Technology; Ph.D. University of Ottawa

**Mark Moliterno**

Priority Adjunct Associate Professor, Department of WCC Piano and Voice  
B.M. Oberlin College Conservatory of Music; M.M. Oberlin College Conservatory of Music

**Aaron J. Moore**

Associate Professor, Department of Communication and Journalism  
B.A. La Salle University; M.A. Temple University; Ph.D. Temple University

**Mourya Reddy Narasareddygar**

Assistant Professor, Department of Chemistry and Biochemistry

**Stéphane Natan**

Professor, Department of Languages, Literatures and Cultures  
B.A. Université Jean Moulin Lyon 3, France; M.A. Université Lumière Lyon 2, France; Ph.D. Université Jean Moulin Lyon 3, France

**Vanita Neelakanta**

Associate Professor, Department of English  
B.A. Jadavpur University, India; M.A. Jadavpur University, India; Ph.D. Brandeis University

**Larry M. Newman**

Associate Professor, Department of Marketing  
B.S. The Pennsylvania State University; MBA Drexel University; Ph.D. The Pennsylvania State University

**Cynthia M. Newman**

Professor, Department of Marketing  
B.S.B.A. Rider University; MBA Rider University; Ph.D. University of Pennsylvania

**Olivia Newman**

Associate Professor, Department of Political Science  
B.A. The Evergreen State College; M.A. The New School; Ph.D. The New School

**Carol J. Nicholson**

Professor, Department of History and Philosophy  
B.A. Earlham College; Ph.D. Bryn Mawr College

**Lan Ma Nygren**

Associate Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. Jiangsu Institute of Technology; M.S. Renmin University of China; M.A. The Ohio State University; Ph.D. Stern School of Business, New York University

**Marge O'Reilly-Allen**

Associate Professor, Department of Accounting  
B.S.B.A. Temple University; MBA Drexel University; Ph.D. Drexel University

**Susan A. O'Sullivan-Gavin**

Associate Professor, Department of Marketing, Sport Management and Legal Studies  
B.A. Seton Hall University; J.D. Seton Hall University School of Law

**Seiwoong Oh**

Professor, Department of English  
B.A. Chung-Ang University, Seoul; M.A. West Texas A&M University; Ph.D. University of North Texas

**Philip Orr**

Priority Adjunct Professor, Department of Fine Arts  
B.M. Rider University; M.M. Rider University

**Anne R. Osborne**

Professor, Department of History and Philosophy  
B.A. New York University; M.A. Columbia University; Ph.D. Columbia University

**Carolann Page**

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice  
B.M. The Curtis Institute of Music; Artist Diploma in Voice The Curtis Institute of Music

**Thomas J. Parente**

Associate Professor, Department of WCC Piano and Voice  
B.A. New Jersey City University; B.M. Manhattan School of Music; M.A. Rutgers, The State University of New Jersey; Ed.D. Teachers College, Columbia University

**Mark Pearcy**

Associate Professor, Department of Teacher Education  
B.A. University of Florida; M.Ed. University of Florida; Ph.D. University of South Florida

**J.J. Penna**

Associate Professor, Department of WCC Piano and Voice  
B.M. Binghamton University, State University of New York; D.M.A. UNIVERSITY OF MICHIGAN; M.F.A. Warren Wilson College

**Francis A. Perrin**

Priority Adjunct Assistant Professor, Department of Psychology  
B.S. Stockton University; M.S. Temple University; Ph.D. Temple University

**Obeua S. Persons**

Associate Professor, Department of Accounting  
B.A. Chulalongkorn University, Thailand; M.P.A. The University of Texas at Austin; Ph.D. The University of Texas at Austin

**Pearlie Peters**

Professor, Department of English  
B.S. Grambling State University; Ph.D. State University of New York at Buffalo

**Joel Phillips**

Professor, Department of WCC Music Composition, History and Theory  
B.M. The University of Alabama; M.M. Eastman School of Music, University of Rochester; D.M.A. The University of Alabama

**Steven Pilkington**

Associate Professor, Department of WCC Conducting, Organ and Sacred Music  
B.A. St. Olaf College; M.M. University of Illinois; Ph.D. Drew University

**Agnes Poltorak**

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice  
B.M. University of British Columbia; M.M. Westminster Choir College, Rider University

**Mary Poteau-Tralie**

Professor, Department of Languages, Literatures and Cultures  
B.A. Temple University; M.A. Princeton University; Ph.D. Princeton University

**Susan Power**

Priority Adjunct Assistant Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.A. Trinity College; Ph.D. University College Dublin

**Kathy Kessler Price**

Associate Professor, Department of WCC Piano and Voice  
B.A. University of Richmond; M.M. University of Maryland; Ph.D. The University of Kansas

**Larry M. Prober**

Associate Professor, Department of Accounting  
B.S.B.A. University of Delaware; MBA University of Massachusetts; M.S. Temple University; Ph.D. Temple University; CPA, CMA, CVA, CGMA

**J. Drew Procaccino**

Associate Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.A.B.A. Ursinus College; B.S.B.A. Rider University; MBA Rider University; Ph.D. Drexel University

**Mark D. Promislo**

Associate Professor, Department of Management  
B.S. Tulane University; MBA Northwestern University; Ph.D. Temple University

**Magnolia Pérez-Garrido**

Priority Adjunct Assistant Professor, Department of Languages, Literatures and Cultures  
B.A. The College of New Jersey; M.A. Villanova University

**William Quirk**

Priority Adjunct Instructor, Department of English  
B.A. University of Colorado; M.A. University of Washington

**Elizabeth Radziszewski**

Assistant Professor, Department of Political Science  
B.A. Rutgers, The State University of New Jersey; M.A. University of Illinois at Urbana–Champaign; Ph.D. University of Illinois at Urbana–Champaign

**Mitchell Ratner**

Professor, Department of Finance and Economics  
A.B. Lafayette College; MBA Drexel University; Ph.D. Drexel University

**Charles Ray**

Lecturer III, Department of Marketing

**James E. Riggs**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. Delaware Valley College; M.S. University of Massachusetts Amherst; Ph.D. University of Massachusetts Amherst

**Jane E. Rosenbaum**

Priority Adjunct Assistant Professor, Department of English  
B.A. The City College of New York; M.A. University of Pittsburgh; Ph.D. University of Pittsburgh

**Kelly Ross**

Assistant Professor, Department of English  
B.A. The College of William & Mary; M.A. The University of North Carolina at Chapel Hill; Ph.D. The University of North Carolina at Chapel Hill

**Erica Rubine**

Priority Adjunct Professor, Department of English  
B.A. Scripps College; M.A. University of Pennsylvania; Ph.D. University of Pennsylvania

**Lisa Rufer**

Assistant Professor, Department of Marketing, Sport Management and Legal Studies  
B.S. State University of New York College; M.B.A. SUNY; Ph.D. Virginia Commonwealth University

**Frank L. Rusciano**

Professor, Department of Political Science  
B.A. Cornell University; M.A. University of Chicago; Ph.D. University of Chicago

**Erica J. Ryan**

Associate Professor, Department of History and Philosophy  
B.A. Sarah Lawrence College; A.M. Brown University; Ph.D. Brown University

**Maria H. Sanchez**

Professor, Department of Accounting  
B.S. Villanova University; MBA Drexel University; Ph.D. Drexel University

**Elizabeth S. Scheiber**

Professor, Department of WCC Piano and Voice  
B.A. Western Kentucky University; M.A. Indiana University; Ph.D. Indiana University

**Joy A. Schneer**

Professor, Department of Management  
B.A. Barnard College, Columbia University; MBA Baruch College; Ph.D. The City University of New York

**George Otto Schneller**

Priority Adjunct Associate Professor, Department of Mathematics  
B.S. Mount Union University; M.A. Lehigh University; Ph.D. Lehigh University

**Reed A. Schwimmer**

Associate Professor, Department of Geological, Environmental, and Marine Sciences  
B.S. Rider University; M.A. Bryn Mawr College; Ph.D. University of Delaware

**Elaine A. Scorpio**

Associate Professor, Department of Psychology  
B.A. Rhode Island College; M.A. Rhode Island College; Ph.D. Syracuse University

**Kerrie Sendall**

Assistant Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences

**Raymond Setters, II**

Priority Adjunct Assistant Professor, Department of English  
B.A. Rider University; M.F.A. Rosemont College

**Robin Shane**

Assistant Professor, Department of Theatre and Dance  
B.A. Wesleyan University; M.F.A. NYU, Tisch School of the Arts

**Tom T. Shelton, Jr.**

Associate Professor, Department of WCC Conducting, Organ and Sacred Music  
B.M.E. The University of North Carolina at Greensboro; M.M. The University of North Carolina at Greensboro

**Jia Shen**

Associate Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. Beijing University of Technology; M.S. New Jersey Institute of Technology; Ph.D. New Jersey Institute of Technology

**Nikki Shepardson**

Associate Professor, Department of History and Philosophy  
B.A. University of Rochester; M.A. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

**Rebecca Simon**

Priority Adjunct Assistant Professor, Department of Theatre and Dance  
B.A. University at Buffalo, The State University of New York; M.F.A. Florida Atlantic University

**Gabriela W. Smalley**

Associate Professor, Department of Geological, Environmental, and Marine Sciences  
B.S. University of Maryland; Ph.D. University of Maryland

**Bryan D. Spiegelberg**

Associate Professor, Department of Chemistry and Biochemistry  
B.S. Denison University; Ph.D. Duke University

**Ira Sprotzer**

Associate Professor, Department of Marketing, Sport Management and Legal Studies  
B.A. Binghamton University, State University of New York; J.D. Boston College Law School; MBA Miami University

**Drue Stapleton**

Assistant Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
A.A. Hudson Valley Community College; B.S. State University of New York at Cortland; M.Ed. Salisbury University; Ph.D. West Virginia University

**Jay Stern**

Assistant Professor, Department of Communication and Journalism  
B.A. Columbia University; M.A. European Graduate School

**Joshua Stratton**

Assistant Professor, Department of Chemistry and Biochemistry  
B.A. Wartburg College; Ph.D. Colorado State University

**Susan Strom**

Priority Adjunct Instructor, Department of English  
B.A. University of Toronto; M.A. University of Cincinnati; M.Ed. Temple University

**David Y. Suk**

Associate Professor, Department of Finance and Economics  
B.A. Sogang University; M.A. The Ohio State University; Ph.D. The Ohio State University

**John R. Suler**

Professor, Department of Psychology  
B.A. State University of New York at Stony Brook; Ph.D. State University of New York at Buffalo

**Helen T. Sullivan**

Priority Adjunct Assistant Professor, Department of Psychology  
B.F.A. Saint Mary's College; M.S. Saint Louis University; Ph.D. Saint Louis University

**Jack Sullivan**

Professor, Department of English  
B.A. Furman University; M.A. Columbia University; M.Phil. Columbia University; Ph.D. Columbia University

**Alan R. Sumutka**

Associate Professor, Department of Accounting  
B.S. Rider University; MBA Seton Hall University

**Hongbing Sun**

Professor, Department of Geological, Environmental, and Marine Sciences  
B.A. Nanjing University, China; M.S. Chinese Academy of Geological Sciences, Beijing; Ph.D. Florida State University

**Chirag Surti**

Assistant Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.Eng. Mumbai University; M.Sc. SUNY; Ph.D. McMaster University

**Elizabeth Sutton**

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice  
MusEd Bowling Green State University; M.M. Cincinnati Conservatory of Music

**Sharon Sweet**

Professor, Department of WCC Piano and Voice  
B.S. Roberts Wesleyan College; M.A. Ithaca College

**Leonore Shever Taga**

Associate Professor, Department of Finance and Economics  
A.B. University of Michigan; M.A. University of California, Berkeley; Ph.D. University of California, Berkeley

**Yoshi Tanokura**

Assistant Professor, Department of Theatre and Dance

**Arthur R. Taylor**

Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.A. University of South Florida; M.S.I.S. George Mason University; Ph.D. Rutgers, The State University of New Jersey

**Lisa Teach**

Assistant Professor, Department of Management  
B.S. Rider University; M.B.A. Rider University

**Robert D. Terrio**

Associate Professor-Librarian, University Libraries  
B.M. Berklee College of Music; M.M. University of Massachusetts Amherst; M.L.I.S. Rutgers, The State University of New Jersey

**Nova Thomas**

Associate Professor, Department of WCC Piano and Voice  
B.M. The University of North Carolina at Chapel Hill; M.M. Indiana University

**Alison D. Thomas-Cottingham**

Associate Professor, Department of Psychology  
B.S. University of Maryland; M.A. Binghamton University, State University of New York; Ph.D. Binghamton University, State University of New York

**Victor R. Thompson**

Associate Professor, Department of Sociology and Criminology  
B.A. University of Illinois at Urbana-Champaign; M.A. Stanford University; Ph.D. Stanford University

**Megan L. Titus**

Associate Professor, Department of English  
B.A. Muhlenberg College; M.A. Montclair State University; Ph.D. Ohio University

**Mindy Treceno**

Priority Adjunct Assistant Professor, Department of Marketing, Sport Management and Legal Studies  
B.A. New York University; J.D. Rutgers School of Law

**Sarah Trocchio**

Assistant Professor, Department of Sociology and Criminology

**Barry E. Truchil**

Associate Professor, Department of Sociology and Criminology  
B.A. American University; M.A. American University; Ph.D. Binghamton University, State University of New York

**Katerina Tsakiri**

Associate Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. National Technical University of Athens; M.A. University at Albany, State University of New York; Ph.D. University at Albany, State University of New York

**Kim Chandler Vaccaro**

Associate Professor, Department of Theatre and Dance  
B.A. University of California, Santa Barbara; M.A. University of California, Los Angeles; Ed.D. Temple University

**Cynthia Vieth**

Lecturer I, Department of Communication and Journalism  
B.A. Rutgers, The State University of New Jersey; M.C.I.S. Rutgers, The State University of New Jersey; Ed.D. Rowan University

**Maria F. Villalobos-Buehner**

Associate Professor, Department of Languages, Literatures and Cultures  
B.A. Universidad del Valle, Cali-Colombia; M.A. University of Portsmouth, Portsmouth-England; Ph.D. Michigan State University

**Jason Vodicka**

Assistant Professor, Department of WCC Music Education  
B.M. Westminster Choir College of Rider University; M.M. Westminster Choir College of Rider University; D.M.A. The University of Georgia

**Charles Walker**

Priority Adjunct Instructor, Department of WCC Piano and Voice  
B.M.Ed. University of Delaware

**Shunzhu Wang**

Professor, Department of Languages, Literatures and Cultures  
B.A. Soochow University, Suzhou, China; M.A. Wayne State College; Ph.D. Purdue University

**Nancy C. Weber**

Priority Adjunct Instructor, Department of Chemistry and Biochemistry  
B.S. Alderson Broaddus University; M.S. The Pennsylvania State University

**E. Todd Weber**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. Slippery Rock University; M.S. The University of Illinois at Urbana-Champaign; Ph.D. The University of Illinois at Urbana-Champaign

**Allison D. Weidhaas**

Associate Professor, Department of Communication and Journalism  
B.A. Rowan University; M.A. Rowan University; M.S. University of South Florida; Ph.D. University of South Florida

**Sharon Whitfield**

Assistant Professor-Librarian, University Libraries  
B.A. University of Pittsburgh; M.L.I.S. University of Pittsburgh

**Nancy A. Wiencek**

Associate Professor, Department of Communication and Journalism  
B.A. Douglass College, Rutgers, The State University of New Jersey; M.S. University of Louisiana at Lafayette; Ph.D. Rutgers, The State University of New Jersey

**Arlene F. Wilner**

Professor, Department of English  
B.A. Cornell University; M.A. Columbia University; M.Phil. Columbia University; Ph.D. Columbia University

**James Wojtowicz**

Lecturer I, Department of Sociology and Criminology  
B.A. Rutgers University; M.S. Rutgers University

**Sally Wolf**

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice  
B.M. Kent State University; Opera Diploma Curtis Institute Of Music

**Yun Xia**

Professor, Department of Communication and Journalism  
B.A. Sichuan University, China; M.A. Sichuan University, China; Ph.D. Southern Illinois University

**Sharon Q. Yang**

Professor-Librarian, University Libraries  
B.A. Beijing Foreign Studies University; M.S. Columbia University; D.L.S. Columbia University

**Jonathan Yavelow**

Professor, Department of Biology, Behavioral Neuroscience, and Health Sciences  
B.S. American University; Ph.D. University of Southern California

**Emre Yetgin**

Assistant Professor, Department of Information Systems, Analytics, and Supply Chain Management  
B.S. Middle East Technical University; MBA Binghamton University, State University of New York; Ph.D. University of Oklahoma

**Stefan H. Young**

Professor, Department of WCC Music Composition, History and Theory

**Richard A. Zdan**

Lecturer I, Department of Sociology and Criminology  
B.Sc. Carnegie Mellon University; M.A. The University of Chicago

**Amy Zorn**

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice  
B.M. University of Wisconsin–Madison; M.M. Boston University

**Cathleen Zucco-Teveloff**

Priority Adjunct Lecturer, Department of Information Systems, Analytics, and Supply Chain Management  
B.A. LeMoyne College; M.S. Syracuse University

# HONORS PROGRAMS

---

- Baccalaureate Honors Program (p. 1049)
- Business Honors Program (p. 1049)
- Westminster Choir College Honors Program (p. 1049)
- Fine Arts Honors Program (p. 1050)

## Baccalaureate Honors Program

The Baccalaureate Honors Program (BHP) is a University-wide program that is designed to enrich the educational opportunities available to Rider students of proven intellectual ability who choose to become Baccalaureate Scholars. Interdisciplinary in orientation, the program enables the Baccalaureate Scholars to explore diverse forms of thought, expression, and institutions past and present—an exploration that will enable them to meet future challenges with confidence. Through a series of team-taught seminars and other honors courses, co-curricular experiences, personal contact with faculty, and completion of a senior honors capstone project, the scholars extend their ability to think critically about the great themes of their human heritage.

Students are invited to join the Baccalaureate Honors Program as entering freshmen and may apply as currently enrolled or as transfer freshmen or sophomores. In general, students in the top 10 percent of each College's entering class are invited. Students currently enrolled at Rider must have at least a 3.3 GPA at the time of application to the program.

Other qualified students with a 3.3 grade point average, including juniors and seniors, may enroll in particular honors seminar courses with the approval of the director.

Most BHP courses replace core or other academic requirements. In addition, Honors sections of single-discipline courses designated in the course roster assist in fulfilling BHP requirements.

In order to graduate with Baccalaureate Honors, the student must complete seven honors seminars and a senior baccalaureate honors capstone or a departmental honors capstone with a GPA of 3.3 or higher.

Honors seminars are designated on student transcripts, whether or not the student completes the BHP. Successful completion of the BHP is noted on the transcript and the commencement program.

For more information, please see: [www.rider.edu/bhp](http://www.rider.edu/bhp) (<http://www.rider.edu/BHP>).

**Note:** Students in the CBA Business Honors Program may also complete BHP if desired. They do not have to decide participation in the BHP program until after completing BHP 100 and BHP 150. They may count any two CBA Honors courses toward the BHP certificate, and their CBA senior thesis will be tailored for BHP as well.

## Business Honors Program

The Business Honors Program is designed exclusively for business majors enrolled in the College of Business Administration. Entering students are automatically considered for the program based on their academic record. Continuing students are invited to join by the director of the program.

Rider's Business Honors Program features cohort learning, which teaches the framework of successful business environments by encouraging teamwork and critical thinking. Students participate in classes with the same group of students for all four years. The cohort creates a powerful learning environment where students gain crucial business skills: the ability to communicate and collaborate, problem-solve, analyze various perspectives, initiate discussions, network and delegate.

Business honors student receive special advising, the opportunity to live in a residential learning community in their freshman year, priority in course registration, and invitations to attend co-curricular events (e.g., art exhibits, film screenings, poetry slams, theater previews, etc.) which are planned by the faculty team.

To complete the Business Honors Programs, students must complete the required number of honors business core classes, write an honors thesis, maintain a minimum overall GPA of 3.4, complete one non-core business honors class and complete a thesis.

Graduation as a Business Honors Scholar requires a minimum overall GPA of 3.4 and a minimum GPA of 3.4 in all business honors courses.

For more information, see the Business Honors section (p. 365) of the catalog under the College of Business Administration.

## Westminster Choir College Honors Program

### General Remarks

The Baccalaureate Honors Program (BHP) is a University-wide honors program designed to enrich the educational opportunities available to Rider students of proven intellectual capability who are invited to become Baccalaureate Scholars. Interdisciplinary in orientation, the Westminster Choir College program enables Baccalaureate Scholars at Westminster to expand their knowledge and interest in the liberal arts during their music study. Through a series of team-taught seminars, single discipline honors courses and other options for music honors study, as well as an honors thesis, scholars extend their ability to think critically, coherently, and systematically about the great themes, ideals and movements of their human heritage.

Students are invited to join the Westminster Baccalaureate Honors Program as entering freshmen and may apply as currently enrolled freshmen or sophomores. Generally, students with SAT and high school GPA scores in the top 20% of the entering Westminster freshmen class are considered for invitation into the WCC BHP program. Students currently enrolled at Rider University must have at least a 3.3 GPA at the time of application to the program. In order to remain in the Baccalaureate Honors Program, the student must maintain a minimum cumulative GPA of 3.3.

Non-honors students, including juniors and seniors, who have earned a minimum cumulative GPA of 3.5, including juniors and seniors, may enroll in a particular honors seminar course with approval of the Westminster Choir College Honors Program Director. Permission will be given on a space-available basis, with priority given to students in the Honors Program.

In order to graduate with Baccalaureate Honors, Westminster students must complete eight honors courses: at least four interdisciplinary (team-taught) honors seminars, a capstone (thesis) project, and three other honors courses, seminars, or contracts. The Program is supplemented by other honors opportunities at the college and department level, and some graduate courses in music may be allowed as honors courses. All

freshman honors students take BHP 150, which substitutes for English Composition. Most honors courses fulfill core degree requirements. Students may enroll in honors courses on either campus of Rider University. Individual course descriptions are found in the Rider University catalog. Students should see the Westminster Choir College Honors Program Director regarding guidelines and options for completing honors studies.

Students enrolled at Rider University in the Honors Program may register for graduate courses on the Princeton campus according to the following policies:

1. Students who have earned at least 60 credits and hold a minimum cumulative GPA of 3.0 may register for 600-level graduate courses upon permission of the instructor, the Honors Program Director, and the Associate Dean.
2. Students who have earned at least 90 credits and hold a minimum cumulative GPA of 3.80 may register for 700-level graduate courses upon permission of the instructor, the Honors Program Director, the Chair of the department offering the course, and the Associate Dean.

Approval is based upon criteria such as cumulative grade point average, courses taken, and preparation for the particular course requested.

Undergraduate students permitted to enroll in 600- or 700-level graduate courses must complete the same syllabus and requirements that pertain to the graduate students in the course. The grade for the course will be recorded on a graduate transcript.

If a grade of "B-" or higher is earned, the course will be permitted to substitute for an undergraduate honors course. For any course used to meet undergraduate requirements, should the student later decide to enroll in a graduate program of the Westminster College of the Arts, the course cannot be used to meet graduate program requirements. In the event the course is required in the graduate program, the department sponsoring the program will identify a suitable substitution.

Honors seminars are designated on student transcripts, whether or not the student completes the Baccalaureate Honors Program. Upon successful completion of the program, an honors student receives an appropriate certificate. Successful completion also is recorded on the transcript and listed in the commencement program.

## **Honor Program in Fine Arts**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a cumulative average of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

The Academic Programs A to Z Chart (p. 10) lists Rider University's majors, minors and certificates alphabetically, along with the college or school (p. 11) that grants each degree, major, minor and certificate. The following definitions explain the difference between majors, minors, tracks, concentrations, and emphases:

**Major** An organized group of courses ranging from introductory through advanced levels. Typically most if not all courses are in a single primary area of study, although some majors include study in multiple disciplines. Undergraduate majors require between 18 and 90 credits, depending upon the liberal arts or professional focus. Graduate majors require between 30 and 45 credits. Entrance into some majors may require prerequisites, portfolios, auditions, or other forms of assessment. Upon completion of all requirements, the major is listed on the official transcript.

**Minor** An organized group of courses, typically involving introductory through intermediate levels. While most minors are in a single discipline, Rider University offers several interdisciplinary minors, such as Law and Justice, and Sustainability Studies. Minors are offered at only the undergraduate level, and require between 15-24 credits. Some departments have restrictions on the connection between major and minor options. Entrance into some minors may require prerequisites, portfolios, auditions, or other forms of assessment. Upon completion of all requirements, the minor is listed on the official transcript.

**Track** A choice of specialty within a degree, tracks comprise an organized group of courses serving a particular focus within a major. In undergraduate and graduate majors that represent multiple disciplines, tracks indicate a particular disciplinary focus. In a single discipline major with tracks, each track represents a singular focus, often representing a liberal arts or professional path. In some cases, a track represents a sub-specialization within the major field. Entrance into some tracks, particularly those that represent a particular disciplinary focus, may require prerequisites, portfolios, auditions, or other forms of assessment. Tracks require between 21 and 52 credits. Upon completion of all requirements, the track is listed on the official transcript along with the major field of study.

**Concentration** Concentrations, such as English Literature or English Writing, represent a specialty or focus within an undergraduate or graduate major field of study. Typically, a concentration unites courses around content or a particular theme. Concentration requirements are a portion of a major, not the entire major itself. In some cases, concentrations refer to an interdisciplinary combination. Entrance into some concentrations may require prerequisites, portfolios, auditions, or other forms of assessment. Undergraduate concentrations require between 12 and 36 credits; graduate concentrations range from 9 to 18 credits. Upon completion of all requirements, the concentration is listed on the official transcript along with the major field of study.

**Emphasis** Typically an organized group of courses in a single discipline, the emphasis represents a subset of credits within an undergraduate or graduate major. The emphasis provides a coherent focus of study within a discipline, which may or not be in the major field. Typically an emphasis represents less than a third of the total major credits, mostly ranging from 15 to 19 credits. Entrance into some areas of emphasis may require prerequisites, portfolios, auditions, or other forms of assessment. Upon completion of all requirements, the emphasis is listed on the official transcript along with the major field of study.

# WESTMINSTER CHOIR COLLEGE

Westminster is a residential college of music located on a 23-acre campus in Princeton, N.J. Its typical student body includes 330 enrolled in the four-year undergraduate programs leading to the Bachelor of Music degree and the combined five-year Bachelor of Music/Master of Arts in Teaching degrees; 110 graduate students working toward the Master of Music and Master of Music Education degrees; and 20 non-degree candidates. Its programs of study are career-oriented and designed to prepare graduates for music leadership in churches, schools and communities. Concentrated performance study is offered in voice, organ, piano and conducting.

The choral music experience represents the most distinctive feature of Westminster. Daily rehearsals, supported by intensive musical skills development and by the study of voice and conducting, constitute the foundation of the choral program. At the center of all curricula are the large ensembles: the Chapel Choir, Schola Cantorum and Symphonic Choir. Smaller ensemble experience is afforded by Westminster Choir, Jubilee Singers, Kantorei, Williamson Voices, Master Singers, Concert Bell Choir and Opera Theater. Preparation of works for performance and touring takes precedence at times over all facets of collegiate life.

## History

In the belief that a choir of volunteer singers could be trained to perform on a professional level, John Finley Williamson established the Westminster Choir in 1920 at the Westminster Presbyterian Church in Dayton, Ohio. The national prominence achieved by this choir and Dr. Williamson's conviction that churches could best be served by dedicated, professionally trained musicians led him to found Westminster Choir School at the Dayton church in 1926.

In 1929 the college moved to Ithaca, N.Y., and became associated with what is now Ithaca College, where a four-year program leading to the Bachelor of Music degree was instituted. Relocated in Princeton, N.J., in 1932, it added a master's program in 1934 and became known as Westminster Choir College in 1939.

The move to Princeton was motivated by a desire to provide ready access to the great metropolitan centers and orchestras of the eastern seaboard. Since then the Westminster Symphonic Choir has performed hundreds of times and made many recordings with the principal orchestras of New York, Philadelphia, Washington, Pittsburgh, Boston and Atlanta. Conductors of the choir have included Bernstein, Ormandy, Steinberg, Stokowski, Toscanini and Walter, and such contemporary figures as Abbado, Boulez, Chailly, Leinsdorf, Levine, Masur, Mehta, Muti, Ozawa, Robertson, Sawallisch and Shaw. The choir has also received numerous invitations over the years to sing with such touring orchestras as the Berlin Philharmonic, the Los Angeles Philharmonic, the Royal Concertgebouw and the Vienna Philharmonic.

The institution has expanded in more recent decades by adding programs in music education, performance, composition, music theater and a Bachelor of Arts in Music degree. In 2007 Westminster Choir College became a division of Rider University's Westminster College of the Arts. Although it has never had a formal affiliation with any church, its programs draw students from most denominations of the Judeo-Christian heritage.

## Mission Statements

### Westminster College of the Arts

Westminster College of the Arts educates and trains aspiring performers, artists, teachers and students with artistic interests, to pursue professional, scholarly and lifelong personal opportunities in art, dance, music and theater. The College consists of three divisions: Westminster Choir College, the School of Fine and Performing Arts and Westminster Conservatory, a community music school. Through innovative and integrated programs and a commitment to discipline and excellence, the College serves as a cultural force within the university and community.

### Westminster Choir College

Westminster Choir College is a professional college of music with a unique choral emphasis that prepares undergraduate and graduate students for careers in performance, teaching, sacred music and composition. In an atmosphere that encourages personal and musical growth and nurtures leadership qualities, Westminster Choir College complements professional training in music with studies in the liberal arts. Founded for Christian service, Westminster Choir College was a pioneer in establishing the highest standards in choral performance and church music. Today, the curriculum teaches pluralism and holds service through music to be ennobling, liberating and integral to a rewarding and productive life.

### The School of Fine and Performing Arts

The School of Fine and Performing Arts focuses on art, dance, music, music theater, theater and arts administration. Through programs that provide a historical, aesthetic, practical and professional perspective, students develop the skills to excel in a professional career while growing intellectually from a broadly based liberal arts curriculum. The School fosters meaningful engagement in the arts to students who wish to become professional artists as well as students who view the arts as an integral part of overall intellectual growth. The School nurtures and challenges the artist within all students and prepares them to contribute to an ever-changing global society.

### Westminster Conservatory of Music

For more than 40 years Westminster Conservatory of Music has served the Central New Jersey/Eastern Pennsylvania area with on-campus and community-based music instruction. The community music school of Westminster College of the Arts, it offers a superior faculty and tailors lessons, workshops and classes to the needs of the individual student.

Music study at the Conservatory provides a unique opportunity for musical growth and is available to students of all ages and stages of advancement. It also offers many opportunities to perform through its community choral, orchestral and theater ensembles. In addition to its program on the Westminster Choir College campus in Princeton, the Conservatory offers classes at extensions in Lawrenceville and South Brunswick, N.J. and in Newtown and Yardley, PA.

## Accreditation

Westminster has been fully accredited by the National Association of Schools of Music (NASM) since 1941. It has held accreditation by the Middle States Association of Colleges and Schools since 1966 and remains accredited as a college within Rider University. The undergraduate program in music education was approved by the State of New Jersey in 1961 and leads to certification to teach public school music, K-12. This program was also approved in 1974 by the National Association of State Directors of Teacher Education and Certification (NASDTEC), facilitating transfer of teaching certificates to any of the participating states, and in 1995 by the National Council for the

Accreditation of Teacher Education (NCATE), which now is known as the Council for Accreditation of Educator Preparation (CAEP).

## Continuing Education

Westminster offers summer workshops and festivals covering a wide range of subjects and techniques within the field of music. Workshops are open to all Westminster students, to professional musicians and teachers and to the general public. Graduate credits may be earned through participation in workshops. The Office of Continuing Education also presents residential high school and middle school summer programs in the form of a two-week Vocal Institute and a series of one-week programs in voice, organ, piano, composition and music theater.

## Westminster Conservatory

The Westminster Conservatory is the community music school division of the College of the Arts. It serves Central New Jersey and Eastern Pennsylvania with high quality music instruction in piano, voice, brass, woodwinds, strings, theory, composition, and percussion. Westminster Choir College students receive a discount on lessons through the Conservatory. Non-credit instruction is open to all ages and levels of ability from 12 months of age through senior citizens, for the serious musician and for the amateur. Students at the college have the opportunity to observe lessons, to study privately those instruments not taught within the college curriculum and, in some cases, to teach on the junior faculty of the Conservatory.

## Buildings and Resources

Williamson Hall is named for the college founders, John Finley and Rhea B. Williamson. With Bristol, Taylor and Erdman Halls, it is one of the original buildings on the campus. Many faculty departmental offices and administrative offices may be found here. The first floor includes an informal recital facility.

Chapel services, convocations and recitals take place in Bristol Hall, jointly dedicated to Lee Hastings Bristol, Jr., the third president of Westminster Choir College, and to his father, Lee Hastings Bristol. Located on the upper level is Bristol Chapel with its Aeolian-Skinner organ, completely refinished tonally in 1983. The lower level houses Noack and Fisk organs, an electronic keyboard lab, and Sacred Music departmental offices.

Westminster's newest building, the Marion Buckelew Cullen Center, opened in September 2014, and is named in honor of the philanthropist who made a \$5 million bequest to Westminster Choir College. The signature space in the building is Hillman Performance Hall, a 3,000 square-foot performance and rehearsal space named in recognition of the Henry L. Hillman Foundation, which provided a \$3 million grant to support the project. The Center includes three flexibly configured classrooms, a large lobby and a green room.

Talbot Library Learning Center memorializes Katharine Houk Talbot, one of the leading benefactors of the college during its earliest days in Dayton, Ohio. A multi-purpose building, it includes classrooms as well as the Music Computing Center and the Arts and Sciences Media Center. The Music Computing Center includes fifteen Kurzweil PC88 synthesizers and fifteen Macintosh computers. The Media Center includes 25 Windows-based computers with notation and sequencing capabilities. A complete description of library facilities is given at the end of this section.

The Robert L. Annis Playhouse is named for the Dean/Director of Westminster Choir College, who served from 1994-2014, and under

whose leadership the Westminster College of the Arts was launched.

The Playhouse is an all-purpose building for rehearsals, recitals, classes, theatrical productions and a variety of social and special events. An extensive addition and renovation in 2015 resulted in a larger stage area, dressing rooms, and an extended thrust stage.

The Cottage provides several classrooms, a dedicated rehearsal room for handbell choirs and an electronic keyboard lab.

The dining commons and meeting rooms are on the second floor of the William H. Scheide Student Center, named for benefactor William H. Scheide. Student mailboxes, lounge areas, student government offices, the Office of the Associate Dean of Students and Westminster Music and Books, the campus store, are located on its main level.

Erdman Hall, following an extensive renovation and rededication in 1997, is named for Charles Erdman, former chaplain of the college. It houses The Presser Music Center at Erdman Hall and provides offices and studios for the Voice and Piano Departments. It also holds the Voice Resource Center and an electronic keyboard lab.

Taylor Hall is named for Sophia Strong Taylor, who underwrote the purchase of the original Princeton acreage and the construction of the first four buildings. Faculty offices and private teaching studios occupy its four floors.

Seabrook, Dayton and Ithaca Halls currently serve as residence halls with basement-level practice rooms. Seabrook Hall is named for Charles F. Seabrook, a trustee and a long-term supporter of the college.

Dayton, Ithaca, and Princeton Halls are named for the three historic locations of the college. Dayton Hall houses Scheide Recital Hall. Dayton Hall is the location of the Casavant and Ott organs and of the organ department offices, teaching studios and practice facilities. Ithaca Hall includes both organ and piano practice facilities. Princeton Hall serves as the central location for Westminster Conservatory.

Westminster Choir College enjoys an excellent relationship with area institutions, and regularly makes use of facilities at the Princeton Ballet School, Princeton High School, Princeton Theological Seminary, and Princeton University. Performances are given in a variety of on- and off-campus venues, including schools and churches throughout the area.

## Westminster Choir College Library

The library at Westminster Choir College is housed in the Katharine Houk Talbot Library Learning Center. These collections comprise more than 67,000 music-related books, music scores and periodicals, approximately 5,400 choral music titles in performance quantities, a choral music reference collection of more than 80,000 titles, 200 current periodical titles in print, as well as access to more than 12,000 titles electronically. The library's 25,000 sound and video recordings are supplemented by more than 338,000 audio tracks available electronically from the Classical Music Library and the Naxos Music Library.

Special collections include the Erik Routley Collection of hymns and hymnological literature; the D. deWitt Wasson Research Collection of Organ Music; and the Archives of the Organ Historical Society, a comprehensive collection of organ research materials.

Talbot Library's score and sound recording collections cover all musical styles, genres and periods at a basic level, but are concentrated more heavily in the areas of choral, vocal, keyboard and sacred music. Of note are collected works of many individual composers, masterworks of music, an extensive piano pedagogy collection, instructional material for

music education in primary and intermediate schools and holdings both broad and deep in choral music, keyboard music and hymnals. The library collects multiple print editions of many music titles for comparison of editing practices and multiple recordings of many titles for comparison of performance practices.

For more information about Talbott Library, access [www.rider.edu/talbott](http://www.rider.edu/talbott) (<http://www.rider.edu/talbott>) on the Internet.

## Westminster Choir College Administration and Staff

Marshall Onofrio • Dean, Westminster College of the Arts  
 Frank Abrahams • Interim Associate Dean of Administration  
 Christopher Botti • Associate Dean of Students  
 Carol Conklin • Manager ITT and Finance, Westminster Conservatory  
 Roberta Butler • Residence Life Area Director  
 Dax Finley • Manager, Creative Services  
 Stephanie Gerstenhaber • Assistant Director of Admissions  
 Scott Hoerl • Director of Westminster Conservatory and Continuing Education  
 Marjory J. Klein • Academic Coordinator  
 Marianne Lauffer • Assistant Director, Westminster Conservatory Faculty and Extensions  
 Joe Miller • Director of Choral Activities  
 Natalie Pollard • Director of Alumni Relations  
 David Powell - Director of Admissions  
 Carolyn Sauer - Production Coordinator  
 R. Douglas Helvering • Coordinator for Sacred Music and the Royal School of Church Music  
 Anne M. Sears • Director of External Affairs  
 Judy Simmons • Assistant to the Dean and Director  
 Evelyn J. Thomas • Director of Academic Support Services and Coordinator, Educational Opportunity Program  
 Laura Wilson • Assistant Director Box Office Manager

## National Association of Schools of Music Code of Ethics

As a fully-accredited member of the National Association of Schools of Music, Westminster Choir College abides by the NASM Code of Ethics, which establishes deadlines for the consideration and acceptance of talent-based scholarship awards from member institutions. Having accepted a financial aid offer from Westminster Choir College, undergraduate students must receive written permission from Westminster to consider an offer of financial aid from another institution after May 1. Having accepted a financial aid offer from Westminster Choir College, graduate students must receive written permission from Westminster to consider an offer of financial aid from another institution after April 15. Students accepted into Westminster Choir College after those dates must inform Westminster of any offer(s) they have accepted.

## Study Abroad

Study in a foreign country provides a unique opportunity for students to grow intellectually through exposure to the customs, habits, and languages of different cultures. Study abroad helps prepare students for the global community in which they will live and work, increasing their employment and earnings potential. Study abroad experiences are available in many locations through Rider exchange and affiliate programs. Westminster semester-long programs offer courses in a variety of subjects, including voice and theory. An exchange program with the University for Music and Dramatic Arts in Graz, Austria, allows

Westminster Choir College students to do voice, composition, and keyboard courses abroad. Besides our semester programs, students can select summer programs through study abroad providers and faculty-led short-term international travel projects that are offered for credit during January intercession, spring break, and in the summer.

Additional information is available on the Rider University Study Abroad Web site (<http://www.rider.edu/academics/academic-programs/study-abroad>). Information is also available in the Center for International Education, located in the office of the Associate Dean of Students in the Scheide Student Center.

Program	Major	Minor
Arts and Entertainment Industries Management (p. 1060)		✓
Music - BAM (p. 1062)	✓	
Music Education (p. 1066)	✓	
Organ Performance (p. 1070)	✓	
Piano (p. 1074)	✓	
Piano Pedagogy (p. 1077)		✓
Sacred Music (p. 1078)	✓	
Theory/Composition (p. 1083)	✓	
Voice Performance (p. 1088)	✓	

The Academic Programs A to Z Chart (p. 10) lists Rider University's majors, minors and certificates alphabetically, along with the college or school (p. 11) that grants each degree, major, minor and certificate. The following definitions explain the difference between majors, minors, tracks, concentrations, and emphases:

**Major** An organized group of courses ranging from introductory through advanced levels. Typically most if not all courses are in a single primary area of study, although some majors include study in multiple disciplines. Undergraduate majors require between 18 and 90 credits, depending upon the liberal arts or professional focus. Graduate majors require between 30 and 45 credits. Entrance into some majors may require prerequisites, portfolios, auditions, or other forms of assessment. Upon completion of all requirements, the major is listed on the official transcript.

**Minor** An organized group of courses, typically involving introductory through intermediate levels. While most minors are in a single discipline, Rider University offers several interdisciplinary minors, such as Law and Justice, and Sustainability Studies. Minors are offered at only the undergraduate level, and require between 15-24 credits. Some departments have restrictions on the connection between major and minor options. Entrance into some minors may require prerequisites, portfolios, auditions, or other forms of assessment. Upon completion of all requirements, the minor is listed on the official transcript.

**Track** A choice of specialty within a degree, tracks comprise an organized group of courses serving a particular focus within a major. In undergraduate and graduate majors that represent multiple disciplines, tracks indicate a particular disciplinary focus. In a single discipline major with tracks, each track represents a singular focus, often representing a liberal arts or professional path. In some cases, a track represents a sub-specialization within the major field. Entrance into some tracks, particularly those that represent a particular disciplinary focus, may require prerequisites, portfolios, auditions, or other forms of assessment. Tracks require between 21 and 52 credits. Upon completion of all requirements, the track is listed on the official transcript along with the major field of study.

**Concentration** Concentrations, such as English Literature or English Writing, represent a specialty or focus within an undergraduate or graduate major field of study. Typically, a concentration unites courses around content or a particular theme. Concentration requirements are a portion of a major, not the entire major itself. In some cases, concentrations refer to an interdisciplinary combination. Entrance into some concentrations may require prerequisites, portfolios, auditions, or other forms of assessment. Undergraduate concentrations require between 12 and 36 credits; graduate concentrations range from 9 to 18 credits. Upon completion of all requirements, the concentration is listed on the official transcript along with the major field of study.

**Emphasis** Typically an organized group of courses in a single discipline, the emphasis represents a subset of credits within an undergraduate or graduate major. The emphasis provides a coherent focus of study within a discipline, which may or not be in the major field. Typically an emphasis represents less than a third of the total major credits, mostly ranging from 15 to 19 credits. Entrance into some areas of emphasis may require prerequisites, portfolios, auditions, or other forms of assessment. Upon completion of all requirements, the emphasis is listed on the official transcript along with the major field of study.

## General Requirements

### General Requirements for the Bachelor of Music (B.M.), Bachelor of Arts in Music (B.A.M.), and Combined Bachelor of Music and Master of Arts in Teaching (B.M./M.A.T.)

- All entering undergraduate students take placement tests in order to determine the level of their skills in a variety of areas. Specifically, students must meet all musicianship, ELI/TOEFL, reading, writing, and mathematics proficiency requirements as determined by the college. Those whose scores on placement tests indicate that they are not prepared to undertake college-level work are required to complete remedial courses in order to bring their skills up to the minimum standards expected. Please see "Placement" in the Admissions and Arts and Sciences sections of this catalog. International students also should review the English language requirements listed under "Admission as an International Student" in the Admissions section of this catalog.
- Students must earn a minimum of 124 undergraduate credits. Of these, a minimum of 62 must be earned within Rider University, exclusive of credits transferred or earned by examination.
- Students must complete all degree requirements within ten years of initial enrollment. Students who have not satisfied requirements by this time may be required to repeat courses and/or to meet further requirements. If more than one year has elapsed since the date of last enrollment, students may be required to re-apply and re-audition for the program, and must meet all requirements in place at the time of their readmission.
- Students must earn a minimum cumulative grade point average of 2.00, except for Music Education majors who must, by state requirement, earn a minimum cumulative average of 3.00. Students dropped from a major because of failure to maintain the minimum grade point average may apply for readmission to the respective

department. Readmission will be dependent upon various criteria, including the G.P.A., current academic progress, and the student's general standing.

- Performance majors must earn a minimum grade of "B-" each semester in the primary applied music field in order to make satisfactory progress. If a grade of "C+" or lower is earned, the student must repeat the semester. All other students must earn a minimum grade of "C-" each semester in the primary applied music field. If a grade of "D" or lower is earned, a student must repeat the semester.
- Students must meet attendance and performance requirements in studio performance classes and labs, as set by each applied department and/or major field department.
- Keyboard students must pass a general progress jury at the end of one year of secondary voice study and a proficiency test to complete secondary voice study.
- All students must present a senior primary applied recital after qualifying according to departmental standards. Some major fields also require a junior recital. Students must enroll for primary applied study during the term when any recital is to be presented unless specifically excused from this requirement by the primary applied department.
- Students must participate in and earn credit for one of the required choirs (Chapel Choir, Schola Cantorum, Symphonic Choir) during every semester of enrollment, up to a maximum of eight semesters, except for Music Education majors, who must enroll up to a maximum of seven semesters.
- B.M./M.A.T. students should review the notes provided after the chart for that degree.
- Commencement: Academic year requirements extend through the annual spring Commencement. All students enrolled in required ensembles (Chapel Choir, Schola Cantorum, Symphonic Choir) are required to participate in Commencement unless excused under extraordinary and unavoidable circumstances, such as serious illness. All other students are encouraged to participate in Commencement. In particular, credit for spring semester choir participation is lost if a student does not attend and is not excused from Commencement. Students participating with the members of the graduating classes are required to purchase or rent appropriate academic regalia, available through the college store.
- In addition to the information given here and on the following pages, students are referred to individual department handbooks for additional information and requirements.

## Arts and Entertainment Industries Management Minor

### Program Overview

Arts and Entertainment Industries Management combines passion for the arts with the business know-how that keeps the arts an active and integral part of communities. A wide variety of opportunities abound for satisfying and rewarding careers in managing the arts, whether in the growing nonprofit sector or in for-profit entertainment, including: entertainment law, venue management, artist management and representation, producing, producing management, stage management, touring management, fundraising, marketing, educational programming, artist research and development, advocacy, policy development, outreach and gallery management.

## Courses and Descriptions

### **AAD 121 Intro to Arts Administration 3 Credits**

A survey course that covers topics relevant to administering the arts, and includes reviewing state and federal legislation to non-profit organizations, non-profit agency structure, long range planning, board development, marketing, fundraising, public relations, advocacy, budget, human resources and ongoing compliance issues. Students will have opportunities to interact with professionals in the field and explore career options.

### **AAD 202 Commun/Marketing in Arts 3 Credits**

Intended for arts or business majors interested in arts management, this course immerses students in the fundamentals of promoting the arts, from grassroots public relations to basic marketing concepts and applications. Students will have opportunities to interact with professionals in the field and explore career options.

**Prerequisite(s):** AAD 121 and LL 131, or permission of instructor.

### **AAD 203 Arts Fundraising 3 Credits**

Provides students with an understanding of the ethics, strategies and practices of fundraising for non-profit arts agencies. Students gain an understanding of the role of the development office in a non-profit arts agency, prepare for careers in arts management by increasing the skills necessary to function, and learn to plan a multi-faceted fundraising campaign effectively.

**Prerequisite(s):** CMP 120 or LL 131.

### **AAD 204 Arts Outreach & Education 3 Credits**

This course examines essential educational components of arts institutions, how they evolve and are produced, and will assess the importance of educational programming to arts organizations and the communities they serve.

**Prerequisite(s):** AAD 121.

### **AAD 225 Arts Administration Practicum 1 Credits**

Under faculty advisement and project site supervision, students complete a total of three, 1-credit (33-hour) "mini-internships" or practicum projects in service to the field, sequentially in the Sophomore Fall, Sophomore Spring, and Junior Fall semesters, simultaneous to Arts Administration Lab. The first practicum project is in connection with Box Office and Patron Service to Rider Performing Arts. The second is in connection with a project of the student's choosing in service to the arts on campus or beyond. The third is in connection with a project of the student's choosing in service to the field in an outside, professional setting.

**Prerequisite(s):** AAD 121.

### **AAD 306 Business and Art of Recording 3 Credits**

Survey of the recording industry. Responsibilities of the label and producer, copyrights, royalties, residuals, publishing, contracts and artist development, promotion, distribution, product management, domestic and international licensing, and related technology.

**Prerequisite(s):** AAD 121 and CBA 110 Introduction to Business.

### **AAD 307 Touring and Production Management 3 Credits**

Organizing, marketing and managing tours. Responsibilities of the booking agent, tour manager, and performers. Case studies, relationships, contracts with venues, transportation companies, housing, and unions, budgeting, press kits, and insurance.

**Prerequisite(s):** AAD 121, CBA 110.

### **AAD 308 Legal Aspects of the Arts 3 Credits**

A survey of legal issues in the arts and entertainment industries, examining the relationship between arts and the law – from cultural property rights to intellectual property, copyright and beyond.

**Prerequisite(s):** AAD 121.

### **AAD 309 Arts Events & Festivals Mgt 3 Credits**

Students learn to develop, produce, and staff successful arts events while refining planning skills through practice with theoretical and real arts event venues and participating in the production and management of actual events.

**Prerequisite(s):** AAD 121.

### **AAD 350 Arts Venue and Patron Services Management 3 Credits**

Integrating workplace with organizational mission: administration, staff, general public, artists. Internal control, artist/employee contracts, collective bargaining, health and safety issues, facilities operation, inventory, cultivation and maintenance of clientele and audience.

**Prerequisite(s):** AAD 121.

### **AAD 351 Crossing Cultural Borders 3 Credits**

Course includes two weeks at an international arts organization, meeting and shadowing administrative staff, studying management styles, finance, and operational procedures, and attending all possible events during the visit. Travel fee required. May be repeated.

**Prerequisite(s):** Junior standing.

### **AAD 375 Special Topics: Arts Admin 3 Credits**

Intensive study or activity in a specific area of Arts Administration. The content will vary with social/cultural events and/or interests and qualifications of the professor. May be repeated for credit. Fee may be required.

**Prerequisite(s):** AAD 121 or CBA 110 or permission of instructor.

### **ACC 210 Introduction to Accounting 3 Credits**

This course provides an introduction to basic principles and methods of accounting essential to preparation, understanding and interpretation of financial statements. Topics include accounting for merchandising concerns, current assets, long-term assets, liabilities and equity accounts. A brief overview of internal control is also covered.

### **ART 227 Gallery Management 3 Credits**

Designed to provide students with the experience of working in all aspects of art gallery management. It is intended for students regardless of their major who wish to add the dimension of art to their college experience through direct hands-on curatorship of the Rider Art Gallery.

### **CBA 110 Introduction to Business 3 Credits**

### **COM 212 Digital Publication Design 3 Credits**

Students will explore the relationships between theory and practice, tradition and innovation, history and ever changing technological and aesthetic trends in publication design. Students will learn to use graphic image and typography as design elements in print media, such as newspaper and newsletter, as well as online media, such as e-magazine and e-book. Students will also learn the interactivity design for online publications. The course directs students to apply these concepts and skills to the production of published materials with digital publishing systems.

**ENG 322 Workplace Writing: Grant Proposals, Fundraising and Development 3 Credits**

Students employ their analytical and writing skills to research and write grants for non-profit organizations in their local or regional communities. Fundraising and development activities on behalf of area organizations introduce them to career opportunities in this growing field.

**Prerequisite(s):** completion of composition requirements or permission of instructor.

**MKT 340 Personal Selling 3 Credits**

Examines persuasive techniques utilized in sales presentations conducted on a person-to-person basis. Major course emphasis is on developing effective selling techniques; understanding the company, its products and the role of the salesperson in implementing product/market strategies; understanding the customers and the selling environment; application of effective sales presentation techniques; recognizing selling opportunities and careers.

**Prerequisite(s):** MKT 200.

## Bachelor of Arts in Music (B.A.M.)

### Program Overview

#### Bachelor of Arts in Music

The Bachelor of Arts in Music is a liberal arts degree with a major in music. A broad foundation in liberal studies complements extensive studies in music. The curriculum is designed for students whose academic/and or career interests extend beyond music.

All students in the B.A.M. degree must select a minor or concentration. Typically this selection is made no later than the end of the sophomore year. Students are encouraged to make this decision earlier, if possible, as the date of the decision may affect progress towards a timely graduation. The declaration is made through the Registrar's office.

Students may choose from any minor approved by Rider University. Minors are offered in most disciplines of the university and require 18-21 credits. Courses taken to fulfill Arts and Sciences core requirements may be used to complete minor requirements. Courses required in minor programs may be offered at the Princeton campus. Information about minors may be found on the university website ([www.rider.edu/academics/majors-minors-programs](http://www.rider.edu/academics/majors-minors-programs)) (<http://www.rider.edu/academics/majors-minors-programs>).

SM 510 Choral Music for Adult Choirs

or SM 512 Choral Music for Childrn/Youth

**Voice Studies Concentration**

Students in this concentration must be Voice Primary

VC 433 Song Literature I

VC 434 Song Literature II

VC 408 Voice Science

VC 118 Italian Diction

or VC 119 French Diction

or VC 120 German Diction

**Free Electives**

Free electives	9
<b>Total Credits</b>	<b>125</b>

**Notes**

- With the permission of the Conducting Department, the 8th semester may be waived in the event of an approved internship or off-site semester of study. Internship credits replace Arts and Sciences elective credits.
- The 8th semester may be waived in the event of an approved internship or off-site semester of study. Internship credits replace Arts and Sciences elective credits. A recital or lecture-recital is required.
- VC 115 and VC 116 are required for voice primary students only. Organ and piano primary students may substitute four additional credits of free electives.
- Honors Students will substitute BHP 150 for LL 131.
- Completion of French, German, Spanish, Italian, or Latin II is required. If students are exempted from one or more semesters of foreign language study, they must replace the missing credits with other Arts & Sciences electives.
- Music History or Art History courses do not fulfill history elective requirements.
- Social/behavioral/natural science electives exclude history courses.
- Chosen from COM 107, ENG 321, ENG 322, ENG 323, or LL 285.
- If you choose to complete a minor, the hours required to complete the minor are taken from these 24 credits.
- If students select MH 345 as part of their core requirement, they must take TH 342 in place of MH 345 as part of their concentration.
- If students select TH 342 as part of their core requirement, they must take MH 345 in place of TH 342 as part of their concentration.

**Academic Plan of Study**

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

## Courses and Descriptions

**AR 111 Survey of Art History I 3 Credits**

A survey of Western art - architecture, sculpture, painting - from prehistoric times, is presented against the background of chronological and intellectual history.

**AR 112 Survey of Art History II 3 Credits**

Crucial artistic tendencies in Western art of the 19th and 20th centuries are introduced and discussed against their historical and intellectual setting. A brief background of art history from previous centuries is presented in order to appreciate these developments.

**AR 216 Acting I 3 Credits**

This course provides an introduction to basic techniques of realistic acting using exercises, improvisation and scene study. The emphasis is on honesty and commitment to action in order to be able to create real life in an imaginary world.

**AR 217 Improvisation & Movement 3 Credits**

Using theater games, students explore themselves as individuals and members of a group. The course uses scenes, skits, dances and games to help students overcome their fears and insecurities, enabling them to develop their creativity, spontaneity, honesty, concentration, and commitment to action. The class also explores body movement as a means of heightening dramatic expression.

**AS 490 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**AS 491 Arts & Science Internship 1-12 Credits**

This course requires 95 hours for each three credits for which the student enrolls. The student is required to spend 13 weeks of on-site participation in a broad range of daily operations at an internship site. In addition, there are group meetings with all students participating in internships and site-analysis assignments given under the direction of Arts and Sciences faculty. Students may enroll for a maximum of 12 credits of internships.

**Prerequisite(s):** at least junior level standing.

**LL 037 College Reading and Writing 3 Credits**

Required for students placed into this course as a result of the basic skills English testing program. This intensive course reviews effective reading, writing, and study processes and leads students to the level of mastery required to begin LL 131 English Composition the following semester.

**LL 131 English Composition 3 Credits**

An intensive essay writing course that provides students with the analytical, rhetorical and research skills needed to write well in many disciplines. Source-based writing is emphasized, culminating in a significant research project. In-class and outside-class writing methods are explored, leading students to master their individual writing processes.

**Prerequisite(s):** LL 037 or satisfactory score on basic skills English test.

**LL 141 French I 3 Credits**

This course is an integrated approach to the study of French language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening, and speaking).

**LL 142 French II 3 Credits**

This course is an integrated approach to the study of French language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening, and speaking).

**Prerequisite(s):** minimum "C" grade in LL 141.

**LL 145 Italian I 3 Credits**

This course is an integrated approach to the study of Italian language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening, and speaking).

**LL 146 Italian II 3 Credits**

This course is an integrated approach to the study of Italian language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening, and speaking).

**Prerequisite(s):** minimum "C" grade in LL 145.

**LL 151 German I 3 Credits**

This course is an integrated approach to the study of German language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**LL 152 German II 3 Credits**

This course is an integrated approach to the study of German language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 151.

**LL 243 French III 3 Credits**

This course is an integrated approach to the study of French language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in French with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 142.

**LL 244 French IV 3 Credits**

This course is an integrated approach to the study of French language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in French with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 243.

**LL 247 Italian III 3 Credits**

This course is an integrated approach to the study of Italian language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in Italian with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 146.

**LL 248 Italian IV 3 Credits**

This course is an integrated approach to the study of Italian language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in Italian with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 247.

**LL 253 German III 3 Credits**

This course is an integrated approach to the study of German language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in German with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 152.

**LL 254 German IV 3 Credits**

This course is an integrated approach to the study of German language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in German with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 253.

**LL 280 Sacred Texts and Literature 3 Credits**

Explore the cultural, theological, and artistic contexts of key themes (e.g. creation, journey, forgiveness, love) in the sacred texts of the major historical world religions as they are portrayed in contemporary poetry and drama, and in novels that have been adapted to film

**Prerequisite(s):** LL 131 or CMP 120.

**LL 282 Major Poets 3 Credits**

This course introduces students to poetry via the reading and analysis of different poetic forms. While reading, listening to, performing and discussing poems from a wide cultural spectrum, students learn to evaluate and appreciate poetry by understanding such elements as metaphor and persona.

**Prerequisite(s):** LL 131.

**LL 285 Writing About Music: A Seminar for Performers, Teachers, and Academics 3 Credits**

A writing intensive course focusing on the essential writing tasks encountered by musicians in their roles as performers, teachers, and scholars.

**Prerequisite(s):** LL 131, BHP 150 or CMP 125.

**LL 327 Dante's Commedia 3 Credits**

An introduction to Dante Alighieri's *Commedia* ("Inferno", "Purgatorio" and "Paradiso") exploring key ethical and aesthetic elements of the poem through close reading and critical analysis of the primary text.

**Prerequisite(s):** LL 131, BHP 150 or CMP 125.

**LL 490 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**RP 265 Lit of New Testament 3 Credits**

An introduction to the thought of the early Christian church as expressed in the New Testament, this course will emphasize a literary and historical reading of the Gospels and Epistles. It will introduce students to the Jewish and Greco-Roman religious, political and cultural worlds in which Jesus and his disciples lived and within which earliest Christianity arose.

**RP 268 Hebrew Bible & Old Testament 3 Credits**

This course introduces students to the writings of the Hebrew Bible/Old Testament within their historical and literary contexts. By critically reading these books, students will become aware of the history, culture and religion of ancient Israel - all of which contributed to the traditions of Judaism and Christianity.

**SP 171 Western Civ I 3 Credits**

This survey history course presents a cohesive picture of the development of Western societies from prehistoric times to the early Renaissance. Social, political and economic aspects are covered; intellectual and cultural developments are emphasized. Familiarity with primary sources and critical reading are integral to the course.

**SP 172 Western Civ II 3 Credits**

Continuation of SP171. This survey history course covers developments in Western societies from the Renaissance to the present. Major intellectual and cultural trends and movements are presented, along with historical progress and socio-economic expansion.

**SP 273 Developmental Psychology 3 Credits**

The physical and psychological growth of the individual from infancy through adolescence is studied, with emphasis on cognitive, emotional, and social processes.

**Prerequisite(s):** SP 175.

**SP 274 Educational Psychology 3 Credits**

The psychological foundations of education, based on the findings of experimental research in learning, transfer, motivation, reinforcement, and behavioral modification.

**Prerequisite(s):** PSY 100.

**SP 286 Life in Middle Ages 3 Credits**

A seminar in which the life styles of medieval Europeans are studied. Students will develop an understanding of particular social organizations and problems of the period by examining the conditions and events of everyday medieval life. Offered in rotation with other History courses.

**SP 408 Voice Science 3 Credits**

Study of the physics and physiology of voice production. Musical and vocal acoustics are explored using the facilities of the Westminster Voice Laboratory. Anatomic and physiologic underpinnings of respiration, phonation, articulation, registration and hearing are explored in depth.

**Corequisite(s):** CR 509.

## Bachelor of Music: Music Education

### Program Overview

The undergraduate Music Education degree normally takes four years to complete and includes courses in music education, musicianship studies, general education, and field experiences. Each semester, students increasingly engage in field experiences, culminating with a semester of full-time student teaching in the last year.

All music education majors must maintain a portfolio of work providing evidence of their suitability for teaching. Portfolios are reviewed as part of the Sophomore Review taken near the completion of 60 credits. Music Education majors must maintain a minimum cumulative grade point average of 3.0. Students whose general progress is unsatisfactory or whose cumulative grade point average falls below a minimum 3.0 level may be dropped from the Music Education major. If a student is dropped from the major because of failure to maintain the minimum grade point average, s/he may apply for readmission to the Music Education department. Readmission will be dependent upon various criteria, including the G.P.A., current academic progress and the student's general standing. Decisions regarding retention or appeals will be made in a manner consistent with state and institutional non-discrimination policies.

To graduate, students must complete all requirements for New Jersey teacher certification for Certified Educator with Advanced Standing (CEAS). **Students who want to be able to apply for teaching positions in other states should become familiar with teacher certification requirements for states of interest ASAP to determine if additional coursework is needed.** In addition to successfully completing required coursework, the State of New Jersey requires students to:

1. Satisfy basic skills (reading, writing, math) proficiency as a prerequisite for taking the Sophomore Review. Proficiency is satisfied for students who score at or above the identified cut scores on the SAT or ACT. Students who do not have sufficient SAT or ACT test scores must pass the Praxis Core Academic Skills (<https://www.ets.org/praxis/nj/requirements>) tests to satisfy basic skills proficiency.

2. Complete a minimum of 50 hours of clinical experience during the first four semesters and 175 hours of clinical practice before full-time clinical practice (student teaching).
3. Pass the Praxis Music Content Exam.
4. Pass the performance-based edTPA Exam.

For more information about non-course program requirements, see links on Undergraduate Music Education Homepage. (<http://www.rider.edu/wcc/academics/undergraduate-programs/music-education>)

## Curriculum Overview

The Music Education curriculum includes courses in elementary and secondary general music education, choral music education, instrumental studies, music technology and creativity, and students with special needs. An innovative four-course sequence integrates theoretical foundations of planning, teaching, assessing, and musicianship development with practical application through peer teaching and field-based music teaching. The undergraduate Music Education curriculum is intended to develop teachers who are reflective, who acknowledge the connections music has to the child's world and who seek to promote an understanding of those connections in a social context.

### Degrees Offered

- B.M. in Music Education
- B.M. in Music Education/M.A. in Teaching (M.A.T.)

## Courses and Descriptions

### ME 111 Music Education Lab 0 Credits

Undergraduates must meet the weekly attendance and participation requirement for Music Education Lab during every semester of enrollment up to seven semester as an undergraduate Music Education major except for the student teaching semester. Grading is “P” (satisfactory) or “U” (unsatisfactory). As part of the Music Education Lab experience, students are required to complete 15 hours of professional development.

### ME 161 Art of Teaching Music I 3 Credits

Art of Teaching Music I (ATM I) is a first in the sequence of Music Education courses designed to prepare the undergraduate Music Education major students for their student teaching experience and completion of their teaching licensure. There will be field observations of master teachers under the aegis of a music education faculty that will allow students not only to observe, but to have guided experience in assessing how teaching and learning are experienced in real classrooms. Partnerships between local expert teachers and music education faculty will allow students to complete field observations as well as guided experience in teaching and assessing students in real classrooms.

### ME 172 Guitar & Recorder in the Classroom 1 Credits

This course provides undergraduate music education majors with a foundation for teaching and playing the guitar and recorder. Students will gain technical proficiency in both instruments while learning appropriate repertoire of a multicultural and diverse nature. Students will also learn efficient pedagogy practices for teaching both instruments, learning of their application in educational settings. Students are expected to provide their own acoustic guitar for this course. Recorders are available for purchase in the college bookstore.

### ME 187 Instrumental Music: Strings 1 Credits

This course is designed as an introduction to the pedagogy of string instruments. Emphasis is on learning through performance. Instruments are required. Various methods and materials available for use in public schools, developmental ranges, transposition, scoring, and idiomatic writing are investigated. When available, instruments may be rented from the college. Rental fee, per instrument: \$25.

### ME 188 Instrumental Music: Winds/Percussion 2 Credits

This course is designed as an introduction to the pedagogy of brass, woodwind, and percussion instruments. Emphasis is on learning through performance. Instruments are required. Various methods and materials available for use in public schools, developmental ranges, transposition, scoring and idiomatic writing are investigated. When available, instruments may be rented from the college. Students must provide their own drum pads and sticks. Rental fee, per instrument: \$60.

### ME 262 Art of Teaching Music II 4 Credits

Art of Teaching Music II (ATM II) is designed to build on the knowledge, skills, and dispositions, introduced in ATM I. Students will expand their abilities in the domains of planning, teaching, assessing, reflecting, developing musicianship, and philosophy in context of teaching general music. Moreover, they will have the opportunity to put these abilities into practice when teaching peers and teaching elementary and middle general school students.

**Prerequisite(s):** ME 161.

### ME 371 Critical Pedagogy III 2 Credits

Creativity and Technology in the Music Classroom is designed to prepare students to foster musical creativity using a variety of approaches and tools. In particular, students will use equipment such as digital audio workstations, MIDI controllers, microphones, and SmartBoards to facilitate rich and engaging creative experiences. Students will explore ways to structure learning experiences in response to the needs and interests of students, and will examine current thinking and trends related to the uses of creativity and technology in the music classroom.

**Prerequisite(s):** ME 262 and junior status.

**ME 371H Critical Pedagogy III Honors 1 Credits**

Primary source readings, expanded assignment and additional content that supplements ME 371. Students will demonstrate the ability to synthesize and process complex ideas, and develop original thoughts with depth and significance. Prerequisite(s): ME 271, BHP status.

**Corequisite(s):** ME 371; Online only.

**ME 471 Music and Hip Hop Culture 3 Credits**

Hip Hop in the United States is arguably the most lucrative, popular, and culturally challenging contemporary musical force. The narratives of Hip Hop go beyond the boundaries of race and class as well as those of music, poetry and dance. As such, Hip Hop is a phenomenon that presents problems as well as great possibilities. This course explores them from the standpoint of educational sociology, looking at their implications for music in schools as well as in daily life.

**Prerequisite(s):** ME 271.

**ME 472 Teaching/Learning:Urban Schools 3 Credits**

This course offers students theoretical and practical insight into teaching in urban schools. The class will present an analysis and practical implications for what is needed in order to successfully engage in teaching in urban centers in the United States. Students will balance field experiences with critical analyses of issues such as multicultural teaching, race, class, and economics in urban schools as well as their curricular and pedagogical implications.

**Prerequisite(s):** ME 581, ME 582.

**ME 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**ME 491 Kodaly Music Reading 2 Credits****ME 492 Student Teaching 12 Credits**

ME 492 - Student Teaching A full semester internship in directed full-time teaching supervised by department members and carried out in schools with approved cooperating teachers. In addition to the field experience, students attend a weekly seminar on campus to discuss current issues in music education as they relate to individual teaching situations. Students discuss classroom management strategies, action research, authentic instruction, critical thinking, feeling and action as well as teaching to focusing questions, concepts and objectives. Throughout student teaching, students maintain a digital portfolio that demonstrates how they meet the New Jersey State and INTASC teaching standards. At the conclusion of the semester, students attend a portfolio review with members of the Music Education faculty to assess the success of the teaching experience. Students must provide their own transportation to student teaching site. Student Teaching fee: \$245. Fees for the Praxis Examination and Teacher Certification are additional. Additional information regarding student teaching may be found in the department's Student Teaching Handbook at [www.rider.edu/musiced](http://www.rider.edu/musiced)

**Prerequisite(s):** Classification as a full senior; Satisfactory completion of music education courses numbered ME 161, ME 262, ME 563, ME 564, ME 187, ME 188, and either Developmental or Educational Psychology; Satisfactory completion of TH 241; For voice primary students, satisfaction of all requirements of PI 204; A minimum 3.0 cumulative grade point average; Demonstrated aptitude, motivation and potential for success in teaching, as evidenced by the successful completion of portfolio reviews; Departmental approval; Students in the Master of Music Education (MME) degree program must take the following courses as prerequisites to student teaching; ME 563, ME 564, ME 725.

**ME 499 Special Topics Music Education 2 Credits**

The content of this course and the number of credits will vary with the special interests and qualifications of the professor teaching it.

**AS 490 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**AS 491 Arts & Science Internship 1-12 Credits**

This course requires 95 hours for each three credits for which the student enrolls. The student is required to spend 13 weeks of on-site participation in a broad range of daily operations at an internship site. In addition, there are group meetings with all students participating in internships and site-analysis assignments given under the direction of Arts and Sciences faculty. Students may enroll for a maximum of 12 credits of internships.

**Prerequisite(s):** at least junior level standing.

**AS 691 Arts & Science Internship 1-3 Credits**

This course requires 15 hours for each credit for which the student enrolls. The internship requires on-site participation at a pre-approved site. Students may enroll for a maximum of 3 credits.

**Prerequisite(s):** graduate standing.

## Bachelor of Music: Organ Performance

## Program Overview

The Organ Department at Westminster Choir College educates students in many facets of organ playing and related topics. Courses in performance, collaborative skills, choral conducting, improvisation, and literature are offered each semester. Westminster is home to a collection of 18 pipe organs built by Aeolian-Skinner, Beckerath, Casavant, Flentrop, Noack, and others. Students are encouraged to seek church employment during their time at Westminster; the organ faculty and sacred music office maintain a list of available positions in the area. For more information, including audition requirements and instrument specifications, visit the Organ Department website (<http://www.rider.edu/organ>).

## Curriculum Overview

The undergraduate curriculum includes eight semesters of applied lessons, two semesters of organ literature, two semesters of organ improvisation, and courses in choral conducting, worship planning, and accompanying.

## Degree Recital Requirements

1. Two recitals - memorization is encouraged, but not required:
  - a. A recital of at least 45 minutes at the conclusion of the Junior year.
  - b. A recital of at least 60 minutes at the conclusion of the Senior year.
2. Students are required to be enrolled in organ lessons at Westminster during the semester of a degree recital, without exception.

## Performance Class Requirements

For each semester a student is enrolled in organ lessons as a performance major, these requirements must be met:

1. Three solo works, one of which must be memorized.
2. Two hymns, one of which must be memorized.
3. One collaborative work (i.e. anthem, vocal/instrumental solo, concerto, etc.)

## Jury Requirements

1. All freshman performance majors must pass a qualifying jury that includes:
  - a. Five Orgelbüchlein Chorales, by J. S. Bach; a Leipzig, Schübler, or Clavierübung III chorale can be substituted for one of these. (This requirement may be met in any jury or performance class during the first year.)
  - b. A Prelude and Fugue of J.S. Bach or Präludium of Dietrich Buxtehude, or Nicolas Bruhns
  - c. Three contrasting pieces from the 19th, 20th, or 21st centuries.
  - d. A complete hymn performed creatively (introduction, alternative harmonizations, etc.)
  - e. All major and minor scales (harmonic and melodic); four octaves
  - f. A jury must be performed at the conclusion of any semester that does not include a degree recital.

**Note: One of the works in a. through e. above must be memorized.**

## Degree Offered

- B.M. in Organ Performance

### OR 433 Organ Literature I 3 Credits

Historical study of organ literature coordinated with a study of the development of the organ as a musical instrument.

### OR 434 Organ Literature II 3 Credits

Continuation of OR 433.

### OR 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.  
**Prerequisite(s):** junior or senior standing.

### OR 587 Organ Improvisation 2 Credits

A laboratory in the keyboard disciplines of modulation, transposition, improvisation and vocal score reading. Required for undergraduate Organ Performance majors; others may elect the course by permission of the instructor.

### OR 588 Organ Pedagogy 2 Credits

Pedagogical approaches to organ playing. Required for undergraduate Organ Performance majors; others may elect the course by permission of the instructor.

### OR 589 Organ Improvisation II 2 Credits

Continuation of OR 587.

### OR 590 Accompanying at the Organ 2 Credits

Development of accompanying techniques essential to the professional organist. Arranging and transcription from piano reductions and orchestral scores; standard choral/organ literature. Leading congregational song; appropriate methods of instrumental registration.

### OR 623 Organ Music of J.S. Bach 3 Credits

A study by genre of Bach's organ compositions will include background, overview of the influences of Buxtehude, Pachelbel and Böhm, and performance practice issues. The question of the "Bach organ" will be explored. Prerequisite(s): MH 731, OR 433.

**Corequisite(s):** MH 731, OR 433.

### OR 629 Seminar in Organ Literature 2 Credits

An intensive study of an area of organ literature or its performance practice. Specific content will change with each semester. Emphasis upon in-depth study of the works of a selected composer or genre.

### OR 641A Organ Primary 2 Credits

### OR 641B Organ Primary 1 Credits

### OR 641C Organ Elective 2 Credits

### OR 641D Organ Elective 1 Credits

### OR 641E Organ Primary 2 Credits

### OR 641F Organ Primary 1 Credits

### OR 690 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

### OR 723 Organ Literature Before 1800 3 Credits

Historical study of the organ literature coordinated with a study of the development of the organ as a musical instrument.

**OR 724 Organ Literature since 1800 3 Credits**

Study and research into the style, form, and interpretation of representative organ works composed after 1800. Study and research into national styles of organ composition and construction in France, Germany, England and North America.

## Bachelor of Music: Piano

### Program Overview

Piano at Westminster Choir College has multiple dimensions at both the undergraduate and graduate levels. It fosters the development of students who perform on a high level as soloists, as artist-teachers and as collaborators with other performing artists.

Our program helps to develop a strong foundation of technique and knowledge of piano literature and style. The department also provides instruction for undergraduate students who need keyboard skills in order to function effectively throughout their professional careers.

### Curriculum Overview

**Undergraduate Piano Primary:** Piano primary students majoring in sacred music, B.A. in music, music education, or theory/composition are expected to play once each semester in a performance class. Seniors give a full or half recital. Freshmen have required juries at the end of each semester; sophomores and juniors, at the end of each year.

**Undergraduate Piano Secondary:** All undergraduate voice primary students must enroll for piano secondary study until completing the undergraduate piano secondary curriculum course sequence. Instruction is in the form of piano classes. Placement in the class by level is determined at the beginning of each semester. Instruction entails study and performance of piano literature from the Baroque through the 21st Century as well as development of proficiency in areas of functional keyboard skills. For more details about the Piano Secondary curriculum, please refer to the Piano Department page (p. 1170) in this catalog.

**Piano as an Elective:** Students may elect private instruction in piano for credit. There are no audition requirements, but an extra fee is charged.

**Piano Pedagogy Lab:** This is a required graduate Piano Pedagogy course for the purpose of problem solving related to piano teaching. The class format includes open discussion of observations, supervised and independent teaching, questions relating to repertoire, materials, and technique, comparative philosophies and psychologies and their applications, group and private teaching, business issues (e.g. studio policies), use of technology, professional organizations and publications, recital and audition preparation, and parent education.

**Piano Studio and Performance Class:** This is a weekly recital and lecture hour during which performances are given by students, faculty members, and guest performers. Attendance and participation at weekly studio and performance classes is required for all undergraduate and graduate piano primary students. All Westminster students are invited to attend.

## Courses and Descriptions

### PI 101A Piano Primary 2 Credits

### PI 201A Piano Primary 2 Credits

### PI 297 Fund of Piano Pedagogy I 3 Credits

Fundamentals I is devoted to study of techniques, methods, and materials suitable for beginning through early intermediate level students. Other areas of study include motivational strategies, establishment of effective practice habits, recital preparation, technique, and elementary duet materials. Students analyze and demonstrate teaching from three different beginning piano methods. Observation of professional teaching is done in the context of class and private lessons at the Westminster Conservatory.

### PI 298 Fund of Piano Pedagogy II 3 Credits

In Fundamentals II, students continue to apply their experience with piano methods to the teaching of students. In addition, the semester is devoted to the study of materials from all style periods for upper elementary and intermediate level students. Students observe private and group lessons appropriate to these levels. The course culminates in an individual lecture recital demonstrating music from a variety of style periods.

**Prerequisite(s):** PI 297.

### PI 301A Piano Primary 2 Credits

### PI 397 Fund of Piano Pedagogy III 3 Credits

Fundamentals III involves supervised private and group teaching of beginning students. Emphasis is placed on lesson planning, presentation of concepts, use of technology, and the relationship between technique and musicianship skills. The course further addresses the different psychological and methodological approaches to teaching adults and children in class and private settings, and includes an overview of materials for the adult student and group classes. The course culminates in a lecture recital on a pedagogical subject of the students choice.

### PI 401A Piano Primary 2 Credits

### PI 413 Accompanying Class 2 Credits

This course is designed with the twofold purpose of allowing undergraduate pianists to fulfill their piano ensemble elective requirement within the professional studies area as well as providing an opportunity for voice primary students to further their piano study in a challenging forum in situations directly related to their repertoire. The students in the class will receive instruction in the stylistic, technical, analytical and linguistic aspects of vocal literature. The many issues involved in vocal collaboration will be discussed along with in-depth study of the pianist's role in musical partnerships. Issues of musical freedom, language, and the varieties of sonic treatment unique to vocal literature will be discussed. Italian, French, German and English song repertoire from various style periods will provide the assignments for performance and discussion.

### PI 435 Survey of Piano Literature I 3 Credits

A study of representative works from 1650-1800 by composers including J. S. Bach, C.P.E. Bach, J.C. Bach, Haydn, Mozart, and Beethoven.

**Prerequisite(s):** MH 248.

### PI 436 Survey of Piano Literature II 3 Credits

A study of representative works from 1800 to the present by composers including Beethoven, Schubert, Mendelssohn, Schumann, Chopin, Liszt, Brahms, Debussy, Ravel, Prokofiev, and Bartók.

**Prerequisite(s):** MH 248.

### PI 512 Chamber Music 2 Credits

Emphasis is placed upon rehearsal and performances of representative collaborative literature for strings and piano, and woodwinds and piano. Students will be assigned movements from major chamber works selected from different style periods. Professional instrumentalists will join them for rehearsals and performances in class. An overview of the development of this repertoire will be presented and listening assignments will augment the study of specific works. A project involving the study and presentation of a piano quartet or piano quintet will be included. Attendance at three concerts of instrumental chamber music is required. Permission of applied teacher and instructor is required.

### PI 513 Jazz Keyboard/Improv 3 Credits

This course will enable pianists and organists to become familiar with the theory, harmony, and improvisational techniques of jazz piano. Emphasis will be placed upon getting each student to create spontaneous improvisations. The fundamental goal will be that of enabling students accustomed to following a score to move beyond it. Extensive exposure to material from the "Great American Songbook" as well as to jazz standards will provide a structural basis for the course.

**Prerequisite(s):** TH 142 and PI 201, or equivalent knowledge and technical proficiency.

**PI 516 Physical/Psych Aspects Piano 2 Credits**

The two major emphases of this course are: (1) the pianist as athlete and 2) the pianist as performer. The first includes a study of appropriate exercise, nutrition, anatomy and physiology as they relate to piano technique, implications for injury prevention, and how to deal with injuries should they occur. The second includes the reading process, strategies for practicing, memorizing techniques, and ways of coping with the behavioral, physical and cognitive manifestations of performance anxiety.

**PI 540 Keyboard Skills 3 Credits**

The course includes in-depth study of numerous aspects of musicianship skills essential for all pianists within the broader categories of technique and practice strategies; memorization and sight reading; improvisation and lead sheet realization. All aspects of piano musicianship skills will be addressed from practical, pedagogical, and collaborative points of view. Assignments will include examples of studies from a wide range of levels all within the current and developing skill level of each student enrolled in the class.

**Prerequisite(s):** UG - Eight credits of applied keyboard study or permission of keyboard instructor or course instructor. GR - Permission of course instructor.

**PI 585 Piano Ensemble 1 Credits**

Study and performance of piano duets, two-piano works, and works for combinations of three or more pianists. The emphasis is on ensemble techniques for rehearsal and performance.

## Piano Pedagogy Minor

The Piano Pedagogy minor is open to Westminster Choir College undergraduates other than Piano majors. Interested students must be accepted by the piano faculty and should then declare the minor by completing a form available in the Assistant Registrar's Office.

### Acceptance to Minor

- For piano primary – by recommendation of the applied piano teacher
- For non-piano primary – by recommendation of the applied teacher, advisor, audition, and interview with the Piano Faculty

### Degree Offered

- Minor in Piano Pedagogy

**PI 585 Piano Ensemble 1 Credits**

Study and performance of piano duets, two-piano works, and works for combinations of three or more pianists. The emphasis is on ensemble techniques for rehearsal and performance.

## Bachelor of Music: Sacred Music

### Program Overview

Students who choose to major in sacred music at Westminster have access to education of the highest quality and broadest scope. The major brings together students from all faiths and interests and seeks to explore the excellence of various traditions of sacred music. Faculty

members have wide experience and expertise in such traditions as Anglican, Lutheran, Methodist, Presbyterian, Reformed, Roman Catholic, the Synagogue and Temple tradition, and others.

Underlying all the offerings of the department is the understanding that sacred music is neither an optional extra nor merely a spiritual entertainment within the service of the church. It is rather an essential part of the liturgy and worship and therefore must have integrity and quality appropriate for its twin functions of carrying the word of God to us, and our words of praise to God.

Undergirding the sacred music program are the offerings of the other Westminster academic and performance departments, the specialized collections containing sacred music materials in Talbot Library, and the vast network of affiliate churches in the greater New York-Philadelphia metropolitan area in which Westminster students gain personal experience in a wide range of sacred music practice.

### Curriculum Overview

The curriculum aims, on the one hand, to explore how familiar tradition can be blended with unfamiliar contemporary creativity in choral, congregational, and instrumental music for worship; and, on the other hand, to provide a balanced study of theoretical matters and practical concerns. Technique, repertoire, and performance practice are therefore considered with theology, biblical and post-biblical religious history, and the development and practice of liturgy and worship.

Sacred Music Lab provides an opportunity for students to experience a wide variety of denominational traditions and worship styles. In this context students are immersed in extensive congregational, choral, vocal, organ and instrumental works, which comprise the basic corpus of sacred repertoire. New trends in theology, hymnody and composition are also explored through practical and creative liturgies.

### Degree Offered

### Additional Opportunities

A reciprocal arrangement with Princeton Theological Seminary allows Westminster graduate students to take certain courses offered by the Seminary. Enrollment in such courses is arranged after consultation with Sacred Music faculty. Speer Library at the Seminary, housing one of the

nation's most important theological collections, is another invaluable resource for Westminster students.

## Faculty

**Vinroy Brown** • Adjunct Instructor, Sacred Music, 2017. B.M., Westminster Choir College of Rider University; M.A., Regent University.

**Steve Pilkington** • Associate Professor, Sacred Music, and Director of Chapel, 1992. B.A., St. Olaf College; M.M., University of Illinois; Ph.D., Drew University.

**Kathleen Ebling Shaw** • Adjunct Instructor, Sacred Music, 1991. B.M., Westminster Choir College of Rider University.

**Tom T. Shelton, Jr.** • Associate Professor, Sacred Music, 2012. B.M., M.M., University of North Carolina at Greensboro.

## Notes

- <sup>1</sup> Non-voice primary students may substitute two credits of free electives for VC 116.
- <sup>2</sup> Attendance is required of all undergraduate Sacred Music majors at weekly Lab meetings during every semester of enrollment, up to a total of 8 semesters for SM 511 Sacred Music Lab.
- <sup>3</sup> Completion of French, German, Italian, Latin, or Spanish II is required. If students are exempted from one or more semesters of foreign language study, they must replace the missing credits with other Arts & Sciences electives.

## Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

## Courses and Descriptions

### SM 121 Survey of Sacred Music Lit 3 Credits

Broad survey of Christian music. Through standard repertoire, major historical genres of sacred music are explored from biblical roots in the Old and New Testament to the postmodern expressions of our time.

### SM 122 Worship and Theology 3 Credits

A study of the content, theology, and history of the Old and New Testament narratives that the church recounts and celebrates in its liturgical year.

### SM 142 Intro to Music Ministry 2 Credits

An introduction to the vocational needs, professional relationships, administration styles and teaching roles of the church musician. In addition to an overview of professional standards, emphasis will also be placed on music engraving skills, budgeting, recruitment, endowments and fundraising.

### SM 158 Intro Handbell Leadership 1 Credits

A hands-on course providing a strong foundation for the beginning director/ringer. It will include information about ringing instruments, maintenance, ringing and damping techniques, articulations, part assignments, a survey of handbell literature, and rehearsal planning and directing.

### SM 250 Contemporary Worship 2 Credits

This course is an exploration of the various forms of worship being practiced in urban churches across America. Practical and skill-based, it is designed to allow the student to explore praise and worship music, different styles of gospel, and other forms of music used in non-traditional worship.

### SM 340 Church Field Education 1 Credits

A practical program in which students take responsibility for the music program of an assigned affiliate church. Under supervision, students exercise the skills and concepts learned in the classroom. Enrolled students also meet in a weekly preceptorial. Sacred Music majors must take two consecutive semesters, normally in the junior year.

**Prerequisite(s):** SM 121, SM 122.

### SM 354 Hymnody & Psalmody 3 Credits

A study of the origins and development of Christian song. The first part of the course deals with the nature of the Psalms in their Biblical setting and their use in the worship of different traditions. The second part of the course deals with the history of congregational hymnody - texts, tunes, styles and functions - from the 16th century to the present. The course aims to develop an awareness of the textual and musical treasures available for both congregational and choral use.

### SM 360 History of American CM 3 Credits

A broad survey of American church music beginning with colonial psalm-singing and continuing through four centuries of musical development leading up to and including the vast panorama musical practices found in post-modern Christianity. A special emphasis will be placed on the development and influence of African-American church music on contemporary musical practices. **Prerequisite(s):** SM 121.

### SM 365 Sacred Sounds 2 Credits

A study of the origins and development of Christian song. The first section of the course deals with the nature of the psalms and their use in the worship of different traditions. The second section of the course will be a survey of congregational hymnody – texts, tunes, styles and functions – from the 16th century to the present. The course aims to develop a context for the discussion congregational song as it might be practiced in the 21st century, the final part of the class.

### SM 410 African Amer Choral Lit 3 Credits

This course is designed to give students a better understanding of the choral literature, historical context and text analysis of African American composers.

### SM 454 German Church Music 3 Credits

A study of church choral literature by German composers from the 16th century to the present focusing on the pre-Bach and post-Bach cantata. Class performances of selected works. Complements SM 455. Offered in rotation with other Sacred Music electives.

### SM 455 Bach Cantatas 3 Credits

A study of the history, performance practices, and liturgical setting of the cantatas of J.S. Bach. Class performances of selected cantatas. Complements SM 454. Offered in rotation with other Sacred Music electives.

### SM 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 is required.

**Prerequisite(s):** junior or senior standing.

### SM 491 SM Internship 1 Credits

A practical program in which students take responsibility for the music program of a local church or work as an intern in an assigned affiliate church. Under faculty supervision, students exercise the skills and concepts learned in the classroom. Enrolled students also meet in a weekly preceptorial. Sacred music majors must take two consecutive semesters, normally in the junior year.

**Prerequisite(s):** CR 215.

### SM 509 Jubilee Singers 1 Credits

This auditioned ensemble is devoted to the performance of sacred music from the African-American tradition.

**SM 510 Conducting Adult Church Choirs: Pedagogy and Management 2 Credits**

A practical, skill-based course devoted to the building and maintenance of church music programs serving adults.

**SM 511 Sacred Music Lab 0 Credits**

Series of classes that addresses a variety of experiences in Sacred Music while rotating principal themes and ideas. Student preparation of monthly worship settings will put studied concepts into practice.

**SM 512 Conducting Children and Youth Church Choirs: Pedagogy and Management 2 Credits**

A practical, skill-based course devoted to the building and maintenance of church music programs serving children and youth.

**SM 517 Concert Handbell Choir II 1 Credits**

Open to students who have had previous handbell experience. Intermediate to advanced repertoire, with opportunities for concert performance.

**SM 519 Concert Handbell Choir I 1 Credits**

A choir selected by audition from the most experienced and capable bell ringers among the student body at large. This ensemble utilizes advanced repertoire and techniques, aiming primarily at presenting concerts both on and off campus, including a two-week annual tour.

**SM 525 Conductors' Repertoire Ensemble 1 Credits**

An auditioned chamber ensemble, offered every semester, which provides conducting podium time and coaching to all interested members. It additionally serves the conducting needs of graduate Sacred Music majors.

**Prerequisite(s):** CR 215 or permission of instructor.

**SM 531 Colloquium in Sacred Music 2 Credits**

A lecture series/colloquium intended to address a wide variety of concerns in the field of Sacred Music while rotating principal themes and ideas.

**SM 540 Choir Training/Young Singers 3 Credits**

A practicum combined with study designed to teach students how to organize and direct a children's choir program that emphasizes musical training as a basic requirement. The course focuses on teaching children good vocal techniques and sight-reading skills and includes practice teaching in a local school under instructor supervision. Other areas covered include musical readiness skills, voice-change problems, and repertoire.

**SM 541 Conducting Church Choirs: Ped & Mgt 3 Credits**

A practical course devoted to the building and maintenance of church music programs serving persons of all ages.

**SM 610 Foundations of Music Ministry 2 Credits**

This graduate level course surveys the vocational needs, professional relationships, administrative styles, and teaching roles of the practicing church musician. In addition to an overview of professional standards, emphasis will also be placed on music engraving skills (music notation software), budgeting, recruitment, endowments and fundraising.

**SM 621 Oratorio Solo Literature 3 Credits**

A performance course surveying solo and ensemble portions of oratorios, masses, passions and cantatas from the early Baroque period to the present, with emphasis on appropriate performance techniques for stylistic integrity. Offered in rotation with other Sacred Music electives. 3 Credit hours.

**SM 624 Choral Music for Children 1 Credits**

This course is designed to acquaint the church choral director with repertoire suitable for use with children's and youth choirs. Representative repertoire from all periods of music will be discussed and analyzed. Focus will be on repertoire that can be used during special services throughout the liturgical church year.

**SM 625 Choral Music for Adults 1 Credits**

This course is designed to acquaint the church choral director with repertoire suitable for use with adult choirs and adult ensembles. Representative repertoire from all periods of music will be discussed and analyzed. Focus will be on repertoire that can be used during special services throughout the liturgical church year.

**SM 630 Conducting Coaching 1-2 Credits**

Structured preparation and faculty coaching of the culminating choral recital in the graduate Sacred Music curriculum.

**SM 631 Worship Planning/21st Cent. 3 Credits**

Designed to facilitate the planning of worship, this practical course will be an immersion in the musical and theological materials available to those who create worship.

**SM 632 Collaborative Prep for Worship 1 Credits**

Through seminars, readings and common participation in chapel services, Westminster Choir College and Princeton Theological Seminary students will explore models for pastors and church musicians to prepare collaboratively for worship.

**SM 635 Choir Training For Children/Youth 3 Credits**

A practical course designed to teach students how to organize and direct a comprehensive music program from preschool through high school in the church setting. The course focuses on teaching excellent vocal techniques for each level as well as appropriate music skill development. Other areas of focus include: musical readiness skills; working with preschool singers; understanding the child's voice; the changing voice; and appropriate repertoire for all ages.

**SM 640 Liturgies 3 Credits**

A study of the origins of liturgy, its development in the main Christian traditions, and its relation to ecclesiastical history, with particular attention given to the differing styles and traditions of liturgical music. Contemporary liturgies are viewed against this historical background.

**SM 641 Hymnology 3 Credits**

A study of the origins and development of Christian hymnody, with reference to the theological emphases of various periods from the beginnings to the present, aiming to arouse interest in the textual and musical content of hymns and in their effective use in worship.

**SM 654 German Church Music 3 Credits**

A study of church choral literature by German composers from the 16th century to the present focusing on the pre-Bach and post-Bach cantata. Class performances of selected works. Complements SM 655. Offered in rotation with other Sacred Music electives.

**SM 655 Bach Cantatas 3 Credits**

A study of the history, performance practices, and liturgical setting of the cantatas of J.S. Bach. Class performances of selected cantatas.

**SM 690 Independent Study and Research 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**SM 710 Panorama of Sacred Music 3 Credits**

This graduate-level course is a one-semester survey of those masterworks and significant musical movements that have shaped the evolution of Western Sacred Music. Beginning with the Old Testament, this course will move through all eras, highlighting important composers and liturgical trends, placing them in their appropriate cultural and theological contexts.

**SM 712 Hist of Sacred Music I 3 Credits**

Study and research into the history of Western Christian music and its most important genres beginning with the Old Testament and continuing until the death of J.S. Bach in 1750.

**SM 713 Hist of Sacred Music II 3 Credits**

Continuation of SM 712, beginning with the Classical Viennese Mass and continuing until today. Emphasis on the development of the American church and its worship music.

**SM 722 Theology, Liturgy & Worship 3 Credits**

A detailed study of the Bible. Principal thematic and narrative elements are correlated to the development of the church's historic liturgies and the theological principles behind them.

## Bachelor of Music: Theory/Composition

### Overview

The program in composition, music history and theory aims to develop the aural skills needed by all musicians to provide the necessary theoretical knowledge for the continuing study and performance of music, to develop analytical and esthetic understanding of music forms and styles, and to foster the creative impulse in music.

Students also have access to Westminster's music computing center, where they can compose, orchestrate, and print their compositions in publishable quality using computers interfaced with sampler/synthesizers as well as sequencing and music printing software.

### Curriculum Overview

The curriculum for the undergraduate Theory/Composition major is designed to foster individual creative ability and to develop a broad and informed musicianship along with a knowledge of the literature of all periods. The department welcomes diversity of compositional styles and esthetic viewpoints and encourages exploration on the part of its students. Theory/Composition majors take Composition Class, six semesters of Applied Composition, and complete a senior project which may be a large-scale composition or a theory research paper. The program culminates with a recital of original music written while a student is enrolled at Westminster.

Required musicianship and historiography courses, contemporary trends, music since 1900, and elective theory and music history courses form the core of undergraduate study. The elective courses provide students with opportunities to apply their skills to specific areas of inquiry after satisfying specific prerequisites. All Bachelor of Music candidates must elect one music history elective, a level I theory elective and a level II

theory elective. Theory/Composition majors take four additional music theory and history electives.

### Degree Offered

- B.M. in Theory and Composition

### Contact

## Notes

<sup>1</sup> Eight terms of one-credit, half-hour lessons (suffix B) are covered under full-time tuition. Students wishing to take a full-hour lesson register for suffix G, and are billed for one half-hour.

- <sup>2</sup> VC 115 and VC 116 are required for voice primary students only. Organ and piano primary students may substitute four additional credits of free electives for these two courses.
- <sup>3</sup> If students are exempted from one or more semesters of foreign language study, they must replace the missing credits with other Arts & Sciences electives.
- <sup>4</sup> Students must present a public recital in the senior year that includes both compositions written by the student and performance on the applied primary instrument. Recitals must be approved in advance by both the Music Composition, History & Theory Department and the applied primary department.
- <sup>5</sup> Attendance requirements at monthly departmental forums must be met.

## Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

**Courses and Descriptions**

**MH 247 Music Historiography I 3 Credits**

Historiography I begins by exploring similarities and differences between various music cultures around the world, and continues with an examination of selected genres of Western Art Music of the Medieval, Renaissance and Baroque periods. Basic information literacy skills, such as searching library catalogs, databases and reading academic articles also will be covered.

**Prerequisite(s):** LL 131.

**MH 248 Music Historiography II 3 Credits**

Examines Western Art Music since 1750 and includes a research assignment that builds upon the information literacy skills gained in MH 247.

**Prerequisite(s):** MH 247.

**MH 345 Music Since 1900 3 Credits**

Examines controversies and aesthetic movements in 20th and 21st century music. Emphasis is placed upon critical reading and writing skills.

**Prerequisite(s):** MH 248.

**MH 433 Seminar in Music History 3 Credits**

The contents of courses carrying this number will vary with the special interests and qualifications of the instructors teaching them. Possible topics include period courses, courses from a distinct perspective, composer courses and genre courses.

**Prerequisite(s):** MH 248.

**MH 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**MH 608 Graduate Music History Review 3 Credits**

Required for graduate students who are admitted with deficiencies in music history, as determined by the graduate placement test in music history. It is strongly recommended that this course be taken at the outset of graduate study.

**MH 635 Public Musicology 3 Credits**

A graduate-level introduction to the many ways musicology can engage with communities and events outside the academy. Topics include music criticism, oral history, museum education, archives, and cultural tourism.

**Prerequisite(s):** Graduate Standing; removal of all Music History deficiencies.

**MH 690 Independent Research & Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**MH 731 Intro to Musicology 3 Credits**

Introduction to the basic tools of research in historical musicology in order to foster: (1) an awareness of the nature and scope of historical musicology as a scholarly discipline; (2) familiarity with the techniques of musicological research; (3) an understanding of the relationship between musicological research and performance practice; and (4) experience in the application of musicological techniques to specific musical works and issues. It is strongly recommended that this course be taken at the outset of graduate study. Required for all Master of Music candidates.

**MH 733 Seminar in Music History 3 Credits**

The content of the course will vary with the special interests and qualifications of the professor teaching it.

**Prerequisite(s):** Removal of all music history deficiencies, it is strongly recommended that MH 731 be taken prior to this course.

**MH 734 Proseminar in Music USA 3 Credits**

A graduate-level introduction to the scholarly study of music in the U.S. Readings will cover music in Colonial/Early America, Western art music, popular music, and music of various ethnic communities.

**Prerequisite(s):** Graduate standing; removal of all Music History deficiencies.

**MH 750 Thesis I 3 Credits**

Independent research under faculty supervision leading to a master's thesis. Students register for this course in their first term of thesis research.

**Prerequisite(s):** Graduate standing, removal of all Music History deficiencies.

**MH 751 Thesis II 3 Credits**

Independent research under faculty supervision leading to a master's thesis. Students register for this course beginning in their second term of thesis research.

**Prerequisite(s):** Graduate Standing, removal of all Music History deficiencies, MH 750.

**TH 045 Introduction to Musicianship 4 Credits**

Integration of the basic elements of music, scales, intervals, key signatures, triads and rhythmic notation with the practical skills of sight singing, rhythmic reading, keyboard harmony and dictation. Both the theoretical and the practical portion must be passed individually in order to receive a passing grade; 0 credits toward graduation, counts as 4 credits in the semester load.

**TH 101A Composition Primary 2 Credits****TH 101C Composition Elective 2 Credits****TH 101D Composition Elective 1 Credits****TH 101E Composition Primary 2 Credits****TH 101F Composition Primary 1 Credits****TH 141 Musicianship I 4 Credits**

This course assists students in learning and integrating aural, performance, analytical and composition skills involving diatonic melody and harmony. Both the theoretical and the practical portion must be passed individually in order to receive a passing grade.

**Prerequisite(s):** TH 045 or passing a placement test.

**TH 142 Musicianship II 4 Credits**

A continuation of TH 141 involving chromatic melody and harmony with an introduction to binary and ternary form.

**Prerequisite(s):** minimum "C-" grade in TH 141.

**TH 201A Composition Primary 2 Credits****TH 201E Composition Primary 2 Credits****TH 201F Composition Primary 1 Credits****TH 237 Composition Class 3 Credits**

Class instruction in original composition. May be taken as a level I elective.

**Prerequisite(s):** For non Theory/Composition majors only, minimum "C-" grade in TH 142.

**TH 241 Musicianship III 4 Credits**

A continuation of TH 142 with an introduction to larger musical forms and counterpoint.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 251 Analytical Studies I 3 Credits**

An in-depth analytical study of a select body of tonal music to be determined by the instructor. The music, which will contain only the harmonic vocabulary and formal structures studied in TH 141 and TH 142, may vary each time the course is offered. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 253 Orchestration 3 Credits**

A study of the orchestra and its individual instruments from the standpoints of the composer, arranger and conductor. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 255 Song Writing 3 Credits**

Solo vocal composition in various styles. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 259 Electroacoustic Music 3 Credits**

An introduction to the history and literature of electro-acoustic music emphasizing hands-on creative opportunities in sequencing and digital sound processing. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 301A Composition Primary 2 Credits****TH 301E Composition Primary 2 Credits****TH 301F Composition Primary 1 Credits****TH 342 Contemporary Trends 3 Credits**

An analytical study of the compositional techniques of the 20th and 21st centuries.

**Prerequisite(s):** TH 241.

**TH 401A Composition Primary 2 Credits****TH 401E Composition Primary 2 Credits****TH 401F Composition Primary 1 Credits****TH 424 Choral/Instru Arranging 3 Credits**

Arranging for various ensembles of voices and instruments. May be taken as a level II theory elective.

**Prerequisite(s):** TH 241.

**TH 431 Form and Analysis 3 Credits**

Study of the compositional process as observed in selected examples of music literature, predominantly from the tonal repertoire. May be taken as a level II theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 241.

**TH 432 Contrapuntal Techniques 3 Credits**

18th century counterpoint with an emphasis on analysis and writing of original compositions. May be taken as a level II theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 241.

**TH 433 Special Topics in Theory 3 Credits**

The content of the course carrying this number will vary with the special interests and qualifications of the professor teaching it. May be taken as a level II theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 241.

**TH 452 Analytical Studies II 3 Credits**

An in-depth analytical study of a select body of tonal music to be determined by the instructor. The music, which will contain a more advanced harmonic vocabulary and larger formal structures than the music studied in TH 251, may vary each time the course is offered. May be taken as a level II theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 241.

**TH 480 Senior Project 3 Credits**

Independent study in theory or composition resulting in either a paper comparable to a substantial journal article or a composition in one of the larger forms.

**Prerequisite(s):** Five semesters of private composition study.

**TH 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**TH 511 New Music Ensemble 1 Credits**

This course provides an opportunity to perform new music, primarily works of fellow students. It will also provide instrumentalists an opportunity to develop their performance skills more fully.

**TH 550 Keyboard Harmony 3 Credits**

An intense exploration of and drill in musicianship-keyboard skills, including score reading, transposition, modulation, clef reading, figured bass realization, harmonizing melodies, improvising and lead sheet accompanying. Projects may include transposition of a number of songs (perhaps a complete set) into all keys, figured bass realization for a Bach cantata, improvisation of service music (prelude, offertory, interludes, chorale preludes, postlude), multiple re-harmonizations of hymns/chorales for a service and score reduction and performance of a movement of an orchestral work. May be taken as an undergraduate level II theory elective.

**Prerequisite(s):** Undergraduate, minimum "C-" grade in TH 241; Graduate, Removal of all theory deficiencies.

**TH 608 Graduate Musicianship Review 4 Credits**

Required for graduate students admitted with deficiencies in musicianship as determined by the graduate placement test in musicianship. This course assists students in learning and integrating aural, performance, analytical and composition skills. Both the theoretical and the practical portion must be passed individually in order to receive a passing grade. It is strongly recommended that this course be taken at the outset of graduate study.

**TH 622 Electroacoustic Music 3 Credits**

Advanced opportunities for creative activities utilizing the resources of Westminster's Music Computing Center. Previous experience with sequencers and/or digital audio is expected.

**Prerequisite(s):** Removal of all music theory deficiencies.

**TH 623 Seminar in Music Theory 3 Credits**

The content of the course bearing this number will vary with the special interests and qualifications of the professor teaching it.

**Prerequisite(s):** Undergraduate, minimum "C-" grade in TH 241 and permission of instructor, or graduate student standing and removal of all music theory deficiencies.

**TH 625 Composition 3 Credits**

Class instruction in original composition. Projects and presentations.

**Prerequisite(s):** Graduate student standing and removal of all music theory deficiencies.

**TH 645A Composition Primary 3 Credits****TH 645C Composition Elective 2 Credits****TH 645D Composition Elective 1 Credits****TH 645E Composition Primary 3 Credits****TH 645F Composition Primary 1 Credits****TH 655 Composition Project 3 Credits**

Graduate-level private study in composition culminating in a major composition in one of the larger forms.

**Prerequisite(s):** three semesters of TH 645.

**TH 690 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**TH 726 Analysis 3 Credits**

A study of the compositional process as observed in selected tonal works, using the analytical approach of Heinrich Schenker.

**Prerequisite(s):** Removal of all music theory deficiencies.

## Bachelor of Music: Voice Performance

### Program Overview

The voice performance program seeks to develop the musician by establishing a sound vocal technique and a thorough understanding of the singing voice, its literature and pedagogy. These tools are essential for the study and performance of vocal and choral literature and for training students as solo performers, professional teachers or choral conductors.

Students will build and demonstrate a healthy vocal technique, become acquainted with voice literature, and develop an understanding of the complex relationships between music and poetry. They will also learn how to sing with correct diction in English, Italian, French and German, as well as to understand both the general meaning and specific nuances of their sung texts.

As they progress in the program, students will integrate musicianship skills and use their increasing understanding of musical structure and form to communicate musically, with stylistic and textual understanding. Students will also build vocal and performance skills that equip them for the demands of solo and ensemble singing.

### Curriculum Overview

Every undergraduate must satisfy departmental requirements for graduation. Juries and other tests are conducted periodically for the purpose of evaluating progress; details may be obtained from the Voice Department.

Instruction for voice performance majors entails private lessons, recitals, diction, voice literature, performance/opera classes and voice pedagogy. Weekly studio and performance classes offer regular performing opportunities. Two fully-staged operas, one with orchestra, are presented each year, along with an additional undergraduate-only opera offering. Private vocal coaching is available for upperclassmen and graduate students.

The curriculum has been revised for the class entering in the fall of 2015. Current students may continue to follow their original curriculum, or adopt the new curriculum.

### Degree Offered

- B.M. in Voice Performance

### Faculty

**Margaret Cusack** (chair) • Professor, Voice, and Chair of Voice and Piano Faculties, 1994. B.M., M.M.T., Oberlin College.

**Christopher Arneson** • Professor, Voice, 2003. B.A., M.M., Binghamton University; D.M.A., Rutgers University.

**Susan S. Ashbaker** • Associate Professor, Voice, 2006. B.M., M.M., Southern Illinois University; M.M., University of Illinois.

**Lauren Athey-Janka** • Adjunct Assistant Professor, Voice. B.M. Boston University, M.M., Westminster Choir College of Rider University.

**Dalton Baldwin** • Adjunct Professor Emeritus, Piano, 1984. B.A., Oberlin Conservatory.

**Victoria Browers** • Adjunct Assistant Professor, Voice, 2017. B.M., Ohio Wesleyan University, M.M. Westminster Choir College of Rider University; D.M.A. State University of New York at Stony Brook.

**Jay Carter** • Assistant Professor, Voice, 2019. B.M., William Jewell College; M.M., Yale University; D.M.A., University of Missouri-Kansas City

**Elem Eley** • Professor, Voice, 1987. B.M., Baylor University; M.M., Southwestern Baptist Theological Seminary.

**Rochelle Ellis** • Adjunct Assistant Professor, Voice, 1995. B.M.E., University of Missouri, Kansas City; M.M.E., Westminster Choir College of Rider University.

**Faith Esham** • Adjunct Assistant Professor, Voice, 2000. B.A., Columbia Union College; B.M., M.M., The Juilliard School.

**Nancy Froyland Hoerl** • Adjunct Assistant Professor, Voice, 1995. B.A., Moorhead State University; M.M., Westminster Choir College of Rider University.

**Katherine Johnson** • Adjunct Assistant Professor, Voice, 2006. B.M., University of Calgary; M.M., Manhattan School of Music.

**Rachelle Jonck** • Adjunct Associate Professor, Voice, 2007. B.M., University of Stellenbosch (South Africa)

**Robin Massie** • Adjunct Assistant Professor, Voice, 2008. B.M., Westminster Choir College of Rider University; M.M., Yale University.

**Sean McCarther** • Associate Professor, Voice, 2012. B.M., Baylor University; M.M., D.M., Indiana University.

**Mark Moliterno** • Adjunct Associate Professor, Voice, 2005. B.M., M.M., Oberlin College Conservatory of Music.

**Kathy Kessler Price** • Associate Professor, Voice, 2012. B.A., University of Richmond; M.M., University of Maryland; Ph.D., University of Kansas, Lawrence.

**Debra Scurto-Davis** • Adjunct Assistant Professor, Voice, 2004. B.M.E., Evangel College; M.M., Baylor University; S.M., University of Michigan.

**Elizabeth Sutton** • Adjunct Assistant Professor, Voice, 2005. B.A., Bowling Green State University; M.M., College-Conservatory of Music, University of Cincinnati.

**Sharon Sweet** • Professor, Voice, 1999. B.S., Roberts Wesleyan College; M.M., Ithaca College.

**Nova Thomas** • Associate Professor, Voice, 2004. B.M., University of North Carolina, Chapel Hill; M.M., Indiana University.

**Charles J. Walker** • Adjunct Instructor, Voice, 1995. B.M., University of Delaware.

**Sally Wolf** • Adjunct Assistant Professor, Voice, 2001. B.M., Kent State University; Artist Diploma, Curtis Institute of Music.

**Amy Zorn** • Adjunct Assistant Professor, Voice, 1996. B.M., University of Wisconsin, Madison; M.M., Boston University.

## Notes

- <sup>1</sup> Students must complete six semesters of foreign language study. Students must complete Italian I and II. They must complete additional semesters of either French or German. Semesters five and six may be of a third language (French or German) or additional semesters of Italian, French or German. If students are exempted from one or more semesters of foreign language study, they must replace the missing course credits with other Arts and Sciences electives.
- <sup>2</sup> Attendance at weekly studio classes is required during all semesters of applied study.
- <sup>3</sup> A half recital must be presented in the junior year. A full recital must be presented in the senior year.

## Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

## Courses and Descriptions

### VC 001S Applied Voice Studio 0 Credits

### VC 101A Voice Primary 2 Credits

### VC 101B Voice Primary 1 Credits

### VC 101C Voice Elective 2 Credits

### VC 101D Voice Elective 1 Credits

### VC 101E Voice Primary 2 Credits

### VC 101F Voice Primary 1 Credits

### VC 101G Voice Primary 2 Credits

### VC 103 Voice Secondary 1 Credits

### VC 114 Introduction to Lyric Diction 2 Credits

Introduction to the International Phonetic Alphabet (IPA) and the sounds of all major sung languages through oral and written drill. Open to Voice Performance majors only.

### VC 115 English & Italian Diction 2 Credits

Introduction to the rules of singing English and Italian through the use of the International Phonetic Alphabet (IPA) with oral and written drill.

### VC 116 French & German Diction 2 Credits

Introduction to the rules of singing French and German through the use of the International Phonetic Alphabet (IPA) with oral and written drill.

**Prerequisite(s):** VC 115.

### VC 118 Italian Diction 2 Credits

Introduction to the rules for singing Italian through the use of the International Phonetic Alphabet (IPA), with oral and written drill. Open to Voice Performance majors only.

**Prerequisite(s):** VC 114.

### VC 119 French Diction 2 Credits

Introduction to the rules for singing French through the use of the International Phonetic Alphabet (IPA), with oral and written drill. Open to Voice Performance majors only.

**Prerequisite(s):** VC 114.

### VC 120 German Diction 2 Credits

Introduction to the rules for singing German through the use of the International Phonetic Alphabet (IPA), with oral and written drill. Open to Voice Performance majors only.

**Prerequisite(s):** VC 114.

### VC 191 Movement for the Performer 2 Credits

Movement exercises and etudes help students develop proper alignment, physical freedom, unification of voice, breath, and body, and help them explore the body as an expressive instrument.

### VC 201A Voice Primary 2 Credits

### VC 201B Voice Primary 1 Credits

### VC 201C Voice Primary 2 Credits

### VC 201E Voice Primary 2 Credits

### VC 201F Voice Primary 1 Credits

### VC 201G Voice Primary 2 Credits

### VC 203 Voice Secondary 1 Credits

### VC 291 The Singing Actor 2 Credits

The introduction to vocal performance entails coaching of selected songs, arias or repertoire from music theater and techniques for performance preparation through intensive research. A final written project involves a musical and dramatic analysis of all chosen repertoire.

**Prerequisite(s):** successful completion of Level I voice jury.

### VC 301A Voice Primary 2 Credits

### VC 301B Voice Primary 1 Credits

### VC 301C Voice Primary 2 Credits

### VC 301E Voice Primary 2 Credits

### VC 301F Voice Primary 1 Credits

### VC 301G Voice Primary 2 Credits

### VC 305 Singing in Italian and French 2 Credits

Master class and private coaching in vocal performance of Italian and French language song, recitative and opera arias. The class will focus on pronunciation, inflection and nuances of sung Italian and French.

**Prerequisite(s):** Successful completion of Level I jury; VC 118, VC 119.

### VC 306 Singing in German and English 2 Credits

Master class and private coaching in vocal performance of German and English language song, recitative and opera arias. The class will focus on pronunciation, inflection and nuances of sung German and English.

**Prerequisite(s):** Successful completion of Level I Jury; VC 120.

### VC 401A Voice Primary 2 Credits

### VC 401B Voice Primary 1 Credits

### VC 401E Voice Primary 2 Credits

### VC 401F Voice Primary 1 Credits

### VC 401G Voice Primary 2 Credits

### VC 408 Voice Science 3 Credits

Study of the physics and physiology of voice production. Musical and vocal acoustics are explored using the facilities of the Westminster Voice Laboratory. Anatomic and physiologic underpinnings of respiration, phonation, articulation, registration and hearing are explored in depth.

### VC 433 Song Literature I 2 Credits

A survey of solo literature for voice and accompanying instrument including solo vocal music of the Baroque period and German lieder.

**Prerequisite(s):** MH 248.

### VC 434 Song Literature II 2 Credits

A survey of solo literature for voice and accompanying instrument including French mélodie, songs by nationalist composers, English and American song.

**Prerequisite(s):** MH 248.

**VC 457 Private Coaching 2 Credits**

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 457 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 458 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**Prerequisite(s):** successful completion of Level II.

**VC 458 Private Coaching 1 Credits**

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 457 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 458 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**Prerequisite(s):** successful completion of Level II.

**VC 467 Private Dramatic/Role Coaching 2 Credits**

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 467 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 468 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**Prerequisite(s):** successful completion of Level II.

**VC 468 Private Dramatic/Role Coaching 1 Credits**

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 467 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 468 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**Prerequisite(s):** successful completion of Level II.

**VC 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed.

Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

## GRADUATE PROGRAMS

Program	Degree
American and Public Musicology (p. 1095)	✓
Choral Conducting (p. 1096)	✓
Composition (p. 1101)	✓
Music Education - M.M. (p. 1105)	✓

Voice Pedagogy - Classical Track (p. 1130)	✓
Voice Pedagogy - Music Theatre Track (p. 1133)	✓

### General Policies

#### General Policies and Program Requirements for the Master of Music (M.M.), Master of Music Education (M.M.E.) and Master of Voice Pedagogy (M.V.P.)

**General Policies (p. 1093) and Requirements (p. 1093)**

**Graduation with Distinction (p. 1094)**

**Graduate Assistantships (p. 1094)**

**Graduate Oral Exams (p. 1094)**

### General Policies and Requirements

- An applicant for admission as a graduate student must, by the time of initial enrollment, provide documentation of having earned a baccalaureate degree, normally, but not necessarily, with a major in music.
- International students also should review "Admission as an International Student" in the Admissions section of this catalog for additional information and requirements.
- All entering students in the M.M. degree take placement tests in order to determine the level of their skills in a variety of areas. Please refer to "Placement Exams" in the Admissions section of this catalog. Also, please consult the Graduate Hearings and Placement Testing page on the University website.
- Graduate students must earn minimum grades of "Y" or "B-" in all courses mandated to remove deficiencies in musical preparation, as determined by placement examinations at the time of initial enrollment. If a grade of "Z" or "C+" or lower is earned, the course must be repeated.
- All degree requirements must be completed within seven years of initial enrollment. Students who have not completed a degree within this time may be required to repeat courses and/or to meet further requirements. If more than one year has elapsed since the date of last enrollment, students may be required to re-apply and re-audition for the program, and must meet all requirements in place at the time of their readmission.
- A minimum cumulative or semester grade point average of 3.00 must be maintained at all times. Students who fall below this level may become ineligible to receive graduate awards and are placed on conditional academic standing. Students in this situation place themselves at risk of academic dismissal. Grades earned in courses offered through Continuing Education are recorded but are not factored into the grade point average. A 3.0 cumulative grade point average is required for graduation, and students must be removed from Conditional Academic Standing to be eligible for graduation.
- Only courses carrying graduate credit may be counted toward master's degree requirements.
- Choral Conducting, and Organ Performance majors must demonstrate, by means of examination or of transcript grades, a reading knowledge of either French or German equivalent to two years of study at the college level. Piano Accompanying and Coaching majors must present one year each of college-level study in French and German. Voice Pedagogy and Performance majors must present one year each of college-level study in two of the following languages: French, German, and Italian. Grades of C- or below are not accepted as a demonstration of these skills. Graduate credit is not awarded for foreign language study. A score of 3 on the AP (Advanced Placement) test or a score of at least 65 on CLEP tests is sufficient for language deficiency removal for graduate students providing that these tests were taken within the previous 5 years.
- Undergraduate foreign language study is sequential, each course being prerequisite to the next. A minimum grade of C is required for advancement to the next level. Grades of C- or below will not be accepted. Placement tests are offered for students who have a background in French, German or Italian. Advanced standing may be approved, but credit is not awarded except by transfer of credits earned in foreign language study at the college level. Most graduate students must demonstrate proficiency in foreign languages or show transcript evidence of completion of college level study as indicated below. Native speakers may be exempted from taking a course in their native language by the Dean or by recommendation from the appropriate language instructor. This exemption does not receive credit, but fulfills graduate language requirements in that language.
- All graduate Voice, Choral Conducting, and Piano Accompanying and Coaching majors must take a proficiency examination in English, Italian, French and German Diction, and the International Phonetic Alphabet. For students who do not pass all or part of the proficiency exam, the Voice Department will recommend courses or other options to prepare to re-take the exam. Students who do not pass the proficiency exam must re-take and pass the examination as a graduation requirement.
- Graduate students majoring in Organ Performance, or Choral Conducting must demonstrate a reading proficiency in either French or German in order to pass out of LL 640 and LL 641 by taking a translation proficiency test for graduate students offered during the week of orientation; or must provide transcript evidence of successful completion (minimum C grades) of two years of college study in one of those languages; or may take either LL 640 or LL 641 to satisfy this requirement.
- Graduate students in Voice Pedagogy and Performance must pass a university administered proficiency examination, both written and

oral in two foreign languages, chosen from French, German or Italian; or must provide transcript evidence of successful completion of one year of college study in two of those languages; or may take LL 141 and LL 142, LL 145 and LL 146, and/or LL 151 and LL 152, to satisfy these requirements. C grades are the minimum acceptable for all foreign language proficiency purposes. Grades of C- or below will not be accepted.

- Graduate students majoring in Piano Accompanying and Coaching must pass a university administered proficiency examination, both written and oral in French and German languages or must provide transcript evidence of successful completion of one year of college study in those languages; or may take LL 141 and LL 142, and LL 151 and LL 152, to satisfy these requirements. C grades are the minimum acceptable for all foreign language proficiency purposes. Grades of C- or below will not be accepted.
- Graduate students pursuing the M.M. or M.M.E. degrees must earn credit for at least two terms of choral ensemble experience.
- All graduate students must pass a final oral examination in each major field. The oral examination may be scheduled only after completion of any and all non-credit-bearing courses being taken to remove deficiencies in musical preparation, and upon approval by the student's academic advisor. This stipulation does not apply to foreign language courses being taken to establish proficiency levels. The oral examination must be completed by the deadline published in the calendar section of this catalog. Please see "Oral Examinations" in the Academic Policies section of this catalog. Further information is available on the website at Graduate Programs - Music Education . (<http://www.rider.edu/wcc/academics/graduate-programs/music-education>)
- A maximum of six graduate credits may be earned by transfer from other institutions with departmental approval. Credit by examination is not awarded at the graduate level except in the case of applied music. In the case of course waivers, the credits involved must be replaced with other elective course credits, unless stated otherwise by the department offering the course.
- Apart from workshops taken to satisfy choral ensemble requirements, students pursuing the M.M. or M.V.P. degree may present toward "Electives" a maximum of six Continuing Education credits. Students pursuing the M.M. or M.V.P. degree may present toward "Electives" a maximum of two credits of choral ensemble participation beyond "Core" requirements. Students pursuing the M.M.E. degree may present toward "Electives" a maximum of twelve summer workshop credits. After the completion of primary applied lesson requirements, students may enroll in elective applied lessons and count those credits towards "Free Electives." Elective applied lessons carry a fee. In some degree programs, "Electives" must be chosen from discrete lists of courses unless otherwise approved by the major field department.
- Students must register for applied study during the term when they plan to give a voice, organ, piano, or composition recital, unless this requirement is specifically waived by the applied department.
- Students in the M.M.E and M.V.P. programs must register for 1 hour of thesis credit in the semester or summer term in which thesis work begins, in the semester or summer term in which work is completed, and in any other semester or summer term in which assistance is provided by the thesis advisor. Students in the M.A.T. program must register for ME 750, in the semester or summer term in which capstone work begins, in the semester or summer term in which work is completed, and in any other semester or summer term in which assistance is provided by the capstone advisor.

- Commencement: Academic year requirements extend through the annual spring Commencement. All students enrolled in required ensembles (Chapel Choir, Schola Cantorum, Symphonic Choir) are required to participate in Commencement unless excused under extraordinary and unavoidable circumstances, such as serious illness. All other students are encouraged to participate in Commencement. In particular, credit for spring semester choir participation is lost if a student does not attend and is not excused from Commencement. Students participating with the members of the graduating classes are required to purchase or rent appropriate academic regalia, available through the college store.
- In addition to the information given here and on the following pages, students are referred to individual department handbooks for additional information and requirements.

## Graduation with Distinction

Graduate students are graduated *with distinction* upon earning a cumulative grade point average of 3.85 in all 500-, 600-, and 700-level courses.

## Graduate Assistantships

A limited number of assistantship positions and graduate scholarships are available to full-time graduate students. Inquiries about these assistantships should be directed to the Office of Admissions located on the Westminster campus of Rider University. Students must maintain a minimum GPA of 3.0 at all times to retain an assistantship.

## Graduate Oral Exams

### General information

1. All students pursuing the M.M., M.M.E., or M.V.P. degree at Westminster Choir College of Rider University must pass a final oral examination.
2. The oral examination normally occurs during the last semester in which a student is enrolled prior to graduation.
3. **All courses required to remediate academic deficiencies in Musicianship and Music History must be completed successfully by the end of the semester prior to the oral examination.**
4. The oral examination must be completed by the deadline published in the Academic Calendar (p. 1137) in this catalog.
5. Students who elect to pursue multiple graduate programs must pass a separate final oral examination in each major area.
6. Students who have not passed all portions of the oral exam must be re-examined within one year from the date of the original or previous exam. Students failing to meet this deadline or who have not passed the oral examination after three attempts are no longer considered degree candidates and become ineligible to graduate.
7. Students must apply to schedule the oral examination by November 1 for a fall examination, by April 1 for a spring examination, or by June 1 for a summer examination.

### Examining Committee

1. The examining committee consists of no fewer than three Westminster **music** faculty members, full-time or adjunct, including two from the student's major area, and one member of the student's choice from outside the major area.
2. Departments may establish their own policies for membership on the major area portion of the examining committee.

## Structure and Content of Examination

1. The structure and content of the examination should support the general philosophy of graduate education, as previously endorsed by the Westminster Academic Policy Committee, which states:

Critical thinking is to be encouraged throughout the curriculum. Students should acquire a musicological sensibility and the ability to engage in a logical discourse about varied aspects of the art. In addition to overall musical competency, true expertise is required in a particular area. At the conclusion of their studies, students should have an understanding of what remains to be learned and the tools to continue their education throughout their lives. They should be fully prepared to embark upon—or continue in—their professional lives as performers, composers, teachers, ministers of music, conductors, doctoral students, and as vigorous advocates for music.

While specific content is left to the discretion of the department, the examination should be designed to demonstrate the student's ability to engage in a logical discourse in the major area and its relationship to various aspects of the art, and should transcend the mere recitation of factual information.

Departments will create written guidelines to assist students in preparing for the examination, which will be distributed to students at the onset of their graduate studies.

2. The Director of Graduate Studies will periodically attend examinations as a fourth, non-voting, member to ensure a degree of interdepartmental consistency in content and the standards to which students are held. The DGS will report his/her findings to the Graduate Committee and the WAPC for future review.

## American and Public Musicology

### Program Overview

Westminster Choir College's master of music program in American and public musicology focuses on preparing students for careers inside and outside of academia. As the first graduate program in North America to require coursework in public musicology, Westminster's program looks beyond traditional music history and research to consider musicology as a practice in civic engagement.

This degree prepares students for doctoral studies in musicology, ethnomusicology and music theory. It also prepares students for careers as entrepreneurial performers, arts administrators or writers, or for positions with arts foundations, historical societies, performing arts centers, education departments or museums.

### Curriculum Overview

Students in the American and public musicology program study with many of the best-known names in music, as well as with education directors at performing arts centers and museums, digital archivists, music journalists, oral historians and musicologists involved in K-12 education. They will develop research skills associated with a typical musicology degree while also exploring American music and the cultural relevance and influence of music.

Students work closely with world-renowned faculty who are accessible and involved in the learning process. They learn and collaborate with the nation's best public musicologists and experts in American music,

and build their resume while performing in Westminster Choir College's acclaimed Symphonic Choir.

### CR 509 Symphonic Choir 1 Credits

A large mixed chorus comprised of students above the lower division, including graduate students from all disciplines. The ensemble regularly performs in the region and focuses on the major choral/orchestral repertoire along with a wide variety of repertoire for large mixed chorus. Placement hearing required.

### MH 635 Public Musicology 3 Credits

A graduate-level introduction to the many ways musicology can engage with communities and events outside the academy. Topics include music criticism, oral history, museum education, archives, and cultural tourism.

**Prerequisite(s):** Graduate Standing; removal of all Music History deficiencies.

### MH 731 Intro to Musicology 3 Credits

Introduction to the basic tools of research in historical musicology in order to foster: (1) an awareness of the nature and scope of historical musicology as a scholarly discipline; (2) familiarity with the techniques of musicological research; (3) an understanding of the relationship between musicological research and performance practice; and (4) experience in the application of musicological techniques to specific musical works and issues. It is strongly recommended that this course be taken at the outset of graduate study. Required for all Master of Music candidates.

### MH 733 Seminar in Music History 3 Credits

The content of the course will vary with the special interests and qualifications of the professor teaching it.

**Prerequisite(s):** Removal of all music history deficiencies, it is strongly recommended that MH 731 be taken prior to this course.

### MH 734 Proseminar in Music USA 3 Credits

A graduate-level introduction to the scholarly study of music in the U.S. Readings will cover music in Colonial/Early America, Western art music, popular music, and music of various ethnic communities.

**Prerequisite(s):** Graduate standing; removal of all Music History deficiencies.

### MH 750 Thesis I 3 Credits

Independent research under faculty supervision leading to a master's thesis. Students register for this course in their first term of thesis research.

**Prerequisite(s):** Graduate standing, removal of all Music History deficiencies.

### MH 751 Thesis II 3 Credits

Independent research under faculty supervision leading to a master's thesis. Students register for this course beginning in their second term of thesis research.

**Prerequisite(s):** Graduate Standing, removal of all Music History deficiencies, MH 750.

## Master of Music: Choral Conducting

### Program Overview

The graduate conducting program trains conductors to be creative, thoughtful, and technically proficient musicians. Students are admitted by audition. Opportunities for choral performance on a professional level are unparalleled.

### Curriculum Overview

Graduate conductors take a core curriculum of research, literature, conducting, pedagogy, and ensemble. One year of choral literature is followed by elective courses in performance practice, seminars in choral

literature, analysis, vocal pedagogy and related topics. The conducting sequence includes two semesters of choral conducting courses followed by two semester of applied study. Students conduct a series of four to five recitals culminating in a major recital project with one of Westminster Choir College's core ensembles.

Ensemble singing is a key element of the curriculum. Students sing in a range of large and small ensembles. Learning repertoire through performance is a key tenet of Westminster Choir College. Please see our department webpage (link) for additional information.

## Courses and Descriptions

### CR 505 Advanced Conducting 3 Credits

A continuation of the conducting studies begun in CR 215 and CR 315, this course aims to be more student-centered, following the process from repertoire planning to the final performance. Intensive score preparation, advanced rehearsal techniques, performance practice and baton technique.

**Prerequisite(s):** CR 315.

### CR 509 Symphonic Choir 1 Credits

A large mixed chorus comprised of students above the lower division, including graduate students from all disciplines. The ensemble regularly performs in the region and focuses on the major choral/orchestral repertoire along with a wide variety of repertoire for large mixed chorus. Placement hearing required.

### SM 509 Jubilee Singers 1 Credits

This auditioned ensemble is devoted to the performance of sacred music from the African-American tradition.

### CR 511 Westminster Choir 1 Credits

A highly select ensemble that performs and records a wide variety of choral repertoire, the Westminster Choir regularly tours nationally and internationally, and aspires to the highest professional standards. Members are selected by audition from all Westminster students above the freshman level. The requirements for selection include good academic standing, strong musicianship, and superior vocal talent. Auditions are held in the fall semester and students participate for the academic year.

### CR 513 Williamson Voices 1 Credits

A chamber choir with a unique mission that combines performance and outreach education. Repertoire is chosen from a broad spectrum of literature, including world music and contemporary choral works. Auditions are held in the fall semester and students participate for the academic year.

### CR 515 Westminster Kantorei 1 Credits

An early music vocal chamber ensemble specializing in music before 1750, with occasional forays into more contemporary repertoire. [Although the ensemble will generally consist of around 16 singers, the exact make-up of the ensemble will vary from semester to semester, depending on the works to be studied and performed.] Repertoire will include works for vocal ensemble and works featuring significant solo work. The entire ensemble will rehearse three hours per week. Keyboardists may audition for the ensemble. Auditions are held in the fall semester and students participate for the academic year.

### CR 517 Master Singers 1 Credits

A mixed ensemble serving as the choir for Graduate Conducting, Sacred Music and Music Education majors. Repertoire consists of a wide variety of choral works drawn from all style periods, works appropriate for use in churches and in schools at the secondary and post-secondary levels. Four semesters are required for all graduate Choral Conducting majors. Two semesters are required for Sacred Music majors, and those Music Education majors who have selected conducting as their performance field. This ensemble is non-auditioned and open to all students.

### SM 519 Concert Handbell Choir I 1 Credits

A choir selected by audition from the most experienced and capable bell ringers among the student body at large. This ensemble utilizes advanced repertoire and techniques, aiming primarily at presenting concerts both on and off campus, including a two-week annual tour.

### CR 524 Vocal Techniques for Choirs 3 Credits

Study of vocal techniques appropriate for use in choral rehearsals and for teaching class voice. Techniques for effecting change in group vocal productions are discussed, including such topics as the identification of group vocal problems and mental and physical preparation of a group for good vocal production. Techniques to be developed include (1) how to communicate information about vocal technique to amateur singers, (2) exercises used to develop choral sound by improving diction, dynamics, legato, staccato, martellato, high and low registers, resonance, vowel modification, etc., (3) how to train singers to use a vocal production specifically appropriate to the repertoire of various style periods and the demands of individual composers, and (4) conducting methods for good choral and vocal training. Recommended both for conducting majors and for students in other major programs, including those for whom the voice is not the primary performance medium.

### CR 607 Conducting Performance 1 Credits

Graduate Conducting, Sacred Music and Music Education students (with a conducting concentration) enroll for Conducting Performance in the semester of their recital or major conducting project.

### CR 621 Choral Conducting I 3 Credits

A study of conducting to develop technique through facial expression, breathing, alignment and gesture. Emphasis is placed on developing and refining a process of score study. This course will assist conductors in evaluating their conducting and preparing them to make conducting decisions based upon score study.

### CR 622 Choral Conducting II 3 Credits

In addition to building on the conducting skills taught in Conducting I, this course will focus upon acquisition of a broad range of rehearsal methods and techniques and gaining a comprehensive knowledge of choral ensemble warm-up philosophies, methods and techniques. Conductors will continue to study various approaches to score analysis that aid in preparation for rehearsal. Participants in the course will be required to submit a comprehensive case study which focuses on rehearsal technique and rehearsal procedures.

**Prerequisite(s):** CR 621.

### CR 624 Conducting Skills 3 Credits

### CR 628 Choral Literature II 3 Credits

A study of selected major choral works, involving analytical and stylistic study. Oral reports by class members on assigned topics.

### CR 641B Conducting Primary 1 Credits

### CR 641D Conducting Primary (Elective) 1 Credits

### CR 641F Conducting Primary 1 Credits

### CR 681 Baroque Performance Practice 3 Credits

A practical and theoretical study of issues of Baroque performance practice, including tempo, phrasing and articulation, ornamentation, rhythmic alternation, qualities of sound, continuo practice, influence of dance, affect and national idioms. Primary source materials will serve as the basic core of readings for the course, supplemented and supported by recordings and contemporary resources. In the later half of the semester, students will perform in a series of master classes.

**Prerequisite(s):** for undergraduates MH 248, TH 241.

**CR 690 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**CR 710 Seminar in Choral Literature 3 Credits**

An intensive study of a specific area of choral history and literature. The content of this course will vary from semester to semester with the special interests and qualifications of the professor teaching it. Emphasis is placed upon in-depth study of the selected repertoire. May be repeated for credit.

**Prerequisite(s):** undergraduate must have Permission of Instructor.

**CR 720 Graduate Conducting Forum 1 Credits**

A conducting seminar that focuses on the synthesis of gesture, score study and pedagogy. Select repertoire and research materials will be conducted, analyzed and discussed. Focus will be given to orals preparation and current choral conducting issues. This course may be repeated for credit.

## Master of Music Education - Choral Emphasis (M.M.E. - Choral Emphasis)

### Program Overview

The Master of Music Education - Choral Emphasis (M.M.E. - Choral Emphasis) program makes it possible for individuals that hold music teacher certification or have music teaching experience to complete coursework in two academic years with traditional courses or three summers with Continuing Education workshops and online courses. Individuals with an undergraduate degree in music who wish to apply for this degree must first earn music teacher certification, which is possible through the Graduate Level Teacher Preparation (GLTP) (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-sciences/school-of-education/graduate-programs/teacher-education-programs/graduate-level-teacher-certification-program>) program in the Rider School of Education.

### Music Education Courses Online

The following music education courses are offered in a traditional format during the academic year and online in summer.

Code	Title	Credits
ME 682	Choral Music Education	3
ME 685	Research in Music Education	3
ME 692	Hist & Phil of Music Educ	3
ME 721	Curriculum Development & Evaluation	3
ME 723	Psychology for Music Tch	3
ME 771	Critical Pedagogy for Music Ed	3

The following course is offered during the summer by the College of Continuing Studies and may be used as a choral elective in graduate music education programs.

CP 640 Creative Practices in Choral Pedagogy

<b>Total Credits</b>		30-33

<sup>1</sup> The Thesis Track is designed for teachers who want to conduct qualitative research and may wish to pursue doctoral studies in the future. Students should plan on at least one full year to complete a thesis after taking ME 685. Information about the orals and thesis can be found in the Graduate Music Education Handbook.

<sup>2</sup> The Pedagogy Track is designed for teachers who want to improve their music teaching effectiveness. The capstone project will be developed while the teacher is enrolled in ME 682 and implemented during music teaching while enrolled in ME 775. Information about the orals and capstone project can be found in the Graduate Music Education Handbook.

<sup>3</sup> The core elective must be a single, 3-credit graduate-level course outside the student's major area, area of emphasis, and/or area of applied study.

<sup>4</sup> Audition required.

<sup>5</sup> Must be pre-approved by the Music Education Department Chair and may include credits earned through the Westminster Continuing Education summer programs. Applied conducting lessons carry a fee. International students who have not taught in North American schools must take ME 791 Internship in Music Teaching during the academic year.

#### **CR 509 Symphonic Choir 1 Credits**

A large mixed chorus comprised of students above the lower division, including graduate students from all disciplines. The ensemble regularly performs in the region and focuses on the major choral/orchestral repertoire along with a wide variety of repertoire for large mixed chorus. Placement hearing required.

#### **CR 621 Choral Conducting I 3 Credits**

A study of conducting to develop technique through facial expression, breathing, alignment and gesture. Emphasis is placed on developing and refining a process of score study. This course will assist conductors in evaluating their conducting and preparing them to make conducting decisions based upon score study.

#### **ME 650 Thesis 1 Credits**

Independent research under faculty supervision leading to the writing of a master's thesis. Students register for this course in every semester or summer term in which assistance is provided by the thesis advisor.

**Prerequisite(s):** ME 685 (preferred) or MH 731; Permission of the Chair for Music Education is required to register for this course.

#### **ME 682 Choral Music Education 3 Credits**

This course is designed to assist choral music educators to improve their pedagogical effectiveness. This course will provide students with the knowledge, skills and dispositions necessary for developing comprehensive musicianship in the choral ensemble setting through the study of creating original music, responding to music, connecting to students and performing vocal/choral music with a primary focus on choral pedagogy, curriculum development, unit and rehearsal planning, programming, vocal development, program management, music literacy pedagogy, music technology and assessment.

**Prerequisite(s):** CR 621, ME 692, ME 721, ME 723.

#### **ME 685 Research in Music Education 3 Credits**

Intended for students in the M.M.E. and BM/MAT degree programs, this course provides students with the tools necessary to write a qualitative master's thesis. Specific objectives include an overview of qualitative research paradigms, selecting a research topic, developing a literature review, designing an appropriate methodology and collecting and analyzing data. Additionally, students explore a broad variety of research topics in music education, specialization in a chosen research topic in music education, the ability to review music education research literature and to synthesize findings in a scholarly paper using the appropriate style manual. Students master APA and Chicago styles and complete the thesis proposal during this course. The departmental Thesis Manual is available at [www.rider.edu/musiced](http://www.rider.edu/musiced). ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

#### **ME 692 Hist & Phil of Music Educ 3 Credits**

The course will survey the major philosophical approaches to music education from their context in history. Relationships to developments in general education as well as the political climate of the period will be explored. A major paper investigating one of the philosophical thinkers will be required in addition to a well developed personal philosophy of music education. ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

#### **ME 693 Seminar in Music Educ 3 Credits**

While the topics vary from year to year, international perspectives in music education form the foundation for this seminar.

#### **ME 721 Curriculum Development & Evaluation 3 Credits**

This course examines the relationship between curriculum theory and philosophy of music education. Through the study of traditional and contemporary models of curriculum development and evaluation, students broaden their understanding of curriculum as it impacts the learning process. Post modern theory consistent with the Department's commitment to Critical Pedagogy for Music Education provide the focal point for the development of curricula that enhance and support quality music education. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

#### **ME 723 Psychology for Music Tchr 3 Credits**

This course merges the science of psychology with the teaching of music. It helps the student to understand the applications of psychological principles to the music learning process. The course will identify and discuss variables that affect a student's learning of music. Open to all graduate students. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

**ME 771 Critical Pedagogy for Music Ed 3 Credits**

This course presents the fundamental concepts, contexts and constructs that define Critical Pedagogy for Music Education. It focuses on the application of critical theory as a philosophical perspective to inform decisions teachers make when planning instruction for their students.

**ME 775 MME Capstone 1 Credits**

Independent research leading to a completed capstone project, such as curriculum and assessment development, pedagogical publication or presentation, instructional materials, etc. The project must be approved by the department.

## Master of Music: Composition

### Program Overview

Rider's program in composition, music history and theory aims to develop the aural skills needed by all musicians, to provide the necessary theoretical knowledge for the continuing study and performance of music, to develop analytical and esthetic understanding of music forms and styles, and to foster the creative impulse in music.

### Curriculum Overview

Composition majors are expected to write works for soloists, for chamber ensembles, and for large wind or orchestral ensembles. The department welcomes diversity of compositional styles and esthetic viewpoints and encourages exploration on the part of its students. The program culminates with a recital of original music written while a student is enrolled at Westminster.

Elective courses provide students with opportunities to apply their skills to specific areas of inquiry after satisfying specific prerequisites.

Westminster maintains a music computing facility in which students can compose, orchestrate, and print their compositions in publishable quality using computers interfaced with sampler/synthesizers as well as sequencing and music printing software.

### Degrees Offered

#### Notes

<sup>1</sup> The core elective must be a single, 3-credit graduate-level course outside the student's major area, area of emphasis, and/or area of applied study.

<sup>2</sup> Following authorization from the department, composition majors must present a public recital of original works written while enrolled as a graduate student at Westminster Choir College.

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

## Courses and Descriptions

### MH 608 Graduate Music History Review 3 Credits

Required for graduate students who are admitted with deficiencies in music history, as determined by the graduate placement test in music history. It is strongly recommended that this course be taken at the outset of graduate study.

### MH 635 Public Musicology 3 Credits

A graduate-level introduction to the many ways musicology can engage with communities and events outside the academy. Topics include music criticism, oral history, museum education, archives, and cultural tourism.

**Prerequisite(s):** Graduate Standing; removal of all Music History deficiencies.

### MH 690 Independent Research & Study 1-3 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

### MH 731 Intro to Musicology 3 Credits

Introduction to the basic tools of research in historical musicology in order to foster: (1) an awareness of the nature and scope of historical musicology as a scholarly discipline; (2) familiarity with the techniques of musicological research; (3) an understanding of the relationship between musicological research and performance practice; and (4) experience in the application of musicological techniques to specific musical works and issues. It is strongly recommended that this course be taken at the outset of graduate study. Required for all Master of Music candidates.

### MH 733 Seminar in Music History 3 Credits

The content of the course will vary with the special interests and qualifications of the professor teaching it.

**Prerequisite(s):** Removal of all music history deficiencies, it is strongly recommended that MH 731 be taken prior to this course.

### MH 734 Proseminar in Music USA 3 Credits

A graduate-level introduction to the scholarly study of music in the U.S. Readings will cover music in Colonial/Early America, Western art music, popular music, and music of various ethnic communities.

**Prerequisite(s):** Graduate standing; removal of all Music History deficiencies.

### MH 750 Thesis I 3 Credits

Independent research under faculty supervision leading to a master's thesis. Students register for this course in their first term of thesis research.

**Prerequisite(s):** Graduate standing, removal of all Music History deficiencies.

### MH 751 Thesis II 3 Credits

Independent research under faculty supervision leading to a master's thesis. Students register for this course beginning in their second term of thesis research.

**Prerequisite(s):** Graduate Standing, removal of all Music History deficiencies, MH 750.

### TH 511 New Music Ensemble 1 Credits

This course provides an opportunity to perform new music, primarily works of fellow students. It will also provide instrumentalists an opportunity to develop their performance skills more fully.

### TH 550 Keyboard Harmony 3 Credits

An intense exploration of and drill in musicianship-keyboard skills, including score reading, transposition, modulation, clef reading, figured bass realization, harmonizing melodies, improvising and lead sheet accompanying. Projects may include transposition of a number of songs (perhaps a complete set) into all keys, figured bass realization for a Bach cantata, improvisation of service music (prelude, offertory, interludes, chorale preludes, postlude), multiple re-harmonizations of hymns/chorales for a service and score reduction and performance of a movement of an orchestral work. May be taken as an undergraduate level II theory elective.

**Prerequisite(s):** Undergraduate, minimum "C-" grade in TH 241; Graduate, Removal of all theory deficiencies.

**TH 608 Graduate Musicianship Review 4 Credits**

Required for graduate students admitted with deficiencies in musicianship as determined by the graduate placement test in musicianship. This course assists students in learning and integrating aural, performance, analytical and composition skills. Both the theoretical and the practical portion must be passed individually in order to receive a passing grade. It is strongly recommended that this course be taken at the outset of graduate study.

**TH 622 Electroacoustic Music 3 Credits**

Advanced opportunities for creative activities utilizing the resources of Westminster's Music Computing Center. Previous experience with sequencers and/or digital audio is expected.

**Prerequisite(s):** Removal of all music theory deficiencies.

**TH 623 Seminar in Music Theory 3 Credits**

The content of the course bearing this number will vary with the special interests and qualifications of the professor teaching it.

**Prerequisite(s):** Undergraduate, minimum "C-" grade in TH 241 and permission of instructor, or graduate student standing and removal of all music theory deficiencies.

**TH 625 Composition 3 Credits**

Class instruction in original composition. Projects and presentations.

**Prerequisite(s):** Graduate student standing and removal of all music theory deficiencies.

**TH 645A Composition Primary 3 Credits****TH 645C Composition Elective 2 Credits****TH 645D Composition Elective 1 Credits****TH 645E Composition Primary 3 Credits****TH 645F Composition Primary 1 Credits****TH 655 Composition Project 3 Credits**

Graduate-level private study in composition culminating in a major composition in one of the larger forms.

**Prerequisite(s):** three semesters of TH 645.

**TH 690 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**TH 726 Analysis 3 Credits**

A study of the compositional process as observed in selected tonal works, using the analytical approach of Heinrich Schenker.

**Prerequisite(s):** Removal of all music theory deficiencies.

**TH 511 New Music Ensemble 1 Credits**

This course provides an opportunity to perform new music, primarily works of fellow students. It will also provide instrumentalists an opportunity to develop their performance skills more fully.

**TH 550 Keyboard Harmony 3 Credits**

An intense exploration of and drill in musicianship-keyboard skills, including score reading, transposition, modulation, clef reading, figured bass realization, harmonizing melodies, improvising and lead sheet accompanying. Projects may include transposition of a number of songs (perhaps a complete set) into all keys, figured bass realization for a Bach cantata, improvisation of service music (prelude, offertory, interludes, chorale preludes, postlude), multiple re-harmonizations of hymns/chorales for a service and score reduction and performance of a movement of an orchestral work. May be taken as an undergraduate level II theory elective.

**Prerequisite(s):** Undergraduate, minimum "C-" grade in TH 241; Graduate, Removal of all theory deficiencies.

**TH 608 Graduate Musicianship Review 4 Credits**

Required for graduate students admitted with deficiencies in musicianship as determined by the graduate placement test in musicianship. This course assists students in learning and integrating aural, performance, analytical and composition skills. Both the theoretical and the practical portion must be passed individually in order to receive a passing grade. It is strongly recommended that this course be taken at the outset of graduate study.

**TH 622 Electroacoustic Music 3 Credits**

Advanced opportunities for creative activities utilizing the resources of Westminster's Music Computing Center. Previous experience with sequencers and/or digital audio is expected.

**Prerequisite(s):** Removal of all music theory deficiencies.

**TH 623 Seminar in Music Theory 3 Credits**

The content of the course bearing this number will vary with the special interests and qualifications of the professor teaching it.

**Prerequisite(s):** Undergraduate, minimum "C-" grade in TH 241 and permission of instructor, or graduate student standing and removal of all music theory deficiencies.

**TH 625 Composition 3 Credits**

Class instruction in original composition. Projects and presentations.

**Prerequisite(s):** Graduate student standing and removal of all music theory deficiencies.

**TH 645A Composition Primary 3 Credits****TH 645C Composition Elective 2 Credits****TH 645D Composition Elective 1 Credits****TH 645E Composition Primary 3 Credits****TH 645F Composition Primary 1 Credits****TH 655 Composition Project 3 Credits**

Graduate-level private study in composition culminating in a major composition in one of the larger forms.

**Prerequisite(s):** three semesters of TH 645.

**TH 690 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**TH 726 Analysis 3 Credits**

A study of the compositional process as observed in selected tonal works, using the analytical approach of Heinrich Schenker.

**Prerequisite(s):** Removal of all music theory deficiencies.

**Master of Music Education (M.M.E.)****Program Overview**

The Master of Music Education (M.M.E.) program makes it possible for individuals who hold music teacher certification or who have music teaching experience to complete coursework in two academic years with traditional and online courses or 3-4 summers with Continuing Education programs and online courses. Students completing the degree during summer sessions may use the Kodály certification courses, Levels I-III, offered through Continuing Education as their focus area.

Individuals without an undergraduate degree in music education who wish to apply for this degree may concurrently earn music teacher certification through the MAT/Graduate Level Teacher Preparation (GLTP) (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-sciences/school-of-education/graduate-programs/teacher-education-programs/graduate-level-teacher-certification-program>) program in the Rider School of Education.

**Music Education Courses Online**

The following music education courses are offered in rotation during the summer in an on-line format. Students in the MM, MME or BM/MAT programs may take either the traditional or online format to complete their degree. Students in other degree programs may take these courses as free electives:

Code	Title	Credits
ME 685	Research in Music Education	3
ME 692	Hist & Phil of Music Educ	3
ME 721	Curriculum Development & Evaluation	3
ME 723	Psychology for Music Tchr	3
ME 693	Seminar in Music Educ	3

CP 640 Creative Practices in Choral Pedagogy is offered online during summers by the College of Continuing Studies and may be used as an elective in graduate music education.

**Degree Offered:**

- Master of Music Education

**Master of Music Education (M.M.E.)**

(38 credits)

**Program Requirements**

This program is designed for music teachers who wish to complete graduate study in two academic years with traditional courses or three summers with Continuing Education workshops and on-line courses.

Learn more about General Graduate Requirements. (p. 1093)

Code	Title	Credits
ME 692	Hist & Phil of Music Educ	3
ME 693	Seminar in Music Educ	3
ME 721	Curriculum Development & Evaluation	3
ME 723	Psychology for Music Tchr	3
ME 650	Thesis	1
ME 685	Research in Music Education <sup>1</sup>	3
	Choral Experience (2 summer terms) <sup>2</sup>	4
	Theory or Music History elective	3
	Core elective <sup>3</sup>	3
	Elective <sup>4</sup>	12
<b>Total Credits</b>		<b>38</b>

<sup>1</sup> ME 685 prepares students to write the thesis for the course ME 650. With permission of the Music Education Department, however, students may substitute MH 731, Introduction to Musicology. Students should plan on at least one full year to complete the thesis after taking a research course.

<sup>2</sup> Students may take the Summer Choral Festival to fulfill this requirement. Those who enroll during fall and/or spring semesters may substitute one or two terms of CR 509 Symphonic Choir.

<sup>3</sup> The core elective must be a single, 3-credit graduate-level course outside the student's major area, area of emphasis, and/or area of applied study.

<sup>4</sup> Each student will propose 12 credits of electives to be completed as an approved focus supporting personal career goals and interests. Electives may include credits earned through the Westminster Continuing Education summer program.

**Notes:**

1. Students may elect to complete New Jersey approved teacher certification courses at the undergraduate level in conjunction with this degree program. Courses taken at the undergraduate degree level do not count towards the completion of the MME degree.

Candidates who wish to complete teacher certification must plan on three semesters of study during the academic year.

2. Students complete a thesis as the capstone experience in the degree. Information about the thesis is contained in the Music Education Thesis and Capstone Handbook ([http://www.rider.edu/sites/default/files/docs/wcc\\_musiced\\_grad\\_thesis-2016.pdf](http://www.rider.edu/sites/default/files/docs/wcc_musiced_grad_thesis-2016.pdf)) found on the Music Education website. Students should plan at least one year to complete the thesis.

## Courses and Descriptions

### CR 509 Symphonic Choir 1 Credits

A large mixed chorus comprised of students above the lower division, including graduate students from all disciplines. The ensemble regularly performs in the region and focuses on the major choral/orchestral repertoire along with a wide variety of repertoire for large mixed chorus. Placement hearing required.

### ME 650 Thesis 1 Credits

Independent research under faculty supervision leading to the writing of a master's thesis. Students register for this course in every semester or summer term in which assistance is provided by the thesis advisor.

**Prerequisite(s):** ME 685 (preferred) or MH 731; Permission of the Chair for Music Education is required to register for this course.

### ME 685 Research in Music Education 3 Credits

Intended for students in the M.M.E. and BM/MAT degree programs, this course provides students with the tools necessary to write a qualitative master's thesis. Specific objectives include an overview of qualitative research paradigms, selecting a research topic, developing a literature review, designing an appropriate methodology and collecting and analyzing data. Additionally, students explore a broad variety of research topics in music education, specialization in a chosen research topic in music education, the ability to review music education research literature and to synthesize findings in a scholarly paper using the appropriate style manual. Students master APA and Chicago styles and complete the thesis proposal during this course. The departmental Thesis Manual is available at [www.rider.edu/musiced](http://www.rider.edu/musiced). ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

### ME 692 Hist & Phil of Music Educ 3 Credits

The course will survey the major philosophical approaches to music education from their context in history. Relationships to developments in general education as well as the political climate of the period will be explored. A major paper investigating one of the philosophical thinkers will be required in addition to a well developed personal philosophy of music education. ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

### ME 693 Seminar in Music Educ 3 Credits

While the topics vary from year to year, international perspectives in music education form the foundation for this seminar.

### ME 721 Curriculum Development & Evaluation 3 Credits

This course examines the relationship between curriculum theory and philosophy of music education. Through the study of traditional and contemporary models of curriculum development and evaluation, students broaden their understanding of curriculum as it impacts the learning process. Post modern theory consistent with the Department's commitment to Critical Pedagogy for Music Education provide the focal point for the development of curricula that enhance and support quality music education. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

### ME 723 Psychology for Music Tchr 3 Credits

This course merges the science of psychology with the teaching of music. It helps the student to understand the applications of psychological principles to the music learning process. The course will identify and discuss variables that affect a student's learning of music. Open to all graduate students. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

### MH 731 Intro to Musicology 3 Credits

Introduction to the basic tools of research in historical musicology in order to foster: (1) an awareness of the nature and scope of historical musicology as a scholarly discipline; (2) familiarity with the techniques of musicological research; (3) an understanding of the relationship between musicological research and performance practice; and (4) experience in the application of musicological techniques to specific musical works and issues. It is strongly recommended that this course be taken at the outset of graduate study. Required for all Master of Music candidates.

## Master of Music: Music Education

### Program Overview

Unlike many other schools, Westminster's music education majors participate fully in the college's programs and enjoy the same studio and ensemble experiences as other majors. The program aims to develop teachers who can serve as advocates for music in schools, design programs that meet national standards, integrate music into curriculum and promote critical thinking, acting and feeling in the music classroom.

The M.M. program is designed for students who wish to major in music education with a concentration in applied music or composition. It is generally expected that students interested in the Master of Music program will hold state teaching certification and will have taught for at least one year prior to initial enrollment at Westminster. Applicants are sometimes accepted without this experience, but the Music Education Department reserves the right to require that a year of successful teaching be completed before the Master of Music degree in this major field is granted. Applicants must complete an audition as part of the admission process.

The Master of Music degree in music education does not itself include courses leading to New Jersey certification; applicants should therefore normally possess certificates before beginning master's work.

The Master of Music program reflects the Westminster philosophy that the music educator must be a fully capable musician. Consequently, there is a decided emphasis on performance or composition in the curriculum. The professional sequence of courses conjoins philosophy of music education, psychology of music learning and praxis.

### Curriculum Overview

The degree is for those who hold an undergraduate degree in music education and a teaching certificate. Students may not earn teacher certification in this degree program.

Courses include the history and philosophy of music education, curriculum development and evaluation, psychology for music teachers and an internship in music education. Areas of emphasis are performance or composition.

## Music Education Courses Online

The following music education courses are offered in traditional (fall, spring and summer terms) and online formats throughout the year. The online versions may be offered in 13-week, 8-week and 3-week formats. Students in the MM, MME or BM/MAT programs may take either the traditional or online format to complete their degree. Students in other degree programs may take these courses as free electives:

<b>Total Credits</b>		<b>38-41</b>

<sup>1</sup> Graduates of the Westminster baccalaureate music education program may petition to substitute another graduate course for ME 692. The department, if granting approval, will specify acceptable course alternatives.

<sup>2</sup> Those who have had significant teaching experience in American schools may petition to substitute another graduate course for ME 791. The department, if granting approval, will specify acceptable course alternatives.

<sup>3</sup> The core elective must be a single, 3-credit graduate-level course outside the student's major area, area of emphasis, and/or area of applied study.

Notes:

1. For composition primary students, TH 625, Composition Class, may be required if it is felt that class work in composition is needed prior to private study.
2. The Master of Music degree with a concentration in Music Education does not lead to New Jersey Teacher Certification. At the graduate level, students interested in certification should apply for admission to the Master of Music Education (M.M.E.) program.
3. Students in this degree program complete a portfolio review at the end of each year of study.
4. Following departmental approval, students are required to present a public recital on the primary instrument.

### Courses and Descriptions

#### ME 540 Choir Train for Young Singers 3 Credits

This course focuses on children's choirs in school, church and community. Students learn strategies to teach children good vocal technique and to build musical literacy through the study of appropriate repertoire. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

**Prerequisite(s):** Junior status.

#### ME 563 Art of Teaching Music III 4 Credits

Through course assignments, discussion, and clinical practice in varied school and community choral settings, course participants learn how to create meaningful elementary music experiences that foster individual success, accountability, a sense of accountability, critical thinking, independence, and life-long engagement with choral music.

**Prerequisite(s):** ME 262, satisfactory completion of Sophomore Review, satisfactory completion of teacher candidate basic skills requirement.

#### ME 564 Art of Teaching Music IV 4 Credits

#### ME 581 Praxis in Elementary Music 3 Credits

This course prepares students to teach music in elementary schools. Consistent with the department's commitment to Critical Pedagogy for Music Education, the course covers materials and methodologies to engage young children in musical experiences that are significant, transformational, and that connect to the social context in which they teach. Students learn to write and evaluate curriculum and to integrate curriculum with academic core subjects. An off campus field experience in local elementary schools is an integral part of this course. Students must provide their own transportation to practicum sites. It is recommended that students complete Developmental or Educational Psychology before taking ME 581. course content, activities and experiences in this course connect to the New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. Music Education majors will receive priority registration for this class. A minimum 2.75 cumulative GPA is required.

**Prerequisite(s):** For undergraduates only; ME 171, ME 172 ME 271; two semesters of Piano Secondary, not including PI 045; TH 142.

**ME 582 Praxis in Secondary Music 3 Credits**

This course prepares students to teach music in secondary schools. Consistent with the department's commitment to Critical Pedagogy for Music Education, the course covers materials and methodologies to engage middle school and high school students in musical experiences that are significant, transformational, and that connect to the social context in which they teach. Students learn to write and evaluate curriculum and to integrate curriculum with academic core subjects. An off campus field experience in local middle and high schools is an integral part of this course. Students must provide their own transportation to practicum sites. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. It is recommended that students complete ME 581 and either Developmental or Educational Psychology before taking ME 582. Music Education majors will receive priority registration for this class.

**Prerequisite(s):** completion of two semesters of Piano Secondary, not including PI 045, TH 142, and a minimum 2.75 cumulative grade point average.

**ME 587 Music in Special Educ 1 Credits**

This course is designed to acquaint the pre-service teacher with the special needs of exceptional children in music classes. Students learn to adapt instruction to accommodate a variety of exceptionalities that are both physical and emotional. Content includes categories of special students, characteristic behaviors, mainstreaming, and classroom methodology. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. It is recommended that student take this course before the student teaching semester.

**Prerequisite(s):** Senior status.

**ME 588 Dalcroze Studies 2 Credits**

The purpose of this elective course is to provide students with an intensive experience in eurhythmics and eurhythmics pedagogy leading to an understanding of Dalcroze's principles regarding movement, solfège, improvisation and their uses in the classroom. An important focus of the class will be to provide an insight into kinesthetic-based learning as a conduit to inform and deepen the musical experience. Opportunities for lesson planning and curriculum development in the Dalcroze model will be offered. Students will write and present practice lessons. In addition, students will develop improvisation skills necessary to integrate eurhythmics into private applied instruction.

**ME 591 Choral Music Grades 5-12 3 Credits**

This course is designed to acquaint the music educator with repertoire suitable for use with middle and senior high school choral ensembles. Representative repertoire from all periods of music will be discussed, analyzed and performed in class. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

**Prerequisite(s):** Junior status.

**ME 592 Creativity & Music Technology 2 Credits**

Creativity and Technology in the Music Classroom is designed to prepare students to foster musical creativity using a variety of approaches and tools. In particular, students will use equipment such as digital audio workstations, MIDI controllers, microphones, and SmartBoards to facilitate rich and engaging creative experiences. Students will explore ways to structure learning experiences in response to the needs and interests of students, and will examine current thinking and trends related to the uses of creativity and technology in the music classroom.

**Prerequisite(s):** Junior status or permission of instructor.

**ME 595 Assessing Music Learning 1 Credits**

This course provides pre-service music teachers with the strategies to assess music learning. Students study various testing models and learn to write and grade traditional tests such as true/false, multiple choice and essay. In addition, students examine authentic assessment, performance assessment and portfolio assessment models. Topics such as validity, reliability, standardized tests and testing bias will be included. In addition, students will learn how to read and interpret quantitative test data and examine the literature on grading. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. The content of this course conforms to the recommendations of the Professional Teaching Standards adopted by the State of New Jersey in 2002. In some semesters, this course may be offered in an on-line format.

**Prerequisite(s):** Senior status.

**ME 650 Thesis 1 Credits**

Independent research under faculty supervision leading to the writing of a master's thesis. Students register for this course in every semester or summer term in which assistance is provided by the thesis advisor.

**Prerequisite(s):** ME 685 (preferred) or MH 731; Permission of the Chair for Music Education is required to register for this course.

**ME 671 Music and Hip Hop Culture 3 Credits**

Hip Hop in the United States is arguably the most lucrative, popular, and culturally challenging contemporary musical force. The narratives of Hip Hop go beyond the boundaries of race and class as well as those of music, poetry and dance. As such, Hip Hop is a phenomenon that presents problems as well as great possibilities. This course explores them from the standpoint of educational sociology, looking at their implications for music in schools as well as in daily life.

**ME 672 Teaching/Learning in Urban Schools 3 Credits**

This course offers students theoretical and practical insight into teaching in urban schools. The class will present an analysis and practical implications for what is needed in order to successfully engage in teaching in urban centers in the United States. Students will balance field experiences with critical analyses of issues such as multicultural teaching, race, class, and economics in urban schools as well as their curricular and pedagogical implications.

**ME 682 Choral Music Education 3 Credits**

This course is designed to assist choral music educators to improve their pedagogical effectiveness. This course will provide students with the knowledge, skills and dispositions necessary for developing comprehensive musicianship in the choral ensemble setting through the study of creating original music, responding to music, connecting to students and performing vocal/choral music with a primary focus on choral pedagogy, curriculum development, unit and rehearsal planning, programming, vocal development, program management, music literacy pedagogy, music technology and assessment.

**Prerequisite(s):** CR 621, ME 692, ME 721, ME 723.

**ME 685 Research in Music Education 3 Credits**

Intended for students in the M.M.E. and BM/MAT degree programs, this course provides students with the tools necessary to write a qualitative master's thesis. Specific objectives include an overview of qualitative research paradigms, selecting a research topic, developing a literature review, designing an appropriate methodology and collecting and analyzing data. Additionally, students explore a broad variety of research topics in music education, specialization in a chosen research topic in music education, the ability to review music education research literature and to synthesize findings in a scholarly paper using the appropriate style manual. Students master APA and Chicago styles and complete the thesis proposal during this course. The departmental Thesis Manual is available at [www.rider.edu/musiced](http://www.rider.edu/musiced). ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

**ME 686 Teaching Music in the 21st Century 3 Credits**

Critical theory and critical pedagogy provide the framework for advanced study in post-modern teaching philosophies and teaching strategies as applied to music education. Techniques to engage students in diverse ways of thinking about music teaching and learning that transform both student and teacher will be presented. Always in the context of the social and political structures of schooling and the place schooling has in society, students will be empowered to create a dialoguing and problem-solving pedagogy for teaching music to children at all grade levels.

**ME 690 Independent Research and Study 3 Credits**

An elective course providing an opportunity to pursue a topic of special interest under the guidance of a music education faculty member. The proposal must be approved prior to registration for the course.

**ME 692 Hist & Phil of Music Educ 3 Credits**

The course will survey the major philosophical approaches to music education from their context in history. Relationships to developments in general education as well as the political climate of the period will be explored. A major paper investigating one of the philosophical thinkers will be required in addition to a well developed personal philosophy of music education. ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

**ME 693 Seminar in Music Educ 3 Credits**

While the topics vary from year to year, international perspectives in music education form the foundation for this seminar.

**ME 721 Curriculum Development & Evaluation 3 Credits**

This course examines the relationship between curriculum theory and philosophy of music education. Through the study of traditional and contemporary models of curriculum development and evaluation, students broaden their understanding of curriculum as it impacts the learning process. Post modern theory consistent with the Department's commitment to Critical Pedagogy for Music Education provide the focal point for the development of curricula that enhance and support quality music education. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

**ME 723 Psychology for Music Tchr 3 Credits**

This course merges the science of psychology with the teaching of music. It helps the student to understand the applications of psychological principles to the music learning process. The course will identify and discuss variables that affect a student's learning of music. Open to all graduate students. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

**ME 725 Teaching Instrumental Music 3 Credits**

A graduate level survey of the pedagogy necessary to teach instrumental music (woodwinds, brass, string and percussion instruments) and to develop and maintain beginning string and wind ensembles. While the class will include some playing and performance, it is not designed to develop proficiency on the individual instruments. Students must demonstrate sufficient competencies to provide beginning instruction. Instruments will be available for rental. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. Rental fee, per instrument: \$20.

**ME 727 Teaching College 3 Credits**

This course is designed for the graduate student who will be teaching at the college level. The content combines the theory of college teaching with praxis. Topics covered include: the psychology of the undergraduate, teaching graduate students, designing a syllabus, presenting course content, strategies for student-centered learning and assessment. Whenever possible, students will have the opportunity to intern with college faculty and will observe, present demonstration lessons, be coached and mentored. Open to all graduate students.

**ME 750 BM/MAT Capstone 3 Credits**

Independent research leading to a completed capstone project, which may be a thesis, action research, or another project or research initiative. The project must be approved by the department.

**Prerequisite(s):** ME 685; Permission of the Chair for Music Education is required to register for this course.

**ME 771 Critical Pedagogy for Music Ed 3 Credits**

This course presents the fundamental concepts, contexts and constructs that define Critical Pedagogy for Music Education. It focuses on the application of critical theory as a philosophical perspective to inform decisions teachers make when planning instruction for their students.

**ME 775 MME Capstone 1 Credits**

Independent research leading to a completed capstone project, such as curriculum and assessment development, pedagogical publication or presentation, instructional materials, etc. The project must be approved by the department.

**ME 791 Internship in Music Teaching 3 Credits**

A field-based experience consisting of three hours per week of internship teaching at a public or private school. Students may be placed in one of the residency programs of Westminster Academy. They will work with a cooperating teacher and be supervised by the instructor of the internship. Students will meet with the instructor periodically through the semester. In addition, they will prepare and teach lessons and submit documentation to chronicle the internship experience. International students in music education are strongly encouraged to take this course. ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

## Master of Music: Organ Performance

### Program Overview

The Organ Department at Westminster Choir College educates students in many facets of organ playing and related topics. Courses in performance, collaborative skills, choral conducting, improvisation, and literature are offered each semester. Westminster is home to a collection of 18 pipe organs built by Aeolian-Skinner, Beckerath, Casavant, Flentrop, Noack, and others. Students are encouraged to seek church employment during their time at Westminster; the organ faculty and sacred music office maintain a list of available positions in the area. For more information, including audition requirements and instrument specifications, visit the Organ Department Website (<http://www.rider.edu/organ>).

### Curriculum Overview

The graduate curriculum includes four semesters of applied lessons, three semesters of organ literature, two semesters of organ improvisation, and courses in choral conducting, worship planning, and accompanying.

### Degree Recital Requirements

**One fully-memorized recital or two non-memorized recitals:**

- Recitals must be at least 60 minutes.
- Students are required to be enrolled in organ lessons at Westminster during the semester of a degree recital, without exception.

### Performance Class Requirements

**For each semester a student is enrolled in organ lessons as a performance major, these requirements must be met:**

- **Three solo works**, one of which must be memorized.
- **Two hymns**, one of which must be memorized.
- **One collaborative work** (i.e. anthem, vocal/instrumental solo, concerto, etc.)

### Jury Requirements

- A jury must be performed at the conclusion of any semester that does not include a degree recital.

### Degree Offered

- M.M. in Organ Performance

## Courses and Descriptions

### OR 587 Organ Improvisation 2 Credits

A laboratory in the keyboard disciplines of modulation, transposition, improvisation and vocal score reading. Required for undergraduate Organ Performance majors; others may elect the course by permission of the instructor.

### OR 588 Organ Pedagogy 2 Credits

Pedagogical approaches to organ playing. Required for undergraduate Organ Performance majors; others may elect the course by permission of the instructor.

### OR 589 Organ Improvisation II 2 Credits

Continuation of OR 587.

### OR 590 Accompanying at the Organ 2 Credits

Development of accompanying techniques essential to the professional organist. Arranging and transcription from piano reductions and orchestral scores; standard choral/organ literature. Leading congregational song; appropriate methods of instrumental registration.

### OR 623 Organ Music of J.S. Bach 3 Credits

A study by genre of Bach's organ compositions will include background, overview of the influences of Buxtehude, Pachelbel and Böhm, and performance practice issues. The question of the "Bach organ" will be explored. Prerequisite(s): MH 731, OR 433.

Corequisite(s): MH 731, OR 433.

### OR 629 Seminar in Organ Literature 2 Credits

An intensive study of an area of organ literature or its performance practice. Specific content will change with each semester. Emphasis upon in-depth study of the works of a selected composer or genre.

### OR 641A Organ Primary 2 Credits

### OR 641B Organ Primary 1 Credits

### OR 641C Organ Elective 2 Credits

### OR 641D Organ Elective 1 Credits

### OR 641E Organ Primary 2 Credits

### OR 641F Organ Primary 1 Credits

### OR 690 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

Prerequisite(s): graduate standing.

### OR 723 Organ Literature Before 1800 3 Credits

Historical study of the organ literature coordinated with a study of the development of the organ as a musical instrument.

### OR 724 Organ Literature since 1800 3 Credits

Study and research into the style, form, and interpretation of representative organ works composed after 1800. Study and research into national styles of organ composition and construction in France, Germany, England and North America.

## Master of Music: Piano Accompanying and Coaching

### Program Overview

Westminster's master of music in accompanying and coaching program offers an intensive experience in lieder, choral music and opera coaching.

Westminster's historic commitment to vocal music shapes a curriculum in which literature and languages are taught in every course, celebrating a spirit of investigation, both interpretive and scholarly.

Alumni of the program have served as faculty members and coaches at the Tanglewood Music Center, Academy of Vocal Arts, American Boychoir School, the Curtis Institute, Opera North, Indianapolis Opera, Brevard Music Festival, the Canadian Opera Company, and the San Francisco Opera and Glimmerglass Opera Young Artists' Programs.

### Curriculum Overview

Students work closely with their private teacher, while collaborating with graduate and undergraduate singers in a wide variety of literature and engaging in coursework designed to hone their musical, stylistic and linguistic understanding. Two degree-specific recitals as an accompanist are required.

## Degrees Offered

- M.M. in Piano Accompanying and Coaching

**PI 512 Chamber Music 2 Credits**

Emphasis is placed upon rehearsal and performances of representative collaborative literature for strings and piano, and woodwinds and piano. Students will be assigned movements from major chamber works selected from different style periods. Professional instrumentalists will join them for rehearsals and performances in class. An overview of the development of this repertoire will be presented and listening assignments will augment the study of specific works. A project involving the study and presentation of a piano quartet or piano quintet will be included. Attendance at three concerts of instrumental chamber music is required. Permission of applied teacher and instructor is required.

**PI 513 Jazz Keyboard/Improv 3 Credits**

This course will enable pianists and organists to become familiar with the theory, harmony, and improvisational techniques of jazz piano. Emphasis will be placed upon getting each student to create spontaneous improvisations. The fundamental goal will be that of enabling students accustomed to following a score to move beyond it. Extensive exposure to material from the "Great American Songbook" as well as to jazz standards will provide a structural basis for the course.

**Prerequisite(s):** TH 142 and PI 201, or equivalent knowledge and technical proficiency.

**PI 516 Physical/Psych Aspects Piano 2 Credits**

The two major emphases of this course are: (1) the pianist as athlete and 2) the pianist as performer. The first includes a study of appropriate exercise, nutrition, anatomy and physiology as they relate to piano technique, implications for injury prevention, and how to deal with injuries should they occur. The second includes the reading process, strategies for practicing, memorizing techniques, and ways of coping with the behavioral, physical and cognitive manifestations of performance anxiety.

**PI 540 Keyboard Skills 3 Credits**

The course includes in-depth study of numerous aspects of musicianship skills essential for all pianists within the broader categories of technique and practice strategies; memorization and sight reading; improvisation and lead sheet realization. All aspects of piano musicianship skills will be addressed from practical, pedagogical, and collaborative points of view. Assignments will include examples of studies from a wide range of levels all within the current and developing skill level of each student enrolled in the class.

**Prerequisite(s):** UG - Eight credits of applied keyboard study or permission of keyboard instructor or course instructor. GR - Permission of course instructor.

**PI 585 Piano Ensemble 1 Credits**

Study and performance of piano duets, two-piano works, and works for combinations of three or more pianists. The emphasis is on ensemble techniques for rehearsal and performance.

**PI 609 Graduate Piano Review 1 Credits**

A functional course concentrating upon sight reading of simple piano accompaniments and open score reading. Required for graduate students with deficiencies in these skills.

**PI 611 Piano Pedagogy Lab 0 Credits**

Discussions will include problem-solving related to piano teaching, discussion of observations, supervised and independent teaching, questions relating to repertoire, materials and technique. Comparative philosophies and psychologies and their applications, group and private teaching, business issues, professional organizations and publications, technology, career planning, recital and audition planning will be included. There will also be guidance in the preparation for the graduate oral examination.

**PI 622 Eval Piano Teaching Lit 3 Credits**

This course provides a critical survey of piano teaching materials, including standard teaching literature, approaches to piano technique in writings and music exercises, and repertoire for the elementary, intermediate, and early advanced student. All music is analyzed from the perspectives of performance, technical demands, strategies for teacher presentation, and student practice. Applications and demonstrations of technology are included. Graduate students demonstrate teaching and performance strategies in class and carry an assigned teaching load at the Westminster Conservatory.

**PI 633 Piano Literature Seminar 3 Credits**

A major area of piano repertoire is selected for intensive study. The emphasis of the seminar changes from semester to semester. Possible topics include the development of the Mozart concerto, keyboard works of J.S. Bach, piano writing of Debussy, and 20th Century piano music.

**PI 641A Piano Primary 2 Credits****PI 641B Piano Primary 1 Credits****PI 641C Piano Elective 2 Credits****PI 641D Piano Elective 1 Credits****PI 641E Piano Primary 2 Credits****PI 641F Piano Primary 1 Credits****PI 661 Graduate Piano Pedagogy 3 Credits**

This course serves as an intensive study of theoretical and practical aspects of piano study, through examination of instruction materials and developing a well-defined philosophy and approach to piano teaching. Students are challenged to increase their ability in connecting advanced and intermediate music study to the foundation of what should take place in the first weeks of piano lessons. The focus of the course lies in developing one's own curriculum, on its own terms, or associated with instruction materials already in publication. Various methodologies and significant areas of thought in the field of piano pedagogy are explored and compared. The course involves private and group lesson observations at all levels of teaching. Practical application of education theory to music lessons at the piano is done through demonstration and practice teaching at the Westminster Conservatory or the College. Practical application of educational theory to music lessons at the piano is done through demonstration and practice teaching through the Westminster Conservatory or the College.

**PI 690 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**PI 691A Piano Pedagogy Internship I 3 Credits**

The two-semester internship includes weekly teaching each semester, faculty observation of this teaching, and private discussion with the faculty observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. Internships may include intensive study of private and/or group instruction, reading for children, working with college, adults, piano minor, gifted students or traditional studio of all ages and levels.

**PI 691B Piano Pedagogy Internship II 3 Credits**

The two-semester internship includes weekly teaching each semester, faculty observation of this teaching, and private discussion with the faculty observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. Internships may include intensive study of private and/or group instruction, reading for children, working with college, adults, piano minor, gifted students or traditional studio of all ages and levels.

**PI 713 Accompanying Class 3 Credits**

Students will investigate aspects of ensemble in vocal accompanying. Discussion topics will include rubato and its connection to language, stylistic concerns, musical preparation as well as practical issues such as recital programming and balance. Students will be expected to absorb extensive repertoire through attendance and performance. Class format will include both student presentations and lecture sessions.

**PI 714 Techniques of Coaching I 2 Credits**

A practical course designed to furnish information and experience in all aspects of vocal coaching, including diction coaching, ornamentation and realization, issues of drama and presentation, stylistic considerations, stage deportment and specialized accompanying skills. Students are observed in the process of coaching singers. Semantics and pedagogical techniques are stressed and polished. Factors involved in translations of Italian, French, German and other non-English texts are studied.

**PI 715 Techniques of Coaching II 2 Credits**

A practical course designed to furnish information and experience in all aspects of vocal coaching, including diction coaching, ornamentation and realization, issues of drama and presentation, stylistic considerations, stage deportment and specialized accompanying skills. Students are observed in the process of coaching singers. Semantics and pedagogical techniques are stressed and polished. Factors involved in translations of Italian, French, German and other non-English texts are studied.

**Prerequisite(s):** PI 714.

## Master of Music: Piano Pedagogy and Performance

### Program Overview

Piano at Westminster Choir College has multiple dimensions at both the undergraduate and graduate levels. It fosters the development of students who perform on a high level as soloists, as artist-teachers and as collaborators with other performing artists. A strong foundation of technique and knowledge of piano literature and style are essential to all the foregoing.

Students majoring in piano pedagogy and performance receive private lessons, study major teaching methodologies, and undertake observation and practice teaching.

### Curriculum Overview

The program includes a two-semester teaching internship and culminates in a full recital or else in a combination lecture/performance recital. Semester juries are required. A weekly pedagogy lab is required for two semesters, but recommended for all four semesters.

### Degrees Offered

- M.M. in Piano Pedagogy and Performance

**PI 512 Chamber Music 2 Credits**

Emphasis is placed upon rehearsal and performances of representative collaborative literature for strings and piano, and woodwinds and piano. Students will be assigned movements from major chamber works selected from different style periods. Professional instrumentalists will join them for rehearsals and performances in class. An overview of the development of this repertoire will be presented and listening assignments will augment the study of specific works. A project involving the study and presentation of a piano quartet or piano quintet will be included. Attendance at three concerts of instrumental chamber music is required. Permission of applied teacher and instructor is required.

**PI 513 Jazz Keyboard/Improv 3 Credits**

This course will enable pianists and organists to become familiar with the theory, harmony, and improvisational techniques of jazz piano. Emphasis will be placed upon getting each student to create spontaneous improvisations. The fundamental goal will be that of enabling students accustomed to following a score to move beyond it. Extensive exposure to material from the "Great American Songbook" as well as to jazz standards will provide a structural basis for the course.

**Prerequisite(s):** TH 142 and PI 201, or equivalent knowledge and technical proficiency.

**PI 516 Physical/Psych Aspects Piano 2 Credits**

The two major emphases of this course are: (1) the pianist as athlete and 2) the pianist as performer. The first includes a study of appropriate exercise, nutrition, anatomy and physiology as they relate to piano technique, implications for injury prevention, and how to deal with injuries should they occur. The second includes the reading process, strategies for practicing, memorizing techniques, and ways of coping with the behavioral, physical and cognitive manifestations of performance anxiety.

**PI 540 Keyboard Skills 3 Credits**

The course includes in-depth study of numerous aspects of musicianship skills essential for all pianists within the broader categories of technique and practice strategies; memorization and sight reading; improvisation and lead sheet realization. All aspects of piano musicianship skills will be addressed from practical, pedagogical, and collaborative points of view. Assignments will include examples of studies from a wide range of levels all within the current and developing skill level of each student enrolled in the class.

**Prerequisite(s):** UG - Eight credits of applied keyboard study or permission of keyboard instructor or course instructor. GR - Permission of course instructor.

**PI 585 Piano Ensemble 1 Credits**

Study and performance of piano duets, two-piano works, and works for combinations of three or more pianists. The emphasis is on ensemble techniques for rehearsal and performance.

**PI 609 Graduate Piano Review 1 Credits**

A functional course concentrating upon sight reading of simple piano accompaniments and open score reading. Required for graduate students with deficiencies in these skills.

**PI 611 Piano Pedagogy Lab 0 Credits**

Discussions will include problem-solving related to piano teaching, discussion of observations, supervised and independent teaching, questions relating to repertoire, materials and technique. Comparative philosophies and psychologies and their applications, group and private teaching, business issues, professional organizations and publications, technology, career planning, recital and audition planning will be included. There will also be guidance in the preparation for the graduate oral examination.

**PI 622 Eval Piano Teaching Lit 3 Credits**

This course provides a critical survey of piano teaching materials, including standard teaching literature, approaches to piano technique in writings and music exercises, and repertoire for the elementary, intermediate, and early advanced student. All music is analyzed from the perspectives of performance, technical demands, strategies for teacher presentation, and student practice. Applications and demonstrations of technology are included. Graduate students demonstrate teaching and performance strategies in class and carry an assigned teaching load at the Westminster Conservatory.

**PI 633 Piano Literature Seminar 3 Credits**

A major area of piano repertoire is selected for intensive study. The emphasis of the seminar changes from semester to semester. Possible topics include the development of the Mozart concerto, keyboard works of J.S. Bach, piano writing of Debussy, and 20th Century piano music.

**PI 641A Piano Primary 2 Credits****PI 641B Piano Primary 1 Credits****PI 641C Piano Elective 2 Credits****PI 641D Piano Elective 1 Credits****PI 641E Piano Primary 2 Credits****PI 641F Piano Primary 1 Credits****PI 661 Graduate Piano Pedagogy 3 Credits**

This course serves as an intensive study of theoretical and practical aspects of piano study, through examination of instruction materials and developing a well-defined philosophy and approach to piano teaching. Students are challenged to increase their ability in connecting advanced and intermediate music study to the foundation of what should take place in the first weeks of piano lessons. The focus of the course lies in developing one's own curriculum, on its own terms, or associated with instruction materials already in publication. Various methodologies and significant areas of thought in the field of piano pedagogy are explored and compared. The course involves private and group lesson observations at all levels of teaching. Practical application of education theory to music lessons at the piano is done through demonstration and practice teaching at the Westminster Conservatory or the College. Practical application of educational theory to music lessons at the piano is done through demonstration and practice teaching through the Westminster Conservatory or the College.

**PI 690 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**PI 691A Piano Pedagogy Internship I 3 Credits**

The two-semester internship includes weekly teaching each semester, faculty observation of this teaching, and private discussion with the faculty observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. Internships may include intensive study of private and/or group instruction, reading for children, working with college, adults, piano minor, gifted students or traditional studio of all ages and levels.

**PI 691B Piano Pedagogy Internship II 3 Credits**

The two-semester internship includes weekly teaching each semester, faculty observation of this teaching, and private discussion with the faculty observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. Internships may include intensive study of private and/or group instruction, reading for children, working with college, adults, piano minor, gifted students or traditional studio of all ages and levels.

**PI 713 Accompanying Class 3 Credits**

Students will investigate aspects of ensemble in vocal accompanying. Discussion topics will include rubato and its connection to language, stylistic concerns, musical preparation as well as practical issues such as recital programming and balance. Students will be expected to absorb extensive repertoire through attendance and performance. Class format will include both student presentations and lecture sessions.

**PI 714 Techniques of Coaching I 2 Credits**

A practical course designed to furnish information and experience in all aspects of vocal coaching, including diction coaching, ornamentation and realization, issues of drama and presentation, stylistic considerations, stage deportment and specialized accompanying skills. Students are observed in the process of coaching singers. Semantics and pedagogical techniques are stressed and polished. Factors involved in translations of Italian, French, German and other non-English texts are studied.

**PI 715 Techniques of Coaching II 2 Credits**

A practical course designed to furnish information and experience in all aspects of vocal coaching, including diction coaching, ornamentation and realization, issues of drama and presentation, stylistic considerations, stage deportment and specialized accompanying skills. Students are observed in the process of coaching singers. Semantics and pedagogical techniques are stressed and polished. Factors involved in translations of Italian, French, German and other non-English texts are studied.

**Prerequisite(s):** PI 714.

## Master of Music: Piano Performance

### Program Overview

Piano at Westminster Choir College has multiple dimensions at both the undergraduate and graduate levels. It fosters the development of students who perform on a high level as soloists, as artist-teachers and as collaborators with other performing artists. A strong foundation of technique and knowledge of piano literature and style are essential to all the foregoing.

### Curriculum Overview

Students majoring in piano receive private lessons and play in weekly studio and performance classes. The program culminates with a full recital. Annual juries are required. Areas of study include chamber music or accompanying class, piano literature electives, musicology, Symphonic Choir and electives.

## Master of Music: Sacred Music

### Program Overview

The sacred music program offers education of the highest quality and broadest scope to sacred music majors who aspire to be leaders of the future.

The program is interdenominational and seeks to explore the excellence of various traditions of sacred music. Faculty members have wide experience and expertise in such traditions as Anglican, Lutheran, Methodist, Presbyterian, Reformed, Roman Catholic, the Synagogue and Temple tradition, and others.

### Curriculum Overview

The graduate curriculum aims, on the one hand, to explore how familiar tradition can be blended with unfamiliar contemporary creativity in choral, congregational, and instrumental music for worship and, on the other hand, to provide a balanced study of theoretical matters and practical concerns. Technique, repertoire, and performance practice are therefore considered with theology, Biblical and post-Biblical religious history, and the development and practice of liturgy and worship.

Graduate courses include oratorio solo literature, conducting coaching, worship planning for the 21st century, liturgies, Bach cantatas, history of sacred music and more.

A reciprocal partnership with Princeton Theological Seminary allows Westminster Choir College graduate students to take certain courses offered by the seminary. The seminary's Speer Library is another invaluable resource for Westminster students.

Core elective (1 course) <sup>2</sup>	3
<b>Total Credits</b>	<b>39-42</b>

<sup>1</sup> Students selecting Option A must present a half-recital in the applied area. Departmental approval is required for all recitals. For composition primary students, the recital consists of original works composed while the student was enrolled as a graduate student at Westminster Choir College. For composition primary students, TH 625 Composition class, may be required if it is felt that class work in composition is needed prior to private study. Composition primary students must complete TH 726 as the core theory/music history elective.

<sup>2</sup> The core elective must be a single, 3-credit graduate-level course outside the student's major area, area of emphasis, and/or area of applied study.

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

Total Credit Hours for Graduation		39-40

#### SM 509 Jubilee Singers 1 Credits

This auditioned ensemble is devoted to the performance of sacred music from the African-American tradition.

#### SM 511 Sacred Music Lab 0 Credits

Series of classes that addresses a variety of experiences in Sacred Music while rotating principal themes and ideas. Student preparation of monthly worship settings will put studied concepts into practice.

**SM 517 Concert Handbell Choir II 1 Credits**

Open to students who have had previous handbell experience. Intermediate to advanced repertoire, with opportunities for concert performance.

**SM 519 Concert Handbell Choir I 1 Credits**

A choir selected by audition from the most experienced and capable bell ringers among the student body at large. This ensemble utilizes advanced repertoire and techniques, aiming primarily at presenting concerts both on and off campus, including a two-week annual tour.

**SM 525 Conductors' Repertoire Ensemble 1 Credits**

An auditioned chamber ensemble, offered every semester, which provides conducting podium time and coaching to all interested members. It additionally serves the conducting needs of graduate Sacred Music majors.

**Prerequisite(s):** CR 215 or permission of instructor.

**SM 531 Colloquium in Sacred Music 2 Credits**

A lecture series/colloquium intended to address a wide variety of concerns in the field of Sacred Music while rotating principal themes and ideas.

**SM 540 Choir Training/Young Singers 3 Credits**

A practicum combined with study designed to teach students how to organize and direct a children's choir program that emphasizes musical training as a basic requirement. The course focuses on teaching children good vocal techniques and sight-reading skills and includes practice teaching in a local school under instructor supervision. Other areas covered include musical readiness skills, voice-change problems, and repertoire.

**SM 541 Conducting Church Choirs: Ped & Mgt 3 Credits**

A practical course devoted to the building and maintenance of church music programs serving persons of all ages.

**SM 621 Oratorio Solo Literature 3 Credits**

A performance course surveying solo and ensemble portions of oratorios, masses, passions and cantatas from the early Baroque period to the present, with emphasis on appropriate performance techniques for stylistic integrity. Offered in rotation with other Sacred Music electives. 3 Credit hours.

**SM 630 Conducting Coaching 1-2 Credits**

Structured preparation and faculty coaching of the culminating choral recital in the graduate Sacred Music curriculum.

**SM 631 Worship Planning/21st Cent. 3 Credits**

Designed to facilitate the planning of worship, this practical course will be an immersion in the musical and theological materials available to those who create worship.

**SM 640 Liturgies 3 Credits**

A study of the origins of liturgy, its development in the main Christian traditions, and its relation to ecclesiastical history, with particular attention given to the differing styles and traditions of liturgical music. Contemporary liturgies are viewed against this historical background.

**SM 641 Hymnology 3 Credits**

A study of the origins and development of Christian hymnody, with reference to the theological emphases of various periods from the beginnings to the present, aiming to arouse interest in the textual and musical content of hymns and in their effective use in worship.

**SM 654 German Church Music 3 Credits**

A study of church choral literature by German composers from the 16th century to the present focusing on the pre-Bach and post-Bach cantata. Class performances of selected works. Complements SM 655. Offered in rotation with other Sacred Music electives.

**SM 655 Bach Cantatas 3 Credits**

A study of the history, performance practices, and liturgical setting of the cantatas of J.S. Bach. Class performances of selected cantatas.

**SM 712 Hist of Sacred Music I 3 Credits**

Study and research into the history of Western Christian music and its most important genres beginning with the Old Testament and continuing until the death of J.S. Bach in 1750.

**SM 713 Hist of Sacred Music II 3 Credits**

Continuation of SM 712, beginning with the Classical Viennese Mass and continuing until today. Emphasis on the development of the American church and its worship music.

**SM 722 Theology, Liturgy & Worship 3 Credits**

A detailed study of the Bible. Principal thematic and narrative elements are correlated to the development of the church's historic liturgies and the theological principles behind them.

## Master of Music: Voice Pedagogy and Performance (Pedagogy Emphasis)

### Program Requirements

The voice program seeks to develop the musician by establishing a sound vocal technique and a thorough understanding of the singing voice, its literature and pedagogy. These tools are essential for the study and performance of vocal and choral literature and for training students as solo performers, professional teachers or choral conductors.

Capitalizing upon undergraduate work, students continue to build and demonstrate healthy vocal technique while deepening their knowledge of voice literature and pedagogy. Students develop a strong understanding of the complex relationships between music and poetry.

### Curriculum Overview

This voice pedagogy and performance program has two emphases. The pedagogy emphasis entails private lessons, voice literature, opera, vocal pedagogy, supervised student teaching and a full recital. For students whose undergraduate work has not included a public recital, presentation of a 30-minute recital is required before work on the graduate recital may begin. Weekly coaching classes as well as studio and performance classes offer frequent performance opportunities. Two fully-staged operas, one with orchestra, are presented each year. Private vocal coaching is available (fee is charged).

Each Pedagogy Emphasis student completes a multi-course sequence in Voice Pedagogy, including voice science, methods and teaching, research, and literature. Four semesters of applied voice study culminate in a graduate recital.

Please see the Voice Handbook for language requirements.

### Degree Offered

- M.M. in Voice Performance and Pedagogy (Pedagogy Track)

**VC 591 Performing in Lyric Theater 2 Credits**

Performing in Lyric Theater offers techniques for the preparation of lyric roles in a theatrical setting. It will develop elements of stagecraft, systematize a process for preparations and exploration, and introduce the working relationship with director and conductor.

**Prerequisite(s):** Undergraduates, VC 291 and the successful completion of Level II jury, or permission of the Chair.

**VC 592 Opera Workshop 2 Credits**

Introduction to opera performance. Acting exercises, character development, dramatic exploration and musical coaching culminating in a workshop-format presentation. It is recommended that VC 491 or 691 be taken before this course. This course may be repeated for credit.

**Prerequisite(s):** Undergraduates, successful completion of the level II voice test or permission of the chair.

**VC 593 Opera Theater 2 Credits**

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

**VC 621 Oratorio Solo Literature 3 Credits**

A performance course surveying solo and ensemble portions of oratorios, masses, passions, and cantatas from the early Baroque period to the present, with emphasis on appropriate performance techniques for stylistic integrity.

**VC 627 Opera Literature I 3 Credits**

Study of the development of opera from 1600 through the Napoleonic era (ca. 1815), with emphasis on performance practices, singing styles, libretti, the role of the orchestra, and the historical, political and sociological milieu in which the operas were written.

**VC 628 Opera Literature II 3 Credits**

Study of the development of opera from the early 19th century to the present, with emphasis on performance practices, singing styles, libretti, the role of the orchestra, and the historical, political and sociological milieu in which the operas were written.

**VC 633 Seminar in Opera Literature 3 Credits**

An intensive study of an area of opera literature. The specific content of this course will change from semester to semester. Emphasis is placed upon in-depth study of the works of a selected composer or of a specific genre of opera.

**VC 635 Seminar in Song Literature 3 Credits**

An intensive study of some area of art song history and literature. The specific content of this course will change from semester to semester. Emphasis is placed upon in-depth study of the selected repertoire.

**VC 641A Voice Primary 2 Credits****VC 661 German Lieder 3 Credits**

This survey of the German Lieder begins with its roots in the 17th and 18th centuries and continues into the 20th century. Classes will involve study of Romanticism, including philosophers and poets of the 18th and 19th centuries who were important for German Lieder. The bulk of the class involves in-depth study of the Lieder of the important composers of the genre: Haydn, Mozart, Schubert, Robert and Clara Schumann, Mendelssohn, Liszt, Brahms, Wolf, Strauss, Mahler, Schoenberg, Berg, and Webern. Class sessions will involve a balance of lecture, discussion, and student performance.

**VC 662 French Melodie 3 Credits**

This course is designed as a survey of the song literature of France. Students examine works for voice and piano/instruments by Berlioz, Gounod, Saint-Saëns, Bizet, Faure, Duparc, Chausson, Debussy, Ravel, Messaien, Milhaud, Poulenc, and others, analyzing their relationship to larger stylistic, social, and musicological trends. Investigation will include matters of prosody, scansion, and compositional organization, with particular attention given to matters of text setting and poetic treatment. Special emphasis will be placed on important French language poets whose literary works serve as the basis for this material. Poets will include Baudelaire, Verlaine, Hugo, Rimbaud, Mallarmé, LaForgue, Maeterlinck, and others. Poetic history and form will be covered as well as important composer/poet partnerships. Class sessions will involve a balance of lecture and discussion. Works by both well-known and lesser-known composers will be included.

**VC 705 Grad Voice Rep:Italian/French 1 Credits**

This class is a performance seminar focusing on the synthesis of musical line and linguistic inflection. Elements of tonal color, frequency, vowel purity and rhythm will be practiced in each class session as individual students perform selections from the literature. Repeatable for credit only if space is available AND by permission of the Chair.

**VC 706 Grad Voice Rep:German/English 1 Credits**

This class is a performance seminar focusing on the synthesis of musical line and linguistic inflection. Elements of tonal color, frequency, vowel purity and rhythm will be practiced in each class session as individual students perform selections from the literature. Repeatable for credit only if space is available AND by permission of the Chair.

**VC 723 Voice Ped I: Voice Science 3 Credits**

Study of voice anatomy and physiology with concentration on respiration, phonation, articulation, hearing and vocal health. Through hands-on experience in the Westminster Voice Laboratory, students explore the physics of sound, the fundamentals of musical acoustics, and acoustical elements that are unique to the human voice. Priority registration is given to M.V.P. majors and M.M. students majoring in Voice Performance and Pedagogy. Other students may enroll on a space-available basis.

**VC 725 Voice Ped III: Tchng Practicum 3 Credits**

Communication skills are explored and students develop a systematic approach to studio voice instruction. Each student is assigned at least two voice students (one adult and one teenager) to be taught both inside and outside of class. Emphasis is placed on becoming familiar with all voice classifications and basic vocal literature.

**Prerequisite(s):** VC 723.

**VC 726 Voice Research 3 Credits**

Peer reviewed research in voice is evaluated and research methodologies are explored. Class projects include research in historical, qualitative, quantitative, and mixed methods approaches.

**VC 730 The Singing Actor: Opera 3 Credits**

This course entails coaching of selected songs, arias or repertoire from music theater, and techniques for performance preparation through intensive research. A final written project involves a musical and dramatic analysis of all chosen repertoire.

**VC 731 Opera Auditions: Prep & Tech 2 Credits**

This class will explore the many facets of preparing an audition for an opera role, apprentice program, or competition. At least three to four arias in contrasting styles and languages should be prepared for work in class. Areas to be addressed include vocal and dramatic presentation, networking, resume building, make-up, and photo advice. In coordination with the Office of Career Services, panel discussions with invited guests that will explore specific career-related topics will be scheduled.

**Prerequisite(s):** permission of the applied instructor.

**VC 753 Spec Topics in Voice Perf Prac 3 Credits**

Intensive performance coaching and lectures in the form of master classes where performance practice in selected topics will be taught by current faculty or distinguished alumni and specialists in their fields.

**Prerequisite(s):** permission of the applied instructor.

**VC 722 Literature for Teaching 3 Credits**

A survey of graduated teaching literature for beginning, intermediate and advanced voice students. Literature will be explored that is particularly well-suited to specific vocal issues (e.g. legato, coloratura, staccato, etc.)

**Prerequisite(s):** VC 723, VC 724.

**VC 724 Voice Ped II: Methods 3 Credits**

A comparative study of various pedagogical methods and ideals. A wide range of important historical and contemporary pedagogy treatises is reviewed. Students explore exercises and vocalises for general voice development as well as techniques to address and correct specific vocal problems. Role-playing exercises are used to develop appropriate listening and teaching skills. Class participants begin supervised instruction of a volunteer singing student.

**Prerequisite(s):** VC 723.

## Master of Music: Voice Pedagogy and Performance (Performance Emphasis)

### Program Overview

More students pursue voice study at the graduate level at Westminster Choir College than any other major on campus. A strong and unique double emphasis in voice pedagogy and performance prepares our graduates to find success on the operatic and concert stages of the world, in studio and classroom teaching positions at prominent schools, universities, and churches, and in thriving private voice studios. The process-oriented approach focuses on *how*, rather than *what* to sing, enabling students to become the best possible vocal artists and independent musicians.

### Curriculum Overview

This voice pedagogy and performance program has two emphases. The performance emphasis entails private lessons, voice literature, opera, vocal coaching, vocal pedagogy, and a full recital. Studio and performance classes, as well as a number of performance-oriented class options, Opera Workshop, and Opera Theatre, offer frequent performance opportunities. Two fully-staged operas, one with orchestra, are presented each year. Private vocal coaching is available (fee is charged).

Each Performance Emphasis student completes courses in applied study, voice science and pedagogy, and literature. Four semesters of applied voice study culminate in a graduate recital. For students whose undergraduate work has not included a public recital, presentation of a 30-minute recital is required before work on the graduate recital may begin.

Please see the Voice Handbook for language requirements.

**VC 591 Performing in Lyric Theater 2 Credits**

Performing in Lyric Theater offers techniques for the preparation of lyric roles in a theatrical setting. It will develop elements of stagecraft, systematize a process for preparations and exploration, and introduce the working relationship with director and conductor.

**Prerequisite(s):** Undergraduates, VC 291 and the successful completion of Level II jury, or permission of the Chair.

**VC 592 Opera Workshop 2 Credits**

Introduction to opera performance. Acting exercises, character development, dramatic exploration and musical coaching culminating in a workshop-format presentation. It is recommended that VC 491 or 691 be taken before this course. This course may be repeated for credit.

**Prerequisite(s):** Undergraduates, successful completion of the level II voice test or permission of the chair.

**VC 593 Opera Theater 2 Credits**

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

**VC 593E Opera Theater (Ensemble) 1 Credits**

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

**VC 593N Opera Theater (Opera NJ) 1 Credits**

**VC 593R Opera Theater (Role) 2 Credits**

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

**VC 593T Opera Theater (Tech) 1 Credits**

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

**VC 621 Oratorio Solo Literature 3 Credits**

A performance course surveying solo and ensemble portions of oratorios, masses, passions, and cantatas from the early Baroque period to the present, with emphasis on appropriate performance techniques for stylistic integrity.

**VC 627 Opera Literature I 3 Credits**

Study of the development of opera from 1600 through the Napoleonic era (ca. 1815), with emphasis on performance practices, singing styles, libretti, the role of the orchestra, and the historical, political and sociological milieu in which the operas were written.

**VC 628 Opera Literature II 3 Credits**

Study of the development of opera from the early 19th century to the present, with emphasis on performance practices, singing styles, libretti, the role of the orchestra, and the historical, political and sociological milieu in which the operas were written.

**VC 633 Seminar in Opera Literature 3 Credits**

An intensive study of an area of opera literature. The specific content of this course will change from semester to semester. Emphasis is placed upon in-depth study of the works of a selected composer or of a specific genre of opera.

**VC 635 Seminar in Song Literature 3 Credits**

An intensive study of some area of art song history and literature. The specific content of this course will change from semester to semester. Emphasis is placed upon in-depth study of the selected repertoire.

**VC 641A Voice Primary 2 Credits****VC 641B Voice Primary 1 Credits****VC 641C Voice Elective 2 Credits****VC 641D Voice Elective 1 Credits****VC 641E Voice Primary 2 Credits****VC 641F Voice Primary 1 Credits****VC 641G Voice Primary 2 Credits****VC 650 Pedagogy Capstone 1 Credits**

Independent research leading to a completed capstone project, such as a pedagogical publication or presentation, development of an original or unique method of instruction, instructional materials, etc. The project must be approved by the department.

**VC 655A Voice Primary 2 Credits****VC 655B Voice Primary 1 Credits****VC 655E Voice Primary 2 Credits****VC 655F Voice Primary 1 Credits****VC 657 Private Coaching 2 Credits**

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 657 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 658 involves weekly half-hour lessons and a fee of \$600. Open to graduate Voice Pedagogy and Performance majors.

**VC 658 Private Coaching 1 Credits**

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 657 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 658 involves weekly half-hour lessons and a fee of \$600. Open to graduate Voice Pedagogy and Performance majors.

**VC 661 German Lieder 3 Credits**

This survey of the German Lieder begins with its roots in the 17th and 18th centuries and continues into the 20th century. Classes will involve study of Romanticism, including philosophers and poets of the 18th and 19th centuries who were important for German Lieder. The bulk of the class involves in-depth study of the Lieder of the important composers of the genre: Haydn, Mozart, Schubert, Robert and Clara Schumann, Mendelssohn, Liszt, Brahms, Wolf, Strauss, Mahler, Schoenberg, Berg, and Webern. Class sessions will involve a balance of lecture, discussion, and student performance.

**VC 662 French Melodie 3 Credits**

This course is designed as a survey of the song literature of France. Students examine works for voice and piano/instruments by Berlioz, Gounod, Saint-Saëns, Bizet, Faure, Duparc, Chausson, Debussy, Ravel, Messaien, Milhaud, Poulenc, and others, analyzing their relationship to larger stylistic, social, and musicological trends. Investigation will include matters of prosody, scansion, and compositional organization, with particular attention given to matters of text setting and poetic treatment. Special emphasis will be placed on important French language poets whose literary works serve as the basis for this material. Poets will include Baudelaire, Verlaine, Hugo, Rimbaud, Mallarmé, LaForgue, Maeterlinck, and others. Poetic history and form will be covered as well as important composer/poet partnerships. Class sessions will involve a balance of lecture and discussion. Works by both well-known and lesser-known composers will be included.

**VC 667 Private Dramatic/Role Coaching 2 Credits**

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 667 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 668 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**VC 668 Private Dramatic/Role Coaching 1 Credits**

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 667 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 668 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**VC 690 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**VC 705 Grad Voice Rep:Italian/French 1 Credits**

This class is a performance seminar focusing on the synthesis of musical line and linguistic inflection. Elements of tonal color, frequency, vowel purity and rhythm will be practiced in each class session as individual students perform selections from the literature. Repeatable for credit only if space is available AND by permission of the Chair.

**VC 706 Grad Voice Rep:German/English 1 Credits**

This class is a performance seminar focusing on the synthesis of musical line and linguistic inflection. Elements of tonal color, frequency, vowel purity and rhythm will be practiced in each class session as individual students perform selections from the literature. Repeatable for credit only if space is available AND by permission of the Chair.

**VC 722 Literature for Teaching 3 Credits**

A survey of graduated teaching literature for beginning, intermediate and advanced voice students. Literature will be explored that is particularly well-suited to specific vocal issues (e.g. legato, coloratura, staccato, etc.)

**Prerequisite(s):** VC 723, VC 724.

**VC 723 Voice Ped I: Voice Science 3 Credits**

Study of voice anatomy and physiology with concentration on respiration, phonation, articulation, hearing and vocal health. Through hands-on experience in the Westminster Voice Laboratory, students explore the physics of sound, the fundamentals of musical acoustics, and acoustical elements that are unique to the human voice. Priority registration is given to M.V.P. majors and M.M. students majoring in Voice Performance and Pedagogy. Other students may enroll on a space-available basis.

**VC 724 Voice Ped II: Methods 3 Credits**

A comparative study of various pedagogical methods and ideals. A wide range of important historical and contemporary pedagogy treatises is reviewed. Students explore exercises and vocalises for general voice development as well as techniques to address and correct specific vocal problems. Role-playing exercises are used to develop appropriate listening and teaching skills. Class participants begin supervised instruction of a volunteer singing student.

**Prerequisite(s):** VC 723.

**VC 725 Voice Ped III: Tchng Practicum 3 Credits**

Communication skills are explored and students develop a systematic approach to studio voice instruction. Each student is assigned at least two voice students (one adult and one teenager) to be taught both inside and outside of class. Emphasis is placed on becoming familiar with all voice classifications and basic vocal literature.

**Prerequisite(s):** VC 723.

**VC 726 Voice Research 3 Credits**

Peer reviewed research in voice is evaluated and research methodologies are explored. Class projects include research in historical, qualitative, quantitative, and mixed methods approaches.

**VC 730 The Singing Actor: Opera 3 Credits**

This course entails coaching of selected songs, arias or repertoire from music theater, and techniques for performance preparation through intensive research. A final written project involves a musical and dramatic analysis of all chosen repertoire.

**VC 731 Opera Auditions: Prep & Tech 2 Credits**

This class will explore the many facets of preparing an audition for an opera role, apprentice program, or competition. At least three to four arias in contrasting styles and languages should be prepared for work in class. Areas to be addressed include vocal and dramatic presentation, networking, resume building, make-up, and photo advice. In coordination with the Office of Career Services, panel discussions with invited guests that will explore specific career-related topics will be scheduled.

**Prerequisite(s):** permission of the applied instructor.

**VC 740 Seminar in Music Theater Pedagogy 3 Credits**

Comprehensive study of various pedagogical approaches to teaching Music Theater singing techniques. Students explore exercises and vocalizes for general voice development as well as techniques to address and correct specific vocal problems. Role-playing exercises are used to develop appropriate listening and teaching skills. Class participants begin supervised instruction of a volunteer singing student. The course is offered entirely online and will consist of recorded lectures, reading assignments, group discussions via discussion boards, listening assignments, and other written assignments.

**Prerequisite(s):** VC 723.

**VC 741 Music Theater Literature I 3 Credits**

Survey and analysis of Music Theater literature from its roots in Tin Pan Alley through Kander and Ebb. Students will explore the synergistic relationships among text, music, and style and discuss the influence of society and politics on the genre. The course is offered entirely online and will consist of recorded lectures, reading assignments, group discussions via discussion boards, listening assignments and other written assignments.

**VC 742 Music Theater Literature II 3 Credits**

Survey and analysis of Music Theater Literature from Sondheim to the present. Students will explore the synergistic relationships among text, music, and style and discuss the influence of society and politics on the genre. The class will also discuss the integration of pop/rock and other contemporary substyles within the genre. The course is offered entirely online and will consist of recorded lectures, reading assignments, group discussions via discussion boards, listening assignments and other written assignments.

**VC 753 Spec Topics in Voice Perf Prac 3 Credits**

Intensive performance coaching and lectures in the form of master classes where performance practice in selected topics will be taught by current faculty or distinguished alumni and specialists in their fields.

**Prerequisite(s):** permission of the applied instructor.

**VC 791 Teaching Internship 2 Credits**

Teaching internship with a master teacher(s). The student will teach under faculty observation and supervision, including follow-up private discussion with the observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. May be offered on an intensive basis in conjunction with Westminster Summer Session events, such as The High School Solo Vocal Artist and/or Vocal Institute.

## Master of Music in Sacred Music: Practical Pedagogy Track (Online)

### Overview

This online Sacred Music program offers an education of the highest quality and broadest scope to those musicians who aspire to be leaders of their time and place. An interdenominational program, it seeks to train church musicians to a high level of competency in the traditional ways of making sacred music while also striving to engage students in new ways of achieving liturgical excellence and spiritual depth in practices that respond to the various cultural forces that continue to transform the ways in which worship is accomplished in the 21st-century.

In order to meet the needs of those musicians who may not find it feasible or expeditious to matriculate in the on-campus program offered during the academic year, this pedagogy-based track is delivered entirely

online with the exception of one 3-week period during the summer of the student's own choosing. While still broad and comprehensive in its curricular design, it offers students a chance to focus on the practical side of making music for those who wish to concentrate on either working with children and youth or adults.

	Theory or Music History elective	3
	Core Elective <sup>1</sup>	3
	Choral Festival	2
<b>Concentration Area - Adult Choral</b>		
CR 524	Vocal Techniques for Choirs	3
CR 621	Choral Conducting I (OR Conducting Intensive Workshop - 1 week or Choral Institute at Oxford (must be accepted to conduct, not audit))	3

SM 625	Choral Music for Adults	1
SM 630	Conducting Coaching <sup>2</sup>	1-2
<b>Concentration Area - Children's / Youth Pedagogy</b>		
CR 621	Choral Conducting I (OR Conducting Intensive Workshop - 1 week or Choral Institute at Oxford (must be accepted to conduct, not audit))	3
SM 624	Choral Music for Children	1
SM 635	Choir Training For Children/Youth (OR Kodaly I (offered during the summers on campus))	3
SM 630	Conducting Coaching <sup>2</sup>	1-2
Total Credits		38-40

<sup>1</sup> The core elective must be a single, 3-credit graduate-level course outside the student's major area of emphasis, and or area of applied study.

<sup>2</sup> Recital or approved project will be with their Church or Community Choir. Conducting/Coaching will be via Skype.

### SM 509 Jubilee Singers 1 Credits

This auditioned ensemble is devoted to the performance of sacred music from the African-American tradition.

### SM 510 Conducting Adult Church Choirs: Pedagogy and Management 2 Credits

A practical, skill-based course devoted to the building and maintenance of church music programs serving adults.

### SM 511 Sacred Music Lab 0 Credits

Series of classes that addresses a variety of experiences in Sacred Music while rotating principal themes and ideas. Student preparation of monthly worship settings will put studied concepts into practice.

### SM 512 Conducting Children and Youth Church Choirs: Pedagogy and Management 2 Credits

A practical, skill-based course devoted to the building and maintenance of church music programs serving children and youth.

### SM 517 Concert Handbell Choir II 1 Credits

Open to students who have had previous handbell experience. Intermediate to advanced repertoire, with opportunities for concert performance.

### SM 519 Concert Handbell Choir I 1 Credits

A choir selected by audition from the most experienced and capable bell ringers among the student body at large. This ensemble utilizes advanced repertoire and techniques, aiming primarily at presenting concerts both on and off campus, including a two-week annual tour.

### SM 525 Conductors' Repertoire Ensemble 1 Credits

An auditioned chamber ensemble, offered every semester, which provides conducting podium time and coaching to all interested members. It additionally serves the conducting needs of graduate Sacred Music majors.

**Prerequisite(s):** CR 215 or permission of instructor.

### SM 531 Colloquium in Sacred Music 2 Credits

A lecture series/colloquium intended to address a wide variety of concerns in the field of Sacred Music while rotating principal themes and ideas.

### SM 541 Conducting Church Choirs: Ped & Mgt 3 Credits

A practical course devoted to the building and maintenance of church music programs serving persons of all ages.

**SM 610 Foundations of Music Ministry 2 Credits**

This graduate level course surveys the vocational needs, professional relationships, administrative styles, and teaching roles of the practicing church musician. In addition to an overview of professional standards, emphasis will also be placed on music engraving skills (music notation software), budgeting, recruitment, endowments and fundraising.

**SM 621 Oratorio Solo Literature 3 Credits**

A performance course surveying solo and ensemble portions of oratorios, masses, passions and cantatas from the early Baroque period to the present, with emphasis on appropriate performance techniques for stylistic integrity. Offered in rotation with other Sacred Music electives. 3 Credit hours.

**SM 624 Choral Music for Children 1 Credits**

This course is designed to acquaint the church choral director with repertoire suitable for use with children's and youth choirs. Representative repertoire from all periods of music will be discussed and analyzed. Focus will be on repertoire that can be used during special services throughout the liturgical church year.

**SM 625 Choral Music for Adults 1 Credits**

This course is designed to acquaint the church choral director with repertoire suitable for use with adult choirs and adult ensembles. Representative repertoire from all periods of music will be discussed and analyzed. Focus will be on repertoire that can be used during special services throughout the liturgical church year.

**SM 630 Conducting Coaching 1-2 Credits**

Structured preparation and faculty coaching of the culminating choral recital in the graduate Sacred Music curriculum.

**SM 631 Worship Planning/21st Cent. 3 Credits**

Designed to facilitate the planning of worship, this practical course will be an immersion in the musical and theological materials available to those who create worship.

**SM 632 Collaborative Prep for Worship 1 Credits**

Through seminars, readings and common participation in chapel services, Westminster Choir College and Princeton Theological Seminary students will explore models for pastors and church musicians to prepare collaboratively for worship.

**SM 635 Choir Training For Children/Youth 3 Credits**

A practical course designed to teach students how to organize and direct a comprehensive music program from preschool through high school in the church setting. The course focuses on teaching excellent vocal techniques for each level as well as appropriate music skill development. Other areas of focus include: musical readiness skills; working with preschool singers; understanding the child's voice; the changing voice; and appropriate repertoire for all ages.

**SM 640 Liturgies 3 Credits**

A study of the origins of liturgy, its development in the main Christian traditions, and its relation to ecclesiastical history, with particular attention given to the differing styles and traditions of liturgical music. Contemporary liturgies are viewed against this historical background.

**SM 641 Hymnology 3 Credits**

A study of the origins and development of Christian hymnody, with reference to the theological emphases of various periods from the beginnings to the present, aiming to arouse interest in the textual and musical content of hymns and in their effective use in worship.

**SM 654 German Church Music 3 Credits**

A study of church choral literature by German composers from the 16th century to the present focusing on the pre-Bach and post-Bach cantata. Class performances of selected works. Complements SM 655. Offered in rotation with other Sacred Music electives.

**SM 655 Bach Cantatas 3 Credits**

A study of the history, performance practices, and liturgical setting of the cantatas of J.S. Bach. Class performances of selected cantatas.

**SM 690 Independent Study and Research 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**SM 710 Panorama of Sacred Music 3 Credits**

This graduate-level course is a one-semester survey of those masterworks and significant musical movements that have shaped the evolution of Western Sacred Music. Beginning with the Old Testament, this course will move through all eras, highlighting important composers and liturgical trends, placing them in their appropriate cultural and theological contexts.

**SM 712 Hist of Sacred Music I 3 Credits**

Study and research into the history of Western Christian music and its most important genres beginning with the Old Testament and continuing until the death of J.S. Bach in 1750.

**SM 713 Hist of Sacred Music II 3 Credits**

Continuation of SM 712, beginning with the Classical Viennese Mass and continuing until today. Emphasis on the development of the American church and its worship music.

**SM 722 Theology, Liturgy & Worship 3 Credits**

A detailed study of the Bible. Principal thematic and narrative elements are correlated to the development of the church's historic liturgies and the theological principles behind them.

## Master of Voice Pedagogy: Classical Track

### Program Overview

Westminster's Master of Voice Pedagogy program is offered almost entirely online and is specifically designed to serve the needs of professional singers, voice teachers, school music teachers, and voice coaches who want advanced training in the art and science of voice teaching. For those interested, there is also the option of extensive voice research. Supported by the latest developments in voice science, and thoroughly grounded in practical application, the program offers the most comprehensive training for singing teachers available anywhere. Because of the high standard required for admission to this program, applications will be considered only from candidates who can document professional experience, and who have worked in their chosen field for at least five years since their undergraduate degree was completed.

### Curriculum Overview

At least one course required to fulfill this degree is offered online each semester. Coursework is also offered during Westminster's six-week Summer Session, allowing degree candidates to maintain performance schedules and teaching jobs during the year.

The M.V.P. program includes courses in vocal pedagogy and literature, culminating in a substantial vocal pedagogy project completed under the guidance of a Westminster voice faculty member.

For students who elect applied voice study (fee is charged), weekly studio and performance classes offer frequent performance opportunities. Two fully-staged operas, one with orchestra, are presented each year. Private vocal coaching is available (fee is charged).

Please see the Voice Handbook for language requirements.

**Nova Thomas** • Associate Professor, Voice, 2004. B.M., University of North Carolina, Chapel Hill; M.M., Indiana University.

**Charles J. Walker** • Adjunct Instructor, Voice, 1995. B.M., University of Delaware.

**Sally Wolf** • Adjunct Assistant Professor, Voice, 2001. B.M., Kent State University; Artist Diploma, Curtis Institute of Music.

**Amy Zorn** • Adjunct Assistant Professor, Voice, 1996. B.M., University of Wisconsin, Madison; M.M., Boston University.

## Master of Voice Pedagogy: Classical Track Program Requirements

Learn more about General Graduate Requirements. (p. 1093)

Code	Title	Credits
<b>Major Area</b>		
VC 650	Pedagogy Capstone	1
VC 722	Literature for Teaching	3
VC 723 & VC 724	Voice Ped I: Voice Science and Voice Ped II: Methods	6
VC 791	Teaching Internship <sup>1</sup>	2
<b>Literature Courses</b>		
VC 661	German Lieder	3
VC 662	French Melodie	3
<b>Core</b>		
MH 731	Intro to Musicology	3
Theory or Music History elective (1 course)		3
Core elective <sup>2</sup>		3
<b>Electives</b>		
Free electives <sup>3</sup>		5
Total Credits		32

<sup>1</sup> Students who have had significant teaching experience in American schools may petition to substitute another graduate course for VC 791. The department, if granting, will specify acceptable course alternatives.

<sup>2</sup> The core elective must be a single, 3-credit graduate-level course outside the student's major area, area of emphasis and/or area of applied study.

<sup>3</sup> Students may fulfill free elective requirements through completion of summer workshops and/or Saturday Seminars with prior approval of the Voice Department.

Notes

- Students with limited prior singing experience, as determined through departmental evaluation of past vocal study, performance career and/or performing skill as demonstrated through live or recorded performance, may be required to complete up to four credits of applied voice instruction in addition to the major area course requirements. Such required developmental lessons will result in additional charges.
- In addition to the above requirements, all students must demonstrate competency in at least two of the three major European singing languages (Italian, German, French). This may occur through completion of at least one year of college-level study in each language, intensive work through language institutes or practical experience living and/or working in a foreign country, as verified by diagnostic testing at Westminster.

## Academic Plan of Study

The following educational plan is provided as a sample only. Students may follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

Code	Title	Credits
<b>Pedagogy Courses</b>		
It is preferable that the pedagogy courses be taken in the following order:		
VC 723	Voice Ped I: Voice Science	3

Core elective <sup>2</sup>		3
Free Electives <sup>3</sup>		5
<b>Total Credits</b>		<b>32</b>

### Footnotes

- <sup>1</sup> Students who have had significant teaching experience in American schools may petition to substitute another graduate level course for VC 791. The department, if granting a substitution, will specify acceptable course alternatives.
- <sup>2</sup> The core elective must be a single, 3-credit graduate-level course outside the student's major area, area of emphasis and/or area of applied study.
- <sup>3</sup> Students may fulfill free elective requirements through completion of summer workshops and/or Saturday Seminars with prior approval of the Voice Department.

### Notes

1. Students with limited prior singing experience, as determined through departmental evaluation of past vocal study, performance career and/or performing skill as demonstrated through live or recorded

performance, may be required to complete up to four (4) credits of applied voice instruction in addition to the major area course requirements. Such required developmental lessons will result in additional charges.

2. In addition to the above requirements, all students must demonstrate competency in at least two of the three major European singing languages (Italian, German, French). This may occur through completion of at least one year of college-level study in each language, intensive work through language institutes, or practical experience living and/or working in a foreign country, as verified by diagnostic testing at Westminster.

## Courses and Descriptions

### MH 731 Intro to Musicology 3 Credits

Introduction to the basic tools of research in historical musicology in order to foster: (1) an awareness of the nature and scope of historical musicology as a scholarly discipline; (2) familiarity with the techniques of musicological research; (3) an understanding of the relationship between musicological research and performance practice; and (4) experience in the application of musicological techniques to specific musical works and issues. It is strongly recommended that this course be taken at the outset of graduate study. Required for all Master of Music candidates.

### VC 650 Pedagogy Capstone 1 Credits

Independent research leading to a completed capstone project, such as a pedagogical publication or presentation, development of an original or unique method of instruction, instructional materials, etc. The project must be approved by the department.

### VC 661 German Lieder 3 Credits

This survey of the German Lieder begins with its roots in the 17th and 18th centuries and continues into the 20th century. Classes will involve study of Romanticism, including philosophers and poets of the 18th and 19th centuries who were important for German Lieder. The bulk of the class involves in-depth study of the Lieder of the important composers of the genre: Haydn, Mozart, Schubert, Robert and Clara Schumann, Mendelssohn, Liszt, Brahms, Wolf, Strauss, Mahler, Schoenberg, Berg, and Webern. Class sessions will involve a balance of lecture, discussion, and student performance.

### VC 662 French Melodie 3 Credits

This course is designed as a survey of the song literature of France. Students examine works for voice and piano/instruments by Berlioz, Gounod, Saint-Saëns, Bizet, Faure, Duparc, Chausson, Debussy, Ravel, Messaien, Milhaud, Poulenc, and others, analyzing their relationship to larger stylistic, social, and musicological trends. Investigation will include matters of prosody, scansion, and compositional organization, with particular attention given to matters of text setting and poetic treatment. Special emphasis will be placed on important French language poets whose literary works serve as the basis for this material. Poets will include Baudelaire, Verlaine, Hugo, Rimbaud, Mallarmé, LaForgue, Maeterlinck, and others. Poetic history and form will be covered as well as important composer/poet partnerships. Class sessions will involve a balance of lecture and discussion. Works by both well-known and lesser-known composers will be included.

### VC 722 Literature for Teaching 3 Credits

A survey of graduated teaching literature for beginning, intermediate and advanced voice students. Literature will be explored that is particularly well-suited to specific vocal issues (e.g. legato, coloratura, staccato, etc.)

**Prerequisite(s):** VC 723, VC 724.

**VC 723 Voice Ped I: Voice Science 3 Credits**

Study of voice anatomy and physiology with concentration on respiration, phonation, articulation, hearing and vocal health. Through hands-on experience in the Westminster Voice Laboratory, students explore the physics of sound, the fundamentals of musical acoustics, and acoustical elements that are unique to the human voice. Priority registration is given to M.V.P. majors and M.M. students majoring in Voice Performance and Pedagogy. Other students may enroll on a space-available basis.

**VC 724 Voice Ped II: Methods 3 Credits**

A comparative study of various pedagogical methods and ideals. A wide range of important historical and contemporary pedagogy treatises is reviewed. Students explore exercises and vocalises for general voice development as well as techniques to address and correct specific vocal problems. Role-playing exercises are used to develop appropriate listening and teaching skills. Class participants begin supervised instruction of a volunteer singing student.

**Prerequisite(s):** VC 723.

**VC 791 Teaching Internship 2 Credits**

Teaching internship with a master teacher(s). The student will teach under faculty observation and supervision, including follow-up private discussion with the observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. May be offered on an intensive basis in conjunction with Westminster Summer Session events, such as The High School Solo Vocal Artist and/or Vocal Institute.

## Master of Voice Pedagogy: Music Theatre Track

### Overview

Westminster's Master of Voice Pedagogy program is offered entirely online and is specifically designed to serve the needs of professional singers, voice teachers, school music teachers, and voice coaches who want advanced training in the art and science of voice teaching. This particular track focuses on the pedagogy and science associated with music theater genres. Supported by the latest developments in voice science, and thoroughly grounded in practical application, the program offers the most comprehensive training for singing teachers available anywhere in an entirely online format. Preference is given to candidates who can document professional experience and who have worked in their chosen field for at least three years since their undergraduate degree was completed.

#### Curriculum Overview

At least one course required to fulfill this degree is offered online each semester. Coursework is also offered during Westminster's six-week Summer Session, allowing degree candidates to maintain performance schedules and teaching jobs during the year.

The M.V.P. MT Track includes courses in music theater pedagogy and literature, culminating in a substantial vocal pedagogy project completed under the guidance of a Westminster voice faculty member.

### Degree Offered

## Courses and Descriptions

### MH 731 Intro to Musicology 3 Credits

Introduction to the basic tools of research in historical musicology in order to foster: (1) an awareness of the nature and scope of historical musicology as a scholarly discipline; (2) familiarity with the techniques of musicological research; (3) an understanding of the relationship between musicological research and performance practice; and (4) experience in the application of musicological techniques to specific musical works and issues. It is strongly recommended that this course be taken at the outset of graduate study. Required for all Master of Music candidates.

### VC 650 Pedagogy Capstone 1 Credits

Independent research leading to a completed capstone project, such as a pedagogical publication or presentation, development of an original or unique method of instruction, instructional materials, etc. The project must be approved by the department.

### VC 722 Literature for Teaching 3 Credits

A survey of graduated teaching literature for beginning, intermediate and advanced voice students. Literature will be explored that is particularly well-suited to specific vocal issues (e.g. legato, coloratura, staccato, etc.)

**Prerequisite(s):** VC 723, VC 724.

### VC 723 Voice Ped I: Voice Science 3 Credits

Study of voice anatomy and physiology with concentration on respiration, phonation, articulation, hearing and vocal health. Through hands-on experience in the Westminster Voice Laboratory, students explore the physics of sound, the fundamentals of musical acoustics, and acoustical elements that are unique to the human voice. Priority registration is given to M.V.P. majors and M.M. students majoring in Voice Performance and Pedagogy. Other students may enroll on a space-available basis.

### VC 740 Seminar in Music Theater Pedagogy 3 Credits

Comprehensive study of various pedagogical approaches to teaching Music Theater singing techniques. Students explore exercises and vocalizes for general voice development as well as techniques to address and correct specific vocal problems. Role-playing exercises are used to develop appropriate listening and teaching skills. Class participants begin supervised instruction of a volunteer singing student. The course is offered entirely online and will consist of recorded lectures, reading assignments, group discussions via discussion boards, listening assignments, and other written assignments.

**Prerequisite(s):** VC 723.

**VC 741 Music Theater Literature I 3 Credits**

Survey and analysis of Music Theater literature from its roots in Tin Pan Alley through Kander and Ebb. Students will explore the synergistic relationships among text, music, and style and discuss the influence of society and politics on the genre. The course is offered entirely online and will consist of recorded lectures, reading assignments, group discussions via discussion boards, listening assignments and other written assignments.

**VC 742 Music Theater Literature II 3 Credits**

Survey and analysis of Music Theater Literature from Sondheim to the present. Students will explore the synergistic relationships among text, music, and style and discuss the influence of society and politics on the genre. The class will also discuss the integration of pop/rock and other contemporary substyles within the genre. The course is offered entirely online and will consist of recorded lectures, reading assignments, group discussions via discussion boards, listening assignments and other written assignments.

**VC 791 Teaching Internship 2 Credits**

Teaching internship with a master teacher(s). The student will teach under faculty observation and supervision, including follow-up private discussion with the observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. May be offered on an intensive basis in conjunction with Westminster Summer Session events, such as The High School Solo Vocal Artist and/or Vocal Institute.

## **ACADEMIC SUPPORT SERVICES**

---

Rider University offers a wide array of academic support services.

Additional information regarding each of these can be found on Rider's Web site (<http://www.rider.edu/academics/academic-support-services>).  
(<http://www.rider.edu/academics/academic-support-services>)

### **Registrar** (<http://www.rider.edu/academics/academic-support-resources/registrar>)

Responsible for academic records, registration processing, degree and attendance verification, transcripts, grade reporting, veterans services, and maintenance of the student and course information system.

### **Career Development and Success** (<http://www.rider.edu/careerservices>)

Provides resume assistance, interview preparation, job search/postings, networking, career fairs, graduate school preparation, alumni services, employer partnerships and more.

### **Student Support Services** (<http://www.rider.edu/academics/academic-support-resources/student-support-services>)

A comprehensive academic support program designed to increase performance, retention and graduation rates, primarily of first-generation college students.

### **Academic Success Center** (<http://www.rider.edu/academics/academic-support-resources/student-success-center>)

Offers free tutoring and other programs to enhance learning and development.

### **Services for Students with Disabilities** (<http://www.rider.edu/academics/academic-support-resources/services-students-disabilities>)

Ensures equal access by providing services for all students with qualifying documented disabilities.

### **Reading Courses** (<http://www.rider.edu/academics/academic-support-resources/reading-courses>)

Rider University offers an introductory course in College Reading, CRC 100.

## Spring Semester 20 (p. 1137)20

- Withdrawal Information (p. 1138)
- Course Cancellations (p. 1138)
- Commencement Information (p. 1138)

## Fall Semester 2019

### August

27 Tuesday	Graduate Testing
28 Wednesday	New Student move-in
28-30 Wednesday-Friday	Undergraduate Testing, Orientation, Choral Hearings/Ensemble Auditions
29 Thursday	Returning Student move-in
30 Friday	Registration

### September

2 Monday	Labor Day - College Closed
3 Tuesday	Lawrenceville Convocation • SRC • 11 a.m. WCC Fall Convocation • Bristol Chapel • 4:30 p.m. Westminster Choir callbacks • 6:30 p.m.
4 Wednesday	Classes Begin
10 Tuesday	Last day to add courses
16 Monday	Unresolved Summer II Incomplete grades default to "F"
17 Tuesday	Last day to drop courses
Sept 18-Oct 22	Withdrawal Period I, instructor signature not required

### October

1 Tuesday	Deadline to apply for December 2019 or January 2020 graduation
14 Monday	Spring 2020 course selection begins
21 Monday	PRINCETON CAMPUS FALL INTERMEZZO Classes at or after 6:30 pm will be held - no weekend events on 10/19 or 10/20 except Saturday Seminar
22 Tuesday	Last day for course withdrawal without instructor's signature Midterm grades due
Oct 23-Nov 19	Withdrawal Period II, instructor's signature required

### November

1 Friday	Deadline to schedule fall oral examination
1 Friday	Spring 2020 course selection ends
1-3 Friday-Sunday	Family Weekend
19 Tuesday	Last day for course withdrawal with instructor's signature
Nov 20-Dec. 6	Withdrawal III, psychological or physiological incapacity (medical documentation required)
27 Wednesday	Residence halls close • 12 p.m.

27-30 Wednesday-Saturday Thanksgiving Recess

### December

1 Sunday	Residence halls reopen • 11 a.m.
2 Monday	Classes resume
7 Saturday	Last day of classes (LAW)
9 Monday	Last day of classes (WCC)
9 Monday	Last day to hold Graduate Oral Examination
9 Monday	Exam date for Monday evening classes
10-13 Tuesday-Friday	Final Exams and Juries (WCC)
11 Wednesday	Exams for Monday WCC daytime and all Wednesday evening classes
13-14 Friday-Saturday	Readings and Carols
14-15 Saturday-Sunday	Reading Days
16-17 Monday-Tuesday	Final Exams and Juries (WCC)
18 Wednesday	Residence halls close • 12 p.m.
20 Friday	Final grades due • 12 p.m.

## Spring Semester 2020

### January

6 Monday	January Term begins
20 Monday	Martin Luther King, Jr. Day (Entire University Closed)
23 Thursday	January Term ends
23-24 Thursday-Friday	Orientation for new students
24 Friday	Registration for Spring 2020 New student choral hearings Unresolved Fall 2019 Incomplete grades default to "F"
25 Saturday	Residence halls open • 9 a.m.
27 Monday	Classes begin
31 Friday	Last day to add courses

### February

7 Friday	Last day to drop courses
10 Monday	Withdrawal Period I begins, instructor's signature not required
14 Friday	Deadline to apply for May 2020 graduation

### March

9 Monday	Fall 2020 course selection begins
13 Friday	Last day for course withdrawal without instructor's signature Midterm grades due
14 Saturday	Residence halls close • 12 p.m.
March 16-April 17	Withdrawal Period II, instructor's signature required
16-20 Monday-Friday	Spring Break; no classes or lessons

22 Sunday	Residence halls reopen • 2 p.m.
23 Monday	Classes Resume

## April

1 Wednesday	Deadline to schedule spring oral examination
1 Wednesday	Deadline for summer graduates to declare intent to participate in May Commencement
3 Friday	Fall 2020 Course Selection ends
17 Friday	Last day for course withdrawal with instructor's signature
18 Saturday	Spring Fling
April 20-May 1	Withdrawal III, psychological or physiological incapacity (medical documentation required)
23 Thursday	Westminster Spring Convocation • Bristol Chapel • 11:30 a.m.

## May

1 Friday	Last day to hold Graduate Oral Examination
	Last day of classes
4-5 Monday-Tuesday	Final Exams and Juries
6 Wednesday	Reading Day
7-8 Thursday-Friday	Final Exams and Juries
9-10 Saturday-Sunday	Reading Days
11-12 Monday-Tuesday	Final Exams and Juries
14-16 Thursday-Saturday	Alumni Week
15 Friday	Final grades due • 12 p.m.
15 Friday	Lawrenceville Commencement
16 Saturday	Residence halls close • 8 p.m.
16 Saturday	Westminster Commencement • Princeton University Chapel • 10:00 a.m.
18 Monday	Summer Session I begins

## June

1 Monday	Deadline to apply for August 2020 graduation
1 Monday	Deadline to schedule summer oral examination
12 Friday	Unresolved Spring 2020 Incomplete grades default to "F".
	Last day of classes of Summer Session II is the last day to hold summer Graduate Oral Examination

## Withdrawal Information

Please refer to [www.rider.edu/offices-services/finaid/payments-billing-deposits/refunds](http://www.rider.edu/offices-services/finaid/payments-billing-deposits/refunds) (<http://www.rider.edu/offices-services/finaid/payments-billing-deposits/refunds>) for information regarding course withdrawals and refunds.

For additional information and updates, go to [www.rider.edu](http://www.rider.edu) (<http://www.rider.edu>)

## Cancellation of Classes

In most cases, Westminster Choir College of Rider University will remain open and fully operational during snowstorms and other emergency situations. Under extreme circumstances, however, it may become necessary to cancel classes and other functions, and close certain buildings or take emergency actions.

If such circumstances should arise, a notice will be sent via the Rider Alert System.

Students may sign up for Rider Alert at [www.rider.edu/rideralert](http://www.rider.edu/rideralert) (<http://www.rider.edu/rideralert>)

Cancellations will also be announced online at [www.rider.edu](http://www.rider.edu) (<http://www.rider.edu>) and on the Rider University information hotline at 609-219-2000, option 1.

## Commencement Information

For Commencement ceremonies information, go to [www.rider.edu/commencement](http://www.rider.edu/commencement) (<http://www.rider.edu/commencement>)

# FACULTY

---

## Frank Abrahams

Professor, Music Education, 1992. B.M.E., Temple University; M.M., New England Conservatory; Ed.D., Temple University.

## Christopher Arneson

Professor, Voice, 2003. B.A., M.M., Binghamton University; D.M.A., Rutgers University.

## Susan S. Ashbaker

Associate Professor, Voice, 2006. B.M., M.M., Southern Illinois University; M.M., University of Illinois.

## Lauren Athey-Janka

Adjunct Assistant Professor, Voice. B.M. Boston University, M.M., Westminster Choir College of Rider University.

## Dalton Baldwin

Adjunct Professor, Piano, 1984. B.A., Oberlin Conservatory.

## Ena Bronstein Barton

Adjunct Associate Professor, Piano, 1983. Artist Diploma, Escuela Moderna de Musica and Conservatorio Nacional de Musica, Santiago, Chile.

## Ryan Brandau

Adjunct Assistant Professor, Conducting, 2012. A.B., Princeton University; M.Ph., University of Cambridge; M.M., D.M.A., Yale University.

## Victoria Browsers

Adjunct Assistant Professor, Voice, 2017. B.M., Ohio Wesleyan University, M.M. Westminster Choir College of Rider University; D.M.A. State University of New York at Stony Brook.

## Elly Sparks Brown

Adjunct Assistant Professor, Arts and Sciences, 2013. B.A., Seton Hill University; M.A., The Catholic University of America; M.Div., Virginia Theological Seminary; D.Min., Wesley Theological Seminary.

## Vinroy Brown

Adjunct Instructor, Sacred Music, 2017. B.M., Westminster Choir College of Rider University; M.A., Regent University.

## Janet Cape

Associate Professor and Chair, Music Education, 2010. B.M., University of Victoria; M.M., Arizona State University; D.M.A., Arizona State University.

## Christian Carey

Associate Professor, Theory, 2004. B.M., Juilliard; M.M., Boston University; Ph.D., Rutgers University.

## Victoria Chow

Adjunct Assistant Professor, Piano, 2018. B.M., M.M., Westminster Choir College.

## Ingrid Clarfield

Professor, Piano, 1982. B.M., Oberlin College; M.M., Eastman School of Music, University of Rochester.

## Margaret Cusack

Professor, Voice, and Chair of Voice and Piano Faculties, 1994. B.M., M.M.T., Oberlin College.

## Elem Eley

Professor, Voice, 1987. B.M., Baylor University; M.M., Southwestern Baptist Theological Seminary.

## Rochelle Ellis

Adjunct Assistant Professor, Voice, 1995. B.M.E., University of Missouri, Kansas City; M.M.E., Westminster Choir College of Rider University.

## Faith Esham

Adjunct Assistant Professor, Voice, 2000. B.A., Columbia Union College; B.M., M.M., The Juilliard School.

## Harold Evans

Adjunct Assistant Professor, Voice, 2007. B.S., West Chester State College; M.M., Indiana University.

## Charles Frantz

Adjunct Associate Professor, Theory/Music History, 2000. B.M., M.M., Temple University; Ph.D., Rutgers University.

## James Goldsworthy

Professor, Piano, 1996. B.M., M.M., Southern Methodist University; D.M.A., Stanford University.

## R. Douglas Helvering

Adjunct Associate Professor, Theory, 2009. B.M., University of Nebraska; M.M., Westminster Choir College of Rider University; D.M.A., University of Kansas.

## Ronald A. Hemmel

Professor, Theory, and Director, Music Computing Center, 1994. B.M., Westminster Choir College of Rider University; M.M., James Madison University; M.Phil., Ph.D., Rutgers University.

## Nancy Froyland Hoerl

Adjunct Assistant Professor, Voice, 1995. B.A., Moorhead State University; M.M., Westminster Choir College of Rider University.

## Eric Hung

Adjunct Associate Professor, Music History, 2004. A.R.C.T., Royal Conservatory of Music; B.A., Wesleyan University; Ph.D., Stanford University.

## Katherine Johnson

Adjunct Assistant Professor, Voice, 2006. B.M., University of Calgary; M.M., Manhattan School of Music.

## Rachelle Jonck

Adjunct Associate Professor, Voice, 2007. B.M., University of Stellenbosch (South Africa)

## James Jordan

Professor, Conducting, 1991. B.M., Susquehanna University; M.M., Ph.D., Temple University.

## Sangmi Kang

Assistant Professor, Music Education, 2018. B.M., M.M., Seoul National University; Ph.D., University of Florida.

## Jay Kawarsky

Professor, Theory, 1989. B.M.E., Iowa State University; M.M., D.M., Northwestern University.

## Anthony Kosar

Professor, Music Composition, History, & Theory, 1984. B.M., West Liberty State College; M.M., Southern Illinois University; Ph.D., The Ohio State University.

**David Leifer**

Adjunct Assistant Professor, Piano, 2011. B.M., M.M., Westminster Choir College of Rider University; D.M.A., University of Michigan.

**Elena Livingstone-Ross**

Adjunct Assistant Professor, Arts and Sciences, 1995. Graduate, Polytechnic Institute of Leningrad; B.A., Grinnell College; M.A., Princeton University.

**Robin Massie**

Adjunct Assistant Professor, Voice, 2008. B.M., Westminster Choir College of Rider University; M.M., Yale University.

**Carmen Mateiescu**

Adjunct Assistant Professor, Theory/Music History, 2007. B.M., M.M., University of Music (Bucharest); Ph.D., Rutgers University.

**Sean McCarther**

Associate Professor, Voice, 2012. B.M., Baylor University; M.M., D.M., Indiana University.

**Ute Mehnert**

Adjunct Assistant Professor, Arts and Sciences, 2011. M.A., Ph.D., University of Cologne.

**Joe Miller**

Professor, Conducting, Organ and Sacred Music, 2006. B.S., University of Tennessee; M.M., D.M.A., College-Conservatory of Music, University of Cincinnati.

**Sharon Mirchandani**

Professor, Theory, 1997. B.M., Bowling Green State University; M.M., Temple University; Ph.D., Rutgers University.

**Mark Moliterno**

Adjunct Associate Professor, Voice, 2005. B.M., M.M., Oberlin College Conservatory of Music.

**Maureen Murphy-Fernandez**

Adjunct Instructor, Music Education, 2016. B.S., West Chester University.

**Marshall Onofrio**

Professor, Music Education, 2007. B.M., B.S., University of Connecticut; M.M., University of Illinois; M.M., University of Nebraska-Lincoln; D.M.A., The Ohio State University.

**Carolann Page**

Adjunct Assistant Professor, Voice, 2008. B.M., Curtis Institute of Music.

**Thomas Parente**

Associate Professor, Piano, 1993. B.A., Jersey City State College; B.M., Manhattan School of Music; M.A., Rutgers University; Dalcroze Eurhythmics License, Longy School of Music; Ed.D., Teachers College, Columbia University.

**Joel Phillips**

Professor, Theory, 1985. M.M., Eastman School of Music, University of Rochester; B.M., D.M.A., University of Alabama.

**Steve Pilkington**

Associate Professor, Sacred Music, and Director of Chapel, 1992. B.A., St. Olaf College; M.M., University of Illinois; Ph.D., Drew University.

**Agnes Poltorak**

Adjunct Assistant Professor, Piano, 2000. B.M., University of British Columbia, Canada; M.M., Westminster Choir College of Rider University.

**Kathy Kessler Price**

Associate Professor, Voice, 2012. B.A., University of Richmond; M.M., University of Maryland; Ph.D., University of Kansas, Lawrence.

**Justin Proffitt**

Adjunct Instructor, Piano, 2012. B.M., Bob Jones University; M.M., Westminster Choir College of Rider University.

**Jason N. Roberts**

Adjunct Assistant Professor, Organ, 2017. B.M., Rice University; M.M., Yale University; D.M.A., Manhattan School of Music

**Elizabeth Scheiber**

Professor, Voice, 2002. B.A., Western Kentucky University; M.A. Indiana University; Ph.D. Indiana University.

**Kathleen Scheide**

Adjunct Assistant Professor, Harpsichord, 2006. B.M., M.M., New England Conservatory, D.M.A., University of Southern California.

**Debra Scurto-Davis**

Adjunct Assistant Professor, Voice, 2004. B.M.E., Evangel College; M.M., Baylor University; S.M., University of Michigan.

**Kathleen Ebling Shaw**

Adjunct Instructor, Sacred Music, 1991. B.M., Westminster Choir College of Rider University.

**Tom T. Shelton, Jr.**

Associate Professor, Sacred Music, 2012. B.M., M.M., University of North Carolina at Greensboro.

**Betty Handelman Stoloff**

Adjunct Associate Professor, Piano, 1978. B.M.A., University of Michigan; M.A., Columbia University.

**Elizabeth Sutton**

Adjunct Assistant Professor, Voice, 2005. B.A., Bowling Green State University; M.M., College-Conservatory of Music, University of Cincinnati.

**Sharon Sweet**

Professor, Voice, 1999. B.S., Roberts Wesleyan College; M.M., Ithaca College.

**Robert Terrio**

Associate Professor-Librarian, 2002. B.M., Berklee College of Music; M.M., University of Massachusetts; M.L.S., Rutgers University.

**Nova Thomas**

Associate Professor, Voice, 2004. B.M., University of North Carolina, Chapel Hill; M.M., Indiana University.

**Timothy Urban**

Adjunct Assistant Professor, Theory, 2005. B.M., M.S., State University of New York Environmental Science & Forestry; M.M., State University of New York, Binghamton; M.S.A., Sarah Lawrence College; M.A., Ph.D., Rutgers University.

**Jason Vodicka**

Assistant Professor, Music Education, 2018. B.M., M.M., Westminster Choir College of Rider University; D.M.A., University of Georgia.

**Charles J. Walker**

Adjunct Instructor, Voice, 1995. B.M., University of Delaware.

**Reba Wissner**

Adjunct Assistant Professor, Theory, 2015. B.A., Hunter College; M.F.A., Ph.D., Brandeis University.

**Sally Wolf**

Adjunct Assistant Professor, Voice, 2001. B.M., Kent State University; Artist Diploma, Curtis Institute of Music.

**Stefan Young**

Professor, Theory, 1979. B.M., Rollins College; M.M., The Juilliard School; Ph.D., Rutgers University.

**Amy Zorn**

Adjunct Assistant Professor, Voice, 1996. B.M., University of Wisconsin, Madison; M.M., Boston University.

## Faculty Emeriti

**Barton Bartle**

Professor Emeritus, Theory. 1973. B.M., M.M., University of Michigan; Ph.D., University of Illinois.

**Robert Carwithen**

Adjunct Professor Emeritus, Organ. B.M., Curtis Institute of Music; M.M., Westminster Choir College of Rider University.

**Harriet Chase**

Professor Emerita, Theory. B.M., University of Wisconsin; M.M., Eastman School of Music, University of Rochester; Ph.D., Indiana University.

**Mi-Hye Chyun**

Associate Professor-Librarian Emerita. B.A., Sungkyunkwan University, Seoul; M.L.S., University of Maryland.

**Diana Crane**

Professor Emerita, Voice, 1986. B.A., Leicester University, England; M.Ed., London University.

**William Dalglish**

Associate Professor Emeritus, Music History. B.M., Southeastern Louisiana College; M.M., Indiana University.

**Robert Evans**

Professor Emeritus, Arts and Sciences. B.A., Stanford University; B.D., Princeton Theological Seminary; D.Theol., University of Basel, Switzerland.

**Thomas Faracco**

Associate Professor Emeritus, Voice. 1983. B.M., M.M., Westminster Choir College of Rider University.

**Ronald Filler**

Professor Emeritus, Music Education, 1985. B.A., Union College; M.A., Rider College; M.S., D.Ed., University of Tennessee.

**Joseph Flummerfelt**

Professor Emeritus, Conducting. B.S.M., DePauw University; M.M., Philadelphia Conservatory of Music; D.M. (hon.), DePauw University; D.M.A., University of Illinois.

**Anne Ackley Gray**

Professor Emerita, Voice, 1982. B.A., Sarah Lawrence College; M.M., New England Conservatory.

**Jeannette Jacobson**

Associate Professor-Librarian Emerita. B.S., University of Wisconsin, Stevens Point; M.S. in L.S., University of Wisconsin.

**Helen Kemp**

Professor Emerita, Church Music and Voice. B.M., D.M. (hon.), Westminster Choir College of Rider University.

**Marvin Keenze**

Professor Emeritus, Voice, and Co-Director, Voice Resource Center, 1976. B.M., M.M., Westminster Choir College of Rider University.

**Lois Lavery**

Professor Emerita, Voice. B.M., M.M., Westminster Choir College; Artist's Diploma, Vienna Academy of Music, Austria.

**Robin A. Leaver**

Professor Emeritus, Sacred Music, 1984. Dipl. in Theol., Trinity College, Bristol, England; D.Theol., State University of Groningen, Netherlands.

**Phyllis Lehrer**

Professor Emerita, Piano, 1975. A.B., University of Rochester; M.S., Juilliard School.

**Joan Hult Lippincott**

Professor Emerita, Organ. B.M., M.M., Westminster Choir College of Rider University.

**Donald McDonald**

Professor Emeritus, Organ. B.M. Curtis Institute of Music; M.S.M., S.M.D., Union Theological Seminary.

**Jane Nowakowski**

Associate Professor-Librarian Emerita. B.M. Westminster Choir College of Rider University; M.L.S. Rutgers University.

**Frances Poe**

Professor Emerita, Music Education. B.M., University of Georgia; M.M., Ph.D., Indiana University.

**Laura Brooks Rice**

Professor Emerita, Voice, 1985. B.M., Georgia Southern College; M.M., Indiana University.

**Nancy Wicklund**

Professor-Librarian Emerita, 1970. B.M., Westminster Choir College; M.S. in L.S., Drexel University.

**Peter D. Wright**

Professor Emeritus, Theory/Music History, 1965. B.S., Juniata College; M.A., Ph.D., Eastman School of Music, University of Rochester.

**David Stanley York**

Professor Emeritus, Theory. B.M., Yale University; M.M., Westminster Choir College of Rider University.

# UNDERGRADUATE COURSES AND DESCRIPTIONS

## Arts (AR)

### AR 111 Survey of Art History I 3 Credits

A survey of Western art - architecture, sculpture, painting - from prehistoric times, is presented against the background of chronological and intellectual history.

### AR 112 Survey of Art History II 3 Credits

Crucial artistic tendencies in Western art of the 19th and 20th centuries are introduced and discussed against their historical and intellectual setting. A brief background of art history from previous centuries is presented in order to appreciate these developments.

### AR 216 Acting I 3 Credits

This course provides an introduction to basic techniques of realistic acting using exercises, improvisation and scene study. The emphasis is on honesty and commitment to action in order to be able to create real life in an imaginary world.

### AR 217 Improvisation & Movement 3 Credits

Using theater games, students explore themselves as individuals and members of a group. The course uses scenes, skits, dances and games to help students overcome their fears and insecurities, enabling them to develop their creativity, spontaneity, honesty, concentration, and commitment to action. The class also explores body movement as a means of heightening dramatic expression.

## Arts and Sciences (AS)

### AS 490 Independent Research and Study 1-3 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

### AS 491 Arts & Science Internship 1-12 Credits

This course requires 95 hours for each three credits for which the student enrolls. The student is required to spend 13 weeks of on-site participation in a broad range of daily operations at an internship site. In addition, there are group meetings with all students participating in internships and site-analysis assignments given under the direction of Arts and Sciences faculty. Students may enroll for a maximum of 12 credits of internships.

**Prerequisite(s):** at least junior level standing.

## Conducting (CR)

### CR 109 Chapel Choir 1 Credits

Comprised of undergraduate students in their first year of study, Chapel Choir focuses on music for men's, women's, and mixed chorus. The ensemble provides the fundamentals of artistic choral ensemble singing and a foundation for all Westminster choral ensembles. Placement hearing required.

### CR 209 Schola Cantorum 1 Credits

Comprised of undergraduate students in their second year of study, Schola Cantorum focuses on music for mixed chorus and continues to build and refine the skills developed in Chapel Choir. This ensemble presents campus, community, and regional performances. Placement hearing required.

### CR 215 Fundamentals of Conducting 3 Credits

This course provides the foundation of conducting technique and philosophy as it relates to choral ensemble. Primarily, it deals with the development of basic pedagogical proficiencies, specifically alignment, Laban gestural vocabulary, breathing, beat patterns, consistent tempo, and the development of expressive gesture for relaying various styles of music, i.e., legato, staccato and marcato. Basic philosophical understandings concerning the human aspects of the music making process and the role the conductor plays in that process also are emphasized. Specific techniques for dealing with technical elements, e.g., fermata, dynamics, changes of tempo, contrasts in style, also are covered. The overall focus of the course is to establish the important relationship between ear, body, and the choral sound.

**Prerequisite(s):** TH 141.

### CR 315 Techniques of Conducting 3 Credits

Continued development of conducting technique with emphasis on more complex styles and patterns, and on communication through appropriate gestures. Further improvement in conducting various dynamics and articulations, as well as more effective use of the left hand. Rehearsal procedures, repertoire programming, score preparation, and baton techniques are incorporated into the course.

**Prerequisite(s):** CR 215.

### CR 490 Independent Study and Research 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

## Harpichord (HP)

### HP 101B Harpichord Primary 1 Credits

### HP 101C Harpichord Elective 2 Credits

### HP 101D Harpichord Elective 1 Credits

### HP 101E Harpichord Elective 2 Credits

### HP 101F Harpichord Elective 1 Credits

### HP 101G Harpichord Elective 2 Credits

### HP 201B Harpichord Primary 1 Credits

## Language/Literature (LL)

### LL 037 College Reading and Writing 3 Credits

Required for students placed into this course as a result of the basic skills English testing program. This intensive course reviews effective reading, writing, and study processes and leads students to the level of mastery required to begin LL 131 English Composition the following semester.

**LL 131 English Composition 3 Credits**

An intensive essay writing course that provides students with the analytical, rhetorical and research skills needed to write well in many disciplines. Source-based writing is emphasized, culminating in a significant research project. In-class and outside-class writing methods are explored, leading students to master their individual writing processes.

**Prerequisite(s):** LL 037 or satisfactory score on basic skills English test.

**LL 141 French I 3 Credits**

This course is an integrated approach to the study of French language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening, and speaking).

**LL 142 French II 3 Credits**

This course is an integrated approach to the study of French language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening, and speaking).

**Prerequisite(s):** minimum "C" grade in LL 141.

**LL 145 Italian I 3 Credits**

This course is an integrated approach to the study of Italian language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening, and speaking).

**LL 146 Italian II 3 Credits**

This course is an integrated approach to the study of Italian language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening, and speaking).

**Prerequisite(s):** minimum "C" grade in LL 145.

**LL 151 German I 3 Credits**

This course is an integrated approach to the study of German language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**LL 152 German II 3 Credits**

This course is an integrated approach to the study of German language and culture. It is designed to develop basic grammar, vocabulary and conversation with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 151.

**LL 243 French III 3 Credits**

This course is an integrated approach to the study of French language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in French with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 142.

**LL 244 French IV 3 Credits**

This course is an integrated approach to the study of French language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in French with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 243.

**LL 247 Italian III 3 Credits**

This course is an integrated approach to the study of Italian language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in Italian with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 146.

**LL 248 Italian IV 3 Credits**

This course is an integrated approach to the study of Italian language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in Italian with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 247.

**LL 253 German III 3 Credits**

This course is an integrated approach to the study of German language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in German with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 152.

**LL 254 German IV 3 Credits**

This course is an integrated approach to the study of German language and culture. It is designed to strengthen grammatical mastery, to build vocabulary and to encourage lively and meaningful communication in German with the purpose of developing proficiency in all four language skills (reading, writing, listening and speaking).

**Prerequisite(s):** minimum "C" grade in LL 253.

**LL 280 Sacred Texts and Literature 3 Credits**

Explore the cultural, theological, and artistic contexts of key themes (e.g. creation, journey, forgiveness, love) in the sacred texts of the major historical world religions as they are portrayed in contemporary poetry and drama, and in novels that have been adapted to film

**Prerequisite(s):** LL 131 or CMP 120.

**LL 282 Major Poets 3 Credits**

This course introduces students to poetry via the reading and analysis of different poetic forms. While reading, listening to, performing and discussing poems from a wide cultural spectrum, students learn to evaluate and appreciate poetry by understanding such elements as metaphor and persona.

**Prerequisite(s):** LL 131.

**LL 285 Writing About Music: A Seminar for Performers, Teachers, and Academics 3 Credits**

A writing intensive course focusing on the essential writing tasks encountered by musicians in their roles as performers, teachers, and scholars.

**Prerequisite(s):** LL 131, BHP 150 or CMP 125.

**LL 327 Dante's Commedia 3 Credits**

An introduction to Dante Alighieri's *Commedia* ("Inferno", "Purgatorio" and "Paradiso") exploring key ethical and aesthetic elements of the poem through close reading and critical analysis of the primary text.

**Prerequisite(s):** LL 131, BHP 150 or CMP 125.

**LL 490 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**Music Education (ME)****ME 111 Music Education Lab 0 Credits**

Undergraduates must meet the weekly attendance and participation requirement for Music Education Lab during every semester of enrollment up to seven semester as an undergraduate Music Education major except for the student teaching semester. Grading is "P" (satisfactory) or "U" (unsatisfactory). As part of the Music Education Lab experience, students are required to complete 15 hours of professional development.

**ME 161 Art of Teaching Music I 3 Credits**

Art of Teaching Music I (ATM I) is a first in the sequence of Music Education courses designed to prepare the undergraduate Music Education major students for their student teaching experience and completion of their teaching licensure. There will be field observations of master teachers under the aegis of a music education faculty that will allow students not only to observe, but to have guided experience in assessing how teaching and learning are experienced in real classrooms. Partnerships between local expert teachers and music education faculty will allow students to complete field observations as well as guided experience in teaching and assessing students in real classrooms.

**ME 172 Guitar & Recorder in the Classroom 1 Credits**

This course provides undergraduate music education majors with a foundation for teaching and playing the guitar and recorder. Students will gain technical proficiency in both instruments while learning appropriate repertoire of a multicultural and diverse nature. Students will also learn efficient pedagogy practices for teaching both instruments, learning of their application in educational settings. Students are expected to provide their own acoustic guitar for this course. Recorders are available for purchase in the college bookstore.

**ME 187 Instrumental Music: Strings 1 Credits**

This course is designed as an introduction to the pedagogy of string instruments. Emphasis is on learning through performance. Instruments are required. Various methods and materials available for use in public schools, developmental ranges, transposition, scoring, and idiomatic writing are investigated. When available, instruments may be rented from the college. Rental fee, per instrument: \$25.

**ME 188 Instrumental Music: Winds/Percussion 2 Credits**

This course is designed as an introduction to the pedagogy of brass, woodwind, and percussion instruments. Emphasis is on learning through performance. Instruments are required. Various methods and materials available for use in public schools, developmental ranges, transposition, scoring and idiomatic writing are investigated. When available, instruments may be rented from the college. Students must provide their own drum pads and sticks. Rental fee, per instrument: \$60.

**ME 262 Art of Teaching Music II 4 Credits**

Art of Teaching Music II (ATM II) is designed to build on the knowledge, skills, and dispositions, introduced in ATM I. Students will expand their abilities in the domains of planning, teaching, assessing, reflecting, developing musicianship, and philosophy in context of teaching general music. Moreover, they will have the opportunity to put these abilities into practice when teaching peers and teaching elementary and middle general school students.

**Prerequisite(s):** ME 161.

**ME 371 Critical Pedagogy III 2 Credits**

Creativity and Technology in the Music Classroom is designed to prepare students to foster musical creativity using a variety of approaches and tools. In particular, students will use equipment such as digital audio workstations, MIDI controllers, microphones, and SmartBoards to facilitate rich and engaging creative experiences. Students will explore ways to structure learning experiences in response to the needs and interests of students, and will examine current thinking and trends related to the uses of creativity and technology in the music classroom.

**Prerequisite(s):** ME 262 and junior status.

**ME 371H Critical Pedagogy III Honors 1 Credits**

Primary source readings, expanded assignment and additional content that supplements ME 371. Students will demonstrate the ability to synthesize and process complex ideas, and develop original thoughts with depth and significance. Prerequisite(s): ME 271, BHP status.

**Corequisite(s):** ME 371; Online only.

**ME 471 Music and Hip Hop Culture 3 Credits**

Hip Hop in the United States is arguably the most lucrative, popular, and culturally challenging contemporary musical force. The narratives of Hip Hop go beyond the boundaries of race and class as well as those of music, poetry and dance. As such, Hip Hop is a phenomenon that presents problems as well as great possibilities. This course explores them from the standpoint of educational sociology, looking at their implications for music in schools as well as in daily life.

**Prerequisite(s):** ME 271.

**ME 472 Teaching/Learning:Urban Schools 3 Credits**

This course offers students theoretical and practical insight into teaching in urban schools. The class will present an analysis and practical implications for what is needed in order to successfully engage in teaching in urban centers in the United States. Students will balance field experiences with critical analyses of issues such as multicultural teaching, race, class, and economics in urban schools as well as their curricular and pedagogical implications.

**Prerequisite(s):** ME 581, ME 582.

**ME 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**ME 491 Kodaly Music Reading 2 Credits****ME 492 Student Teaching 12 Credits**

ME 492 - Student Teaching A full semester internship in directed full-time teaching supervised by department members and carried out in schools with approved cooperating teachers. In addition to the field experience, students attend a weekly seminar on campus to discuss current issues in music education as they relate to individual teaching situations. Students discuss classroom management strategies, action research, authentic instruction, critical thinking, feeling and action as well as teaching to focusing questions, concepts and objectives. Throughout student teaching, students maintain a digital portfolio that demonstrates how they meet the New Jersey State and INTASC teaching standards. At the conclusion of the semester, students attend a portfolio review with members of the Music Education faculty to assess the success of the teaching experience. Students must provide their own transportation to student teaching site. Student Teaching fee: \$245. Fees for the Praxis Examination and Teacher Certification are additional. Additional information regarding student teaching may be found in the department's Student Teaching Handbook at [www.rider.edu/musiced](http://www.rider.edu/musiced)

**Prerequisite(s):** Classification as a full senior; Satisfactory completion of music education courses numbered ME 161, ME 262, ME 563, ME 564, ME 187, ME 188, and either Developmental or Educational Psychology; Satisfactory completion of TH 241; For voice primary students, satisfaction of all requirements of PI 204; A minimum 3.0 cumulative grade point average; Demonstrated aptitude, motivation and potential for success in teaching, as evidenced by the successful completion of portfolio reviews; Departmental approval; Students in the Master of Music Education (MME) degree program must take the following courses as prerequisites to student teaching; ME 563, ME 564, ME 725.

**ME 499 Special Topics Music Education 2 Credits**

The content of this course and the number of credits will vary with the special interests and qualifications of the professor teaching it.

**Music History (MH)****MH 247 Music Historiography I 3 Credits**

Historiography I begins by exploring similarities and differences between various music cultures around the world, and continues with an examination of selected genres of Western Art Music of the Medieval, Renaissance and Baroque periods. Basic information literacy skills, such as searching library catalogs, databases and reading academic articles also will be covered.

**Prerequisite(s):** LL 131.

**MH 248 Music Historiography II 3 Credits**

Examines Western Art Music since 1750 and includes a research assignment that builds upon the information literacy skills gained in MH 247.

**Prerequisite(s):** MH 247.

**MH 345 Music Since 1900 3 Credits**

Examines controversies and aesthetic movements in 20th and 21st century music. Emphasis is placed upon critical reading and writing skills.

**Prerequisite(s):** MH 248.

**MH 433 Seminar in Music History 3 Credits**

The contents of courses carrying this number will vary with the special interests and qualifications of the instructors teaching them. Possible topics include period courses, courses from a distinct perspective, composer courses and genre courses.

**Prerequisite(s):** MH 248.

**MH 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**Music Theory (TH)****TH 045 Introduction to Musicianship 4 Credits**

Integration of the basic elements of music, scales, intervals, key signatures, triads and rhythmic notation with the practical skills of sight singing, rhythmic reading, keyboard harmony and dictation. Both the theoretical and the practical portion must be passed individually in order to receive a passing grade; 0 credits toward graduation, counts as 4 credits in the semester load.

**TH 101A Composition Primary 2 Credits****TH 101C Composition Elective 2 Credits****TH 101D Composition Elective 1 Credits****TH 101E Composition Primary 2 Credits****TH 101F Composition Primary 1 Credits****TH 141 Musicianship I 4 Credits**

This course assists students in learning and integrating aural, performance, analytical and composition skills involving diatonic melody and harmony. Both the theoretical and the practical portion must be passed individually in order to receive a passing grade.

**Prerequisite(s):** TH 045 or passing a placement test.

**TH 142 Musicianship II 4 Credits**

A continuation of TH 141 involving chromatic melody and harmony with an introduction to binary and ternary form.

**Prerequisite(s):** minimum "C-" grade in TH 141.

**TH 201A Composition Primary 2 Credits****TH 201E Composition Primary 2 Credits****TH 201F Composition Primary 1 Credits****TH 237 Composition Class 3 Credits**

Class instruction in original composition. May be taken as a level I elective.

**Prerequisite(s):** For non Theory/Composition majors only, minimum "C-" grade in TH 142.

**TH 241 Musicianship III 4 Credits**

A continuation of TH 142 with an introduction to larger musical forms and counterpoint.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 251 Analytical Studies I 3 Credits**

An in-depth analytical study of a select body of tonal music to be determined by the instructor. The music, which will contain only the harmonic vocabulary and formal structures studied in TH 141 and TH 142, may vary each time the course is offered. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 253 Orchestration 3 Credits**

A study of the orchestra and its individual instruments from the standpoints of the composer, arranger and conductor. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 255 Song Writing 3 Credits**

Solo vocal composition in various styles. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 259 Electroacoustic Music 3 Credits**

An introduction to the history and literature of electro-acoustic music emphasizing hands-on creative opportunities in sequencing and digital sound processing. May be taken as a level I theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 142.

**TH 301A Composition Primary 2 Credits****TH 301E Composition Primary 2 Credits****TH 301F Composition Primary 1 Credits****TH 342 Contemporary Trends 3 Credits**

An analytical study of the compositional techniques of the 20th and 21st centuries.

**Prerequisite(s):** TH 241.

**TH 401A Composition Primary 2 Credits****TH 401E Composition Primary 2 Credits****TH 401F Composition Primary 1 Credits****TH 424 Choral/Instru Arranging 3 Credits**

Arranging for various ensembles of voices and instruments. May be taken as a level II theory elective.

**Prerequisite(s):** TH 241.

**TH 431 Form and Analysis 3 Credits**

Study of the compositional process as observed in selected examples of music literature, predominantly from the tonal repertoire. May be taken as a level II theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 241.

**TH 432 Contrapuntal Techniques 3 Credits**

18th century counterpoint with an emphasis on analysis and writing of original compositions. May be taken as a level II theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 241.

**TH 433 Special Topics in Theory 3 Credits**

The content of the course carrying this number will vary with the special interests and qualifications of the professor teaching it. May be taken as a level II theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 241.

**TH 452 Analytical Studies II 3 Credits**

An in-depth analytical study of a select body of tonal music to be determined by the instructor. The music, which will contain a more advanced harmonic vocabulary and larger formal structures than the music studied in TH 251, may vary each time the course is offered. May be taken as a level II theory elective.

**Prerequisite(s):** minimum "C-" grade in TH 241.

**TH 480 Senior Project 3 Credits**

Independent study in theory or composition resulting in either a paper comparable to a substantial journal article or a composition in one of the larger forms.

**Prerequisite(s):** Five semesters of private composition study.

**TH 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation.

Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed.

Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

**Organ (OR)****OR 001S Applied Organ Studio 0 Credits****OR 101A Organ Primary 2 Credits****OR 101B Organ Primary 1 Credits****OR 101C Organ Elective 2 Credits****OR 101D Organ Elective 1 Credits****OR 101E Organ Primary 2 Credits****OR 101F Organ Primary 1 Credits****OR 101G Organ Primary 2 Credits****OR 201A Organ Primary 2 Credits****OR 201B Organ Primary 1 Credits****OR 201E Organ Primary 2 Credits****OR 201F Organ Primary 1 Credits****OR 201G Organ Primary 2 Credits****OR 301A Organ Primary 2 Credits****OR 301B Organ Primary 1 Credits****OR 301E Organ Primary 2 Credits****OR 301F Organ Primary 1 Credits****OR 301G Organ Primary 2 Credits****OR 401A Organ Primary 2 Credits****OR 401B Organ Primary 1 Credits****OR 401E Organ Primary 2 Credits****OR 401F Organ Primary 1 Credits****OR 401G Organ Primary 2 Credits****OR 433 Organ Literature I 3 Credits**

Historical study of organ literature coordinated with a study of the development of the organ as a musical instrument.

**OR 434 Organ Literature II 3 Credits**

Continuation of OR 433.

**OR 490 Independant Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation.

Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed.

Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

## Piano (PI)

**PI 001S Applied Piano Studio 0 Credits****PI 045 Introduction to Piano Secondary 1 Credits**

Designed for student with little to no background in piano study or music reading. Students will develop a foundation (basic elements) of pianism/musicianship skills and will focus on the most fundamental aspects of music study at the piano. 0 credits toward graduation, counts as 4 credits in the semester load.

**Prerequisite(s):** placement; Students must pass this course with a grade of "Y" to progress to PI 103: Piano Secondary I.

**PI 101A Piano Primary 2 Credits****PI 101B Piano Primary 1 Credits****PI 101C Piano Elective 2 Credits****PI 101D Piano Elective 1 Credits****PI 101E Piano Primary 2 Credits****PI 101F Piano Primary 1 Credits****PI 101G Piano Primary 2 Credits****PI 103 Piano Secondary I 1 Credits**

Establishes a solid foundation of piano playing through integration of musicianship skills in addition to building facile digital independence and bilateral hand coordination. Minimum grade of "B-" required to pass the course.

**Prerequisite(s):** Grade of "Y" in PI 045 or placement.

**PI 104 Piano Secondary II 1 Credits**

Continuation of PI 103; appropriate for the advanced beginner. Minimum grade of "B-" required to pass the course.

**Prerequisite(s):** PI 103 or placement.

**PI 201A Piano Primary 2 Credits****PI 201B Piano Primary 1 Credits****PI 201C Piano Elective 2 Credits****PI 201D Piano Elective 1 Credits****PI 201E Piano Primary 2 Credits****PI 201F Piano Primary 1 Credits****PI 201G Piano Primary 2 Credits****PI 203 Piano Secondary III 1 Credits**

Establishes fluidity in piano playing through integration of musicianship skills, digital independence and bilateral hand coordination. Minimum grade of "B-" needed to pass the course.

**Prerequisite(s):** minimum grade of "B-" in PI 104 or placement.

**PI 204 Piano Secondary for Mus Ed & Sacred Music 1 Credits**

Development of practical keyboard skills: sight-reading; playing vocal lines and piano parts of choral works; playing individual lines/parts of small-scale instrumental works; harmonizing and transposing melodies with accompaniments.

**Prerequisite(s):** minimum grade of "B-" in PI 203 or placement.

**PI 205 Piano Secondary VCPER 1 Credits**

Development of practical keyboard skills: sight-reading; playing vocal lines and piano parts of songs and arias; warm-up exercises; transposing vocal lines and portions of accompaniments; harmonizing melodies.

**Prerequisite(s):** minimum grade of "B-" in PI 203 or placement.

**PI 206 Piano Secondary for Music Theater Majors 1 Credits**

Development of practical keyboard skills: sight-reading; playing vocal lines and piano parts of songs and arias; warm-up exercises; transposing vocal lines and portions of accompaniments; harmonizing melodies.

**Prerequisite(s):** minimum grade of "B-" in PI 203 or placement.

**PI 207 Piano Secondary for Theory Comp Majors 1 Credits**

Development of practical keyboard skills in the areas of score reading (including one's own works), use of piano as a tool for composition, and realizing chord progressions.

**Prerequisite(s):** minimum grade of "B-" in PI 203 or placement.

**PI 208 Piano Secondary BAM 1 Credits**

Development of practical keyboard skills: sight-reading; playing vocal lines and piano parts of songs and arias; warm-up exercises; transposing vocal lines and portions of accompaniments; harmonizing melodies.

**Prerequisite(s):** minimum grade of "B-" in PI 203 or placement.

**PI 297 Fund of Piano Pedagogy I 3 Credits**

Fundamentals I is devoted to study of techniques, methods, and materials suitable for beginning through early intermediate level students. Other areas of study include motivational strategies, establishment of effective practice habits, recital preparation, technique, and elementary duet materials. Students analyze and demonstrate teaching from three different beginning piano methods. Observation of professional teaching is done in the context of class and private lessons at the Westminster Conservatory.

**PI 298 Fund of Piano Pedagogy II 3 Credits**

In Fundamentals II, students continue to apply their experience with piano methods to the teaching of students. In addition, the semester is devoted to the study of materials from all style periods for upper elementary and intermediate level students. Students observe private and group lessons appropriate to these levels. The course culminates in an individual lecture recital demonstrating music from a variety of style periods.

**Prerequisite(s):** PI 297.

**PI 301A Piano Primary 2 Credits****PI 301B Piano Primary 1 Credits****PI 301C Piano Elective 2 Credits****PI 301D Piano Elective 1 Credits****PI 301E Piano Primary 2 Credits****PI 301F Piano Primary 1 Credits****PI 301G Piano Primary 2 Credits****PI 397 Fund of Piano Pedagogy III 3 Credits**

Fundamentals III involves supervised private and group teaching of beginning students. Emphasis is placed on lesson planning, presentation of concepts, use of technology, and the relationship between technique and musicianship skills. The course further addresses the different psychological and methodological approaches to teaching adults and children in class and private settings, and includes an overview of materials for the adult student and group classes. The course culminates in a lecture recital on a pedagogical subject of the students choice.

**PI 401A Piano Primary 2 Credits****PI 401B Piano Primary 1 Credits****PI 401C Piano Elective 2 Credits****PI 401D Piano Elective 1 Credits****PI 401E Piano Primary 2 Credits****PI 401F Piano Primary 1 Credits****PI 401G Piano Primary 2 Credits****PI 413 Accompanying Class 2 Credits**

This course is designed with the twofold purpose of allowing undergraduate pianists to fulfill their piano ensemble elective requirement within the professional studies area as well as providing an opportunity for voice primary students to further their piano study in a challenging forum in situations directly related to their repertoire. The students in the class will receive instruction in the stylistic, technical, analytical and linguistic aspects of vocal literature. The many issues involved in vocal collaboration will be discussed along with in-depth study of the pianist's role in musical partnerships. Issues of musical freedom, language, and the varieties of sonic treatment unique to vocal literature will be discussed. Italian, French, German and English song repertoire from various style periods will provide the assignments for performance and discussion.

**PI 435 Survey of Piano Literature I 3 Credits**

A study of representative works from 1650-1800 by composers including J. S. Bach, C.P.E. Bach, J.C. Bach, Haydn, Mozart, and Beethoven.

**Prerequisite(s):** MH 248.

**PI 436 Survey of Piano Literature II 3 Credits**

A study of representative works from 1800 to the present by composers including Beethoven, Schubert, Mendelssohn, Schumann, Chopin, Liszt, Brahms, Debussy, Ravel, Prokofiev, and Bartók.

**Prerequisite(s):** MH 248.

**PI 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

## Religion/Philosophy (RP)

**RP 265 Lit of New Testament 3 Credits**

An introduction to the thought of the early Christian church as expressed in the New Testament, this course will emphasize a literary and historical reading of the Gospels and Epistles. It will introduce students to the Jewish and Greco-Roman religious, political and cultural worlds in which Jesus and his disciples lived and within which earliest Christianity arose.

**RP 268 Hebrew Bible & Old Testament 3 Credits**

This course introduces students to the writings of the Hebrew Bible/Old Testament within their historical and literary contexts. By critically reading these books, students will become aware of the history, culture and religion of ancient Israel - all of which contributed to the traditions of Judaism and Christianity.

## Sacred Music (SM)

**SM 121 Survey of Sacred Music Lit 3 Credits**

Broad survey of Christian music. Through standard repertoire, major historical genres of sacred music are explored from biblical roots in the Old and New Testament to the postmodern expressions of our time.

**SM 122 Worship and Theology 3 Credits**

A study of the content, theology, and history of the Old and New Testament narratives that the church recounts and celebrates in its liturgical year.

**SM 142 Intro to Music Ministry 2 Credits**

An introduction to the vocational needs, professional relationships, administration styles and teaching roles of the church musician. In addition to an overview of professional standards, emphasis will also be placed on music engraving skills, budgeting, recruitment, endowments and fundraising.

**SM 158 Intro Handbell Leadership 1 Credits**

A hands-on course providing a strong foundation for the beginning director/ringer. It will include information about ringing instruments, maintenance, ringing and damping techniques, articulations, part assignments, a survey of handbell literature, and rehearsal planning and directing.

**SM 250 Contemporary Worship 2 Credits**

This course is an exploration of the various forms of worship being practiced in urban churches across America. Practical and skill-based, it is designed to allow the student to explore praise and worship music, different styles of gospel, and other forms of music used in non-traditional worship.

**SM 340 Church Field Education 1 Credits**

A practical program in which students take responsibility for the music program of an assigned affiliate church. Under supervision, students exercise the skills and concepts learned in the classroom. Enrolled students also meet in a weekly preceptorial. Sacred Music majors must take two consecutive semesters, normally in the junior year.

**Prerequisite(s):** SM 121, SM 122.

**SM 354 Hymnody & Psalmody 3 Credits**

A study of the origins and development of Christian song. The first part of the course deals with the nature of the Psalms in their Biblical setting and their use in the worship of different traditions. The second part of the course deals with the history of congregational hymnody - texts, tunes, styles and functions - from the 16th century to the present. The course aims to develop an awareness of the textual and musical treasures available for both congregational and choral use.

**SM 360 History of American CM 3 Credits**

A broad survey of American church music beginning with colonial psalm-singing and continuing through four centuries of musical development leading up to and including the vast panorama musical practices found in post-modern Christianity. A special emphasis will be placed on the development and influence of African-American church music on contemporary musical practices. **Prerequisite(s):** SM 121.

**SM 365 Sacred Sounds 2 Credits**

A study of the origins and development of Christian song. The first section of the course deals with the nature of the psalms and their use in the worship of different traditions. The second section of the course will be a survey of congregational hymnody – texts, tunes, styles and functions – from the 16th century to the present. The course aims to develop a context for the discussion congregational song as it might be practiced in the 21st century, the final part of the class.

**SM 410 African Amer Choral Lit 3 Credits**

This course is designed to give students a better understanding of the choral literature, historical context and text analysis of African American composers.

**SM 454 German Church Music 3 Credits**

A study of church choral literature by German composers from the 16th century to the present focusing on the pre-Bach and post-Bach cantata. Class performances of selected works. Complements SM 455. Offered in rotation with other Sacred Music electives.

**SM 455 Bach Cantatas 3 Credits**

A study of the history, performance practices, and liturgical setting of the cantatas of J.S. Bach. Class performances of selected cantatas. Complements SM 454. Offered in rotation with other Sacred Music electives.

**SM 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 is required.

**Prerequisite(s):** junior or senior standing.

**SM 491 SM Internship 1 Credits**

A practical program in which students take responsibility for the music program of a local church or work as an intern in an assigned affiliate church. Under faculty supervision, students exercise the skills and concepts learned in the classroom. Enrolled students also meet in a weekly preceptorial. Sacred music majors must take two consecutive semesters, normally in the junior year.

**Prerequisite(s):** CR 215.

**Social/Physical Science (SP)****SP 171 Western Civ I 3 Credits**

This survey history course presents a cohesive picture of the development of Western societies from prehistoric times to the early Renaissance. Social, political and economic aspects are covered; intellectual and cultural developments are emphasized. Familiarity with primary sources and critical reading are integral to the course.

**SP 172 Western Civ II 3 Credits**

Continuation of SP171. This survey history course covers developments in Western societies from the Renaissance to the present. Major intellectual and cultural trends and movements are presented, along with historical progress and socio-economic expansion.

**SP 273 Developmental Psychology 3 Credits**

The physical and psychological growth of the individual from infancy through adolescence is studied, with emphasis on cognitive, emotional, and social processes.

**Prerequisite(s):** SP 175.

**SP 274 Educational Psychology 3 Credits**

The psychological foundations of education, based on the findings of experimental research in learning, transfer, motivation, reinforcement, and behavioral modification.

**Prerequisite(s):** PSY 100.

**SP 286 Life in Middle Ages 3 Credits**

A seminar in which the life styles of medieval Europeans are studied. Students will develop an understanding of particular social organizations and problems of the period by examining the conditions and events of everyday medieval life. Offered in rotation with other History courses.

**SP 408 Voice Science 3 Credits**

Study of the physics and physiology of voice production. Musical and vocal acoustics are explored using the facilities of the Westminster Voice Laboratory. Anatomic and physiologic underpinnings of respiration, phonation, articulation, registration and hearing are explored in depth.

**Corequisite(s):** CR 509.

**Voice (VC)**

**VC 001S Applied Voice Studio 0 Credits****VC 101A Voice Primary 2 Credits****VC 101B Voice Primary 1 Credits****VC 101C Voice Elective 2 Credits****VC 101D Voice Elective 1 Credits****VC 101E Voice Primary 2 Credits****VC 101F Voice Primary 1 Credits****VC 101G Voice Primary 2 Credits****VC 103 Voice Secondary 1 Credits****VC 114 Introduction to Lyric Diction 2 Credits**

Introduction to the International Phonetic Alphabet (IPA) and the sounds of all major sung languages through oral and written drill. Open to Voice Performance majors only.

**VC 115 English & Italian Diction 2 Credits**

Introduction to the rules of singing English and Italian through the use of the International Phonetic Alphabet (IPA) with oral and written drill.

**VC 116 French & German Diction 2 Credits**

Introduction to the rules of singing French and German through the use of the International Phonetic Alphabet (IPA) with oral and written drill.

**Prerequisite(s):** VC 115.

**VC 118 Italian Diction 2 Credits**

Introduction to the rules for singing Italian through the use of the International Phonetic Alphabet (IPA), with oral and written drill. Open to Voice Performance majors only.

**Prerequisite(s):** VC 114.

**VC 119 French Diction 2 Credits**

Introduction to the rules for singing French through the use of the International Phonetic Alphabet (IPA), with oral and written drill. Open to Voice Performance majors only.

**Prerequisite(s):** VC 114.

**VC 120 German Diction 2 Credits**

Introduction to the rules for singing German through the use of the International Phonetic Alphabet (IPA), with oral and written drill. Open to Voice Performance majors only.

**Prerequisite(s):** VC 114.

**VC 191 Movement for the Performer 2 Credits**

Movement exercises and etudes help students develop proper alignment, physical freedom, unification of voice, breath, and body, and help them explore the body as an expressive instrument.

**VC 201A Voice Primary 2 Credits****VC 201B Voice Primary 1 Credits****VC 201C Voice Primary 2 Credits****VC 201E Voice Primary 2 Credits****VC 201F Voice Primary 1 Credits****VC 201G Voice Primary 2 Credits****VC 203 Voice Secondary 1 Credits****VC 291 The Singing Actor 2 Credits**

The introduction to vocal performance entails coaching of selected songs, arias or repertoire from music theater and techniques for performance preparation through intensive research. A final written project involves a musical and dramatic analysis of all chosen repertoire.

**Prerequisite(s):** successful completion of Level I voice jury.

**VC 301A Voice Primary 2 Credits****VC 301B Voice Primary 1 Credits****VC 301C Voice Primary 2 Credits****VC 301E Voice Primary 2 Credits****VC 301F Voice Primary 1 Credits****VC 301G Voice Primary 2 Credits****VC 305 Singing in Italian and French 2 Credits**

Master class and private coaching in vocal performance of Italian and French language song, recitative and opera arias. The class will focus on pronunciation, inflection and nuances of sung Italian and French.

**Prerequisite(s):** Successful completion of Level I jury; VC 118, VC 119.

**VC 306 Singing in German and English 2 Credits**

Master class and private coaching in vocal performance of German and English language song, recitative and opera arias. The class will focus on pronunciation, inflection and nuances of sung German and English.

**Prerequisite(s):** Successful completion of Level I Jury; VC 120.

**VC 401A Voice Primary 2 Credits****VC 401B Voice Primary 1 Credits****VC 401E Voice Primary 2 Credits****VC 401F Voice Primary 1 Credits****VC 401G Voice Primary 2 Credits****VC 408 Voice Science 3 Credits**

Study of the physics and physiology of voice production. Musical and vocal acoustics are explored using the facilities of the Westminster Voice Laboratory. Anatomic and physiologic underpinnings of respiration, phonation, articulation, registration and hearing are explored in depth.

**VC 433 Song Literature I 2 Credits**

A survey of solo literature for voice and accompanying instrument including solo vocal music of the Baroque period and German lieder.

**Prerequisite(s):** MH 248.

**VC 434 Song Literature II 2 Credits**

A survey of solo literature for voice and accompanying instrument including French mélodie, songs by nationalist composers, English and American song.

**Prerequisite(s):** MH 248.

**VC 457 Private Coaching 2 Credits**

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 457 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 458 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**Prerequisite(s):** successful completion of Level II.

**VC 458 Private Coaching 1 Credits**

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 457 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 458 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**Prerequisite(s):** successful completion of Level II.

**VC 467 Private Dramatic/Role Coaching 2 Credits**

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 467 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 468 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**Prerequisite(s):** successful completion of Level II.

**VC 468 Private Dramatic/Role Coaching 1 Credits**

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 467 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 468 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**Prerequisite(s):** successful completion of Level II.

**VC 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** junior or senior standing.

# GRADUATE COURSES AND DESCRIPTIONS

---

## Arts and Sciences (AS)

### AS 691 Arts & Science Internship 1-3 Credits

This course requires 15 hours for each credit for which the student enrolls. The internship requires on-site participation at a pre-approved site. Students may enroll for a maximum of 3 credits.

**Prerequisite(s):** graduate standing.

## Conducting (CR)

### CR 505 Advanced Conducting 3 Credits

A continuation of the conducting studies begun in CR 215 and CR 315, this course aims to be more student-centered, following the process from repertoire planning to the final performance. Intensive score preparation, advanced rehearsal techniques, performance practice and baton technique.

**Prerequisite(s):** CR 315.

### CR 509 Symphonic Choir 1 Credits

A large mixed chorus comprised of students above the lower division, including graduate students from all disciplines. The ensemble regularly performs in the region and focuses on the major choral/orchestral repertoire along with a wide variety of repertoire for large mixed chorus. Placement hearing required.

### CR 511 Westminster Choir 1 Credits

A highly select ensemble that performs and records a wide variety of choral repertoire, the Westminster Choir regularly tours nationally and internationally, and aspires to the highest professional standards. Members are selected by audition from all Westminster students above the freshman level. The requirements for selection include good academic standing, strong musicianship, and superior vocal talent. Auditions are held in the fall semester and students participate for the academic year.

### CR 513 Williamson Voices 1 Credits

A chamber choir with a unique mission that combines performance and outreach education. Repertoire is chosen from a broad spectrum of literature, including world music and contemporary choral works. Auditions are held in the fall semester and students participate for the academic year.

### CR 515 Westminster Kantorei 1 Credits

An early music vocal chamber ensemble specializing in music before 1750, with occasional forays into more contemporary repertoire. [Although the ensemble will generally consist of around 16 singers, the exact make-up of the ensemble will vary from semester to semester, depending on the works to be studied and performed.] Repertoire will include works for vocal ensemble and works featuring significant solo work. The entire ensemble will rehearse three hours per week. Keyboardists may audition for the ensemble. Auditions are held in the fall semester and students participate for the academic year.

### CR 517 Master Singers 1 Credits

A mixed ensemble serving as the choir for Graduate Conducting, Sacred Music and Music Education majors. Repertoire consists of a wide variety of choral works drawn from all style periods, works appropriate for use in churches and in schools at the secondary and post-secondary levels. Four semesters are required for all graduate Choral Conducting majors. Two semesters are required for Sacred Music majors, and those Music Education majors who have selected conducting as their performance field. This ensemble is non-auditioned and open to all students.

### CR 524 Vocal Techniques for Choirs 3 Credits

Study of vocal techniques appropriate for use in choral rehearsals and for teaching class voice. Techniques for effecting change in group vocal productions are discussed, including such topics as the identification of group vocal problems and mental and physical preparation of a group for good vocal production. Techniques to be developed include (1) how to communicate information about vocal technique to amateur singers, (2) exercises used to develop choral sound by improving diction, dynamics, legato, staccato, martellato, high and low registers, resonance, vowel modification, etc., (3) how to train singers to use a vocal production specifically appropriate to the repertoire of various style periods and the demands of individual composers, and (4) conducting methods for good choral and vocal training. Recommended both for conducting majors and for students in other major programs, including those for whom the voice is not the primary performance medium.

### CR 607 Conducting Performance 1 Credits

Graduate Conducting, Sacred Music and Music Education students (with a conducting concentration) enroll for Conducting Performance in the semester of their recital or major conducting project.

### CR 621 Choral Conducting I 3 Credits

A study of conducting to develop technique through facial expression, breathing, alignment and gesture. Emphasis is placed on developing and refining a process of score study. This course will assist conductors in evaluating their conducting and preparing them to make conducting decisions based upon score study.

### CR 622 Choral Conducting II 3 Credits

In addition to building on the conducting skills taught in Conducting I, this course will focus upon acquisition of a broad range of rehearsal methods and techniques and gaining a comprehensive knowledge of choral ensemble warm-up philosophies, methods and techniques. Conductors will continue to study various approaches to score analysis that aid in preparation for rehearsal. Participants in the course will be required to submit a comprehensive case study which focuses on rehearsal technique and rehearsal procedures.

**Prerequisite(s):** CR 621.

### CR 624 Conducting Skills 3 Credits

### CR 627 Choral Literature I 3 Credits

A broad survey of choral repertoire from Gregorian chant to present-day compositions. Emphasis is placed upon knowing the availability and sources of music of major composers and of music appropriate for performance in today's churches and schools.

### CR 628 Choral Literature II 3 Credits

A study of selected major choral works, involving analytical and stylistic study. Oral reports by class members on assigned topics.

**CR 641B Conducting Primary 1 Credits****CR 641D Conducting Primary (Elective) 1 Credits****CR 641F Conducting Primary 1 Credits****CR 681 Baroque Performance Practice 3 Credits**

A practical and theoretical study of issues of Baroque performance practice, including tempo, phrasing and articulation, ornamentation, rhythmic alternation, qualities of sound, continuo practice, influence of dance, affect and national idioms. Primary source materials will serve as the basic core of readings for the course, supplemented and supported by recordings and contemporary resources. In the later half of the semester, students will perform in a series of master classes.

**Prerequisite(s):** for undergraduates MH 248, TH 241.

**CR 690 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**CR 710 Seminar in Choral Literature 3 Credits**

An intensive study of a specific area of choral history and literature. The content of this course will vary from semester to semester with the special interests and qualifications of the professor teaching it. Emphasis is placed upon in-depth study of the selected repertoire. May be repeated for credit.

**Prerequisite(s):** undergraduate must have Permission of Instructor.

**CR 720 Graduate Conducting Forum 1 Credits**

A conducting seminar that focuses on the synthesis of gesture, score study and pedagogy. Select repertoire and research materials will be conducted, analyzed and discussed. Focus will be given to orals preparation and current choral conducting issues. This course may be repeated for credit.

## Harpsichord (HP)

**HP 641C Harpsichord Elective 2 Credits****HP 641D Harpsichord Elective 1 Credits****HP 641E Harpsichord Elective 2 Credits****HP 641F Harpsichord Elective 1 Credits**

## Language/Literature (LL)

**LL 640 German Reading 3 Credits**

Designed for graduate students who have little or no previous experience with the German language. A functional course concentrating solely upon preparing students to translate German language sources pertinent to their fields of study. Completion of the course with a grade of "Y" satisfies the graduate language translation requirement. Recommended for Sacred Music, Organ Performance and Choral Conducting majors; not recommended for Voice Pedagogy and Performance or Piano Accompanying and Coaching majors.

**LL 641 French Reading 3 Credits**

Designed for graduate students who have little or no previous experience with the French language. A functional course concentrating solely upon preparing students to translate French language sources pertinent to their fields of study. Completion of the course with a grade of "Y" satisfies the graduate language translation requirement. Recommended for Sacred Music, Organ Performance and Choral Conducting majors; not recommended for Voice Pedagogy and Performance or Piano Accompanying and Coaching majors. This course is offered in the fall semester only. Offered in the Fall. 3 Credit hours.

## Music Education (ME)

**ME 540 Choir Train for Young Singers 3 Credits**

This course focuses on children's choirs in school, church and community. Students learn strategies to teach children good vocal technique and to build musical literacy through the study of appropriate repertoire. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

**Prerequisite(s):** Junior status.

**ME 563 Art of Teaching Music III 4 Credits**

Through course assignments, discussion, and clinical practice in varied school and community choral settings, course participants learn how to create meaningful elementary music experiences that foster individual success, accountability, a sense of accountability, critical thinking, independence, and life-long engagement with choral music.

**Prerequisite(s):** ME 262, satisfactory completion of Sophomore Review, satisfactory completion of teacher candidate basic skills requirement.

**ME 564 Art of Teaching Music IV 4 Credits****ME 581 Praxis in Elementary Music 3 Credits**

This course prepares students to teach music in elementary schools. Consistent with the department's commitment to Critical Pedagogy for Music Education, the course covers materials and methodologies to engage young children in musical experiences that are significant, transformational, and that connect to the social context in which they teach. Students learn to write and evaluate curriculum and to integrate curriculum with academic core subjects. An off campus field experience in local elementary schools is an integral part of this course. Students must provide their own transportation to practicum sites. It is recommended that students complete Developmental or Educational Psychology before taking ME 581. course content, activities and experiences in this course connect to the New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. Music Education majors will receive priority registration for this class. A minimum 2.75 cumulative GPA is required.

**Prerequisite(s):** For undergraduates only; ME 171, ME 172 ME 271; two semesters of Piano Secondary, not including PI 045; TH 142.

**ME 582 Praxis in Secondary Music 3 Credits**

This course prepares students to teach music in secondary schools. Consistent with the department's commitment to Critical Pedagogy for Music Education, the course covers materials and methodologies to engage middle school and high school students in musical experiences that are significant, transformational, and that connect to the social context in which they teach. Students learn to write and evaluate curriculum and to integrate curriculum with academic core subjects. An off campus field experience in local middle and high schools is an integral part of this course. Students must provide their own transportation to practicum sites. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. It is recommended that students complete ME 581 and either Developmental or Educational Psychology before taking ME 582. Music Education majors will receive priority registration for this class.

**Prerequisite(s):** completion of two semesters of Piano Secondary, not including PI 045, TH 142, and a minimum 2.75 cumulative grade point average.

**ME 587 Music in Special Educ 1 Credits**

This course is designed to acquaint the pre-service teacher with the special needs of exceptional children in music classes. Students learn to adapt instruction to accommodate a variety of exceptionalities that are both physical and emotional. Content includes categories of special students, characteristic behaviors, mainstreaming, and classroom methodology. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. It is recommended that student take this course before the student teaching semester.

**Prerequisite(s):** Senior status.

**ME 588 Dalcroze Studies 2 Credits**

The purpose of this elective course is to provide students with an intensive experience in eurhythmics and eurhythmics pedagogy leading to an understanding of Dalcroze's principles regarding movement, solfège, improvisation and their uses in the classroom. An important focus of the class will be to provide an insight into kinesthetic-based learning as a conduit to inform and deepen the musical experience. Opportunities for lesson planning and curriculum development in the Dalcroze model will be offered. Students will write and present practice lessons. In addition, students will develop improvisation skills necessary to integrate eurhythmics into private applied instruction.

**ME 591 Choral Music Grades 5-12 3 Credits**

This course is designed to acquaint the music educator with repertoire suitable for use with middle and senior high school choral ensembles. Representative repertoire from all periods of music will be discussed, analyzed and performed in class. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

**Prerequisite(s):** Junior status.

**ME 592 Creativity & Music Technology 2 Credits**

Creativity and Technology in the Music Classroom is designed to prepare students to foster musical creativity using a variety of approaches and tools. In particular, students will use equipment such as digital audio workstations, MIDI controllers, microphones, and SmartBoards to facilitate rich and engaging creative experiences. Students will explore ways to structure learning experiences in response to the needs and interests of students, and will examine current thinking and trends related to the uses of creativity and technology in the music classroom.

**Prerequisite(s):** Junior status or permission of instructor.

**ME 595 Assessing Music Learning 1 Credits**

This course provides pre-service music teachers with the strategies to assess music learning. Students study various testing models and learn to write and grade traditional tests such as true/false, multiple choice and essay. In addition, students examine authentic assessment, performance assessment and portfolio assessment models. Topics such as validity, reliability, standardized tests and testing bias will be included. In addition, students will learn how to read and interpret quantitative test data and examine the literature on grading. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. The content of this course conforms to the recommendations of the Professional Teaching Standards adopted by the State of New Jersey in 2002. In some semesters, this course may be offered in an on-line format.

**Prerequisite(s):** Senior status.

**ME 650 Thesis 1 Credits**

Independent research under faculty supervision leading to the writing of a master's thesis. Students register for this course in every semester or summer term in which assistance is provided by the thesis advisor.

**Prerequisite(s):** ME 685 (preferred) or MH 731; Permission of the Chair for Music Education is required to register for this course.

**ME 671 Music and Hip Hop Culture 3 Credits**

Hip Hop in the United States is arguably the most lucrative, popular, and culturally challenging contemporary musical force. The narratives of Hip Hop go beyond the boundaries of race and class as well as those of music, poetry and dance. As such, Hip Hop is a phenomenon that presents problems as well as great possibilities. This course explores them from the standpoint of educational sociology, looking at their implications for music in schools as well as in daily life.

**ME 672 Teaching/Learning in Urban Schools 3 Credits**

This course offers students theoretical and practical insight into teaching in urban schools. The class will present an analysis and practical implications for what is needed in order to successfully engage in teaching in urban centers in the United States. Students will balance field experiences with critical analyses of issues such as multicultural teaching, race, class, and economics in urban schools as well as their curricular and pedagogical implications.

**ME 682 Choral Music Education 3 Credits**

This course is designed to assist choral music educators to improve their pedagogical effectiveness. This course will provide students with the knowledge, skills and dispositions necessary for developing comprehensive musicianship in the choral ensemble setting through the study of creating original music, responding to music, connecting to students and performing vocal/choral music with a primary focus on choral pedagogy, curriculum development, unit and rehearsal planning, programming, vocal development, program management, music literacy pedagogy, music technology and assessment.

**Prerequisite(s):** CR 621, ME 692, ME 721, ME 723.

**ME 685 Research in Music Education 3 Credits**

Intended for students in the M.M.E. and BM/MAT degree programs, this course provides students with the tools necessary to write a qualitative master's thesis. Specific objectives include an overview of qualitative research paradigms, selecting a research topic, developing a literature review, designing an appropriate methodology and collecting and analyzing data. Additionally, students explore a broad variety of research topics in music education, specialization in a chosen research topic in music education, the ability to review music education research literature and to synthesize findings in a scholarly paper using the appropriate style manual. Students master APA and Chicago styles and complete the thesis proposal during this course. The departmental Thesis Manual is available at [www.rider.edu/musiced](http://www.rider.edu/musiced). ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

**ME 686 Teaching Music in the 21st Century 3 Credits**

Critical theory and critical pedagogy provide the framework for advanced study in post-modern teaching philosophies and teaching strategies as applied to music education. Techniques to engage students in diverse ways of thinking about music teaching and learning that transform both student and teacher will be presented. Always in the context of the social and political structures of schooling and the place schooling has in society, students will be empowered to create a dialoguing and problem-solving pedagogy for teaching music to children at all grade levels.

**ME 690 Independent Research and Study 3 Credits**

An elective course providing an opportunity to pursue a topic of special interest under the guidance of a music education faculty member. The proposal must be approved prior to registration for the course.

**ME 692 Hist & Phil of Music Educ 3 Credits**

The course will survey the major philosophical approaches to music education from their context in history. Relationships to developments in general education as well as the political climate of the period will be explored. A major paper investigating one of the philosophical thinkers will be required in addition to a well developed personal philosophy of music education. ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

**ME 693 Seminar in Music Educ 3 Credits**

While the topics vary from year to year, international perspectives in music education form the foundation for this seminar.

**ME 721 Curriculum Development & Evaluation 3 Credits**

This course examines the relationship between curriculum theory and philosophy of music education. Through the study of traditional and contemporary models of curriculum development and evaluation, students broaden their understanding of curriculum as it impacts the learning process. Post modern theory consistent with the Department's commitment to Critical Pedagogy for Music Education provide the focal point for the development of curricula that enhance and support quality music education. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

**ME 723 Psychology for Music Tchr 3 Credits**

This course merges the science of psychology with the teaching of music. It helps the student to understand the applications of psychological principles to the music learning process. The course will identify and discuss variables that affect a student's learning of music. Open to all graduate students. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

**ME 725 Teaching Instrumental Music 3 Credits**

A graduate level survey of the pedagogy necessary to teach instrumental music (woodwinds, brass, string and percussion instruments) and to develop and maintain beginning string and wind ensembles. While the class will include some playing and performance, it is not designed to develop proficiency on the individual instruments. Students must demonstrate sufficient competencies to provide beginning instruction. Instruments will be available for rental. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. Rental fee, per instrument: \$20.

**ME 727 Teaching College 3 Credits**

This course is designed for the graduate student who will be teaching at the college level. The content combines the theory of college teaching with praxis. Topics covered include: the psychology of the undergraduate, teaching graduate students, designing a syllabus, presenting course content, strategies for student-centered learning and assessment. Whenever possible, students will have the opportunity to intern with college faculty and will observe, present demonstration lessons, be coached and mentored. Open to all graduate students.

**ME 750 BM/MAT Capstone 3 Credits**

Independent research leading to a completed capstone project, which may be a thesis, action research, or another project or research initiative. The project must be approved by the department.

**Prerequisite(s):** ME 685; Permission of the Chair for Music Education is required to register for this course.

**ME 771 Critical Pedagogy for Music Ed 3 Credits**

This course presents the fundamental concepts, contexts and constructs that define Critical Pedagogy for Music Education. It focuses on the application of critical theory as a philosophical perspective to inform decisions teachers make when planning instruction for their students.

**ME 775 MME Capstone 1 Credits**

Independent research leading to a completed capstone project, such as curriculum and assessment development, pedagogical publication or presentation, instructional materials, etc. The project must be approved by the department.

**ME 791 Internship in Music Teaching 3 Credits**

A field-based experience consisting of three hours per week of internship teaching at a public or private school. Students may be placed in one of the residency programs of Westminster Academy. They will work with a cooperating teacher and be supervised by the instructor of the internship. Students will meet with the instructor periodically through the semester. In addition, they will prepare and teach lessons and submit documentation to chronicle the internship experience. International students in music education are strongly encouraged to take this course. ME 685, 692 and 791 are offered in rotation. One course is offered every semester.

**Music History (MH)****MH 608 Graduate Music History Review 3 Credits**

Required for graduate students who are admitted with deficiencies in music history, as determined by the graduate placement test in music history. It is strongly recommended that this course be taken at the outset of graduate study.

**MH 635 Public Musicology 3 Credits**

A graduate-level introduction to the many ways musicology can engage with communities and events outside the academy. Topics include music criticism, oral history, museum education, archives, and cultural tourism. **Prerequisite(s):** Graduate Standing; removal of all Music History deficiencies.

**MH 690 Independent Research & Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**MH 731 Intro to Musicology 3 Credits**

Introduction to the basic tools of research in historical musicology in order to foster: (1) an awareness of the nature and scope of historical musicology as a scholarly discipline; (2) familiarity with the techniques of musicological research; (3) an understanding of the relationship between musicological research and performance practice; and (4) experience in the application of musicological techniques to specific musical works and issues. It is strongly recommended that this course be taken at the outset of graduate study. Required for all Master of Music candidates.

**MH 733 Seminar in Music History 3 Credits**

The content of the course will vary with the special interests and qualifications of the professor teaching it.

**Prerequisite(s):** Removal of all music history deficiencies, it is strongly recommended that MH 731 be taken prior to this course.

**MH 734 Proseminar in Music USA 3 Credits**

A graduate-level introduction to the scholarly study of music in the U.S. Readings will cover music in Colonial/Early America, Western art music, popular music, and music of various ethnic communities.

**Prerequisite(s):** Graduate standing; removal of all Music History deficiencies.

**MH 750 Thesis I 3 Credits**

Independent research under faculty supervision leading to a master's thesis. Students register for this course in their first term of thesis research.

**Prerequisite(s):** Graduate standing, removal of all Music History deficiencies.

**MH 751 Thesis II 3 Credits**

Independent research under faculty supervision leading to a master's thesis. Students register for this course beginning in their second term of thesis research.

**Prerequisite(s):** Graduate Standing, removal of all Music History deficiencies, MH 750.

**Music Theory (TH)****TH 511 New Music Ensemble 1 Credits**

This course provides an opportunity to perform new music, primarily works of fellow students. It will also provide instrumentalists an opportunity to develop their performance skills more fully.

**TH 550 Keyboard Harmony 3 Credits**

An intense exploration of and drill in musicianship-keyboard skills, including score reading, transposition, modulation, clef reading, figured bass realization, harmonizing melodies, improvising and lead sheet accompanying. Projects may include transposition of a number of songs (perhaps a complete set) into all keys, figured bass realization for a Bach cantata, improvisation of service music (prelude, offertory, interludes, chorale preludes, postlude), multiple re-harmonizations of hymns/chorales for a service and score reduction and performance of a movement of an orchestral work. May be taken as an undergraduate level II theory elective.

**Prerequisite(s):** Undergraduate, minimum "C-" grade in TH 241; Graduate, Removal of all theory deficiencies.

**TH 608 Graduate Musicianship Review 4 Credits**

Required for graduate students admitted with deficiencies in musicianship as determined by the graduate placement test in musicianship. This course assists students in learning and integrating aural, performance, analytical and composition skills. Both the theoretical and the practical portion must be passed individually in order to receive a passing grade. It is strongly recommended that this course be taken at the outset of graduate study.

**TH 622 Electroacoustic Music 3 Credits**

Advanced opportunities for creative activities utilizing the resources of Westminster's Music Computing Center. Previous experience with sequencers and/or digital audio is expected.

**Prerequisite(s):** Removal of all music theory deficiencies.

**TH 623 Seminar in Music Theory 3 Credits**

The content of the course bearing this number will vary with the special interests and qualifications of the professor teaching it.

**Prerequisite(s):** Undergraduate, minimum "C-" grade in TH 241 and permission of instructor, or graduate student standing and removal of all music theory deficiencies.

**TH 625 Composition 3 Credits**

Class instruction in original composition. Projects and presentations.

**Prerequisite(s):** Graduate student standing and removal of all music theory deficiencies.

**TH 645A Composition Primary 3 Credits****TH 645C Composition Elective 2 Credits****TH 645D Composition Elective 1 Credits****TH 645E Composition Primary 3 Credits****TH 645F Composition Primary 1 Credits****TH 655 Composition Project 3 Credits**

Graduate-level private study in composition culminating in a major composition in one of the larger forms.

**Prerequisite(s):** three semesters of TH 645.

**TH 690 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**TH 726 Analysis 3 Credits**

A study of the compositional process as observed in selected tonal works, using the analytical approach of Heinrich Schenker.

**Prerequisite(s):** Removal of all music theory deficiencies.

## Organ (OR)

**OR 587 Organ Improvisation 2 Credits**

A laboratory in the keyboard disciplines of modulation, transposition, improvisation and vocal score reading. Required for undergraduate Organ Performance majors; others may elect the course by permission of the instructor.

**OR 588 Organ Pedagogy 2 Credits**

Pedagogical approaches to organ playing. Required for undergraduate Organ Performance majors; others may elect the course by permission of the instructor.

**OR 589 Organ Improvisation II 2 Credits**

Continuation of OR 587.

**OR 590 Accompanying at the Organ 2 Credits**

Development of accompanying techniques essential to the professional organist. Arranging and transcription from piano reductions and orchestral scores; standard choral/organ literature. Leading congregational song; appropriate methods of instrumental registration.

**OR 623 Organ Music of J.S. Bach 3 Credits**

A study by genre of Bach's organ compositions will include background, overview of the influences of Buxtehude, Pachelbel and Böhm, and performance practice issues. The question of the "Bach organ" will be explored. **Prerequisite(s):** MH 731, OR 433.

**Corequisite(s):** MH 731, OR 433.

**OR 629 Seminar in Organ Literature 2 Credits**

An intensive study of an area of organ literature or its performance practice. Specific content will change with each semester. Emphasis upon in-depth study of the works of a selected composer or genre.

**OR 641A Organ Primary 2 Credits****OR 641B Organ Primary 1 Credits****OR 641C Organ Elective 2 Credits****OR 641D Organ Elective 1 Credits****OR 641E Organ Primary 2 Credits****OR 641F Organ Primary 1 Credits****OR 690 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**OR 723 Organ Literature Before 1800 3 Credits**

Historical study of the organ literature coordinated with a study of the development of the organ as a musical instrument.

**OR 724 Organ Literature since 1800 3 Credits**

Study and research into the style, form, and interpretation of representative organ works composed after 1800. Study and research into national styles of organ composition and construction in France, Germany, England and North America.

## Piano (PI)

**PI 512 Chamber Music 2 Credits**

Emphasis is placed upon rehearsal and performances of representative collaborative literature for strings and piano, and woodwinds and piano. Students will be assigned movements from major chamber works selected from different style periods. Professional instrumentalists will join them for rehearsals and performances in class. An overview of the development of this repertoire will be presented and listening assignments will augment the study of specific works. A project involving the study and presentation of a piano quartet or piano quintet will be included. Attendance at three concerts of instrumental chamber music is required. Permission of applied teacher and instructor is required.

**PI 513 Jazz Keyboard/Improv 3 Credits**

This course will enable pianists and organists to become familiar with the theory, harmony, and improvisational techniques of jazz piano. Emphasis will be placed upon getting each student to create spontaneous improvisations. The fundamental goal will be that of enabling students accustomed to following a score to move beyond it. Extensive exposure to material from the "Great American Songbook" as well as to jazz standards will provide a structural basis for the course.

**Prerequisite(s):** TH 142 and PI 201, or equivalent knowledge and technical proficiency.

**PI 516 Physical/Psych Aspects Piano 2 Credits**

The two major emphases of this course are: (1) the pianist as athlete and 2) the pianist as performer. The first includes a study of appropriate exercise, nutrition, anatomy and physiology as they relate to piano technique, implications for injury prevention, and how to deal with injuries should they occur. The second includes the reading process, strategies for practicing, memorizing techniques, and ways of coping with the behavioral, physical and cognitive manifestations of performance anxiety.

**PI 540 Keyboard Skills 3 Credits**

The course includes in-depth study of numerous aspects of musicianship skills essential for all pianists within the broader categories of technique and practice strategies; memorization and sight reading; improvisation and lead sheet realization. All aspects of piano musicianship skills will be addressed from practical, pedagogical, and collaborative points of view. Assignments will include examples of studies from a wide range of levels all within the current and developing skill level of each student enrolled in the class.

**Prerequisite(s):** UG - Eight credits of applied keyboard study or permission of keyboard instructor or course instructor. GR - Permission of course instructor.

**PI 585 Piano Ensemble 1 Credits**

Study and performance of piano duets, two-piano works, and works for combinations of three or more pianists. The emphasis is on ensemble techniques for rehearsal and performance.

**PI 609 Graduate Piano Review 1 Credits**

A functional course concentrating upon sight reading of simple piano accompaniments and open score reading. Required for graduate students with deficiencies in these skills.

**PI 611 Piano Pedagogy Lab 0 Credits**

Discussions will include problem-solving related to piano teaching, discussion of observations, supervised and independent teaching, questions relating to repertoire, materials and technique. Comparative philosophies and psychologies and their applications, group and private teaching, business issues, professional organizations and publications, technology, career planning, recital and audition planning will be included. There will also be guidance in the preparation for the graduate oral examination.

**PI 622 Eval Piano Teaching Lit 3 Credits**

This course provides a critical survey of piano teaching materials, including standard teaching literature, approaches to piano technique in writings and music exercises, and repertoire for the elementary, intermediate, and early advanced student. All music is analyzed from the perspectives of performance, technical demands, strategies for teacher presentation, and student practice. Applications and demonstrations of technology are included. Graduate students demonstrate teaching and performance strategies in class and carry an assigned teaching load at the Westminster Conservatory.

**PI 633 Piano Literature Seminar 3 Credits**

A major area of piano repertoire is selected for intensive study. The emphasis of the seminar changes from semester to semester. Possible topics include the development of the Mozart concerto, keyboard works of J.S. Bach, piano writing of Debussy, and 20th Century piano music.

**PI 641A Piano Primary 2 Credits****PI 641B Piano Primary 1 Credits****PI 641C Piano Elective 2 Credits****PI 641D Piano Elective 1 Credits****PI 641E Piano Primary 2 Credits****PI 641F Piano Primary 1 Credits****PI 661 Graduate Piano Pedagogy 3 Credits**

This course serves as an intensive study of theoretical and practical aspects of piano study, through examination of instruction materials and developing a well-defined philosophy and approach to piano teaching. Students are challenged to increase their ability in connecting advanced and intermediate music study to the foundation of what should take place in the first weeks of piano lessons. The focus of the course lies in developing one's own curriculum, on its own terms, or associated with instruction materials already in publication. Various methodologies and significant areas of thought in the field of piano pedagogy are explored and compared. The course involves private and group lesson observations at all levels of teaching. Practical application of education theory to music lessons at the piano is done through demonstration and practice teaching at the Westminster Conservatory or the College. Practical application of educational theory to music lessons at the piano is done through demonstration and practice teaching through the Westminster Conservatory or the College.

**PI 690 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**PI 691A Piano Pedagogy Internship I 3 Credits**

The two-semester internship includes weekly teaching each semester, faculty observation of this teaching, and private discussion with the faculty observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. Internships may include intensive study of private and/or group instruction, reading for children, working with college, adults, piano minor, gifted students or traditional studio of all ages and levels.

**PI 691B Piano Pedagogy Internship II 3 Credits**

The two-semester internship includes weekly teaching each semester, faculty observation of this teaching, and private discussion with the faculty observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. Internships may include intensive study of private and/or group instruction, reading for children, working with college, adults, piano minor, gifted students or traditional studio of all ages and levels.

**PI 713 Accompanying Class 3 Credits**

Students will investigate aspects of ensemble in vocal accompanying. Discussion topics will include rubato and its connection to language, stylistic concerns, musical preparation as well as practical issues such as recital programming and balance. Students will be expected to absorb extensive repertoire through attendance and performance. Class format will include both student presentations and lecture sessions.

**PI 714 Techniques of Coaching I 2 Credits**

A practical course designed to furnish information and experience in all aspects of vocal coaching, including diction coaching, ornamentation and realization, issues of drama and presentation, stylistic considerations, stage deportment and specialized accompanying skills. Students are observed in the process of coaching singers. Semantics and pedagogical techniques are stressed and polished. Factors involved in translations of Italian, French, German and other non-English texts are studied.

**PI 715 Techniques of Coaching II 2 Credits**

A practical course designed to furnish information and experience in all aspects of vocal coaching, including diction coaching, ornamentation and realization, issues of drama and presentation, stylistic considerations, stage deportment and specialized accompanying skills. Students are observed in the process of coaching singers. Semantics and pedagogical techniques are stressed and polished. Factors involved in translations of Italian, French, German and other non-English texts are studied.

**Prerequisite(s):** PI 714.

**Sacred Music (SM)****SM 509 Jubilee Singers 1 Credits**

This auditioned ensemble is devoted to the performance of sacred music from the African-American tradition.

**SM 510 Conducting Adult Church Choirs: Pedagogy and Management 2 Credits**

A practical, skill-based course devoted to the building and maintenance of church music programs serving adults.

**SM 511 Sacred Music Lab 0 Credits**

Series of classes that addresses a variety of experiences in Sacred Music while rotating principal themes and ideas. Student preparation of monthly worship settings will put studied concepts into practice.

**SM 512 Conducting Children and Youth Church Choirs: Pedagogy and Management 2 Credits**

A practical, skill-based course devoted to the building and maintenance of church music programs serving children and youth.

**SM 517 Concert Handbell Choir II 1 Credits**

Open to students who have had previous handbell experience. Intermediate to advanced repertoire, with opportunities for concert performance.

**SM 519 Concert Handbell Choir I 1 Credits**

A choir selected by audition from the most experienced and capable bell ringers among the student body at large. This ensemble utilizes advanced repertoire and techniques, aiming primarily at presenting concerts both on and off campus, including a two-week annual tour.

**SM 525 Conductors' Repertoire Ensemble 1 Credits**

An auditioned chamber ensemble, offered every semester, which provides conducting podium time and coaching to all interested members. It additionally serves the conducting needs of graduate Sacred Music majors.

**Prerequisite(s):** CR 215 or permission of instructor.

**SM 531 Colloquium in Sacred Music 2 Credits**

A lecture series/colloquium intended to address a wide variety of concerns in the field of Sacred Music while rotating principal themes and ideas.

**SM 540 Choir Training/Young Singers 3 Credits**

A practicum combined with study designed to teach students how to organize and direct a children's choir program that emphasizes musical training as a basic requirement. The course focuses on teaching children good vocal techniques and sight-reading skills and includes practice teaching in a local school under instructor supervision. Other areas covered include musical readiness skills, voice-change problems, and repertoire.

**SM 541 Conducting Church Choirs: Ped & Mgt 3 Credits**

A practical course devoted to the building and maintenance of church music programs serving persons of all ages.

**SM 610 Foundations of Music Ministry 2 Credits**

This graduate level course surveys the vocational needs, professional relationships, administrative styles, and teaching roles of the practicing church musician. In addition to an overview of professional standards, emphasis will also be placed on music engraving skills (music notation software), budgeting, recruitment, endowments and fundraising.

**SM 621 Oratorio Solo Literature 3 Credits**

A performance course surveying solo and ensemble portions of oratorios, masses, passions and cantatas from the early Baroque period to the present, with emphasis on appropriate performance techniques for stylistic integrity. Offered in rotation with other Sacred Music electives. 3 Credit hours.

**SM 624 Choral Music for Children 1 Credits**

This course is designed to acquaint the church choral director with repertoire suitable for use with children's and youth choirs. Representative repertoire from all periods of music will be discussed and analyzed. Focus will be on repertoire that can be used during special services throughout the liturgical church year.

**SM 625 Choral Music for Adults 1 Credits**

This course is designed to acquaint the church choral director with repertoire suitable for use with adult choirs and adult ensembles. Representative repertoire from all periods of music will be discussed and analyzed. Focus will be on repertoire that can be used during special services throughout the liturgical church year.

**SM 630 Conducting Coaching 1-2 Credits**

Structured preparation and faculty coaching of the culminating choral recital in the graduate Sacred Music curriculum.

**SM 631 Worship Planning/21st Cent. 3 Credits**

Designed to facilitate the planning of worship, this practical course will be an immersion in the musical and theological materials available to those who create worship.

**SM 632 Collaborative Prep for Worship 1 Credits**

Through seminars, readings and common participation in chapel services, Westminster Choir College and Princeton Theological Seminary students will explore models for pastors and church musicians to prepare collaboratively for worship.

**SM 635 Choir Training For Children/Youth 3 Credits**

A practical course designed to teach students how to organize and direct a comprehensive music program from preschool through high school in the church setting. The course focuses on teaching excellent vocal techniques for each level as well as appropriate music skill development. Other areas of focus include: musical readiness skills; working with preschool singers; understanding the child's voice; the changing voice; and appropriate repertoire for all ages.

**SM 640 Liturgies 3 Credits**

A study of the origins of liturgy, its development in the main Christian traditions, and its relation to ecclesiastical history, with particular attention given to the differing styles and traditions of liturgical music. Contemporary liturgies are viewed against this historical background.

**SM 641 Hymnology 3 Credits**

A study of the origins and development of Christian hymnody, with reference to the theological emphases of various periods from the beginnings to the present, aiming to arouse interest in the textual and musical content of hymns and in their effective use in worship.

**SM 654 German Church Music 3 Credits**

A study of church choral literature by German composers from the 16th century to the present focusing on the pre-Bach and post-Bach cantata. Class performances of selected works. Complements SM 655. Offered in rotation with other Sacred Music electives.

**SM 655 Bach Cantatas 3 Credits**

A study of the history, performance practices, and liturgical setting of the cantatas of J.S. Bach. Class performances of selected cantatas.

**SM 690 Independent Study and Research 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**SM 710 Panorama of Sacred Music 3 Credits**

This graduate-level course is a one-semester survey of those masterworks and significant musical movements that have shaped the evolution of Western Sacred Music. Beginning with the Old Testament, this course will move through all eras, highlighting important composers and liturgical trends, placing them in their appropriate cultural and theological contexts.

**SM 712 Hist of Sacred Music I 3 Credits**

Study and research into the history of Western Christian music and its most important genres beginning with the Old Testament and continuing until the death of J.S. Bach in 1750.

**SM 713 Hist of Sacred Music II 3 Credits**

Continuation of SM 712, beginning with the Classical Viennese Mass and continuing until today. Emphasis on the development of the American church and its worship music.

**SM 722 Theology, Liturgy & Worship 3 Credits**

A detailed study of the Bible. Principal thematic and narrative elements are correlated to the development of the church's historic liturgies and the theological principles behind them.

## Voice (VC)

**VC 591 Performing in Lyric Theater 2 Credits**

Performing in Lyric Theater offers techniques for the preparation of lyric roles in a theatrical setting. It will develop elements of stagecraft, systematize a process for preparations and exploration, and introduce the working relationship with director and conductor.

**Prerequisite(s):** Undergraduates, VC 291 and the successful completion of Level II jury, or permission of the Chair.

**VC 592 Opera Workshop 2 Credits**

Introduction to opera performance. Acting exercises, character development, dramatic exploration and musical coaching culminating in a workshop-format presentation. It is recommended that VC 491 or 691 be taken before this course. This course may be repeated for credit.

**Prerequisite(s):** Undergraduates, successful completion of the level II voice test or permission of the chair.

**VC 593 Opera Theater 2 Credits**

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

**VC 593E Opera Theater (Ensemble) 1 Credits**

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

**VC 593N Opera Theater (Opera NJ) 1 Credits****VC 593R Opera Theater (Role) 2 Credits**

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

**VC 593T Opera Theater (Tech) 1 Credits**

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

**VC 621 Oratorio Solo Literature 3 Credits**

A performance course surveying solo and ensemble portions of oratorios, masses, passions, and cantatas from the early Baroque period to the present, with emphasis on appropriate performance techniques for stylistic integrity.

**VC 627 Opera Literature I 3 Credits**

Study of the development of opera from 1600 through the Napoleonic era (ca. 1815), with emphasis on performance practices, singing styles, libretti, the role of the orchestra, and the historical, political and sociological milieu in which the operas were written.

**VC 628 Opera Literature II 3 Credits**

Study of the development of opera from the early 19th century to the present, with emphasis on performance practices, singing styles, libretti, the role of the orchestra, and the historical, political and sociological milieu in which the operas were written.

**VC 633 Seminar in Opera Literature 3 Credits**

An intensive study of an area of opera literature. The specific content of this course will change from semester to semester. Emphasis is placed upon in-depth study of the works of a selected composer or of a specific genre of opera.

**VC 635 Seminar in Song Literature 3 Credits**

An intensive study of some area of art song history and literature. The specific content of this course will change from semester to semester. Emphasis is placed upon in-depth study of the selected repertoire.

**VC 641A Voice Primary 2 Credits****VC 641B Voice Primary 1 Credits****VC 641C Voice Elective 2 Credits****VC 641D Voice Elective 1 Credits****VC 641E Voice Primary 2 Credits****VC 641F Voice Primary 1 Credits****VC 641G Voice Primary 2 Credits****VC 650 Pedagogy Capstone 1 Credits**

Independent research leading to a completed capstone project, such as a pedagogical publication or presentation, development of an original or unique method of instruction, instructional materials, etc. The project must be approved by the department.

**VC 655A Voice Primary 2 Credits****VC 655B Voice Primary 1 Credits****VC 655E Voice Primary 2 Credits****VC 655F Voice Primary 1 Credits****VC 657 Private Coaching 2 Credits**

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 657 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 658 involves weekly half-hour lessons and a fee of \$600. Open to graduate Voice Pedagogy and Performance majors.

**VC 658 Private Coaching 1 Credits**

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 657 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 658 involves weekly half-hour lessons and a fee of \$600. Open to graduate Voice Pedagogy and Performance majors.

**VC 661 German Lieder 3 Credits**

This survey of the German Lieder begins with its roots in the 17th and 18th centuries and continues into the 20th century. Classes will involve study of Romanticism, including philosophers and poets of the 18th and 19th centuries who were important for German Lieder. The bulk of the class involves in-depth study of the Lieder of the important composers of the genre: Haydn, Mozart, Schubert, Robert and Clara Schumann, Mendelssohn, Liszt, Brahms, Wolf, Strauss, Mahler, Schoenberg, Berg, and Webern. Class sessions will involve a balance of lecture, discussion, and student performance.

**VC 662 French Melodie 3 Credits**

This course is designed as a survey of the song literature of France. Students examine works for voice and piano/instruments by Berlioz, Gounod, Saint-Saëns, Bizet, Faure, Duparc, Chausson, Debussy, Ravel, Messaien, Milhaud, Poulenc, and others, analyzing their relationship to larger stylistic, social, and musicological trends. Investigation will include matters of prosody, scansion, and compositional organization, with particular attention given to matters of text setting and poetic treatment. Special emphasis will be placed on important French language poets whose literary works serve as the basis for this material. Poets will include Baudelaire, Verlaine, Hugo, Rimbaud, Mallarmé, LaForgue, Maeterlinck, and others. Poetic history and form will be covered as well as important composer/poet partnerships. Class sessions will involve a balance of lecture and discussion. Works by both well-known and lesser-known composers will be included.

**VC 667 Private Dramatic/Role Coaching 2 Credits**

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 667 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 668 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**VC 668 Private Dramatic/Role Coaching 1 Credits**

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 667 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 668 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

**VC 690 Independent Research and Study 1-3 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

**Prerequisite(s):** graduate standing.

**VC 705 Grad Voice Rep:Italian/French 1 Credits**

This class is a performance seminar focusing on the synthesis of musical line and linguistic inflection. Elements of tonal color, frequency, vowel purity and rhythm will be practiced in each class session as individual students perform selections from the literature. Repeatable for credit only if space is available AND by permission of the Chair.

**VC 706 Grad Voice Rep:German/English 1 Credits**

This class is a performance seminar focusing on the synthesis of musical line and linguistic inflection. Elements of tonal color, frequency, vowel purity and rhythm will be practiced in each class session as individual students perform selections from the literature. Repeatable for credit only if space is available AND by permission of the Chair.

**VC 722 Literature for Teaching 3 Credits**

A survey of graduated teaching literature for beginning, intermediate and advanced voice students. Literature will be explored that is particularly well-suited to specific vocal issues (e.g. legato, coloratura, staccato, etc.)

**Prerequisite(s):** VC 723, VC 724.

**VC 723 Voice Ped I: Voice Science 3 Credits**

Study of voice anatomy and physiology with concentration on respiration, phonation, articulation, hearing and vocal health. Through hands-on experience in the Westminster Voice Laboratory, students explore the physics of sound, the fundamentals of musical acoustics, and acoustical elements that are unique to the human voice. Priority registration is given to M.V.P. majors and M.M. students majoring in Voice Performance and Pedagogy. Other students may enroll on a space-available basis.

**VC 724 Voice Ped II: Methods 3 Credits**

A comparative study of various pedagogical methods and ideals. A wide range of important historical and contemporary pedagogy treatises is reviewed. Students explore exercises and vocalises for general voice development as well as techniques to address and correct specific vocal problems. Role-playing exercises are used to develop appropriate listening and teaching skills. Class participants begin supervised instruction of a volunteer singing student.

**Prerequisite(s):** VC 723.

**VC 725 Voice Ped III: Tchng Practicum 3 Credits**

Communication skills are explored and students develop a systematic approach to studio voice instruction. Each student is assigned at least two voice students (one adult and one teenager) to be taught both inside and outside of class. Emphasis is placed on becoming familiar with all voice classifications and basic vocal literature.

**Prerequisite(s):** VC 723.

**VC 726 Voice Research 3 Credits**

Peer reviewed research in voice is evaluated and research methodologies are explored. Class projects include research in historical, qualitative, quantitative, and mixed methods approaches.

**VC 730 The Singing Actor: Opera 3 Credits**

This course entails coaching of selected songs, arias or repertoire from music theater, and techniques for performance preparation through intensive research. A final written project involves a musical and dramatic analysis of all chosen repertoire.

**VC 731 Opera Auditions: Prep & Tech 2 Credits**

This class will explore the many facets of preparing an audition for an opera role, apprentice program, or competition. At least three to four arias in contrasting styles and languages should be prepared for work in class. Areas to be addressed include vocal and dramatic presentation, networking, resume building, make-up, and photo advice. In coordination with the Office of Career Services, panel discussions with invited guests that will explore specific career-related topics will be scheduled.

**Prerequisite(s):** permission of the applied instructor.

**VC 740 Seminar in Music Theater Pedagogy 3 Credits**

Comprehensive study of various pedagogical approaches to teaching Music Theater singing techniques. Students explore exercises and vocalizes for general voice development as well as techniques to address and correct specific vocal problems. Role-playing exercises are used to develop appropriate listening and teaching skills. Class participants begin supervised instruction of a volunteer singing student. The course is offered entirely online and will consist of recorded lectures, reading assignments, group discussions via discussion boards, listening assignments, and other written assignments.

**Prerequisite(s):** VC 723.

**VC 741 Music Theater Literature I 3 Credits**

Survey and analysis of Music Theater literature from its roots in Tin Pan Alley through Kander and Ebb. Students will explore the synergistic relationships among text, music, and style and discuss the influence of society and politics on the genre. The course is offered entirely online and will consist of recorded lectures, reading assignments, group discussions via discussion boards, listening assignments and other written assignments.

**VC 742 Music Theater Literature II 3 Credits**

Survey and analysis of Music Theater Literature from Sondheim to the present. Students will explore the synergistic relationships among text, music, and style and discuss the influence of society and politics on the genre. The class will also discuss the integration of pop/rock and other contemporary substyles within the genre. The course is offered entirely online and will consist of recorded lectures, reading assignments, group discussions via discussion boards, listening assignments and other written assignments.

**VC 753 Spec Topics in Voice Perf Prac 3 Credits**

Intensive performance coaching and lectures in the form of master classes where performance practice in selected topics will be taught by current faculty or distinguished alumni and specialists in their fields.

**Prerequisite(s):** permission of the applied instructor.

**VC 791 Teaching Internship 2 Credits**

Teaching internship with a master teacher(s). The student will teach under faculty observation and supervision, including follow-up private discussion with the observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. May be offered on an intensive basis in conjunction with Westminster Summer Session events, such as The High School Solo Vocal Artist and/or Vocal Institute.

## DEPARTMENT INFORMATION

- Arts and Sciences (p. 1163)
- Baccalaureate Honors Program (p. 1164)
- Conducting (p. 1165)
- Music Composition, History and Theory (p. 1166)
- Music Education (p. 1167)
- Organ/Harpischord (p. 1169)
- Piano (p. 1170)
- Sacred Music (p. 1171)
- Voice (p. 1172)

## Arts and Sciences

### General Remarks

Arts and Sciences courses seek to provide those elements of a liberal arts education that will furnish undergraduates with an intelligent grasp of their cultural heritage and of the world in which they live. A thorough and ongoing contact with the humanities and an appreciation for the behavioral, social and physical sciences are indispensable to the development of musical leadership. Arts and Sciences courses are taught on the Westminster campus by faculty from all departments of the University. Westminster students may enroll in classes at the Princeton and Lawrenceville campuses. Please see the section, "Princeton University Program" for additional information.

Music History and Art History courses cannot be used to fulfill the Arts and Sciences history elective requirement.

### Bachelor of Arts in Music

The Bachelor of Arts in Music (p. 1062) is a liberal arts degree with a major in music. A broad foundation in liberal studies complements extensive studies in music. The curriculum is designed for students whose academic/and or career interests extend beyond music.

### Reading, Writing and Mathematics Skills

All entering undergraduates take placement tests in order to determine the level of their English reading and writing abilities and the level of their mathematics skills. Students exempted from any required Arts and Sciences course(s) must replace the credits with additional Arts and Sciences electives.

As a result of SAT scores and/or the English placement test, students may be required to take LL 037 during their first fall semester. LL 037, if required, must be completed satisfactorily as a prerequisite to all other Arts and Sciences courses. All students should complete LL 131 or CMP 203 during their first year of study.

#### English Placement

Students who have earned an AP score of 4 on either the Composition and Literature or the Language and Literature examination will receive credit for LL 131. Students who have earned an AP score of 5 on either the Composition and Literature or the Language and Literature examination will receive three additional credits.

Students with a combined score on the SATW and SATR of 1300 or higher are eligible to enroll in CMP 203 or LL 131. Students may enroll in BHP 100 by invitation of the Westminster Choir College Honors Program.

Students with an SATW score of 550 or higher OR an essay score of 8 or higher will be placed into LL 131.

Students with an SATW below 550 AND an essay score below 8 will be placed into LL 037.

Students with an SATW score lower than 500 OR an essay score lower than 7 may not challenge their placement into LL 037.

Students with an SATW score between 500-550 and an essay score of 7 may challenge their placement into LL 037 by taking the English Placement Test.

#### Mathematics Placement

As a result of the SAT scores and/or the mathematics placement test, students may be required to take MTH 100S Math Skills Lab.

Failing grade on the Mathematics Placement Test, OR SAT Math < 550: MTH 100S Math Skills Lab.

Passing grade on the Mathematics Placement Test, OR SAT Math  $\geq$  550 OR completion of MTH 100S Math Skills Lab: MTH 102 Finite Mathematics.

## Foreign Languages

Foreign language study is sequential, each course being prerequisite to the next. A minimum grade of C is required for advancement to the next level. Grades of C- or below will not be accepted. Placement tests are offered for students who have backgrounds in French, German or Italian. Advanced standing may be approved, but credit is not awarded except by transfer of credits earned in foreign language study at the college level for undergraduate students only.

- Foreign language placement tests are intended to determine appropriate placement only for students that have had prior instruction in the language and intend to take further courses in the language at Rider University. Undergraduate students whose test results place them into 200 or 300-level must take at least one semester of the language in order to fulfill an undergraduate language requirement.
- Foreign language placement tests do not result in credit awarded.
- Undergraduate students who have earned a minimum grade of C in a language course at another college or university will receive credit after supplying transcript evidence. Grades of C- or below are not sufficient.
- Students who have earned a minimum score of 3 on the AP (Advanced Placement) test, may receive three to six credits for each language exam.
- Undergraduate students who would like to receive credit for one or more language courses may take the College Level Examination Program (<https://clep.collegeboard.org/exam>) (CLEP) in that language at their own expense. (There is currently no CLEP exam for Italian.) Students who earn a score of at least 65 on CLEP exams may earn credits towards graduation.
- Native speakers may be exempted from taking a course in their native language by the Dean or by recommendation from the appropriate language instructor. This exemption does not receive credit, but fulfills undergraduate language requirements in that language.

For undergraduates exempted from language courses, the language credits are replaced by electives in Arts and Sciences.

## AP, IB, and CLEP Credit

Students who have earned a minimum score of 3 may receive three to six credits for each Advanced Placement (AP) test. A minimum score of 4 is required on the Music Theory AP test. Specific course and credit information is available at [www.rider.edu/admissions/undergraduate-admission/how-apply/first-year-college-students/ap-credits](http://www.rider.edu/admissions/undergraduate-admission/how-apply/first-year-college-students/ap-credits) (<http://www.rider.edu/admissions/undergraduate-admission/how-apply/first-year-college-students/ap-credits>)

Students who have completed International Baccalaureate (IB) courses must submit appropriate transcripts and scores. Incoming students may be granted up to 20 credits on the basis of their International Baccalaureate (IB) coursework. Credits are awarded for Higher Level IB courses based on the student receiving a score at or above the level approved by the department that evaluated the course (in no case less than a score of five). In order to grant credit, Rider's Office of Undergraduate Admission must be sent an official IB transcript. Specific course and credit information may be found at [www.rider.edu/admissions/undergraduate-admission/how-apply/ib-course-equivalency](http://www.rider.edu/admissions/undergraduate-admission/how-apply/ib-course-equivalency) (<http://www.rider.edu/admissions/undergraduate-admission/how-apply/ib-course-equivalency>)

In the case of the College Level Examination Program (CLEP) (<https://clep.collegeboard.org/exam>), students who have earned scores of at least 65 on tests prior to entering Westminster Choir College may apply these courses toward graduation. Students are limited to three credits per course unless additional credit is specifically authorized by the department. After enrolling at Westminster, students must obtain advance written approval from the department in order to earn credit through CLEP.

The following policies govern the awarding of academic credit for CLEP Examinations:

1. Credit will be provided for the successful completion of CLEP Subject Examinations, provided the student has not already received credit for corresponding courses.
2. A college course may not be taken for credit if the student has already received credit for the course through CLEP.
3. Continuing students must obtain approval from their academic dean prior to taking CLEP examinations.
4. Awarding of CLEP credits, like credit transferred from other colleges and universities, is subject to the approval of the student's academic dean.
5. Juniors or seniors generally may not obtain CLEP credits. Students having CLEP credits or contemplating CLEP exams should consult with their academic dean.

## Faculty

**Elly Sparks Brown** • Adjunct Assistant Professor, Arts and Sciences, 2013. B.A., Seton Hill University; M.A., The Catholic University of America; M.Div., Virginia Theological Seminary; D.Min., Wesley Theological Seminary.

**Elena Livingstone-Ross** • Adjunct Assistant Professor, Arts and Sciences, 1995. Graduate, Polytechnic Institute of Leningrad; B.A., Grinnell College; M.A., Princeton University.

**Ute Mehnert** • Adjunct Assistant Professor, Arts and Sciences, 2011. M.A., Ph.D., University of Cologne.

**Elizabeth S. Scheiber** • Professor, Department of WCC Piano and Voice, B.A. Western Kentucky University; M.A. Indiana University; Ph.D. Indiana University

## Baccalaureate Honors Program

### Westminster Choir College Honors Program

#### General Remarks

The Baccalaureate Honors Program (BHP) is a University-wide honors program designed to enrich the educational opportunities available to Rider students. It is available to those students of proven intellectual capability who are invited to become Baccalaureate Scholars. Interdisciplinary in orientation, the Westminster Choir College program enables Baccalaureate Scholars at Westminster to expand their knowledge and interest in the liberal arts during their music study. Through a series of team-taught seminars, single discipline honors courses and other options for music honors study, as well as an honors thesis, scholars extend their ability to think critically, coherently, and systematically about the great themes, ideals and movements of their human heritage.

Students are invited to join the Westminster Baccalaureate Honors Program as entering freshmen and may apply as currently enrolled freshmen or sophomores. Generally, students with SAT and high school GPA scores in the top 20% of the entering Westminster freshmen class are considered for invitation into the WCC BHP program. Students currently enrolled at Rider University must have at least a 3.3 GPA at the time of application to the program. In order to remain in the Baccalaureate Honors Program, the student must maintain a minimum cumulative GPA of 3.3.

Non-honors students, including juniors and seniors, who have earned a minimum cumulative GPA of 3.5, including juniors and seniors, may enroll in a particular honors seminar course with approval of the Westminster Choir College Honors Program Director. Permission will be given on a space-available basis, with priority given to students in the Honors Program.

In order to graduate with Baccalaureate Honors, Westminster students must complete eight honors courses: at least 4 interdisciplinary (team-taught) honors seminars, a capstone (thesis) project, and 3 other honors courses, seminars, or contracts. The Program is supplemented by other honors opportunities at the college and department level, and some graduate courses in music may be allowed as honors courses. All freshman honors students take BHP 150 Honors Seminar: Great Ideas II, which substitutes for English Composition. Most honors courses fulfill core degree requirements. Students may enroll in honors courses on either campus of Rider University. Students should see the Westminster Choir College Honors Program Director regarding guidelines and options for completing honors studies.

To view a list of all BHP courses and the category of requirement for which they count, click here:

<http://www.rider.edu/academics/academic-programs/honors-programs/baccalaureate-honors-program/core-substitutions>

Students enrolled in the Honors Program may register for graduate courses on the Princeton campus and request that they count as honors courses according to the following policies:

1. Students who have earned at least 45 credits and hold a minimum cumulative GPA of 3.5 may register for 600-level graduate courses

upon permission of the instructor, the Honors Program Director, and the Associate Dean.

2. Students who have earned at least 45 credits and hold a minimum cumulative GPA of 3.80 may register for 700-level graduate courses upon permission of the instructor, the Honors Program Director, the Chair of the department offering the course, and the Associate Dean.
3. Approval is based upon criteria such as cumulative grade point average, courses taken, and preparation for the particular course requested.
4. Undergraduate students permitted to enroll in 600- or 700-level graduate courses must complete the same syllabus and requirements that pertain to the graduate students in the course. The grade for the course will be recorded on a graduate transcript.
5. If a grade of "B-" or higher is earned, the course will be permitted to substitute for an undergraduate honors course. For any course used to meet undergraduate requirements, should the student later decide to enroll in a graduate program of the Westminster College of the Arts, the course cannot be used to meet graduate program requirements. In the event the course is required in the graduate program, the department sponsoring the program will identify a suitable substitution.

Honors seminars are designated on student transcripts, whether or not the student completes the Baccalaureate Honors Program. Upon successful completion of the program, an honors student receives an appropriate certificate. Successful completion also is recorded on the transcript and listed in the commencement program.

## Conducting

### Program Overview

The reputation of Westminster Choir College rests in large part upon the excellence of the choirs and the success of its graduates. The nation's leading critics and orchestra conductors continue to find the choirs worthy of the highest praise. Choral music is therefore the focus of all curricula. Westminster alumni are employed by schools, universities, churches, professional choruses and orchestras and opera houses throughout the world. Opportunities for choral performance on a professional level are unparalleled, and students acquire a strong foundation in conducting technique and knowledge of choral literature.

### Ensemble Grading Policy

#### A. Attendance

- Two absences are allowed per semester. No absences are allowed for dress rehearsals or performances.
- All events on the syllabus are required.
- Any absences over two will result in a lowered letter grade.
- Extenuating circumstances should be discussed with the director before they occur.
- Be on time. Two tardies will count as one absence.
- Missing a dress rehearsal or concert will result in a failing grade for the semester.

#### B. Participation/General Information

- Positive participation factors into your grade.
- Music and pencil are required at each rehearsal.
- Memorization, written translations and other analytical study may be required.

### Required Ensembles

Required ensembles are the essence of Westminster Choir College. These experiences enrich the entire student body and create the opportunity to form a creative musical core.

Chapel Choir and Schola Cantorum are designed to meet the needs of freshmen and sophomores. Each ensemble provides a dynamic and focused experience to build a strong foundation of rehearsal skills, choral tone, language and musicianship. Both ensembles use a variety of repertoire to build a strong foundation for each student.

The Symphonic Choir is at the heart of the college choral community. The ensemble appears with symphony orchestras of the United States and Europe. Students above the lower division sing in the Symphonic Choir, preparing choral/orchestral repertoire for performance at major venues along with local and regional concerts.

### Elective Ensembles

Elective ensembles are open to students by audition only. Auditions are held in the fall semester, and students perform in that ensemble for the academic year. The elective ensembles are Westminster Choir, Williamson Voices, Kantorei, Jubilee Singers and Concert Handbell Choir I.

### Conducting Major: Graduate

The graduate choral conducting program, generally a two-year program, trains conductors to be marketable and effective musicians. Westminster offers a balance of academic and performance opportunities. Graduate conducting majors take a core of research, literature, conducting, pedagogy and ensemble. Applied study and ensemble conducting offer each candidate the opportunity to work with the conducting faculty. Candidates must successfully complete a comprehensive oral exam before a degree is conferred. Graduate Conducting majors are admitted by audition in order to assure quality conducting experiences and contact with the graduate faculty.

### Conducting Concentration: Graduate

Graduate students majoring in Sacred Music and those Master of Music Education majors admitted with conducting as the performance field participate in Symphonic Choir for two semesters and in Master Singers for two to three semesters. A half recital in conducting is presented at the culmination of study. For Sacred Music majors, the conducting recital is a requirement in addition to the solo recital.

### Contact

Chair of Conducting, Organ, and Sacred Music  
Williamson Hall 43  
609-921-7100

### Faculty

**Joe Miller** • Professor, Conducting; Director of Choral Activities, 2006. B.S., University of Tennessee; M.M., D.M.A., College-Conservatory of Music, University of Cincinnati.

**Ryan Brandau** • Adjunct Assistant Professor, Conducting, 2012. A.B., Princeton University; M.Ph., University of Cambridge; M.M., D.M.A., Yale University.

**James Jordan** • Professor, Conducting, 1991. B.M., Susquehanna University; M.M., Ph.D., Temple University.

## Music Composition, History and Theory

### General Remarks

The program in composition, music history and theory aims to develop the aural skills needed by all musicians, to provide the necessary theoretical knowledge for the continuing study and performance of music, to build an understanding of music's function in society, to develop analytical and esthetic understanding of music forms and styles and to foster the creative impulse in music.

### The Undergraduate Music History Curriculum

Music history is concerned with why music matters to us both aesthetically and socially, what the past can teach us about ourselves, and how we arrive at our understandings of the past. It asks such questions as: why did this style or trend occur at this time? Why do we consider this composer to be more important than another composer? What social or political ideas are incorporated into this music? How can music communicate social or political ideas and change society for the better or the worse?

All undergraduates are required to take the two-semester Historiography sequence, Music Since 1900 and a music history elective at or above the 400 level. After completing the required courses, students will have:

- gained a working knowledge of the history of Western Art Music,
- some exposure to music of several other music cultures,
- acquired information literacy skills that will allow them to conduct further research in music history,
- improved their ability to read and critique academic writings and
- completed at least one major research project.

### Undergraduate Music Theory Curriculum

Required musicianship courses, Contemporary Trends, and elective theory courses form the core of the undergraduate music theory curriculum. All baccalaureate candidates must elect a level I theory course; Bachelor of Music candidates also must elect a level II theory course. All theory electives are defined as level I or level II under course descriptions. Also see "Music Theory Electives" below.

Incoming undergraduates take placement tests and may be required to take Introduction to Musicianship before beginning the core sequence of studies in musicianship. Exemption from and credit for required college-level courses may be earned by passing examinations administered by the department. These examinations are intended for entering freshmen and transfer students only.

Incoming undergraduates who hold scores of 4 or 5 on the Advanced Placement Examination in Music Theory will receive credit by examination for TH 141 Musicianship I. Students receiving credit for TH 141 are eligible to take a placement test to determine if credit by examination may be granted for additional theory courses.

### Theory/Composition Major: Undergraduate

The curriculum for the undergraduate Theory/Composition major is designed to foster individual creative ability and to develop a broad and

informed musicianship along with a knowledge of the literature of all periods. The department welcomes diversity of compositional styles and esthetic viewpoints and encourages exploration on the part of its students. The program culminates with a recital of original music written while a student is enrolled at Westminster.

### Composition Major: Graduate

Composition majors are expected to write works for soloists, for chamber ensembles, and for large wind or orchestral ensembles. The department welcomes diversity of compositional styles and esthetic viewpoints and encourages exploration on the part of its students. The program culminates with a recital of original music written while a student is enrolled at Westminster.

### Composition Primary: Graduate

Graduate students majoring in Sacred Music or Music Education may be admitted with a composition primary. Such a student must complete three semesters of Composition Primary and must present a composition recital as a conductor, accompanist, soloist, or ensemble performer. For Sacred Music majors, the composition recital is distinct from the required conducting recital.

### Music History Elective

The Music History elective (MH 433, MH 733) is an in-depth exploration of a single topic (e.g., a composer, a genre, a country). Topics will vary from year to year. Generally, offerings include at least one course in Western Art Music before 1800, one course in Western Art Music since 1800, one course in Asian, Latin American or African music, and one course in Popular Music (broadly defined) on a regular basis. The goal of the elective is not only to teach students about the specific topic of the course, but also to develop students' research skills so that they can teach themselves about any topic in music history in the future. The Music History elective includes a significant research paper (2000+ words at the 400 level; 3000+ words at the 700 level).

### Music Theory Electives

Elective courses provide students with opportunities to apply their skills to specific areas of inquiry after satisfying specific prerequisites. The core requirements for Bachelor of Music students include two music theory electives. Bachelor of Music students may meet the theory requirement by taking one level I elective (preferably after completing TH 142 and before taking TH 241) and one level II elective, or else by taking two level II electives.

Level I theory electives include:

Code	Title	Credits
TH 237	Composition Class	3
TH 251	Analytical Studies I	3
TH 253	Orchestration	3
TH 255	Song Writing	3
TH 259	Electroacoustic Music	3

Level II theory electives include:

Code	Title	Credits
TH 424	Choral/Instru Arranging	3
TH 431	Form and Analysis	3
TH 432	Contrapuntal Techniques	3

TH 433	Special Topics in Theory	3
TH 452	Analytical Studies II	3
TH 550	Keyboard Harmony	3

## Music Computing Center

Westminster maintains a music computing facility in which students can compose, orchestrate, and print their compositions in publishable quality using computers interfaced with sampler/synthesizers as well as sequencing and music printing software.

## Faculty

**Sharon Mirchandani** (chair) • Professor, Music History/Theory, 1997. B.M., Bowling Green State University; M.M., Temple University; Ph.D., Rutgers University.

**Christian Carey** • Associate Professor, Theory/Composition/Music History, 2004. B.M., Juilliard; M.M., Boston University; Ph.D., Rutgers University.

**Charles Frantz** • Adjunct Associate Professor, Music History/Theory, 2000. B.M., M.M., Temple University; Ph.D., Rutgers University.

**R. Douglas Helvering** • Adjunct Professor, Theory, 2009. B.M., University of Nebraska; M.M., Westminster Choir College; D.M.A., University of Kansas.

**Ronald A. Hemmel** • Professor, Theory/Composition. B.M., Westminster Choir College; M.M., James Madison University; M.Phil., Ph.D., Rutgers University.

**Eric Hung** • Associate Professor, Music History, and Supervisor, American and Public Musicology Program, 2004. A.R.C.T., Royal Conservatory of Music; B.A., Wesleyan University; Ph.D., Stanford University.

**Jay Kawarsky** • Professor, Theory/Composition, 1989. B.M.E., Iowa State University; M.M., D.M., Northwestern University.

**Anthony Kosar** • Professor, Theory, 1984. B.M., West Liberty State College; M.M., Southern Illinois University; Ph.D., The Ohio State University.

**Carmen Mateiescu** • Adjunct Assistant Professor, Theory/Composition, 2007. B.M., M.M., University of Music (Bucharest); Ph.D., Rutgers University.

**Joel Phillips** • Professor, Theory/Composition, 1985. M.M., Eastman School of Music, University of Rochester; B.M., D.M.A., University of Alabama.

**Stefan Young** • Professor, Theory/Composition, 1979. B.M., Rollins College; M.M., The Juilliard School; Ph.D., Rutgers University.

## Music Education

### Music Education Major: Undergraduate

The undergraduate Music Education curriculum is planned to develop teachers who are reflective, who acknowledge the connections music has to the child's world and who seek to promote an understanding of those connections in a social context. Students come to know and understand:

- the central concepts, tools of inquiry and structures of music education as they relate to the New Jersey Core Curriculum Content Standards for the Visual and Performing Arts and how to design appropriate learning experiences that connect to the students' world and help students to broaden their perceptions of the world around them;
- how children learn and adapt to instruction that meets a diversity of learning styles and special learning needs in a variety of school contexts;
- the importance of teaching that is culturally responsive;

- instructional planning and curriculum design that promote critical thinking, action and feeling through teaching constructivist and other appropriate strategies;
- how to engage students in problem solving, problem posing and meaningful dialogue;
- the appropriate use of multiple assessments;
- sound principles of effective classroom management;
- effective verbal, nonverbal and written communication techniques and the tools of information literacy;
- the importance of being articulate advocates for music education in the schools;
- the importance of schooling within the context of the community and of learning to build partnerships with parents, families and agencies within the community to support students' learning and well-being;
- the importance of on-going professional development.

The curriculum includes a state-approved music education program that leads to a letter of certification eligibility for teaching vocal and instrumental music at all levels in New Jersey. Transfer of certificates to other states is greatly facilitated by accreditation of the program by the National Council for the Accreditation of teacher Education (NCATE) and by membership of the State of New Jersey in the National Association of State Directors of Teacher Education and Certification program (NASDTEC) and the Interstate New Teacher Assessment and Support Consortium (INTASC).

Music Education Majors must maintain a minimum cumulative grade point average of 3.0. Students whose general progress is unsatisfactory or whose cumulative grade point average falls below a minimum 3.0 level may be dropped from the Music Education major. If a student is dropped from the major because of failure to maintain the minimum grade point average, s/he may apply for readmission to the Music Education department. Readmission will be dependent upon various criteria, including the G.P.A., current academic progress and the student's general standing. Decisions regarding retention or appeals will be made in a manner consistent with state and institutional non-discrimination policies.

Applications for certification are processed each year on November 15 And April 15 and at no other time.

### Music Education Lab

Undergraduates must meet the weekly attendance and participation requirements for Music Education Lab during every semester of enrollment up to seven semesters as an undergraduate Music Education major except for the senior student teaching semester. Grading is "P" (satisfactory) or "U" (unsatisfactory). As part of the Music Education Lab experience, students are required to complete 15 hours of professional development. Students propose their own Professional Development Activity (PDA) to be approved by the lab instructor each semester.

Graduate students have no departmental requirements in Music Education Lab.

### National Association for Music Education

Music Education majors are encouraged to join the Westminster student chapter of the National Association for Music Education (NAfME.org (<http://www.NAfME.org>)). Membership enables them to attend state, regional and national meetings, providing them with a connection to active members of the profession. Members also receive the Music

Educators Journal, Tempo and Teaching Music, which are used as supplementary texts in several courses.

## Music Education Portfolios

All Music Education majors must maintain portfolios of work providing evidence of their suitability for teaching. Portfolios of undergraduates are reviewed by the department with students when they have earned at least 60 credits as well as upon completion of ME 492 Student Teaching. Students must pass the portfolio review to continue in the department. Portfolios of graduate students are reviewed each year.

## Practicums and Field-based Observations

In addition to the standard student teaching semester in the senior year, a special feature of the Westminster program is the experience of observation and teaching in the context of the Art of Teaching Music courses ME 161, ME 262, ME 563 and ME 564. These combine instruction in music methods with practical experience in public school contexts. Several music education courses require students to make observations of music classes in urban, suburban, public and/or private schools.

Students must be prepared to arrange for transportation to and from practicums at a reasonable distance from the college and to sustain related expenses.

Students will be required to obtain a background clearance in an assigned school district in order to participate in a field experience. Students who have been convicted of a felony may not be approved for field experiences, and are not able to receive New Jersey State Teacher Licensure.

## Priority Registration

Because of the demand for these courses, ME majors will receive priority registration for:

Code	Title	Credits
ME 111	Music Education Lab	0
ME 161	Art of Teaching Music I	3
ME 262	Art of Teaching Music II	4
ME 563	Art of Teaching Music III	4
ME 564	Art of Teaching Music IV	4

Students who register after pre-registration are not assured places in these classes. Students need permission of the chair to register for student teaching. All pre-requisites for student teaching must be completed before permission is granted. Therefore, students are urged to complete pre-requisites (including PI 204) by the end of the spring semester of their junior year. It is recommended that students meet piano proficiency requirements by the end of their sophomore year.

## Student Teaching

Student teaching is a full semester in duration and is usually completed during the seventh or eighth semester of study. Students may not enroll for any applied or classroom courses during the semester of student teaching, except for ME 587 and ME 595. In addition, students may not present or participate in recitals or choral performances or ensembles during the semester of student teaching. Further departmental policies regarding the student teaching semester are contained in the Music Education Department Handbook. Students are referred to the paragraph above which relates to registering for the student teaching semester.

## Music Education Major: Graduate (M.M.)

This program is designed for students who wish to major in music education with a concentration in applied music or composition. It is generally expected that students interested in the Master of Music program will hold state teaching certification and will have taught for at least one year prior to initial enrollment at Westminster. Applicants are sometimes accepted without this experience, but the Music Education Department reserves the right to require that a year of successful teaching be completed before the Master of Music degree in this major field is granted. Applicants must complete an audition as part of the admission process.

The Master of Music degree in music education does not itself include courses leading to New Jersey certification; applicants should therefore normally possess certificates before beginning master's work.

The Master of Music program reflects the Westminster philosophy that the music educator must be a fully capable musician. Consequently, there is a decided emphasis on performance or composition in the curriculum, with several options available. The professional sequence of courses conjoins philosophy of music education, psychology of music learning and praxis. The course content is presented in the context of post-modern critical theory and connects to the social, cultural and political tensions found in schooling. Students acquire habits of mind to challenge the status quo and complete the program as agents of change—advocating a critical pedagogy for music education that is transformational.

For more information on this program please visit Graduate Programs: Music Education (<http://www.rider.edu/wcc/academics/graduate-programs/music-education>)

## Master of Music Education (M.M.E)

The Master of Music Education program is for music teachers who wish to complete graduate study in four summers or in two academic years. Students may also combine summer and academic terms to accelerate completion. Students wishing to pursue K-12 music certification concurrently with this degree may do so through the Graduate Level Teacher Certification Program (GLTP) offered by Rider University's School of Education.

This program includes music education courses, music core courses, choral ensemble performance and a self-designed, 12-credit area of focus proposed by the student to the department. The degree culminates in the completion of a master's thesis. Students in the certification program must plan to include study during the academic year in order to complete required field experiences, including student teaching. Like the Master of Music (M.M.) degree, the professional sequence of courses conjoins philosophy of music education, psychology of music learning and praxis. The course content is presented in the context of post-modern critical theory and connects to the social, cultural and political tensions found in schooling. Students acquire habits of mind to challenge the status quo and complete the program as agents of change—advocating a critical pedagogy for music education that is transformational.

For more information on this program please visit Graduate Programs: Music Education (<http://www.rider.edu/wcc/academics/graduate-programs/music-education>)

## Music Education Courses Online

The following music education courses are offered in traditional (fall, spring and summer terms) and online formats throughout the year. The

online versions may be offered in 13-week, 8-week and 3-week formats. Students in the MM, MME or BM/MAT programs may take either the traditional or online format to complete their degree. Students in other degree programs may take these courses as free electives:

Code	Title	Credits
ME 685	Research in Music Education	3
ME 692	Hist & Phil of Music Educ	3
ME 693	Seminar in Music Educ	3
ME 721	Curriculum Development & Evaluation	3
ME 723	Psychology for Music Tchr	3

The following courses are offered by the College of Continuing Studies and may be used as electives in graduate music education programs. They are taught quarterly online, in 8-week modules throughout the year.

- CP-600 Creative Practices in Music Teaching and Learning
- CP-620 Creative Practices in Vocal Science
- CP-640 Creative Practices in Choral Pedagogy
- CP-660 Creative Practices in Classroom

#### Westminster Academy

The Westminster Academy is the laboratory school of the Music Education Department and the Westminster Conservatory. Classes are taught in a residency program at John Witherspoon Middle School, located in Princeton, and to home-schooled students at Westminster Conservatory, located on the Westminster campus. Opportunities for teaching internships are provided for graduate students in music education as well as practicum experience for undergraduate Music Education majors. The teaching philosophy at Westminster Academy embraces Critical Pedagogy for Music Education, connecting music teaching in the context of social change. Lessons are designed to meet individual student learning styles and the teaching strategies are framed in constructivist ideology. The curriculum seeks to affect transformative learning for both students and their teachers.

## Westminster Partnership with the Federal University of Rio Grande do Sul, Porto Alegre, Brazil

The music education department at Westminster has a partnership with the graduate music education program at the Universidade Federal do Rio Grande do Sul (UFRGS) in Porto Alegre, Brazil. Faculty members from the music education department at Westminster regularly teach at UFRGS and professors from Porto Alegre present seminars as visiting scholars at Westminster. Opportunities are under exploration for students to study in Brazil as part of their graduate degree. In addition, the Department offers instruction in O Passo (The Step), a Brazilian music education method developed by Lucas Ciavatta of Rio de Janeiro who is an adjunct assistant professor in music education at Westminster. Courses in O Passo are offered in alternate summers and special workshops are planned at various times during the academic year as appropriate. O Passo is taught at Westminster Academy to sixth grade students at Witherspoon Middle School.

## Faculty

**Janet Cape** (chair) • Associate Professor, Music Education, and Chair of Music Education, 2010. B.M., University of Victoria; M.M., Arizona State University; D.M.A., Arizona State University.

**Frank Abrahams** • Professor, Music Education, 1992. B.M.E., Temple University; M.M., New England Conservatory; Ed.D., Temple University.  
**Sangmi Kang** • Assistant Professor, Music Education, 2018. B.M., M.M., Seoul National University; Ph.D. University of Florida.  
**Maureen Murphy-Fernandez** • Adjunct Instructor, Music Education, 2016. B.S., West Chester University.  
**Marshall Onofrio** • Professor, Music Education, 2007. B.M., B.S., University of Connecticut; M.M., University of Illinois; M.M., University of Nebraska-Lincoln; D.M.A., The Ohio State University.  
**Jason Vodicka** • Assistant Professor, Music Education, 2018. B.M., M.M., Westminster Choir College; D.M.A., University of Georgia.

## Organ/Harpischord

### General Remarks

The purpose of organ study at Westminster is that of equipping students for church work, teaching and recitals. Thorough training and study of technique, service playing, organ literature and the instrument itself are integral to the total organ program. Details of jury, repertoire and recital requirements may be obtained from the Organ faculty.

There are currently 19 organs for student and faculty use on the campus. These include an Aeolian-Skinner, 1935, completely refinished tonally in 1983 by Mark Brombaugh and Kenneth Wolfe; a Casavant, 1968; a Fisk, 1977; and others by von Beckerath, Casavant, Flentrop, Hildebrandt, Holtkamp, Möller, Noack, Ott, Phelps, and Schantz.

### Organ Major: Undergraduate

Undergraduate Organ Performance majors are required to play six times each semester in performance class as outlined in the Organ Department Handbook. A half recital in the junior year and a full recital in the senior year, each partially memorized, are required. Juries are required at the end of each semester unless a recital is successfully completed during the semester.

### Organ Primary: Undergraduate

Organ primary students majoring in Sacred Music, Music Education, or Theory/Composition are expected to play five times each semester in performance class as outlined in the Organ Department Handbook. Seniors must present a half or full recital, as determined by the instructor and with the approval of the department chair. Juries are required at the end of each semester unless a recital is successfully completed during the semester.

### Organ Major: Graduate

Graduate Organ Performance majors are required to play six times each semester in performance class as outlined in the Organ Department Handbook. Semester juries are required unless a recital is successfully performed during the semester. The degree program is culminated by one fully memorized or two non-memorized recitals. The entrance audition may be waived for current Westminster seniors and, in some cases as determined by the department chair, for recent Westminster graduates. Students must take OR 433 and OR 434 (carrying no graduate credit) or pass an exemption examination.

### Organ Primary: Graduate

Graduate students majoring in Sacred Music or Music Education may study organ as a primary instrument to satisfy degree requirements. Graduate organ primary students are required to play five times each

semester in performance class as outlined in the Organ Department Handbook. Semester juries and a half recital are required.

The entrance audition may be waived as described for Organ Performance major applicants. Students must take OR 433 and OR 434 (carrying no graduate credit) or pass an exemption examination.

## Organ as an Elective

Undergraduate and graduate students who qualify by audition may study organ as an elective if it is not otherwise a specific requirement. An extra tuition fee is assessed for such study. Elective lessons are provided on a space-available basis to qualified Princeton and Lawrenceville students.

## Organ Performance Class

Attendance and participation at weekly studio and performance classes is required for all organ primary students. All Westminster students are invited to attend.

## Harpichord Study

Under the auspices of the Organ Department, private harpsichord instruction is available for elective credit at an extra tuition fee. The college owns two harpsichords: a one-manual Dupree and a two-manual Dowd.

## Faculty

**Jason N. Roberts** • Adjunct Assistant Professor, Organ, 2017. B.M., Rice University; M.M., Yale University; D.M.A., Manhattan School of Music

**Kathleen Scheide** • Adjunct Assistant Professor, Harpsichord, 2006. B.M., M.M., New England Conservatory, D.M.A., University of Southern California.

## Piano

### General Remarks

Piano at Westminster Choir College has multiple dimensions at both the undergraduate and graduate levels. It fosters the development of students who perform on a high level as soloists, as artist-teachers and as collaborators with other performing artists. A strong foundation of technique and knowledge of piano literature and style are essential to all of these aspects of pianism. The department also provides instruction for undergraduate students who need keyboard skills in order to function effectively throughout their professional careers.

Piano Major: Undergraduate (p. 1170)

Piano Primary: Undergraduate (p. 1170)

Piano Major: Graduate (p. 1170)

Piano Pedagogy and Performance Major: Graduate (p. 1170)

Piano Accompanying and Coaching Major: Graduate (p. 1170)

Piano Primary: Graduate (p. 1170)

Piano Secondary: Undergraduate (p. 1170)

Piano as an Elective (p. 1171)

Piano Pedagogy Lab (p. 1171)

Piano Performance Class (p. 1171)

## Piano Major: Undergraduate

Undergraduate Piano majors are encouraged to play at least twice in performance classes each semester. Semester juries, a recital in either the sophomore or junior year and a senior recital are required.

## Piano Primary: Undergraduate

Piano primary students majoring in Sacred Music, Bachelor of Arts in Music, Music Education or Theory/Composition are expected to play once each semester in performance class. Seniors give a full or half recital, as determined by the instructor and the department following the jury examination at the end of the junior year. Freshmen have required juries at the end of each semester; sophomores and juniors, at the end of each year.

## Piano Major: Graduate

Students majoring in Piano receive private lessons and play in weekly studio and are expected to play at least twice in performance classes. The program culminates with a full recital. Semester juries are required.

## Piano Pedagogy and Performance Major: Graduate

Students majoring in Piano Pedagogy and Performance receive private lessons, study major teaching methodologies, and undertake observation and practice teaching. The program includes a two-semester teaching internship and culminates in a full recital or in a combination lecture/performance recital. Students are encouraged to play at least twice in performance class each semester. Semester juries are required. A weekly Pedagogy Lab is required for two semesters, but recommended for all four semesters.

## Piano Accompanying and Coaching Major: Graduate

Majors in Piano Accompanying and Coaching receive private lessons in vocal accompanying repertoire and are assigned to collaborative roles in working with undergraduate and graduate voice primary students. Two degree-specific recitals as an accompanist are required.

## Piano Primary: Graduate

Graduate piano primary students majoring in Sacred Music or Music Education receive private lessons and are required to present a half recital. Students are expected to play at least twice in performance class each semester. Annual juries are required.

## Piano Secondary: Undergraduate

All undergraduate voice primary students must enroll for piano secondary study until the capstone course (PI 204, PI 205, PI 207, or PI 208) is passed. Instruction is in the form of piano classes. Incoming undergraduates take a placement test and may be required to successfully complete PI 045 before beginning the sequence of Piano Secondary courses. The sequence consists of four courses: PI 103, PI 104, PI 203 and the capstone course, each of which must be passed with a grade of B- or higher.

For any student with a double major that includes the Bachelor of Music in Music Education or the Bachelor of Music in Music Education/Master of Arts in Teaching degree program, that student must successfully complete PI 204, the Piano Secondary capstone course. For any other student with a double major, not including the B.M. in Music Education or the B.M. in Music Education/M.A.T. degree program, the capstone course required for that student will be determined by the piano secondary faculty and coordinator of Piano Secondary in consultation with the Associate Dean.

Instruction entails study and performance of piano literature from the Baroque through the 21st Century as well as development of proficiency in areas of functional keyboard skills. If the capstone is passed in fewer than four semesters, further study is not required.

## Piano as an Elective

Students may elect private instruction in piano for credit. There are no audition requirements, but an extra fee is charged. Elective lessons are provided on a space-available basis to qualified Princeton and Lawrenceville campus students.

## Piano Pedagogy Lab

PI 611 is a required graduate Piano Pedagogy course for the purpose of problem-solving related to piano teaching. The class format includes discussion of observations, supervised and independent teaching, questions relating to repertoire, materials, and technique, comparative philosophies and psychologies and their applications, group and private teaching, business issues (e.g. studio policies), professional organizations and publications, use of technology, career planning, recital and audition planning. Preparation for graduate oral examination is included. The weekly lab is required for two semesters, but recommended for all four semesters.

## Piano Performance Class

This is a weekly recital and lecture hour during which programs are given by students and guest performers. Attendance and participation at weekly studio and performance classes is required for all undergraduate and graduate piano major and primary students. All Westminster students are invited to attend.

## Faculty

**Dalton Baldwin** • Adjunct Professor, Piano, 1984. B.A., Oberlin Conservatory.

**Ena Bronstein Barton** • Adjunct Associate Professor, Piano, 1983. Artist Diploma, Escuela Moderna de Musica and Conservatorio Nacional de Musica, Santiago, Chile.

**Ingrid Clarfield** • Professor, Piano, 1982. B.M., Oberlin College; M.M., Eastman School of Music, University of Rochester

**James Goldsworthy** • Professor, Piano, 1996. B.M., M.M., Southern Methodist University; D.M.A., Stanford University.

**Phyllis Lehrer** • Professor Emerita, Piano, 1975. A.B., University of Rochester; M.S., Juilliard School.

**Thomas Parente** • Associate Professor, Piano, 1993. B.A., Jersey City State College; B.M., Manhattan School of Music; M.A., Rutgers University; Dalcroze Eurhythmics License, Longy School of Music; Ed.D., Teachers College, Columbia University.

**Agnes Poltorak** • Adjunct Assistant Professor, Piano, 2000. B.M., University of British Columbia, Canada; M.M., Westminster Choir College of Rider University.

**Betty Handelman Stoloff** • Adjunct Associate Professor, Piano, 1978. B.M.A., University of Michigan; M.A., Columbia University.

## Sacred Music

### General Remarks

The Sacred Music Department offers education of the highest quality and broadest scope to Sacred Music majors who aspire to be leaders of the future.

The department is inter-denominational and seeks to explore the excellence of various traditions of sacred music. The faculty have wide experience and expertise in such traditions as Anglican, Lutheran, Methodist, Presbyterian, Reformed, Roman Catholic, the Synagogue and Temple tradition, and others.

The curricula at both undergraduate and graduate levels aim, on the one hand, to explore how familiar tradition can be blended with unfamiliar contemporary creativity in choral, congregational, and instrumental music for worship and, on the other hand, to provide a balanced study of theoretical matters and practical concerns. Technique, repertoire, and performance practice are therefore considered with theology, Biblical and post-Biblical religious history, and the development and practice of liturgy and worship.

Underlying all the offerings of the department is the understanding that sacred music is neither an optional extra nor merely a spiritual entertainment within the service of the church. It is rather an essential part of the liturgy and worship and therefore must have integrity and quality appropriate for its twin functions of carrying the Word of God to us, and our words of praise to God.

Undergirding the sacred music program are the offerings of the other Westminster academic and performance departments, the specialized collections containing sacred music materials in Talbott Library, and the vast network of affiliate churches in the greater New York-Philadelphia metropolitan area in which Westminster students are enabled to gain personal experience of a wide range of sacred music practice.

## Sacred Music Lab

All full-time undergraduate Sacred Music majors are expected to enroll in and meet the requirements for SM 511 Sacred Music Lab to a total of eight semesters. All full-time graduate Sacred Music majors are expected to enroll in and meet the requirements for SM 511 Sacred Music Lab to a total of two semesters. Grading is "P" (satisfactory) or "U" (unsatisfactory).

## Handbell Program

The Westminster handbell program was instituted in 1979 to fill the need to train church musicians in the art of handbell ringing. It became the first curriculum of handbell ringing in an institution of higher learning. Concert Handbell Choir I, open to students by audition, goes on tour annually, has appeared on national television, and has five recordings to its credit.

## Jubilee Singers

The Westminster Jubilee Singers is an auditioned ensemble dedicated to the performance of repertoire from the rich body of sacred music from the African-American tradition. Jubilee Singers performs regularly on- and off-campus.

## Sacred Music Internship

All undergraduate Sacred Music majors are placed in local churches during the junior year as part of the requirement for church field education. The placement decision is made at the end of the sophomore year to permit planning over the summer before employment begins in the fall. Church field education gives the opportunity for students to exercise their skills in a church setting under faculty supervision and guidance.

## Sacred Music Major: Undergraduate

The undergraduate sacred music program is designed for students who are preparing for professional careers in church music. The curriculum provides courses in theological, liturgical, sociological, and practical dimensions of music ministry and requires at least one year of supervised field education in an affiliate church.

## Sacred Music Major: Graduate

The graduate sacred music program provides advanced training for church musicians from a wide variety of educational, professional, and denominational backgrounds. It is expected that applicants for this program will bring a thorough grounding of musical knowledge and significant experience in full- or part-time music ministry. The curriculum includes general as well as specialized courses in sacred music studies, theology, history, musicology, and applied skills.

## Special Performance Option for Graduate Students

Graduate applicants who have outstanding promise in sacred music as conductors but who have limited backgrounds in voice, organ or piano may apply for special consideration as performers in an instrumental field not normally part of the graduate sacred music program. A candidate should have an undergraduate major or emphasis or the equivalent on the instrument. A recommendation from the undergraduate applied music instructor is required. The candidate will audition for a committee composed of an associate dean, the faculty chair, and an appropriate member of the Westminster Conservatory faculty.

An admitted student will choose an instrumental teacher with whom to study, subject to the approval of the auditioning committee. The student is required to complete satisfactorily the equivalent of two semesters of study (at least 12 hours of lessons per semester) and to present a 30-minute recital under the instrumental teacher's supervision. All fees and expenses for this study are separate from those charged by the college and are the responsibility of the student. The requirement of three semesters of voice, organ or piano study, with satisfactory completion of an appropriate jury, remains for a student admitted under this option, but audition and recital requirements in these areas are waived.

## Princeton Theological Seminary

A reciprocal arrangement with Princeton Theological Seminary allows Westminster graduate students to take certain courses offered by the Seminary. Enrollment in such courses is arranged after consultation with Sacred Music faculty. Speer Library at the Seminary, housing one of the nation's most important theological collections, is another invaluable resource for Westminster students.

## Faculty

**Vinroy Brown** • Adjunct Instructor, Sacred Music, 2017. B.M., Westminster Choir College; M.A., Regent University.

**Steve Pilkington** • Associate Professor, Sacred Music, and Director of Chapel, 1992. B.A., St. Olaf College; M.M., University of Illinois; Ph.D., Drew University.

**Kathleen Ebling Shaw** • Adjunct Instructor, Sacred Music, 1991. B.M., Westminster Choir College.

**Tom T. Shelton, Jr.** • Associate Professor, Sacred Music, 2012. B.M., M.M., University of North Carolina at Greensboro.

## Voice

### General Remarks

Since its founding, Westminster Choir College has made a unique contribution to the world of music because of its emphasis upon vocal training. All undergraduates are required to study voice in order to become well grounded in the fundamentals of singing. Many graduate students also study voice as a major, primary, or elective.

The Voice Department seeks to develop the musician by establishing a sound vocal technique and a thorough understanding of the singing voice, its literature, and pedagogy. These tools are essential for the study and performance of vocal and choral literature and for training students as solo performers, professional teachers, or choral conductors. Every undergraduate must satisfy departmental requirements for graduation. Juries and other tests are conducted periodically for the purpose of evaluating progress; details may be obtained from the Voice Department.

### Voice Primary: Undergraduate

Voice primary students majoring in Sacred Music, Music Education, Theory/Composition, Music Theater, or the Bachelor of Arts in Music receive instruction which includes private lessons, diction, vocal pedagogy, voice literature and recitals. Weekly studio and performance classes offer regular performing opportunities.

### Voice Major: Undergraduate

Instruction for Voice Performance majors entails private lessons, coaching, recitals, diction, voice literature, opera, and vocal pedagogy. Weekly studio and performance classes offer regular performing opportunities.

### Voice Performance Repertoire List

(This requirement is effective as of the Fall 2010 semester for all students who entered or were readmitted into the Bachelor of Music, Voice Performance major for Fall 2008 or later.)

Students will document and present a Voice Performance Repertoire List demonstrating that they have satisfied the repertoire requirements stated in the Voice Handbook. The completed Voice Performance Repertoire List, signed by the voice teacher, must be submitted to the Academic Coordinator, along with documentation of the senior recital. Failure to complete the requirements of the Voice Performance Repertoire List will result in failure to graduate.

### Secondary Voice: Undergraduate

Organ and piano primary students are required to study voice as a secondary applied field until they pass the Voice Proficiency Test. The test may be passed at the end of any semester, but those who do not pass it after four semesters of instruction are required to continue study until the test is passed. If the test is passed in fewer than four semesters, further voice secondary study is not required. Instruction includes class and private lessons as well as optional diction and vocal pedagogy courses. Qualified students may sing in performance classes at the discretion of their teachers or may request departmental approval to present voice recitals.

## Voice Pedagogy and Performance Major: Graduate

This program has two emphases or tracks. The pedagogy emphasis entails private lessons, voice literature, opera, vocal pedagogy, supervised student teaching and a full recital. The performance emphasis entails private lessons, voice literature, opera, vocal coaching, vocal pedagogy, and a full recital supported by carefully researched program notes. For students whose undergraduate work has not included a public recital, presentation of a 30-minute recital is required before work on the graduate recital may begin. Weekly coaching classes as well as studio and performance classes offer frequent performance opportunities.

## Voice Primary: Graduate

Graduate students majoring in Sacred Music or Music Education may study voice as a primary instrument. The program culminates in a graduate recital of 30 to 50 minutes of singing. Weekly studio and performance classes offer frequent performance opportunities.

## Voice as an Elective

Undergraduate and graduate students may elect to study voice for credit toward their degrees if it is not otherwise a specific requirement. Instruction is in the form of private lessons and an extra tuition fee is assessed. There are no specific entrance or jury requirements. Elective lessons are provided on a space-available basis to qualified Princeton and Lawrenceville students.

## Voice Performance Class

Attendance and participation at weekly studio and performance classes is required for all voice primary students. All Westminster students are invited to attend. The class functions primarily to provide performance opportunities, to acquaint students with a wide variety of vocal literature, and to equip them to teach voice to others.

## Master of Voice Pedagogy (M.V.P.)

The Master of Voice Pedagogy program is designed for summer study. It includes courses in vocal pedagogy and literature, music core courses, and choral ensemble participation. The program culminates in a vocal pedagogy project completed under the guidance of a Westminster voice faculty member.

## Presser Voice Laboratory

The Presser Voice Laboratory at Westminster is a state-of-the-art lab for voice analysis and research. It is used as a tool for students and their teachers to work interactively with visual and acoustical feedback, and for them to engage in individual research interests. Open Lab Days encourage everyone at Westminster to explore the lab's technology, and classes routinely work on lab assignments there to gain knowledge and experience in voice science.

Laboratory equipment includes KayPENTAX's Computerized Speech Laboratory (CSL), the Phonatory Aerodynamic System (PAS) for airflow analysis, VoceVista software and electroglottograph, and professional-quality microphones, recorders, and sound level meters. Various models and teaching aids are also housed in the lab, and the Talbott Library collaborates with the Presser Lab to provide access to books, journals, recordings, and Visible body software.

## Faculty

**Margaret Cusack** (chair) • Professor, Voice, and Chair of Voice and Piano Faculties, 1994. B.M., M.M.T., Oberlin College.

**Christopher Arneson** • Professor, Voice, 2003. B.A., M.M., Binghamton University; D.M.A., Rutgers University.

**Susan S. Ashbaker** • Associate Professor, Voice, 2006. B.M., M.M., Southern Illinois University; M.M., University of Illinois.

**Lauren Athey-Janka** • Adjunct Assistant Professor, Voice, 2016. B.M., Boston University, M.M., Westminster Choir College of Rider University.

**Dalton Baldwin** • Adjunct Professor, Piano, 1984. B.A., Oberlin Conservatory.

**Victoria Browers** • Adjunct Assistant Professor, Voice, 2017. B.M., Ohio Wesleyan University, M.M. Westminster Choir College of Rider University; D.M.A. State University of New York at Stony Brook.

**Elem Eley** • Professor, Voice, 1987. B.M., Baylor University; M.M., Southwestern Baptist Theological Seminary.

**Rochelle Ellis** • Adjunct Assistant Professor, Voice, 1995. B.M.E., University of Missouri, Kansas City; M.M.E., Westminster Choir College of Rider University.

**Faith Esham** • Adjunct Assistant Professor, Voice, 2000. B.A., Columbia Union College; B.M., M.M., The Juilliard School.

**Thomas Faracco** • Associate Professor Emeritus, Voice. 1983. B.M., M.M., Westminster Choir College of Rider University.

**Nancy Froyland Hoerl** • Adjunct Assistant Professor, Voice, 1995. B.A., Moorhead State University; M.M., Westminster Choir College of Rider University.

**Katherine Johnson** • Adjunct Assistant Professor, Voice, 2006. B.M., University of Calgary; M.M., Manhattan School of Music.

**Rachelle Jonck** • Adjunct Associate Professor, Voice, 2007. B.M., University of Stellenbosch (South Africa)

**Robin Massie** • Adjunct Assistant Professor, Voice, 2008. B.M., Westminster Choir College; M.M., Yale University.

**Sean McCarther** • Associate Professor, Voice, 2012. B.M., Baylor University; M.M., D.M., Indiana University.

**Mark Moliterno** • Adjunct Associate Professor, Voice, 2005. B.M., M.M., Oberlin College Conservatory of Music.

**Carolann Page** • Adjunct Assistant Professor, Voice, 2008. B.M., Curtis Institute of Music.

**Kathy Kessler Price** • Associate Professor, Voice, 2012. B.A., University of Richmond; M.M., University of Maryland; Ph.D., University of Kansas, Lawrence.

**Debra Scurto-Davis** • Adjunct Assistant Professor, Voice, 2004. B.M.E., Evangel College; M.M., Baylor University; S.M., University of Michigan.

**Elizabeth Sutton** • Adjunct Assistant Professor, Voice, 2005. B.A., Bowling Green State University; M.M., College-Conservatory of Music, University of Cincinnati.

**Sharon Sweet** • Professor, Voice, 1999. B.S., Roberts Wesleyan College; M.M., Ithaca College.

**Nova Thomas** • Associate Professor, Voice, 2004. B.M., University of North Carolina, Chapel Hill; M.M., Indiana University.

**Charles J. Walker** • Adjunct Instructor, Voice, 1995. B.M., University of Delaware.

**Sally Wolf** • Adjunct Assistant Professor, Voice, 2001. B.M., Kent State University; Artist Diploma, Curtis Institute of Music.

**Amy Zorn** • Adjunct Assistant Professor, Voice, 1996. B.M., University of Wisconsin, Madison; M.M., Boston University.
