Our Prescription Plan

Rider University's prescription plan, connected to our medical plan, is administered through CVS Caremark. Members will pay the prescription plan copay based on the appropriate tier (see table below). Copays for prescriptions only count towards the out-of-pocket maximum and not the deductible. Once your out-of-pocket maximum is met, prescriptions are typically paid in full.

Formulary changes and clinical management programs will go into effect on January 1, 2023; impact is possible and member-specific. In the event action is required, CVS will make outreach via mail as it relates to alternative medications available and distribution methods.

Reminder Regarding Ongoing Medications

In addition to receiving a 90-day supply of prescription medications through the mail order pharmacy program, members have the option to fill (and refill) prescriptions of a 90-day supply directly from a retail store. The mail order pharmacy fill may be your most cost-effective option. Rider University's mail-order program is administered through CVS Caremark.

Specialty Medication Support

Coverage of your specialty medicine

Your pharmacy plan covers some drugs, and your medical plan covers others. Depending on your plan, you may need to pay a copayment or coinsurance. And certain drugs require precertification. This just means you need approval from the plan before they'll be covered. Talk with you provider or call us at the number on the back of your member ID card if you have any questions about coverage of your medicine. At <u>CVSspecialty.com</u>, it's easy to manage your medications.

- Existing prescriptions? Call 800-237-2767 (TTY:711) to transfer your prescription.
- **New prescriptions?** Your doctor can e-prescribe to CVS specialty. Call one of your registered pharmacists at 800-237-2767 (TDD: 800-863-5488) Monday through Friday, 7:30 am to 9:00 pm ET. Fax prescriptions to 800-323-2445.

Check the Formulary

Check the Formulary for a brand-name drug before you fill the prescription to see how it is covered under the plan. Consider discussing lower-cost alternatives with your doctor, as drug costs may increase or decrease throughout the year. View the formulary at <u>aetna.com</u>.

A Tax-advantaged, Interest-bearing account

• Contributions are made pre-tax and funds earn tax-free interest

Owned by YOU

- The account belongs to you, so only you decide how to spend it
- It remains yours even if you leave your employer or retire
- · Money left in your account carries over from year to year
- Only actual amount deposited is available for reimbursement

Used to help pay for both current and/ or future health care expenses

- You can withdraw money tax-free for qualified health expenses and you can use for other expenses (subject to taxes and penalties)
- Or you can watch your money grow to pay for future expenses

When you elect to enroll in the HDHP medical plan, you are eligible to open a Health Savings Account (HSA) through PayFlex. An HSA allows you to save money on a tax-free basis to use for your out-of-pocket health care expenses. You are the owner of this bank account, and unlike a traditional Flexible Spending Account, your funds can roll over from year-to-year and build over time. If you are new to the HDHP medical plan, this account will be set up for you after you confirm your plan election in Benefit Focus and a banking welcome kit will be mailed to your home address. You have the opportunity to have pre-tax dollars deducted from your paycheck and deposited into this account, or you can make post-tax deposits as you wish.

To help you build your HSA, Rider University will make the following annual* contributions:

- Single coverage: \$500
- Family coverage: \$1,000

*Pro-rated based on number of months enrolled in the HDHP medical plan.

What are the advantages of participating?

- Pre-tax savings never pay the federal government taxes on your HSA funds as long as you spend the money on eligible IRS 213(d) health care (medical, dental, vision) expenses
- · Unused funds carry over from year to year and can build over time
- · Complete control over how and when funds are used
- · Balances over a certain amount may have investment opportunities through PayFlex
- Funds remaining in your account after you reach the age of 65 can be used for non-medical expenses with ordinary taxes paid, similar to a 401(k)
- HSAs are portable; if you leave Rider University, you can take the account and all funds in it with you

The IRS annual maximum contributions into your account:

The annual maximum contribution limit includes amounts contributed by your employer.

- Single coverage \$3,850
- Family coverage \$7,750
- Persons greater than age 55 may set aside an additional \$1,000 in catch-up contributions each year

An HSA puts you in control of your healthcare dollars

- · You decide how much you want to contribute per-paycheck or lump-sum basis
- · Contributions can be changed at any time
- Pay for expenses as you incur them, pay out-of-pock and reimburse yourself later, or save the funds for future use - you decide!

FSA's provide you with an important tax advantage that can help you pay health care and dependent care expenses on a pretax basis. By anticipating your family's health care and dependent care costs for the next year, you can actually lower your taxable income. You must elect the amount you want to contribute to each account. Your contributions will be deducted from your paychecks in equal installments throughout the year and deposited into your account(s). Contribution amounts can be changed during the year with a qualified and corresponding Life Event. Your accounts function independently and can be accessed when you incur expenses. For up to date account balance information please visit the <u>Payflex</u> portal. Claims can be submitted up until March 31st of 2023 for incurred dates up until 12/31/2022.

HEALTH CARE FSA:

This program lets employees pay for certain IRS-approved medical care expenses not covered by their insurance plan with pretax dollars. Eligible expenses include medical, dental and vision not covered under your health plan.

For the **2023** calendar year, an individual can contribute up to \$3,050 to a health care **FSA** or limited purpose **FSA** (employees enrolled in HDHP medical plan).

Examples include:

- · Hearing services, including hearing aids and batteries
- Vision services, including contact lenses, contact lens solution, eye examinations and eyeglasses
- · Dental services and orthodontia
- Chiropractic services
- Acupuncture
- Prescriptions

DEPENDENT CARE FSA:

The Dependent Care FSA lets employees use pretax dollars toward qualified dependent care such as caring for children under the age 13 or caring for elders. The Dependent Care FSA maximum, which is set by statute and is not subject to inflation-related adjustments, is \$5,000 a year for individuals or married couples filing jointly, or \$2,500 for a married person filing separately.

Examples include:

- · The cost of child or adult dependent care
- The cost for an individual to provide care either in or out of your house
- Nursery schools and preschools (excluding kindergarten)

Commuter and Parking Benefits

Commuter and Parking Benefits
