2024-2025 Petition for Dependency Status Review

Federal aid regulations assume that the family has primary responsibility for meeting the educational costs of students. If you are considered a dependent student according to the financial aid definition, your aid eligibility is determined by using both your and your parent(s') income and asset information. Dependent students are required by law to provide parental information and signatures. The unwillingness of your parent(s) to provide parental data or your unwillingness to seek financial assistance from your parent(s) is not an acceptable reason to appeal your dependency status. Similarly, financial self-sufficiency and/or tax filing status does not determine dependency status.

Occasionally, students can be considered independent due to unusual circumstances (for example, students who have been separated from their families due to an unsafe environment). If you can document that you should be considered an independent student, you may petition for a waiver of federal regulations requiring parental information. Your petition will be reviewed; if additional documents are needed, you will be contacted via your Rider email address. An appointment with a Financial Aid Office Officer may be required.

All documentation (including this application) should be submitted via the [One Stop Document uploading system](#). If you have any questions while completing this process please contact the One Stop Office via email at verification@rider.edu.
