Principles, institutions, and processes involved in the formulation and implementation of policies regarding the nation's military, eco-nomic, and environmental security within the global framework. Strands, trends, and problem areas in U.S. foreign policy, with focus on the changing global environment of the post-Cold War world. Note: This course is cross-listed as HLS 350. Students may not get credit for both HLS 350 and POL 350.

POL 351 Critical Views of Global Security 3 Credits

This course will examine the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspective on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (enviroment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security. Note: This course is cross-listed as HLS 351. Students may not get credit for both HLS 351 and POL 351.

POL 361 The Judicial Process 3 Credits

In-depth examination of the nature of judicial decision-making and the impact that judicial decisions have on society. Considers the sources of judicial authority, judicial fact-finding, statutory and constitutional interpretation, individual and collective processes of judicial decision-making, relations between judges and other government officials, and the political consequences of judicial decisions with particular emphasis on federal courts and judges. Note: This course is cross-listed as HLS 361. Students may not get credit for both POL 361 and HLS 361.

POL 363 Hum Rights in Global Context 3 Credits

Examines human rights – droits de l'homme, derechos humanos, Menschenrechte, "the rights of man" – are, literally, the rights that one has because one is human. What does it mean to have a right? How are being human and having rights related? This course provides an introduction to theory and global practice of human rights. Human rights claims play an increasingly central role in political and social struggles across the world. The adoption of the Universal Declaration of Human Rights in 1948 signaled a proliferation of international human rights law and transnational non-governmental activism. While the promotion of human rights has become global, adherence to those standards remains highly uneven and gross violations and atrocities continue to occur. Given the breadth and complexity of the human rights movement, including its engagement with law, politics and morals, in radically different cultures, this course is by its very nature multidisciplinary. Note: This course is cross-listed as HLS 363. Students may not get credit for both HLS 363 and POL 363.

POL 365 Third World Politics 3 Credits

Studies the major political issues of the Third World. Particular reference to political systems of Africa, Asia, Latin America, and the Middle East according to the relevance of the examples to large conceptual issues, and according to the major interests of the instructor. Typical issues include neocolonial dependency, the role of the state in newly developed countries, military rule and democratization. Note: This course is cross-listed as GLS 365. Students may not get credit for both POL 365 and GLS 365.

POL 366 Communist Systems: Politics and Policies 3 Credits

The course aims to provide students with an understanding of the origin, development, and history of communism, as well as the current political systems and practices of communist regimes in the world. Students are expected to acquire in-depth knowledge about the origin and development of communism, the influence of communism in world politics, and political systems and policies of contemporary communism regimes. Topics examined include Communist Manifesto, communism in the USSR, communism in China, McCarthyism in the U.S., Cold War, collapse of the USSR, fall of Berlin Wall, and communism in contemporary Cuba and Korea.

POL 367 Pol Exile, Asylum & Diaspora 3 Credits

This course analyzes mass migrations and refugee movements and what they mean for the stability of nations, the increasing potential of severe culture clashes within societies, and the root causes of (forced) migration movements, such as problems of violence, terror and genocide, as recently seen in Darfur, Rwanda and Bosnia. In certain European countries the frequently failed integration and assimilation policies resulted in an Islamic alienation; terrorist attacks and race riots are some of the consequences. Particular attention will be given to the conflict between the refugees' and migrants' needs that result from violent, socio-economic or ecological catastrophes in the countries of origin and the various forms of reception within the host countries. Students will explore theoretical, political, legal, and socio-economic dimensions of the refugee and immigration phenomena in a global world. Other themes will include international human rights and refugee laws, theories of immigration, for example, the feminization of migration, as well as problems of acculturation, assimilation and integration in different host societies. Note: This course is cross-listed as GLS 367. Students may not get credit for both POL 367 and GLS 367.

POL 368 International Organizations 3 Credits

This course introduces students to the study of international organizations. The course examines mostly formal and governmental institutions as well as informal institutions or regimes. Topics to be covered include and are not limited to: the establishment of international organizations, evolution of international organizations, structure of international organizations, decision-making of international organizations and influence of international organizations. This course employs both theoretical and practical approaches in its examination on international organizations. Note: This course is cross-listed as GLS 368. Students may not get credit for GLS 368 and POL 368.

POL 371 The Arab-Israeli Conflict 3 Credits

The course will begin by introducing the main players: the neo-patrimonial Arab regimes on the one hand, and the democratic, economically modern Jewish sector in Palestine on the other. The analysis will focus on the impact of the social, economic, political and religious differences between the sides on their conception of the conflict among the participants and powers outside the region. The course will concurrently examine the impacts of the dynamics of the conflict itself, relations within Islam on the one hand and between Islam and the West on the other. The latter part of the course will consider the sources of perceptual shift that led simultaneously to the narrowing of the conflict with the withdrawal of some of its participants (most Arab states) and its widening with the addition of Al Qaeda and Iran (via Hezbollah).

POL 399 The Co-operative Experience 3-12 Credits

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. IND 398 and (dept.) 399 combined cannot exceed 15 credits. Pass/fail. Prerequisite(s): junior standing and 2.75 GPA at the time of registration.

Corequisite(s): IND 398 The Co-operative Experience Seminar.

POL 415 Political Internship 3-6 Credits**POL 450 Seminar in Political Science 3 Credits**

A multidimensional framework within which to integrate the variety of perspectives and methodologies extant in the field of political science. Topics for discussion and analysis may range from broad concepts of political discourse such as power and interdependence to specific political issues such as executive-legislative relations and judicial policymaking.

POL 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

POL 491 Internship in Political Science 1-4 Credits

Students work under supervision in a public agency, political party, or public interest group. A minimum of 52 hours of fieldwork per credit required, with regular reports and a concluding critique analyzing and evaluating the experience. Primarily for seniors and qualified juniors. No more than six credits allowed toward graduation.

Prerequisite(s): permission of instructor.

POL 499 Senior Honors Thesis 3-6 Credits

Majors having completed the department's core requirements and having a minimum GPA of 3.5 in political science courses may apply for honors in their sixth semester. Applicants enroll in POL 490 Independent Research and Study in their seventh semester to develop and submit a thesis proposal to the department. With departmental approval, applicants prepare an honors thesis in their last semester. Upon acceptance of the thesis by the department, the student will be graduated with honors in political science.

POL 501 Homeland Security 3 Credits

This course is designed to help students increase their knowledge and understanding of problems impact the public agenda, why some solutions are adopted and other rejected, and why some policies appear to succeed while others appear to fail. The course will primarily examine policy making at the national level in the United States, but will also analyze examples at the state and local level, as well as placing U.S. policy in a comparative perspective.

POL 502 The Development and Structure of U.S. Intelligence Agencies 3 Credits

This course will provide an historical review of intelligence during the following World War II. It will examine the major functions of intelligence, as well as intelligence as a part of the foreign policy process: collection, analysis, counterintelligence and covert action. Students will be introduced to a range of collection procedures: human, open source, electronic, photographic, and signal. With emphasis placed on interpreting and writing intelligence summaries.

Psychology

Program Overview

The psychology major is designed to meet the needs of various types of students and to develop a broad understanding of the many topic areas within the field of psychology.

The program is committed to helping students understand and appreciate both the scientific foundations and human service aspects of the field of psychology; develop and apply oral, written, analytical and critical-thinking skills applied to psychological issues, questions and problems; understand issues in contemporary psychology and recognize and apply psychological knowledge in order to provide solutions to real world problems and develop both interpersonal and intrapersonal knowledge through academic experiences and extra-curricular activities.

The program is designed to foster self-awareness and personal growth, the development of leadership skills and a respect and understanding for human development and human diversity.

Curriculum Overview

The curriculum develops the fundamental skills that predict success in the profession of psychology, human services, corporate jobs, education and graduate school. Classes stress the development of writing skills, both technical report writing and literature research papers and provide a range of instruction on the statistical data analysis, online control of laboratory experiments, text processing and presentation software. In fieldwork placements, students gain work experience in a variety of human services programs within the community.

Members of the psychology faculty encourage students to become involved in research projects. Many Rider psychology seniors bound for graduate school receive offers of substantial financial aid in the form of assistantships and tuition waivers. These offers are made because our majors carry out research of high quality. Students have coauthored journal publications with the faculty and presented papers at regional and national conferences. Laboratories are always open for students and faculty supervision is always available.

Honors Program in Psychology

A student may receive honors in psychology by fulfilling the following conditions beyond the basic requirements for the psychology major: complete one Independent Research and Study project (490); earn a cumulative average of 3.25 and an average of 3.5 in psychology at the time of graduation.

Requirements for the Major

(40-49 credits)

Note: A grade of "C" or better is required in each Psychology course in order for the course to be counted toward the major.

¹ For course placement information please visit this website (<http://www.rider.edu/offices-services/orientation/course-placement>).

² Please note that elective credits may be used to complete requirements in a second major or minor.

PSY 100 Intro To Psychology 3 Credits

An orientation to psychology, covering major facts, principles and concepts about human and animal behavior and experience, re-search findings, major problems, basic vocabulary, methodologies, and contributions in the field. Topics include psychology as a science; human development; individual differences; intelligence and its measurement; special aptitudes and interests; personality and social behavior; motivation and emotion; frustration and personality deviations; and learning, thinking, remembering and forgetting.

PSY 105 Introduction to Research in Psychology 3 Credits

Students will be introduced to the basic research methods used in psychology including, surveys, experiments and observation. Students will collect data and learn to describe this data using basic tools of analysis including graphic display and statistical analysis. Students will read original psychological research and learn to write using the conventions of the American Psychological Association.

Prerequisite(s): a grade of "C" in PSY 100.

PSY 201 Statistics and Research Design 3 Credits

Introduces students to statistics and research methods in the behavioral sciences. Covers the fundamentals of descriptive and inferential statistics, a variety of issues in research design, selected research designs including the case study, correlational and experimental designs. In addition, students will explore the literature in psychology in order to examine the use of statistics and research design in real research problems.

Prerequisite(s): grade of "C" in PSY 205.

PSY 210 Organizational Psychology 3 Credits

Focuses on issues related to human behavior in work settings. Topics include personnel issues such as hiring and promotion decisions, performance appraisals, and methods of on-the-job training. Issues of job satisfaction, motivation, productivity, and effective leadership styles are also examined. Finally, organizational structure as it relates to communication within organizations will be examined.

Prerequisite(s): PSY 100.

PSY 212 Introduction to Applied Behavior Analysis 3 Credits

Presents a review of classical and operant conditioning, data collection and research design, data analysis and interpretation. In addition, assessment and treatment strategies in a variety of settings, contingency management in institution, classroom and home, systematic self-desensitization, and ethical consideration are discussed.

Prerequisite(s): PSY 100.

PSY 215 Personality 3 Credits

A synthesis of the most recent research in the field of personality development. Topics include interplay of biological, cultural, and subjective personal processes; analysis of the broad trends in personality theories; and introduction to personality measurement.

Prerequisite(s): PSY 100.

PSY 218 Psychology of Women 3 Credits

Examines the psychological development of women in our culture from birth to maturity, with an emphasis on the interaction of biological and social influences on personality, social behavior, and achievement of women. Investigates psychological sex differences in terms of current measurement approaches. Readings and text are drawn from psychological theory and research.

Prerequisite(s): PSY 100.

PSY 220 Abnormal Psychology 3 Credits

The development of abnormal personalities is discussed, with a survey of the various types of mental abnormalities, including their symptoms, diagnoses, and treatments. Neuroses and psychoses are emphasized.

Prerequisite(s): PSY 100.

PSY 225 Learning and Memory 3 Credits

A broad coverage of the expanding fields of learning, memory, and cognition is provided, while addressing their relevance and impact on human behavior. Continuity between early associationistic and contemporary cognitive theories is established. Topics range from basic conditioning to the more complex processes of memory, concept learning, thinking, and problem solving. Prerequisite(s): PSY 100.

PSY 230 Child Development 3 Credits

Presents theory and research on the social, emotional and cognitive development of children birth to age 12.

PSY 231 Youth and Adolescent Development 3 Credits

Presents theories, research and problems concerning development in youth and adolescence.

Prerequisite(s): PSY 100.

PSY 237 Cognitive Disabilities 3 Credits

Investigates various types of intellectual differences, focusing on etiology, methods of diagnosis, programs and services available to individuals and families. Considers problems relating to adjustment in academic, social, and vocational areas.

PSY 238 Sensation and Perception 3 Credits

The facts and theories of sensation and perception, their role in the total psychology of the individual, and current application are examined.

Prerequisite(s): PSY 100.

PSY 240 Social Psychology 3 Credits

Deals with the scientific study of human beings in social situations, focusing on reciprocal influence of the individual and the group, especially aspects of behavior that are socially determined. The nature of attitudes: their development and change; the nature of social influence; interpersonal perception and attraction; dynamics of social behavior; and social phenomena, such as prejudice and social movements, are covered.

Prerequisite(s): PSY 100.

PSY 250 Psychology of Aging 3 Credits

This survey course focuses on basic psychological issues in the aging process and in the elderly. It examines myths and stereotypes about aging and the elderly by way of research evidence pertaining to physical, psychological, and social changes accompanying aging.

Prerequisite(s): PSY 100.

PSY 255 Biopsychology 3 Credits

Basic biological structures and processes underlying behavior, including general neuroanatomy and neurophysiology; sensory physiology; structure and function of the motor systems; physiology of emotions, motivation, learning, memory; brain dysfunction; psychoactive drugs.

Prerequisite(s): PSY 100.

PSY 279 Psychology and Law 3 Credits

Introduces students to a study of selected topics in psychology and law. Topics include eyewitness testimony, jury selection, and decision making

Prerequisite(s): PSY 100.

PSY 283 Sport Psychology 3 Credits

This survey course will focus on the social and psychological factors related to performance and participation in sport and exercise, health, and injury rehabilitation settings. Two general questions will be explored: (a) how do social and psychological variables influence performance and participation in physical activity pursuits? And (b) how does physical activity participation affect the psychological well-being of the individual? To better understand these questions, this course will overview theoretical and methodological approaches to a variety of sport and exercise psychology topics, including: socialization, motivation, group processes, competition, and performance enhancement.

Prerequisite(s): PSY 100.

PSY 295 Directed Study in Psychology 1-4 Credits

Provides an opportunity for students to obtain research experiences in psychology. Consists of a combination of project meetings, assigned readings and supervised research. Each student will work with a selected faculty member on a topic of mutual interest. Projects may include learning some components of research methods and applying these techniques to the collection and analysis of data. Provides focused reading and discussion as it relates to each student's research topic.

Prerequisite(s): PSY 100; psychology majors or minors and permission of instructor and chair.

PSY 299 Field Placmt in App.Behv Analy 1-4 Credits

The practicum provides hands-on experience using the tools of applied behavior analysis in a field setting. Provides supervised field placement experience in an approved institution or agency in order for students to gain knowledge in applications of applied behavior analysis. Placement is made in various community institutions and agencies that offer services to diverse populations.

Prerequisite(s): PSY 100, PSY 212.

PSY 302 Research Methods: Cognition 4 Credits

Provides students with an in-depth coverage of the expanding field of cognition and memory. Addresses issues and research within the field.

Emphasis is on current views of human memory. Students learn how to design and conduct their own experiments from the topic areas of information processing, psycholinguistics, problem solving, learning and memory, social cognition, and cognitive neuroscience. Laboratory skills include programming computers, developing multimedia stimuli, recording psycho-physiological data, and composing an APA-format research report in a network-based writing lab. Prerequisite(s): a grade of "C" in PSY 201; PSY 225, PSY 237 or PSY 325 or permission of instructor.

Corequisite(s): PSY 302L.

PSY 302L Research Methods: Cognition Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 302.

PSY 303 Research Methods: Social Psychology 4 Credits

Covers research methodology within the context of social psychology (i.e., topics include altruism, aggression, attraction and social perception). Both experimental and descriptive methodologies will be covered. Students learn about various aspects of the research process (e.g., design and execution of a social psychological study, analyzing and interpreting the results). Students also learn to integrate their research findings to produce an APA-style paper. Students use computer-based word processing and statistical analysis packages to achieve these goals. Prerequisite(s): a grade of "C" in PSY 201; PSY 240 or PSY 279 or permission of instructor.

Corequisite(s): PSY 303L.

PSY 303L Resrch Methds: Social Psychology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 303.

PSY 305 Theories of Psychotherapy 3 Credits

An exploration of the history and theory of the psychoanalytic, behavioral, and humanistic approaches to psychotherapy. Comparisons and contrasts between these therapeutic modalities are discussed, as well as the theory underlying specific therapeutic techniques such as dynamic interpretations, dream analysis, the analysis of resistance and transference, counter-conditioning, modeling, and cognitive restructuring. Class exercises in addition to transcripts and tape recordings from therapy sessions are used to illustrate the various therapeutic approaches.

Prerequisite(s): PSY 215 or PSY 220 or permission of instructor.

PSY 306 Research Methods: Sensation/Perception 4 Credits

Provides instruction in research design, research methods, and integration of data analysis and methodology within the content framework of sensation and perception. All the general psychology research methods are taught. Special emphasis is given to the study of human vision and audition. Students design, conduct, and report laboratory research in the areas of sensation and perception. The computer-based components of the laboratory include lessons on interactive software instrumentation for research, and network-based technical writing using APA format. Projects are conducted during the term. Each student uses a dedicated networked Macintosh computer to: a) develop and generate research stimuli and procedures, b) analyze and report research data, and c) write formal research reports. Prerequisite(s): a grade of "C" in PSY 201 or permission of instructor.

Corequisite(s): PSY 306L.

PSY 306L Sensation & Perception Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 306.

PSY 315 Psychological Tests 3 Credits

Examines the history of psychological testing. Issues concerning the construction of psychological tests are discussed, including concepts concerning reliability, validity, and item analysis. The rationale and structure of the major tests of intelligence, aptitude, and personality are reviewed, including the Rorschach, WAIS, TAT, MMPI, and Bender-Gestalt. In the last section of the course, students are given hands-on experience in the administration, scoring, and interpretation of a standard test battery.

Prerequisite(s): any statistics course.

PSY 324 Play and Imagination 3 Credits

This course surveys two of the most important manifestations of children's imagination: pretend play and imaginary companions. It will discuss the evolution of play, the purpose of play, the role of play in the development of creativity, and individual differences in play (e.g., among children of different gender, cultures, and ability levels). Finally, it will discuss the application of play to therapeutic methods for children.

PSY 325 Cognitive Development 3 Credits

Compares and analyzes the major theories of cognitive development: Piaget, Information Processing, Vygotsky, Gardner, and Sternberg. The course describes cognitive growth from infancy to adulthood. Particular topics will include: concept formation, language acquisition, memory reading and writing, mathematical skills and sociocultural skills. Also of interest will be the use of cognitive theory in education, and understanding variations from the typical pattern of cognitive development as in mental retardation and prodigies.

Prerequisite(s): PSY 100.

PSY 329 Research Methods in Organizational Psychology 3 Credits

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

PSY 329L Research Methods in Organizational Psychology 1 Credits

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

PSY 330 Developmental Disabilities 3 Credits

Introduces students to the genetic, biological, sensory-motor, cognitive, and social-emotional foundations of developmental disabilities. Selected syndromes will be reviewed in depth, as will treatments and intervention at the individual and family levels.

Prerequisite(s): PSY 230, PSY 231 or PSY 237.

PSY 333 Autism Spectrum Disorders 3 Credits

Provides students with a general understanding of the etiology, neurocognitive underpinnings, and general characteristics of the autism spectrum disorders. The course will examine the history of the study of these disorders, the main problems associated with these conditions, and will explore psycho-educational treatment alternatives.

Prerequisite(s): PSY 230, PSY 231, PSY 237, or PSY 330.

PSY 335 Resrch Methds:human Cognitive Neurosci 4 Credits

Covers the interdisciplinary study of the nervous system integrating neurobiology, physiology, pharmacology, and psychology as explanations for both normal and pathological human behavior. Topics integrate molecular levels of analysis, such as neuron structure and function, neurotransmitters, action potentials, and receptors, with molar levels, such as sensory and hormonal processes, learning and memory, emotions, drug use, and biological rhythms. Introduces research techniques used to study the function of the nervous system and the neural bases of behavior in humans. Neuroanatomical, electrophysiological, pharmacological, and neuropsychological assessment techniques may be explored as part of laboratory or field research projects designed in collaboration with the instructor. Prerequisite(s): grade of "C" or better in PSY 201 and PSY 255 or permission of instructor.

Corequisite(s): PSY 335L.

PSY 335L Resrch Methds: Human Cog Neurosci Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 335.

PSY 336 Research Methods: Animal Learning & Behv 4 Credits

Provides a comprehensive overview of the acquisition and modification of the behavior of animals, especially on laboratory strains of rodents and pigeons. Core topics include respondent and operant conditioning, animal cognition, observational learning, animal safety and welfare, single-subject and between-groups approaches to methodology, and the statistical analysis of the results of studies of behavior. The laboratory component of the course provides a comprehensive overview of animal handling and maintenance, animal welfare, and the recording of experimental results. Two substantial projects are undertaken; demonstration of a conditioned taste aversion and its effect upon the acquisition and extinction of an operant (bar press) response and subsequent discrimination and reversal learning. Results of both projects are written into APA-formatted reports.

Prerequisite(s): a grade of "C" in PSY 201, PSY 225 or permission of instructor.

PSY 336L Animal Lrng and Behavior Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 336.

PSY 339 Research Methods in Applied Behavior Analysis 4 Credits

This upper-level laboratory course will provide students with in-depth study of the principles and applications of Applied Behavior Analysis. Students will examine behavioral principles, ethical considerations and real-life applications of ABA. Each student will design and implement a self-management plan to alter a behavior of their choosing. Prerequisite(s): PSY 100.

Corequisite(s): PSY 339L.

PSY 339L Research Methods in ABA Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 339.

PSY 340 Research Methods: Group Dynamics 4 Credits

Focuses on selected issues pertaining to group dynamics. Emphasizes an understanding of the personality and social factors that influence the functioning of unstructured and task-oriented groups. Students participate in a task group for the purpose of conducting a comprehensive research project on selected issues in group dynamics and the psychology of groups. The task group prepares an APA-style paper describing their research as well as an in-class presentation. Each student also submits a midterm and final written analysis of the interactional processes and development of the task group. Prerequisite(s): a grade of "C" in PSY 201 or permission of instructor.

Corequisite(s): PSY 340L.

PSY 340L Group Dynamics Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 340.

PSY 345 Health Psychology 3 Credits

This course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

Prerequisite(s): PSY 100.

PSY 350 Research Methods: Developmental Psych 4 Credits

Focuses on one or more research areas in cognitive, personality, or social development. Includes an overview of major theoretical approaches to age-related change. Students review original research on selected aspects of behavioral change. The laboratory component of the course presents an overview of developmental research designs and methods focusing on the measurement of age-related change in psychological functioning. Students conduct field research projects designed in collaboration with the instructor and prepare an APA-style research report. Prerequisite(s): a grade of "C" in PSY 201 and PSY 230 or permission of instructor.

Corequisite(s): PSY 350L.

PSY 350L Developmental Psychology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 350.

PSY 360 Psychology of Peace & Conflict 3 Credits**PSY 365 Drugs and Human Behavior 3 Credits**

Presents the student with an in-depth analysis of the effects of alcohol and selected chemical substances on the behavior and body of the user. Commonly abused substances will be discussed in terms of their history, sources of production, routes of administration, distribution, metabolism and excretion, neurophysiology, tolerance, properties of addiction, withdrawal course and symptoms, and potential beneficial and harmful effects.

Prerequisite(s): PSY 100.

PSY 370 Spec Topic: Positive Psychology 3 Credits**PSY 372 States of Consciousness 3 Credits**

This course explores the variety of states that comprise normal and altered consciousness. It highlights how these states are determined by complex interactions between conscious and unconscious mental functions. Key psychological concepts are applied in an investigation of various states of consciousness, especially meditative states and dreams. The course examines both the psychopathological aspects of altered states, as well as their potential beneficial effects on creativity and the development of the self.

Prerequisite(s): PSY 100.

PSY 374 Psychology of the Family 3 Credits

This course examines the significance of family in human development. Using prominent themes of developmental psychology, such as: the role of attachment in forming human relationships, the significance of context in understanding human development, and the resilience of development; this course will explore the existing research on the family. Students are asked to consider their own experiences as members of a family, as well as to understand the varieties of ways family impacts development across the lifespan.

Prerequisite(s): PSY 100, PSY 230 or permission of instructor.

PSY 375 Psychology and Film 3 Credits

Attitudes, perceptions and memories are shaped by motion pictures. Filmmakers create enduring images by using cinematic techniques to portray social and interpersonal themes. This course will examine various cinematic techniques as well as how film portrays interpersonal relations, gender roles, race relations, mental illness, The Holocaust, and other genocides.

Prerequisite(s): PSY 100.

PSY 377 Developmental Psychopathology 3 Credits

This course provides an in-depth view of developmental psychopathology as an applied and prevention science. Developmental psychopathology is concerned with the emergence and continuity or discontinuity of psychopathology, or maladaptive behaviors, across the lifespan. An emphasis is placed on exploring individual, environmental, social, and especially cultural influences in explaining normal and abnormal behavior.

Prerequisite(s): PSY 230 or PSY 231.

PSY 380 Spec Topics: Sport Psychology 3 Credits

This survey course will focus on the social and psychological factors related to performance and participation in sport and exercise, health, and injury rehabilitation settings. Two general questions will be explored: (a) how do social and psychological variables influence performance and participation in physical activity pursuits? And (b) how does physical activity participation affect the psychological well-being of the individual? To better understand these questions, this course will overview theoretical and methodological approaches to a variety of sport and exercise psychology topics, including: socialization, motivation, group processes, competition, and performance enhancement.

Prerequisite(s): PSY 100.

PSY 381 Psychology of Gender 3 Credits

This course examines the meaning of sex and gender in modern society. The course readings and discussion will review and analyze the influence of gender on human behavior and emotions. The course will examine the significance of gender in shaping experience. Topics will include: gender differences in behavior, gender role development, gender and sexual identity, gender and social roles, cross-cultural perspectives on gender and transcending gender.

Prerequisite(s): PSY 100, PSY 218 or permission of instructor.

PSY 382 Aging, Brain, and Cognition 3 Credits

This course covers the biological structures and processes underlying cognition in humans and explores modulating factors such as age, sex, disease, stress, and environment. The theoretical and methodological issues of developmental cognitive neuroscience research are addressed. Focus of the course is on brain structure and function in the largest growing segment of our population, persons over the age of 65, and the link between structure and cognitive abilities, both intact and declining. Special attention is paid to those factors related to successful aging and treatments with putative cognitive enhancers.

Prerequisite(s): PSY 100.

PSY 383 Psychology and Culture 3 Credits

Students enrolled in this course will critically examine the intersection of culture and psychology. Topics covered include cultural influences on: identity, the perceptions and manifestations of mental illness, and treatment seeking.

Prerequisite(s): PSY 100.

PSY 384 Positive Psychology 3 Credits

Historically, the field of psychology has placed great attention on the question of, "What is wrong with people and how do we fix it?" This course will focus on the question of, "What is right with people and how can we build on that?" We will explore this by examining empirical research centered on the nature of happiness and psychological well-being. Positive psychology is the rigorous study of what is right and positive about people and institutions. Positive psychologists call for as much focus on strength as on weakness, as much attention on positive emotions as negative emotions, as much interest in building the best things in life as in repairing the worst, and as much attention to promoting the fulfillment of lives of healthy people as to healing the wounds of the distressed. This course will first present an introduction to the core assumptions and research findings associated with human strengths and positive emotions, then move on to explore interventions and applications informed by this perspective in counseling and psychotherapy, as well as in domains personally relevant to the lives of students such as school, work, family and other close relationships.

Prerequisite(s): PSY 100.

PSY 395 Special Topics in Psychology 3 Credits**PSY 400 Senior Seminar 3 Credits**

This capstone course will provide a synthesis and evaluation of important critical issues in psychology, such as the role of modern psychology in solving social problems, the scientific vs. human services perspectives on behavior, emotion and cognition; and the nature of mental illness and well-being. Students will be expected to draw broadly from their education in psychology; to grapple with conflicting points of view; and produce professional quality writing, oral or multimedia presentations.

PSY 420 History of Psychology 3 Credits

Provides a coverage of systems and schools of psychology; great psychologists, their contributions, and later influence in psychology. Current psychological problems are also discussed.

PSY 490 Independent Research and Study 1-4 Credits

Provides students with an opportunity to design and carry out original research in an area of their choice. Students designate a faculty supervisor and work closely with him/her during the semester. All students must have approval from the department and the dean to register for PSY 490.

Prerequisite(s): PSY 201.

PSY 491 Internship in Psychology 1-4 Credits

Provides supervised work experience in an approved institution or agency in order for students to gain knowledge in applications of psychology. Placement is made in various community institutions and agencies that offer services to both exceptional and normal individuals.

Prerequisite(s): senior psychology majors or minors.

PSY 510 Intro Applied Behav Analysis 3 Credits

This course will provide an introduction to applied behavior analysis. Students will learn the history and defining features of the field. Due to the scientific nature of applied behavior analysis, students will also learn characteristics and processes associated with the scientific method. Furthermore, foundational concepts will be defined, along with relevant behavior change procedures.

PSY 511 Principles of Learning 3 Credits

This course will provide students with more in depth understanding of the philosophical assumptions, characteristics and basic principles of behavior analysis. Students will have the opportunity to review concepts learned during Introduction to Applied Behavior Analysis. This course will also provide an introduction to the basic research in behavior analysis. Students will become more fluent in definitions, characteristics, principles, processes, and concepts of behavior analysis.

Prerequisite(s): PSY 510.

PSY 513 Observational Methods and Functional Assessment 3 Credits

This course is designed to provide knowledge and skills of methodologies to conduct a thorough behavioral assessment, interpret the assessment data, and identify goals for treatment. Topics will include direct observation/data collection methods, data analysis, functional assessment, stimulus preference and reinforcer assessments, and ethical and professional issues. The second half of the course will deal specifically with functional analysis including the history of and variations to the methodology. The relationship between assessment techniques and the development of the least-restrictive but most effective behavioral intervention will also be discussed.

Prerequisite(s): PSY 510, PSY 511.

PSY 514 Single Subject Research Design and Analysis 3 Credits

Students will be introduced to the basic evaluative methods used in behavior analysis including various models of single subject design such as multiple baselines, reversal designs, and alternating treatment models. Students will design analyses, collect data, graphically display their data, and provide an analysis of findings. Students will read original behavior analytic research articles and practice analysis of findings.

Prerequisite(s): PSY 510, PSY 511, PSY 513.

PSY 515 Psychological Tests 3 Credits

Examines the history of psychological testing. Issues concerning the construction of psychological tests are discussed, including concepts concerning reliability, validity, and item analysis. The rationale and structure of the major tests of intelligence, aptitude, and personality are reviewed, including the Rorschach, WAIS, TAT, MMPI, and Bender-Gestalt. In the last section of the course, students are given hands-on experience in the administration, scoring, and interpretation of a standard test battery.

Prerequisite(s): any statistics course.

PSY 516 Creating Eff & Ethical Interv 3 Credits**PSY 525 Cognitive Development 3 Credits**

Compares and analyzes the major theories of cognitive development: Piaget, Information Processing, Vygotsky, Gardner, and Sternberg. The course describes cognitive growth from infancy to adulthood. Particular topics will include: concept formation, language acquisition, memory reading and writing, mathematical skills and sociocultural skills. Also of interest will be the use of cognitive theory in education, and understanding variations from the typical pattern of cognitive development as in mental retardation and prodigies.

PSY 530 Interventions for Individuals with Developmental Disabilities 3 Credits

The purpose of this course is to prepare students to work with individuals with a broad spectrum of developmental disabilities. The course will begin with a discussion of typical child development and milestones, address how development might differ from the norm, introduce subsequent assessment and diagnosis and ultimately, introduce appropriate interventions. The main focus of this course is applied behavior analysis [ABA] and common ABA strategies for intervention.

PSY 533 Interventions for Autism 3 Credits

The purpose of this course is to provide students with a general understanding of the clinical characteristics of autism spectrum disorders. The course will briefly address etiology and neurocognitive underpinnings of these disorders but will focus on psycho-educational interventions. The course will be taught from an applied behavior analytic perspective.

PSY 535 Language Assess and Intervent 3 Credits

Students will be introduced to the classification of verbal responses, both vocal and non-vocal. Using videotaped examples, students will categorize observed verbal behavior. Students will be provided with practical tools for the assessment of verbal behavior, as well as an array of intervention strategies. A focus will include the design of teaching strategies to enhance language acquisition, as well as ongoing evaluation of intervention efficacy will be employed.

Prerequisite(s): PSY 510, PSY 511, PSY 513, PSY 514.

PSY 536 Social Skills Assess & Interv 3 Credits

Students will be introduced to the development of social skills and the identification social skills deficits. Using videotaped examples, students will categorize observed social behavior. Next, students will be provided with practical tools for the assessment of social and emotional behavior, as well as an array of intervention strategies. Tools for the collection of data and the evaluation of the success of target interventions will be stressed.

Prerequisite(s): PSY 510, PSY 511, PSY 513, PSY 514.

PSY 545 Health Psychology 3 Credits

This course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

PSY 565 Drugs and Human Behavior 3 Credits

Presents the student with an in-depth analysis of the effects of alcohol and selected chemical substances on the behavior and body of the user. Commonly abused substances will be discussed in terms of their history, sources of production, routes of administration, distribution, metabolism and excretion, neurophysiology, tolerance, properties of addiction, withdrawal course and symptoms, and potential beneficial and harmful effects.

PSY 570 Spec Topic: Positive Psychology 3 Credits**PSY 572 States of Consciousness 3 Credits**

This course explores the variety of states that comprise normal and altered consciousness. It highlights how these states are determined by complex interactions between conscious and unconscious mental functions. Key psychological concepts are applied in an investigation of various states of consciousness, especially meditative states and dreams. The course examines both the psychopathological aspects of altered states, as well as their potential beneficial effects on creativity and the development of the self.

PSY 574 Psychology of the Family 3 Credits

This course examines the significance of family in human development. Using prominent themes of developmental psychology, such as: the role of attachment in forming human relationships, the significance of context in understanding human development, and the resilience of development; this course will explore the existing research on the family. Students are asked to consider their own experiences as members of a family, as well as to understand the varieties of ways family impacts development across the lifespan.

PSY 577 Developmental Psychopathology 3 Credits

This course provides an in-depth view of developmental psychopathology as an applied and prevention science. Developmental psychopathology is concerned with the emergence and continuity or discontinuity of psychopathology, or maladaptive behaviors, across the lifespan. An emphasis is placed on exploring individual, environmental, social, and especially cultural influences in explaining normal and abnormal behavior.

PSY 582 Aging, Brain, and Cognition 3 Credits

This course covers the biological structures and processes underlying cognition in humans and explores modulating factors such as age, sex, disease, stress, and environment. The theoretical and methodological issues of developmental cognitive neuroscience research are addressed. Focus of the course is on brain structure and function in the largest growing segment of our population, persons over the age of 65, and the link between structure and cognitive abilities, both intact and declining. Special attention is paid to those factors related to successful aging and treatments with putative cognitive enhancers.

PSY 585 Independent Research and Study 1-4 Credits

Provides students with an opportunity to design and carry out original research in an area of their choice. Students designate a faculty supervisor and work closely with him/her during the semester. Permission of Instructor.

PSY 590 Field Placement in Applied Behavior Analysis 3 Credits

The applied behavior analysis practicum includes a required field placement of 15 hours per week and periodic on campus meetings. The practicum experience will allow students to experience the professional life of a behavior analyst in one of several preapproved sites. Sites approved include those for children, adolescents or adults with disabilities. Placements will be selected in consultation with the Practicum Coordinator and will require a written practicum plan from the cooperating field supervisor.

Prerequisite(s): PSY 510, PSY 511, PSY 513, PSY 514.

PSY 595 Special Topics 3 Credits

Public Relations

Program Overview

Public Relations students at Rider study the theories behind effective public communication. The program focuses on all facets of practical campaigns, as students learn from professionals in the field as well as their professors. In the capstone course, students work with local corporate or nonprofit clients.

Classroom experiences are augmented by membership in the Rider chapter of the Public Relations Student Society of America (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-science/liberal-arts-programs/communicat-21>).

Curriculum Overview

Core classes in the Public Relations program include advanced speech, publication design, public relations, feature writing, publicity methods in organizations and cases and campaigns in public relations.

Other classes include communication theory, theories of persuasion, news reporting and writing, copy editing, sports media relations, internal communications, marketing principles, advertising principles and more.

Degree Offered

B.A. in public relations

Total Credits		21

¹ Note: Communication and Journalism majors may declare only one minor in the department. No more than two courses may be used to meet the requirements for both a major and a minor in the department. (Exception: If a student elects either the Advertising or Event Planning and Production minor, then three courses may be used to meet the requirements for both the major and that minor in the department.)

Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider will follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

Year 1		
Fall Semester		Semester Credit Hours
CMP 120	Expository Writing	3
MTH 102	Finite Mathematics	3
HIS 150	World History to 1500	3
COM 105	Communication, Culture and Media	3

¹ Students may not carry a double major within the department. Communication and journalism majors may declare only one minor in the department. No more than two courses may be used to meet the requirements for both a major and a minor in the department.

² If a student receives a grade lower than "C" in a course required in a major or minor in the department, the student must repeat the course. Credit will only be awarded once for a course that is repeatable. The student must also repeat the course before enrolling in any course which it is a prerequisite.

Courses and Descriptions

COM 102 Introduction to News Writing 3 Credits

Introduces students to routines of journalism, including reporting, writing and preparing content for print and web. Incorporates contemporary practices in multimedia journalism, including digital audio, video and photos, into traditional skills, with an emphasis on accuracy, clarity and professional style and voice. Class exercises are completed in a laboratory newsroom.

COM 103 Intro Comm Studies:theory&prac 3 Credits

Provides a foundation for the study of communication across the discipline. Open to freshmen only, it is designed to assist the first year student majoring in communication or journalism to gain a broad understanding of the scope and breadth of the field. Fundamental communication theories, principles, concepts, terms, and issues are introduced.

COM 104 Speech Communication 3 Credits

Examines basic communication principles and strategies of public speaking. Various genres of oral communication are studied, with an emphasis on extemporaneous and impromptu forms of delivery. Students research, prepare, and deliver speeches that are then used as the focal point for the discussion of effective speaking and listening. A number of speeches are videotaped. Students who received credit for COM 104S may not take this course.

COM 104S Intro to Speech Communication 3 Credits

As part of the EOP program, this course is designed to improve the speaking and language skills of new college students. Through directed practice, students have the opportunity to develop poise and confidence in oral communication, as well as competence in analyzing and synthesizing messages. Emphasis is placed on development, organization, and delivery of speeches. To receive credit, a grade of "C" or higher must be earned. Students who receive credit for COM 104S may not take COM 104.

COM 105 Communication, Culture and Media 3 Credits

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society.

COM 106 Writing for the Comm Professns 3 Credits

Provides students with written communication writing strategies and tools. Applies theory and practice in communication to targeted audiences. Emphasizes the critical role writing plays in the communication workplace and provides an opportunity to evaluate and respond to real-life writing samples and situations.

COM 107 Persuasive Writing for Media 3 Credits

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

COM 131 Fundamentals of Video Production 3 Credits

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

COM 201 Communication Theory 3 Credits

Explores selected theories, models, and research methods in human communication, the dynamics of the communication process in various settings, and the role of communication in human interaction.

COM 204 Advanced Speech Communication 3 Credits

Provides students with the opportunity to further their study and practice of various types of speech communication. Moving beyond an introductory perspective, this course focuses on the development of critical, analytical, and pragmatic aspects of speech. The focus is divided between the discussion of theoretical models and a demonstrated competence of that material.

Prerequisite(s): COM 104 or COM 290.

COM 205 Theories of Persuasion 3 Credits

Analyzes the motivations that lead individuals and audiences to beliefs and actions and the techniques of achieving objectives through persuasion. Attention, interest, empathy, ethos, fear, and techniques of speakers, and those who use persuasion professionally are studied.

COM 210 News Reporting and Writing 3 Credits

Develops skills in hard-news reporting. Employs off-campus reporting assignments to refine information-gathering techniques such as interviewing, observation, and use of government documents and other contextual materials. Includes reporting and writing about police news, state and local government, the criminal justice system, science, business, and sports.

Prerequisite(s): COM 102.

COM 211 Copy Editing 3 Credits

Teaches all phases of copy editing for news and public relations: marking of copy, online editing, fact checking, building and shaping news and feature stories, applying mechanical style, building an ear for graceful English, and safeguarding against legal and ethical problems. Provides comprehensive review of grammar, spelling and punctuation, along with intensive practice in writing headlines and captions and editing wire copy.

Prerequisite(s): COM 102.

COM 212 Publication Design 3 Credits

Explains theories, principles, and techniques of print media layout and design. Provides an understanding of the use of type and art as design elements in various publication formats, such as newspapers, newsletters, advertisements and brochures. Directs students to apply these concepts to the creation of published materials using Adobe Creative Suite.

COM 215 Computer Assisted Reporting 3 Credits

Develops advanced reporting techniques for researching and writing in-depth news stories and investigative articles. Uses state-of-the-art computer-assisted reporting methods including finding and mining data bases on the Internet, creating spreadsheets to analyze data, and employing data base manager software to sort and summarize information in government documents and other specialized resources. Focuses on conceptualizing of story ideas, planning major projects, gathering information by means of data bases, participant-observation, interviews, and analysis of public documents. Emphasizes organizing large quantities of material and presenting it in a meaningful context, including with information graphics.

Prerequisite(s): COM 102 or permission of instructor.

COM 220 Voice and Articulation 3 Credits

Increases the student's knowledge of the vocal elements of oral communication and improves use of voice and articulation. Introduces anatomy and physiology for enhanced vocal production. Analyzes volume, rate, pitch, quality, phrasing, stress, and inflection. Presents the International Phonetic Alphabet as a means of developing correct articulation and pronunciation. Uses classroom exercises and tape recording for feedback and learning.

COM 230 Radio & TV Communication 3 Credits

Examines the field of electronic communication and its role in society. Scrutinizes the history, technology, structure, and regulation of broadcasting including issues, trends, and the impact of new communication technologies. Introduces basic principles of effective communication in broadcast writing and producing.

COM 233 Writing for Broadcast 3 Credits

Introduces diverse and highly structured writing styles and formats used in writing for broadcast. With focus on effective and creative writing using broadcast style, students will be exposed to the fundamentals of writing dramatic and non-dramatic material for radio and television including station IDs and liners, public service announcements and commercials, news and public affairs programs, and short dramatic and documentary scripts. Through lectures, case discussions, in-class assignments, and critiques, emphasis will be on the practical application of basic rules and conventions common to broadcast writing from copy preparation to on-air delivery.

COM 234 Audio Production 3 Credits

Provides a laboratory study of audio production techniques, and performance. Introduces the fundamental properties of sound as applied in modern audio production at radio and television stations, sound studios, and production houses. Students conduct lab exercises in editing, mixing, and digital recording using ProTools. Students perform a variety of genres including news, commercials, dramas, and promos.

COM 235 Digital Filmmaking 3 Credits

This course will provide students with an introduction to basic narrative film production including theories, techniques and applications. Students will gain competency in a number of film production areas including: idea generation and scripting, production planning, cinematography, lighting, sound and digital editing. Working as individuals and in groups, students will develop and produce short narrative film projects. Students will continue to develop proficiency and mastery of the use of specialized vocabulary of the film industry as well as the ability to analyze film and its narrative structure. In addition students will break down the "narrative" focusing on genre conventions and subtext. Students will additionally examine the relevance of film to society while developing proficiency and mastery in the study of how to create film projects.

COM 240 Public Relations 3 Credits

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

COM 251 Interpersonal Communication 3 Credits

Focuses on the study of various communication concepts and theories and the development of interpersonal skills and sensitivities. More specifically, students will participate in lectures, exercises, and projects while exploring the role and function of relationships in their professional, social, and personal lives.

COM 252 Intercultural Communication 1.5-3 Credits

Develops intercultural communication competence through an awareness and understanding of diverse cultures and their impact on communication. It will introduce students to those general factors that influence communication with people from diverse cultures both internationally and within the United States, and offer a blend of skill development, communication theory, and hands-on application. Note: This course is crosslisted as GLS 252. Students may not get credit for both COM 252 and GLS 252.

COM 253 Organizational Communication 3 Credits

Focuses on the ongoing communication processes in organizations. This course examines how and why organizations develop policies and procedures that both encourage and yet constrain creativity and autonomy in employees. It also introduces various management skills to balance the dynamic in organizations. Finally, the course introduces students to various communication technologies that enable communication processes in organizations. Students will also have opportunities to participate in creating organizational dynamics through role-playing exercises, case studies, and other kinds of experiential learning.

COM 254 Intro to Health Communication 3 Credits

Health communication has been shown to have a positive impact on a number of facets of the medical visit, including patient outcomes, patient satisfaction, and job performance and satisfaction. This course will provide students with tools to implement health communication practices in a healthcare setting in order to improve these areas. In addition, health communication is particularly useful in cross-cultural situations, both in regard to the patient-provider relationship, when the ethnicities of the two parties may be different, and when cultural beliefs may impact a patient's medical wishes. Part of the tools for implementing health communication into the practice setting includes an understanding of the role that culture can play in healthcare and the development of strategies to provide optimal medical care while also respecting cultural intricacies.

COM 261 Multimedia Prod I-Inter Design 3 Credits

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

COM 262 Graphic Imaging for Multimedia 3 Credits

Teaches students techniques for image development, and image preparation for various multimedia applications. Emphasis is placed on color calibration and palette issues, image manipulation, advanced image selection techniques, transparency and masking, multimedia authoring file formats, and dynamic image design. Students will be expected to participate in critiques of professional designs in order to learn to critically evaluate their work and their fellow students' work.

Prerequisite(s): COM 261 or permission of instructor.

COM 263 History and Principles of Graphic Design 3 Credits

Covers the history and principles of graphic design from analog art through the digital revolution. The elements and principles of design will be used to study stylistic progressions, artistic techniques, design innovations, and mechanical inventions. Material will be presented through a combination of illustrated lectures and discussions.

COM 264 Intro to Media Convergence 3 Credits

Introduces the ways that the merging of media industries and the intersection and integration of various media platforms and technologies impact our lives. While the primary focus will be on digital and mobile technologies and practices, the course will also cover the convergence of digital technologies in a wide range of media areas, including journalism, social media, television and entertainment. The course will offer students broad conceptual frameworks for thinking about how the emergence and evolution of digital as well as mobile communication technologies have changed the communication and journalism industries and how they are reshaping content. In addition, the course is intended to allow students to use different digital communication technologies.

COM 265 3D Graphic Animation 3 Credits

Provides students with an introduction to the basics of 3D graphic animation techniques including modeling, texturing, rendering, visual effects and animation. Through various projects the students will learn: to model characters, sets and props, how to apply textures and color to their models, and how to bring their creations to life using various animation techniques. In addition to the technical aspects of creating successful animation, the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation, dramatization and narrative.

COM 280 Issues in Event Planning 3 Credits

Offers students education in event planning, production, and supervision for varied professional applications. Emphasis will be placed on planning, budgeting, and organizing small and large events for educational, institutional, non-profit, and professional groups. Students will participate in the entire process of event planning, with specific experiences in applying communication theory to actual projects.

Prerequisite(s): COM 240 or MKT 200.

COM 290 Professional/Strategic Speech 3 Credits

Provides students with practical information necessary for effective communication in various business and professional settings. Covers communication processes, principles, and models in the modern organization. Class assignments are given with emphasis on developing a knowledge and practical understanding of informative, persuasive, and impromptu presentations. Limited to students enrolled in the College of Business Administration.

COM 291 Documentary Film and Video 3 Credits

Surveys the history of documentary film, including reportorial, exploratory, persuasive, symphonic, compilational, reflexive, and fictional traditions through screenings, lectures, and readings. Provides practice in film criticism. Explores philosophical questions about the relationship between non-fiction films and videos and the reality they purport to record. Analyzes ethical problems of filmmaking.

COM 301 Communication Law 3 Credits

Critically examines the legal limits and privileges affecting freedom of expression, especially in publishing, advertising, film, telecasting, and cyberspace. Places particular emphasis on the historical and philosophical foundations of the freedoms and limitations of communication in the United States.

COM 302 Communication Ethics 3 Credits

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

COM 312 Spe Topics in Jour Writing 3 Credits

Provides students with the opportunity to explore specialized topics in journalistic reporting and writing. Each course will focus on a specific area in the broad field of journalism. Examples include business reporting, health reporting, and sports reporting.

Prerequisite(s): COM 102 or COM 107.

COM 316 Feature Writing 3 Credits

Focuses on problems and requirements of newspaper, magazine, public relations, and free-lance nonfiction writing. Students write features designed for acceptance in print, broadcast and digital media and learn marketing techniques.

Prerequisite(s): COM 102 or COM 107, English writing concentration, or permission of instructor.

COM 318 Gender and Communication 3 Credits

Focuses on interactive relationships between gender and communication in contemporary American society. It connects theory and research with practice to explore multiple ways communication in families, schools, media, and society in general creates and perpetuates gender roles. It is designed to heighten students' awareness of how we enact socially created gender differences in public and private settings and how this affects success, satisfaction, and self-esteem. Note: This course is crosslisted as GND 318. Students may not get credit for both COM 318 and GND 318.

COM 322 Argumentation and Debate 3 Credits

Investigates the theory and practice of speech communication that seeks to persuade by inferential argumentation. Concentrates on theories, practices, and research in argumentation and debate, blended with speaking experience in analyzing and advocating controversial topics.

Prerequisite(s): COM 104 or COM 290.

COM 323 Oral Interpretation of Lit 3 Credits

Provides an orientation to the field of oral performance. Students select literary texts, adapt the material to the audience and prepare it for presentation. Emphasizes the development of voice, articulation, and kinesic behavior. Presentations to the class are critiqued.

Prerequisite(s): COM 104 or COM 290 or permission of instructor.

COM 328 Sitcoms and American Culture 3 Credits

Provides an overview to the unique and highly structured form of the American television situation comedy. The primary focus will be on history and development with in-depth study of situation comedy themes, characters, and settings. Through lectures, case discussions, in-class assignments, and class projects, students will examine the social and cultural meanings and implications of this incredibly popular and durable genre of programming.

COM 330 Documenting Cultures Thru Travel 3 Credits

Offers students, through travel and study, a unique opportunity to gain firsthand experience of a foreign culture and to learn how to record and document their experiences using multiple media, including print, audio, video, photography and/or the Web. While traveling, students will be required to attend lecture/discussion sessions, site tours, and other planned activities. This experience will be preceded and/or followed by additional academic work to be conducted on campus. Study topics may include aspects of the historical, social, economic, political and aesthetic cultural components appropriate to the location(s) to be visited. The travel component of the course will be scheduled to avoid conflict with normal semester offerings. No foreign language skills are required.

COM 331 Television Production 3 Credits

Explores the technological capabilities and limitations of the television medium in team productions using a range of styles and formats. Students learn principles of studio production, electronic field production, and electronic news gathering. Exercises include use of computer graphics, audio production, and non-linear video editing. Stresses electronic communication skills and aesthetic values in a professional production setting.

Prerequisite(s): COM 230.

COM 333 Broadcast Programming 3 Credits

Analyzes the theory, practice, structure, and function of broadcast programming. Examines the structure of the industry as it relates to entertainment, information, and the audience. Studies program categories, formats, genres, trends, consistency, accountability, and ratings as well as cable, satellites, and home video. Critical standards are developed by introducing humanistic and scientific modes of program analysis.

Prerequisite(s): COM 230.

COM 335 Television Field Production 3 Credits

Provides an in-depth study of advanced techniques in Field Production for television. Individual and group field production assignments will involve planning and executing single camera production in a non-studio setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit documentaries.

Prerequisite(s): COM 331.

COM 337 Music Production for Mass Media 3 Credits

Offers students education in audio production techniques for music and other advanced audio material. Building on theory and practice introduced in the prerequisite, the class will instruct students in the theory behind acoustics and electronics as well as the digital tools and media. Those theoretical studies will be put to practice through exercises in recording music, making selections from music libraries, multi-track recording, arranging, editing, mixing and mastering. Students will begin to develop both an engineer's attention to audio detail and a musician's sense of artistry. Putting these skills to use, the students will produce complete musical works of varying musical styles, working both individually and in teams.

Prerequisite(s): COM 234.

COM 338 Writing for Broadcast II 3 Credits

Building on COM 233 Writing for Broadcast, this course provides a hands-on approach to more sophisticated reporting and interviewing techniques and writing formats used in long-form radio and television programs. This course will expose students to the following broadcast script writing areas: features, documentaries and reality programs. It will also cover writing for interview/talk show programs, music, comedy and variety programs. Students will also be exposed to writing for corporate, educational and children's programming. Students will have hands-on experiences writing, producing and editing news pieces and webcasts for student and area media outlets and web sites.

COM 341 Publicity Methods 3 Credits

Applies communication theory to writing and editorial processes and production techniques to create public relations materials; includes press releases, industrial publications, social media, trade publications, brochures, newsletters, stockholder reports, and multimedia platforms.

Prerequisite(s): COM 107, COM 240, or permission of instructor.

COM 347 Sports Media Relations 3 Credits

Critically examines the symbiotic relationship between the mass media and professional sports franchises and major college athletic programs. This course deals with the workings and processes behind executing the proper techniques of sports information and media relations, as well as an analysis of the culture of sports in modern society. Students will develop a practical focus on sports information and promotion, including the role of the sports information director and events promoter, with emphasis on advanced concepts of public relations, publicity and marketing.

Prerequisite(s): COM 240 or permission of instructor.

COM 348 Communication Research Methods 3 Credits

Introduces students to the research methods used to study communication problems and processes. Students will learn how researchers plan and design research studies, explore the methodological considerations of both qualitative and quantitative methods, and have an opportunity to gain hands-on experience in conducting research on communication-related issues.

Prerequisite(s): COM 105.

COM 350 Team & Group Communication 3 Credits

Examines the communication process as it relates to the small group. Theoretical constructs including motivation, group climate, attraction, leadership, decision making, problem solving and roles are analyzed. Utilizes group experience to study and evaluate the dynamics and effectiveness of interpersonal systems.

COM 352 Chinese and American Intercultural Commu 3 Credits

Instructs students about Chinese culture and communication. Culture impacts communication practices and styles in significant and subtle ways. Through readings, lectures, discussions, and first-hand interactions with Chinese international students, the students of this course will gain both conceptual and practical understanding of major communication differences between the two cultures, and become a more skilled intercultural communicator. Note: This course is crosslisted as GLS 352. Students may not get credit for both COM 352 and GLS 352.

COM 353 Nonverbal Communication 3 Credits

Investigates studies in and theories of nonverbal communication. Lectures and experiential activities explore the effect of status, culture, and gender upon kinesics, physical characteristics, proxemics, tactile communication, paralanguages, artifacts, and environmental factors.

Prerequisite(s): COM 104 or COM 290 or permission of instructor.

COM 360 Adv Publicatn Design & Present 3 Credits

Builds on elementary knowledge of graphic design to teach the principles of advanced layout, and computer graphics. Introduces students to industry standard drawing software and builds on their knowledge of layout software gained in the prerequisite course. Provides an understanding of the use of logos, infographics and magazine layout, and of the theoretical bases of color for print production.

Prerequisite(s): COM 212.

COM 361 Photography 3 Credits

Using digital SLR cameras, introduces students to professional methods of shooting varied subjects while applying a range of compositions and styles. Using Photoshop, students edit images for publication in print and on the Internet. Hands-on coursework is grounded in theory, history, aesthetics, and ethics. Some cameras are available for loan from the University.

Prerequisite(s): permission of instructor.

COM 363 Converging Digital Media 3 Credits

Examines the digital technologies that make up the new world of digital convergence. The course will examine the effects of digital media convergence on social life, ethics, industry, and local and global communities through a variety of theories and paradigms. This course will also help students develop necessary digital media production skills and use them critically to solve media development problems.

COM 364 Multimedia Production II - Web Design 3 Credits

Equips students with the theories and practical techniques required to produce effective digital text, graphics, and animations for the Web. Discusses theories behind the use of these media in terms of effective communication and interaction. Introduces students to different computer platforms and requirements for cross-platform media.

Prerequisite(s): COM 261 or permission of instructor.

COM 365 Graphic Animation 3 Credits

Offers students education in graphic animation theories, animation development techniques, and animation preparation for various multimedia applications. Emphasis is placed on the design principles in animated communication and animation techniques. The course covers the integration of static images in animation, graphic animation techniques, animation compression, animation rendering, input/output file formats, and animation delivery. The primary software for this course is Adobe Photoshop and Macmedia Flash. Students will be expected to participate in critiques of professional animation designs in order to learn to evaluate critically their own work and their fellow students' work.

Prerequisite(s): COM 262 or permission of instructor.

COM 366 Project Management in Graphic Design 3 Credits

Explores the creative process of graphic design while developing an understanding of the methods employed in problem solving in the industry standard design software packages. Students learn how to create a hierarchy of information through the ordering of elements into a comprehensive visual unity. They consider the relationship between content and page size, proportion, grid and margins. Students learn about typography as a design element and how it works with other visual elements in design. In order to develop an understanding of the project-planning process for either printer or Web projects, students will develop and present a series of projects that will build on one another to develop their "visual voice." Students will be evaluated on their ability to apply course material to the projects to create professional-quality work; their ability to apply exchange ideas and accept and apply constructive criticism; and on their participation in class discussions, critiques and presentations.

Prerequisite(s): COM 262, COM 360.

COM 367 3D Graphic Animation II 3 Credits

Continue to learn the techniques of 3D computer animation including modeling, texturing, rendering, visual effects and animation. In addition to the technical aspects of creating successful 3D animation the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation.

Prerequisite(s): COM 265.

COM 380 Television Production Practicum 3 Credits

Provides a workshop dedicated to the planning and creation of professional caliber television content for the campus television network and beyond. This course will provide an opportunity for students to develop writing, graphic, audio, video design and production skills in an experiential setting. Students will create materials to be used by the Rider University Network and for broadcast, cable and Internet distribution. Students can be involved in any and all phases of creating content from project conception through implementation. Students will gain valuable experience with, a greater appreciation for, and increased competency in creating professional media content. This class will also prepare students to more effectively function in the communication industry as an effective member of a professional production team. Since topics will vary by semester and instructor, this course may be repeated once.

Prerequisite(s): permission of instructor.

COM 390 Communication and Society 3 Credits

Examines in a topical manner the influence of communication upon significant issues and movements affecting people and society. Investigates interpersonal and mass media factors as they relate to a major issue such as changing sex roles, radicalism, racism, evangelism, election campaigns, and technology. May be taken more than once with different emphasis.

COM 391 Communication Criticism 3 Credits

Investigates and analyzes various methods of communication criticism and their applications to the understanding and evaluation of public and media discourses. Introduces theories and perspectives to assist in the analysis of those discourses. Methods include Aristotelean, Burkean, and ideological criticism.

COM 392 Media History: Personalities and Trend 3 Credits

Presents in a topical manner the history of the media from various perspectives, seeking to place the material into a meaningful economic, cultural, political, and/or social context. Different issues and related individuals are examined, such as the golden age of radio, motion picture economics, and media empire builders, with a view toward understanding their significant impact on the development and functioning of the media today. This course may be taken more than once with a different emphasis.

COM 393 International Communication 3 Credits

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is crosslisted as GLS 393. Students may not get credit for both COM 393 and GLS 393.

COM 399 The Co-Operative Experience 3-12 Credits

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. Prerequisite(s): junior standing and 2.75 GPA at the time of registration; Pass/fail.

Corequisite(s): IND 398 The Co-operative Experience Seminar, IND 398 and (dept) 399 combined cannot exceed 15 credits.

COM 400 Senior Seminar Communication 3 Credits

Provides students with the opportunity to explore critical issues in communication and journalism in a dynamic and engaging context. Students conceptualize problems, develop hypotheses, review literature, design appropriate techniques of inquiry, conduct their research, and present their findings orally to the seminar and in writing to the instructor. Senior journalism and communication majors only.

COM 415 In-Depth Reporting 3 Credits

Utilizes advanced tools and techniques of contemporary in-depth reporting for print and multimedia. Covering multifaceted stories, students will learn how to do balanced multi-sourced field reporting and writing using primary and secondary sources including human sources, electronic documents and databases, both online and offline. Emphasis will be placed on writing stories that answer not only who, what, when and where questions but also the why, the how and the "so what?" questions. Students will also be exposed to some of the best investigative work of journalists past and present as models for analysis and discussion.

Prerequisite(s): COM 210.

COM 431 Adv TV Research & Production 3 Credits

Explores the theoretical and practical application of aesthetic technique in modern television/video production situations. While the prerequisite courses emphasized competency in equipment operations and basic production skills, this course moves to a higher platform by emphasizing concepts of production and how to apply them for effective communication. Thus this course places emphasis on advanced techniques: design and aesthetics as applied to enhance the overall video presentation as practiced in both the commercial and organizational communication arenas. In the current state of the art of video production, a mastery of aesthetic skills is necessary for the effective expression of ideas in optimal fashion and for a variety of audiences. Students will be exposed to as many techniques as practical through class discussion (including heavy participation by the student), individual and group lab activities and contact when possible with current practitioners and equipment. As most television production is done for a client, that process will form the basis for much of the course discussion and activities including projects.

COM 434 Advanced Radio Production 3 Credits

Provides in-depth study of advanced techniques in audio recording and radio programming and production. Individual and group production of short and long-form radio projects including: promotional spots, features, music programming, and news. Students will be involved in all phases of programming and production for radio including: project conception, development, management, and implementation. Selected student projects will air on the student radio station, 107.7 The Bronc.

Prerequisite(s): COM 234.

COM 435 Advanced Digital Filmmaking 3 Credits

This is an intensive hands-on course in advanced digital filmmaking. Students will gain experience with and proficiencies in a number of filmmaking areas including: creativity, production planning, aesthetics, scripting, script breakdown, camera movement, selecting and directing talent, creating scenes and sequences, visualizing action, establishing mood and conflict, as well as advanced lighting, sound and digital editing techniques. The students' use of high definition digital imaging systems as a medium for narrative cinematography will be developed and refined. In addition, students will explore how filmmaking techniques and technology can impact the visual story telling process. While often working cooperatively in groups, modeling the interdependent structure of film crews today, the creative and leadership role of the director in the contemporary film industry will be emphasized. Throughout the class, there will be an important integration of theory and practice which will enable students to produce meaningful film projects that will not only be technically effective, but strong in content and context as well.

COM 440 Cases & Campaigns in PR 3 Credits

Critically analyzes public relations case problems in industry, labor, education, government, social welfare, and trade associations. Emphasizes problem solving through the use of communication theories, public relations techniques, creative thinking, and the development of professional goals and standards. Employs realistic simulation exercises and actual case studies to develop and critique students' ability to demonstrate this knowledge in professional situations.

Prerequisite(s): COM 341 or permission of instructor.

COM 452 Seminar in Communication Studies 3 Credits

Offers an in-depth investigation of relational communication. Students explore the many complexities involved in human interaction and interpersonal dynamics. Social and psychological implications of various communicative relationships ranging from cross-gender communication to dysfunctional family systems to intercultural interactions are included.

Prerequisite(s): COM 348, COM 350, or permission of instructor.

COM 460 Multimed Prod III-Adv Int Des 3 Credits

Builds on previous courses to refine students' understanding of theories and procedures of digital media development. Further develops Web site creation and project management theories. Students develop advanced Web creation techniques, including responsible site production.

Prerequisite(s): COM 364.

COM 462 Advanced Graphic Design and Portfolio 3 Credits

Explores the processes of graphic design by creating independent and creative solutions to a series of design problems. Students expand their proficiency in all aspects of the design process, including creative brainstorming, conceptualizing, critical thinking and presentation. Students take a design project to both print and digital formats using Photoshop, Illustrator, and InDesign. Students develop and present a balanced portfolio as the culmination of their experience in the course.

Prerequisite(s): ART 103, ART 105, COM 262, and COM 360.

COM 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

COM 491 Internship in Communication 1-4 Credits

Places qualified students in a professional area related directly to their communication training. Students may intern in a communication position with a corporation, small business, media outlet, public relations agency, non-profit organization, political party, sports organization, or other similar organizations. A minimum of 50 hours of internship per credit is required. Written reports, a final project, and supervisor evaluations are used to analyze and evaluate the experience. For students majoring in the Department of Communication and Journalism only, primarily juniors and seniors. No more than two internships are permitted for each student; exceptions may be made. The deadline for registration is the first Friday of the semester.

Prerequisite(s): 3.2 GPA and permission of instructor.

Science for Business

Program Overview

The Science for Business minor provides students in the College of Business Administration with a background in science to enhance opportunities for careers in healthcare and pharmaceutical industries such as sales, marketing and product development. Science for business enriches students' analytical and research skills which can be utilized in any given career path.

Requirements for the Minor

(20 credits)

Note: A grade of "C" or better in each course is required for successful completion of the minor.

Introductory Biology Course

Select one of the following:	3
BIO 100 Life Science:Human Emphasis	
BIO 101 Life Science:Genetics Emphasis	
BIO 106 Life Science:Human Disease	
BIO 108 Life Sci: Biol of Human Aging	
BNS 107 Life Science: Behavioral Neuroscience Emphasis	

Introductory Chemistry Course

CHE 115 Chem and Contemporary Society	3
---------------------------------------	---

Science as Business Course

BIO 206 The Pharmaceutical Industry	3
-------------------------------------	---

Biology or Behavioral Neuroscience Courses

Select any two courses with the following recommended:	8
BIO 115 & 115L Principles of Biology I and Principles of Biology I Lab	
BIO 116 & 116L Principles of Biology II and Principles of Biology II Lab	
BIO 221 & 221L Human Anatomy & Physiology I and Human Anatomy & Physiology I Lab	
BIO 222 & 222L Human Anatomy & Physiology II and Human Anatomy & Phys II Lab	
BIO 265 & 265L Genetics and Genetics Lab	
BNS 118 & 118L Behavioral Neuroscience and Behav Neuroscience Lab	

Health Care Business Course

Select one of the following:	3
HTH 205 Introduction to Health Care	
BUS 315/HTH 315 Healthcare Law,Ethics & Polcy	
ECO 336/HTH 336 Economics of Health Care Sys	

Total Credits 20

BIO 100 Life Science:Human Emphasis 3 Credits

An examination of mammalian physiology and development at the cellular and organ system level, with emphasis on physiological homeostasis in man. Three hours of lecture per week.

BIO 101 Life Science:Genetics Emphasis 3 Credits

An examination of cell biology and genetics, with emphasis on the impact of these fields on human affairs. Three hours of lecture per week.

BIO 106 Life Science:Human Disease 3 Credits

An introduction to molecular, cellular, and human biology with emphasis upon diseases and disorders caused by mutation, bacteria, viruses, or parasites. The biology of human aging is also discussed. Three hours of lecture per week.

BIO 108 Life Sci: Biol of Human Aging 3 Credits

An introduction to the biology of aging manifest in the cells, tissues, and organs of animals and humans. Three hours of lecture per week.

BIO 115 Principles of Biology I 4 Credits

An introductory biology course focusing on organismal form and function. Evolution, genetics, physiology and behavior are emphasized. Three hours of lecture and one three- hour lab per week.

Corequisite(s): BIO 115L.

BIO 115L Principles of Biology I Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 115.

BIO 116 Principles of Biology II 4 Credits

An introductory biology course focusing on interactions of organisms and their environments. Evolution and ecology are emphasized. Three hours of lecture and one three-hour lab per week.

Corequisite(s): BIO 116L.

BIO 116L Principles of Biology II Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 116.

BIO 206 The Pharmaceutical Industry 3 Credits

An introduction to drug discovery and development. Topics include how drugs are used to diagnose, cure, treat, and prevent disease and how drugs affect body function. The origins of diseases and the early attempts at treatment are also covered. Designed for business majors; does not satisfy requirements for the biology major.

Prerequisite(s): BIO 100 or BIO 101 or BIO 106 or BIO 108 or BNS 107 or CHE 115.

BIO 221 Human Anatomy & Physiology I 4 Credits

A comprehensive survey of the structure and function of musculo-skeletal systems, neuroendocrine systems and related tissues and cellular interactions. Physiological applications include homeostasis, muscle dynamics, and cell activities. Laboratory exercises complement lecture material through the use of animal dissections, wet labs, computer-assisted investigations, microscopy, and models. Exams, case histories, personal investigations, and lab practicums assess learning. Course emphasis supports allied health and pre-professional training. Three hours of lecture and one three-hour lab per week. Designed for allied health students; does not satisfy requirements for the biology major. Prerequisite(s): BIO 115.

Corequisite(s): BIO 221L.

BIO 221L Human Anatomy & Physiology I Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 221.

BIO 222 Human Anatomy & Physiology II 4 Credits

A comprehensive survey of the organ systems of the body including special senses, cardiovascular, respiratory, digestive, excretory, reproduction and development. Physiological components include electrolytes, metabolism, nutrition, and the mechanisms of homeostasis and cell reception. Lab studies support lecture material through dissections, wet labs, computer-assisted learning, microscopy, and models. Assessment includes lab practicums, exams, and reports. Course emphasis supports allied health and pre-professional training. Designed for allied health students; does not satisfy requirements for the biology major. Prerequisite(s): BIO 221.

Corequisite(s): BIO 222L.

BIO 222L Human Anatomy & Phys II Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course. Prerequisite(s): BIO 221L.

Corequisite(s): BIO 222.

BIO 265 Genetics 4 Credits

A comprehensive course focusing on molecular, Mendelian, and population genetics. Topics covered will include molecular advances in the study of genetics, including genomics and bioinformatics; evolution and the effects of genetic mutations; the application of population genetics to forensic science; genetic problem solving, including genetic crosses and statistical analysis; and regulation of gene expression. The laboratory for this course will introduce students to commonly used genetic model organisms and basic molecular biology techniques. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 or BNS 118, BIO 117.

Corequisite(s): BIO 265L.

BIO 265L Genetics Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 265.

BNS 107 Life Science: Behavioral Neuroscience Emphasis 3 Credits

An introduction to the biology of the human brain and the rest of the human nervous system. Topics in neuroscience are covered in molecular, cellular, and systematic terms. Additional material is presented on the origins and effects of neurological and psychiatric diseases.

BNS 118 Behavioral Neuroscience 4 Credits

An introductory course including basic neuroanatomy and neurophysiology of movement, ingestive, reproductive, emotional, and learning behaviors. Emphasis is on the structure/function relationships that allow animals to make appropriate physiological and behavioral responses to the environment. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115.

Corequisite(s): BNS 118L.

BNS 118L Behav Neuroscience Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BNS 118.

CHE 115 Chem and Contemporary Society 3 Credits

Designed to give the nonscientist an appreciation of the role of chemistry in today's world. The approach is conceptual rather than mathematical. Topics include basic principles of chemical theory, energy sources, elementary organic chemistry, drugs, food additives, polymers, chemistry of living systems, inorganic solids in modern technology, and problems involving pollution of the environment. Three hours of lecture per week. This course satisfies the core requirements for liberal arts, education and business majors.

HTH 205 Introduction to Health Care 3 Credits

This course is an introduction to the components of the health care industry in the United States and to the interactions of these components in producing and supplying health care. We examine the nature of health, and the various institutions and personnel which seek to provide health services; we explore the means by which we pay for these services; we assess the relationship of technology to provision of health care services; we study the various ways that our government interacts with the providers of health care services; we investigate the ethical implications of issues in health care; and we explore health care sectors from an international perspective.

HTH 315 Healthcare Law,ethics & Policy 3 Credits

This course analyzes the role of the law in promoting the quality of health care, organizing the delivery of health care, assuring adequate access to health care, and protecting the rights of those who are provided care within the health care system. It will also examine the public policy, economic, and ethical issues raised by the health care system. This course is cross-listed as BUS 315. Students may not get credit for both BUS 315 and HTH 315.

HTH 336 Economics of Health Care Sys 3 Credits

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomics tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes. Note: This course is cross-listed as ECO 336. Students may not get credit for both ECO 336 and HTH 336.

Social Work

Program Overview

In a sequence of three social work courses, students learn about the development of welfare and social service programs; they acquire skills in interviewing, case management, and group dynamics; and they gain work experience in a social service agency.

Social Work Minor Requirements

(18–21 credits)

SOW 200	Social Services & Social Work	3
SOW 300	Methods Social Work Practice	3
SOW 301	Field Work Experience	3
Select one from each of the following two groups:		6
Group I		3
SOC 205	Families	
SOC 248	Social Service Organizations	
SOC 350	Social Policy	

Group II	3
PSY 230 Child Development or PSY 231 Youth and Adolescent Development	
One additional course in an area of concentration relevant to social work ²	3
Total Credits	24

¹ PSY 100 is a pre-requisite for all Psychology courses.

² Examples of such areas are: Aging, Human Service Organizations, Psychological Counseling, and Criminal Justice. This course is chosen in consultation with an advisor.

Courses and Descriptions

SOW 200 Social Services & Social Work 3 Credits

An overview of the historical development of social work. Emphasis on current issues in social welfare and social service programs in the United States. Among the programs explored are those in public welfare, mental health, medical services, child abuse/neglect, school social work, and care for the elderly.

SOW 300 Methods Social Work Practice 3 Credits

Interviewing techniques are taught and practiced. Skills in forming and running small groups, working with community organizations, and administering social programs are emphasized. Students study how to gather pertinent psycho-social facts about clients, make an assessment, plan an intervention, and successfully complete service to the client. Students who next will take SOW 301 Field Work Experience will be placed in a social service agency by the end of the semester.

Prerequisite(s): SOW 200.

SOW 301 Field Work Experience 3 Credits

Students observe and work in a social service agency. They study the structure of the agency and the people and roles within it, and develop helping skills with clients. Approximately six to eight hours of field work a week for each three credits are required, plus class sessions during the semester.

Prerequisite(s): SOW 200, SOW 300. May be taken twice in two separate semesters for a maximum of six credits toward the total credits required for graduation.

SOC 205 Families 3 Credits

Examines families in the United States, past and present, emphasizing the variety of family experiences in different social contexts and the relationship between family life and social change. Includes comparative material on families in other countries and considers possible alternatives to current family forms.

Prerequisite(s): SOC 101.

SOC 248 Social Service Organizations 3 Credits

Examines the growth and variety of social service organizations. The training of providers, such as teachers and physicians, and relationships between professionals and clients in settings such as schools and hospitals are studied as well as organizational decision-making, finances, and community relations.

Prerequisite(s): SOC 101.

SOC 350 Social Policy 3 Credits

Investigates the relationship between economic development and social policy in comparative and historical context. The main features of preindustrial, early industrial, and advanced industrial social welfare systems are described. Social, economic and political factors that shape social policy are investigated.

Prerequisite(s): SOC 101.

PSY 230 Child Development 3 Credits

Presents theory and research on the social, emotional and cognitive development of children birth to age 12.

PSY 231 Youth and Adolescent Development 3 Credits

Presents theories, research and problems concerning development in youth and adolescence.

Prerequisite(s): PSY 100.

Sociology

Program Overview

Sociology helps people understand how social groups, organizations, social institutions and societies function, how they change over time, how they impact our lives — and how they are created and sustained, as well as how they can be changed.

Sociology is the root of many other areas of study of human endeavor, and remains a source of their new developments. Sociological research and scholarship provided the foundation for management studies, communication and media studies, legal studies, and criminology and criminal justice studies, to name a few. That is why training in sociology can provide excellent background and skills for such a wide range of careers such as test marketing, public opinion polls, census data gathering and analysis. Some sociology majors decide to pursue further education and to obtain graduate degrees, for example, in law, urban planning, social work.

Curriculum Overview

The curriculum includes introductory courses in sociology and anthropology, a sequence of skills courses for majors and minors, and a variety of substantive courses on specific topics. Sociology majors with a grade point average above 3.00 may complete a senior thesis for the sociology honors program.

Sociology students take a total of 15 three-credit courses to complete the major, including a sequence of required courses designed specifically for majors including those double majoring in sociology and education.

Seminars at the freshman and senior levels provide extensive class participation, personalized instruction, and carefully supervised individual research. Courses in research methods and statistics instruct students in diverse techniques of information gathering and analysis. In addition to these courses, sociology students select a set of courses in substantive areas. Through consultation with their faculty advisers, students are able to focus on such areas of special career or academic interest to them as criminal justice, law, education, social services, management, or marketing.

Honors Program in Sociology

Honors in sociology may be achieved by earning a 3.5 cumulative average in the discipline and completing, through honors in sociology (496), a senior honors thesis with distinction.

Sociology Major Curriculum

Required Courses:¹

SOC 101	Sociological Imagination	3
SOC 201	Intro Seminar in Sociology	3
SOC 301	Methods Of Sociological Research	3
SOC 314	Social Theory	3
SOC 400	Senior Seminar	3

Select three of the following:² 9

SOC 311	Social and Cultural Change
SOC 315	Issues in Modern Social Theory
SOC 317	Law and Lawyers
SOC 330	Class and Economic Inequality
SOC 340	Power and Politics
SOC 355	Social Interaction

Select six of the following sociology electives: 18

SOC 110	Cultural Anthropology
SOC 205	Families
SOC 206	Deviance and Crime
SOC 207	Racial and Ethnic Relations
SOC 211	Social Movements
SOC 216	Youth and Crime
SOC 219	Introduction to Criminal Justice: Police, Courts, Corrections
SOC 225	Population Study
SOC 245	Social Problems
SOC 246	Drugs, Crime & American Society
SOC 247	Aging
SOC 248	Social Service Organizations
SOC 252	Media, Culture and Society

SOC 261	Schools and Schooling
SOC 269	Physical Anthropology
SOC 270	Area Studies: Africa
SOC 271	Area Studies
SOC 272	Area Studies: Indians of N Amer
SOC 300	Work And Occupations
SOC 308	Cities And Suburbs
SOC 309	Peasant Society
SOC 310	Pre-Industrial Economies
SOC 311	Social and Cultural Change
SOC 312	Women In Society
SOC 313	Gender and Criminal Justice
SOC 314	Social Theory
SOC 315	Issues in Modern Social Theory
SOC 316	Feminist Social Thought
SOC 317	Law and Lawyers
SOC 320	Religion and Belief Systems
SOC 321	White Collar & Corporate Crime
SOC 322	Punishment and Corrections
SOC 325	Population Study
SOC 330	Class and Economic Inequality
SOC 340	Power and Politics
SOC 341	Developing Societies
SOC 342	Police and American Society
SOC 343	Policing and Counter Terrorism
SOC 345	Race and Crime
SOC 346	Health Care and Society
SOC 349	Retirement and Leisure
SOC 350	Social Policy
SOC 355	Social Interaction
SOC 396	Applied Sociology
SOC 401	Sex and the Body in Society
SOC 490	Independent Research and Study
SOC 491	Internship in Sociology
SOC 496	Honors in Sociology
or SOC 497	Honors in Sociology

Free Electives 36-37

Total Credits 120

Seniors planning to attend graduate school should take the Graduate Record Examination, including the Advanced Test in Sociology.

¹ Course sequence recommendations: The Sociological Imagination preferably should be taken in the freshman year, the Introductory Seminar in the sophomore year, Methods and Social Theory in the junior year. Your particular sequence of courses will be arranged in consultation with your advisor.

² Additional courses from the above list may be taken beyond the minimum to satisfy the Sociology electives component of sociology major requirements

³ Select from the following: SOC 311, SOC 315, SOC 317, SOC 330, SOC 340, SOC 355

Courses and Descriptions

SOC 101 Sociological Imagination 3 Credits

Introduction to principles and concepts for the sociological analysis of human societies. Social relations, social structure, and institutions characteristic of societies past and present are examined, and causes and directions of social change are considered.

SOC 110 Cultural Anthropology 3 Credits

The anthropological perspective is introduced, placing human behavior and institutions within their evolutionary, ecological, structural, and ideological contexts. Examples are drawn from the full range of human societies, with an emphasis on nonindustrial forms.

SOC 201 Intro Seminar in Sociology 3 Credits

Designed for students considering a major or minor in sociology. The seminar locates sociology in relation to other disciplines; reviews the basic perspectives used by sociologists to study human behavior; and considers the methods and applications of sociological inquiry.

Prerequisite(s): SOC 101.

SOC 205 Families 3 Credits

Examines families in the United States, past and present, emphasizing the variety of family experiences in different social contexts and the relationship between family life and social change. Includes comparative material on families in other countries and considers possible alternatives to current family forms.

Prerequisite(s): SOC 101.

SOC 206 Deviance and Crime 3 Credits

Considers deviant behavior as violation of social norms. Examines the concepts of deviance and crime in socio-historical context. Evaluates major theories advanced to explain deviance. Surveys different types of deviance, including conventional crime, non-criminal deviant behavior, and white-collar corporate, and government crime.

Prerequisite(s): SOC 101.

SOC 207 Racial and Ethnic Relations 3 Credits

Examines the social origins of prejudice and discrimination, and analyzes intergroup trends in conflict, competition, and cooperation. Considers issues of immigration, economic and political power, and ethnic, racial, and religious pluralism.

Prerequisite(s): SOC 101.

SOC 211 Social Movements 3 Credits

This course examines social movements that seek change in the social, cultural and political structures of society. The social, economic and political contexts of these movements are treated as well as their origins, tactics, organization, recruitment, and successes and failures. Case studies focus on movements in the areas of labor, civil rights, feminism, the environment, "right wing politics", and neighborhood activism.

Prerequisite(s): SOC 101.

SOC 216 Youth and Crime 3 Credits

In-depth examination of the nature and extent of youth criminality in the U.S. Explores changes in youth culture and theories of delinquency. Social policies are related to youth criminality and the youth justice system is considered.

Prerequisite(s): SOC 101.

SOC 219 Introduction to Criminal Justice: Police, Courts, Corrections 3 Credits

This course introduces students to the sociological study of the criminal justice system. It examines the cultural and social foundations of this system, and review debates about problems with the criminal justice system and proposals to change it. Topics covered include nature of the crime problem, requirements of criminal law, policing, the role of the courts and legal professionals, sentencing, incarceration and alternatives to it. [FORMERLY SOC-319 Criminal Justice and Corrections] Pre-requisite SOC 101 3 Credit hours.

SOC 225 Population Study 3 Credits

Demography; its definition, historical emergence, and growth; population as a social problem in developing and developed nations; population theories, sources and methods of demographic data, population composition, and distribution; demographic processes including fertility, mortality, and migration.

Prerequisite(s): SOC 101.

SOC 245 Social Problems 3 Credits

American social, economic, and political institutions and their interrelationships are analyzed, with an emphasis on the causes, directions, and consequences of social change in American society.

Prerequisite(s): SOC 101.

SOC 246 Drugs, Crime & American Society 3 Credits

Explores the nature and extent of drug use in the U.S., how drugs are legally defined and socially constructed, and considers how and why drug policies have developed and changed historically. Considers how the criminalization of drugs has impacted policing strategies, courts, probation programs, sentencing and corrections, as well as other social institutions. Examines the role of local and federal agencies in enforcing drug laws, and considers debates about directions for legal reforms.

Prerequisite(s): SOC 101.

SOC 247 Aging 3 Credits

The emergence of social gerontology, demographic foundation of aging, the aging process, comparative study of aging and aged, effect of aging on the individual, social institutions and aging, and problems of aging and some solutions.

Prerequisite(s): SOC 101.

SOC 248 Social Service Organizations 3 Credits

Examines the growth and variety of social service organizations. The training of providers, such as teachers and physicians, and relationships between professionals and clients in settings such as schools and hospitals are studied as well as organizational decision-making, finances, and community relations.

Prerequisite(s): SOC 101.

SOC 252 Media, Culture and Society 3 Credits

Examines mass-produced commercial culture, how it has developed, and the role it plays in modern society. Analyzes the content of these cultural forms, how its production is organized, and how audiences perceive it.

Prerequisite(s): SOC 101.

SOC 261 Schools and Schooling 3 Credits

Schools and the process of schooling are analyzed within a broad historical perspective as well as within the structural and cultural context of American society. Education within a global perspective is also considered. Issues discussed include school funding, integration, tracking, technology, bureaucratization, and the "cultural wars" fought within the schools.

Prerequisite(s): SOC 101.

SOC 269 Physical Anthropology 3 Credits

An analysis of the biological development of the human capacity for culture. Topics include: modern theories of evolution and their application to human evolution; the relationship of human beings to other primates, the human fossil record, and variation among modern human populations. A background in biological studies is not necessary.

Prerequisite(s): SOC 101.

SOC 270 Area Studies: Africa 3 Credits

An intensive investigation of problems arising from historical and contemporary studies of tribal, peasant, and transitional societies in Africa south of the Sahara.

Prerequisite(s): SOC 101.

SOC 271 Area Studies 3 Credits

Studies problems arising from historical and contemporary studies of peasant populations of Europe.

Prerequisite(s): SOC 101.

SOC 272 Area Studies: Indians of N Amer 3 Credits

Societies and cultures of the Indians of North America from the Arctic to Mesoamerica. Emphasis on evidence of these tribal groups prior to extensive acculturation and their contemporary situation.

Prerequisite(s): SOC 101.

SOC 300 Work And Occupations 3 Credits

Analyzes the nature and organization of work in modern society. Focuses on such issues as division of labor, specialization, alienation, professionalization, and the role of technological change. Includes an examination of the historical development of work in the 20th century, and a consideration of contemporary and future patterns of work organization.

Prerequisite(s): SOC 101.

SOC 301 Methods Of Sociological Research 3 Credits

The second in a series of required courses for majors. Builds upon the Introductory Seminar in Sociology. Social research methods using documents, observations, and questionnaires are taught, and used in completing research projects.

Prerequisite(s): SOC 201.

SOC 308 Cities And Suburbs 3 Credits

Examines the growth of an urban way of life under the influence of industrialism. Study of community, political, and economic institutions in cities. Comparisons between urban and suburban areas.

Prerequisite(s): SOC 101.

SOC 309 Peasant Society 3 Credits

A comparative view of peasants and their significance in agrarian, colonial, and industrial societies. Peasant economic, political, and social institutions are analyzed with an eye to both their internal operation and the way they relate to non-peasant groups who hold power in these societies. The changes that have occurred in the peasant world are viewed both as a consequence and a cause of wide reaching political and economic upheaval.

Prerequisite(s): SOC 101.

SOC 310 Pre-Industrial Economies 3 Credits

The anthropological study of technology, production, and exchange in nonmarket cultures, as related to the social, ideological, and ecological systems in which they are embedded. The question of whether the concepts that derive from market economies can be applied to all economic systems is considered in detail.

Prerequisite(s): SOC 101.

SOC 311 Social and Cultural Change 3 Credits

Investigates the process of change in both industrial and nonindustrial settings. Particular attention paid to the role of the individual in change as well as the roles played by the mode of production, social organization, and ideological constructs. Case studies are drawn from non-Western as well as Western sources.

Prerequisite(s): SOC 101.

SOC 312 Women In Society 3 Credits

Examines changes in women's roles and in male-female relationships. Focuses on impact of law, economy and social movements in shaping women's positions as wives and as workers. Explores theories and evidence concerning the nature and extent of sex differences. Attention to women's socialization through language, schools and media.

Prerequisite(s): SOC 101.

SOC 313 Gender and Criminal Justice 3 Credits

This course will examine women's experiences with the criminal justice system as offenders, victims, prisoners, and practitioners. It will consider how gender has shaped theories of crime and criminological research. It will explore how cultural constructions of gender have influenced substantive and procedural criminal law, the ways criminal justice agencies respond to crime, and how these have changed historically. Attention will be given to the development of new approaches, reforms, and challenges.

Prerequisite(s): SOC 101.

SOC 314 Social Theory 3 Credits

Introduces the major thinkers and conceptual problems characterizing the development of sociological thought. Required of sociology majors.

Prerequisite(s): SOC 201.

SOC 315 Issues in Modern Social Theory 3 Credits

Examines current trends and issues in sociological thought.

Prerequisite(s): SOC 314 or permission of instructor.

SOC 316 Feminist Social Thought 3 Credits

An introduction to feminist social theory, with emphasis on its breadth and variety. Special attention paid to the ways feminist theorists have analyzed the relationship of gender to other kinds of group differences.

Prerequisite(s): SOC 101.

SOC 317 Law and Lawyers 3 Credits

Relationships between law, the economy, and the state are explored. Discussion of laws, legal systems and legal reasoning using cross-cultural comparisons and historical analysis of these in the United States. Particular attention given to impact of law on corporations, workers, women, and minorities. Changes in legal profession and legal education are examined.

Prerequisite(s): SOC 101.

SOC 320 Religion and Belief Systems 3 Credits

The relation of religious phenomena to social structures and processes; religion in cross-cultural perspective.

Prerequisite(s): SOC 101.

SOC 321 White Collar & Corporate Crime 3 Credits**SOC 322 Punishment and Corrections 3 Credits**

This course explores the nature, forms, rationales, and effectiveness of punishment as a form of crime control. It traces the development of corrections in the U.S., identifies cultural trends and developments in penology, including mass incarceration and supermax prisons, considers the ways race and class have shaped these, and the reverberating effects penal policies have had on American culture and society beyond the criminal justice system. It examines the role of laws, politics, crime control agencies, as well as of media, and corporations in shaping penal policies. Topics also include: prison subcultures, inmate rights, correctional practices, privatization of prisons, and alternatives to punitive policies of incarceration and capital punishment.

Prerequisite(s): SOC 101.

SOC 325 Population Study 3 Credits**SOC 330 Class and Economic Inequality 3 Credits**

Social, economic, and political aspects of the division of society into classes are considered. Theories of stratification and the distribution of wealth, power, and prestige in societies past and present are examined.

Prerequisite(s): SOC 101.

SOC 340 Power and Politics 3 Credits

Examines the nature and distribution of power in contemporary societies; analyzes the relationships between power and politics.

Prerequisite(s): SOC 101.

SOC 341 Developing Societies 3 Credits

Examines theories explaining patterns of development; indicators and measures of social well-being; and problems such as population, hunger and environmental crises in developing countries. Focuses especially on patterns of development in Latin America or China.

Prerequisite(s): SOC 101.

SOC 342 Police and American Society 3 Credits

This course examines important issues regarding police in American society, such as the paradoxes inherent in police work, police organization and strategies and their effectiveness, the dilemmas of supervising police work, police unionism, the nature and implications of police occupational subculture, the use of police discretion, forms of police misconduct and accountability, professionalization of police and the trend toward police privatization. It also considers the diversity of the police force, trends in the delivery of policing services, the impact of new technologies on policing, and the challenges of policing in a multicultural society.

Prerequisite(s): SOC 101.

SOC 343 Policing and Counter Terrorism 3 Credits

This course is designed as an upper level (undergraduate/graduate) combination lecture and discussion section on the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspectives on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (environment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security.

Prerequisite(s): SOC 101.

SOC 345 Race and Crime 3 Credits

Examines the impact of crime policy on minority communities in the United States, with particular attention to the impact of "The War on Drugs", three-strike laws, and mandatory sentencing on minorities and minority communities. Drawing on sociological research, the course explores myths and realities concerning the relationship between race and crime. The relationship between racial attitudes, historical race relations, and mass incarceration are discussed.

Prerequisite(s): SOC 101.

SOC 346 Health Care and Society 3 Credits

Application and contributions of sociology to medicine; the strategy and methods of sociomedical research; sociology of illness, addictive and mental disorder; medical institutions; health services and medical care; and current status of medical sociology.

Prerequisite(s): SOC 101.

SOC 347 Aging and the Elderly 3 Credits**SOC 348 Human Service Organizations 3 Credits****SOC 349 Retirement and Leisure 3 Credits**

Examines the social phenomena of retirement as an event, process, social role, and life stage. Explores the meaning of leisure, time utilization, and creativity among the elderly. Defines related problems and issues, i.e., financial, physical, psychosocial, and environmental. Positive as well as negative implications are presented and evaluated.

Prerequisite(s): SOC 247 recommended.

SOC 350 Social Policy 3 Credits

Investigates the relationship between economic development and social policy in comparative and historical context. The main features of preindustrial, early industrial, and advanced industrial social welfare systems are described. Social, economic and political factors that shape social policy are investigated.

Prerequisite(s): SOC 101.

SOC 355 Social Interaction 3 Credits

Examines the interpersonal relation between and among people in private life, public places, and at work. Explains how such relations affect and are affected by changes in the larger social structure.

Prerequisite(s): SOC 101.

SOC 360 Spec.Top.: Drugs in Am. Society 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 361 Sel Top: Studies Soc. of Art 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 362 Selected Topics 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 363 Selected Topics 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 364 Selected Topics 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 365 Selected Top: Social Movements 3 Credits

FALL 2012 - This course examines movements that seek change in the social, cultural and political structures of society. The social, economic and political contexts of these movements are treated as well as their origins, tactics, organization, recruitment, and successes and failures. Case studies focus on movements in the areas of labor, civil rights, feminism, the environment, "right wing politics", and neighborhood activism. In today's world, social movements abound. Movements such as the Tea Party and the Occupy movements demonstrate that they can take place across the political spectrum of society. Moreover, the interconnectedness of the world economy creates social movements throughout the world, whether in Asia, the Mid-East or Europe that have direct affects on the United States. Because the coverage of these movements are given considerable media exposure, students (and the public) tend to accept the interpretations of these movements as presented in the narratives of the media coverage. This class will provide a systematic academic treatment of social movements. Because social movements target structural and cultural institutions in society, the study of these movements will not only provide an understanding of these movements, but of larger social problems in society as well.

Prerequisite(s): SOC 101.

SOC 367 Selected Topics: Environment 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 368 Selected Topics in Sociology 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 369 Selected Topics in Sociology 3 Credits**SOC 396 Applied Sociology 3 Credits**

Shows how sociology can be applied in work settings. As participant observers in organizations related to their career objectives, students learn to apply sociological knowledge, perspectives, and skills. In class meetings and individual consultations with the instructor, students examine the applied dimensions of sociology, the uses of sociology in various occupations, the ethical issues involved in applied sociology, and the culture and structure of their work organization.

Prerequisite(s): SOC 101.

SOC 400 Senior Seminar 3 Credits

For sociology majors only. This seminar involves in-depth examination and research of a specific issue of current importance in the discipline. Learning to do sociology is emphasized.

Prerequisite(s): SOC 201, SOC 301, SOC 314.

SOC 401 Sex and the Body in Society 3 Credits

Examines cultural meanings and social practices associated with sex and the body. Contemporary cultural norms and practices in the U.S. will be compared to other societies, historically and cross-culturally. Variations in sexual practices, ideals of sexual attractiveness according to age, gender, race, ethnicity, class and sexual orientation also will be discussed. Topics may include beauty industries (e.g. cosmetics, diet, fashion, surgery, drugs), sex and the workplace, the impact of media, social policy, and technology on ideals of sexual attractiveness, birth control, and sexual violence.

Prerequisite(s): SOC 101.

SOC 490 Independent Research and Study 1-4 Credits

Juniors or seniors who have completed at least 12 credit hours in sociology may propose an independent research project with the aid and advice of any full-time faculty member of the department. Proposals must be reviewed and approved by the sponsoring faculty member and submitted to the department's Independent Study Committee at least four weeks prior to the last day of classes for the semester preceding Independent Study.

Prerequisite(s): SOC 101.

SOC 491 Internship in Sociology 1-4 Credits

A supervised work experience in an approved organization to gain knowledge of applications of sociology in work settings and to analyze work settings using sociological knowledge and research methods. Placements are made in business, government, and community offices that utilize sociological knowledge or research skills.

Prerequisite(s): 2.75 GPA.

SOC 496 Honors in Sociology 3-6 Credits

Training in the efficient collection of data that has a bearing on the problem being investigated. Stresses the technique of proper summarization of the collected material as well as the integration of that material into a comprehensive report. A research design is prepared and hypotheses tested in the field. The original library research is then combined with the findings to produce a mini-thesis. Approval of student's program by a sponsoring faculty member and the department Independent Study Committee is required.

Prerequisite(s): SOC 201, SOC 301.

SOC 497 Honors in Sociology 3-6 Credits

Training in the efficient collection of data that has a bearing on the problem being investigated. Stresses the technique of proper summarization of the collected material as well as the integration of that material into a comprehensive report. A research design is prepared and hypotheses tested in the field. The original library research is then combined with the findings to produce a mini-thesis. Approval of student's program by a sponsoring faculty member and the department Independent Study Committee is required.

Prerequisite(s): SOC 201, SOC 301.

Spanish

Program Overview

Majoring in a foreign language such as Spanish allows students to pursue careers in business, management, law, government, teaching, translation, publishing, communications, and travel.

At Rider, Spanish majors acquire an international perspective and a unique intercultural sensitivity. Advanced foreign language skills combined with intercultural expertise increase the employment prospects of students in the global market place of today.

A major or minor in Spanish offers students the opportunity to receive a practical grounding in language and culture through a challenging curriculum which may include study abroad. In addition, our language, literature, film and culture courses prepare students to understand cultural diversity abroad and at home, to appreciate their own language and culture, and to gain global awareness. An individual fluent in another language acquires insight into the world in which we live. Advanced foreign language skills, combined with an international perspective and intercultural expertise, position our students for productive careers in the global and multicultural marketplaces of the 21st century. Faculty engagement in research and teaching excellence combines with our

unique "accent on the individual" through advisement and co-curricular opportunities to create a challenging yet supportive atmosphere in which students can realize their potential.

A major or minor in Spanish will complement many degree programs in business, education, music and the liberal arts.

Students have access to a state-of-the-art Foreign Language Media Center with 25 computer work stations with Internet access for self-paced work and classroom instruction including interactive audio, video and text-based materials.

Curriculum Overview

Classes in the Spanish major include Spanish for business, advanced communication in Spanish, Spanish culture and civilization, Latin American/Latino culture, Introduction to Spanish literature, Cervantes, the Spanish golden age, and modern Hispanic literature and cinema.

Some requirements may be met by studying abroad. Students may also minor in French, German, Italian and Chinese.

Honors Programs in Languages, Literatures and Cultures

The department faculty will identify prospective honors students at the earliest possible moment and offer them challenges and encouragement to develop to their highest potential. A student who has a 3.25 cumulative average and a 3.5 in the major may be invited by the department, upon recommendation of a faculty member, to become a candidate for the 3-credit honors thesis or capstone project. Details of the thesis or capstone project will be arranged to accommodate the interests of the individual student.

The thesis/capstone project is completed during the senior year. It represents the culmination of a student's academic experience, and is an irreplaceable learning experience for the development of research, writing and critical thinking skills for graduate school admissions and success, as well as work in numerous careers. Students who successfully complete the thesis or capstone project and retain the required cumulative and major grade point average will graduate with honors.

SPA 496	Special Studies	

Liberal Arts

Select one option:	12
--------------------	----

Option I

Four courses of language:

a. two of two different languages OR

b. four of one language

Option II

Three classes of one language and ONE class from among the following options:

a. Masterworks 250 or 251 OR

b. one course in Latin American Studies OR

c. one course in European Area Studies

Option III

Two classes from one language and TWO classes from among the following options:

a. Masterworks 250 and/or 251 OR

b. 1-2 courses in Latin American Studies OR

c. 1-2 courses in European Area Studies

Total Credits

81-82

Students who complete an honors thesis their senior year may substitute the thesis (SPA 490) for one of the collateral requirements.

Some of the requirements for the major may be met by Study Abroad. Students are strongly encouraged to spend at least one semester abroad.

All majors must take at least one Spanish course per semester in the senior year.

Note: Students must receive a grade of "C" or better in courses required for the major or minor in the department. If a student receives a grade lower than "C" in a required course, the student must meet with his/her academic advisor to discuss the appropriate action that must be taken to remedy the situation.

Courses and Descriptions

SPA 100 Spanish I 3 Credits

Introduction to the fundamentals of Spanish grammar, with emphasis on communicative skills, in culturally authentic contexts. Students are required to work extensively with audio and/or video materials and online sources.

Prerequisite(s): placement test if Spanish has been studied elsewhere.

SPA 101 Spanish II 3 Credits

Continuation of Spanish 100. Emphasizes the use of language for communicative and cultural competency while developing a solid grammar foundation in Spanish. Students are required to work extensively with audio and/or video materials and online sources.

Prerequisite(s): SPA 100 or placement test.

SPA 102 Elementary Spanish II Abroad 3 Credits

This course is the second part of the first year experience in Spanish and is designed for students who have taken Spanish for Beginners I and who are interested in experiences abroad in a Spanish speaking culture. The aim is to develop the four basic skills (listening comprehension, speaking, reading, and writing) in and beyond the classroom. The discussion of distinctive cultural aspects of the Hispanic world is an integral part of this course as well as to encourage students to experience the world through the eyes of the other culture by exposing them to the literature and arts of the local culture.

SPA 200 Spanish III 3 Credits

An intensive review of Spanish grammar with emphasis on aural-oral (listening and speaking skills) and composition writing. Literary and cultural readings will be used to develop these skills. A special section may be offered to address the needs of native speakers. Students may be required to work with audio and/or video materials and online sources.

Prerequisite(s): SPA 101 or placement test.

SPA 201 Spanish IV 3 Credits

A continuation of Spanish grammar review with emphasis on aural-oral skills and.

SPA 300 Advanced Grammar & Composition 3 Credits

A systematic review of grammatical structure. The development of writing skills, in preparation for upper level courses in literature, culture and professional language.

Prerequisite(s): SPA 201, placement test at 300-level or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 301 Spanish for Business 3 Credits

A solid foundation in business vocabulary and cultural concepts; situational practice in geographic and cultural contexts necessary to be successful in today's Spanish-speaking world. Practice in writing business letters and other documents. Oral and written assignments to help students improve their critical thinking and become better communicators.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 302 Writing and Translating 3 Credits

Practice in writing and an introduction to translation for students who will use Spanish in their professional lives. Using literary, cultural and journalistic sources, students learn various writing discourses including narration, description, exposition, argumentation, and journalistic and letter writing. Translation involves preliminary study of translation theory and techniques, and practice with texts from students' chosen careers. Additional study of Spanish grammar as necessary.

Prerequisite(s): SPA 201, placement test at 300-level or above, or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 303 Advanced Communication in Spanish 3 Credits

The focus of the course is to strengthen the student's aural comprehension and speaking skills by providing a framework for regular guided practice of fundamental grammar structures and vocabulary enhancement in the context of Hispanic cultures. Listening activities will include live speech, video recordings, film shorts and one full-length movie. Speaking tasks will be reinforced with written exercises.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 305 Cervantes 3 Credits

A detailed study of Cervantes' masterpiece El ingenioso hidalgo Don Quijote de la Mancha. Lectures, discussions, and supplementary readings.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 310 Spanish Culture & Civilization 3 Credits

Spain's cultural achievements are studied in light of the country's unique historical and social reality through the use of historical, artistic, architectural, cinematic and literary sources. Cross-cultural awareness is enhanced through exercises that compare Spanish and American society. Classes are in English. No knowledge of Spanish required. This course may contain an optional travel component offered before or after the semester or during spring break.

SPA 311 Latin American Latino Culture 3 Credits

A panoramic survey of Latin American cultural achievements in light of the unique social and political history from the pre-Columbian period to the present. The cross-cultural perspective includes a study of Latino culture in the United States. Classes are in English. No knowledge of Spanish is required.

SPA 320 Introduction to Spanish Lit 3 Credits

Examines through lectures, readings and class discussions selected texts and their relationship to the main currents of European literary history. Introduction to the practice of literary analysis through written composition. Required for majors.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 325 Intro to Latin-Amer/Latino Lit 3 Credits

A study of the development of Latin-American and Latino literature from its origins to the present through the reading, analysis and discussion of representative works by major authors. This course increases the understanding of how social, historical, and political events, together with native as well as foreign literary movements, create a unique literature, conveying the Hispanic-American reality. Required for majors.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 395 Phonetics for Communication 3 Credits

A systematic study of the production of Spanish sounds with practice in phonetic transcription and a preliminary investigation of dialects.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 403 Medieval Literature 3 Credits

Surveys the literature of Spain during the Middle Ages, with special emphasis on major writers such as Gonzalo de Berceo and Don Juan Manuel, and attention to the epic and the medieval ballad. Modern versions of medieval Spanish are used.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 410 Modern Hispanic Poetry 3 Credits

Surveys the poetic genre, emphasizing how to read, analyze, and appreciate poetry. Major poets from Spain and Spanish America of the 19th and 20th centuries representing the main currents of modern lyricism are studied. Focuses on such major writers as Rosalía de Castro, Darío, Jiménez, Machado, Vallejo, Mistral, Neruda, Lorca, Paz, Ana Rossetti, Nicolas Guillen, and Nancy Morejon.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 411 Modern Spanish Novel 3 Credits

Traces the development of the Spanish novel, paying particular attention to the masters of the 19th-century Realism (Galdos and Clarín), the innovations and experimentation of the Generation of '98 (Unamuno, Baroja, Valle-Inclán, and Pérez de Ayala), and the novelists of the post-Civil War and contemporary periods (Cela, Delibes, Goytisolo, Martín Gaité, Matute, Fernandez Cubas, and Javier Marías). Emphasis on the aesthetics of the novel as a literary form.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 412 Hispanic Theater and Film 3 Credits

This course explores through theater and cinema the compelling issues that have shaped Hispanic cultures and consciousness throughout the centuries. Sample topics include war and remembrance; myth and history; freedom and authority; immigration; globalization; and race, class, and gender. The course may focus on specific authors or historical periods. Representative playwrights include Lope de Vega, Zayas, Zorrilla, Avellaneda, Lorca, Buero Vallejo, Sastre, Solorzano, Carballido, Lopez Mozo, and Pedrero. Directors include Buñuel, Saura, Gutiérrez Alea, Almodovar, Rocha, Salles, Erice, Zambrano, and Bollain.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 413 Hispanic Short Story: Transatlantic Conn 3 Credits

This course will introduce students to the most representative writers of the short story in Spain and Latin America from Romanticism to the present. Students will be prepared to perform close readings of the literary genre under study, to analyze the form and content of the texts read, paying due attention to all internal and external aspects that impact the narrative process and the evolution of the short story.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 415 Spanish Renaissance 3 Credits

The origins and evolution of the Renaissance in Spain and of the literary expression of Renaissance culture as reflected in the development and perfection of prose and lyrical styles through the 16th century. Topics include the medieval heritage, Spanish Humanism, the Celestina, the Renaissance ideal in amatory prose and poetry, mysticism, the ballad, and the picaresque novel.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 416 The Spanish Golden Age 3 Credits

The literature of Spain during a period of political decline and outstanding aesthetic achievement: Lope de Vega and the rise of a national theatre; Calderon's drama of ideas; the development of the novella and the picaresque novel; the poetry and prose of Gongora, Quevedo, and Gracian. Also includes an introduction to literary theory.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 420 From Colonies to Nations from Colonies to 3 Credits

This course consists of a panoramic survey of Colonial and Post-Colonial Latin American literature in light of the unique social, cultural and political history from the pre-Columbian to the Independence period (1825). The approach brings together vivid accounts of places and events, speeches, profiles, oral histories, excerpts from a wide range of literature, policy papers, and other readings. The analysis and discussion of selected literary works and representative films will show how Latin American and Caribbean artistic and creative endeavors express the social, cultural and political context of the Americas. Videos and films will provide the sights and sounds of this vast and vital region.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Note: This course is cross-listed as LAC 420. Students may not get credit for both SPA 420 and LAC 420.

SPA 426 Latin American/Latino Film and Fiction 3 Credits

A study of the main trends in contemporary Hispanic fiction written in Latin America and the United States. Analysis and discussion of selected novels and short stories, and their cinematic representation on film.

Required for majors.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

SPA 491 Intrnshp in Foreign Languages 1-4 Credits

A supervised work experience in an approved organization to gain knowledge of the importance and interrelationship of foreign languages and cultures in the workplace. Placements can be made in international governmental agencies, international trade associations, multinational corporations, social service agencies and other appropriate workplace environments both in the United States and abroad. With permission of the supervisor and faculty advisor, a three-credit internship may be substituted for a collateral requirement as credit toward the major.

Prerequisite(s): students should have completed at least one 300-level course in the foreign language.

SPA 496 Special Studies 3 Credits

A seminar open to a variety of topics treating a particular author, period, genre, or theme.

Prerequisite(s): permission of instructor.

SPA 500 The Poetry of Resistance in the Time of the Generals in Latin America 3 Credits

This course offers a broad overview of important historical literature about dictatorships in Latin America. The weekly readings and writing assignments have been selected in order to: 1) introduce major concepts, arguments, and figures in the field of Latin American literature and culture; 2) appreciate the evolution of the role of artists and intellectuals during the years of the "dirty war" in Latin America; 3) sharpen analytical writing; and, 4) demonstrate the connection (and the limits of the connection) between literature, culture, and society. This course is predominantly a study of Latin American governments in the twentieth century and of the role of artists, primarily writers of fiction and poetry, as a corps of truth-tellers and resisters in the face of government propaganda, censorship, and cultural/political repression.

SPA 510 Marks of Identity: The Journey of the Self in Spanish Theater 3 Credits

What markers of class, race, ethnicity, gender and even species shape individual and group identity? How does identity change over time? How do I know who I am, and how does my identity further my interests and those of society? Offered in translation, this course explores the staging of identity in Spanish theater from the seventeenth to the twenty-first century. Topics may include the 17th-century honor code and gender, the myth of Don Juan, imperialist imaginings of New World subjects, the romantic hero and the angel of love, identity and the grotesque, identity and erotic desire, identity and media technologies, and non-human animal subjects. Film, art, music and live-theater attendance.

Sustainability Studies

Program Overview

Environmental sustainability is clearly a defining issue of the 21st century. Alarming patterns of environmental degradation have emerged since the beginning of the industrial revolution. Creating social, systematic, and commercial structures that reverse this trend by explicitly acknowledging and nurturing the interconnectedness of the natural and human environment is the main challenge facing Rider's graduates. Educators, entrepreneurs, chemists, journalists, psychologists and analysts will all need to understand the ways that our economic, natural and social systems work together to sustain the collective human enterprise.

Concentrating on the interdependence of natural, economic and human systems, the **sustainability studies minor program** helps students explore the complex task of protecting the earth while generating economic welfare and ensuring social justice. Because the program draws on a network of approaches (social, scientific, practical), students completing the minor will be equipped to take on increasingly pressing challenges in areas ranging from education and energy, communications and design to ecosystems management, business and government.

The program also provides students with opportunities to get under the hood, exploring what "going green" really means. Coursework is application-intensive. The introductory course will expose students to a wide range of issues, from food to packaging, from natural lands preservation to building sustainable communities. Other coursework complements students exploration of these issues. A broad range of internship and independent study opportunities are available for interested students. The capstone course brings together a team of to address a real problem on the Rider campus, hopefully making significant changes along the way.

Students in the **sustainability studies minor** will take seven courses (23-24 credits) in environmental and social sciences, ethics and business. Sustainability-related courses that contribute to the minor are offered within many majors. The introductory course is deeply interdisciplinary, drawing on expertise from across the University in the social sciences, business, history, philosophy, ecology, physics and marketing. After this introduction, students are expected to complete an independent study or internship project on or off campus that provides hands-on experience with the complex tasks required to make systems more sustainable. The capstone course draws on the interests and expertise of the enrolled students who together will identify a specific sustainability challenge on the Rider campus and devise, implement and measure the effects of a plan to address it.

Courses and Descriptions

SUS 100 Intro to Sustainability Studie 4 Credits

Sustainability is an idea that will shape the lives of all in the 21st century. Students will explore how we arrived at our current precarious environmental situation and investigate cutting-edge methods that support human development and protect the natural ecosystems on which we will depend. By exploring principles of sustainability (whole-systems approaches, resource limitations, stewardship) through many different lenses, students will appreciate the interdisciplinarity of the sustainability enterprise.

Corequisite(s): SUS 100L.

SUS 100L Intro to Sustainability Lab 0 Credits

For students concurrently taking SUS 100. Field trips, visiting speakers, and films to complement topics covered in the introductory course. One three-hour laboratory per week.

Corequisite(s): SUS 100.

SUS 300 Sustainability Internship 3 Credits

A supervised work/service experience in an approved organization where students gain understanding and experience with applying sustainability principles. Placements may be in private, public, educational, non-profit or governmental organizations. Students are expected to include measurement and documentation of the environmental, social, and economic impact of their work. At least 100 hours of work is required.

Prerequisite(s): SUS 100 and SUS 100L or as corequisite.

SUS 400 Sustainability Studies Seminar 3 Credits

To synthesize sustainability studies coursework and internship experiences, students will collaboratively develop and implement a sustainability project on the Rider campus, aiming to simultaneously reduce both depletable resource use and environmental impact. Seminar sessions will explore the historical development of current systems and innovative thinking related to sustainability planning related to the focal issue. Specific topic at discretion of the instructor. Prerequisite(s): SUS 100, SUS 100L.

Corequisite(s): SUS 300 or as prerequisite or permission of instructor.

SUS 490 Independent Research and Study 1-4 Credits

Immerses the student in applying sustainability principles in a field setting. Students are expected to assess the outcomes of their projects and communicate their results verbally and in writing to interested audiences.

Web Design

Program Overview

Designing and implementing web pages and interactive media, as well as learning the secrets of effective print design and production, are the focuses of Rider's Web Design major. Students learn about design and visual-communication theory while creating portfolios and web-based interactive resumes. In the capstone course, students work with real clients to create a web presence.

Curriculum Overview

Core classes in the major include writing for the communication professions, publication design, multimedia production I: interactive design, advanced publication design, multimedia production II: web design and multimedia production II: advanced interactive design.

Other classes include communication theory, advanced speech, theories of persuasion, audio production, graphic imaging for multimedia and photography, 3D graphic animation, covering digital media and more.

CIS 340	Electronic Commerce

Total Credits **6**

¹ Note: Communication and Journalism majors may declare only one minor in the department. No more than two courses may be used to meet the requirements for both a major and a minor in the department.

(Exception: If a student elects either the Advertising or Event Planning and Production minor, then three courses may be used to meet the requirements for both the major and that minor in the department.)

Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider will follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

COM 102 Introduction to News Writing 3 Credits

Introduces students to routines of journalism, including reporting, writing and preparing content for print and web. Incorporates contemporary practices in multimedia journalism, including digital audio, video and photos, into traditional skills, with an emphasis on accuracy, clarity and professional style and voice. Class exercises are completed in a laboratory newsroom.

COM 103 Intro Comm Studies:theory&prac 3 Credits

Provides a foundation for the study of communication across the discipline. Open to freshmen only, it is designed to assist the first year student majoring in communication or journalism to gain a broad understanding of the scope and breadth of the field. Fundamental communication theories, principles, concepts, terms, and issues are introduced.

COM 104 Speech Communication 3 Credits

Examines basic communication principles and strategies of public speaking. Various genres of oral communication are studied, with an emphasis on extemporaneous and impromptu forms of delivery. Students research, prepare, and deliver speeches that are then used as the focal point for the discussion of effective speaking and listening. A number of speeches are videotaped. Students who received credit for COM 104S may not take this course.

COM 104S Intro to Speech Communication 3 Credits

As part of the EOP program, this course is designed to improve the speaking and language skills of new college students. Through directed practice, students have the opportunity to develop poise and confidence in oral communication, as well as competence in analyzing and synthesizing messages. Emphasis is placed on development, organization, and delivery of speeches. To receive credit, a grade of "C" or higher must be earned. Students who receive credit for COM 104S may not take COM 104.

COM 105 Communication, Culture and Media 3 Credits

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society.

COM 106 Writing for the Comm Professns 3 Credits

Provides students with written communication writing strategies and tools. Applies theory and practice in communication to targeted audiences. Emphasizes the critical role writing plays in the communication workplace and provides an opportunity to evaluate and respond to real-life writing samples and situations.

COM 107 Persuasive Writing for Media 3 Credits

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

COM 131 Fundamentals of Video Production 3 Credits

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

COM 201 Communication Theory 3 Credits

Explores selected theories, models, and research methods in human communication, the dynamics of the communication process in various settings, and the role of communication in human interaction.

COM 204 Advanced Speech Communication 3 Credits

Provides students with the opportunity to further their study and practice of various types of speech communication. Moving beyond an introductory perspective, this course focuses on the development of critical, analytical, and pragmatic aspects of speech. The focus is divided between the discussion of theoretical models and a demonstrated competence of that material.

Prerequisite(s): COM 104 or COM 290.

COM 205 Theories of Persuasion 3 Credits

Analyzes the motivations that lead individuals and audiences to beliefs and actions and the techniques of achieving objectives through persuasion. Attention, interest, empathy, ethos, fear, and techniques of speakers, and those who use persuasion professionally are studied.

COM 210 News Reporting and Writing 3 Credits

Develops skills in hard-news reporting. Employs off-campus reporting assignments to refine information-gathering techniques such as interviewing, observation, and use of government documents and other contextual materials. Includes reporting and writing about police news, state and local government, the criminal justice system, science, business, and sports.

Prerequisite(s): COM 102.

COM 211 Copy Editing 3 Credits

Teaches all phases of copy editing for news and public relations: marking of copy, online editing, fact checking, building and shaping news and feature stories, applying mechanical style, building an ear for graceful English, and safeguarding against legal and ethical problems. Provides comprehensive review of grammar, spelling and punctuation, along with intensive practice in writing headlines and captions and editing wire copy.

Prerequisite(s): COM 102.

COM 212 Publication Design 3 Credits

Explains theories, principles, and techniques of print media layout and design. Provides an understanding of the use of type and art as design elements in various publication formats, such as newspapers, newsletters, advertisements and brochures. Directs students to apply these concepts to the creation of published materials using Adobe Creative Suite.

COM 215 Computer Assisted Reporting 3 Credits

Develops advanced reporting techniques for researching and writing in-depth news stories and investigative articles. Uses state-of-the-art computer-assisted reporting methods including finding and mining data bases on the Internet, creating spreadsheets to analyze data, and employing data base manager software to sort and summarize information in government documents and other specialized resources. Focuses on conceptualizing of story ideas, planning major projects, gathering information by means of data bases, participant-observation, interviews, and analysis of public documents. Emphasizes organizing large quantities of material and presenting it in a meaningful context, including with information graphics.

Prerequisite(s): COM 102 or permission of instructor.

COM 220 Voice and Articulation 3 Credits

Increases the student's knowledge of the vocal elements of oral communication and improves use of voice and articulation. Introduces anatomy and physiology for enhanced vocal production. Analyzes volume, rate, pitch, quality, phrasing, stress, and inflection. Presents the International Phonetic Alphabet as a means of developing correct articulation and pronunciation. Uses classroom exercises and tape recording for feedback and learning.

COM 230 Radio & TV Communication 3 Credits

Examines the field of electronic communication and its role in society. Scrutinizes the history, technology, structure, and regulation of broadcasting including issues, trends, and the impact of new communication technologies. Introduces basic principles of effective communication in broadcast writing and producing.

COM 233 Writing for Broadcast 3 Credits

Introduces diverse and highly structured writing styles and formats used in writing for broadcast. With focus on effective and creative writing using broadcast style, students will be exposed to the fundamentals of writing dramatic and non-dramatic material for radio and television including station IDs and liners, public service announcements and commercials, news and public affairs programs, and short dramatic and documentary scripts. Through lectures, case discussions, in-class assignments, and critiques, emphasis will be on the practical application of basic rules and conventions common to broadcast writing from copy preparation to on-air delivery.

COM 234 Audio Production 3 Credits

Provides a laboratory study of audio production techniques, and performance. Introduces the fundamental properties of sound as applied in modern audio production at radio and television stations, sound studios, and production houses. Students conduct lab exercises in editing, mixing, and digital recording using ProTools. Students perform a variety of genres including news, commercials, dramas, and promos.

COM 235 Digital Filmmaking 3 Credits

This course will provide students with an introduction to basic narrative film production including theories, techniques and applications. Students will gain competency in a number of film production areas including: idea generation and scripting, production planning, cinematography, lighting, sound and digital editing. Working as individuals and in groups, students will develop and produce short narrative film projects. Students will continue to develop proficiency and mastery of the use of specialized vocabulary of the film industry as well as the ability to analyze film and its narrative structure. In addition students will break down the "narrative" focusing on genre conventions and subtext. Students will additionally examine the relevance of film to society while developing proficiency and mastery in the study of how to create film projects.

COM 240 Public Relations 3 Credits

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

COM 251 Interpersonal Communication 3 Credits

Focuses on the study of various communication concepts and theories and the development of interpersonal skills and sensitivities. More specifically, students will participate in lectures, exercises, and projects while exploring the role and function of relationships in their professional, social, and personal lives.

COM 252 Intercultural Communication 1.5-3 Credits

Develops intercultural communication competence through an awareness and understanding of diverse cultures and their impact on communication. It will introduce students to those general factors that influence communication with people from diverse cultures both internationally and within the United States, and offer a blend of skill development, communication theory, and hands-on application. Note: This course is crosslisted as GLS 252. Students may not get credit for both COM 252 and GLS 252.

COM 253 Organizational Communication 3 Credits

Focuses on the ongoing communication processes in organizations. This course examines how and why organizations develop policies and procedures that both encourage and yet constrain creativity and autonomy in employees. It also introduces various management skills to balance the dynamic in organizations. Finally, the course introduces students to various communication technologies that enable communication processes in organizations. Students will also have opportunities to participate in creating organizational dynamics through role-playing exercises, case studies, and other kinds of experiential learning.

COM 254 Intro to Health Communication 3 Credits

Health communication has been shown to have a positive impact on a number of facets of the medical visit, including patient outcomes, patient satisfaction, and job performance and satisfaction. This course will provide students with tools to implement health communication practices in a healthcare setting in order to improve these areas. In addition, health communication is particularly useful in cross-cultural situations, both in regard to the patient-provider relationship, when the ethnicities of the two parties may be different, and when cultural beliefs may impact a patient's medical wishes. Part of the tools for implementing health communication into the practice setting includes an understanding of the role that culture can play in healthcare and the development of strategies to provide optimal medical care while also respecting cultural intricacies.

COM 261 Multimedia Prod I-Inter Design 3 Credits

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

COM 262 Graphic Imaging for Multimedia 3 Credits

Teaches students techniques for image development, and image preparation for various multimedia applications. Emphasis is placed on color calibration and palette issues, image manipulation, advanced image selection techniques, transparency and masking, multimedia authoring file formats, and dynamic image design. Students will be expected to participate in critiques of professional designs in order to learn to critically evaluate their work and their fellow students' work.

Prerequisite(s): COM 261 or permission of instructor.

COM 263 History and Principles of Graphic Design 3 Credits

Covers the history and principles of graphic design from analog art through the digital revolution. The elements and principles of design will be used to study stylistic progressions, artistic techniques, design innovations, and mechanical inventions. Material will be presented through a combination of illustrated lectures and discussions.

COM 264 Intro to Media Convergence 3 Credits

Introduces the ways that the merging of media industries and the intersection and integration of various media platforms and technologies impact our lives. While the primary focus will be on digital and mobile technologies and practices, the course will also cover the convergence of digital technologies in a wide range of media areas, including journalism, social media, television and entertainment. The course will offer students broad conceptual frameworks for thinking about how the emergence and evolution of digital as well as mobile communication technologies have changed the communication and journalism industries and how they are reshaping content. In addition, the course is intended to allow students to use different digital communication technologies.

COM 265 3D Graphic Animation 3 Credits

Provides students with an introduction to the basics of 3D graphic animation techniques including modeling, texturing, rendering, visual effects and animation. Through various projects the students will learn: to model characters, sets and props, how to apply textures and color to their models, and how to bring their creations to life using various animation techniques. In addition to the technical aspects of creating successful animation, the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation, dramatization and narrative.

COM 280 Issues in Event Planning 3 Credits

Offers students education in event planning, production, and supervision for varied professional applications. Emphasis will be placed on planning, budgeting, and organizing small and large events for educational, institutional, non-profit, and professional groups. Students will participate in the entire process of event planning, with specific experiences in applying communication theory to actual projects.

Prerequisite(s): COM 240 or MKT 200.

COM 290 Professional/Strategic Speech 3 Credits

Provides students with practical information necessary for effective communication in various business and professional settings. Covers communication processes, principles, and models in the modern organization. Class assignments are given with emphasis on developing a knowledge and practical understanding of informative, persuasive, and impromptu presentations. Limited to students enrolled in the College of Business Administration.

COM 291 Documentary Film and Video 3 Credits

Surveys the history of documentary film, including reportorial, exploratory, persuasive, symphonic, compilational, reflexive, and fictional traditions through screenings, lectures, and readings. Provides practice in film criticism. Explores philosophical questions about the relationship between non-fiction films and videos and the reality they purport to record. Analyzes ethical problems of filmmaking.

COM 301 Communication Law 3 Credits

Critically examines the legal limits and privileges affecting freedom of expression, especially in publishing, advertising, film, telecasting, and cyberspace. Places particular emphasis on the historical and philosophical foundations of the freedoms and limitations of communication in the United States.

COM 302 Communication Ethics 3 Credits

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

COM 312 Spe Topics in Jour Writing 3 Credits

Provides students with the opportunity to explore specialized topics in journalistic reporting and writing. Each course will focus on a specific area in the broad field of journalism. Examples include business reporting, health reporting, and sports reporting.

Prerequisite(s): COM 102 or COM 107.

COM 316 Feature Writing 3 Credits

Focuses on problems and requirements of newspaper, magazine, public relations, and free-lance nonfiction writing. Students write features designed for acceptance in print, broadcast and digital media and learn marketing techniques.

Prerequisite(s): COM 102 or COM 107, English writing concentration, or permission of instructor.

COM 318 Gender and Communication 3 Credits

Focuses on interactive relationships between gender and communication in contemporary American society. It connects theory and research with practice to explore multiple ways communication in families, schools, media, and society in general creates and perpetuates gender roles. It is designed to heighten students' awareness of how we enact socially created gender differences in public and private settings and how this affects success, satisfaction, and self-esteem. Note: This course is crosslisted as GND 318. Students may not get credit for both COM 318 and GND 318.

COM 322 Argumentation and Debate 3 Credits

Investigates the theory and practice of speech communication that seeks to persuade by inferential argumentation. Concentrates on theories, practices, and research in argumentation and debate, blended with speaking experience in analyzing and advocating controversial topics.

Prerequisite(s): COM 104 or COM 290.

COM 323 Oral Interpretation of Lit 3 Credits

Provides an orientation to the field of oral performance. Students select literary texts, adapt the material to the audience and prepare it for presentation. Emphasizes the development of voice, articulation, and kinesic behavior. Presentations to the class are critiqued.

Prerequisite(s): COM 104 or COM 290 or permission of instructor.

COM 328 Sitcoms and American Culture 3 Credits

Provides an overview to the unique and highly structured form of the American television situation comedy. The primary focus will be on history and development with in-depth study of situation comedy themes, characters, and settings. Through lectures, case discussions, in-class assignments, and class projects, students will examine the social and cultural meanings and implications of this incredibly popular and durable genre of programming.

COM 330 Documenting Cultures Thru Travel 3 Credits

Offers students, through travel and study, a unique opportunity to gain firsthand experience of a foreign culture and to learn how to record and document their experiences using multiple media, including print, audio, video, photography and/or the Web. While traveling, students will be required to attend lecture/discussion sessions, site tours, and other planned activities. This experience will be preceded and/or followed by additional academic work to be conducted on campus. Study topics may include aspects of the historical, social, economic, political and aesthetic cultural components appropriate to the location(s) to be visited. The travel component of the course will be scheduled to avoid conflict with normal semester offerings. No foreign language skills are required.

COM 331 Television Production 3 Credits

Explores the technological capabilities and limitations of the television medium in team productions using a range of styles and formats. Students learn principles of studio production, electronic field production, and electronic news gathering. Exercises include use of computer graphics, audio production, and non-linear video editing. Stresses electronic communication skills and aesthetic values in a professional production setting.

Prerequisite(s): COM 230.

COM 333 Broadcast Programming 3 Credits

Analyzes the theory, practice, structure, and function of broadcast programming. Examines the structure of the industry as it relates to entertainment, information, and the audience. Studies program categories, formats, genres, trends, consistency, accountability, and ratings as well as cable, satellites, and home video. Critical standards are developed by introducing humanistic and scientific modes of program analysis.

Prerequisite(s): COM 230.

COM 335 Television Field Production 3 Credits

Provides an in-depth study of advanced techniques in Field Production for television. Individual and group field production assignments will involve planning and executing single camera production in a non-studio setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit documentaries.

Prerequisite(s): COM 331.

COM 337 Music Productn for Mass Media 3 Credits

Offers students education in audio production techniques for music and other advanced audio material. Building on theory and practice introduced in the prerequisite, the class will instruct students in the theory behind acoustics and electronics as well as the digital tools and media. Those theoretical studies will be put to practice through exercises in recording music, making selections from music libraries, multi-track recording, arranging, editing, mixing and mastering. Students will begin to develop both an engineer's attention to audio detail and a musician's sense of artistry. Putting these skills to use, the students will produce complete musical works of varying musical styles, working both individually and in teams.

Prerequisite(s): COM 234.

COM 338 Writing for Broadcast II 3 Credits

Building on COM 233 Writing for Broadcast, this course provides a hands-on approach to more sophisticated reporting and interviewing techniques and writing formats used in long-form radio and television programs. This course will expose students to the following broadcast script writing areas: features, documentaries and reality programs. It will also cover writing for interview/talk show programs, music, comedy and variety programs. Students will also be exposed to writing for corporate, educational and children's programming. Students will have hands-on experiences writing, producing and editing news pieces and webcasts for student and area media outlets and web sites.

COM 341 Publicity Methods 3 Credits

Applies communication theory to writing and editorial processes and production techniques to create public relations materials; includes press releases, industrial publications, social media, trade publications, brochures, newsletters, stockholder reports, and multimedia platforms.

Prerequisite(s): COM 107, COM 240, or permission of instructor.

COM 347 Sports Media Relations 3 Credits

CCritically examines the symbiotic relationship between the mass media and professional sports franchises and major college athletic programs. This course deals with the workings and processes behind executing the proper techniques of sports information and media relations, as well as an analysis of the culture of sports in modern society. Students will develop a practical focus on sports information and promotion, including the role of the sports information director and events promoter, with emphasis on advanced concepts of public relations, publicity and marketing.

Prerequisite(s): COM 240 or permission of instructor.

COM 348 Communication Research Methods 3 Credits

Introduces students to the research methods used to study communication problems and processes. Students will learn how researchers plan and design research studies, explore the methodological considerations of both qualitative and quantitative methods, and have an opportunity to gain hands-on experience in conducting research on communication-related issues.

Prerequisite(s): COM 105.

COM 350 Team & Group Communication 3 Credits

Examines the communication process as it relates to the small group. Theoretical constructs including motivation, group climate, attraction, leadership, decision making, problem solving and roles are analyzed. Utilizes group experience to study and evaluate the dynamics and effectiveness of interpersonal systems.

COM 352 Chinese and American Intercultural Commu 3 Credits

Instructs students about Chinese culture and communication. Culture impacts communication practices and styles in significant and subtle ways. Through readings, lectures, discussions, and first-hand interactions with Chinese international students, the students of this course will gain both conceptual and practical understanding of major communication differences between the two cultures, and become a more skilled intercultural communicator. Note: This course is crosslisted as GLS 352. Students may not get credit for both COM 352 and GLS 352.

COM 353 Nonverbal Communication 3 Credits

Investigates studies in and theories of nonverbal communication. Lectures and experiential activities explore the effect of status, culture, and gender upon kinesics, physical characteristics, proxemics, tactile communication, paralanguages, artifacts, and environmental factors.

Prerequisite(s): COM 104 or COM 290 or permission of instructor.

COM 360 Adv Publicatn Design & Present 3 Credits

Builds on elementary knowledge of graphic design to teach the principles of advanced layout, and computer graphics. Introduces students to industry standard drawing software and builds on their knowledge of layout software gained in the prerequisite course. Provides an understanding of the use of logos, infographics and magazine layout, and of the theoretical bases of color for print production.

Prerequisite(s): COM 212.

COM 361 Photography 3 Credits

Using digital SLR cameras, introduces students to professional methods of shooting varied subjects while applying a range of compositions and styles. Using Photoshop, students edit images for publication in print and on the Internet. Hands-on coursework is grounded in theory, history, aesthetics, and ethics. Some cameras are available for loan from the University.

Prerequisite(s): permission of instructor.

COM 363 Converging Digital Media 3 Credits

Examines the digital technologies that make up the new world of digital convergence. The course will examine the effects of digital media convergence on social life, ethics, industry, and local and global communities through a variety of theories and paradigms. This course will also help students develop necessary digital media production skills and use them critically to solve media development problems.

COM 364 Multimedia Production II - Web Design 3 Credits

Equips students with the theories and practical techniques required to produce effective digital text, graphics, and animations for the Web. Discusses theories behind the use of these media in terms of effective communication and interaction. Introduces students to different computer platforms and requirements for cross-platform media.

Prerequisite(s): COM 261 or permission of instructor.

COM 365 Graphic Animation 3 Credits

Offers students education in graphic animation theories, animation development techniques, and animation preparation for various multimedia applications. Emphasis is placed on the design principles in animated communication and animation techniques. The course covers the integration of static images in animation, graphic animation techniques, animation compression, animation rendering, input/output file formats, and animation delivery. The primary software for this course is Adobe Photoshop and Macmedia Flash. Students will be expected to participate in critiques of professional animation designs in order to learn to evaluate critically their own work and their fellow students' work.

Prerequisite(s): COM 262 or permission of instructor.

COM 366 Project Management in Graphic Design 3 Credits

Explores the creative process of graphic design while developing an understanding of the methods employed in problem solving in the industry standard design software packages. Students learn how to create a hierarchy of information through the ordering of elements into a comprehensive visual unity. They consider the relationship between content and page size, proportion, grid and margins. Students learn about typography as a design element and how it works with other visual elements in design. In order to develop an understanding of the project-planning process for either printer or Web projects, students will develop and present a series of projects that will build on one another to develop their "visual voice." Students will be evaluated on their ability to apply course material to the projects to create professional-quality work; their ability to apply exchange ideas and accept and apply constructive criticism; and on their participation in class discussions, critiques and presentations.

Prerequisite(s): COM 262, COM 360.

COM 367 3D Graphic Animation II 3 Credits

Continue to learn the techniques of 3D computer animation including modeling, texturing, rendering, visual effects and animation. In addition to the technical aspects of creating successful 3D animation the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation.

Prerequisite(s): COM 265.

COM 380 Television Production Practicum 3 Credits

Provides a workshop dedicated to the planning and creation of professional caliber television content for the campus television network and beyond. This course will provide an opportunity for students to develop writing, graphic, audio, video design and production skills in an experiential setting. Students will create materials to be used by the Rider University Network and for broadcast, cable and Internet distribution. Students can be involved in any and all phases of creating content from project conception through implementation. Students will gain valuable experience with, a greater appreciation for, and increased competency in creating professional media content. This class will also prepare students to more effectively function in the communication industry as an effective member of a professional production team. Since topics will vary by semester and instructor, this course may be repeated once.

Prerequisite(s): permission of instructor.

COM 390 Communication and Society 3 Credits

Examines in a topical manner the influence of communication upon significant issues and movements affecting people and society. Investigates interpersonal and mass media factors as they relate to a major issue such as changing sex roles, radicalism, racism, evangelism, election campaigns, and technology. May be taken more than once with different emphasis.

COM 391 Communication Criticism 3 Credits

Investigates and analyzes various methods of communication criticism and their applications to the understanding and evaluation of public and media discourses. Introduces theories and perspectives to assist in the analysis of those discourses. Methods include Aristotelean, Burkean, and ideological criticism.

COM 392 Media History: Personalities and Trend 3 Credits

Presents in a topical manner the history of the media from various perspectives, seeking to place the material into a meaningful economic, cultural, political, and/or social context. Different issues and related individuals are examined, such as the golden age of radio, motion picture economics, and media empire builders, with a view toward understanding their significant impact on the development and functioning of the media today. This course may be taken more than once with a different emphasis.

COM 393 International Communication 3 Credits

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is crosslisted as GLS 393. Students may not get credit for both COM 393 and GLS 393.

COM 399 The Co-Operative Experience 3-12 Credits

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. Prerequisite(s): junior standing and 2.75 GPA at the time of registration; Pass/fail.

Corequisite(s): IND 398 The Co-operative Experience Seminar, IND 398 and (dept) 399 combined cannot exceed 15 credits.

COM 400 Senior Seminar Communication 3 Credits

Provides students with the opportunity to explore critical issues in communication and journalism in a dynamic and engaging context. Students conceptualize problems, develop hypotheses, review literature, design appropriate techniques of inquiry, conduct their research, and present their findings orally to the seminar and in writing to the instructor. Senior journalism and communication majors only.

COM 415 In-Depth Reporting 3 Credits

Utilizes advanced tools and techniques of contemporary in-depth reporting for print and multimedia. Covering multifaceted stories, students will learn how to do balanced multi-sourced field reporting and writing using primary and secondary sources including human sources, electronic documents and databases, both online and offline. Emphasis will be placed on writing stories that answer not only who, what, when and where questions but also the why, the how and the "so what?" questions. Students will also be exposed to some of the best investigative work of journalists past and present as models for analysis and discussion.

Prerequisite(s): COM 210.

COM 431 Adv TV Research & Production 3 Credits

Explores the theoretical and practical application of aesthetic technique in modern television/video production situations. While the prerequisite courses emphasized competency in equipment operations and basic production skills, this course moves to a higher platform by emphasizing concepts of production and how to apply them for effective communication. Thus this course places emphasis on advanced techniques: design and aesthetics as applied to enhance the overall video presentation as practiced in both the commercial and organizational communication arenas. In the current state of the art of video production, a mastery of aesthetic skills is necessary for the effective expression of ideas in optimal fashion and for a variety of audiences. Students will be exposed to as many techniques as practical through class discussion (including heavy participation by the student), individual and group lab activities and contact when possible with current practitioners and equipment. As most television production is done for a client, that process will form the basis for much of the course discussion and activities including projects.

COM 434 Advanced Radio Production 3 Credits

Provides in-depth study of advanced techniques in audio recording and radio programming and production. Individual and group production of short and long-form radio projects including: promotional spots, features, music programming, and news. Students will be involved in all phases of programming and production for radio including: project conception, development, management, and implementation. Selected student projects will air on the student radio station, 107.7 The Bronc.

Prerequisite(s): COM 234.

COM 435 Advanced Digital Filmmaking 3 Credits

This is an intensive hands-on course in advanced digital filmmaking. Students will gain experience with and proficiencies in a number of filmmaking areas including: creativity, production planning, aesthetics, scripting, script breakdown, camera movement, selecting and directing talent, creating scenes and sequences, visualizing action, establishing mood and conflict, as well as advanced lighting, sound and digital editing techniques. The students' use of high definition digital imaging systems as a medium for narrative cinematography will be developed and refined. In addition, students will explore how filmmaking techniques and technology can impact the visual story telling process. While often working cooperatively in groups, modeling the interdependent structure of film crews today, the creative and leadership role of the director in the contemporary film industry will be emphasized. Throughout the class, there will be an important integration of theory and practice which will enable students to produce meaningful film projects that will not only be technically effective, but strong in content and context as well.

COM 440 Cases & Campaigns in PR 3 Credits

Critically analyzes public relations case problems in industry, labor, education, government, social welfare, and trade associations. Emphasizes problem solving through the use of communication theories, public relations techniques, creative thinking, and the development of professional goals and standards. Employs realistic simulation exercises and actual case studies to develop and critique students' ability to demonstrate this knowledge in professional situations.

Prerequisite(s): COM 341 or permission of instructor.

COM 452 Seminar in Communication Studies 3 Credits

Offers an in-depth investigation of relational communication. Students explore the many complexities involved in human interaction and interpersonal dynamics. Social and psychological implications of various communicative relationships ranging from cross-gender communication to dysfunctional family systems to intercultural interactions are included.

Prerequisite(s): COM 348, COM 350, or permission of instructor.

COM 460 Multimed Prod III-Adv Int Des 3 Credits

Builds on previous courses to refine students' understanding of theories and procedures of digital media development. Further develops Web site creation and project management theories. Students develop advanced Web creation techniques, including responsible site production.

Prerequisite(s): COM 364.

COM 462 Advanced Graphic Design and Portfolio 3 Credits

Explores the processes of graphic design by creating independent and creative solutions to a series of design problems. Students expand their proficiency in all aspects of the design process, including creative brainstorming, conceptualizing, critical thinking and presentation. Students take a design project to both print and digital formats using Photoshop, Illustrator, and InDesign. Students develop and present a balanced portfolio as the culmination of their experience in the course.

Prerequisite(s): ART 103, ART 105, COM 262, and COM 360.

COM 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

COM 491 Internship in Communication 1-4 Credits

Places qualified students in a professional area related directly to their communication training. Students may intern in a communication position with a corporation, small business, media outlet, public relations agency, non-profit organization, political party, sports organization, or other similar organizations. A minimum of 50 hours of internship per credit is required. Written reports, a final project, and supervisor evaluations are used to analyze and evaluate the experience. For students majoring in the Department of Communication and Journalism only, primarily juniors and seniors. No more than two internships are permitted for each student; exceptions may be made. The deadline for registration is the first Friday of the semester.

Prerequisite(s): 3.2 GPA and permission of instructor.

Event Planning and Production

Program Overview

Event planning and production is an interdisciplinary minor that combines the study of communication, marketing and management. With the rapid growth of non-profit, educational, corporate, recreational, and entertainment events, this minor provides both theoretical and practical training in event planning and management.

The curriculum emphasizes public relations and effective writing, various strategic approaches to business management, and the corporation-consumer relationship. The minor has a strong applied component and approved internship experiences are recommended for all students.

Courses and Descriptions

COM 107 Persuasive Writing for Media 3 Credits

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

COM 240 Public Relations 3 Credits

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

COM 261 Multimedia Prod I-Inter Design 3 Credits

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

MGT 310 Intro to Human Resource Mgmt 3 Credits

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

Prerequisite(s): MGT 201 or permission of instructor.

COM 280 Issues in Event Planning 3 Credits

Offers students education in event planning, production, and supervision for varied professional applications. Emphasis will be placed on planning, budgeting, and organizing small and large events for educational, institutional, non-profit, and professional groups. Students will participate in the entire process of event planning, with specific experiences in applying communication theory to actual projects.

Prerequisite(s): COM 240 or MKT 200.

COM 341 Publicity Methods 3 Credits

Applies communication theory to writing and editorial processes and production techniques to create public relations materials; includes press releases, industrial publications, social media, trade publications, brochures, newsletters, stockholder reports, and multimedia platforms.

Prerequisite(s): COM 107, COM 240, or permission of instructor.

MGT 201 Fund Management & Org Behavior 3 Credits

This course deals with the fundamentals of organizational behavior as they relate to management such as motivation, communications, and leadership. Behavior is examined at the individual, group, and organizational level. The management functions of planning, organizing, leading and controlling are addressed. The effects of global operations and the requirements of ethical behavior on managers are also explored.

Prerequisite(s): minimum 30 credits completed.

MKT 200 Marketing Principles 3 Credits

This course examines market characteristics, consumer buying habits and motives, and functions of marketing within the framework of the strategic marketing planning process. Concepts and current practices in product development, pricing, promotion, distribution, and international marketing are studied.

MKT 320 Consumer Behavior 3 Credits

The nature and determinants of consumer behavior are studied, with attention given to the influence of socio-psychological factors such as personality, small groups, demographic variables, social class, and culture on the formation of consumer attitudes, consumption patterns, and purchasing behavior.

Prerequisite(s): MKT 200; Required for advertising majors.

MKT 260 Service Marketing 3 Credits

Focuses on the unique challenges of managing services and delivering quality service to customers. Emphasis is placed on the total organization, and how effective marketing and customer focus must be coordinated across multiple functions. The course is applicable to service organizations and to organizations that depend on service excellence for competitive advantage. Topics include customer-focused management, and customer satisfaction, retention, lifetime value and profitability. Students will learn to map services, understand customer expectations, and develop relationship marketing strategies.

Prerequisite(s): MKT 200.

CBA 110 Introduction to Business 3 Credits

An introductory course emphasizing the global economy and the integration of functional areas of business that link strategy and business success. Critical issues such as ethics and technology will be covered along with an emphasis on leadership and communicative skills. A variety of supplemental teaching tools/approaches including videos, guest speakers, team projects, and The Wall Street Journal will be used throughout the course. Restricted to freshmen.

COM 105 Communication, Culture and Media 3 Credits

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society.

COM 440 Cases & Campaigns in PR 3 Credits

Critically analyzes public relations case problems in industry, labor, education, government, social welfare, and trade associations.

Emphasizes problem solving through the use of communication theories, public relations techniques, creative thinking, and the development of professional goals and standards. Employs realistic simulation exercises and actual case studies to develop and critique students' ability to demonstrate this knowledge in professional situations.

Prerequisite(s): COM 341 or permission of instructor.

ECO 200 Principles of Macroeconomics 3 Credits

A collective view of income receiving and spending sectors of the national economy, including households, businesses, and governments. Issues discussed: What determines the level of output, income, and employment achieved by the economy? What determines the growth of national output and employment? National income accounting, income and employment theory, monetary system, general price level, business cycle, government policies designed to provide for full employment, price stability, and economic growth are also covered.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

PSY 100 Intro To Psychology 3 Credits

An orientation to psychology, covering major facts, principles and concepts about human and animal behavior and experience, re-search findings, major problems, basic vocabulary, methodologies, and contributions in the field. Topics include psychology as a science; human development; individual differences; intelligence and its measurement; special aptitudes and interests; personality and social behavior; motivation and emotion; frustration and personality deviations; and learning, thinking, remembering and forgetting.

Health Communication

Program Overview

There is an increasing need for greater awareness and knowledge of health communication. Healthcare reform, end-of-life care, and pharmaceutical marketing are just a few of the issues facing the nation that are dependent upon the ability to engage in productive, meaningful health communication. Effective health communication can directly impact local communities and personal lives. The individuals who participate in healthcare delivery, such as nurses, patient advocates, family members, health administrators, and physicians, are increasingly being asked to communicate and collaborate more efficiently with colleagues, exchange information with patients, and address multiple audiences about healthcare.

A **minor in health communication** allows students to analyze different health contexts and accommodate increasingly diverse populations. Students can also learn about a symbiotic patient-provider relationship and the impact of technology in healthcare.

The health communication minor includes a curriculum of theory, research and application, focusing on health issues in the interpersonal, organizational, public, and mass-mediated contexts. The study of health communication can contribute to health promotion in areas such as

patient-family communication, public health messages and campaigns, health in mass media, public health, and technology and health. This minor is designed to be a program for students from a wide variety of majors who may seek careers within health fields.

Exception: If a student elects either the Advertising or Event Planning and Production minor, then three courses may be used to meet the requirements for both the major and that minor in the department.

Coures and Descriptions

BIO 206 The Pharmaceutical Industry 3 Credits

An introduction to drug discovery and development. Topics include how drugs are used to diagnose, cure, treat, and prevent disease and how drugs affect body function. The origins of diseases and the early attempts at treatment are also covered. Designed for business majors; does not satisfy requirements for the biology major.

Prerequisite(s): BIO 100 or BIO 101 or BIO 106 or BIO 108 or BNS 107 or CHE 115.

BIO 490 Independent Research and Study 1-4 Credits

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

BIO 491 Internship in Biology 1-4 Credits

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations. These can include educational or research institutions. The method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and should include keeping a journal of activities, a term paper or project report and a poster presentation. 2.5 GPA required.

Prerequisite(s): Permission of the instructor.

COM 251 Interpersonal Communication 3 Credits

Focuses on the study of various communication concepts and theories and the development of interpersonal skills and sensitivities. More specifically, students will participate in lectures, exercises, and projects while exploring the role and function of relationships in their professional, social, and personal lives.

COM 254 Intro to Health Communication 3 Credits

Health communication has been shown to have a positive impact on a number of facets of the medical visit, including patient outcomes, patient satisfaction, and job performance and satisfaction. This course will provide students with tools to implement health communication practices in a healthcare setting in order to improve these areas. In addition, health communication is particularly useful in cross-cultural situations, both in regard to the patient-provider relationship, when the ethnicities of the two parties may be different, and when cultural beliefs may impact a patient's medical wishes. Part of the tools for implementing health communication into the practice setting includes an understanding of the role that culture can play in healthcare and the development of strategies to provide optimal medical care while also respecting cultural intricacies.

COM 312 Spe Topics in Jour Writing 3 Credits

Provides students with the opportunity to explore specialized topics in journalistic reporting and writing. Each course will focus on a specific area in the broad field of journalism. Examples include business reporting, health reporting, and sports reporting.

Prerequisite(s): COM 102 or COM 107.

COM 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

COM 491 Internship in Communication 1-4 Credits

Places qualified students in a professional area related directly to their communication training. Students may intern in a communication position with a corporation, small business, media outlet, public relations agency, non-profit organization, political party, sports organization, or other similar organizations. A minimum of 50 hours of internship per credit is required. Written reports, a final project, and supervisor evaluations are used to analyze and evaluate the experience. For students majoring in the Department of Communication and Journalism only, primarily juniors and seniors. No more than two internships are permitted for each student; exceptions may be made. The deadline for registration is the first Friday of the semester.

Prerequisite(s): 3.2 GPA and permission of instructor.

GLS 325 Global Persptvs Hlth & Illness 3 Credits

Explores the different international perspectives on health and illness. Themes include how men, women, and children in respective civilizations are treated and viewed within their communities or nations, as they become ill. Particular attention is given to the contrast between various types of traditional healing and Western medical practices, and their interactions. Discussions will also compare the usefulness of national versus international health agencies in dealing with global health problems.

HTH 205 Introduction to Health Care 3 Credits

This course is an introduction to the components of the health care industry in the United States and to the interactions of these components in producing and supplying health care. We examine the nature of health, and the various institutions and personnel which seek to provide health services; we explore the means by which we pay for these services; we assess the relationship of technology to provision of health care services; we study the various ways that our government interacts with the providers of health care services; we investigate the ethical implications of issues in health care; and we explore health care sectors from an international perspective.

HTH 215 Population Healthcare Management 3 Credits

In this course, we study how disease is distributed in populations and of the factors that influence or determine this distribution. This course introduces the basic methods and tools epidemiologists use to study the origin and control of non-communicable and communicable diseases so that policies and mechanisms to enhance the health of populations can be developed.

Prerequisite(s): MSD 201 or MTH 120 or ENV 200 or PSY 201.

HTH 315 Healthcare Law,ethics & Policy 3 Credits

This course analyzes the role of the law in promoting the quality of health care, organizing the delivery of health care, assuring adequate access to health care, and protecting the rights of those who are provided care within the health care system. It will also examine the public policy, economic, and ethical issues raised by the health care system. This course is cross-listed as BUS 315. Students may not get credit for both BUS 315 and HTH 315.

HTH 336 Economics of Health Care Sys 3 Credits

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomics tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes. Note: This course is cross-listed as ECO 336. Students may not get credit for both ECO 336 and HTH 336.

MKT 380 Healthcare Marketing 3 Credits

The purpose of this course is to introduce students to the role, functions and tasks of healthcare marketing. Attention is devoted to applying basic marketing principles to the healthcare sector. Marketing decision making and analysis will be emphasized through the use of cases and current readings that focus on a variety of healthcare organizations, including hospitals, assisted living facilities, MCOs, and pharmaceutical companies.

Prerequisite(s): MKT 200 or permission of instructor.

Core Requirements

The core curriculum for School of Liberal Arts and Sciences students provides the opportunity for a broad and rich exploration of our disciplinary offerings. Balancing structure with choice, students will examine the complex worlds in which they live from a variety of perspectives. Courses may be taken to satisfy both core requirements and major or minor requirements when expressly permitted by a department/program.

Core Curriculum Requirements

(42–43 credits)

English writing¹

CMP 115	Intro to Expository Writing	3
CMP 120	Expository Writing	3
or BHP 100	Honors Seminar: Great Ideas I	
Select one of the following:		3
CMP 125	Research Writing	
CMP 203	Literature and Composition	
BHP 150	Honors Seminar: Great Ideas II	

Reading (3 Supplemental Education Units)²

CRC 100	College Reading	3
---------	-----------------	---

Foreign language³

100, 101 Chinese, French, German, Italian, Russian, or Spanish I, II	6
--	---

Mathematics⁴

Select one of the following:		3-4
MTH 102	Finite Mathematics	
MTH 105	Algebra and Trigonometry	
MTH 210	Calculus I	

Science⁴

Select two of the following:	6
BIO 100 Life Science:Human Emphasis	
BIO 101 Life Science:Genetics Emphasis	
BIO 103 Life Sci:Ecobotanical Emphasis	
BIO 106 Life Science:Human Disease	
BIO 108 Life Sci: Biol of Human Aging	
BIO 109 From the Big Bang to Origins of Life	
BNS 107 Life Science: Behavioral Neuroscience Emphasis	
CHE 100 Intro to College Chemistry	
CHE 115 Chem and Contemporary Society	
GEO 100 Earth Systems Science	
GEO 113 Environmental Geology (also cross listed as GLS-113)	
GEO 168 Mesozoic Ruling Reptiles	
MAR 120 Oceanography	
MAR 2xx Introduction to Field Marine Science	
PHY 103 Science of Light and Color	
PHY 104 Energy, the Environment & Man	
PHY 180 Astronomy	
PSY 100 Intro To Psychology	

Social Sciences and Communication

Select two of the following:	6
POL 100 Intro to American Politics	
or POL 102 Understanding Politics	
SOC 101 Sociological Imagination	
SOC 110 Cultural Anthropology	
COM 105 Communication, Culture and Media	
ECO 200 Principles of Macroeconomics	
or ECO 201 Principles of Microeconomics	

History

HIS 150 World History to 1500	3
HIS 151 World History Since 1500	3

Humanities

Select one course in fine arts, one course in literature, and one course in philosophy from the following: 9

Fine Arts

ART 104 Survey of Art History I	
ART 106 Survey of Art History II	
ART 120 Art and Society	
MUS 105 Survey of Music History I	
MUS 106 Survey of Music History II	
MUS 120 Music and Society	
THE 105 Theatre History to 1700	
THE 106 Theater History Since 1700	
THE 120 Theater Appreciation	
ART 199/MUS 199/ THE 199 Arts in Contemporary Civilization	

Literature

ENG 205 Understanding Literature	
ENG 208 Arthurian Legends in Literature	
ENG 210 Major American Authors	
ENG 211 Major British Authors	

ENG 213 Literature and Mythology	
ENG 214 Monsters in Literature	
ENG 215 Satire and Comedy	
ENG 217 Intro To Shakespeare	
ENG 219 Literature and Violence	
ENG 220 Literature & Society	
ENG 221 Literature and Psychology	
ENG 224 Science Fiction	
ENG 228 Black American Lit	
ENG 229 Multi-Ethnic Lit in America	
ENG 230 Women In Literature	
ENG 270 Major Poets	
ENG 275 Posthumanism: Bodies and Technology in Literature	
ENG 290 The Short Story	
ENG 295 Human Relationships in Lit (honors)	
LAW 204 Law, Literature, and Film in America	
LIT 250 Masterworks of Western Lit I	
LIT 251 Masterworks of Western Lit II	
LIT 310 Russian Literature 988-1850	
LIT 311 Russian Literature 1850-1917	
LIT 312 20th Century Russian Lit	
LIT 315 Tolstoy	
LIT 317 Dostoevsky	
LIT 322 German Lit & Film in Eng Trans	
LIT 325 The Folk Tale	
LIT 340 Hispanic Lit & Film Eng Trans	
LIT 370 European Short Novel	
LIT 390 The Bible As Literature	

Any foreign language course.

Philosophy

Select one of the following:	
Any course in the Philosophy (PHL) department	
AMS 227 Philosophy of Martin Luther King Jr.	

Total Credits

42-43

- ¹ CMP 115 will be waived for students who attain a 530 or above on the writing section and 500 or above on the critical reading section of the SAT or a score of 4 or above on the English Department placement test.
- ² Required only of those students scoring 470 or lower on the reading comprehension portion of the SAT.
- ³ Students who place at the 200-level or above are still required to take a minimum of 3 credits at the level of placement. Students who are native speakers of other languages may have their requirement waived upon documentation of proficiency. To initiate a request for a waiver, students should see the chairperson of the Department of Languages, Literatures and Cultures.
- ⁴ Appropriate mathematics and science courses may be substituted if required by the major.

Faculty

John A. Adamovics

Priority Adjunct Associate Professor, Department of Chemistry, Biochemistry and Physics
B.A. Portland State University; Ph.D. Colorado State University

Wendy Adlai-Gail

Priority Adjunct Assistant Professor, Department of Psychology
B.A. Brown University; M.A. University of Chicago; Ph.D. University of Chicago

Nadia S. Ansary

Associate Professor, Department of Psychology
B.A. Rutgers, The State University of New Jersey; M.A. Teachers College, Columbia University; M.Phil. Teachers College, Columbia University; Ph.D. Teachers College, Columbia University

Anthony Bahri

Professor, Department of Mathematics

B.Sc. The University of Sydney; M.Sc. University of Oxford; D.Phil. University of Oxford

Ava Baron

Professor, Department of Sociology
B.A. Brooklyn College; M.A. New York University; Ph.D. New York University

Brian Benoff

Assistant Professor, Department of Chemistry, Biochemistry and Physics
B.S. Ramapo College of New Jersey; Ph.D. Rutgers, The State University of New Jersey

Kelly A. Bidle

Professor, Department of Biology
B.S. Rutgers, The State University of New Jersey; Ph.D. University of Maryland

John J. Bochanski

Assistant Professor, Department of Chemistry, Biochemistry and Physics
B.S. Villanova University; M.S. University of Washington; Ph.D. University of Washington

Ciprian S. Borcea

Professor, Department of Mathematics
B.S. University of Bucharest, Romania; Diploma in Mathematics University of Bucharest, Romania; Ph.D. University of Bucharest, Romania

Michael J. Brogan

Associate Professor, Department of Political Science
B.A. University of Delaware; M.P.A. Rutgers, The State University of New Jersey - Camden; M.Phil. The Graduate Center, City University of New York; Ph.D. The Graduate Center, City University of New York

Gary M. Brosvic

Professor, Department of Psychology
B.S. John Carroll University; M.A. The American University; Ph.D. The American University

Pamela A. Brown

Professor, Department of Communication and Journalism
B.A. Rider University; M.A. The Ohio State University; Ph.D. The University of Iowa

Kathleen M. Browne

Associate Professor, Department of Geological, Environmental, and Marine Sciences
B.A. Colgate University; M.A. Binghamton University, State University of New York; Ph.D. Rosenstiel School of Marine and Atmospheric Science, University of Miami

Robert Burger

Priority Adjunct Assistant Professor, Department of Communication and Journalism
B.F.A. Pratt Institute; M.F.A. Miami International University of Art & Design

Richard W. Burgh

Professor, Department of Philosophy
B.A. Rider University; M.A. University of Wisconsin; Ph.D. University of Wisconsin

Thomas Callahan, Jr.

Professor, Department of History

B.A. University at Albany, State University of New York; M.A. University of Connecticut; Ph.D. University of Connecticut

Michael Carlin

Associate Professor, Department of Psychology
B.A. Wheeling Jesuit University; Ph.D. Vanderbilt University

Feng Chen

Associate Professor, Department of Chemistry, Biochemistry and Physics
B.S. Hunan University, P. R. China; Ph.D. Northeastern University

Roberta Clipper

Professor, Department of English
B.A. Indiana University Bloomington; M.A. University of California, Berkeley; Ph.D. University of California, Berkeley

Daria Cohen

Associate Professor, Department of Languages, Literatures and Cultures
B.A. Douglass College, Rutgers, The State University of New Jersey; M.A. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

Deborah Cordonnier

Priority Adjunct Instructor, Department of English
B.S. University of Missouri; M.A. Texas A & M University; M.Div. Princeton Theological Seminary; Th.M. Princeton Theological Seminary

Mack Costello

Assistant Professor, Department of Psychology
B.S. University of Florida; M.A. Western Michigan University

Michele D'Angelo

Priority Adjunct Assistant Professor, Department of English
B.A. The College of New Jersey; MAT The College of New Jersey; Ed.S. Rider University

Melissa M. DeWees

Priority Adjunct Assistant Professor, Department of Psychology
B.A. Towson State University; M.A. Alliant International University; Psy.D. Alliant International University

David R. Dewberry

Associate Professor, Department of Communication and Journalism
B.A. University of Arkansas; M.A. University of Arkansas; Ph.D. University of Denver

Cara J. DiYanni

Associate Professor, Department of Psychology
B.A. Georgetown University; M.A. Boston University; Ph.D. Boston University

James M. Dickinson

Professor, Department of Sociology
B.A. University of Kent, Canterbury, UK; M.A. American University; Ph.D. University of Toronto

Chrystina A. Dolyniuk

Associate Professor, Department of Psychology
B.A. University of California, Los Angeles; M.A. California State University, Northridge; Ph.D. University of Calgary

Julie Drawbridge

Professor, Department of Biology
B.S. The University of Maine; Ph.D. The University of Texas at Austin

Daniel L. Druckenbrod

Associate Professor, Department of Geological, Environmental, and Marine Sciences

B.S. University of Notre Dame; Ph.D. University of Virginia

Bosah L. Ebo

Professor, Department of Communication and Journalism
B.S. University of Wisconsin-Stevens Point; B.S. University of Wisconsin-Stevens Point; M.A. University of Wisconsin-Stevens Point; Ph.D. The University of Iowa

Jeff Edelstein

Priority Adjunct Instructor, Department of Communication and Journalism
B.A. Rider University

Alice Faroh

Priority Adjunct Instructor, Department of Languages, Literatures and Cultures
B.A. Universidad Pedagógica Experimental de Barquisimeto; M.A. Maryville University

Joel Feldman

Associate Professor, Department of Philosophy
B.A. Hampshire College; Ph.D. The University of Texas at Austin

Roberta Fiske-Rusciano

Priority Adjunct Assistant Professor, Department of Political Science
B.A. Simmons College; M.A. University of Chicago; Ph.D. Rutgers, The State University of New Jersey

Rosemary Fliszar

Assistant Professor, Department of Biology
B.S. Cedar Crest College; M.S.N. DeSales University; Ph.D. Duquesne University

William F. Fobare

Priority Adjunct Assistant Professor, Department of Chemistry, Biochemistry and Physics
A.B. Hope College; Ph.D. University of South Carolina

Hernán Fontanet

Professor, Department of Languages, Literatures and Cultures
B.A. The University of Buenos Aires; A.M. Universidad Complutense de Madrid; Ph.D. Universidad Autónoma de Madrid

Barbara Franz

Professor, Department of Political Science
M.A. University of Vienna; M.A. Syracuse University; M.A. Syracuse University; Ph.D. Syracuse University

Lucien J. Frary

Associate Professor, Department of History
B.A. University of St. Thomas; M.A. University of Minnesota, Twin Cities; Ph.D. University of Minnesota, Twin Cities

Daniel C. Garro

Priority Adjunct Instructor, Department of Philosophy
B.A. Washington College; M.A. Texas Tech University

Matthew B. Goldie

Professor, Department of English
B.A. Victoria University; M.F.A. Brooklyn College; Ph.D. The Graduate Center, City University of New York

Selma C. Goldstein

Priority Adjunct Instructor, Department of English
B.S. Cornell University; MBA Fairleigh Dickinson University

Stephanie Golski

Associate Professor, Department of Psychology
B.A. McDaniel College; Ph.D. The Johns Hopkins University

Robert C. Good

Professor, Department of Philosophy
A.B. Princeton University; M.A. University of Wisconsin–Madison; Ph.D. University of Wisconsin–Madison

Alexander Grushow

Professor, Department of Chemistry, Biochemistry and Physics
B.A. Franklin & Marshall College; Ph.D. University of Minnesota

Myra G. Gutin

Professor, Department of Communication and Journalism
B.A. Emerson College; M.A. Emerson College; Ph.D. University of Michigan

Jeffrey Halpern

Associate Professor, Department of Sociology
B.A. The City College of New York; Ph.D. University of Pittsburgh

Laurel Harris

Assistant Professor, Department of English
B.A. Oberlin College; M.A. University of Chicago; Ph.D. The Graduate Center, City University of New York

Catrinel Haught Tromp

Assistant Professor, Department of Psychology
B.A. Queens University of Charlotte; Ph.D. Princeton University

Wendy P. Heath

Professor, Department of Psychology
B.A. Boston University; M.S. The University of Texas at Arlington; Ph.D. The University of Texas at Arlington

Mickey Hess

Professor, Department of English
Ph.D. University of Louisville

Sheena C. Howard

Assistant Professor, Department of Communication and Journalism
B.B.A. Iona College; M.A. New York Institute of Technology; Ph.D. Howard University

Brooke B. Hunter

Associate Professor, Department of History
B.A. University of California, Irvine; M.A. University of Delaware; Ph.D. University of Delaware

Jonathan M. Husch

Professor, Department of Geological, Environmental, and Marine Sciences
B.A. Colgate University; M.A. Princeton University; Ph.D. Princeton University

Shahla Hussain

Assistant Professor, Department of History
B.A. Jamia Millia University; M.A. Jamia Millia University; Ph.D. Tufts University

Laura A. Hyatt

Associate Professor, Department of Biology

A.B. Smith College; Ph.D. University of Pennsylvania

Jacqueline Soteropoulos Incollingo

Assistant Professor, Department of Communication and Journalism
B.A. Connecticut College; M.A. Philip Merrill College of Journalism, University of Maryland; Ph.D. Philip Merrill College of Journalism, University of Maryland

Danielle L. Jacobs

Associate Professor, Department of Chemistry, Biochemistry and Physics
B.S. Haverford College; Ph.D. The University of North Carolina at Chapel Hill

Barry T. Janes

Professor, Department of Communication and Journalism
B.A. Rutgers, The State University of New Jersey; M.A. Rutgers, The State University of New Jersey; Ph.D. New York University

Paul R. Jivoff

Associate Professor, Department of Biology
B.A. Hartwick College; M.S. The Ohio State University; Ph.D. University of Maryland

Howard H. Joffe

Priority Adjunct Associate Professor, Department of Communication and Journalism
B.A. Rutgers, The State University of New Jersey; J.D. Benjamin N. Cardozo School of Law, Yeshiva University

Terra Walston Joseph

Assistant Professor, Department of English
B.A. Indiana University; M.A. University of Illinois; Ph.D. University of Illinois

Jonathan Karp

Professor, Department of Biology
B.A. Colgate University; Ph.D. Vanderbilt University

Shawn P. Kildea

Associate Professor, Department of Communication and Journalism
B.A. Rider University; M.A. Rider University; Ph.D. Rutgers, The State University of New Jersey

Arkady K. Kitover

Priority Adjunct Professor, Department of Mathematics
M.S. Saint Petersburg State University; Ph.D. Saint Petersburg State University

Harvey R. Kornberg

Associate Professor, Department of Political Science
B.B.A. The City College of New York; M.A. Brown University; Ph.D. Brown University

Fred Lasser

Priority Adjunct Assistant Professor, Department of English
B.R.E. Yeshiva University; B.A. Yeshiva University; M.A. The City College of New York; Ph.D. Rutgers, The State University of New Jersey

David A. Laviska

Assistant Professor, Department of Chemistry, Biochemistry and Physics
B.S. Cornell University; M.S. University of Washington; Ph.D. Rutgers, The State University of New Jersey

Anne Law

Professor, Department of Psychology

B.A. University of New Hampshire; M.A. University of New Hampshire;
Ph.D. University of New Hampshire

Maxim J. Losi

Priority Adjunct Assistant Professor, Department of English
A.B. Princeton University; M.A. New York University; Ph.D. New York
University

Phillip L. Lowrey

Associate Professor, Department of Biology
B.S. Vanderbilt University; Ph.D. Northwestern University

Cynthia Lucia

Professor, Department of English
B.S. Indiana University of Pennsylvania; M.A. New York University; M.A.
New York University; Ph.D. New York University

Jamie Ludwig

Assistant Professor, Department of Chemistry, Biochemistry and Physics
B.A. Illinois Wesleyan University; Ph.D. University of Texas

Katherine G. Magrino

Priority Adjunct Instructor, Department of Communication and
Journalism
B.A. The College of New Jersey; M.A. Thomas Edison State College

Andrew Markoe

Professor, Department of Mathematics

Westminster College of the Arts

www.rider.edu/ (<http://www.rider.edu/sfpa>)wca (<http://www.rider.edu/wca>)

Westminster College of the Arts (WCA) offers Rider students the opportunity to study intensively in the arts - whether that plan includes a lifetime career in the arts or personal expression and enrichment found through its exploration. Students can choose from a wide variety of undergraduate and graduate majors including arts administration, dance, fine arts, music education, music theatre, organ performance, piano, music, popular music culture, sacred music, theatre, theory and composition, voice performance and other areas of concentration. See the links below for specific information pertaining to each of the schools in WCA.

- Westminster Choir College (p. 495)
- School of Fine and Performing Arts (p. 441)

School of Fine and Performing Arts

A division of the Westminster College of the Arts, the School of Fine and Performing Arts is located on the Lawrenceville campus. The school offers Bachelor of Arts, Bachelor of Fine Arts and Bachelor of Music degrees, as well as widespread opportunities for students – regardless of major – to participate in the arts. Exhibitions, plays, concerts, and productions are presented in the 442-seat Yvonne Theater, the 90-seat Spitz Studio Theater, and the recently-expanded 374-seat Bart Luedke Theater.

Several experiences, including Rider Band, Rider Choir, and many classes, are open to all university students. Dramatic plays and musical theatre productions are open to all students by audition. The Rider University Art Gallery showcases leading regional and national artists, as well as selected student work. Artist lectures and gallery performances bring additional opportunities for artistic enrichment. The Arts Administration Center provides a forum for students to work with campus and community organizations on a variety of issues and activities. Rider Dances involves student dancers, choreographers and musicians. Each year, many education majors elect Fine Arts as their second major,

choosing from tracks in Art, Dance Studies, Music Studies or Theatre Studies.

Mission

Westminster College of the Arts

Westminster College of the Arts educates and trains aspiring performers, artists, teachers, and students with artistic interests to pursue professional, scholarly and lifelong personal opportunities in art, dance, music and theatre. The college consists of two schools: Westminster Choir College and The School of Fine and Performing Arts. Through innovative and integrated programs and a commitment to discipline and excellence, the college serves as a cultural force within the University and community.

The School of Fine and Performing Arts

The School of Fine and Performing Arts focuses on art, dance, music, musical theatre, theatre and arts administration. Through programs that provide a historical, aesthetic, practical and professional perspective, students develop the skills to excel in a professional career while growing intellectually from a broadly based liberal arts curriculum. The school fosters meaningful engagement in the arts to students who wish to become professional artists as well as students who view the arts as an integral part of overall intellectual growth. The school nurtures and challenges the artist within all students and prepares them to contribute to an ever-changing global society.

Health and Safety

Westminster Choir College/Westminster College of the Arts of Rider University, as required by the National Association of Schools of Music, is obligated to inform students and faculty of health and safety issues, hazards, and procedures inherent in practice, performance, teaching, and listening both in general and as applicable to their specific specializations. This includes but is not limited to information regarding hearing, vocal and musculoskeletal health, injury prevention, and the use, proper handling, and operation of potentially dangerous materials, equipment, and technology.

It is important to note that health and safety depends largely on personal decisions made by informed individuals. Rider University has health and safety responsibilities, but fulfillment of these responsibilities cannot and will not ensure any individual's health and safety. Too many factors beyond the university's control are involved.

Each individual is personally responsible for avoiding risk and preventing injuries to themselves before, during, and after study or employment at Rider University. The policies, protocols, and operational procedures developed do not alter or cancel any individual's personal responsibility, or in any way shift personal responsibility for the results of any individual's personal decisions or actions in any instance or over time to the University.

All members of the WCA community are encouraged to visit the university web site for a series of recommendations and resources designed to help each individual to become aware of and attend to various issues. The URL for the page is www.rider.edu/wca_healthandsafety (http://www.rider.edu/wca_healthandsafety) www.rider.edu/student-life/health-wellness/student-health-services/health-safety-sfpa-wcc-students (<http://www.rider.edu/student-life/health-wellness/student-health-services/health-safety-sfpa-wcc-students>)

Full-Time Tuition Inclusion

Full-time tuition charges are incurred by students who enroll for credit loads, including credit equivalents for non-credit and audited courses, which fall within the ranges indicated below. Further charges (p. 951) are incurred when full-time students exceed maximum load levels, excluding, for School of Fine and Performing Arts majors, recital credits or participation in auditioned choirs or productions.

Full Undergraduate Tuition Includes

- A minimum of 12 and maximum of 18 credits per semester or the equivalent including non-credit courses.
- Primary applied study to the maximum required credits/semesters. (see below)
- Applied dance study to the maximum required credits/semesters. (see below)
- Once all applied music or dance requirements have been completed, all additional lessons or courses will be billed at the elective rate.
- Music students in double major programs with two different primary instruments will be billed for the second applied lesson at the elective rate.

Applied Music Study

Effective as of the fall 2009 semester for all new or readmitted Rider University students on both campuses: For all students whose major or minor program does not require applied music study, or for those students who have completed applied music requirements, elective fees will apply. All part-time students are charged an applied music fee. Please see below. Registration for applied music study follows this table of suffixes. Students will register for the appropriate course number and suffix, as indicated in the curriculum pages later in this section.

Maximum enrollment under full-time tuition: In B.A.-Popular Music Culture, one half-hour per week of applied music instruction for three semesters; in B.F.A.-Musical Theatre, one hour per week of applied music instruction for six semesters, and one half-hour lesson per week for two semesters; in B.M.-Music Theatre/Piano Track, one hour per week of applied music instruction for eight semesters.

Full-Time Students

Suffix A – One-hour, 2-credit required lesson. Included in tuition – no extra charge. Example: Musical Theatre major in first six semesters.

Suffix B – Half-hour, 1-credit required lesson. Included in tuition – no extra charge. Example: B.F.A/Musical Theatre/Voice majors in semesters 7 and 8.

Suffix C – One-hour, 2-credit elective lesson. Not included in tuition – \$1500 extra per semester. Examples: Student who has completed all required lessons in their major or a student whose major does not require lessons.

Suffix D – Half-hour, 1-credit elective lesson. Not included in tuition – \$740 extra per semester. Examples: Student who has completed all required lessons in their major, or student whose major does not require lessons.

Suffix G – One-hour, 2-credit required/elective lesson. Half-hour is required and is included in tuition. The second half-hour is elective – fee of \$740 per semester. Example: Popular Music Culture majors up to 3 semesters.

Part-Time Students

(all students, both campuses, regardless of major or requirements)

Suffix E – One-hour, 2-credit required or elective lesson – \$2,090 per semester.

Suffix F – Half-hour, 1-credit required or elective lesson – \$1,050 per semester.

Dance Study

Effective as of the fall 2014 semester for all new or readmitted Rider University students on both campuses: For all students whose major or minor program does not require applied dance study under the DAN prefix, or for those students who have completed dance requirements, elective fees will apply. All part-time students are charged a dance fee. Please see below. Registration for applied dance study follows this table of courses. Students will register for the appropriate course number, as indicated in the curriculum pages later in this section.

Maximum enrollment under full-time tuition: In B.A.-Dance/Performance Track, a total of 15 credits of applied dance instruction, including all dance courses taken at Rider University and at Princeton Ballet School (PBS); in B.A.-Dance/Dance Studies Track, a total of 14 credits of applied dance instruction, including all dance courses taken at Rider University and at Princeton Ballet School; in Dance Minor, a total of 8 credits of applied dance instruction, including all dance courses taken at Rider University and at Princeton Ballet School.

Registration for DAN 100 and DAN 300 require a placement completed with dance faculty.

Full-Time Students**DAN 100**

- DAN-100-01 – 1-credit required course taken at PBS. Included in tuition – no extra charge. Example: B.A./Dance majors and minors up to the maximum stated above.
- DAN-100-01F – 1-credit elective course taken at PBS. Not included in tuition – \$740 extra per semester. Examples: Student who has completed all required applied dance study in their major, student who has completed all required applied dance study in their minor, or student whose major or minor does not require lessons.

DAN 151 Pilates and Modern – 1-credit course taken at Lawrenceville campus. Included in tuition – no extra charge. Course counts toward the maximum stated above.

DAN 152 World Dance & Improvisation – 1-credit course taken at Lawrenceville campus. Included in tuition – no extra charge. Course counts toward the maximum stated above.

DAN 300

- DAN-300-01 – 2-credit required course taken at PBS. Included in tuition – no extra charge. Example: B.A./Dance majors and minors up to the maximum stated above.
- DAN-300-01F – 2-credit elective course taken at PBS. Not included in tuition – \$1,500 extra per semester. Examples: Student who has completed all required applied dance study in their major, student who has completed all required applied dance study in their minor, or student whose major or minor does not require lessons.

Note: Students choosing to register for both DAN 100-01F and DAN 300-01F as elective study in the same semester will be charged a total fee of \$2,000.00.

Part-Time Students

(all students, both campuses, regardless of major or requirements)

DAN 100

- DAN-100-01P – 1-credit course taken at PBS. Not included in tuition – \$1,050 extra per semester. For majors and minors, course counts toward the maximum stated above.
- DAN-300-01P – 2-credit course taken at PBS. Not included in tuition – \$2,090 extra per semester. For majors and minors, course counts toward the maximum stated above.

Note: Part-time students choosing to register for both DAN-100-01P and DAN-300-01P in the same semester will be charged a total fee of \$3,050.00.

Admission as a Freshman

Students may apply for admission to undergraduate study for the fall or spring term. Applicants are encouraged to begin the application process late in the junior or early in the senior year of high school. Westminster College of the Arts uses a rolling admissions policy. Completed applications are reviewed on a regular basis and students are notified of decisions. Students initiate the application process by first completing the Rider University application. All items must be in the Admissions Office before a decision can be reached. The following are necessary for admission:

Applications

Students may request application forms by contacting the Admissions Office, or through the Rider University Web site.

Audition/Interview

Certain majors and minors require either an audition or an interview. Please see individual program requirements below. Audition requirements may be found on our Web site.

Credentials

Applicants for admission to the School of Fine and Performing Arts should be graduates or prospective graduates of accredited secondary schools where they have pursued college preparatory courses. Four secondary school credits must be presented in English as well as other credits in disciplines such as natural sciences, history and social studies, mathematics, and foreign languages. It is each student's responsibility to have an official and final high school transcript sent to the Admissions Office in order to document high school diploma conferral. Applicants who hold high school equivalency diplomas and high school graduates who have pursued business courses will be considered. Two letters of recommendation and an essay are required. Transfer applicants must submit both an official high school transcript and an official transcript from any and all colleges or universities attended.

Standardized Test Scores

Students must submit scores from either the Scholastic Aptitude Test (SAT) of the College Board or from the American College Testing Program (ACT). These scores, together with high school transcripts, are used as important indicators of academic success at the college level. Students may inquire about registration procedures for the SAT by contacting the College Entrance Examination Board, Box 592, Princeton, N.J. 08540

(609-921-9000) or for the ACT by contacting the American College Testing Program, P.O. Box 414, Iowa City, IA 52243 (319-337-1270) or simply by seeing their high school guidance counselors.

Placement Testing

All entering freshmen take a series of placement examinations, in accordance with university policies listed elsewhere in this catalog. Students exempted from any graduation requirement as a result of those examinations must replace those credits with free electives, as appropriate, in order to meet the minimum number of credits required for graduation.

Music Theory Placement

All students in the Bachelor of Arts in Music Studies and PMUC or Bachelor of Music in Music Theater-Piano Track degree programs must take the music theory placement examination. Students placed into MUS 109S Basic Music Theory will be graded on a pass ("Y") or fail ("Z") basis. A passing grade must be earned before the student will be permitted to enroll in MUS 110 Music Theory I. MUS 109S does not count toward graduation credits for students in these majors.

All Popular Music Culture majors must take a placement examination in Music Theory. As a result of this examination, students are placed into MUS 109S or MUS 110/MUS 110L. MUS 109S does not count toward graduation credit for Popular Music Culture majors.

Credit-by-Exam

Musical Theatre majors will be required to take exams in music theory, sight singing and piano during their freshmen orientation. Successful completion of the exam will result in credit-by-exam, granting the student credit for the course in lieu of taking the course.

Academic Dismissal/Conditional Academic Standing

In the Westminster College of the Arts, decisions regarding academic conditional standing and dismissal for poor scholarship are the responsibility of the School of Fine and Performing Arts Academic Standing Committee, the Westminster Choir College Academic Standing Committee, and the Westminster Choir College Graduate Committee. These committees review the academic progress of students, and may recommend a letter of concern, placement on Conditional Academic Standing, or dismissal. The following section is reprinted from *The Source*, after which additional college-specific information appears.

Because a 2.0 cumulative average is required for graduation a student is expected to maintain a 2.0 cumulative grade point average while enrolled at Rider. Students who fail to maintain at least a 2.0 cumulative average will be reviewed by an academic standing committee and may be dismissed or placed on conditional standing.

Students who have not done satisfactory work may be dismissed from the University for poor scholarship at the end of any semester, after an appropriate review of their scholastic records by the academic standing committee of their college. An academic standing committee may require any student who does unsatisfactory work to pursue a specific course of study during a particular academic session. There must be substantial evidence of proper motivation and a capacity for doing college level work to warrant maintaining a student in school with a record of continued conditional status.

Any student who fails to pursue a course of study prescribed by an academic standing committee, or who does unsatisfactory work in the

prescribed course of study, may be dismissed without right of further appeal.

Students may also be subject to academic dismissals if their cumulative grade point averages fall below the required minimum for two or more consecutive semesters, or the grade points fall below the required averages established at the freshman, sophomore, junior and senior levels. Academic dismissal at the end of the fall semester is effective prior to the beginning of the spring semester.

The School of Fine and Performing Arts Academic Standing Committee has the sole authority to dismiss students for academic reasons. Students may be placed on conditional academic standing or dismissed from the Westminster College of the Arts upon failure to meet academic standards. In the School of Fine and Performing Arts, the Academic Standing Committee will review the academic record of undergraduate students who fail to maintain a 2.0 cumulative grade point average or a 2.5 cumulative grade point average in courses required for the major.

Students must earn a minimum cumulative grade point average of 2.0 and a minimum of 2.5 in the major. Students dropped from a major because of failure to maintain the minimum grade point average may apply for readmission. Readmission will depend on various criteria, including the GPA, current academic progress, and the student's general standing.

A dismissed student may appeal in writing to the appropriate committee for immediate rescission of a dismissal decision. Evidence should be submitted to suggest that it is in the interests of both the student and the college for the dismissal to be rescinded. However, any student who fails to pursue a course of study prescribed by an academic standing committee, or who does unsatisfactory work in the prescribed course of study, may be dismissed without right of further appeal.

Students dismissed by the university may not enroll for courses nor participate in university-sponsored activities or ensembles at either campus of Rider University for a period of one year following their dismissal. Students dismissed by the School of Fine and Performing Arts but not Rider University may apply for enrollment in other colleges of the university. Students dismissed by the School of Fine and Performing Arts but not Rider University may not enroll in SFPA courses, ensembles, or activities until they have been readmitted to SFPA. Before permission to enroll in the School of Fine and Performing Arts or Rider University, as appropriate, will be granted, students must follow the process for readmission, as described in *The Source*.

Dismissal from a Major

Following notification that their standing in the major is in jeopardy and the passage of a suitable amount of time permitted to address stated issues, typically one semester, academic departments reserve the right to dismiss a student from a major. Such dismissal may be based upon any of the following conditions: failure to maintain a satisfactory or minimum GPA; failure to sustain academic progress in the courses of the major; conduct in violation of the standards of the department or profession; failure to meet conditions or requirements as stated in University catalogs, *The Source*, or the departmental handbook; or the student's general standing at Rider University. Such dismissal will become effective at the end of the semester in which the decision is reached.

Readmission

If more than one year has elapsed since the date of last enrollment, students may be required to reapply and/or re-audition or re-interview

for the program. Students must meet all requirements of the application process in order to be readmitted.

General Requirements

In addition to the information given here and on the following pages, students are referred to individual department handbooks for additional information and requirements.

Students in any School of Fine and Performing Arts degree must earn a minimum of 120 credits.

Arts Administration (B.A.)

Program Overview

Arts administration combines passion for the arts with the business know-how that keeps the arts an active and integral part of communities. A wide variety of opportunities abound for satisfying and rewarding careers in managing the arts, whether in the growing nonprofit sector or in for-profit entertainment, including: entertainment law, venue management, artist management and representation, producing, producing management, stage management, touring management, fundraising, marketing, educational programming, artist research and development, advocacy, policy development, outreach and gallery management.

Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider will follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

Courses and Descriptions**AAD 100 Arts Administration Lab 0 Credits**

Arts Administration majors must meet the weekly attendance and participation requirements for Arts Administration Lab in the freshman fall and three other semesters. Grading is "P" (satisfactory) or "U" (unsatisfactory).

AAD 121 Intro to Arts Administration 3 Credits

A survey course that covers topics relevant to administering the arts, and includes reviewing state and federal legislation to non-profit organizations, non-profit agency structure, long range planning, board development, marketing, fundraising, public relations, advocacy, budget, human resources and ongoing compliance issues. Students will have opportunities to interact with professionals in the field and explore career options.

AAD 202 Commun/Marketing in Arts 3 Credits

Intended for arts or business majors interested in arts management, this course immerses students in the fundamentals of promoting the arts, from grassroots public relations to basic marketing concepts and applications. Students will have opportunities to interact with professionals in the field and explore career options.

Prerequisite(s): AAD 121 and LL 131, or permission of instructor.

AAD 203 Arts Fundraising 3 Credits

Provides students with an understanding of the ethics, strategies and practices of fundraising for non-profit arts agencies. Students gain an understanding of the role of the development office in a non-profit arts agency, prepare for careers in arts management by increasing the skills necessary to function, and learn to plan a multi-faceted fundraising campaign effectively.

Prerequisite(s): CMP 120 or LL 131.

AAD 204 Arts Outreach & Education 3 Credits

This course examines essential educational components of arts institutions, how they evolve and are produced, and will assess the importance of educational programming to arts organizations and the communities they serve.

Prerequisite(s): AAD 121.

AAD 205 Survey of Arts Institutions 2 Credits

A survey of arts institutions of varying size and scope, examined through case analysis to better understand institutional planning, structure and functioning in "real world" application. Offered every other year.

Prerequisite(s): AAD 121.

AAD 225 Arts Practicum I - Patron Service 2 Credits

Under supervision, students complete on-campus service projects, which will be reviewed by the supervisor and client. Assignments based upon the student's level of expertise. Six hours per week required.

Prerequisite(s): AAD 121.

AAD 305 The Business and Art of Music Publishing 3 Credits

Detailed overview of music publishing procedures, including acquisition, market development and administration of copyrighted musical compositions. Copyright registration/renewal, composer contracts, domestic and international licensing, and performance rights.

Prerequisite(s): AAD 121.

AAD 306 Business and Art of Recording 3 Credits

Survey of the recording industry. Responsibilities of the label and producer, copyrights, royalties, residuals, publishing, contracts and artist development, promotion, distribution, product management, domestic and international licensing, and related technology.

Prerequisite(s): AAD 121 and CBA 110 Introduction to Business.

AAD 307 Touring and Production Management 3 Credits

Organizing, marketing and managing tours. Responsibilities of the booking agent, tour manager, and performers. Case studies, relationships, contracts with venues, transportation companies, housing, and unions, budgeting, press kits, and insurance.

Prerequisite(s): AAD 121, CBA 110.

AAD 308 Legal Aspects of the Arts 3 Credits

A survey of legal issues in the arts and entertainment industries, examining the relationship between arts and the law – from cultural property rights to intellectual property, copyright and beyond.

Prerequisite(s): AAD 121.

AAD 309 Arts Events & Festivals Mgt 3 Credits

Students learn to develop, produce, and staff successful arts events while refining planning skills through practice with theoretical and real arts event venues and participating in the production and management of actual events.

Prerequisite(s): AAD 121.

AAD 325 Arts Practicum II - Service/Field 3 Credits

Under supervision, students complete projects for non-profit arts community, to be reviewed by the supervisor and client. Assignments based upon the student's level of expertise. Ten hours per week required.

Prerequisite(s): AAD 225, 2.5 minimum GPA, and junior standing.

AAD 350 Arts Venue and Patron Services Management 3 Credits

Integrating workplace with organizational mission: administration, staff, general public, artists. Internal control, artist/employee contracts, collective bargaining, health and safety issues, facilities operation, inventory, cultivation and maintenance of clientele and audience.

Prerequisite(s): AAD 121.

AAD 351 Crossing Cultural Borders 3 Credits

Course includes two weeks at an international arts organization, meeting and shadowing administrative staff, studying management styles, finance, and operational procedures, and attending all possible events during the visit. Travel fee required. May be repeated.

Prerequisite(s): Junior standing.

AAD 375 Special Topics: Arts Admin 3 Credits

Intensive study or activity in a specific area of Arts Administration. The content will vary with social/cultural events and/or interests and qualifications of the professor. May be repeated for credit. Fee may be required.

Prerequisite(s): AAD 121 or CBA 110 or permission of instructor.

AAD 400 Arts Politics & Policy 3 Credits

An exploration of arts and political policy, funding and advocacy in American through the lens of historical periods which shaped and were shaped by moments and movements in the arts.

Prerequisite(s): AAD 121, AAD 202 and AAD 203.

AAD 401 New York Arts Network 3 Credits

Students learn how arts institutions of varying scope, size and function and how administrators keep them running by spending focused, intensive time with them on their own turf.

Prerequisite(s): AAD 121, AAD 202 and AAD 203.

AAD 490 Independent Research and Study 1-4 Credits

This self-motivated, self-directed course culminates in a complete project. The student and the faculty advisor will mutually develop the scope of each project. It will be designed to demonstrate the student's entrepreneurial skills and provide an opportunity for practical application of the curriculum.

Prerequisite(s): AAD 202, AAD 203, and either AAD 121 or CBA 110.

AAD 491 Arts Management Internship 3-12 Credits

Arts Administration majors are required to spend 13 weeks of on-site participation in a broad range of daily operations at an internship site. In addition, there are group meetings with all students participating in internships and site-analysis assignments given under the direction of Arts and Sciences faculty. Students may enroll for a maximum of 6 credits of internships.

Prerequisite(s): Junior standing.

Dance (B.A.)

Program Overview

Rider University's four-year degree in dance is performance-oriented with courses in dance history, movement theory, choreography and pedagogy. Students have the option of a dance concentration if majoring in elementary education, a B.A. degree that affords another major, or a minor in dance. All students must either audition (BA option) or take a placement class before entering the program.

Degrees Offered

- B.A. in Dance Performance
- B.A. in Dance Studies

Total Credits 32

Notes:

- Studio dance classes are taught at both the Lawrenceville campus of Rider University and the Princeton Ballet School.
- All new dance students must take a placement exam.
- All dance majors and minors must take one semester of Pilates, one semester of World Dance, and either one semester of choreography/improvisation or History of Choreography.
- All majors and minors must have a Dance Screening with a certified Dance Physical Therapist.
- Majors and minors must successfully complete Ballet 301 or equivalent to receive a degree.
- All students enrolled in DAN 210 and performing in Rider Dances are expected to be currently studying dance at PBS or enrolled in a Rider University dance studio course.

Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider will follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

DAN 100 Fundamentals of Dance 1 Credits

Designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for two classes per week at the Princeton Ballet School. One additional hour per week is comprised of video observation, lecture, or readings, and is taught at Rider's Lawrenceville campus. Prerequisite(s): permission of dance advisor; Dance Studio Courses Ballet I.

DAN 100A Ballet I 0 Credits**DAN 100B Ballet II 0 Credits****DAN 100C Ballet III 0 Credits****DAN 100D Ballet IV 0 Credits****DAN 100E Ballet V 0 Credits****DAN 100F Ballet VI 0 Credits****DAN 100G Jazz I 0 Credits****DAN 100H Jazz II 0 Credits****DAN 100I Jazz III 0 Credits****DAN 100J Modern Dance I 0 Credits****DAN 100K Modern Dance II 0 Credits****DAN 100L Modern Dance III 0 Credits****DAN 100M Spanish Dance I 0 Credits****DAN 100N Spanish Dance II 0 Credits****DAN 100O Spanish Dance III 0 Credits****DAN 100P Pilates Mat Class 0 Credits****DAN 100Q Accelerated Adult Ballet I 0 Credits****DAN 100R Accelerated Adult Ballet II 0 Credits****DAN 100S Accelerated Adult Ballet III 0 Credits****DAN 100T Accelerated Adult Ballet IV 0 Credits****DAN 100U World Dance Forms 0 Credits****DAN 100V Yoga 0 Credits****DAN 100W Tap 0 Credits****DAN 100X Ballet VII 0 Credits****DAN 100Y Choreography 0 Credits****DAN 100Z Movement Fundamentals 0 Credits****DAN 105 Survey of Dance History 3 Credits**

An introductory course to familiarize students with the breadth and depth of dance in human society. It will chronologically examine dance through four lenses: Dance and Community, Dance and Religion, Dance and Politics, and Dance as Art. Students will be exposed to various dance forms from around the world with varying purposes, functions, and motivations from the beginning of recorded history to present.

DAN 111 Dance Lab 0 Credits**DAN 151 Pilates and Modern 1 Credits****DAN 152 World Dance & Improvisation 1 Credits****DAN 180 History of Movement Theory 3 Credits**

Investigation of the mind-body connection, somatic experience, body therapies, movement and theories. The essential questions are: How is it that we move with awareness, fluidity, efficiency and precision?

DAN 190 Dalcroze Eurythmics 3 Credits

This movement course familiarizes students with the basic elements of music theory (staff, clefs, time signatures, notations, chords, etc.) and the Dalcrozian principles regarding music, movement and improvisation.

DAN 201 Vaganova I 1 Credits

This studio course focuses on fundamental knowledge about the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique.

DAN 202 Vaganova II 1 Credits

This studio course continues the development of knowledge concerning the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique. Repeatable twice for total of three times taken. May only be repeated if there are open spots after those taking it for the first time have registered.

Prerequisite(s): DAN 201.

DAN 210 Rider Dances: Repertory & Productions 1 Credits

This course provides an in-depth experience with the art of dance production from creation to performance. Students will be chosen to learn and perform repertory; fulfill technical roles such as sound, lighting and costume design; and assume production and managerial responsibilities such as promotion, publicity, front of house management and stage management.

Prerequisite(s): permission of instructor.

DAN 210T Rider Dances Rep&Produc:Tech 1 Credits**DAN 220 History of Choreography 3 Credits**

This course prepares the dance student for the creating of dance through critical analysis, reading, writing and practical assignments. Students will examine creative process as applied to dance artists and various forms of dance.

DAN 300 Lecture & Studio in Dance 2 Credits

Dance 300 series is also designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for four classes per week at the Princeton Ballet School. One additional hour is comprised of video observation, lecture, or readings and is held at Rider's Lawrenceville campus. Prerequisite(s): permission of instructor; Dance Studio Courses Ballet I.

DAN 300A Ballet I 0 Credits**DAN 300B Ballet II 0 Credits****DAN 300C Ballet III 0 Credits****DAN 300D Ballet IV 0 Credits****DAN 300E Ballet V 0 Credits****DAN 300F Ballet VI 0 Credits****DAN 300G Jazz I 0 Credits****DAN 300H Jazz II 0 Credits****DAN 300I Jazz III 0 Credits****DAN 300J Modern Dance I 0 Credits****DAN 300K Modern Dance II 0 Credits****DAN 300L Modern Dance III 0 Credits****DAN 300M Spanish Dance I 0 Credits****DAN 300N Spanish Dance II 0 Credits****DAN 300O Spanish Dance III 0 Credits****DAN 300P Pilates Mat Class 0 Credits****DAN 300Q Accelerated Adult Ballet I 0 Credits****DAN 300R Accelerated Adult Ballet II 0 Credits****DAN 300S Accelerated Adult Ballet III 0 Credits****DAN 300T Accelerated Adult Ballet IV 0 Credits****DAN 300U World Dance Forms 0 Credits****DAN 300V Yoga 0 Credits****DAN 300W Tap 0 Credits****DAN 300X Ballet VII 0 Credits****DAN 300Y Choreography 0 Credits****DAN 300Z Movement Fundamentals 0 Credits****DAN 350 Hist Ballet, Modern & Jazz Dance 3 Credits**

Studies the major periods in the development of Western Theatrical Dance from the Renaissance to the present focusing on ballet, modern, jazz, tap and musical theater dance. The course will examine the ideas and individuals that caused the development of choreographers, producers, designers and productions.

DAN 450 Pedagogy and Methodology in Dance 3 Credits

This course provides the student with first-hand experience inside a classroom setting to broaden the students' understanding of dance techniques, teaching styles and strategies, analysis of skills and critical feedback, class preparation and design, and assessment. Course requirements include off-campus field work.

DAN 490 Independent Research & Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

DAN 491 Internship in Dance 1-4 Credits

Provides junior or senior dance majors with the practical experience of working within an educational or professional dance environment. Students must be sponsored by a dance professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

DAN 493 Special Topics in Dance Studio 1 Credits

This class covers a discrete movement style, technique, or form such as the choreography of Balanchine, the technique of Cecchetti or dance theater fusion.

Prerequisite(s): DAN 100.

DAN 495 Selected Topics in Dance History 3 Credits

Intensive study of a particular topic in dance history or theory. This may include one era, movement or nation's dance history and practice. Students will become deeply involved in an area through research, class discussions and group projects.

DAN 498 Senior Capstone 3 Credits**DAN 499 Seniors Honor Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Fine Arts - Art Track (B.A.)

Program Overview

Students majoring in visual art focus on creating art and pursuing an understanding of the history and theory of art and its importance in society.

Degree Offered

B.A. in Fine Arts

Minor Offered

Minor in Fine Arts - Art Track

Fine Arts - Art Track Major Requirements

Core Curriculum Requirements

(42-43 credits)

All B.A. Fine Arts/Art majors must complete the Core Curriculum Requirements as listed under the School of Liberal Arts and Sciences.

Fine Arts - Art Track Major Requirements

**** Note that ART 120, MUS 120 or THE 120 do not fulfill any requirements of the major. ****

(39 credits)

ART 103	Fundamentals of Drawing	3
ART 104	Survey of Art History I	3
ART 105	Design	3
ART 106	Survey of Art History II	3
ART 204	Fundamentals of Painting	3
ART 304	Drawing II	3
ART 305	Intermediate Painting A-B-C	3
ART 492	Advanced Studio Workshop	3
Two electives in art history or studio art		6
One history course each in dance, music and theatre		9
Total Credits		39

Electives to equal a minimum of 120 credits for graduation.

Art Minor Requirements

(21 credits)

Of the 21 required semester hours, at least nine must be at the 300 or 400 level, and no more than three may be independent study or internship.

Art History

Select two of the following:	6
ART 104	Survey of Art History I
ART 106	Survey of Art History II
ART 201	Art of the Ancient World
ART 207	Medieval and Renaissance Art
ART 209	Art of the Baroque
ART 214	American Art
ART 303	19th Century Art
ART 306	Art of the 20th Century
ART 495	Selected Topics in Art History

Studio Art

Select three of the following:	9
ART 103	Fundamentals of Drawing
ART 105	Design
ART 204	Fundamentals of Painting
ART 230	Three-Dimensional Design

Courses and Descriptions

ART 103 Fundamentals of Drawing 3 Credits

An intensive study of drawing techniques in charcoal, pencil, and pen and ink.

ART 104 Survey of Art History I 3 Credits

The history of Western art, architecture, sculpture, painting from prehistoric times through the Middle Ages, emphasizing the relation between the arts and ideas of each period.

ART 105 Design 3 Credits

Basic concepts of composition, form, texture, value, and color in two-dimensional design are explored.

ART 106 Survey of Art History II 3 Credits

The history of Western art, architecture, sculpture, painting from the Renaissance to the present, emphasizing the relation between the arts and ideas of each period.

ART 120 Art and Society 3 Credits

Masterpieces of architecture, painting, and sculpture are related to their historical periods, providing an appreciation for and understanding of the vital interaction of art and society.

ART 199 Arts in Contemporary Civilization 3 Credits

An integral study of the arts and their place in contemporary American life. Includes attendance at several events in art, music, and drama. Spring.

ART 201 Art of the Ancient World 3 Credits

The arts of ancient man from prehistoric times to the fall of the Roman Empire.

ART 204 Fundamentals of Painting 3 Credits

Introduces students to the materials and techniques of oil or acrylic painting. Emphasis on experimentation and the development of individual expression in a variety of subject matters.

Prerequisite(s): ART 103 or concurrently.

ART 207 Medieval and Renaissance Art 3 Credits

A study of the major monuments of architecture, painting, and sculpture created in Western Europe between 300 and 1600. Particular emphasis on the history of Christian art, from its beginnings in the Roman catacombs, to the great monasteries and cathedrals of the High Middle Ages, to the revival of ancient Roman grandeur and forms in the Renaissance.

ART 209 Art of the Baroque 3 Credits

The art of the 17th century in southern and northern Europe.

ART 214 American Art 3 Credits

The development of the arts from colonial America to World War I. Discusses major economic, social, and political factors that influenced the course of American art history.

ART 227 Gallery Management 3 Credits

Designed to provide students with the experience of working in all aspects of art gallery management. It is intended for students regardless of their major who wish to add the dimension of art to their college experience through direct hands-on curatorship of the Rider Art Gallery.

ART 230 Three-Dimensional Design 3 Credits

Beginning problems in traditional sculptural materials (clay, wood, stone) and design-construction in mixed media.

ART 303 19th Century Art 3 Credits

An in-depth study of the major art movements in 19th-century Europe, from Neoclassicism to Postimpressionism.

ART 304 Drawing II 3 Credits

Studies the art of drawing beyond the introductory level with an emphasis on greater self-expression, advanced technical skills, and a variety of drawing media.

Prerequisite(s): ART 103.

ART 305 Intermediate Painting A-B-C 3 Credits

Studio courses designed to expand the student's creative experience in painting with emphasis of greater self-expression. Students will be presented with specific painting projects that originate from conceptual or perceptual responses to reality (still life, landscape, figure) and to imagination (dreams, fantasy, invention). Class trips to galleries and museums are included. May be taken three times.

Prerequisite(s): ART 204.

ART 306 Art of the 20th Century 3 Credits

The major artists and movements in the history of 20th-century painting and sculpture from Postimpressionism. Slide lectures, class discussion, field trips.

ART 310 Figure Drawing and Painting 3 Credits

Students will draw and paint from various sources, including the live model, clothed and nude, to understand the structures, gestures, and psychological aspects of the human body in art.

Prerequisite(s): ART 103 and ART 204.

ART 335 Printmaking 3 Credits

A studio introduction to various traditional and contemporary relief printmaking techniques.

ART 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

ART 491 Internship in Art 1-12 Credits

Provides junior or senior fine arts majors with concentrations in art with the practical experience of working with a museum or professional art gallery. Students must be sponsored by an art professor. For each academic credit, interns must work 48 hours for the semester or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

ART 492 Advanced Studio Workshop 3 Credits

Intensive course in various media for students working at an advanced level in studio disciplines. A high level of achievement is expected. May be taken more than once for credit.

Prerequisite(s): two upper-level studio courses.

ART 493 Special Topics in Studio Art 3 Credits

Study in drawing and painting of a particular style, such as abstraction or subject, such as still life; or particular aspects on a museum collection, such as the Metropolitan.

Prerequisite(s): ART 103 and ART 105 or Permission of Instructor.

ART 495 Selected Topics in Art History 3 Credits

An intensive study of a particular art history topic, e.g., a single artist, artistic center, or artistic medium. Slide lectures, class discussion, field trips, class reports. Topics to be announced.

ART 496 Fine Arts Internship 6-12 Credits**ART 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Music Studies (B.A.)

Program Overview

The music studies major prepares students for professional careers in music. Students will work closely with renowned faculty and recognized professionals in a variety of areas of study. Broad-based liberal arts study forms the core of this program.

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider will follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

MUS 105 Survey of Music History I 3 Credits

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 106 Survey of Music History II 3 Credits

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 109S Basic Music Theory 3 Credits

This is a beginner's course in music theory. It familiarizes the student with the basic elements (e.g., staff, clefs, time signatures, musical notation, intervals, triads and chords). This course is ideal for both the student wanting to know only the essential, or the student wanting to go on to develop their theoretical skills. For non-music majors, MUS 109S counts toward graduation and grades are awarded on an A-F basis. For music majors, MUS 109S does not count toward graduation, and grading is on a pass ("Y") or fail ("Z") basis.

MUS 110 Music Theory I 3 Credits

A practical introduction to the basic elements of music, beginning with the reading of music notation. Practice in scales and chords; ear-training in rhythm and pitch. Techniques may be applied to the student's own instrument (e.g., guitar, piano, winds) if he or she plays one. Prerequisite(s): MUS 109S or placement.

Corequisite(s): MUS 110L.

MUS 110L Music Theory I Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 110 (Music Theory I). Prerequisite(s): MUS 109S or placement.

Corequisite(s): MUS 110.

MUS 111 Music Theory II 3 Credits

Continuation of MUS 110, leading to some original composition.

Prerequisite(s): MUS 110 and MUS 110L.

Corequisite(s): MUS 111L.

MUS 111L Music Theory II Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 111 (Music Theory II). Prerequisite(s): MUS 110 and MUS 110L or placement.

Corequisite(s): MUS 111.

MUS 120 Music and Society 3 Credits

Introduction to the basic elements of music (rhythm, melody, harmony, etc.) and the appreciation of representative types of music from all historical periods.

MUS 127 Instrumental Ensemble- Band 1 Credits

Ensemble rehearsal and performance of traditional and current concert band music. Maximum of eight credits are accepted in band, choir, and/or theater production.

MUS 128 Choir 1 Credits

Rehearsal and performance of multi-era Western and non-Western repertoire. Instruction in music fundamentals and vocal production. Pitch matching and part-singing abilities must be demonstrated in the first-week sectional hearing.

MUS 130 Music in Children's Lives 3 Credits

Students in this course will study how music interacts in the lives of children as they sing, listen, play instruments and move. Song repertoire and selections for listening and moving from the American, European and non-Western cultures will be introduced. Playing recorder as well as pitched and non-pitched percussion instruments will be demonstrated.

MUS 131 Beginning Piano I 3 Credits

Class approach to learning to play the piano. How to read music, basic piano technique, and appropriate piano pieces and songs are studied.

MUS 132 Beginning Piano II 3 Credits

Continuation of MUS 131. Emphasis on further development of technique and the ability to interpret piano music from a variety of styles.

Prerequisite(s): MUS 131 or equivalent.

MUS 150A Applied Flute 2 Credits

MUS 150B Applied Flute 1 Credits

MUS 150C Applied Flute 2 Credits

MUS 150D Applied Flute 1 Credits

MUS 151A Applied Oboe 2 Credits

MUS 151B Applied Oboe 1 Credits

MUS 151C Applied Oboe 2 Credits

MUS 204 Jazz History 3 Credits

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

Prerequisite(s): CMP 120 or LL 131.

MUS 205 History of Pop and Rock Part I 3 Credits

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

MUS 206 History of Pop and Rock Part 2 3 Credits

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

MUS 207 Masterworks in Music 3 Credits

Major works by great composers from different historical periods Mozart, Beethoven, Brahms, and Wagner, among others are studied. Up to 10 compositions by six composers are covered, with an emphasis on listening to recorded and live performances of representative works.

MUS 208 Music of the Theater 3 Credits

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

MUS 209 Great Composers 3 Credits

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

MUS 210 Music Theory III 3 Credits

Analysis of musical forms, including binary, rounded binary, ternary, and popular song. Identification of techniques that support musical form, including harmonic language, contrast/repetition, compositional process. Advanced sight singing and aural drills.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 211 Music Theory for Music Theater 3 Credits

Analysis of music theater songs, scenes and scores. Various techniques, placement of examples into historical, musical, artistic, and literary perspective. Reading of full and piano/vocal scores, conducting, orchestration and harmonic language will be emphasized.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 212 Cartoon and Anime Culture 3 Credits

This course investigates the music and culture of animated films and television shows, anime, animated shorts including cartoons, and related incidental music for documentary films.

MUS 213 Digital Comp of Pop Music I 3 Credits

This course is about "the doing of music". It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music.

MUS 214 Writing about Music 3 Credits

This course instructs students in the art of writing about music, from small-form criticism to large scale scholarship, focusing especially on the ability to translate what one hears into engaging prose.

Prerequisite(s): CMP 120 and 125, MUS 110, 110L and 213.

MUS 215 Music & Techn/Mobile Society 3 Credits

This course compares the recent history of music technology to past innovations, focusing on the aesthetic implications and ideological influences of an increasingly mobilized musical milieu.

MUS 216 Digital Comp of Pop Music II 3 Credits

This course is about “the doing of music.” It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music, continuing the content begun in The Digital Composition of Popular Music I.

MUS 217 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip-hop and everything in between.

MUS 218 Postmodernism & Populr Culture 3 Credits

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

MUS 233 Intermediate Piano 3-12 Credits

Continuation of MUS 132 with further development of reading skills, piano techniques and interpretation. Each student studies a set of pieces selected together with the instructor tailored specifically to the students' needs and interests.

MUS 300 Beethoven and the Romantic Age 3 Credits

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

MUS 303 Music Literature: Baroque Era 3 Credits

A survey of European musical styles from c. 1600 to 1750, approached by listening to the music of the period, including Bach, Handel, and many lesser known masters. Topics include the development of modern musical sound, instrumental forms, Lutheran and Catholic church music, and the beginnings of dramatic music.

MUS 304 Music of the Beatles 3 Credits

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

MUS 305 Words and Music 3 Credits**MUS 306 Contemp Music Experience 3 Credits**

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

MUS 307 The Music of Radiohead 3 Credits

This course investigates the music, lyrics, art and marketing strategies of the British so called “alternative” band, Radiohead, moving song by song through their demos, videos and albums.

MUS 308 World Music 3 Credits

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures.

MUS 309 Film Music 3 Credits

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

MUS 312 The Arts Abroad 3 Credits

A two week trip abroad that includes a critical study of music and theater. Students are required to attend all performances, guided tours, and classes before and after the trip.

MUS 315 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip hop and everything in between.

MUS 350A Applied Flute 2 Credits**MUS 350B Applied Flute 1 Credits****MUS 351A Applied Oboe 2 Credits****MUS 351B Applied Oboe 1 Credits****MUS 352A Applied Clarinet 2 Credits****MUS 353A Applied Bassoon 2 Credits****MUS 354A Applied Saxophone 2 Credits****MUS 355A Applied French Horn 2 Credits****MUS 356A Applied Trumpet 2 Credits****MUS 356B Applied Trumpet 1 Credits****MUS 357A Applied Trombone 2 Credits****MUS 358A Applied Euphonium 2 Credits****MUS 359A Applied Tuba 2 Credits****MUS 360A Applied Guitar 2 Credits****MUS 360B Applied Guitar 1 Credits****MUS 361A Applied Violin 2 Credits****MUS 362A Applied Viola 2 Credits****MUS 363A Applied Cello 2 Credits****MUS 364A Applied String Bass 2 Credits****MUS 364B Applied String Bass 1 Credits****MUS 365A Applied Piano 2 Credits****MUS 365B Applied Piano 1 Credits****MUS 366A Applied Organ 2 Credits****MUS 367A Applied Percussion 2 Credits****MUS 368A Applied Voice 2 Credits****MUS 368B Applied Voice 1 Credits****MUS 368C Applied Voice 2 Credits****MUS 368E Applied Voice 2 Credits****MUS 369A Applied Composition 2 Credits****MUS 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing; good academic standing.

MUS 491 Internship in Music 1-4 Credits

Provides junior or senior music majors with the opportunity to gain practical experience working within a professional music environment. Students must be sponsored by a music professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

MUS 493 Selected Topics in Music Perf 3 Credits

Intensive study of a particular topic in applied music for the intermediate to advanced student. Students are led to understand the historic and aesthetic elements in music through critical listening, performance, research, and class projects.

MUS 495 Selected Topics in Music 3 Credits

Studies specialized aspects of the literature, history, or theory of music, to supplement the established curriculum. Emphasis on creative investigative work and individual experiences in music.

MUS 498 Popular Music Culture Capstone 3 Credits

The capstone is an independent, student-led project resulting in a material product (recording/performance/event/presentation) that demonstrates a student's interests and skills in the area of popular music.

MUS 499 Senior Honors Program 3 Credits

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Music Theatre/Piano Primary (B.M.)

Program Overview

The music theatre/piano primary major at Rider prepares students for a professional career in musical theatre working as a music director or in other aspects that focus on the music side of the industry. This program is provided in a nurturing liberal arts environment just one hour from New York City at Rider's Lawrenceville campus.

Degree Offered

B.M. in Music Theater (Piano Primary)

Associated Department: Theatre & Dance

Related Programs

- Arts Administration (p. 445)
- Dance (p. 451)
- Music (p. 459)

- Piano (p. 843)

General Requirements

B.M.-Music Theatre majors must earn a minimum grade of "B-" each semester in the primary applied music field in order to make satisfactory progress. If a grade of "C+" or lower is earned, the student must repeat the semester.

Students must meet attendance and performance requirements in studio performance classes and Music Theatre Lab.

All students must present a senior piano primary applied recital after qualifying according to applied area standards. Students must enroll for primary applied study during the term when any recital is to be presented unless specifically excused from this requirement by the Associate Dean.

B.M.-Music Theatre majors must participate in and earn credit for six semesters of approved ensemble.

Applied Music – Piano Primary Study

Piano primary students in the B.M.-Music Theatre degree must register for two credits of applied music in each semester of study, to a maximum of eight semesters. Four terms are taken under MUS 165A; four terms under MUS 365A. The section number corresponds to the instructor with whom the student will study.

Music Theatre Lab

All majors are required to attend a weekly musical theatre lab during every semester of enrollment. The lab supplements curricular instruction with presentations by guest artists, managers, agents, and casting directors. This interface provides each student with an opportunity for interaction with some of the most important professionals in the musical theatre business.

Performing Opportunities at Rider University

The musical theatre program offers three fully staged productions led by faculty and experienced and notable directors, conductors and choreographers from the professional community. The Theatre and Dance Department also offers a well-established theatre program that provides additional performing opportunities in three major productions. Majors also are encouraged to participate in student-directed and produced events, presented each year on both campuses. The Voice Department at the Princeton campus offers two Opera Theater productions each year. Both are open by audition to all Rider University students except freshmen.

Notes:

- ¹ Please see the Chair of the Theatre and Dance Department for a list of approved elective ensembles.
- ² Students completing fewer than four (4) semesters of secondary applied music study must make up the credits in free electives, in order to meet the minimum number 123 credits for graduation.
- ³ MUS 210 is a prerequisite for all four courses.
- ⁴ Completion of French, German, Italian, or Latin II is required. Students exempted from one or more semesters of foreign language study must replace the missing credits with other Arts & Sciences electives.

Additional Requirements

- Sophomore Review
- Piano Juries
- Senior Piano Recital

Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider will follow a different

plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

Courses and Descriptions**MTR 105 Musical Theatre Practicum 1 Credits**

This course explores the literature of musical theatre vocal ensembles. It emphasizes examining a wide range of styles. This is a studio/academic class, not a performance ensemble.

MTR 109 Ballet I 1 Credits

This course introduces the basic elements of ballet technique. Technique is based on the five positions of the legs and feet, coupled with appropriate arm positions. The class consists of a basic ballet barre warm-up that includes stretching and developing strength and turn-out used in dance positions and combinations. Instruction includes jumping, turning, and connecting steps with movement. Ballet terminology is addressed.

MTR 110 Ballet II 1 Credits

Continuation of MTR 109, building upon techniques learned in that course.

Prerequisite(s): MTR 109.

MTR 111 Musical Theatre Lab 0 Credits**MTR 120 Hist of American Music Theater 3 Credits**

The history of the American Musical from the first American production in 1750 of Gay's *The Beggar's Opera* up to the present will be traced. Emphasis will be placed upon those common elements which are solely intrinsic to the American stage. Developments and imported ideas (e.g., *The British Invasion*) will be highlighted.

MTR 131 Music Theory for MT 3 Credits

Teaches students to understand musical form, structure, melody, rhythm and harmony by applying these concepts to musical theatre literature. Includes full analysis of musical theatre songs. Required in the first year.

MTR 132 Group Piano 1 Credits

Offers the musical theatre student appropriate keyboard technique to play any vocal part and to play a rudimentary accompaniment. Required of all second-year students.

Prerequisite(s): MTR 131.

MTR 133 Sight Singing for MT 3 Credits

Intensive class in reading music, designed for musical theatre students. Traditional solfeggio techniques used with musical theatre texts whenever possible. Required of first-year students.

Prerequisite(s): MTR 131.

MTR 207 Music Theater Vocal Coaching 3 Credits

Vocal coaching and repertoire preparation with a focus in developing the skill sets required to research and prepare music theater repertoire. Special emphasis is given to creating and maintaining the professional audition book. Open to music theater majors only.

Prerequisite(s): MTR 101.

MTR 209 Tap Dance I 1 Credits

Introduction to the basic elements of tap dancing. Tap technique is geared to enhance rhythm and motor skills, basic elements that will be used to connect several steps and movements into combinations. Other variations such as "soft shoe" or "clogging" are included.

MTR 210 Tap Dance II 1 Credits

Continuation of MTR 209. Combinations most often used in music theater productions are emphasized.

Prerequisite(s): MTR 209.

MTR 211 Ballet III 1 Credits

Intermediate ballet, expending upon Ballet II and concentrating upon the American lineage of ballet training.

Prerequisite(s): MTR 110.

MTR 212 Ballet IV 1 Credits

Continuation of MTR 211. Intermediate ballet, expanding upon Ballet III and concentrating upon the American lineage of ballet training.

Prerequisite(s): MTR 211.

MTR 215 MT Performance: Song as Text 3 Credits

In this course the student will learn how to develop a performance of musical text by making doable, actable choices and applying those choices to musical monologues – solo songs.

Prerequisite(s): THE 110.

MTR 216 Acting for Music Theater I 3 Credits

This professional skills course, intended for music theater majors, builds upon the student's previous acting training. Through various exercises and activities (both individual and group), the student will begin to develop a clear method for preparation that addresses first their own instrument, and then (through various methods of analysis) the character and the play. Students will begin to utilize and apply the studied techniques and exercises to simple monologues and a scene. Behavioral truth will precede the more sophisticated studies of emotional truth.

MTR 217 Acting for Music Theater Major II 3 Credits

Continuation of MTR 216. Methods for preparation are expanded as students learn and experience techniques for exploring and developing characters. This semester will focus on the application of the skills and acting techniques studied in the first semester to the needs of dramatic and sung material. Students are expected to synthesize content and skills acquired in the Speech for the Actor, Body Awareness and Movement classes.

Prerequisite(s): MTR 216.

MTR 218 Musical Theatre Scene Study I 3 Credits

Scene study class exploring the literature of the musical theatre – emphasis placed on two- and three-character scenes. Required of all second-year students.

Prerequisite(s): THE 208.

MTR 219 Musical Theatre Scene Study II 3 Credits

Further exploration of scenes in the musical theatre literature – emphasis on more complex scenes. Required of all third-year students.

Prerequisite(s): MTR 218.

MTR 251 Styles and Genres I 3 Credits

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Standard, Classical, and Traditional periods of musical theater. Composers to be studied will include Rodgers and Hammerstein, Lerner and Loewe, Kern, Berlin, Gershwin, Porter, Arlen, Blitstein and Weill.

Prerequisite(s): MUS 111, MUS 111L, THE 107, MTR 216.

MTR 252 Styles and Genres II 3 Credits

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary (Non-Pop/Rock) period of music theater. Composers to be studied will include Sondheim, Styne, Kander and Ebb, Guettel, Matby and Shire, and Bernstein.

Prerequisite(s): MUS 111, MUS 111L, THE 107, MTR 216.

MTR 253 Styles and Genres III 3 Credits

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary, Pop/Rock period of music theater. Composers to be studied will include Webber, Schwartz, Fenn, Flaherty, Menkin, Brown, LaChiusa, and Lipppa.

Prerequisite(s): MUS 111, MUS 111L, THE 107, MTR 216.

MTR 255 Musical Theatre Repertoire I 3 Credits

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers through the 1950s. The thrust of this class is split between studio work and academic work.

Prerequisite(s): THE 106, THE 208.

MTR 256 Musical Theater Repertoire II 3 Credits

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers since the 1950s. The thrust of this class is split between studio work and academic work.

Prerequisite(s): THE 106, THE 108.

MTR 307 Tap III 1 Credits

This course is designed for the moderately advanced tap dancer. Course to be taken in the fall.

Prerequisite(s): MTR 210.

MTR 308 Tap IV 1 Credits

The course will allow the more advanced student to complete the work begun in Tap III.

Prerequisite(s): MTR 307.

MTR 309 Jazz Dance I 1 Credits

Based upon the ballet foundation, this course explores the expressive style of jazz dance, and basic Western theatrical dance forms and social dances used most often on the stage.

Prerequisite(s): MTR 109.

MTR 310 Jazz Dance II 1 Credits

Continuation of work begun in MTR 309.

Prerequisite(s): MTR 309.

MTR 311 Jazz Dance III 1 Credits

This course continues the work begun in MTR 309 and 310.

MTR 312 Jazz Dance IV 1 Credits

This course completes the work begun in MTR 309, MTR 310 and MTR 311.

Prerequisite(s): MTR 311.

MTR 313 Ballet V 1 Credits

Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

Prerequisite(s): MTR 212.

MTR 314 Ballet VI 1 Credits

Continuation of MTR 313. Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

Prerequisite(s): MTR 313.

MTR 317 MT Auditions:Preparation/Tech 3 Credits

This course, building upon skill-sets established in the Music Theatre singer-actor curriculum, will introduce and hone the required skill-sets for preparing to audition in Music Theatre. Genres and styles of music most often required for auditioning in the industry will be prepared and explored. An audition "book," based upon the demands of the industry, as well as the most suitable material for each student will be built. When appropriate, guests from the industry will be invited to present master classes and evaluations in a "mock audition" process.

Prerequisite(s): MTR 207, MTR 216, MTR 217, MTR 492.

MTR 335 Speech for the Actor 3 Credits

This course introduces and develops speech techniques, specifically in the areas of relaxation, posture and alignment, respiration, phonation, support, registration, resonance, and articulation. Students learn to consistently produce a free, resonant, fully supported speaking voice. Exercises will increase flexibility and range of speaking and will foster heightened responsiveness to feeling. Regular practice in the delivery of both impromptu and prepared monologues is required. This course includes studies in Neutral American Speech.

MTR 402 Directing Music Theater/Opera 3 Credits

This elective course investigates how conceptual ideas and the process of script analysis are used in putting together a music theatre production for performance. Instruction includes staging ideas and elements needed for a complete production. Other theatrical aspects of choreography, properties, costumes, lighting, and set design are addressed. It is recommended that students complete MTR 496 before taking MTR 402.

MTR 411 Musical Theatre Ensemble 1 Credits**MTR 415 Broadway Styles I 1 Credits**

First capstone course in the Musical Theatre dance sequence. Practical and historical study of Broadway dance styles; main focus on jazz idiom. Emphases placed on technique, performance quality, and auditioning skills.

Prerequisite(s): Completion of Ballet, Tap, and Jazz requirements; senior standing.

MTR 416 Broadway Styles II 1 Credits

Second capstone course in the Musical Theatre dance sequence. Continuing study of Broadway dance styles. Emphasis is placed on technique, performance quality, and auditioning skills.

Prerequisite(s): MTR 416.

MTR 480 Dance for Performing Artist 3 Credits

This course is a culmination of the dance elements and forms studied in ballet, tap, and jazz dance. Context areas include movement used most often in performance of music theater and movement fundamentals applicable to all aspects of presentation and principle to refine and articulate the performer's awareness and use of the body through singing and dance. Performance issues and movement as a basis for music and sound production are addressed.

Prerequisite(s): MTR 209, MTR 309.

MTR 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

MTR 491 Internship in Music Theater 1-12 Credits

Provides junior or senior musical theatre majors with the opportunity to gain practical experience working within a professional environment. Students must be sponsored by a musical theatre or theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

MTR 492 Singing Actor: Music Theater 3 Credits

This semester combines all dramatic and musical studies to create an authentic and believable character that is both emotionally truthful and musically expressive. Music is studied as "script" and dramatic choices are prepared in relationship to all elements present in the score.

Prerequisite(s): MTR 216 and MTR 217.

MTR 493 Music Theater Production 1 Credits

Preparation and performance of a solo or ensemble role in a fully staged music theatre production. Concurrent participation in stage crew activities is required.

MTR 493T MTR Production (tech) 1 Credits**MTR 496 Music Theater Workshop 3 Credits**

This class, building upon the foundational studies associated with preparation and exploration (both dramatic and musical), focuses on performances. Students are taught methods for synthesizing all former training in acting, music, and movement to the needs of the character and the play/score. Each student fully prepares at least two complete roles from the music theater repertoire. The class culminates in a performance of scenes—the Junior Cabaret!

Prerequisite(s): MTR 216, MTR 217, MTR 492.

MTR 511 Music Theater Ensemble 1 Credits

The performance-based, auditioned music theater ensemble engages multiple singers/actors/dancers in performance, utilizing scenes from music theater literature as the primary material. Emphasis is placed upon group interaction and building an ensemble. This ensemble often is asked to perform for University sponsored events.

MUS 105 Survey of Music History I 3 Credits

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 106 Survey of Music History II 3 Credits

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 109S Basic Music Theory 3 Credits

This is a beginner's course in music theory. It familiarizes the student with the basic elements (e.g., staff, clefs, time signatures, musical notation, intervals, triads and chords). This course is ideal for both the student wanting to know only the essential, or the student wanting to go on to develop their theoretical skills. For non-music majors, MUS 109S counts toward graduation and grades are awarded on an A-F basis. For music majors, MUS 109S does not count toward graduation, and grading is on a pass ("Y") or fail ("Z") basis.

MUS 110 Music Theory I 3 Credits

A practical introduction to the basic elements of music, beginning with the reading of music notation. Practice in scales and chords; ear-training in rhythm and pitch. Techniques may be applied to the student's own instrument (e.g., guitar, piano, winds) if he or she plays one. Prerequisite(s): MUS 109S or placement.

Corequisite(s): MUS 110L.

MUS 110L Music Theory I Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 110 (Music Theory I). Prerequisite(s): MUS 109S or placement.

Corequisite(s): MUS 110.

MUS 111 Music Theory II 3 Credits

Continuation of MUS 110, leading to some original composition.

Prerequisite(s): MUS 110 and MUS 110L.

Corequisite(s): MUS 111L.

MUS 111L Music Theory II Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 111 (Music Theory II). Prerequisite(s): MUS 110 and MUS 110L or placement.

Corequisite(s): MUS 111.

MUS 120 Music and Society 3 Credits

Introduction to the basic elements of music (rhythm, melody, harmony, etc.) and the appreciation of representative types of music from all historical periods.

MUS 127 Instrumental Ensemble- Band 1 Credits

Ensemble rehearsal and performance of traditional and current concert band music. Maximum of eight credits are accepted in band, choir, and/or theater production.

MUS 128 Choir 1 Credits

Rehearsal and performance of multi-era Western and non-Western repertoire. Instruction in music fundamentals and vocal production. Pitch matching and part-singing abilities must be demonstrated in the first-week sectional hearing.

MUS 130 Music in Children's Lives 3 Credits

Students in this course will study how music interacts in the lives of children as they sing, listen, play instruments and move. Song repertoire and selections for listening and moving from the American, European and non-Western cultures will be introduced. Playing recorder as well as pitched and non-pitched percussion instruments will be demonstrated.

MUS 131 Beginning Piano I 3 Credits

Class approach to learning to play the piano. How to read music, basic piano technique, and appropriate piano pieces and songs are studied.

MUS 132 Beginning Piano II 3 Credits

Continuation of MUS 131. Emphasis on further development of technique and the ability to interpret piano music from a variety of styles.

Prerequisite(s): MUS 131 or equivalent.

MUS 150A Applied Flute 2 Credits**MUS 150B Applied Flute 1 Credits****MUS 150C Applied Flute 2 Credits****MUS 150D Applied Flute 1 Credits****MUS 151A Applied Oboe 2 Credits****MUS 151B Applied Oboe 1 Credits****MUS 151C Applied Oboe 2 Credits****MUS 151D Applied Oboe 1 Credits****MUS 152A Applied Clarinet 2 Credits****MUS 152B Applied Clarinet 1 Credits****MUS 152C Applied Clarinet 2 Credits****MUS 152D Applied Clarinet 1 Credits****MUS 153A Applied Bassoon 2 Credits****MUS 154A Applied Saxophone 2 Credits****MUS 155A Applied French Horn 2 Credits****MUS 156A Applied Trumpet 2 Credits****MUS 156B Applied Trumpet 1 Credits****MUS 156C Applied Trumpet 2 Credits****MUS 156D Applied Trumpet 1 Credits****MUS 157A Applied Trombone 2 Credits****MUS 158A Applied Euphonium 2 Credits****MUS 159A Applied Tuba 2 Credits****MUS 160A Applied Guitar 2 Credits****MUS 160B Applied Guitar 1 Credits****MUS 160C Applied Guitar 2 Credits****MUS 160D Applied Guitar 1 Credits****MUS 160E Applied Guitar 2 Credits****MUS 161A Applied Violin 2 Credits****MUS 161C Applied Violin 2 Credits****MUS 161E Applied Violin 2 Credits****MUS 161G Applied Violin 2 Credits****MUS 162A Applied Viola 2 Credits****MUS 163A Applied Cello 2 Credits****MUS 164A Applied String Bass 2 Credits****MUS 164B Applied String Bass 1 Credits****MUS 164C Applied String Bass 2 Credits****MUS 164D Applied String Bass 1 Credits****MUS 165A Applied Piano 2 Credits****MUS 165B Applied Piano 1 Credits****MUS 165C Applied Piano 2 Credits****MUS 165D Applied Piano 1 Credits****MUS 166A Applied Organ 2 Credits****MUS 167A Applied Percussion 2 Credits****MUS 167B Applied Percussion 1 Credits****MUS 167C Applied Percussion Elective 2 Credits****MUS 167D Percussion Elective 1 Credits****MUS 168A Applied Voice 2 Credits****MUS 168B Applied Voice 1 Credits**

MUS 204 Jazz History 3 Credits

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

Prerequisite(s): CMP 120 or LL 131.

MUS 205 History of Pop and Rock Part I 3 Credits

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

MUS 206 History of Pop and Rock Part 2 3 Credits

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

MUS 207 Masterworks in Music 3 Credits

Major works by great composers from different historical periods Mozart, Beethoven, Brahms, and Wagner, among others are studied. Up to 10 compositions by six composers are covered, with an emphasis on listening to recorded and live performances of representative works.

MUS 208 Music of the Theater 3 Credits

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

MUS 209 Great Composers 3 Credits

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

MUS 210 Music Theory III 3 Credits

Analysis of musical forms, including binary, rounded binary, ternary, and popular song. Identification of techniques that support musical form, including harmonic language, contrast/repetition, compositional process. Advanced sight singing and aural drills.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 211 Music Theory for Music Theater 3 Credits

Analysis of music theater songs, scenes and scores. Various techniques, placement of examples into historical, musical, artistic, and literary perspective. Reading of full and piano/vocal scores, conducting, orchestration and harmonic language will be emphasized.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 212 Cartoon and Anime Culture 3 Credits

This course investigates the music and culture of animated films and television shows, anime, animated shorts including cartoons, and related incidental music for documentary films.

MUS 213 Digital Comp of Pop Music I 3 Credits

This course is about "the doing of music". It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music.

MUS 214 Writing about Music 3 Credits

This course instructs students in the art of writing about music, from small-form criticism to large scale scholarship, focusing especially on the ability to translate what one hears into engaging prose.

Prerequisite(s): CMP 120 and 125, MUS 110, 110L and 213.

MUS 215 Music & Techn/Mobile Society 3 Credits

This course compares the recent history of music technology to past innovations, focusing on the aesthetic implications and ideological influences of an increasingly mobilized musical milieu.

MUS 216 Digital Comp of Pop Music II 3 Credits

This course is about "the doing of music." It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music, continuing the content begun in The Digital Composition of Popular Music I.

MUS 217 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip-hop and everything in between.

MUS 218 Postmodernism & Populr Culture 3 Credits

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

MUS 233 Intermediate Piano 3-12 Credits

Continuation of MUS 132 with further development of reading skills, piano techniques and interpretation. Each student studies a set of pieces selected together with the instructor tailored specifically to the students' needs and interests.

MUS 300 Beethoven and the Romantic Age 3 Credits

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

MUS 303 Music Literature: Baroque Era 3 Credits

A survey of European musical styles from c. 1600 to 1750, approached by listening to the music of the period, including Bach, Handel, and many lesser known masters. Topics include the development of modern musical sound, instrumental forms, Lutheran and Catholic church music, and the beginnings of dramatic music.

MUS 304 Music of the Beatles 3 Credits

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

MUS 305 Words and Music 3 Credits**MUS 306 Contemp Music Experience 3 Credits**

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

MUS 307 The Music of Radiohead 3 Credits

This course investigates the music, lyrics, art and marketing strategies of the British so called "alternative" band, Radiohead, moving song by song through their demos, videos and albums.

MUS 308 World Music 3 Credits

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures.

MUS 309 Film Music 3 Credits

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

MUS 312 The Arts Abroad 3 Credits

A two week trip abroad that includes a critical study of music and theater. Students are required to attend all performances, guided tours, and classes before and after the trip.

MUS 315 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip hop and everything in between.

MUS 350A Applied Flute 2 Credits**MUS 350B Applied Flute 1 Credits****MUS 351A Applied Oboe 2 Credits****MUS 351B Applied Oboe 1 Credits****MUS 352A Applied Clarinet 2 Credits****MUS 353A Applied Bassoon 2 Credits****MUS 354A Applied Saxophone 2 Credits****MUS 355A Applied French Horn 2 Credits****MUS 356A Applied Trumpet 2 Credits****MUS 356B Applied Trumpet 1 Credits****MUS 357A Applied Trombone 2 Credits****MUS 358A Applied Euphonium 2 Credits****MUS 359A Applied Tuba 2 Credits****MUS 360A Applied Guitar 2 Credits****MUS 360B Applied Guitar 1 Credits****MUS 361A Applied Violin 2 Credits****MUS 362A Applied Viola 2 Credits****MUS 363A Applied Cello 2 Credits****MUS 364A Applied String Bass 2 Credits****MUS 364B Applied String Bass 1 Credits****MUS 365A Applied Piano 2 Credits****MUS 365B Applied Piano 1 Credits****MUS 366A Applied Organ 2 Credits****MUS 367A Applied Percussion 2 Credits****MUS 368A Applied Voice 2 Credits****MUS 368B Applied Voice 1 Credits****MUS 368C Applied Voice 2 Credits****MUS 368E Applied Voice 2 Credits****MUS 369A Applied Composition 2 Credits****MUS 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing; good academic standing.

MUS 491 Internship in Music 1-4 Credits

Provides junior or senior music majors with the opportunity to gain practical experience working within a professional music environment. Students must be sponsored by a music professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

MUS 493 Selected Topics in Music Perf 3 Credits

Intensive study of a particular topic in applied music for the intermediate to advanced student. Students are led to understand the historic and aesthetic elements in music through critical listening, performance, research, and class projects.

MUS 495 Selected Topics in Music 3 Credits

Studies specialized aspects of the literature, history, or theory of music, to supplement the established curriculum. Emphasis on creative investigative work and individual experiences in music.

MUS 498 Popular Music Culture Capstone 3 Credits

The capstone is an independent, student-led project resulting in a material product (recording/performance/event/presentation) that demonstrates a student's interests and skills in the area of popular music.

MUS 499 Senior Honors Program 3 Credits

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

PI 045 Introduction to Piano Secondary 1 Credits

Designed for student with little to no background in piano study or music reading. Students will develop a foundation (basic elements) of pianism/musicianship skills and will focus on the most fundamental aspects of music study at the piano. 0 credits toward graduation, counts as 4 credits in the semester load.

Prerequisite(s): placement; Students must pass this course with a grade of "Y" to progress to PI 103: Piano Secondary I.

PI 101A Piano Primary 2 Credits**PI 101B Piano Primary 1 Credits****PI 101C Piano Elective 2 Credits****PI 101D Piano Elective 1 Credits****PI 101E Piano Primary 2 Credits****PI 101F Piano Primary 1 Credits****PI 101G Piano Primary 2 Credits****PI 103 Piano Secondary I 1 Credits**

Establishes a solid foundation of piano playing through integration of musicianship skills in addition to building facile digital independence and bilateral hand coordination. Minimum grade of "B-" required to pass the course.

Prerequisite(s): Grade of "Y" in PI 045 or placement.

PI 104 Piano Secondary II 1 Credits

Continuation of PI 103; appropriate for the advanced beginner. Minimum grade of "B-" required to pass the course.

Prerequisite(s): PI 103 or placement.

PI 201A Piano Primary 2 Credits**PI 201B Piano Primary 1 Credits****PI 201E Piano PrimaryWC 2 Credits****PI 201F Piano Primary 1 Credits****PI 201G Piano Primary 2 Credits****PI 203 Piano Secondary III 1 Credits**

Establishes fluidity in piano playing through integration of musicianship skills, digital independence and bilateral hand coordination. Minimum grade of "B-" needed to pass the course.

Prerequisite(s): minimum grade of "B-" in PI 104 or placement.

PI 204 Piano Secondary for Mus Ed & Sacred Music 1 Credits

Development of practical keyboard skills: sight-reading; playing vocal lines and piano parts of choral works; playing individual lines/parts of small-scale instrumental works; harmonizing and transposing melodies with accompaniments.

Prerequisite(s): minimum grade of "B-" in PI 203 or placement.

PI 205 Piano Secondary VCPER 1 Credits

Development of practical keyboard skills: sight-reading; playing vocal lines and piano parts of songs and arias; warm-up exercises; transposing vocal lines and portions of accompaniments; harmonizing melodies.

Prerequisite(s): minimum grade of "B-" in PI 203 or placement.

PI 206 Piano Secondary for Music Theater Majors 1 Credits

Development of practical keyboard skills: sight-reading; playing vocal lines and piano parts of songs and arias; warm-up exercises; transposing vocal lines and portions of accompaniments; harmonizing melodies.

Prerequisite(s): minimum grade of "B-" in PI 203 or placement.

PI 207 Piano Secondary for Theory Comp Majors 1 Credits

Development of practical keyboard skills in the areas of score reading (including one's own works), use of piano as a tool for composition, and realizing chord progressions.

Prerequisite(s): minimum grade of "B-" in PI 203 or placement.

PI 208 Piano Secondary BAM 1 Credits

Development of practical keyboard skills: sight-reading; playing vocal lines and piano parts of songs and arias; warm-up exercises; transposing vocal lines and portions of accompaniments; harmonizing melodies.

Prerequisite(s): minimum grade of "B-" in PI 203 or placement.

PI 297 Fund of Piano Pedagogy I 3 Credits

Fundamentals I is devoted to study of techniques, methods, and materials suitable for beginning through early intermediate level students. Other areas of study include motivational strategies, establishment of effective practice habits, recital preparation, technique, and elementary duet materials. Students analyze and demonstrate teaching from three different beginning piano methods. Observation of professional teaching is done in the context of class and private lessons at the Westminster Conservatory.

PI 298 Fund of Piano Pedagogy II 3 Credits

In Fundamentals II, students continue to apply their experience with piano methods to the teaching of students. In addition, the semester is devoted to the study of materials from all style periods for upper elementary and intermediate level students. Students observe private and group lessons appropriate to these levels. The course culminates in an individual lecture recital demonstrating music from a variety of style periods.

Prerequisite(s): PI 297.

PI 301A Piano Primary 2 Credits**PI 301B Piano Primary 1 Credits****PI 301E Piano Primary 2 Credits****PI 301F Piano Primary 1 Credits****PI 301G Piano Primary 2 Credits****PI 340 Keyboard Skills 3 Credits**

This is a detailed study of the broad issues of musicianship for pianists. Topics include technique, practice strategies, and approaches to memorization, sight-reading, improvisation, and reading from a lead sheet.

PI 397 Fund of Piano Pedagogy III 3 Credits

Fundamentals III involves supervised private and group teaching of beginning students. Emphasis is placed on lesson planning, presentation of concepts, use of technology, and the relationship between technique and musicianship skills. The course further addresses the different psychological and methodological approaches to teaching adults and children in class and private settings, and includes an overview of materials for the adult student and group classes. The course culminates in a lecture recital on a pedagogical subject of the students choice.

PI 401A Piano Primary 2 Credits**PI 401B Piano Primary 1 Credits****PI 401E Piano Primary 2 Credits****PI 401F Piano Primary 1 Credits****PI 401G Piano Primary 2 Credits****PI 413 Accompanying Class 2 Credits**

This course is designed with the twofold purpose of allowing undergraduate pianists to fulfill their piano ensemble elective requirement within the professional studies area as well as providing an opportunity for voice primary students to further their piano study in a challenging forum in situations directly related to their repertoire. The students in the class will receive instruction in the stylistic, technical, analytical and linguistic aspects of vocal literature. The many issues involved in vocal collaboration will be discussed along with in-depth study of the pianist's role in musical partnerships. Issues of musical freedom, language, and the varieties of sonic treatment unique to vocal literature will be discussed. Italian, French, German and English song repertoire from various style periods will provide the assignments for performance and discussion.

PI 435 Survey of Piano Literature I 3 Credits

A study of representative works from 1650-1800 by composers including J. S. Bach, C.P.E. Bach, J.C. Bach, Haydn, Mozart, and Beethoven.

Prerequisite(s): MH 248.

PI 436 Survey of Piano Literature II 3 Credits

A study of representative works from 1800 to the present by composers including Beethoven, Schubert, Mendelssohn, Schumann, Chopin, Liszt, Brahms, Debussy, Ravel, Prokofiev, and Bartók.

Prerequisite(s): MH 248.

PI 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

Prerequisite(s): junior or senior standing.

PI 512 Chamber Music 2 Credits

Emphasis is placed upon rehearsal and performances of representative collaborative literature for strings and piano, and woodwinds and piano. Students will be assigned movements from major chamber works selected from different style periods. Professional instrumentalists will join them for rehearsals and performances in class. An overview of the development of this repertoire will be presented and listening assignments will augment the study of specific works. A project involving the study and presentation of a piano quartet or piano quintet will be included. Attendance at three concerts of instrumental chamber music is required. Permission of applied teacher and instructor is required.

PI 513 Jazz Keyboard/Improv 3 Credits

This course will enable pianists and organists to become familiar with the theory, harmony, and improvisational techniques of jazz piano. Emphasis will be placed upon getting each student to create spontaneous improvisations. The fundamental goal will be that of enabling students accustomed to following a score to move beyond it. Extensive exposure to material from the "Great American Songbook" as well as to jazz standards will provide a structural basis for the course.

Prerequisite(s): TH 142 and PI 201, or equivalent knowledge and technical proficiency.

PI 516 Physical/Psych Aspects Piano 2 Credits

The two major emphases of this course are: (1) the pianist as athlete and 2) the pianist as performer. The first includes a study of appropriate exercise, nutrition, anatomy and physiology as they relate to piano technique, implications for injury prevention, and how to deal with injuries should they occur. The second includes the reading process, strategies for practicing, memorizing techniques, and ways of coping with the behavioral, physical and cognitive manifestations of performance anxiety.

PI 585 Piano Ensemble 1 Credits

Study and performance of piano duets, two-piano works, and works for combinations of three or more pianists. The emphasis is on ensemble techniques for rehearsal and performance.

PI 609 Graduate Piano Review 1 Credits

A functional course concentrating upon sight reading of simple piano accompaniments and open score reading. Required for graduate students with deficiencies in these skills.

PI 611 Piano Pedagogy Lab 0 Credits

Discussions will include problem-solving related to piano teaching, discussion of observations, supervised and independent teaching, questions relating to repertoire, materials and technique. Comparative philosophies and psychologies and their applications, group and private teaching, business issues, professional organizations and publications, technology, career planning, recital and audition planning will be included. There will also be guidance in the preparation for the graduate oral examination.

PI 622 Eval Piano Teaching Lit 3 Credits

This course provides a critical survey of piano teaching materials, including standard teaching literature, approaches to piano technique in writings and music exercises, and repertoire for the elementary, intermediate, and early advanced student. All music is analyzed from the perspectives of performance, technical demands, strategies for teacher presentation, and student practice. Applications and demonstrations of technology are included. Graduate students demonstrate teaching and performance strategies in class and carry an assigned teaching load at the Westminster Conservatory.

PI 633 Piano Literature Seminar 3 Credits

A major area of piano repertoire is selected for intensive study. The emphasis of the seminar changes from semester to semester. Possible topics include the development of the Mozart concerto, keyboard works of J.S. Bach, piano writing of Debussy, and 20th Century piano music.

PI 641A Piano Primary 2 Credits

2 Credit hours.

PI 641B Piano Primary 1 Credits

1 Credit hour.

PI 641C Piano Elective 2 Credits

2 Credit hours.

PI 641D Piano Elective 1 Credits

1 Credit hour.

PI 641E Piano Primary 2 Credits

2 Credit hours.

PI 641F Piano Primary 1 Credits

1 Credit hour.

PI 661 Graduate Piano Pedagogy 3 Credits

This course serves as an intensive study of theoretical and practical aspects of piano study, through examination of instruction materials and developing a well-defined philosophy and approach to piano teaching. Students are challenged to increase their ability in connecting advanced and intermediate music study to the foundation of what should take place in the first weeks of piano lessons. The focus of the course lies in developing one's own curriculum, on its own terms, or associated with instruction materials already in publication. Various methodologies and significant areas of thought in the field of piano pedagogy are explored and compared. The course involves private and group lesson observations at all levels of teaching. Practical application of education theory to music lessons at the piano is done through demonstration and practice teaching at the Westminster Conservatory or the College. Practical application of educational theory to music lessons at the piano is done through demonstration and practice teaching through the Westminster Conservatory or the College.

PI 690 Independent Research and Study 1-3 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

Prerequisite(s): graduate standing.

PI 691A Piano Pedagogy Internship I 3 Credits

The two-semester internship includes weekly teaching each semester, faculty observation of this teaching, and private discussion with the faculty observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. Internships may include intensive study of private and/or group instruction, reading for children, working with college, adults, piano minor, gifted students or traditional studio of all ages and levels.

PI 691B Piano Pedagogy Internship II 3 Credits

The two-semester internship includes weekly teaching each semester, faculty observation of this teaching, and private discussion with the faculty observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. Internships may include intensive study of private and/or group instruction, reading for children, working with college, adults, piano minor, gifted students or traditional studio of all ages and levels.

PI 713 Accompanying Class 3 Credits

Students will investigate aspects of ensemble in vocal accompanying. Discussion topics will include rubato and its connection to language, stylistic concerns, musical preparation as well as practical issues such as recital programming and balance. Students will be expected to absorb extensive repertoire through attendance and performance. Class format will include both student presentations and lecture sessions.

PI 714 Techniques of Coaching I 2 Credits

A practical course designed to furnish information and experience in all aspects of vocal coaching, including diction coaching, ornamentation and realization, issues of drama and presentation, stylistic considerations, stage deportment and specialized accompanying skills. Students are observed in the process of coaching singers. Semantics and pedagogical techniques are stressed and polished. Factors involved in translations of Italian, French, German and other non-English texts are studied.

PI 715 Techniques of Coaching II 2 Credits

A practical course designed to furnish information and experience in all aspects of vocal coaching, including diction coaching, ornamentation and realization, issues of drama and presentation, stylistic considerations, stage deportment and specialized accompanying skills. Students are observed in the process of coaching singers. Semantics and pedagogical techniques are stressed and polished. Factors involved in translations of Italian, French, German and other non-English texts are studied.

Prerequisite(s): PI 714.

1 Credit hour.

VC 114 Introduction to Lyric Diction 2 Credits

Introduction to the International Phonetic Alphabet (IPA) and the sounds of all major sung languages through oral and written drill. Open to Voice Performance majors only.

VC 115 English & Italian Diction 2 Credits

Introduction to the rules of singing English and Italian through the use of the International Phonetic Alphabet (IPA) with oral and written drill.

VC 116 French & German Diction 2 Credits

Introduction to the rules of singing French and German through the use of the International Phonetic Alphabet (IPA) with oral and written drill.

Prerequisite(s): VC 115.

VC 118 Italian Diction 2 Credits

Introduction to the rules for singing Italian through the use of the International Phonetic Alphabet (IPA), with oral and written drill. Open to Voice Performance majors only.

Prerequisite(s): VC 114.

VC 119 French Diction 2 Credits

Introduction to the rules for singing French through the use of the International Phonetic Alphabet (IPA), with oral and written drill. Open to Voice Performance majors only.

Prerequisite(s): VC 114.

VC 120 German Diction 2 Credits

Introduction to the rules for singing German through the use of the International Phonetic Alphabet (IPA), with oral and written drill. Open to Voice Performance majors only.

Prerequisite(s): VC 114.

VC 191 Movement for the Performer 2 Credits

Movement exercises and etudes help students develop proper alignment, physical freedom, unification of voice, breath, and body, and help them explore the body as an expressive instrument.

VC 201A Voice Primary 2 Credits**VC 201B Voice Primary 1 Credits****VC 201C Voice Primary 2 Credits****VC 201E Voice Primary 2 Credits****VC 201F Voice Primary 1 Credits****VC 201G Voice Primary 2 Credits****VC 203 Voice Secondary 1 Credits**

1 Credit hour.

VC 291 The Singing Actor 2 Credits

The introduction to vocal performance entails coaching of selected songs, arias or repertoire from music theater and techniques for performance preparation through intensive research. A final written project involves a musical and dramatic analysis of all chosen repertoire.

Prerequisite(s): successful completion of Level I voice jury.

VC 301A Voice Primary 2 Credits**VC 301B Voice Primary 1 Credits****VC 301E Voice Primary 2 Credits****VC 301F Voice Primary 1 Credits****VC 301G Voice Primary 2 Credits****VC 305 Singing in Italian and French 2 Credits**

Master class and private coaching in vocal performance of Italian and French language song, recitative and opera arias. The class will focus on pronunciation, inflection and nuances of sung Italian and French.

Prerequisite(s): Successful completion of Level I jury; VC 118, VC 119.

VC 306 Singing in German and English 2 Credits

Master class and private coaching in vocal performance of German and English language song, recitative and opera arias. The class will focus on pronunciation, inflection and nuances of sung German and English.

Prerequisite(s): Successful completion of Level I Jury; VC 120.

VC 401A Voice Primary 2 Credits**VC 401B Voice Primary 1 Credits****VC 401C Voice Elective 2 Credits****VC 401E Voice Primary 2 Credits****VC 401F Voice Primary 1 Credits****VC 401G Voice Primary 2 Credits****VC 408 Voice Science 3 Credits**

Study of the physics and physiology of voice production. Musical and vocal acoustics are explored using the facilities of the Westminster Voice Laboratory. Anatomic and physiologic underpinnings of respiration, phonation, articulation, registration and hearing are explored in depth.

VC 433 Song Literature I 2 Credits

A survey of solo literature for voice and accompanying instrument including solo vocal music of the Baroque period and German lieder.

Prerequisite(s): MH 248.

VC 434 Song Literature II 2 Credits

A survey of solo literature for voice and accompanying instrument including French *mélodie*, songs by nationalist composers, English and American song.

Prerequisite(s): MH 248.

VC 457 Private Coaching 2 Credits

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 457 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 458 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

Prerequisite(s): successful completion of Level II.

VC 458 Private Coaching 1 Credits

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 457 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 458 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

Prerequisite(s): successful completion of Level II.

VC 467 Private Dramatic/Role Coaching 2 Credits

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 467 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 468 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

Prerequisite(s): successful completion of Level II.

VC 468 Private Dramatic/Role Coaching 1 Credits

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 467 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 468 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

Prerequisite(s): successful completion of Level II.

VC 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 credit hours. Students may count up to a maximum of 18 independent study hours toward graduation. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

Prerequisite(s): junior or senior standing.

VC 591 Performing in Lyric Theater 2 Credits

Performing in Lyric Theater offers techniques for the preparation of lyric roles in a theatrical setting. It will develop elements of stagecraft, systematize a process for preparations and exploration, and introduce the working relationship with director and conductor.

Prerequisite(s): Undergraduates, VC 291 and the successful completion of Level II jury, or permission of the Chair.

VC 592 Opera Workshop 2 Credits

Introduction to opera performance. Acting exercises, character development, dramatic exploration and musical coaching culminating in a workshop-format presentation. It is recommended that VC 491 or 691 be taken before this course. This course may be repeated for credit.

Prerequisite(s): Undergraduates, successful completion of the level II voice test or permission of the chair.

VC 593 Opera Theater 2 Credits

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

VC 593E Opera Theater (Ensemble) 1 Credits

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

VC 593N Opera Theater (Opera NJ) 1 Credits

1 Credit hour.

VC 593R Opera Theater (Role) 2 Credits

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

VC 593T Opera Theater (Tech) 1 Credits

This course involves preparation and performance of a role or in the chorus of a fully staged opera production. Open only by audition. May be repeated for credit.

VC 621 Oratorio Solo Literature 3 Credits

A performance course surveying solo and ensemble portions of oratorios, masses, passions, and cantatas from the early Baroque period to the present, with emphasis on appropriate performance techniques for stylistic integrity.

VC 627 Opera Literature I 3 Credits

Study of the development of opera from 1600 through the Napoleonic era (ca. 1815), with emphasis on performance practices, singing styles, libretti, the role of the orchestra, and the historical, political and sociological milieu in which the operas were written.

VC 628 Opera Literature II 3 Credits

Study of the development of opera from the early 19th century to the present, with emphasis on performance practices, singing styles, libretti, the role of the orchestra, and the historical, political and sociological milieu in which the operas were written.

VC 633 Seminar in Opera Literature 3 Credits

An intensive study of an area of opera literature. The specific content of this course will change from semester to semester. Emphasis is placed upon in-depth study of the works of a selected composer or of a specific genre of opera.

VC 635 Seminar in Song Literature 3 Credits

An intensive study of some area of art song history and literature. The specific content of this course will change from semester to semester. Emphasis is placed upon in-depth study of the selected repertoire.

VC 641A Voice Primary 2 Credits

2 Credit hours.

VC 641B Voice Primary 1 Credits

1 Credit hour.

VC 641C Voice Elective 2 Credits

2 Credit hours.

VC 641D Voice Elective 1 Credits

1 Credit hour.

VC 641E Voice Primary 2 Credits

2 Credit hours.

VC 641F Voice Primary 1 Credits

1 Credit hour.

VC 650 Pedagogy Thesis 1 Credits

Under faculty supervision, students design and execute a significant research project exploring an aspect of voice that can be measured and evaluated through the analysis instruments in the Westminster Voice Laboratory. Students with special interests in speech pathology or voice therapy may elect to visit the clinics of medical voice specialists in the area who have an association with Westminster. Students register for this course in every semester or summer term in which assistance is provided by the thesis advisor.

VC 655A Voice Primary 2 Credits

2 Credit hours.

VC 655B Voice Primary 1 Credits

1 Credit hour.

VC 655E Voice Primary 2 Credits

2 Credit hours.

VC 655F Voice Primary 1 Credits

1 Credit hour.

VC 657 Private Coaching 2 Credits

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 657 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 658 involves weekly half-hour lessons and a fee of \$600. Open to graduate Voice Pedagogy and Performance majors.

VC 658 Private Coaching 1 Credits

Individual coaching sessions for singers on musical style, interpretation, ensemble, languages, and presentation. Registration for VC 657 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 658 involves weekly half-hour lessons and a fee of \$600. Open to graduate Voice Pedagogy and Performance majors.

VC 661 German Lieder 3 Credits

This survey of the German Lieder begins with its roots in the 17th and 18th centuries and continues into the 20th century. Classes will involve study of Romanticism, including philosophers and poets of the 18th and 19th centuries who were important for German Lieder. The bulk of the class involves in-depth study of the Lieder of the important composers of the genre: Haydn, Mozart, Schubert, Robert and Clara Schumann, Mendelssohn, Liszt, Brahms, Wolf, Strauss, Mahler, Schoenberg, Berg, and Webern. Class sessions will involve a balance of lecture, discussion, and student performance.

VC 662 French Melodie 3 Credits

This course is designed as a survey of the song literature of France. Students examine works for voice and piano/instruments by Berlioz, Gounod, Saint-Saëns, Bizet, Faure, Duparc, Chausson, Debussy, Ravel, Messaien, Milhaud, Poulenc, and others, analyzing their relationship to larger stylistic, social, and musicological trends. Investigation will include matters of prosody, scansion, and compositional organization, with particular attention given to matters of text setting and poetic treatment. Special emphasis will be placed on important French language poets whose literary works serve as the basis for this material. Poets will include Baudelaire, Verlaine, Hugo, Rimbaud, Mallarmé, LaForgue, Maeterlinck, and others. Poetic history and form will be covered as well as important composer/poet partnerships. Class sessions will involve a balance of lecture and discussion. Works by both well-known and lesser-known composers will be included.

VC 667 Private Dramatic/Role Coaching 2 Credits

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 667 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 668 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

VC 668 Private Dramatic/Role Coaching 1 Credits

Individual dramatic coaching sessions for singers on operatic role study and/or audition preparation. Students will provide their own accompanists as needed. Registration for VC 667 involves weekly hour-length lessons and a fee of \$1,200. Registration for VC 668 involves weekly half-hour lessons and a fee of \$600. May be repeated for credit.

VC 690 Independent Research and Study 1-3 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-3 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to the first day of the semester in which the project is to be completed. Minimum cumulative GPA of 3.0 required.

Prerequisite(s): graduate standing.

VC 705 Grad Voice Rep:Italian/French 1 Credits

This class is a performance seminar focusing on the synthesis of musical line and linguistic inflection. Elements of tonal color, frequency, vowel purity and rhythm will be practiced in each class session as individual students perform selections from the literature. Repeatable for credit only if space is available AND by permission of the Chair.

VC 706 Grad Voice Rep:German/English 1 Credits

This class is a performance seminar focusing on the synthesis of musical line and linguistic inflection. Elements of tonal color, frequency, vowel purity and rhythm will be practiced in each class session as individual students perform selections from the literature. Repeatable for credit only if space is available AND by permission of the Chair.

VC 722 Literature for Teaching 3 Credits

A survey of graduated teaching literature for beginning, intermediate and advanced voice students. Literature will be explored that is particularly well-suited to specific vocal issues (e.g. legato, coloratura, staccato, etc.)

Prerequisite(s): VC 723, VC 724.

VC 723 Voice Ped I: Voice Science 3 Credits

Study of voice anatomy and physiology with concentration on respiration, phonation, articulation, hearing and vocal health. Through hands-on experience in the Westminster Voice Laboratory, students explore the physics of sound, the fundamentals of musical acoustics, and acoustical elements that are unique to the human voice. Priority registration is given to M.V.P. majors and M.M. students majoring in Voice Performance and Pedagogy. Other students may enroll on a space-available basis.

VC 724 Voice Ped II: Methods 3 Credits

A comparative study of various pedagogical methods and ideals. A wide range of important historical and contemporary pedagogy treatises is reviewed. Students explore exercises and vocalises for general voice development as well as techniques to address and correct specific vocal problems. Role-playing exercises are used to develop appropriate listening and teaching skills. Class participants begin supervised instruction of a volunteer singing student.

Prerequisite(s): VC 723.

VC 725 Voice Ped III: Tchng Practicum 3 Credits

Communication skills are explored and students develop a systematic approach to studio voice instruction. Each student is assigned at least two voice students (one adult and one teenager) to be taught both inside and outside of class. Emphasis is placed on becoming familiar with all voice classifications and basic vocal literature.

Prerequisite(s): VC 723.

VC 726 Voice Research 3 Credits

Peer reviewed research in voice is evaluated and research methodologies are explored. Class projects include research in historical, qualitative, quantitative, and mixed methods approaches.

VC 730 The Singing Actor: Opera 3 Credits

This course entails coaching of selected songs, arias or repertoire from music theater, and techniques for performance preparation through intensive research. A final written project involves a musical and dramatic analysis of all chosen repertoire.

VC 731 Opera Auditions: Prep & Tech 2 Credits

This class will explore the many facets of preparing an audition for an opera role, apprentice program, or competition. At least three to four arias in contrasting styles and languages should be prepared for work in class. Areas to be addressed include vocal and dramatic presentation, networking, resume building, make-up, and photo advice. In coordination with the Office of Career Services, panel discussions with invited guests that will explore specific career-related topics will be scheduled.

Prerequisite(s): permission of the applied instructor.

VC 753 Spec Topics in Voice Perf Prac 3 Credits

Intensive performance coaching and lectures in the form of master classes where performance practice in selected topics will be taught by current faculty or distinguished alumni and specialists in their fields.

Prerequisite(s): permission of the applied instructor.

VC 791 Teaching Internship 2 Credits

Teaching internship with a master teacher(s). The student will teach under faculty observation and supervision, including follow-up private discussion with the observer. In addition, students themselves observe group and private lessons and are given readings, written assignments, and/or projects associated with their own teaching. May be offered on an intensive basis in conjunction with Westminster Summer Session events, such as The High School Solo Vocal Artist and/or Vocal Institute.

Musical Theatre/Voice Primary (B.F.A)

Program Overview

The music theatre major at Rider prepares students for a professional career in musical theatre with veteran faculty and regular interface with top industry professionals. This program is provided in a nurturing liberal arts environment just one hour from New York City at Rider's Lawrenceville campus.

The musical theatre program offers development of well-rounded, competitive musical theatre professionals. Rider's professional musical theatre faculty members are committed to developing students' talents and technique in all areas — vocal, dance and acting — preparing them to succeed in the highly competitive world of professional musical theatre. Rider musical theatre majors enjoy affordable, student-sponsored Broadway performance trips, special student discounts, class-related Broadway field-trips and backstage tours or just a quick visit via the nearby train.

General Requirements

B.F.A.—Musical Theatre majors must earn a minimum grade of “B-” each semester in the primary applied music field in order to make satisfactory progress. If a grade of “C+” or lower is earned, the student must repeat the semester.

Students must meet attendance and performance requirements in studio performance classes and Musical Theatre Lab.

Applied Music – Voice Primary Study

Students in the B.F.A.-Musical Theatre degree must register for applied music in each semester of study, to a maximum of eight semesters. Six terms are taken under MUS 168A (2-credit, 1-hour lesson) and two semesters are taken under MUS 168B (1-credit, half-hour lesson). The section number corresponds to the instructor with whom the student will study.

Musical Theatre Lab

All majors are required to attend a weekly musical theatre lab during every semester of enrollment. The lab supplements curricular instruction with presentations by guest artists, managers, agents, and casting directors. This interface provides each student with an opportunity for interaction with some of the most important professionals in the musical theatre business.

Performing Opportunities at Rider University

The musical theatre program offers three fully staged productions led by faculty and experienced and notable directors, conductors and choreographers from the professional community. The Theatre and Dance Department also offers a well-established theatre program that provides additional performing opportunities in three major productions. Majors also are encouraged to participate in student-directed and produced events, presented each year on both campuses. The Voice Department at the Westminster campus offers two Opera Theater productions each year. Both are open by audition to all Rider University students except first-semester freshmen. Consult the Musical Theatre Handbook for the Audition Policy.

Courses and Description

MTR 105 Musical Theatre Practicum 1 Credits

This course explores the literature of musical theatre vocal ensembles. It emphasizes examining a wide range of styles. This is a studio/academic class, not a performance ensemble.

MTR 109 Ballet I 1 Credits

This course introduces the basic elements of ballet technique. Technique is based on the five positions of the legs and feet, coupled with appropriate arm positions. The class consists of a basic ballet barre warm-up that includes stretching and developing strength and turn-out used in dance positions and combinations. Instruction includes jumping, turning, and connecting steps with movement. Ballet terminology is addressed.

MTR 110 Ballet II 1 Credits

Continuation of MTR 109, building upon techniques learned in that course.

Prerequisite(s): MTR 109.

MTR 111 Musical Theatre Lab 0 Credits**MTR 120 Hist of American Music Theater 3 Credits**

The history of the American Musical from the first American production in 1750 of Gay's The Beggar's Opera up to the present will be traced. Emphasis will be placed upon those common elements which are solely intrinsic to the American stage. Developments and imported ideas (e.g., The British Invasion) will be highlighted.

MTR 131 Music Theory for MT 3 Credits

Teaches students to understand musical form, structure, melody, rhythm and harmony by applying these concepts to musical theatre literature. Includes full analysis of musical theatre songs. Required in the first year.

MTR 132 Group Piano 1 Credits

Offers the musical theatre student appropriate keyboard technique to play any vocal part and to play a rudimentary accompaniment. Required of all second-year students.

Prerequisite(s): MTR 131.

MTR 133 Sight Singing for MT 3 Credits

Intensive class in reading music, designed for musical theatre students. Traditional solfeggio techniques used with musical theatre texts whenever possible. Required of first-year students.

Prerequisite(s): MTR 131.

MTR 207 Music Theater Vocal Coaching 3 Credits

Vocal coaching and repertoire preparation with a focus in developing the skill sets required to research and prepare music theater repertoire. Special emphasis is given to creating and maintaining the professional audition book. Open to music theater majors only.

Prerequisite(s): MTR 101.

MTR 209 Tap Dance I 1 Credits

Introduction to the basic elements of tap dancing. Tap technique is geared to enhance rhythm and motor skills, basic elements that will be used to connect several steps and movements into combinations. Other variations such as "soft shoe" or "clogging" are included.

MTR 210 Tap Dance II 1 Credits

Continuation of MTR 209. Combinations most often used in music theater productions are emphasized.

Prerequisite(s): MTR 209.

MTR 211 Ballet III 1 Credits

Intermediate ballet, expanding upon Ballet II and concentrating upon the American lineage of ballet training.

Prerequisite(s): MTR 110.

MTR 212 Ballet IV 1 Credits

Continuation of MTR 211. Intermediate ballet, expanding upon Ballet III and concentrating upon the American lineage of ballet training.

Prerequisite(s): MTR 211.

MTR 215 MT Performance: Song as Text 3 Credits

In this course the student will learn how to develop a performance of musical text by making doable, actable choices and applying those choices to musical monologues – solo songs.

Prerequisite(s): THE 110.

MTR 216 Acting for Music Theater I 3 Credits

This professional skills course, intended for music theater majors, builds upon the student's previous acting training. Through various exercises and activities (both individual and group), the student will begin to develop a clear method for preparation that addresses first their own instrument, and then (through various methods of analysis) the character and the play. Students will begin to utilize and apply the studied techniques and exercises to simple monologues and a scene. Behavioral truth will precede the more sophisticated studies of emotional truth.

MTR 217 Acting for Music Theater Major II 3 Credits

Continuation of MTR 216. Methods for preparation are expanded as students learn and experience techniques for exploring and developing characters. This semester will focus on the application of the skills and acting techniques studied in the first semester to the needs of dramatic and sung material. Students are expected to synthesize content and skills acquired in the Speech for the Actor, Body Awareness and Movement classes.

Prerequisite(s): MTR 216.

MTR 218 Musical Theatre Scene Study I 3 Credits

Scene study class exploring the literature of the musical theatre – emphasis placed on two- and three-character scenes. Required of all second-year students.

Prerequisite(s): THE 208.

MTR 219 Musical Theatre Scene Study II 3 Credits

Further exploration of scenes in the musical theatre literature – emphasis on more complex scenes. Required of all third-year students.

Prerequisite(s): MTR 218.

MTR 251 Styles and Genres I 3 Credits

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Standard, Classical, and Traditional periods of musical theater. Composers to be studied will include Rodgers and Hammerstein, Lerner and Loewe, Kern, Berlin, Gershwin, Porter, Arlen, Blitstein and Weill.

Prerequisite(s): MUS 111, MUS 111L, THE 107, MTR 216.

MTR 252 Styles and Genres II 3 Credits

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary (Non-Pop/Rock) period of music theater. Composers to be studied will include Sondheim, Styne, Kander and Ebb, Guettel, Matby and Shire, and Bernstein.

Prerequisite(s): MUS 111, MUS 111L, THE 107, MTR 216.

MTR 253 Styles and Genres III 3 Credits

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary, Pop/Rock period of music theater. Composers to be studied will include Webber, Schwartz, Fenn, Flaherty, Menkin, Brown, LaChiusa, and Lipppa.

Prerequisite(s): MUS 111, MUS 111L, THE 107, MTR 216.

MTR 255 Musical Theatre Repertoire I 3 Credits

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers through the 1950s. The thrust of this class is split between studio work and academic work.

Prerequisite(s): THE 106, THE 208.

MTR 256 Musical Theater Repertoire II 3 Credits

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers since the 1950s. The thrust of this class is split between studio work and academic work.

Prerequisite(s): THE 106, THE 108.

MTR 307 Tap III 1 Credits

This course is designed for the moderately advanced tap dancer. Course to be taken in the fall.

Prerequisite(s): MTR 210.

MTR 308 Tap IV 1 Credits

The course will allow the more advanced student to complete the work begun in Tap III.

Prerequisite(s): MTR 307.

MTR 309 Jazz Dance I 1 Credits

Based upon the ballet foundation, this course explores the expressive style of jazz dance, and basic Western theatrical dance forms and social dances used most often on the stage.

Prerequisite(s): MTR 109.

MTR 310 Jazz Dance II 1 Credits

Continuation of work begun in MTR 309.

Prerequisite(s): MTR 309.

MTR 311 Jazz Dance III 1 Credits

This course continues the work begun in MTR 309 and 310.

MTR 312 Jazz Dance IV 1 Credits

This course completes the work begun in MTR 309, MTR 310 and MTR 311.

Prerequisite(s): MTR 311.

MTR 313 Ballet V 1 Credits

Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

Prerequisite(s): MTR 212.

MTR 314 Ballet VI 1 Credits

Continuation of MTR 313. Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

Prerequisite(s): MTR 313.

MTR 317 MT Auditions:Preparation/Tech 3 Credits

This course, building upon skill-sets established in the Music Theatre singer-actor curriculum, will introduce and hone the required skill-sets for preparing to audition in Music Theatre. Genres and styles of music most often required for auditioning in the industry will be prepared and explored. An audition “book,” based upon the demands of the industry, as well as the most suitable material for each student will be built. When appropriate, guests from the industry will be invited to present master classes and evaluations in a “mock audition” process.

Prerequisite(s): MTR 207, MTR 216, MTR 217, MTR 492.

MTR 335 Speech for the Actor 3 Credits

This course introduces and develops speech techniques, specifically in the areas of relaxation, posture and alignment, respiration, phonation, support, registration, resonance, and articulation. Students learn to consistently produce a free, resonant, fully supported speaking voice. Exercises will increase flexibility and range of speaking and will foster heightened responsiveness to feeling. Regular practice in the delivery of both impromptu and prepared monologues is required. This course includes studies in Neutral American Speech.

MTR 402 Directing Music Theater/Opera 3 Credits

This elective course investigates how conceptual ideas and the process of script analysis are used in putting together a music theatre production for performance. Instruction includes staging ideas and elements needed for a complete production. Other theatrical aspects of choreography, properties, costumes, lighting, and set design are addressed. It is recommended that students complete MTR 496 before taking MTR 402.

MTR 411 Musical Theatre Ensemble 1 Credits**MTR 415 Broadway Styles I 1 Credits**

First capstone course in the Musical Theatre dance sequence. Practical and historical study of Broadway dance styles; main focus on jazz idiom. Emphases placed on technique, performance quality, and auditioning skills.

Prerequisite(s): Completion of Ballet, Tap, and Jazz requirements; senior standing.

MTR 416 Broadway Styles II 1 Credits

Second capstone course in the Musical Theatre dance sequence. Continuing study of Broadway dance styles. Emphasis is placed on technique, performance quality, and auditioning skills.

Prerequisite(s): MTR 416.

MTR 480 Dance for Performing Artist 3 Credits

This course is a culmination of the dance elements and forms studied in ballet, tap, and jazz dance. Context areas include movement used most often in performance of music theater and movement fundamentals applicable to all aspects of presentation and principle to refine and articulate the performer’s awareness and use of the body through singing and dance. Performance issues and movement as a basis for music and sound production are addressed.

Prerequisite(s): MTR 209, MTR 309.

MTR 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

MTR 491 Internship in Music Theater 1-12 Credits

Provides junior or senior musical theatre majors with the opportunity to gain practical experience working within a professional environment. Students must be sponsored by a musical theatre or theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

MTR 492 Singing Actor: Music Theater 3 Credits

This semester combines all dramatic and musical studies to create an authentic and believable character that is both emotionally truthful and musically expressive. Music is studied as “script” and dramatic choices are prepared in relationship to all elements present in the score.

Prerequisite(s): MTR 216 and MTR 217.

MTR 493 Music Theater Production 1 Credits

Preparation and performance of a solo or ensemble role in a fully staged music theatre production. Concurrent participation in stage crew activities is required.

MTR 493T MTR Production (tech) 1 Credits**MTR 496 Music Theater Workshop 3 Credits**

This class, building upon the foundational studies associated with preparation and exploration (both dramatic and musical), focuses on performances. Students are taught methods for synthesizing all former training in acting, music, and movement to the needs of the character and the play/score. Each student fully prepares at least two complete roles from the music theater repertoire. The class culminates in a performance of scenes—the Junior Cabaret!

Prerequisite(s): MTR 216, MTR 217, MTR 492.

MTR 511 Music Theater Ensemble 1 Credits

The performance-based, auditioned music theater ensemble engages multiple singers/actors/dancers in performance, utilizing scenes from music theater literature as the primary material. Emphasis is placed upon group interaction and building an ensemble. This ensemble often is asked to perform for University sponsored events.

MUS 105 Survey of Music History I 3 Credits

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 106 Survey of Music History II 3 Credits

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 109S Basic Music Theory 3 Credits

This is a beginner’s course in music theory. It familiarizes the student with the basic elements (e.g., staff, clefs, time signatures, musical notation, intervals, triads and chords). This course is ideal for both the student wanting to know only the essential, or the student wanting to go on to develop their theoretical skills. For non-music majors, MUS 109S counts toward graduation and grades are awarded on an A-F basis. For music majors, MUS 109S does not count toward graduation, and grading is on a pass (“Y”) or fail (“Z”) basis.

MUS 110 Music Theory I 3 Credits

A practical introduction to the basic elements of music, beginning with the reading of music notation. Practice in scales and chords; ear-training in rhythm and pitch. Techniques may be applied to the student's own instrument (e.g., guitar, piano, winds) if he or she plays one. Prerequisite(s): MUS 109S or placement.

Corequisite(s): MUS 110L.

MUS 110L Music Theory I Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 110 (Music Theory I). Prerequisite(s): MUS 109S or placement.

Corequisite(s): MUS 110.

MUS 111 Music Theory II 3 Credits

Continuation of MUS 110, leading to some original composition. Prerequisite(s): MUS 110 and MUS 110L.

Corequisite(s): MUS 111L.

MUS 111L Music Theory II Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 111 (Music Theory II). Prerequisite(s): MUS 110 and MUS 110L or placement.

Corequisite(s): MUS 111.

MUS 120 Music and Society 3 Credits

Introduction to the basic elements of music (rhythm, melody, harmony, etc.) and the appreciation of representative types of music from all historical periods.

MUS 127 Instrumental Ensemble- Band 1 Credits

Ensemble rehearsal and performance of traditional and current concert band music. Maximum of eight credits are accepted in band, choir, and/or theater production.

MUS 128 Choir 1 Credits

Rehearsal and performance of multi-era Western and non-Western repertoire. Instruction in music fundamentals and vocal production. Pitch matching and part-singing abilities must be demonstrated in the first-week sectional hearing.

MUS 130 Music in Children's Lives 3 Credits

Students in this course will study how music interacts in the lives of children as they sing, listen, play instruments and move. Song repertoire and selections for listening and moving from the American, European and non-Western cultures will be introduced. Playing recorder as well as pitched and non-pitched percussion instruments will be demonstrated.

MUS 131 Beginning Piano I 3 Credits

Class approach to learning to play the piano. How to read music, basic piano technique, and appropriate piano pieces and songs are studied.

MUS 132 Beginning Piano II 3 Credits

Continuation of MUS 131. Emphasis on further development of technique and the ability to interpret piano music from a variety of styles.

Prerequisite(s): MUS 131 or equivalent.

MUS 150A Applied Flute 2 Credits**MUS 150B Applied Flute 1 Credits****MUS 150C Applied Flute 2 Credits****MUS 150D Applied Flute 1 Credits****MUS 151A Applied Oboe 2 Credits****MUS 151B Applied Oboe 1 Credits****MUS 151C Applied Oboe 2 Credits****MUS 151D Applied Oboe 1 Credits****MUS 152A Applied Clarinet 2 Credits****MUS 152B Applied Clarinet 1 Credits****MUS 152C Applied Clarinet 2 Credits****MUS 152D Applied Clarinet 1 Credits****MUS 153A Applied Bassoon 2 Credits****MUS 154A Applied Saxophone 2 Credits****MUS 155A Applied French Horn 2 Credits****MUS 156A Applied Trumpet 2 Credits****MUS 156B Applied Trumpet 1 Credits****MUS 156C Applied Trumpet 2 Credits****MUS 156D Applied Trumpet 1 Credits****MUS 157A Applied Trombone 2 Credits****MUS 158A Applied Euphonium 2 Credits****MUS 159A Applied Tuba 2 Credits****MUS 160A Applied Guitar 2 Credits****MUS 160B Applied Guitar 1 Credits****MUS 160C Applied Guitar 2 Credits****MUS 160D Applied Guitar 1 Credits****MUS 160E Applied Guitar 2 Credits****MUS 161A Applied Violin 2 Credits****MUS 161C Applied Violin 2 Credits****MUS 161E Applied Violin 2 Credits****MUS 161G Applied Violin 2 Credits****MUS 162A Applied Viola 2 Credits****MUS 163A Applied Cello 2 Credits****MUS 164A Applied String Bass 2 Credits****MUS 164B Applied String Bass 1 Credits****MUS 164C Applied String Bass 2 Credits****MUS 164D Applied String Bass 1 Credits****MUS 165A Applied Piano 2 Credits****MUS 165B Applied Piano 1 Credits****MUS 165C Applied Piano 2 Credits****MUS 165D Applied Piano 1 Credits****MUS 166A Applied Organ 2 Credits****MUS 167A Applied Percussion 2 Credits****MUS 167B Applied Percussion 1 Credits****MUS 167C Applied Percussion Elective 2 Credits****MUS 167D Percussion Elective 1 Credits****MUS 168A Applied Voice 2 Credits****MUS 168B Applied Voice 1 Credits**

MUS 204 Jazz History 3 Credits

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

Prerequisite(s): CMP 120 or LL 131.

MUS 205 History of Pop and Rock Part I 3 Credits

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

MUS 206 History of Pop and Rock Part 2 3 Credits

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

MUS 207 Masterworks in Music 3 Credits

Major works by great composers from different historical periods Mozart, Beethoven, Brahms, and Wagner, among others are studied. Up to 10 compositions by six composers are covered, with an emphasis on listening to recorded and live performances of representative works.

MUS 208 Music of the Theater 3 Credits

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

MUS 209 Great Composers 3 Credits

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

MUS 210 Music Theory III 3 Credits

Analysis of musical forms, including binary, rounded binary, ternary, and popular song. Identification of techniques that support musical form, including harmonic language, contrast/repetition, compositional process. Advanced sight singing and aural drills.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 211 Music Theory for Music Theater 3 Credits

Analysis of music theater songs, scenes and scores. Various techniques, placement of examples into historical, musical, artistic, and literary perspective. Reading of full and piano/vocal scores, conducting, orchestration and harmonic language will be emphasized.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 212 Cartoon and Anime Culture 3 Credits

This course investigates the music and culture of animated films and television shows, anime, animated shorts including cartoons, and related incidental music for documentary films.

MUS 213 Digital Comp of Pop Music I 3 Credits

This course is about "the doing of music". It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music.

MUS 214 Writing about Music 3 Credits

This course instructs students in the art of writing about music, from small-form criticism to large scale scholarship, focusing especially on the ability to translate what one hears into engaging prose.

Prerequisite(s): CMP 120 and 125, MUS 110, 110L and 213.

MUS 215 Music & Techn/Mobile Society 3 Credits

This course compares the recent history of music technology to past innovations, focusing on the aesthetic implications and ideological influences of an increasingly mobilized musical milieu.

MUS 216 Digital Comp of Pop Music II 3 Credits

This course is about "the doing of music." It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music, continuing the content begun in The Digital Composition of Popular Music I.

MUS 217 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip-hop and everything in between.

MUS 218 Postmodernism & Populr Culture 3 Credits

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

MUS 233 Intermediate Piano 3-12 Credits

Continuation of MUS 132 with further development of reading skills, piano techniques and interpretation. Each student studies a set of pieces selected together with the instructor tailored specifically to the students' needs and interests.

MUS 300 Beethoven and the Romantic Age 3 Credits

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

MUS 303 Music Literature: Baroque Era 3 Credits

A survey of European musical styles from c. 1600 to 1750, approached by listening to the music of the period, including Bach, Handel, and many lesser known masters. Topics include the development of modern musical sound, instrumental forms, Lutheran and Catholic church music, and the beginnings of dramatic music.

MUS 304 Music of the Beatles 3 Credits

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

MUS 305 Words and Music 3 Credits**MUS 306 Contemp Music Experience 3 Credits**

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

MUS 307 The Music of Radiohead 3 Credits

This course investigates the music, lyrics, art and marketing strategies of the British so called "alternative" band, Radiohead, moving song by song through their demos, videos and albums.

MUS 308 World Music 3 Credits

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures.

MUS 309 Film Music 3 Credits

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

MUS 312 The Arts Abroad 3 Credits

A two week trip abroad that includes a critical study of music and theater. Students are required to attend all performances, guided tours, and classes before and after the trip.

MUS 315 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip hop and everything in between.

MUS 350A Applied Flute 2 Credits**MUS 350B Applied Flute 1 Credits****MUS 351A Applied Oboe 2 Credits****MUS 351B Applied Oboe 1 Credits****MUS 352A Applied Clarinet 2 Credits****MUS 353A Applied Bassoon 2 Credits****MUS 354A Applied Saxophone 2 Credits****MUS 355A Applied French Horn 2 Credits****MUS 356A Applied Trumpet 2 Credits****MUS 356B Applied Trumpet 1 Credits****MUS 357A Applied Trombone 2 Credits****MUS 358A Applied Euphonium 2 Credits****MUS 359A Applied Tuba 2 Credits****MUS 360A Applied Guitar 2 Credits****MUS 360B Applied Guitar 1 Credits****MUS 361A Applied Violin 2 Credits****MUS 362A Applied Viola 2 Credits****MUS 363A Applied Cello 2 Credits****MUS 364A Applied String Bass 2 Credits****MUS 364B Applied String Bass 1 Credits****MUS 365A Applied Piano 2 Credits****MUS 365B Applied Piano 1 Credits****MUS 366A Applied Organ 2 Credits****MUS 367A Applied Percussion 2 Credits****MUS 368A Applied Voice 2 Credits****MUS 368B Applied Voice 1 Credits****MUS 368C Applied Voice 2 Credits****MUS 368E Applied Voice 2 Credits****MUS 369A Applied Composition 2 Credits****MUS 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing; good academic standing.

MUS 491 Internship in Music 1-4 Credits

Provides junior or senior music majors with the opportunity to gain practical experience working within a professional music environment. Students must be sponsored by a music professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

MUS 493 Selected Topics in Music Perf 3 Credits

Intensive study of a particular topic in applied music for the intermediate to advanced student. Students are led to understand the historic and aesthetic elements in music through critical listening, performance, research, and class projects.

MUS 495 Selected Topics in Music 3 Credits

Studies specialized aspects of the literature, history, or theory of music, to supplement the established curriculum. Emphasis on creative investigative work and individual experiences in music.

MUS 498 Popular Music Culture Capstone 3 Credits

The capstone is an independent, student-led project resulting in a material product (recording/performance/event/presentation) that demonstrates a student's interests and skills in the area of popular music.

MUS 499 Senior Honors Program 3 Credits

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

THE 105 Theatre History to 1700 3 Credits

The history of theater from the primitive time through the Baroque era. Examines major plays and playwrights, emphasizing the Greek, Roman, Medieval, and Elizabethan eras.

THE 106 Theater History Since 1700 3 Credits

The history of theater from the Restoration to the present. Examines major plays and playwrights, emphasizing the Restoration, Romantic, and Realistic movements.

THE 107 Acting I: Intro to Acting 3 Credits

Exercises and improvisations developing the fundamental prerequisites for the actor are provided. The emphasis is on vocal and physical mobility and the ability to communicate emotional states from the stage.

THE 110 Acting II: Scene Study 3 Credits

Basic acting techniques. Emphasis on the ingredients of any action: what am I doing, where, why, who am I, what is my attitude toward partner?

Prerequisite(s): THE 107.

THE 111 Theatre Lab 0 Credits

This class serves as a forum for students to cultivate practical professional skills. Through seminars, guest speakers and master classes, this lab will give the students necessary tools to enter the professional theater. Theater majors must meet the weekly attendance and participation requirements during every semester up to a total of six.

THE 115 Stagecraft 3 Credits

The theory and practice of construction and rigging of stage scenery is offered. Emphasis is on actual productions and road show set-ups. One lecture and two labs per week.

THE 120 Theater Appreciation 3 Credits

By exploration of dramatic literature, conclusions are drawn as to man's relationship to his particular period, style, political, social, and psychological environment. Appreciation of the theatrical event is included.

THE 127 Theatre Production 1 Credits

Students rehearse and perform roles in a play produced by the department and directed by a member of its faculty. Students may also prepare a major element of design or technology for the production. Maximum of eight credits are accepted in theatre production, band and/or choir.

THE 127T Theatre Production Tech 1 Credits**THE 199 The Arts in Contemporary Civil 3 Credits**

An integrated study of the arts and their place in contemporary American life. Includes attendance at several events in art, music, and drama.

THE 208 Acting III Advanced Scene Study 3 Credits

Students will study in-depth techniques for exploring characterization. They will be introduced to the "magic if" and study techniques for placing themselves in the circumstances of the characters they are portraying. They will learn the interior and exterior analysis of characters using "Adler" and "Practical Aesthetics" techniques.

Prerequisite(s): THE 107, THE 110.

THE 209 Acting IV: Styles of Acting 3 Credits

Students will learn the appropriate techniques to explore characters in the three styles of Elizabethan, Restoration, and Commedia dell'arte theatre. Sessions will include movement, effective speech, and finding appropriate actions for each style. Students will also learn proper research techniques to understand cultural influences on plays and characters.

Prerequisite(s): THE 107, THE 110, THE 208.

THE 217 Principles of Stage Design 3 Credits

The study and application of design principles as related to the stage. Incorporates the design process, decor research, styles, materials, and construction technology.

THE 218 Stage Lighting 3 Credits

The theory and practice of stage lighting as utilized in concept, dance, and theatre. Considers the nature of light, controlling light, color theory, electricity, electrical safety, and lighting design.

Prerequisite(s): THE 115.

THE 220 Movement for the Actor 3 Credits

This course is an introduction to movement training methodologies, and emphasizes physical awareness and expressivity as it relates to development of character.

Prerequisite(s): THE 107, Open to Theater majors or minor, or by permission of the instructor.

THE 221 Voice for the Actor 3 Credits

Focuses on exploration of the basic principles of vocal production and cultivating natural expressivity of the voice. Class work is based upon the classic progression of voice exercises of Kristin Linklater.

Prerequisite(s): THE 107; Open to Theatre majors or minor, or by permission of the instructor.

THE 222 Speech and Dialects for the Actor 3 Credits

Focuses on exploration of the International Phonetic Alphabet (IPA) and the use of the IPA in learning dialects (including Standard Neutral American) for the stage.

Prerequisite(s): THE 107; Open to Theater majors or minor, or by permission of the instructor.

THE 240 Script Analysis 3 Credits

This course provides students with a technique for analyzing any text by breaking down scenes into objectives, conflicts, beats, activities and subtext, allowing the actor to construct an approach to finding character.

Prerequisite(s): THE 107.

THE 300 Acting for the Camera 3 Credits

Focuses on the craft and artistry of acting in television and film. Examination of TV production and the styles needed for work in various media will be discussed. Physicalization, simplicity, listening, marking and other technical requirements will be explored. Staging involving different camera angles will be rehearsed. The emphasis of this class is on adapting the performance to the special needs of the camera.

Prerequisite(s): THE 107.

THE 306 American Theatre History 3 Credits

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions. Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

THE 307 Contemporary American Theater 3 Credits

Today's most influential theatre artists are discussed. Focusing on playwrights, the form and content of dramatic literature considered most significant today are examined along with recent innovations in design and staging practices.

THE 308 Modern Drama 3 Credits

Surveys American and European drama from 1920 to 1970. All plays are read in English translation. In these plays, theatrical artists address the great themes of this century. While doing so, they also expand the limits of theatrical expression.

THE 310 Acting III 3 Credits

Students will study in-depth techniques for exploring characterization. They will be introduced to the "magic if" and study techniques for placing themselves in the circumstances of the characters they are portraying. They will learn the interior and exterior analysis of characters using "Adler" and "Practical Aesthetics" techniques.

Prerequisite(s): THE 107, THE 110.

THE 311 Acting IV 3 Credits

Students will learn the appropriate techniques to explore characters in the three styles of Elizabethan, Restoration, and Commedia dell'arte theatre. Sessions will include movement, effective speech, and finding appropriate actions for each style. Students will also learn proper research techniques to understand cultural influences on plays and characters.

Prerequisite(s): THE 107, THE 110, THE 310.

THE 312 The Arts Abroad 3 Credits

A two-week trip abroad that includes a critical study of the music and theatre. Students are required to attend all performances, guided tours, and classes before and after the trip. A travel journal and final paper is required. A travel fee is required. Travel sites and artistic disciplines may vary year to year. May be taken more than once for credit.

Prerequisite(s): Permission of instructor.

THE 400 Directing 3 Credits

The technique of play directing and production management. Lectures present aesthetic and theoretical concepts that are explored in workshops. Each student is required to direct and analyze a one-act play.

Prerequisite(s): THE 107, THE 110, THE 115.

THE 410 Advanced Performance Workshop 3 Credits

An opportunity to work an entire semester on a specific style or period of theatre, e.g., Shakespeare, farce, Readers' Theater.

Prerequisite(s): THE 107, THE 110.

THE 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

THE 491 Internship in Theater 1-12 Credits

Provides junior or senior theatre majors the practical experience of working within a professional theater environment. Students must be sponsored by a theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

THE 495 Selected Topics in Theatre His 3 Credits

Intensive study of a particular topic, such as the work of one dramatic movement, one period in dramatic history, or one nation's history. Students become deeply involved in an area through research, class discussions, and individual consultation with the instructor.

THE 496 Senior Internship 6-12 Credits

THE 499 Senior Honors Program 3 Credits

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Popular Music Culture (B.A)

Program Overview

The popular music culture major presents students with a focused study in 20th- and 21st-century popular music in a unique context that will give them an unrivaled advantage in any professional aspect of popular music.

Students in the program have the opportunity to develop their own groups and to perform and record projects in an interactive and supportive environment. Rider also helps students gain internships that are tailored to their passions and interests.

Students also can get involved with performance groups such as the Concert Band, Rider Choir, Pep Band and student-run ensembles.

Academic Plan of Study

The following educational plan is provided as a sample only. Rider students who do not declare a major during their freshman year; who change their major; or those who transfer to Rider will follow a different plan to ensure a timely graduation. Each student, with guidance from his or her academic advisor, will develop a personalized educational plan.

**** Note that ART 120, MUS 120 or THE 120 do not fulfill any requirements of the major. ****

Total Credit Hours for Graduation 120

MUS 105 Survey of Music History I 3 Credits

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 106 Survey of Music History II 3 Credits

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 109S Basic Music Theory 3 Credits

This is a beginner's course in music theory. It familiarizes the student with the basic elements (e.g., staff, clefs, time signatures, musical notation, intervals, triads and chords). This course is ideal for both the student wanting to know only the essential, or the student wanting to go on to develop their theoretical skills. For non-music majors, MUS 109S counts toward graduation and grades are awarded on an A-F basis. For music majors, MUS 109S does not count toward graduation, and grading is on a pass ("Y") or fail ("Z") basis.

MUS 110 Music Theory I 3 Credits

A practical introduction to the basic elements of music, beginning with the reading of music notation. Practice in scales and chords; ear-training in rhythm and pitch. Techniques may be applied to the student's own instrument (e.g., guitar, piano, winds) if he or she plays one. Prerequisite(s): MUS 109S or placement.

Corequisite(s): MUS 110L.

MUS 110L Music Theory I Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 110 (Music Theory I). Prerequisite(s): MUS 109S or placement.

Corequisite(s): MUS 110.

MUS 111 Music Theory II 3 Credits

Continuation of MUS 110, leading to some original composition. Prerequisite(s): MUS 110 and MUS 110L.

Corequisite(s): MUS 111L.

MUS 111L Music Theory II Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 111 (Music Theory II). Prerequisite(s): MUS 110 and MUS 110L or placement.

Corequisite(s): MUS 111.

MUS 120 Music and Society 3 Credits

Introduction to the basic elements of music (rhythm, melody, harmony, etc.) and the appreciation of representative types of music from all historical periods.

MUS 127 Instrumental Ensemble- Band 1 Credits

Ensemble rehearsal and performance of traditional and current concert band music. Maximum of eight credits are accepted in band, choir, and/or theater production.

MUS 128 Choir 1 Credits

Rehearsal and performance of multi-era Western and non-Western repertoire. Instruction in music fundamentals and vocal production. Pitch matching and part-singing abilities must be demonstrated in the first-week sectional hearing.

MUS 130 Music in Children's Lives 3 Credits

Students in this course will study how music interacts in the lives of children as they sing, listen, play instruments and move. Song repertoire and selections for listening and moving from the American, European and non-Western cultures will be introduced. Playing recorder as well as pitched and non-pitched percussion instruments will be demonstrated.

MUS 131 Beginning Piano I 3 Credits

Class approach to learning to play the piano. How to read music, basic piano technique, and appropriate piano pieces and songs are studied.

MUS 132 Beginning Piano II 3 Credits

Continuation of MUS 131. Emphasis on further development of technique and the ability to interpret piano music from a variety of styles.

Prerequisite(s): MUS 131 or equivalent.

MUS 150A Applied Flute 2 Credits**MUS 150B Applied Flute 1 Credits****MUS 150C Applied Flute 2 Credits****MUS 150D Applied Flute 1 Credits****MUS 151A Applied Oboe 2 Credits****MUS 151B Applied Oboe 1 Credits****MUS 151C Applied Oboe 2 Credits****MUS 151D Applied Oboe 1 Credits****MUS 152A Applied Clarinet 2 Credits****MUS 152B Applied Clarinet 1 Credits****MUS 152C Applied Clarinet 2 Credits****MUS 152D Applied Clarinet 1 Credits****MUS 153A Applied Bassoon 2 Credits****MUS 154A Applied Saxophone 2 Credits****MUS 155A Applied French Horn 2 Credits****MUS 156A Applied Trumpet 2 Credits****MUS 156B Applied Trumpet 1 Credits****MUS 156C Applied Trumpet 2 Credits****MUS 156D Applied Trumpet 1 Credits****MUS 157A Applied Trombone 2 Credits****MUS 158A Applied Euphonium 2 Credits****MUS 159A Applied Tuba 2 Credits****MUS 160A Applied Guitar 2 Credits****MUS 160B Applied Guitar 1 Credits****MUS 160C Applied Guitar 2 Credits****MUS 160D Applied Guitar 1 Credits****MUS 160E Applied Guitar 2 Credits****MUS 161A Applied Violin 2 Credits****MUS 161C Applied Violin 2 Credits****MUS 161E Applied Violin 2 Credits****MUS 161G Applied Violin 2 Credits****MUS 162A Applied Viola 2 Credits****MUS 163A Applied Cello 2 Credits****MUS 164A Applied String Bass 2 Credits****MUS 164B Applied String Bass 1 Credits****MUS 164C Applied String Bass 2 Credits****MUS 164D Applied String Bass 1 Credits****MUS 165A Applied Piano 2 Credits****MUS 165B Applied Piano 1 Credits****MUS 165C Applied Piano 2 Credits****MUS 165D Applied Piano 1 Credits****MUS 166A Applied Organ 2 Credits****MUS 167A Applied Percussion 2 Credits****MUS 167B Applied Percussion 1 Credits****MUS 167C Applied Percussion Elective 2 Credits****MUS 167D Percussion Elective 1 Credits****MUS 168A Applied Voice 2 Credits****MUS 168B Applied Voice 1 Credits**

MUS 204 Jazz History 3 Credits

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

Prerequisite(s): CMP 120 or LL 131.

MUS 205 History of Pop and Rock Part I 3 Credits

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

MUS 206 History of Pop and Rock Part 2 3 Credits

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

MUS 207 Masterworks in Music 3 Credits

Major works by great composers from different historical periods Mozart, Beethoven, Brahms, and Wagner, among others are studied. Up to 10 compositions by six composers are covered, with an emphasis on listening to recorded and live performances of representative works.

MUS 208 Music of the Theater 3 Credits

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

MUS 209 Great Composers 3 Credits

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

MUS 210 Music Theory III 3 Credits

Analysis of musical forms, including binary, rounded binary, ternary, and popular song. Identification of techniques that support musical form, including harmonic language, contrast/repetition, compositional process. Advanced sight singing and aural drills.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 211 Music Theory for Music Theater 3 Credits

Analysis of music theater songs, scenes and scores. Various techniques, placement of examples into historical, musical, artistic, and literary perspective. Reading of full and piano/vocal scores, conducting, orchestration and harmonic language will be emphasized.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 212 Cartoon and Anime Culture 3 Credits

This course investigates the music and culture of animated films and television shows, anime, animated shorts including cartoons, and related incidental music for documentary films.

MUS 213 Digital Comp of Pop Music I 3 Credits

This course is about "the doing of music". It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music.

MUS 214 Writing about Music 3 Credits

This course instructs students in the art of writing about music, from small-form criticism to large scale scholarship, focusing especially on the ability to translate what one hears into engaging prose.

Prerequisite(s): CMP 120 and 125, MUS 110, 110L and 213.

MUS 215 Music & Techn/Mobile Society 3 Credits

This course compares the recent history of music technology to past innovations, focusing on the aesthetic implications and ideological influences of an increasingly mobilized musical milieu.

MUS 216 Digital Comp of Pop Music II 3 Credits

This course is about "the doing of music." It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music, continuing the content begun in The Digital Composition of Popular Music I.

MUS 217 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip-hop and everything in between.

MUS 218 Postmodernism & Populr Culture 3 Credits

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

MUS 233 Intermediate Piano 3-12 Credits

Continuation of MUS 132 with further development of reading skills, piano techniques and interpretation. Each student studies a set of pieces selected together with the instructor tailored specifically to the students' needs and interests.

MUS 300 Beethoven and the Romantic Age 3 Credits

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

MUS 303 Music Literature: Baroque Era 3 Credits

A survey of European musical styles from c. 1600 to 1750, approached by listening to the music of the period, including Bach, Handel, and many lesser known masters. Topics include the development of modern musical sound, instrumental forms, Lutheran and Catholic church music, and the beginnings of dramatic music.

MUS 304 Music of the Beatles 3 Credits

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

MUS 305 Words and Music 3 Credits**MUS 306 Contemp Music Experience 3 Credits**

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

MUS 307 The Music of Radiohead 3 Credits

This course investigates the music, lyrics, art and marketing strategies of the British so called "alternative" band, Radiohead, moving song by song through their demos, videos and albums.

MUS 308 World Music 3 Credits

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures.

MUS 309 Film Music 3 Credits

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

MUS 312 The Arts Abroad 3 Credits

A two week trip abroad that includes a critical study of music and theater. Students are required to attend all performances, guided tours, and classes before and after the trip.

MUS 315 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip hop and everything in between.

MUS 350A Applied Flute 2 Credits**MUS 350B Applied Flute 1 Credits****MUS 351A Applied Oboe 2 Credits****MUS 351B Applied Oboe 1 Credits****MUS 352A Applied Clarinet 2 Credits****MUS 353A Applied Bassoon 2 Credits****MUS 354A Applied Saxophone 2 Credits****MUS 355A Applied French Horn 2 Credits****MUS 356A Applied Trumpet 2 Credits****MUS 356B Applied Trumpet 1 Credits****MUS 357A Applied Trombone 2 Credits****MUS 358A Applied Euphonium 2 Credits****MUS 359A Applied Tuba 2 Credits****MUS 360A Applied Guitar 2 Credits****MUS 360B Applied Guitar 1 Credits****MUS 361A Applied Violin 2 Credits****MUS 362A Applied Viola 2 Credits****MUS 363A Applied Cello 2 Credits****MUS 364A Applied String Bass 2 Credits****MUS 364B Applied String Bass 1 Credits****MUS 365A Applied Piano 2 Credits****MUS 365B Applied Piano 1 Credits****MUS 366A Applied Organ 2 Credits****MUS 367A Applied Percussion 2 Credits****MUS 368A Applied Voice 2 Credits****MUS 368B Applied Voice 1 Credits****MUS 368C Applied Voice 2 Credits****MUS 368E Applied Voice 2 Credits****MUS 369A Applied Composition 2 Credits****MUS 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing; good academic standing.

MUS 491 Internship in Music 1-4 Credits

Provides junior or senior music majors with the opportunity to gain practical experience working within a professional music environment. Students must be sponsored by a music professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

MUS 493 Selected Topics in Music Perf 3 Credits

Intensive study of a particular topic in applied music for the intermediate to advanced student. Students are led to understand the historic and aesthetic elements in music through critical listening, performance, research, and class projects.

MUS 495 Selected Topics in Music 3 Credits

Studies specialized aspects of the literature, history, or theory of music, to supplement the established curriculum. Emphasis on creative investigative work and individual experiences in music.

MUS 498 Popular Music Culture Capstone 3 Credits

The capstone is an independent, student-led project resulting in a material product (recording/performance/event/presentation) that demonstrates a student's interests and skills in the area of popular music.

MUS 499 Senior Honors Program 3 Credits

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Theatre (B.A.)

Program Overview

In addition to a full array of theatre coursework, six main-stage productions each year give students a wide variety of experiences and opportunities. As a theatre major at Rider, students have the choice of pursuing a performance focus or a theatre studies focus. Performance majors receive rich training in preparation for pursuing a career as a professional actor. Theatre studies majors use their degree to pursue careers as: directors, theatre scholars, stage managers, dramaturgs and designers.

Audition or Interview

A satisfactory audition or interview must be completed before a student is accepted into this major. Audition and interview requirements may be found on the Admissions audition website (<http://www.rider.edu/ugauditions>).

Degrees Offered

- B.A. in Theatre Performance
- B.A. in Theatre Studies

Courses and Descriptions

THE 105 Theatre History to 1700 3 Credits

The history of theater from the primitive time through the Baroque era. Examines major plays and playwrights, emphasizing the Greek, Roman, Medieval, and Elizabethan eras.

THE 106 Theater History Since 1700 3 Credits

The history of theater from the Restoration to the present. Examines major plays and playwrights, emphasizing the Restoration, Romantic, and Realistic movements.

THE 107 Acting I: Intro to Acting 3 Credits

Exercises and improvisations developing the fundamental prerequisites for the actor are provided. The emphasis is on vocal and physical mobility and the ability to communicate emotional states from the stage.

THE 110 Acting II: Scene Study 3 Credits

Basic acting techniques. Emphasis on the ingredients of any action: what am I doing, where, why, who am I, what is my attitude toward partner?

Prerequisite(s): THE 107.

THE 111 Theatre Lab 0 Credits

This class serves as a forum for students to cultivate practical professional skills. Through seminars, guest speakers and master classes, this lab will give the students necessary tools to enter the professional theater. Theater majors must meet the weekly attendance and participation requirements during every semester up to a total of six.

THE 115 Stagecraft 3 Credits

The theory and practice of construction and rigging of stage scenery is offered. Emphasis is on actual productions and road show set-ups. One lecture and two labs per week.

THE 120 Theater Appreciation 3 Credits

By exploration of dramatic literature, conclusions are drawn as to man's relationship to his particular period, style, political, social, and psychological environment. Appreciation of the theatrical event is included.

THE 127 Theatre Production 1 Credits

Students rehearse and perform roles in a play produced by the department and directed by a member of its faculty. Students may also prepare a major element of design or technology for the production.

Maximum of eight credits are accepted in theatre production, band and/or choir.

THE 127T Theatre Production Tech 1 Credits

THE 199 The Arts in Contemporary Civil 3 Credits

An integrated study of the arts and their place in contemporary American life. Includes attendance at several events in art, music, and drama.

THE 208 Acting III Advanced Scene Study 3 Credits

Students will study in-depth techniques for exploring characterization. They will be introduced to the "magic if" and study techniques for placing themselves in the circumstances of the characters they are portraying. They will learn the interior and exterior analysis of characters using "Adler" and "Practical Aesthetics" techniques.

Prerequisite(s): THE 107, THE 110.

THE 209 Acting IV: Styles of Acting 3 Credits

Students will learn the appropriate techniques to explore characters in the three styles of Elizabethan, Restoration, and Commedia dell'arte theatre. Sessions will include movement, effective speech, and finding appropriate actions for each style. Students will also learn proper research techniques to understand cultural influences on plays and characters.

Prerequisite(s): THE 107, THE 110, THE 208.

THE 217 Principles of Stage Design 3 Credits

The study and application of design principles as related to the stage. Incorporates the design process, decor research, styles, materials, and construction technology.

THE 218 Stage Lighting 3 Credits

The theory and practice of stage lighting as utilized in concept, dance, and theatre. Considers the nature of light, controlling light, color theory, electricity, electrical safety, and lighting design.

Prerequisite(s): THE 115.

THE 220 Movement for the Actor 3 Credits

This course is an introduction to movement training methodologies, and emphasizes physical awareness and expressivity as it relates to development of character.

Prerequisite(s): THE 107, Open to Theater majors or minor, or by permission of the instructor.

THE 221 Voice for the Actor 3 Credits

Focuses on exploration of the basic principles of vocal production and cultivating natural expressivity of the voice. Class work is based upon the classic progression of voice exercises of Kristin Linklater.

Prerequisite(s): THE 107; Open to Theatre majors or minor, or by permission of the instructor.

THE 222 Speech and Dialects for the Actor 3 Credits

Focuses on exploration of the International Phonetic Alphabet (IPA) and the use of the IPA in learning dialects (including Standard Neutral American) for the stage.

Prerequisite(s): THE 107; Open to Theater majors or minor, or by permission of the instructor.

THE 240 Script Analysis 3 Credits

This course provides students with a technique for analyzing any text by breaking down scenes into objectives, conflicts, beats, activities and subtext, allowing the actor to construct an approach to finding character.

Prerequisite(s): THE 107.

THE 300 Acting for the Camera 3 Credits

Focuses on the craft and artistry of acting in television and film. Examination of TV production and the styles needed for work in various media will be discussed. Physicalization, simplicity, listening, marking and other technical requirements will be explored. Staging involving different camera angles will be rehearsed. The emphasis of this class is on adapting the performance to the special needs of the camera.

Prerequisite(s): THE 107.

THE 306 American Theatre History 3 Credits

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions. Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

THE 307 Contemporary American Theater 3 Credits

Today's most influential theatre artists are discussed. Focusing on playwrights, the form and content of dramatic literature considered most significant today are examined along with recent innovations in design and staging practices.

THE 308 Modern Drama 3 Credits

Surveys American and European drama from 1920 to 1970. All plays are read in English translation. In these plays, theatrical artists address the great themes of this century. While doing so, they also expand the limits of theatrical expression.

THE 310 Acting III 3 Credits

Students will study in-depth techniques for exploring characterization. They will be introduced to the "magic if" and study techniques for placing themselves in the circumstances of the characters they are portraying. They will learn the interior and exterior analysis of characters using "Adler" and "Practical Aesthetics" techniques.

Prerequisite(s): THE 107, THE 110.

THE 311 Acting IV 3 Credits

Students will learn the appropriate techniques to explore characters in the three styles of Elizabethan, Restoration, and Commedia dell'arte theatre. Sessions will include movement, effective speech, and finding appropriate actions for each style. Students will also learn proper research techniques to understand cultural influences on plays and characters.

Prerequisite(s): THE 107, THE 110, THE 310.

THE 312 The Arts Abroad 3 Credits

A two-week trip abroad that includes a critical study of the music and theatre. Students are required to attend all performances, guided tours, and classes before and after the trip. A travel journal and final paper is required. A travel fee is required. Travel sites and artistic disciplines may vary year to year. May be taken more than once for credit.

Prerequisite(s): Permission of instructor.

THE 400 Directing 3 Credits

The technique of play directing and production management. Lectures present aesthetic and theoretical concepts that are explored in workshops. Each student is required to direct and analyze a one-act play.

Prerequisite(s): THE 107, THE 110, THE 115.

THE 410 Advanced Performance Workshop 3 Credits

An opportunity to work an entire semester on a specific style or period of theatre, e.g., Shakespeare, farce, Readers' Theater.

Prerequisite(s): THE 107, THE 110.

THE 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

THE 491 Internship in Theater 1-12 Credits

Provides junior or senior theatre majors the practical experience of working within a professional theater environment. Students must be sponsored by a theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

THE 495 Selected Topics in Theatre His 3 Credits

Intensive study of a particular topic, such as the work of one dramatic movement, one period in dramatic history, or one nation's history. Students become deeply involved in an area through research, class discussions, and individual consultation with the instructor.

THE 496 Senior Internship 6-12 Credits**THE 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Core Requirements

In addition to the information given here and on the following pages, students are referred to individual department handbooks for additional information and requirements.

Students in any School of Fine and Performing Arts degree must earn a minimum of 120 credits. The BFA in Musical Theatre requires a minimum of 121 credits.

General Education Requirements

Students in the Fine Arts major (Art track) must complete the Core Curriculum requirements (p. 434) as listed under the College of Liberal Arts and Sciences. All other majors in the School of Fine and Performing Arts must complete these requirements:

English

CMP 115	Intro to Expository Writing ¹	3
CMP 120	Expository Writing	3
or BHP 100	Honors Seminar: Great Ideas I	
Select one of the following:		3
CMP 125	Research Writing	
BHP 150	Honors Seminar: Great Ideas II	
CMP 203	Literature and Composition	

Reading ²

CRC 100	College Reading (0-2 Supplemental Education Units)	0-2
---------	--	-----

Foreign Language

Two semesters of the same language are required. To be chosen from Chinese, French, German, Italian, Russian, or Spanish. ³

Mathematics ⁴

Select one of the following:		3-4
MTH 102	Finite Mathematics	
MTH 105	Algebra and Trigonometry	
MTH 210	Calculus I	

World History

HIS 150	World History to 1500	3
HIS 151	World History Since 1500	3

Literature

Any course from the list approved for this category by the College of Liberal Arts, Education, and Sciences. 3

Philosophy

Select one of the following:		3
Any course in the Philosophy Department		
AMS 227	Philosophy of Martin Luther King Jr.	

Social Science, Communication and Professional Preparation

Select one of the following:		3
COM 104	Speech Communication	
COM 105	Communication, Culture and Media	
ECO 200	Principles of Macroeconomics	
ECO 201	Principles of Microeconomics	
POL 100	Intro to American Politics	
POL 102	Understanding Politics	
SOC 101	Sociological Imagination	
SOC 110	Cultural Anthropology	

Natural and Physical Science

Any courses from the list approved for this category by the College of Liberal Arts, Education, and Sciences. 3-4

Total Credits

36-40

¹ CMP 115 may be waived by SAT of 530 or testing.

² College Reading required only of those students scoring 470 or lower on the reading comprehension portion of the SAT.

³ Students who place at the 200-level or above are still expected to take a minimum of three (3) credits at the level of placement. Students who are native speakers of other languages may have the Foreign Language requirement waived upon documentation of proficiency. To initiate a request for a waiver, students should see the chairperson of the Department of Foreign Languages and Literature.

⁴ MTH 100S Math Skills Lab may be required based on ACT/SAT scores.

Honor Program in Fine Arts

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a cumulative average of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Westminster Choir College

A division of Westminster College of the Arts, **Westminster Choir College of Rider University** is a professional college of music located on a 23-acre campus in Princeton, NJ, seven miles north of Rider's Lawrenceville campus. Here, the Bachelor of Music (B.M.) degree is offered with majors in music education, organ performance, piano, sacred music, theory/composition, and voice performance. The Master of Music (M.M.) degree is offered in American and Public Musicology choral conducting, composition, music education, organ performance, piano accompanying and coaching, piano pedagogy and performance, piano performance, sacred music, and voice pedagogy and performance. In addition, the college offers the Master of Music Education (M.M.E.), Master of Voice Pedagogy (M.V.P.), and Bachelor of Arts in Music degrees.

A Tradition of Excellence

Choral music performance lies at the heart of the Westminster program, which involves daily choir rehearsals and required voice study for all its students. Preparation and performance of the choral/orchestral works at times takes precedence over all other facets of campus life. All undergraduates sing in one of the large ensembles: Chapel Choir, Schola Cantorum or Symphonic Choir. Auditioned ensembles include the Westminster Choir, Williamson Voices, Westminster Kantorei, Jubilee Singers, and Concert Bell Choir.

The Symphonic Choir has performed hundreds of times and made many recordings with the principal orchestras of New York, Philadelphia, and Washington. It also has performed in New York with many touring orchestras such as the Atlanta Symphony, Los Angeles Philharmonic, Berlin Philharmonic, and Vienna Philharmonic. Virtually every major conductor of the 20th century, from Toscanini and Walter through Bernstein, Muti, and Masur, has conducted the Symphonic Choir during the 80 years of the college's history.

Private Study

Private study in voice, piano, or organ is available on the Westminster campus during the fall and/or spring terms. Travel to the Westminster campus is the responsibility of the student. Full-time students from Rider's Lawrenceville campus whose major program does not require private applied music study, or Westminster College of the Arts majors

who have completed all applied music requirements, may apply to enroll in elective private study on a space available basis. Effective as of the fall 2009 semester for all new or readmitted Rider University students, there is a fee for these half-hour private lessons. Qualified Lawrenceville students may audition for organ study, for elective choirs, or for advanced courses in music for which they meet the prerequisites at Westminster Choir College.

Visit the Westminster Choir College site for undergraduate and graduate catalog information.

College of Continuing Studies

The College of Continuing Studies [CCS] recognizes that learning is a life long process and that part-time students need flexible learning opportunities. Students enroll in the College of Continuing Studies for a variety of reasons: to earn a degree, to develop their professional skills, learn more about our complex society, expand their personal lives, earn a certification, prepare for graduate study or prepare for a career change.

Students participating in CCS programs have diverse backgrounds and educational goals. Many enroll with high school backgrounds, while others bring college credits, undergraduate degrees or even graduate degrees. CCS students may take courses during the day, evening, and online.

Students pursuing a degree program (p. 496) may also have the opportunity to earn credits by nontraditional means, such as College Level Examination [CLEP], Advanced Placement, the American Council on Education, DSST, formal military credits, validation or assessment of a specific course or Prior Learning Assessment [PLA] based on demonstrated learning acquired through life and work experience.

Prospective students are welcome to make an appointment with a CCS academic advisor (<http://www.rider.edu/admissions/continuing-studies-admission/contact-advisor>) to discuss program goals and have a transcript credit evaluation.

Enrolled students may contact CCS at 609-896-5033 with any questions.

Accounting (B.S.B.A)

Program Overview

Rider's accounting programs are designed to build professionals. The BSBA in accounting provides students with the skills and knowledge needed for careers with corporations, public accounting firms and governmental organizations.

Accounting majors learn in the classroom, during co-op and internship positions and through ongoing networking opportunities with accounting executives.

Curriculum Overview

The curriculum emphasizes technical knowledge, professional development, written and oral communication, information technology, ethics and global perspectives.

The BSBA program has an active co-op and internship program in which students work in paid positions during the semester or summer and earn academic credit for the program. Both the co-op and internship can be completed within the four year program and often lead to full-time employment. The BSBA also offers a business forensic concentration.

Students who want to pursue **CPA certification** can meet the 150 hour requirement for CPA licensure by double majoring in the BSBA program or

by continuing in the **4+1 Master of Accountancy (MAcc) program**. There is a CPA track in the MAcc program.

Undergraduate accounting majors are encouraged to work closely with their advisor to select courses which will best address their career and certification plans. Students should consult the specific certification requirements of the state jurisdiction in which they plan to become certified and plan accordingly. To learn more about individual state requirements for CPA licensure see www.nasba.org. (<http://www.nasba.org.%20>)

Master of Accountancy (4 + 1 MAcc Program)

The 4 +1 MAcc allows students to meet educational requirements for CPA licensure and, because there are four required courses, students can customize their MAcc to include an area of specialization as well as a CPA track. Students may enter the program directly from the BSBA program and for students with overall and accounting GPA of 3.3 the GMAT requirement for admission is waived. The MAcc can be completed on either a full-time or part-time basis.

Accreditation Information

The accounting program is one of less than 4% of accounting programs worldwide to hold the prestigious AACSB business and accounting accreditation. The accounting faculty is committed to continuous improvement in curriculum, faculty and student preparation.

Degrees Offered

- B.S.B.A. in Accounting
- Master of Accountancy (fifth-year program)

Accounting (B.S.B.A.) Major Requirements

(24 credits)

Core Requirements

See Business Core Requirements (p. 70)	75
--	----

Major Requirements

ACC 302	Cost Management	3
ACC 310 & ACC 311	Acct Theory & Concepts I and Acct Theory & Concepts II	6
ACC 320	Accounting Info Systems	3
ACC 400	Principles of Auditing	3
ACC 405	Acct Problems & Practice	3
ACC 406	Integrative Professional Capstone ¹	3
ACC 410	Fund of Federal Taxation	3
Free Electives		21
Total Credits		120

Students who are accepted into the MAcc program after 90 credit hours may substitute a required graduate accounting course for ACC 406. Students who do not take ACC 406 must take an additional free elective in order to meet the 120 required credits at the baccalaureate level. Students who plan to take the CPA track in the MAcc must take MAcc 658, Governmental and Not-for-Profit Accounting in place of ACC 406; for these students, MAcc 658 may also be used to fulfill the 120 undergraduate credit requirement.

Students desiring to become certified public accountants (CPAs) will be required to have 120 credit hours of education to take the CPA exam and have completed 150 credit hours of education for licensure. Rider accounting majors may graduate after four years (120 credit hours) or seek to achieve the additional credit hours directly through admission to the Master of Accountancy (MAcc) program at the University. It is possible to apply to the MAcc program at Rider after completion of 90 credit hours. (Please consult the Rider University Graduate Academic Catalog for details on the MAcc program.) Undergraduate accounting majors are encouraged to work closely with their advisor to select courses that will best address their career and certification plans. Students should consult the specific certification requirements of the state jurisdiction in which they plan to become certified and plan accordingly.

Students majoring in accounting must receive a grade of at least "C-" in a prerequisite course for any advanced course in accounting, and must have a cumulative average of at least 2.0 in the major.

Courses and Descriptions

ACC 210 Introduction to Accounting 3 Credits

This course provides an introduction to basic principles and methods of accounting essential to preparation, understanding and interpretation of financial statements. Topics include accounting for merchandising concerns, current assets, long-term assets, liabilities and equity accounts. A brief overview of internal control is also covered.

ACC 220 Managerial Uses of Accounting 3 Credits

This course provides an introduction to the use of accounting information in managerial decision-making. Topics include cost behavior, cost classifications, and problem-solving functions of accounting as they pertain to planning, control, evaluation of performance, special decisions, and budgeting. The interpretation of published financial statements and the statement of cash flow are also covered.

Prerequisite(s): ACC 210.

ACC 302 Cost Management 3 Credits

This course focuses on firm strategy and the role managerial accounting information plays in the decision making process. Topics include the balanced scorecard, the value chain, product life cycles, target costing, theory of constraints, strategic pricing, management and control of quality cost systems, traditional and activity-based costing, cost control, standard costs and variances, and capital budgeting.

Prerequisite(s): ACC 220 and CIS 185.

ACC 310 Acct Theory & Concepts I 3 Credits

This is the first upper-level course in a sequence in financial accounting courses. Topics include the conceptual framework, and standard setting process followed by application and evaluation of generally accepted accounting principles including content, and structure of financial statements, present value concepts, current assets, current liabilities, property, plant, and equipment, intangible assets and non-current liabilities are studied. An overview of comparable international financial reporting standards (IFRS) is also included.

Prerequisite(s): ACC 210 and ACC 220.

ACC 311 Acct Theory & Concepts II 3 Credits

This course is a continuation of ACC 310. Topics include long-term investments, stockholders' equity, earnings per share, interperiod income tax allocation, accounting changes, revenue recognition, pensions, leases and cash flow analysis. An overview of comparable international financial reporting standards (IFRS) is also included.

Prerequisite(s): ACC 310.

ACC 320 Accounting Info Systems 3 Credits

This course provides an introduction to accounting information systems and enterprise-wide, process-focused information systems. Topics include quality of data for decision usefulness, internal control concepts and documentation tools, and database theory and applications.

Prerequisite(s): ACC 310.

ACC 321 Internal Auditing 3 Credits

This course provides an introduction to the internal audit profession, including understanding the nature and activities associated with the internal audit process. Topics include: international auditing standards, risk assessment including internal control system evaluation, business processes, and the relationship of management and employee fraud to the internal audit process.

Prerequisite(s): ACC 220.

ACC 325 Fraud Examination and Business Forensics 3 Credits

This course is designed to introduce students to the prevalence of fraud and fraudulent financial reporting in all forms of business, including the many methods used by employees and managers to perpetrate fraud. Topics will include: the motivation of individuals to commit fraud, various types of fraud schemes perpetrated in the workplace, as well as the various tools and techniques that are used to investigate, detect and prevent fraud.

Prerequisite(s): ACC 210.

ACC 335 Small Business Taxation 3 Credits

This course provides an understanding of the key tax issues faced by small businesses and their business implications. It also familiarizes prospective business owners with various tax filing requirements so that they can use the expertise of tax professionals more effectively.

Prerequisite(s): ACC 210.

ACC 399 The Co-Operative Experience 6 Credits

This course provides the student with a semester long supervised employment with participating companies. Students are evaluated periodically by senior staff members of the participating firms and required to complete a work journal, self-assessment and reflection paper. Eligible students include junior and senior accounting majors with a minimum GPA of 3.0 in accounting coursework. Co-op credits can be applied toward business or free elective requirements. Grading is on a pass/fail basis.

Prerequisite(s): ACC 210, ACC 220, and ACC 310 and permission of department chairperson.

ACC 400 Principles of Auditing 3 Credits

This course provides an introduction to financial statement audits performed by certified public accountants. Topics include corporate governance, the audit environment, professional standards, audit methodology, and audit report preparation. The course also provides an overview of other types of assurance and non-assurance services provided by CPA firms.

Prerequisite(s): ACC 302 and ACC 311.

ACC 405 Acct Problems & Practice 3 Credits

This course provides additional coverage of financial reporting issues and procedures. Topics include business combinations, consolidated financial statements, foreign currency translation, the effects of diversity across countries, disclosure and SEC reporting issues. Governmental and not-for-profit accounting standards are also covered.

Prerequisite(s): ACC 302 and ACC 311.

ACC 406 Integrative Professional Capstone 3 Credits

This course provides an integrative experience that applies financial statement and data analysis tools to a variety of accounting settings. Topics include issues of ethics and professionalism and linkages between accounting methods and company policy, equity valuation, bond ratings and other decision areas.

Prerequisite(s): ACC 405 or permission of department chairperson.

ACC 410 Fund of Federal Taxation 3 Credits

This course provides fundamental federal tax concepts applicable to individuals, partnerships, corporations, estates, and gifts. Topics are considered from a tax compliance and planning perspective. Preparation of individual and corporate tax returns is also included.

Prerequisite(s): ACC 311.

ACC 450 Business Forensic Application 3 Credits

This course is designed so that students to integrate various business disciplines to perform complex investigative cases and analyses, thus demonstrating mastery of the knowledge and skills required to be effective forensic professionals. The course covers how to manage and present digital and technical evidence gathered for forensic litigation cases, including the ability to be an expert witness in court.

Prerequisite(s): ACC 325 and ACC 321.

ACC 490 Independent Research and Study 3-4 Credits

Topic to be approved by professor and department chairperson. Available to juniors and seniors.

ACC 491 Accounting Internship 3 Credits

This honors course provides the student with approximately two months of supervised employment with participating companies. Students are evaluated periodically by senior staff members of the participating firms and are required to complete a term paper. Eligible students include junior and senior accounting majors with a minimum GPA of 3.0 in accounting coursework. Upon completion of course, a letter grade will be awarded.

Prerequisite(s): Permission of department chairperson.

Advertising (B.S.B.A.)**Program Overview**

A degree in advertising gives students the opportunity to develop and enhance their creativity, visual, and writing skills to become competitive in today's global marketplace. Graduates from the advertising program enter the workforce with a strong background grounded in a critical understanding of consumer behavior, ad trends, and the know-how needed to reach target audiences and to promote services and products.

Curriculum Overview

An advertising major prepares students for careers in advertising agencies, large or small, or in the advertising or promotion departments of profit or nonprofit organizations. Possible entry-level positions include media buyer, copy writer, and assistant account executive. This program combines a solid background in the business disciplines with the study of communications. It emphasizes the role of advertising/promotions within the marketing communications strategy.

Degree Offered

B.S. B.A. in Advertising

Note: a minor in web design (p. 423) is required.

ADV 200 Advertising Principles 3 Credits

Basic theory, functions, principles, and applications of advertising are the focus of this course. The relation of advertising to our economy, the advertising department and the ad agency, selection of media, advertising practices, and the use of research to improve advertising techniques are covered.

Prerequisite(s): MKT 200; Required for advertising majors.

ADV 311 Advertising Copy and Layout 3 Credits

This course focuses on the development and planning of creative and strategic advertisements for a variety of products. The course includes creating concepts for ads, designing ads, and writing copy for all media. The student will become familiar with the activities and responsibilities of copywriters and art directors. The relationship between creative advertising and other functions of advertising will be emphasized.

Prerequisite(s): ADV 200, COM 212. Required for advertising majors.

ADV 315 Media Planning and Strategy 3 Credits

This course focuses on the essential principles, measurements, procedures and problems encountered in determining appropriate media in which to place specific kinds of advertising messages designed to reach closely defined target audiences. The advantages and disadvantages of all media will be discussed from an advertising perspective. Specific audience and cost calculations and analyses will be used to develop comprehensive media plans.

Prerequisite(s): ADV 200. Required for advertising majors.

ADV 369 International Advertising 3 Credits

This course introduces students to the general landscape of international advertising with emphasis on understanding the opportunities and challenges entailed in international advertising management. The course will cover the subject from three aspects, including the international advertising environment, the international advertising industry, and international advertising strategies.

Prerequisite(s): ADV 200 or permission of instructor.

ADV 370 Interactive Advertising 3 Credits

This course surveys the various components and issues of interactive advertising. Students will study the creative tactics, media buying processes, strategic concepts, and research foundation that are essential in the development of integrated interactive marketing communications. Students who take this course cannot take MKT 370.

Prerequisite(s): ADV 200.

ADV 435 Advertising Campaigns 3 Credits

This capstone course for advertising majors provides an opportunity for students to plan comprehensive advertising campaigns. Coverage includes segmentation research, creative development of the campaign, media planning, and determining advertising effectiveness. Integration of advertising into the marketing program will be emphasized. Required for advertising majors.

Prerequisite(s): ADV 311, ADV 315; advertising major or minor, senior standing or permission of instructor.

ADV 490 Independent Research and Study 1-4 Credits

Topic to be approved by the professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation, which may be counted as a business or free elective.

ADV 491 Internship-Based Indep Study 3 Credits

Provides the student an opportunity to supplement and apply classroom work in supervised employment with participating marketing and advertising firms. Requirements include a journal with a log of daily activities, and a project or term paper presented to and evaluated by the internship sponsor. Evaluation will also include a report by the company on the intern's performance. Credits may be used to satisfy business or free elective requirements.

Prerequisite(s): Permission of instructor.

Allied Health Studies (B.S.)

Program Overview

Designed for working professionals in allied health fields, Rider's B.S. in Allied Health Studies program lets students gain the skills and credentials to advance — while balancing both their career and family life.

The experience, skills and compassion an individual brings to his or her job transforms the lives of the patients in one's care every day. But rapid changes in today's health care environment now present allied health professionals with new challenges — and exciting opportunities. The B.S. in Allied Health Studies program prepares students for these challenges while still training them to be compassionate care givers and partners.

Curriculum Overview

The curriculum is designed to provide a seamless transition from an Associate degree or a diploma program, building on the students' experiences in allied health professions. Separate clinicals are not required.

Admissions Requirement

- Official transcripts from all institutions attended with a minimum 2.5 cumulative GPA
- Copies of a current/unrestricted license (in any allied health field)

Degree Offered

Total Credits 120

¹ These courses may only be used to fulfill the requirements of a single category.

BIO 100 Life Science: Human Emphasis 3 Credits

An examination of mammalian physiology and development at the cellular and organ system level, with emphasis on physiological homeostasis in man. Three hours of lecture per week.

BIO 101 Life Science: Genetics Emphasis 3 Credits

An examination of cell biology and genetics, with emphasis on the impact of these fields on human affairs. Three hours of lecture per week.

BIO 106 Life Science: Human Disease 3 Credits

An introduction to molecular, cellular, and human biology with emphasis upon diseases and disorders caused by mutation, bacteria, viruses, or parasites. The biology of human aging is also discussed. Three hours of lecture per week.

BIO 108 Life Sci: Biol of Human Aging 3 Credits

An introduction to the biology of aging manifest in the cells, tissues, and organs of animals and humans. Three hours of lecture per week.

BIO 110 Life Science: Inquiry Approach 4 Credits

An introductory course for non-science majors in which students develop an understanding of biological evolution, the molecular basis of heredity, the cell, matter, energy and organization in living systems, and the interdependence of organisms. In addition, students will develop an understanding of science as a human endeavor, the nature of scientific knowledge, and historical perspectives. Through investigative activities, students will develop an understanding about scientific inquiry and develop abilities necessary to do scientific inquiry. Three hours of lecture and one three-hour lab per week.

Corequisite(s): BIO 110L.

BIO 115 Principles of Biology I 4 Credits

An introductory biology course focusing on organismal form and function. Evolution, genetics, physiology and behavior are emphasized. Three hours of lecture and one three-hour lab per week.

Corequisite(s): BIO 115L.

BIO 206 The Pharmaceutical Industry 3 Credits

An introduction to drug discovery and development. Topics include how drugs are used to diagnose, cure, treat, and prevent disease and how drugs affect body function. The origins of diseases and the early attempts at treatment are also covered. Designed for business majors; does not satisfy requirements for the biology major.

Prerequisite(s): BIO 100 or BIO 101 or BIO 106 or BIO 108 or BNS 107 or CHE 115.

BIO 221 Human Anatomy & Physiology I 4 Credits

A comprehensive survey of the structure and function of musculo-skeletal systems, neuroendocrine systems and related tissues and cellular interactions. Physiological applications include homeostasis, muscle dynamics, and cell activities. Laboratory exercises complement lecture material through the use of animal dissections, wet labs, computer-assisted investigations, microscopy, and models. Exams, case histories, personal investigations, and lab practicums assess learning. Course emphasis supports allied health and pre-professional training. Three hours of lecture and one three-hour lab per week. Designed for allied health students; does not satisfy requirements for the biology major. **Prerequisite(s):** BIO 115.

Corequisite(s): BIO 221L.

BNS 107 Life Science: Behavioral Neuroscience Emphasis 3 Credits

An introduction to the biology of the human brain and the rest of the human nervous system. Topics in neuroscience are covered in molecular, cellular, and systematic terms. Additional material is presented on the origins and effects of neurological and psychiatric diseases.

BNS 118 Behavioral Neuroscience 4 Credits

An introductory course including basic neuroanatomy and neurophysiology of movement, ingestive, reproductive, emotional, and learning behaviors. Emphasis is on the structure/function relationships that allow animals to make appropriate physiological and behavioral responses to the environment. Three hours of lecture and one three-hour lab per week. **Prerequisite(s):** BIO 115.

Corequisite(s): BNS 118L.

CHE 115 Chem and Contemporary Society 3 Credits

Designed to give the nonscientist an appreciation of the role of chemistry in today's world. The approach is conceptual rather than mathematical. Topics include basic principles of chemical theory, energy sources, elementary organic chemistry, drugs, food additives, polymers, chemistry of living systems, inorganic solids in modern technology, and problems involving pollution of the environment. Three hours of lecture per week. This course satisfies the core requirements for liberal arts, education and business majors.

COM 254 Intro to Health Communication 3 Credits

Health communication has been shown to have a positive impact on a number of facets of the medical visit, including patient outcomes, patient satisfaction, and job performance and satisfaction. This course will provide students with tools to implement health communication practices in a healthcare setting in order to improve these areas. In addition, health communication is particularly useful in cross-cultural situations, both in regard to the patient-provider relationship, when the ethnicities of the two parties may be different, and when cultural beliefs may impact a patient's medical wishes. Part of the tools for implementing health communication into the practice setting includes an understanding of the role that culture can play in healthcare and the development of strategies to provide optimal medical care while also respecting cultural intricacies.

GLS 325 Global Perspectives Hlth & Illness 3 Credits

Explores the different international perspectives on health and illness. Themes include how men, women, and children in respective civilizations are treated and viewed within their communities or nations, as they become ill. Particular attention is given to the contrast between various types of traditional healing and Western medical practices, and their interactions. Discussions will also compare the usefulness of national versus international health agencies in dealing with global health problems.

HTH 205 Introduction to Health Care 3 Credits

This course is an introduction to the components of the health care industry in the United States and to the interactions of these components in producing and supplying health care. We examine the nature of health, and the various institutions and personnel which seek to provide health services; we explore the means by which we pay for these services; we assess the relationship of technology to provision of health care services; we study the various ways that our government interacts with the providers of health care services; we investigate the ethical implications of issues in health care; and we explore health care sectors from an international perspective.

HTH 215 Population Healthcare Management 3 Credits

In this course, we study how disease is distributed in populations and of the factors that influence or determine this distribution. This course introduces the basic methods and tools epidemiologists use to study the origin and control of non-communicable and communicable diseases so that policies and mechanisms to enhance the health of populations can be developed.

Prerequisite(s): MSD 201 or MTH 120 or ENV 200 or PSY 201.

HTH 315 Healthcare Law, ethics & Policy 3 Credits

This course analyzes the role of the law in promoting the quality of health care, organizing the delivery of health care, assuring adequate access to health care, and protecting the rights of those who are provided care within the health care system. It will also examine the public policy, economic, and ethical issues raised by the health care system. This course is cross-listed as BUS 315. Students may not get credit for both BUS 315 and HTH 315.

HTH 336 Economics of Health Care Sys 3 Credits

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomics tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes. Note: This course is cross-listed as ECO 336. Students may not get credit for both ECO 336 and HTH 336.

HTH 491 Health Administration Intern 3 Credits

This course provides students minoring in health administration an opportunity to supplement and apply their classroom work in a supervised employment setting with participating firms in the health care sector. Requirements include: a log of daily activities, oral and written reports to the faculty supervisor and a term paper. In addition, the employer will also submit an evaluation of the student's performance. **Prerequisite(s):** HTH 205; junior or senior standing; and permission of faculty supervisor.

MKT 380 Healthcare Marketing 3 Credits

The purpose of this course is to introduce students to the role, functions and tasks of healthcare marketing. Attention is devoted to applying basic marketing principles to the healthcare sector. Marketing decision making and analysis will be emphasized through the use of cases and current readings that focus on a variety of healthcare organizations, including hospitals, assisted living facilities, MCOs, and pharmaceutical companies.

Prerequisite(s): MKT 200 or permission of instructor.

PSY 220 Abnormal Psychology 3 Credits

The development of abnormal personalities is discussed, with a survey of the various types of mental abnormalities, including their symptoms, diagnoses, and treatments. Neuroses and psychoses are emphasized.

Prerequisite(s): PSY 100.

PSY 345 Health Psychology 3 Credits

This course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

Prerequisite(s): PSY 100.

PSY 365 Drugs and Human Behavior 3 Credits

Presents the student with an in-depth analysis of the effects of alcohol and selected chemical substances on the behavior and body of the user. Commonly abused substances will be discussed in terms of their history, sources of production, routes of administration, distribution, metabolism and excretion, neurophysiology, tolerance, properties of addiction, withdrawal course and symptoms, and potential beneficial and harmful effects.

Prerequisite(s): PSY 100.

PSY 374 Psychology of the Family 3 Credits

This course examines the significance of family in human development. Using prominent themes of developmental psychology, such as: the role of attachment in forming human relationships, the significance of context in understanding human development, and the resilience of development; this course will explore the existing research on the family. Students are asked to consider their own experiences as members of a family, as well as to understand the varieties of ways family impacts development across the lifespan.

Prerequisite(s): PSY 100, PSY 230 or permission of instructor.

PSY 382 Aging, Brain, and Cognition 3 Credits

This course covers the biological structures and processes underlying cognition in humans and explores modulating factors such as age, sex, disease, stress, and environment. The theoretical and methodological issues of developmental cognitive neuroscience research are addressed. Focus of the course is on brain structure and function in the largest growing segment of our population, persons over the age of 65, and the link between structure and cognitive abilities, both intact and declining. Special attention is paid to those factors related to successful aging and treatments with putative cognitive enhancers.

Prerequisite(s): PSY 100.

SOC 247 Aging 3 Credits

The emergence of social gerontology, demographic foundation of aging, the aging process, comparative study of aging and aged, effect of aging on the individual, social institutions and aging, and problems of aging and some solutions.

Prerequisite(s): SOC 101.

SOC 346 Health Care and Society 3 Credits

Application and contributions of sociology to medicine; the strategy and methods of sociomedical research; sociology of illness, addictive and mental disorder; medical institutions; health services and medical care; and current status of medical sociology.

Prerequisite(s): SOC 101.

SOC 347 Aging and the Elderly 3 Credits

Business Administration (A.A.)

Program Overview

This 60-credit program was developed to meet the needs of students for an abbreviated professional curriculum. This curriculum is fully transferable to the bachelor's of science in business administration degree program.

Curriculum Overview

The curriculum is designed to enable working professionals to gain knowledge and skills to succeed in the competitive job market. It includes

courses in numerical literacy, communication, global awareness, and business analytics and technology.

Admissions Requirement

- Official transcripts from all institutions attended with a minimum 2.5 cumulative GPA

Degree Offered

ACC 210 Introduction to Accounting 3 Credits

This course provides an introduction to basic principles and methods of accounting essential to preparation, understanding and interpretation of financial statements. Topics include accounting for merchandising concerns, current assets, long-term assets, liabilities and equity accounts. A brief overview of internal control is also covered.

ACC 220 Managerial Uses of Accounting 3 Credits

This course provides an introduction to the use of accounting information in managerial decision-making. Topics include cost behavior, cost classifications, and problem-solving functions of accounting as they pertain to planning, control, evaluation of performance, special decisions, and budgeting. The interpretation of published financial statements and the statement of cash flow are also covered.

Prerequisite(s): ACC 210.

CIS 185 Information Systems Essentials 3 Credits

This course will enable students to use Microsoft Excel and Access to design advanced applications for effective decision making. Enterprise-wide application systems concepts and an introduction to SAP R/3 will be presented. Students will also be introduced to Web-based services technologies such as RSS feeds, blogs, wikis, as well as social networking and Web 2.0 technologies. Additionally, throughout the course, students will evaluate the ethical implications associated with digital information access and integration.

CIS 200 Web Application Development I 3 Credits

In the early 1990s, Tim Berners-Lee created a set of technologies to allow information sharing at the CERN particle accelerator in Europe. These technologies dramatically changed the face of computing and became what we know today as the Web. Understanding how to develop and manage applications for the Web is a requirement for the information system professional. Because of the ease of development, deployment, maintenance and general scalability of Web applications, this approach to building and managing applications has become the de facto standard for business application development. This class will examine Web application development in detail. Through a combination of lecture and labs, students will learn the architecture of Web applications, how to develop Web pages using HTML and CCS, how to control user interaction with those pages using the JavaScript programming language. The programming basics of variable declaration and usage, program flow of control, function declaration and calling, and object usage and declaration will also be shown. The use of the JQuery Javascript library to ease the development of Web pages will also be shown.

CMP 120 Expository Writing 3 Credits

Students will increase their competence in the critical reading of challenging college-level texts that engage significant ideas and in writing effective essays that advance a clear and meaningful thesis while demonstrating understanding of those texts. The second of the department's three-course composition sequence,

Prerequisite(s): Successfully completed CMP 115 or have attained a 530 or above on the writing section and 500 or above on the critical reading section of the SAT or a score of 4 or above on the English department placement test.

CMP 125 Research Writing 3 Credits

Introduces students to the process of library research and documented writing. Emphasis will be on the refinement of critical reading, thinking, and writing strategies applied to multiple sources and documented papers.

Prerequisite(s): CMP 120 or BHP 100.

COM 290 Professional/Strategic Speech 3 Credits

Provides students with practical information necessary for effective communication in various business and professional settings. Covers communication processes, principles, and models in the modern organization. Class assignments are given with emphasis on developing a knowledge and practical understanding of informative, persuasive, and impromptu presentations. Limited to students enrolled in the College of Business Administration.

ECO 200 Principles of Macroeconomics 3 Credits

A collective view of income receiving and spending sectors of the national economy, including households, businesses, and governments. Issues discussed: What determines the level of output, income, and employment achieved by the economy? What determines the growth of national output and employment? National income accounting, income and employment theory, monetary system, general price level, business cycle, government policies designed to provide for full employment, price stability, and economic growth are also covered.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

ECO 201 Principles of Microeconomics 3 Credits

Market price systems are analyzed. The nature and characteristics of consumer and producer behavior, the theory of pricing in competitive and noncompetitive markets, and determination of the distribution of output are re evaluated. Welfare, social control, monopoly, and income inequality are explored in the light of price theory. The role of the United States in the world economy is explored.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

MSD 105 Quantitative Methods for Business 3 Credits

The aim of this introductory course is to acquaint students with a number of basic mathematical techniques that will enhance their ability to become effective decision-makers in a realistic business environment. Topics covered include linear equations and inequalities, linear programming, summation notation, geometric series, counting techniques, event probability and discrete random variables. Where appropriate, these tools will be illustrated with examples chosen from business settings.

Prerequisite(s): MSD 104 or a passing grade on the Math Placement Exam.

MSD 200 Statistical Methods I 3 Credits

This course is designed to give the student an understanding of continuous random variables, the elements of statistical inference, and an introduction to how these tools may be useful in one's attempt to reach intelligent conclusions in real-world settings. The focus is on the normal random variable, descriptive statistics, sampling distributions, and the frameworks of estimation and hypothesis testing, particularly as they apply to inference for unknown population means and proportions in the one- and two-sample settings.

Prerequisite(s): MSD 105 or equivalent.

MSD 201 Statistical Methods II 3 Credits

The sequel to Statistical Methods I is designed to prepare the student to be able to recognize a variety of additional common inferential scenarios, select and apply appropriate techniques in their analyses, and be aware of the usefulness of computer packages in performing certain relatively complicated statistical calculations. The course covers the one-way analysis of variance, Chi-square tests and linear regression analysis. Students are expected to submit, for evaluation, the analysis of a real-world data set.

Prerequisite(s): MSD 200.

Business Administration (B.S.B.A)

Program Overview

Rider's business administration major provides students with a general business focus, and is ideal for students who do not want to concentrate in a particular functional area, but instead intend to pursue one of the following goals: attend graduate school, such as law school or a MBA or Ph.D. program, enter a management training or marketing program with a future employer and/or enter a family business or start a new one.

Curriculum Overview

The Business Administration major requires completion of 18 credit hours of upper-level business courses across a variety of disciplines, including: economics, finance, management and marketing and more.

For graduation students must achieve an overall GPA of 2.0 in the major. Business Administration majors may not count more than six credit hours toward a second major, with the exception of International Business. Students majoring in Business Administration can count up to nine credit hours toward the International Business major.

ECO 200 Principles of Macroeconomics 3 Credits

A collective view of income receiving and spending sectors of the national economy, including households, businesses, and governments. Issues discussed: What determines the level of output, income, and employment achieved by the economy? What determines the growth of national output and employment? National income accounting, income and employment theory, monetary system, general price level, business cycle, government policies designed to provide for full employment, price stability, and economic growth are also covered.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

ECO 201 Principles of Microeconomics 3 Credits

Market price systems are analyzed. The nature and characteristics of consumer and producer behavior, the theory of pricing in competitive and noncompetitive markets, and determination of the distribution of output are re evaluated. Welfare, social control, monopoly, and income inequality are explored in the light of price theory. The role of the United States in the world economy is explored.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

ECO 210 Intermediate Macroeconomics 3 Credits

An analytical study of modern aggregate economic theory. Emphasizes the measurement and determination of income, employment, and price levels, as well as economic policy in theory and practice.

Prerequisite(s): ECO 200 and ECO 201.

ECO 211 Intermediate Microeconomics 3 Credits

This course is designed to give the student a thorough understanding of microeconomic theory. As such, the course will analyze the behavior of both consumers and producers, and how this behavior determines the price and quantity observed in the market. The course objective is to provide students with the necessary theoretical background to enable them to solve meaningful and practical problems. Thus, the course is both theoretical and applied in its orientation. The course will emphasize that economic theory can be used not only to solve market oriented problems, but social and public policy problems as well.

Prerequisite(s): ECO 200 and ECO 201.

ECO 300 Business Conditions Analysis/Forecast 3 Credits

Business conditions change daily. Students study them as they change, learning to understand them in the light of economic theory, learning how each part of the economy is affected, and learning the advantages and limitations of the most reliable forecasting methods.

Prerequisite(s): ECO 200, MSD 201.

ECO 301 Managerial Economics 3 Credits

Intensively examines the theory of the firm with applications to the solution of such managerial problems as demand forecasting, the nature and behavior of costs, and product pricing. Introduces the use of simple mathematical and statistical tools that are employed with economic analysis for solving managerial problems.

Prerequisite(s): ECO 200 and ECO 201 and MSD 201 or permission of instructor.

ECO 305 International Trade and Investment 3 Credits

Studies the theory, institutions, and structures underlying the international flow of trade and investment. Topics are: the theory of international trade; balance of payment analysis; the international monetary system; adjustment to balance of payment disequilibrium; regional economic integration; the economic effects of trade restrictions; and trade and foreign investment problems of developing nations.

Prerequisite(s): ECO 200 and ECO 201.

ECO 315 Comparative Economic Systems 3 Credits

Provides a conceptual framework for classifying and comparing economic systems. Presents theory of the capitalist market economy and case studies of the U.S., Japanese, French, and Swedish economies. Examines theory of the centrally planned economy, its transition, and case studies of the Soviet and its successor states, Chinese, and East European economies. Case studies are necessarily limited, concentrating on selected topics, such as transition strategies, industrial policy, etc.

Prerequisite(s): ECO 200 and ECO 201.

ECO 325 Industrial Organization 3 Credits

Explores the relationship between market structure and performance. Topics include concentration in individual industries, product differentiation and entry barriers, pricing and marketing policies, and antitrust policies and their consequences.

Prerequisite(s): ECO 200 and ECO 201.

ECO 326 Economics of Sports 3 Credits

The overall objective of this course is to deepen student understanding of microeconomic principles by applying microeconomic concepts to the analysis of professional and amateur sports. This course will utilize concepts from many different microeconomic specialties, (primarily Industrial Organization, Labor Economics and Public Finance). The tools from these different microeconomic fields will be used to explain and analyze the operation of professional sports teams and leagues in the U.S. with an emphasis on baseball, football, basketball and hockey. International comparisons will be made between professional sports in the U.S. and the rest of the world. The course will also analyze the not-for-profit sports sector, focusing on college sports and the National Collegiate Athletic Association.

Prerequisite(s): ECO 201.

ECO 330 Labor Market Analysis 3 Credits

Intensive study of the economics of the labor market, which examines the determinants of labor supply and demand, and market equilibrium in the labor market. This enables the student to understand what determines wages, labor force participation, occupational choice, the extent of education and training, unemployment, poverty, union membership, and discrimination in the labor market.

Prerequisite(s): ECO 200 and ECO 201.

ECO 335 Economics of the Public Sector 3 Credits

Analyzes the economic roles of government: allocation; distribution; and stabilization. The course examines the tools used by governments, especially the federal government, such as taxation, expenditures, regulations and laws in order to achieve economic goals. The course will give special attention to social regulation.

Prerequisite(s): ECO 200 and ECO 201.

ECO 336 Economics of Health Care Sys 3 Credits

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomic tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes. Note: This course is cross-listed as HTH 336. Students may not get credit for both ECO 336 and HTH 336. For business students who take the course as ECO 336, the course will count as a business course. If taken as HTH 336, the business student will receive credit as a liberal arts course.

Prerequisite(s): ECO 201 or HTH 205.

ECO 365 Post-Soviet Economy 3 Credits

Studies the contemporary post-Soviet economic system, with emphasis on institutions, policies and issues related to business opportunities in this area. Topics covered include the historic, geographic, political, and cultural setting, planning and plan implementation in the traditional system, current reforms and prospects for the future, with special reference to the foreign trade institutions and experience of foreign firms doing business in the post-Soviet Union and Eastern European countries.

Prerequisite(s): ECO 200 and ECO 201 or permission of instructor.

ECO 450 Seminar in Economic Research 3 Credits

Students in the course learn to conduct economic research by engaging in an actual community-based research project. At the beginning of the semester, students are assigned to a community-based organization. As a team, students meet with the client, devise a plan of action, collect and analyze data and other information, and write a report to the client. At the end of the semester, students present their findings to the client. Students are permitted to take ECO 450 up to two times for credit.

Prerequisite(s): Permission of instructor.

ECO 490 Independent Research and Study 3 Credits

Topic to be approved by professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

ECO 491 Internship/Independent Study 3 Credits

This course is available to qualified economics majors and minors. Evaluation is based on a performance appraisal provided by the participating firm and a project/paper judged by the major's internship director. This course can be used as a business or free elective. Grading is done on a pass/fail basis.

Prerequisite(s): Permission of instructor.

FIN 200 Managing Your Money 3 Credits

An introduction to the analysis of a wide range of financial decisions which individuals encounter over their careers and lifetime. Topics include financial goals, tax planning, home ownership versus renting, consumer credit, money management and investments, and managing risk with insurance. This course is open to all Rider students, and it counts as a free elective or a business elective. It cannot be used as finance elective.

FIN 220 Introduction to Finance 3 Credits

An introduction to the environment, concepts, and techniques of financial management. Topics include forms of business organization, taxes, analysis of financial performance, financial planning, financial markets and interest rates, time value of money, bond and stock valuation, risk and return, capital budgeting, cost of capital, and international financial management.

Prerequisite(s): ACC 210 and ECO 201.

FIN 305 Personal Financial Planning 3 Credits

This course focuses on practical issues and problems involving personal financial budgeting, use of credit, selection of banking services, insurance needs, real estate, investments, tax planning, and retirement planning. An important objective of the course is to provide the student with the tools that are utilized in making personal financial decisions and how to apply those tools for a variety of financial needs.

Prerequisite(s): FIN 220.

FIN 307 Financial Markets & Institut 3 Credits

An introduction to the organization and behavior of financial markets and institutions in the economy. The factors determining security prices and interest rates in the money and capital markets are analyzed. An overview of all major financial institutions is presented. In addition, market returns, the regulatory environment and monetary policy are re examined.

Prerequisite(s): ECO 200 and junior standing.

FIN 308 International Finance 3 Credits

Financial management in the international environment. Topics include balance of payments, foreign exchange markets, arbitrage, hedging of currency risk, country risk management, and the evaluation of foreign investment opportunities.

Prerequisite(s): FIN 220.

FIN 309 Intermediate Corporate Finance 3 Credits

This course builds on and extends the concepts of financial management learned in FIN 220. The course examines long-term corporate financing and investment decisions and how those decisions interface with each other. Topics covered include: cost of capital, financial planning and analysis, capital budgeting, capital structure and dividend policy.

Prerequisite(s): FIN 220.

FIN 312 Investments 3 Credits

The fundamentals of investing in stocks, bonds, and other negotiable instruments are covered. Major topics include trading on securities markets, mutual funds, international investing, margin accounts, short sales, determinants of securities prices, and investment risks. Stock options, financial futures, convertible securities, and implications of taxes on investment decisions are also discussed.

Prerequisite(s): FIN 220.

FIN 315 Financial Modeling 3 Credits

Provides instruction in computer use beyond what is available in other finance courses. Topics include more sophisticated applications of computers in financial management, investments, and other areas of finance and business. Students work on cases and projects which require more advanced usage of spreadsheets and other software and databases.

Prerequisite(s): CIS 185 and FIN 220.

FIN 330 Corporate Cash Management 3 Credits

This course is designed for business students seeking an understanding of modern principles and techniques for corporate treasury management. The course material is useful for finance, accounting, and banking professionals or small business owners. Topics include analysis of liquidity and solvency, credit and accounts receivable management, cash collection and disbursement systems, short-term investment and borrowing, management of treasury information and technology, multi-national cash management, and other related topics.

Prerequisite(s): FIN 220.

FIN 340 Risk Management 3 Credits

This course examines the risk management process as applied to the firm as a whole. It integrates the management of all risks facing the firm: strategic, financial, hazard, and operational. Techniques for identifying risk, measuring and analyzing it, and selecting an appropriate treatment will be explored.

Prerequisite(s): FIN 220.

FIN 350 Entrepreneurial Finance 3 Credits

This course covers the techniques for acquiring financial resources as a firm advances through successive business stages: seed, start-up, struggling, growing, and stable. In addition, it examines recent trends in credit markets and the latest financial innovations as they impact the process of financing the venture's growth.

Prerequisite(s): FIN 220.

FIN 360 Derivatives 3 Credits

The objective of this course is to provide students with an understanding of the main types of financial derivatives and of the markets in which they are traded. Topics include the valuation of future contracts; the valuation of options; trading strategies involving these assets; swaps; and the use (and misuse) of financial derivatives in the context of corporate applications. Emphasis is on the fundamentals of derivatives pricing and hedging.

Prerequisite(s): MTH 340 or MSD 200 (with minimum grade of "B"), and FIN 220 (with a minimum grade of "B") or permission of instructor.

FIN 380 Real Estate 3 Credits

Real estate finance and related subjects in real estate are examined. Topics include measuring cash flows and taxes, valuation methods for real estate investment decisions, location and value in real estate, home ownership, legal matters, and financing methods and techniques.

Prerequisite(s): FIN 220.

FIN 399 The Co-Operative Experience 6 Credits

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their finance and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include finance majors with at least junior status, a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in any finance coursework completed prior to the submission of the co-op application. Co-op credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

Prerequisite(s): FIN 220.

FIN 412 Investment Analysis 3 Credits

Real-world application of the concepts and techniques of investment analysis and portfolio theory introduced in FIN 312. Students interact with and make recommendations to professional portfolio managers. Topics include analysis and forecasts of business conditions, market interest rates, international opportunities, and corporate profits. Emphasis is placed on the valuation of securities, stock selection, investment timing, technical analysis, and management of portfolio risk with options, futures, and other tools.

Prerequisite(s): FIN 312 or permission of instructor.

FIN 469 Special Topics in Finance 3 Credits

This course is occasionally offered, with the topics and prerequisites set by the finance program.

FIN 490 Independent Research and Study 3 Credits

Topic to be approved in advance by supervising instructor, chairperson, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation. This course can be used as a business or free elective, but with prior approval it can also be used as finance elective.

FIN 491 Finance Internship 1-3 Credits

The internship offers qualified junior and senior finance majors supervised employment with participating companies. The internship may be taken during the fall or spring semester or during the summer session. Students are evaluated periodically by senior staff members of the participating firms and are required to complete a term paper that will be reviewed by the major's internship director. Internship credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

Prerequisite(s): permission of instructor.

HRM 312 Intro to Labor Relations 3 Credits

This course deals with the relationship of labor unions and management, the fundamentals of collective bargaining, and labor legislation. The structure and growth of unions as well as the relationships and problems that exist among private and public sector organizations, the labor force, and government are surveyed.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 313 Legal Aspects of Human Res Mgt 3 Credits

This course deals with the various laws that affect human resource management, including social insurance, legislation, minimum wage laws, OSHA, ERISA, as well as equal employment opportunity legislation. This course is concerned not only with the provisions of these laws, but also with their constitutionality, their effects, and how they are administered.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 315 Employee Selection & Training 3 Credits

This course explains the processes involved in selecting and training employees. With regards to selection, specific examples include, evaluating applicant credentials, administering pre-employment tests and complying with equal employment opportunity legislation. With regards to training, topics include assessing the need for training, designing effective training programs, utilizing methods such as technology to deliver training, and evaluating the effectiveness of training programs.

Prerequisite(s): MGT 310.

HRM 316 Employee Compensation Systems 3 Credits

The goal of this course is to familiarize you with the common methods of compensation used by today's organizations and how these methods could be used to increase motivation, job satisfaction, and performance in the workplace. To accomplish this, we will first discuss the bases of motivation in the workplace. Next, we will then talk about the various compensation options and techniques and the strengths and weaknesses of each in maximizing motivation and performance in an organization.

Prerequisite(s): MGT 310.

HRM 333 Employee Engagement 3 Credits

Employee Engagement is commonly described as a focused passion and enthusiasm that employees bring to their work that produces high-quality performance and positive organizational outcomes such as enhanced firm reputation, customer loyalty, and profitability. In this course, students will explore the concept and value of Employee Engagement, and strategies for energizing an organization's workforce. Projects and activities will focus on the role of the Human Resource function in measuring employee attitudes, designing relevant interventions, and influencing a culture of engagement.

Prerequisite(s): MGT 310.

HRM 441 Sel. Topics: Human Res Mgt 3 Credits

Deals with one area of study in the field of human resource management such as protective labor legislation, mediation and arbitration, the administration of labor unions, or case problems in human resource management. The topic varies each semester and is announced at the time of registration.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 490 Independent Research and Study 1-4 Credits**HRM 491 Internship 1-4 Credits****HRM 492 Internship in Human Res Mgt 3 Credits**

Provides the student with the opportunity to supplement and apply their human resource management classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions. 2.75 GPA overall and 3.0 GPA in the major is required.

Prerequisite(s): major in human resource management or management and leadership, and MGT 310; senior status; and permission of instructor.

MGT 201 Fund Management & Org Behavior 3 Credits

This course deals with the fundamentals of organizational behavior as they relate to management such as motivation, communications, and leadership. Behavior is examined at the individual, group, and organizational level. The management functions of planning, organizing, leading and controlling are addressed. The effects of global operations and the requirements of ethical behavior on managers are also explored.

Prerequisite(s): minimum 30 credits completed.

MGT 310 Intro to Human Resource Mgmt 3 Credits

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 320 Managing Workforce Diversity 3 Credits

Demographic shifts, changing patterns of labor force participation, global competition, and a growing cultural emphasis on the celebration of difference have all contributed to the creation of diversity as a hot topic in management. This course explores the opportunities and challenges of the increasingly diverse workforce emerging in the United States today. We will address the knowledge and skills managers must develop in working with others who are different from themselves.

Some of these differences are obvious- gender, race, age, and physical characteristics. Other differences are not as easily observed - family structure, educational level, social class, and sexual orientation. This class incorporates experiential learning techniques for personal growth.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 336 Career Management 3 Credits

How careers are shaped by individual needs and experience and assisted by organization systems and practices is the focus of this course.

The meaning of work and the development of careers are discussed, and students undertake self-assessment for the purpose of career planning. Careers are examined in the context of important changes occurring today in the world of work. The impact of the executive, organizational counselors and trainers, and the educational system upon the development of human potential is examined, along with the techniques for human resource planning and development.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 346 Negotiation 3 Credits

The purpose of this course is first, to explore the major concepts and theories behind effective negotiating practices and second, to develop negotiating skills applicable to a wide range of contexts. A knowledge of negotiation is a crucial requirement for anyone interested in a business career since it is a common mechanism for implementing change and for resolving conflict in the workplace. Topics will include two-party negotiations, power and politics, mediation, arbitration, and collective bargaining. A variety of teaching techniques will be used including readings, discussion, and role-playing.

Prerequisite(s): MGT 201 or permission of the instructor.

MGT 355 Team Management 3 Credits

This course prepares students to work in organizations that use teams as an integral part of their functioning—an increasingly common practice. The class involves intensive group interaction, focusing on individual growth in group settings. Working with other students in role-plays, exercises, and team assignments allows the student to develop better communication and leadership skills.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 363 Management Skills 3 Credits

The focus of this course is on specific skills necessary for success in a management role. These skills include leading, communicating effectively, delegating, conflict and time management and motivating others. Students will have opportunities to practice skills and to apply their knowledge to business cases.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 375 International Management 3 Credits

This course explores the ways in which culture impacts management practices and organizational behavior and dynamics. Topics include cross cultural communication, expatriate selection and training, leading and motivating cross cultural teams, developing organizational strategies to compete in a global market place, international business ethics, and current topics.

Prerequisite(s): MGT 201.

MGT 421 Sel Topics:Mgt & Organztn Behv 3 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 448 Sem Small Bus Consul 3 Credits

This course utilizes student teams to assist existing small businesses in solving problems or researching opportunities. Students will spend the majority of time in the field utilizing an experiential learning approach. Weekly activity logs, proposal development, and project completion are required. Restricted to seniors.

Prerequisite(s): ENT 348 and permission of instructor.

MGT 490 Independent Research and Study 1-4 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 491 Intern Management/Org Behavior 3 Credits

Provides the student with the opportunity to supplement and apply their management and leadership classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions.

Prerequisite(s): major in management and leadership or human resource management and MGT 363, or senior status; Requires a 2.75 GPA overall and 3.0 GPA in the major and permission of the instructor.

MKT 200 Marketing Principles 3 Credits

This course examines market characteristics, consumer buying habits and motives, and functions of marketing within the framework of the strategic marketing planning process. Concepts and current practices in product development, pricing, promotion, distribution, and international marketing are studied.

MKT 250 Retailing Management 3 Credits

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

Prerequisite(s): MKT 200.

MKT 260 Service Marketing 3 Credits

Focuses on the unique challenges of managing services and delivering quality service to customers. Emphasis is placed on the total organization, and how effective marketing and customer focus must be coordinated across multiple functions. The course is applicable to service organizations and to organizations that depend on service excellence for competitive advantage. Topics include customer-focused management, and customer satisfaction, retention, lifetime value and profitability.

Students will learn to map services, understand customer expectations, and develop relationship marketing strategies.

Prerequisite(s): MKT 200.

MKT 280 Sports Marketing 3 Credits

The course focuses on the unique challenges of marketing sports at a variety of levels: youth, college, professional, and international. The challenges of attracting and retaining fans and participants as well as of building and maintaining strong brand identity are at the heart of the course content. By evaluating case studies and examining current issues in sports marketing, students will gain an understanding of what it means to be a professional marketer of a sports organization and/or event.

Prerequisite(s): MKT 200.

MKT 310 Business to Business Marketing 3 Credits

This course examines the business-to-business marketplace, and the planning and control tools used by its entities in managing the product, pricing, promotion, channel and supply chain management strategies.

Prerequisite(s): MKT 200.

MKT 320 Consumer Behavior 3 Credits

The nature and determinants of consumer behavior are studied, with attention given to the influence of socio-psychological factors such as personality, small groups, demographic variables, social class, and culture on the formation of consumer attitudes, consumption patterns, and purchasing behavior.

Prerequisite(s): MKT 200; Required for advertising majors.

MKT 330 International Marketing 3 Credits

This course examines the global marketplace and the complexities of its environmental influences, and necessary adaptations in formulating the strategies for product, pricing, promotion, channel and supply chain management.

Prerequisite(s): MKT 200.

MKT 340 Personal Selling 3 Credits

Examines persuasive techniques utilized in sales presentations conducted on a person-to-person basis. Major course emphasis is on developing effective selling techniques; understanding the company, its products and the role of the salesperson in implementing product/market strategies; understanding the customers and the selling environment; application of effective sales presentation techniques; recognizing selling opportunities and careers.

Prerequisite(s): MKT 200.

MKT 345 Customer Focus 3 Credits

Marketing supply chain management programs are concerned with the creation and delivery of value to customer and organizations. No longer simply the domain of the warehouse manager or logistics director, supply chain management is viewed by most companies as a mission-critical element. Marketing focuses on developing an understanding of customers and markets, creating products and services based on that understanding, and communicating and delivering the value added. This course will teach the student the essential role of marketing in all aspects of successful supply chain management - relationship management, technological and financial - and it will help the student understand the structure, functions, principles and methods employed in discovering and translating consumer needs and wants into product and service specifications and then transferring these goods and services from producers to consumers or end users.

Prerequisite(s): MKT 200 and GSC 115 or permission of instructor.

MKT 350 Retailing Management 3 Credits

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

Prerequisite(s): MKT 200.

MKT 366 Marketing Research 3 Credits

Topics include specific research procedures in gathering, processing, analyzing, and presenting information relevant to marketing problems: advertising planning and effectiveness; product development; distribution channels; sales techniques; consumer behavior; and forecasting. Student learning about research planning, implementation, and interpretation is facilitated by the use of projects or cases.

Prerequisite(s): MKT 200; MSD 200, MSD 201; junior standing; Required for marketing and advertising majors.

MKT 370 Internet Marketing 3 Credits

This course emphasizes the discipline of internet marketing, including practices of leading online marketing companies, state of the art online research and demonstrates how the Internet is creating value for customers and profits for businesses while also fitting into a firm's complete marketing strategy. This course will provide a strategic and tactical toolkit for the online marketer, help students understand how and why the Internet is changing traditional marketing and allow students to develop the skills, strategies and tactics important to develop successful Internet marketing plans.

Prerequisite(s): MKT 200 and CIS 185.

MKT 380 Healthcare Marketing 3 Credits

The purpose of this course is to introduce students to the role, functions and tasks of healthcare marketing. Attention is devoted to applying basic marketing principles to the healthcare sector. Marketing decision making and analysis will be emphasized through the use of cases and current readings that focus on a variety of healthcare organizations, including hospitals, assisted living facilities, MCOs, and pharmaceutical companies.

Prerequisite(s): MKT 200 or permission of instructor.

MKT 440 Sales Management 3 Credits

By means of lectures, discussions, and case studies, the field of marketing management is analyzed from the viewpoint of sales executives. The responsibilities for planning and administering personal selling operations are emphasized. Considerable attention is given to other activities for which sales executives may be wholly or jointly responsible, such as decision making on promotion and brand management.

Prerequisite(s): MKT 200 and senior standing.

MKT 444 Spec. Topics Honors: Mkt & Law 3 Credits**MKT 460 Marketing Management Seminar 3 Credits**

This capstone course for marketing majors employs a top management approach to the overall marketing task, including planning, organizing, controlling, and integrating all the activities of the marketing program. Integration of marketing with other operations of the business unit is emphasized. Major problems and current trends are identified and analyzed through case discussion.

Prerequisite(s): Marketing major and 15 semester hours of marketing; Required for marketing majors.

MKT 469 Selected Topics in Marketing 3 Credits

The study of a topic (or combination of topics) that represents some dimension of marketing or has important and direct implications for marketing management. Theoretical foundations as well as special applications of marketing decision making may be explored. Readings, research, lectures, discussions, or other appropriate methods are employed to stimulate student learning.

Prerequisite(s): MKT 200 and senior standing or permission of instructor.

MKT 490 Independent Research and Study 1-4 Credits

Topic to be approved by the professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation, which may be counted as a business or free elective.

MKT 491 Internship-Based Indep Study 3 Credits

Provides the student an opportunity to supplement and apply classroom work in supervised employment with participating marketing and advertising firms. Requirements include a journal with a log of daily activities, and a project or term paper presented to and evaluated by the internship sponsor. Evaluation will also include a report by the company on the intern's performance. Credits may be used to satisfy business or free elective requirements.

Prerequisite(s): permission of instructor.

Business Basics Certificate

The Business Basics certificate program is designed for students holding an undergraduate degree in areas other than business. The 18–24 credits program includes courses in accounting, computing, economics, finance, legal studies, management and leadership, management science and marketing. The Business Plus certificate program will provide students a good foundation toward the Master in Business Administration.

(18-24 credits)

ACC 210	Introduction to Accounting	3
BUS 300	Social & Legal Environment Bus	3
CIS 185	Information Systems Essentials ¹	3
ECO 201	Principles of Microeconomics	3
FIN 220	Introduction to Finance	3
MGT 201	Fund Management & Org Behavior	3
MKT 200	Marketing Principles	3
MSD 105	Quantitative Methods for Business ¹	3

Total Credits 18-24¹ CIS 185 and MSD 105 may be waived based on prior equivalent work.

Note: If prior equivalent coursework has been completed, substitutions may be made using the courses from the Business Plus certificate.

Admission Requirements

Minimum admissions requirements for the Business Basics and Business Plus certificate programs are:

- a baccalaureate degree in an area other than Business;
- a 2.5 GPA in all undergraduate work.

This program is available only to students enrolled in CCS.

Program Completion and Certification

Students must achieve a 2.5 GPA in their coursework with no grade lower than a "C" to successfully complete a College of Business Administration certificate. Students leaving CCS for any other Rider undergraduate program before earning the certificate will not be eligible for the certificate.

Entrepreneurial Studies (B.S.B.A.)

Program Overview

Rider entrepreneurial studies (ES) students develop the skills and know-how they need to become independent, innovative and informed entrepreneurs. Entrepreneurs look at the world differently, and see opportunity where others do not. The programs emphasize practical experience and holistic thinking, encourage students to develop their own business plan, and enhance analytical skills through experiential classes.

Entrepreneurs and small business are the engines for job creation and economic growth. Career opportunities for entrepreneurial students are as boundless as their creativity, imagination and work ethic. Many employers value students with an entrepreneurial attitude and their ability to think outside the box.

The ES program has two key learning objectives. First, encourage entrepreneurial thinking among students. This entails the ability to recognize, evaluate and pursue opportunities. Second, build professional skills relevant for starting and managing a new venture. These include research, business planning, and understanding functional aspects of small business management and operations.

Curriculum Overview

Rider entrepreneurial studies students gain an education in business, plus the skills, attitude and experience needed to create new ventures or revitalize established businesses. They learn to identify and understand different types of start-up ventures, how to build and present business plans, and how to evaluate sources of financing for start-up and other types of ventures.

The program's interdisciplinary format offers the option of double majoring with another business discipline, such as management, marketing, finance, sports management, information systems,

and others. Students also can choose the entrepreneurial studies concentration, a four-course program that is paired with a major in the College of Business Administration.

Total Credits		120

¹ Accounting majors double majoring in Entrepreneurial Studies may substitute ACC 410 Fund of Federal Taxation for the ENT 335 requirement.

For graduation, students must achieve an overall 2.0 GPA in the major, with no course grade less than "C-".

Students are also encouraged to take ENT 491 Internship as a free elective.

BUS 210 Intro to Law: Contracts 3 Credits

An introduction to the origin of current law, with emphasis on the development of business law, students are exposed to legal terminology and acquainted with the system of application of rules of law to actual situations. The laws of contracts, particularly common-law developments, are considered in great detail.

CIS 325 User-Centered Design 3 Credits

This course introduces students to the design and evaluation of interactive and internet-based devices and systems, including methods to understand user needs and requirements, design and prototype alternative systems, and evaluate system usability. Topics include interaction design, human factors, requirement gathering techniques, protocol analysis, usability testing, and heuristics evaluation.

Prerequisite(s): Junior standing.

CIS 340 Electronic Commerce 3 Credits

Students will learn about the broad range of Internet business technologies; develop the skills necessary to create and administer successful electronic commerce projects; and understand the associated benefits, and risks of electronic commerce business models.

Prerequisite(s): CIS 185.

ENT 210 Sports Entrepreneurship 3 Credits

Sports Entrepreneurship will introduce students to entrepreneurship in the sports industries as they explore opportunities and challenges for new ventures in this sector. Using an industry's business model, students will identify competitive advantages and understand what is required for startup success.

ENT 260 Family Business Management 3 Credits

This course is directed at understanding the family-owned and managed firm. Topics included are the strengths and weaknesses of a family firm, the dynamics of the family and business interactions, conflict resolution, succession planning and ownership transfer. The course will help individuals involved with a family firm, regardless if they are a family member.

Prerequisite(s): MGT 201 and junior standing.

MGT 310 Intro to Human Resource Mgmt 3 Credits

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

Prerequisite(s): MGT 201 or permission of instructor.

ENT 335 Small Business Tax Planning 3 Credits

This course provides an understanding of the key tax issues faced by small businesses and their business implications. It also familiarizes prospective business owners with various tax filing requirements so that they can use the expertise of tax professionals more effectively.

Prerequisite(s): ACC 210.

ENT 348 Small Business Management 3 Credits

The role of small business in the American economy is examined. Favorable practices, policies, functions, principles and procedures of and for the small business entrepreneur and owner-manager are studied. Includes learning a method to evaluate a new venture idea.

Prerequisite(s): MGT 201 or permission of instructor and junior standing.

ENT 350 Entrepreneurial Finance 3 Credits

This course covers the techniques for acquiring financial resources as a firm advances through successive business stages: seed, start-up, struggling, growing, and stable. In addition, it examines recent trends in credit markets and the latest financial innovations as they impact the process of financing the venture's growth.

Prerequisite(s): FIN 300.

ENT 375 International Entrepreneurship 3 Credits

Students will learn how new or small ventures enter international markets. Requirements include developing a case about starting or running a venture in a single country of the student's choice.

Prerequisite(s): MGT 201 and junior standing.

ENT 410 New Venture Planning 3 Credits

This course will require students to select a business and prepare a complete new venture plan for it. This plan would identify the product and its target market, analyze its market potential, choose the location, scale of operation, layout, staffing, type of financing, estimate the revenues and profits, and present the income statement, balance sheet, and the cash flow projections.

Prerequisite(s): ENT 348 or permission of instructor.

ENT 420 Student Venture Experience 3 Credits

Students will start and run a small business while under the supervision and guidance of faculty. Students will take a business plan developed through New Venture Planning (ENT 410) and execute it. Students will experience the launch process and learn, hands on, how to adapt to the marketplace. Some businesses started in this class may also be eligible for seed venture funding from Rider.

Prerequisite(s): ENT 348, ENT 410, and permission of instructor.

ENT 444 Special Topics 3 Credits

3 Credits.

ENT 448 Small Business Consulting Sem 3 Credits

This course utilizes student teams to assist existing small businesses in solving problems or researching opportunities. Students will spend the majority of time in the field utilizing an experiential learning approach. Weekly activity logs, proposal development, and project completion are required. Restricted to seniors.

Prerequisite(s): ENT 348 and permission of instructor.

ENT 490 Independent Study 3-4 Credits

3 CREDITS.

MGT 363 Management Skills 3 Credits

The focus of this course is on specific skills necessary for success in a management role. These skills include leading, communicating effectively, delegating, conflict and time management and motivating others. Students will have opportunities to practice skills and to apply their knowledge to business cases.

Prerequisite(s): MGT 201 or permission of instructor.

MKT 250 Retailing Management 3 Credits

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

Prerequisite(s): MKT 200.

MKT 320 Consumer Behavior 3 Credits

The nature and determinants of consumer behavior are studied, with attention given to the influence of socio-psychological factors such as personality, small groups, demographic variables, social class, and culture on the formation of consumer attitudes, consumption patterns, and purchasing behavior.

Prerequisite(s): MKT 200; Required for advertising majors.

Entrepreneurial Studies Concentration

The Entrepreneurial Studies concentration is an option for any business student desiring to focus on starting a new venture, or working in a small or family firm environment. The concentration must be taken with another major in the College of Business Administration.

Requirements

The Entrepreneurial Studies concentration requires four business courses as outlined below (courses to be counted as either major or free electives):

ENT 348	Small Business Management	3
ENT 410	New Venture Planning	3
Select two of the following, one of which must be an ENT-prefixed course:		6
BUS 210	Intro to Law: Contracts	
CIS 260	Business Graphics	
or CIS 340	Electronic Commerce	
ENT 210	Sports Entrepreneurship	
ENT 260	Family Business Management	
ENT 335	Small Business Tax Planning ¹	
ENT 350/FIN 350	Entrepreneurial Finance	
ENT 375	International Entrepreneurship	
ENT 420	Student Venture Experience	
ENT 444	Special Topics	
ENT 448	Small Business Consulting Sem	
ENT 490	Independent Study	
MGT 310	Intro to Human Resource Mgmt	
or MGT 363	Management Skills	
MKT 250	Retailing Management	
Total Credits		12

¹ Accounting majors can substitute ACC 410 Fund of Federal Taxation for ENT 335.

Students must achieve an overall 2.0 GPA in the concentration, with no course grade less than "C-".

Finance (B.S.B.A.)

Program Overview

Rider’s finance program was designed to meet the various career goals of different students. Many fields require an understanding of both the process of making financial decisions and how those decisions will affect others. Rider’s finance major combines a solid analytical foundation with broad coverage on how the financial system operates. Programs of study are structured to benefit students who will enter both finance and non-finance careers.

Rider finance majors have found careers regionally and around the world in business, industry, government service and the non-profit sector. Career paths of our finance graduates include portfolio manager, financial analyst, banker, insurance underwriter, financial planner, corporate financial manager, credit analyst, financial consultant and more.

Curriculum Overview

Rider prepares students in its finance program with a comprehensive understanding of the financial decision-making processes. Our diversified program allows students to develop finance and general business knowledge needed to compete in today’s job market.

For example, Rider offers a Certificate in Investment Analysis Program that prepares students for a variety of careers in investments and corporate finance. The program also provides courses for students who plan to take the Chartered Financial Analysis (CFA) Level 1 Exam. <https://nextcatalog.rider.edu/undergraduate/colleges-schools/business-administration/majors-minors-certificates/investment-analysis>

We also offer concentrations in Financial Management and Financial Services Marketing. The Concentration in Financial Management provides preparation for students who wish to take the Certified Management Accounting (CMA) examinations. This certification can be very worthwhile for those who intend to enter careers in Corporate Finance/Accounting. The Concentration in Financial Services Marketing is designed for students interested in the many careers requiring knowledge of finance as well as strong marketing skills. <https://nextcatalog.rider.edu/undergraduate/colleges-schools/business-administration/majors-minors-certificates/finance/#concentrationtext>

Non-business majors might find our Minor in Finance to be a worthwhile addition to their program. They can receive their non-business degree and at the same time acquire considerable business knowledge and skills from our Finance minor. <https://nextcatalog.rider.edu/undergraduate/colleges-schools/business-administration/majors-minors-certificates/finance/#minorrequirementtext>

In short our flexible program allows students to customize their major to fit their individual career interests. They can choose from a variety of concentrations and electives. Courses offerings range from investment analysis and portfolio management to financial modeling and personal financial planning.

Major Requirements		
FIN 307	Financial Markets & Institut	3
FIN 309	Intermediate Corporate Finance	3
FIN 312	Investments	3
Three upper level FIN electives (300-400 level), excluding FIN 491 Finance Internship and FIN 399 Finance Co-op.		9
Free Electives		27
Total Credits		120

For entry into the Finance major, students need at least a “C-” in FIN 220 Introduction to Finance.

Students must achieve a grade of at least “C-” in each of the major courses with a minimum GPA of 2.0 in the major.

Special Double Major Opportunities

The finance department believes that recognition and credit should be given to the significant amount of finance-related material that is included in the programs for accounting majors. As a result, students who are finance and accounting double majors can reduce the number of required finance courses from six to five. Details are available from the CBA Dean’s office or from the chairperson of the finance department.

Requirements for the Minor

(Available to all non-business majors)

(18 credits)

ACC 210	Introduction to Accounting	3
ECO 201	Principles of Microeconomics	3
FIN 220	Introduction to Finance	3
Select three of the following:		9

FIN 200 Managing Your Money 3 Credits

An introduction to the analysis of a wide range of financial decisions which individuals encounter over their careers and lifetime. Topics include financial goals, tax planning, home ownership versus renting, consumer credit, money management and investments, and managing risk with insurance. This course is open to all Rider students, and it counts as a free elective or a business elective. It cannot be used as finance elective.

FIN 220 Introduction to Finance 3 Credits

An introduction to the environment, concepts, and techniques of financial management. Topics include forms of business organization, taxes, analysis of financial performance, financial planning, financial markets and interest rates, time value of money, bond and stock valuation, risk and return, capital budgeting, cost of capital, and international financial management.

Prerequisite(s): ACC 210 and ECO 201.

FIN 305 Personal Financial Planning 3 Credits

This course focuses on practical issues and problems involving personal financial budgeting, use of credit, selection of banking services, insurance needs, real estate, investments, tax planning, and retirement planning. An important objective of the course is to provide the student with the tools that are utilized in making personal financial decisions and how to apply those tools for a variety of financial needs.

Prerequisite(s): FIN 220.

FIN 307 Financial Markets & Institut 3 Credits

An introduction to the organization and behavior of financial markets and institutions in the economy. The factors determining security prices and interest rates in the money and capital markets are analyzed. An overview of all major financial institutions is presented. In addition, market returns, the regulatory environment and monetary policy are re examined.

Prerequisite(s): ECO 200 and junior standing.

FIN 308 International Finance 3 Credits

Financial management in the international environment. Topics include balance of payments, foreign exchange markets, arbitrage, hedging of currency risk, country risk management, and the evaluation of foreign investment opportunities.

Prerequisite(s): FIN 220.

FIN 309 Intermediate Corporate Finance 3 Credits

This course builds on and extends the concepts of financial management learned in FIN 220. The course examines long-term corporate financing and investment decisions and how those decisions interface with each other. Topics covered include: cost of capital, financial planning and analysis, capital budgeting, capital structure and dividend policy.

Prerequisite(s): FIN 220.

FIN 312 Investments 3 Credits

The fundamentals of investing in stocks, bonds, and other negotiable instruments are covered. Major topics include trading on securities markets, mutual funds, international investing, margin accounts, short sales, determinants of securities prices, and investment risks. Stock options, financial futures, convertible securities, and implications of taxes on investment decisions are also discussed.

Prerequisite(s): FIN 220.

FIN 315 Financial Modeling 3 Credits

Provides instruction in computer use beyond what is available in other finance courses. Topics include more sophisticated applications of computers in financial management, investments, and other areas of finance and business. Students work on cases and projects which require more advanced usage of spreadsheets and other software and databases.

Prerequisite(s): CIS 185 and FIN 220.

FIN 330 Corporate Cash Management 3 Credits

This course is designed for business students seeking an understanding of modern principles and techniques for corporate treasury management. The course material is useful for finance, accounting, and banking professionals or small business owners. Topics include analysis of liquidity and solvency, credit and accounts receivable management, cash collection and disbursement systems, short-term investment and borrowing, management of treasury information and technology, multi-national cash management, and other related topics.

Prerequisite(s): FIN 220.

FIN 340 Risk Management 3 Credits

This course examines the risk management process as applied to the firm as a whole. It integrates the management of all risks facing the firm: strategic, financial, hazard, and operational. Techniques for identifying risk, measuring and analyzing it, and selecting an appropriate treatment will be explored.

Prerequisite(s): FIN 220.

FIN 350 Entrepreneurial Finance 3 Credits

This course covers the techniques for acquiring financial resources as a firm advances through successive business stages: seed, start-up, struggling, growing, and stable. In addition, it examines recent trends in credit markets and the latest financial innovations as they impact the process of financing the venture's growth.

Prerequisite(s): FIN 220.

FIN 360 Derivatives 3 Credits

The objective of this course is to provide students with an understanding of the main types of financial derivatives and of the markets in which they are traded. Topics include the valuation of future contracts; the valuation of options; trading strategies involving these assets; swaps; and the use (and misuse) of financial derivatives in the context of corporate applications. Emphasis is on the fundamentals of derivatives pricing and hedging.

Prerequisite(s): MTH 340 or MSD 200 (with minimum grade of "B"), and FIN 220 (with a minimum grade of "B") or permission of instructor.

FIN 380 Real Estate 3 Credits

Real estate finance and related subjects in real estate are examined. Topics include measuring cash flows and taxes, valuation methods for real estate investment decisions, location and value in real estate, home ownership, legal matters, and financing methods and techniques.

Prerequisite(s): FIN 220.

FIN 399 The Co-Operative Experience 6 Credits

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their finance and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include finance majors with at least junior status, a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in any finance coursework completed prior to the submission of the co-op application. Co-op credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

Prerequisite(s): FIN 220.

FIN 412 Investment Analysis 3 Credits

Real-world application of the concepts and techniques of investment analysis and portfolio theory introduced in FIN 312. Students interact with and make recommendations to professional portfolio managers. Topics include analysis and forecasts of business conditions, market interest rates, international opportunities, and corporate profits. Emphasis is placed on the valuation of securities, stock selection, investment timing, technical analysis, and management of portfolio risk with options, futures, and other tools.

Prerequisite(s): FIN 312 or permission of instructor.

FIN 469 Special Topics in Finance 3 Credits

This course is occasionally offered, with the topics and prerequisites set by the finance program.

FIN 490 Independent Research and Study 3 Credits

Topic to be approved in advance by supervising instructor, chairperson, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation. This course can be used as a business or free elective, but with prior approval it can also be used as finance elective.

FIN 491 Finance Internship 1-3 Credits

The internship offers qualified junior and senior finance majors supervised employment with participating companies. The internship may be taken during the fall or spring semester or during the summer session. Students are evaluated periodically by senior staff members of the participating firms and are required to complete a term paper that will be reviewed by the major's internship director. Internship credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

Prerequisite(s): permission of instructor.

Fraud and Business Forensics Certificate

A concentration in Fraud and Business Forensics consists of four courses that can be completed as part of the undergraduate Accounting or Information Systems program. The concentration prepares students for a career in the field of fraud investigation and forensics by providing skills and tools to both prevent fraud from occurring and discovering fraud after it has occurred.

(12 credits)

Required Courses

ACC 321	Internal Auditing	3
ACC 325	Fraud Examination and Business Forensics	3
ACC 450	Business Forensic Application	3
Select one of the following Tracks:		3

Accounting Track

ACC 320	Accounting Info Systems
or ACC 400	Principles of Auditing

Information Systems Track

CIS 370	Systems Analysis and Design Project
---------	-------------------------------------

Total Credits 12

Students must achieve a minimum 2.5 GPA in the coursework required for the concentration, with no grade lower than a "C" in any course in the concentration.

Admission

Current undergraduate College of Business Administration (CBA) students majoring in Accounting or Information Systems may choose a concentration on Fraud and Business Forensics. The concentration credit requirements are the same as the Concentration in Business Forensics. CBA students who want to declare this concentration through the CBA Undergraduate Academic Coordinator in the Dean's Office in Sweigart Hall a semester prior to beginning coursework.

The certificate program welcomes students who graduated from Rider or who are not presently enrolled and possess a bachelor's degree. A minimum GPA of 2.5 is required. Students who have completed a degree from Rider may complete a Re-enroll/Certificate Program application form through the College of Continuing Studies. Students who have not previously attended Rider may complete a College of Continuing Studies application form. Students who have completed a business degree other than Accounting or Information Systems or non-business degree must consult with a College of Continuing Studies advisor prior to enrolling.

General Business (Online), B.S.B.A.

Program Overview

Rider's affordable **online degree program leading to the B.S. in Business Administration** offers working professionals the convenience and flexibility of completing their college degree online. This program is designed for motivated adult learners who have completed at least half of their studies toward a baccalaureate business degree (60 or more credits) or earned an associate's degree in business within the last 10 years.

Curriculum Overview

The General Business major requires completion of 18 credit hours of upper-level business courses across a variety of disciplines, including: economics, finance, management and marketing and more. For graduation students must achieve an overall GPA of 2.0 in the major. Business Administration majors may not count more than six credit hours toward a second major, with the exception of International Business.

Courses and Descriptions

ECO 200 Principles of Macroeconomics 3 Credits

A collective view of income receiving and spending sectors of the national economy, including households, businesses, and governments. Issues discussed: What determines the level of output, income, and employment achieved by the economy? What determines the growth of national output and employment? National income accounting, income and employment theory, monetary system, general price level, business cycle, government policies designed to provide for full employment, price stability, and economic growth are also covered.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

ECO 201 Principles of Microeconomics 3 Credits

Market price systems are analyzed. The nature and characteristics of consumer and producer behavior, the theory of pricing in competitive and noncompetitive markets, and determination of the distribution of output are re evaluated. Welfare, social control, monopoly, and income inequality are explored in the light of price theory. The role of the United States in the world economy is explored.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

ECO 210 Intermediate Macroeconomics 3 Credits

An analytical study of modern aggregate economic theory. Emphasizes the measurement and determination of income, employment, and price levels, as well as economic policy in theory and practice.

Prerequisite(s): ECO 200 and ECO 201.

ECO 211 Intermediate Microeconomics 3 Credits

This course is designed to give the student a thorough understanding of microeconomic theory. As such, the course will analyze the behavior of both consumers and producers, and how this behavior determines the price and quantity observed in the market. The course objective is to provide students with the necessary theoretical background to enable them to solve meaningful and practical problems. Thus, the course is both theoretical and applied in its orientation. The course will emphasize that economic theory can be used not only to solve market oriented problems, but social and public policy problems as well.

Prerequisite(s): ECO 200 and ECO 201.

ECO 300 Business Conditions Analysis/Forecast 3 Credits

Business conditions change daily. Students study them as they change, learning to understand them in the light of economic theory, learning how each part of the economy is affected, and learning the advantages and limitations of the most reliable forecasting methods.

Prerequisite(s): ECO 200, MSD 201.

ECO 301 Managerial Economics 3 Credits

Intensively examines the theory of the firm with applications to the solution of such managerial problems as demand forecasting, the nature and behavior of costs, and product pricing. Introduces the use of simple mathematical and statistical tools that are employed with economic analysis for solving managerial problems.

Prerequisite(s): ECO 200 and ECO 201 and MSD 201 or permission of instructor.

ECO 305 International Trade and Investment 3 Credits

Studies the theory, institutions, and structures underlying the international flow of trade and investment. Topics are: the theory of international trade; balance of payment analysis; the international monetary system; adjustment to balance of payment disequilibrium; regional economic integration; the economic effects of trade restrictions; and trade and foreign investment problems of developing nations.

Prerequisite(s): ECO 200 and ECO 201.

ECO 315 Comparative Economic Systems 3 Credits

Provides a conceptual framework for classifying and comparing economic systems. Presents theory of the capitalist market economy and case studies of the U.S., Japanese, French, and Swedish economies. Examines theory of the centrally planned economy, its transition, and case studies of the Soviet and its successor states, Chinese, and East European economies. Case studies are necessarily limited, concentrating on selected topics, such as transition strategies, industrial policy, etc.

Prerequisite(s): ECO 200 and ECO 201.

ECO 325 Industrial Organization 3 Credits

Explores the relationship between market structure and performance. Topics include concentration in individual industries, product differentiation and entry barriers, pricing and marketing policies, and antitrust policies and their consequences.

Prerequisite(s): ECO 200 and ECO 201.

ECO 326 Economics of Sports 3 Credits

The overall objective of this course is to deepen student understanding of microeconomic principles by applying microeconomic concepts to the analysis of professional and amateur sports. This course will utilize concepts from many different microeconomic specialties, (primarily Industrial Organization, Labor Economics and Public Finance). The tools from these different microeconomic fields will be used to explain and analyze the operation of professional sports teams and leagues in the U.S. with an emphasis on baseball, football, basketball and hockey. International comparisons will be made between professional sports in the U.S. and the rest of the world. The course will also analyze the not-for-profit sports sector, focusing on college sports and the National Collegiate Athletic Association.

Prerequisite(s): ECO 201.

ECO 330 Labor Market Analysis 3 Credits

Intensive study of the economics of the labor market, which examines the determinants of labor supply and demand, and market equilibrium in the labor market. This enables the student to understand what determines wages, labor force participation, occupational choice, the extent of education and training, unemployment, poverty, union membership, and discrimination in the labor market.

Prerequisite(s): ECO 200 and ECO 201.

ECO 335 Economics of the Public Sector 3 Credits

Analyzes the economic roles of government: allocation; distribution; and stabilization. The course examines the tools used by governments, especially the federal government, such as taxation, expenditures, regulations and laws in order to achieve economic goals. The course will give special attention to social regulation.

Prerequisite(s): ECO 200 and ECO 201.

ECO 336 Economics of Health Care Systems 3 Credits

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomic tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes. Note: This course is cross-listed as HTH 336. Students may not get credit for both ECO 336 and HTH 336. For business students who take the course as ECO 336, the course will count as a business course. If taken as HTH 336, the business student will receive credit as a liberal arts course.

Prerequisite(s): ECO 201 or HTH 205.

ECO 365 Post-Soviet Economy 3 Credits

Studies the contemporary post-Soviet economic system, with emphasis on institutions, policies and issues related to business opportunities in this area. Topics covered include the historic, geographic, political, and cultural setting, planning and plan implementation in the traditional system, current reforms and prospects for the future, with special reference to the foreign trade institutions and experience of foreign firms doing business in the post-Soviet Union and Eastern European countries.

Prerequisite(s): ECO 200 and ECO 201 or permission of instructor.

ECO 450 Seminar in Economic Research 3 Credits

Students in the course learn to conduct economic research by engaging in an actual community-based research project. At the beginning of the semester, students are assigned to a community-based organization. As a team, students meet with the client, devise a plan of action, collect and analyze data and other information, and write a report to the client. At the end of the semester, students present their findings to the client. Students are permitted to take ECO 450 up to two times for credit.

Prerequisite(s): Permission of instructor.

ECO 490 Independent Research and Study 3 Credits

Topic to be approved by professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

ECO 491 Internship/Independent Study 3 Credits

This course is available to qualified economics majors and minors. Evaluation is based on a performance appraisal provided by the participating firm and a project/paper judged by the major's internship director. This course can be used as a business or free elective. Grading is done on a pass/fail basis.

Prerequisite(s): Permission of instructor.

FIN 200 Managing Your Money 3 Credits

An introduction to the analysis of a wide range of financial decisions which individuals encounter over their careers and lifetime. Topics include financial goals, tax planning, home ownership versus renting, consumer credit, money management and investments, and managing risk with insurance. This course is open to all Rider students, and it counts as a free elective or a business elective. It cannot be used as finance elective.

FIN 220 Introduction to Finance 3 Credits

An introduction to the environment, concepts, and techniques of financial management. Topics include forms of business organization, taxes, analysis of financial performance, financial planning, financial markets and interest rates, time value of money, bond and stock valuation, risk and return, capital budgeting, cost of capital, and international financial management.

Prerequisite(s): ACC 210 and ECO 201.

FIN 305 Personal Financial Planning 3 Credits

This course focuses on practical issues and problems involving personal financial budgeting, use of credit, selection of banking services, insurance needs, real estate, investments, tax planning, and retirement planning. An important objective of the course is to provide the student with the tools that are utilized in making personal financial decisions and how to apply those tools for a variety of financial needs.

Prerequisite(s): FIN 220.

FIN 307 Financial Markets & Institutions 3 Credits

An introduction to the organization and behavior of financial markets and institutions in the economy. The factors determining security prices and interest rates in the money and capital markets are analyzed. An overview of all major financial institutions is presented. In addition, market returns, the regulatory environment and monetary policy are examined.

Prerequisite(s): ECO 200 and junior standing.

FIN 308 International Finance 3 Credits

Financial management in the international environment. Topics include balance of payments, foreign exchange markets, arbitrage, hedging of currency risk, country risk management, and the evaluation of foreign investment opportunities.

Prerequisite(s): FIN 220.

FIN 309 Intermediate Corporate Finance 3 Credits

This course builds on and extends the concepts of financial management learned in FIN 220. The course examines long-term corporate financing and investment decisions and how those decisions interface with each other. Topics covered include: cost of capital, financial planning and analysis, capital budgeting, capital structure and dividend policy.

Prerequisite(s): FIN 220.

FIN 312 Investments 3 Credits

The fundamentals of investing in stocks, bonds, and other negotiable instruments are covered. Major topics include trading on securities markets, mutual funds, international investing, margin accounts, short sales, determinants of securities prices, and investment risks. Stock options, financial futures, convertible securities, and implications of taxes on investment decisions are also discussed.

Prerequisite(s): FIN 220.

FIN 315 Financial Modeling 3 Credits

Provides instruction in computer use beyond what is available in other finance courses. Topics include more sophisticated applications of computers in financial management, investments, and other areas of finance and business. Students work on cases and projects which require more advanced usage of spreadsheets and other software and databases.

Prerequisite(s): CIS 185 and FIN 220.

FIN 330 Corporate Cash Management 3 Credits

This course is designed for business students seeking an understanding of modern principles and techniques for corporate treasury management. The course material is useful for finance, accounting, and banking professionals or small business owners. Topics include analysis of liquidity and solvency, credit and accounts receivable management, cash collection and disbursement systems, short-term investment and borrowing, management of treasury information and technology, multi-national cash management, and other related topics.

Prerequisite(s): FIN 220.

FIN 340 Risk Management 3 Credits

This course examines the risk management process as applied to the firm as a whole. It integrates the management of all risks facing the firm: strategic, financial, hazard, and operational. Techniques for identifying risk, measuring and analyzing it, and selecting an appropriate treatment will be explored.

Prerequisite(s): FIN 220.

FIN 350 Entrepreneurial Finance 3 Credits

This course covers the techniques for acquiring financial resources as a firm advances through successive business stages: seed, start-up, struggling, growing, and stable. In addition, it examines recent trends in credit markets and the latest financial innovations as they impact the process of financing the venture's growth.

Prerequisite(s): FIN 220.

FIN 360 Derivatives 3 Credits

The objective of this course is to provide students with an understanding of the main types of financial derivatives and of the markets in which they are traded. Topics include the valuation of future contracts; the valuation of options; trading strategies involving these assets; swaps; and the use (and misuse) of financial derivatives in the context of corporate applications. Emphasis is on the fundamentals of derivatives pricing and hedging.

Prerequisite(s): MTH 340 or MSD 200 (with minimum grade of "B"), and FIN 220 (with a minimum grade of "B") or permission of instructor.

FIN 380 Real Estate 3 Credits

Real estate finance and related subjects in real estate are examined. Topics include measuring cash flows and taxes, valuation methods for real estate investment decisions, location and value in real estate, home ownership, legal matters, and financing methods and techniques.

Prerequisite(s): FIN 220.

FIN 399 The Co-Operative Experience 6 Credits

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their finance and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include finance majors with at least junior status, a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in any finance coursework completed prior to the submission of the co-op application. Co-op credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

Prerequisite(s): FIN 220.

FIN 412 Investment Analysis 3 Credits

Real-world application of the concepts and techniques of investment analysis and portfolio theory introduced in FIN 312. Students interact with and make recommendations to professional portfolio managers. Topics include analysis and forecasts of business conditions, market interest rates, international opportunities, and corporate profits. Emphasis is placed on the valuation of securities, stock selection, investment timing, technical analysis, and management of portfolio risk with options, futures, and other tools.

Prerequisite(s): FIN 312 or permission of instructor.

FIN 469 Special Topics in Finance 3 Credits

This course is occasionally offered, with the topics and prerequisites set by the finance program.

FIN 490 Independent Research and Study 3 Credits

Topic to be approved in advance by supervising instructor, chairperson, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation. This course can be used as a business or free elective, but with prior approval it can also be used as finance elective.

FIN 491 Finance Internship 1-3 Credits

The internship offers qualified junior and senior finance majors supervised employment with participating companies. The internship may be taken during the fall or spring semester or during the summer session. Students are evaluated periodically by senior staff members of the participating firms and are required to complete a term paper that will be reviewed by the major's internship director. Internship credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

Prerequisite(s): permission of instructor.

HRM 312 Intro to Labor Relations 3 Credits

This course deals with the relationship of labor unions and management, the fundamentals of collective bargaining, and labor legislation. The structure and growth of unions as well as the relationships and problems that exist among private and public sector organizations, the labor force, and government are surveyed.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 313 Legal Aspects of Human Res Mgt 3 Credits

This course deals with the various laws that affect human resource management, including social insurance, legislation, minimum wage laws, OSHA, ERISA, as well as equal employment opportunity legislation. This course is concerned not only with the provisions of these laws, but also with their constitutionality, their effects, and how they are administered.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 315 Employee Selection & Training 3 Credits

This course explains the processes involved in selecting and training employees. With regards to selection, specific examples include, evaluating applicant credentials, administering pre-employment tests and complying with equal employment opportunity legislation. With regards to training, topics include assessing the need for training, designing effective training programs, utilizing methods such as technology to deliver training, and evaluating the effectiveness of training programs.

Prerequisite(s): MGT 310.

HRM 316 Employee Compensation Systems 3 Credits

The goal of this course is to familiarize you with the common methods of compensation used by today's organizations and how these methods could be used to increase motivation, job satisfaction, and performance in the workplace. To accomplish this, we will first discuss the bases of motivation in the workplace. Next, we will then talk about the various compensation options and techniques and the strengths and weaknesses of each in maximizing motivation and performance in an organization.

Prerequisite(s): MGT 310.

HRM 333 Employee Engagement 3 Credits

Employee Engagement is commonly described as a focused passion and enthusiasm that employees bring to their work that produces high-quality performance and positive organizational outcomes such as enhanced firm reputation, customer loyalty, and profitability. In this course, students will explore the concept and value of Employee Engagement, and strategies for energizing an organization's workforce. Projects and activities will focus on the role of the Human Resource function in measuring employee attitudes, designing relevant interventions, and influencing a culture of engagement.

Prerequisite(s): MGT 310.

HRM 441 Sel. Topics: Human Res Mgt 3 Credits

Deals with one area of study in the field of human resource management such as protective labor legislation, mediation and arbitration, the administration of labor unions, or case problems in human resource management. The topic varies each semester and is announced at the time of registration.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 490 Independent Research and Study 1-4 Credits**HRM 491 Internship 1-4 Credits****HRM 492 Internship in Human Res Mgt 3 Credits**

Provides the student with the opportunity to supplement and apply their human resource management classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions. 2.75 GPA overall and 3.0 GPA in the major is required.

Prerequisite(s): major in human resource management or management and leadership, and MGT 310; senior status; and permission of instructor.

MGT 201 Fund Management & Org Behavior 3 Credits

This course deals with the fundamentals of organizational behavior as they relate to management such as motivation, communications, and leadership. Behavior is examined at the individual, group, and organizational level. The management functions of planning, organizing, leading and controlling are addressed. The effects of global operations and the requirements of ethical behavior on managers are also explored.

Prerequisite(s): minimum 30 credits completed.

MGT 310 Intro to Human Resource Mgmt 3 Credits

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 320 Managing Workforce Diversity 3 Credits

Demographic shifts, changing patterns of labor force participation, global competition, and a growing cultural emphasis on the celebration of difference have all contributed to the creation of diversity as a hot topic in management. This course explores the opportunities and challenges of the increasingly diverse workforce emerging in the United States today. We will address the knowledge and skills managers must develop in working with others who are different from themselves. Some of these differences are obvious- gender, race, age, and physical characteristics. Other differences are not as easily observed - family structure, educational level, social class, and sexual orientation. This class incorporates experiential learning techniques for personal growth.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 336 Career Management 3 Credits

How careers are shaped by individual needs and experience and assisted by organization systems and practices is the focus of this course. The meaning of work and the development of careers are discussed, and students undertake self-assessment for the purpose of career planning. Careers are examined in the context of important changes occurring today in the world of work. The impact of the executive, organizational counselors and trainers, and the educational system upon the development of human potential is examined, along with the techniques for human resource planning and development.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 346 Negotiation 3 Credits

The purpose of this course is first, to explore the major concepts and theories behind effective negotiating practices and second, to develop negotiating skills applicable to a wide range of contexts. A knowledge of negotiation is a crucial requirement for anyone interested in a business career since it is a common mechanism for implementing change and for resolving conflict in the workplace. Topics will include two-party negotiations, power and politics, mediation, arbitration, and collective bargaining. A variety of teaching techniques will be used including readings, discussion, and role-playing.

Prerequisite(s): MGT 201 or permission of the instructor.

MGT 355 Team Management 3 Credits

This course prepares students to work in organizations that use teams as an integral part of their functioning-an increasingly common practice. The class involves intensive group interaction, focusing on individual growth in group settings. Working with other students in role-plays, exercises, and team assignments allows the student to develop better communication and leadership skills.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 363 Management Skills 3 Credits

The focus of this course is on specific skills necessary for success in a management role. These skills include leading, communicating effectively, delegating, conflict and time management and motivating others. Students will have opportunities to practice skills and to apply their knowledge to business cases.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 375 International Management 3 Credits

This course explores the ways in which culture impacts management practices and organizational behavior and dynamics. Topics include cross cultural communication, expatriate selection and training, leading and motivating cross cultural teams, developing organizational strategies to compete in a global market place, international business ethics, and current topics.

Prerequisite(s): MGT 201.

MGT 421 Sel Topics:Mgt & Organztn Behv 3 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 448 Sem Small Bus Consul 3 Credits

This course utilizes student teams to assist existing small businesses in solving problems or researching opportunities. Students will spend the majority of time in the field utilizing an experiential learning approach. Weekly activity logs, proposal development, and project completion are required. Restricted to seniors.

Prerequisite(s): ENT 348 and permission of instructor.

MGT 490 Independent Research and Study 1-4 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 491 Intern Management/Org Behavior 3 Credits

Provides the student with the opportunity to supplement and apply their management and leadership classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions.

Prerequisite(s): major in management and leadership or human resource management and MGT 363, or senior status; Requires a 2.75 GPA overall and 3.0 GPA in the major and permission of the instructor.

MKT 200 Marketing Principles 3 Credits

This course examines market characteristics, consumer buying habits and motives, and functions of marketing within the framework of the strategic marketing planning process. Concepts and current practices in product development, pricing, promotion, distribution, and international marketing are studied.

MKT 250 Retailing Management 3 Credits

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

Prerequisite(s): MKT 200.

MKT 260 Service Marketing 3 Credits

Focuses on the unique challenges of managing services and delivering quality service to customers. Emphasis is placed on the total organization, and how effective marketing and customer focus must be coordinated across multiple functions. The course is applicable to service organizations and to organizations that depend on service excellence for competitive advantage. Topics include customer-focused management, and customer satisfaction, retention, lifetime value and profitability. Students will learn to map services, understand customer expectations, and develop relationship marketing strategies.

Prerequisite(s): MKT 200.

MKT 280 Sports Marketing 3 Credits

The course focuses on the unique challenges of marketing sports at a variety of levels: youth, college, professional, and international. The challenges of attracting and retaining fans and participants as well as of building and maintaining strong brand identity are at the heart of the course content. By evaluating case studies and examining current issues in sports marketing, students will gain an understanding of what it means to be a professional marketer of a sports organization and/or event.

Prerequisite(s): MKT 200.

MKT 310 Business to Business Marketing 3 Credits

This course examines the business-to-business marketplace, and the planning and control tools used by its entities in managing the product, pricing, promotion, channel and supply chain management strategies.

Prerequisite(s): MKT 200.

MKT 320 Consumer Behavior 3 Credits

The nature and determinants of consumer behavior are studied, with attention given to the influence of socio-psychological factors such as personality, small groups, demographic variables, social class, and culture on the formation of consumer attitudes, consumption patterns, and purchasing behavior.

Prerequisite(s): MKT 200; Required for advertising majors.

MKT 330 International Marketing 3 Credits

This course examines the global marketplace and the complexities of its environmental influences, and necessary adaptations in formulating the strategies for product, pricing, promotion, channel and supply chain management.

Prerequisite(s): MKT 200.

MKT 340 Personal Selling 3 Credits

Examines persuasive techniques utilized in sales presentations conducted on a person-to-person basis. Major course emphasis is on developing effective selling techniques; understanding the company, its products and the role of the salesperson in implementing product/market strategies; understanding the customers and the selling environment; application of effective sales presentation techniques; recognizing selling opportunities and careers.

Prerequisite(s): MKT 200.

MKT 345 Customer Focus 3 Credits

Marketing supply chain management programs are concerned with the creation and delivery of value to customer and organizations. No longer simply the domain of the warehouse manager or logistics director, supply chain management is viewed by most companies as a mission-critical element. Marketing focuses on developing an understanding of customers and markets, creating products and services based on that understanding, and communicating and delivering the value added. This course will teach the student the essential role of marketing in all aspects of successful supply chain management - relationship management, technological and financial - and it will help the student understand the structure, functions, principles and methods employed in discovering and translating consumer needs and wants into product and service specifications and then transferring these goods and services from producers to consumers or end users.

Prerequisite(s): MKT 200 and GSC 115 or permission of instructor.

MKT 350 Retailing Management 3 Credits

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

Prerequisite(s): MKT 200.

MKT 366 Marketing Research 3 Credits

Topics include specific research procedures in gathering, processing, analyzing, and presenting information relevant to marketing problems: advertising planning and effectiveness; product development; distribution channels; sales techniques; consumer behavior; and forecasting. Student learning about research planning, implementation, and interpretation is facilitated by the use of projects or cases.

Prerequisite(s): MKT 200; MSD 200, MSD 201; junior standing; Required for marketing and advertising majors.

MKT 370 Internet Marketing 3 Credits

This course emphasizes the discipline of internet marketing, including practices of leading online marketing companies, state of the art online research and demonstrates how the Internet is creating value for customers and profits for businesses while also fitting into a firm's complete marketing strategy. This course will provide a strategic and tactical toolkit for the online marketer, help students understand how and why the Internet is changing traditional marketing and allow students to develop the skills, strategies and tactics important to develop successful Internet marketing plans.

Prerequisite(s): MKT 200 and CIS 185.

MKT 380 Healthcare Marketing 3 Credits

The purpose of this course is to introduce students to the role, functions and tasks of healthcare marketing. Attention is devoted to applying basic marketing principles to the healthcare sector. Marketing decision making and analysis will be emphasized through the use of cases and current readings that focus on a variety of healthcare organizations, including hospitals, assisted living facilities, MCOs, and pharmaceutical companies.

Prerequisite(s): MKT 200 or permission of instructor.

MKT 440 Sales Management 3 Credits

By means of lectures, discussions, and case studies, the field of marketing management is analyzed from the viewpoint of sales executives. The responsibilities for planning and administering personal selling operations are emphasized. Considerable attention is given to other activities for which sales executives may be wholly or jointly responsible, such as decision making on promotion and brand management.

Prerequisite(s): MKT 200 and senior standing.

MKT 444 Spec. Topics Honors: Mkt & Law 3 Credits

MKT 460 Marketing Management Seminar 3 Credits

This capstone course for marketing majors employs a top management approach to the overall marketing task, including planning, organizing, controlling, and integrating all the activities of the marketing program. Integration of marketing with other operations of the business unit is emphasized. Major problems and current trends are identified and analyzed through case discussion.

Prerequisite(s): Marketing major and 15 semester hours of marketing; Required for marketing majors.

MKT 469 Selected Topics in Marketing 3 Credits

The study of a topic (or combination of topics) that represents some dimension of marketing or has important and direct implications for marketing management. Theoretical foundations as well as special applications of marketing decision making may be explored. Readings, research, lectures, discussions, or other appropriate methods are employed to stimulate student learning.

Prerequisite(s): MKT 200 and senior standing or permission of instructor.

MKT 490 Independent Research and Study 1-4 Credits

Topic to be approved by the professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation, which may be counted as a business or free elective.

MKT 491 Internship-Based Indep Study 3 Credits

Provides the student an opportunity to supplement and apply classroom work in supervised employment with participating marketing and advertising firms. Requirements include a journal with a log of daily activities, and a project or term paper presented to and evaluated by the internship sponsor. Evaluation will also include a report by the company on the intern's performance. Credits may be used to satisfy business or free elective requirements.

Prerequisite(s): permission of instructor.

General Studies (A.A.)

Program Overview

This 60-credit program has been designed to provide both breadth and sufficient depth in the liberal arts at the associate degree level. Only 12 semester hours are allowed to be taken outside Liberal Arts and Sciences.

Students whose long-range goal is a bachelor's degree should consult an advisor in College of Continuing Studies to determine the transferability of this program to one of the baccalaureate degrees offered by Rider.

Curriculum Overview

The flexible curriculum is designed to enable students to choose from a myriad academic disciplines. Choosing an emphasis or concentrated area of study allows students to explore a specific discipline in depth.

Admissions Requirement

- Official transcripts from all institutions attended with a minimum 2.5 cumulative GPA

Degree Offered

A.A. in Business Administration

- ¹ LIB 200 is waived for students who transfer 30 or more credits in Liberal Arts.
- ² The quantitative skills requirement can be met by successfully completing one course in college-level mathematics or statistics. For students who don't transfer such a course to Rider, popular offerings include MTH 102 Finite Mathematics, MSD 104 Intro to Quantitative Methods, MSD 105 Quantitative Methods for Business, MSD 200 Statistical Methods I, MSD 201 Statistical Methods II, POL 230 Methods of Political Analysis, PSY 105 Introduction to Research in Psychology, PSY 201 Statistics and Research Design, and others.
- ³ Students who possess sufficient computer experience can gain credit for CIS 185 Information Systems Essentials through assessment (http://www.rider.edu/sites/default/files/docs/Credit_for_CIS_185.pdf).

Human Resource Management (B.S.B.A.)

Program Overview

Human Resource Management (HRM) professionals perform many vital business activities in organizations. As both private and public sector organizations have become more concerned about such issues as legal compliance and ensuring employee work behaviors are aligned with strategic objectives, the demand for well-trained HRM professionals has increased greatly.

Practitioners in HRM are involved in a variety of important, interesting, and challenging activities. They establish and implement policies that affect such organizational functions as recruitment, selection, training and development, performance management, compensation and benefits.

Curriculum Overview

Courses in the program include Introduction to Human Resource Management, Introduction to Labor Relations, Employee Selection and Training, Employee Compensation Systems, Employee Engagement, Managing Workforce Diversity, Career Management, Team Management, Management Skills, and more.

- ¹ Human Resource Management majors have the option of completing MGT 355 Team Management or MGT 363 Management Skills for their major requirements as well as for their Leadership Elective requirement. If a student chooses to count MGT 355 or MGT 363 toward both the major requirement and the Leadership Elective, the student must complete 3 credits of free elective for graduation.

An average of "C" or better is required in the 18 semester credit hours required of the human resource management major. Majors are encouraged to take HRM 492 Internship in Human Res Mgt as a free elective.

HRM 312 Intro to Labor Relations 3 Credits

This course deals with the relationship of labor unions and management, the fundamentals of collective bargaining, and labor legislation. The structure and growth of unions as well as the relationships and problems that exist among private and public sector organizations, the labor force, and government are surveyed.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 313 Legal Aspects of Human Res Mgt 3 Credits

This course deals with the various laws that affect human resource management, including social insurance, legislation, minimum wage laws, OSHA, ERISA, as well as equal employment opportunity legislation. This course is concerned not only with the provisions of these laws, but also with their constitutionality, their effects, and how they are administered.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 315 Employee Selection & Training 3 Credits

This course explains the processes involved in selecting and training employees. With regards to selection, specific examples include, evaluating applicant credentials, administering pre-employment tests and complying with equal employment opportunity legislation. With regards to training, topics include assessing the need for training, designing effective training programs, utilizing methods such as technology to deliver training, and evaluating the effectiveness of training programs.

Prerequisite(s): MGT 310.

HRM 316 Employee Compensation Systems 3 Credits

The goal of this course is to familiarize you with the common methods of compensation used by today's organizations and how these methods could be used to increase motivation, job satisfaction, and performance in the workplace. To accomplish this, we will first discuss the bases of motivation in the workplace. Next, we will then talk about the various compensation options and techniques and the strengths and weaknesses of each in maximizing motivation and performance in an organization.

Prerequisite(s): MGT 310.

HRM 333 Employee Engagement 3 Credits

Employee Engagement is commonly described as a focused passion and enthusiasm that employees bring to their work that produces high-quality performance and positive organizational outcomes such as enhanced firm reputation, customer loyalty, and profitability. In this course, students will explore the concept and value of Employee Engagement, and strategies for energizing an organization's workforce. Projects and activities will focus on the role of the Human Resource function in measuring employee attitudes, designing relevant interventions, and influencing a culture of engagement.

Prerequisite(s): MGT 310.

HRM 441 Sel. Topics: Human Res Mgt 3 Credits

Deals with one area of study in the field of human resource management such as protective labor legislation, mediation and arbitration, the administration of labor unions, or case problems in human resource management. The topic varies each semester and is announced at the time of registration.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 490 Independent Research and Study 1-4 Credits**HRM 491 Internship 1-4 Credits****HRM 492 Internship in Human Res Mgt 3 Credits**

Provides the student with the opportunity to supplement and apply their human resource management classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions. 2.75 GPA overall and 3.0 GPA in the major is required.

Prerequisite(s): major in human resource management or management and leadership, and MGT 310; senior status; and permission of instructor.

MGT 201 Fund Management & Org Behavior 3 Credits

This course deals with the fundamentals of organizational behavior as they relate to management such as motivation, communications, and leadership. Behavior is examined at the individual, group, and organizational level. The management functions of planning, organizing, leading and controlling are addressed. The effects of global operations and the requirements of ethical behavior on managers are also explored.

Prerequisite(s): minimum 30 credits completed.

MGT 310 Intro to Human Resource Mgmt 3 Credits

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 320 Managing Workforce Diversity 3 Credits

Demographic shifts, changing patterns of labor force participation, global competition, and a growing cultural emphasis on the celebration of difference have all contributed to the creation of diversity as a hot topic in management. This course explores the opportunities and challenges of the increasingly diverse workforce emerging in the United States today. We will address the knowledge and skills managers must develop in working with others who are different from themselves. Some of these differences are obvious- gender, race, age, and physical characteristics. Other differences are not as easily observed - family structure, educational level, social class, and sexual orientation. This class incorporates experiential learning techniques for personal growth.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 336 Career Management 3 Credits

How careers are shaped by individual needs and experience and assisted by organization systems and practices is the focus of this course. The meaning of work and the development of careers are discussed, and students undertake self-assessment for the purpose of career planning. Careers are examined in the context of important changes occurring today in the world of work. The impact of the executive, organizational counselors and trainers, and the educational system upon the development of human potential is examined, along with the techniques for human resource planning and development.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 346 Negotiation 3 Credits

The purpose of this course is first, to explore the major concepts and theories behind effective negotiating practices and second, to develop negotiating skills applicable to a wide range of contexts. A knowledge of negotiation is a crucial requirement for anyone interested in a business career since it is a common mechanism for implementing change and for resolving conflict in the workplace. Topics will include two-party negotiations, power and politics, mediation, arbitration, and collective bargaining. A variety of teaching techniques will be used including readings, discussion, and role-playing.

Prerequisite(s): MGT 201 or permission of the instructor.

MGT 355 Team Management 3 Credits

This course prepares students to work in organizations that use teams as an integral part of their functioning—an increasingly common practice. The class involves intensive group interaction, focusing on individual growth in group settings. Working with other students in role-plays, exercises, and team assignments allows the student to develop better communication and leadership skills.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 363 Management Skills 3 Credits

The focus of this course is on specific skills necessary for success in a management role. These skills include leading, communicating effectively, delegating, conflict and time management and motivating others. Students will have opportunities to practice skills and to apply their knowledge to business cases.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 375 International Management 3 Credits

This course explores the ways in which culture impacts management practices and organizational behavior and dynamics. Topics include cross cultural communication, expatriate selection and training, leading and motivating cross cultural teams, developing organizational strategies to compete in a global market place, international business ethics, and current topics.

Prerequisite(s): MGT 201.

MGT 421 Sel Topics:Mgt & Organztn Behv 3 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 448 Sem Small Bus Consul 3 Credits

This course utilizes student teams to assist existing small businesses in solving problems or researching opportunities. Students will spend the majority of time in the field utilizing an experiential learning approach. Weekly activity logs, proposal development, and project completion are required. Restricted to seniors.

Prerequisite(s): ENT 348 and permission of instructor.

MGT 490 Independent Research and Study 1-4 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 491 Intern Management/Org Behavior 3 Credits

Provides the student with the opportunity to supplement and apply their management and leadership classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions.

Prerequisite(s): major in management and leadership or human resource management and MGT 363, or senior status; Requires a 2.75 GPA overall and 3.0 GPA in the major and permission of the instructor.

Information Systems (B.S.B.A.)

Program Overview

Students with a major in information systems develop a solid understanding of the use, design, development, and management of information systems and information technology. Rider's information systems courses are designed to give students the opportunity to develop and manage a variety of projects that can be applied to real business settings immediately.

Increasingly, organizations that seek individuals with an information systems specialization expect excellent organizational, along with communication and interpersonal skills and excellent analytical skills. All information systems students are encouraged to participate in a full semester co-op or summer internship experiences during their junior year.

Curriculum Overview

The required freshman-level information systems core course trains student to apply practical knowledge in their use of computer-based productivity tools. Core courses also allow students to demonstrate an understanding of enterprise integration applications such as SAP R/3, and also explains the value of electronically integrating the major functional areas of an organization in order to facilitate more effective management decision-making.

Students demonstrate an understanding of the enabling information technologies (IT) that organizations worldwide use to develop and sustain a strategic and competitive position in the marketplace. Students also demonstrate knowledge about the benefits and drawbacks to adopting and using these information technologies.

Students with a major or a minor in information systems will be able to demonstrate their understanding of information technology by applying their technical knowledge and skills to provide a practical solution to a business problem, business need or business opportunity.

CIS 420	Enterprise Security	
CIS 430	Enterprise Systems Configuratr	
CIS 491	Computer Information Systems Internship	

Free Electives	24
-----------------------	-----------

Total Credits**120**

For graduation, the student must achieve an overall GPA of 2.0 in the major, with no course grade less than "C-".

CIS 185 Information Systems Essentials 3 Credits

This course will enable students to use Microsoft Excel and Access to design advanced applications for effective decision making. Enterprise-wide application systems concepts and an introduction to SAP R/3 will be presented. Students will also be introduced to Web-based services technologies such as RSS feeds, blogs, wikis, as well as social networking and Web 2.0 technologies. Additionally, throughout the course, students will evaluate the ethical implications associated with digital information access and integration.

CIS 200 Web Application Development I 3 Credits

In the early 1990s, Tim Berners-Lee created a set of technologies to allow information sharing at the CERN particle accelerator in Europe. These technologies dramatically changed the face of computing and became what we know today as the Web. Understanding how to develop and manage applications for the Web is a requirement for the information system professional. Because of the ease of development, deployment, maintenance and general scalability of Web applications, this approach to building and managing applications has become the de facto standard for business application development. This class will examine Web application development in detail. Through a combination of lecture and labs, students will learn the architecture of Web applications, how to develop Web pages using HTML and CCS, how to control user interaction with those pages using the JavaScript programming language. The programming basics of variable declaration and usage, program flow of control, function declaration and calling, and object usage and declaration will also be shown. The use of the JQuery Javascript library to ease the development of Web pages will also be shown.

CIS 220 Web Application Development II 3 Credits

In the early 1990s, a set of network technologies was combined to create a platform for application development. These technologies are now referred to as the Web. Because of the ease of development, deployment, maintenance, and scalability of Web applications, this approach to building and managing applications has become the de facto standard for business application development. Understanding how to develop and manage applications for the Web is vital for information systems professionals. This class will examine Web application development in detail. Through a combination of lecture and labs, students will learn the architecture of Web applications, how to develop Web pages using the Hypertext Markup Language (HTML) and Cascading Style Sheets (CSS), and managing user interaction in those pages using the JavaScript programming language. The process of creating dynamic web pages using the PHP programming language on the Web server will also be taught.

Prerequisite(s): CIS 200.

CIS 255 Into to Game Design & Development 3 Credits

The basic concepts, logic, techniques, tools, and vocabulary associated with interactive, digital game and simulation development will be explored through a combination of lectures, discussions, and hands-on learning. Knowledge and skills derived can be applied to a wide variety of business and other organizational settings globally for interactive simulations, games, and education.

CIS 260 Business Graphics 3 Credits

Basic color theory, typography, and page/slide layout are presented. Students utilize presentation, word processing and photo editing applications to create and edit various documents through hands-on labs and projects.

Prerequisite(s): CIS 185 or permission of instructor.

CIS 270 Networking and Telecommunications 3 Credits

This course provides an introduction to business data communications and networking. The Internet and OSI models are discussed. Network technologies include local area networks, backbone, wide area networks, and the Internet. Introduction to network design, security, and network management are also provided.

Prerequisite(s): CIS 185.

CIS 300 Object-Oriented Programming 3 Credits

Students will learn the basic concepts of object-oriented programming as contrasted with traditionally structured programming and will develop applications using the Java programming language.

Prerequisite(s): CIS 200.

CIS 309 Data Structures & Cmptr Archit 3 Credits

An introduction to linked lists, stacks, queues, trees, pointers, and sorting and searching algorithms. Students will learn the technical details of data storage and manipulation along with the concepts of program execution, and will use tools such as hex-editors and debuggers.

Prerequisite(s): CIS 185 or permission of instructor.

CIS 315 Integrated Business with SAP 3 Credits

This course provides an introduction to enterprise resource planning (ERP) systems and addresses how integrated information systems improve business operations. Students will learn about functional business areas and business processes, and understand the problems inherent in un-integrated enterprise information systems. Using SAP software and case studies, students will learn how ERP systems are being used to facilitate integrated, real-time management decision making.

Prerequisite(s): CIS 185 and ACC 210.

CIS 319 Computer Forensics 3 Credits

Students will use computers to obtain and analyze evidence found on storage devices such as those confiscated under warrant, and learn how to trace digital activities. Criminal and investigative procedures will be explored in depth.

Prerequisite(s): CIS 185.

CIS 320 Systems Administration 3 Credits

Students learn the various facets of administration including operating system installation, configuration, maintenance troubleshooting and monitoring. The important task of administering computer security, including user accounts and authentications, will also be discussed. Hands-on labs will be done in the Windows Server 2012 environments.

Prerequisite(s): CIS 185.

CIS 325 User-Centered Design 3 Credits

This course introduces students to the design and evaluation of interactive and internet-based devices and systems, including methods to understand user needs and requirements, design and prototype alternative systems, and evaluate system usability. Topics include interaction design, human factors, requirement gathering techniques, protocol analysis, usability testing, and heuristics evaluation.

Prerequisite(s): Junior standing.

CIS 330 Database Management 3 Credits

This course involves the study of computer databases. Major topics include relational databases, use of the structured query language (SQL) to query relational databases, and design and maintenance of relational databases.

Prerequisite(s): CIS 185.

CIS 340 Electronic Commerce 3 Credits

Students will learn about the broad range of Internet business technologies; develop the skills necessary to create and administer successful electronic commerce projects; and understand the associated benefits, and risks of electronic commerce business models.

Prerequisite(s): CIS 185.

CIS 360 Data Mining 3 Credits

This course deals with modern technologies for data analysis. Hands-on exercises for data retrieval, data visualization and predictive analytics will be carried out using up-to-date methodologies and software tools. The full data mining life cycle will be covered from recognizing business problems and opportunities amenable to data mining analysis through deploying and monitoring solutions.

Prerequisite(s): CIS 185.

CIS 370 Systems Analysis and Design Project 3 Credits

Topics include modeling techniques and methodologies to address the planning, analysis, design, and implementation of high quality systems, delivered on time and within budget. Using rapid application development tools, students will also construct an operational system within the span of a single semester. Issues and tools related to the management of project teams are also discussed.

Prerequisite(s): CIS 330.

CIS 375 Adv. Sem in Global Outsourcing 3 Credits

The course is aimed at generating a comprehensive understanding of the emergent domain of global business process outsourcing. Various referred to as knowledge process outsourcing, IT-enabled services outsourcing, and business services outsourcing, the industry has seen enormous growth over the last decade and continues to grow. India commands the single largest share of this market but South Africa, Eastern Europe, Philippines, Morocco and Egypt have all emerged as other contenders in this global sector. The course is divided into four modules: the political economy of global outsourcing, process modeling, outsourcing management, and industry analysis. Please note: Students will not receive credit for both CIS 375 and GSC 375.

Prerequisite(s): junior standing.

CIS 385 Management Information Systems 3 Credits

The course focuses on the management and use of information systems and technology for the strategic and operational advantage of the firm. Students explore the business value of information resources including current communication, database, as well as hardware and software technologies. Additionally, students gain an understanding of enterprise systems and business process integration through hands-on experience using SAP. Please note: Students will not receive credit for both CIS 385 and GSC 385.

Prerequisite(s): CIS 185 and junior or senior standing.

CIS 390 Project Management 3 Credits

This course introduces students to general project management, the process of organizing resources to achieve business goals. Topics include the identification, approval, analysis, and general management of complex business projects. Project management tools, reports, techniques, and approaches will be covered.

Prerequisite(s): CIS 185.

CIS 399 The Co-Operative Experience 6 Credits

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their computer information systems and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include junior computer information systems majors with a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in any computer information systems coursework completed prior to submission of the co-op application. Three of the co-op credits can be applied toward the computer information systems major, and three credits can be applied toward business or free elective requirements. Grading is on a pass/fail basis.

Prerequisite(s): Completion of two of the three courses: CIS 200, CIS 270, and CIS330.

CIS 410 Selected Topics: Game Design and Dev. 3 Credits

Information and communication technologies are evolving rapidly and continually. The Special Topics course facilitates the exploration of a selected topic (or combination of topics) that represents a recent technological advance with important and direct implications in the field of computer information systems. Current research, readings, lectures, discussions and/or hands-on computer experience or other appropriate measures will be employed to stimulate student learning.

Prerequisite(s): to be determined by instructor.

CIS 420 Enterprise Security 3 Credits

This course introduces students to computer security. Coverage includes hardware, software, and network security issues. Through hands-on labs students will learn how computer systems can be comprised and how computer professionals can prevent and provide counterattacks for security intrusions.

Prerequisite(s): CIS 270 or permission of instructor.

CIS 430 Enterprise Systems Configuratr 3 Credits

The major focus of this course includes the forces driving enterprise integration as well as the management decisions associated with the design and implementation of enterprise systems. Students will use SAP R/3 extensively to configure, build, test, and implement an enterprise system for a real business environment from the ground up.

Prerequisite(s): ACC 210 and MSD 340.

CIS 490 Independent Research and Study 1-4 Credits

Topic to be approved by professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

Prerequisite(s): permission of instructor.

CIS 491 Computer Information Systems Internship 3 Credits

This is an honors course that provides the student with approximately two months of supervised employment with participating companies. Students are given a variety of information technology experiences. They are required to complete a term paper and/or to make an oral presentation to the faculty. Grading is on a pass/fail basis.

Prerequisite(s): permission of instructor.

Liberal Studies (B.A.)

Program Overview

This degree program enables students, through a variety of learning experiences, to consider life in the contemporary world. The curriculum provides for development of writing, speaking, quantitative, and critical thinking skills and exposes students to bodies of knowledge shared by educated persons. Offered for adult students enrolled in CCS,

the program provides an opportunity for students to share common learning experiences and to develop personal plans of study for career advancement, personal growth and graduate study.

Curriculum Overview

The Liberal Studies major provides students with a flexible curriculum whose goal is to further the personal interests and professional objectives of adult students. In addition to the Concentrations offered, students may propose concentrations of individual design (which must be approved by the faculty committee on individual study and a CCS advisor).

 - Sociology (p. 409)

Core Requirements

See Core Requirements (p. 554)		48-50
Liberal Studies Core		6
LIB 200	Intro to Liberal Studies ¹	
LIB 400	Seminar in Liberal Studies	
Liberal Studies Concentration		36
Choose from Humanities, Social Science, Applied Social Science, Applied Social Science with Business Studies Emphasis, Applied Social Science with Health Administration Emphasis, Global Studies, Law and Justice, Natural Science (p. 531)		
Free Electives		28-30
Total Credits		120

A candidate for graduation must complete a minimum of 120 credits. Of the required 120 credits, 36 must be in upper-level courses, as determined by the respective departments, including three credits from the liberal studies core and 18 from the concentration. A maximum of 30 credits from outside the arts and sciences may be presented for graduation.

¹ LIB 200 is waived for students who transfer 30 or more credits in Liberal Arts.

- ² The quantitative skills requirement can be met by successfully completing one course in college-level mathematics or statistics. For students who don't transfer such a course to Rider, popular offerings include MTH 102 Finite Mathematics, MSD 104 Intro to Quantitative Methods, MSD 105 Quantitative Methods for Business, MSD 200 Statistical Methods I, MSD 201 Statistical Methods II, POL 230 Methods of Political Analysis, PSY 105 Introduction to Research in Psychology, PSY 201 Statistics and Research Design, and others.
- ³ Students who possess sufficient computer experience can gain credit for CIS 185 Information Systems Essentials through assessment (http://www.rider.edu/sites/default/files/docs/Credit_for_CIS_185.pdf).

LIB 200 Intro to Liberal Studies 3 Credits

Introduces students to the various perspectives and methods of the disciplines in liberal studies: natural and social sciences, humanities, and the arts. Students learn the multifaceted questions and answers offered by each discipline. They study the historical development of the university and the rise and transformation of liberal studies disciplines.

LIB 400 Seminar in Liberal Studies 3 Credits

A critical examination of the tradition of Western humanism and the way it has been transmitted through liberal arts education. Deals with a variable set of permanent problems in humanistic debate and learning e.g., specialization, the need for unifying theories of knowledge, the purpose of history, the place of intellectual life in mass society, the meaning of freedom, the modern problem of alienation, the responsibilities of the university, etc. Emphasis on why and how such problems have been addressed rather than any presumptive solutions.

LIB 490 Independent & Supervised Study 1-4 Credits

Independent and Supervised Study is available to CCS students for special study projects. Students must have completed a minimum of 45 credits applicable to a Rider degree and a minimum of 12 credit hours at Rider with a GPA of 2.5 or better. Each project may be taken for one-four credits and a maximum of six credits may be applied to the associate degree, 12 credits to the bachelor degree.

Areas of Concentration

In the Bachelor of Science in Liberal Studies, students choose one of the following concentration areas:

- Humanities (p. 531)
- Social Science (p. 531)
- Applied Social Science (p. 532)
- Applied Social Science Concentration with Business Studies Emphasis (p. 532)
- Applied Social Science Concentration with Health Administration Emphasis (p. 532)
- Global Studies (p. 533)
- Law and Justice (p. 533)
- Natural Science (p. 534)
- Natural Science Concentration with Health Administration Emphasis (p. 534)

Management and Leadership (B.S.B.A.)

Program Overview

The manager's job is fast-paced and requires the ability to make decisions and facilitate the work of others. The management and leadership major gives students the knowledge and skills they need to compete in a rapidly changing global marketplace. Firms of all sizes and in all fields need good managers who know how to motivate subordinates, manage teams, resolve conflicts, and lead by example. Businesses want new employees who can handle themselves as subordinates, supervisors, and team members. Whether students are looking for a position with a medium to large organization or thinking of starting companies of their own, the management and leadership major provides the knowledge and skills they will need to be successful.

Curriculum Overview

Courses in the program include Team Management, Management Skills, Introduction to Human Resource Management, Managing Workforce

Diversity, Career Management, Small Business Management, Negotiation, International Management, and more.

Degree Offered

B.S.B.A. in Management & Leadership

----------------------	------------

¹ Management majors have the option of completing MGT 355 Team Management or MGT 363 Management Skills for their major requirements as well as for their Leadership Elective requirement. If a student chooses to count MGT 355 or MGT 363 toward both the major requirement and the Leadership Elective, the student must complete 3 credits of free elective for graduation.

An average grade of "C" or better is required in the 18 semester credit hours that are required for the management and leadership major. Majors are encouraged to take MGT 491 Intern Management/Org Behavior as a free elective.

ENT 348 Small Business Management 3 Credits

The role of small business in the American economy is examined. Favorable practices, policies, functions, principles and procedures of and for the small business entrepreneur and owner-manager are studied. Includes learning a method to evaluate a new venture idea.

Prerequisite(s): MGT 201 or permission of instructor and junior standing.

MGT 201 Fund Management & Org Behavior 3 Credits

This course deals with the fundamentals of organizational behavior as they relate to management such as motivation, communications, and leadership. Behavior is examined at the individual, group, and organizational level. The management functions of planning, organizing, leading and controlling are addressed. The effects of global operations and the requirements of ethical behavior on managers are also explored.

Prerequisite(s): minimum 30 credits completed.

MGT 310 Intro to Human Resource Mgmt 3 Credits

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 320 Managing Workforce Diversity 3 Credits

Demographic shifts, changing patterns of labor force participation, global competition, and a growing cultural emphasis on the celebration of difference have all contributed to the creation of diversity as a hot topic in management. This course explores the opportunities and challenges of the increasingly diverse workforce emerging in the United States today. We will address the knowledge and skills managers must develop in working with others who are different from themselves.

Some of these differences are obvious- gender, race, age, and physical characteristics. Other differences are not as easily observed - family structure, educational level, social class, and sexual orientation. This class incorporates experiential learning techniques for personal growth.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 336 Career Management 3 Credits

How careers are shaped by individual needs and experience and assisted by organization systems and practices is the focus of this course.

The meaning of work and the development of careers are discussed, and students undertake self-assessment for the purpose of career planning. Careers are examined in the context of important changes occurring today in the world of work. The impact of the executive, organizational counselors and trainers, and the educational system upon the development of human potential is examined, along with the techniques for human resource planning and development.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 346 Negotiation 3 Credits

The purpose of this course is first, to explore the major concepts and theories behind effective negotiating practices and second, to develop negotiating skills applicable to a wide range of contexts. A knowledge of negotiation is a crucial requirement for anyone interested in a business career since it is a common mechanism for implementing change and for resolving conflict in the workplace. Topics will include two-party negotiations, power and politics, mediation, arbitration, and collective bargaining. A variety of teaching techniques will be used including readings, discussion, and role-playing.

Prerequisite(s): MGT 201 or permission of the instructor.

MGT 355 Team Management 3 Credits

This course prepares students to work in organizations that use teams as an integral part of their functioning-an increasingly common practice. The class involves intensive group interaction, focusing on individual growth in group settings. Working with other students in role-plays, exercises, and team assignments allows the student to develop better communication and leadership skills.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 363 Management Skills 3 Credits

The focus of this course is on specific skills necessary for success in a management role. These skills include leading, communicating effectively, delegating, conflict and time management and motivating others. Students will have opportunities to practice skills and to apply their knowledge to business cases.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 375 International Management 3 Credits

This course explores the ways in which culture impacts management practices and organizational behavior and dynamics. Topics include cross cultural communication, expatriate selection and training, leading and motivating cross cultural teams, developing organizational strategies to compete in a global market place, international business ethics, and current topics.

Prerequisite(s): MGT 201.

MGT 421 Sel Topics:Mgt & Organztn Behv 3 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 448 Sem Small Bus Consul 3 Credits

This course utilizes student teams to assist existing small businesses in solving problems or researching opportunities. Students will spend the majority of time in the field utilizing an experiential learning approach. Weekly activity logs, proposal development, and project completion are required. Restricted to seniors.

Prerequisite(s): ENT 348 and permission of instructor.

MGT 490 Independent Research and Study 1-4 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 491 Intern Management/Org Behavior 3 Credits

Provides the student with the opportunity to supplement and apply their management and leadership classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions.

Prerequisite(s): major in management and leadership or human resource management and MGT 363, or senior status; Requires a 2.75 GPA overall and 3.0 GPA in the major and permission of the instructor.

Management and Leadership/Human Resource Management Double Major (B.S.B.A.)

Program Overview

Rider's management and leadership major gives students the knowledge and skills they need to compete in a rapidly changing global marketplace. Whether students are looking for a position with a medium to large organization or thinking of starting companies of their own, the management and leadership major provides the knowledge and skills they will need to be successful.

Human Resource Management (HRM) professionals are vital to organizations. With private and public-sector organizations becoming more concerned with issues such as legal compliance, corporate culture and ensuring employee work behaviors are aligned with strategic objectives, the demand for well-trained HRM professionals is constantly growing. They establish and implement policies that affect such organizational functions as recruitment, selection, training and development, performance management, compensation and benefits.

Curriculum Overview

Management and Leadership

Rider's management and leadership major opens the possibility of becoming a manager and leader in any industry or field. Businesses want their new employees to handle themselves as subordinates, supervisors and team members. Our management and leadership major provides hands-on training in these people skills. The major also provides students with a comprehensive understanding of management theories, so that students don't have to learn what works and what doesn't by trial-and-error on the job.

Human Resource Management

Human resource management professionals establish and implement policies that influence recruitment, selection, training and development of new employees. They also work in areas of development, performance management, compensation, and benefits. HRM professionals may be involved with human resource planning, job design and developing and implementing strategy.

The department majors are valuable for students who want to pursue graduate studies in HRM, management, law and psychology. The majors may be taken alone, together or in combination with another major offered by the College of Business Administration.

¹ Human Resource Management majors have the option of completing MGT 355 Team Management or MGT 363 Management Skills for their major requirements as well as for their Leadership Elective requirement. If a student chooses to count MGT 355 or MGT 363 toward both the major requirement and the Leadership Elective, the student must complete 3 credits of free elective for graduation.

² Either 421 or 441 can be taken, not both.

An average grade of "C" or better is required in the 30 semester credit hours that are required for the management and leadership and human resource management double major. Majors are encouraged to take either MGT 491 Intern Management/Org Behavior OR HRM 492 Internship in Human Res Mgt as a free elective.

ENT 348 Small Business Management 3 Credits

The role of small business in the American economy is examined. Favorable practices, policies, functions, principles and procedures of and for the small business entrepreneur and owner-manager are studied. Includes learning a method to evaluate a new venture idea.

Prerequisite(s): MGT 201 or permission of instructor and junior standing.

HRM 312 Intro to Labor Relations 3 Credits

This course deals with the relationship of labor unions and management, the fundamentals of collective bargaining, and labor legislation. The structure and growth of unions as well as the relationships and problems that exist among private and public sector organizations, the labor force, and government are surveyed.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 315 Employee Selection & Training 3 Credits

This course explains the processes involved in selecting and training employees. With regards to selection, specific examples include, evaluating applicant credentials, administering pre-employment tests and complying with equal employment opportunity legislation. With regards to training, topics include assessing the need for training, designing effective training programs, utilizing methods such as technology to deliver training, and evaluating the effectiveness of training programs.

Prerequisite(s): MGT 310.

HRM 333 Employee Engagement 3 Credits

Employee Engagement is commonly described as a focused passion and enthusiasm that employees bring to their work that produces high-quality performance and positive organizational outcomes such as enhanced firm reputation, customer loyalty, and profitability. In this course, students will explore the concept and value of Employee Engagement, and strategies for energizing an organization's workforce. Projects and activities will focus on the role of the Human Resource function in measuring employee attitudes, designing relevant interventions, and influencing a culture of engagement.

Prerequisite(s): MGT 310.

HRM 316 Employee Compensation Systems 3 Credits

The goal of this course is to familiarize you with the common methods of compensation used by today's organizations and how these methods could be used to increase motivation, job satisfaction, and performance in the workplace. To accomplish this, we will first discuss the bases of motivation in the workplace. Next, we will then talk about the various compensation options and techniques and the strengths and weaknesses of each in maximizing motivation and performance in an organization.

Prerequisite(s): MGT 310.

HRM 441 Sel. Topics: Human Res Mgt 3 Credits

Deals with one area of study in the field of human resource management such as protective labor legislation, mediation and arbitration, the administration of labor unions, or case problems in human resource management. The topic varies each semester and is announced at the time of registration.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 490 Independent Research and Study 1-4 Credits**MGT 310 Intro to Human Resource Mgmt 3 Credits**

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 320 Managing Workforce Diversity 3 Credits

Demographic shifts, changing patterns of labor force participation, global competition, and a growing cultural emphasis on the celebration of difference have all contributed to the creation of diversity as a hot topic in management. This course explores the opportunities and challenges of the increasingly diverse workforce emerging in the United States today. We will address the knowledge and skills managers must develop in working with others who are different from themselves. Some of these differences are obvious- gender, race, age, and physical characteristics. Other differences are not as easily observed - family structure, educational level, social class, and sexual orientation. This class incorporates experiential learning techniques for personal growth.

Prerequisite(s): MGT 201 or permission of instructor.

Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

Marketing (B.S.B.A.)

Program Overview

A degree in marketing provides students with the knowledge they need to compete in today's global marketplace. Graduates from the marketing program enter the workforce with a strong background in business, a critical understanding of consumer behavior, ad trends and the know-how needed to reach target audiences and to promote services and products.

Curriculum Overview

Students who major in marketing at Rider are prepared for a broad array of careers in such fields as sales, retailing, promotion, distribution, customer service, marketing research and others.

Possible employment opportunities can be found with profit and non-profit and public or private organizations marketing goods or services to consumers, businesses or other organizations.

¹ Students cannot receive credit for both ADV 370 and MKT 370.

Students interested in retailing usually choose: MKT 250 Retailing Management, MKT 320 Consumer Behavior, and MKT 440 Sales Management.

Students interested in business-to-business marketing usually choose: MKT 310 Business to Business Marketing, MKT 340 Personal Selling, and MKT 440 Sales Management.

Students interested in marketing research usually choose: MKT 320 Consumer Behavior and MKT 366 Marketing Research.

For graduation, students must achieve an overall GPA of 2.0 or higher in the major, with no course grade less than "C-". Majors are encouraged to take additional marketing and advertising courses to satisfy free elective requirements.

MKT 200 Marketing Principles 3 Credits

This course examines market characteristics, consumer buying habits and motives, and functions of marketing within the framework of the strategic marketing planning process. Concepts and current practices in product development, pricing, promotion, distribution, and international marketing are studied.

MKT 250 Retailing Management 3 Credits

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

Prerequisite(s): MKT 200.

MKT 260 Service Marketing 3 Credits

Focuses on the unique challenges of managing services and delivering quality service to customers. Emphasis is placed on the total organization, and how effective marketing and customer focus must be coordinated across multiple functions. The course is applicable to service organizations and to organizations that depend on service excellence for competitive advantage. Topics include customer-focused management, and customer satisfaction, retention, lifetime value and profitability. Students will learn to map services, understand customer expectations, and develop relationship marketing strategies.

Prerequisite(s): MKT 200.

MKT 280 Sports Marketing 3 Credits

The course focuses on the unique challenges of marketing sports at a variety of levels: youth, college, professional, and international. The challenges of attracting and retaining fans and participants as well as of building and maintaining strong brand identity are at the heart of the course content. By evaluating case studies and examining current issues in sports marketing, students will gain an understanding of what it means to be a professional marketer of a sports organization and/or event.

Prerequisite(s): MKT 200.

MKT 310 Business to Business Marketing 3 Credits

This course examines the business-to-business marketplace, and the planning and control tools used by its entities in managing the product, pricing, promotion, channel and supply chain management strategies.

Prerequisite(s): MKT 200.

MKT 320 Consumer Behavior 3 Credits

The nature and determinants of consumer behavior are studied, with attention given to the influence of socio-psychological factors such as personality, small groups, demographic variables, social class, and culture on the formation of consumer attitudes, consumption patterns, and purchasing behavior.

Prerequisite(s): MKT 200; Required for advertising majors.

MKT 330 International Marketing 3 Credits

This course examines the global marketplace and the complexities of its environmental influences, and necessary adaptations in formulating the strategies for product, pricing, promotion, channel and supply chain management.

Prerequisite(s): MKT 200.

MKT 340 Personal Selling 3 Credits

Examines persuasive techniques utilized in sales presentations conducted on a person-to-person basis. Major course emphasis is on developing effective selling techniques; understanding the company, its products and the role of the salesperson in implementing product/market strategies; understanding the customers and the selling environment; application of effective sales presentation techniques; recognizing selling opportunities and careers.

Prerequisite(s): MKT 200.

MKT 345 Customer Focus 3 Credits

Marketing supply chain management programs are concerned with the creation and delivery of value to customer and organizations. No longer simply the domain of the warehouse manager or logistics director, supply chain management is viewed by most companies as a mission-critical element. Marketing focuses on developing an understanding of customers and markets, creating products and services based on that understanding, and communicating and delivering the value added. This course will teach the student the essential role of marketing in all aspects of successful supply chain management - relationship management, technological and financial - and it will help the student understand the structure, functions, principles and methods employed in discovering and translating consumer needs and wants into product and service specifications and then transferring these goods and services from producers to consumers or end users.

Prerequisite(s): MKT 200 and GSC 115 or permission of instructor.

MKT 350 Retailing Management 3 Credits

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

Prerequisite(s): MKT 200.

MKT 366 Marketing Research 3 Credits

Topics include specific research procedures in gathering, processing, analyzing, and presenting information relevant to marketing problems: advertising planning and effectiveness; product development; distribution channels; sales techniques; consumer behavior; and forecasting. Student learning about research planning, implementation, and interpretation is facilitated by the use of projects or cases.

Prerequisite(s): MKT 200; MSD 200, MSD 201; junior standing; Required for marketing and advertising majors.

MKT 370 Internet Marketing 3 Credits

This course emphasizes the discipline of internet marketing, including practices of leading online marketing companies, state of the art online research and demonstrates how the Internet is creating value for customers and profits for businesses while also fitting into a firm's complete marketing strategy. This course will provide a strategic and tactical toolkit for the online marketer, help students understand how and why the Internet is changing traditional marketing and allow students to develop the skills, strategies and tactics important to develop successful Internet marketing plans.

Prerequisite(s): MKT 200 and CIS 185.

MKT 380 Healthcare Marketing 3 Credits

The purpose of this course is to introduce students to the role, functions and tasks of healthcare marketing. Attention is devoted to applying basic marketing principles to the healthcare sector. Marketing decision making and analysis will be emphasized through the use of cases and current readings that focus on a variety of healthcare organizations, including hospitals, assisted living facilities, MCOs, and pharmaceutical companies.

Prerequisite(s): MKT 200 or permission of instructor.

MKT 440 Sales Management 3 Credits

By means of lectures, discussions, and case studies, the field of marketing management is analyzed from the viewpoint of sales executives. The responsibilities for planning and administering personal selling operations are emphasized. Considerable attention is given to other activities for which sales executives may be wholly or jointly responsible, such as decision making on promotion and brand management.

Prerequisite(s): MKT 200 and senior standing.

MKT 444 Spec. Topics Honors: Mkt & Law 3 Credits**MKT 460 Marketing Management Seminar 3 Credits**

This capstone course for marketing majors employs a top management approach to the overall marketing task, including planning, organizing, controlling, and integrating all the activities of the marketing program. Integration of marketing with other operations of the business unit is emphasized. Major problems and current trends are identified and analyzed through case discussion.

Prerequisite(s): Marketing major and 15 semester hours of marketing; Required for marketing majors.

MKT 469 Selected Topics in Marketing 3 Credits

The study of a topic (or combination of topics) that represents some dimension of marketing or has important and direct implications for marketing management. Theoretical foundations as well as special applications of marketing decision making may be explored. Readings, research, lectures, discussions, or other appropriate methods are employed to stimulate student learning.

Prerequisite(s): MKT 200 and senior standing or permission of instructor.

MKT 490 Independent Research and Study 1-4 Credits

Topic to be approved by the professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation, which may be counted as a business or free elective.

MKT 491 Internship-Based Indep Study 3 Credits

Provides the student an opportunity to supplement and apply classroom work in supervised employment with participating marketing and advertising firms. Requirements include a journal with a log of daily activities, and a project or term paper presented to and evaluated by the internship sponsor. Evaluation will also include a report by the company on the intern's performance. Credits may be used to satisfy business or free elective requirements.

Prerequisite(s): permission of instructor.

Online RN to Bachelor of Science in Nursing (B.S.N.)

Program Overview

Designed for working nurses, Rider's online R.N. to B.S.N. program lets students gain the skills and credentials to advance — while balancing both their career and family life.

The experience, skills and compassion an individual brings to his or her job transforms the lives of the patients in one's care every day. But rapid changes in today's health care environment now present nursing professionals with new challenges — and exciting opportunities. The online R.N. to B.S.N. program prepares students for these challenges while still training them to be compassionate care givers and partners.

The baccalaureate program at Rider University is accredited by the Commission on Collegiate Nursing Education (<http://www.aacn.nche.edu/ccne-accreditation>)

Curriculum Overview

The curriculum provides a seamless transition from the R.N. to B.S.N., building on the students' experiences as registered nurses. Courses are offered in an accelerated, seven-week format. Clinicals are embedded into the course material. Separate clinicals are not required.

Graduates of an Associate Degree program may transfer in 60-68 credits, depending on the credit distribution for that program. Students who graduate from a Diploma nursing program are granted 34 credits for prelicensure nursing courses, and any applicable liberal arts courses eligible for transfer are accepted.

Admissions Requirement

- An earned associate degree or Diploma in nursing from an accredited institution; students who do not meet this requirement should contact the program director before applying.
- Official transcripts from all institutions attended with a minimum 2.5 cumulative GPA
- Copies of a current/unrestricted R.N. license

Degree Offered

Free Electives ² 40-42**Total Credits** 120

¹ The student designs the capstone project based on individual professional interests in consultation with the nursing faculty.

² Students who graduate from a Diploma nursing program are granted 34 credits for prelicensure nursing courses. These credits will appear as Free Electives.

A candidate for graduation must complete a minimum of 120 credits. A maximum of 30 credits outside the liberal arts and sciences may be presented for graduation.

NUR 400 Professionalism and Professional Values 3 Credits

Professionalism and the inherent values of altruism, autonomy, human dignity, integrity, and social justice are fundamental to nursing. This course provides a foundation of concepts of professionalism to facilitate participation and engagement in professional or community-based organizations that advocate for quality and access to health care. Learning activities and assignments will focus on strategies for self assessment and self reflection of one's values, moral integrity, and ability to act professionally at all times in complex health care delivery environments.

NUR 401 Organizational and Healthcare Systems Leadership 3 Credits

This course provides a foundation of principles of leadership based on contemporary needs for qualified nursing leaders who can function and manage in complex healthcare delivery environments. Learning activities and assignments will focus on strategies for self-assessment and self-reflection of one's own leadership skills, knowledge, and attitudes that foster and promote nursing leadership in diverse healthcare delivery settings, and strategies for best practice in nursing leadership in the 21st century.

48-50 NUR 402 Scholarship in Evidence-Based Practice 3 Credits

This course provides a foundation of evidence-based research principles to translate evidence into practice and how research informs professional nursing practice to improve patient safety and outcomes. Learning activities and assignments will focus on strategies for learning how to assess scientific merit of data-driven research, apply evidence-based practice in appropriate ways, monitor and evaluate the impact of evidence-based practice on informed nursing practice and outcomes of care as well as collaborate with interprofessional health care teams to improve patient safety and outcomes in a variety of healthcare delivery settings.

NUR 403 Information Management and Application of Patient Care Technology 3 Credits

This course provides a foundation of information management and application of patient care technology to enhance and improve patient safety and outcomes by examining linkages between information management systems and patient care technologies that support and are linked to safe nursing practice. The course examines how technology is used to inform nursing practice and enhance patient safety by applying safeguards and decision making support tools embedded in the technologies. Students are exposed to effective clinical information systems (CIS) to document nursing care, examine the ethical components of protecting patient information, challenges with data security, regulatory requirements, confidentiality and rights to privacy as well as examine the role of the professional nurse in updating and garnering information management resources and applying them in patient care settings.

NUR 404 Healthcare Policy, Finance, and Regulatory Environments 3 Credits

This course provides a foundation of U.S. healthcare policy, including financial and regulatory policies, as well as the nature and functioning of the U.S. healthcare delivery system. There is emphasis on policy processes at the organizational, local, state, national, and global levels. Learning activities and assignments focus on strategies for learning how to assess the role of the baccalaureate-prepared nurse in policy formation and reformation at all levels, demonstrating understanding of the political process at all levels, developing effective advocacy strategies for vulnerable populations, how to identify and influence key stakeholders in the policy process, the importance of effective communication of key healthcare issues, and how to influence change in the political process at all levels when there is social injustice.

NUR 405 Interprofessional Collaboration and Communication for Improving Healthcare Outcomes 3 Credits

This course provides a foundation of key concepts essential to promotion of effective interprofessional collaboration and communication for improving healthcare outcomes and patient safety. There is emphasis in the course on examination of the roles and perspectives of scope of practice for selected healthcare disciplines in intra-and interprofessional healthcare teams to improve healthcare outcomes and promote patient safety, and on effective strategies for advocacy and communication patterns in healthcare delivery settings as healthcare professionals develop trust and respect for all members of the healthcare team while recognizing unique differences and contributions of roles to patient safety and outcomes.

NUR 406 Population Health Promotion and Prevention Across the Lifespan 3 Credits

This course provides a foundation of key concepts essential to population-focused nursing, the aggregate, community or population as the unit of care. The focus of the course is on health promotion/disease prevention with emphasis on the professional nurse role in clinical prevention of disease and care of populations applying concepts of primary, secondary, and tertiary health promotion across the lifespan, identifying determinates of health, prioritizing primary prevention across the lifespan, actively identifying and targeting populations benefitting from evidence-based preventive initiatives and clinical preventive guidelines, assessment strategies for individuals and populations, applying evidence-based practice to health promotion/risk reduction, and being an advocate for vulnerable and disenfranchised populations without resources or a voice.

NUR 407 Cultural Diversity in a Global Society 3 Credits

This course provides a foundation of key concepts essential to nursing care and professional nursing leadership in assessment, planning, design, implementation, and evaluation of the knowledge, skills, and attitudes they must have as leaders of healthcare delivery focusing on improved system safety and effectiveness. There is particular emphasis on the nursing leadership role at the baccalaureate level for nursing to recognize, interrupt, evaluate, and correct healthcare errors and to implement safety principles and work with others to create a safe, caring environment for every healthcare delivery encounter as they provide care themselves, are acting in a leadership capacity, or are overseeing and delegating to other non-licensed assistive personnel. The course content focuses on identification, assessment, planning, design, and evaluation of evidence-based practice change to improve patient safety and outcomes.

NUR 408 Gerontological Nursing Concept 3 Credits

This course provides a foundation of key concepts essential to care of an aging population in a complex society. Given the diverse health status of the aging population, professional nurses must be able to develop competencies to provide high quality care to aging adults and their families or significant others. Specifically the course focuses on increased diversity and complexity of an aging society and selected health care needs, life transitions of aging adults, normal body system changes occurring with the aging process, the professional nurse role in principled care provided to a vulnerable population, and the role of the professional nurse as advocate and caregiver promoting the concepts of quality end-of-life care for aging adults, including pain and symptom management honoring the autonomy and self-wish of the aging client.

NUR 409 BSN Capstone Evidence - Based Microsystem Practice Change 3 Credits

This course provides a foundation for the baccalaureate nurse to have a solid understanding of the concepts of organizational and systems leadership, quality improvement, and safety that are essential to promoting high quality patient care impacting patient safety and outcomes. Professional nursing leadership skills are needed that emphasize ethical and critical decision-making, initiating and maintaining effective partnerships and working relationships, initiating and maintaining mutually respectful communication and collaboration skills within interprofessional healthcare teams, care coordination, delegation, and developing effective conflict resolution and consensus building strategies. Professional BSN nurses must be able to practice at the clinical microsystem level within ever changing, dynamic healthcare delivery settings and this course prepares the baccalaureate-prepared professional nurse with this knowledge, skills, and competencies to implement safety principles and work collaboratively with others on the interprofessional healthcare team to lead and participate in creating a safe, caring environment for healthcare delivery so every patient encounter is a safe, effective, and positive one through a 90-hour practicum in a selected healthcare organization.

Premedical, Predental, Preveterinary Studies

Rider University offers students with baccalaureate degrees the opportunity to take the undergraduate science course prerequisites for medical, dental, veterinary or graduate school. The Post-baccalaureate Premedical Studies Program is offered through the College of Continuing Studies.

BIO 115 & 115L	Principles of Biology I and Principles of Biology I Lab	4

¹ MTH 105 is a prerequisite

² MTH 210 is a prerequisite or can be taken concurrently

³ MTH 211 is a prerequisite or can be taken concurrently.

Applicants must complete a Post-baccalaureate Premedical Studies application form, submit official transcripts from all higher education institutions attended, and complete an application (<http://www.rider.edu/>)

academics/colleges-schools/college-continuing-studies/programs-offerings/degrees-certificates-work-0) to the College of Continuing Studies.

Applicants must meet the following criteria to gain admission to the Post-baccalaureate Premedical Studies Program:

- a baccalaureate degree from an accredited college or university'
- a 3.25 cumulative undergraduate GPA.

Applications are reviewed and approved by the College of Continuing Studies and the chair of the Premedical Studies Committee.

Psychology (B.A.)

Program Overview

The psychology major is designed to meet the needs of various types of students and to develop a broad understanding of the many topic areas within the field of psychology.

The program is committed to helping students understand and appreciate both the scientific foundations and human service aspects of the field of psychology; develop and apply oral, written, analytical and critical-thinking skills applied to psychological issues, questions and problems; understand issues in contemporary psychology and recognize and apply psychological knowledge in order to provide solutions to real world problems and develop both interpersonal and intrapersonal knowledge through academic experiences and extra-curricular activities. The program is designed to foster self-awareness and personal growth, the development of leadership skills and a respect and understanding for human development and human diversity.

Curriculum Overview

The curriculum develops the fundamental skills that predict success in the profession of psychology, human services, corporate jobs, education and graduate school. Classes stress the development of writing skills, both technical report writing and literature research papers and provide a range of instruction on the statistical data analysis, online control of laboratory experiments, text processing and presentation software. In fieldwork placements, students gain work experience in a variety of human services programs within the community.

Members of the psychology faculty encourage students to become involved in research projects. Many Rider psychology seniors bound for graduate school receive offers of substantial financial aid in the form of assistantships and tuition waivers. These offers are made because our majors carry out research of high quality. Students have coauthored journal publications with the faculty and presented papers at regional and national conferences. Laboratories are always open for students and faculty supervision is always available.

PSY 491	Internship in Psychology

Free Electives 32-34

Total Credits 120

PSY 100 Intro To Psychology 3 Credits

An orientation to psychology, covering major facts, principles and concepts about human and animal behavior and experience, re-search findings, major problems, basic vocabulary, methodologies, and contributions in the field. Topics include psychology as a science; human development; individual differences; intelligence and its measurement; special aptitudes and interests; personality and social behavior; motivation and emotion; frustration and personality deviations; and learning, thinking, remembering and forgetting.

PSY 105 Introduction to Research in Psychology 3 Credits

Students will be introduced to the basic research methods used in psychology including, surveys, experiments and observation. Students will collect data and learn to describe this data using basic tools of analysis including graphic display and statistical analysis. Students will read original psychological research and learn to write using the conventions of the American Psychological Association.

Prerequisite(s): a grade of "C" in PSY 100.

PSY 201 Statistics and Research Design 3 Credits

Introduces students to statistics and research methods in the behavioral sciences. Covers the fundamentals of descriptive and inferential statistics, a variety of issues in research design, selected research designs including the case study, correlational and experimental designs. In addition, students will explore the literature in psychology in order to examine the use of statistics and research design in real research problems.

Prerequisite(s): grade of "C" in PSY 205.

PSY 210 Organizational Psychology 3 Credits

Focuses on issues related to human behavior in work settings. Topics include personnel issues such as hiring and promotion decisions, performance appraisals, and methods of on-the-job training. Issues of job satisfaction, motivation, productivity, and effective leadership styles are also examined. Finally, organizational structure as it relates to communication within organizations will be examined.

Prerequisite(s): PSY 100.

PSY 212 Introduction to Applied Behavior Analysis 3 Credits

Presents a review of classical and operant conditioning, data collection and research design, data analysis and interpretation. In addition, assessment and treatment strategies in a variety of settings, contingency management in institution, classroom and home, systematic self-desensitization, and ethical consideration are discussed.

Prerequisite(s): PSY 100.

PSY 215 Personality 3 Credits

A synthesis of the most recent research in the field of personality development. Topics include interplay of biological, cultural, and subjective personal processes; analysis of the broad trends in personality theories; and introduction to personality measurement.

Prerequisite(s): PSY 100.

PSY 218 Psychology of Women 3 Credits

Examines the psychological development of women in our culture from birth to maturity, with an emphasis on the interaction of biological and social influences on personality, social behavior, and achievement of women. Investigates psychological sex differences in terms of current measurement approaches. Readings and text are drawn from psychological theory and research.

Prerequisite(s): PSY 100.

PSY 220 Abnormal Psychology 3 Credits

The development of abnormal personalities is discussed, with a survey of the various types of mental abnormalities, including their symptoms, diagnoses, and treatments. Neuroses and psychoses are emphasized.

Prerequisite(s): PSY 100.

PSY 225 Learning and Memory 3 Credits

A broad coverage of the expanding fields of learning, memory, and cognition is provided, while addressing their relevance and impact on human behavior. Continuity between early associationistic and contemporary cognitive theories is established. Topics range from basic conditioning to the more complex processes of memory, concept learning, thinking, and problem solving. Prerequisite(s): PSY 100.

PSY 230 Child Development 3 Credits

Presents theory and research on the social, emotional and cognitive development of children birth to age 12.

PSY 231 Youth and Adolescent Development 3 Credits

Presents theories, research and problems concerning development in youth and adolescence.

Prerequisite(s): PSY 100.

PSY 237 Cognitive Disabilities 3 Credits

Investigates various types of intellectual differences, focusing on etiology, methods of diagnosis, programs and services available to individuals and families. Considers problems relating to adjustment in academic, social, and vocational areas.

PSY 238 Sensation and Perception 3 Credits

The facts and theories of sensation and perception, their role in the total psychology of the individual, and current application are examined.

Prerequisite(s): PSY 100.

PSY 240 Social Psychology 3 Credits

Deals with the scientific study of human beings in social situations, focusing on reciprocal influence of the individual and the group, especially aspects of behavior that are socially determined. The nature of attitudes: their development and change; the nature of social influence; interpersonal perception and attraction; dynamics of social behavior; and social phenomena, such as prejudice and social movements, are covered.

Prerequisite(s): PSY 100.

PSY 250 Psychology of Aging 3 Credits

This survey course focuses on basic psychological issues in the aging process and in the elderly. It examines myths and stereotypes about aging and the elderly by way of research evidence pertaining to physical, psychological, and social changes accompanying aging.

Prerequisite(s): PSY 100.

PSY 255 Biopsychology 3 Credits

Basic biological structures and processes underlying behavior, including general neuroanatomy and neurophysiology; sensory physiology; structure and function of the motor systems; physiology of emotions, motivation, learning, memory; brain dysfunction; psychoactive drugs.

Prerequisite(s): PSY 100.

PSY 279 Psychology and Law 3 Credits

Introduces students to a study of selected topics in psychology and law. Topics include eyewitness testimony, jury selection, and decision making

Prerequisite(s): PSY 100.

PSY 283 Sport Psychology 3 Credits

This survey course will focus on the social and psychological factors related to performance and participation in sport and exercise, health, and injury/rehabilitation settings. Two general questions will be explored: (a) how do social and psychological variables influence performance and participation in physical activity pursuits? And (b) how does physical activity participation affect the psychological well-being of the individual? To better understand these questions, this course will overview theoretical and methodological approaches to a variety of sport and exercise psychology topics, including: socialization, motivation, group processes, competition, and performance enhancement.

Prerequisite(s): PSY 100.

PSY 295 Directed Study in Psychology 1-4 Credits

Provides an opportunity for students to obtain research experiences in psychology. Consists of a combination of project meetings, assigned readings and supervised research. Each student will work with a selected faculty member on a topic of mutual interest. Projects may include learning some components of research methods and applying these techniques to the collection and analysis of data. Provides focused reading and discussion as it relates to each student's research topic.

Prerequisite(s): PSY 100; psychology majors or minors and permission of instructor and chair.

PSY 299 Field Placmt in App.Behv Analy 1-4 Credits

The practicum provides hands-on experience using the tools of applied behavior analysis in a field setting. Provides supervised field placement experience in an approved institution or agency in order for students to gain knowledge in applications of applied behavior analysis. Placement is made in various community institutions and agencies that offer services to diverse populations.

Prerequisite(s): PSY 100, PSY 212.

PSY 302 Research Methods: Cognition 4 Credits

Provides students with an in-depth coverage of the expanding field of cognition and memory. Addresses issues and research within the field. Emphasis is on current views of human memory. Students learn how to design and conduct their own experiments from the topic areas of information processing, psycholinguistics, problem solving, learning and memory, social cognition, and cognitive neuroscience. Laboratory skills include programming computers, developing multimedia stimuli, recording psycho-physiological data, and composing an APA-format research report in a network-based writing lab. **Prerequisite(s):** a grade of "C" in PSY 201; PSY 225, PSY 237 or PSY 325 or permission of instructor.

Corequisite(s): PSY 302L.

PSY 302L Research Methods: Cognition Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 302.

PSY 303 Research Methods: Social Psychology 4 Credits

Covers research methodology within the context of social psychology (i.e., topics include altruism, aggression, attraction and social perception). Both experimental and descriptive methodologies will be covered. Students learn about various aspects of the research process (e.g., design and execution of a social psychological study, analyzing and interpreting the results). Students also learn to integrate their research findings to produce an APA-style paper. Students use computer-based word processing and statistical analysis packages to achieve these goals. **Prerequisite(s):** a grade of "C" in PSY 201; PSY 240 or PSY 279 or permission of instructor.

Corequisite(s): PSY 303L.

PSY 303L Resrch Methds: Social Psychology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 303.

PSY 305 Theories of Psychotherapy 3 Credits

An exploration of the history and theory of the psychoanalytic, behavioral, and humanistic approaches to psychotherapy. Comparisons and contrasts between these therapeutic modalities are discussed, as well as the theory underlying specific therapeutic techniques such as dynamic interpretations, dream analysis, the analysis of resistance and transference, counter-conditioning, modeling, and cognitive restructuring. Class exercises in addition to transcripts and tape recordings from therapy sessions are used to illustrate the various therapeutic approaches.

Prerequisite(s): PSY 215 or PSY 220 or permission of instructor.

PSY 306 Research Methods: Sensation/Perception 4 Credits

Provides instruction in research design, research methods, and integration of data analysis and methodology within the content framework of sensation and perception. All the general psychology research methods are taught. Special emphasis is given to the study of human vision and audition. Students design, conduct, and report laboratory research in the areas of sensation and perception. The computer-based components of the laboratory include lessons on interactive software instrumentation for research, and network-based technical writing using APA format. Projects are conducted during the term. Each student uses a dedicated networked Macintosh computer to: a) develop and generate research stimuli and procedures, b) analyze and report research data, and c) write formal research reports. Prerequisite(s): a grade of "C" in PSY 201 or permission of instructor.

Corequisite(s): PSY 306L.

PSY 306L Sensation & Perception Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 306.

PSY 315 Psychological Tests 3 Credits

Examines the history of psychological testing. Issues concerning the construction of psychological tests are discussed, including concepts concerning reliability, validity, and item analysis. The rationale and structure of the major tests of intelligence, aptitude, and personality are reviewed, including the Rorschach, WAIS, TAT, MMPI, and Bender-Gestalt. In the last section of the course, students are given hands-on experience in the administration, scoring, and interpretation of a standard test battery.

Prerequisite(s): any statistics course.

PSY 324 Play and Imagination 3 Credits

This course surveys two of the most important manifestations of children's imagination: pretend play and imaginary companions. It will discuss the evolution of play, the purpose of play, the role of play in the development of creativity, and individual differences in play (e.g., among children of different gender, cultures, and ability levels). Finally, it will discuss the application of play to therapeutic methods for children.

PSY 325 Cognitive Development 3 Credits

Compares and analyzes the major theories of cognitive development: Piaget, Information Processing, Vygotsky, Gardner, and Sternberg. The course describes cognitive growth from infancy to adulthood. Particular topics will include: concept formation, language acquisition, memory reading and writing, mathematical skills and sociocultural skills. Also of interest will be the use of cognitive theory in education, and understanding variations from the typical pattern of cognitive development as in mental retardation and prodigies.

Prerequisite(s): PSY 100.

PSY 329 Research Methods in Organizational Psychology 3 Credits

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

PSY 329L Research Methods in Organizational Psychology 1 Credits

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

PSY 330 Developmental Disabilities 3 Credits

Introduces students to the genetic, biological, sensory-motor, cognitive, and social-emotional foundations of developmental disabilities. Selected syndromes will be reviewed in depth, as will treatments and intervention at the individual and family levels.

Prerequisite(s): PSY 230, PSY 231 or PSY 237.

PSY 333 Autism Spectrum Disorders 3 Credits

Provides students with a general understanding of the etiology, neurocognitive underpinnings, and general characteristics of the autism spectrum disorders. The course will examine the history of the study of these disorders, the main problems associated with these conditions, and will explore psycho-educational treatment alternatives.

Prerequisite(s): PSY 230, PSY 231, PSY 237, or PSY 330.

PSY 335 Resrch Methds:human Cognitive Neurosci 4 Credits

Covers the interdisciplinary study of the nervous system integrating neurobiology, physiology, pharmacology, and psychology as explanations for both normal and pathological human behavior. Topics integrate molecular levels of analysis, such as neuron structure and function, neurotransmitters, action potentials, and receptors, with molar levels, such as sensory and hormonal processes, learning and memory, emotions, drug use, and biological rhythms. Introduces research techniques used to study the function of the nervous system and the neural bases of behavior in humans. Neuroanatomical, electrophysiological, pharmacological, and neuropsychological assessment techniques may be explored as part of laboratory or field research projects designed in collaboration with the instructor. Prerequisite(s): grade of "C" or better in PSY 201 and PSY 255 or permission of instructor.

Corequisite(s): PSY 335L.

PSY 335L Resrch Methds: Human Cog Neurosci Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 335.

PSY 336 Research Methods: Animal Learning & Behv 4 Credits

Provides a comprehensive overview of the acquisition and modification of the behavior of animals, especially on laboratory strains of rodents and pigeons. Core topics include respondent and operant conditioning, animal cognition, observational learning, animal safety and welfare, single-subject and between-groups approaches to methodology, and the statistical analysis of the results of studies of behavior. The laboratory component of the course provides a comprehensive overview of animal handling and maintenance, animal welfare, and the recording of experimental results. Two substantial projects are undertaken; demonstration of a conditioned taste aversion and its effect upon the acquisition and extinction of an operant (bar press) response and subsequent discrimination and reversal learning. Results of both projects are written into APA-formatted reports.

Prerequisite(s): a grade of "C" in PSY 201, PSY 225 or permission of instructor.

PSY 336L Animal Lrng and Behavior Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 336.

PSY 339 Research Methods in Applied Behavior Analysis 4 Credits

This upper-level laboratory course will provide students with in-depth study of the principles and applications of Applied Behavior Analysis. Students will examine behavioral principles, ethical considerations and real-life applications of ABA. Each student will design and implement a self-management plan to alter a behavior of their choosing. Prerequisite(s): PSY 100.

Corequisite(s): PSY 339L.

PSY 339L Research Methods in ABA Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 339.

PSY 340 Research Methods: Group Dynamics 4 Credits

Focuses on selected issues pertaining to group dynamics. Emphasizes an understanding of the personality and social factors that influence the functioning of unstructured and task-oriented groups. Students participate in a task group for the purpose of conducting a comprehensive research project on selected issues in group dynamics and the psychology of groups. The task group prepares an APA-style paper describing their research as well as an in-class presentation. Each student also submits a midterm and final written analysis of the interactional processes and development of the task group. Prerequisite(s): a grade of "C" in PSY 201 or permission of instructor.

Corequisite(s): PSY 340L.

PSY 340L Group Dynamics Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 340.

PSY 345 Health Psychology 3 Credits

This course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

Prerequisite(s): PSY 100.

PSY 350 Research Methods: Developmental Psych 4 Credits

Focuses on one or more research areas in cognitive, personality, or social development. Includes an overview of major theoretical approaches to age-related change. Students review original research on selected aspects of behavioral change. The laboratory component of the course presents an overview of developmental research designs and methods focusing on the measurement of age-related change in psychological functioning. Students conduct field research projects designed in collaboration with the instructor and prepare an APA-style research report. Prerequisite(s): a grade of "C" in PSY 201 and PSY 230 or permission of instructor.

Corequisite(s): PSY 350L.

PSY 350L Developmental Psychology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 350.

PSY 360 Psychology of Peace & Conflict 3 Credits

PSY 365 Drugs and Human Behavior 3 Credits

Presents the student with an in-depth analysis of the effects of alcohol and selected chemical substances on the behavior and body of the user. Commonly abused substances will be discussed in terms of their history, sources of production, routes of administration, distribution, metabolism and excretion, neurophysiology, tolerance, properties of addiction, withdrawal course and symptoms, and potential beneficial and harmful effects.

Prerequisite(s): PSY 100.

PSY 370 Spec Topic:Positive Psychology 3 Credits

PSY 372 States of Consciousness 3 Credits

This course explores the variety of states that comprise normal and altered consciousness. It highlights how these states are determined by complex interactions between conscious and unconscious mental functions. Key psychological concepts are applied in an investigation of various states of consciousness, especially meditative states and dreams. The course examines both the psychopathological aspects of altered states, as well as their potential beneficial effects on creativity and the development of the self.

Prerequisite(s): PSY 100.

PSY 374 Psychology of the Family 3 Credits

This course examines the significance of family in human development. Using prominent themes of developmental psychology, such as: the role of attachment in forming human relationships, the significance of context in understanding human development, and the resilience of development; this course will explore the existing research on the family. Students are asked to consider their own experiences as members of a family, as well as to understand the varieties of ways family impacts development across the lifespan.

Prerequisite(s): PSY 100, PSY 230 or permission of instructor.

PSY 375 Psychology and Film 3 Credits

Attitudes, perceptions and memories are shaped by motion pictures. Filmmakers create enduring images by using cinematic techniques to portray social and interpersonal themes. This course will examine various cinematic techniques as well as how film portrays interpersonal relations, gender roles, race relations, mental illness, The Holocaust, and other genocides.

Prerequisite(s): PSY 100.

PSY 377 Developmental Psychopathology 3 Credits

This course provides an in-depth view of developmental psychopathology as an applied and prevention science. Developmental psychopathology is concerned with the emergence and continuity or discontinuity of psychopathology, or maladaptive behaviors, across the lifespan. An emphasis is placed on exploring individual, environmental, social, and especially cultural influences in explaining normal and abnormal behavior.

Prerequisite(s): PSY 230 or PSY 231.

PSY 380 Spec Topics: Sport Psychology 3 Credits

This survey course will focus on the social and psychological factors related to performance and participation in sport and exercise, health, and injury/rehabilitation settings. Two general questions will be explored: (a) how do social and psychological variables influence performance and participation in physical activity pursuits? And (b) how does physical activity participation affect the psychological well-being of the individual? To better understand these questions, this course will overview theoretical and methodological approaches to a variety of sport and exercise psychology topics, including: socialization, motivation, group processes, competition, and performance enhancement.

Prerequisite(s): PSY 100.

PSY 381 Psychology of Gender 3 Credits

This course examines the meaning of sex and gender in modern society. The course readings and discussion will review and analyze the influence of gender on human behavior and emotions. The course will examine the significance of gender in shaping experience. Topics will include: gender differences in behavior, gender role development, gender and sexual identity, gender and social roles, cross-cultural perspectives on gender and transcending gender.

Prerequisite(s): PSY 100, PSY 218 or permission of instructor.

PSY 382 Aging, Brain, and Cognition 3 Credits

This course covers the biological structures and processes underlying cognition in humans and explores modulating factors such as age, sex, disease, stress, and environment. The theoretical and methodological issues of developmental cognitive neuroscience research are addressed. Focus of the course is on brain structure and function in the largest growing segment of our population, persons over the age of 65, and the link between structure and cognitive abilities, both intact and declining. Special attention is paid to those factors related to successful aging and treatments with putative cognitive enhancers.

Prerequisite(s): PSY 100.

PSY 383 Psychology and Culture 3 Credits

Students enrolled in this course will critically examine the intersection of culture and psychology. Topics covered include cultural influences on: identity, the perceptions and manifestations of mental illness, and treatment seeking.

Prerequisite(s): PSY 100.

PSY 384 Positive Psychology 3 Credits

Historically, the field of psychology has placed great attention on the question of, "What is wrong with people and how do we fix it?" This course will focus on the question of, "What is right with people and how can we build on that?" We will explore this by examining empirical research centered on the nature of happiness and psychological well-being. Positive psychology is the rigorous study of what is right and positive about people and institutions. Positive psychologists call for as much focus on strength as on weakness, as much attention on positive emotions as negative emotions, as much interest in building the best things in life as in repairing the worst, and as much attention to promoting the fulfillment of lives of healthy people as to healing the wounds of the distressed. This course will first present an introduction to the core assumptions and research findings associated with human strengths and positive emotions, then move on to explore interventions and applications informed by this perspective in counseling and psychotherapy, as well as in domains personally relevant to the lives of students such as school, work, family and other close relationships.

Prerequisite(s): PSY 100.

PSY 395 Special Topics in Psychology 3 Credits**PSY 400 Senior Seminar 3 Credits**

This capstone course will provide a synthesis and evaluation of important critical issues in psychology, such as the role of modern psychology in solving social problems, the scientific vs. human services perspectives on behavior, emotion and cognition; and the nature of mental illness and well-being. Students will be expected to draw broadly from their education in psychology; to grapple with conflicting points of view; and produce professional quality writing, oral or multimedia presentations.

PSY 420 History of Psychology 3 Credits

Provides a coverage of systems and schools of psychology; great psychologists, their contributions, and later influence in psychology. Current psychological problems are also discussed.

PSY 490 Independent Research and Study 1-4 Credits

Provides students with an opportunity to design and carry out original research in an area of their choice. Students designate a faculty supervisor and work closely with him/her during the semester. All students must have approval from the department and the dean to register for PSY 490.

Prerequisite(s): PSY 201.

PSY 491 Internship in Psychology 1-4 Credits

Provides supervised work experience in an approved institution or agency in order for students to gain knowledge in applications of psychology.

Placement is made in various community institutions and agencies that offer services to both exceptional and normal individuals.

Prerequisite(s): senior psychology majors or minors.

PSY 510 Intro Applied Behav Analysis 3 Credits

This course will provide an introduction to applied behavior analysis. Students will learn the history and defining features of the field. Due to the scientific nature of applied behavior analysis, students will also learn characteristics and processes associated with the scientific method. Furthermore, foundational concepts will be defined, along with relevant behavior change procedures.

PSY 511 Principles of Learning 3 Credits

This course will provide students with more in depth understanding of the philosophical assumptions, characteristics and basic principles of behavior analysis. Students will have the opportunity to review concepts learned during Introduction to Applied Behavior Analysis. This course will also provide an introduction to the basic research in behavior analysis. Students will become more fluent in definitions, characteristics, principles, processes, and concepts of behavior analysis.

Prerequisite(s): PSY 510.

PSY 513 Observational Methods and Functional Assessment 3 Credits

This course is designed to provide knowledge and skills of methodologies to conduct a thorough behavioral assessment, interpret the assessment data, and identify goals for treatment. Topics will include direct observation/data collection methods, data analysis, functional assessment, stimulus preference and reinforcer assessments, and ethical and professional issues. The second half of the course will deal specifically with functional analysis including the history of and variations to the methodology. The relationship between assessment techniques and the development of the least-restrictive but most effective behavioral intervention will also be discussed.

Prerequisite(s): PSY 510, PSY 511.

PSY 514 Single Subject Research Design and Analysis 3 Credits

Students will be introduced to the basic evaluative methods used in behavior analysis including various models of single subject design such as multiple baselines, reversal designs, and alternating treatment models. Students will design analyses, collect data, graphically display their data, and provide an analysis of findings. Students will read original behavior analytic research articles and practice analysis of findings.

Prerequisite(s): PSY 510, PSY 511, PSY 513.

PSY 515 Psychological Tests 3 Credits

Examines the history of psychological testing. Issues concerning the construction of psychological tests are discussed, including concepts concerning reliability, validity, and item analysis. The rationale and structure of the major tests of intelligence, aptitude, and personality are reviewed, including the Rorschach, WAIS, TAT, MMPI, and Bender-Gestalt. In the last section of the course, students are given hands-on experience in the administration, scoring, and interpretation of a standard test battery.

Prerequisite(s): any statistics course.

PSY 516 Creating Eff & Ethnical Interv 3 Credits**PSY 525 Cognitive Development 3 Credits**

Compares and analyzes the major theories of cognitive development: Piaget, Information Processing, Vygotsky, Gardner, and Sternberg. The course describes cognitive growth from infancy to adulthood. Particular topics will include: concept formation, language acquisition, memory reading and writing, mathematical skills and sociocultural skills. Also of interest will be the use of cognitive theory in education, and understanding variations from the typical pattern of cognitive development as in mental retardation and prodigies.

PSY 530 Interventions for Individuals with Developmental Disabilities 3 Credits

The purpose of this course is to prepare students to work with individuals with a broad spectrum of developmental disabilities. The course will begin with a discussion of typical child development and milestones, address how development might differ from the norm, introduce subsequent assessment and diagnosis and ultimately, introduce appropriate interventions. The main focus of this course is applied behavior analysis [ABA] and common ABA strategies for intervention.

PSY 533 Interventions for Autism 3 Credits

The purpose of this course is to provide students with a general understanding of the clinical characteristics of autism spectrum disorders. The course will briefly address etiology and neurocognitive underpinnings of these disorders but will focus on psycho-educational interventions. The course will be taught from an applied behavior analytic perspective.

PSY 535 Language Assess and Intervent 3 Credits

Students will be introduced to the classification of verbal responses, both vocal and non-vocal. Using videotaped examples, students will categorize observed verbal behavior. Students will be provided with practical tools for the assessment of verbal behavior, as well as an array of intervention strategies. A focus will include the design of teaching strategies to enhance language acquisition, as well as ongoing evaluation of intervention efficacy will be employed.

Prerequisite(s): PSY 510, PSY 511, PSY 513, PSY 514.

PSY 536 Social Skills Assess & Interv 3 Credits

Students will be introduced to the development of social skills and the identification social skills deficits. Using videotaped examples, students will categorize observed social behavior. Next, students will be provided with practical tools for the assessment of social and emotional behavior, as well as an array of intervention strategies. Tools for the collection of data and the evaluation of the success of target interventions will be stressed.

Prerequisite(s): PSY 510, PSY 511, PSY 513, PSY 514.

PSY 545 Health Psychology 3 Credits

his course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

PSY 565 Drugs and Human Behavior 3 Credits

Presents the student with an in-depth analysis of the effects of alcohol and selected chemical substances on the behavior and body of the user. Commonly abused substances will be discussed in terms of their history, sources of production, routes of administration, distribution, metabolism and excretion, neurophysiology, tolerance, properties of addiction, withdrawal course and symptoms, and potential beneficial and harmful effects.

PSY 570 Spec Topic:Positive Psychology 3 Credits**PSY 572 States of Consciousness 3 Credits**

his course explores the variety of states that comprise normal and altered consciousness. It highlights how these states are determined by complex interactions between conscious and unconscious mental functions. Key psychological concepts are applied in an investigation of various states of consciousness, especially meditative states and dreams. The course examines both the psychopathological aspects of altered states, as well as their potential beneficial effects on creativity and the development of the self.

PSY 574 Psychology of the Family 3 Credits

This course examines the significance of family in human development. Using prominent themes of developmental psychology, such as: the role of attachment in forming human relationships, the significance of context in understanding human development, and the resilience of development; this course will explore the existing research on the family. Students are asked to consider their own experiences as members of a family, as well as to understand the varieties of ways family impacts development across the lifespan.

PSY 577 Developmental Psychopathology 3 Credits

This course provides an in-depth view of developmental psychopathology as an applied and prevention science. Developmental psychopathology is concerned with the emergence and continuity or discontinuity of psychopathology, or maladaptive behaviors, across the lifespan. An emphasis is placed on exploring individual, environmental, social, and especially cultural influences in explaining normal and abnormal behavior.

PSY 582 Aging, Brain, and Cognition 3 Credits

This course covers the biological structures and processes underlying cognition in humans and explores modulating factors such as age, sex, disease, stress, and environment. The theoretical and methodological issues of developmental cognitive neuroscience research are addressed. Focus of the course is on brain structure and function in the largest growing segment of our population, persons over the age of 65, and the link between structure and cognitive abilities, both intact and declining. Special attention is paid to those factors related to successful aging and treatments with putative cognitive enhancers.

PSY 585 Independent Research and Study 1-4 Credits

Provides students with an opportunity to design and carry out original research in an area of their choice. Students designate a faculty supervisor and work closely with him/her during the semester. Permission of Instructor.

PSY 590 Field Placement in Applied Behavior Analysis 3 Credits

The applied behavior analysis practicum includes a required field placement of 15 hours per week and periodic on campus meetings. The practicum experience will allow students to experience the professional life of a behavior analyst in one of several preapproved sites. Sites approved include those for children, adolescents or adults with disabilities. Placements will be selected in consultation with the Practicum Coordinator and will require a written practicum plan from the cooperating field supervisor.

Prerequisite(s): PSY 510, PSY 511, PSY 513, PSY 514.

PSY 595 Special Topics 3 Credits**Public Relations (B.A.)****Program Overview**

Public relations students at Rider study the theories behind effective public communication. The program focuses on all facets of practical campaigns, as students learn from professionals in the field as well as their professors. In the capstone course, students work with local corporate or nonprofit clients.

Classroom experiences are augmented by membership in the Rider chapter of the Public Relations Student Society (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-science/liberal-arts-programs/communicat-21>) of America (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-science/liberal-arts-programs/communicat-21>).

Curriculum Overview

Core classes in the public relations program include advanced speech, publication design, public relations, feature writing, publicity methods in organizations and cases and campaigns in public relations.

Other classes include communication theory, theories of persuasion, news reporting and writing, copy editing, sports media relations, internal communications, marketing principles, advertising principles and more.

Degree Offered

B.A. in public relations

COM 393	International Communication
MKT 200	Marketing Principles
ADV 200	Advertising Principles

Free Electives 24-26

Total Credits 120

ADV 200 Advertising Principles 3 Credits

Basic theory, functions, principles, and applications of advertising are the focus of this course. The relation of advertising to our economy, the advertising department and the ad agency, selection of media, advertising practices, and the use of research to improve advertising techniques are covered.

Prerequisite(s): MKT 200; Required for advertising majors.

COM 104 Speech Communication 3 Credits

Examines basic communication principles and strategies of public speaking. Various genres of oral communication are studied, with an emphasis on extemporaneous and impromptu forms of delivery. Students research, prepare, and deliver speeches that are then used as the focal point for the discussion of effective speaking and listening. A number of speeches are videotaped. Students who received credit for COM 104S may not take this course.

COM 105 Communication, Culture and Media 3 Credits

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society.

COM 107 Persuasive Writing for Media 3 Credits

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

COM 131 Fundamentals of Video Production 3 Credits

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

COM 201 Communication Theory 3 Credits

Explores selected theories, models, and research methods in human communication, the dynamics of the communication process in various settings, and the role of communication in human interaction.

COM 204 Advanced Speech Communication 3 Credits

Provides students with the opportunity to further their study and practice of various types of speech communication. Moving beyond an introductory perspective, this course focuses on the development of critical, analytical, and pragmatic aspects of speech. The focus is divided between the discussion of theoretical models and a demonstrated competence of that material.

Prerequisite(s): COM 104 or COM 290.

COM 205 Theories of Persuasion 3 Credits

Analyzes the motivations that lead individuals and audiences to beliefs and actions and the techniques of achieving objectives through persuasion. Attention, interest, empathy, ethos, fear, and techniques of speakers, and those who use persuasion professionally are studied.

COM 210 News Reporting and Writing 3 Credits

Develops skills in hard-news reporting. Employs off-campus reporting assignments to refine information-gathering techniques such as interviewing, observation, and use of government documents and other contextual materials. Includes reporting and writing about police news, state and local government, the criminal justice system, science, business, and sports.

Prerequisite(s): COM 102.

COM 211 Copy Editing 3 Credits

Teaches all phases of copy editing for news and public relations: marking of copy, online editing, fact checking, building and shaping news and feature stories, applying mechanical style, building an ear for graceful English, and safeguarding against legal and ethical problems. Provides comprehensive review of grammar, spelling and punctuation, along with intensive practice in writing headlines and captions and editing wire copy.

Prerequisite(s): COM 102.

COM 212 Publication Design 3 Credits

Explains theories, principles, and techniques of print media layout and design. Provides an understanding of the use of type and art as design elements in various publication formats, such as newspapers, newsletters, advertisements and brochures. Directs students to apply these concepts to the creation of published materials using Adobe Creative Suite.

COM 215 Computer Assisted Reporting 3 Credits

Develops advanced reporting techniques for researching and writing in-depth news stories and investigative articles. Uses state-of-the-art computer-assisted reporting methods including finding and mining data bases on the Internet, creating spreadsheets to analyze data, and employing data base manager software to sort and summarize information in government documents and other specialized resources. Focuses on conceptualizing of story ideas, planning major projects, gathering information by means of data bases, participant-observation, interviews, and analysis of public documents. Emphasizes organizing large quantities of material and presenting it in a meaningful context, including with information graphics.

Prerequisite(s): COM 102 or permission of instructor.

COM 233 Writing for Broadcast 3 Credits

Introduces diverse and highly structured writing styles and formats used in writing for broadcast. With focus on effective and creative writing using broadcast style, students will be exposed to the fundamentals of writing dramatic and non-dramatic material for radio and television including station IDs and liners, public service announcements and commercials, news and public affairs programs, and short dramatic and documentary scripts. Through lectures, case discussions, in-class assignments, and critiques, emphasis will be on the practical application of basic rules and conventions common to broadcast writing from copy preparation to on-air delivery.

COM 240 Public Relations 3 Credits

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

COM 253 Organizational Communication 3 Credits

Focuses on the ongoing communication processes in organizations. This course examines how and why organizations develop policies and procedures that both encourage and yet constrain creativity and autonomy in employees. It also introduces various management skills to balance the dynamic in organizations. Finally, the course introduces students to various communication technologies that enable communication processes in organizations. Students will also have opportunities to participate in creating organizational dynamics through role-playing exercises, case studies, and other kinds of experiential learning.

COM 261 Multimedia Prod I-Inter Design 3 Credits

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

COM 301 Communication Law 3 Credits

Critically examines the legal limits and privileges affecting freedom of expression, especially in publishing, advertising, film, telecasting, and cyberspace. Places particular emphasis on the historical and philosophical foundations of the freedoms and limitations of communication in the United States.

COM 302 Communication Ethics 3 Credits

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

COM 316 Feature Writing 3 Credits

Focuses on problems and requirements of newspaper, magazine, public relations, and free-lance nonfiction writing. Students write features designed for acceptance in print, broadcast and digital media and learn marketing techniques.

Prerequisite(s): COM 102 or COM 107, English writing concentration, or permission of instructor.

COM 341 Publicity Methods 3 Credits

Applies communication theory to writing and editorial processes and production techniques to create public relations materials; includes press releases, industrial publications, social media, trade publications, brochures, newsletters, stockholder reports, and multimedia platforms.

Prerequisite(s): COM 107, COM 240, or permission of instructor.

COM 347 Sports Media Relations 3 Credits

Critically examines the symbiotic relationship between the mass media and professional sports franchises and major college athletic programs. This course deals with the workings and processes behind executing the proper techniques of sports information and media relations, as well as an analysis of the culture of sports in modern society. Students will develop a practical focus on sports information and promotion, including the role of the sports information director and events promoter, with emphasis on advanced concepts of public relations, publicity and marketing.

Prerequisite(s): COM 240 or permission of instructor.

COM 360 Adv Publicatn Design & Present 3 Credits

Builds on elementary knowledge of graphic design to teach the principles of advanced layout, and computer graphics. Introduces students to industry standard drawing software and builds on their knowledge of layout software gained in the prerequisite course. Provides an understanding of the use of logos, infographics and magazine layout, and of the theoretical bases of color for print production.

Prerequisite(s): COM 212.

COM 393 International Communication 3 Credits

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is crosslisted as GLS 393. Students may not get credit for both COM 393 and GLS 393.

COM 400 Senior Seminar Communication 3 Credits

Provides students with the opportunity to explore critical issues in communication and journalism in a dynamic and engaging context. Students conceptualize problems, develop hypotheses, review literature, design appropriate techniques of inquiry, conduct their research, and present their findings orally to the seminar and in writing to the instructor. Senior journalism and communication majors only.

COM 440 Cases & Campaigns in PR 3 Credits

Critically analyzes public relations case problems in industry, labor, education, government, social welfare, and trade associations. Emphasizes problem solving through the use of communication theories, public relations techniques, creative thinking, and the development of professional goals and standards. Employs realistic simulation exercises and actual case studies to develop and critique students' ability to demonstrate this knowledge in professional situations.

Prerequisite(s): COM 341 or permission of instructor.

MKT 200 Marketing Principles 3 Credits

This course examines market characteristics, consumer buying habits and motives, and functions of marketing within the framework of the strategic marketing planning process. Concepts and current practices in product development, pricing, promotion, distribution, and international marketing are studied.

Public Relations Certificate Program

The Public Relations Certificate is designed for students who have or are pursuing a baccalaureate degree and wish to specialize in the area of public relations. The 24-credit program includes courses in writing for the media, publication design, speech communication, as well as other areas of public relations. Upon completion of the program, students with a baccalaureate degree receive an official Public Relations Certificate.

Required Courses

COM 104	Speech Communication	3
or COM 290	Professional/Strategic Speech	
COM 107	Persuasive Writing for Media	3
COM 212	Publication Design	3
COM 240	Public Relations	3
COM 316	Feature Writing	3
COM 341	Publicity Methods	3

COM 440	Cases & Campaigns in PR	3
Select one of the following:		3
COM 131	Fundamentals of Video Production	
COM 253	Organizational Communication	
COM 280	Issues in Event Planning	
COM 347	Sports Media Relations	
COM 360	Adv Publicatn Design & Present	
Total Credits		24

A grade of "C+" or better in each course is required for the certificate. A minimum of six of the required courses must be taken at Rider.

Admission Requirements

Minimum admissions requirements for the public relations certificate are:

- a baccalaureate degree or be a candidate for a baccalaureate degree (usually at Rider);
- junior standing or beyond (may take some courses before admission to the program);
- a 2.5 GPA in all undergraduate work or evidence of acceptable public relations experience.

This program is available only to students enrolled in CCS.

Program Completion and Certification

Students will receive their certificates after successfully completing the eight required courses. Students without a baccalaureate degree will receive their certificates after completing the eight required courses and the baccalaureate degree. The notation Public Relations Certificate will appear on the student's Rider transcript when the certificate is awarded. Students leaving CCS for any other Rider undergraduate program before earning the certificate will not be eligible for the certificate.

Core Requirements

The College of Continuing Studies core requirements consist of two major areas: Basic Core (p. 554) and the Areas of Knowledge (p. 554). CCS students pursuing the Bachelor of Science in Business Administration should refer to the College of Business Administration's core requirements (p. 70).

The Basic Core

CMP 120	Expository Writing	3
CMP 125	Research Writing	3
COM 104	Speech Communication	3
Quantitative Skills Requirement ¹		3
Information Technology Requirement ²		3
Total Credits		15

¹ The quantitative skills requirement can be met by successfully completing one course in college-level mathematics or statistics. For students who don't transfer such a course to Rider, popular offerings include MTH 102 Finite Mathematics, MSD 104 Intro to Quantitative Methods, MSD 105 Quantitative Methods for Business, MSD 200 Statistical Methods I, MSD 201 Statistical Methods II, POL 230 Methods of Political Analysis, PSY 105 Introduction to Research in Psychology, PSY 201 Statistics and Research Design, and others.

² Students who possess sufficient computer experience can gain credit for CIS 185 Information Systems Essentials through assessment (http://www.rider.edu/sites/default/files/docs/Credit_for_CIS_185.pdf).

The Areas of Knowledge

The areas of knowledge provide exposure to four broad areas of knowledge, and students select two or three courses from each of the four areas. At least two disciplines must be represented in each area. No more than three courses from any one discipline may be used to meet the areas of knowledge requirement. Students are urged to consult with their advisors before selecting courses for the areas of knowledge to ensure that courses chosen meet the requirements.

Historical Perspective	9

Natural World	6-8
See Natural World course requirements (p. 557)	
Total Credits	33-35

Artistic and Intellectual Perspective

This area recognizes that intellectual creativity is an ability that is unique to humans. People, alone, have produced works of art and developed systematic bodies of thought. Thus, to understand people is to know them in this special role.

Areas of Knowledge: Artistic and Intellectual Perspective		9

Historical Perspective

To comprehend the contemporary world, one must appreciate that it is the result of historical evolution and that this process of change continues today. Our society should not be understood as rigid or absolute but as part of a historical continuum.

Policies

Changing to Degree Candidacy (Matriculation) (p. 557)

Audit and Alumni Audit (p. 557)
 Credit by Nontraditional Means (p. 557)
 Old Credits Policy (p. 558)
 Independent Research and Study (p. 558)

Changing to Degree Candidacy (Matriculation)

Non-matriculated students interested in degree candidacy should consult an academic advisor in CCS before applying for admission to a degree program. An applicant for matriculation must have at least a 2.0 average at Rider and meet the admissions requirements as described for degree candidates. (Specific majors may require a higher grade point average.)

When students qualify for matriculation, they will receive credit - toward their degrees for all applicable courses previously completed satisfactorily. Students are bound by the degree requirements and transfer credit policy in effect at the time of matriculation.

Students who have earned more than 21 credits at Rider as non-degree candidates may be asked to explain their educational goals and, if appropriate, to matriculate.

Audit and Alumni Audit

Students who want to attend classes without taking examinations or receiving grades may audit courses when class space allows. Transcripts will record an audit with the notation of "X".

The extent to which an auditor may take part in a course's activities is determined by the student and the instructor. In addition to the audit fee, students auditing a course carrying separate fees must pay all such required fees.

Students who want to enroll as auditors should apply and register in the CCS office during the scheduled evenings of the first week of class. Students who register on an audit basis may not change from audit to credit during a semester. However, a student who has audited a course may take that same course for credit in a later semester at full tuition. Students originally registered for credit may change to audit status during the first two weeks of the fall or spring semesters.

Changing from credit to audit during special sessions will be permitted within time limits proportional to the time limits of a regular semester.

Rider alumni who want to audit courses should contact CCS at 609-896-5033 or ccs@rider.edu.

Credit by Nontraditional Means

Credit earned for college-level knowledge obtained through means other than traditional classroom work at an accredited college may be considered for transfer. Students should consult with a CCS advisor to discuss the transferability of nontraditional credit.

Nontraditional transfer credits include:

- College Level Examination Program (CLEP) credits;
- Advanced Placement credits;
- Formal military credits which meet Rider standards and procedures;
- DANTES Subject Standardized Test that meets credit recommendations established by the American Council on Education;
- Validation or assessment of specific courses approved by a Rider faculty member;

- Prior learning assessment (PLA) based on demonstrated learning acquired through life and work experience approved by Rider faculty.

Old Credits Policy

The academic record of a student returning to Rider after an absence of 10 years or more will be re-evaluated to determine the applicability of old courses to present requirements. Grades earned in courses taken 10 years or more before returning will not be counted in the student's present grade point average. Old courses that are judged applicable to current degree programs will be used to meet degree requirements.

Independent Research and Study

Independent Research and Study are designed for CCS students who wish to conduct projects on either a business or liberal arts topic outside the traditional curriculum, such as interdisciplinary projects, extension of previous work, and topics not covered in regular course offerings. To be eligible for an Independent Research and Study, a student must be a junior or a senior in good academic standing. Students should consult with a CCS advisor for approval. Refer to Independent Research and Study in business or Independent Research and Study in liberal arts.

Core Curriculum

General Skills Requirements

The University community believes that essential to the college experience is the development of skills in critical thinking, communication, and computation. These skills are developed throughout students' academic programs to provide links among academic disciplines and to support students' intellectual progress and academic and career success. Principles of critical thinking are embedded in Rider University courses across the disciplines and are supported by curriculum development workshops for faculty. Core curriculum requirements are stated below.

All students entering the University as freshmen as of September 1, 1996, and thereafter, are required to fulfill the general skills requirements of the core by completing the following:

Reading

Those students scoring 470 or lower on the reading comprehension portion of the SAT are required to successfully complete CRC 100 College Reading in the first semester of their Freshman year.

Writing

CMP 115 Intro to Expository Writing¹; CMP 120 Expository Writing (or BHP 100P: Honors Seminar: Great Ideas I) and CMP 125 Research Writing (or CMP 203 Literature and Composition or BHP 150 Honors Seminar: Great Ideas II): 6–9 credits²

Computation

As required by student's college: 3–6 credits²

¹ CMP 115 Intro to Expository Writing will be waived for students who attain a score of 530 or above on the writing section of the SAT or a specified qualifying score on the English Department Placement Test.

² Preparatory courses (bearing supplemental education units rather than graduation credits) may be required in reading and computation, as determined by placement testing. Supplemental education units count toward a student's academic load and corresponding tuition charges, but do not affect the student's grade point average or credits toward graduation.

Honors Programs

- Baccalaureate Honors Program (p. 558)
- Business Honors Program (p. 559)
- Westminster Choir College Honors Program (p. 559)
- Fine Arts Honors Program (p. 559)

Baccalaureate Honors Program

The Baccalaureate Honors Program (BHP) is the University-wide honors program designed to enrich the educational opportunities available to Rider students of proven intellectual ability who choose to become Baccalaureate Scholars. Interdisciplinary in orientation, the program enables the Baccalaureate Scholars to explore diverse forms of thought, expression, and institutions past and present—an exploration that will enable them to meet future challenges with confidence. Through a series of team-taught seminars and other honors courses, co-curricular experiences, personal contact with faculty, and completion of a senior honors capstone project, the scholars extend their ability to think critically about the great themes of their human heritage.

Students are invited to join the Baccalaureate Honors Program as entering freshmen and may apply as currently enrolled or as transfer freshmen or sophomores. In general, students in the top 10 percent of each College's entering class are invited. Students currently enrolled at Rider must have at least a 3.3 GPA at the time of application to the program.

Other qualified students with a 3.3 grade point average, including juniors and seniors, may enroll in particular honors seminar courses with the approval of the director.

Most BHP courses replace core or other academic requirements. In addition, Honors sections of single-discipline courses designated in the course roster assist in fulfilling BHP requirements.

In order to graduate with Baccalaureate Honors, the student must complete seven honors seminars and a senior baccalaureate honors capstone or a departmental honors capstone with a GPA of 3.3 or higher.

Honors seminars are designated on student transcripts, whether or not the student completes the BHP. Successful completion of the BHP is noted on the transcript and the commencement program.

For more information, please navigate to www.rider.edu/bhp (<http://www.rider.edu/BHP>).

Note: Students in CBA Honors can also complete BHP if they wish. They do not have to decide until after completing BHP 100 and BHP 150. They may count any 2 CBA Honors courses toward the BHP certificate, and their CBA senior thesis can be shaped to count for BHP as well.

Business Honors Program

The Business Honors Program is designed exclusively for business majors enrolled in the College of Business Administration. Entering students are automatically considered for the program based on their academic record. Continuing students are invited to join by the director of the program.

Rider's Business Honors Program features cohort learning, which teaches the framework of successful business environments by encouraging teamwork and critical thinking. Students participate in classes with the same group of students for all four years. The cohort creates a powerful learning environment where students gain crucial business skills: the ability to communicate and collaborate, problem-solve, analyze various perspectives, initiate discussions, network and delegate.

Business honors student receive special advising, the opportunity to live in a residential learning community in your freshman year, priority in course registration, and invitations to attend co-curricular events (e.g., art exhibits, film screenings, poetry slams, theater previews) which are planned by the faculty team.

To complete the Business Honors Programs, students must complete the required number of honors business core classes, complete a capstone course in the senior year, maintain a minimum overall GPA of 3.4, complete one non-core business honors class and complete a thesis.

Graduation as a Business Honors Scholar requires a minimum overall GPA of 3.4 and a minimum GPA of 3.4 in all business honors courses.

For more information, see the Business Honors section (p. 72) of the catalog under the College of Business Administration.

Westminster Choir College Honors Program

General Remarks

The Baccalaureate Honors Program (BHP) is a University-wide honors program designed to enrich the educational opportunities available to Rider students of proven intellectual capability who are invited to become Baccalaureate Scholars. Interdisciplinary in orientation, the Westminster Choir College program enables Baccalaureate Scholars at Westminster to expand their knowledge and interest in the liberal arts during their music study. Through a series of team-taught seminars, single discipline honors courses and other options for music honors study, as well as an honors thesis, scholars extend their ability to think critically, coherently, and systematically about the great themes, ideals and movements of their human heritage.

Students are invited to join the Westminster Baccalaureate Honors Program as entering freshmen and may apply as currently enrolled freshmen or sophomores. Generally, students with SAT and high school GPA scores in the top 20% of the entering Westminster freshmen class are considered for invitation into the WCC BHP program. Students currently enrolled at Rider University must have at least a 3.3 GPA at the time of application to the program. In order to remain in the Baccalaureate Honors Program, the student must maintain a minimum cumulative GPA of 3.3.

Non-honors students, including juniors and seniors, who have earned a minimum cumulative GPA of 3.5, including juniors and seniors, may enroll in a particular honors seminar course with approval of the Westminster Choir College Honors Program Director. Permission will be given on

a space-available basis, with priority given to students in the Honors Program.

In order to graduate with Baccalaureate Honors, Westminster students must complete eight honors courses: at least 4 interdisciplinary (team-taught) honors seminars, a capstone (thesis) project, and 3 other honors courses, seminars, or contracts. The Program is supplemented by other honors opportunities at the college and department level, and some graduate courses in music may be allowed as honors courses. All freshman honors students take BHP 150 Honors Seminar: Great Ideas II, which substitutes for English Composition. Most honors courses fulfill core degree requirements. Students may enroll in honors courses on either campus of Rider University. Individual course descriptions are found in the Rider University catalog. Students should see the Westminster Choir College Honors Program Director regarding guidelines and options for completing honors studies.

Students enrolled at Rider University in the Honors Program may register for graduate courses on the Princeton campus according to the following policies.

Students who have earned at least 60 credits and hold a minimum cumulative GPA of 3.0 may register for 600-level graduate courses upon permission of the instructor, the Honors Program Director, and the Associate Dean.

Students who have earned at least 90 credits and hold a minimum cumulative GPA of 3.80 may register for 700-level graduate courses upon permission of the instructor, the Honors Program Director, the Chair of the department offering the course, and the Associate Dean.

Approval is based upon criteria such as cumulative grade point average, courses taken, and preparation for the particular course requested.

Undergraduate students permitted to enroll in 600- or 700-level graduate courses must complete the same syllabus and requirements that pertain to the graduate students in the course. The grade for the course will be recorded on a graduate transcript.

If a grade of "B-" or higher is earned, the course will be permitted to substitute for an undergraduate honors course. For any course used to meet undergraduate requirements, should the student later decide to enroll in a graduate program of the Westminster College of the Arts, the course cannot be used to meet graduate program requirements. In the event the course is required in the graduate program, the department sponsoring the program will identify a suitable substitution.

Honors seminars are designated on student transcripts, whether or not the student completes the Baccalaureate Honors Program. Upon successful completion of the program, an honors student receives an appropriate certificate. Successful completion also is recorded on the transcript and listed in the commencement program.

Honor Program in Fine Arts

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a cumulative average of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Additional Learning Opportunities

Study Abroad

Rider University offers a variety of study abroad opportunities through the Center for International Education. For more information, see Rider's website. (<http://www.rider.edu/studyabroad>)

Leadership Development Program

A program of Rider's Center for the Development of Leadership Skills (CDLS), the Leadership Development Program (LDP) is a university-wide program that is open to all majors. The guiding assumption underlying this program is that every one of us has opportunities to be a leader and a role model for someone. A person does not have to be a CEO, elected official, or designated leader to make a difference.

Leadership at Rider is defined as a process in which one individual influences others to attain goals for the common good. To lead effectively requires skill in communicating, influencing, and teamwork. These are interpersonal skills that can be learned. They have been identified by Rider University, The Wall Street Journal, and the Center for Creative Leadership as the keys to career and life success.

The Leadership Development Program also emphasizes career development. Helping our students achieve career maturity will allow them to develop satisfying and meaningful occupations through which to express their leadership aspirations.

Leadership training at Rider combines traditional classroom learning with intensive skill training and supervised leadership experience through co-curricular activities, experiential learning, fieldwork, and community service. Developmental experiences are provided throughout a student's academic career.

Rider undergraduates of all majors who are interested in advancing their leadership development are invited and encouraged to apply. While first and second year students have the greatest opportunity to complete the program requirements prior to graduation from the university, students in their third year may apply, but are encouraged to speak with the Director of the LDP to assess the likelihood of successful completion. Only applicants with a 2.5 GPA or higher will be considered (first semester Freshmen are exempt from this, as they do not yet have a GPA at Rider).

Upon successful completion of the requirements listed below, students will obtain a Leadership Certificate upon graduation from Rider:

- Foundations of Leadership course (3 credit course – must earn a B or better)
- Leadership Skills Classes (3 skill-building seminars - composed of 9 total classes)
- Ethics or Multicultural Studies elective (3 credit course – must earn a B or better)
- Career Development Workshops
- Community Service Projects
- LDP Program/Workshop Attendance
- Leadership Practicum (200 supervised units of actual leadership experience in clubs, organizations, internships, fieldwork, community service, etc.)

- The maintenance of at least a 2.5 cumulative grade point average (*Applicants with a cumulative GPA of 2.5 or less will not be considered for membership into the LDP)

At graduation, students who have successfully completed the requirements listed above will receive a Certificate in Leadership. Their completion of the Leadership Development Program will also be noted on their transcripts and in the commencement program.

For more information, see Rider's website (<http://www.rider.edu/ldp>). See also Leadership Development Program courses in the Academic Catalog.

BA, BS/MBA Program

The integrated BA, BS/MBA program is designed for students who wish to combine undergraduate study in liberal arts and sciences leading to a Bachelor of Arts or Bachelor of Science degree with graduate study leading to the degree of Master of Business Administration. This intensive program enables highly motivated students to engage in a broadly based education for a career in business or not-for-profit organizations.

The admission process for this program carefully tracks students through the course requirements and ensures that only capable students are enrolled. Freshman students are strongly encouraged, when they start classes, to seek advice about the program from the deans' offices in business administration and liberal arts and sciences. Certain courses must be completed in the freshman and sophomore years if the student intends to complete the program within 11-12 semesters. The actual timing of completing the two degrees will be based on courses that may have been taken in summer sessions and the individual student's internships.

The admission process starts prior to the beginning of the student's junior year (defined as 54 earned credit hours) and assumes completion of the first seven required business courses. At that point, the CBA's Assistant Dean for Graduate Programs meets with the student and reviews his/her progress in completing the business core. Step two of the admission process occurs in the first semester of the senior year when the student will formally apply to the MBA Program through the Graduate Admissions Office. The process involves the following:

- A completed application for admission to the MBA program, accompanied by a \$50 nonrefundable application fee;
- Receipt of official transcripts from every college or university attended (including Rider University);
- A score on the Graduate Management Admissions Test (GMAT) or the Graduate Record Exam (GRE) that, combined with the student's GPA, work experience and co-curricular activities, shows evidence to the Graduate Admissions Committee of ability to do graduate work at the high level established for the MBA Program. Students are advised to take the GMAT or GRE exams in the summer between the junior and senior years;
- A statement of objectives prepared by the student that presents the student's reasons for wanting to enter the MBA program;
- An interview with the director of the MBA program; and,
- Completion of the required freshman and sophomore classes.

Students completing the BA, BS/MBA program must take at least 90 credits in liberal arts and sciences courses at the undergraduate level.

Students will be awarded the BS or BA degree when they complete the requirements for that degree in liberal arts and sciences. The MBA will be awarded upon completion of the MBA requirements.

Students in the program will complete all the courses required in the liberal arts core as well as those courses necessary to satisfy the requirements for a major in liberal arts and sciences. These courses will be completed in the first eight semesters along with the following courses offered by business administration comprising the undergraduate business core:

ACC 210	Introduction to Accounting	3
ACC 220	Managerial Uses of Accounting	3
ECO 200	Principles of Macroeconomics ¹	3
ECO 201	Principles of Microeconomics	3
FIN 220	Introduction to Finance	3
MGT 201	Fund Management & Org Behavior ¹	3
MKT 200	Marketing Principles	3
MSD 105	Quantitative Methods for Business	3
MSD 200 & MSD 201	Statistical Methods I and Statistical Methods II ¹	6
CIS 185	Information Systems Essentials	3
CIS 385	Management Information Systems	3
Total Credits		36

¹ May be considered either business or liberal arts course.

In the last semester of the senior year, students will take the following course if they have all of the prerequisites met:

MSD 340	Production and Operations	3
---------	---------------------------	---

In all of the above courses, students must achieve a "B" in order for them to waive the equivalent "pre-program requirements" for their MBA Degree. If they do not, the student will be required to take the corresponding course at the graduate level.

In the three (3) or four (4) graduate semesters, the following graduate courses must be completed:

PMBA 8000	Executive Communications	1.5
PMBA 8200	Managerial Decision Making	3
PMBA 8210	Information Technology Management	3
PMBA 8220	Strategic Accounting for Manager	3
PMBA 8230	Managerial Economics ¹	3
PMBA 8240	Applied Corporate Finance	3
PMBA 8250	Operations & Supply Chain Management	3
PMBA 8260	Mkt Analysis & Decision Making	3
PMBA 8270	Adv. Organizational Behavior	3
PMBA 8290	Legal and Ethical Aspects of Managemen	3
PMBA 8880 & 8880L	Strategic Planning and Strategic Management Simulatn (must be taken simultaneously)	4.5
Electives (One elective must be an international course.)		9
Total Credits		42

¹ PMBA 8050 Introduction to Calculus or an equivalent calculus course must be completed before the student may take PMBA 8230.

Note: There is not a specific combination BS, BA/MBA program for business majors. All business majors may apply directly to the MBA program. If accepted, the student may be able to complete the MBA within a year and one half of undergraduate graduation.

Further information concerning the MBA program, including course sequence forms, is available from the business administration or liberal arts and sciences deans' offices.

Academic Support Services

Rider University offers a wide array of academic support services. Additional information regarding each of these can be found on Rider's Web site (<http://www.rider.edu/academics/academic-support-services>). (<http://www.rider.edu/academics/academic-support-services>)

Registrar (<http://www.rider.edu/academics/academic-support-resources/registrar>)

Responsible for academic records, registration processing, degree and attendance verification, transcripts, grade reporting, veterans services, and maintenance of the student and course information system.

Career Services (<http://www.rider.edu/careerservices>)

Provides resume assistance, interview preparation, job search/postings, networking, career fairs, graduate school preparation, alumni services, employer partnerships and more.

Student Support Services (<http://www.rider.edu/academics/academic-support-resources/student-support-services>)

A comprehensive academic support program designed to increase performance, retention and graduation rates, primarily of first-generation college students.

Student Success Center (<http://www.rider.edu/academics/academic-support-resources/student-success-center>)

Offers free tutoring and other programs to enhance learning and development.

Services for Students with Disabilities (<http://www.rider.edu/academics/academic-support-resources/services-students-disabilities>)

Ensures equal access by providing services for all students with qualifying documented disabilities.

Math Skills lab (<http://www.rider.edu/academics/academic-support-resources/math-skills-lab>)

Offers peer tutoring in individual or group settings to help students develop stronger math concepts and strategies.

Reading Courses (<http://www.rider.edu/academics/academic-support-resources/reading-courses>)

Rider University offers two levels of reading courses: Introduction to Academic Reading and College Reading.

Academic Calendar

Fall Semester 2015

September

6 Sunday	Residences open for new students
6-8 Sunday-Tuesday	Final new student testing and scheduling
	New student orientation
7 Monday	Residences open for continuing students
9 Wednesday	Day, evening, and online classes begin
9 Wednesday	Alumni audit registration 5:00 pm-7:00 pm
9-17 Wednesday-Tuesday	Schedule changes (Add period extended to Sept. 17)
16-24 Wednesday-Tuesday	Courses may be dropped (Drop extended to Sept. 24)

October

1 Thursday	December 2015 degree applications due
19 Monday	Course request period for spring semester begins

November

25-29 Wednesday-Sunday	Thanksgiving recess
30 Monday	Classes resume

December

11 Friday	Day classes end
12-13 Saturday-Sunday	Reading days
14-15 Monday-Tuesday	Final exams
16 Wednesday	Reading day
14-17 Monday-Thursday	Evening final exams
17-18 Thursday-Friday	Final exams
19-20 Saturday-Sunday	Reading days
21-22 Monday-Tuesday	Final exams

Fall 2015 Withdrawal Dates¹

Sept. 25-Oct. 27	Withdrawal, student discretion
Oct. 28-Nov. 24	Withdrawal, consent of instructor
Nov. 25-Dec. 11	Withdrawal, psychological or physiological incapacity

Spring Semester 2016

January

2 Saturday	Balance of spring charges due
21-22 Thursday-Friday	New student orientation
22 Friday	New student testing and scheduling
23 Saturday	Residences open
24 Sunday	Enrollment clearance
25 Monday	Day, evening, and online classes begin

25-29 Monday-Friday	Schedule changes
29 Friday	Deadline for makeup of fall semester incomplete grades

February

1-5 Monday-Friday	Classes may be dropped
15 Monday	Spring 2016 degree applications due

March

1 Tuesday	Incoming freshman, transfer and continuing undergraduate students priority deadline for filing federal financial aid forms
7 Monday	Course request period for fall semester begins
12 Saturday	Last day of classes before spring recess
13-20 Sunday-Sunday	Spring recess
21 Monday	Classes resume

April

28 Thursday	Evening classes end
29 Friday	Day classes end
30 Saturday	Saturday classes end
30-May 1 Saturday-Sunday	Reading Days

May

2-3 Monday-Tuesday	Final exams
2-5 Monday-Thursday	Evening final exams
4 Wednesday	Reading day
5-6 Thursday-Friday	Final exams
7-8 Saturday-Sunday	Reading days
9-10 Monday-Tuesday	Final exams
12 Thursday	Graduate and Continuing Studies Commencement
13 Friday	Undergraduate Commencement

June

1 Wednesday	Summer 2016 degree applications due
10 Friday	Deadline for makeup of spring semester incomplete grades

Spring 2016 Withdrawal Dates¹

Feb. 8-March 11	Withdrawal, student discretion
March 14-April 15	Withdrawal, consent of instructor
April 18-29	Withdrawal, psychological or physiological incapacity

¹ Please refer to www.rider.edu/offices-services/finaid/payments-billing-deposits/refunds (<http://www.rider.edu/offices-services/finaid/payments-billing-deposits/refunds>) for information regarding course withdrawals and refunds.

For additional information and updates, go to www.rider.edu (<http://www.rider.edu>)

Summer Session 2016

Students interested in calendar and course offerings for the summer sessions should consult the summer session catalog, available from the College of Continuing Studies at 609-896-5033 or go to www.rider.edu/summer (<http://www.rider.edu/summer>).

Commencement Information

For Commencement ceremonies information, go to www.rider.edu/commencement (<http://www.rider.edu/commencement>)

Cancellation of Classes

In most cases, Rider will remain open and fully operational during snowstorms and other emergency situations. Under extreme circumstances, however, it may become necessary to cancel classes and other functions, and close certain buildings or take emergency actions.

If such circumstances should arise, a notice will be sent via the Rider Alert System.

Students may sign up for Rider Alert on Rider's homepage, www.rider.edu (<http://www.rider.edu>)

Cancellations will also be announced online at www.rider.edu (<http://www.rider.edu>) and on the Rider University information hotline at 609-219-2000, option 1.

Courses and Descriptions

Accounting (ACC)

ACC 210 Introduction to Accounting 3 Credits

This course provides an introduction to basic principles and methods of accounting essential to preparation, understanding and interpretation of financial statements. Topics include accounting for merchandising concerns, current assets, long-term assets, liabilities and equity accounts. A brief overview of internal control is also covered.

ACC 220 Managerial Uses of Accounting 3 Credits

This course provides an introduction to the use of accounting information in managerial decision-making. Topics include cost behavior, cost classifications, and problem-solving functions of accounting as they pertain to planning, control, evaluation of performance, special decisions, and budgeting. The interpretation of published financial statements and the statement of cash flow are also covered.

Prerequisite(s): ACC 210.

ACC 302 Cost Management 3 Credits

This course focuses on firm strategy and the role managerial accounting information plays in the decision making process. Topics include the balanced scorecard, the value chain, product life cycles, target costing, theory of constraints, strategic pricing, management and control of quality cost systems, traditional and activity-based costing, cost control, standard costs and variances, and capital budgeting.

Prerequisite(s): ACC 220 and CIS 185.

ACC 310 Acct Theory & Concepts I 3 Credits

This is the first upper-level course in a sequence in financial accounting courses. Topics include the conceptual framework, and standard setting process followed by application and evaluation of generally accepted accounting principles including content, and structure of financial statements, present value concepts, current assets, current liabilities, property, plant, and equipment, intangible assets and non-current liabilities are studied. An overview of comparable international financial reporting standards (IFRS) is also included.

Prerequisite(s): ACC 210 and ACC 220.

ACC 311 Acct Theory & Concepts II 3 Credits

This course is a continuation of ACC 310. Topics include long-term investments, stockholders' equity, earnings per share, interperiod income tax allocation, accounting changes, revenue recognition, pensions, leases and cash flow analysis. An overview of comparable international financial reporting standards (IFRS) is also included.

Prerequisite(s): ACC 310.

ACC 320 Accounting Info Systems 3 Credits

This course provides an introduction to accounting information systems and enterprise-wide, process-focused information systems. Topics include quality of data for decision usefulness, internal control concepts and documentation tools, and database theory and applications.

Prerequisite(s): ACC 310.

ACC 321 Internal Auditing 3 Credits

This course provides an introduction to the internal audit profession, including understanding the nature and activities associated with the internal audit process. Topics include: international auditing standards, risk assessment including internal control system evaluation, business processes, and the relationship of management and employee fraud to the internal audit process.

Prerequisite(s): ACC 220.

ACC 325 Fraud Examination and Business Forensics 3 Credits

This course is designed to introduce students to the prevalence of fraud and fraudulent financial reporting in all forms of business, including the many methods used by employees and managers to perpetrate fraud. Topics will include: the motivation of individuals to commit fraud, various types of fraud schemes perpetrated in the workplace, as well as the various tools and techniques that are used to investigate, detect and prevent fraud.

Prerequisite(s): ACC 210.

ACC 335 Small Business Taxation 3 Credits

This course provides an understanding of the key tax issues faced by small businesses and their business implications. It also familiarizes prospective business owners with various tax filing requirements so that they can use the expertise of tax professionals more effectively.

Prerequisite(s): ACC 210.

ACC 399 The Co-Operative Experience 6 Credits

This course provides the student with a semester long supervised employment with participating companies. Students are evaluated periodically by senior staff members of the participating firms and required to complete a work journal, self-assessment and reflection paper. Eligible students include junior and senior accounting majors with a minimum GPA of 3.0 in accounting coursework. Co-op credits can be applied toward business or free elective requirements. Grading is on a pass/fail basis.

Prerequisite(s): ACC 210, ACC 220, and ACC 310 and permission of department chairperson.

ACC 400 Principles of Auditing 3 Credits

This course provides an introduction to financial statement audits performed by certified public accountants. Topics include corporate governance, the audit environment, professional standards, audit methodology, and audit report preparation. The course also provides an overview of other types of assurance and non-assurance services provided by CPA firms.

Prerequisite(s): ACC 302 and ACC 311.

ACC 405 Acct Problems & Practice 3 Credits

This course provides additional coverage of financial reporting issues and procedures. Topics include business combinations, consolidated financial statements, foreign currency translation, the effects of diversity across countries, disclosure and SEC reporting issues. Governmental and not-for-profit accounting standards are also covered.

Prerequisite(s): ACC 302 and ACC 311.

ACC 406 Integrative Professional Capstone 3 Credits

This course provides an integrative experience that applies financial statement and data analysis tools to a variety of accounting settings. Topics include issues of ethics and professionalism and linkages between accounting methods and company policy, equity valuation, bond ratings and other decision areas.

Prerequisite(s): ACC 405 or permission of department chairperson.

ACC 410 Fund of Federal Taxation 3 Credits

This course provides fundamental federal tax concepts applicable to individuals, partnerships, corporations, estates, and gifts. Topics are considered from a tax compliance and planning perspective. Preparation of individual and corporate tax returns is also included.

Prerequisite(s): ACC 311.

ACC 450 Business Forensic Application 3 Credits

This course is designed so that students to integrate various business disciplines to perform complex investigative cases and analyses, thus demonstrating mastery of the knowledge and skills required to be effective forensic professionals. The course covers how to manage and present digital and technical evidence gathered for forensic litigation cases, including the ability to be an expert witness in court.

Prerequisite(s): ACC 325 and ACC 321.

ACC 490 Independent Research and Study 3-4 Credits

Topic to be approved by professor and department chairperson. Available to juniors and seniors.

ACC 491 Accounting Internship 3 Credits

This honors course provides the student with approximately two months of supervised employment with participating companies. Students are evaluated periodically by senior staff members of the participating firms and are required to complete a term paper. Eligible students include junior and senior accounting majors with a minimum GPA of 3.0 in accounting coursework. Upon completion of course, a letter grade will be awarded.

Prerequisite(s): Permission of department chairperson.

Advertising (ADV)

ADV 200 Advertising Principles 3 Credits

Basic theory, functions, principles, and applications of advertising are the focus of this course. The relation of advertising to our economy, the advertising department and the ad agency, selection of media, advertising practices, and the use of research to improve advertising techniques are covered.

Prerequisite(s): MKT 200; Required for advertising majors.

ADV 311 Advertising Copy and Layout 3 Credits

This course focuses on the development and planning of creative and strategic advertisements for a variety of products. The course includes creating concepts for ads, designing ads, and writing copy for all media. The student will become familiar with the activities and responsibilities of copywriters and art directors. The relationship between creative advertising and other functions of advertising will be emphasized.

Prerequisite(s): ADV 200, COM 212. Required for advertising majors.

ADV 315 Media Planning and Strategy 3 Credits

This course focuses on the essential principles, measurements, procedures and problems encountered in determining appropriate media in which to place specific kinds of advertising messages designed to reach closely defined target audiences. The advantages and disadvantages of all media will be discussed from an advertising perspective. Specific audience and cost calculations and analyses will be used to develop comprehensive media plans.

Prerequisite(s): ADV 200. Required for advertising majors.

ADV 369 International Advertising 3 Credits

This course introduces students to the general landscape of international advertising with emphasis on understanding the opportunities and challenges entailed in international advertising management. The course will cover the subject from three aspects, including the international advertising environment, the international advertising industry, and international advertising strategies.

Prerequisite(s): ADV 200 or permission of instructor.

ADV 370 Interactive Advertising 3 Credits

This course surveys the various components and issues of interactive advertising. Students will study the creative tactics, media buying processes, strategic concepts, and research foundation that are essential in the development of integrated interactive marketing communications. Students who take this course cannot take MKT 370.

Prerequisite(s): ADV 200.

ADV 435 Advertising Campaigns 3 Credits

This capstone course for advertising majors provides an opportunity for students to plan comprehensive advertising campaigns. Coverage includes segmentation research, creative development of the campaign, media planning, and determining advertising effectiveness. Integration of advertising into the marketing program will be emphasized. Required for advertising majors.

Prerequisite(s): ADV 311, ADV 315; advertising major or minor, senior standing or permission of instructor.

ADV 490 Independent Research and Study 1-4 Credits

Topic to be approved by the professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation, which may be counted as a business or free elective.

ADV 491 Internship-Based Indep Study 3 Credits

Provides the student an opportunity to supplement and apply classroom work in supervised employment with participating marketing and advertising firms. Requirements include a journal with a log of daily activities, and a project or term paper presented to and evaluated by the internship sponsor. Evaluation will also include a report by the company on the intern's performance. Credits may be used to satisfy business or free elective requirements.

Prerequisite(s): Permission of instructor.

American Studies (AMS)

AMS 200 Introduction to American Studies 3 Credits

An introduction to various historical definitions of the American experience or national identity, to selected topics which have been used to explain that identity, and to methods of study in the field.

AMS 210 Growing Up American 3 Credits

Studies the maturation and socialization process in modern America through comparative analysis of autobiographical texts and students' personal experiences. Texts represent the experiences of young Americans of both sexes and of different class, racial, ethnic, religious, and regional backgrounds.

AMS 211 Sports in American Life 3 Credits

Literary, sociological, and psychological views of sports in 20th-century American life are examined, focusing on sports as a symbol and reflection of our ideals and tensions.

AMS 212 Multicultural America 3 Credits

Focusing primarily on the new century, this course explores the experiences of the remarkably diverse range of ethnic groups who have come to the U.S. in recent years, including Hispanics, Europeans, Asians and Africans. How these groups have impacted the communities where they have settled, how they have interacted with other ethnic groups, and how they have assimilated (or not) and prospered (or not) are among the issues examined and discussed.

AMS 213 American Myth in Literature, Landscape, and Music 3 Credits

A study of the New World and related myths from an interdisciplinary perspective. Students will read essays, fiction, and poetry by Poe, Melville, Emerson, Whitman, James, and others. Paintings and musical works embodying New World concepts will be examined in connection with the above authors.

AMS 214 Special Topics in American Studies 3 Credits

Studies in specialized areas of American culture, including travel courses to New Orleans and Spoleto USA. Topics change each semester and are listed in the course roster.

AMS 215 Alfred Hitchcock in America 3 Credits

Explores the influence of American culture on the films of Alfred Hitchcock following his immigration to the United States. Students will study one of the cinema's greatest auteurs through the lens of American culture and its impact on Hitchcock's European sensibility. Also explores the reverse dynamic: how Hitchcock transformed American cinema.

AMS 225 American Folklore 3 Credits

An introduction to folk language, custom, and material culture in the United States. Proverbs; myths, legends, and tales; superstitions; music; arts and crafts are treated from both aesthetic and social perspectives. Students will collect and examine folklore within their own cultural contexts.

AMS 226 The New South in Literature, Music and Film 3 Credits

An exploration of Southern culture since World War II and how it has influenced American society as a whole. In literature, music, and film, the Sun Belt has been a significant, innovative region. From the spread of New Orleans jazz through the plays of Tennessee Williams to the fiction of Flannery O'Connor, Southern art has helped shape the larger American culture; this course examines that influence from an interdisciplinary perspective.

AMS 227 Philosophy of Martin Luther King Jr. 3 Credits

A study of Martin Luther King, Jr.'s philosophical writings and his impact on civil speeches and sermons, and critical assessments of the significance of his thought.

AMS 228 Studies in American Jewish Culture 3 Credits

Focuses on important fiction, criticism, social/philosophical commentary, history, and films by 20th-century Jewish American intellectuals, including Michael Gold, Anzia Yezierska, Saul Bellow, Bernard Malamud, Philip Roth, Cynthia Ozick, Grace Paley, Rebecca Goldstein, Art Spiegelman, Arthur Hertzberg, Leslie Fiedler, Chaim Potok, Woody Allen, and David Mamet.

AMS 229 American Popular Culture 3 Credits

An exploration of American popular culture and its profound impact on both the United States and the rest of the world. Pop-culture theorists regard American culture as a dominant force; this course examines the development of this trend from historical, political, and artistic perspectives.

AMS 250 America and the Future 3 Credits

Examines the projections of the American future in terms of the past and present. Emphasizes American studies methodologies, drawing upon philosophical, literary, environmental, and other varieties of futuristic speculations.

AMS 304 Technology and Science in America 3 Credits

An overview of the development and impact of technology and science on American institutions. Topics include innovation, economic growth, science and its relation to technology, social theory, and the politics of science.

AMS 305 Religion in America 3 Credits

Introduces the changing patterns of American development from the sectarianism of colonial America to the pluralism and growing secularism of the 20th-century American religious scene.

AMS 306 Poetry and Poetics in American Culture 3 Credits

Examines American poetry and poetics in relation to American culture and history of the 18th through the 21st centuries. Students read poems and statements about poetry, view artworks, hear recordings, and examine hypertext versions of poems.

AMS 309 Hip Hop and American Culture 3 Credits

Examines and critiques hip hop as a part of American culture. Students will engage with scholarship from several fields in studying the social conditions that fostered the creation of hip hop music, and discuss how these conditions have and/or have not changed in America since the 1970s, when hip hop was born. Students will delve into such issues as how women relate to hip hop, hip hop poetics and rhyme structures, race relations in hip hop, censorship, and the ethics and legalities of digital sampling.

AMS 310 American Identity in the Arts 3 Credits

Studies the place of the arts and the position of the creative artist in contemporary American society, with particular emphasis on the problems of the artist's search for an American identity in the complex cultural milieu.

AMS 311 Radicalism in 20th-Century America 3 Credits

Discusses a number of radical intellectual, literary, and political movements, organizations, and parties from the points of view of their members and leaders, and their historical genesis and development within the context of 20th-century American political life.

AMS 312 American Photography 3 Credits

An intensive analysis of the documentary, aesthetic, and expressive significance of photography in American culture from 1850 to the present. Particular emphasis on the interrelationships between photography and developments in American history, painting, literature, and the social sciences. This course does not deal with the technical aspects of still photography.

AMS 338 Social Impact of Rock and Roll 3 Credits

Explores rock and roll music as a communication medium of American popular culture. The focus is on both how rock and roll music has influenced, and is influenced by, society. It addresses the origins, development and impact of rock music in relation to some of the critical cultural dynamics that provided not only its context, but also much of its content.

AMS 350 American Gothic 3 Credits

An introduction to American Gothic literature as a genre, including its historical development, governing conventions, politics, and aesthetics, as well as its emotional and cultural impact.

AMS 400 Seminar in American Studies I 3 Credits

A study of arts and letters in America from the Puritan period through the Civil War. Should be taken junior year if possible.

Prerequisite(s): AMS 200.

AMS 401 Seminar in American Studies II 3 Credits

A study of arts and letters in America from Reconstruction to the present. Should be taken junior year if possible.

Prerequisite(s): AMS 200.

AMS 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

AMS 491 Internship in American Studies 1-4 Credits

A supervised work experience in an approved organization to gain knowledge of various manifestations of American society in workplace settings. Placements can be made in business, government, and non-profit organizations and local grassroots movements that draw on the knowledge acquired in the American studies curriculum.

Arts Administration (AAD)

AAD 100 Arts Administration Lab 0 Credits

Arts Administration majors must meet the weekly attendance and participation requirements for Arts Administration Lab in the freshman fall and three other semesters. Grading is "P" (satisfactory) or "U" (unsatisfactory).

AAD 121 Intro to Arts Administration 3 Credits

A survey course that covers topics relevant to administering the arts, and includes reviewing state and federal legislation to non-profit organizations, non-profit agency structure, long range planning, board development, marketing, fundraising, public relations, advocacy, budget, human resources and ongoing compliance issues. Students will have opportunities to interact with professionals in the field and explore career options.

AAD 202 Commun/Marketing in Arts 3 Credits

Intended for arts or business majors interested in arts management, this course immerses students in the fundamentals of promoting the arts, from grassroots public relations to basic marketing concepts and applications. Students will have opportunities to interact with professionals in the field and explore career options.

Prerequisite(s): AAD 121 and LL 131, or permission of instructor.

AAD 203 Arts Fundraising 3 Credits

Provides students with an understanding of the ethics, strategies and practices of fundraising for non-profit arts agencies. Students gain an understanding of the role of the development office in a non-profit arts agency, prepare for careers in arts management by increasing the skills necessary to function, and learn to plan a multi-faceted fundraising campaign effectively.

Prerequisite(s): CMP 120 or LL 131.

AAD 204 Arts Outreach & Education 3 Credits

This course examines essential educational components of arts institutions, how they evolve and are produced, and will assess the importance of educational programming to arts organizations and the communities they serve.

Prerequisite(s): AAD 121.

AAD 205 Survey of Arts Institutions 2 Credits

A survey of arts institutions of varying size and scope, examined through case analysis to better understand institutional planning, structure and functioning in "real world" application. Offered every other year.

Prerequisite(s): AAD 121.

AAD 225 Arts Practicum I - Patron Service 2 Credits

Under supervision, students complete on-campus service projects, which will be reviewed by the supervisor and client. Assignments based upon the student's level of expertise. Six hours per week required.

Prerequisite(s): AAD 121.

AAD 305 The Business and Art of Music Publishing 3 Credits

Detailed overview of music publishing procedures, including acquisition, market development and administration of copyrighted musical compositions. Copyright registration/renewal, composer contracts, domestic and international licensing, and performance rights.

Prerequisite(s): AAD 121.

AAD 306 Business and Art of Recording 3 Credits

Survey of the recording industry. Responsibilities of the label and producer, copyrights, royalties, residuals, publishing, contracts and artist development, promotion, distribution, product management, domestic and international licensing, and related technology.

Prerequisite(s): AAD 121 and CBA 110 Introduction to Business.

AAD 307 Touring and Production Management 3 Credits

Organizing, marketing and managing tours. Responsibilities of the booking agent, tour manager, and performers. Case studies, relationships, contracts with venues, transportation companies, housing, and unions, budgeting, press kits, and insurance.

Prerequisite(s): AAD 121, CBA 110.

AAD 308 Legal Aspects of the Arts 3 Credits

A survey of legal issues in the arts and entertainment industries, examining the relationship between arts and the law – from cultural property rights to intellectual property, copyright and beyond.

Prerequisite(s): AAD 121.

AAD 309 Arts Events & Festivals Mgt 3 Credits

Students learn to develop, produce, and staff successful arts events while refining planning skills through practice with theoretical and real arts event venues and participating in the production and management of actual events.

Prerequisite(s): AAD 121.

AAD 325 Arts Practicum II - Service/Field 3 Credits

Under supervision, students complete projects for non-profit arts community, to be reviewed by the supervisor and client. Assignments based upon the student's level of expertise. Ten hours per week required.

Prerequisite(s): AAD 225, 2.5 minimum GPA, and junior standing.

AAD 350 Arts Venue and Patron Services Management 3 Credits

Integrating workplace with organizational mission: administration, staff, general public, artists. Internal control, artist/employee contracts, collective bargaining, health and safety issues, facilities operation, inventory, cultivation and maintenance of clientele and audience.

Prerequisite(s): AAD 121.

AAD 351 Crossing Cultural Borders 3 Credits

Course includes two weeks at an international arts organization, meeting and shadowing administrative staff, studying management styles, finance, and operational procedures, and attending all possible events during the visit. Travel fee required. May be repeated.

Prerequisite(s): Junior standing.

AAD 375 Special Topics: Arts Admin 3 Credits

Intensive study or activity in a specific area of Arts Administration. The content will vary with social/cultural events and/or interests and qualifications of the professor. May be repeated for credit. Fee may be required.

Prerequisite(s): AAD 121 or CBA 110 or permission of instructor.

AAD 400 Arts Politics & Policy 3 Credits

An exploration of arts and political policy, funding and advocacy in American through the lens of historical periods which shaped and were shaped by moments and movements in the arts.

Prerequisite(s): AAD 121, AAD 202 and AAD 203.

AAD 401 New York Arts Network 3 Credits

Students learn how arts institutions of varying scope, size and function and how administrators keep them running by spending focused, intensive time with them on their own turf.

Prerequisite(s): AAD 121, AAD 202 and AAD 203.

AAD 490 Independent Research and Study 1-4 Credits

This self-motivated, self-directed course culminates in a complete project. The student and the faculty advisor will mutually develop the scope of each project. It will be designed to demonstrate the student's entrepreneurial skills and provide an opportunity for practical application of the curriculum.

Prerequisite(s): AAD 202, AAD 203, and either AAD 121 or CBA 110.

AAD 491 Arts Management Internship 3-12 Credits

Arts Administration majors are required to spend 13 weeks of on-site participation in a broad range of daily operations at an internship site. In addition, there are group meetings with all students participating in internships and site-analysis assignments given under the direction of Arts and Sciences faculty. Students may enroll for a maximum of 6 credits of internships.

Prerequisite(s): Junior standing.

Baccalaureate Honors (BHP)

BHP 100 Honors Seminar: Great Ideas I 3 Credits

Traces the impact of great ideas on society, politics, economics, science, and the arts. This writing-intensive course substitutes for CMP 120 Expository Writing. Freshmen only.

BHP 150 Honors Seminar: Great Ideas II 3 Credits

A continuation of Great Ideas I, the introductory Freshman Baccalaureate Honors Seminar. Great ideas are studied in their cultural and historical contexts and from an interdisciplinary perspective. Students are guided in writing an effective research paper. This writing-intensive course substitutes for CMP 125 Research Writing. Freshmen only.

BHP 201 Honor Seminar: Age of Shakespeare - A Study in Cultural History 3 Credits

Studies the cultural history of Elizabethan and Jacobean England and of its visual and literary arts. More specifically, the course will investigate the peculiarly English synthesis of the old and new, Medieval and Renaissance, Continental and English in the arts and ideas of the Age of Shakespeare.

BHP 206 Honors Seminar: Politics/Literacy 3 Credits

Students will analyze literary texts in the context of selected political periods and ideologies, going beyond literary content to understand how language, genre, and structure mirror, otherwise represent, or criticize the political order within which the author writes.

BHP 209 Honor Seminars: Law and Arts 3 Credits

Fosters analysis of controversial art images from a range of genres (e.g., films, paintings, photographs, music, literature, and sculpture) and asks students to consider connections between the art and political/social/legal issues. Topics will include censorship, propaganda, and intellectual property.

BHP 211 Seminar: Theories of Justice and the American Common Law 3 Credits

Examines some of the 'perennial' theories of justice, both classical and modern, that have left their mark on the evolution of Western concepts of justice. The practical implications of such theories and the two-way traffic between them and social realities will be explored through their application by the American courts. In addition to studying actual cases, students will participate in the adjudication of theoretical cases, both fictional and taken from contemporary realities.

BHP 212 Children and the Media 3 Credits

This course examines how children and adolescents use and understand media and analyzes the role of media in their social and cognitive development. After studying the socializing presence of the media, students will analyze how exposure to television programs, movies, magazines and the Internet shapes children's socio-emotional development and their understanding of cultural norms. This course will also explore the effects that media use has on children's health, aggressiveness, and academic performance.

BHP 213 Honors Sem: Text and Context 3 Credits

Studies the major themes of a period of cultural change as they are expressed in important social, scientific, literary, and artistic works. Students will immerse themselves in a single major literary work and will interpret it in light of a number of coordinate texts and works from the social sciences, from contemporary comment, and from the arts.

BHP 215 Honors Sem: Universe & Origin 3 Credits

This course examines both the historical and ongoing scientific research that contributes to our understanding of how life arose on Earth. The evolution of primitive life to the present-day diversity of living organisms will also be explored. Over the course of the class, we will trace the development of theories concerning the evolution of life, with particular emphasis on biologic, geologic, and cosmic time scales.

BHP 222 Honors Seminar: Existentialism in Literature 3 Credits

Introduces students to Existentialism as a 20th-century movement with roots going back to the 19th century and as a philosophy that has special relevance and importance for understanding today's world. Reading and discussion are based on topics of special concern to Existentialist philosophers: lying and the nature of reality, faith and reason, revaluation of values, and the meaninglessness of life. Readings will comprise a variety of fiction and non-fiction genres. Authors may include Dostoevsky, Unamuno, Camus, Sartre, Kierkegaard, Nietzsche, Brecht, Kafka, Pirandello, Weil, and Beckett.

BHP 224 Worlds Apart: Global Perspectives on Development and Inequality 3 Credits

This course will examine the causes and patterns of uneven societal development in the world today, including consideration of historical and contemporary factors such as colonialism and globalization. Consequences of increasing inequality for the well-being of populations across the globe will also be discussed.

BHP 227 Race, Gender, and Sexuality in the Age of Empire 3 Credits

This course examines the history and literature of British and American imperialism from 1890 to the present, focusing on the intersections of race, gender, class, and sexuality. The course will cover themes of national identity, representations of colonized peoples, and imperialism as a cultural project. The history of imperialism as understood through literary and cultural analyses will focus on the functioning of gender, sexuality, and race in the ideologies and strategies of imperialism and anti-imperialism and in the psychological impact of colonial rule. Overall, we will consider how such analyses can inform a(re)defining of the colonial project.

BHP 230 Honors Seminar: Polit Culture 3 Credits

Explores social, political, and cultural transformations associated with the radical extension of cybernetic and reproductive technologies in modern society. In particular the course will focus on the impact of new so-called high technologies such as computer-based communications, robotics, and biotechnology on such areas as the structure of the world economy, the organization of work, patterns of consumption, styles of popular culture, the design of private and public space, and the liberal-democratic political process.

BHP 231 Honors Sem: Natural Adventures 3 Credits

Examines connections among environmental history, biology, and ecology. Human attitudes toward the natural environment are complex and have changed overtime, ranging from terror to exaltation from exploitation to preservation. Focus will be on the impact of changes in human land use and technology on natural ecosystems, exploring feedbacks between the two. Hands-on experiences will supplement readings from the primary literature both in science and history as well as literary explorations of nature.

BHP 232 Honors Seminar: Science and Politics of the Jersey Shoreline 3 Credits

Designed to acquaint the student with the scientific basis for evaluation of coastal problems and the political realities of funding and policy, focusing on the New Jersey Shoreline. Course topics will include consideration of waste disposal in ocean systems, depletion of ocean resources, physical and biological ramifications of human activities on the environment, and the political problems in dealing with mitigation of environmental stresses.

BHP 259 Honors Seminar: The Environment: a Conflict of Interest 3 Credits

Examines critical environmental issues such as global warming; food, water and energy resources; population trends; and global industrialization. Topics for context will include the origin of the elements, the origin of solar systems, and the origin of life as well as the basic principles of the current biotechnical revolution. Scientific understanding will be combined with knowledge about strategies for raising community awareness in order to (re)formulate public policy. In teams, students will be asked to define the problems; research available and prospective solutions; identify the technical, social, political, and economic constraints; and finally propose a workable strategy for making progress toward solutions.

BHP 260 Honors Seminar: Education and the Arts 3 Credits

Through the study of classic and contemporary artistic works as well as influential philosophies and theories of education, this course explores representations of education in fiction, nonfiction, poetry, film, and music and the relationship between theory and practice. Society's shifting and ambivalent attitudes toward teachers and the educational process will be studied from multiple perspectives, including those of artists who are important educators themselves.

BHP 268 Honors Seminar: Love and Chivalry in the Arthurian Tradition 3 Credits

The legends attached to King Arthur of Britain and the Knights of the Roundtable have fascinated audiences for the past 1500 years. This course will examine the origins, development and meanings of love and chivalry, two essential themes in the Arthurian legends. Through study of the two major love triangles in the tradition—Arthur- Guinevere-Lancelot, and Tristan-Isolde-Mark—and the chivalrous quests of Lancelot, Tristan, Gawain, Parzival, and other Knights of the Roundtable, students will discover how Arthurian ideals regarding love, chivalry, kingship, and heroism were established and why they still resonate in popular culture.

BHP 270 Interdisciplinary Studies 3 Credits

Exploration of interdisciplinary topics and themes in honors courses team-taught by instructors representing different disciplinary specialties.

BHP 271 Special Topics in Interdisciplinary Studies 3 Credits

Exploration of interdisciplinary topics and themes in honors courses team-taught by instructors representing different disciplinary specialties.

BHP 280 Honors Seminar: The World as a Social Construct 3 Credits

Challenges students to view the world as a product of historical and philosophical traditions as reflected in global communication dynamics. Forms of both ancient and modern political governance and their influence on international socio-political alliances will be examined, especially as reflected in cosmopolitanism, urbanization, and migration. Topics include the impact of the revolution in modern means of communication and obstacles to communication among peoples of diverse nations.

BHP 300 Hon Sem: Cultural Politics 3 Credits

With attention to genres such as literature, music, film, and the visual arts, this course explores the role of artistic expression as it reflects and/or subverts the structural elements and distribution of power in a selected culture and time period.

BHP 303 Hon Sem: Politic & Phil of 60's 3 Credits

Examines three major American political movements of the 1960s—the black movement, the student movement, and the feminist movement—with an emphasis on the interactions among philosophy, politics, and culture. These themes are studied using original sources including theoretical writings by the movements' main proponents and texts describing particular events and developments in political and social history. Source materials may also include documentary films and recordings which represent the cultural assumptions of the period.

BHP 304 Honors Sem: Europe Armageddon 3 Credits

Investigates the history and literature of World War I in order to understand how it shaped the civilization of the 20th century and how it affected the lives of those who experienced it.

BHP 307 Honors Seminar: Presence of Mind - Artificial intelligence and Human Creativity 3 Credits

What is Artificial Intelligence (AI)? In what ways can computers "think"? How is their "thinking" similar to and different from that of humans? Through readings, lectures, discussions, and creative projects, students will investigate evidence of intelligence and creativity in various disciplines including music composition, art, and human and non-human systems. We will examine predictions for AI that date back to the 1930s and ponder likely developments in this area in the 21st century. No prior experience with computers or music is required.

BHP 309 Honors Seminar: Genetic Engineering and the Philosophy of Science 3 Credits

Highlights the different perspectives held by scientists and philosophers regarding current bioethical issues. Topics include classical ethical theory, applied ethics, and basic biology as it relates to topics such as stem cells, cloning, and assisted reproduction. Students will learn how to construct and present rational, objective arguments during class discussions and presentations. At the end of this course, students will have gained a strong perspective both the ethical and biological foundations behind modern "hot-button" topics in genetics.

BHP 310 Honors Seminar: European Hist 3 Credits

Involves reading major European historical novels of the 19th century. Students will discuss why the vogue for historical fiction began and why the novels of Sir Walter Scott had such a tremendous impact on the genre. Examined will be such questions as the definition of historical fiction, the importance of historical accuracy, the relationship of literature and history, and the influence of historical differences in the development of historical fiction in different countries.

BHP 312 Honors Sem: Musical Expression 3 Credits

Examines the relationships between political culture (e.g., enlightened reform, revolution, or reaction) and musical discourse in periods selected from Viennese classicism, Biedermeier/romanticism, post-romanticism and expressionism. Major emphasis will be placed upon how composers such as Mozart, Beethoven, Schubert, Mahler, and Schoenberg exploited and developed musical forms, and chose and set texts to respond to the imperatives of their political and cultural environments.

BHP 314 Honors Sem: Symbolism/Impress 3 Credits

Examines Symbolist literature and Impressionist music. Students will come to understand some interrelationships between literary and musical creativity in the late 19th and 20th centuries by studying Symbolist literature and Impressionism in music history—two movements that had significant impact on Modernism and that continue to influence contemporary creative work.

BHP 315 Honors Seminar: 20th Century European Ideologies 3 Credits

Covers the origins and development of 20th-century European ideologies in a comparative perspective. Topics include the condition of European political culture at the turn of both centuries (i.e., 1900 and 2000), methods of spreading Nationalism and national culture, the First World War and the emergence of Fascism and Communism, the origins and consequences of the Cold War, the development and fate of the Socialist and Capitalist systems, and the ideology of Conservatism/Liberalism. We will also reflect upon the condition of European political culture in our day.

BHP 318 Honors Seminar: The Bible as Literature and Philosophy 3 Credits

Discusses selections from the three major divisions of The Bible: the Old Testament, the New Testament, and the Apocrypha. Stories such as Joseph and his brothers, Exodus, Samson and Delilah, Jonah and the Whale, Susannah and the Elders, the raising of Lazarus, and the trial and execution of Jesus will be read. Students will study many genres, including the short story (The Book of Ruth), poetry (Psalms), history (I and II Samuel), apocalypse (Revelations), letters (I and II Corinthians), and philosophical tales (The Book of Job).

BHP 319 Honors Sem: Arts of Memory 3 Credits

Collective memory, cultural memory, computer memory, crises of memory: explores different ideas about memory through a variety of disciplinary lenses within the humanities, including film, music, rhetoric, literature, history, and fine art. Topics will include the nature of group and cultural memory, mnemotechnica (the structures and techniques of memory), the representation of memory, memory anomalies and problems, and historical and national memory.

BHP 320 Honors Sem: Gender and Music 3 Credits

Through listening and reading assignments, introduces students to the role of gender in shaping the creation, performance, and reception of Western music. Topics include canon formation and the reception history of works by male and female composers; the historical conditions in which women became composers, performers, listeners, and patrons; the musical representations of gender difference and sexuality; definitions of feminine and masculine musical style; ideologies of genius; and gender issues in music aesthetics, music historiography, and in the biographies of composers.

BHP 321 Gender and Sexuality in Hip Hop and R & B 3 Credits

This course explores the formation of femininity, masculinity, and sexuality in Hip-Hop and R&B, focusing on the music, images, and politics of the genres. Because Hip-Hop and R&B also exist in dynamic relationship with a variety of other genres, including funk, soul, rock, disco, jazz, and electronic dance music (EDM), some of these other genres will be included in readings and discussions along the way. Related topics include racial identity theory, religion, and a variety of other social constructions as mediated through rhetoric and discourse conventions that shape who we are and how we understand ourselves.

BHP 322 Hon Sem: Guilty and Innocent 3 Credits

Through the study of social theory and research, legal cases, fiction, non-fiction, film and poetry, this course examines theories of criminal motivation and behavior, determination of blame, and assignment of appropriate punishment. Topics include changes in legal and cultural understandings of individual and social responsibility for criminality; the nature, purpose, and effects of punishment; and the impact of race, class and gender on defining crime and determining guilt or innocence.

BHP 323 Capitalism: On Trial 3 Credits

Capitalism as a socio-economic system is put on trial! Readings for and against capitalism, drawn from a range of influential classic and contemporary texts, are examined and discussed in class. The competing theories are applied to current social, economic, and political issues. The role of government in the economy is also debated.

BHP 325 Literature and Political Realities: Dictatorship to Democracy in Latin America 3 Credits

Explores Latin American politics and government in the 20th century and of the role of artists, primarily writers of fiction and poetry, as a corps of truth-tellers and resisters in the face of government propaganda, censorship, and cultural/political repression. The course will center upon themes and theories that help us explain the current state of Latin American politics and culture, and the dynamics of their mutual influence. We will emphasize the vacillation between authoritarianism and democracy as well as the role of revolutionary change in the region. Analysis of economic, social, cultural, and historical influences on contemporary Latin American politics will be complemented and enriched by a study of representative works from important cultural and artistic movements.

BHP 330 Campaign Persuasion 3 Credits

This course will explore both political campaign communication history and practice, with a particular focus on current campaigns in New Jersey. The interface between communication theory and politics and the way in which messages are framed by the media will be explored. Guest speakers will share their perspectives on selected campaign issues. To move from the classroom and theory to real situations, students will be encouraged to volunteer for a campaign in New Jersey, and assignments will be focused on creating practical examples of political campaign communication materials.

BHP 350 Genocide and Human Rights 3 Credits

Explores one of the main paradoxes of the modern era: the development of human rights standards and, at the same time, the expansion and intensification of genocide, ethnic cleansing, systematic torture, and other crimes against humanity. A central question runs through the course: How are these two polar opposites, human rights and genocide, related? Concentrating on the period from the eighteenth century to the present, and encompassing virtually every area of the globe, we will discuss and debate the meaning of contested key terms, investigate particular historical cases of mass atrocities, and examine critically some of the recent efforts at redress, justice, and memory.

BHP 490 Independent Research and Study 1-4 Credits**BHP 499 Baccalaureate Honors Thesis 3 Credits**

Students completing the Baccalaureate Honors Program undertake a capstone project, which may be research-based and/or creative. Minimum 3 credits in total, which may be completed in fall or spring of senior year or distributed across both semesters. For details, see BHP Web site: http://www.rider.edu/15478_6437.htm.

Behavioral Neuroscience (BNS)

BNS 107 Life Science: Behavioral Neuroscience Emphasis 3 Credits

An introduction to the biology of the human brain and the rest of the human nervous system. Topics in neuroscience are covered in molecular, cellular, and systematic terms. Additional material is presented on the origins and effects of neurological and psychiatric diseases.

BNS 118 Behavioral Neuroscience 4 Credits

An introductory course including basic neuroanatomy and neurophysiology of movement, ingestive, reproductive, emotional, and learning behaviors. Emphasis is on the structure/function relationships that allow animals to make appropriate physiological and behavioral responses to the environment. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115.

Corequisite(s): BNS 118L.

BNS 118L Behav Neuroscience Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BNS 118.

BNS 250 Biostatistics 4 Credits

This course will assist students with acquiring the skills necessary to design, conduct, and interpret research studies. Emphasis will be on learning how to develop experimental designs to translate theoretical concepts into testable hypotheses. Experiments conducted during laboratory sessions will use laboratory mice and will use equipment for measuring animal behavior. Students will gain experience collecting, analyzing, writing and orally presenting their research results. Three hours of lecture and one three-hour lab per week. Prerequisite(s): MTH 105 or higher or placement into MTH 210, grade of "C" or better in one lab science course.

Corequisite(s): BNS 250L.

BNS 250L Biostatistics Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course. Corequisite(s): BNS 250.

BNS 310 Neurobiology 4 Credits

A lecture-laboratory course investigating the structure and function of the nervous system. Lecture topics include organization of the nervous system, neuroanatomy, neurophysiology, neurochemistry, physiology of sensory systems, biological aspects of nervous system diseases, and behavior. Laboratory exercises include study of anatomy of the nervous system, nerve cell recording, modern neuroanatomical techniques, and the neural basis of animal behavior. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 or BNS 118, BIO 117. Corequisite(s): BNS 310L.

BNS 310L Neurobiology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BNS 310.

BNS 360 Neurochemistry 4 Credits

Examines the fundamentals of neurochemistry, including the neuroanatomical distribution, pharmacology, and functions of neurotransmitters; signal transduction pathways; behavioral and physiological effects of chemicals either used therapeutically to treat biopsychological disorders or that may be abused for their psychotropic effects; and mechanisms and models for the study of drug action. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 117, CHE 122, CHE 123.

Corequisite(s): BNS 360L.

BNS 360L Neurochemistry Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course. Corequisite(s): BNS 360.

BNS 375 Neuroethology: circuits of Behavior 4 Credits

Neuroethology is the study of the neural and physiological basis of animal behavior. This course focuses on the specific behavioral problems faced by animals in their natural habitats, and the ways in which their nervous systems solve these problems. The mechanisms that underlie complex behaviors such as spatial orientation and navigation, escape mechanisms, and animal communication will be examined, as well as the extraordinary sensory adaptation of organisms to their environments (e.g., echolocation, electroreception, and magnetic reception). The neural control of motor programs and temporally-patterned behaviors will be studied in simpler neuronal systems. Finally, recent cellular and molecular approaches to the study of behavior will be addressed. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 117.

Corequisite(s): BNS 375L.

BNS 375L Neuroethology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BNS 375.

BNS 415 Seminar in Behavioral Neuroscience 3 Credits

Critical analysis of the scientific literature pertaining to current topics in behavioral neuroscience. Topics include mechanisms through which the brain influences physiology and behavior and the integration of nervous and endocrine systems. Three hours of lecture per week.

Prerequisite(s): BIO 115, BIO 116 or BNS 118, BIO 117, junior standing and permission of instructor.

BNS 490 Independent Research and Study 1-4 Credits

Immerses the student in laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

BNS 491 Internship in Behavioral Neuroscience 1-4 Credits

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations. These can include educational or research institutions. The method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and should include keeping a journal of activities, a term paper or project report and a poster presentation.

Prerequisite(s): 2.5 GPA and permission of the instructor.

BCH 225 Introduction to Organic and Biochemistry 4 Credits

An introductory course describing the basic principles of organic chemistry and biochemistry as they relate to human metabolism and disease. The nature of the chemical structure and reactivity of organic functional groups such as alcohols, aldehydes, ketones, carboxylic acids and amines will be presented with biological processes in mind. The biochemistry of the macromolecules DNA, RNA, proteins, carbohydrates and lipids will be discussed leading in to a discussion of some of the more important metabolic pathways. This course is intended for science majors who do not take the full two semester sequence of organic chemistry and two semesters of biochemistry and desire a background in biochemistry. Non-science major students who have had one semester of general chemistry and one semester of biology may also enroll in the course. Three hours of lecture and one three-hour lab per week. Prerequisite(s): CHE 120, CHE 121; BIO 115 or BIO 117.

Corequisite(s): BCH 225L.

BCH 225L Intro to Organic & Biochem Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BCH 225.

BCH 325 Biochemistry I 3 Credits

Outlines the chemistry and biological function of carbohydrates, proteins, lipids, nucleic acids, vitamins, and enzymes, and introduces enzyme kinetics and biological energetics. Degradative metabolic pathways of carbohydrates and lipids, and their controlled interrelationships are discussed in detail.

Prerequisite(s): CHE 214.

BCH 326 Biochem and Enzymology I Lab 1 Credits

The laboratory work illustrates techniques and methods essential to the biochemist. Methods for quantification of proteins, purification of enzymes and determination of their kinetic parameters, polarimetry, and structure proof of carbohydrates. The lab must be taken concurrently with BCH 325 by biochemistry and biology majors, but is optional for others.

Prerequisite(s): CHE 123, CHE 214.

BCH 330 Biochemistry II 3 Credits

Continuation of Biochemistry I. Includes molecular analysis of biological membrane structure and function and a molecular level analysis of information flow from DNA through RNA to proteins. Other topics include mechanisms of hormone action and an expansion on metabolic concepts.

Prerequisite(s): BCH 325.

BCH 331 Biochemistry II Lab 1 Credits

Methods of protein analysis, building on techniques and principles learned in BCH 326. Students will use bioinformatics and molecular biological techniques, including PCR, to harness and change protein sequence. They will implement modern protein purification techniques, develop enzyme essays, and perform equilibrium binding assays to investigate the relationships among protein sequence, structure, and function.

Prerequisite(s): BCH 326, BIO 117.

Biochemistry (BCH)

BCH 425 Medicinal Chemistry 3 Credits

A comprehensive description of the important principles of medicinal chemistry including principles of rationale drug design with synthetic strategies, mechanisms of drug actions, structure-activity relationships, the absorption, distribution, metabolism and elimination of drugs. Specific classes of drugs to be discussed include: anticancer agents, analgesics, anti-inflammatory drugs, steroids, drugs acting on the nervous system and antibiotics.

Prerequisite(s): BCH 325 or permission of instructor.

BCH 490 Independent Research and Study 1-4 Credits

Immerses the student in laboratory research. The student learns to organize material, use the literature, make precise measurement, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

BCH 491 Internship in Biochemistry 1-4 Credits

A supervised research experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit or governmental organizations under the guidance of a mentor. The mentor and student will have regular consultation with the departmental internship coordinator to assess the student's progress. Normally, 50 hours of internship per credit is required. The grade for the course will be determined by the students' overall performance in their research work, a research paper documenting their work with their internship mentor and an oral or poster presentation at the end of the semester.

Prerequisite(s): 2.5 GPA and permission of the instructor.

Biology (BIO)

BIO 100 Life Science: Human Emphasis 3 Credits

An examination of mammalian physiology and development at the cellular and organ system level, with emphasis on physiological homeostasis in man. Three hours of lecture per week.

BIO 101 Life Science: Genetics Emphasis 3 Credits

An examination of cell biology and genetics, with emphasis on the impact of these fields on human affairs. Three hours of lecture per week.

BIO 103 Life Sci: Ecobotanical Emphasis 3 Credits

Plant biology with emphasis on ecological interactions and economic uses. Three hours of lecture per week.

BIO 106 Life Science: Human Disease 3 Credits

An introduction to molecular, cellular, and human biology with emphasis upon diseases and disorders caused by mutation, bacteria, viruses, or parasites. The biology of human aging is also discussed. Three hours of lecture per week.

BIO 108 Life Sci: Biol of Human Aging 3 Credits

An introduction to the biology of aging manifest in the cells, tissues, and organs of animals and humans. Three hours of lecture per week.

BIO 109 From the Big Bang to Origins of Life 3 Credits

This course is a non-major science core course focusing on the interactions among astronomy/physics, chemistry, geology and biology. A consensus story has emerged about our origins from scientific insights obtained over the last 400 years. Many know this story that began with the Big Bang and proceeded through the origin of the galaxies and the origin of the elements to the origin of our sun, earth and solar system. The origin of the earth gave rise to the origin of life, evolution of bacteria, viruses, plants and animals, creation of ecosystems and ultimately the evolution of humans. We will proceed through the science slowly. By doing so we can take the information from all of the sciences and reflect upon it. The result of will be an enhanced appreciation for both the process of science and the awesome information we have learned about the natural world as well as ourselves. The study of our origins reveals that humans, all life, and our planet are intimately related.

BIO 110 Life Science: Inquiry Approach 4 Credits

An introductory course for non-science majors in which students develop an understanding of biological evolution, the molecular basis of heredity, the cell, matter, energy and organization in living systems, and the interdependence of organisms. In addition, students will develop an understanding of science as a human endeavor, the nature of scientific knowledge, and historical perspectives. Through investigative activities, students will develop an understanding about scientific inquiry and develop abilities necessary to do scientific inquiry. Three hours of lecture and one three-hour lab per week.

Corequisite(s): BIO 110L.

BIO 110L Life Sci: Inquiry Approach Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 110.

BIO 115 Principles of Biology I 4 Credits

An introductory biology course focusing on organismal form and function. Evolution, genetics, physiology and behavior are emphasized. Three hours of lecture and one three- hour lab per week.

Corequisite(s): BIO 115L.

BIO 115L Principles of Biology I Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 115.

BIO 116 Principles of Biology II 4 Credits

An introductory biology course focusing on interactions of organisms and their environments. Evolution and ecology are emphasized. Three hours of lecture and one three-hour lab per week.

Corequisite(s): BIO 116L.

BIO 116L Principles of Biology II Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 116.

BIO 117 Principles of Biology: Evolution, Diversity, and Biology of Cells 4 Credits

An introductory biology course focusing on basic cell biology. Cell diversity and function, genetics and biotechnology are emphasized. Three hours of lecture and one three-hour lab per week.

Corequisite(s): BIO 117L.

BIO 117L Prin of Biology: Cells Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 117.

BIO 206 The Pharmaceutical Industry 3 Credits

An introduction to drug discovery and development. Topics include how drugs are used to diagnose, cure, treat, and prevent disease and how drugs affect body function. The origins of diseases and the early attempts at treatment are also covered. Designed for business majors; does not satisfy requirements for the biology major.

Prerequisite(s): BIO 100 or BIO 101 or BIO 106 or BIO 108 or BNS 107 or CHE 115.

BIO 210 Hospital Intern Program 2 Credits

An internship that provides students with the experience in the practical aspects of medicine. Major departments in the hospital such as the emergency room, operating room, clinic, radiology, and the laboratory will be open for student rotations. Field trips to various medical schools in the area will provide information on professional school educational opportunities available in the health professions.

Prerequisite(s): sophomore standing or above and permission of instructor.

BIO 221 Human Anatomy & Physiology I 4 Credits

A comprehensive survey of the structure and function of musculo-skeletal systems, neuroendocrine systems and related tissues and cellular interactions. Physiological applications include homeostasis, muscle dynamics, and cell activities. Laboratory exercises complement lecture material through the use of animal dissections, wet labs, computer-assisted investigations, microscopy, and models. Exams, case histories, personal investigations, and lab practicums assess learning. Course emphasis supports allied health and pre-professional training. Three hours of lecture and one three-hour lab per week. Designed for allied health students; does not satisfy requirements for the biology major. **Prerequisite(s):** BIO 115.

Corequisite(s): BIO 221L.

BIO 221L Human Anatomy & Physiology I Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 221.

BIO 222 Human Anatomy & Physiology II 4 Credits

A comprehensive survey of the organ systems of the body including special senses, cardiovascular, respiratory, digestive, excretory, reproduction and development. Physiological components include electrolytes, metabolism, nutrition, and the mechanisms of homeostasis and cell reception. Lab studies support lecture material through dissections, wet labs, computer-assisted learning, microscopy, and models. Assessment includes lab practicums, exams, and reports. Course emphasis supports allied health and pre-professional training. Designed for allied health students; does not satisfy requirements for the biology major. **Prerequisite(s):** BIO 221.

Corequisite(s): BIO 222L.

BIO 222L Human Anatomy & Phys II Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course. **Prerequisite(s):** BIO 221L.

Corequisite(s): BIO 222.

BIO 265 Genetics 4 Credits

A comprehensive course focusing on molecular, Mendelian, and population genetics. Topics covered will include molecular advances in the study of genetics, including genomics and bioinformatics; evolution and the effects of genetic mutations; the application of population genetics to forensic science; genetic problem solving, including genetic crosses and statistical analysis; and regulation of gene expression. The laboratory for this course will introduce students to commonly used genetic model organisms and basic molecular biology techniques. Three hours of lecture and one three-hour lab per week. **Prerequisite(s):** BIO 115, BIO 116 or BNS 118, BIO 117.

Corequisite(s): BIO 265L.

BIO 265L Genetics Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 265.

BIO 272 Intro to Marine Biology 3 Credits

Introduces students to the study of marine environments, emphasizing the diversity, ecology, and physiology of marine animals, algae, and plants. Aspects of the human impact on marine environments are also discussed. **Prerequisite(s):** BIO 115 or BIO 116 or BNS 118 and grade of "C" or better.

Corequisite(s): BIO 272L.

BIO 272L Marine Biology Laboratory 1 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 272.

BIO 300 Developmental Biology 4 Credits

Lectures and laboratories explore molecular, cellular, and genetic mechanisms of animal development. Aspects of gametogenesis, fertilization, induction, cytoplasmic determinants, morphogenetic movements, differentiation and developmental evolution are discussed. Three hours of lecture and one three-hour lab per week. **Prerequisite(s):** BIO 115, BIO 116 or BNS 118, BIO 117.

Corequisite(s): BIO 300L.

BIO 300L Developmental Biology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 300.

BIO 305 Vertebrate Physiology 4 Credits

Study of the principles and mechanisms of mammalian physiology. Topics include the nervous system, muscle physiology, cardiovascular physiology, respiration, gastrointestinal activity, renal function, and endocrine physiology. Lectures and laboratory exercises emphasize homeostatic mechanisms and organ-system interactions. Three hours of lecture and one three-hour lab per week. **Prerequisite(s):** BIO 115, BIO 116 or BNS 118, BIO 117.

Corequisite(s): BIO 305L.

BIO 305L Vertebrate Physiology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 305.

BIO 315 Medical Microbiology 4 Credits

Biology of prokaryotes of medical interest with emphasis placed on diversity and host-pathogen interaction. Current research literature will be covered and presented by students. Methods of microbial identification are introduced in the laboratory and applied in the identification of mock clinical isolates. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 or BNS 118, BIO 117.

Corequisite(s): BIO 315L.

BIO 315L Microbiology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 315.

BIO 321 Microbiology 4 Credits

An introduction to the discipline of microbiology, with an emphasis on the biology of prokaryotes found in all the natural realms of our environment, including the oceans, soil, atmosphere, and extreme habitats. Emphasis will be placed on microbial diversity, fundamental microbial processes, and the continual interaction between microbes and the natural environment. Classical and modern methods of identification are introduced in the laboratory. Three hours of lecture and one three-hour lab per week. Some field trips are required. Prerequisite(s): BIO 115, BIO 116, BIO 117, and BIO 265.

Corequisite(s): BIO 321L.

BIO 321L Microbiology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 321.

BIO 335 Modern Plant Biology 4 Credits

Biology of seed plants, including growth, development, and reproduction of flowering plants. Emphasis is placed on acclimation and adaptations demonstrating environmental influences on plant structure and function. Current literature involving molecular mechanisms of control will be discussed. Three hours of lecture and one three-hour lab per week. One Saturday field trip. Prerequisite(s): BIO 115, BIO 116, CHE 122.

Corequisite(s): BIO 335L.

BIO 335L Modern Plant Biology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 335.

BIO 340 Evolutionary Biology 4 Credits

Where did we come from? This course will explore the generation of biological diversity on earth. Course topics will include: the history of evolutionary thought; the different lines of evidence and fields of inquiry that bear on our understanding of evolution; selection vs. random changes in populations over time; speciation; extinction; the molecular basis of evolution; and evolutionary developmental biology. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 265.

Corequisite(s): BIO 340L.

BIO 340L Evolutionary Biology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course. Corequisite(s): BIO 340.

BIO 350 General Ecology 4 Credits

An investigation of the processes that regulate the distribution of plants and animals throughout the biosphere. Relationships among species and their interactions with the environment are stressed. Quantitative analyses of experimental results and current research in basic and applied ecology are discussed. Laboratory activities explore conceptual models using both field activities and computer simulations. Three hours of lecture and one three-hour lab per week. One Saturday field trip (laboratory time will be adjusted accordingly). Prerequisite(s): Two of the following: ENV 100 with a grade of "B" or better; BIO 115, BIO 116, BNS 118 with a grade of "C" or better in each course.

Corequisite(s): BIO 350L.

BIO 350L General Ecology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 350.

BIO 370 Immunology 4 Credits

An introduction to the cells and molecules of the immune system with emphasis on recent advances. Topics include AIDS, autoimmunity, transplantation, and cancer. Readings from current journals will be discussed and presented by students. The laboratory will introduce current research techniques and then apply these to a research problem with critical analyses of the data generated. Three hours of lecture and one three-hour lab per week. Prerequisite(s): BIO 115, BIO 116 or BNS 118, BIO 117.

Corequisite(s): BIO 370L.

BIO 370L Immunology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 370.

BIO 372 Behavior of Marine Organisms: Evolutionary Approach 4 Credits

An examination of the underlying mechanisms and evolutionary causes of behavior, including habitat use, feeding, and mate choice, particularly in marine organisms. The laboratory will involve collecting, analyzing and interpreting field data and performing experiments in the lab using a variety of marine organisms including fish and crabs. Three hours of lecture and one three-hour lab per week. Some full-day field trips (usually on a weekend) are required. Prerequisite(s): BIO 115, BIO 116 or BNS 118.

Corequisite(s): BIO 372L.

BIO 372L Beh Mar Org: Evol Apprch Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): BIO 372.

BIO 400 Seminar in Cellular and Molecular Biology 3 Credits

Critical analysis of the scientific literature pertaining to current topics in cell and molecular biology. Topics may include: genomics, regulation of gene expression, development, and molecular processes of disease. Three hours of lecture per week.

Prerequisite(s): BIO 115, BIO 116 or BNS 118, BIO 117, junior standing, and permission of instructor.

BIO 416 Bioinformatics 3 Credits

A comprehensive overview of relevant computer-based technologies used in genome research, DNA sequence analysis, and evolutionary biology. Will focus extensively on Internet resources and predictive algorithm usage for determining evolutionary relationships of organisms based on molecular evidence. Lectures will focus on terms and concepts frequently used in genomic and bioinformatic research, while computer labs will allow students to perform hands-on projects with actual DNA sequence data.

Prerequisite(s): BIO 117, BIO 265 recommended.

BIO 420 Seminar in Organismal Biology 3 Credits

Critical analysis of the scientific literature pertaining to current topics in physiology and organismal biology. Topics may include hormonal control of behavior, immune pathogen interactions, and other aspects of whole animal and/or plant biology. Three hours of lecture per week.

Prerequisite(s): BIO 115, BIO 116 or BNS 118, BIO 117; junior standing, and permission of instructor.

BIO 450 Seminar in Ecology & Evolution 3 Credits

Critical analysis of the scientific literature pertaining to current topics in ecology and evolutionary biology. Ecology and evolution of terrestrial and aquatic systems may include scales of adaptation, mechanisms, or human impacts. Three hours of lecture per week.

Prerequisite(s): BIO 115, BIO 116 or BNS 118, BIO 117; junior standing, and permission of instructor.

BIO 490 Independent Research and Study 1-4 Credits

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

BIO 491 Internship in Biology 1-4 Credits

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations. These can include educational or research institutions. The method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and should include keeping a journal of activities, a term paper or project report and a poster presentation. 2.5 GPA required.

Prerequisite(s): Permission of the instructor.

Business Administration (BUS)

BUS 210 Intro to Law: Contracts 3 Credits

An introduction to the origin of current law, with emphasis on the development of business law, students are exposed to legal terminology and acquainted with the system of application of rules of law to actual situations. The laws of contracts, particularly common-law developments, are considered in great detail.

BUS 211 Commercial Law 3 Credits

The law as related to the sale of goods, commercial paper, and secured transactions as promulgated by the Uniform Commercial Code is considered in depth. Warranties, guarantees, remedies, and product liability are explored. The laws of bankruptcy and insurance are also considered.

Prerequisite(s): BUS 210.

BUS 214 Advanced Business Law 3 Credits

This course provides students with an introduction to the fundamentals of individual and organizational forms of doing business. The laws governing agency, partnerships, corporations, and the purchase and sale of securities will be explored. The legal consequences of the relationships, and the rights and duties of the parties and entities will be discussed, as will the rules of law governing real, personal, and intellectual property, including the transfer of title to real property, the various types of bailments, the landlord-tenant relationship, and the laws concerning wills, trusts, and estates. The concerns of businesses that compete in the global environment through the study of international law will also be discussed. This course replaces the property (BUS 213) and business associations (BUS 212) courses; you may not take this course if you have taken either of these courses.

Prerequisite(s): BUS 210.

BUS 250 Introduction to the Business of Sports 3 Credits

This course is designed to introduce the student to the business of sports. Business principles, such as management, marketing, law, finance and economics will be applied to the business of sports. The course will also explore the various career opportunities in the world of sports.

BUS 300 Social & Legal Environment Bus 3 Credits

The strategies by which organizations in the private as well as the public sectors interact with, adapt to, and attempt to influence their external environments are explored. The primary emphasis is on evaluating the effect of business and governmental decisions on the quality of life. The role of regulatory agencies and the impact of local and national legislation on organizational behavior are considered.

Prerequisite(s): 54 credits.

BUS 315 Healthcare Law, Ethics & Policy 3 Credits

This course analyzes the role of the law in promoting the quality of health care, organizing the delivery of health care, assuring adequate access to health care, and protecting the rights of those who are provided care within the health care system. It will also examine the public policy, economic, and ethical issues raised by the health care system. Note: This course is cross-listed as HTH 315. Students may not get credit for both BUS 315 and HTH 315. For business students who take the course as BUS 315, the course will count as a business course. If taken as HTH 315, the business student will receive credit as a liberal arts course.

Prerequisite(s): 54 credits.

BUS 325 Financial Management in the Sports Industry 3 Credits

This course is designed to build upon earlier knowledge from courses in economics, accounting and finance that emphasizes the sports industry and the challenge for financial managers in areas such as stadium/arena financing, financial analysis and valuation. Business models and their financial implications for media and sports related enterprises as well as the business of college athletics will also be covered.

BUS 355 Sports and the Law 3 Credits

Examines the legal, ethical, economic, social and managerial issues related to sports. Topics include liability issues, contracts, employment discrimination, antitrust law, and constitutional law. This course is cross-listed as LAW 355. Students may not get credit for both BUS 355 and LAW 355.

BUS 375 International Business Law 3 Credits

This course considers the impact of international organizations and treaties on global business and examines the various methods of international dispute resolution. Important legal and ethical issues related to conducting business overseas are discussed including the topics of labor and employment rights, environmental law, and intellectual property.

Prerequisite(s): 54 credits.

BUS 400 Strategic Mgmt and Policy 3 Credits

This capstone course for seniors in business administration provides a framework for problem identification, analysis, and decision making within the organization. Students are given the opportunity to integrate and apply previously acquired knowledge of accounting, decision sciences, economics, finance, marketing, management, and statistics. Case studies, critical incidents, and other appropriate techniques are utilized.

Prerequisite(s): 84 credits, CIS 185, ACC 210, ACC 220, MKT 200, MGT 201, FIN 300, MSD 340, BUS 300, CIS 485.

BUS 410 New Venture Planning 3 Credits

This course will require students to select a business and prepare a complete new venture plan for it. This plan would identify the product and its target market, analyze its market potential, choose the location, scale of operation, layout, staffing, type of financing, estimate the revenues and profits, and present the income statement, balance sheet, and the cash flow projections.

Prerequisite(s): ENT 348 or permission of instructor.

BUS 444 Selected Topics Business Policy 3 Credits

The study of a selected topic of contemporary interest related to one or more of the following: strategic management, business law, business ethics, social responsibility, legal environment of business. Readings, research, lectures, discussions, and other methods will be used.

Prerequisite(s): to be determined by instructor.

BUS 450 Contemporary Issues in Sport Management 3 Credits

This course will address the theory, development, and application of analytics in sports. Analytics refers to the use of data and quantitative methods to measure performance and make decisions. Students will learn about the application of analytics in sports for purposes of strategy, player performance, team management, sports operations, and fantasy competitions. The class will consist of lectures, discussions, and guest speakers from the sports industry. Students will work on projects related to the use of analytics in the various professional sports leagues and college sports.

Prerequisite: BUS 250, senior standing, and completion of 15 credit hours in business of sports coursework or permission of instructor.

BUS 490 Independent Research and Study 3 Credits
3 credits.**BUS 491 Business Admin Internship 1-4 Credits**

An internship course with a business firm or government agency that provides the student an opportunity to apply classroom work in a supervised employment setting. Requirements include a journal of activities, oral or written reports to the internship director, and a final paper presented to and evaluated by the internship director. Evaluation will also include a report by the company/agency on the intern's performance.

Prerequisite(s): permission of instructor and junior standing.

BUS 492 Global Business Internship 3 Credits

An internship course with a business firm, government or international agency that provides the student an opportunity to apply classroom work in practical international operations of supervised employment. Requirements include a log of activities, oral or written reports to the internship director, and a final paper presented to and evaluated by the internship director. Evaluation will also include a report by the company/agency on the intern's performance. Credits may be used as business or free electives and may be counted toward the international business major.

Prerequisite(s): permission of instructor.

Business Education -UG (BED)

BED 307 Concepts Instruct Media & Tech 3 Credits

Designed to provide the student with familiarity and appreciation of the role of educational technology in the workplace as it applies to students, teachers, administrators, and trainers. The student will explore the Internet, various educational multimedia, distance learning, virtual reality environments, learning theories, and integration models. Appropriate developmental/reflective strategies will be incorporated with instruction. Although multimedia microcomputers will be utilized throughout the course, prior microcomputer knowledge and experience is not a critical element. Multimedia expertise will be developed as the course progresses.

BED 308 Directed Study in Instruct 3 Credits

Designed to enable the student to develop instructional presentations utilizing the advantages of multimedia technology. Each student will be required to create a multimedia portfolio that contains information presentations, cumulative records, presenter notes, work samples, photo library, video animation, and audio narration. Cooperative learning strategies will be utilized throughout the course. Developmental/reflective strategies will include self-reflection, peer feedback, and interaction with the instructor in class and via E-mail. Expertise will be developed as the course progresses.

BED 309 Instruct Media/Technology Mgmt 3 Credits

work Designed to develop technology management skills that can be used for individual classrooms, training centers, subject area specializations, grade levels, school laboratories, curriculum integration, administrative functions, system networks, community services, and communication systems and connecting linkages between educational/work environments and home. Various management strategies will be explored and each student will have an opportunity to design, via a multimedia microcomputer, and instructional technology system of their choice along with a management plan. Cooperative learning strategies will be utilized throughout the course. Developmental/reflective strategies will include self-reflection, peer feedback, and interaction with the instructor in class and via E-mail.

Prerequisite(s): At least six semester hours of technology courses or modules.

BED 410 Prin/Strat Voc & Coop Ed 3 Credits

Designed as one of the specialized courses in the preparation of business and marketing education teachers and teacher-coordinators of cooperative work experience programs. The philosophy and history of education for and about work, including technology, are studies along with the principles and strategies for organizing and administering vocational cooperative education programs. Developmental/reflective evaluative techniques will be applied for the assessment of self, students, instruction and selected case studies. Current instructional concepts, organizational and administrative strategies, legislative enactments, and regulations pertaining to the employment of youth are included. Special attention is given to the role of vocational student organizations and advisory committees. Open to all students. A cumulative GPA of 2.75 is required.

BED 415 Teaching Business Subjects 3 Credits

Instructional strategies in the teaching of business and marketing subjects are analyzed and demonstrated. Students are required to prepare lesson plans, teach demonstration lessons, develop a unit plan, and compile a resource file of teaching materials. Videotaping of demonstration lessons is integrated with the course work to encourage developing teaching competency through a series of instructional modules appropriate to the student's certification interests. A cumulative GPA of 2.75 is required.

BED 445 Work Exper Cooperative Program 3-6 Credits

A minimum of 300 hours of a supervised occupational experience or a supervised internship program in an approved work station or institution. The experience is coordinated and supervised by a qualified coordinator of occupational education. A series of activities are designed to relate job and intern experiences to the student's future role as an employee or a professional teacher. The student will be evaluated by the supervising employer and the University supervisor.

BED 490 Independent Research & Study 1-6 Credits

Provides the student with an opportunity to study an area of personal interest. The outline for the study must be accepted by a sponsoring professor and approved by the student's department and academic dean. The number of semester hours credit to be assigned is determined by the department.

Chemistry (CHE)

CHE 100 Intro to College Chemistry 3 Credits

Open to all students, but designed primarily for those who wish to major in a science which requires chemistry but whose chemistry background is not sufficient to allow entrance into Chemistry 120. It focuses on the nomenclature used in chemistry including the symbols used to designate the chemical elements, the construction of chemical formulas, and the writing and balancing of chemical equations. Other topics will include interpreting the Periodic Table, the valences of the elements, the mole concept, and simple stoichiometry. In addition, chemical calculations involving units, scientific notation, significant figures, and the algebraic manipulations of simple equations will be included. Three hours of lecture per week. This course does not satisfy the requirements for the biochemistry or chemistry degree, but does satisfy the core requirements for liberal arts, education and business majors.

CHE 115 Chem and Contemporary Society 3 Credits

Designed to give the nonscientist an appreciation of the role of chemistry in today's world. The approach is conceptual rather than mathematical. Topics include basic principles of chemical theory, energy sources, elementary organic chemistry, drugs, food additives, polymers, chemistry of living systems, inorganic solids in modern technology, and problems involving pollution of the environment. Three hours of lecture per week. This course satisfies the core requirements for liberal arts, education and business majors.

CHE 118 Exploration of Chemical Prin 4 Credits

A one-semester introduction to the principles of chemical sciences. Students will utilize inquiry-based learning methods to examine contextual problems as a means to explore introductory models and concepts of chemistry. Students will also gain an understanding of how scientific models are used to explain experimental observations. The laboratory component of this course is designed to provide students with an experimental context within which to develop some of the models described in the classroom. Three hours of lecture and one three-hour lab per week.

CHE 118L Explor Chemical Prin Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): CHE 118.

CHE 120 Principles of Chemistry 3 Credits

For students who have successfully completed one year of high school chemistry. This systematic study of the fundamental principles and concepts of chemistry covers atomic structure, bonding, stoichiometric relationships, including solution and oxidation-reduction reactions, and molecular structure. Three hours of lecture per week. Prerequisite(s): High school chemistry or CHE 100 is recommended before taking this course.

Corequisite(s): CHE 121.

CHE 121 Principles of Chemistry Lab 1 Credits

For students concurrently taking CHE 120. Experiments involve gravimetric, volumetric, and spectrophotometric quantitative analysis. One three-hour lab per week. Fall.

CHE 122 Intro to Chemical Systems 3 Credits

A continuation of CHE 120. For students majoring in the sciences but may be taken by others. Chemical systems in which the study of kinetics, thermodynamics, equilibrium, and radiochemistry are emphasized. Three hours of lecture per week. Prerequisite(s): CHE 120, MTH 105 or higher.

Corequisite(s): CHE 123.

CHE 123 Quantitative Methods Lab 1 Credits

Usually taken concurrently with CHE 122. Primarily for students majoring in the sciences. A number of quantitative classical and instrumental methods of analysis are used to determine thermodynamic properties and reaction mechanisms. One three-hour lab per week. Prerequisite(s): CHE 121.

Corequisite(s): CHE 122.

CHE 211 Organic Chemistry I 4 Credits

The structure, chemical properties, and methods of preparation of the more important classes of carbon compounds are studied, with an emphasis on the relationship of structure, stereochemistry, and conformation to chemical reactivity. The preparation and reactivity of organic functional groups is introduced. The use of infrared and nuclear magnetic resonance spectroscopy, and mass spectrometry for elucidating structures of organic molecules is discussed. Three hours of lecture and one three-hour lab per week. Prerequisite(s): CHE 122, CHE 123.

Corequisite(s): CHE 211L.

CHE 211L Organic Chem I Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): CHE 211.

CHE 214 Organic Chemistry II 4 Credits

A continuation of Chemistry 211, emphasizing the mechanism of organic reactions, structural interpretations of properties, preparations, reactivity and identification of organic compounds. Three hours of lecture and one three-hour lab per week. Prerequisite(s): CHE 211.

Corequisite(s): CHE 214L.

CHE 214L Organic Chemistry II Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): CHE 214.

CHE 250 Quantitative Analysis and Statistics Methods 4 Credits

This course will provide a deeper exploration of topics in chemistry that are steeped in numerical analysis. These topics include advanced analysis of equilibrium systems, acid-base systems and electrochemical systems. Additional detail will be given to methods of chemical measurement, statistical methods of data analysis and determination of data validity and reliability. Both lecture and laboratory will show an emphasis on using computer-based tools to analyze experimental data. Three hours of lecture and one three-hour lab per week. Prerequisite(s): CHE 122, CHE 123, MTH 210.

Corequisite(s): CHE 250L.

CHE 250L Quantitative Analysis and Statistical Methods Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): CHE 250.

CHE 305 Physical Chemistry I 3 Credits

The mathematic and conceptual foundations of physical chemistry will be introduced with an over-arching theme of determination of energy allocation within atomic and molecular systems. Topics will include determination and measurement of energy states in atoms and molecules, simple quantum mechanical systems, distribution of energies and the connection to thermodynamic quantities, the three laws of thermodynamics, spontaneity, equilibrium and experimental kinetics.

Prerequisite(s): CHE 214, MTH 211, PHY 201.

CHE 306 Physical Chemistry II 3 Credits

Physical chemistry concepts are explored in more detail with emphasis on examination of systems that require multiple models in physical chemistry to explain. Topics will include, kinetic theory and transition state theory, statistical mechanics and its connections to thermodynamic functions, temperature dependence of spontaneity and equilibrium, the thermodynamics of condensed phases and multi-component equilibria, electrochemistry, multi-electron quantum mechanical systems, approximations in quantum mechanics, symmetry and advanced molecular spectroscopy.

Prerequisite(s): CHE 305, MTH 212.

CHE 315 Inorganic Chemistry 3 Credits

The periodic table as a tool for predicting the physical and chemical properties of chemical systems is developed and examined in conjunction with various theories of bonding, including valence bond, molecular orbital, valence shell electron repulsion, and ligand field theory. Emphasizes structure of crystalline solids, coordination compounds, reaction mechanisms, and structure-property relationships. Three hours of lecture per week.

Prerequisite(s): CHE 214.

CHE 316 Inorganic Chemistry Laboratory 1 Credits

Students will explore a variety of synthetic methodologies for the growth of inorganic molecular systems, and solid-state materials. A transition metal or main group metal plays a central structural role in all systems that will be examined. Modern analytical methods will be applied to characterize synthesis products, such as FT-IR spectroscopy, polarimetry, NMR, and powder X-ray diffraction analysis.

Prerequisite(s): CHE 315 or as corequisite.

CHE 320 Polymer Chemistry 3 Credits

Designed to acquaint students with the structure and properties of polymers, the contrast between small molecules and polymers, methods of measuring molecular weight, the mechanism of polymerization, and the methods of fabricating polymers.

Prerequisite(s): CHE 214, CHE 305 or CHE 306.

CHE 325 Physical Chemistry Laboratory 1 Credits

Measurements are made of physical properties of molecules and chemical dynamical processes. These measurements will be used to develop models which explain the physical chemical nature of the systems under examination. Experiments will utilize various instrumental techniques such as infrared spectrometry, nuclear magnetic resonance, fluorescence and UV/Vis spectrometry. One three-hour lab per week.

Prerequisite(s): CHE 250, CHE 305.

CHE 330 Instrumental Analysis Laboratory 2 Credits

This course is designed to give students practical experience using modern analytical instrumentation and to provide students with the background theory and principles of operation. The instrumental methods introduced in this course include: ultraviolet and visible spectroscopy, atomic emission spectroscopy, gas chromatography (GC), high performance liquid chromatography (HPLC), X-ray powder diffraction analysis and electrochemical analysis. This experimental laboratory course meets two times per week with three hours for each session. One session will be focused on instrumentation background theory and discussion and the other session will be experimental practice.

Prerequisite(s): CHE 214, CHE 250, PHY 201.

CHE 350 Advanced Organic Synthesis 2 Credits

The first of four experimental chemistry labs designed for chemistry majors. It presents the use of modern techniques, and instrumentation in organic chemistry, including distillation, chromatography, infrared, ultraviolet, nuclear magnetic spectroscopy, and mass spectrometry. Two three-hour labs per week.

Prerequisite(s): CHE 214.

CHE 375 Computational Chemistry Lab 2 Credits

This course will provide students with a means to explore various methods in computational chemistry. Basic computational methods will be developed from first principles and these methods will then be tested using various modeling and computational software packages. Methods will include, but are not limited to, molecular mechanics, semi-empirical molecular orbital calculations, ab initio methods, and density functional calculations. Students will be exposed to various computational software packages and the strengths and limitations of each methodology will be explored. The course will meet in a computer laboratory for two for three-hour lab periods a week.

Prerequisite(s): CHE 305.

CHE 400 Chemical Bonding 3 Credits

The effects of the chemical bond on the structure and properties of molecules are investigated. Molecular orbital theories of bonding are introduced. Emphasis is placed on group theoretical methods utilizing molecular symmetry to simplify the description of the electronic structure of molecules and to predict their geometric structures and reactivity. Three hours of lecture per week.

Prerequisite(s): CHE 305, MTH 212.

CHE 415 Special Topics in Chemistry 3 Credits

An advanced level of one or more areas of modern chemistry. Emphasis on research and the literature of an area of current importance. Three hours of lecture per week.

CHE 420 Physical Organic Chemistry 4 Credits

In-depth studies of the methods for elucidating mechanisms of organic reactions for students who have completed one year of organic chemistry and physical chemistry. Topics include conformational analysis, linear free energy relationships, frontier molecular orbital theory, transition state theory, and chemical reaction kinetics. Isotopic scrambling, kinetic isotope effects, NMR and IR spectroscopy, polarimetry, and ultraviolet-visible spectrophotometry will be employed to investigate these concepts. Three hours of lecture and one three-hour lab per week.

Prerequisite(s): CHE 214, CHE 305.

Corequisite(s): CHE 214L.

CHE 420L Physical Organic Chemistry Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): CHE 420.

CHE 490 Independent Research and Study 1-4 Credits

Immerses the student in laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

CHE 491 Internship in Chemistry 1-4 Credits

A supervised research experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in a private, public, non-profit, or governmental organizations under the guidance of a mentor. The mentor and student will have regular consultation with the departmental internship coordinator to assess the student's progress. Normally, 50 hours of internship per credit is required. The grade for the course will be determined by the students' overall performance in their research work, a research paper documenting their work with their internship mentor and an oral or poster presentation at the end of the semester.

Prerequisite(s): 2.5 GPA and permission of the instructor.

Chinese (CHI)

CHI 100 Chinese I 3 Credits

This course is designed to foster mastery of the basic skills of Mandarin Chinese: speaking, listening, reading, and writing. The focus of the course is on communicative competency and accuracy. Together with Chinese 101, the course provides a thorough foundation in basic Chinese grammar. Students will have opportunities to work extensively with audio and/or video tapes, computer language programs and above all, students from China.

Prerequisite(s): placement test if Chinese has been studied elsewhere.

CHI 101 Chinese II 3 Credits

A continuation of Chinese 100. This course continues to foster mastery of the basic skills of Mandarin Chinese: speaking, listening, reading and writing. The focus of the course is on communicative competency and accuracy. Together with Chinese 100, the course provides a thorough foundation in basic Chinese grammar. Students will have opportunities to work extensively with audio and/or video tapes, computer language programs and above all, students from China.

Prerequisite(s): Chinese 100 or placement test.

CHI 150 Chinese Culture and Basic Language 3 Credits

This course integrates beginning-level functional Mandarin Chinese language skills acquisition with the knowledge of Chinese business practices and culture as well as hands-on information and strategies for successful inter-cultural encounters. Students gain practical basic language skills through classroom practice and the use of audio/video and computer materials. Readings, films, documentaries and lectures in English by members of the business community enable students to integrate language acquisition with practical cultural knowledge and cross-cultural awareness. Examination of Chinese customs highlights social relationships and cultural practices. No knowledge of Chinese language is required. This course does not fulfill the SLAS foreign language requirement.

CHI 200 Chinese III 3 Credits

This course is designed to foster mastery of the intermediate skills of Mandarin Chinese: speaking, listening, reading, and writing. The focus of the course is on communicative competency and accuracy. Together with Chinese 201, the course provides intermediate-level Chinese grammar, vocabulary and cultural knowledge through the use of film clips, simple newspaper articles, Internet, and other multimedia resources. Students are required to work extensively with audio and/or videotapes, computer language programs and they have a unique opportunity to work with students from China.

Prerequisite(s): CHI 101 or placement test.

CHI 201 Chinese IV 3 Credits

This course is designed to foster mastery of the intermediate skills of Mandarin Chinese: speaking, listening, reading and writing. The focus is on communicative competency and accuracy. Together with Chinese 200, the course provides intermediate-level Chinese grammar, vocabulary, and cultural knowledge through the use of film clips, simple newspaper articles, Internet and other multimedia resources. Students are required to work extensively with audio and/or videotapes, computer language programs and they have a unique opportunity to work with students from China.

Prerequisite(s): CHI 200 or placement test.

CHI 300 Advanced Chinese Reading and Composition 3 Credits

This course develops Chinese reading and writing skills within a cultural context and aided by a systematic review and expansion of grammar and vocabulary. Using literary, journalistic, business and other sources, students learn various writing discourses and their Chinese variants including narration, description, exposition, and journalistic, business documentation and letter writing. Some translation is used to encourage linguistic analysis. Interviews with Chinese foreign nationals, Chinese Americans, and working with students from China enhance the cultural understanding of students necessary for meaningful reading and writing.

Prerequisite(s): CHI 201 or placement test.

CHI 307 Images of Women in Chinese Literature and Film 3 Credits

This course will introduce students to the (change of) status of women in China through literature and film. Students will explore the rich Chinese literary traditions and examine how the images of women are represented by both male and female writers/directors in fiction and film of different historical periods. In the process of such exploration and examination, students will also examine how the literary movements and their historical, social, cultural and political contexts shape, and are shaped by, each other. They will learn to understand how diverse the experiences of Chinese women are. While students will be exposed to both classic and modern/contemporary literary traditions, the focus will be on the latter, such as May 4th New Culture Movement, Maoist revolutionary literature, (Post-Mao) wound literature, Root-Searching literature, etc. Classes are in English.

CHI 310 Chinese Culture and Civilization 3 Credits

This course introduces students to the history, people and culture of China. They will explore China's powerful dynasties and empire and their cultural and aesthetic achievements, and will learn about nationalism, Mao's revolutionary communism. They will study China's religions, calligraphic, pictorial and ceramic traditions, literature, Chinese opera and cinema. Through an examination of Chinese customs, students will gain an appreciation of social relationships and cultural practices. No knowledge of Chinese language is required.

CHI 311 Calligraphy As a Window to Chinese Language and Culture 3 Credits

This course provides students with a chance to gain an intimate knowledge of Chinese language and culture through calligraphy. Students will learn the basic principles and techniques of writing Chinese characters with the writing brush. They will be introduced to the pronunciation, the composition and evolution of Chinese characters so that they will be able to read and understand what they write. Students will also learn how calligraphy is immersed in various aspects of Chinese culture. The main content of the course derives from examining applications of calligraphy to poetry, painting, and core concepts of Confucianism, Daoism and Buddhism. They will have a chance to cross time and space, having dialogues with Confucius, experiencing Buddhist bliss of final "awakening" or "enlightenment" and abandoning themselves to the Daoist spontaneous flow with the movement of Nature and the cosmos. No knowledge of Chinese language is required.

CHI 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

CHI 500 Democracy, Revolution/Reform and Literary Movement in Modern China 3 Credits

This course will exam representative works in modern and contemporary Chinese literature from the May 4th period to the "Red Classics Era" or Communist/ Maoist literature, to various Post-Cultural Revolution literary movements, situating them in their social, political, and historical contexts, exploring them as an imaginary space where various cultural and political values are contested, a space where modern Chinese identity is defined and redefined, and a space against which the trajectory of China's search for democracy and modernization is mapped. The literary movements that will be examined are: May 4th Literary Movement at the beginning of the 20th century; Maoist / Communist Literature from 1949 to the Great Cultural Revolution (1966-1976); Wound Literature from late 1970s to early 1980s; Root-searching literature from mid 1980s to the late 1980s; Postmodern Play Literature and Reform Literature from 1990s to the present.

College Reading (CRC)

CRC 100 College Reading 3 Credits

This elective course helps students develop greater skill and efficiency in meeting the demands of college reading. Primary emphasis is placed upon introducing, demonstrating, and practicing appropriate study strategies that will enhance overall academic performance. Instruction focuses on reading college textbooks more efficiently and effectively, improving comprehension and retention, and reading critically. Time management, note-taking skills, and other study strategies are introduced, demonstrated, and practiced. Reading and writing assignments complement and reinforce class instruction.

College of Business (CBA)

CBA 102 Career Plan & Perspective I 1 Credits

In this course students will explore their own history, goals and values as input to their definition of success. The course will set the stage for the remainder of students' college career, and will encourage them to draw connections among their career goals, educational performance, extra-curricular experiences, and available resources.

CBA 110 Introduction to Business 3 Credits

An introductory course emphasizing the global economy and the integration of functional areas of business that link strategy and business success. Critical issues such as ethics and technology will be covered along with an emphasis on leadership and communicative skills. A variety of supplemental teaching tools/approaches including videos, guest speakers, team projects, and The Wall Street Journal will be used throughout the course. Restricted to freshmen.

CBA 202 Career Plan & Perspect II 1 Credits

In this course, students will build on their CBA 102 self assessments to identify specific occupations that match who they are and where they want to go. The course will provide students with the understanding of the changed nature of the current work and career environment they will be entering when they graduate from Rider. They will acquire career management skills and apply these skills to develop short and long term career goals and plans for achieving them while at Rider. The course will also touch on the intersection of work and family roles.

Prerequisite(s): CBA 102.

CBA 302 Career Plan & Perspect III 1 Credits

This one credit course will be targeted to second semester sophomores and juniors. In this course, students will build on their CBA 102 and 202 self assessments to develop strategies for a successful job search. The course will provide students with an understanding of the changed nature of the current work and career environment they will be entering when they graduate from Rider. They will acquire career management and job search skills and apply these skills to developing, networks, identify job search resources and enhance resume and interview skills. Students will understand how to research potential employers and translate their experiences into a successful job search strategy.

Prerequisite(s): CBA 102 and CBA 202.

CBA 310 Global Business Studies-Paris 12-18 Credits

A regular course load in an approved program at the Institut de Gestion Sociale Universite/American Business School in Paris, France. Courses will be selected from a list pre-approved by the global business program at Rider. All business courses are taught in English. Two of the regular courses for all students in the program will be French language and civilization courses.

Prerequisite(s): 2.5 GPA; junior standing; permission of global business program director and CBA dean.

CBA 311 Global Business Studies-Paris 12-18 Credits

A regular course load in an approved program at the Institut de Gestion Sociale Universite/American Business School in Paris, France. Courses will be selected from a list pre-approved by the global business program at Rider. All business courses are taught in English. Two of the regular courses for all students in the program will be French language and civilization courses.

Prerequisite(s): 2.5 GPA; junior standing; permission of global business program director and CBA dean.

CBA 312 Global Business Studies-Paris 12-18 Credits

A regular course load in an approved program. See director of global business major for details of any programs being offered abroad.

Prerequisite(s): 2.5 GPA; junior standing; permission of global business program director and CBA dean.

CBA 313 Global Business Studies-Paris 12-18 Credits

A regular course load in an approved program. See director of global business major for details of any programs being offered abroad.

Prerequisite(s): 2.5 GPA; junior standing; permission of global business program director and CBA dean.

CBA 315 International Business Tour 3 Credits

Provides students with the opportunity to observe various international business environments outside of the United States. Students should gain a better appreciation of how culture, history, and politics influence organizational dynamics, business functions, and business customs.

Prerequisite(s): Junior or senior standing and permission of instructor.

CBA 316 Nature's Business 3 Credits

This interdisciplinary business-science course examines the relationship between economic, legal, biological, and environmental concerns and analyzes how a particular country attempts to preserve its biological diversity without sacrificing its economic development. Topics include ecotourism and the biodiversity, geology, cultural norms, and legal and political systems of the country. The study tour component of the course provides students with an opportunity to observe various international business and scientific environments outside of the United States.

Prerequisite(s): Permission of instructor.

CBA 317 Emerging Nations Study Tour 3 Credits

Through readings, lectures, student-led discussions, guest speakers, and a short-term study abroad experience, students become familiar with the culture, history, religion, and political structure of an emerging country or region. This includes an overview of economic conditions and business practices, insights on doing business with the country or region, and the importance of the country or region in the global economy.

Prerequisite(s): junior or senior standing and permission of instructor.

CBA 366 Selected Topics in Business 3 Credits

The study of a topic (or combination of topics) that represent some dimension of business or has important implications for business. This study may be theoretical and/or applied in nature.

Prerequisite(s): Permission of instructor.

CBA 367 Selected Topics in Business 3 Credits

The study of a topic (or combination of topics) that represent some dimension of business or has important implications for business. This study may be theoretical and/or applied in nature.

Prerequisite(s): Permission of instructor.

CBA 368 Selected Topics in Business 3 Credits

The study of a topic (or combination of topics) that represent some dimension of business or has important implications for business. This study may be theoretical and/or applied in nature.

Prerequisite(s): Permission of instructor.

CBA 369 Selected Topics in Business 3 Credits

The study of a topic (or combination of topics) that represent some dimension of business or has important implications for business. This study may be theoretical and/or applied in nature.

Prerequisite(s): Permission of instructor.

CBA 399 CBA Co-Op 6 Credits

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include junior and senior business students with a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in the major. Co-op credits can be applied toward business or free elective requirements. Grading is on a pass/fail basis.

Prerequisite(s): All 200 level business core and non business core courses, BUS 300, and FIN 300.

CBA 410 Intercultural Communic Sem I 2 Credits

The seminar provides non-U.S. native students with a supportive forum for discussing intercultural and communication challenges. The course seeks to make the Rider experience personal and academically fulfilling and successful. The specific course objectives include providing information about culture transitions and differences, providing cultural information and enhanced communication skills, reflecting upon and analyzing culture communication differences inside and outside of the classroom, and building study cases to help future international students with their transition and adaptation to U.S. life. Pass/fail.

Prerequisite(s): Permission of instructor.

CBA 411 Intercultural Communic Sem II 1 Credits

The seminar provides non-U.S. native students with a supportive forum for discussing intercultural and communication challenges. The course seeks to make the Rider experience personal and academically fulfilling and successful. The specific course objectives include providing information about culture transitions and differences, providing cultural information and enhanced communication skills, reflecting upon and analyzing culture communication differences inside and outside of the classroom, and building study cases to help future international students with their transition and adaptation to U.S. life. Pass/fail.

Prerequisite(s): Permission of instructor.

CBA 490 Independent Study 1-4 Credits**CBA 491 College of Business Internship 1-4 Credits**

Provides students an opportunity to supplement and apply classroom work in supervised employment with participating businesses, government offices or not-for-profit organizations. Requirements are to be determined by the faculty sponsor prior to the period of the internship and must include an academic component, preferably a written paper of project. There must also be a final evaluation from the organization on the intern's performance.

Prerequisite(s): Permission of instructor.

Communication-UG (COM)

COM 102 Introduction to News Writing 3 Credits

Introduces students to routines of journalism, including reporting, writing and preparing content for print and web. Incorporates contemporary practices in multimedia journalism, including digital audio, video and photos, into traditional skills, with an emphasis on accuracy, clarity and professional style and voice. Class exercises are completed in a laboratory newsroom.

COM 103 Intro Comm Studies:theory&prac 3 Credits

Provides a foundation for the study of communication across the discipline. Open to freshmen only, it is designed to assist the first year student majoring in communication or journalism to gain a broad understanding of the scope and breadth of the field. Fundamental communication theories, principles, concepts, terms, and issues are introduced.

COM 104 Speech Communication 3 Credits

Examines basic communication principles and strategies of public speaking. Various genres of oral communication are studied, with an emphasis on extemporaneous and impromptu forms of delivery. Students research, prepare, and deliver speeches that are then used as the focal point for the discussion of effective speaking and listening. A number of speeches are videotaped. Students who received credit for COM 104S may not take this course.

COM 104S Intro to Speech Communication 3 Credits

As part of the EOP program, this course is designed to improve the speaking and language skills of new college students. Through directed practice, students have the opportunity to develop poise and confidence in oral communication, as well as competence in analyzing and synthesizing messages. Emphasis is placed on development, organization, and delivery of speeches. To receive credit, a grade of "C" or higher must be earned. Students who receive credit for COM 104S may not take COM 104.

COM 105 Communication, Culture and Media 3 Credits

Provides a detailed investigation and analysis into the nature, history, scope, adequacy, and limitations of mass communication and examines the reciprocal influence of the media on culture and society.

COM 106 Writing for the Comm Professns 3 Credits

Provides students with written communication writing strategies and tools. Applies theory and practice in communication to targeted audiences. Emphasizes the critical role writing plays in the communication workplace and provides an opportunity to evaluate and respond to real-life writing samples and situations.

COM 107 Persuasive Writing for Media 3 Credits

Introduces students to interviewing and persuasive writing techniques for print and electronic public relations and advertising formats. Teaches techniques for creating effective digital audio-visual aids and working with digital audio and video.

COM 131 Fundamentals of Video Production 3 Credits

Introduces students to basic video production theories, techniques, and applications. Students will gain competency in a number of video production areas including: production planning, camera operations, lighting, sound, and digital non-linear editing. Individual and group production exercises will involve planning and executing video productions in both studio and non-studio settings. This class is designed to prepare students from any major to effectively create, produce, shoot, and edit basic video production assignments including public service announcements, video news releases, educational/instructional videos, and marketing/promotional spots.

COM 201 Communication Theory 3 Credits

Explores selected theories, models, and research methods in human communication, the dynamics of the communication process in various settings, and the role of communication in human interaction.

COM 204 Advanced Speech Communication 3 Credits

Provides students with the opportunity to further their study and practice of various types of speech communication. Moving beyond an introductory perspective, this course focuses on the development of critical, analytical, and pragmatic aspects of speech. The focus is divided between the discussion of theoretical models and a demonstrated competence of that material.

Prerequisite(s): COM 104 or COM 290.

COM 205 Theories of Persuasion 3 Credits

Analyzes the motivations that lead individuals and audiences to beliefs and actions and the techniques of achieving objectives through persuasion. Attention, interest, empathy, ethos, fear, and techniques of speakers, and those who use persuasion professionally are studied.

COM 210 News Reporting and Writing 3 Credits

Develops skills in hard-news reporting. Employs off-campus reporting assignments to refine information-gathering techniques such as interviewing, observation, and use of government documents and other contextual materials. Includes reporting and writing about police news, state and local government, the criminal justice system, science, business, and sports.

Prerequisite(s): COM 102.

COM 211 Copy Editing 3 Credits

Teaches all phases of copy editing for news and public relations: marking of copy, online editing, fact checking, building and shaping news and feature stories, applying mechanical style, building an ear for graceful English, and safeguarding against legal and ethical problems. Provides comprehensive review of grammar, spelling and punctuation, along with intensive practice in writing headlines and captions and editing wire copy.

Prerequisite(s): COM 102.

COM 212 Publication Design 3 Credits

Explains theories, principles, and techniques of print media layout and design. Provides an understanding of the use of type and art as design elements in various publication formats, such as newspapers, newsletters, advertisements and brochures. Directs students to apply these concepts to the creation of published materials using Adobe Creative Suite.

COM 215 Computer Assisted Reporting 3 Credits

Develops advanced reporting techniques for researching and writing in-depth news stories and investigative articles. Uses state-of-the-art computer-assisted reporting methods including finding and mining data bases on the Internet, creating spreadsheets to analyze data, and employing data base manager software to sort and summarize information in government documents and other specialized resources. Focuses on conceptualizing of story ideas, planning major projects, gathering information by means of data bases, participant-observation, interviews, and analysis of public documents. Emphasizes organizing large quantities of material and presenting it in a meaningful context, including with information graphics.

Prerequisite(s): COM 102 or permission of instructor.

COM 220 Voice and Articulation 3 Credits

Increases the student's knowledge of the vocal elements of oral communication and improves use of voice and articulation. Introduces anatomy and physiology for enhanced vocal production. Analyzes volume, rate, pitch, quality, phrasing, stress, and inflection. Presents the International Phonetic Alphabet as a means of developing correct articulation and pronunciation. Uses classroom exercises and tape recording for feedback and learning.

COM 230 Radio & TV Communication 3 Credits

Examines the field of electronic communication and its role in society. Scrutinizes the history, technology, structure, and regulation of broadcasting including issues, trends, and the impact of new communication technologies. Introduces basic principles of effective communication in broadcast writing and producing.

COM 233 Writing for Broadcast 3 Credits

Introduces diverse and highly structured writing styles and formats used in writing for broadcast. With focus on effective and creative writing using broadcast style, students will be exposed to the fundamentals of writing dramatic and non-dramatic material for radio and television including station IDs and liners, public service announcements and commercials, news and public affairs programs, and short dramatic and documentary scripts. Through lectures, case discussions, in-class assignments, and critiques, emphasis will be on the practical application of basic rules and conventions common to broadcast writing from copy preparation to on-air delivery.

COM 234 Audio Production 3 Credits

Provides a laboratory study of audio production techniques, and performance. Introduces the fundamental properties of sound as applied in modern audio production at radio and television stations, sound studios, and production houses. Students conduct lab exercises in editing, mixing, and digital recording using ProTools. Students perform a variety of genres including news, commercials, dramas, and promos.

COM 235 Digital Filmmaking 3 Credits

This course will provide students with an introduction to basic narrative film production including theories, techniques and applications. Students will gain competency in a number of film production areas including: idea generation and scripting, production planning, cinematography, lighting, sound and digital editing. Working as individuals and in groups, students will develop and produce short narrative film projects. Students will continue to develop proficiency and mastery of the use of specialized vocabulary of the film industry as well as the ability to analyze film and its narrative structure. In addition students will break down the "narrative" focusing on genre conventions and subtext. Students will additionally examine the relevance of film to society while developing proficiency and mastery in the study of how to create film projects.

COM 240 Public Relations 3 Credits

Introduces current theories and practices of public relations, with emphasis on facilitating two-way communication with various publics. Explores approaches to public relations problems by critically analyzing case studies and applying theories and techniques to realistic situations.

COM 251 Interpersonal Communication 3 Credits

Focuses on the study of various communication concepts and theories and the development of interpersonal skills and sensitivities. More specifically, students will participate in lectures, exercises, and projects while exploring the role and function of relationships in their professional, social, and personal lives.

COM 252 Intercultural Communication 1.5-3 Credits

Develops intercultural communication competence through an awareness and understanding of diverse cultures and their impact on communication. It will introduce students to those general factors that influence communication with people from diverse cultures both internationally and within the United States, and offer a blend of skill development, communication theory, and hands-on application. Note: This course is crosslisted as GLS 252. Students may not get credit for both COM 252 and GLS 252.

COM 253 Organizational Communication 3 Credits

Focuses on the ongoing communication processes in organizations. This course examines how and why organizations develop policies and procedures that both encourage and yet constrain creativity and autonomy in employees. It also introduces various management skills to balance the dynamic in organizations. Finally, the course introduces students to various communication technologies that enable communication processes in organizations. Students will also have opportunities to participate in creating organizational dynamics through role-playing exercises, case studies, and other kinds of experiential learning.

COM 254 Intro to Health Communication 3 Credits

Health communication has been shown to have a positive impact on a number of facets of the medical visit, including patient outcomes, patient satisfaction, and job performance and satisfaction. This course will provide students with tools to implement health communication practices in a healthcare setting in order to improve these areas. In addition, health communication is particularly useful in cross-cultural situations, both in regard to the patient-provider relationship, when the ethnicities of the two parties may be different, and when cultural beliefs may impact a patient's medical wishes. Part of the tools for implementing health communication into the practice setting includes an understanding of the role that culture can play in healthcare and the development of strategies to provide optimal medical care while also respecting cultural intricacies.

COM 261 Multimedia Prod I-Inter Design 3 Credits

Introduces students to digital graphics, text, audio and video for Web design using Adobe Creative Suite. Students will learn the basics of audio, video, graphic, and interactive software along with theories of design and perception that underlie effective presentation of digital messages.

COM 262 Graphic Imaging for Multimedia 3 Credits

Teaches students techniques for image development, and image preparation for various multimedia applications. Emphasis is placed on color calibration and palette issues, image manipulation, advanced image selection techniques, transparency and masking, multimedia authoring file formats, and dynamic image design. Students will be expected to participate in critiques of professional designs in order to learn to critically evaluate their work and their fellow students' work.

Prerequisite(s): COM 261 or permission of instructor.

COM 263 History and Principles of Graphic Design 3 Credits

Covers the history and principles of graphic design from analog art through the digital revolution. The elements and principles of design will be used to study stylistic progressions, artistic techniques, design innovations, and mechanical inventions. Material will be presented through a combination of illustrated lectures and discussions.

COM 264 Intro to Media Convergence 3 Credits

Introduces the ways that the merging of media industries and the intersection and integration of various media platforms and technologies impact our lives. While the primary focus will be on digital and mobile technologies and practices, the course will also cover the convergence of digital technologies in a wide range of media areas, including journalism, social media, television and entertainment. The course will offer students broad conceptual frameworks for thinking about how the emergence and evolution of digital as well as mobile communication technologies have changed the communication and journalism industries and how they are reshaping content. In addition, the course is intended to allow students to use different digital communication technologies.

COM 265 3D Graphic Animation 3 Credits

Provides students with an introduction to the basics of 3D graphic animation techniques including modeling, texturing, rendering, visual effects and animation. Through various projects the students will learn: to model characters, sets and props, how to apply textures and color to their models, and how to bring their creations to life using various animation techniques. In addition to the technical aspects of creating successful animation, the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation, dramatization and narrative.

COM 280 Issues in Event Planning 3 Credits

Offers students education in event planning, production, and supervision for varied professional applications. Emphasis will be placed on planning, budgeting, and organizing small and large events for educational, institutional, non-profit, and professional groups. Students will participate in the entire process of event planning, with specific experiences in applying communication theory to actual projects.

Prerequisite(s): COM 240 or MKT 200.

COM 290 Professional/Strategic Speech 3 Credits

Provides students with practical information necessary for effective communication in various business and professional settings. Covers communication processes, principles, and models in the modern organization. Class assignments are given with emphasis on developing a knowledge and practical understanding of informative, persuasive, and impromptu presentations. Limited to students enrolled in the College of Business Administration.

COM 291 Documentary Film and Video 3 Credits

Surveys the history of documentary film, including reportorial, exploratory, persuasive, symphonic, compilational, reflexive, and fictional traditions through screenings, lectures, and readings. Provides practice in film criticism. Explores philosophical questions about the relationship between non-fiction films and videos and the reality they purport to record. Analyzes ethical problems of filmmaking.

COM 301 Communication Law 3 Credits

Critically examines the legal limits and privileges affecting freedom of expression, especially in publishing, advertising, film, telecasting, and cyberspace. Places particular emphasis on the historical and philosophical foundations of the freedoms and limitations of communication in the United States.

COM 302 Communication Ethics 3 Credits

Analyzes internal and external pressures on the communication professional including economic, cultural, social, and political pressures, assesses the philosophical and practical basis for responding to such pressures, evaluates contemporary media responses to these pressures, identifies those that are of laudable quality and why, and provides guidance as to how individuals and organizations can think and react ethically. Issues addressed include censorship, confidentiality, conflicts of interests, minority and ethnic groups, privacy, sensationalism, and self-criticism.

COM 312 Spe Topics in Jour Writing 3 Credits

Provides students with the opportunity to explore specialized topics in journalistic reporting and writing. Each course will focus on a specific area in the broad field of journalism. Examples include business reporting, health reporting, and sports reporting.

Prerequisite(s): COM 102 or COM 107.

COM 316 Feature Writing 3 Credits

Focuses on problems and requirements of newspaper, magazine, public relations, and free-lance nonfiction writing. Students write features designed for acceptance in print, broadcast and digital media and learn marketing techniques.

Prerequisite(s): COM 102 or COM 107, English writing concentration, or permission of instructor.

COM 318 Gender and Communication 3 Credits

Focuses on interactive relationships between gender and communication in contemporary American society. It connects theory and research with practice to explore multiple ways communication in families, schools, media, and society in general creates and perpetuates gender roles. It is designed to heighten students' awareness of how we enact socially created gender differences in public and private settings and how this affects success, satisfaction, and self-esteem. Note: This course is crosslisted as GND 318. Students may not get credit for both COM 318 and GND 318.

COM 322 Argumentation and Debate 3 Credits

Investigates the theory and practice of speech communication that seeks to persuade by inferential argumentation. Concentrates on theories, practices, and research in argumentation and debate, blended with speaking experience in analyzing and advocating controversial topics.

Prerequisite(s): COM 104 or COM 290.

COM 323 Oral Interpretation of Lit 3 Credits

Provides an orientation to the field of oral performance. Students select literary texts, adapt the material to the audience and prepare it for presentation. Emphasizes the development of voice, articulation, and kinesic behavior. Presentations to the class are critiqued.

Prerequisite(s): COM 104 or COM 290 or permission of instructor.

COM 328 Sitcoms and American Culture 3 Credits

Provides an overview to the unique and highly structured form of the American television situation comedy. The primary focus will be on history and development with in-depth study of situation comedy themes, characters, and settings. Through lectures, case discussions, in-class assignments, and class projects, students will examine the social and cultural meanings and implications of this incredibly popular and durable genre of programming.

COM 330 Documenting Cultures Thru Travel 3 Credits

Offers students, through travel and study, a unique opportunity to gain firsthand experience of a foreign culture and to learn how to record and document their experiences using multiple media, including print, audio, video, photography and/or the Web. While traveling, students will be required to attend lecture/discussion sessions, site tours, and other planned activities. This experience will be preceded and/or followed by additional academic work to be conducted on campus. Study topics may include aspects of the historical, social, economic, political and aesthetic cultural components appropriate to the location(s) to be visited. The travel component of the course will be scheduled to avoid conflict with normal semester offerings. No foreign language skills are required.

COM 331 Television Production 3 Credits

Explores the technological capabilities and limitations of the television medium in team productions using a range of styles and formats. Students learn principles of studio production, electronic field production, and electronic news gathering. Exercises include use of computer graphics, audio production, and non-linear video editing. Stresses electronic communication skills and aesthetic values in a professional production setting.

Prerequisite(s): COM 230.

COM 333 Broadcast Programming 3 Credits

Analyzes the theory, practice, structure, and function of broadcast programming. Examines the structure of the industry as it relates to entertainment, information, and the audience. Studies program categories, formats, genres, trends, consistency, accountability, and ratings as well as cable, satellites, and home video. Critical standards are developed by introducing humanistic and scientific modes of program analysis.

Prerequisite(s): COM 230.

COM 335 Television Field Production 3 Credits

Provides an in-depth study of advanced techniques in Field Production for television. Individual and group field production assignments will involve planning and executing single camera production in a non-studio setting. Previously developed video production skills will be refined, and students will gain increased competency and sophistication in all areas of field production including: production planning, camera operations, lighting, sound, and digital non-linear editing. Designed to prepare students to effectively function in the industry as a member of a professional field production team. In field situations, students create, produce, shoot, and edit documentaries.

Prerequisite(s): COM 331.

COM 337 Music Production for Mass Media 3 Credits

Offers students education in audio production techniques for music and other advanced audio material. Building on theory and practice introduced in the prerequisite, the class will instruct students in the theory behind acoustics and electronics as well as the digital tools and media. Those theoretical studies will be put to practice through exercises in recording music, making selections from music libraries, multi-track recording, arranging, editing, mixing and mastering. Students will begin to develop both an engineer's attention to audio detail and a musician's sense of artistry. Putting these skills to use, the students will produce complete musical works of varying musical styles, working both individually and in teams.

Prerequisite(s): COM 234.

COM 338 Writing for Broadcast II 3 Credits

Building on COM 233 Writing for Broadcast, this course provides a hands-on approach to more sophisticated reporting and interviewing techniques and writing formats used in long-form radio and television programs. This course will expose students to the following broadcast script writing areas: features, documentaries and reality programs. It will also cover writing for interview/talk show programs, music, comedy and variety programs. Students will also be exposed to writing for corporate, educational and children's programming. Students will have hands-on experiences writing, producing and editing news pieces and webcasts for student and area media outlets and web sites.

COM 341 Publicity Methods 3 Credits

Applies communication theory to writing and editorial processes and production techniques to create public relations materials; includes press releases, industrial publications, social media, trade publications, brochures, newsletters, stockholder reports, and multimedia platforms.

Prerequisite(s): COM 107, COM 240, or permission of instructor.

COM 347 Sports Media Relations 3 Credits

Critically examines the symbiotic relationship between the mass media and professional sports franchises and major college athletic programs. This course deals with the workings and processes behind executing the proper techniques of sports information and media relations, as well as an analysis of the culture of sports in modern society. Students will develop a practical focus on sports information and promotion, including the role of the sports information director and events promoter, with emphasis on advanced concepts of public relations, publicity and marketing.

Prerequisite(s): COM 240 or permission of instructor.

COM 348 Communication Research Methods 3 Credits

Introduces students to the research methods used to study communication problems and processes. Students will learn how researchers plan and design research studies, explore the methodological considerations of both qualitative and quantitative methods, and have an opportunity to gain hands-on experience in conducting research on communication-related issues.

Prerequisite(s): COM 105.

COM 350 Team & Group Communication 3 Credits

Examines the communication process as it relates to the small group. Theoretical constructs including motivation, group climate, attraction, leadership, decision making, problem solving and roles are analyzed. Utilizes group experience to study and evaluate the dynamics and effectiveness of interpersonal systems.

COM 352 Chinese and American Intercultural Commu 3 Credits

Instructs students about Chinese culture and communication. Culture impacts communication practices and styles in significant and subtle ways. Through readings, lectures, discussions, and first-hand interactions with Chinese international students, the students of this course will gain both conceptual and practical understanding of major communication differences between the two cultures, and become a more skilled intercultural communicator. Note: This course is crosslisted as GLS 352. Students may not get credit for both COM 352 and GLS 352.

COM 353 Nonverbal Communication 3 Credits

Investigates studies in and theories of nonverbal communication. Lectures and experiential activities explore the effect of status, culture, and gender upon kinesics, physical characteristics, proxemics, tactile communication, paralanguages, artifacts, and environmental factors.

Prerequisite(s): COM 104 or COM 290 or permission of instructor.

COM 360 Adv Publicatn Design & Present 3 Credits

Builds on elementary knowledge of graphic design to teach the principles of advanced layout, and computer graphics. Introduces students to industry standard drawing software and builds on their knowledge of layout software gained in the prerequisite course. Provides an understanding of the use of logos, infographics and magazine layout, and of the theoretical bases of color for print production.

Prerequisite(s): COM 212.

COM 361 Photography 3 Credits

Using digital SLR cameras, introduces students to professional methods of shooting varied subjects while applying a range of compositions and styles. Using Photoshop, students edit images for publication in print and on the Internet. Hands-on coursework is grounded in theory, history, aesthetics, and ethics. Some cameras are available for loan from the University.

Prerequisite(s): permission of instructor.

COM 363 Converging Digital Media 3 Credits

Examines the digital technologies that make up the new world of digital convergence. The course will examine the effects of digital media convergence on social life, ethics, industry, and local and global communities through a variety of theories and paradigms. This course will also help students develop necessary digital media production skills and use them critically to solve media development problems.

COM 364 Multimedia Production II - Web Design 3 Credits

Equips students with the theories and practical techniques required to produce effective digital text, graphics, and animations for the Web. Discusses theories behind the use of these media in terms of effective communication and interaction. Introduces students to different computer platforms and requirements for cross-platform media.

Prerequisite(s): COM 261 or permission of instructor.

COM 365 Graphic Animation 3 Credits

Offers students education in graphic animation theories, animation development techniques, and animation preparation for various multimedia applications. Emphasis is placed on the design principles in animated communication and animation techniques. The course covers the integration of static images in animation, graphic animation techniques, animation compression, animation rendering, input/output file formats, and animation delivery. The primary software for this course is Adobe Photoshop and Macmedia Flash. Students will be expected to participate in critiques of professional animation designs in order to learn to evaluate critically their own work and their fellow students' work.

Prerequisite(s): COM 262 or permission of instructor.

COM 366 Project Management in Graphic Design 3 Credits

Explores the creative process of graphic design while developing an understanding of the methods employed in problem solving in the industry standard design software packages. Students learn how to create a hierarchy of information through the ordering of elements into a comprehensive visual unity. They consider the relationship between content and page size, proportion, grid and margins. Students learn about typography as a design element and how it works with other visual elements in design. In order to develop an understanding of the project-planning process for either printer or Web projects, students will develop and present a series of projects that will build on one another to develop their "visual voice." Students will be evaluated on their ability to apply course material to the projects to create professional-quality work; their ability to apply exchange ideas and accept and apply constructive criticism; and on their participation in class discussions, critiques and presentations.

Prerequisite(s): COM 262, COM 360.

COM 367 3D Graphic Animation II 3 Credits

Continue to learn the techniques of 3D computer animation including modeling, texturing, rendering, visual effects and animation. In addition to the technical aspects of creating successful 3D animation the students will also learn the aesthetics of animation in regard to cinematography, art direction, lighting, character creation, prop creation, and set creation.

Prerequisite(s): COM 265.

COM 380 Television Production Practicum 3 Credits

Provides a workshop dedicated to the planning and creation of professional caliber television content for the campus television network and beyond. This course will provide an opportunity for students to develop writing, graphic, audio, video design and production skills in an experiential setting. Students will create materials to be used by the Rider University Network and for broadcast, cable and Internet distribution. Students can be involved in any and all phases of creating content from project conception through implementation. Students will gain valuable experience with, a greater appreciation for, and increased competency in creating professional media content. This class will also prepare students to more effectively function in the communication industry as an effective member of a professional production team. Since topics will vary by semester and instructor, this course may be repeated once.

Prerequisite(s): permission of instructor.

COM 390 Communication and Society 3 Credits

Examines in a topical manner the influence of communication upon significant issues and movements affecting people and society. Investigates interpersonal and mass media factors as they relate to a major issue such as changing sex roles, radicalism, racism, evangelism, election campaigns, and technology. May be taken more than once with different emphasis.

COM 391 Communication Criticism 3 Credits

Investigates and analyzes various methods of communication criticism and their applications to the understanding and evaluation of public and media discourses. Introduces theories and perspectives to assist in the analysis of those discourses. Methods include Aristotelean, Burkean, and ideological criticism.

COM 392 Media History: Personalities and Trend 3 Credits

Presents in a topical manner the history of the media from various perspectives, seeking to place the material into a meaningful economic, cultural, political, and/or social context. Different issues and related individuals are examined, such as the golden age of radio, motion picture economics, and media empire builders, with a view toward understanding their significant impact on the development and functioning of the media today. This course may be taken more than once with a different emphasis.

COM 393 International Communication 3 Credits

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is crosslisted as GLS 393. Students may not get credit for both COM 393 and GLS 393.

COM 399 The Co-Operative Experience 3-12 Credits

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. Prerequisite(s): junior standing and 2.75 GPA at the time of registration; Pass/fail.

Corequisite(s): IND 398 The Co-operative Experience Seminar, IND 398 and (dept) 399 combined cannot exceed 15 credits.

COM 400 Senior Seminar Communication 3 Credits

Provides students with the opportunity to explore critical issues in communication and journalism in a dynamic and engaging context. Students conceptualize problems, develop hypotheses, review literature, design appropriate techniques of inquiry, conduct their research, and present their findings orally to the seminar and in writing to the instructor. Senior journalism and communication majors only.

COM 415 In-Depth Reporting 3 Credits

Utilizes advanced tools and techniques of contemporary in-depth reporting for print and multimedia. Covering multifaceted stories, students will learn how to do balanced multi-sourced field reporting and writing using primary and secondary sources including human sources, electronic documents and databases, both online and offline. Emphasis will be placed on writing stories that answer not only who, what, when and where questions but also the why, the how and the "so what?" questions. Students will also be exposed to some of the best investigative work of journalists past and present as models for analysis and discussion.

Prerequisite(s): COM 210.

COM 431 Adv TV Research & Production 3 Credits

Explores the theoretical and practical application of aesthetic technique in modern television/video production situations. While the prerequisite courses emphasized competency in equipment operations and basic production skills, this course moves to a higher platform by emphasizing concepts of production and how to apply them for effective communication. Thus this course places emphasis on advanced techniques: design and aesthetics as applied to enhance the overall video presentation as practiced in both the commercial and organizational communication arenas. In the current state of the art of video production, a mastery of aesthetic skills is necessary for the effective expression of ideas in optimal fashion and for a variety of audiences. Students will be exposed to as many techniques as practical through class discussion (including heavy participation by the student), individual and group lab activities and contact when possible with current practitioners and equipment. As most television production is done for a client, that process will form the basis for much of the course discussion and activities including projects.

COM 434 Advanced Radio Production 3 Credits

Provides in-depth study of advanced techniques in audio recording and radio programming and production. Individual and group production of short and long-form radio projects including: promotional spots, features, music programming, and news. Students will be involved in all phases of programming and production for radio including: project conception, development, management, and implementation. Selected student projects will air on the student radio station, 107.7 The Bronc.

Prerequisite(s): COM 234.

COM 435 Advanced Digital Filmmaking 3 Credits

This is an intensive hands-on course in advanced digital filmmaking. Students will gain experience with and proficiencies in a number of filmmaking areas including: creativity, production planning, aesthetics, scripting, script breakdown, camera movement, selecting and directing talent, creating scenes and sequences, visualizing action, establishing mood and conflict, as well as advanced lighting, sound and digital editing techniques. The students' use of high definition digital imaging systems as a medium for narrative cinematography will be developed and refined. In addition, students will explore how filmmaking techniques and technology can impact the visual story telling process. While often working cooperatively in groups, modeling the interdependent structure of film crews today, the creative and leadership role of the director in the contemporary film industry will be emphasized. Throughout the class, there will be an important integration of theory and practice which will enable students to produce meaningful film projects that will not only be technically effective, but strong in content and context as well.

COM 440 Cases & Campaigns in PR 3 Credits

Critically analyzes public relations case problems in industry, labor, education, government, social welfare, and trade associations. Emphasizes problem solving through the use of communication theories, public relations techniques, creative thinking, and the development of professional goals and standards. Employs realistic simulation exercises and actual case studies to develop and critique students' ability to demonstrate this knowledge in professional situations.

Prerequisite(s): COM 341 or permission of instructor.

COM 452 Seminar in Communication Studies 3 Credits

Offers an in-depth investigation of relational communication. Students explore the many complexities involved in human interaction and interpersonal dynamics. Social and psychological implications of various communicative relationships ranging from cross-gender communication to dysfunctional family systems to intercultural interactions are included.

Prerequisite(s): COM 348, COM 350, or permission of instructor.

COM 460 Multimed Prod III-Adv Int Des 3 Credits

Builds on previous courses to refine students' understanding of theories and procedures of digital media development. Further develops Web site creation and project management theories. Students develop advanced Web creation techniques, including responsible site production.

Prerequisite(s): COM 364.

COM 462 Advanced Graphic Design and Portfolio 3 Credits

Explores the processes of graphic design by creating independent and creative solutions to a series of design problems. Students expand their proficiency in all aspects of the design process, including creative brainstorming, conceptualizing, critical thinking and presentation. Students take a design project to both print and digital formats using Photoshop, Illustrator, and InDesign. Students develop and present a balanced portfolio as the culmination of their experience in the course.

Prerequisite(s): ART 103, ART 105, COM 262, and COM 360.

COM 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

COM 491 Internship in Communication 1-4 Credits

Places qualified students in a professional area related directly to their communication training. Students may intern in a communication position with a corporation, small business, media outlet, public relations agency, non-profit organization, political party, sports organization, or other similar organizations. A minimum of 50 hours of internship per credit is required. Written reports, a final project, and supervisor evaluations are used to analyze and evaluate the experience. For students majoring in the Department of Communication and Journalism only, primarily juniors and seniors. No more than two internships are permitted for each student; exceptions may be made. The deadline for registration is the first Friday of the semester.

Prerequisite(s): 3.2 GPA and permission of instructor.

Computer Information Systems (CIS)

CIS 185 Information Systems Essentials 3 Credits

This course will enable students to use Microsoft Excel and Access to design advanced applications for effective decision making. Enterprise-wide application systems concepts and an introduction to SAP R/3 will be presented. Students will also be introduced to Web-based services technologies such as RSS feeds, blogs, wikis, as well as social networking and Web 2.0 technologies. Additionally, throughout the course, students will evaluate the ethical implications associated with digital information access and integration.

CIS 200 Web Application Development I 3 Credits

In the early 1990s, Tim Berners-Lee created a set of technologies to allow information sharing at the CERN particle accelerator in Europe. These technologies dramatically changed the face of computing and became what we know today as the Web. Understanding how to develop and manage applications for the Web is a requirement for the information system professional. Because of the ease of development, deployment, maintenance and general scalability of Web applications, this approach to building and managing applications has become the de facto standard for business application development. This class will examine Web application development in detail. Through a combination of lecture and labs, students will learn the architecture of Web applications, how to develop Web pages using HTML and CCS, how to control user interaction with those pages using the JavaScript programming language. The programming basics of variable declaration and usage, program flow of control, function declaration and calling, and object usage and declaration will also be shown. The use of the JQuery Javascript library to ease the development of Web pages will also be shown.

CIS 220 Web Application Development II 3 Credits

In the early 1990s, a set of network technologies was combined to create a platform for application development. These technologies are now referred to as the Web. Because of the ease of development, deployment, maintenance, and scalability of Web applications, this approach to building and managing applications has become the de facto standard for business application development. Understanding how to develop and manage applications for the Web is vital for information systems professionals. This class will examine Web application development in detail. Through a combination of lecture and labs, students will learn the architecture of Web applications, how to develop Web pages using the Hypertext Markup Language (HTML) and Cascading Style Sheets (CSS), and managing user interaction in those pages using the JavaScript programming language. The process of creating dynamic web pages using the PHP programming language on the Web server will also be taught.

Prerequisite(s): CIS 200.

CIS 255 Into to Game Design & Development 3 Credits

The basic concepts, logic, techniques, tools, and vocabulary associated with interactive, digital game and simulation development will be explored through a combination of lectures, discussions, and hands-on learning. Knowledge and skills derived can be applied to a wide variety of business and other organizational settings globally for interactive simulations, games, and education.

CIS 260 Business Graphics 3 Credits

Basic color theory, typography, and page/slide layout are presented. Students utilize presentation, word processing and photo editing applications to create and edit various documents through hands-on labs and projects.

Prerequisite(s): CIS 185 or permission of instructor.

CIS 270 Networking and Telecommunications 3 Credits

This course provides an introduction to business data communications and networking. The Internet and OSI models are discussed. Network technologies include local area networks, backbone, wide area networks, and the Internet. Introduction to network design, security, and network management are also provided.

Prerequisite(s): CIS 185.

CIS 300 Object-Oriented Programming 3 Credits

Students will learn the basic concepts of object-oriented programming as contrasted with traditionally structured programming and will develop applications using the Java programming language.

Prerequisite(s): CIS 200.

CIS 309 Data Structures & Cmptr Archit 3 Credits

An introduction to linked lists, stacks, queues, trees, pointers, and sorting and searching algorithms. Students will learn the technical details of data storage and manipulation along with the concepts of program execution, and will use tools such as hex-editors and debuggers.

Prerequisite(s): CIS 185 or permission of instructor.

CIS 315 Integrated Business with SAP 3 Credits

This course provides an introduction to enterprise resource planning (ERP) systems and addresses how integrated information systems improve business operations. Students will learn about functional business areas and business processes, and understand the problems inherent in un-integrated enterprise information systems. Using SAP software and case studies, students will learn how ERP systems are being used to facilitate integrated, real-time management decision making.

Prerequisite(s): CIS 185 and ACC 210.

CIS 319 Computer Forensics 3 Credits

Students will use computers to obtain and analyze evidence found on storage devices such as those confiscated under warrant, and learn how to trace digital activities. Criminal and investigative procedures will be explored in depth.

Prerequisite(s): CIS 185.

CIS 320 Systems Administration 3 Credits

Students learn the various facets of administration including operating system installation, configuration, maintenance troubleshooting and monitoring. The important task of administering computer security, including user accounts and authentications, will also be discussed. Hands-on labs will be done in the Windows Server 2012 environments.

Prerequisite(s): CIS 185.

CIS 325 User-Centered Design 3 Credits

This course introduces students to the design and evaluation of interactive and internet-based devices and systems, including methods to understand user needs and requirements, design and prototype alternative systems, and evaluate system usability. Topics include interaction design, human factors, requirement gathering techniques, protocol analysis, usability testing, and heuristics evaluation.

Prerequisite(s): Junior standing.

CIS 330 Database Management 3 Credits

This course involves the study of computer databases. Major topics include relational databases, use of the structured query language (SQL) to query relational databases, and design and maintenance of relational databases.

Prerequisite(s): CIS 185.

CIS 340 Electronic Commerce 3 Credits

Students will learn about the broad range of Internet business technologies; develop the skills necessary to create and administer successful electronic commerce projects; and understand the associated benefits, and risks of electronic commerce business models.

Prerequisite(s): CIS 185.

CIS 360 Data Mining 3 Credits

This course deals with modern technologies for data analysis. Hands-on exercises for data retrieval, data visualization and predictive analytics will be carried out using up-to-date methodologies and software tools. The full data mining life cycle will be covered from recognizing business problems and opportunities amenable to data mining analysis through deploying and monitoring solutions.

Prerequisite(s): CIS 185.

CIS 370 Systems Analysis and Design Project 3 Credits

Topics include modeling techniques and methodologies to address the planning, analysis, design, and implementation of high quality systems, delivered on time and within budget. Using rapid application development tools, students will also construct an operational system within the span of a single semester. Issues and tools related to the management of project teams are also discussed.

Prerequisite(s): CIS 330.

CIS 375 Adv. Sem in Global Outsourcing 3 Credits

The course is aimed at generating a comprehensive understanding of the emergent domain of global business process outsourcing. Various referred to as knowledge process outsourcing, IT-enabled services outsourcing, and business services outsourcing, the industry has seen enormous growth over the last decade and continues to grow. India commands the single largest share of this market but South Africa, Eastern Europe, Philippines, Morocco and Egypt have all emerged as other contenders in this global sector. The course is divided into four modules: the political economy of global outsourcing, process modeling, outsourcing management, and industry analysis. Please note: Students will not receive credit for both CIS 375 and GSC 375.

Prerequisite(s): junior standing.

CIS 385 Management Information Systems 3 Credits

The course focuses on the management and use of information systems and technology for the strategic and operational advantage of the firm. Students explore the business value of information resources including current communication, database, as well as hardware and software technologies. Additionally, students gain an understanding of enterprise systems and business process integration through hands-on experience using SAP. Please note: Students will not receive credit for both CIS 385 and GSC 385.

Prerequisite(s): CIS 185 and junior or senior standing.

CIS 390 Project Management 3 Credits

This course introduces students to general project management, the process of organizing resources to achieve business goals. Topics include the identification, approval, analysis, and general management of complex business projects. Project management tools, reports, techniques, and approaches will be covered.

Prerequisite(s): CIS 185.

CIS 399 The Co-Operative Experience 6 Credits

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their computer information systems and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include junior computer information systems majors with a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in any computer information systems coursework completed prior to submission of the co-op application. Three of the co-op credits can be applied toward the computer information systems major, and three credits can be applied toward business or free elective requirements. Grading is on a pass/fail basis.

Prerequisite(s): Completion of two of the three courses: CIS 200, CIS 270, and CIS330.

CIS 410 Selected Topics: Game Design and Dev. 3 Credits

Information and communication technologies are evolving rapidly and continually. The Special Topics course facilitates the exploration of a selected topic (or combination of topics) that represents a recent technological advance with important and direct implications in the field of computer information systems. Current research, readings, lectures, discussions and/or hands-on computer experience or other appropriate measures will be employed to stimulate student learning.

Prerequisite(s): to be determined by instructor.

CIS 420 Enterprise Security 3 Credits

This course introduces students to computer security. Coverage includes hardware, software, and network security issues. Through hands-on labs students will learn how computer systems can be comprised and how computer professionals can prevent and provide counterattacks for security intrusions.

Prerequisite(s): CIS 270 or permission of instructor.

CIS 430 Enterprise Systems Configuratr 3 Credits

The major focus of this course includes the forces driving enterprise integration as well as the management decisions associated with the design and implementation of enterprise systems. Students will use SAP R/3 extensively to configure, build, test, and implement an enterprise system for a real business environment from the ground up.

Prerequisite(s): ACC 210 and MSD 340.

CIS 490 Independent Research and Study 1-4 Credits

Topic to be approved by professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

Prerequisite(s): permission of instructor.

CIS 491 Computer Information Systems Internship 3 Credits

This is an honors course that provides the student with approximately two months of supervised employment with participating companies. Students are given a variety of information technology experiences. They are required to complete a term paper and/or to make an oral presentation to the faculty. Grading is on a pass/fail basis.

Prerequisite(s): permission of instructor.

Dance (DAN)

DAN 100 Fundamentals of Dance 1 Credits

Designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for two classes per week at the Princeton Ballet School. One additional hour per week is comprised of video observation, lecture, or readings, and is taught at Rider's Lawrenceville campus. Prerequisite(s): permission of dance advisor; Dance Studio Courses Ballet I.

DAN 100A Ballet I 0 Credits
DAN 100B Ballet II 0 Credits
DAN 100C Ballet III 0 Credits
DAN 100D Ballet IV 0 Credits
DAN 100E Ballet V 0 Credits
DAN 100F Ballet VI 0 Credits
DAN 100G Jazz I 0 Credits
DAN 100H Jazz II 0 Credits
DAN 100I Jazz III 0 Credits
DAN 100J Modern Dance I 0 Credits
DAN 100K Modern Dance II 0 Credits
DAN 100L Modern Dance III 0 Credits
DAN 100M Spanish Dance I 0 Credits
DAN 100N Spanish Dance II 0 Credits
DAN 100O Spanish Dance III 0 Credits
DAN 100P Pilates Mat Class 0 Credits
DAN 100Q Accelerated Adult Ballet I 0 Credits
DAN 100R Accelerated Adult Ballet II 0 Credits
DAN 100S Accelerated Adult Ballet III 0 Credits
DAN 100T Accelerated Adult Ballet IV 0 Credits
DAN 100U World Dance Forms 0 Credits
DAN 100V Yoga 0 Credits
DAN 100W Tap 0 Credits
DAN 100X Ballet VII 0 Credits
DAN 100Y Choreography 0 Credits
DAN 100Z Movement Fundamentals 0 Credits
DAN 105 Survey of Dance History 3 Credits

An introductory course to familiarize students with the breadth and depth of dance in human society. It will chronologically examine dance through four lenses: Dance and Community, Dance and Religion, Dance and Politics, and Dance as Art. Students will be exposed to various dance forms from around the world with varying purposes, functions, and motivations from the beginning of recorded history to present.

DAN 111 Dance Lab 0 Credits
DAN 151 Pilates and Modern 1 Credits
DAN 152 World Dance & Improvisation 1 Credits
DAN 180 History of Movement Theory 3 Credits

Investigation of the mind-body connection, somatic experience, body therapies, movement and theories. The essential questions are: How is it that we move with awareness, fluidity, efficiency and precision?

DAN 190 Dalcroze Eurhythmics 3 Credits

This movement course familiarizes students with the basic elements of music theory (staff, clefs, time signatures, notations, chords, etc.) and the Dalcrozian principles regarding music, movement and improvisation.

DAN 201 Vaganova I 1 Credits

This studio course focuses on fundamental knowledge about the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique.

DAN 202 Vaganova II 1 Credits

This studio course continues the development of knowledge concerning the vocabulary, discourse, performance and style of the classical ballet, especially as it pertains to the Vaganova Technique. Repeatable twice for total of three times taken. May only be repeated if there are open spots after those taking it for the first time have registered.

Prerequisite(s): DAN 201.

DAN 210 Rider Dances: Repertory & Productions 1 Credits

This course provides an in-depth experience with the art of dance production from creation to performance. Students will be chosen to learn and perform repertory; fulfill technical roles such as sound, lighting and costume design; and assume production and managerial responsibilities such as promotion, publicity, front of house management and stage management.

Prerequisite(s): permission of instructor.

DAN 210T Rider Dances Rep&Produc:Tech 1 Credits
DAN 220 History of Choreography 3 Credits

This course prepares the dance student for the creating of dance through critical analysis, reading, writing and practical assignments. Students will examine creative process as applied to dance artists and various forms of dance.

DAN 300 Lecture & Studio in Dance 2 Credits

Dance 300 series is also designed to offer students concurrent participation and theoretical inquiry in specific dance forms. Students must register for four classes per week at the Princeton Ballet School. One additional hour is comprised of video observation, lecture, or readings and is held at Rider's Lawrenceville campus. **Prerequisite(s):** permission of instructor; Dance Studio Courses Ballet I.

DAN 300A Ballet I 0 Credits**DAN 300B Ballet II 0 Credits****DAN 300C Ballet III 0 Credits****DAN 300D Ballet IV 0 Credits****DAN 300E Ballet V 0 Credits****DAN 300F Ballet VI 0 Credits****DAN 300G Jazz I 0 Credits****DAN 300H Jazz II 0 Credits****DAN 300I Jazz III 0 Credits****DAN 300J Modern Dance I 0 Credits****DAN 300K Modern Dance II 0 Credits****DAN 300L Modern Dance III 0 Credits****DAN 300M Spanish Dance I 0 Credits****DAN 300N Spanish Dance II 0 Credits****DAN 300O Spanish Dance III 0 Credits****DAN 300P Pilates Mat Class 0 Credits****DAN 300Q Accelerated Adult Ballet I 0 Credits****DAN 300R Accelerated Adult Ballet II 0 Credits****DAN 300S Accelerated Adult Ballet III 0 Credits****DAN 300T Accelerated Adult Ballet IV 0 Credits****DAN 300U World Dance Forms 0 Credits****DAN 300V Yoga 0 Credits****DAN 300W Tap 0 Credits****DAN 300X Ballet VII 0 Credits****DAN 300Y Choreography 0 Credits****DAN 300Z Movement Fundamentals 0 Credits****DAN 350 Hist Ballet,Modrn&JazzDance 3 Credits**

Studies the major periods in the development of Western Theatrical Dance from the Renaissance to the present focusing on ballet, modern, jazz, tap and musical theater dance. The course will examine the ideas and individuals that caused the development of choreographers, producers, designers and productions.

DAN 450 Pedagogy and Methodology in Dance 3 Credits

This course provides the student with first-hand experience inside a classroom setting to broaden the students' understanding of dance techniques, teaching styles and strategies, analysis of skills and critical feedback, class preparation and design, and assessment. Course requirements include off-campus field work.

DAN 490 Independent Research & Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

DAN 491 Internship in Dance 1-4 Credits

Provides junior or senior dance majors with the practical experience of working within an educational or professional dance environment. Students must be sponsored by a dance professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

DAN 493 Special Topics in Dance Studio 1 Credits

This class covers a discrete movement style, technique, or form such as the choreography of Balanchine, the technique of Cecchiti or dance theater fusion.

Prerequisite(s): DAN 100.

DAN 495 Selected Topics in Dance History 3 Credits

Intensive study of a particular topic in dance history or theory. This may include one era, movement or nation's dance history and practice. Students will become deeply involved in an area through research, class discussions and group projects.

DAN 498 Senior Capstone 3 Credits**DAN 499 Seniors Honor Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Early Childhood Education-UG (ECE)

ECE 332 Issues and Challenges in Early Childhood Education 3 Credits

This course addresses the role of parents of young children within the context of school, home and society, as well as the influence of culture, traditions and current issues in early childhood education. Students will explore the efficacy of parenting techniques and behaviors on child development in the early years, including cognitive growth, emotional and social well-being and physical health. Students will investigate strategies for fostering home-school partnerships that enhance child development and educational success, as well as the influence of community, culture and socio-economic status on families and schools throughout our world. In addition, this course addresses current issues and challenges in the early childhood profession including inclusion of children with special needs, advocacy for quality care and education for all young children, and any other subject that might arise - either from the lives of children and families, teachers' professional development, or community agencies. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

ECE 450 Developmental Methods and Assessment in Early Childhood Education 3 Credits

The focus of this course is developmentally appropriate and culturally responsive curriculum and teaching P-3 settings as delineated in the guidelines of the National Association for the Education of Young Children. Students will learn how to make curriculum and teaching decisions based on knowledge of child development, content area, curriculum content standards, and home and community cultures. In order to meet the ever-changing needs, interests, and growing strengths of individual children, careful observation and assessment provides teachers with information on which to base adjustments of teaching plans. This course will provide opportunities to deepen understanding of child development; gain an appreciation for the professional responsibility of ongoing assessment of children; and, develop the necessary skills to gather, record, and interpret information in a deliberate and reflective manner. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

Economics (ECO)

ECO 200 Principles of Macroeconomics 3 Credits

A collective view of income receiving and spending sectors of the national economy, including households, businesses, and governments. Issues discussed: What determines the level of output, income, and employment achieved by the economy? What determines the growth of national output and employment? National income accounting, income and employment theory, monetary system, general price level, business cycle, government policies designed to provide for full employment, price stability, and economic growth are also covered.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

ECO 201 Principles of Microeconomics 3 Credits

Market price systems are analyzed. The nature and characteristics of consumer and producer behavior, the theory of pricing in competitive and noncompetitive markets, and determination of the distribution of output are evaluated. Welfare, social control, monopoly, and income inequality are explored in the light of price theory. The role of the United States in the world economy is explored.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

ECO 210 Intermediate Macroeconomics 3 Credits

An analytical study of modern aggregate economic theory. Emphasizes the measurement and determination of income, employment, and price levels, as well as economic policy in theory and practice.

Prerequisite(s): ECO 200 and ECO 201.

ECO 211 Intermediate Microeconomics 3 Credits

This course is designed to give the student a thorough understanding of microeconomic theory. As such, the course will analyze the behavior of both consumers and producers, and how this behavior determines the price and quantity observed in the market. The course objective is to provide students with the necessary theoretical background to enable them to solve meaningful and practical problems. Thus, the course is both theoretical and applied in its orientation. The course will emphasize that economic theory can be used not only to solve market oriented problems, but social and public policy problems as well.

Prerequisite(s): ECO 200 and ECO 201.

ECO 300 Business Conditions Analysis/Forecast 3 Credits

Business conditions change daily. Students study them as they change, learning to understand them in the light of economic theory, learning how each part of the economy is affected, and learning the advantages and limitations of the most reliable forecasting methods.

Prerequisite(s): ECO 200, MSD 201.

ECO 301 Managerial Economics 3 Credits

Intensively examines the theory of the firm with applications to the solution of such managerial problems as demand forecasting, the nature and behavior of costs, and product pricing. Introduces the use of simple mathematical and statistical tools that are employed with economic analysis for solving managerial problems.

Prerequisite(s): ECO 200 and ECO 201 and MSD 201 or permission of instructor.

ECO 305 International Trade and Investment 3 Credits

Studies the theory, institutions, and structures underlying the international flow of trade and investment. Topics are: the theory of international trade; balance of payment analysis; the international monetary system; adjustment to balance of payment disequilibrium; regional economic integration; the economic effects of trade restrictions; and trade and foreign investment problems of developing nations.

Prerequisite(s): ECO 200 and ECO 201.

ECO 315 Comparative Economic Systems 3 Credits

Provides a conceptual framework for classifying and comparing economic systems. Presents theory of the capitalist market economy and case studies of the U.S., Japanese, French, and Swedish economies. Examines theory of the centrally planned economy, its transition, and case studies of the Soviet and its successor states, Chinese, and East European economies. Case studies are necessarily limited, concentrating on selected topics, such as transition strategies, industrial policy, etc.

Prerequisite(s): ECO 200 and ECO 201.

ECO 325 Industrial Organization 3 Credits

Explores the relationship between market structure and performance. Topics include concentration in individual industries, product differentiation and entry barriers, pricing and marketing policies, and antitrust policies and their consequences.

Prerequisite(s): ECO 200 and ECO 201.

ECO 326 Economics of Sports 3 Credits

The overall objective of this course is to deepen student understanding of microeconomic principles by applying microeconomic concepts to the analysis of professional and amateur sports. This course will utilize concepts from many different microeconomic specialties, (primarily Industrial Organization, Labor Economics and Public Finance). The tools from these different microeconomic fields will be used to explain and analyze the operation of professional sports teams and leagues in the U.S. with an emphasis on baseball, football, basketball and hockey. International comparisons will be made between professional sports in the U.S. and the rest of the world. The course will also analyze the not-for-profit sports sector, focusing on college sports and the National Collegiate Athletic Association.

Prerequisite(s): ECO 201.

ECO 330 Labor Market Analysis 3 Credits

Intensive study of the economics of the labor market, which examines the determinants of labor supply and demand, and market equilibrium in the labor market. This enables the student to understand what determines wages, labor force participation, occupational choice, the extent of education and training, unemployment, poverty, union membership, and discrimination in the labor market.

Prerequisite(s): ECO 200 and ECO 201.

ECO 335 Economics of the Public Sector 3 Credits

Analyzes the economic roles of government: allocation; distribution; and stabilization. The course examines the tools used by governments, especially the federal government, such as taxation, expenditures, regulations and laws in order to achieve economic goals. The course will give special attention to social regulation.

Prerequisite(s): ECO 200 and ECO 201.

ECO 336 Economics of Health Care Sys 3 Credits

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomic tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes. Note: This course is cross-listed as HTH 336. Students may not get credit for both ECO 336 and HTH 336. For business students who take the course as ECO 336, the course will count as a business course. If taken as HTH 336, the business student will receive credit as a liberal arts course.

Prerequisite(s): ECO 201 or HTH 205.

ECO 365 Post-Soviet Economy 3 Credits

Studies the contemporary post-Soviet economic system, with emphasis on institutions, policies and issues related to business opportunities in this area. Topics covered include the historic, geographic, political, and cultural setting, planning and plan implementation in the traditional system, current reforms and prospects for the future, with special reference to the foreign trade institutions and experience of foreign firms doing business in the post-Soviet Union and Eastern European countries.

Prerequisite(s): ECO 200 and ECO 201 or permission of instructor.

ECO 450 Seminar in Economic Research 3 Credits

Students in the course learn to conduct economic research by engaging in an actual community-based research project. At the beginning of the semester, students are assigned to a community-based organization. As a team, students meet with the client, devise a plan of action, collect and analyze data and other information, and write a report to the client. At the end of the semester, students present their findings to the client. Students are permitted to take ECO 450 up to two times for credit.

Prerequisite(s): Permission of instructor.

ECO 490 Independent Research and Study 3 Credits

Topic to be approved by professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

ECO 491 Internship/Independent Study 3 Credits

This course is available to qualified economics majors and minors. Evaluation is based on a performance appraisal provided by the participating firm and a project/paper judged by the major's internship director. This course can be used as a business or free elective. Grading is done on a pass/fail basis.

Prerequisite(s): Permission of instructor.

Education Foundation (EDE)

EDE 200 Effective Classroom Management 3 Credits

Issues of classroom management often pose the biggest challenges for novice teachers. However, with the proper training many of these obstacles can be prevented, which results in more time spent on effective instruction. This course is based on two premises: (1) that most problems of classroom order can be prevented through the use of effective, research-based classroom management strategies, positive teacher-student relationships, and engaging instruction; and (2) that the goal of classroom management is the development of an environment conducive to both academic and social emotional learning. Given these premises, the course focuses not on disciplinary interventions designed to control students, but on ways of preventing disruptive behavior, creating a peaceful, caring community, resolving conflicts, and meeting the needs of diverse students through the use of effective motivational and instructional strategies. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

EDE 225 Guided Field Experience in K-12 Classrooms 3 Credits

This is a field-based course in which students will spend an intensive three-week term in a designated school setting, mediated by University faculty. Students will participate in the daily routines of elementary, middle, or secondary schools. Field-site teachers will mentor students by articulating decisions that they make regarding classroom instruction and assessment. Students will meet regularly in seminar to analyze and discuss issues related to teaching and learning. This course will be offered J-Term, Summer I or other three week period.

EDE 306 Thinking Critically with Data 1 Credits

This course will help students develop the kinds of data literacy skills needed for success in teaching. It will focus on five related that teachers need: (1) finding the relevant pieces of data in the data system or display available to them (data location); (2) understanding what the data signify (data comprehension); (3) figuring out what the data mean (data interpretation); (4) selecting an instructional approach that addresses the situation identified through the data (instructional decision making); (5).

EDE 307 Assessment in 21st Century Classrooms 1 Credits

This course offers an in-depth look at assessment to meet the need of 21st century teaching and learning. Students learn how to plan, develop, interpret, and manage valid assessments of student learning. Students will learn the following assessment-related skills and understandings: (1) the purpose of assessment in 21st century classrooms; (2) basics of assessments: reliability and validity; formative and summative assessment; alignment of assessments with objectives; and determining what can (what cannot) be reliably and validly assessed; (3) basics of rubric development; (4) holistic scoring; (5) assessment of critical thinking skills in diverse domains; (6) assessment of creativity in diverse domains. The course will be taught online.

EDE 375 Applications for Teaching Mathematics in Grades 4-5 1 Credits

This course will provide students the experience to share and learn about the practical applications of teaching mathematics to the 4th and 5th grade children as they are based on the field site classrooms of these grades. Students complete reflections about their work with mathematics and their observations of their cooperating teachers' lessons. The developmental aspect of math skills will be reviewed, looking at the Learning Progressions that are the basis for the new Common CORE State Standards. This course will provide an opportunity for students to have guidance in the teaching and learning of mathematics in the upper elementary grades. Upon completion of this course, students should have the knowledge, skills and confidence to meet the needs of all students, K-6. Prerequisite(s): ELD 375.

Corequisite(s): ELD 376 or ELD 308 or as prerequisite.

Education-UG (EDU)

EDU 010 Cohort Seminar 1 Credits**EDU 106 Contexts Of Schooling 3 Credits**

Students in this field-based course will begin to examine aims, practices, and contemporary issues of schooling in their historical, sociological, philosophical, and futuristic contexts and from the perspectives of various multicultural constituencies— students, parents, local community, wider economic community, government, and the profession. In doing so, they will begin to develop professional skills of observation, reflection, analysis, and argument. This course must be taken concurrently with Developmental Educational Psychology. A cumulative GPA of 2.75 is required. All Elementary Education students must have taken the Praxis II Elementary Education: Multiple Subjects Test (test code 5031, described below). Elementary Education students do not need to have passed the test but only to have taken the tests to register for EDU 106 and EDU 206. There is no Praxis requirement for Secondary Education students registering for EDU 106 and EDU 206.

EDU 206 Developmental Education Psychology 3 Credits

This field-based course focuses on: a) the cognitive, personality, social, creative, and moral development of children; b) influential theories, concepts, and research findings of educational psychology; and c) the translation of psychological theory into classroom practices. This course must be taken concurrently with Contexts of Schooling. All Elementary Education students must have taken the Praxis II Elementary Education: Multiple Subjects Test (test code 5031, described below). Elementary Education students do not need to have passed the test but only to have taken the tests to register for EDU 106 and EDU 206. There is no Praxis requirement for Secondary Education students registering for EDU 106 and EDU 206. A cumulative GPA of 2.75 is required.

Prerequisite(s): PSY 100.

EDU 320 Introduction to Linguistics and Psycholinguistics 3 Credits

This course provides an introduction to the properties of human languages and to their systematic study in the field of linguistics and psycholinguistics. Topics include the nature of human language as distinct from other communication systems; sound patterns (phonology), word-formation (morphology), sentence structure (syntax), and meaning (semantics) in the world's languages; relations to cognition, communication, and social organization; dialect variation and language standardization; language learning by children and adults; and the nature and history of writing systems. Intended for any undergraduate and graduate interested in language or its use. It is assumed that students have had no prior course work or exposure to linguistics and will begin with the basic assumptions that are shared by those who study language from a variety of perspectives. Students analyze their own speech patterns, investigate different speech acts in different languages and develop a research project using a linguistic construct in order to apply it to the second language classroom. Students present this project in a poster format to the university community at the end of the semester. A cumulative GPA of 2.75 is required. NOTE: This course is cross-listed as FLE 320. Students cannot get credit for both FLE 320 and EDU 320.

EDU 358 Literacy and the Bilingual/Bicultural Child 3 Credits

Presents multidisciplinary and interdisciplinary perspectives on bilingual/bicultural children and their reading process. Strategies and materials for second language reading instruction are suggested and discussed.

EDU 420 Teaching a Second Language 3 Credits

This course focuses on interactive methods of teaching a new language as well as cross-cultural understanding. Students learn to plan using national and state standards for language instruction, organize activities, design and direct language learning tasks, and assess learning. Includes theoretical positions on communicative language learning and teaching, the use and evaluation of currently used materials, the design of new materials, and field experiences in the language to be taught. Students develop their professional portfolio, participate in an E-seminar, prepare a unit of study, and present lesson segments. Open to prospective world language teachers, ESL and bilingual teachers, as well as practicing teachers seeking certification. A cumulative GPA of 2.75 is required. *NOTE: This course is cross-listed as FLE 420. Students cannot get credit for both FLE 420 and EDU 420.

Prerequisite(s): EDU 106 and EDU 206.

EDU 451 Special Topics in Education 1-6 Credits

Student teachers, graduate interns, Rider faculty, cooperating teachers, and building-level administrators will engage in collaborative study of a topic through reading, writing, discussion, observation, and reflection on their work in classrooms. Work in these seminars will help student teachers synthesize knowledge from their professional courses and all participants extend their understanding of a particular topic pertaining to teaching. Teacher research methods will be employed as participants analyze their own teaching through perspectives of the seminar topic. Topics will vary each semester. This course is dual-listed for undergraduate and graduate credit. Enrollment is limited to students concurrently enrolled in student teaching and to cooperating teachers and principals working with them.

EDU 460 Educating and Evaluating the Bilingual Child 3 Credits

An examination of the historical, legal, and pedagogical aspects of the education of language minority students. Considers the design of school programs for minority students including legal mandates, testing, staffing, and funding. Emphasis is placed on the evaluation of bilingual students as they enter, develop and exit from special programs of study. A cumulative GPA of 2.75 is required.

EDU 465 Student Teaching and Seminar 12 Credits

A full-time program for seniors providing practical teaching experience in an accredited elementary or secondary school. Under the direct supervision of the cooperating teacher, student teachers are responsible for the planning of lessons and for teaching in their areas of specialization and for developing a high level of teaching competency. Supervisors from Rider observe the student teachers at work, confer with the cooperating teachers and student teachers, and evaluate the growth of the student teachers throughout the internship period. Special topics are considered in seminars held in conjunction with student teaching. These topics include school health and substance abuse, school law, teacher certification and placement, classroom management, mainstreaming, professionalism, and other topics deemed appropriate by the faculty and student teachers.

Prerequisite(s): 1. Satisfactory completion of junior-level professional courses; 2. Cumulative GPA of at least 3.0 prior to commencing the semester in which student teaching is to be completed; 3. All professional education courses, with the exception of those taken concurrently with student teaching, must be completed with a grade of "C + " or better; 4. A candidate for student teaching must be approved by the education division and the coordinator of student teaching. There is an additional fee for Student Teaching.

Educational Technology (TEC)

TEC 201 Internet Ethics 1 Credits

This course focuses on using the Internet to explore and reflect on current ethical issues involving technology. These include individual privacy, legal issues such as fair use and copyright laws, and social issues such as bullying and social networking. Students will explore these topics using a variety of search engines and will reflect on the information found in terms of its impact on society as well as its appropriate uses in personal life, education and business. Pass/fail.

TEC 202 Smartboard 1 Credits

This course is designed to provide an opportunity for students to become familiar with the features and applications of Smartboard, an interactive whiteboard that can be used in classrooms and professional presentations. Students will gain experience using the touch screen and in integrating the features of the program into learning and professional materials. Pass/fail.

TEC 203 Desktop Publishing and Web Page Design 1 Credits

This course provides students with the ability to use desktop publishing software to create materials suitable for use in classrooms, professional settings, and personal use, and with the ability to design web pages. The course is appropriate for anyone who will be involved in designing classroom and student publications and for those who will use web pages in their teaching or personal lives. Discussion will be held on how to use desktop publishing and web page design in elementary and secondary school settings. A project involving application of various desktop publishing and web page design techniques will be completed and demonstrated to the class. Pass/fail.

TEC 204 Electronic Spreadsheets and Classroom Management Software 1 Credits

Basic electronic spreadsheet concepts and applications are taught using a major spreadsheet program. Topics include writing basic formulas, copying formulas, playing "What If," customizing a worksheet, and printing a spreadsheet. Discussions will be held on how to integrate spreadsheets into elementary and secondary classes and activities. Pass/fail.

TEC 205 Electronic Portfolios 1 Credits**TEC 206 Teaching and Presenting with Technology 1 Credits**

This course covers designing, planning, and using technology enhanced instruction and presentations. Group assignments will enable students to explore uses of technology to enhance instruction and presentations. Collaboration will be encouraged when discussing the efficient and effective use of technology. Three collaborative group reports will be submitted dealing with discussion questions and chapter topics. Appropriate web sites and programs will be visited. Students will design a final original application that could be used to create motivation and visual learning in a specific classroom or other professional setting related to their major areas of study. Emphasis will be given to technology integration strategies. A final oral presentation of individual projects will be given.

TEC 207 Social Media for Education 1 Credits

This course will introduce students to the structure and culture of social media and how social networking applies to the educational environment. The course will foster a deep understanding of the how the structure and culture of social media in the educational environment can benefit students, teachers, administrators, and stakeholders in the educational process.

TEC 308 Directed Study in Instruct 3 Credits

Designed to enable the student to develop instructional presentations utilizing the advantages of multimedia technology. Each student will be required to create a multimedia portfolio that contains information presentations, cumulative records, presenter notes, work samples, photo library, video animation, and audio narration. Cooperative learning strategies will be utilized throughout the course. Developmental/reflective strategies will include self-reflection, peer feedback, and interaction with the instructor in class and via E-mail. Expertise will be developed as the course progresses.

TEC 309 Instruct Media/Technology Management 3 Credits

Designed to develop technology management skills that can be used for individual classrooms, training centers, subject area specializations, grade levels, school laboratories, curriculum integration, administrative functions, system networks, community services, communication systems and connecting linkages between educational/work environments and home. Various management strategies will be explored and each student will have an opportunity to design, via a multimedia microcomputer, an instructional technology system of their choice along with a management plan. Cooperative learning strategies will be utilized throughout the course. Developmental/reflective strategies will include self-reflection, peer feedback, and interaction with the instructor in class and via E-mail.

Prerequisite(s): At least six semester hours of technology courses or modules.

TEC 404 Assistive and Augmentative Technology 3 Credits

This course will emphasize the use of assistive technology, augmentative communication modalities, visual supports, and related instructional strategies that maximize the learning of all individuals including those with exceptional learning needs. Students will learn how to effectively customize materials and adapt learning environments using computer technology. Students will become familiar with the use of high-tech, low-tech, and no-tech solutions that support the individualized needs of learners with a wide range of disabilities.

Prerequisite(s): SPE 201.

TEC 445 Work Exper Cooperative Program 3-6 Credits

A minimum of 300 hours of a supervised occupational experience or a supervised internship program in an approved work station or institution. The experience is coordinated and supervised by a qualified coordinator of occupational education. A series of activities are designed to relate job and intern experiences to the student's future role as an employee or a professional teacher. The student will be evaluated by the supervising employer and the University supervisor.

TEC 490 Independent Research and Study 1-6 Credits

Provides the student with an opportunity to study an area of personal interest. The outline for the study must be accepted by a sponsoring professor and approved by the student's department and academic dean. The number of semester hours credit to be assigned is determined by the department.

Elementary Education (ELD)

ELD 128 Developing Mathematical Ideas for Elementary School Teachers 1 Credits

Prospective teachers will examine the mathematics content and curriculum that is taught in grades K-6, focusing upon the multi-layered aspects of the topics that successful elementary teachers need to understand profoundly in order to provide appropriate instruction. There will be a series of topics selected from those that have historically been especially difficult for teachers to thoroughly understand at the depth needed to teach effectively. Some of the topics may vary each semester.

ELD 307 Emergent Literacy P-3 3 Credits

This course is needed to meet the requirements for the specialized endorsement in Early Childhood. The course establishes a solid foundation of knowledge about literacy in the early years and dispels myths regarding readiness to read and write. In addition, the course contains the foundational aspects of literacy, including the relationship between oral language and literacy, the linguistic foundation of literacy, and the social contexts of literacy learning. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

ELD 308 Fostering Language and Literacy Development 3 Credits

Explores current understanding of the fields of reading/language arts from the perspectives of theory and practice. Students write lesson plans, critique methods of instruction and assessment and develop a portfolio of an individual student from their field site. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206; ELD 307.

ELD 350 Early Adolescence 1 Credits

This course will focus on common dilemmas faced by young people as they move from childhood into adolescence. It will examine age-related differences between children and adolescents and consider ways to create stimulating environments that fit this developmental transition. Representations of adolescence in the media and in research will be compared, including common stereotypes. A cumulative GPA of 2.75 is required.

ELD 355 Teaching in the Inclusive Middle School Classroom 1 Credits

This course will highlight the legal and ethical responsibilities of general education teachers in the middle school classroom. The special education process will be discussed and methods to address special needs in the classroom will be shared. Strategies to differentiate instruction and work collaboratively with school community members will help pre-service teachers develop and implement effective instruction that meets diverse needs in the middle school inclusive classroom. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

ELD 360 Structure and Culture of Middle School Classroom 1 Credits

This course focuses on the teaching of those concepts critical to the understanding of the structure and culture of middle school education. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

ELD 375 Methods of Teaching Mathematics in Elementary Classrooms 3 Credits

This course focuses on the teaching of mathematics that is developmentally appropriate for students from nursery to grade eight. In keeping with ACET, NAEYC, and NCTM Standards, emphasis is placed on planning for and implementing an integrated curriculum approach, discovery learning, hands-on experience, theme cycles, use of technology, and traditional and non-traditional assessment strategies. Field experiences will consist of classroom observations and teaching individuals and/or small groups of students. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206, MTH 102 or MTH 105 or MTH 210.

ELD 376 Teaching Science, Social Studies and the Arts N-6 3 Credits

This course focuses on methods and materials of instruction in science, social studies, and the arts that are developmentally appropriate for students in preschool through grade five (based on NCSS, NSTA, and NAEA Standards). Emphasis is placed on an integrated approach to curriculum, with lesson and unit planning activities that incorporate hands-on-experiences, discovery learning and traditional and non-traditional assessment strategies. Field experience will consist of observation and analysis of classroom instruction and the teaching of lessons to individual and/or small groups of children. A cumulative GPA of 2.75 is required.

Prerequisite(s): ELD 307 and ELD 375.

ELD 380 Methods of Teaching Mathematics in the Middle School 3 Credits

This course focuses on the teaching of mathematics that is developmentally appropriate for students in grades six through eight. In keeping with the National Council of Teachers of Mathematics (NCTM) Standards, emphasis is placed on planning for and implementing an inquiry-based approach, hands-on experience, use of technology, and traditional and non-traditional assessment. Field experiences will consist of observations and teaching to individuals, small groups and whole classes of students. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

ELD 385 Teaching Science in the Middle School 3 Credits

This course focuses on the teaching of sciences that is developmentally appropriate for students in grades six through eight. In keeping with the National Science Education Standards, emphasis is placed on planning for and implementing an inquiry-based approach, hands-on experiences, use of technology and traditional and non-traditional assessment strategies. Field experiences will consist of observations and teaching to individuals, small groups and whole classes of students. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

ELD 390 Teaching Social Studies in the Middle School 3 Credits

This course focuses on the teaching of social studies that is developmentally appropriate for students in grades six through eight. Its focus will explore understanding of United States history, geography and civics from the perspective of the middle school. The course emphasizes the ten themes of social studies as developed by the National Council for the Social Studies. In addition to the facts, concepts and generalizations encompassed by the ten themes, the course works with academic, social, thinking and citizenship skills. The required, intensive field experience in a middle school promotes direct application of the concepts, skills and dispositions addressed in the course. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

ELD 395 Literacy Learning in the Middle School 3 Credits

This course focuses on the teaching of literacy that is developmentally appropriate for students in grades six through eight. It explores processes in reading, writing, speaking, listening and viewing, relationships among the language arts and other subject areas, and the development of critical literacy and cognitive strategies. The intense field experience in a middle school promotes direct application of the concepts, skills and dispositions addressed in the course. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

ELD 490 Independent Research and Study 1-6 Credits

Provides the student with an opportunity to study an area of personal interest. The outline for the study must be accepted by a sponsoring professor and approved by the student's department and academic dean. The number of semester hour's credit to be assigned is determined by the department.

English (ENG)

ENG 205 Understanding Literature 3 Credits

The novel, the short story, drama, and poetry are studied, with a view to the insights to be gained from literature.

ENG 206 Introduction to Creative Writing 3 Credits

A workshop that introduces students to basic conventions and techniques of creative writing. Students will read and study published writing in multiple genres, such as short fiction, drama, poetry, and creative nonfiction, and write and revise their own creative pieces.

ENG 208 Arthurian Legends in Literature 3 Credits

The legends attached to King Arthur and the Knights of the Round Table have become cultural touchstones in England and the United States. This survey of medieval to contemporary Arthurian literature examines the legends and their written versions within their respective cultural, historical, philosophical and aesthetic contexts.

ENG 210 Major American Authors 3 Credits

An introductory course focusing on major American poets, novelists, essayists, and playwrights.

ENG 211 Major British Authors 3 Credits

An introductory course focusing on major British poets, novelists, essayists, and playwrights. Students will learn to understand, interpret, and evaluate literary works.

ENG 213 Literature and Mythology 3 Credits

The interrelationships that exist between literary works and folklore, ritual, and religious scriptures and beliefs are explored. The primary emphasis is on analyzing the presence of mythic patterns in specific literary works; the secondary emphasis is on theories of mythology.

ENG 214 Monsters in Literature 3 Credits

This course examines various texts on the topic of monsters. Students read and watch films, and explore the answers to the following: Who are they? Undead, alien, satanic, outcast, hidden, hostile, tragic. Where are they? Crossroads, arctic wastes, moors, abandoned buildings, forests, outer reaches, inside. What do they want? Revenge, bodies, lives, escape, life, contact, humanity.

ENG 215 Satire and Comedy 3 Credits

Explores these two related modes of literature with the primary emphasis on satire. Possible readings include works by Euripedes, Jonson, Shakespeare, Moliere, Voltaire, Pope, Swift, Dickens, Twain, Wilde, Waugh, Orwell, and Heller.

ENG 217 Intro To Shakespeare 3 Credits

Students in this course study Shakespearean drama on an introductory level through close reading, analysis, and discussion of selected plays. They learn the relevance and importance of Shakespeare's themes, characterizations, and imagery.

ENG 219 Literature and Violence 3 Credits

This course will examine and critique themes of violence that have become a pervasive and recurring artistic thread in classic literary texts. Through careful, close textual readings and critical analyses of thematically selected texts that contain multiple artistic representations of violence in varied literary genres, students will explore literary violence as a possible metaphor for understanding dimensions of power, control and dominance. In analytical studies of thematically selected texts, students will gain new insights and critical perspectives on modern American society and the social causes and ills of violence. Students will delve into the root, cause and meaning of violence and they will further grow to understand why and how violence still maintains a pervasive presence in their daily lives and in the very literature they read.

ENG 220 Literature & Society 3 Credits

Literature is examined, emphasizing human behavior as it relates to such social phenomena as war, alienation, social disorganization, injustice, and poverty.

ENG 221 Literature and Psychology 3 Credits

Students will study Freudian and other psychoanalytical concepts as they appear in literature, plus psychological patterns of behavior such as aggression, frustration, and submission, that have been utilized by creative literary artists to expand the reader's understanding of the human experience.

ENG 224 Science Fiction 3 Credits

This course is designed to introduce students to science fiction, its major themes and preoccupations, as well as some of its significant authors and genres. It has been argued that science fiction or “speculative” fiction represents a viable way to make sense of our everyday world. Our primary focus, therefore, will be on how these texts—written and visual—help us understand our culture and ourselves through encounters with alien and unfamiliar worlds, species, and technology. By the end of the course, students are expected to be able to critically engage with science fiction, and to identify its broad cultural impact.

ENG 226 Introduction to Film 3 Credits

Focuses on various cinematic techniques used to develop underlying thematic and symbolic concepts and to shape viewer response. Students will analyze classical and contemporary features for their masterful use of visual language.

ENG 228 Black American Lit 3 Credits

A survey of writings by black Americans, presented historically from early slave narratives through emancipation, reconstruction, the Harlem Renaissance, and literature from the 1930s to the present.

ENG 229 Multi-Ethnic Lit in America 3 Credits

Surveys the literature of various ethnic groups including African Americans, American Indians, Asian Americans, Hispanic Americans, Jewish Americans and European Americans.

ENG 230 Women In Literature 3 Credits

A range of literary presentations of the female experience and of the conditions of women's lives is explored. These works are placed in historical and social contexts in order to see behind and beyond traditional literary conventions.

ENG 240 Methods of Literary Analysis 3 Credits

The study and application of various modes of literary criticism practiced, including formal, structural, psychological, and sociocultural methods of analysis. Required of all English literature and writing majors.

ENG 250 Literary History I 3 Credits

Surveys British literature beginning with the old English epic of Beowulf and ending with the British Romantic writers of the early 1800s. There will be an emphasis on the cultural and historical contexts of the works discussed as well as an appreciation for the aesthetic qualities of the individual texts and the characteristics of literary movements. This course is a prerequisite to ENG 251 and is required of all English majors and minors.

ENG 251 Literary History II 3 Credits

Surveys American and British literature since the 1820s. There will be an emphasis on the cultural and historical contexts of the works discussed as well as an appreciation for the aesthetic qualities of the individual texts and the characteristics of literary movements. Required of all English majors and minors.

Prerequisite(s): ENG 250 or permission of the instructor or chairperson.

ENG 270 Major Poets 3 Credits

Studies major American and British poets.

ENG 275 Posthumanism: Bodies and Technology in Literature 3 Credits

This course explores the concept of posthumanism in speculative and futuristic literature. Who counts as human? How do advances in science and technology change what it means to be human? How much can we change our bodies before we stop being human? Categories of posthumanism that may be explored include virtual reality, cybercultures, and bodily transcendence; cyborgs; body modification, duplication, and replacement; cloning; genetic engineering; and postapocalyptic/ecocritical narratives.

ENG 280 Special Topics in Literature 3 Credits

Uses literary works to achieve insights into different areas of human experience. Topics change annually as announced by the English department.

ENG 281 Global Film History: Origins to 1960 3 Credits

Examines major technological and aesthetic developments in both American and international cinema of the period, with an emphasis on global cinema. From silent comedy and melodrama to German Expressionism and Soviet activist cinema; from French poetic realism and Italian Neo-realism to Hollywood sound cinema, this course will survey and assess the impact of influential movements, major film artists, and groundbreaking films of the period. ENG 281 is crosslisted with FMS 250.

ENG 282 Global Film Hist:1961-Present 3 Credits

Examines major technological, industrial and aesthetic developments in both American and international cinema of the period. From the decline of the studio system and the emergence of the 'New Hollywood' to the digital revolution; from the renaissance in Western and Eastern European cinemas to Latin American, Asian, and Middle Eastern cinema, this course will survey and assess the impact of influential movements, major film artists, and groundbreaking films of the period. ENG 282 is crosslisted with FMS 251.

ENG 284 Language of Film Analysis 3 Credits

Provides students with the fundamentals necessary for achieving beginning proficiency in methods of cinema studies scholarship. The course provides an in-depth introduction to concepts of film analysis, theory, and history, as well as to the field of cinema studies as an academic discipline. Through close analysis of selected films and readings, students will examine the various and complex ways in which formal elements shape meaning. Students also will study key concepts in film theory, applying these concepts as a further means of understanding the ways in which film positions viewers and mediates ideology. Required of all English majors and minors with a cinema studies concentration. ENG 284 is crosslisted with FMS 284.

ENG 285 Ameri Film Hist: Origins-1960 3 Credits

Examines major technological and aesthetic developments in American cinema as it grew from the days of one-reel silent shorts exhibited in storefront theaters through the days of studio productions exhibited in lavish picture palaces and featuring iconic stars the system manufactured and promoted. From the inception of sound and color, to the later development of lightweight equipment that freed filmmakers from the confines of the studio, from the “golden age” to the gradual decline of the Hollywood studio system in the 1950s, we will study the lasting genres that grew out of the system, the filmmakers who flourished and those who rebelled against the system, and the ground-breaking films that established the American film industry as a dominant force within the world. ENG 285 is crosslisted with FMS 252.

ENG 286 Amer Film Hist:1961-Present 3 Credits

Examines the transitions of Hollywood in the post-studio era— the rise of the 1960's-1970s New Hollywood and its ground-breaking films, the rise of the blockbuster as an industry standard; the responses of independent filmmakers and the avant-garde to blockbuster dominance; the transition from the Production Code to the ratings system, the move back to studio-owned theaters, and the emergence of digital cinema and CGI. We will look at how genres are being redefined, how major filmmakers are re-shaping their work to fit 21st century demands, how “gaming,” U-Tube, and other media sources are altering the very definition of cinema. ENG 286 is crosslisted with FMS 253.

ENG 290 The Short Story 3 Credits

Presents the development of the short story from the 19th century to the present with an emphasis on the techniques of plot, setting, characterization, theme, and point of view.

ENG 295 Human Relationships in Lit (honors) 3 Credits

Through in-depth analysis of significant pairs of literary works from a variety of time periods, students in this honors course will study the dynamics of human relationships as they are presented in literature. Emphasis will be on portrayal of interpersonal relationships as inflected by conventions, constraints, and taboos. Social and psychological theories will complement esthetic and formal analysis of fiction, drama, poetry, and film.

Prerequisite(s): 3.3 GPA.

ENG 303 Creative Writing: Poetry 3 Credits

A workshop analyzing the techniques of poetic expression, with a focus on the student's original experiments in traditional and contemporary verse forms.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 304 Creative Writing: Fiction 3 Credits

Students write original fiction and analyze the techniques of writing fiction in discussion of both their own drafts and published examples of the form.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 305 Creative Writing: Nonfiction 3 Credits

A workshop in Creative Nonfiction (aka Literary Nonfiction or Narrative Nonfiction, abbreviated CNF) in which students will write and read different forms of memoir and essay, including Personal Essay, Lyric Essay, Travel Writing, Oral History, and Personal Profiles. Creative Nonfiction (CNF) tells true stories using the literary techniques of fiction-writing, such as building dramatic scenes, establishing suspense, and developing a narrative sequence of events, or plot. CNF employs vivid sensory detail and builds characters and scenes to enhance the reader's experience of the story. Challenging the traditional journalist's stance of objectivity and emotional distance from her topics, CNF writers often put themselves into their stories to create a voice of reflection. We'll talk about what types of creative license CNF gives writers, and also about the ethics of storytelling, especially when your story's characters are real, living people.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 306 Creative Writing: Drama 3 Credits

Examines cultural developments in the United States from the late 19th century to the present. Topics include popular culture, intellectual history, gender history, literary history, film, institutions like museums and department stores, subcultures and countercultures, popular commemorations like World's Fairs, and political culture. Some of the largest trends explored include the development of the modern culture of consumption, the urban landscape, and the polarization of cultural values.

ENG 311 Creative Writing: Playwriting 3 Credits

A workshop teaching and analyzing how students write for the stage that pays particular attention to the demands of the genre. Through reading and writing assignments, students will discuss and analyze the development of their own dramatic scripts for theatrical performance. A portfolio of revisions will serve as a final for the course.

ENG 312 Creative Writing: Screen Writing 3 Credits

A workshop teaching and analyzing how students write for the screen, both television and film, that pays particular attention to the demands of the genre. Through reading and writing assignments, students will discuss and analyze the development of their own dramatic scripts for production. A portfolio of revisions will serve as a final for the course.

ENG 313 Creative Writing: Experimental Writing 3 Credits

A creative writing workshop dedicated to developing a wider range of literary techniques. For the purposes of this course, Experimental Writing is defined as writing that departs – in form, structure, or style – from the conventions of literary realism. Students will demonstrate proficiency in writing and reading experimental fiction, nonfiction, and poetry, with an emphasis on experimental narrative techniques such as metafiction, magic realism, the unreliable narrator, multi-genre and hybrid forms (works that blur the lines between poetry and prose, for example), nonlinear storytelling, fragmentation, and poetic techniques such as found text and readymades, self-imposed constraints, and the collage or mashup.

Prerequisite(s): ENG 206.

ENG 315 Topics in Specialized Writing 3 Credits

A workshop in which students will write on specialized topics chosen by the instructor.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 316 Theories of Writing & Tutoring 3 Credits

A workshop on writing and tutoring theory for students interested in becoming writing tutors or teachers.

Prerequisite(s): minimum GPA 3.0, sophomore standing, and permission of the instructor.

ENG 318 Food Writing 3 Credits

Food Writing is a thematically based course in essay writing. It develops student abilities to write effective informal prose while also extending their knowledge about food sources, preparation, and consumption. They learn through readings and exercises, however, that food writing is about more than food. It encompasses the pleasures of the table, history, culture, science, and politics.

ENG 321 Workplace Writing 3 Credits

A workshop in writing effectively to achieve specific practical purposes in various business and professional workplace environments.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 322 Workplace Writing: Grant Proposals, Fundraising and Development 3 Credits

Students employ their analytical and writing skills to research and write grants for non-profit organizations in their local or regional communities. Fundraising and development activities on behalf of area organizations introduce them to career opportunities in this growing field.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 323 Workplace Writing: Reviewing and Publishing 3 Credits

Students learn to write arts and literary criticism through studying the work of prominent critics in literature, theatre, film, dance, visual arts, and music. Students learn how to market themselves as potential reviewers for print and online publications.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 324 Workplace Writing: Online Contexts 3 Credits

This course will help students adapt their writing to online environments. A writing-intensive course, grounded in rhetorical principles, it focuses upon planning, writing and producing online texts distributed entirely through virtual portals. Students will write documents intended for a variety of virtual purposes, including E-mail, instant messages, text messages, blogs, wikis, workplace social-media, and online team collaborations.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 331 Medieval Literature 3 Credits

A seminar in Old and Middle English authors, such as Bede, Chaucer, and Kempe, and texts, such as Beowulf, moralities, and mystery cycles. Students may be introduced to linguistic issues, historical and political concerns and critical topics such as literacy, canon formation, and gender.

ENG 333 16th-Century Literature 3 Credits

A seminar on Renaissance literature including such writers as More, Wyatt, Surrey, Spenser, Sidney, Shakespeare, and Marlowe.

ENG 335 17th-Century Literature 3 Credits

A seminar on literature in England from 1600 to 1660, including such writers as Donne, Jonson, Browne, Herbert, and Marvell.

ENG 336 Grammar and Style 3 Credits

Provides students with a comprehensive knowledge of the conventions of English grammar, punctuation and syntax. Students will learn how to analyze the way words, phrases, sentences, and paragraphs work in expert writing, and they will apply this knowledge to their own writing, with emphasis on argument, exposition, and analysis.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 340 Restoration & 18th Century Lit 3 Credits

An exploration of literature in England from 1660 to 1800, including such writers as Astell, Pope, Finch, Swift, Defoe, Fielding, Johnson, and Wollstonecraft.

ENG 344 Biblical and Classical Influence in Literature 3 Credits

This course surveys biblical and classical influences on western literature from Shakespeare to Atwood. Its primary objective is to introduce selections from the Old and New Testaments, Homer, Aeschylus, Sophocles, Ovid, and Dante so that you may recognize and appreciate references and allusions to these stories - their enduring influence - in early modern literature and culture.

ENG 345 Romantic Literature 3 Credits

A seminar on literature in England from 1780-1830, emphasizing a close study of the poetry of Blake, Wordsworth, Coleridge, Shelley, Byron, and Keats, as well as important novelists and female poets of the period.

ENG 346 Victorian Literature, 1830-1900 3 Credits

A seminar on literature in England from 1830 to 1900, emphasizing close study of the literary culture, including such writers as Dickens, Browning, Mill, and Ruskin.

ENG 347 20th-Century British Lit 3 Credits

A seminar on literature in the United Kingdom from 1900 to 1960, emphasizing formal experiments as well as historical contexts, and including such writers as Joyce, Woolf, Beckett, Rhys, Delaney, and Eliot.

ENG 348 Contemporary British Lit 3 Credits

A study of contemporary literature written in English after 1945, in the U.K. and elsewhere, by writers of British, Irish, Scots, Welsh, and other cultural traditions. Poetry, fiction, literary essays, and drama will be included.

ENG 351 19th-Century American Lit 3 Credits

A seminar on literature in the United States from 1800 to 1900, emphasizing literary genres and the definition of an American literature as distinct from English literature.

ENG 352 20th-Century American Lit 3 Credits

A seminar on American literature from 1900 to 1967, including such writers as O'Neill, Hemingway, Faulkner, Porter, Richard Wright, Stevens, Moore, and Williams.

ENG 353 Contemporary American Lit 3 Credits

A seminar on American literature from 1945 to the present.

ENG 354 Selected Topics in English 1-4 Credits

Exploration of special topics, themes or methodologies in English. This course may be repeated for credit on different topics.

ENG 355 Sel.Topics:Bib & Classic Infl 3 Credits

Exploration of special topics, themes or methodologies in English. This course may be repeated for credit on different topics.

ENG 356 Selected Topics in English 1-4 Credits

Exploration of special topics, themes or methodologies in English. This course may be repeated for credit on different topics.

ENG 361 Selected Topics in English 1-4 Credits

Exploration of special topics, themes or methodologies in English. This course may be repeated for credit on different topics.

ENG 362 The Novel 3 Credits

A close reading of novels from various historical periods and cultures.

ENG 363 The Drama 3 Credits

A close reading of drama, with attention to cultural contexts and the genres of tragedy and comedy.

ENG 364 The Poem 3 Credits

A close reading of poetry, with attention to historical periods and poetic genres.

ENG 365 Short Fiction 3 Credits

A close reading of short fiction from a variety of cultures, with attention to the various genres of short fiction: short-short, short story, long story, and novella.

ENG 371 Classics of Children's Lit 3 Credits

An analytic study of classic and contemporary literature for children. Students will be introduced to a variety of critical approaches, including psychoanalytic, social/historical and feminist. The course may be of particular interest, but is not restricted, to students majoring in education or psychology.

ENG 372 Child Lit:Adolescent Exper 3 Credits

A study of enduring literature examines how exemplary writers chronicle the challenges of growing up. Texts may include influential Young Adult fiction, classics such as *The Catcher in the Rye* and *To Kill a Mockingbird*, and contemporary fiction by important writers who focus on the relevant themes.

ENG 375 Literature and Sexuality 3 Credits

The study and application of theories of gender and sexuality in various periods of British and/or American literature. Possible course topics include the literature of AIDS, the literary history of sexuality, Gothic literature and sexuality, colonialism and desire, and sensibility and sexuality in the later 18th century.

ENG 381 Studies in Film Genre 3 Credits

Provides an in-depth examination of a variety of film genres (such as the gangster film, the western, the musical, the screwball comedy, the science fiction film, and the horror film, among others), to be examined through the perspective of film genre theory. Through close analysis of selected films and readings, students will define the aesthetic and thematic patterns characterizing specific genres, and will trace the development of those genres within the dual contexts of the film industry and cultural ideology. Note: This course is cross-listed as FMS 381. Students may not get credit for both ENG 381 and FMS 381.

ENG 382 Comparative Film Directors 3 Credits

Provides an in-depth comparative study of major American, international, independent and avant-garde filmmakers. Through close analysis of selected films and readings, students will define the aesthetic and thematic patterns characterizing the work of individual directors and will draw meaningful comparisons among directors sharing similar aesthetic and thematic approaches. Students will trace the artistic development of directors through their careers, assessing individual works in the context of film criticism and theory, and in the context of multi-layered intertextual influences. Note: This course is cross-listed as FMS 382. Students may not get credit for both ENG 382 and FMS 382.

ENG 383 Global Cinemas 3 Credits

Provides an in-depth study of the history and defining characteristics of national cinemas. Through close analysis of selected films and readings, students will examine the general movements within the history and development of various national cinemas, with attention to film historiography when considering how patterns are to be viewed in light of the culture, politics, and history of a particular producing nation. Further, students will trace and evaluate the influence of selected film movements and issues upon both cinematic and critical practice. Note: This course is cross-listed as FMS 383. Students may not get credit for both ENG 383 and FMS 383.

ENG 384 Film Adaptation 3 Credits

Provides an in-depth study of intertextual influence, as film enters into "dialogue" with various literary forms. Through close analysis of selected films and various forms of literature-including novels, graphic novels, short stories, plays, poetry, and journalism- students will study the aesthetic specificity of both film and literary genres and will analyze the transformative qualities at play when a work is adapted from page or stage to screen. Note: This course is cross-listed as FMS 384. Students may not get credit for both ENG 384 and FMS 384.

ENG 400 Creative Writing: Advanced Creative Writing 3 Credits

An advanced workshop in creative writing.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 405 Advanced Prose Style 3 Credits

Analyzes prose styles in English from the Renaissance to the present, focusing on the development of syntax, diction, and content. Students will be encouraged to imitate stylistic models and to develop their own prose style.

Prerequisite(s): completion of composition requirements or permission of instructor.

ENG 407 Advanced Workplace Writing 3 Credits

Students will learn to adapt their writing skills to match specialized writing needs in publishing; corporate and personal finance; health, medicine, science, and technology.

ENG 411 History of the Eng Language 3 Credits

A seminar on the historical development of the English language, including phonetics, diversity, and present-day usage.

ENG 425 Seminar in Shakespeare 3 Credits

A seminar on Shakespearean drama and poetry.

ENG 435 Seminar In Milton 3 Credits

A seminar on Milton's lyric poetry, Samson Agonistes, Paradise Lost, and prose.

ENG 441 Seminar in American Lit 3 Credits

A seminar focusing on literature by one writer or by a small group of writers.

ENG 443 Seminar in Literary Modernism 3 Credits

A seminar on literature from 1900 to 1940, by British, Irish, and American writers such as Hardy, Yeats, Woolf, Joyce, Eliot, Williams, Hurston, and Faulkner.

ENG 445 Sem in Black/Multi-Ethnic Lit 3 Credits

A seminar focusing on literature by black, Native American, Hispanic, Asian American and first-generation immigrant writers.

ENG 447 Global Literature 3 Credits

An in-depth study of the recent literature in English of one or more writers whose cultural identification is with one of the former colonies of the British Empire, as it was defined at the beginning of the 20th century. Literature in the English language, written by authors of African, Caribbean, Pacific Island, East Asian, or South Asian cultures may be included.

ENG 455 Seminar in Chaucer 3 Credits

An examination of Geoffrey Chaucer's writings from a number of critical perspectives, including close reading of the texts in Middle English, context and history, gender and sexuality, linguistics, and paleography and codicology.

ENG 484 Seminar in Cinema Studies 3 Credits

Provides an in-depth study of areas central to discussion and debate in the field of cinema studies (such as film violence, cinema censorship, feminism and film, post-colonial cinema, African-American cinema, blaxploitation, The French New Wave, and Italian Neorealism, among others). Through close analysis of selected films and readings, students will examine the impact of specialized influential movements in film history and in film theory and criticism. Further, students will trace and evaluate the influence of selected film movements and issues upon both cinematic and critical practice. Note: This course is cross-listed as FMS 484. Students may not get credit for both ENG 484 and FMS 484.

ENG 485 Cinema Studies for Teachers 3 Credits**ENG 490 Independent Research and Study 1-4 Credits**

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. For ENG 490 this may be an original literary or writing project. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

ENG 491 Internship in Writing and Publishing 1-6 Credits

Students work under the supervision of English faculty and on-site supervisors to complete real-world assignments in writing, publishing, and cinema studies. Their performance is assessed by professional standards. A minimum of 48 hours of field work per credit is required. Students report to faculty and on-site supervisors regularly, submit all work required by on-site supervisors, maintain a log, and complete a final report. Three credits required to count toward English writing concentration. Restricted to juniors and seniors.

ENG 497 Advanced Study 3 Credits

Qualified majors may apply for honors in their senior year. Upon approval from the department of English, a candidate for honors enrolls in Advanced Study, writes a thesis, and submits it for departmental approval. The student must achieve a course grade of "B+" or better to be graduated with honors in English.

Prerequisite(s): senior standing; 3.5 GPA in English; 3.25 cumulative GPA.

English Composition (CMP)**CMP 100S Intro to College Writing 3 Credits**

Students will develop their competence in the critical reading of challenging college-level texts that engage significant ideas and in writing effective essays that advance a clear and meaningful thesis while demonstrating understanding of those texts. Pass or fail.

CMP 115 Intro to Expository Writing 3 Credits

Students will develop college-level skills in critical reading of challenging texts and in writing expository essays responding to those texts.

Prerequisite(s): A score of less than 530 on SAT Writing or a score of less than 23 on ACT or a score of less than 4 on English Placement test.

CMP 120 Expository Writing 3 Credits

Students will increase their competence in the critical reading of challenging college-level texts that engage significant ideas and in writing effective essays that advance a clear and meaningful thesis while demonstrating understanding of those texts. The second of the department's three-course composition sequence.

Prerequisite(s): Successfully completed CMP 115 or have attained a 530 or above on the writing section and 500 or above on the critical reading section of the SAT or a score of 4 or above on the English department placement test.

CMP 125 Research Writing 3 Credits

Introduces students to the process of library research and documented writing. Emphasis will be on the refinement of critical reading, thinking, and writing strategies applied to multiple sources and documented papers.

Prerequisite(s): CMP 120 or BHP 100.

CMP 203 Literature and Composition 3 Credits

Students will write research papers and do library research through the use of literary materials. The course emphasizes increasing the comprehension of ideas and experiences by means of selected readings.

Prerequisite(s): CMP 203 is open to students who receive a grade of "A" or "B" in CMP 120; it may be used as a substitute for CMP 125.

Entrepreneurial Studies (ENT)**ENT 100 Intro to Entrepreneurship 3 Credits****ENT 210 Sports Entrepreneurship 3 Credits**

Sports Entrepreneurship will introduce students to entrepreneurship in the sports industries as they explore opportunities and challenges for new ventures in this sector. Using an industry's business model, students will identify competitive advantages and understand what is required for startup success.

ENT 260 Family Business Management 3 Credits

This course is directed at understanding the family-owned and managed firm. Topics included are the strengths and weaknesses of a family firm, the dynamics of the family and business interactions, conflict resolution, succession planning and ownership transfer. The course will help individuals involved with a family firm, regardless if they are a family member.

Prerequisite(s): MGT 201 and junior standing.

ENT 335 Small Business Tax Planning 3 Credits

This course provides an understanding of the key tax issues faced by small businesses and their business implications. It also familiarizes prospective business owners with various tax filing requirements so that they can use the expertise of tax professionals more effectively.

Prerequisite(s): ACC 210.

ENT 348 Small Business Management 3 Credits

The role of small business in the American economy is examined. Favorable practices, policies, functions, principles and procedures of and for the small business entrepreneur and owner-manager are studied. Includes learning a method to evaluate a new venture idea.

Prerequisite(s): MGT 201 or permission of instructor and junior standing.

ENT 350 Entrepreneurial Finance 3 Credits

This course covers the techniques for acquiring financial resources as a firm advances through successive business stages: seed, start-up, struggling, growing, and stable. In addition, it examines recent trends in credit markets and the latest financial innovations as they impact the process of financing the venture's growth.

Prerequisite(s): FIN 300.

ENT 375 International Entrepreneurship 3 Credits

Students will learn how new or small ventures enter international markets. Requirements include developing a case about starting or running a venture in a single country of the student's choice.

Prerequisite(s): MGT 201 and junior standing.

ENT 410 New Venture Planning 3 Credits

This course will require students to select a business and prepare a complete new venture plan for it. This plan would identify the product and its target market, analyze its market potential, choose the location, scale of operation, layout, staffing, type of financing, estimate the revenues and profits, and present the income statement, balance sheet, and the cash flow projections.

Prerequisite(s): ENT 348 or permission of instructor.

ENT 420 Student Venture Experience 3 Credits

Students will start and run a small business while under the supervision and guidance of faculty. Students will take a business plan developed through New Venture Planning (ENT 410) and execute it. Students will experience the launch process and learn, hands on, how to adapt to the marketplace. Some businesses started in this class may also be eligible for seed venture funding from Rider.

Prerequisite(s): ENT 348, ENT 410, and permission of instructor.

ENT 444 Special Topics 3 Credits

3 Credits.

ENT 448 Small Business Consulting Sem 3 Credits

This course utilizes student teams to assist existing small businesses in solving problems or researching opportunities. Students will spend the majority of time in the field utilizing an experiential learning approach. Weekly activity logs, proposal development, and project completion are required. Restricted to seniors.

Prerequisite(s): ENT 348 and permission of instructor.

ENT 490 Independent Study 3-4 Credits

3 CREDITS.

ENT 491 Internship 3 Credits

Students will work in a small firm in a significant management capacity and apply entrepreneurial skills in a real world setting. Requirements include a journal of activities, a written paper presented to the internship director, and a report by the firm on the intern's performance. Class is pass/fail and counts as a business or free elective.

Prerequisite(s): permission of instructor and junior standing.

Environmental Sciences (ENV)

ENV 100 Introduction to Environmental Sciences 4 Credits

Examines how ecosystems function, with emphasis on the interactions between biological organisms and their physical environment, and the chemical processes that govern these interactions. The impact of human populations on natural ecosystems is investigated in detail using case studies from history and current events. The laboratory provides for hands-on experiences and/or short field trips to local sites for a better understanding of many of the concepts discussed. Weekday and weekend field trips may be required. Three hours of lecture and one three-hour lab per week.

Corequisite(s): ENV 100L.

ENV 100L Introduction to Environmental Sciences Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): ENV 100.

ENV 200 Statistical and Computer Applications in the Natural Sciences 4 Credits

This course introduces important statistical concepts, their application, and the usage of computer technology relevant to biological, environmental, geological, and marine problems. Students will learn various graphical and statistical techniques and how to execute them on personal computers. The curriculum emphasizes the integrated nature of these techniques and their importance to meaningful data evaluation and representation. Laboratory exercises are designed to emphasize useful solutions to problems found in many scientific disciplines using computer-based methodologies. Three hours of lecture and one three-hour lab per week.

Corequisite(s): ENV 200L.

ENV 200L Statistical and Computer Applications in the Natural Sciences Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): ENV 200.

ENV 205 Introduction to Geographic Information Systems (also cross listed as GLS-205) 3 Credits

This course introduces the computer-based concepts and skills of Geographic Information Systems (GIS). It covers the basic GIS concepts, such as map characteristics and projections, spatial data models and analysis, and relational databases. It explores data sources, data quality, and metadata, as well as implementation and management of specific GIS projects. Hands-on experience with ArcGIS software is provided through a series of student exercises completed throughout the semester. Students will also be taught how to process both vector and raster data using ArcGIS software. The course is relevant for students from numerous disciplines in the natural sciences, social sciences, and business, which require the analysis and graphical representation of spatial data. Three hours of lecture per week. Note: This course is cross-listed as GLS 205. Students may not receive credit for both ENV 205 and GLS 205.

ENV 220 Weather and Climate Change 3 Credits

This course introduces students to the concepts of weather and climate change. These concepts frame a continuum from short-term or daily changes in the atmosphere (meteorology) to those changes averaged over much longer periods of time (climatology). Students will learn the fundamentals of weather forecasting, the causes of natural variation in the Earth's climate, and the impact of human actions on the Earth's climate. Connections will be drawn to other current issues in the Earth system, including land use change, biodiversity, and pollution. Three hours of lecture per week.

Prerequisite(s): GEO 100 or permission of instructor.

ENV 290 Directed Research and Study in Environmental Sciences 1-4 Credits

Provides an opportunity for freshman and sophomore students to gain hands-on research experience in the environmental sciences. This is an individual program of study and each student will work with a selected faculty member on a topic of mutual interest. The course consists of a combination of project meetings, supervised research, and guided readings. The focus will be on formulating research questions, designing and conducting experiments, collecting the necessary data, reviewing the scientific literature as it relates to each student's research topic in weekly meetings with the instructor, and communicating the findings by writing a final project report.

ENV 350 Principles of Environmental Toxicology 3 Credits

A comprehensive description of the important principles of toxicology, including the absorption, distribution, metabolism, and excretion of toxic substances. Target organs systems will be discussed as well as mechanisms of carcinogenesis and teratogenesis. Specific groups of toxins to be discussed include: pesticides, metals, radiation, solvents and vapors, and plant and animal toxins. Three hours of lecture per week.

Prerequisite(s): BCH 225 or CHE 211, BIO 115 or BIO 117.

ENV 375 Environmental Biogeochemistry 3 Credits

This course examines the biogeochemical interactions among various environmental components, including water, rock, soil, organisms, and atmosphere. Covered topics focus on the relation between the biosphere and changes in the Earth's environment and atmosphere. The transfer of energy and nutrients within terrestrial ecosystems also is explored. Case studies from various examples will be used to understand ecosystem dynamics. Long-term environmental change and present-day ecosystem restoration activities are examined in the context of biotic offsets and land-use planning. The biogeochemical cycles of some environmentally sensitive compounds and elements in natural systems, such pesticides, mercury, and lead, also may be examined. Three hours of lecture per week.

Prerequisite(s): GEO 100 or GEO 113, CHE 120, CHE 121, CHE 122, CHE 123.

ENV 480 Senior Thesis 3 Credits

A senior thesis is optional for environmental science majors. However, a senior thesis is required for eligibility to graduate with honors in environmental science. The topic for investigation will be chosen by the student in consultation with the faculty of the Department of Geological, Environmental, and Marine Sciences. The student must initiate consideration of a proposal to the Department. The proposal must contain a discussion of the proposed project and a timetable to be followed in the study. A departmental committee consisting of a major and minor advisor will evaluate the written paper submitted at the conclusion of the study. An oral presentation before the department at the conclusion of the semester in which the study is completed is required. Proposals must be submitted in final form no later than the end of the ninth week of the semester prior to the semester in which the study is undertaken.

Prerequisite(s): senior standing in the geosciences major and permission of instructor.

ENV 490 Independent Research and Study 1-4 Credits

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

ENV 491 Internship in Environmental Sciences 1-4 Credits

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placements may be in private, public, non-profit, or governmental organizations. These can include consulting firms, regulatory agencies, advocacy groups, and educational or research institutions. Normally, 50 hours of internship per credit is required. A mutually agreed upon method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and could include a term paper or project report and a poster presentation.

Prerequisite(s): 2.5 GPA and permission of instructor.

European Area Studies (EUR)**EUR 250 Intro to European Area Studies 3 Credits**

This multi-disciplinary course introduces students to European Area Studies, and focuses upon how Europe has been conceptualized as a social, cultural, economic and political entity. Subjects surveyed through materials drawn from multiple disciplines and media include geography, ecology and climate; principal language systems and their development; historical, political and economic developments from antiquity to the modern era; architecture, city development and design; contemporary cultural life; and the formation and organization of the European Union. Required foundation courses for the European Area Studies minor.

Film and Media Studies (FMS)**FMS 250 Global Film History: Origins to 1945 3 Credits**

Examines major technological and aesthetic developments in both American and international cinema of the period, with an emphasis on global cinema. From silent comedy and melodrama to German Expressionism and Soviet activist cinema; from French poetic realism and Italian Neo-realism to Hollywood sound cinema, this course will survey and assess the impact of influential movements, major film artists, and groundbreaking films of the period. FMS 250 is cross-listed with ENG 281.

FMS 251 Global Film History: 1961-Present 3 Credits

Examines major technological, industrial, and aesthetic developments in both American and international cinema of the period, with an emphasis on global cinema. From the decline of the studio system and the emergence of the "New Hollywood" to the digital revolution; from the renaissance in Western and Eastern European cinemas to Latin American, Asian, and Middle Eastern cinema, this course will survey and assess the impact of influential movements, major film artists, and groundbreaking films of the period. FMS 251 is cross-listed with ENG 282.

FMS 252 American Film History: Origins-1960 3 Credits

Examines major technological and aesthetic developments in American cinema as it grew from the days of one-reel silent shorts exhibited in storefront theaters through the days of studio productions exhibited in lavish picture palaces and featuring iconic stars the system manufactured and promoted. From the inception of sound and color, to the later development of lightweight equipment that freed filmmakers from the confines of the studio, from the "golden age" to the gradual decline of the Hollywood studio system in the 1950s, we will study the lasting genres that grew out of the system, the filmmakers who flourished and those who rebelled against the system, and the ground-breaking films that established the American film industry as a dominant force within the world. FMS 252 is cross-listed with ENG 285.

FMS 253 American Film History: 1961-Present 3 Credits

Examines the transitions of Hollywood in the post-studio era— the rise of the 1960s-1970s New Hollywood and its ground-breaking films, the rise of the blockbuster as an industry standard; the responses of independent filmmakers and the avant-garde to blockbuster dominance; the transition from the Production Code to the ratings system, the move back to studio-owned theaters, and the emergence of digital cinema and CGI. We will look at how genres are being redefined, how major filmmakers are re-shaping their work to fit 21st century demands, how "gaming," U-Tube, and other media sources are altering the very definition of cinema. FMS 253 is cross-listed with ENG 286.

FMS 260 Great Performances in Film 3 Credits

Examines major accomplishments in film acting from the silent era to the present day. Students will acquire knowledge of the historical and critical contexts and the artistic vocabulary necessary to understanding, appreciating and assessing screen performances in a range of genres—from comedy and the musical, to the melodrama, psychological thriller, and “hard-boiled” film noir. Students will be asked to read, evaluate, and analyze film performance texts, as well as to research and write about performances in numerous films.

FMS 284 Language of Film Analysis 3 Credits

Provides students with the fundamentals necessary for achieving beginning proficiency in methods of cinema studies scholarship. The course provides an in-depth introduction to concepts of film analysis, theory, and history, as well as to the field of cinema studies as an academic discipline. Through close analysis of selected films and readings, students will examine the various and complex ways in which formal elements shape meaning. Students also will study key concepts in film theory, applying these concepts as a further means of understanding the ways in which film positions viewers and mediates ideology. Required of all Film and Media Studies minors. FMS 284 is cross-listed with ENG 284.

FMS 286 Writing Shortscreen Plays for Digital Cinema 3 Credits

Writing Short Screenplays for Digital Cinema will focus solely on the creation of a short screenplay for digital film. The course will ask that students conceive of and execute a viably producible screenplay, shooting script, and industry pitch for the modern market.

FMS 300 Special Topics in Film and Media Studies 3 Credits

Courses in specialized and interdisciplinary areas of Film and Media Studies explore all three phases of the media experience: the industry that produces, distributes and exhibits; the textual products themselves; and audience reception of these products. FMS 300 Special Topics in Film and Media Studies courses will focus on each of the phases individually and/or on intersections of all three phases. Special topics courses will devote attention to the relationship of film to both traditional as well as new media; the relationship of film to the other arts; the relationship of film to the ancillary products and industries it both creates and depends upon for financial profit; and the relationship of film as an industry and institution to the various cultural institutions film and media texts routinely represent.

FMS 340 Film and Media Audiences 3 Credits

Provides students with the fundamentals necessary for understanding media audiences and reception within the interdisciplinary framework of film and media studies. The course introduces students to the field of audience and reception studies, including theory, empirical scholarship and history. Students will learn about who composed audiences, how they behaved, how they responded to the medium and the texts it delivered, how they interpreted what it meant to be an audience, how audiences were defined and treated by others, both today and historically. This will include audiences of movies, radio, television and news media.

FMS 342 Artists of the Cinema 3 Credits

Provides the opportunity to delve into the work of an individual film artist (whether a director, producer, screenwriter, cinematographer, costume designer, art director, musical composer, actor) or to examine a creative team (various combinations of a director, actor, cinematographer, screenwriter) that has collaborated in producing a series of films together. The course will pose the daunting question: Who is the author of the film? Even when studying individual artists, we will explore the influences and the working relationships that have shaped their work, and we will look outward to the way in which they have influenced other artists of their own generation and beyond.

FMS 381 Studies in Film Genre 3 Credits

Provides an in-depth examination of a variety of film genres (such as the gangster film, the western, the musical, the screwball comedy, the science fiction film, and the horror film, among others), to be examined through the perspective of film genre theory. Through close analysis of selected films and readings, students will define the aesthetic and thematic patterns characterizing specific genres, and will trace the development of those genres within the dual contexts of the film industry and cultural ideology. Note: This course is cross-listed as ENG 381. Students may not get credit for both ENG 381 and FMS 381.

FMS 382 Comparative Film Directors 3 Credits

Provides an in-depth comparative study of major American, international, independent and avant-garde filmmakers. Through close analysis of selected films and readings, students will define the aesthetic and thematic patterns characterizing the work of individual directors and will draw meaningful comparisons among directors sharing similar aesthetic and thematic approaches. Students will trace the artistic development of directors through their careers, assessing individual works in the context of film criticism and theory, and in the context of multi-layered intertextual influences. Note: This course is cross-listed as ENG 382. Students may not get credit for both ENG 382 and FMS 382.

FMS 383 Global Cinemas 3 Credits

Provides an in-depth study of the history and defining characteristics of national cinemas. Through close analysis of selected films and readings, students will examine the general movements within the history and development of various national cinemas, with attention to film historiography when considering how patterns are to be viewed in light of the culture, politics, and history of a particular producing nation. Further, students will trace and evaluate the influence of selected film movements and issues upon both cinematic and critical practice. Note: This course is cross-listed as ENG 383. Students may not get credit for both ENG 383 and FMS 383.

FMS 384 Film Adaptation 3 Credits

Provides an in-depth study of intertextual influence, as film enters into “dialogue” with various literary forms. Through close analysis of selected films and various forms of literature—including novels, graphic novels, short stories, plays, poetry, and journalism—students will study the aesthetic specificity of both film and literary genres and will analyze the transformative qualities at play when a work is adapted from page or stage to screen. Note: This course is cross-listed as ENG 384. Students may not get credit for both ENG 384 and FMS 384.

FMS 484 Seminar in Cinema Studies 3 Credits

Provides an in-depth study of areas central to discussion and debate in the field of cinema studies (such as film violence, cinema censorship, feminism and film, post-colonial cinema, African- American cinema, blaxploitation, The French New Wave, and Italian Neorealism, among others). Through close analysis of selected films and readings, students will examine the impact of specialized influential movements in film history and in film theory and criticism. Further, students will trace and evaluate the influence of selected film movements and issues upon both cinematic and critical practice. Note: This course is cross-listed as ENG 484. Students may not get credit for both ENG 484 and FMS 484.

FMS 490 Independent Study 1-4 Credits

FMS 490 Independent Study will allow Film and Media Studies minors to pursue specialized areas of study, research and/or creative work relevant to the field of Film and Media Studies in consultation and close collaboration with a Film and Media Studies faculty member.

FMS 491 Internship in Film & Media Stud 1-4 Credits

FMS 491 Internship in Film and Media Studies will provide approved juniors and seniors minoring in Film and Media Studies with the opportunity to gain practical experience through work in various outside film and media-related publications, busiensses, organizations, and production companies.

Finance (FIN)

FIN 200 Managing Your Money 3 Credits

An introduction to the analysis of a wide range of financial decisions which individuals encounter over their careers and lifetime. Topics include financial goals, tax planning, home ownership versus renting, consumer credit, money management and investments, and managing risk with insurance. This course is open to all Rider students, and it counts as a free elective or a business elective. It cannot be used as finance elective.

FIN 220 Introduction to Finance 3 Credits

An introduction to the environment, concepts, and techniques of financial management. Topics include forms of business organization, taxes, analysis of financial performance, financial planning, financial markets and interest rates, time value of money, bond and stock valuation, risk and return, capital budgeting, cost of capital, and international financial management.

Prerequisite(s): ACC 210 and ECO 201.

FIN 305 Personal Financial Planning 3 Credits

This course focuses on practical issues and problems involving personal financial budgeting, use of credit, selection of banking services, insurance needs, real estate, investments, tax planning, and retirement planning. An important objective of the course is to provide the student with the tools that are utilized in making personal financial decisions and how to apply those tools for a variety of financial needs.

Prerequisite(s): FIN 220.

FIN 307 Financial Markets & Institut 3 Credits

An introduction to the organization and behavior of financial markets and institutions in the economy. The factors determining security prices and interest rates in the money and capital markets are analyzed. An overview of all major financial institutions is presented. In addition, market returns, the regulatory environment and monetary policy a re examined.

Prerequisite(s): ECO 200 and junior standing.

FIN 308 International Finance 3 Credits

Financial management in the international environment. Topics include balance of payments, foreign exchange markets, arbitrage, hedging of currency risk, country risk management, and the evaluation of foreign investment opportunities.

Prerequisite(s): FIN 220.

FIN 309 Intermediate Corporate Finance 3 Credits

This course builds on and extends the concepts of financial management learned in FIN 220. The course examines long-term corporate financing and investment decisions and how those decisions interface with each other. Topics covered include: cost of capital, financial planning and analysis, capital budgeting, capital structure and dividend policy.

Prerequisite(s): FIN 220.

FIN 312 Investments 3 Credits

The fundamentals of investing in stocks, bonds, and other negotiable instruments are covered. Major topics include trading on securities markets, mutual funds, international investing, margin accounts, short sales, determinants of securities prices, and investment risks. Stock options, financial futures, convertible securities, and implications of taxes on investment decisions are also discussed.

Prerequisite(s): FIN 220.

FIN 315 Financial Modeling 3 Credits

Provides instruction in computer use beyond what is available in other finance courses. Topics include more sophisticated applications of computers in financial management, investments, and other areas of finance and business. Students work on cases and projects which require more advanced usage of spreadsheets and other software and databases.

Prerequisite(s): CIS 185 and FIN 220.

FIN 330 Corporate Cash Management 3 Credits

This course is designed for business students seeking an understanding of modern principles and techniques for corporate treasury management. The course material is useful for finance, accounting, and banking professionals or small business owners. Topics include analysis of liquidity and solvency, credit and accounts receivable management, cash collection and disbursement systems, short-term investment and borrowing, management of treasury information and technology, multi-national cash management, and other related topics.

Prerequisite(s): FIN 220.

FIN 340 Risk Management 3 Credits

This course examines the risk management process as applied to the firm as a whole. It integrates the management of all risks facing the firm: strategic, financial, hazard, and operational. Techniques for identifying risk, measuring and analyzing it, and selecting an appropriate treatment will be explored.

Prerequisite(s): FIN 220.

FIN 350 Entrepreneurial Finance 3 Credits

This course covers the techniques for acquiring financial resources as a firm advances through successive business stages: seed, start-up, struggling, growing, and stable. In addition, it examines recent trends in credit markets and the latest financial innovations as they impact the process of financing the venture's growth.

Prerequisite(s): FIN 220.

FIN 360 Derivatives 3 Credits

The objective of this course is to provide students with an understanding of the main types of financial derivatives and of the markets in which they are traded. Topics include the valuation of future contracts; the valuation of options; trading strategies involving these assets; swaps; and the use (and misuse) of financial derivatives in the context of corporate applications. Emphasis is on the fundamentals of derivatives pricing and hedging.

Prerequisite(s): MTH 340 or MSD 200 (with minimum grade of "B"), and FIN 220 (with a minimum grade of "B") or permission of instructor.

FIN 380 Real Estate 3 Credits

Real estate finance and related subjects in real estate are examined. Topics include measuring cash flows and taxes, valuation methods for real estate investment decisions, location and value in real estate, home ownership, legal matters, and financing methods and techniques.

Prerequisite(s): FIN 220.

FIN 399 The Co-Operative Experience 6 Credits

The co-op program provides students with an opportunity to work full-time in a company and apply what they have learned in their finance and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first step before they hire full-time employees. Eligible students include finance majors with at least junior status, a minimum overall GPA of 3.0, and a minimum GPA of 3.0 in any finance coursework completed prior to the submission of the co-op application. Co-op credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

Prerequisite(s): FIN 220.

FIN 412 Investment Analysis 3 Credits

Real-world application of the concepts and techniques of investment analysis and portfolio theory introduced in FIN 312. Students interact with and make recommendations to professional portfolio managers. Topics include analysis and forecasts of business conditions, market interest rates, international opportunities, and corporate profits. Emphasis is placed on the valuation of securities, stock selection, investment timing, technical analysis, and management of portfolio risk with options, futures, and other tools.

Prerequisite(s): FIN 312 or permission of instructor.

FIN 469 Special Topics in Finance 3 Credits

This course is occasionally offered, with the topics and prerequisites set by the finance program.

FIN 490 Independent Research and Study 3 Credits

Topic to be approved in advance by supervising instructor, chairperson, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation. This course can be used as a business or free elective, but with prior approval it can also be used as finance elective.

FIN 491 Finance Internship 1-3 Credits

The internship offers qualified junior and senior finance majors supervised employment with participating companies. The internship may be taken during the fall or spring semester or during the summer session. Students are evaluated periodically by senior staff members of the participating firms and are required to complete a term paper that will be reviewed by the major's internship director. Internship credits can be applied toward business or free elective requirements but not toward finance elective requirements for majors. Grading is on a pass/fail basis.

Prerequisite(s): permission of instructor.

Fine Arts (ART)

ART 103 Fundamentals of Drawing 3 Credits

An intensive study of drawing techniques in charcoal, pencil, and pen and ink.

ART 104 Survey of Art History I 3 Credits

The history of Western art, architecture, sculpture, painting from prehistoric times through the Middle Ages, emphasizing the relation between the arts and ideas of each period.

ART 105 Design 3 Credits

Basic concepts of composition, form, texture, value, and color in two-dimensional design are explored.

ART 106 Survey of Art History II 3 Credits

The history of Western art, architecture, sculpture, painting from the Renaissance to the present, emphasizing the relation between the arts and ideas of each period.

ART 120 Art and Society 3 Credits

Masterpieces of architecture, painting, and sculpture are related to their historical periods, providing an appreciation for and understanding of the vital interaction of art and society.

ART 199 Arts in Contemporary Civilization 3 Credits

An integral study of the arts and their place in contemporary American life. Includes attendance at several events in art, music, and drama. Spring.

ART 201 Art of the Ancient World 3 Credits

The arts of ancient man from prehistoric times to the fall of the Roman Empire.

ART 204 Fundamentals of Painting 3 Credits

Introduces students to the materials and techniques of oil or acrylic painting. Emphasis on experimentation and the development of individual expression in a variety of subject matters.

Prerequisite(s): ART 103 or concurrently.

ART 207 Medieval and Renaissance Art 3 Credits

A study of the major monuments of architecture, painting, and sculpture created in Western Europe between 300 and 1600. Particular emphasis on the history of Christian art, from its beginnings in the Roman catacombs, to the great monasteries and cathedrals of the High Middle Ages, to the revival of ancient Roman grandeur and forms in the Renaissance.

ART 209 Art of the Baroque 3 Credits

The art of the 17th century in southern and northern Europe.

ART 214 American Art 3 Credits

The development of the arts from colonial America to World War I. Discusses major economic, social, and political factors that influenced the course of American art history.

ART 227 Gallery Management 3 Credits

Designed to provide students with the experience of working in all aspects of art gallery management. It is intended for students regardless of their major who wish to add the dimension of art to their college experience through direct hands-on curatorship of the Rider Art Gallery.

ART 230 Three-Dimensional Design 3 Credits

Beginning problems in traditional sculptural materials (clay, wood, stone) and design-construction in mixed media.

ART 303 19th Century Art 3 Credits

An in-depth study of the major art movements in 19th-century Europe, from Neoclassicism to Postimpressionism.

ART 304 Drawing II 3 Credits

Studies the art of drawing beyond the introductory level with an emphasis on greater self-expression, advanced technical skills, and a variety of drawing media.

Prerequisite(s): ART 103.

ART 305 Intermediate Painting A-B-C 3 Credits

Studio courses designed to expand the student's creative experience in painting with emphasis of greater self-expression. Students will be presented with specific painting projects that originate from conceptual or perceptual responses to reality (still life, landscape, figure) and to imagination (dreams, fantasy, invention). Class trips to galleries and museums are included. May be taken three times.

Prerequisite(s): ART 204.

ART 306 Art of the 20th Century 3 Credits

The major artists and movements in the history of 20th-century painting and sculpture from Postimpressionism. Slide lectures, class discussion, field trips.

ART 310 Figure Drawing and Painting 3 Credits

Students will draw and paint from various sources, including the live model, clothed and nude, to understand the structures, gestures, and psychological aspects of the human body in art.

Prerequisite(s): ART 103 and ART 204.

ART 335 Printmaking 3 Credits

A studio introduction to various traditional and contemporary relief printmaking techniques.

ART 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

ART 491 Internship in Art 1-12 Credits

Provides junior or senior fine arts majors with concentrations in art with the practical experience of working with a museum or professional art gallery. Students must be sponsored by an art professor. For each academic credit, interns must work 48 hours for the semester or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

ART 492 Advanced Studio Workshop 3 Credits

Intensive course in various media for students working at an advanced level in studio disciplines. A high level of achievement is expected. May be taken more than once for credit.

Prerequisite(s): two upper-level studio courses.

ART 493 Special Topics in Studio Art 3 Credits

Study in drawing and painting of a particular style, such as abstraction or subject, such as still life; or particular aspects on a museum collection, such as the Metropolitan.

Prerequisite(s): ART 103 and ART 105 or Permission of Instructor.

ART 495 Selected Topics in Art History 3 Credits

An intensive study of a particular art history topic, e.g., a single artist, artistic center, or artistic medium. Slide lectures, class discussion, field trips, class reports. Topics to be announced.

ART 496 Fine Arts Internship 6-12 Credits**ART 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Foreign Language and Literature Education (FLE)

FLE 320 Introduction to Linguistics and Psycholinguistics 3 Credits

This course provides an introduction to general linguistics and basic contrastive study of English, French, German, and Spanish sounds, forms, and syntax. Students visit schools where they interview language learners and sample their speech for analysis. Applications of these studies are made to creating instructional materials and to teaching. Theories of language acquisition as well as factors affecting second language learning, including learning styles and personality, are studied. A rationale for communicative language teaching and learning is constructed. Note: This course is cross-listed as EDU 320. Students may not get credit for both FLE 320 and EDU 320.

FLE 420 Teaching a Second Language 3 Credits

This course focuses on interactive methods of teaching a new language as well as cross-cultural understanding. Students learn to plan using national and state standards for language instruction, organize activities, design and direct language learning tasks, and assess learning. Includes theoretical positions on communicative learning and teaching, the use and evaluation of currently used materials, the design of new materials, and field experiences in the language to be taught. Students develop their professional portfolios and philosophy of second language teaching, prepare a thematic unit of study, and present lesson segments. Open to prospective world language teachers, ESL and bilingual teachers, as well as practicing teachers seeking certification. Note: This course is cross-listed as SED 420. Students may not get credit for both FLE 420 and SED 420. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

Foreign Literature (LIT)

LIT 250 Masterworks of Western Lit I 3 Credits

Introduces the classical heritage and the development of a connected Western literary tradition as reflected in the classics of Western literature from the Greeks to the Renaissance. This course focuses particularly on the qualities, which make each work great. Works by Homer, Aeschylus, Sophocles, Euripides, Virgil, St. Augustine, Dante, and Shakespeare are read and discussed in English. Required for all foreign language majors.

LIT 251 Masterworks of Western Lit II 3 Credits

Introduces modern world literature and the further development of the Western literary tradition from the Enlightenment, through Romanticism, to the contemporary period. Major writers such as Moliere, Racine, Voltaire, Rousseau, Goethe, Tolstoy, Baudelaire, Yeats, Rilke, Ibsen, Mann, Kafka, and Borges are read and discussed in English. Required for all foreign language majors.

LIT 310 Russian Literature 988-1850 3 Credits

A reading and discussion of some of the greatest Russian writers of the first half of the 19th century. Writers include Pushkin, Lermontov, Gogol, Turgenev, and Tolstoy. Classes are in English. No knowledge of Russian required. Required for majors.

LIT 311 Russian Literature 1850-1917 3 Credits

A reading and discussion of some of the greatest Russian writers of the second half of the 19th century and early 20th century. Writers include Dostoevsky, Leskov, Chekhov, Bunin, Gorky, Blok, Bely, and Sologub. Classes are in English. No knowledge of Russian required. Required for majors.

LIT 312 20th Century Russian Lit 3 Credits

A reading and discussion of some major Russian writers from 1917 to 1970. Writers include Akhmatova, Tsvetaeva, Babel, Bulgakov, Pasternak, Mayakovsky, and Evtushenko. Classes are in English. No knowledge of Russian required. Required for majors.

LIT 315 Tolstoy 3 Credits

Reading and discussion of selected works of Tolstoy including his fables; novellas, such as Master and Man and The Kreutzer Sonata; and either Anna Karenina or War and Peace. Classes are in English. No knowledge of Russian is required.

LIT 317 Dostoevsky 3 Credits

Reading and discussion of selected works of Dostoevsky, with special emphasis on Crime and Punishment and The Brothers Karamazov. Classes are in English. No knowledge of Russian required.

LIT 322 German Lit & Film in Eng Trans 3 Credits

Reading and discussion in English of German literary masterpieces and their film adaptations. The material varies from year to year, e.g., German-Jewish writers, German Romanticism, German literature to 1700, modern fiction, or 20th-century women's literature and film. No knowledge of German required.

LIT 325 The Folk Tale 3 Credits

Introduction to the study of folk tales from a literary point of view, to the place of folk tales in European culture, and to the contrast between folk tales and written fairy tales such as Beauty and the Beast and Cupid and Psyche.

LIT 330 Russian Culture 3 Credits

Readings highlighting both the uniqueness of Russian culture and the ways Russian culture has had the greatest impact on Western culture in general. The course is divided into topics such as folklore, religion, painting, music, ballet, and film. Readings from Russian literature will be used to illustrate significant aspects of Russian culture. Classes are in English. No knowledge of Russian is required.

LIT 340 Hispanic Lit & Film Eng Trans 3 Credits

This course explores literary and cinematic masterpieces in English translation. Attention is focused on their relationship to the intellectual, artistic, and historical background of Spain, Latin America, and/or United States Latino cultures. No knowledge of Spanish is required. Open to Spanish majors, but no credit given toward the specific requirements of the major.

LIT 370 European Short Novel 3 Credits

Introduces students to the study of the novella as a distinct literary genre in Europe. Discusses various theories of the novella and the history of the novella in Europe. Will read and discuss such masterpieces of the novella as *O*, *The Queen of Spades*, *A Simple Heart*, and *Death in Venice*.

LIT 390 The Bible As Literature 3 Credits

This course takes a literary approach to the Bible: only one, of course, of the many possible approaches to this rich and fascinating text. Nevertheless this approach to the Bible is justified both because the Bible is a literary masterpiece and because such an approach provides a clear focus for students. Students will read and discuss selections from the three major divisions of the Bible: the Old Testament, the New Testament, and the Apocrypha. Students will also read famous stories such as Joseph and his Brothers, Moses and Exodus, Samson and Delilah, Jonah and the Whale, Susanne and the Elders, The Raising of Lazarus, and The Trial and Execution of Jesus.

French (FRE)

FRE 100 French I 3 Credits

Conversational French is taught through basic vocabulary and grammar building. Students will enjoy an immersion-style method emphasizing real-life situations and vocabulary in authentic cultural context, through an interactive textbook, videos, on-line resources, and oral/aural skill building using the technology in the Foreign Language Media Center to enhance learning.

Prerequisite(s): Placement test if French has been studied elsewhere.

FRE 101 French II 3 Credits

Building on learning in French I, students will begin to converse using more complicated grammatical structures within immersion-style classroom interactions. While the focus is still on conversation and aural skill building, composition skills receive greater emphasis. Students will enjoy an interactive textbook, Internet usage, and authentic videos shot on location in France.

Prerequisite(s): FRE 100 or placement test.

FRE 200 French III 3 Credits

This course builds on linguistic skills previously acquired through an emphasis on conversation and oral comprehension, and through vocabulary building. Grammar study is continued at a more advanced level, and students begin to read short passages focusing mainly on francophone culture and civilization. Film clips, Internet resources, and other computer-aided learning tools are used to create a dynamic immersion-style learning experience.

Prerequisite(s): FRE 101 or placement test.

FRE 201 French IV 3 Credits

While continuing the emphasis on aural/oral production and grammar and vocabulary building, short passages of greater complexity taken from literary texts, newspapers, and magazines will become the focus of conversation/composition activities. Technological resources will continue to enhance the immersion-style learning experience consistent with a course in advanced French. Successful completion of this course, or its equivalent, serves as a prerequisite for French courses at THE 300 and 400 level.

Prerequisite(s): FRE 200 or placement test.

FRE 300 French Composition/Translation 3 Credits

An in-depth study of style, shades of meaning, and correctness of expression. Translation of business/professional/scientific/political texts will receive emphasis, and students will continue to perfect their writing skills, and review and improve advanced grammatical structures.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

FRE 301 French for Business 3 Credits

The fundamentals needed to survive in the French professional and business world are taught. Students will continue to perfect oral/written/aural skills while learning about the cultural climate within which these skills will be used. Students will learn how to prepare effective business/professional correspondence and, through role-playing activities, will use their knowledge in such real-life situations as interviewing, telephone conversations, and business meetings.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

FRE 305 An Intro to French Literature 3 Credits

A chronological overview of the evolution of French literature from the chansons de geste into the 20th century. Study and interpretation of selected works, authors or literary movements through the Renaissance, the classical period, Enlightenment, romanticism, realism, naturalism to representative works by authors of our century from Proust to existentialism, the nouveau Roman, theatre absurde and beyond. Required for majors.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

FRE 311 French Culture 3 Credits

A study of modern France and French value orientations as they are rooted in tradition and history and continue to shape everyday life as well as institutions, social organizations, artistic expression, education, attitudes and human interaction. A comparative approach will examine the underlying differences between France and the United States. Classes are in English.

FRE 320 French Phonetics and Conversation 3 Credits

This course is an introduction to French phonetics and is designed to help students further develop their skills in speaking French accurately and fluently. The course requires students to learn basic linguistic symbols and the phonetic alphabet as a theoretical step toward improving articulation and pronunciation. Moreover, special emphasis will be placed on the development of vocabulary and of appropriate communication techniques to participate in discussions in French. The course will be a mix of lectures, class discussions, debates, face-to-face conversations, and role games requiring a strong active participation. Counts toward major and minor requirements.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

FRE 422 Cultural Express in French Film and Television 3 Credits

A systematic analysis of selected French films and television broadcasts will reveal cultural value orientations as they relate to love, family, community, leisure, work, social, and political organization. A comparative approach will stress the underlying cultural differences between France and the United States.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

FRE 425 Portrait of the Hero in French Fiction 3 Credits

This course deals with modern French fiction and its depiction of the role of the hero as a figure who gradually loses control over his fate (Stendhal, Balzac) and is changed into someone who struggles against ever increasing odds, only to be finally vanquished (Flaubert). The main character may find fulfillment in recollections of the past (Proust), explore the moral parameters of existence (Gide, Camus) or become the incapacitated anti-hero of Beckett's novels.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above; exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

FRE 430 Mask & Reality in French Theat 3 Credits

A study of theater through the optic of a unifying theme: the mask and reality. The goal is to gain a greater appreciation of the art of dramatic illusion whereby actors, while wearing the masks of the characters they play, allow us to examine ourselves and reality in true, unmasked form. Playwrights to be studied will range from the classical theater of Racine and Corneille, through the modern avant-garde, existentialist and Theater of the Absurd works of such playwrights as Ionesco and Beckett.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

FRE 435 Self in French Prose & Poetry 3 Credits

Are we determining or pre-determined creatures? What is our essential nature? Is the quest for salvation justified? A study of the historical, political, and social realities in which the texts were composed will shed light on the concept of the self. Representative authors from the Renaissance to modern times will include: Montaigne, Descartes, Pascal, Montesquieu, Rousseau, Hugo, Baudelaire, Apollinaire, Sartre, Camus, Duras, Sarraute, Colette, de Beauvoir.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

FRE 440 A Quest for Identity: Francophone Lit 3 Credits

This course introduces the cultures of countries or regions where French is used either as the (or one of the) official language(s) or, in a less official capacity, by a segment of the population. In readings, discussions, songs, film viewings, and written assignments, students will experience the Francophone cultures of specific areas and the amazing diversity of the Francophone world. They will also explore the difficult relation of the Francophone countries with France. The course considers issues of social status, history, resistance, and identity. Counts toward major and minor requirements.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

FRE 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

FRE 491 Internship in Foreign Languages 1-4 Credits

A supervised work experience in an approved organization to gain knowledge of the importance and interrelationship of foreign languages and cultures in the workplace. Placements can be made in international governmental agencies, international trade associations, multinational corporations, social service agencies, and other appropriate workplace environments both in the United States and abroad. With permission of the supervisor and faculty advisor, a three-credit internship may be substituted for a collateral requirement as credit toward the major.

Prerequisite(s): students should have completed at least one 300-level course in the foreign language.

FRE 496 Special Studies 3 Credits

Offered as needed to complement the program in French. A seminar open to a variety of topics treating a particular author, period, genre or critical approach.

Prerequisite(s): FRE 201, placement test at 300-level or above, or FRE 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

Gender and Sexuality Studies (GND)

GND 100 Introduction to Gender Studies 3 Credits

An introduction to the role of gender in human experience, examining the biological, historical, literary, artistic, and institutional manifestations of gender, and exploring the intersections of gender, sex, and sexuality.

GND 110 Race, Class and Gender in Contemporary American Society 3 Credits

This interdisciplinary course analyzes the ways in which race, class, gender and ethnic relationships shape the experience of all persons in this society. It examines the categories of race, class and gender as social constructs that have been historically developed and sustained by economic, social, political, and cultural factors.

GND 200 Introduction to Women's Studies 3 Credits

An interdisciplinary investigation of traditional and contemporary gender roles, and of women's status, identity, and potential. Required for minor.

GND 230 Women In Literature 3 Credits

A range of literary presentations of the female experience and of the conditions of women's lives is explored. These works are placed in historical and social contexts in order to see behind and beyond traditional literary conventions.

GND 245 Popular Constructions of Gender and Sexuality 3 Credits

This course takes an interdisciplinary approach to investigate the constructs that society creates and maintains with relation to sexuality and gender. As we are increasingly confronted with images of gender and sexuality, it becomes vital to interrogate the origins of these images from a variety of disciplinary perspectives in order to analyze and critique these constructs. Students will be introduced to theoretical approaches to analyzing popular constructs of gender and sexuality from a variety of areas, including (but not limited to) the humanities, the physical sciences, and the social sciences.

GND 300 Feminist Literary Criticism 3 Credits

This seminar explores the diversity within feminist literary analysis. Various national, ethnic and cultural standpoints are represented and the different as well as the common assumptions within feminist thought will be discussed.

GND 310 Special Topics 3 Credits

Studies in specialized areas of feminist scholarship. Topics change according to instructor and are listed in the course roster.

Prerequisite(s): one previous course in gender and sexuality studies or permission of instructor.

GND 312 Gender, War and Peace 3 Credits

Through readings in literature, history, political science, philosophy, and psychology, the course will explore critically the myths linking feminine gender with pacifism and masculine gender with aggression. Various perspectives on peace and war, the history of peace movements, and women's as well as men's participation in war will be considered.

GND 313 Gender and Ethics 3 Credits

An interdisciplinary seminar involving a concentrated study of recent works in feminist theory, with special attention to issues such as: Do men and women have different ethical perspectives and different styles of moral reasoning? How do the "ethics of care" differ from the traditional "ethics of justice?" Can the models of justice and care be integrated into a more comprehensive theory?

GND 318 Gender and Communication 3 Credits

This course focuses on interactive relationships between gender and communications in contemporary American society. It connects theory and research with practice to explore multiple ways communication in families, schools, media, and society in general creates and perpetuates gender roles. It is designed to heighten students' awareness of how we enact socially created gender differences in public and private settings and how this affects success, satisfaction, and self-esteem.

GND 319 Gender and Sexuality in American Society 3 Credits

What makes a man, exactly, and what makes a woman? What kinds of sex are normal, and what kinds are abnormal? Who decides, and why? The answers to these questions are not fixed. Throughout American history, popular understandings of gender and sexual norms evolved in close relationship with the political, economic, racial, and social dictates of the time. This course will trace the evolution of ideas on sex and gender from the 18th century to the present using various historical sources including fiction and film, particular attention will be given to analyzing dominant models of proper behavior and the complex relationships of power enmeshed within them.

GND 322 Witch Hunts: Femicide Through Centuries 3 Credits

We will look at the perceived definitions of "witch" and "witchcraft" in relation to establishing medieval to modern gender codes. Our detailed study of perceptions of witches and their practices will reveal the power dynamics, social constructions and definitions that aided in the demise of countless women labeled as "witches" throughout history. Considerable time will be spent in exploring the internal controversy within the field of witchcraft studies regarding the use of words such as "genocide," "femicide," and "gendercide."

GND 333 Gender and Sport 3 Credits

Typical thoughts of sport include ticket prices, player salaries, team rosters, and league standings; rarely is it viewed from a gender perspective. This course will go beyond the examination of Title IX to better understand the relationship between masculinity, femininity and sports. This course will examine various aspects of gender and sport, including media and gender representation, race and ethnicity, drugs and violence, men and masculinities, sexualities, policy and politics, the feminist critique of sport, the initiation rites and hazing in college sports, sports wagering, and the internationalization of sport, including but not limited to the Olympics and Paralympics.

Prerequisite(s): junior or senior standing.

GND 340 Biology of Gender and Sexuality 3 Credits

It is expected that students will gain a base of knowledge sufficient to understand science as a way of understanding the natural world and to evaluate scientific information provided in popular media for its validity as related to topics of biology and gender and/or sexuality.

GND 350 Leadership and Community 3 Credits

Designed for all students whose future plans include community service, organizing, and leadership, this course will study organizing in response to domestic violence, discrimination on the basis of gender, sexual harassment, and other issues related to women's needs. Building coalitions, skills for leadership, and strategies for effective organization will be covered in readings and in class discussions and students will practice what they have learned by working in a local non-profit community-based organization.

GND 400 Seminar in Transcultural Gender and Sexuality 3 Credits

This seminar offers an opportunity for upper-level students to engage in a multidisciplinary study of the constructions of gender and sexuality in a variety of cultural contexts across the globe. Topics change according to instructor. Required for minor. Prerequisites: Junior or senior standing.

GND 490 Independent Research & Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

GND 491 Internship 1-4 Credits

Students work in an approved organization, under supervision of someone in that organization and of a gender and sexuality studies faculty member. Placements can be made in business, governmental and non-profit organizations and in local, grass-roots movements that draw on the knowledge acquired in gender studies courses. A minimum of 48 hours of field work per credit is required. Students must make bi-weekly reports, and they are required to analyze and evaluate their work at the end of the semester.

Geosciences (GEO)

GEO 100 Earth Systems Science 3 Credits

Investigates the major global processes that occur on Earth. These processes can be grouped into four major systems: atmosphere, hydrosphere, lithosphere, and cosmosphere. Each system interacts with and affects the other systems creating, in a sense, a single Earth process. With this approach, the student will view the Earth as a whole, and understand that the many seemingly separate components that make up this planet are, in fact, a set of interacting processes, that operate in cycles through time, within a single global system. Three hours of lecture per week.

GEO 102 Earth Materials and Processes Lab 1 Credits

A hands-on laboratory experience involving the origin, significance, identification, and classification of Earth materials and processes. Mineral and rock specimens, soil and water samples, and topographic and geologic maps are utilized. Numerous field trips to local sites help students visualize many of the concepts discussed. One three-hour lab per week.

Prerequisite(s): concurrent enrollment in, or prior completion of, GEO 100 or GEO 113 is required.

GEO 113 Environmental Geology (also cross listed as GLS-113) 3 Credits

Examines the fundamental premise that "our society exists by geologic consent subject to change without notice" by studying a number of important geologic processes and cycles, and the hazards and/or resources they present to individuals, society, and the natural environment. Topics discussed include earthquakes, volcanism, stream flooding, coastal erosion, climate change, and water, soil, mineral, and energy resources. Cost/benefit considerations, hazard mitigation concepts, economic and political ramifications, and the interactions among the lithosphere, hydrosphere, atmosphere, and biosphere also are presented. The course is designed to give non-science majors a deeper appreciation of their connection to the surrounding geologic environment, leading to better, more informed business, political, policy, and personal decisions. Three hours of lecture per week. Note: This course is cross-listed as GLS 113. Students may not get credit for both GEO 113 and GLS 113.

GEO 168 Mesozoic Ruling Reptiles 3 Credits

A survey of the vertebrate groups that dominated the land (Dinosaurs), the seas (Mosasaurs, Plesiosaurs, Pliosaurs, Tylosaurs, and Ichthyosaurs) and the skies (Pterosaurs, Pterodactyls) during the Mesozoic Era. The course considers diversity of skeletal architectures and their reconstructed function and the often controversial, inferred anatomy, physiology, reproductive strategy, habit, and social behaviors of these animals that are different from mainstream reptiles, birds, and mammals. It also covers the paleogeographical, and paleoclimatological conditions that facilitated the evolutionary rise to dominance and diversification of these vertebrate groups and the debated causes of their eventual extinction. Three hours of lecture per week. Weekend field trips may be required.

GEO 201 Elements of Mineralogy 4 Credits

The physical properties, chemistry, atomic structure, crystallography, uses, and environmental impacts of important minerals of the lithosphere and biosphere are presented. In addition, lab assignments and exercises emphasize crystal symmetry and chemistry; polarizing microscope, ICP, and x-ray analytical techniques; the graphical display and interpretation of compositional data; optical properties of isotropic and uniaxial minerals; and the identification of mineral hand specimens. Three hours of lecture and one three-hour lab per week. At least one weekend field trip required. Prerequisite(s): GEO 100 or GEO 113, CHE 120, CHE 121 taken prior or concurrently; or permission of instructor.

Corequisite(s): GEO 201L.

GEO 201L Elements of Mineralogy Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): GEO 201.

GEO 290 Directed Research and Study in Geosciences 1-4 Credits

Directed Research and Study in Geosciences will provide an opportunity for freshman and sophomore students to gain hands-on research experience in the geosciences. This is an individual program of study and each student will work with a selected faculty member on a topic of mutual interest. The course consists of a combination of project meetings, supervised research, and guided readings. The focus will be on formulating research questions, designing and conducting experiments, collecting the necessary data, reviewing the scientific literature as it relates to each student's research topic in a weekly meetings with the instructor, and communicating the findings by writing a final project report.

GEO 305 Petrology and Petrography 4 Credits

The origin, evolution, and terrestrial distribution of igneous and metamorphic rocks are presented and detailed. Classroom lectures and discussions emphasize rock geochemistry, mineralogic variability, the constraints placed on petrogenetic models by physio-chemical studies of natural and synthetic systems, and the relation of the various rock types to current plate tectonic theory and other whole-earth processes. The laboratory emphasizes the continuing development of optical microscopy skills, the identification of rock texture and mineralogy in thin section and hand specimen, the optical determination of mineral composition, and the recognition of possible petrogenetic processes as recorded in the rocks themselves. Three hours of lecture and one three-hour lab per week. Two weekend field trips required. Prerequisite(s): GEO 201, and CHE 122 and CHE 123 or taken prior or concurrently; or permission of instructor.

Corequisite(s): GEO 305L.

GEO 305L Petrology and Petrography Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): GEO 305.

GEO 306 Sedimentology and Stratigraphy 4 Credits

The principles of weathering, erosion, transportation, and deposition of sediment are the focus of this course. Sediment characteristics are examined to identify the processes involved in transporting grains and the specific environment in which the grains were deposited. Students will learn how to collect, analyze, and interpret sedimentary data and how to interpret surface and subsurface stratigraphic data using various techniques, such as lithostratigraphic, biostratigraphic, and geophysical, correlations. Field trips will expose students to different sedimentary environments and provide opportunities for students to learn how to conduct fieldwork. Three hours of lecture and one three-hour lab per week. Weekend field trips may be required. Prerequisite(s): GEO 100.

Corequisite(s): GEO 306L.

GEO 306L Sedimentology and Stratigraphy Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): GEO 306.

GEO 310 Structural Geology 4 Credits

The origin, distinguishing characteristics, and geographic distribution of deformational structures of the Earth's crust. In the laboratory, GPS, GIS, geologic maps, and three-dimensional problems are used in the study of typical surface and subsurface geologic problems. Three hours of lecture and one three-hour lab per week. Weekday and/or weekend field trips may be required. Prerequisite(s): GEO 100 or GEO 113, GEO 102.

Corequisite(s): GEO 310L.

GEO 310L Structural Geology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): GEO 310.

GEO 350 Soil and Surficial Processes 4 Credits

This course examines the physical, chemical, hydrological, and biological aspects of soil and their relation to geomorphologic development. Specific topics include descriptions of soil texture and structures, soil classification, soil colloids, soil redox and pH, and their effect on vadose zone water chemistry. Soil genesis and erosion controls, microbiology/ecology, nutrient cycles, and modern soil pollution from sludge and pesticide applications, as well as domestic and industrial chemical spills, also are discussed. The lab portion of the course introduces the basic techniques of soil analysis, both physical and chemical, and field survey methods. Three hours of lecture and one three-hour lab per week. Prerequisite(s): GEO 100 or GEO 113, and GEO 102.

Corequisite(s): GEO 350L.

GEO 350L Soil and Surficial Processes Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): GEO 350.

GEO 407 Hydrology and Water Resources 4 Credits

This course introduces the principles that govern both surface water and groundwater flows that have applications to societal water needs. Surface water topics cover the basics of the hydrologic cycle, the processes of precipitation, evapotranspiration, runoff, and infiltration, and various factors affecting water supply and water quality issues in a modern watershed. Groundwater topics examine the principles that govern flow through a porous medium and the basics of well hydraulics under different pumping conditions that community development requires. Laboratory exercises will give students hands-on experience with the delineation of watersheds, analysis of precipitation data, and flow contaminant transport modeling. The field portion of the laboratory includes runoff and stream discharge measurements, as well as hydraulic conductivity estimations from both slug and pumping tests. Three hours of lecture and one three-hour lab per week. Prerequisite(s): GEO 100 or GEO 113, GEO 102, and MTH 105.

Corequisite(s): GEO 407L.

GEO 407L Hydrology and Water Resources Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): GEO 407.

GEO 480 Senior Thesis 3 Credits

A senior thesis is optional for geosciences majors. However, a senior thesis is required for eligibility to graduate with honors in geosciences. The topic for investigation will be chosen by the student in consultation with the faculty of the Department of Geological, Environmental, and Marine Sciences. The student must initiate consideration of a proposal to the Department. The proposal must contain a discussion of the proposed project and a timetable to be followed in the study. A departmental committee consisting of a major and minor advisor will evaluate the written paper submitted at the conclusion of the study or other approved venue. An oral presentation before the department at the conclusion of the semester in which the study is completed is required. Proposals must be submitted in final form no later than the end of the ninth week of the semester prior to the semester in which the study is undertaken.

Prerequisite(s): senior standing in the geosciences major and permission of instructor.

GEO 490 Independent Research and Study 1-4 Credits

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

GEO 491 Internship in Geosciences 1-4 Credits

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placements may be in private, public, non-profit, or governmental organizations. These can include consulting firms, regulatory agencies, advocacy groups, and educational or research institutions. Normally, 50 hours of internship per credit is required. A mutually agreed upon method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and could include a term paper or project report and a poster presentation.

Prerequisite(s): 2.5 GPA and permission of instructor.

German (GER)**GER 100 German I 3 Credits**

An introduction to German stressing the spoken language and the fundamentals of grammar. Students are required to work extensively with audio CDs.

Prerequisite(s): placement test if German has been studied elsewhere.

GER 101 German II 3 Credits

A continuation of German 100. Communication skills are broadened, fundamental grammar is studied, and a useful basic vocabulary is acquired. Students are required to work extensively with audio CDs.

Prerequisite(s): GER 100 or placement test.

GER 200 German III 3 Credits

Intensive review of German grammar and syntax with a systematic approach to oral expression and composition. Readings on contemporary German life and selections from modern literature.

Prerequisite(s): GER 101 or placement test.

GER 201 German IV 3 Credits

Continuation of grammar review and readings. Special emphasis on oral expression and composition of increasing sophistication, proceeding from concrete observations to theoretical and abstract discussion.

Prerequisite(s): GER 200 or placement test.

GER 300 Composition & Conversation 3 Credits

Practice in German communication skills through developing oral and written expression, comprehension and vocabulary.

Prerequisite(s): GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

GER 301 German for Business 3 Credits

Basic fundamentals for applying the German language to business operations and correspondence. Emphasizes German business terminology as contained in business-related journal articles, letters, and documents.

Prerequisite(s): GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

GER 305 Intro to German Literature 3 Credits

An introduction to works selected from the most important periods of German literature from the Hildebrandslied to the pre-classical period. Primary focus on close reading of complete works by Lessing and Goethe. Required for majors.

Prerequisite(s): GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

GER 307 German Literature and Film 3 Credits

Focus on major works of 19th- and 20th-century German literature and their film adaptations. Readings include works by Büchner, Kafka, Mann, Brecht, Böll and Dürrenmatt. Films by Herzog, Welles, Visconti, Schlöndorff, and others.

Prerequisite(s): GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

GER 310 German Culture 3 Credits

Introduction to the contemporary cultures of Germany, Austria and Switzerland. Selected readings from contemporary German fiction, newspapers and monthly magazines (all in English), films, and music. No knowledge of German required.

GER 425 Self/Society in Short Fiction 3 Credits

Reading and discussion of short prose works of Hauptmann, Schnitzler, Kafka, Grass, Frisch, and others.

Prerequisite(s): GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

GER 430 Modern German Drama 3 Credits

Selected plays by major German, Austrian and Swiss playwrights of the 20th century are studied within a cultural and historical context.

Prerequisite(s): GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

GER 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

GER 491 Internship in Foreign Languages 1-4 Credits

A supervised work experience in an approved organization to gain knowledge of the importance and interrelationship of foreign languages and cultures in the workplace. Placements can be made in international governmental agencies, international trade associations, multinational corporations, social service agencies, and other appropriate workplace environments both in the United States and abroad. With permission of the supervisor and faculty advisor, a three-credit internship may be substituted for a collateral requirement as credit toward the major.

Prerequisite(s): students should have completed at least one 300-level course in the foreign language.

GER 496 Special Studies 3 Credits

A seminar emphasizing a particular literary genre or the work of one author. Possible topics might be: Goethe's Faust, lyric poetry, the novella, romanticism, women writers, or other authors, periods, or genres in German literature.

Prerequisite(s): GER 201, placement test at 300-level or above, or GER 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

Global Studies (GLS)

GLS 113 Environmental Geology 3 Credits

Examines the premise that "our society exists by geologic consent subject to change without notice" by studying a number of important geologic processes and the hazards and/or resources they present to individuals, society, and the natural environment. Topics discussed include earthquakes, volcanism, stream flooding, coastal erosion, climate change, and water, soil, mineral, and energy resources. Cost/benefit considerations, hazard mitigation concepts, economic and political ramifications, and the interactions between the lithosphere, hydrosphere, atmosphere, and biosphere also are presented. The course is designed to give non-science majors a deeper appreciation of their connection to the surrounding geologic environment, leading to better, more informed business, political, and personal decisions. Three hours of lecture per week. Note: This course is cross-listed as GEO 113. Students may not get credit for both GLS 113 and GEO 113.

GLS 120 Oceanography 3 Credits

Investigates the interrelationships among the geological, chemical, physical, and biological aspects of oceanography. Topics include origin and evolution of ocean basins; physical characteristics of modern oceans; seawater chemistry; ocean and atmosphere interactions; ocean currents; waves and tides; coastal processes; biological productivity; and diversity, distribution and adaptations of marine organisms. Throughout the course, emphasis is placed on the processes that connect the seemingly separate topics to each other and to human life. Weekend field trips may be required. Three hours of lecture per week. Note: This course is cross-listed as MAR 120. Students may not get credit for both MAR 120 and GLS 120.

GLS 121 Introductory Oceanography Lab 1 Credits

Introduction to the fundamental aspects of geological, chemical, physical, and biological oceanography. Students learn through inquiry-based, hands-on exercises and activities using actual data collected in the lab and in the field. Independent projects and local field trips during lab and on weekends may be required. One three-hour lab per week. Note: This course is cross-listed as MAR 121. Students may not credit for both GLS 121 and MAR 121.

Prerequisite(s): Concurrent enrollment in, or previous completion of, MAR 120 or GLS 120 is required.

GLS 180 Understanding Global Relations 3 Credits

Offers an introduction to Global and Multinational Studies by exposing the student to basic concepts necessary to understand the dynamics underlying the emerging worldwide society of diverse nations. The student will become acquainted with the mechanisms by which contacts are built across nations, and the factors that shape the conception of and relations with "the other."

GLS 200 Social Construction Global Soc 3 Credits

This course discusses the emergence of an "imagined global community" in the final years of the 20th century, and the beginning of the 21st. The course will examine the forces that contribute to these changes, including the global dissemination of values, the changes in communication technologies, the globalization of the economy, and the spread of international non-governmental institutions and lobbying forces.

GLS 201 Politics of the Global Economy 3 Credits

An examination of global political-economic institutions and governmental policies in a period of global structural change and economic crisis. Emphasis will be placed upon the attempts by advanced and newly industrializing governments to attract and to regulate transnational industrial and financial enterprise.

GLS 203 Principles of Macroeconomics 3 Credits

A collective view of income receiving and spending sectors of the national economy, including households, businesses, and governments. Issues discussed: What determines the level of output, income, and employment achieved by the economy? What determines the growth of national output and employment? National income accounting, income and employment theory, monetary system, general price level, business cycle, government policies designed to provide for full employment, price stability, and economic growth are also covered.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

GLS 204 Principles of Microeconomics 3 Credits

Market price systems are analyzed. The nature and characteristics of consumer and producer behavior, the theory of pricing in competitive and noncompetitive markets, and determination of the distribution of output are evaluated. Welfare, social control, monopoly, and income inequality are explored in the light of price theory. The role of the United States in the world economy is explored.

Prerequisite(s): Place into MSD 105 based on SAT or ACT Score, OR place into MSD 105/MTH 102 by passing College Placement, OR passing MTH 100S with a grade of 'Y', OR passing MSD 104, OR having transferred in any college level MSD or MTH class.

GLS 205 Introduction to Geographic Info Systems 3 Credits

This course introduces the computer-based concepts and skills of Geographic Information Systems (GIS). It covers the basic GIS concepts, such as map characteristics and projections, spatial data models and analysis, and relational databases. It explores data sources, data quality, and metadata, as well as implementation and management of specific GIS projects. Hands-on experience with ArcGIS software is provided through a series of student exercises completed throughout the semester. Students will also be taught how to process both vector and raster data using ArcGIS 9 software. The course is relevant for students from numerous disciplines in the natural sciences, social sciences, and business, which require the analysis and graphical representation of spatial data. Three hours of lecture per week. Note: This course is cross-listed as ENV 205. Students may not credit for both GLS 205 and ENV 205.

GLS 210 Public Opinion 3 Credits

Public opinion as a social force and as expression of public sentiment on political and social issues. Topics include: development and dissemination of opinions, the measurement of public opinion, public opinion and governmental processes, and the reciprocal relationship between mass media and public opinion. Note: This course is cross-listed as POL 210. Students may not get credit for both GLS 210 and POL 210.

GLS 215 Global Politics 3 Credits

The struggle for power, wealth, and order at the global level involving nation-states, intergovernmental organizations (such as the United Nations, the European Union, etc.), non-governmental organizations, transnational enterprises and other non-state entities, using military, economic, diplomatic, legal, and communication instruments. Overview of global problems such as the proliferation of weapons of destruction, ethnic and religious conflicts, human rights, and the global environment at the threshold of the 21st century. Real-time use of the Internet is an integral aspect of this course in terms of readings and assignments. (This course is a prerequisite for POL 295 Special Projects in Political Science: Model United Nations.) This course is cross-listed as POL 215. Students may not get credit for both GLS 215 and POL 215.

GLS 216 Comparative Political Systems 3 Credits

A general introduction to types of government and political regimes of the world as they try to cope with the dual challenge of ethnic micropolitics and transnational globalization. Major prototypes of democracy: the British parliamentary system, the American separation of powers system, and various combinations of these two. Traditional autocracy, totalitarian dictatorships, and late 20th-century authoritarian regimes. Students are expected to acquire in-depth knowledge of comparative political systems, and to develop a basic understanding and appreciation of the major concepts and themes in comparative political systems studies.

GLS 219 Terrorism, Revolutions and Political Violence 3 Credits

Revolutions are the mad inspiration of history." Trotsky's characterization calls attention to three important dimensions of violent political participation: the historical settings, ideology, and emotional fervor of the practitioners. The course focuses on these dimensions by analyzing revolutionary and terrorist movements in the 20th century. Special attention is given to the use of violence in the post-Cold War new world disorder. Note: This course is cross-listed as POL 219. Students may not get credit for both GLS 219, POL 219 and HLS 219.

GLS 225 Nationalism in World Politics 3 Credits

Nations and nationalism. An overview of nationalistic manifestations in the world today. Nations, states, nation-states. Multinational states, stateless nations. Imperialism, anti-imperialism; nativism vs. internationalism and globalism. Topics include nationalisms in the Holy Land; in the former Yugoslavia; in the former Soviet Union and its successor states; and economic Nationalism vs. Globalization. Note: This course is cross-listed as POL 225. Students may not get credit for both GLS 225 and POL 225.

GLS 252 Intercultural Communication 1.5-3 Credits

Develops intercultural communication competence through an awareness and understanding of diverse cultures and their impact on communication. This course will be different from the international communication course, which focuses on communication between nations. This course will focus on the more personal aspects of communication—what happens when people from different cultures interact face-to-face. It will introduce students to those general factors that influence communication with people from diverse cultures both internationally and within the United States, and offer a blend of skill development, communication theory, and hands-on application. Note: This course is cross-listed as COM 252. Students may not get credit for both GLS 252 and COM 252.

GLS 267 China in Transition 3 Credits

This course has two focal points: one is the rise and fall of great powers in the history of world transformation; the other is China's whereabouts in this transition. The former deals with a group of international relations theories, which focuses on system transformation. Students are expected to learn extant theoretical knowledge on how and why a great power rises and falls. The latter is our empirical referent. Students are led to study China's contemporary history, geopolitics, political economy, and international relations as to make a learned connection between theoretical wisdom and practical data on China. This course will provide students with a better understanding of China in general and its superpower status in the making in world politics in particular, offer students a chance to review the sources consequences of different approaches to greatness, and help students find his or her own analytical framework for understanding international political events that may have transforming effects in Northeast Asia as well as on the world stage. Note: This course is cross-listed with POLS 267. Students may not get credit for both GLS 267 and POLS 267.

GLS 285 The Student Global Village 3 Credits

This course involves deliberative discussions carried out internationally among college students using videoconferencing technology. The project involves a series of 12 weekly videoconferences between students at Rider University and students at the American University of Cairo, or another international university. Students will be provided with materials to supplement their knowledge of the other country, and to allow them to discuss chosen themes in depth. The students will be required to write papers that describe their attitudes and impressions of the other country at the beginning and the end of the project, and to summarize what they have learned based upon the conferences and readings. Short papers will be required each week to prepare the students for the videoconference theme of the week.

GLS 295 Emerging Issues Global Multin'l Studies 3 Credits

The process of globalization defines a condition of rapid political, social, and economic change. As such, subjects for study become relevant at an alarming speed in the current international environment. This course will give students the opportunity to study a current critical issue or subject, chosen according to its relevance or the special expertise of a visiting or current professor. Topics may include political, economic, or social crises that exist currently, how to deal with specific global problems such as global warming, humanitarian crises, or wars, but may also concentrate on the background of relevant areas such as Iraq or the European Union.

GLS 306 Political Film 3 Credits

This course analyzes the structure, history, and impact of the genre of political film. It begins with a discussion of how one distinguishes a political film from other forms of cinema. It then proposes insights into the manner in which these films evoke a particular time and place in politics, affect the viewer's interpretation of a political event or figure, and have an effect upon a viewer's political perceptions or behavior. The student will also learn to review films critically, both as political statements and as effective (or ineffective) conveyors of political messages. Note: This course is cross-listed as POL 306. Students may not get credit for both GLS 306 and POL 306.

GLS 307 Political Communication 3 Credits

The meaning and uses of political communication are examined, the manner and forms such communication takes, and the history of political discourse. Major topics include the role of communication in elections and the development of public policy, how political communication strategies have changed with the rise of mass media, and the development of national and international publics for discourse. Note: This course is cross-listed as POL 307. Students may not get credit for both GLS 307 and POL 307.

GLS 308 World Music 3 Credits

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures. This course is cross-listed as MUS 308. Students may not get credit for both GLS 308 and MUS 308.

GLS 310 Ethnographic Film 3 Credits

Explores the manner in which different civilizations are depicted through the medium of documentary film. Discusses the manner in which film may contribute to ethnographic understanding of a given people, and the limitations of the genre that may misrepresent the subject matter. Special attention is given to the role of the filmmaker and his/her position as participant, observer, and recorder of the events shown on the film. The films will be analyzed in terms of how they reflect, and potentially affect, a civilization's international image and global standing. These factors will then be considered in terms of their effects upon the place and actions of the civilization in global politics.

GLS 315 Global Issues 3 Credits

Military, economic, demographic, and environmental threats to global security in the post-Cold War era. Forces of transnational integration vs. forces of intrastate fragmentation. Inadequacy of international law and organization to deal with these problems within the confines of the sovereign nation-state system. Note: This course is cross-listed as POL 315. Students may not get credit for both GLS 315 and PO 315.

GLS 320 Politics of the Middle East 3 Credits

The course emphasizes the relationships between social and political structures, the role of religion, and the problems of modernization in the Middle East. Similarities and contrasts will be drawn between the Arab and non-Arab countries of the Middle East. The political systems of Egypt, Syria, Israel and Saudi Arabia are examined in terms of political culture, structure, and political processes.

GLS 321 International Law 3 Credits

This course covers the basic doctrines of international law and their relationship to the contemporary international community. These include the jurisprudence of international law; the history of the international legal system; customary international law; Treaty law; sovereignty, statehood and recognition; jurisdiction and immunities; the role of international organizations; international criminal responsibility; and the relationship of the international legal system to the U.S. domestic legal system. The objectives of international law are to foster the peaceful settlement of disputes; facilitate transnational communication and commerce; encourage respect for human rights; as well as to preserve the environment.

GLS 325 Global Persptvs Hlth & Illness 3 Credits

Explores the different international perspectives on health and illness. Themes include how men, women, and children in respective civilizations are treated and viewed within their communities or nations, as they become ill. Particular attention is given to the contrast between various types of traditional healing and Western medical practices, and their interactions. Discussions will also compare the usefulness of national versus international health agencies in dealing with global health problems.

GLS 328 Environmental Policy 3 Credits

Environmental Politics examines how policymakers deal with the political challenges of unsustainable resource consumption, which is a primary determinant of environmental problems such as climate change, adverse health effects, and biodiversity loss. The course introduces students to environmental politics and policies at the local, state, national, and international levels. The course is designed to provide students with a framework for understanding how varied interests compete within political institutions in order to transform contending ideas into public policy. With that in mind, students will not only become more informed consumers of political information, but will also become more effective at analyzing and advocating for policies as it relates to the environment.

GLS 329 Comparative Environmntl Policy 3 Credits

Analyzes cross-national approaches in developing, implementing, and evaluating policy responses to environmental problems. The course analyzes the political factors, actors, and tools that help and explain why some societies have been more likely to develop effective responses to environmental threats. Note: This course is cross-listed as POL 329. Students may not get credit for both GLS 329 and POL 329.

GLS 340 Mod Democracy & its Critics 3 Credits

The course examines the fundamental assumptions underlying modern democratic theories and the main theoretical attacks launched against them. Among the contending theories to be discussed are right and left-wing anarchism, the old and the new left, fascism, intellectual elitism, and techno-conservatism. Note: This course is cross-listed as POL 340. Students may not get credit for both GLS 340 and POL 340.

GLS 342 Freedom and Authority 3 Credits

Concepts of freedom and authority in 19th and 20th-century political theory. Emphasis on such important thinkers as Nietzsche, Freud, Sartre, Camus, and Marcuse. This course is cross-listed as POL 342. Students may not get credit for both GLS 342 and POL 342.

GLS 352 Chinese and American Intercultural Commu 3 Credits

Instructs students about Chinese culture and communication. Culture impacts communication practices and styles in significant and subtle ways. Through readings, lectures, discussions, and first-hand interactions with Chinese international students, the students of this course will gain both conceptual and practical understanding of major communication differences between the two cultures, and become a more skilled intercultural communicator. Note: This course is cross-listed as COM352. Students may not get credit for both GLS 352 and COM 352.

GLS 365 Third World Politics 3 Credits

Studies the major political issues of the Third World. Particular reference to political systems of Africa, Asia, Latin America, and the Middle East according to the relevance of the examples to large conceptual issues, and according to the major interests of the instructor. Typical issues include neocolonial dependency, the role of the state in newly developed countries, military rule and democratization. Note: This course is cross-listed as POL 365. Students may not get credit for both GLS 365 and POL 365.

GLS 366 Communist Systems: Politics and Policies 3 Credits

The course aims to provide students with an understanding of the origin, development, and history of communism, as well as the current political systems and practices of communist regimes in the world. Students are expected to acquire in-depth knowledge about the origin and development of communism, the influence of communism in world politics, and political systems and policies of contemporary communism regimes. Topics examined include Communist Manifesto, communism in the USSR, communism in China, McCarthyism in the U.S., Cold War, collapse of the USSR, fall of Berlin Wall, and communism in contemporary Cuba and Korea.

GLS 367 Pol Exile, Asylum & Diaspora 3 Credits

This course analyzes mass migrations and refugee movements and what they mean for the stability of nations, the increasing potential of severe culture clashes within societies, and the root causes of (forced) migration movements, such as problems of violence, terror and genocide, as recently seen in Darfur, Rwanda and Bosnia. In certain European countries the frequently failed integration and assimilation policies resulted in an Islamic alienation; terrorist attaches and race riots are some of the consequences. Particular attention will be given to the conflict between the refugees' and migrants' needs that result from violent, socio-economic or ecological catastrophes in the countries of origin and the various forms of reception within the host countries. Students will explore theoretical, political, legal, and socio-economic dimensions of the refugee and immigration phenomena in a global world. Other themes will include international human rights and refugee laws, theories of immigration, for example, the feminization of migration, as well as problems of acculturation, assimilation and integration in different host societies. Note: This course is cross-listed as POL 367. Students may not get credit for both GLS 367 and POL 367.

GLS 368 International Organizations 3 Credits

This course introduces students to the study of international organizations. The course examines mostly formal and governmental institutions as well as informal institutions or regimes. Topics to be covered include and are not limited to: the establishment of international organizations, evolution of international organizations, structure of international organizations, decision-making of international organizations and influence of international organizations. This course employs both theoretical and practical approaches in its examination on international organizations. Note: This course is cross-listed as POL 368. Students may not get credit for both GLS 368 and POL 368.

GLS 371 The Arab-Israeli Conflict 3 Credits

The course will begin by introducing the main players: the neo-patrimonial Arab regimes on the one hand, and the democratic, economically modern Jewish sector in Palestine on the other. The analysis will focus on the impact of the social, economic, political and religious differences between the sides on their conception of the conflict among the participants and powers outside the region. The course will concurrently examine the impacts of the dynamics of the conflict itself, relations within Islam on the one hand and between Islam and the West on the other. The latter part of the course will consider the sources of perceptual shift that led simultaneously to the narrowing of the conflict with the withdrawal of some of its participants (most Arab states) and its widening with the addition of Al Qaeda and Iran (via Hezbollah).

GLS 393 International Communication 3 Credits

Examines mass media systems and their influence on international communication. Emphasizes media systems of major political powers such as Russia, China, the European community, the United States, and geo-political centers such as Africa, Asia, the Middle East, and Latin America. Using a seminar format, the course explores how a nation's mass media reflect its socio-political environment and national values. Focuses on the international images constructed by the mass media. Note: This course is cross-listed as COM 393. Students may not get credit for both GLS 393 and COM 393.

GLS 447 Global Literature 3 Credits

An in-depth study of the recent literature in English of one or more writers whose cultural identification is with one of the former colonies of the British Empire, as it was defined at the beginning of the 20th century. Literature in the English language, written by authors of African, Caribbean, Pacific Island, East Asian, or South Asian cultures may be included.

GLS 490 Independent Study in GLS 1-4 Credits

This course allows students with permission of the instructor to conduct an independent research project in Global Studies in a relevant area of interest to the student and faculty member.

GLS 491 Internship in Global Studies 1-4 Credits

Students work under supervision, either in the United States or abroad, in an environment which provides experiential learning in institutions that operate in a global environment, including those in government, business, and international non-governmental organizations (INGOs). Domestic internships might also include work in agencies that deal with global problems such as an international environmental group or a refugee resettlement center. A minimum of 52 hours of field work per credit is required, with regular reports and a concluding critique analyzing the experience. No more than six credits allowed toward graduation.

Global Supply Chain Management (GSC)

GSC 115 Introduction to Global Supply Chain Mgt. 3 Credits

This course introduces students to components of global supply chains and issues of managing the global supply chain. It is designed as a survey course to give first or second year business students a general view of supply chain management at both domestic and international levels, as well as familiarize them with basic concepts and major challenges of supply chain management. Delivery of course material will include lectures and guest speakers from industry, and in-class logistics mini cases.

GSC 235 Global Supply Chain Mgt: External 3 Credits

This course is a detailed discussion of some of the major issues and components of supply chain management that are mainly external to an organization. In other words, it provides an “outward looking” perspective of supply chain management. Topics to be covered include sourcing, procurement, transportation, customer logistics, and distribution. The linkages to internal issues and components of supply chain will be made.

Prerequisite(s): GSC 115.

GSC 315 International Business Tour 3 Credits**GSC 345 Customer Focus 3 Credits**

Marketing and supply chain management programs are concerned with the creation and delivery of value to customers and organizations. No longer simply the domain of the warehouse manager or logistics director, supply chain management is viewed by most companies as a mission critical element. Marketing focuses on developing an understanding of customers and markets, creating products and services based on that understanding, and communicating and delivering the value added. This course will teach the student the essential role of marketing in all aspects of successful supply chain management - relationship management, technological and financial management - and it will help the student understand the structure, functions, principles and methods employed in discovering and translating consumer needs and wants into product and service specifications, and then transferring these goods and services from producers to consumers or end users.

Prerequisite(s): GSC 115 and MKT 200.

GSC 355 Global Supply Chain Mgt: Internal Focus 3 Credits

This course is a detailed discussion of some of the major issues and components of supply chain management that are mainly internal to an organization. In other words, it provides an “inward looking” perspective of supply chain management. Topics to be covered include: manufacturing, quality, product design, inventory, and warehousing. The linkages to external issues and components of supply chain will be made.

Prerequisite(s): GSC 115 and MSD 340.

GSC 375 Adv.Sem in Global Outsourcing 3 Credits

The course is aimed at generating a comprehensive understanding of the emergent domain of global business process outsourcing. Various referred to as knowledge process outsourcing, IT-enabled services outsourcing, and business services outsourcing, the industry has seen enormous growth over the last decade and continues to grow. India commands the single largest share of this market but South Africa, Eastern Europe, Philippines, Morocco and Egypt have all emerged as other contenders in this global sector. The course is divided into four modules: the political economy of global outsourcing, process modeling, outsourcing management, and industry analysis. Please note: Students will not receive credit for both CIS 375 and GSC 375.

Prerequisite(s): junior standing.

GSC 385 Management Information Systems for Global Supply Chain Management 3 Credits

As we head deeper into the digital age, ubiquitous information access, integration, and sharing become the norm at both the intra- and inter-organizational levels. Knowledge has become the most valuable asset. The effective creation, management, and utilization of knowledge facilitate success. The purpose of this junior level management information systems course is to prepare students for today's dynamic business environment by increasing their understanding of IT-enabled global information processing and management. Additionally, this course has a specific emphasis on the impact and effective utilization of information systems for the global supply chain. GSC 385 can fulfill the CIS 385 requirement for non-global supply chain majors. Please note: Students will not receive credit for both GSC 385 and CIS 385.

Prerequisite(s): Junior standing and GSCM majors only or permission of instructor.

GSC 399 GSC Co-op Program 6 Credits

The co-op program provides students with an opportunity to work full-time in an organization and apply what they have learned in their global supply chain and other business classes. It also enhances students' employment opportunities since many employers use a co-op program as a first-step before they hire full-time employees. Eligible students include junior and senior global supply chain management majors with a minimum GPA of 3.0. The six credits are intended to be used as business electives, but it is also possible for them to be used as a combination of business and free electives.

Prerequisite(s): GSC 115 plus one additional course within the global supply chain management major, and permission of instructor.

GSC 445 Supply Chain Strategy and Design 3 Credits

This course introduces the student to the concepts and techniques necessary to design and operate global supply chains. It covers some of the strategic issues of managing a global supply chain and emphasizes the importance of understanding the organization, its value chain, industry, competitors, suppliers, and customers in a global framework. The course covers various strategies as well as different supply chain design models and approaches for efficient and effective supply chain operation.

Prerequisite(s): GSC 235 and GSC 355.

GSC 490 GSC Independent Research and Study 3 Credits

Topics to be approved by instructor, program director, and academic dean. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

Prerequisite(s): GSC 115 and permission of instructor.

GSC 491 GSC Internship 3 Credits

The Global Supply Chain Management (GSCM) Program formally sponsors an internship in global supply chain management. The intention of the course is to supplement theoretical foundations and other material introduced in the classroom with an opportunity to work in a sponsoring organization. Through the internship experience, the student will get a chance to see how supply chains are managed and will get a chance to apply supply chain concepts for themselves. If used in place of the co-op, internship credits will count toward GSCM major requirements, but can also be used as a business or free elective.

Prerequisite(s): GSC 115 plus one additional course within the GSCM major, and permission of instructor.

Health Administration (HTH)

HTH 205 Introduction to Health Care 3 Credits

This course is an introduction to the components of the health care industry in the United States and to the interactions of these components in producing and supplying health care. We examine the nature of health, and the various institutions and personnel which seek to provide health services; we explore the means by which we pay for these services; we assess the relationship of technology to provision of health care services; we study the various ways that our government interacts with the providers of health care services; we investigate the ethical implications of issues in health care; and we explore health care sectors from an international perspective.

HTH 215 Population Healthcare Management 3 Credits

In this course, we study how disease is distributed in populations and of the factors that influence or determine this distribution. This course introduces the basic methods and tools epidemiologists use to study the origin and control of non-communicable and communicable diseases so that policies and mechanisms to enhance the health of populations can be developed.

Prerequisite(s): MSD 201 or MTH 120 or ENV 200 or PSY 201.

HTH 225 Health Care Financing 3 Credits

The goals of this course are: (1) to provide a description of how Americans pay for health care; (2) to explain how payment arrangements affect the healthcare system; and (3) to evaluate newly emerging arrangements. Specifically, we will focus on insurance (both public and private) in the United States, provider payment reform, the incentives of the parties in these arrangements and how these incentives impact cost containment in health care.

Prerequisite(s): HTH 205 and sophomore standing.

HTH 315 Healthcare Law,ethics & Policy 3 Credits

This course analyzes the role of the law in promoting the quality of health care, organizing the delivery of health care, assuring adequate access to health care, and protecting the rights of those who are provided care within the health care system. It will also examine the public policy, economic, and ethical issues raised by the health care system. This course is cross-listed as BUS 315. Students may not get credit for both BUS 315 and HTH 315.

HTH 336 Economics of Health Care Sys 3 Credits

This course presents ways in which economic analysis can be used to explain issues in the health care industry. Microeconomics tools will be used to describe the behavior of consumers, producers, and third parties of the health care sector. The course also investigates the role of government in regulating the health care sector, and in providing services to the poor and elderly. Finally, we will use this foundation to examine some recent changes in this industry, and to analyze the most recent proposals for further changes. Note: This course is cross-listed as ECO 336. Students may not get credit for both ECO 336 and HTH 336.

HTH 365 Health Care Information Systems 3 Credits

The Electronic Health Record (EHR) is one of the most complex technological projects ever undertaken. EHR involves the shared management, potentially on a global scale, of a variety of private, time-sensitive, multimedia data across activities including capture, processing, storage and access. The purpose of this course is to provide the future Health Administration professional with specifics of the socio-technical issues involved in this effort. The goals of this course are to study data standards used in modern EHR systems, technology platforms used to implement EHR in various types of organizations, data governance and regulations associated with health data, analytics that support quality of care and evidence-based practice.

Prerequisite(s): HTH 205; CIS 385 or GSC 385; HTH 215 or CIS 360; and junior standing.

HTH 450 Seminar in Health Research 3 Credits

Students in the course learn to conduct health administration-related research by engaging in an actual community-based research project. At the beginning of the semester, students are assigned to a health-related community-based organization. As a team, students meet with the client, devise a plan of action, collect and analyze data and other information, and write a report to the client. At the end of the semester, students present their findings to the client.

Prerequisite(s): Permission of instructor. Note: This course is cross-listed as ECO 450. Students may not get credit for both ECO 450 and HTH 450.

HTH 490 Independent Study in Health Admin 3 Credits

An independent study in health administration allows a student to conduct an in-depth exploration of a topic in health administration under the supervision of a faculty member. The project helps develop a student's research and written skills.

Prerequisite(s): JR or SR standing, Permission of Instructor.

HTH 491 Health Administration Intern 3 Credits

This course provides students minoring in health administration an opportunity to supplement and apply their classroom work in a supervised employment setting with participating firms in the health care sector. Requirements include: a log of daily activities, oral and written reports to the faculty supervisor and a term paper. In addition, the employer will also submit an evaluation of the student's performance.

Prerequisite(s): HTH 205; junior or senior standing; and permission of faculty supervisor.

History (HIS)

HIS 150 World History to 1500 3 Credits

A survey of people and their cultures, focusing on the two major historical traditions (Western and East Asian) from pre-history to the moment when they merged into a single strand, during the century 1550 to 1650. The varying political events, institutions, technologies, and cultures of the East and West are highlighted.

HIS 151 World History Since 1500 3 Credits

Major developments in world history from the 16th century on are considered, with an emphasis on the impact of ideas and influences from Asia and the New World upon European culture and society and the European impact upon Asia, Africa, and the Americas.

Prerequisite(s): HIS 150.

HIS 160 Seminar in History 3 Credits

This course introduces students to the discipline of history and to the skills needed for its pursuit. Students will learn to analyze and evaluate primary sources and to identify the thesis and argument of secondary sources, as well as to locate sources using library databases. They will complete a short research paper in which they put these skills into practice. The seminar is intended for History majors and minors and Social Studies majors in their freshman year. Transfer students with fewer than 45 credits should consult their advisor on the suitability of the course for their program. Enrollment limited to 15; offered Fall and Spring semesters.

HIS 180 U.S. History I 3 Credits

A survey of American history from the early 17th century through 1877. Among the topics covered will be settlement and regional differences, the American Revolution and the formation of a national government by 1787. The beginning stages of industrialization, the rise of democratic and reform politics, westward expansion, the debate over slavery and growing sectional tensions through the Civil War and Reconstruction will be major themes in the 19th century. Included will be discussions of African Americans, native Americans, and women.

HIS 181 U.S. History II 3 Credits

A survey of United States history from the end of the Civil War through the present. Included will be discussions of the maturing of an industrial economy, and expansion in the west and overseas. The role of the United States as a world power and the growth of presidential power will be shaped and sometimes challenged by movements designed to expand democratic institutions and human rights. Included will be discussions of African Americans, native Americans, and women.

HIS 190 Europe To 1715 3 Credits

Examines the development of European civilization from late Roman times until 1715, stressing the Classical heritage, the main currents of European thought and letters, the Renaissance and Reformation, the Age of Discoveries, and the development of the Old Regime.

HIS 191 Europe Since 1715 3 Credits

Examines major political, economic, social, and cultural developments in Europe and the West from 1715 to the present.

HIS 200 Native American History 3 Credits

Traces the experiences of North American Indians from early colonial times to the present day, demonstrating how Indian life has varied and changed throughout our nation's history. Topics include strategies of resistance and accommodation to colonial powers, 19th-century impacts of U.S. government removal and cultural assimilation policies, and 20th-century cultural and political developments among the nation's surviving tribes. Rather than "vanishing," American Indians are a vital and expanding force in modern America.

HIS 201 African American History 3 Credits

Examines the actions and thought of peoples of African ancestry in the United States. Briefly considers Africa before the Atlantic slave trade, then concentrates on major themes in African-American history--the slave trade, slavery, and the genesis of African American society, emancipation and its consequences, urbanization and industrialization, Black Nationalism, the Civil Rights Movement, and African Americans today. Emphasizes African Americans' dynamic and creative role both in shaping their society and establishing their place in United States society. The on-going struggle for freedom and equality provides thematic continuity for analyzing nearly 400 years of African-American history.

HIS 224 American Environmental History 3 Credits

Surveys the history of the North American environment from pre-Columbian times through the 20th century. Topics include Native American uses of the environment; the reshaping of ecosystems under European colonization; U.S. frontier expansion; the ecological impact of industrialization and urbanization; and the rise of the environmental movement.

HIS 225 A History of American Business 3 Credits

Examines the history of business in the United States from the Colonial Era to the present. Emphasizes such themes as the changing capitalist system, the function of business institutions, the roles of the entrepreneur, the relationship between government and business, and the emergence of the corporation.

HIS 226 History Of New Jersey 3 Credits

Explores the history of New Jersey from the colonial period to the present including the role of New Jersey in the American Revolution, the establishment of the Constitution, and the course of industrialization. Examines the impact of national and international developments on New Jersey and emphasizes the distinctive characteristics of the Garden State.

HIS 227 U.S. Cultural History I 3 Credits

Examines cultural developments in the United States through the Civil War. Topics include popular culture, the history of the body, reading and print culture, public celebrations and holidays, religion, race and ethnicity, and material culture. Some of the larger trends explored include the creation of American nationalism, the development of a consumer society, and the rise and decline of 19th-century family life and culture.

HIS 240 History of Ancient Greece 3 Credits

Surveys the intellectual and cultural life of ancient Greek civilization against the background of its political, economic, and social history.

HIS 241 History of Ancient Rome 3 Credits

Studies the history and culture of Rome, emphasizing such topics as Roman law, government, literature, religion, art, and philosophy.

HIS 243 Italy Middle Ages to Present 3 Credits

Traces the history of Italy from the Middle Ages to the present, stressing the connection between culture, religion, politics, and wealth in successive historical periods. Students participating in the two-week travel component at the end of the course may receive four credits.

HIS 245 Britain To 1688 3 Credits

British history from pre-Roman times to the Glorious Revolution is examined, emphasizing the growth of royal government, parliament, and the origins of the British colonial empire.

HIS 246 Modern Britain 3 Credits

Examines British history from the Glorious Revolution to the present, stressing the reform movements of the 18th and 19th centuries, the Pax Britannica, the Industrial Revolution, imperialism, and the impact of the two world wars.

HIS 248 History of Ireland 3 Credits

Beginning with an overview of the Irish past, focuses upon the past century of the island's history--the problems, challenges, and accommodations that led to the present situation as one of the most protracted unresolved partitions in the modern nation-state system.

HIS 249 Women in Europe from Antiquity to the French Revolution 3 Credits

Traces the history of women in Europe from Rome to the French Revolution, covering the religious, social, political, and economic context in which women participated. Also offers a brief overview of theories and issues in women's history and gender history.

HIS 255 History Abroad 3 Credits

Two-week travel course to a destination chosen by the professor. Exposes students to historic and cultural sites and works of art that have been studied in class. Students must attend orientation sessions, read assigned writings, complete a travel journal, write a final paper on a topic relevant to the course, and attend all scheduled course activities abroad. Travel will take place in January or at the end of the spring semester.

HIS 260 Craft of History 3 Credits

This seminar focuses on historiography and research skills to further students' progress toward the major capstone experience of conducting independent historical research. Students will explore how historians approach, interpret, and write about a particular topic selected by the instructor, and discover how and why interpretations and methods have changed over time. Topics will vary by instructor. Course may be taken a second time on a different topic for 200-level credit. The course is required for History majors who are Sophomores or Juniors. Enrollment limited to 15; offered Fall and Spring semesters.

HIS 273 Imperial Russia 3 Credits

Discusses the political, economic, social and cultural developments in Russia and its borderlands during the Imperial period, that is to say the 18th and 19th centuries from Peter the Great to the Revolutions of 1917.

HIS 274 Modern Russia 3 Credits

Covers the background to the Russian revolutions of 1917, the revolutions themselves, and the evolution and dissolution of the Soviet regime. Cultural, social and economic aspects of this period receive as much attention as political aspects.

HIS 280 Vietnam in Peace and War 3 Credits

Examines the history of modern Vietnam, with a focus on the struggle for independence from the late 18th century to the present. Discusses the traditional culture, French colonialism and the development of Vietnamese nationalism, the Japanese occupation in WWII, and the struggle against France and the U.S. in the First and Second Indochinese Wars, as well as the postwar period. Explores the American experience in Vietnam and the impact of the war in the United States.

HIS 281 Modern Middle East 3 Credits

Examines political, economic, social, and cultural developments in the Near East, from the rise of the Ottoman Empire to the present, stressing the impact of contacts with the West in the 19th and 20th centuries, and the emergence of the contemporary Arab World, Israel, Turkey, and Iran.

HIS 282 Colonial Latin America 3 Credits

Examines the pre-Columbian and colonial periods of Latin-American history. Discusses the Indian, African, and European peoples and pays particular attention to the colonial Spanish and Portuguese societies from their establishment up to the revolutions that brought about political independence.

HIS 283 Modern Latin America 3 Credits

Considers the post-independence history of Latin America, emphasizing the rise of export economies and external economic domination, modernization, and pan-Americanism. Examines the changes undergone by Latin-American nations in the 20th century through an analysis of Mexico, Argentina, Chile, Brazil, Peru, Cuba, and Central America.

HIS 284 Caribbean History 3 Credits

Analyzes the history of the West Indian islands and the lands bordering the Caribbean Sea from pre-Columbian times to the present.

HIS 286 Modern East Asia 3 Credits

Examines the disintegration of the Ch'ing dynasty in China and the Tokugawa Shogunate in Japan under internal stresses and foreign incursions, and the varied experience of those states in coming to terms with the challenges of modernization and westernization. Covers political, economic, social, and cultural factors in China, Japan, and East Asia.

HIS 288 African History 3 Credits

Traces the history of Africa, analyzing the unique problems of African historical evidence and the complexity of the continent's past. Examines the genesis of African culture, early African societies, and the character of African civilizations and empires, then considers external influences such as religion (especially Islam and Christianity), contacts with Europe, the slave trade, the colonial scramble for Africa, colonial rule, modernization and dependency, and concludes by assessing the rise of independent Africa after World War II, its present status and future prospects.

HIS 289 History of Modern Japan 3 Credits

Examines the history of modern Japan from the age of the samurai in the Tokugawa Shogunate to today's high-tech mass consumer society. It traces the interaction of elements of Japan's traditional culture with impacts from the outside to create a uniquely-Japanese modernity. It stresses social, economic, and cultural trends, as well as political history, and includes an examination of modern Japanese culture through fiction and film.

HIS 298 Special Topics in History 3 Credits

Exploration of special topics, themes or methodologies in history. This course may be repeated for credit on different topics.

Prerequisite(s): permission of instructor.

HIS 300 Economic History of the U.S. 3 Credits

Studies the main currents in the economic growth of America from colonial times to the present. Stresses the process of economic development from an agrarian to an industrial society, and examines the challenges and dislocations resulting from economic change.

HIS 301 Constitutional History of U.S. 3 Credits

Surveys the English, Colonial, and Confederation backgrounds of American law and constitutionalism; the framing, adoption, and implementation of the Federal Constitution and its later development; the role of law in the nation's history; the changing interpretations of federalism; the growth of judicial review; and the increasing role of the Supreme Court.

HIS 302 American Worker: Social History 3 Credits

Investigates the American workers' varied social, cultural, religious, and ethnic environment from post-Civil War to the present. Emphasizes worker response to industrialization, urbanization, the technical revolution, and automation.

HIS 303 American Urban History 3 Credits

Traces the growth of urbanism in America from colonial times to the present. Focuses on the interaction between the city dweller and the urban environment and explores the problems confronting urban America today.

HIS 304 Civil War and Reconstruction 3 Credits

Considers the Civil War as a watershed in the development of the American republic. Analyzes antebellum sectional conflict, the war years, and the era of Reconstruction.

HIS 306 U.S. Cultural History II 3 Credits

Examines cultural developments in the United States from the late 19th century to the present. Topics include popular culture, intellectual history, gender history, literary history, film, institutions like museums and department stores, subcultures and counter-cultures, popular commemorations like World's Fairs, and political culture. Some of the larger trends explored include the development of the modern culture of consumption, the urban landscape, and the polarization of cultural values.

HIS 307 The Immigrant in American Life 3 Credits

Examines the experiences of immigrants in the United States, their assimilation, the reactions to them, and their contributions.

HIS 309 Women in American History 3 Credits

Examines the roles, status, and influence of women from the colonial era to the present. Studies the origins and development of feminism, including legal, political, educational, economic, and sexual rights; and studies social feminism, including reform movements in such fields as abolition, prohibition, pacifism, child labor, and social welfare.

HIS 318 The American Revolution 3 Credits

Examines the growing rift between the American colonies and the British Empire, the War for Independence, and the creation of a new American republic. Explores the political, economic, social and cultural history of the Revolutionary era, and includes the experiences of various groups such as Native Americans, slaves, and women.

HIS 319 Gender and Sexuality in American History 3 Credits

What makes a man, exactly, and what makes a woman? What kinds of sex are normal, and what kinds are abnormal? Who decides, and why? The answers to these questions are not fixed. Throughout American history, popular understandings of gender and sexual norms evolved in close relationship with the political, economic, racial, and social dictates of the time. This course will trace the evolution of ideas on sex and gender from the 18th century to the present using various historical sources including fiction and film, particular attention will be given to analyzing dominant models of proper behavior and the complex relationships of power enmeshed within them.

HIS 320 The History of Christianity 3 Credits

Examines Christianity's role in world history from the life and times of Jesus to the present. Emphasizes the quest for the historical Jesus, the emergence of Christianity after his death and triumph during the later Roman Empire, and Christian relations with pagans, Jews, heretics, witches and Muslims. Traces the various branches of Christianity, its spread throughout the world, church-state relations and responses to secularism, capitalism and communism.

HIS 325 Church & Society in Med Europe 3 Credits

Studies the role of the church in the shaping of early medieval society. Emphasizes the emergence of Christianity as a world force, its challenge from Islam, and the church's impact on the politics, thought, and economy of early medieval Europe.

HIS 326 Renaissance and Reformation 3 Credits

Studies the Renaissance, including the development of humanism and art as well as the political and economic changes of the period. Discusses the Renaissance church and movements for religious reform, leading to a consideration of the origins, development, and consequences of the Reformation. Examines the influence of the Renaissance and Reformation on the development of capitalism and the dynamic, secular nation-state.

HIS 333 20th-Century Europe 3 Credits

Studies the background and course of the two world wars, the related peace settlements, and their results, and the domestic and international politics as a way of understanding the contemporary scene. Emphasizes nationalism, power politics, collective security, imperialism, fascism, and communism in their economic, social, and intellectual context.

HIS 334 The Era of World War II 3 Credits

Investigates selected topics relating to the origins, events, and outcome of World War II, emphasizing the war's impact on 20th-century civilization. Traces the roots of the conflict back to the World War I peace settlements, and examines the rise of totalitarianism, pre-war aggression and appeasement, the immediate causes of the war's outbreak, the course of military actions, the diplomacy of the belligerents, the War's impact on civilian life, and factors that shaped the post-war world.

HIS 335 Nazi Germany & Hitler's Europe 3 Credits

Examines the Nazi dictatorship in all its complex dimensions, from the early life of Adolf Hitler to total war and genocide. Students will explore how the Nazi movement arose in the context of modern German and European history, and how the Nazis were able to win the support of significant segments of the German population. We will study the Nazis' massive project of social and biological engineering – pronatalism, forced sterilization, extermination of "social and biological deviants," and, ultimately, the genocide of the Jews. Through memoirs, state documents, and historical accounts, the class will examine life from the vantage point of perpetrators, accommodators, victims, and resisters.

HIS 336 Modern European Intell History 3 Credits

Examines the 17th-century revolution in scientific, philosophical, and political thought; the Enlightenment; Romanticism; the ideologies of Conservatism, Liberalism, and Socialism; Positivism; Darwinism; the crisis of European thought (1880-1914); and the major intellectual trends of the 20th century.

HIS 341 China in Revolution 3 Credits

Treats the Chinese Revolution in terms of political, economic, and social transformation.

HIS 342 Women in East Asia 3 Credits

Treats the history of the relationship between women and society in traditional East Asia and the modern transformation of their relationship.

HIS 343 Ottoman Empire and the Balkans 3 Credits

Covers the history of the southeastern projection of Europe, known as the Balkan Peninsula, from the late Ottoman era to the present. After a consideration of geography and methodology, it will examine the Ottoman Empire at its peak, as well as the sources of its decline. Then, trace the history of six Balkan peoples - Albanians, Bulgarians, Greeks, Romanians, Croatians, and Serbians, all of whom have historical roots of equal or greater antiquity than those of most western European peoples. Special focus will be devoted to Balkan nationalisms, both in theory and practice. The modernization of the agriculturally based societies of the Balkans and their respective states' formations are major subjects of comparative analysis. The course will study ethnic conflict, inter-state relations, the role of the great powers in the region, and the impact of the World Wars. Several meetings will be spent learning and discussing literature and film. Lastly, contemporary developments in the Balkans, especially the Yugoslav crisis of the 1990s, will be considered.

HIS 351 Warfare in History 3 Credits

Studies the evolution of international and intergroup conflict through the ages; principles, theories, and kinds of war; the great military practitioners and thinkers of world history. Briefly touches upon the American experience as a recent segment in world military and cultural history.

HIS 352 History of Socialism 3 Credits

Considers the historical development of socialist ideas and their adaptations from ancient times to the present, including ancient and Judaeo-Christian antecedents, Utopian Socialism, Marxism, Anarchism, Communism, and Democratic Socialism, emphasizing the historical comparisons among these schools.

HIS 353 Oral History 3 Credits

A study of the theory and practice of oral history. Involves an examination of the methodology and functions of oral history, the nature and character of oral evidence, and the place of oral testimony within the historical discipline.

HIS 398 Special Topics in History 3 Credits

Advanced exploration of special topics, themes or methodologies in history. This course may be repeated for credit on different topics.

Prerequisite(s): Permission of Instructor.

HIS 460 Research Seminar 3 Credits

Students produce a major research paper in this topical capstone seminar. Topics and themes vary by instructor. The seminar has a maximum enrollment of 15 students, so professors and students have an opportunity to work together closely over the course of a semester. Students may substitute with HIS 490: Independent Study.

Prerequisite(s): Senior standing and permission of instructor.

HIS 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

HIS 491 Internship in History 1-4 Credits

Internships to be offered each semester with such institutions as the New Jersey State Archives and the David Library of the American Revolution. Four credits may be taken for Category III History credit. Additional credits may be taken for Liberal Arts elective credit.

Homeland Security (HLS)

HLS 100 Intro to American Politics 3 Credits

An examination of basic principles of the U.S. constitutional system; the operation of the democratic process; the organization, powers and procedures of Congress, the presidency and the federal judiciary; and the functions, services, and financing of the national government. Emphasis is on public issues, national priorities, and civil liberties. Note: This course is cross-listed as POL 100. Students may not get credit for both HLS 100 and POL 100.

HLS 202 The Pol. Sys - Theories/Theme 3 Credits

This course serves as a gateway to the subfields of comparative politics and international relations. The concept of the political system helps political scientists to organize political interrelations into patterns that allow systematic selection and interpretation of information and the study of processes and outcomes of politics in a variety of settings. The course introduces students to the main brands of normative theory prescribing the principles directing the operation of the political system, to some of the most important methods used to compare political systems and/or their components, and to the foremost approaches utilized in the study of the relations between political systems and their environments. Note: This course is cross-listed as POL 202. Students may not get credit for both HLS 202 and POL 202.

HLS 203 Homeland Security 3 Credits

The course is designed to help students increase their knowledge and understanding of homeland security policy. The course will consider why and how homeland security problems impact the public agenda, why some solutions are adopted and others rejected, and why some policies appear to succeed while others appear to fail. The course will primarily examine policy making at the national level in the United States, but will also analyze examples at the state and local level, as well as placing U.S. policy in a comparative perspective. Note: This course is cross-listed as POL 203. Students may not get credit for both HLS 203 and POL 203.

HLS 204 Development and Structure of the US Intelligence Community 3 Credits

This course will provide an historical review of intelligence during the following World War II. It will examine the major functions of intelligence, as well as intelligence as a part of the foreign policy process: collection, analysis, counterintelligence, and covert action. Students will be introduced to a range of collection procedures: human, open source, electronic, photographic, and signal, with emphasis placed on interpreting and writing intelligence summaries. Intelligence-accurate, up-to-date information about unfolding world events-is crucial to U.S. national security. Note: This course is cross-listed as POL 204. Students may not get credit for both HLS 204 and POL 204.

HLS 219 Terrorism,Revolut & Polit Viol 3 Credits

Revolutions are the mad inspiration of history." Trotsky's characterization calls attention to three important dimensions of violent political participation: the historical settings, ideology, and emotional fervor of the practitioners. The course focuses on these dimensions by analyzing revolutionary and terrorist movements in the 20th century. Special attention is given to the use of violence in the post-Cold War new world disorder. Note: This course is cross-listed as POL 219 and GLS 219. Students may only get credit for one course: HLS 219, GLS 219 or POL 219.

HLS 220 Terrorism & Counter Terrorism 3 Credits

This course introduces students to the arguments about the definition of terrorism, the historical use of terrorism and the roles of ideology, religion, and psychological factors that help explain and predict it. The course seeks to identify the components of national security policy aimed at countering such elements and their cost, both in financial and civil right terms. Finally, to illuminate both the definition and the policies discussed, the course will offer brief comparisons with other states, especially Israel, the UK, and Russia.

HLS 270 Networking/Telecommunications 3 Credits

This course provides an introduction to business data communications and networking. The Internet and OSI models are discussed. Network technologies include local area networks, backbone, wide area networks, and the Internet. Introduction to network design, security, and network management are also provided.

Prerequisite(s): CIS 185.

HLS 300 U.S. Constitutional Law 3 Credits

The role of the Supreme Court in the American political system is assessed. Topics include the staffing and functioning of the Supreme Court and the federal judicial bureaucracy, the origins and development of judicial review, and the role of the Supreme Court in national policy-making. Note: This course is cross-listed as POL 300. Students may not get credit for both HLS 300 and POL 300.

HLS 301 Civil Liberties in the US 3 Credits

The American doctrine of civil liberties in theory and practice. Emphasis on analyzing the freedoms of speech, press, assembly, and religion, the right of privacy, and the problem of discrimination in the context of contemporary issues and problems. Particular attention to the role of the Supreme Court in this area. Note: This course is cross-listed as POL 301. Students may not get credit for both HLS 301 and POL 301.

HLS 304 Pol Behvr: Fear, Risk & Crisis 3 Credits

The course focuses on various analytical approaches in behavioral political science. It does so by advancing students' knowledge of the cognitive aspects of whether citizens engage in various types of political behavior—eg. voting/non-voting, the formation of political partisanship and ideology, issue perceptions, responding to risk and uncertainty in the political environment, and engaging in civic political participation. Note: This course is cross-listed as POL 304. Students may not get credit for both HLS 304 and POL 304.

HLS 314 Congress Power & Security Policy 3 Credits

The purpose of this course is for students to identify, examine, analyze, and interpret the role of Congress in shaping national security policy with a particular emphasis on the institution's role in the Global War on Terror. Particular attention is paid to the role of the US government being able to balance individual rights and liberties within the national security state. Last, the course also takes an in-depth analysis of the U.S. Congress, looking comparatively at how legislatures in other nations have dealt with crafting their own security policies. The course will address the following questions: First, what is the role of Congress in national security policy, what does it do, and why? Second, what are the various ways of studying the relationship between the legislative and executive branches of government in the US system as it relates to the Global War on Terror? Note: This course is cross-listed as POL 314. Students may not get credit for both HLS 314 and POL 314.

HLS 316 Pre. Power & Natl Security Pol 3 Credits

This course examines the development of the National Security State since the Second World War, and the ways in which it has affected, and been affected by, the Federal Executive. Topics to be covered will include the post-World War II redefinition of "national security", the Cold War (with a special focus upon war powers during Korea and Vietnam) and the changes that have occurred with the "War on Terror." Note: This course is cross-listed as POL 316. Students may not get credit for both POL 316 and HLS 316.

HLS 325 Public Administration 3 Credits

Public administration in modern society, emphasizing the administrative formulation of public policy and its implementation. Attention on who gets what, when, and how from the decisions of administrative units; the role administrators have in policy-making compared to elected legislators, chief executives and judges; the effect administrators have on the benefits citizens receive from government; and the effect administrators have on citizens' behavior. Note: This course is cross-listed as POL 325. Students may not get credit for both HLS 325 and POL 325.

HLS 346 Liberal Democracy in Times of Stress 3 Credits

This course inquires into historic and present day cases, ranging across Europe and the US, in which liberal democratic governments, under stress because of subversion, sabotage, invasion, rebellion, or the effects of economically caused chaos, take on emergency powers to become so-called "states of exception." While in some cases such states have imposed mild and limited emergency measures, others have employed more draconian measures, suspending, if not dissolving, constitutionally guaranteed civil liberties, often for indeterminate and protracted periods. How various states have behaved in emergency situations will be the major content of this course. Note: This course is cross-listed as POL 346. Students may not get credit for both HLS 346 and POL 346.

HLS 350 U.S. Foreign Policy and Security Policy 3 Credits

Principles, institutions, and processes involved in the formulation and implementation of policies regarding the nation's military, economic, and environmental security within the global framework. Strands, trends, and problem areas in U.S. foreign policy, with focus on the changing global environment of the post-Cold War world. Note: This course is cross-listed as POL 350. Students may not get credit for both HLS 350 and POL 350.

HLS 351 Critical Views of Global Security 3 Credits

This course will examine the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspective on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (environment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security. Note: This course is cross-listed as HLS 351. Students may not get credit for both HLS 351 and POL 351.

HLS 361 The Judicial Process 3 Credits

In-depth examination of the nature of judicial decision-making and the impact that judicial decisions have on society. Considers the sources of judicial authority, judicial fact-finding, statutory and constitutional interpretation, individual and collective processes of judicial decision-making, relations between judges and other government officials, and the political consequences of judicial decisions with particular emphasis on federal courts and judges. Note: This course is cross-listed as POL 361. Students may not get credit for both POL 361 and HLS 361.

HLS 363 Hum Rights in Global Context 3 Credits

Examines human rights – droits de l'homme, derechos humanos, Menschenrechte, “the rights of man” – are, literally, the rights that one has because one is human. What does it mean to have a right? How are being human and having rights related? This course provides an introduction to theory and global practice of human rights. Human rights claims play an increasingly central role in political and social struggles across the world. The adoption of the Universal Declaration of Human Rights in 1948 signaled a proliferation of international human rights law and transnational non-governmental activism. While the promotion of human rights has become global, adherence to those standards remains highly uneven and gross violations and atrocities continue to occur. Given the breadth and complexity of the human rights movement, including its engagement with law, politics and morals, in radically different cultures, this course is by its very nature multidisciplinary. Note: This course is cross-listed as HLS 363. Students may not get credit for both HLS 363 and POL 363.

HLS 420 Enterprise Security 3 Credits

Students will be provided with complete coverage of computer security in all forms including hardware, network, and software program security. Through hands-on labs, students will learn firsthand how enterprise systems can be comprised and how computer professionals can prevent and provide counterattacks for security intrusions.

Prerequisite(s): CIS 310 or permission of instructor.

HLS 491 Internship in NJ Homeland Secur 1-4 Credits

Students work under supervision in a public agency, political party, or public interest group. A minimum of 52 hours of field work per credit required, with regular reports and a concluding critique analyzing and evaluating the experience. Primarily for seniors and qualified juniors. No more than six credits allowed toward graduation.

Prerequisite(s): permission of instructor.

Human Resource Mgt (HRM)**HRM 312 Intro to Labor Relations 3 Credits**

This course deals with the relationship of labor unions and management, the fundamentals of collective bargaining, and labor legislation. The structure and growth of unions as well as the relationships and problems that exist among private and public sector organizations, the labor force, and government are surveyed.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 313 Legal Aspects of Human Res Mgt 3 Credits

This course deals with the various laws that affect human resource management, including social insurance, legislation, minimum wage laws, OSHA, ERISA, as well as equal employment opportunity legislation. This course is concerned not only with the provisions of these laws, but also with their constitutionality, their effects, and how they are administered.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 315 Employee Selection & Training 3 Credits

This course explains the processes involved in selecting and training employees. With regards to selection, specific examples include, evaluating applicant credentials, administering pre-employment tests and complying with equal employment opportunity legislation. With regards to training, topics include assessing the need for training, designing effective training programs, utilizing methods such as technology to deliver training, and evaluating the effectiveness of training programs.

Prerequisite(s): MGT 310.

HRM 316 Employee Compensation Systems 3 Credits

The goal of this course is to familiarize you with the common methods of compensation used by today's organizations and how these methods could be used to increase motivation, job satisfaction, and performance in the workplace. To accomplish this, we will first discuss the bases of motivation in the workplace. Next, we will then talk about the various compensation options and techniques and the strengths and weaknesses of each in maximizing motivation and performance in an organization.

Prerequisite(s): MGT 310.

HRM 333 Employee Engagement 3 Credits

Employee Engagement is commonly described as a focused passion and enthusiasm that employees bring to their work that produces high-quality performance and positive organizational outcomes such as enhanced firm reputation, customer loyalty, and profitability. In this course, students will explore the concept and value of Employee Engagement, and strategies for energizing an organization's workforce. Projects and activities will focus on the role of the Human Resource function in measuring employee attitudes, designing relevant interventions, and influencing a culture of engagement.

Prerequisite(s): MGT 310.

HRM 441 Sel. Topics: Human Res Mgt 3 Credits

Deals with one area of study in the field of human resource management such as protective labor legislation, mediation and arbitration, the administration of labor unions, or case problems in human resource management. The topic varies each semester and is announced at the time of registration.

Prerequisite(s): MGT 310 or permission of instructor.

HRM 490 Independent Research and Study 1-4 Credits**HRM 491 Internship 1-4 Credits****HRM 492 Internship in Human Res Mgt 3 Credits**

Provides the student with the opportunity to supplement and apply their human resource management classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions. 2.75 GPA overall and 3.0 GPA in the major is required.

Prerequisite(s): major in human resource management or management and leadership, and MGT 310; senior status; and permission of instructor.

Integrated Sciences and Math (ISM)**ISM 100 Introduction to the Integrated Sciences and Math 4 Credits**

Traditional lectures and laboratory experiences are blended to encourage students to begin asking questions and designing experiments to learn about the physical, life, and Earth sciences. This is the entry-level course for the integrated sciences and math major, though it is open to all students who want to actively explore the nature of science. Two three-hour combined lab/lecture sessions per week.

ISM 410 Seminar in the Integrated Sciences and Math 3 Credits

As a senior seminar course, class discussion, presentation, and participation will be emphasized. Science topics covered will extend beyond the range of a single science discipline. Students will evaluate articles (from popular science magazines, newspapers, etc.) to discern the connections among various scientific disciplines. Students will present written critiques of the articles focusing on the proper use of the scientific method, data analysis techniques (e.g., statistics, mathematics, etc.), and on the plausibility of the interpretations. Students will also present a semester-long project (both written and oral) that focuses on the connections among disciplines of a scientific issue.

Prerequisite(s): ISM 100, senior standing, or permission of instructor.

Interdisciplinary Studies (IND)

IND 101 Introduction to Education 3 Credits

High School Partnership introduces high schools students to the teaching profession through four main tenants: growth and development of learners, history, structure, and trends in teaching, classroom instruction, and analysis and reflection. Facilitated by their teacher-mentors (instructors of the course), students will work in small groups to learn about the development and structure of the American education system, explore careers in the teaching profession, analyze ways a teacher's personality, disposition, and cultural competence impact how students learn, and observe, develop, implement, and evaluate lesson plans and teaching strategies. Students will have the opportunity to explore the various joys and challenges of teaching diverse learners in today's classrooms along with an opportunity to examine their own motivations of why they wish to pursue the teaching profession.

IND 133 Creativity: Edu & Psycho Persp 3 Credits**IND 200 Study Away 3-17 Credits**

Study Away programs are domestic, off-campus programs that enable students to engage in experiential learning complemented by academic credit-bearing coursework at an accredited institution.

Prerequisite(s): 2.5 GPA, sophomore standing or above, and permission of Dean required.

IND 201 Historical & Contemporary Issues in the Social Studies 3 Credits

This course is designed to provide education and non-education majors a comprehensive introduction to, and understanding of, social studies knowledge. This knowledge covers a broad array of academic disciplines, including American/World History, Government and Politics, Geography, Economics, and the various behavioral sciences. The course is aimed at engendering a theoretical grasp of the essential elements of these disciplines, as well as a practical understanding of how the content areas exist in both human society and contemporary policies/issues.

IND 210 Global Encounters: Special Education Abroad: A Comparative Experience 3 Credits

This course is designed for students enrolled in the Interdisciplinary minor in Special Education to participate in an international learning experience focused on exploring educational opportunities for individuals with disabilities abroad. Through this cross cultural experience, candidates will broaden perspectives and develop cultural awareness, knowledge, and understanding of diversity.

IND 295 Model United Nations 3 Credits**IND 300 Supervised Study 1-4 Credits**

Juniors and seniors in good academic standing who, for reasons beyond their control, find that a required course has not been scheduled before they expect to graduate, may receive permission from a faculty sponsor, the chairperson, and the dean to register for a supervised study. Appropriate forms (available in the dean's office) must be completed and approved no later than the last day to add courses for the semester in which the supervised study is to be undertaken.

IND 316 Nature's Business (for some reason this course is not in the current catalog, it should be) 3 Credits

This interdisciplinary, team-taught, experiential learning course brings together various science, liberal arts, and business perspectives in examining the relationships among biological, social, environmental, economic, geological, and political issues. Topics to be discussed and researched by students can include, but are not limited to, ecotourism, sustainable development, biodiversity, local and regional environmental and historical geology, cultural norms, and the legal and political systems of the country being visited. The study tour component of the course provides students with a first-hand opportunity to observe and record field data from settings outside of the United States and in their discipline of interest. Typically, there are approximately 12 hours of pre-trip lectures, seminars, and/or faculty/student presentations during the fall semester, an international study tour, 9-14 days in length, during January (exact dates and length depend on the international location), and approximately three hours of post-trip meetings, seminars, and student presentations during the spring semester. Students enroll in the course during the spring semester. Note: This course is cross-listed as CBA 316; Students may not get credit for both CBA 316 and IND 316. For Business students who take the course as CBA 316, the course will count as a business course. If taken as IND 316, the Business student will receive credit as a liberal arts and science course.

Prerequisite(s): Permission of Instructor.

IND 350 The Rider Shadow Experience 1 Credits

The Rider Shadow Experience provides students with the opportunity to spend time in a professional setting that corresponds with their anticipated careers. By matching students with successful professionals in their field, students will observe the daily realities of actual work environments during the summer and January sessions. The course will consist of a preparatory seminar, a minimum of 25 on-site hours, and a final seminar. Interested students will have to submit an application no later than October 15 and have at least one letter of recommendation from a member of the Rider faculty. IND 350 is a pass/fail course. Must have a GPA of no less than a 3.0.

Prerequisite(s): This course is open to students with 45 or more completed credits.

IND 381 Training Residence Educ I 1 Credits**IND 382 Training Residence Educ II 1 Credits****IND 383 Training Residence Educ III 1 Credits****IND 398 The Co-Operative Experience Seminar 3-6 Credits**

This course will typically meet one day per week during the co-operative experience. The seminar is designed to expose participants to appropriate interdisciplinary content, ethical principles, professionalism, group and organizational behavior, interpersonal communication skills, critical thinking and problem solving skills. Students may be assessed on presentations, papers, journals and other measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organizational representative of the placement site, and the student. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. Contact the appropriate department for additional information. Must have a 2.75 GPA at time of registration. Prerequisite(s): junior standing.

Corequisite(s): (dept) 399 The Cooperative Experience; IND 398 and (dept) 399 combined cannot exceed 15 credits.

IND 403 New Literacy for New Learning 3 Credits

As we consider the 21st century's rapid expansion of information and text it is timely to take a critical view of what literacy means in the 21st century. Many argue that the rapidly evolving use of technology is potentially shifting the ways in which we construct and comprehend information, or is it? In this hybrid (a mix of online and face-face meetings) course, we aim to explore these sometimes competing conceptions of text as we consider what these new literacies mean for our own work as readers and writers across the varied disciplines and social and professional settings in which we engage as well as how we make sense of the information that streams across our bound books, our digital devices, and our visual landscapes. What counts? What doesn't? How do we decide? Is the 21st century digital context in which we are situated shaping literacy differently than before the information explosion?

IND 490 Independent Research and Study 3 Credits**International Study (INT)****INT 314 Study Abroad 12-17 Credits**

Study Abroad options available to students through Rider study abroad agreements include a wide variety of academic locations and courses. Programs may include opportunities for intensive language study as well as courses in other academic disciplines that may include the local culture, literature, art, music, history, or politics of the site selected for study. Some sites provide courses taught in English. Students may be approved to enroll in Study Abroad for a semester, summer session, or a full year. Additional information is available from the study abroad office. **Prerequisite(s):** 2.5 GPA; sophomore standing or above.

INT 315 Study Abroad 12-17 Credits

Study Abroad options available to students through Rider study abroad agreements include a wide variety of academic locations and courses. Programs may include opportunities for intensive language study as well as courses in other academic disciplines that may include the local culture, literature, art, music, history, or politics of the site selected for study. Some sites provide courses taught in English. Students may be approved to enroll in Study Abroad for a semester, summer session, or a full year. Additional information is available from the study abroad office. **Prerequisite(s):** 2.5 GPA; sophomore standing or above.

INT 316 Study Abroad 1-14 Credits

Study Abroad options available to students through Rider study abroad agreements include a wide variety of academic locations and courses. Programs may include opportunities for intensive language study as well as courses in other academic disciplines that may include the local culture, literature, art, music, history, or politics of the site selected for study. Some sites provide courses taught in English. Students may be approved to enroll in Study Abroad for a semester, summer session, or a full year. Additional information is available from the study abroad office. **Prerequisite(s):** 2.5 GPA; sophomore standing or above.

Italian (ITA)**ITA 100 Italian I 3 Credits**

An introduction to the fundamentals of Italian grammar and vocabulary. Students will gain fluency in an immersion-style classroom as they gain cultural awareness. Students are expected to work extensively in an on-line program.

Prerequisite(s): placement test if Italian has been studied elsewhere.

ITA 101 Italian II 3 Credits

A continuation of ITA 100. Emphasis is on gaining oral mastery in a culturally authentic environment. The class continues to be immersion-style and students continue out-of-class practice in an on-line program. **Prerequisite(s):** ITA 100 or placement test.

ITA 200 Italian III 3 Credits

Continuation of ITA 101. Students continue their mastery of Italian vocabulary and grammar in immersion-style classes. Continued emphasis on cultural competency and increased work in written Italian. **Prerequisite(s):** ITA 101 or placement test.

ITA 201 Italian IV 3 Credits

Continuation of ITA 200. Students complete their study of basic grammar. Increased emphasis on writing and reading as students continue to master the spoken language. **Prerequisite(s):** ITA 200 or placement test.

ITA 300 Advanced Italian Grammar and Conversation 3 Credits

A study of advanced grammar and functional Italian vocabulary with an emphasis on spoken expression. Students will review previously-learned structures as they acquire new structures and idiomatic expressions in order to gain fluency and perfect their expression. Lessons will be organized around conversation topics. Class will be conducted in Italian. **Prerequisite(s):** ITA 201.

ITA 305 Italian Literature I: 13th to 19th Cent. 3 Credits

A chronological overview of Italian literature from the poets of the 13th and 14th centuries and the fathers of the Italian literature (Dante, Petrarch and Boccaccio) to the 19th century through the study of prose and poetry. Emergence of the Italian language and nation will be examined beside regionalism and use of dialects in both poetry and prose. This course will satisfy the literature requirement for the minor and will be conducted in Italian. **Prerequisite(s):** ITA 201.

ITA 306 Italian Literature II: the 20th Century 3 Credits

An examination of 20th-century literature through the works of authors like Pirandello, d'Annunzio, Ungaretti, Montale, Luzi, Primo Levi, Maraini, Ginzburg, Calvino, Eco, Sciascia. Students will read selected short stories, plays, poems, and novels. This course will satisfy the literature requirement for the minor and will be conducted in Italian. **Prerequisite(s):** ITA 201.

ITA 310 Italian Culture and Civilization 3 Credits

This course will introduce students to Italy's cultural heritage and contemporary place in Europe. Students will examine Italy's historical development from the fall of the Roman Empire to current times. Students will become familiar with its geography, and they will examine the role of religion and the impact of regionalism on Italian identity. Topics include Italy's political structure, contribution to the arts, cuisine, geography, and other topics. Students will also examine stereotypes of Italian Americans as well as the changing face of immigration. The course will be conducted in English.

ITA 496 Special Studies 3 Credits

A seminar open to a variety of topics treating a particular author, period, genre, or theme.

Prerequisite(s): ITA 201.

Latin American and Caribbean (LAC)

LAC 420 From Colonies to Nations 3 Credits

This course consists of a panoramic survey of Colonial and Post-Colonial Latin American literature in light of the unique social, cultural and political history from the pre-Columbian to the Independence period (1825). The approach brings together vivid accounts of places and events, speeches, profiles, oral histories, excerpts from a wide range of literature, policy papers, and other readings. The analysis and discussion of selected literary works and representative films will show how Latin American and Caribbean artistic and creative endeavors express the social, cultural and political context of the Americas. Videos and films will provide the sights and sounds of this vast and vital region. Note: This course is cross-listed as LAC 420. Students may not get credit for both SPA 420 and LAC 420.

Prerequisite(s): SPA 201, or placement test at 300-level or above or SPA 300 or above.

Law and Justice (LAW)

LAW 140 Intro Seminar in Law & Justice 3 Credits

Introduces students to the interdisciplinary study of law and justice. The seminar is designed to enable students to think critically about legal issues, address legal problems from various viewpoints, and apply different types of theories of justice to analyze laws and legal institutions. Students will learn to examine law and legal issues from a variety of perspectives and approaches: anthropological, historical, literary, philosophical, political, psychological, and sociological. Open to freshmen and sophomores only.

LAW 150 Intro to Forensics 3 Credits

Introduces students to principles of forensic science. Whether the issue is establishing paternity or cause of death, determining arson or liability, or deciding criminal guilt or innocence, collecting and evaluating forensic material is typically involved. Students will learn the meaning and significance of scientific evidence and its role in criminal investigations and civil and criminal trials. Students will learn how forensic scientists work, define a problem, collect data, and analyze results. Case studies, crime simulations and examination of criminal evidence will highlight the application of scientific principles.

LAW 204 Law, Literature, and Film in America 3 Credits

Focuses in an interdisciplinary manner on law and justice as represented in American literature and films. It analyzes novels, short stories, and selected non-fiction texts from the perspectives of literary criticism, social history, and cultural and American studies.

LAW 207 Criminal Justice Practice 3 Credits

This course explores the work and work settings of criminal justice practitioners and the work culture and organizational structure of various criminal justice agencies. Through case studies and projects students will examine types of and occupations related to criminal justice, assess new directions in these occupations, the effects of current laws and social policies on criminal justice careers, and consider the impact of social, economic, and technological changes on criminal justice agencies and practitioners.

LAW 210 Criminal Investigation 3 Credits

Approaches criminal investigation conceptually. Students consider the social issues involved in criminal investigation, as well as ethical and legal aspects of it. The course covers such topics such as the principles of criminal investigations, the rules and procedures of preliminary and follow-up investigations, the art of interrogation, recording of statements, confessions, and the collection and preservation of physical evidence at the crime scene. Emphasis is placed on the need for meticulous adherence to rules of law and ethical practices, as an investigation proceeds from initial actions to arrest, and eventual prosecution. The course also examines the methods used in scientific interpretation of evidence and the preparation of criminal cases for trials, as well as its role in today's criminal justice system.

Prerequisite(s): LAW 150.

LAW 302 Crime & Justice in the Media 3 Credits

This course focuses on the impact of media on Americans' perceptions and understanding of the extent and causes of crime, and the effectiveness and purposes of crime policy. It examines how criminals, types of crime, crime policies and the criminal justice system are portrayed in various media outlets, including film, tv, newspaper, and electronic/internet. It explores the historical and contemporary relationships between media representations of criminal behavior, crime as a social problem, and the nature of the criminal justice system and contrasts these to their social realities.

LAW 304 Women and Law 3 Credits

Explores the social, economic, political and cultural context of laws relating to women and gender, such as workplace discrimination, divorce and child custody and reproductive rights. It examines how such laws have changed historically and the impact such laws have had on women as well as on men and on American social institutions, such as the family, politics, and the workplace. The course also examines women in the legal profession and their impact on the practice of law and legal reasoning.

LAW 305 Trial Advocacy 3 Credits

Students will apply fundamental legal concepts and rules of evidence to specific cases. By engaging in trial simulations, students will evaluate various forms of evidence, identify legal principles and evidentiary rules that impact a criminal trial, learn about trial procedures, pursuit of case theories, and witness, exhibit and jury selection.

LAW 307 Criminal Justice Practice 3 Credits

This course will consider the ways criminal justice agencies and occupations are shaped by social, economic, political, technological and legal changes. Through case studies and projects students will examine the work, culture, and work settings of various criminal justice practitioners, assess the impact of social policies on criminal justice careers, and identify new directions in the field. Students will develop the reading and writing skills needed by an array of criminal justice practitioners.

LAW 308 Conflict & Conflict Resolution 3 Credits

Focuses on understanding the meaning of conflict and strategies for its resolution. The course examines the ways conflict functions in various social contexts including professional, community, family, education, and international relations. Traditional models of adjudication will be compared to alternative forms of dispute resolution. Students will be introduced to research on the practice and effectiveness of various forms of conflict and conflict resolution. Students will participate in various class exercises, including role-plays, simulations, and case studies.

LAW 310 Cyberspace Law and Policy 3 Credits

Explores the legal and policy concerns raised by the Internet, nationally and globally. The course considers issues of legal regulation of the Internet, and consider the debate about whether cyberspace can or should be regulated. Attention will be given to the applicability of principles of law and models of regulation. Topics addressed will include jurisdiction, freedom of expression, intellectual property, privacy protection, safety concerns, equal access, electronic commerce, and computer crime.

LAW 355 Sports and the Law 3 Credits

Examines the legal, ethical, economic, social and managerial issues related to sports. Topics include liability issues, contracts, employment discrimination, antitrust law, and constitutional law. Note: This course is cross-listed as BUS 355. Students may not get credit for both LAW 355 and BUS 355.

LAW 365 The Rights of the Accused 3 Credits

Analyzes the major substantive and procedural rights accorded to the criminally accused by the United States Constitution. Particular attention will be given to the right to counsel, confessions and self-incrimination, arrest, search and seizure. Students will learn to argue and write hypothetical case opinions.

LAW 395 Selected Topics in Law/Justice 3 Credits

Studies specialized areas of scholarship related to laws, legal institutions, legal or law-related occupations, and/or legal decision making. The course will provide an interdisciplinary examination of a selected topic. Topics vary and are listed in the course roster.

LAW 401 Hate Crimes in the United States 3 Credits

Provides an interdisciplinary exploration of hate crimes in the United States, its causes and consequences. It will examine the social, political, and legal issues that have shaped policies and laws designed to respond to hate crimes and assess their effectiveness. Debates about the nature of hate crimes and the special laws and sentencing provisions developed to deal with them will be discussed. Topics include hate crimes on college campuses, hate on the Internet, legal and constitutional issues, and criminal justice enforcement.

LAW 405 Crime & Justice in the Media 3 Credits

This course focuses on the impact of media on Americans' perceptions and understanding of the extent and causes of crime, and the effectiveness and purposes of crime policy. It examines how criminals, types of crime, crime policies and the criminal justice system are portrayed in various media outlets, including film, tv, newspaper, and electronic/internet. It explores the historical and contemporary relationships between media representations of criminal behavior, crime as a social problem, and the nature of the criminal justice system and contrasts these to their social realities.

LAW 450 Law & Justice Senior Seminar 3 Credits

Draws on and develops students' knowledge and understanding of law and legal institutions and applies it to a specific legal topic, method, institution, or controversy. Topics will vary. Students explore the social, political, ethical, and economic issues relevant to the topic. Students will be expected to contribute to seminar discussions and to complete projects related to the seminar theme. Required for seniors in law and justice minor and open to others by permission of the Director of the Law and Justice Program.

LAW 460 Criminal Justice Senior Seminar 3 Credits

Draws on and develops students' knowledge and understanding of crime, criminal law and criminal justice institutions, and applies these to a specific topic, method, institution, or controversy. Topics vary. Students will be expected to contribute to seminar discussions and to complete research projects related to the seminar theme. Required for criminal justice majors seniors; open to others only by permission of the director of the Law and Justice Program.

LAW 490 Independent Research & Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

LAW 491 Internship in Law and Justice 1-4 Credits

Provides supervised work experience in an institution, office, or agency related to law or law enforcement, such as courts, prosecutor/defense attorney offices, private law offices, state agencies, and local police departments. Students are expected to apply and broaden the knowledge obtained from law and justice minor courses to their fieldwork experience.

Prerequisite(s): 2.75 GPA and permission of the Director of the Law and Justice program.

LAW 496 Honors Thesis in Law & Justice 3-6 Credits

Entails substantial research and writing on a topic selected by the student. Proposals must be reviewed and approved by the law and justice program committee. Proposals must be submitted at least four weeks prior to course registration.

Prerequisite(s): Seniors in the minor with a minimum cumulative GPA of 3.25 and a 3.25 GPA in law and justice minor courses.

Leadership Development Program (LDP)

LDP 200 Foundations of Leadership 3 Credits

This course provides students with a working model of leadership to guide their personal leadership development. It also exposes students to insights about leadership from respected commentators, scholars, and practitioners. Finally, it provides students with an opportunity to actively "do" leadership through experiential learning activities.

LDP 220 Service Learning Through Minding Our Bus 3 Credits

A community service mentoring project designed to promote leadership, teamwork, and entrepreneurship among Trenton youth through a school-based team mentoring model. Students will undergo intensive training in leadership skills, communication skills, team building skills, cultural diversity, small business entrepreneurship, and problems of early adolescent development prior to their fieldwork experience. Students will form teams to mentor groups of students at a Trenton middle-school in the creation and management of their own microbusinesses. Student journals, quizzes, field trips and class meetings will serve to organize and structure experiential learning.

Prerequisite(s): permission of instructor.

LDP 398 The Co-op Experience Seminar 3-6 Credits

This course will typically meet one day per week during the co-operative experience. The seminar is designed to expose participants to appropriate interdisciplinary content, ethical principles, professionalism, group and organizational behavior, interpersonal communication skills, critical thinking, and problem solving skills. Students may be assessed on presentations, papers, journals and other measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organizational representative of the placement site, and the student. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. Contact the appropriate department for additional information. **Prerequisite(s):** junior standing and 2.75 GPA at time of registration.

Corequisite(s): (dept) 399 The Co-operative Experience; LDP 398 and (dept) 399 combined cannot exceed 15 credits.

Liberal Studies (LIB)

LIB 200 Intro to Liberal Studies 3 Credits

Introduces students to the various perspectives and methods of the disciplines in liberal studies: natural and social sciences, humanities, and the arts. Students learn the multifaceted questions and answers offered by each discipline. They study the historical development of the university and the rise and transformation of liberal studies disciplines.

LIB 400 Seminar in Liberal Studies 3 Credits

A critical examination of the tradition of Western humanism and the way it has been transmitted through liberal arts education. Deals with a variable set of permanent problems in humanistic debate and learning e.g., specialization, the need for unifying theories of knowledge, the purpose of history, the place of intellectual life in mass society, the meaning of freedom, the modern problem of alienation, the responsibilities of the university, etc. Emphasis on why and how such problems have been addressed rather than any presumptive solutions.

LIB 490 Independent & Supervised Study 1-4 Credits

Independent and Supervised Study is available to CCS students for special study projects. Students must have completed a minimum of 45 credits applicable to a Rider degree and a minimum of 12 credit hours at Rider with a GPA of 2.5 or better. Each project may be taken for one-four credits and a maximum of six credits may be applied to the associate degree, 12 credits to the bachelor degree.

Management Science (MSD)

MSD 104 Intro to Quantitative Methods 3 Credits

The aim of this course is to give students the preparation in algebra needed for successful completion of other required courses in management sciences and the functional areas of business administration. Topics covered include linear and quadratic equations and functions, systems of linear equations, exponential functions, logarithms, linear inequalities, radicals, percent change, scientific notation and scientific digits.

MSD 104S Intro to Quantitative Methods 3 Credits**MSD 105 Quantitative Methods for Business 3 Credits**

The aim of this introductory course is to acquaint students with a number of basic mathematical techniques that will enhance their ability to become effective decision-makers in a realistic business environment. Topics covered include linear equations and inequalities, linear programming, summation notation, geometric series, counting techniques, event probability and discrete random variables. Where appropriate, these tools will be illustrated with examples chosen from business settings.

Prerequisite(s): MSD 104 or a passing grade on the Math Placement Exam.

MSD 111 Math for Actuarial Science II 3 Credits

A continuation of MSD 110. Topics include the definite integral and the fundamental theorem of calculus, change-of-variable theorems, the area between two graphs, integration by parts, improper integrals, infinite series, partial differentiation of a function of two variables and its optimization applications, and the double integral of a function of two variables. Spring.

MSD 200 Statistical Methods I 3 Credits

This course is designed to give the student an understanding of continuous random variables, the elements of statistical inference, and an introduction to how these tools may be useful in one's attempt to reach intelligent conclusions in real-world settings. The focus is on the normal random variable, descriptive statistics, sampling distributions, and the frameworks of estimation and hypothesis testing, particularly as they apply to inference for unknown population means and proportions in the one- and two-sample settings.

Prerequisite(s): MSD 105 or equivalent.

MSD 201 Statistical Methods II 3 Credits

The sequel to Statistical Methods I is designed to prepare the student to be able to recognize a variety of additional common inferential scenarios, select and apply appropriate techniques in their analyses, and be aware of the usefulness of computer packages in performing certain relatively complicated statistical calculations. The course covers the one-way analysis of variance, Chi-square tests and linear regression analysis. Students are expected to submit, for evaluation, the analysis of a real-world data set.

Prerequisite(s): MSD 200.

MSD 320 Quantitative Meth Bus Forecast 3 Credits

A study of the various quantitative techniques applicable to the problems of forecasting that occur in business and industry. Topics may include the regression techniques of causal modeling, as well as the moving average, exponential smoothing, and Box-Jenkins approaches of time series analysis. All methods are illustrated with the use of realistic forecasts.

Prerequisite(s): MSD 201 or MTH 341.

MSD 325 Regression/Analysis Variance 3 Credits

This course examines the use of applied linear statistical models to adequately describe practical relationships in business and economics. The implementation of a popular statistical computing package to analyze realistic data sets is an important component of the course. Topics include simple and multiple linear regression, model diagnostics and remedial measures, and the analysis of variance.

Prerequisite(s): MSD 201 or MTH 341.

MSD 340 Production and Operations 3 Credits

This course introduces the concepts and techniques of designing and managing manufacturing and service systems and their operations effectively and efficiently. Major topics include product and process design, facility location, forecasting, aggregate planning, inventory management, supply chain management, project management, just-in-time systems, quality assurance, linear programming, and the transportation problem. Current issues such as productivity, global competitiveness, and quality are also discussed.

Prerequisite(s): MSD 105 or MSD 110, MSD 200 or MTH 340, MSD 201 or MTH 341.

MSD 490 Independent Research and Study 3 Credits

Topic to be approved by professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation.

MSD 491 Summer Mgt Sciences Internship 3 Credits

An honors course that provides the student with approximately two months of supervised employment with participating companies. Students are given a variety of work experiences. They are required to complete a term paper and to make an oral presentation to the faculty. Grading is on a pass/fail basis.

Prerequisite(s): Permission of instructor.

Management and Leadership (MGT)

MGT 201 Fund Management & Org Behavior 3 Credits

This course deals with the fundamentals of organizational behavior as they relate to management such as motivation, communications, and leadership. Behavior is examined at the individual, group, and organizational level. The management functions of planning, organizing, leading and controlling are addressed. The effects of global operations and the requirements of ethical behavior on managers are also explored.

Prerequisite(s): minimum 30 credits completed.

MGT 310 Intro to Human Resource Mgmt 3 Credits

This course deals with the nature of human resource management, its functions, procedures, and practices currently found in profit, non-profit and public sector organizations. Topics covered include recruiting and selection, training, human resource development, equal employment opportunity, performance appraisal, diversity, job analysis, compensation, and employee rights and discipline.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 320 Managing Workforce Diversity 3 Credits

Demographic shifts, changing patterns of labor force participation, global competition, and a growing cultural emphasis on the celebration of difference have all contributed to the creation of diversity as a hot topic in management. This course explores the opportunities and challenges of the increasingly diverse workforce emerging in the United States today. We will address the knowledge and skills managers must develop in working with others who are different from themselves.

Some of these differences are obvious- gender, race, age, and physical characteristics. Other differences are not as easily observed - family structure, educational level, social class, and sexual orientation. This class incorporates experiential learning techniques for personal growth.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 336 Career Management 3 Credits

How careers are shaped by individual needs and experience and assisted by organization systems and practices is the focus of this course.

The meaning of work and the development of careers are discussed, and students undertake self-assessment for the purpose of career planning. Careers are examined in the context of important changes occurring today in the world of work. The impact of the executive, organizational counselors and trainers, and the educational system upon the development of human potential is examined, along with the techniques for human resource planning and development.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 346 Negotiation 3 Credits

The purpose of this course is first, to explore the major concepts and theories behind effective negotiating practices and second, to develop negotiating skills applicable to a wide range of contexts. A knowledge of negotiation is a crucial requirement for anyone interested in a business career since it is a common mechanism for implementing change and for resolving conflict in the workplace. Topics will include two-party negotiations, power and politics, mediation, arbitration, and collective bargaining. A variety of teaching techniques will be used including readings, discussion, and role-playing.

Prerequisite(s): MGT 201 or permission of the instructor.

MGT 355 Team Management 3 Credits

This course prepares students to work in organizations that use teams as an integral part of their functioning-an increasingly common practice. The class involves intensive group interaction, focusing on individual growth in group settings. Working with other students in role-plays, exercises, and team assignments allows the student to develop better communication and leadership skills.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 363 Management Skills 3 Credits

The focus of this course is on specific skills necessary for success in a management role. These skills include leading, communicating effectively, delegating, conflict and time management and motivating others. Students will have opportunities to practice skills and to apply their knowledge to business cases.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 375 International Management 3 Credits

This course explores the ways in which culture impacts management practices and organizational behavior and dynamics. Topics include cross cultural communication, expatriate selection and training, leading and motivating cross cultural teams, developing organizational strategies to compete in a global market place, international business ethics, and current topics.

Prerequisite(s): MGT 201.

MGT 421 Sel Topics:Mgt & Organztn Behv 3 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 448 Sem Small Bus Consul 3 Credits

This course utilizes student teams to assist existing small businesses in solving problems or researching opportunities. Students will spend the majority of time in the field utilizing an experiential learning approach. Weekly activity logs, proposal development, and project completion are required. Restricted to seniors.

Prerequisite(s): ENT 348 and permission of instructor.

MGT 490 Independent Research and Study 1-4 Credits

The seminar focuses on an area of study announced at the time of registration (students should check the registration material). Examples of possible topics are: leadership, motivation, and organizational behavior research. Prerequisites vary according to the topic and are listed in the registration material.

Prerequisite(s): MGT 201 or permission of instructor.

MGT 491 Intern Management/Org Behavior 3 Credits

Provides the student with the opportunity to supplement and apply their management and leadership classroom work in a supervised employment setting with participating companies. Requirements include a journal with a log of daily activities and a paper summarizing their experiences submitted to the internship supervisor. Students will receive a letter grade based upon their internship performance, as well as their performance on the journal and final paper submissions.

Prerequisite(s): major in management and leadership or human resource management and MGT 363, or senior status; Requires a 2.75 GPA overall and 3.0 GPA in the major and permission of the instructor.

Marine Sciences (MAR)

MAR 120 Oceanography 3 Credits

Investigates the interrelationships among the geological, chemical, physical, and biological aspects of oceanography. Topics include origin and evolution of ocean basins; physical characteristics of modern oceans; seawater chemistry; ocean and atmosphere interactions; ocean currents; waves and tides; coastal processes; biological productivity; and diversity, distribution and adaptations of marine organisms. Throughout the course, emphasis is placed on the processes that connect the seemingly separate topics to each other and to human life. Weekend field trips may be required. Three hours of lecture per week. Note: This course is cross-listed as GLS 120. Students may not get credit for both MAR 120 and GLS 120.

Corequisite(s): MAR 121.

MAR 121 Introductory Oceanography Lab 1 Credits

Introduction to the fundamental aspects of geological, chemical, physical, and biological oceanography. Students learn through inquiry-based, hands-on exercises and activities using actual data collected in the lab and in the field. Independent projects and local field trips during lab and on weekends may be required. One three-hour lab per week.

Corequisite(s): MAR 120 or GLS 120 or as prerequisite(s).

MAR 210 Marine Life Through Time 4 Credits

Survey of the important developments in marine life over the last three billion years from the Pre-Cambrian evolution of one-celled organisms, through the Cambrian explosion of complex marine invertebrate life and subsequent diversification of backboned organisms in the Ordovician time, to the colonization of marginal marine and freshwater habitats in the Silurian-Devonian geological periods, and ultimately to extinctions during global crises of the late Devonian, Permian, Triassic, Cretaceous, and Pleistocene time intervals. The emphasis is on evolutionary adaptive breakthroughs within each phylum, particularly the significant morphological and anatomical innovations, and the subsequent radiation of these higher taxa into new habitats and niches through geologic time. Three hours of lecture and one three-hour lab per week.

Prerequisite(s): GEO 100 or GEO 113, GEO 102 or BIO 115 or permission of instructor.

MAR 210L Marine Life Through Time Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): MAR 210.

MAR 227 Introduction to Field Marine Science: Subtropical Environments 4 Credits

In this two-week field course, students will explore various topics in marine science through practical, hands-on, inquiry-based exercises and activities. The course will focus on the biological, geological, chemical, and physical processes that influence diverse marine flora and fauna found in subtropical environments, emphasizing shallow subtidal and intertidal environments such as coral reefs, sandy beaches, turtle grass beds, rocky intertidal pools, and mangrove swamps. Examples of topics include the diversity, abundance, size, zonation, and morphological adaptations of marine organisms; the composition and texture of sediments; and the physical processes and chemical properties of water. These topics will be examined using field team exercises, a group mapping project, and individual research projects. Activities will help students develop their skills in research, use of field and laboratory equipment, computer analysis of data, and scientific writing. The course is taught at an appropriate marine field station located in a subtropical environment. Field portion of course is completed during the summer. Additional travel costs vary, depending on location.

Prerequisite(s): BIO 115 or BIO 116, and permission of instructor.

MAR 228 Introduction to Field Marine Science: Boreal Environments 4 Credits

In this two-week field course, students will explore various topics in marine science through practical, hands-on, inquiry-based exercises and activities. The course will focus on the biological, geological, chemical, and physical processes that influence diverse marine flora and fauna found in boreal environments, emphasizing the rocky shallow subtidal and intertidal environments. Examples of topics include diversity, abundance, size, zonation, and morphological adaptations of marine organisms; day-night fluctuations in tide pool chemistry; plankton dynamics; predator-prey relationships; the physical processes and chemical properties of water; and comparisons of wave-exposed and wave-protected sides of a shoreline. These topics will be examined using field team exercises, a group mapping project, and individual research projects. Activities will help students develop their skills in research, use of field and laboratory equipment, computer analysis of data, and scientific writing. The course is taught at an appropriate marine field station located in a boreal environment. Field portion of course is completed during the summer. Additional travel costs vary, depending on location.

Prerequisite(s): BIO 115 or BIO 116, and permission of instructor.

MAR 229 Introduction to Field Marine Science: Tropical Environments 4 Credits

In this two-week field course, students will explore various topics in marine science through practical, hands-on, inquiry-based exercises and activities. The course will focus on the biological, geological, chemical, and physical processes that influence diverse marine flora and fauna found in tropical environments, such as coral reefs, sandy beaches, turtle grass beds, rocky intertidal pools, and mangrove swamps. Examples of topics include diversity, abundance, size, zonation, and morphological adaptations of marine organisms; the composition and texture of sediments; and the physical processes and chemical properties of water. These topics will be examined using field team exercises, a group mapping project, and individual research projects. Activities will help students develop their skills in research, use of field and laboratory equipment, computer analysis of data, and scientific writing. The course is taught at an appropriate marine field station located in a tropical environment. Field portion of course is completed during the summer. Additional travel costs vary, depending on location.

Prerequisite(s): BIO 115 or BIO 116, and permission of instructor.

MAR 290 Directed Research and Study in Marine Sciences 1-4 Credits

Provides an opportunity for freshman and sophomore students to gain hands-on research experience in the marine sciences. This is an individual program of study and each student will work with a selected faculty member on a topic of mutual interest. The course consists of a combination of project meetings, supervised research, and guided readings. The focus will be on formulating research questions, designing and conducting experiments, collecting the necessary data, reviewing the scientific literature as it relates to each student's research topic in a weekly meetings with the instructor, and communicating the findings by writing a final project report.

MAR 325 Marine Vertebrates 4 Credits

A survey of the biology of marine vertebrate animals, including fish (jawless fish, sharks, rays, and bony fish), reptiles (sea turtles and sea snakes), sea birds, and mammals (manatees, seals, and whales). The evolution, physiology, natural history, ecological relationships, and human interactions of these groups are emphasized. Three hours of lecture and one three-hour lab per week. Field trips may be required. Prerequisite(s): BIO 272 and BIO 272L.

Corequisite(s): MAR 325L.

MAR 325L Marine Vertebrates Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): MAR 325.

MAR 330 Chemical Oceanography 4 Credits

Introduction to the chemical aspects of the oceans and their influence on marine ecosystems and Earth processes. Emphasis is placed on chemical and physical properties of seawater, atmosphere-ocean interactions, biogeochemical cycles with marine components, production and destruction of marine organic matter, chemical ecology, and marine pollution. During the lab portion of this course, students gain hands-on experience in analyzing ocean water samples, experimental design, and interpreting marine chemical data. Three hours of lecture and one three-hour lab per week. Weekend field trips and independent projects may be required. Prerequisite(s): CHE 120, CHE 121, MAR 120, and MAR 121; or permission of instructor.

Corequisite(s): MAR 330L.

MAR 330L Chemical Oceanography Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): MAR 330.

MAR 340 Marine Processes and Environments: Seminar 3 Credits

This course is designed as a seminar course. Therefore, students will learn to lead class discussions, to analyze and critique peer-reviewed journal articles, and to enhance their presentation skills. Students will interpret graphical, spatial, and numerical data to support their positions. Content will emphasize the interactions among marine processes, biological features, and geologic landforms.

Prerequisite(s): MAR 120 or GEO 100; GEO 306.

MAR 360 Plankton Ecology 4 Credits

Examines the diversity, physiology, and ecology of marine phytoplankton and zooplankton. Students will survey the dominant plankton groups, their distribution, nutritional requirements, growth kinetics, and behavior. Planktonic predator/prey interactions and food web dynamics will be discussed. Students will also examine the interdisciplinary nature and role of plankton in biogeochemical cycles. Three hours of lecture and one three-hour lab per week. Weekend field trips may be required. Prerequisite(s): MAR 120 and MAR 121; or BIO 116.

Corequisite(s): MAR 360L.

MAR 360L Plankton Ecology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): MAR 360.

MAR 380 The Learning and Teaching of Marine Science (also cross listed as MAR-5800) 4 Credits

This field-based course provides a practical experience in integrating marine science with pedagogical concepts. Students will use scientific methodology to explain marine ecosystems through specially designed, inquiry-based exercises. During these activities, students will address the process of applying college-level content to their own classroom settings, considering national and state standards. Hands-on, field-based exercises will provide experience with a diversity of marine habitats and the biological, geological, hydrological, and physical processes that influence them. Visited habitats can include rocky intertidal, salt marsh, tidal flat, beach and channel sand bars. As a result, students will develop field and laboratory skills in marine science and use them in designing materials for their own classroom use.

MAR 401 Marine Ecology 4 Credits

The purpose of this course is to introduce students to fundamental principles in ecology, as it relates to marine systems. Topics include the marine environment and its influence on the organisms living there; biodiversity and speciation; factors regulating population dynamics in marine systems; larval and fisheries ecology; species interactions such as predation, competition, and symbiosis; factors regulating productivity and energy flow in marine systems; and marine conservation. Hands-on laboratory exercises will provide students with the opportunity to design and conduct experiments related to marine ecology, and to collect, analyze, and interpret data from those experiments. Ecosystem modeling will also be introduced. Three hours of lecture and one three-hour lab per week. Weekend field trips may be introduced. Prerequisite(s): BIO 272, BIO 272L.

Corequisite(s): MAR 401L.

MAR 401L Marine Ecology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): MAR 401.

MAR 410 Physical Oceanography 3 Credits

Introduction to the physical aspects and processes of the oceans and their influence on marine ecosystems and Earth processes. Topics include distribution of salinity and water temperature and their effect on water movement, the oceanic heat budget, atmospheric and oceanic interactions, ocean currents including surface and deep water circulation, waves, tides, and medium- to small-scale circulation features. Throughout the course, emphasis is placed on how these physical processes affect the biology and chemistry of the ocean. Three hours of lecture per week. Weekend field trips may be required.

Prerequisite(s): MAR 120.

MAR 480 Senior Thesis 3 Credits

A senior thesis is optional for marine sciences majors. However, a senior thesis is required for eligibility to graduate with honors in marine sciences. The topic for investigation will be chosen by the student in consultation with the faculty of the Department of Geological, Environmental, and Marine Sciences. The student must initiate consideration of a proposal to the Department. The proposal must contain a discussion of the proposed project and a timetable to be followed in the study. A departmental committee consisting of a major and minor advisor will evaluate the written paper submitted at the conclusion of the study or other approved venue. An oral presentation before the department at the conclusion of the semester in which the study is completed is required. Proposals must be submitted in final form no later than the end of the ninth week of the semester prior to the semester in which the study is undertaken.

Prerequisite(s): senior standing in the marine sciences major and permission of department chair.

MAR 490 Independent Research and Study 1-4 Credits

Immerses the student in field or laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

MAR 491 Internship in Marine Sciences 1-4 Credits

A supervised work experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placements may be in private, public, non-profit, or governmental organizations. These can include consulting firms, regulatory agencies, advocacy groups, and educational or research institutions. Normally, 50 hours of internship per credit is required. A mutually agreed upon method of evaluation will be formalized prior to the approval of the internship by the sponsoring faculty and could include a term paper or project report and a poster presentation.

Prerequisite(s): 2.5 GPA and permission of instructor.

MAR 580 Ind Marine Sci Field Study 4 Credits

This field-based course provides a practical experience in integrating marine science with pedagogical concepts. Students will use scientific methodology to explain marine ecosystems through specially designed, inquiry-based exercises. During these activities, students will address the process of applying college-level content to their own classroom settings, considering national and state standards. Hands-on, field-based exercises will provide experience with a diversity of marine habitats and the biological, geological, hydrological, and physical processes that influence them. Visited habitats can include rocky intertidal, salt marsh, tidal flat, beach and channel sand bars. As a result, students will develop field and laboratory skills in marine science and use them in designing materials for their own classroom use.

Marketing (MKT)

MKT 200 Marketing Principles 3 Credits

This course examines market characteristics, consumer buying habits and motives, and functions of marketing within the framework of the strategic marketing planning process. Concepts and current practices in product development, pricing, promotion, distribution, and international marketing are studied.

MKT 250 Retailing Management 3 Credits

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

Prerequisite(s): MKT 200.

MKT 260 Service Marketing 3 Credits

Focuses on the unique challenges of managing services and delivering quality service to customers. Emphasis is placed on the total organization, and how effective marketing and customer focus must be coordinated across multiple functions. The course is applicable to service organizations and to organizations that depend on service excellence for competitive advantage. Topics include customer-focused management, and customer satisfaction, retention, lifetime value and profitability.

Students will learn to map services, understand customer expectations, and develop relationship marketing strategies.

Prerequisite(s): MKT 200.

MKT 280 Sports Marketing 3 Credits

The course focuses on the unique challenges of marketing sports at a variety of levels: youth, college, professional, and international. The challenges of attracting and retaining fans and participants as well as of building and maintaining strong brand identity are at the heart of the course content. By evaluating case studies and examining current issues in sports marketing, students will gain an understanding of what it means to be a professional marketer of a sports organization and/or event.

Prerequisite(s): MKT 200.

MKT 310 Business to Business Marketing 3 Credits

This course examines the business-to-business marketplace, and the planning and control tools used by its entities in managing the product, pricing, promotion, channel and supply chain management strategies.

Prerequisite(s): MKT 200.

MKT 320 Consumer Behavior 3 Credits

The nature and determinants of consumer behavior are studied, with attention given to the influence of socio-psychological factors such as personality, small groups, demographic variables, social class, and culture on the formation of consumer attitudes, consumption patterns, and purchasing behavior.

Prerequisite(s): MKT 200; Required for advertising majors.

MKT 330 International Marketing 3 Credits

This course examines the global marketplace and the complexities of its environmental influences, and necessary adaptations in formulating the strategies for product, pricing, promotion, channel and supply chain management.

Prerequisite(s): MKT 200.

MKT 340 Personal Selling 3 Credits

Examines persuasive techniques utilized in sales presentations conducted on a person-to-person basis. Major course emphasis is on developing effective selling techniques; understanding the company, its products and the role of the salesperson in implementing product/market strategies; understanding the customers and the selling environment; application of effective sales presentation techniques; recognizing selling opportunities and careers.

Prerequisite(s): MKT 200.

MKT 345 Customer Focus 3 Credits

Marketing supply chain management programs are concerned with the creation and delivery of value to customer and organizations. No longer simply the domain of the warehouse manager or logistics director, supply chain management is viewed by most companies as a mission-critical element. Marketing focuses on developing an understanding of customers and markets, creating products and services based on that understanding, and communicating and delivering the value added. This course will teach the student the essential role of marketing in all aspects of successful supply chain management - relationship management, technological and financial - and it will help the student understand the structure, functions, principles and methods employed in discovering and translating consumer needs and wants into product and service specifications and then transferring these goods and services from producers to consumers or end users.

Prerequisite(s): MKT 200 and GSC 115 or permission of instructor.

MKT 350 Retailing Management 3 Credits

The principles underlying successful retailing are analyzed within the framework of the strategic-planning process. Topics covered include location, merchandise planning, customer service, image, atmosphere, layout, pricing, promotion, personnel and operations management.

Prerequisite(s): MKT 200.

MKT 366 Marketing Research 3 Credits

Topics include specific research procedures in gathering, processing, analyzing, and presenting information relevant to marketing problems: advertising planning and effectiveness; product development; distribution channels; sales techniques; consumer behavior; and forecasting. Student learning about research planning, implementation, and interpretation is facilitated by the use of projects or cases.

Prerequisite(s): MKT 200; MSD 200, MSD 201; junior standing; Required for marketing and advertising majors.

MKT 370 Internet Marketing 3 Credits

This course emphasizes the discipline of internet marketing, including practices of leading online marketing companies, state of the art online research and demonstrates how the Internet is creating value for customers and profits for businesses while also fitting into a firm's complete marketing strategy. This course will provide a strategic and tactical toolkit for the online marketer, help students understand how and why the Internet is changing traditional marketing and allow students to develop the skills, strategies and tactics important to develop successful Internet marketing plans.

Prerequisite(s): MKT 200 and CIS 185.

MKT 380 Healthcare Marketing 3 Credits

The purpose of this course is to introduce students to the role, functions and tasks of healthcare marketing. Attention is devoted to applying basic marketing principles to the healthcare sector. Marketing decision making and analysis will be emphasized through the use of cases and current readings that focus on a variety of healthcare organizations, including hospitals, assisted living facilities, MCOs, and pharmaceutical companies.

Prerequisite(s): MKT 200 or permission of instructor.

MKT 440 Sales Management 3 Credits

By means of lectures, discussions, and case studies, the field of marketing management is analyzed from the viewpoint of sales executives. The responsibilities for planning and administering personal selling operations are emphasized. Considerable attention is given to other activities for which sales executives may be wholly or jointly responsible, such as decision making on promotion and brand management.

Prerequisite(s): MKT 200 and senior standing.

MKT 444 Spec. Topics Honors: Mkt & Law 3 Credits**MKT 460 Marketing Management Seminar 3 Credits**

This capstone course for marketing majors employs a top management approach to the overall marketing task, including planning, organizing, controlling, and integrating all the activities of the marketing program. Integration of marketing with other operations of the business unit is emphasized. Major problems and current trends are identified and analyzed through case discussion.

Prerequisite(s): Marketing major and 15 semester hours of marketing; Required for marketing majors.

MKT 469 Selected Topics in Marketing 3 Credits

The study of a topic (or combination of topics) that represents some dimension of marketing or has important and direct implications for marketing management. Theoretical foundations as well as special applications of marketing decision making may be explored. Readings, research, lectures, discussions, or other appropriate methods are employed to stimulate student learning.

Prerequisite(s): MKT 200 and senior standing or permission of instructor.

MKT 490 Independent Research and Study 1-4 Credits

Topic to be approved by the professor and chairperson. Available for juniors and seniors. No more than 12 credits allowed toward graduation, which may be counted as a business or free elective.

MKT 491 Internship-Based Indep Study 3 Credits

Provides the student an opportunity to supplement and apply classroom work in supervised employment with participating marketing and advertising firms. Requirements include a journal with a log of daily activities, and a project or term paper presented to and evaluated by the internship sponsor. Evaluation will also include a report by the company on the intern's performance. Credits may be used to satisfy business or free elective requirements.

Prerequisite(s): permission of instructor.

Mathematics (MTH)

MTH 100S Math Skills Lab 1 Credits

The Math Skills Lab helps students master arithmetic and elementary algebra necessary for college level mathematics courses. Students in the College of Liberal Arts, Education, and Sciences who do not pass the Mathematics Placement Test are required to complete the Math Skills Lab successfully before enrolling in liberal arts mathematics courses. Students are required to attend regular class sessions. Students have access to tutors, computer-assisted instruction, and structured workshops. The one supplemental education unit does not count toward graduation; grading is done on a Y/Z (pass/not pass) basis.

MTH 102 Finite Mathematics 3 Credits

The course begins with consolidation of some basic topics including sets, number theory, real numbers, functions, and graphs. Statistics and probability theory are introduced with applications to the social and natural sciences. Throughout the course there will be an emphasis on formulating and solving familiar sorts of problems in mathematical terms.

Prerequisite(s): A mathematics SAT score of 550 or ACT score of 23, or a passing score on the Math Skills placement Test, or passing MTH 100S with grade of Y.

MTH 105 Algebra and Trigonometry 4 Credits

Algebraic functions, trigonometric functions, identities and conditional equations, inequalities, exponential and logarithmic functions. Students who take MTH 105 may not take MSD 105 for credit.

Prerequisite(s): A mathematics SAT score of 600 or ACT score of 26, or a mathematics SAT score of 550 or ACT score of 23 and a passing score on the Algebra Section of the Math and Science Majors Placement test, or a score of 22 on the Math Skills placement Test and a passing score on the Algebra Section of the Math and Science Majors Placement test.

MTH 120 Intro to Applied Statistics 3 Credits

Collection and presentation of data. Measures of location and variation, sampling theory, hypothesis testing, confidence intervals, t-tests, chi-square tests, regression, and correlation. Emphasizes practical applications. Not open to business administration, chemistry, environmental, geosciences, marine sciences, math or liberal studies: marine ecological or environmental emphasis majors.

Prerequisite(s): MTH 102 or MTH 105.

MTH 150 Mathematics for Elementary Education Majors, I 3 Credits

This is the first course in a three-course sequence for elementary education majors. This course covers the concept of Numbers, starting with counting numbers, decimals, negative numbers, fractions, and real numbers; different ways of representing numbers, and the relations between them are explored; different meanings and applications of the arithmetic operations are studied; standard and non-standard algorithms for arithmetic are considered in light of the representation of numbers. May not be used by SLAS students to satisfy the mathematics component of the core. **Prerequisite(s):** A mathematics SAT score of 550 or ACT score of 23; A passing score on the Math Skills placement Test; or passing MTH 100S with grade of Y. .

MTH 151 Mathematics for Elementary Education Majors, II 3 Credits

This is the second course in a three-course sequence for elementary education majors. In this course, students will study proportional reasoning, Number Theory, Algebra, Geometry, and measurement. May not be used by SLAS students to satisfy the mathematics component of the core.

Prerequisite(s): MTH 150.

MTH 152 Mathematics for Elementary Education Majors, III 3 Credits

This is the third course in a three-course sequence for elementary education majors. In this course, students will study area and volume, transformational geometry, statistics and probability.

Prerequisite(s): MTH 151.

MTH 210 Calculus I 4 Credits

Introduces analytic geometry, functions, limits, and derivatives; differentiation of algebraic and trigonometric functions, curve sketching, maxima and minima, and higher derivatives.

Prerequisite(s): A mathematics SAT score of 650 or ACT score of 29; or a mathematics SAT score of 550 or ACT score of 23 and a passing score on the Pre-Calculus Section of the Math and Science Majors Placement test; or a score of 22 on the Math Skills placement Test and a passing score on the Precalculus Section of the Math and Science Majors Placement test; or passing MTH 105.

MTH 211 Calculus II 4 Credits

The definite integral, differentiation of transcendental functions, methods of integration and approximate integration, determination of area, volume, and surface area.

Prerequisite(s): MTH 210.

MTH 212 Calculus III 4 Credits

Infinite series; functions of two and three variables, vectors and tangent planes, partial derivatives, multiple integrals, determination of volume and density.

Prerequisite(s): MTH 211.

MTH 230 Discrete Mathematics 4 Credits

An introduction to topics in Discrete Mathematics. This course covers methods of proof, induction and recursion, and other topics in discrete mathematics. Topics may include graph theory, trees, and symmetry groups.

Prerequisite(s): MTH 102, MTH 105 or MTH 210.

MTH 240 Linear Algebra 3 Credits

Systems of linear equations; vector spaces; linear independence; determinants; orthogonality; linear maps; eigenvectors.

Prerequisite(s): MTH 210 or as corequisite; sophomore standing; or permission of instructor.

MTH 250 Differential Equations 3 Credits

First order differential equations, separable and exact; integrating factors; second order linear differential equations; series solutions of second order linear differential equations; higher order equations; existence and uniqueness theorems; systems of linear differential equations.

Prerequisite(s): MTH 240, MTH 211.

Corequisite(s): MTH 212 or as prerequisite.

MTH 308 Advanced Calculus 3 Credits

Vectors, gradients, and directional derivatives, Lagrange multipliers, Taylor's theorem, multiple integrals, change of variables, line and surface integrals, Stokes' theorem.

Prerequisite(s): "B" average in MTH 210 and MTH 211; MTH 212, MTH 240.

MTH 315 Modern Geometry 3 Credits

Covers geometry from a modern point of view, with emphasis on non-Euclidean geometry, particularly projective geometry.

Prerequisite(s): MTH 211, MTH 240.

MTH 340 Probability & Stat Analysis I 3 Credits

Theory of sets and probability; discrete and continuous random variables and probability distributions. Emphasizes foundations and utilizes the techniques of the calculus.

Prerequisite(s): MTH 212 or MSD 111.

MTH 401 Modern Algebra 3 Credits

Provides an introduction to modern abstract algebra. It emphasizes the axiomatic method to analyze the major algebraic systems. The instructor will choose the topics to be studied from among the following algebraic structures: integral domains, fields, complete ordered fields, groups, polynomials, rings, ideals and modules.

Prerequisite(s): MTH 240.

MTH 402 Topics in Advanced Mathematics 3 Credits

Chosen from advanced pure or applied mathematics. Topics vary, depending on instructor.

Prerequisite(s): MTH 308.

MTH 410 Complex Analysis 3 Credits

Analytic functions, conformal mapping, power series, Cauchy's theorem, calculus of residues.

Prerequisite(s): MTH 308.

MTH 420 Number Theory 3 Credits

Covers topics including divisibility theory, the prime numbers, the theories of congruences and of quadratic reciprocity, and Fermat's Last Theorem. Other topics may also include applications to cryptography, Pell's equations, continued fractions, and the theory of partitions.

Prerequisite(s): MTH 240 or permission of instructor.

MTH 430 Introduction to Topology 3 Credits

A comprehensive introduction to elementary topology. The concepts of topological spaces and metric spaces will be introduced. Connectedness, compactness and properties of subsets of the real numbers rooted in topology will also be considered. The quotient topology will be used to construct surfaces as identification spaces, and tools will be developed to distinguish one surface from another.

Prerequisite(s): MTH 212.

MTH 440 Real Analysis 3 Credits

Covers the theory of sets, the real number system and its properties, convergence of sequences and series of numbers and functions, and the theory of integration, including: measure theory, the Riemann integral, and introduction to the Lebesgue theory of integration.

Prerequisite(s): MTH 308 or as corequisite.

MTH 490 Independent Research and Study 1-4 Credits

Immerses the student in research and mathematical literature. If possible, the student will publish the results or present them at a scientific meeting.

Multicultural Studies (MCS)

MCS 110 Race, Class and Gender in Contemporary American Society 3 Credits

This interdisciplinary course analyzes the ways in which race, class, gender and ethnic relationships shape the experience of all persons in this society. It examines the categories of race, class and gender as social constructs that have been historically developed and sustained by economic, social, political, and cultural factors.

MCS 220 Issues in Multicultural Studies 3 Credits

An examination of issues and questions posed by the existence of diversity in social life. Students build on what they have learned in MCS 110 by focusing in greater depth on selected aspects of multicultural interaction. Topics change each semester and are listed in the course roster. Recent topics include "Understanding Privilege," "The Meaning of Difference," and "Narratives of Human Difference: Science, Politics, Literature."

Prerequisite(s): MCS 110 or permission of instructor.

MCS 280 Directed Study in Multicultural Studies 1-4 Credits

An intensive study experience in multicultural studies. The student designs and carries out a course of focused study under the supervision of a multicultural studies faculty member. The student's proposed plan of work must be reviewed and approved by the faculty sponsor and by the multicultural studies advisory committee. May be repeated once for credit.

MCS 491 Internship in Multicultural Studies 1-4 Credits

A supervised community service of work experience at an approved site. Placements are made in accordance with each student's particular theme within multicultural studies. A minimum of three hours per week on site per credit (39 hours per semester); in addition, students complete readings and reports and meet weekly with the instructor. Primarily for multicultural studies minors in their junior or senior year.

Music (MUS)

MUS 105 Survey of Music History I 3 Credits

A chronological survey of Western music from the Medieval through the Baroque periods stressing the origin and evolution of musical forms, musical styles, and the important composers before 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 106 Survey of Music History II 3 Credits

A chronological survey of Western music from the classical through the contemporary periods stressing the origin and evolution of musical forms, musical styles, and the important composers since 1750. The relation between the music and the aesthetic movements of each period is studied.

MUS 109S Basic Music Theory 3 Credits

This is a beginner's course in music theory. It familiarizes the student with the basic elements (e.g., staff, clefs, time signatures, musical notation, intervals, triads and chords). This course is ideal for both the student wanting to know only the essential, or the student wanting to go on to develop their theoretical skills. For non-music majors, MUS 109S counts toward graduation and grades are awarded on an A-F basis. For music majors, MUS 109S does not count toward graduation, and grading is on a pass ("Y") or fail ("Z") basis.

MUS 110 Music Theory I 3 Credits

A practical introduction to the basic elements of music, beginning with the reading of music notation. Practice in scales and chords; ear-training in rhythm and pitch. Techniques may be applied to the student's own instrument (e.g., guitar, piano, winds) if he or she plays one. **Prerequisite(s):** MUS 109S or placement.

Corequisite(s): MUS 110L.

MUS 110L Music Theory I Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 110 (Music Theory I). **Prerequisite(s):** MUS 109S or placement.

Corequisite(s): MUS 110.

MUS 111 Music Theory II 3 Credits

Continuation of MUS 110, leading to some original composition.

Prerequisite(s): MUS 110 and MUS 110L.

Corequisite(s): MUS 111L.

MUS 111L Music Theory II Lab 1 Credits

Dictation, aural skills training, sight singing, and keyboard skills to accompany MUS 111 (Music Theory II). **Prerequisite(s):** MUS 110 and MUS 110L or placement.

Corequisite(s): MUS 111.

MUS 120 Music and Society 3 Credits

Introduction to the basic elements of music (rhythm, melody, harmony, etc.) and the appreciation of representative types of music from all historical periods.

MUS 127 Instrumental Ensemble- Band 1 Credits

Ensemble rehearsal and performance of traditional and current concert band music. Maximum of eight credits are accepted in band, choir, and/or theater production.

MUS 128 Choir 1 Credits

Rehearsal and performance of multi-era Western and non-Western repertoire. Instruction in music fundamentals and vocal production. Pitch matching and part-singing abilities must be demonstrated in the first-week sectional hearing.

MUS 130 Music in Children's Lives 3 Credits

Students in this course will study how music interacts in the lives of children as they sing, listen, play instruments and move. Song repertoire and selections for listening and moving from the American, European and non-Western cultures will be introduced. Playing recorder as well as pitched and non-pitched percussion instruments will be demonstrated.

MUS 131 Beginning Piano I 3 Credits

Class approach to learning to play the piano. How to read music, basic piano technique, and appropriate piano pieces and songs are studied.

MUS 132 Beginning Piano II 3 Credits

Continuation of MUS 131. Emphasis on further development of technique and the ability to interpret piano music from a variety of styles.

Prerequisite(s): MUS 131 or equivalent.

MUS 150A Applied Flute 2 Credits
 MUS 150B Applied Flute 1 Credits
 MUS 150C Applied Flute 2 Credits
 MUS 150D Applied Flute 1 Credits
 MUS 151A Applied Oboe 2 Credits
 MUS 151B Applied Oboe 1 Credits
 MUS 151C Applied Oboe 2 Credits
 MUS 151D Applied Oboe 1 Credits
 MUS 152A Applied Clarinet 2 Credits
 MUS 152B Applied Clarinet 1 Credits
 MUS 152C Applied Clarinet 2 Credits
 MUS 152D Applied Clarinet 1 Credits
 MUS 153A Applied Bassoon 2 Credits
 MUS 154A Applied Saxophone 2 Credits
 MUS 155A Applied French Horn 2 Credits
 MUS 156A Applied Trumpet 2 Credits
 MUS 156B Applied Trumpet 1 Credits
 MUS 156C Applied Trumpet 2 Credits
 MUS 156D Applied Trumpet 1 Credits
 MUS 157A Applied Trombone 2 Credits
 MUS 158A Applied Euphonium 2 Credits
 MUS 159A Applied Tuba 2 Credits
 MUS 160A Applied Guitar 2 Credits
 MUS 160B Applied Guitar 1 Credits
 MUS 160C Applied Guitar 2 Credits
 MUS 160D Applied Guitar 1 Credits
 MUS 160E Applied Guitar 2 Credits
 MUS 161A Applied Violin 2 Credits
 MUS 161C Applied Violin 2 Credits
 MUS 161E Applied Violin 2 Credits
 MUS 161G Applied Violin 2 Credits
 MUS 162A Applied Viola 2 Credits
 MUS 163A Applied Cello 2 Credits
 MUS 164A Applied String Bass 2 Credits
 MUS 164B Applied String Bass 1 Credits
 MUS 164C Applied String Bass 2 Credits
 MUS 164D Applied String Bass 1 Credits
 MUS 165A Applied Piano 2 Credits
 MUS 165B Applied Piano 1 Credits
 MUS 165C Applied Piano 2 Credits
 MUS 165D Applied Piano 1 Credits
 MUS 166A Applied Organ 2 Credits
 MUS 167A Applied Percussion 2 Credits
 MUS 167B Applied Percussion 1 Credits
 MUS 167C Applied Percussion Elective 2 Credits
 MUS 167D Percussion Elective 1 Credits
 MUS 168A Applied Voice 2 Credits
 MUS 168B Applied Voice 1 Credits

MUS 204 Jazz History 3 Credits

Survey from 19th C. roots to 21st C. styles. Development of listening skills and overview of musical skills used by jazz performers. Exploration of the relationship between jazz and poetry, race relations, and the reputation of jazz in popular culture.

Prerequisite(s): CMP 120 or LL 131.

MUS 205 History of Pop and Rock Part I 3 Credits

Students will receive grounding in the origins and flow of popular music up to the break-up of the Beatles. They will learn the musical developments set in their historical and sociological contexts.

MUS 206 History of Pop and Rock Part 2 3 Credits

Students will receive grounding in the developments and flow of popular music from the 1970s to today. They will learn the specific musical developments set in their historical and sociological contexts.

MUS 207 Masterworks in Music 3 Credits

Major works by great composers from different historical periods Mozart, Beethoven, Brahms, and Wagner, among others are studied. Up to 10 compositions by six composers are covered, with an emphasis on listening to recorded and live performances of representative works.

MUS 208 Music of the Theater 3 Credits

A study of music drama both historical and contemporary covering European opera of the Baroque, classical and romantic periods, and the American musical theatre, especially the contemporary Broadway musical.

MUS 209 Great Composers 3 Credits

A study of selected major composers life, works, and historical significance with an emphasis on the listening experience. Bach, Mozart, Beethoven, Tchaikovsky, Stravinsky, or others.

MUS 210 Music Theory III 3 Credits

Analysis of musical forms, including binary, rounded binary, ternary, and popular song. Identification of techniques that support musical form, including harmonic language, contrast/repetition, compositional process. Advanced sight singing and aural drills.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 211 Music Theory for Music Theater 3 Credits

Analysis of music theater songs, scenes and scores. Various techniques, placement of examples into historical, musical, artistic, and literary perspective. Reading of full and piano/vocal scores, conducting, orchestration and harmonic language will be emphasized.

Prerequisite(s): MUS 111 and MUS 111L.

MUS 212 Cartoon and Anime Culture 3 Credits

This course investigates the music and culture of animated films and television shows, anime, animated shorts including cartoons, and related incidental music for documentary films.

MUS 213 Digital Comp of Pop Music I 3 Credits

This course is about "the doing of music". It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music.

MUS 214 Writing about Music 3 Credits

This course instructs students in the art of writing about music, from small-form criticism to large scale scholarship, focusing especially on the ability to translate what one hears into engaging prose.

Prerequisite(s): CMP 120 and 125, MUS 110, 110L and 213.

MUS 215 Music & Techn/Mobile Society 3 Credits

This course compares the recent history of music technology to past innovations, focusing on the aesthetic implications and ideological influences of an increasingly mobilized musical milieu.

MUS 216 Digital Comp of Pop Music II 3 Credits

This course is about “the doing of music.” It ties music theory to pragmatic concerns with keyboards and software in the making and distribution of music, continuing the content begun in The Digital Composition of Popular Music I.

MUS 217 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip-hop and everything in between.

MUS 218 Postmodernism & Populr Culture 3 Credits

This course considers music in light of the ideological trends of postmodernism in order to better understand contemporary music in its cultural context.

MUS 233 Intermediate Piano 3-12 Credits

Continuation of MUS 132 with further development of reading skills, piano techniques and interpretation. Each student studies a set of pieces selected together with the instructor tailored specifically to the students' needs and interests.

MUS 300 Beethoven and the Romantic Age 3 Credits

A study of the Romantic period with particular emphasis on Beethoven. The classical heritage, the transformation of that heritage into romantic terms, the prominent influence of Beethoven on 19th century musical style.

MUS 303 Music Literature: Baroque Era 3 Credits

A survey of European musical styles from c. 1600 to 1750, approached by listening to the music of the period, including Bach, Handel, and many lesser known masters. Topics include the development of modern musical sound, instrumental forms, Lutheran and Catholic church music, and the beginnings of dramatic music.

MUS 304 Music of the Beatles 3 Credits

This course is a very in-depth analysis of the music and personalities of the Beatles. The student will gain in depth insight to the Beatles songs and albums as the course proceeds through the music chronologically. This will be contextualized historically and sociologically where required.

MUS 305 Words and Music 3 Credits**MUS 306 Contemp Music Experience 3 Credits**

A survey of European and American musical styles of the late 19th and 20th centuries. Topics include postromantic music, neoclassicism, serialism, electronic music, and the current avant garde.

MUS 307 The Music of Radiohead 3 Credits

This course investigates the music, lyrics, art and marketing strategies of the British so called “alternative” band, Radiohead, moving song by song through their demos, videos and albums.

MUS 308 World Music 3 Credits

The student is introduced to selected world cultures by listening to and analyzing specific music that is indigenous to each culture. The position and importance of the music within each society will be the main focus of the investigation. Comparing this music to the music of our American culture will provide a basis for judging and interacting with unfamiliar world cultures.

MUS 309 Film Music 3 Credits

A study of music in feature film, documentary film, and television. A chronological survey of film music from silent to contemporary film, animated shorts, and television, with emphasis on listening to recorded performance of representative works.

MUS 312 The Arts Abroad 3 Credits

A two week trip abroad that includes a critical study of music and theater. Students are required to attend all performances, guided tours, and classes before and after the trip.

MUS 315 Black Music in America 3 Credits

This course covers the history of music made by and/or about African Americans, from minstrel shows to hip hop and everything in between.

MUS 350A Applied Flute 2 Credits**MUS 350B Applied Flute 1 Credits****MUS 351A Applied Oboe 2 Credits****MUS 351B Applied Oboe 1 Credits****MUS 352A Applied Clarinet 2 Credits****MUS 353A Applied Bassoon 2 Credits****MUS 354A Applied Saxophone 2 Credits****MUS 355A Applied French Horn 2 Credits****MUS 356A Applied Trumpet 2 Credits****MUS 356B Applied Trumpet 1 Credits****MUS 357A Applied Trombone 2 Credits****MUS 358A Applied Euphonium 2 Credits****MUS 359A Applied Tuba 2 Credits****MUS 360A Applied Guitar 2 Credits****MUS 360B Applied Guitar 1 Credits****MUS 361A Applied Violin 2 Credits****MUS 362A Applied Viola 2 Credits****MUS 363A Applied Cello 2 Credits****MUS 364A Applied String Bass 2 Credits****MUS 364B Applied String Bass 1 Credits****MUS 365A Applied Piano 2 Credits****MUS 365B Applied Piano 1 Credits****MUS 366A Applied Organ 2 Credits****MUS 367A Applied Percussion 2 Credits****MUS 368A Applied Voice 2 Credits****MUS 368B Applied Voice 1 Credits****MUS 368C Applied Voice 2 Credits****MUS 368E Applied Voice 2 Credits****MUS 369A Applied Composition 2 Credits****MUS 490 Independent Research and Study 1-4 Credits**

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1 to 4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing; good academic standing.

MUS 491 Internship in Music 1-4 Credits

Provides junior or senior music majors with the opportunity to gain practical experience working within a professional music environment. Students must be sponsored by a music professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

MUS 493 Selected Topics in Music Perf 3 Credits

Intensive study of a particular topic in applied music for the intermediate to advanced student. Students are led to understand the historic and aesthetic elements in music through critical listening, performance, research, and class projects.

MUS 495 Selected Topics in Music 3 Credits

Studies specialized aspects of the literature, history, or theory of music, to supplement the established curriculum. Emphasis on creative investigative work and individual experiences in music.

MUS 498 Popular Music Culture Capstone 3 Credits

The capstone is an independent, student-led project resulting in a material product (recording/performance/event/presentation) that demonstrates a student's interests and skills in the area of popular music.

MUS 499 Senior Honors Program 3 Credits

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, planned under the direction of a faculty advisor, represents a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Musical Theatre (MTR)

MTR 105 Musical Theatre Practicum 1 Credits

This course explores the literature of musical theatre vocal ensembles. It emphasizes examining a wide range of styles. This is a studio/academic class, not a performance ensemble.

MTR 109 Ballet I 1 Credits

This course introduces the basic elements of ballet technique. Technique is based on the five positions of the legs and feet, coupled with appropriate arm positions. The class consists of a basic ballet barre warm-up that includes stretching and developing strength and turn-out used in dance positions and combinations. Instruction includes jumping, turning, and connecting steps with movement. Ballet terminology is addressed.

MTR 110 Ballet II 1 Credits

Continuation of MTR 109, building upon techniques learned in that course.

Prerequisite(s): MTR 109.

MTR 111 Musical Theatre Lab 0 Credits**MTR 120 Hist of American Music Theater 3 Credits**

The history of the American Musical from the first American production in 1750 of Gay's *The Beggar's Opera* up to the present will be traced. Emphasis will be placed upon those common elements which are solely intrinsic to the American stage. Developments and imported ideas (e.g., The British Invasion) will be highlighted.

MTR 131 Music Theory for MT 3 Credits

Teaches students to understand musical form, structure, melody, rhythm and harmony by applying these concepts to musical theatre literature. Includes full analysis of musical theatre songs. Required in the first year.

MTR 132 Group Piano 1 Credits

Offers the musical theatre student appropriate keyboard technique to play any vocal part and to play a rudimentary accompaniment. Required of all second-year students.

Prerequisite(s): MTR 131.

MTR 133 Sight Singing for MT 3 Credits

Intensive class in reading music, designed for musical theatre students. Traditional solfeggio techniques used with musical theatre texts whenever possible. Required of first-year students.

Prerequisite(s): MTR 131.

MTR 207 Music Theater Vocal Coaching 3 Credits

Vocal coaching and repertoire preparation with a focus in developing the skill sets required to research and prepare music theater repertoire. Special emphasis is given to creating and maintaining the professional audition book. Open to music theater majors only.

Prerequisite(s): MTR 101.

MTR 209 Tap Dance I 1 Credits

Introduction to the basic elements of tap dancing. Tap technique is geared to enhance rhythm and motor skills, basic elements that will be used to connect several steps and movements into combinations. Other variations such as "soft shoe" or "clogging" are included.

MTR 210 Tap Dance II 1 Credits

Continuation of MTR 209. Combinations most often used in music theater productions are emphasized.

Prerequisite(s): MTR 209.

MTR 211 Ballet III 1 Credits

Intermediate ballet, expanding upon Ballet II and concentrating upon the American lineage of ballet training.

Prerequisite(s): MTR 110.

MTR 212 Ballet IV 1 Credits

Continuation of MTR 211. Intermediate ballet, expanding upon Ballet III and concentrating upon the American lineage of ballet training.

Prerequisite(s): MTR 211.

MTR 215 MT Performance: Song as Text 3 Credits

In this course the student will learn how to develop a performance of musical text by making doable, actable choices and applying those choices to musical monologues – solo songs.

Prerequisite(s): THE 110.

MTR 216 Acting for Music Theater I 3 Credits

This professional skills course, intended for music theater majors, builds upon the student's previous acting training. Through various exercises and activities (both individual and group), the student will begin to develop a clear method for preparation that addresses first their own instrument, and then (through various methods of analysis) the character and the play. Students will begin to utilize and apply the studied techniques and exercises to simple monologues and a scene. Behavioral truth will precede the more sophisticated studies of emotional truth.

MTR 217 Acting for Music Theater Major II 3 Credits

Continuation of MTR 216. Methods for preparation are expanded as students learn and experience techniques for exploring and developing characters. This semester will focus on the application of the skills and acting techniques studied in the first semester to the needs of dramatic and sung material. Students are expected to synthesize content and skills acquired in the Speech for the Actor, Body Awareness and Movement classes.

Prerequisite(s): MTR 216.

MTR 218 Musical Theatre Scene Study I 3 Credits

Scene study class exploring the literature of the musical theatre – emphasis placed on two- and three-character scenes. Required of all second-year students.

Prerequisite(s): THE 208.

MTR 219 Musical Theatre Scene Study II 3 Credits

Further exploration of scenes in the musical theatre literature – emphasis on more complex scenes. Required of all third-year students.

Prerequisite(s): MTR 218.

MTR 251 Styles and Genres I 3 Credits

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Standard, Classical, and Traditional periods of musical theater. Composers to be studied will include Rodgers and Hammerstein, Lerner and Loewe, Kern, Berlin, Gershwin, Porter, Arlen, Blitstein and Weill.

Prerequisite(s): MUS 111, MUS 111L, THE 107, MTR 216.

MTR 252 Styles and Genres II 3 Credits

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary (Non-Pop/Rock) period of music theater. Composers to be studied will include Sondheim, Styne, Kander and Ebb, Guettel, Matby and Shire, and Bernstein.

Prerequisite(s): MUS 111, MUS 111L, THE 107, MTR 216.

MTR 253 Styles and Genres III 3 Credits

Focuses teaching and learning on the ways in which musical and textual understanding inform the interpretation and performing of representative composers from the Contemporary, Pop/Rock period of music theater. Composers to be studied will include Webber, Schwartz, Fenn, Flaherty, Menkin, Brown, LaChiusa, and Lipa.

Prerequisite(s): MUS 111, MUS 111L, THE 107, MTR 216.

MTR 255 Musical Theatre Repertoire I 3 Credits

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers through the 1950s. The thrust of this class is split between studio work and academic work.

Prerequisite(s): THE 106, THE 208.

MTR 256 Musical Theater Repertoire II 3 Credits

This course provides the opportunity to encounter/examine the repertoire of the major musical theatre writers since the 1950s. The thrust of this class is split between studio work and academic work.

Prerequisite(s): THE 106, THE 108.

MTR 307 Tap III 1 Credits

This course is designed for the moderately advanced tap dancer. Course to be taken in the fall.

Prerequisite(s): MTR 210.

MTR 308 Tap IV 1 Credits

The course will allow the more advanced student to complete the work begun in Tap III.

Prerequisite(s): MTR 307.

MTR 309 Jazz Dance I 1 Credits

Based upon the ballet foundation, this course explores the expressive style of jazz dance, and basic Western theatrical dance forms and social dances used most often on the stage.

Prerequisite(s): MTR 109.

MTR 310 Jazz Dance II 1 Credits

Continuation of work begun in MTR 309.

Prerequisite(s): MTR 309.

MTR 311 Jazz Dance III 1 Credits

This course continues the work begun in MTR 309 and 310.

MTR 312 Jazz Dance IV 1 Credits

This course completes the work begun in MTR 309, MTR 310 and MTR 311.

Prerequisite(s): MTR 311.

MTR 313 Ballet V 1 Credits

Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

Prerequisite(s): MTR 212.

MTR 314 Ballet VI 1 Credits

Continuation of MTR 313. Advanced ballet, expanding upon Ballet IV and concentrating upon the American lineage of ballet training. Inclusion of advanced combinations, physical development and coordination skills.

Prerequisite(s): MTR 313.

MTR 317 MT Auditions:Preparation/Tech 3 Credits

This course, building upon skill-sets established in the Music Theatre singer-actor curriculum, will introduce and hone the required skill-sets for preparing to audition in Music Theatre. Genres and styles of music most often required for auditioning in the industry will be prepared and explored. An audition “book,” based upon the demands of the industry, as well as the most suitable material for each student will be built. When appropriate, guests from the industry will be invited to present master classes and evaluations in a “mock audition” process.

Prerequisite(s): MTR 207, MTR 216, MTR 217, MTR 492.

MTR 335 Speech for the Actor 3 Credits

This course introduces and develops speech techniques, specifically in the areas of relaxation, posture and alignment, respiration, phonation, support, registration, resonance, and articulation. Students learn to consistently produce a free, resonant, fully supported speaking voice. Exercises will increase flexibility and range of speaking and will foster heightened responsiveness to feeling. Regular practice in the delivery of both impromptu and prepared monologues is required. This course includes studies in Neutral American Speech.

MTR 402 Directing Music Theater/Opera 3 Credits

This elective course investigates how conceptual ideas and the process of script analysis are used in putting together a music theatre production for performance. Instruction includes staging ideas and elements needed for a complete production. Other theatrical aspects of choreography, properties, costumes, lighting, and set design are addressed. It is recommended that students complete MTR 496 before taking MTR 402.

MTR 411 Musical Theatre Ensemble 1 Credits**MTR 415 Broadway Styles I 1 Credits**

First capstone course in the Musical Theatre dance sequence. Practical and historical study of Broadway dance styles; main focus on jazz idiom. Emphases placed on technique, performance quality, and auditioning skills.

Prerequisite(s): Completion of Ballet, Tap, and Jazz requirements; senior standing.

MTR 416 Broadway Styles II 1 Credits

Second capstone course in the Musical Theatre dance sequence. Continuing study of Broadway dance styles. Emphasis is placed on technique, performance quality, and auditioning skills.

Prerequisite(s): MTR 416.

MTR 480 Dance for Performing Artist 3 Credits

This course is a culmination of the dance elements and forms studied in ballet, tap, and jazz dance. Context areas include movement used most often in performance of music theater and movement fundamentals applicable to all aspects of presentation and principle to refine and articulate the performer's awareness and use of the body through singing and dance. Performance issues and movement as a basis for music and sound production are addressed.

Prerequisite(s): MTR 209, MTR 309.

MTR 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credit hours. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

MTR 491 Internship in Music Theater 1-12 Credits

Provides junior or senior musical theatre majors with the opportunity to gain practical experience working within a professional environment. Students must be sponsored by a musical theatre or theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

MTR 492 Singing Actor: Music Theater 3 Credits

This semester combines all dramatic and musical studies to create an authentic and believable character that is both emotionally truthful and musically expressive. Music is studied as "script" and dramatic choices are prepared in relationship to all elements present in the score.

Prerequisite(s): MTR 216 and MTR 217.

MTR 493 Music Theater Production 1 Credits

Preparation and performance of a solo or ensemble role in a fully staged music theatre production. Concurrent participation in stage crew activities is required.

MTR 493T MTR Production (tech) 1 Credits**MTR 496 Music Theater Workshop 3 Credits**

This class, building upon the foundational studies associated with preparation and exploration (both dramatic and musical), focuses on performances. Students are taught methods for synthesizing all former training in acting, music, and movement to the needs of the character and the play/score. Each student fully prepares at least two complete roles from the music theater repertoire. The class culminates in a performance of scenes—the Junior Cabaret!

Prerequisite(s): MTR 216, MTR 217, MTR 492.

MTR 511 Music Theater Ensemble 1 Credits

The performance-based, auditioned music theater ensemble engages multiple singers/actors/dancers in performance, utilizing scenes from music theater literature as the primary material. Emphasis is placed upon group interaction and building an ensemble. This ensemble often is asked to perform for University sponsored events.

Nursing (NUR)**NUR 400 Professionalism and Professional Values 3 Credits**

Professionalism and the inherent values of altruism, autonomy, human dignity, integrity, and social justice are fundamental to nursing. This course provides a foundation of concepts of professionalism to facilitate participation and engagement in professional or community-based organizations that advocate for quality and access to health care. Learning activities and assignments will focus on strategies for self assessment and self reflection of one's values, moral integrity, and ability to act professionally at all times in complex health care delivery environments.

NUR 401 Organizational and Healthcare Systems Leadership 3 Credits

This course provides a foundation of principles of leadership based on contemporary needs for qualified nursing leaders who can function and manage in complex healthcare delivery environments. Learning activities and assignments will focus on strategies for self-assessment and self-reflection of one's own leadership skills, knowledge, and attitudes that foster and promote nursing leadership in diverse healthcare delivery settings, and strategies for best practice in nursing leadership in the 21st century.

NUR 402 Scholarship in Evidence-Based Practice 3 Credits

This course provides a foundation of evidence-based research principles to translate evidence into practice and how research informs professional nursing practice to improve patient safety and outcomes. Learning activities and assignments will focus on strategies for learning how to assess scientific merit of data-driven research, apply evidence-based practice in appropriate ways, monitor and evaluate the impact of evidence-based practice on informed nursing practice and outcomes of care as well as collaborate with interprofessional health care teams to improve patient safety and outcomes in a variety of healthcare delivery settings.

NUR 403 Information Management and Application of Patient Care Technology 3 Credits

This course provides a foundation of information management and application of patient care technology to enhance and improve patient safety and outcomes by examining linkages between information management systems and patient care technologies that support and are linked to safe nursing practice. The course examines how technology is used to inform nursing practice and enhance patient safety by applying safeguards and decision making support tools embedded in the technologies. Students are exposed to effective clinical information systems (CIS) to document nursing care, examine the ethical components of protecting patient information, challenges with data security, regulatory requirements, confidentiality and rights to privacy as well as examine the role of the professional nurse in updating and garnering information management resources and applying them in patient care settings.

NUR 404 Healthcare Policy, Finance, and Regulatory Environments 3 Credits

This course provides a foundation of U.S. healthcare policy, including financial and regulatory policies, as well as the nature and functioning of the U.S. healthcare delivery system. There is emphasis on policy processes at the organizational, local, state, national, and global levels. Learning activities and assignments focus on strategies for learning how to assess the role of the baccalaureate-prepared nurse in policy formation and reformation at all levels, demonstrating understanding of the political process at all levels, developing effective advocacy strategies for vulnerable populations, how to identify and influence key stakeholders in the policy process, the importance of effective communication of key healthcare issues, and how to influence change in the political process at all levels when there is social injustice.

NUR 405 Interprofessional Collaboration and Communication for Improving Healthcare Outcomes 3 Credits

This course provides a foundation of key concepts essential to promotion of effective interprofessional collaboration and communication for improving healthcare outcomes and patient safety. There is emphasis in the course on examination of the roles and perspectives of scope of practice for selected healthcare disciplines in intra-and interprofessional healthcare teams to improve healthcare outcomes and promote patient safety, and on effective strategies for advocacy and communication patterns in healthcare delivery settings as healthcare professionals develop trust and respect for all members of the healthcare team while recognizing unique differences and contributions of roles to patient safety and outcomes.

NUR 406 Population Health Promotion and Prevention Across the Lifespan 3 Credits

This course provides a foundation of key concepts essential to population-focused nursing, the aggregate, community or population as the unit of care. The focus of the course is on health promotion/disease prevention with emphasis on the professional nurse role in clinical prevention of disease and care of populations applying concepts of primary, secondary, and tertiary health promotion across the lifespan, identifying determinates of health, prioritizing primary prevention across the lifespan, actively identifying and targeting populations benefitting from evidence-based preventive initiatives and clinical preventive guidelines, assessment strategies for individuals and populations, applying evidence-based practice to health promotion/risk reduction, and being an advocate for vulnerable and disenfranchised populations without resources or a voice.

NUR 407 Cultural Diversity in a Global Society 3 Credits

This course provides a foundation of key concepts essential to nursing care and professional nursing leadership in assessment, planning, design, implementation, and evaluation of the knowledge, skills, and attitudes they must have as leaders of healthcare delivery focusing on improved system safety and effectiveness. There is particular emphasis on the nursing leadership role at the baccalaureate level for nursing to recognize, interrupt, evaluate, and correct healthcare errors and to implement safety principles and work with others to create a safe, caring environment for every healthcare delivery encounter as they provide care themselves, are acting in a leadership capacity, or are overseeing and delegating to other non-licensed assistive personnel. The course content focuses on identification, assessment, planning, design, and evaluation of evidence-based practice change to improve patient safety and outcomes.

NUR 408 Gerontological Nursing Concept 3 Credits

This course provides a foundation of key concepts essential to care of an aging population in a complex society. Given the diverse health status of the aging population, professional nurses must be able to develop competencies to provide high quality care to aging adults and their families or significant others. Specifically the course focuses on increased diversity and complexity of an aging society and selected health care needs, life transitions of aging adults, normal body system changes occurring with the aging process, the professional nurse role in principled care provided to a vulnerable population, and the role of the professional nurse as advocate and caregiver promoting the concepts of quality end-of-life care for aging adults, including pain and symptom management honoring the autonomy and self-wish of the aging client.

NUR 409 BSN Capstone Evidence - Based Microsystem Practice Change 3 Credits

This course provides a foundation for the baccalaureate nurse to have a solid understanding of the concepts of organizational and systems leadership, quality improvement, and safety that are essential to promoting high quality patient care impacting patient safety and outcomes. Professional nursing leadership skills are needed that emphasize ethical and critical decision-making, initiating and maintaining effective partnerships and working relationships, initiating and maintaining mutually respectful communication and collaboration skills within interprofessional healthcare teams, care coordination, delegation, and developing effective conflict resolution and consensus building strategies. Professional BSN nurses must be able to practice at the clinical microsystem level within ever changing, dynamic healthcare delivery settings and this course prepares the baccalaureate-prepared professional nurse with this knowledge, skills, and competencies to implement safety principles and work collaboratively with others on the interprofessional healthcare team to lead and participate in creating a safe, caring environment for healthcare delivery so every patient encounter is a safe, effective, and positive one through a 90-hour practicum in a selected healthcare organization.

Philosophy (PHL)

PHL 100 Plato and Aristotle 3 Credits

The beginnings of Western scientific and humanistic thought among the early Greeks and their progress into the two great systems of Plato and Aristotle. Selections from Plato and Aristotle are read and discussed to determine the meaning and significance of philosophical ideas that have subsequently influenced the whole history of Western civilization.

PHL 102 Philosophical Thinking 3 Credits

An introduction to philosophical thought with an emphasis on the enduring questions and problems of philosophy. We will explore such questions as: how do I know I am not dreaming? Is there an external world? What is truth? Is there a self? Is there a God? What is the relationship between the mind and the body? How can I tell right from wrong? What makes government legitimate? What is justice? What is the meaning of life? We will consider answers to these questions from diverse philosophical traditions, reading such philosophers as Plato, Descartes, Zhuangzi, Hume, Vasubandhu, Berkeley, Aquinas, Avicenna, Udayana, Kant, Mill, Russell, Camus, and Nishitani.

PHL 110 Logic and Language 3 Credits

A study of the logical structure of argumentation in ordinary language, with an emphasis on the relation of logic to the uses of language in practical affairs. Traditional informal fallacies are studied as well. Discussions explore the nature of validity, truth, meaning, and evidence in relation to the evaluation of arguments.

PHL 115 Ethics 3 Credits

A combined historical and systematic analysis of the problems of ethics. Such problems as the nature and meaning of moral values and judgments, moral responsibility and freedom, conscience and happiness, the good life, and the relativity of value, are explored through the writings of such philosophers as Plato, Aristotle, Aquinas, Kant, Mill, and Nietzsche.

PHL 120 American Philosophy 3 Credits

The development of philosophical thought in the United States from the colonial era to the 20th century. Studies such thinkers as Edwards, Jefferson, Emerson, Thoreau, Peirce, James, Dewey, and King, and their ideas on human nature, free will, religion, morality, and politics.

PHL 125 Philosophies of Education 3 Credits

Studies classical and contemporary theories of the nature, structure, and aims of education, including major works of such philosophers as Plato, Rousseau, and Dewey. The course will also introduce students to methods of critical philosophical analysis.

PHL 130 Political Philosophy 3 Credits

An introduction to the problems of political philosophy with an emphasis on recent and contemporary issues, such as the conflict between liberal and conservative ideologies, fascism, revolution, civil disobedience, and the concept of legitimate political authority.

PHL 202 Social Philosophy 3 Credits

Emphasizes social ethics through critical studies of such contemporary problems as abortion, euthanasia, the death penalty, pornography and censorship, animal rights, drug use, sexual morality, environmental ethics, and world hunger.

PHL 203 Business Ethics 3 Credits

Surveys and examines ethical problems concerning the institutions and practices of contemporary business. Problems considered include: the conflicts of economic freedom and social responsibility; the relation of profits to work and alienation; the responsibilities of business to employees, minorities, consumers and the environment; the role of truthfulness in business practices; and the ethics of self-fulfillment and career ambitions. Readings selected from works of contemporary and historical philosophers, social theorists, and business people.

PHL 207 Asian Philosophy 3 Credits

A survey of the principal philosophical perspectives of Asia. Emphasis on the traditional Indian schools of Hinduism, Jainism, and Buddhism, Chinese Confucianism and Taoism, and the development of Zen Buddhism in China and Japan. Philosophical topics include: mystical experience, the ultimate nature of reality, the existence of a soul, the causes of human suffering, and the possibility of release, the nature of virtue and its development, and the nature of society and government.

PHL 210 Symbolic Logic 3 Credits

An introduction to logic from the standpoint of modern symbolic methods, including techniques of formal deductive proof, quantification, the logic of relations, and properties of formal deductive systems. Discussions focus on philosophical issues in recent and contemporary logical theory.

PHL 215 Environmental Ethics 3 Credits

A comprehensive introduction to environmental ethics that examines the major theoretical approaches, including anthropocentric (human-centered), zoocentric or sentientist (animal-centered), and biocentric or ecocentric (nature-centered) value systems, as well as the most important critiques of these ethical approaches. We will examine and analyze several classical ethical theories that are particularly relevant to a study of contemporary environmental controversies. We will also address specific issues such as biodiversity and wilderness preservation; human use of animals as food, entertainment, and research subjects; environmental racism and toxic dumping; sustainable development, population and consumption. Students will analyze and discuss the ethical dimensions of several contemporary environmental controversies.

PHL 225 Modern Philosophy 3 Credits

Examines one of the most exciting periods in the history of philosophy during which philosophers from Descartes to Kant tried to come to terms with the following questions: What is knowledge? Can we know the physical world exists? Can we have scientific knowledge? Can we know God exists? Can we even know whether we exist? The works of Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume and Kant are read and discussed.

PHL 226 Limits of Reason: 19th Century Philosophy 3 Credits

Studies the nature and meaning of reason, freedom, individuality, and society in the writings of philosophers such as Fichte, Hegel, Schopenhauer, Emerson, Thoreau, Comte, Mill, Spencer, Marx, and Nietzsche. Examination of the impact of such philosophies as the dialectical theory of history, transcendentalism, evolutionary theory, positivism, and existentialism on ideas about the nature and limits of human reason.

PHL 230 Philosophy of the Sexes 3 Credits

Studies philosophical views of the differences between the sexes, sexual equality, love, marriage, and the family from ancient Greece to the 20th century. Texts from the contemporary women's and men's movements will also be examined.

PHL 252 The Nature of Art 3 Credits

An inquiry into the nature of art, creativity, aesthetic experience, and value. Special attention to the importance of art in relation to the nature of man and society. Readings from classical theories of art (Plato, Hegel, Schopenhauer, Croce, Santayana), as well as from contemporary analyses of 20th-century art.

PHL 300 Philosophy and Civilization 3 Credits

An investigation of the rise and fall of civilizations in history, studying philosophical questions such as is history cyclical? Linear? Progressive? Directed toward a final goal? What is the role of the individual in history? Of economic, political, sociological, and psychological causes? Does history have a meaning? The works of St. Augustine, Vico, Hegel, Marx, and Toynbee, and the contemporary debate about the "clash of civilizations" between Islam and the West will be discussed.

PHL 303 Philosophy of Law 3 Credits

An examination and analysis of selected topics including classical and contemporary theories in the philosophy of law and moral philosophy. Such topics as the nature of the law and legal reasoning, the legal enforcement of morality, protection of personal liberty, and the moral justification of punishment are considered. Such philosophers as Aquinas, Austin, Holmes, Bentham, Hart, and Dworkin are read and discussed.

PHL 304 Medical Ethics 3 Credits

Introduces the student to ethical problems associated with the practice of medicine, the pursuit of biomedical research, and health care social policy. The course will explore such issues as: Is a physician morally obligated to tell a terminally ill patient that he or she is dying? Is society ever justified in enacting laws that would commit an individual, against his or her will, to a mental institution? Does society have a moral obligation to ensure that all its members have access to health care? To what extent, if at all, is it ethically acceptable to clone a human being? Under what conditions is human experimentation ethically acceptable?.

PHL 305 Philosophy of Religion 3 Credits

An inquiry into the meaning, significance, and fundamental problems of religion as they appear in their philosophical perspective. The relation between religion and science, between faith and reason; religious experience, religious truth, and symbolism, etc. will be explored. Selections from the works of Anselm, Aquinas, Augustine, Paley, Hume, Kant, James, and Wittgenstein will be discussed.

PHL 310 Problems in 20th-Cent Philos 3 Credits

Consideration of major philosophical movements in the 20th century such as phenomenology, existentialism, pragmatism, and analytic philosophy. Within these movements such topics as the function of analysis, language and meaning, the nature of values, the nature of persons, the synthetic-analytic distinction, the mind-body problem, and the possibility of metaphysics are considered. The work of such figures as Wittgenstein, Russell, Heidegger, Husserl, Sartre, Whitehead, and Dewey are read and discussed.

PHL 315 Existentialism 3 Credits

Historical development and contemporary problems of existentialism with emphasis on the nature of man, his ability to know his situation, the relation between existence and essence, and the meaning of human life and activity. The works of such figures as Kierkegaard, Sartre, Heidegger, Camus, Kafka, Beckett, Buber, Laing, and Frankl are read and discussed.

PHL 320 Philosophy of Science 3 Credits

The logic of fundamental concepts of science and scientific methods are studied. Patterns of explanation are examined to understand the functions of laws, theories, and predictions in science. Inquiry is made into the relation between mathematics and empirical science; similarities and distinctions between the natural and social sciences. The role of science in human affairs and the value of scientific knowledge.

PHL 334 Theories of Knowledge 3 Credits

An investigation of selected, representative theories of knowledge from classical and contemporary sources. Considers the analytic-synthetic distinctions, necessary truth, and the foundations of empirical knowledge. Such philosophers as Leibniz, Hume, Kant, Russell, and Quine are read and discussed.

PHL 336 Philosophy of Mind 3 Credits

An investigation of the nature, existence, and capacities of the mind and self in the light of recent philosophical and psychological theories, including psychoanalysis and behaviorism. Considers such topics as the interaction of mind and body, the unconscious, minds and machines, freedom of thought and action.

PHL 343 Theories of Reality 3 Credits

An examination of metaphysical problems with an emphasis on philosophical views of human nature from ancient Greece to contemporary evolutionary theories. The writings of such classical, modern, and contemporary figures as Plato, Aristotle, Descartes, Kant, Hegel, and Darwin are read and discussed. Issues studied include the relation between mind and matter, freedom and determinism, and the existence of God.

PHL 348 Indian Philosophy 3 Credits

Consideration of major movements in the philosophical tradition of India. Emphasis on the disputes between the traditional Hindu and Buddhist schools of the classical period over logic, knowledge, and reality. Philosophical topics include: skepticism, the problem of universals, realism and idealism, the nature of perception, the problem of induction, the nature of causality, and the problem of identity over time. Philosophers such as Nagarjuna, Vasubandhu, Vatsyayana, Dharmakirti, and Udayana will be read and discussed.

PHL 358 Chinese Philosophy 3 Credits

Consideration of major movements in the philosophical tradition of China. Emphasis on the political philosophies of ancient China. Topics include: human nature and the development of virtue, the nature and purpose of government, and the cognitive value of mystical experience. Philosophers such as Confucius, Laozi, Xunzi, Mencius, Mozi, and Zhuangzi will be read and discussed.

PHL 360 Contemporary Ethics 3 Credits

An examination of recent and contemporary challenges to traditional ethical theory including such movements as logical positivism, cultural relativism, feminism, environmentalism, multiculturalism, and postmodernism. Such problems as the meaning and cognitive status of value judgments, the relation between fact and value, the relativity of values, and how value judgments can be justified are considered.

PHL 368 Japanese Philosophy 3 Credits

Consideration of major movements in the philosophical tradition of Japan, with an emphasis on Zen Buddhism in Medieval Japan and the Kyoto school in the 20th century. Topics include: the use of meditation and koans in Zen practice, the relationship between practice and enlightenment, the nature of time, meaning and nihilism, and the relationship between science and religion. Philosophers such as Kukai, Mumon, Dogen, and Nishitani will be read and discussed.

PHL 402 Nietzsche and Nihilism 3 Credits

A seminar dealing with Nietzsche's provocative ideas on nihilism and the possibility of creating meaning, value, and truth for human existence. Many of his important works are read, analyzed, and critically discussed. Recent scholarly interpretations of Nietzsche's philosophy are considered.

Prerequisite(s): any previous philosophy course or permission of instructor.

PHL 404 Philosophy of Wittgenstein 3 Credits

Seminar involving a concentrated study of Wittgenstein's contributions to philosophy with special attention to his analysis of language, meaning, and mental concepts.

Prerequisite(s): any previous philosophy course or permission of instructor.

PHL 406 Philosophy of David Hume 3 Credits

Seminar involving a concentrated study of Hume's contributions to philosophy, including his work on epistemology, metaphysics, ethics, philosophy of science, and philosophy of religion.

Prerequisite(s): any previous philosophy course or permission of instructor.

PHL 407 Philosophy of Hannah Arendt 3 Credits

Seminar involving a concentrated study of the philosophy of Hannah Arendt with special attention to her analysis of action, thought, and freedom.

Prerequisite(s): any previous philosophy course or permission of instructor.

PHL 408 The Philosophy of William James 3 Credits

Seminar involving a concentrated study of William James' contributions to philosophy with special attention to his pragmatism, pluralism, and radical empiricism. Many of James' philosophical works are read, analyzed, and critically discussed. Recent scholarly interpretations of James' philosophy are considered.

PHL 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

PHL 491 Internship in Philosophy 1-4 Credits

Students will work under supervision within an area hospital, corporation, or legal agency. The specific duties and tasks will be developed jointly by the intern, intern agency, and faculty supervisor. Within the hospital setting, students will work with the Hospital Medical Ethics Committee. Within the corporate setting, there will be two types of internships: students will work in the corporate office responsible for addressing the ethical issues that arise in the business environment; or students will work in a department that allows them to explore the potential business applications of their philosophic intellectual training. Within the legal setting, students will work with the federal magistrate, prosecutor, or public defender, exploring issues in the philosophy of law that arise in the practice of law. Students must have completed four philosophy courses, one at THE 300 level, before applying for the internship. No more than six credits will be allowed toward graduation. A member of the department of philosophy will supervise the internship.

Prerequisite(s): juniors and seniors with a minimum of 2.7 cumulative GPA and 3.0 GPA in philosophy, or permission of the department of philosophy.

PHL 494 Research Senior Philos Thesis 1 Credits

Supervised by a faculty member, the Philosophy major chooses a topic, composes an outline and a bibliography. Must be completed prior to enrolling in PHL 495.

PHL 495 Senior Philosophy Thesis 3 Credits

In a tutorial setting, the Philosophy major will write a thesis which serves as the Capstone Experience in the Department.

Prerequisite(s): PHL 494.

Physics (PHY)

PHY 100 Principles of Physics I 3 Credits

Introductory noncalculus physics with applications for pre-professional, biology, and geological, environmental and marine sciences majors. Classical mechanics, energy, mechanical waves, fluid statics and dynamics, thermodynamics. Elements of modern physics are interwoven with those of classical physics from the beginning. Not open to chemistry, physics, or mathematics majors. Three hours of lecture per week. Prerequisite(s): MTH 105, MTH 210, MTH 211 or MTH 212.

Corequisite(s): PHY 100L.

PHY 100L Principles of Physics I Lab 1 Credits

For students concurrently taking PHY 100. One three-hour lab per week.

Corequisite(s): PHY 100.

PHY 101 Principles of Physics II 3 Credits

Continuation of Physics 100. Electrostatics, electricity, and magnetism; DC and AC circuits, physical and geometrical optics, introduction to elementary particle and quantum physics. Three hours of lecture per week. Prerequisite(s): PHY 100.

Corequisite(s): PHY 101L.

PHY 101L Principles of Physics II Lab 1 Credits

For students concurrently taking Physics 101. One three-hour lab per week.

Corequisite(s): PHY 101.

PHY 103 Science of Light and Color 3 Credits

An introduction to the science of light, color, and optics. Covers history of theories of light and vision, applications in art, photography, natural phenomena (rainbows, mirages, etc.), and modern technology, e.g., lasers and telecommunications. Many topics are illustrated by in-class demonstration experiments with lasers and other optical devices.

PHY 104 Energy, the Environment & Man 3 Credits

The many vital roles played by energy in the universe at large, on the earth, and in the activities of man are examined, including the basic sources of energy, the impact upon the environment due to these processes and possible future sources. A high school course in physics or chemistry is desirable but not necessary.

PHY 105 Matter, Forces, Energy: Explor'n 4 Credits

An introduction to the basic principles of physics focusing on the concepts of matter, force, and energy. The course will study, in depth, simple physical systems chosen to emphasize the interconnection of these three basic concepts. It will explore the behavior of these simple physical systems using directed group exercises coordinated with hands-on laboratory activities. One three-hour lecture and one three-hour lab per week.

PHY 105L Matter, Forces and Energy Lab 0 Credits**PHY 180 Astronomy 3 Credits**

Examines mankind's quest to understand the origin and form of the universe. Emphasis on the ideas of modern cosmology and their impact on our changing perception of our place in the universe, making use of information gleaned by simply looking at the night sky as well as post Apollo-era views of the solar system and the evolving universe as a whole.

PHY 200 General Physics I 4 Credits

Introductory classical physics; Newtonian mechanics, including the conservation laws, wave motion, gravity, thermodynamics. Three hours of lecture and one three-hour lab per week. Prerequisite(s): MTH 210 or as corequisite.

Corequisite(s): PHY 200L.

PHY 200L General Physics I Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PHY 200.

PHY 201 General Physics II 4 Credits

A continuation of the concepts developed in Physics 200. Electricity, electrical circuits, magnetism, Maxwell's equations. Light and optics, including lenses, interference, and diffraction. Three hours of lecture and one three-hour lab per week. Prerequisite(s): PHY 200, MTH 211 or concurrent enrollment.

Corequisite(s): PHY 201L.

PHY 201L General Physics II Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PHY 201.

PHY 203 Introduction to Modern Physics 3 Credits

Covers space-time relativity, elementary particles, and basic quantum mechanics, including solutions of the Schrodinger wave equation. Applications of quantum theory in atomic, nuclear, and solid-state physics.

Prerequisite(s): PHY 201 or permission of instructor.

PHY 300 Mechanics 3 Credits

Kinematics and dynamics of particles and systems, analysis of harmonic oscillator systems, normal modes, Lagrangian and Hamiltonian dynamics and classical waves are studied.

Prerequisite(s): PHY 201, MTH 250.

PHY 305 Electricity and Magnetism 3 Credits

Electro- and magnetostatics, fields and potentials, and boundary value problems are covered.

Prerequisite(s): PHY 201, MTH 250.

PHY 310 Adv Electricity and Magnetism 3 Credits

Maxwell's equations; electromagnetic waves in vacuum and in material media; radiation, propagation, reflection, and refraction.

Prerequisite(s): PHY 305, MTH 308.

PHY 315 Thermodynamics/Stat Mechanics 3 Credits

Thermodynamic systems; the first and second laws of thermodynamics; entropy and thermodynamic potentials; distribution of molecular speeds; Maxwell-Boltzmann, Bose-Einstein, and Fermi-Dirac distributions.

Prerequisite(s): PHY 201.

PHY 320 Quantum Mechanics 3 Credits

Historical background; the Bohr Theory; the Schrodinger equation, its interpretation and applications; the uncertainty and exclusion principles; development of the formalism.

Prerequisite(s): PHY 300.

PHY 330 Basic Electronics 3 Credits

An experimental study of devices and circuits in analog and digital electronics. No previous experience with electronic circuits is assumed; introductory topics including signal acquisition, computer interfaces, and analog/digital signal processing will be covered. One hour of lecture plus two three-hour labs per week.

Prerequisite(s): PHY 201 or permission of instructor.

PHY 350 Advanced Laboratory 2 Credits

Experiments in atomic and nuclear physics, electricity and magnetism, and physical optics. Students have the opportunity to work intensively on a particular experiment. Minimum of five to six hours per week.

PHY 400 Atomic Physics 3 Credits

Quantum mechanics and the one-electron atom; atomic structure and optical spectra of multi-electron atoms. Quantum statistics, band theory of solids.

Prerequisite(s): PHY 320.

PHY 405 Fundamentals Nuclear Physics 3 Credits

Nuclear mass and size; nuclear forces and some models of the nucleus; radioactivity and detection; subnuclear particles and resonances.

Prerequisite(s): PHY 320.

PHY 415 Physical Optics 3 Credits

Waves and the superposition principle; interference, Fraunhofer and Fresnel diffraction; electromagnetic nature of light; absorption and scattering; dispersion; polarization.

Prerequisite(s): PHY 201, MTH 250.

PHY 416 Modern Experimental Optics Lab 1 Credits

A laboratory course in geometrical and physical (wave) optics, designed to supplement the material presented in PHY 415. Serves as an introduction to the optical equipment and techniques that are employed in laboratory research. A series of experiments cover the topics of polarization, interference, image formation, Fourier optics and lasers, and optical spectroscopy.

Prerequisite(s): PHY 201.

PHY 450 Topics in Modern Physics 3 Credits

A selected topic of contemporary interest in physics, e.g., general relativity and gravity waves, is studied. Emphasis on current journal literature and research. May be taken more than once with departmental approval. An excellent introduction to independent research in one area of physics.

Prerequisite(s): PHY 201.

PHY 490 Independent Research and Study 1-4 Credits

Immerses the student in laboratory research. The student learns to organize material, use the literature, make precise measurements, and obtain reproducible data. If possible, the student will publish the results or present them at a scientific meeting.

PHY 491 Internship in Physics 1-4 Credits

A supervised research experience in an approved organization where qualified students gain real-world knowledge and utilize their academic training in a professional environment. Placement may be in private, public, non-profit, or governmental organizations under the guidance of a mentor. The mentor and student will have regular consultation with the departmental internship coordinator to assess the student's progress. Normally, 50 hours of internship per credit is required. The grade for the course will be determined by the student's overall performance in their research work, a research paper documenting their work with their internship mentor and an oral or poster presentation at the end of the semester.

Prerequisite(s): 2.5 GPA and permission of the instructor.

Political Science (POL)

POL 100 Intro to American Politics 3 Credits

An examination of basic principles of the U.S. constitutional system; the operation of the democratic process; the organization, powers and procedures of Congress, the presidency and the federal judiciary; and the functions, services, and financing of the national government. Emphasis is on public issues, national priorities, and civil liberties. Note: This course is cross-listed as HLS 100. Students may not get credit for both POL 100 and HLS 100.

POL 102 Understanding Politics 3 Credits

Introduction to the study of politics and government, including major political theories and ideologies, systems of government (i.e., presidential, parliamentary, authoritarian, totalitarian), public opinion and behavior, international relations and war, and contemporary policy issues.

POL 200 NJ Government and Politics 3 Credits

Political institutions, processes, and problems of state and local governments of New Jersey. Analysis of legislative, executive, judicial, regulatory bodies, special districts, and autonomous agencies. Aspects of personnel, finance, and services.

POL 201 Policy Issues, Advocacy, & Budget 3 Credits

Surveys various domestic economic and social policy issues, the government budgeting process, and how citizens and groups advocate their interest through organizing, coalition-building and lobbying. Emphasis on developing practical skills in issue analysis, lobbying, legislative tracking, and public budgeting.

POL 202 The Political System - Theories and Them 3 Credits

This course serves as a gateway to the subfields of comparative politics and international relations. The concept of the political system helps political scientists to organize political interrelations into patterns that allow systematic selection and interpretation of information and the study of processes and outcomes of politics in a variety of settings.

The course introduces students to the main brands of normative theory prescribing the principles directing the operation of the political system, to some of the most important methods used to compare political systems and/or their components, and to the foremost approaches utilized in the study of the relations between political systems and their environments. Note: This course is cross-listed as HLS 202. Students may not get credit for both POL 202 and HLS 202.

POL 203 Homeland Security 3 Credits

The course is designed to help students increase their knowledge and understanding of homeland security policy. The course will consider why and how homeland security problems impact the public agenda, why some solutions are adopted and others rejected, and why some policies appear to succeed while others appear to fail. The course will primarily examine policy making at the national level in the United States, but will also analyze examples at the state and local level, as well as placing U.S. policy in a comparative perspective. Note: This course is cross-listed as HLS 203. Students may not get credit for both HLS 203 and POL 203.

POL 204 Development and Structure of the US Intelligence Community 3 Credits

This course will provide an historical review of intelligence during the following World War II. It will examine the major functions of intelligence, as well as intelligence as a part of the foreign policy process: collection, analysis, counterintelligence, and covert action. Students will be introduced to a range of collection procedures: human, open source, electronic, photographic, and signal, with emphasis placed on interpreting and writing intelligence summaries. Note: This course is cross-listed as HLS 204. Students may not get credit for both POL 204 and HLS 204.

POL 210 Public Opinion 3 Credits

Public opinion as a social force and as expression of public sentiment on political and social issues. Topics include: development and dissemination of opinions, the measurement of public opinion, public opinion and governmental processes, and the reciprocal relationship between mass media and public opinion. Note: This course is cross-listed as GLS 210. Students may not get credit for both POL 210 and GLS 210.

POL 215 Global Politics 3 Credits

The struggle for power, wealth, and order at the global level involving nation-states, intergovernmental organizations (such as the United Nations, the European Union, etc.), non-governmental organizations, transnational enterprises and other non-state entities, using military, economic, diplomatic, legal, and communication instruments. Overview of global problems such as the proliferation of weapons of destruction, ethnic and religious conflicts, human rights, and the global environment at the threshold of the 21st century. Real-time use of the Internet is an integral aspect of this course in terms of readings and assignments. (This course is a prerequisite for POL 295 Special Projects in Political Science: Model United Nations.) Note: This course is cross-listed as GLS 215. Students may not get credit for both POL 215 and GLS 215.

POL 216 Comparative Political Systems 3 Credits

A general introduction to types of government and political regimes of the world as they try to cope with the dual challenge of ethnic micropolitics and transnational globalization. Major prototypes of democracy: the British parliamentary system, the American separation of powers system, and various combinations of these two. Traditional autocracy, totalitarian dictatorships, and late 20th-century authoritarian regimes. Students are expected to acquire in-depth knowledge of comparative political systems, and to develop a basic understanding and appreciation of the major concepts and themes in comparative political systems studies.

POL 218 Asian Political Systems 3 Credits

(Formerly the Pacific Rim in the 21st Century) This course aims to provide students with an understanding of the fundamentals of the government, politics, economic development as well as the history and culture of countries along the Pacific Rim. The countries examined include China, Taiwan, Hong Kong, Singapore, Japan, South Korea and North Korea. Students are expected to understand 1) the democratization wave and efforts across the Pacific Rim countries and regions, 2) the economic development of these countries and regions and the consequential sociopolitical impact, and 3) concepts of political institutions and political culture in a comparative perspective.

POL 219 Terrorism, Revolut & Polit Viol 3 Credits

Revolutions are the mad inspiration of history. Trotsky's characterization calls attention to three important dimensions of violent political participation: the historical settings, ideology, and emotional fervor of the practitioners. The course focuses on these dimensions by analyzing revolutionary and terrorist movements in the 20th century. Special attention is given to the use of violence in the post-Cold War new world disorder. Note: This course is cross-listed as GLS 219 and as HLS 219. Students may only get credit for one course: HLS 219, GLS 219, or POL 219.

POL 220 Terrorism & Counter Terrorism 3 Credits

This course introduces students to the arguments about the definition of terrorism, the historical use of terrorism and the roles of ideology, religion, and psychological factors that help explain and predict it. The course seeks to identify the components of national security policy aimed at countering such elements and their cost, both in financial and civil right terms. Finally, to illuminate both the definition and the policies discussed, the course will offer brief comparisons with other states, especially Israel, the UK, and Russia.

POL 225 Nationalism in World Politics 3 Credits

Nations and nationalism. An overview of nationalistic manifestations in the world today. Nations, states, nation-states. Multinational states, stateless nations. Imperialism, anti-imperialism; nativism vs. internationalism and globalism. Topics include nationalisms in the Holy Land; in the former Yugoslavia; in the former Soviet Union and its successor states; and economic Nationalism vs. Globalization. Note: This course is cross-listed as GLS 225. Students may not get credit for both POL 225 and GLS 225.

POL 230 Methods of Political Analysis 3 Credits

An overview of the various qualitative and quantitative methods that political scientists use to study their discipline. Themes include analyses of political participation and support, methods of studying elections, measures of political tolerance and liberalism.

POL 235 Race/Ethnicity in Amer Politic 3 Credits

Examines the changing political, economic, and social situation of racial and ethnic groups in American politics since the 1950s. Topics include the relationship between race/ethnicity and voting behavior, political parties, and election results. Includes an analysis of specific areas of contemporary racial and ethnic conflict, such as voting rights, immigration, and affirmative action.

POL 239 Political Thinkers & Thought 3 Credits

A survey of the most significant political thought from ancient times into the modern era. Subject matter includes discussion of such questions as the nature of freedom, natural law and right, constitutionalism, political obligation, justice, form of regime.

POL 247 Political Campaigning 3 Credits

This course entails the study of campaigning for political office at the federal, state and local levels in the United States. While attention will be given to how the broader political environment and specific factors, e.g., the decline in partisanship, hot button issues, local interests, and money, affect the nature of campaigns, the course's primary focus will be on how to organize and conduct a successful and ethical campaign, including how to collect and analyze pertinent data, manage a staff, develop a communications plan, and get out the vote.

POL 255 European Politics 3 Credits

A comparative analysis of the social and political systems of Britain, France, Germany and other Western countries within the European framework. Emphasis will be on the identification of ways in which countries similar in social characteristics are also similar in their political systems and on the extent and circumstances under which they differ. Similarities and contrasts will also be drawn with political structures and processes in the United States. This course, on occasion, may contain an optional travel component during January.

POL 260 Politics of Law and Order 3 Credits

The constitutional, legal, political, and administrative aspects of the criminal justice system in the United States are studied, including the court system at all levels of government, law enforcement agencies, correctional programs and institutions, probation, parole, and the relationship of our legal institutions to the broader political system.

POL 267 Chinese Politics 3 Credits

This course aims to provide students with an understanding of the history, government, politics, economic development as well as political culture of the People's Republic of China. Students are expected to acquire in-depth knowledge of China's political history, government structure and China's economic development and consequential sociopolitical impact. At the same time, students are expected to develop a basic understanding of the concepts of studying Chinese political institutions and political culture in a comparative perspective.

POL 270 Interest Groups and Lobbying 3 Credits

The course will introduce students to the area of interest groups and lobbying. Topics to be covered include theoretical developments, methodological approaches of group formation, organizational maintenance, and strategies used to influence public policy in the executive, legislative, and judicial branches of government.

POL 272 Politics of Latin America 3 Credits

The course will begin by discussing Latin American nations from the point of view of their common ancestry in European colonization, including the ways in which European cultural and economic patterns were introduced into indigenously populated areas, how these persisted after independence from European imperialist regimes and the U.S., and how these legacies have their continued effects into the present. The course continues with inquiry into the domestic politics and governmental systems of a number of Latin American nations. The course also takes up present day relations between Latin American political systems, the United States, and various organizations of the global economy such as International Monetary Fund, the World Bank, and the World Trade Organization.

POL 280 Sex & Politics 3 Credits

The bearing of gender upon politics: whether political activity is more characteristic of one or the other sex; the comparative fates of male and female in political society; the political implications of change in the content and mutual status of masculinity and femininity. Inquiry into classical, traditional, and contemporary views.

POL 295 Special Project:Model UN 3 Credits

For non-seniors who engage in serious research in political science. Topic to be approved by instructor and department chairperson.

POL 300 U.S. Constitutional Law 3 Credits

The role of the Supreme Court in the American political system is assessed. Topics include the staffing and functioning of the Supreme Court and the federal judicial bureaucracy, the origins and development of judicial review, and the role of the Supreme Court in national policy-making. Note: This course is cross-listed as HLS 300. Students may not get credit for both HLS 300 and POL 300.

POL 301 Civil Liberties in the U.S. 3 Credits

The American doctrine of civil liberties in theory and practice. Emphasis on analyzing the freedoms of speech, press, assembly, and religion, the right of privacy, and the problem of discrimination in the context of contemporary issues and problems. Particular attention to the role of the Supreme Court in this area. Note: This course is cross-listed as HLS 301. Students may not get credit for both HLS 301 and POL 301.

POL 304 Political Behavior: Fear, Risk and Crisis 3 Credits

The course focuses on various analytical approaches in behavioral political science. It does so by advancing students' knowledge of the cognitive aspects of whether citizens engage in various types of political behavior-eg. voting/non-voting, the formation of political partisanship and ideology, issue perceptions, responding to risk and uncertainty in the political environment, and engaging in civic political participation. Note: This course is cross-listed as HLS 304. Students may not get credit for both POL 304 and HLS 304.

POL 305 Pol Parties & Electoral Behave 3 Credits

The structure, character, and functions of U.S. political parties and pressure groups, and their impact on public policy. Parties are analyzed within the broader scope of organizational theory and comparative party systems. Major emphases on their historical origins, their role in contemporary political life, and particular aspects of party politics—local organization, membership, campaigning and elections, policy-making roles, and leadership.

POL 306 Political Film 3 Credits

This course analyzes the structure, history, and impact of the genre of political film. It begins with a discussion of how one distinguishes a political film from other forms of cinema. It then proposes insights into the manner in which these films evoke a particular time and place in politics, affect the viewer's interpretation of a political event or figure, and have an effect upon a viewer's political perceptions or behavior. The student will also learn to review films critically, both as political statements and as effective (or ineffective) conveyors of political messages. Note: This course is cross-listed as GLS 306. Students may not get credit for both POL 306 and GLS 306.

POL 307 Political Communication 3 Credits

The meaning and uses of political communication are examined, the manner and forms such communication takes, and the history of political discourse. Major topics include the role of communication in elections and the development of public policy, how political communication strategies have changed with the rise of mass media, and the development of national and international publics for discourse. Note: This course is cross-listed as GLS 307. Students may not get credit for both POL 307 and GLS 307.

POL 309 Will China Be Next Superpower? 3 Credits

This course has two focal points: one is the rise and fall of great powers in the history of world transformation; the other is China's whereabouts in this transition. The former deals with a group of International Relations theories, which focuses on systematic transformation. Students are expected to learn extant theoretical knowledge on how and why a great power rises and falls. The latter is our empirical referent. Students are led to study China's contemporary history, geopolitics, political economy, and international relations as to make a learned connection between theoretical wisdom and practical data on China. This course will provide students with a better understanding of China in general and its superpower status in the making in world politics in particular, offer students a chance to review the sources and consequences of different national approaches to greatness, and help students find his or her own analytical framework for understanding international political events that may have transforming effects in Northeast Asia as well as on the world stage.

POL 312 Congressional Politics 3 Credits

An intensive analysis of the legislative process in the United States, considering both the internal organization and operation of Congress, and Congress' role in the broader American political system. Fundamental issues include the theory and practice of representation; the committee system, seniority and expertise; executive and legislative interaction; and the politics of congressional reform.

POL 313 American Presidency 3 Credits

A description and analysis of the American presidency: its historical development, the internal organization, and ecological context. Basic issues include the intent of the framers of the Constitution, the historical accumulation of presidential powers, and institutional limits on presidential power (e.g., Congress and the bureaucracy).

POL 314 Congressional Power and National Security Policy 3 Credits

The purpose of this course is for students to identify, examine, analyze, and interpret the role of Congress in shaping national security policy with a particular emphasis on the institution's role in the Global War on Terror. Particular attention is paid to the role of the US government being able to balance individual rights and liberties within the national security state. Last, the course also takes an in-depth analysis of the U.S. Congress, looking comparatively at how legislatures in other nations have dealt with crafting their own security policies. The course will address the following questions: First, what is the role of Congress in national security policy, what does it do, and why? Second, what are the various ways of studying the relationship between the legislative and executive branches of government in the US system as it relates to the Global War on Terror? Note: This course is cross-listed as HLS 314. Students may not get credit for both HLS 314 and POL 314.

POL 315 Global Issues 3 Credits

Military, economic, demographic, and environmental threats to global security in the post-Cold War era. Forces of transnational integration vs. forces of intrastate fragmentation. Inadequacy of international law and organization to deal with these problems within the confines of the sovereign nation-state system. Note: This course is cross-listed as GLS 315. Students may not get credit for both POL 315 and GLS 315.

POL 316 Presidential Power and National Security Policy 3 Credits

This course examines the development of the National Security State since the Second World War, and the ways in which it has affected, and been affected by, the Federal Executive. Topics to be covered will include the post-World War II redefinition of "national security", the Cold War (with a special focus upon war powers during Korea and Vietnam) and the changes that have occurred with the "War on Terror." Note: This course is cross-listed as HLS 316. Students may not get credit for both POL 316 and HLS 316.

POL 320 Politics of the Middle East 3 Credits

The course emphasizes the relationships between social and political structures, the role of religion, and the problems of modernization in the Middle East. Similarities and contrasts will be drawn between the Arab and non-Arab countries of the Middle East. The political systems of Egypt, Syria, Israel and Saudi Arabia are examined in terms of political culture, structure, and political processes.

POL 321 International Law 3 Credits

This course covers the basic doctrines of international law and their relationship to the contemporary international community. These include the jurisprudence of international law; the history of the international legal system; customary international law; Treaty law; sovereignty, statehood and recognition; jurisdiction and immunities; the role of international organizations; international criminal responsibility; and the relationship of the international legal system to the U.S. domestic legal system. The objectives of international law are to foster the peaceful settlement of disputes; facilitate transnational communication and commerce; encourage respect for human rights; as well as to preserve the environment.

POL 325 Public Administration 3 Credits

Public administration in modern society, emphasizing the administrative formulation of public policy and its implementation. Attention on who gets what, when, and how from the decisions of administrative units; the role administrators have in policy-making compared to elected legislators, chief executives and judges; the effect administrators have on the benefits citizens receive from government; and the effect administrators have on citizens' behavior. Note: This course is cross-listed as HLS 325. Students may not get credit for both HLS 325 and POL 325.

POL 326 Power in American Politics 3 Credits

Examines various explanations of who has power in American politics. Explores the roles of appointed and elected officials, business and interest groups, the media, and the general public in shaping public policy. Special attention to political change, including the impact of broad social movements on the responsiveness of the political system.

POL 327 Contemp Issues Amer Pub Policy 3 Credits

An in-depth examination of current issues in American politics. Drunk driving, political corruption, drug policy, education, and poverty are among the issues to be considered. Emphasis on analyzing policy problems and on developing and evaluating proposed solutions.

POL 328 Environmental Policy 3 Credits

Environmental Politics examines how policymakers deal with the political challenges of unsustainable resource consumption, which is a primary determinant of environmental problems such as climate change, adverse health effects, and biodiversity loss. The course introduces students to environmental politics and policies at the local, state, national, and international levels. The course is designed to provide students with a framework for understanding how varied interests compete within political institutions in order to transform contending ideas into public policy. With that in mind, students will not only become more informed consumers of political information, but will also become more effective at analyzing and advocating for policies as it relates to the environment.

POL 329 Comparative Environmntl Policy 3 Credits

Comparative Environmental Policy analyzes cross-national approaches in developing, implementing, and evaluating policy responses to environmental problems. The course analyzes the political factors, actors, and tools that help and explain why some societies have been more likely to develop effective responses to environmental threats. Note: This course is cross-listed as GLS 329. Students may not get credit for both GLS 329 and POL 329.

POL 335 Urban Politics 3 Credits

Political structure and administration of municipalities in the United States. Emphasis on problems posed by suburbanization, global and regional shifts in business, economic dislocation, housing, race relations, and policing.

POL 340 Mod Democracy & its Critics 3 Credits

The course examines the fundamental assumptions underlying modern democratic theories and the main theoretical attacks launched against them. Among the contending theories to be discussed are right and left-wing anarchism, the old and the new left, fascism, intellectual elitism, and techno-conservatism. Note: This course is cross-listed as GLS 340. Students may not get credit for both POL 340 and GLS 340.

POL 342 Freedom and Authority 3 Credits

Concepts of freedom and authority in 19th and 20th-century political theory. Emphasis on such important thinkers as Nietzsche, Freud, Sartre, Camus, and Marcuse. Note: This course is cross-listed as GLS 342. Students may not get credit for both POL 342 and GLS 342.

POL 343 American Political Thought I 3 Credits

The philosophical background and moral principles of American political society: liberty, equality, natural law and natural right; constitutionalism and nation-building. The development of the ideologies of liberalism, conservatism, and libertinism are also covered.

POL 345 Justice 3 Credits

The existence of society over time requires high degree of predictability and hence laws, whether explicit or implicit. These derive their capacity to regulate life from the widespread notion that they are proper and that they should be obeyed. In a word, they accord to our notions of justice. These, however, are not stable. Resting on the understandings of man, society, nature and the relations between them, they develop under the impact of human thought and changing realities. The result is what can be compared to a layered cake. This course treats some of the main contributions made by philosophers from Plato to Rawls to our concept of justice and the manner by which they have shaped our concepts of justice in the US and West in general. Cases in which courts (mainly the US Supreme Court) made use and applied the thinking of earlier philosophies of justice will illustrate the process by which we adjust the boundaries between legality and criminality and determine how we should behave towards each other.

POL 346 Liberal Democracy in Times of 3 Credits

This course inquires into historic and present day cases, ranging across Europe and the US, in which liberal democratic governments, under stress because of subversion, sabotage, invasion, rebellion, or the effects of economically caused chaos, take on emergency powers to become so-called "states of exception." While in some cases such states have imposed mild and limited emergency measures, others have employed more draconian measures, suspending, if not dissolving, constitutionally guaranteed civil liberties, often for indeterminate and protracted periods. How various states have behaved in emergency situations will be the major content of this course. Note: This course is cross-listed as HLS 346. Students may not get credit for both HLS 346 and POL 346.

POL 350 U.S. Foreign Policy and Security Policy 3 Credits

Principles, institutions, and processes involved in the formulation and implementation of policies regarding the nation's military, eco-nomic, and environmental security within the global framework. Strands, trends, and problem areas in U.S. foreign policy, with focus on the changing global environment of the post-Cold War world. Note: This course is cross-listed as HLS 350. Students may not get credit for both HLS 350 and POL 350.

POL 351 Critical Views of Global Security 3 Credits

This course will examine the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspective on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (enviroment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security. Note: This course is cross-listed as HLS 351. Students may not get credit for both HLS 351 and POL 351.

POL 361 The Judicial Process 3 Credits

In-depth examination of the nature of judicial decision-making and the impact that judicial decisions have on society. Considers the sources of judicial authority, judicial fact-finding, statutory and constitutional interpretation, individual and collective processes of judicial decision-making, relations between judges and other government officials, and the political consequences of judicial decisions with particular emphasis on federal courts and judges. Note: This course is cross-listed as HLS 361. Students may not get credit for both POL 361 and HLS 361.

POL 363 Hum Rights in Global Context 3 Credits

Examines human rights – droits de l'homme, derechos humanos, Menschenrechte, "the rights of man" – are, literally, the rights that one has because one is human. What does it mean to have a right? How are being human and having rights related? This course provides an introduction to theory and global practice of human rights. Human rights claims play an increasingly central role in political and social struggles across the world. The adoption of the Universal Declaration of Human Rights in 1948 signaled a proliferation of international human rights law and transnational non-governmental activism. While the promotion of human rights has become global, adherence to those standards remains highly uneven and gross violations and atrocities continue to occur. Given the breadth and complexity of the human rights movement, including its engagement with law, politics and morals, in radically different cultures, this course is by its very nature multidisciplinary. Note: This course is cross-listed as HLS 363. Students may not get credit for both HLS 363 and POL 363.

POL 365 Third World Politics 3 Credits

Studies the major political issues of the Third World. Particular reference to political systems of Africa, Asia, Latin America, and the Middle East according to the relevance of the examples to large conceptual issues, and according to the major interests of the instructor. Typical issues include neocolonial dependency, the role of the state in newly developed countries, military rule and democratization. Note: This course is cross-listed as GLS 365. Students may not get credit for both POL 365 and GLS 365.

POL 366 Communist Systems: Politics and Policies 3 Credits

The course aims to provide students with an understanding of the origin, development, and history of communism, as well as the current political systems and practices of communist regimes in the world. Students are expected to acquire in-depth knowledge about the origin and development of communism, the influence of communism in world politics, and political systems and policies of contemporary communism regimes. Topics examined include Communist Manifesto, communism in the USSR, communism in China, McCarthyism in the U.S., Cold War, collapse of the USSR, fall of Berlin Wall, and communism in contemporary Cuba and Korea.

POL 367 Pol Exile, Asylum & Diaspora 3 Credits

This course analyzes mass migrations and refugee movements and what they mean for the stability of nations, the increasing potential of severe culture clashes within societies, and the root causes of (forced) migration movements, such as problems of violence, terror and genocide, as recently seen in Darfur, Rwanda and Bosnia. In certain European countries the frequently failed integration and assimilation policies resulted in an Islamic alienation; terrorist attacks and race riots are some of the consequences. Particular attention will be given to the conflict between the refugees' and migrants' needs that result from violent, socio-economic or ecological catastrophes in the countries of origin and the various forms of reception within the host countries. Students will explore theoretical, political, legal, and socio-economic dimensions of the refugee and immigration phenomena in a global world. Other themes will include international human rights and refugee laws, theories of immigration, for example, the feminization of migration, as well as problems of acculturation, assimilation and integration in different host societies. Note: This course is cross-listed as GLS 367. Students may not get credit for both POL 367 and GLS 367.

POL 368 International Organizations 3 Credits

This course introduces students to the study of international organizations. The course examines mostly formal and governmental institutions as well as informal institutions or regimes. Topics to be covered include and are not limited to: the establishment of international organizations, evolution of international organizations, structure of international organizations, decision-making of international organizations and influence of international organizations. This course employs both theoretical and practical approaches in its examination on international organizations. Note: This course is cross-listed as GLS 368. Students may not get credit for GLS 368 and POL 368.

POL 371 The Arab-Israeli Conflict 3 Credits

The course will begin by introducing the main players: the neo-patrimonial Arab regimes on the one hand, and the democratic, economically modern Jewish sector in Palestine on the other. The analysis will focus on the impact of the social, economic, political and religious differences between the sides on their conception of the conflict among the participants and powers outside the region. The course will concurrently examine the impacts of the dynamics of the conflict itself, relations within Islam on the one hand and between Islam and the West on the other. The latter part of the course will consider the sources of perceptual shift that led simultaneously to the narrowing of the conflict with the withdrawal of some of its participants (most Arab states) and its widening with the addition of Al Qaeda and Iran (via Hezbollah).

POL 399 The Co-operative Experience 3-12 Credits

This course provides a significant work experience to support the professional development of the student and complement theoretical and classroom learning. Students will be assessed based on measures as defined in a placement contract mutually agreed upon by the sponsoring faculty member, the organization representative of the placement site, and the student. Approximately 360 hours of work will be required as students work typically four days per week over at least eight weeks. The proposed placement contract requires departmental approval and the approval of the appropriate office of the dean. It is expected that the Co-op program consume the student's academic load for the semester. Final placement will be determined by the organization where the student will work. Rider University does not guarantee that every student applying for a co-op will earn a co-op placement. Contact the appropriate department for additional information. IND 398 and (dept.) 399 combined cannot exceed 15 credits. Pass/fail. Prerequisite(s): junior standing and 2.75 GPA at the time of registration.

Corequisite(s): IND 398 The Co-operative Experience Seminar.

POL 415 Political Internship 3-6 Credits**POL 450 Seminar in Political Science 3 Credits**

A multidimensional framework within which to integrate the variety of perspectives and methodologies extant in the field of political science. Topics for discussion and analysis may range from broad concepts of political discourse such as power and interdependence to specific political issues such as executive-legislative relations and judicial policymaking.

POL 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

POL 491 Internship in Political Science 1-4 Credits

Students work under supervision in a public agency, political party, or public interest group. A minimum of 52 hours of fieldwork per credit required, with regular reports and a concluding critique analyzing and evaluating the experience. Primarily for seniors and qualified juniors. No more than six credits allowed toward graduation.

Prerequisite(s): permission of instructor.

POL 499 Senior Honors Thesis 3-6 Credits

Majors having completed the department's core requirements and having a minimum GPA of 3.5 in political science courses may apply for honors in their sixth semester. Applicants enroll in POL 490 Independent Research and Study in their seventh semester to develop and submit a thesis proposal to the department. With departmental approval, applicants prepare an honors thesis in their last semester. Upon acceptance of the thesis by the department, the student will be graduated with honors in political science.

POL 501 Homeland Security 3 Credits

This course is designed to help students increase their knowledge and understanding of problems impact the public agenda, why some solutions are adopted and other rejected, and why some policies appear to succeed while others appear to fail. The course will primarily examine policy making at the national level in the United States, but will also analyze examples at the state and local level, as well as placing U.S. policy in a comparative perspective.

POL 502 The Development and Structure of U.S. Intelligence Agencies 3 Credits

This course will provide an historical review of intelligence during the following World War II. It will examine the major functions of intelligence, as well as intelligence as a part of the foreign policy process: collection, analysis, counterintelligence and covert action. Students will be introduced to a range of collection procedures: human, open source, electronic, photographic, and signal. With emphasis placed on interpreting and writing intelligence summaries.

Psychology (PSY)

PSY 100 Intro To Psychology 3 Credits

An orientation to psychology, covering major facts, principles and concepts about human and animal behavior and experience, re-search findings, major problems, basic vocabulary, methodologies, and contributions in the field. Topics include psychology as a science; human development; individual differences; intelligence and its measurement; special aptitudes and interests; personality and social behavior; motivation and emotion; frustration and personality deviations; and learning, thinking, remembering and forgetting.

PSY 105 Introduction to Research in Psychology 3 Credits

Students will be introduced to the basic research methods used in psychology including, surveys, experiments and observation. Students will collect data and learn to describe this data using basic tools of analysis including graphic display and statistical analysis. Students will read original psychological research and learn to write using the conventions of the American Psychological Association.

Prerequisite(s): a grade of "C" in PSY 100.

PSY 201 Statistics and Research Design 3 Credits

Introduces students to statistics and research methods in the behavioral sciences. Covers the fundamentals of descriptive and inferential statistics, a variety of issues in research design, selected research designs including the case study, correlational and experimental designs. In addition, students will explore the literature in psychology in order to examine the use of statistics and research design in real research problems.

Prerequisite(s): grade of "C" in PSY 205.

PSY 210 Organizational Psychology 3 Credits

Focuses on issues related to human behavior in work settings. Topics include personnel issues such as hiring and promotion decisions, performance appraisals, and methods of on-the-job training. Issues of job satisfaction, motivation, productivity, and effective leadership styles are also examined. Finally, organizational structure as it relates to communication within organizations will be examined.

Prerequisite(s): PSY 100.

PSY 212 Introduction to Applied Behavior Analysis 3 Credits

Presents a review of classical and operant conditioning, data collection and research design, data analysis and interpretation. In addition, assessment and treatment strategies in a variety of settings, contingency management in institution, classroom and home, systematic self-desensitization, and ethical consideration are discussed.

Prerequisite(s): PSY 100.

PSY 215 Personality 3 Credits

A synthesis of the most recent research in the field of personality development. Topics include interplay of biological, cultural, and subjective personal processes; analysis of the broad trends in personality theories; and introduction to personality measurement.

Prerequisite(s): PSY 100.

PSY 218 Psychology of Women 3 Credits

Examines the psychological development of women in our culture from birth to maturity, with an emphasis on the interaction of biological and social influences on personality, social behavior, and achievement of women. Investigates psychological sex differences in terms of current measurement approaches. Readings and text are drawn from psychological theory and research.

Prerequisite(s): PSY 100.

PSY 220 Abnormal Psychology 3 Credits

The development of abnormal personalities is discussed, with a survey of the various types of mental abnormalities, including their symptoms, diagnoses, and treatments. Neuroses and psychoses are emphasized.

Prerequisite(s): PSY 100.

PSY 225 Learning and Memory 3 Credits

A broad coverage of the expanding fields of learning, memory, and cognition is provided, while addressing their relevance and impact on human behavior. Continuity between early associationistic and contemporary cognitive theories is established. Topics range from basic conditioning to the more complex processes of memory, concept learning, thinking, and problem solving. Prerequisite(s): PSY 100.

PSY 230 Child Development 3 Credits

Presents theory and research on the social, emotional and cognitive development of children birth to age 12.

PSY 231 Youth and Adolescent Development 3 Credits

Presents theories, research and problems concerning development in youth and adolescence.

Prerequisite(s): PSY 100.

PSY 237 Cognitive Disabilities 3 Credits

Investigates various types of intellectual differences, focusing on etiology, methods of diagnosis, programs and services available to individuals and families. Considers problems relating to adjustment in academic, social, and vocational areas.

PSY 238 Sensation and Perception 3 Credits

The facts and theories of sensation and perception, their role in the total psychology of the individual, and current application are examined.

Prerequisite(s): PSY 100.

PSY 240 Social Psychology 3 Credits

Deals with the scientific study of human beings in social situations, focusing on reciprocal influence of the individual and the group, especially aspects of behavior that are socially determined. The nature of attitudes: their development and change; the nature of social influence; interpersonal perception and attraction; dynamics of social behavior; and social phenomena, such as prejudice and social movements, are covered.

Prerequisite(s): PSY 100.

PSY 250 Psychology of Aging 3 Credits

This survey course focuses on basic psychological issues in the aging process and in the elderly. It examines myths and stereotypes about aging and the elderly by way of research evidence pertaining to physical, psychological, and social changes accompanying aging.

Prerequisite(s): PSY 100.

PSY 255 Biopsychology 3 Credits

Basic biological structures and processes underlying behavior, including general neuroanatomy and neurophysiology; sensory physiology; structure and function of the motor systems; physiology of emotions, motivation, learning, memory; brain dysfunction; psychoactive drugs.

Prerequisite(s): PSY 100.

PSY 279 Psychology and Law 3 Credits

Introduces students to a study of selected topics in psychology and law. Topics include eyewitness testimony, jury selection, and decision making

Prerequisite(s): PSY 100.

PSY 283 Sport Psychology 3 Credits

This survey course will focus on the social and psychological factors related to performance and participation in sport and exercise, health, and injury rehabilitation settings. Two general questions will be explored: (a) how do social and psychological variables influence performance and participation in physical activity pursuits? And (b) how does physical activity participation affect the psychological well-being of the individual? To better understand these questions, this course will overview theoretical and methodological approaches to a variety of sport and exercise psychology topics, including: socialization, motivation, group processes, competition, and performance enhancement.

Prerequisite(s): PSY 100.

PSY 295 Directed Study in Psychology 1-4 Credits

Provides an opportunity for students to obtain research experiences in psychology. Consists of a combination of project meetings, assigned readings and supervised research. Each student will work with a selected faculty member on a topic of mutual interest. Projects may include learning some components of research methods and applying these techniques to the collection and analysis of data. Provides focused reading and discussion as it relates to each student's research topic.

Prerequisite(s): PSY 100; psychology majors or minors and permission of instructor and chair.

PSY 299 Field Placmnt in App.Behv Analy 1-4 Credits

The practicum provides hands-on experience using the tools of applied behavior analysis in a field setting. Provides supervised field placement experience in an approved institution or agency in order for students to gain knowledge in applications of applied behavior analysis. Placement is made in various community institutions and agencies that offer services to diverse populations.

Prerequisite(s): PSY 100, PSY 212.

PSY 302 Research Methods: Cognition 4 Credits

Provides students with an in-depth coverage of the expanding field of cognition and memory. Addresses issues and research within the field.

Emphasis is on current views of human memory. Students learn how to design and conduct their own experiments from the topic areas of information processing, psycholinguistics, problem solving, learning and memory, social cognition, and cognitive neuroscience. Laboratory skills include programming computers, developing multimedia stimuli, recording psycho-physiological data, and composing an APA-format research report in a network-based writing lab. Prerequisite(s): a grade of "C" in PSY 201; PSY 225, PSY 237 or PSY 325 or permission of instructor.

Corequisite(s): PSY 302L.

PSY 302L Research Methods: Cognition Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 302.

PSY 303 Research Methods: Social Psychology 4 Credits

Covers research methodology within the context of social psychology (i.e., topics include altruism, aggression, attraction and social perception). Both experimental and descriptive methodologies will be covered. Students learn about various aspects of the research process (e.g., design and execution of a social psychological study, analyzing and interpreting the results). Students also learn to integrate their research findings to produce an APA-style paper. Students use computer-based word processing and statistical analysis packages to achieve these goals. Prerequisite(s): a grade of "C" in PSY 201; PSY 240 or PSY 279 or permission of instructor.

Corequisite(s): PSY 303L.

PSY 303L Resrch Methds: Social Psychology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 303.

PSY 305 Theories of Psychotherapy 3 Credits

An exploration of the history and theory of the psychoanalytic, behavioral, and humanistic approaches to psychotherapy. Comparisons and contrasts between these therapeutic modalities are discussed, as well as the theory underlying specific therapeutic techniques such as dynamic interpretations, dream analysis, the analysis of resistance and transference, counter-conditioning, modeling, and cognitive restructuring. Class exercises in addition to transcripts and tape recordings from therapy sessions are used to illustrate the various therapeutic approaches.

Prerequisite(s): PSY 215 or PSY 220 or permission of instructor.

PSY 306 Research Methods: Sensation/Perception 4 Credits

Provides instruction in research design, research methods, and integration of data analysis and methodology within the content framework of sensation and perception. All the general psychology research methods are taught. Special emphasis is given to the study of human vision and audition. Students design, conduct, and report laboratory research in the areas of sensation and perception. The computer-based components of the laboratory include lessons on interactive software instrumentation for research, and network-based technical writing using APA format. Projects are conducted during the term. Each student uses a dedicated networked Macintosh computer to: a) develop and generate research stimuli and procedures, b) analyze and report research data, and c) write formal research reports. Prerequisite(s): a grade of "C" in PSY 201 or permission of instructor.

Corequisite(s): PSY 306L.

PSY 306L Sensation & Perception Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 306.

PSY 315 Psychological Tests 3 Credits

Examines the history of psychological testing. Issues concerning the construction of psychological tests are discussed, including concepts concerning reliability, validity, and item analysis. The rationale and structure of the major tests of intelligence, aptitude, and personality are reviewed, including the Rorschach, WAIS, TAT, MMPI, and Bender-Gestalt. In the last section of the course, students are given hands-on experience in the administration, scoring, and interpretation of a standard test battery.

Prerequisite(s): any statistics course.

PSY 324 Play and Imagination 3 Credits

This course surveys two of the most important manifestations of children's imagination: pretend play and imaginary companions. It will discuss the evolution of play, the purpose of play, the role of play in the development of creativity, and individual differences in play (e.g., among children of different gender, cultures, and ability levels). Finally, it will discuss the application of play to therapeutic methods for children.

PSY 325 Cognitive Development 3 Credits

Compares and analyzes the major theories of cognitive development: Piaget, Information Processing, Vygotsky, Gardner, and Sternberg. The course describes cognitive growth from infancy to adulthood. Particular topics will include: concept formation, language acquisition, memory reading and writing, mathematical skills and sociocultural skills. Also of interest will be the use of cognitive theory in education, and understanding variations from the typical pattern of cognitive development as in mental retardation and prodigies.

Prerequisite(s): PSY 100.

PSY 329 Research Methods in Organizational Psychology 3 Credits

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

PSY 329L Research Methods in Organizational Psychology 1 Credits

This course covers general area of research methods such as experimental and non-experimental methods, measurement, statistics, and preparation of reports for presentation and publication. In addition, research topics common in the area of organizational psychology such as worker motivation, job satisfaction, stress and burnout, communications in the workplace, productivity, decision-making, leadership style, and organizational structure will also be discussed. Students gain hands-on experience conducting empirical research.

PSY 330 Developmental Disabilities 3 Credits

Introduces students to the genetic, biological, sensory-motor, cognitive, and social-emotional foundations of developmental disabilities. Selected syndromes will be reviewed in depth, as will treatments and intervention at the individual and family levels.

Prerequisite(s): PSY 230, PSY 231 or PSY 237.

PSY 333 Autism Spectrum Disorders 3 Credits

Provides students with a general understanding of the etiology, neurocognitive underpinnings, and general characteristics of the autism spectrum disorders. The course will examine the history of the study of these disorders, the main problems associated with these conditions, and will explore psycho-educational treatment alternatives.

Prerequisite(s): PSY 230, PSY 231, PSY 237, or PSY 330.

PSY 335 Resrch Methds:human Cognitive Neurosci 4 Credits

Covers the interdisciplinary study of the nervous system integrating neurobiology, physiology, pharmacology, and psychology as explanations for both normal and pathological human behavior. Topics integrate molecular levels of analysis, such as neuron structure and function, neurotransmitters, action potentials, and receptors, with molar levels, such as sensory and hormonal processes, learning and memory, emotions, drug use, and biological rhythms. Introduces research techniques used to study the function of the nervous system and the neural bases of behavior in humans. Neuroanatomical, electrophysiological, pharmacological, and neuropsychological assessment techniques may be explored as part of laboratory or field research projects designed in collaboration with the instructor. Prerequisite(s): grade of "C" or better in PSY 201 and PSY 255 or permission of instructor.

Corequisite(s): PSY 335L.

PSY 335L Resrch Methds: Human Cog Neurosci Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 335.

PSY 336 Research Methods: Animal Learning & Behv 4 Credits

Provides a comprehensive overview of the acquisition and modification of the behavior of animals, especially on laboratory strains of rodents and pigeons. Core topics include respondent and operant conditioning, animal cognition, observational learning, animal safety and welfare, single-subject and between-groups approaches to methodology, and the statistical analysis of the results of studies of behavior. The laboratory component of the course provides a comprehensive overview of animal handling and maintenance, animal welfare, and the recording of experimental results. Two substantial projects are undertaken; demonstration of a conditioned taste aversion and its effect upon the acquisition and extinction of an operant (bar press) response and subsequent discrimination and reversal learning. Results of both projects are written into APA-formatted reports.

Prerequisite(s): a grade of "C" in PSY 201, PSY 225 or permission of instructor.

PSY 336L Animal Lrng and Behavior Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 336.

PSY 339 Research Methods in Applied Behavior Analysis 4 Credits

This upper-level laboratory course will provide students with in-depth study of the principles and applications of Applied Behavior Analysis. Students will examine behavioral principles, ethical considerations and real-life applications of ABA. Each student will design and implement a self-management plan to alter a behavior of their choosing. Prerequisite(s): PSY 100.

Corequisite(s): PSY 339L.

PSY 339L Research Methods in ABA Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 339.

PSY 340 Research Methods: Group Dynamics 4 Credits

Focuses on selected issues pertaining to group dynamics. Emphasizes an understanding of the personality and social factors that influence the functioning of unstructured and task-oriented groups. Students participate in a task group for the purpose of conducting a comprehensive research project on selected issues in group dynamics and the psychology of groups. The task group prepares an APA-style paper describing their research as well as an in-class presentation. Each student also submits a midterm and final written analysis of the interactional processes and development of the task group. Prerequisite(s): a grade of "C" in PSY 201 or permission of instructor.

Corequisite(s): PSY 340L.

PSY 340L Group Dynamics Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 340.

PSY 345 Health Psychology 3 Credits

This course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

Prerequisite(s): PSY 100.

PSY 350 Research Methods: Developmental Psych 4 Credits

Focuses on one or more research areas in cognitive, personality, or social development. Includes an overview of major theoretical approaches to age-related change. Students review original research on selected aspects of behavioral change. The laboratory component of the course presents an overview of developmental research designs and methods focusing on the measurement of age-related change in psychological functioning. Students conduct field research projects designed in collaboration with the instructor and prepare an APA-style research report. Prerequisite(s): a grade of "C" in PSY 201 and PSY 230 or permission of instructor.

Corequisite(s): PSY 350L.

PSY 350L Developmental Psychology Lab 0 Credits

This lab is a co-requisite and must be taken with the corresponding course.

Corequisite(s): PSY 350.

PSY 360 Psychology of Peace & Conflict 3 Credits**PSY 365 Drugs and Human Behavior 3 Credits**

Presents the student with an in-depth analysis of the effects of alcohol and selected chemical substances on the behavior and body of the user. Commonly abused substances will be discussed in terms of their history, sources of production, routes of administration, distribution, metabolism and excretion, neurophysiology, tolerance, properties of addiction, withdrawal course and symptoms, and potential beneficial and harmful effects.

Prerequisite(s): PSY 100.

PSY 370 Spec Topic: Positive Psychology 3 Credits**PSY 372 States of Consciousness 3 Credits**

This course explores the variety of states that comprise normal and altered consciousness. It highlights how these states are determined by complex interactions between conscious and unconscious mental functions. Key psychological concepts are applied in an investigation of various states of consciousness, especially meditative states and dreams. The course examines both the psychopathological aspects of altered states, as well as their potential beneficial effects on creativity and the development of the self.

Prerequisite(s): PSY 100.

PSY 374 Psychology of the Family 3 Credits

This course examines the significance of family in human development. Using prominent themes of developmental psychology, such as: the role of attachment in forming human relationships, the significance of context in understanding human development, and the resilience of development; this course will explore the existing research on the family. Students are asked to consider their own experiences as members of a family, as well as to understand the varieties of ways family impacts development across the lifespan.

Prerequisite(s): PSY 100, PSY 230 or permission of instructor.

PSY 375 Psychology and Film 3 Credits

Attitudes, perceptions and memories are shaped by motion pictures. Filmmakers create enduring images by using cinematic techniques to portray social and interpersonal themes. This course will examine various cinematic techniques as well as how film portrays interpersonal relations, gender roles, race relations, mental illness, The Holocaust, and other genocides.

Prerequisite(s): PSY 100.

PSY 377 Developmental Psychopathology 3 Credits

This course provides an in-depth view of developmental psychopathology as an applied and prevention science. Developmental psychopathology is concerned with the emergence and continuity or discontinuity of psychopathology, or maladaptive behaviors, across the lifespan. An emphasis is placed on exploring individual, environmental, social, and especially cultural influences in explaining normal and abnormal behavior.

Prerequisite(s): PSY 230 or PSY 231.

PSY 380 Spec Topics: Sport Psychology 3 Credits

This survey course will focus on the social and psychological factors related to performance and participation in sport and exercise, health, and injury rehabilitation settings. Two general questions will be explored: (a) how do social and psychological variables influence performance and participation in physical activity pursuits? And (b) how does physical activity participation affect the psychological well-being of the individual? To better understand these questions, this course will overview theoretical and methodological approaches to a variety of sport and exercise psychology topics, including: socialization, motivation, group processes, competition, and performance enhancement.

Prerequisite(s): PSY 100.

PSY 381 Psychology of Gender 3 Credits

This course examines the meaning of sex and gender in modern society. The course readings and discussion will review and analyze the influence of gender on human behavior and emotions. The course will examine the significance of gender in shaping experience. Topics will include: gender differences in behavior, gender role development, gender and sexual identity, gender and social roles, cross-cultural perspectives on gender and transcending gender.

Prerequisite(s): PSY 100, PSY 218 or permission of instructor.

PSY 382 Aging, Brain, and Cognition 3 Credits

This course covers the biological structures and processes underlying cognition in humans and explores modulating factors such as age, sex, disease, stress, and environment. The theoretical and methodological issues of developmental cognitive neuroscience research are addressed. Focus of the course is on brain structure and function in the largest growing segment of our population, persons over the age of 65, and the link between structure and cognitive abilities, both intact and declining. Special attention is paid to those factors related to successful aging and treatments with putative cognitive enhancers.

Prerequisite(s): PSY 100.

PSY 383 Psychology and Culture 3 Credits

Students enrolled in this course will critically examine the intersection of culture and psychology. Topics covered include cultural influences on: identity, the perceptions and manifestations of mental illness, and treatment seeking.

Prerequisite(s): PSY 100.

PSY 384 Positive Psychology 3 Credits

Historically, the field of psychology has placed great attention on the question of, "What is wrong with people and how do we fix it?" This course will focus on the question of, "What is right with people and how can we build on that?" We will explore this by examining empirical research centered on the nature of happiness and psychological well-being. Positive psychology is the rigorous study of what is right and positive about people and institutions. Positive psychologists call for as much focus on strength as on weakness, as much attention on positive emotions as negative emotions, as much interest in building the best things in life as in repairing the worst, and as much attention to promoting the fulfillment of lives of healthy people as to healing the wounds of the distressed. This course will first present an introduction to the core assumptions and research findings associated with human strengths and positive emotions, then move on to explore interventions and applications informed by this perspective in counseling and psychotherapy, as well as in domains personally relevant to the lives of students such as school, work, family and other close relationships.

Prerequisite(s): PSY 100.

PSY 395 Special Topics in Psychology 3 Credits**PSY 400 Senior Seminar 3 Credits**

This capstone course will provide a synthesis and evaluation of important critical issues in psychology, such as the role of modern psychology in solving social problems, the scientific vs. human services perspectives on behavior, emotion and cognition; and the nature of mental illness and well-being. Students will be expected to draw broadly from their education in psychology; to grapple with conflicting points of view; and produce professional quality writing, oral or multimedia presentations.

PSY 420 History of Psychology 3 Credits

Provides a coverage of systems and schools of psychology; great psychologists, their contributions, and later influence in psychology. Current psychological problems are also discussed.

PSY 490 Independent Research and Study 1-4 Credits

Provides students with an opportunity to design and carry out original research in an area of their choice. Students designate a faculty supervisor and work closely with him/her during the semester. All students must have approval from the department and the dean to register for PSY 490.

Prerequisite(s): PSY 201.

PSY 491 Internship in Psychology 1-4 Credits

Provides supervised work experience in an approved institution or agency in order for students to gain knowledge in applications of psychology. Placement is made in various community institutions and agencies that offer services to both exceptional and normal individuals.

Prerequisite(s): senior psychology majors or minors.

PSY 510 Intro Applied Behav Analysis 3 Credits

This course will provide an introduction to applied behavior analysis. Students will learn the history and defining features of the field. Due to the scientific nature of applied behavior analysis, students will also learn characteristics and processes associated with the scientific method. Furthermore, foundational concepts will be defined, along with relevant behavior change procedures.

PSY 511 Principles of Learning 3 Credits

This course will provide students with more in depth understanding of the philosophical assumptions, characteristics and basic principles of behavior analysis. Students will have the opportunity to review concepts learned during Introduction to Applied Behavior Analysis. This course will also provide an introduction to the basic research in behavior analysis. Students will become more fluent in definitions, characteristics, principles, processes, and concepts of behavior analysis.

Prerequisite(s): PSY 510.

PSY 513 Observational Methods and Functional Assessment 3 Credits

This course is designed to provide knowledge and skills of methodologies to conduct a thorough behavioral assessment, interpret the assessment data, and identify goals for treatment. Topics will include direct observation/data collection methods, data analysis, functional assessment, stimulus preference and reinforcer assessments, and ethical and professional issues. The second half of the course will deal specifically with functional analysis including the history of and variations to the methodology. The relationship between assessment techniques and the development of the least-restrictive but most effective behavioral intervention will also be discussed.

Prerequisite(s): PSY 510, PSY 511.

PSY 514 Single Subject Research Design and Analysis 3 Credits

Students will be introduced to the basic evaluative methods used in behavior analysis including various models of single subject design such as multiple baselines, reversal designs, and alternating treatment models. Students will design analyses, collect data, graphically display their data, and provide an analysis of findings. Students will read original behavior analytic research articles and practice analysis of findings.

Prerequisite(s): PSY 510, PSY 511, PSY 513.

PSY 515 Psychological Tests 3 Credits

Examines the history of psychological testing. Issues concerning the construction of psychological tests are discussed, including concepts concerning reliability, validity, and item analysis. The rationale and structure of the major tests of intelligence, aptitude, and personality are reviewed, including the Rorschach, WAIS, TAT, MMPI, and Bender-Gestalt. In the last section of the course, students are given hands-on experience in the administration, scoring, and interpretation of a standard test battery.

Prerequisite(s): any statistics course.

PSY 516 Creating Eff & Ethical Interv 3 Credits**PSY 525 Cognitive Development 3 Credits**

Compares and analyzes the major theories of cognitive development: Piaget, Information Processing, Vygotsky, Gardner, and Sternberg. The course describes cognitive growth from infancy to adulthood. Particular topics will include: concept formation, language acquisition, memory reading and writing, mathematical skills and sociocultural skills. Also of interest will be the use of cognitive theory in education, and understanding variations from the typical pattern of cognitive development as in mental retardation and prodigies.

PSY 530 Interventions for Individuals with Developmental Disabilities 3 Credits

The purpose of this course is to prepare students to work with individuals with a broad spectrum of developmental disabilities. The course will begin with a discussion of typical child development and milestones, address how development might differ from the norm, introduce subsequent assessment and diagnosis and ultimately, introduce appropriate interventions. The main focus of this course is applied behavior analysis [ABA] and common ABA strategies for intervention.

PSY 533 Interventions for Autism 3 Credits

The purpose of this course is to provide students with a general understanding of the clinical characteristics of autism spectrum disorders. The course will briefly address etiology and neurocognitive underpinnings of these disorders but will focus on psycho-educational interventions. The course will be taught from an applied behavior analytic perspective.

PSY 535 Language Assess and Intervent 3 Credits

Students will be introduced to the classification of verbal responses, both vocal and non-vocal. Using videotaped examples, students will categorize observed verbal behavior. Students will be provided with practical tools for the assessment of verbal behavior, as well as an array of intervention strategies. A focus will include the design of teaching strategies to enhance language acquisition, as well as ongoing evaluation of intervention efficacy will be employed.

Prerequisite(s): PSY 510, PSY 511, PSY 513, PSY 514.

PSY 536 Social Skills Assess & Interv 3 Credits

Students will be introduced to the development of social skills and the identification social skills deficits. Using videotaped examples, students will categorize observed social behavior. Next, students will be provided with practical tools for the assessment of social and emotional behavior, as well as an array of intervention strategies. Tools for the collection of data and the evaluation of the success of target interventions will be stressed.

Prerequisite(s): PSY 510, PSY 511, PSY 513, PSY 514.

PSY 545 Health Psychology 3 Credits

This course focuses on the biopsychosocial model of health in which biological, psychological and social factors contribute to health and wellbeing, as well as illness and disease. After a brief introduction to systems of the body, i.e. nervous, endocrine, respiratory, cardiovascular, digestive, immune, this course will examine health enhancing behaviors such as exercise and nutrition, as well as health compromising behaviors such as drug abuse and other reckless behaviors, along with models that explain behavior maintenance and change. Additionally, attention is devoted to a discussion of how health psychology can function in shaping health care policy.

PSY 565 Drugs and Human Behavior 3 Credits

Presents the student with an in-depth analysis of the effects of alcohol and selected chemical substances on the behavior and body of the user. Commonly abused substances will be discussed in terms of their history, sources of production, routes of administration, distribution, metabolism and excretion, neurophysiology, tolerance, properties of addiction, withdrawal course and symptoms, and potential beneficial and harmful effects.

PSY 570 Spec Topic: Positive Psychology 3 Credits**PSY 572 States of Consciousness 3 Credits**

This course explores the variety of states that comprise normal and altered consciousness. It highlights how these states are determined by complex interactions between conscious and unconscious mental functions. Key psychological concepts are applied in an investigation of various states of consciousness, especially meditative states and dreams. The course examines both the psychopathological aspects of altered states, as well as their potential beneficial effects on creativity and the development of the self.

PSY 574 Psychology of the Family 3 Credits

This course examines the significance of family in human development. Using prominent themes of developmental psychology, such as: the role of attachment in forming human relationships, the significance of context in understanding human development, and the resilience of development; this course will explore the existing research on the family. Students are asked to consider their own experiences as members of a family, as well as to understand the varieties of ways family impacts development across the lifespan.

PSY 577 Developmental Psychopathology 3 Credits

This course provides an in-depth view of developmental psychopathology as an applied and prevention science. Developmental psychopathology is concerned with the emergence and continuity or discontinuity of psychopathology, or maladaptive behaviors, across the lifespan. An emphasis is placed on exploring individual, environmental, social, and especially cultural influences in explaining normal and abnormal behavior.

PSY 582 Aging, Brain, and Cognition 3 Credits

This course covers the biological structures and processes underlying cognition in humans and explores modulating factors such as age, sex, disease, stress, and environment. The theoretical and methodological issues of developmental cognitive neuroscience research are addressed. Focus of the course is on brain structure and function in the largest growing segment of our population, persons over the age of 65, and the link between structure and cognitive abilities, both intact and declining. Special attention is paid to those factors related to successful aging and treatments with putative cognitive enhancers.

PSY 585 Independent Research and Study 1-4 Credits

Provides students with an opportunity to design and carry out original research in an area of their choice. Students designate a faculty supervisor and work closely with him/her during the semester. Permission of Instructor.

PSY 590 Field Placement in Applied Behavior Analysis 3 Credits

The applied behavior analysis practicum includes a required field placement of 15 hours per week and periodic on campus meetings. The practicum experience will allow students to experience the professional life of a behavior analyst in one of several preapproved sites. Sites approved include those for children, adolescents or adults with disabilities. Placements will be selected in consultation with the Practicum Coordinator and will require a written practicum plan from the cooperating field supervisor.

Prerequisite(s): PSY 510, PSY 511, PSY 513, PSY 514.

PSY 595 Special Topics 3 Credits**Russian (RUS)****RUS 100 Russian I 3 Credits**

An introduction to the Russian language. This course emphasizes learning the Cyrillic alphabet, basic Russian grammar, and developing some skill in conversational Russian. Students are required to work extensively with audiotapes.

Prerequisite(s): placement test if Russian has been studied elsewhere.

RUS 101 Russian II 3 Credits

Continuation of RUS 100. In this course students learn to write the Cyrillic alphabet, not just print it. Readings to provide a useful basic vocabulary. Students are required to work extensively with audiotapes.

Prerequisite(s): RUS 100 or placement test.

RUS 200 Russian III 3 Credits

Intensive review of grammar with a continuation of developing skills in conversational Russian. Reading matter of greater difficulty is introduced for the development of a more extensive vocabulary. Students are required to work extensively with audiotapes.

Prerequisite(s): RUS 101 or placement test.

RUS 201 Russian IV 3 Credits

Grammar review continued. Emphasis on the comprehension of difficult literary texts.

Prerequisite(s): RUS 200 or placement test.

RUS 315 Tolstoy 3 Credits

Reading and discussion of selected works of Tolstoy including his fables; novellas, such as Master and Man and The Kreutzer Sonata; and either Anna Karenina or War and Peace. Classes are in English. No knowledge of Russian required.

RUS 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

RUS 491 Internship in Foreign Languages 1-4 Credits

A supervised work experience in an approved organization to gain knowledge of the importance and interrelationship of foreign languages and cultures in the workplace. Placements can be made in international governmental agencies, international trade associations, multinational corporations, social service agencies and other appropriate workplace environments both in the United States and abroad. With permission of the supervisor and faculty advisor, a three-credit internship may be substituted for a collateral requirement as credit toward the major.

Prerequisite(s): students should have completed at least one 300-level course in the foreign language.

RUS 496 Special Studies 3 Credits

An in-depth study for students interested in special areas, with emphasis on specific literary genre.

Prerequisite(s): permission of instructor.

Secondary Education (SED)

SED 370 Teaching in the High School 3 Credits

This field-based course focuses on general pedagogy in grades nine through 12. Emphasis will be on generic teaching approaches, planning lessons and developing units of study, learning styles, issues and techniques of evaluation, and multiculturalism. Working in local high schools, students continue observing and begin teaching lessons in their subject area specialization. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

SED 400 Teaching English Language Arts in the Secondary School 3 Credits

Students preparing to teach English in middle schools and senior high schools explore strategies for the imaginative teaching of literature, poetry, drama, grammar, composing processes, vocabulary, and oral language use. Students research, develop, and critique thematic units, analyze curriculum, and study the selection, development, and use of a wide variety of teaching materials. Traditional and alternative methods of assessment are explored. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

SED 405 Teaching Social Studies in Secondary Schools 3 Credits

The theoretical foundations of teaching social studies in junior and senior high schools. Basic goals and aims of social studies instruction are studied, and specific methodological techniques are described and practiced. Demonstration lessons are prepared and presented. Considers typical problems with which teachers are confronted. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

SED 410 Teaching Science in Secondary Schools 3 Credits

Classroom interaction analysis systems are utilized in the study of the teaching-learning process. Students develop their own repertoire of teaching strategies. Emphasis on the investigation and interpretation of recent curriculum developments, and the use of the laboratory in science instruction. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

SED 415 Teaching Mathematics Secondary Schools 3 Credits

The critical analysis of the aims of teaching mathematics in the secondary school; review of recent research in the content and teaching of mathematics by individuals and groups; demonstration lessons (reflective teaching) to illustrate techniques of teaching; the planning of lessons; selection and organization of materials and subject matter; and evaluation of lesson presentation. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

SED 420 Teaching a Second Language 3 Credits

This course focuses on interactive methods of teaching a new language as well as cross-cultural understanding. Students learn to plan using national and state standards for language instruction, organize activities, design and direct language learning tasks, and assess learning. Includes theoretical positions on communicative language learning and teaching, the use and evaluation of currently used materials, the design of new materials, and field experiences in the language to be taught. Students keep a journal and develop their professional portfolio, participate in an E-seminar, prepare a unit of study, and present lesson segments. Open to prospective world language teachers, ESL and bilingual teachers, as well as practicing teachers seeking certification. A cumulative GPA of 2.75 is required. *NOTE: This course is cross-listed as FLE 420. Students cannot get credit for both FLE 420 and SED 420.

Prerequisite(s): EDU 106 and EDU 206.

SED 431 Content Area Reading and Writing 3 Credits

Explores theoretical and methodological issues concerned with teaching reading and writing within content area classes. Students analyze junior high and high school textbooks and other reading materials, study methods of adjusting instruction to varying reading and writing needs of students, prepare directed reading activities in their specific content areas, and use informal diagnostic reading tools. Included is the preparation of content area writing assignments and the evaluation of student writing as well as the teaching of study skills? Emphasis throughout is on the integration of reading and writing into secondary school subject classes. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

SED 490 Independent Research and Study 1-6 Credits

The outline for study must be accepted by the professor and approved by the department. The semester hours credit to be assigned is determined by the department.

Seminars or Workshops (NCT)

NCT 010 Freshman Seminar 0 Credits

NCT 011 Freshman Seminar II 0 Credits

NCT 020 Sophomore Series 0 Credits

NCT 021 Sophomore Series, II 0 Credits

NCT 022 Success Strategies 0 Credits

NCT 094 Math Workshop 0 Credits

NCT 095 Intro to Music Theory & Vocal 0 Credits

NCT 096 Strat for College Success 0 Credits

NCT 097 Scholastic Enrichment 0 Credits

NCT 099 Strategic Learning Workshop 0 Credits

NCT 101 Algebra Workshop I 0 Credits

NCT 102 Algebra Workshop II 0 Credits

Social Work (SOW)

SOW 200 Social Services & Social Work 3 Credits

An overview of the historical development of social work. Emphasis on current issues in social welfare and social service programs in the United States. Among the programs explored are those in public welfare, mental health, medical services, child abuse/neglect, school social work, and care for the elderly.

SOW 300 Methods Social Work Practice 3 Credits

Interviewing techniques are taught and practiced. Skills in forming and running small groups, working with community organizations, and administering social programs are emphasized. Students study how to gather pertinent psycho-social facts about clients, make an assessment, plan an intervention, and successfully complete service to the client. Students who next will take SOW 301 Field Work Experience will be placed in a social service agency by the end of the semester.

Prerequisite(s): SOW 200.

SOW 301 Field Work Experience 3 Credits

Students observe and work in a social service agency. They study the structure of the agency and the people and roles within it, and develop helping skills with clients. Approximately six to eight hours of field work a week for each three credits are required, plus class sessions during the semester.

Prerequisite(s): SOW 200, SOW 300. May be taken twice in two separate semesters for a maximum of six credits toward the total credits required for graduation.

Sociology (SOC)

SOC 101 Sociological Imagination 3 Credits

Introduction to principles and concepts for the sociological analysis of human societies. Social relations, social structure, and institutions characteristic of societies past and present are examined, and causes and directions of social change are considered.

SOC 110 Cultural Anthropology 3 Credits

The anthropological perspective is introduced, placing human behavior and institutions within their evolutionary, ecological, structural, and ideological contexts. Examples are drawn from the full range of human societies, with an emphasis on nonindustrial forms.

SOC 201 Intro Seminar in Sociology 3 Credits

Designed for students considering a major or minor in sociology. The seminar locates sociology in relation to other disciplines; reviews the basic perspectives used by sociologists to study human behavior; and considers the methods and applications of sociological inquiry.

Prerequisite(s): SOC 101.

SOC 205 Families 3 Credits

Examines families in the United States, past and present, emphasizing the variety of family experiences in different social contexts and the relationship between family life and social change. Includes comparative material on families in other countries and considers possible alternatives to current family forms.

Prerequisite(s): SOC 101.

SOC 206 Deviance and Crime 3 Credits

Considers deviant behavior as violation of social norms. Examines the concepts of deviance and crime in socio-historical context. Evaluates major theories advanced to explain deviance. Surveys different types of deviance, including conventional crime, non-criminal deviant behavior, and white-collar corporate, and government crime.

Prerequisite(s): SOC 101.

SOC 207 Racial and Ethnic Relations 3 Credits

Examines the social origins of prejudice and discrimination, and analyzes intergroup trends in conflict, competition, and cooperation. Considers issues of immigration, economic and political power, and ethnic, racial, and religious pluralism.

Prerequisite(s): SOC 101.

SOC 211 Social Movements 3 Credits

This course examines social movements that seek change in the social, cultural and political structures of society. The social, economic and political contexts of these movements are treated as well as their origins, tactics, organization, recruitment, and successes and failures. Case studies focus on movements in the areas of labor, civil rights, feminism, the environment, "right wing politics", and neighborhood activism.

Prerequisite(s): SOC 101.

SOC 216 Youth and Crime 3 Credits

In-depth examination of the nature and extent of youth criminality in the U.S. Explores changes in youth culture and theories of delinquency. Social policies are related to youth criminality and the youth justice system is considered.

Prerequisite(s): SOC 101.

SOC 219 Introduction to Criminal Justice: Police, Courts, Corrections 3 Credits

This course introduces students to the sociological study of the criminal justice system. It examines the cultural and social foundations of this system, and review debates about problems with the criminal justice system and proposals to change it. Topics covered include nature of the crime problem, requirements of criminal law, policing, the role of the courts and legal professionals, sentencing, incarceration and alternatives to it. [FORMERLY SOC-319 Criminal Justice and Corrections] Pre-requisite SOC 101 3 Credit hours.

SOC 225 Population Study 3 Credits

Demography; its definition, historical emergence, and growth; population as a social problem in developing and developed nations; population theories, sources and methods of demographic data, population composition, and distribution; demographic processes including fertility, mortality, and migration.

Prerequisite(s): SOC 101.

SOC 245 Social Problems 3 Credits

American social, economic, and political institutions and their interrelationships are analyzed, with an emphasis on the causes, directions, and consequences of social change in American society.

Prerequisite(s): SOC 101.

SOC 246 Drugs, Crime & American Society 3 Credits

Explores the nature and extent of drug use in the U.S., how drugs are legally defined and socially constructed, and considers how and why drug policies have developed and changed historically. Considers how the criminalization of drugs has impacted policing strategies, courts, probation programs, sentencing and corrections, as well as other social institutions. Examines the role of local and federal agencies in enforcing drug laws, and considers debates about directions for legal reforms.

Prerequisite(s): SOC 101.

SOC 247 Aging 3 Credits

The emergence of social gerontology, demographic foundation of aging, the aging process, comparative study of aging and aged, effect of aging on the individual, social institutions and aging, and problems of aging and some solutions.

Prerequisite(s): SOC 101.

SOC 248 Social Service Organizations 3 Credits

Examines the growth and variety of social service organizations. The training of providers, such as teachers and physicians, and relationships between professionals and clients in settings such as schools and hospitals are studied as well as organizational decision-making, finances, and community relations.

Prerequisite(s): SOC 101.

SOC 252 Media, Culture and Society 3 Credits

Examines mass-produced commercial culture, how it has developed, and the role it plays in modern society. Analyzes the content of these cultural forms, how its production is organized, and how audiences perceive it.

Prerequisite(s): SOC 101.

SOC 261 Schools and Schooling 3 Credits

Schools and the process of schooling are analyzed within a broad historical perspective as well as within the structural and cultural context of American society. Education within a global perspective is also considered. Issues discussed include school funding, integration, tracking, technology, bureaucratization, and the "cultural wars" fought within the schools.

Prerequisite(s): SOC 101.

SOC 269 Physical Anthropology 3 Credits

An analysis of the biological development of the human capacity for culture. Topics include: modern theories of evolution and their application to human evolution; the relationship of human beings to other primates, the human fossil record, and variation among modern human populations. A background in biological studies is not necessary.

Prerequisite(s): SOC 101.

SOC 270 Area Studies: Africa 3 Credits

An intensive investigation of problems arising from historical and contemporary studies of tribal, peasant, and transitional societies in Africa south of the Sahara.

Prerequisite(s): SOC 101.

SOC 271 Area Studies 3 Credits

Studies problems arising from historical and contemporary studies of peasant populations of Europe.

Prerequisite(s): SOC 101.

SOC 272 Area Studies: Indians of N Amer 3 Credits

Societies and cultures of the Indians of North America from the Arctic to Mesoamerica. Emphasis on evidence of these tribal groups prior to extensive acculturation and their contemporary situation.

Prerequisite(s): SOC 101.

SOC 300 Work And Occupations 3 Credits

Analyzes the nature and organization of work in modern society. Focuses on such issues as division of labor, specialization, alienation, professionalization, and the role of technological change. Includes an examination of the historical development of work in the 20th century, and a consideration of contemporary and future patterns of work organization.

Prerequisite(s): SOC 101.

SOC 301 Methods Of Sociological Research 3 Credits

The second in a series of required courses for majors. Builds upon the Introductory Seminar in Sociology. Social research methods using documents, observations, and questionnaires are taught, and used in completing research projects.

Prerequisite(s): SOC 201.

SOC 308 Cities And Suburbs 3 Credits

Examines the growth of an urban way of life under the influence of industrialism. Study of community, political, and economic institutions in cities. Comparisons between urban and suburban areas.

Prerequisite(s): SOC 101.

SOC 309 Peasant Society 3 Credits

A comparative view of peasants and their significance in agrarian, colonial, and industrial societies. Peasant economic, political, and social institutions are analyzed with an eye to both their internal operation and the way they relate to non-peasant groups who hold power in these societies. The changes that have occurred in the peasant world are viewed both as a consequence and a cause of wide reaching political and economic upheaval.

Prerequisite(s): SOC 101.

SOC 310 Pre-Industrial Economies 3 Credits

The anthropological study of technology, production, and exchange in nonmarket cultures, as related to the social, ideological, and ecological systems in which they are embedded. The question of whether the concepts that derive from market economies can be applied to all economic systems is considered in detail.

Prerequisite(s): SOC 101.

SOC 311 Social and Cultural Change 3 Credits

Investigates the process of change in both industrial and nonindustrial settings. Particular attention paid to the role of the individual in change as well as the roles played by the mode of production, social organization, and ideological constructs. Case studies are drawn from non-Western as well as Western sources.

Prerequisite(s): SOC 101.

SOC 312 Women In Society 3 Credits

Examines changes in women's roles and in male-female relationships. Focuses on impact of law, economy and social movements in shaping women's positions as wives and as workers. Explores theories and evidence concerning the nature and extent of sex differences. Attention to women's socialization through language, schools and media.

Prerequisite(s): SOC 101.

SOC 313 Gender and Criminal Justice 3 Credits

This course will examine women's experiences with the criminal justice system as offenders, victims, prisoners, and practitioners. It will consider how gender has shaped theories of crime and criminological research. It will explore how cultural constructions of gender have influenced substantive and procedural criminal law, the ways criminal justice agencies respond to crime, and how these have changed historically. Attention will be given to the development of new approaches, reforms, and challenges.

Prerequisite(s): SOC 101.

SOC 314 Social Theory 3 Credits

Introduces the major thinkers and conceptual problems characterizing the development of sociological thought. Required of sociology majors.

Prerequisite(s): SOC 201.

SOC 315 Issues in Modern Social Theory 3 Credits

Examines current trends and issues in sociological thought.

Prerequisite(s): SOC 314 or permission of instructor.

SOC 316 Feminist Social Thought 3 Credits

An introduction to feminist social theory, with emphasis on its breadth and variety. Special attention paid to the ways feminist theorists have analyzed the relationship of gender to other kinds of group differences.

Prerequisite(s): SOC 101.

SOC 317 Law and Lawyers 3 Credits

Relationships between law, the economy, and the state are explored. Discussion of laws, legal systems and legal reasoning using cross-cultural comparisons and historical analysis of these in the United States. Particular attention given to impact of law on corporations, workers, women, and minorities. Changes in legal profession and legal education are examined.

Prerequisite(s): SOC 101.

SOC 320 Religion and Belief Systems 3 Credits

The relation of religious phenomena to social structures and processes; religion in cross-cultural perspective.

Prerequisite(s): SOC 101.

SOC 321 White Collar & Corporate Crime 3 Credits**SOC 322 Punishment and Corrections 3 Credits**

This course explores the nature, forms, rationales, and effectiveness of punishment as a form of crime control. It traces the development of corrections in the U.S., identifies cultural trends and developments in penology, including mass incarceration and supermax prisons, considers the ways race and class have shaped these, and the reverberating effects penal policies have had on American culture and society beyond the criminal justice system. It examines the role of laws, politics, crime control agencies, as well as of media, and corporations in shaping penal policies. Topics also include: prison subcultures, inmate rights, correctional practices, privatization of prisons, and alternatives to punitive policies of incarceration and capital punishment.

Prerequisite(s): SOC 101.

SOC 325 Population Study 3 Credits**SOC 330 Class and Economic Inequality 3 Credits**

Social, economic, and political aspects of the division of society into classes are considered. Theories of stratification and the distribution of wealth, power, and prestige in societies past and present are examined.

Prerequisite(s): SOC 101.

SOC 340 Power and Politics 3 Credits

Examines the nature and distribution of power in contemporary societies; analyzes the relationships between power and politics.

Prerequisite(s): SOC 101.

SOC 341 Developing Societies 3 Credits

Examines theories explaining patterns of development; indicators and measures of social well-being; and problems such as population, hunger and environmental crises in developing countries. Focuses especially on patterns of development in Latin America or China.

Prerequisite(s): SOC 101.

SOC 342 Police and American Society 3 Credits

This course examines important issues regarding police in American society, such as the paradoxes inherent in police work, police organization and strategies and their effectiveness, the dilemmas of supervising police work, police unionism, the nature and implications of police occupational subculture, the use of police discretion, forms of police misconduct and accountability, professionalization of police and the trend toward police privatization. It also considers the diversity of the police force, trends in the delivery of policing services, the impact of new technologies on policing, and the challenges of policing in a multicultural society.

Prerequisite(s): SOC 101.

SOC 343 Policing and Counter Terrorism 3 Credits

This course is designed as an upper level (undergraduate/graduate) combination lecture and discussion section on the foundations of international security. It will examine the concept of security from both the macro and micro level. We will discuss a mix of security strategies (balance of power, alliances, rearmament, collective security, deterrence), theoretical perspectives on security (Neorealism, Neoliberalism, Critical Theory, Copenhagen School), great power and third world security, democratic and non-democratic security, classic threats (changes in relative power, proliferation) and new threats (environment, population movements, terrorism), and concepts of security ranging from state survival, to societal security, to unit level-variables such as Human Security.

Prerequisite(s): SOC 101.

SOC 345 Race and Crime 3 Credits

Examines the impact of crime policy on minority communities in the United States, with particular attention to the impact of "The War on Drugs", three-strike laws, and mandatory sentencing on minorities and minority communities. Drawing on sociological research, the course explores myths and realities concerning the relationship between race and crime. The relationship between racial attitudes, historical race relations, and mass incarceration are discussed.

Prerequisite(s): SOC 101.

SOC 346 Health Care and Society 3 Credits

Application and contributions of sociology to medicine; the strategy and methods of sociomedical research; sociology of illness, addictive and mental disorder; medical institutions; health services and medical care; and current status of medical sociology.

Prerequisite(s): SOC 101.

SOC 347 Aging and the Elderly 3 Credits**SOC 348 Human Service Organizations 3 Credits****SOC 349 Retirement and Leisure 3 Credits**

Examines the social phenomena of retirement as an event, process, social role, and life stage. Explores the meaning of leisure, time utilization, and creativity among the elderly. Defines related problems and issues, i.e., financial, physical, psychosocial, and environmental. Positive as well as negative implications are presented and evaluated.

Prerequisite(s): SOC 247 recommended.

SOC 350 Social Policy 3 Credits

Investigates the relationship between economic development and social policy in comparative and historical context. The main features of preindustrial, early industrial, and advanced industrial social welfare systems are described. Social, economic and political factors that shape social policy are investigated.

Prerequisite(s): SOC 101.

SOC 355 Social Interaction 3 Credits

Examines the interpersonal relation between and among people in private life, public places, and at work. Explains how such relations affect and are affected by changes in the larger social structure.

Prerequisite(s): SOC 101.

SOC 360 Spec.Top.: Drugs in Am. Society 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 361 Sel Top: Studies Soc. of Art 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 362 Selected Topics 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 363 Selected Topics 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 364 Selected Topics 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 365 Selected Top: Social Movements 3 Credits

FALL 2012 - This course examines movements that seek change in the social, cultural and political structures of society. The social, economic and political contexts of these movements are treated as well as their origins, tactics, organization, recruitment, and successes and failures. Case studies focus on movements in the areas of labor, civil rights, feminism, the environment, "right wing politics", and neighborhood activism. In today's world, social movements abound. Movements such as the Tea Party and the Occupy movements demonstrate that they can take place across the political spectrum of society. Moreover, the interconnectedness of the world economy creates social movements throughout the world, whether in Asia, the Mid-East or Europe that have direct affects on the United States. Because the coverage of these movements are given considerable media exposure, students (and the public) tend to accept the interpretations of these movements as presented in the narratives of the media coverage. This class will provide a systematic academic treatment of social movements. Because social movements target structural and cultural institutions in society, the study of these movements will not only provide an understanding of these movements, but of larger social problems in society as well.

Prerequisite(s): SOC 101.

SOC 367 Selected Topics: Environment 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 368 Selected Topics in Sociology 3 Credits

Exploration of a specialized topic or problem in sociology. Permission of the instructor required.

Prerequisite(s): SOC 101.

SOC 369 Selected Topics in Sociology 3 Credits**SOC 396 Applied Sociology 3 Credits**

Shows how sociology can be applied in work settings. As participant observers in organizations related to their career objectives, students learn to apply sociological knowledge, perspectives, and skills. In class meetings and individual consultations with the instructor, students examine the applied dimensions of sociology, the uses of sociology in various occupations, the ethical issues involved in applied sociology, and the culture and structure of their work organization.

Prerequisite(s): SOC 101.

SOC 400 Senior Seminar 3 Credits

For sociology majors only. This seminar involves in-depth examination and research of a specific issue of current importance in the discipline. Learning to do sociology is emphasized.

Prerequisite(s): SOC 201, SOC 301, SOC 314.

SOC 401 Sex and the Body in Society 3 Credits

Examines cultural meanings and social practices associated with sex and the body. Contemporary cultural norms and practices in the U.S. will be compared to other societies, historically and cross-culturally. Variations in sexual practices, ideals of sexual attractiveness according to age, gender, race, ethnicity, class and sexual orientation also will be discussed. Topics may include beauty industries (e.g. cosmetics, diet, fashion, surgery, drugs), sex and the workplace, the impact of media, social policy, and technology on ideals of sexual attractiveness, birth control, and sexual violence.

Prerequisite(s): SOC 101.

SOC 490 Independent Research and Study 1-4 Credits

Juniors or seniors who have completed at least 12 credit hours in sociology may propose an independent research project with the aid and advice of any full-time faculty member of the department. Proposals must be reviewed and approved by the sponsoring faculty member and submitted to the department's Independent Study Committee at least four weeks prior to the last day of classes for the semester preceding Independent Study.

Prerequisite(s): SOC 101.

SOC 491 Internship in Sociology 1-4 Credits

A supervised work experience in an approved organization to gain knowledge of applications of sociology in work settings and to analyze work settings using sociological knowledge and research methods. Placements are made in business, government, and community offices that utilize sociological knowledge or research skills.

Prerequisite(s): 2.75 GPA.

SOC 496 Honors in Sociology 3-6 Credits

Training in the efficient collection of data that has a bearing on the problem being investigated. Stresses the technique of proper summarization of the collected material as well as the integration of that material into a comprehensive report. A research design is prepared and hypotheses tested in the field. The original library research is then combined with the findings to produce a mini-thesis. Approval of student's program by a sponsoring faculty member and the department Independent Study Committee is required.

Prerequisite(s): SOC 201, SOC 301.

SOC 497 Honors in Sociology 3-6 Credits

Training in the efficient collection of data that has a bearing on the problem being investigated. Stresses the technique of proper summarization of the collected material as well as the integration of that material into a comprehensive report. A research design is prepared and hypotheses tested in the field. The original library research is then combined with the findings to produce a mini-thesis. Approval of student's program by a sponsoring faculty member and the department Independent Study Committee is required.

Prerequisite(s): SOC 201, SOC 301.

Spanish (SPA)

SPA 100 Spanish I 3 Credits

Introduction to the fundamentals of Spanish grammar, with emphasis on communicative skills, in culturally authentic contexts. Students are required to work extensively with audio and/or video materials and online sources.

Prerequisite(s): placement test if Spanish has been studied elsewhere.

SPA 101 Spanish II 3 Credits

Continuation of Spanish 100. Emphasizes the use of language for communicative and cultural competency while developing a solid grammar foundation in Spanish. Students are required to work extensively with audio and/or video materials and online sources.

Prerequisite(s): SPA 100 or placement test.

SPA 102 Elementary Spanish II Abroad 3 Credits

This course is the second part of the first year experience in Spanish and is designed for students who have taken Spanish for Beginners I and who are interested in experiences abroad in a Spanish speaking culture. The aim is to develop the four basic skills (listening comprehension, speaking, reading, and writing) in and beyond the classroom. The discussion of distinctive cultural aspects of the Hispanic world is an integral part of this course as well as to encourage students to experience the world through the eyes of the other culture by exposing them to the literature and arts of the local culture.

SPA 200 Spanish III 3 Credits

An intensive review of Spanish grammar with emphasis on aural-oral (listening and speaking skills) and composition writing. Literary and cultural readings will be used to develop these skills. A special section may be offered to address the needs of native speakers. Students may be required to work with audio and/or video materials and online sources.

Prerequisite(s): SPA 101 or placement test.

SPA 201 Spanish IV 3 Credits

A continuation of Spanish grammar review with emphasis on aural-oral skills and.

SPA 300 Advanced Grammar & Composition 3 Credits

A systematic review of grammatical structure. The development of writing skills, in preparation for upper level courses in literature, culture and professional language.

Prerequisite(s): SPA 201, placement test at 300-level or above.

Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 301 Spanish for Business 3 Credits

A solid foundation in business vocabulary and cultural concepts; situational practice in geographic and cultural contexts necessary to be successful in today's Spanish-speaking world. Practice in writing business letters and other documents. Oral and written assignments to help students improve their critical thinking and become better communicators.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 302 Writing and Translating 3 Credits

Practice in writing and an introduction to translation for students who will use Spanish in their professional lives. Using literary, cultural and journalistic sources, students learn various writing discourses including narration, description, exposition, argumentation, and journalistic and letter writing. Translation involves preliminary study of translation theory and techniques, and practice with texts from students' chosen careers. Additional study of Spanish grammar as necessary.

Prerequisite(s): SPA 201, placement test at 300-level or above, or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 303 Advanced Communication in Spanish 3 Credits

The focus of the course is to strengthen the student's aural comprehension and speaking skills by providing a framework for regular guided practice of fundamental grammar structures and vocabulary enhancement in the context of Hispanic cultures. Listening activities will include live speech, video recordings, film shorts and one full-length movie. Speaking tasks will be reinforced with written exercises.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 305 Cervantes 3 Credits

A detailed study of Cervantes' masterpiece *El ingenioso hidalgo Don Quijote de la Mancha*. Lectures, discussions, and supplementary readings.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 310 Spanish Culture & Civilization 3 Credits

Spain's cultural achievements are studied in light of the country's unique historical and social reality through the use of historical, artistic, architectural, cinematic and literary sources. Cross-cultural awareness is enhanced through exercises that compare Spanish and American society. Classes are in English. No knowledge of Spanish required. This course may contain an optional travel component offered before or after the semester or during spring break.

SPA 311 Latin American Latino Culture 3 Credits

A panoramic survey of Latin American cultural achievements in light of the unique social and political history from the pre-Columbian period to the present. The cross-cultural perspective includes a study of Latino culture in the United States. Classes are in English. No knowledge of Spanish is required.

SPA 320 Introduction to Spanish Lit 3 Credits

Examines through lectures, readings and class discussions selected texts and their relationship to the main currents of European literary history. Introduction to the practice of literary analysis through written composition. Required for majors.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 325 Intro to Latin-Amer/Latino Lit 3 Credits

A study of the development of Latin-American and Latino literature from its origins to the present through the reading, analysis and discussion of representative works by major authors. This course increases the understanding of how social, historical, and political events, together with native as well as foreign literary movements, create a unique literature, conveying the Hispanic-American reality. Required for majors.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 395 Phonetics for Communication 3 Credits

A systematic study of the production of Spanish sounds with practice in phonetic transcription and a preliminary investigation of dialects.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 403 Medieval Literature 3 Credits

Surveys the literature of Spain during the Middle Ages, with special emphasis on major writers such as Gonzalo de Berceo and Don Juan Manuel, and attention to the epic and the medieval ballad. Modern versions of medieval Spanish are used.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 410 Modern Hispanic Poetry 3 Credits

Surveys the poetic genre, emphasizing how to read, analyze, and appreciate poetry. Major poets from Spain and Spanish America of the 19th and 20th centuries representing the main currents of modern lyricism are studied. Focuses on such major writers as Rosalía de Castro, Darío, Jiménez, Machado, Vallejo, Mistral, Neruda, Lorca, Paz, Ana Rossetti, Nicolas Guillen, and Nancy Morejon.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 411 Modern Spanish Novel 3 Credits

Traces the development of the Spanish novel, paying particular attention to the masters of the 19th-century Realism (Galdos and Clarin), the innovations and experimentation of the Generation of '98 (Unamuno, Baroja, Valle-Inclan, and Pérez de Ayala), and the novelists of the post-Civil War and contemporary periods (Cela, Delibes, Goytisolo, Martín Gaité, Matute, Fernandez Cubas, and Javier Marías). Emphasis on the aesthetics of the novel as a literary form.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 412 Hispanic Theater and Film 3 Credits

This course explores through theater and cinema the compelling issues that have shaped Hispanic cultures and consciousness throughout the centuries. Sample topics include war and remembrance; myth and history; freedom and authority; immigration; globalization; and race, class, and gender. The course may focus on specific authors or historical periods. Representative playwrights include Lope de Vega, Zayas, Zorrilla, Avellaneda, Lorca, Buero Vallejo, Sastre, Solorzano, Carballido, Lopez Mozo, and Pedrero. Directors include Buñuel, Saura, Gutiérrez Alea, Almodovar, Rocha, Salles, Erice, Zambrano, and Bollain.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 413 Hispanic Short Story: Transatlantic Conn 3 Credits

This course will introduce students to the most representative writers of the short story in Spain and Latin America from Romanticism to the present. Students will be prepared to perform close readings of the literary genre under study, to analyze the form and content of the texts read, paying due attention to all internal and external aspects that impact the narrative process and the evolution of the short story.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 415 Spanish Renaissance 3 Credits

The origins and evolution of the Renaissance in Spain and of the literary expression of Renaissance culture as reflected in the development and perfection of prose and lyrical styles through the 16th century. Topics include the medieval heritage, Spanish Humanism, the Celestina, the Renaissance ideal in amatory prose and poetry, mysticism, the ballad, and the picaresque novel.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 416 The Spanish Golden Age 3 Credits

The literature of Spain during a period of political decline and outstanding aesthetic achievement: Lope de Vega and the rise of a national theatre; Calderon's drama of ideas; the development of the novella and the picaresque novel; the poetry and prose of Gongora, Quevedo, and Gracian. Also includes an introduction to literary theory.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 420 From Colonies to Nations 3 Credits

This course consists of a panoramic survey of Colonial and Post-Colonial Latin American literature in light of the unique social, cultural and political history from the pre-Columbian to the Independence period (1825). The approach brings together vivid accounts of places and events, speeches, profiles, oral histories, excerpts from a wide range of literature, policy papers, and other readings. The analysis and discussion of selected literary works and representative films will show how Latin American and Caribbean artistic and creative endeavors express the social, cultural and political context of the Americas. Videos and films will provide the sights and sounds of this vast and vital region.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Note: This course is cross-listed as LAC 420. Students may not get credit for both SPA 420 and LAC 420.

SPA 426 Latin American/Latino Film and Fiction 3 Credits

A study of the main trends in contemporary Hispanic fiction written in Latin America and the United States. Analysis and discussion of selected novels and short stories, and their cinematic representation on film. Required for majors.

Prerequisite(s): SPA 201, placement test at 300-level or above or SPA 300 or above. Exceptions may be made for Study Abroad or native/heritage speakers with permission of chairperson.

SPA 490 Independent Research and Study 1-4 Credits

Independent Research and Study allows juniors and seniors in good academic standing to investigate topics of interest under faculty supervision. Projects must be approved by the faculty member, department chairperson, and academic dean no later than the third week of the semester in which the project is to be conducted. Only one project can be scheduled in a semester, and for no more than four semester hours; up to 12 semester hours of independent research and study may be counted toward graduation. Note that individual departments may have additional restrictions.

SPA 491 Internship in Foreign Languages 1-4 Credits

A supervised work experience in an approved organization to gain knowledge of the importance and interrelationship of foreign languages and cultures in the workplace. Placements can be made in international governmental agencies, international trade associations, multinational corporations, social service agencies and other appropriate workplace environments both in the United States and abroad. With permission of the supervisor and faculty advisor, a three-credit internship may be substituted for a collateral requirement as credit toward the major.

Prerequisite(s): students should have completed at least one 300-level course in the foreign language.

SPA 496 Special Studies 3 Credits

A seminar open to a variety of topics treating a particular author, period, genre, or theme.

Prerequisite(s): permission of instructor.

SPA 500 The Poetry of Resistance in the Time of the Generals in Latin America 3 Credits

This course offers a broad overview of important historical literature about dictatorships in Latin America. The weekly readings and writing assignments have been selected in order to: 1) introduce major concepts, arguments, and figures in the field of Latin American literature and culture; 2) appreciate the evolution of the role of artists and intellectuals during the years of the "dirty war" in Latin America; 3) sharpen analytical writing; and, 4) demonstrate the connection (and the limits of the connection) between literature, culture, and society. This course is predominantly a study of Latin American governments in the twentieth century and of the role of artists, primarily writers of fiction and poetry, as a corps of truth-tellers and resisters in the face of government propaganda, censorship, and cultural/political repression.

SPA 510 Marks of Identity: The Journey of the Self in Spanish Theater 3 Credits

What markers of class, race, ethnicity, gender and even species shape individual and group identity? How does identity change over time? How do I know who I am, and how does my identity further my interests and those of society? Offered in translation, this course explores the staging of identity in Spanish theater from the seventeenth to the twenty-first century. Topics may include the 17th-century honor code and gender, the myth of Don Juan, imperialist imaginings of New World subjects, the romantic hero and the angel of love, identity and the grotesque, identity and erotic desire, identity and media technologies, and non-human animal subjects. Film, art, music and live-theater attendance.

Special Education-UG (SPE)**SPE 201 Inclusion and Students Disabilities 3 Credits**

This course is designed to introduce students to the inclusive classroom. Students will develop the ability to design and manage the instructional environment in an inclusive classroom setting. Through the use of case studies and classroom interactions, students will develop effective communication and collaboration skills for professional interactions. Attitudes and behaviors that influence children with special needs will be addressed. A cumulative GPA of 2.75 is required.

SPE 202 Society and Individuals with Disabilities 3 Credits

This course will focus on the transition, community, and daily living concerns of individuals with disabilities. Through active participation in class and field sites and research, students will become aware of the various social issues related to family, education, transition, and work experiences of individuals with disabilities. Students will be required to complete a minimum of 30 weekday field hours in addition to regularly scheduled class hours. A cumulative GPA of 2.75 is required.

Prerequisite(s): SPE 201.

SPE 300 Inclusive Practices for General Education Teachers 3 Credits

This online course is designed to introduce preservice general education teachers students to special education and the inclusive classroom. Students will explore current issues and practices in special education. Assignments and activities will enable students to develop the knowledge and skills to design and manage the instructional environment for diverse learners in inclusive and classroom setting. Attitudes and behaviors that influence children with special needs will be addressed. A cumulative gpa of 2.75 is required. **Prerequisite(s):** EDU 106 and EDU 206.

SPE 303 Assessment and Instruction for Students with Disabilities 3 Credits

This course will give students the opportunity to evaluate, select, develop, and adapt assessment and instructional materials for children with disabilities. The legal, cultural, and ethical implications of assessment and instruction will be discussed. The use of formal and informal assessment to inform instruction will be addressed. Emphasis will be placed on using assessment information to make decisions about appropriate placement and learning environments, as well as making decisions for effective instruction in the classroom. A field experience with children with disabilities will enable students to apply knowledge in realistic classroom setting. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106, EDU 206 and SPE 201.

SPE 304 Assessment and Instruction in the Inclusive Classroom 3 Credits

This course will emphasize assessment, planning and instructional design to maximize the learning of all students, including those with exceptional learning needs, in the inclusive classroom. Students will have the opportunity to explore a variety of instructional strategies to meet the needs of diverse learners. Organization of learning environments and the collaborative process will be addressed. A field experience with children with disabilities will enable students to apply knowledge in a realistic classroom setting. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106, EDU 206 and SPE 201.

Sustainability Studies (SUS)

SUS 100 Intro to Sustainability Studie 4 Credits

Sustainability is an idea that will shape the lives of all in the 21st century. Students will explore how we arrived at our current precarious environmental situation and investigate cutting-edge methods that support human development and protect the natural ecosystems on which we will depend. By exploring principles of sustainability (whole-systems approaches, resource limitations, stewardship) through many different lenses, students will appreciate the interdisciplinarity of the sustainability enterprise.

Corequisite(s): SUS 100L.

SUS 100L Intro to Sustainability Lab 0 Credits

For students concurrently taking SUS 100. Field trips, visiting speakers, and films to complement topics covered in the introductory course. One three-hour laboratory per week.

Corequisite(s): SUS 100.

SUS 300 Sustainability Internship 3 Credits

A supervised work/service experience in an approved organization where students gain understanding and experience with applying sustainability principles. Placements may be in private, public, educational, non-profit or governmental organizations. Students are expected to include measurement and documentation of the environmental, social, and economic impact of their work. At least 100 hours of work is required.

Prerequisite(s): SUS 100 and SUS 100L or as corequisite.

SUS 400 Sustainability Studies Seminar 3 Credits

To synthesize sustainability studies coursework and internship experiences, students will collaboratively develop and implement a sustainability project on the Rider campus, aiming to simultaneously reduce both depletable resource use and environmental impact. Seminar sessions will explore the historical development of current systems and innovative thinking related to sustainability planning related to the focal issue. Specific topic at discretion of the instructor. **Prerequisite(s):** SUS 100, SUS 100L.

Corequisite(s): SUS 300 or as prerequisite or permission of instructor.

SUS 490 Independent Research and Study 1-4 Credits

Immerses the student in applying sustainability principles in a field setting. Students are expected to assess the outcomes of their projects and communicate their results verbally and in writing to interested audiences.

Theatre (THE)

THE 105 Theatre History to 1700 3 Credits

The history of theater from the primitive time through the Baroque era. Examines major plays and playwrights, emphasizing the Greek, Roman, Medieval, and Elizabethan eras.

THE 106 Theater History Since 1700 3 Credits

The history of theater from the Restoration to the present. Examines major plays and playwrights, emphasizing the Restoration, Romantic, and Realistic movements.

THE 107 Acting I: Intro to Acting 3 Credits

Exercises and improvisations developing the fundamental prerequisites for the actor are provided. The emphasis is on vocal and physical mobility and the ability to communicate emotional states from the stage.

THE 110 Acting II: Scene Study 3 Credits

Basic acting techniques. Emphasis on the ingredients of any action: what am I doing, where, why, who am I, what is my attitude toward partner?

Prerequisite(s): THE 107.

THE 111 Theatre Lab 0 Credits

This class serves as a forum for students to cultivate practical professional skills. Through seminars, guest speakers and master classes, this lab will give the students necessary tools to enter the professional theater. Theater majors must meet the weekly attendance and participation requirements during every semester up to a total of six.

THE 115 Stagecraft 3 Credits

The theory and practice of construction and rigging of stage scenery is offered. Emphasis is on actual productions and road show set-ups. One lecture and two labs per week.

THE 120 Theater Appreciation 3 Credits

By exploration of dramatic literature, conclusions are drawn as to man's relationship to his particular period, style, political, social, and psychological environment. Appreciation of the theatrical event is included.

THE 127 Theatre Production 1 Credits

Students rehearse and perform roles in a play produced by the department and directed by a member of its faculty. Students may also prepare a major element of design or technology for the production. Maximum of eight credits are accepted in theatre production, band and/or choir.

THE 127T Theatre Production Tech 1 Credits**THE 199 The Arts in Contemporary Civil 3 Credits**

An integrated study of the arts and their place in contemporary American life. Includes attendance at several events in art, music, and drama.

THE 208 Acting III Advanced Scene Study 3 Credits

Students will study in-depth techniques for exploring characterization. They will be introduced to the "magic if" and study techniques for placing themselves in the circumstances of the characters they are portraying. They will learn the interior and exterior analysis of characters using "Adler" and "Practical Aesthetics" techniques.

Prerequisite(s): THE 107, THE 110.

THE 209 Acting IV: Styles of Acting 3 Credits

Students will learn the appropriate techniques to explore characters in the three styles of Elizabethan, Restoration, and Commedia dell'arte theatre. Sessions will include movement, effective speech, and finding appropriate actions for each style. Students will also learn proper research techniques to understand cultural influences on plays and characters.

Prerequisite(s): THE 107, THE 110, THE 208.

THE 217 Principles of Stage Design 3 Credits

The study and application of design principles as related to the stage. Incorporates the design process, decor research, styles, materials, and construction technology.

THE 218 Stage Lighting 3 Credits

The theory and practice of stage lighting as utilized in concept, dance, and theatre. Considers the nature of light, controlling light, color theory, electricity, electrical safety, and lighting design.

Prerequisite(s): THE 115.

THE 220 Movement for the Actor 3 Credits

This course is an introduction to movement training methodologies, and emphasizes physical awareness and expressivity as it relates to development of character.

Prerequisite(s): THE 107, Open to Theater majors or minor, or by permission of the instructor.

THE 221 Voice for the Actor 3 Credits

Focuses on exploration of the basic principles of vocal production and cultivating natural expressivity of the voice. Class work is based upon the classic progression of voice exercises of Kristin Linklater.

Prerequisite(s): THE 107; Open to Theatre majors or minor, or by permission of the instructor.

THE 222 Speech and Dialects for the Actor 3 Credits

Focuses on exploration of the International Phonetic Alphabet (IPA) and the use of the IPA in learning dialects (including Standard Neutral American) for the stage.

Prerequisite(s): THE 107; Open to Theater majors or minor, or by permission of the instructor.

THE 240 Script Analysis 3 Credits

This course provides students with a technique for analyzing any text by breaking down scenes into objectives, conflicts, beats, activities and subtext, allowing the actor to construct an approach to finding character.

Prerequisite(s): THE 107.

THE 300 Acting for the Camera 3 Credits

Focuses on the craft and artistry of acting in television and film. Examination of TV production and the styles needed for work in various media will be discussed. Physicalization, simplicity, listening, marking and other technical requirements will be explored. Staging involving different camera angles will be rehearsed. The emphasis of this class is on adapting the performance to the special needs of the camera.

Prerequisite(s): THE 107.

THE 306 American Theatre History 3 Credits

The history of the American theater from the colonial period to the present, emphasizing dramatic scripts and theatrical conventions. Examines important playwrights, theorists, and practitioners representative of each period of American history, emphasizing the 19th and 20th centuries.

THE 307 Contemporary American Theater 3 Credits

Today's most influential theatre artists are discussed. Focusing on playwrights, the form and content of dramatic literature considered most significant today are examined along with recent innovations in design and staging practices.

THE 308 Modern Drama 3 Credits

Surveys American and European drama from 1920 to 1970. All plays are read in English translation. In these plays, theatrical artists address the great themes of this century. While doing so, they also expand the limits of theatrical expression.

THE 310 Acting III 3 Credits

Students will study in-depth techniques for exploring characterization. They will be introduced to the "magic if" and study techniques for placing themselves in the circumstances of the characters they are portraying. They will learn the interior and exterior analysis of characters using "Adler" and "Practical Aesthetics" techniques.

Prerequisite(s): THE 107, THE 110.

THE 311 Acting IV 3 Credits

Students will learn the appropriate techniques to explore characters in the three styles of Elizabethan, Restoration, and Commedia dell'arte theatre. Sessions will include movement, effective speech, and finding appropriate actions for each style. Students will also learn proper research techniques to understand cultural influences on plays and characters.

Prerequisite(s): THE 107, THE 110, THE 310.

THE 312 The Arts Abroad 3 Credits

A two-week trip abroad that includes a critical study of the music and theatre. Students are required to attend all performances, guided tours, and classes before and after the trip. A travel journal and final paper is required. A travel fee is required. Travel sites and artistic disciplines may vary year to year. May be taken more than once for credit.

Prerequisite(s): Permission of instructor.

THE 400 Directing 3 Credits

The technique of play directing and production management. Lectures present aesthetic and theoretical concepts that are explored in workshops. Each student is required to direct and analyze a one-act play.

Prerequisite(s): THE 107, THE 110, THE 115.

THE 410 Advanced Performance Workshop 3 Credits

An opportunity to work an entire semester on a specific style or period of theatre, e.g., Shakespeare, farce, Readers' Theater.

Prerequisite(s): THE 107, THE 110.

THE 490 Independent Research and Study 1-4 Credits

Students may pursue a special topic for which they have prepared through prior course work. Only one project may be scheduled in a semester. The project may involve 1-4 Credits. Approval of the faculty sponsor, department chair, and dean required prior to enrollment.

Prerequisite(s): junior or senior standing, good academic standing.

THE 491 Internship in Theater 1-12 Credits

Provides junior or senior theatre majors the practical experience of working within a professional theater environment. Students must be sponsored by a theatre professor. For each academic credit, interns must work 48 hours for the semester, or approximately 3.7 hours each week.

Prerequisite(s): permission of instructor.

THE 495 Selected Topics in Theatre His 3 Credits

Intensive study of a particular topic, such as the work of one dramatic movement, one period in dramatic history, or one nation's history. Students become deeply involved in an area through research, class discussions, and individual consultation with the instructor.

THE 496 Senior Internship 6-12 Credits**THE 499 Senior Honors Program 3 Credits**

A senior honors program may be submitted in partial fulfillment of requirements for graduation with honors in fine arts. Honors work is limited to those departmental majors with a GPA of 3.5 in fine arts courses and cognates. The program, to be planned under the direction of a faculty advisor, will represent a culmination of demonstrated excellence in a specific area of fine arts. Candidates for honors in fine arts must be approved by the department chairperson and the faculty.

Diane Casale-Giannola

Professor, Department of Teacher Education
B.A. University at Albany, State University of New York; M.S. University at Albany, State University of New York; Ed.D. New York University

Heather Casey

Associate Professor, Department of Teacher Education
B.A. Rutgers, The State University of New Jersey; M.Ed. Graduate School of Education, Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

Claudia Catania

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice
B.M. Temple University; M.A. Boston Graduate School of Psychoanalysis

Radharao Chaganti

Professor, Department of Management
B.A. Osmania University, India; M.A. Osmania University, India; PGDM
Indian Institute of Management Calcutta; Ph.D. University at Buffalo, The
State University of New York

Nandini Chandar

Associate Professor, Department of Accounting
B.Com. Osmania University, India; PGDM Indian Institute of Management
Calcutta; Ph.D. Case Western Reserve University

Feng Chen

Associate Professor, Department of Chemistry, Biochemistry and Physics
B.S. Hunan University, P. R. China; Ph.D. Northeastern University

Chih-Chieh (Jason) Chiu

Associate Professor, Department of Finance and Economics
B.Sc. University of Witwatersrand; MBA Columbia University; Ph.D.
Baruch College

Lindsey Christiansen

Professor, Department of WCC Piano and Voice
B.A. University of Richmond; M.M. University of Illinois

Mi-Hye K. Chyun

Associate Professor-Librarian, University Libraries
B.A. Sungkyunkwan University, Seoul, Korea; M.L.S. University of
Maryland

Ingrid Clarfield

Professor, Department of WCC Piano and Voice
B.M. Oberlin College; M.M. Eastman School of Music, University of
Rochester

Roberta Clipper

Professor, Department of English
B.A. Indiana University Bloomington; M.A. University of California,
Berkeley; Ph.D. University of California, Berkeley

Daria Cohen

Associate Professor, Department of Languages, Literatures and Cultures
B.A. Douglass College, Rutgers, The State University of New Jersey; M.A.
Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State
University of New Jersey

Robert J. Congleton

Associate Professor-Librarian, University Libraries
B.A. Rider University; M.A. University of Connecticut; M.L.S. Rutgers, The
State University of New Jersey

Ronald G. Cook

Professor, Department of Management
B.S.B.A. State University of New York at Oswego; MBA Syracuse
University; Ph.D. Syracuse University

Mariann Cook

Associate Professor, Department of Theatre and Dance
B.M.E. University of Central Oklahoma; M.M. The University of Oklahoma

Deborah Cordonnier

Priority Adjunct Instructor, Department of English

B.S. University of Missouri; M.A. Texas A & M University; M.Div. Princeton
Theological Seminary; Th.M. Princeton Theological Seminary

Hope Corman

Professor, Department of Finance and Economics
B.A. University of Illinois at Urbana-Champaign; Ph.D. The City University
of New York

Mack Costello

Assistant Professor, Department of Psychology
B.S. University of Florida; M.A. Western Michigan University

Quinn W. Cunningham

Assistant Professor, Department of Management
B.A. Randolph-Macon College; M.S. Virginia Commonwealth University;
Ph.D. Drexel University

Michael G. Curran, Jr.

Professor, Department of Teacher Education
B.S. Rider University; M.A. Rider University; Ed.D. Temple University

Margaret Cusack

Professor, Department of WCC Piano and Voice
B.M. Oberlin College Conservatory of Music; M.M.T. Oberlin College
Conservatory of Music

Michele D'Angelo

Priority Adjunct Assistant Professor, Department of English
B.A. The College of New Jersey; MAT The College of New Jersey; Ed.S.
Rider University

Heather A. Dalal

Assistant Professor-Librarian, University Libraries
B.A. Northwestern University; M.L.I.S. Rutgers, The State University of
New Jersey; M.Ed. University of Massachusetts

Patricia H. Dawson

Associate Professor-Librarian, University Libraries
B.A. Western Michigan University; M.S. Rutgers, The State University of
New Jersey; M.L.S. Rutgers, The State University of New Jersey

Melissa M. DeWees

Priority Adjunct Assistant Professor, Department of Psychology
B.A. Towson State University; M.A. Alliant International University; Psy.D.
Alliant International University

Lauren B. Delisio

Assistant Professor, Department of Teacher Education
B.A. Rider University; M.S. Pace University; Ph.D. University of Central
Florida

Todd M. Dellinger

Assistant Professor, Department of Fine Arts
B.A. The American University; M.A. The American University

Susan M. Denbo

Professor, Department of Marketing, Advertising and Legal Studies
B.S. Cornell University; J.D. Villanova University School of Law

David R. Dewberry

Associate Professor, Department of Communication and Journalism
B.A. University of Arkansas; M.A. University of Arkansas; Ph.D. University
of Denver

Cara J. DiYanni

Associate Professor, Department of Psychology

B.A. Georgetown University; M.A. Boston University; Ph.D. Boston University

James M. Dickinson

Professor, Department of Sociology
B.A. University of Kent, Canterbury, UK; M.A. American University; Ph.D. University of Toronto

Jie Joyce Ding

Associate Professor, Department of Information Systems and Supply Chain Management
B.S. Xi'an Jiaotong University, P.R. China; M.S. Xi'an Jiaotong University, P.R. China; Ph.D. The University of Texas at Austin

Chrystina A. Dolyniuk

Associate Professor, Department of Psychology
B.A. University of California, Los Angeles; M.A. California State University, Northridge; Ph.D. University of Calgary

John J. Donovan

Associate Professor, Department of Management
B.A. University at Albany, State University of New York; Ph.D. University at Albany, State University of New York

Susan Dougherty

Assistant Professor, Department of Teacher Education
B.S. The Pennsylvania State University; M.Ed. Rutgers, The State University of New Jersey; M.Ed. Boston University; Ed.D. Boston University

Julie Drawbridge

Professor, Department of Biology
B.S. The University of Maine; Ph.D. The University of Texas at Austin

Daniel L. Druckenbrod

Associate Professor, Department of Geological, Environmental, and Marine Sciences
B.S. University of Notre Dame; Ph.D. University of Virginia

Kathleen Dunne

Associate Professor, Department of Accounting
B.A. University at Buffalo, The State University of New York; M.S. State University College of Buffalo; Ph.D. Temple University

Kathleen Ebling Shaw

Priority Adjunct Instructor, Department of WCC Conducting, Organ and Sacred Music
B.M. Westminster Choir College, Rider University

Bosah L. Ebo

Professor, Department of Communication and Journalism
B.S. University of Wisconsin-Stevens Point; B.S. University of Wisconsin-Stevens Point; M.A. University of Wisconsin-Stevens Point; Ph.D. The University of Iowa

Jeff Edelstein

Priority Adjunct Instructor, Department of Communication and Journalism
B.A. Rider University

Lauren B. Eder

Professor, Department of Information Systems and Supply Chain Management
B.S. Boston University; MBA Drexel University; Ph.D. Drexel University

Elem Eley

Professor, Department of WCC Piano and Voice
B.M. Baylor University; M.M. Southwestern Baptist Theological Seminary

Miriam H. Eley

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice
B.M. Baylor University; M.M. Indiana University

Rochelle K. Ellis

Priority Adjunct Associate Professor, Department of WCC Piano and Voice
B.M.Ed. Conservatory of Music and Dance, University of Missouri, Kansas City; M.M.E. Westminster Choir College, Rider University

Faith Esham

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice
B.A. Columbia Union College; B.M. The Juilliard School; M.M. The Juilliard School

Thomas Faracco

Associate Professor, Department of WCC Piano and Voice
B.M. Westminster Choir College, Rider University; M.M. Westminster Choir College, Rider University

Alice Faroh

Priority Adjunct Instructor, Department of Languages, Literatures and Cultures
B.A. Universidad Pedagógica Experimental de Barquisimeto; M.A. Maryville University

Joel Feldman

Associate Professor, Department of Philosophy
B.A. Hampshire College; Ph.D. The University of Texas at Austin

Roberta Fiske-Rusciano

Priority Adjunct Assistant Professor, Department of Political Science
B.A. Simmons College; M.A. University of Chicago; Ph.D. Rutgers, The State University of New Jersey

Rosemary Fliszar

Assistant Professor, Department of Biology
B.S. Cedar Crest College; M.S.N. DeSales University; Ph.D. Duquesne University

William F. Fobare

Priority Adjunct Assistant Professor, Department of Chemistry, Biochemistry and Physics
A.B. Hope College; Ph.D. University of South Carolina

Hernán Fontanet

Professor, Department of Languages, Literatures and Cultures
B.A. The University of Buenos Aires; A.M. Universidad Complutense de Madrid; Ph.D. Universidad Autónoma de Madrid

Barbara Franz

Professor, Department of Political Science
M.A. University of Vienna; M.A. Syracuse University; M.A. Syracuse University; Ph.D. Syracuse University

Lucien J. Frary

Associate Professor, Department of History
B.A. University of St. Thomas; M.A. University of Minnesota, Twin Cities; Ph.D. University of Minnesota, Twin Cities

Ivan Fuller

Professor, Department of Theatre and Dance
B.A. Butler University; M.A. Bowling Green State University; Ph.D. Bowling Green State University

Donna Gallo

Instructor, Department of WCC Music Education
B.M.E. Indiana University; M.M.E. Silver Lake College; Ph.D. Northwestern University

Zhihong Gao

Professor, Department of Marketing, Advertising and Legal Studies
B.A. Peking University; M.A. Wake Forest University; Ph.D. University of Illinois at Urbana–Champaign

Tracey Garrett

Associate Professor, Department of Teacher Education
B.S. East Stroudsburg University; B.S. East Stroudsburg University; M.A. Kean University; Ed.D. Rutgers Graduate School of Education

Daniel C. Garro

Priority Adjunct Instructor, Department of Philosophy
B.A. Washington College; M.A. Texas Tech University

Herbert E. Gishlick

Professor, Department of Finance and Economics
A.B. Muhlenberg College; M.A. University of Pennsylvania; Ph.D. University of Pennsylvania

Ilene V. Goldberg

Associate Professor, Department of Marketing, Advertising and Legal Studies
B.A. The Pennsylvania State University; J.D. Temple University James E. Beasley School of Law

Louis F. Goldberg

Priority Adjunct Assistant Professor, Department of Theatre and Dance
B.A. Colgate University; M.M. Syracuse University; M.F.A. Syracuse University

Matthew B. Goldie

Professor, Department of English
B.A. Victoria University; M.F.A. Brooklyn College; Ph.D. The Graduate Center, City University of New York

Selma C. Goldstein

Priority Adjunct Instructor, Department of English
B.S. Cornell University; MBA Fairleigh Dickinson University

James E. Goldsworthy

Professor, Department of WCC Piano and Voice
B.M. Southern Methodist University; M.M. Southern Methodist University; D.M.A. Stanford University

Stephanie Golski

Associate Professor, Department of Psychology
B.A. McDaniel College; Ph.D. The Johns Hopkins University

Linguo Gong

Associate Professor, Department of Information Systems and Supply Chain Management
B.S. Tsinghua University, Beijing, China; M.S. Tsinghua University, Beijing, China; Ph.D. The University of Texas at Austin

Robert C. Good

Professor, Department of Philosophy

A.B. Princeton University; M.A. University of Wisconsin–Madison; Ph.D. University of Wisconsin–Madison

Hugh R. Goodheart

Priority Adjunct Assistant Professor, Department of WCC Arts and Sciences
B.A. Harvard University; M.Ed. The College of New Jersey

Alexander Grushow

Professor, Department of Chemistry, Biochemistry and Physics
B.A. Franklin & Marshall College; Ph.D. University of Minnesota

Myra G. Gutin

Professor, Department of Communication and Journalism
B.A. Emerson College; M.A. Emerson College; Ph.D. University of Michigan

Cengiz Haksever

Professor, Department of Information Systems and Supply Chain Management
B.S. Middle East Technical University, Ankara, Turkey; M.S. Middle East Technical University, Ankara, Turkey; MBA Texas A & M University; Ph.D. The University of Texas at Austin

Jeffrey Halpern

Associate Professor, Department of Sociology
B.A. The City College of New York; Ph.D. University of Pittsburgh

Laurel Harris

Assistant Professor, Department of English
B.A. Oberlin College; M.A. University of Chicago; Ph.D. The Graduate Center, City University of New York

Catrinel Haught Tromp

Assistant Professor, Department of Psychology
B.A. Queens University of Charlotte; Ph.D. Princeton University

M. Elizabeth Haywood-Sullivan

Associate Professor, Department of Accounting
B.S. The College of Charleston; M.P.A. The University of Texas at Austin; Ph.D. The University of Georgia

Wendy P. Heath

Professor, Department of Psychology
B.A. Boston University; M.S. The University of Texas at Arlington; Ph.D. The University of Texas at Arlington

Brea M. Heidelberg

Assistant Professor, Department of Fine Arts
B.S. Drexel University; B.A. Drexel University; M.A. The Ohio State University; Ph.D. The Ohio State University

Ronald A. Hemmel

Professor, Department of WCC Music Composition, History and Theory
B.M. Westminster Choir College; M.M. James Madison University; M.Phil. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

Sigfredo A. Hernandez

Associate Professor, Department of Marketing, Advertising and Legal Studies
B.A. University of Puerto Rico; M.A. Boston University; Ph.D. Temple University

Mickey Hess

Professor, Department of English
Ph.D. University of Louisville

Peter R. Hester

Associate Professor, Department of Teacher Education
B.S. California Polytechnic State University, San Luis Obispo; MAT
Northern Arizona University; Ph.D. University of Colorado Boulder

William Hobbs

Assistant Professor, Department of WCC Piano and Voice
B.M. University of Colorado Boulder; M.M. Eastman School of Music,
University of Rochester

Melissa A. Hofmann

Associate Professor-Librarian, University Libraries
B.A. The College of New Jersey; M.L.I.S. Rutgers, The State University of
New Jersey; M.A. The College of New Jersey

Al D. Holcomb

Associate Professor, Department of WCC Music Education
B.M.E. Texas Christian University; M.M.E. University of Hartford; Ph.D.
University of Hartford

Kathryn A. Holden

Associate Professor-Librarian, University Libraries
B.A. William Smith College; M.A. Pennsylvania State University; M.S.L.S.
University of Kentucky

Sheena C. Howard

Assistant Professor, Department of Communication and Journalism
B.B.A. Iona College; M.A. New York Institute of Technology; Ph.D. Howard
University

Ma Lei Hsieh

Associate Professor-Librarian, University Libraries
B.A. Tunghai University; M.L.S. Indiana University Bloomington; M.A.
Wheaton College Graduate School

Meng-Chen (Melinda) Hsieh

Assistant Professor, Department of Information Systems and Supply
Chain Management
B.S.B.A. National Taiwan University; M.S. National Chengchi University;
M.S. New York University Stern School of Business; Ph.D. New York
University Stern School of Business

Eric H. Hung

Associate Professor, Department of WCC Music Composition, History and
Theory
A.R.C.T. The Royal Conservatory of Music, Toronto, Canada; B.A.
Wesleyan University; Ph.D. Stanford University

Associate Professor, Department of History
B.A. University of California, Irvine; M.A. University of Delaware; Ph.D.
University of Delaware

Nathan Hurwitz

Assistant Professor, Department of Theatre and Dance
B.F.A. New York University; M.A. Northwestern University; Ph.D.
University of Pittsburgh

Jonathan M. Husch

Professor, Department of Geological, Environmental, and Marine Sciences

B.A. Colgate University; M.A. Princeton University; Ph.D. Princeton
University

Shahla Hussain

Assistant Professor, Department of History
B.A. Jamia Millia University; M.A. Jamia Millia University; Ph.D. Tufts
University

Laura A. Hyatt

Associate Professor, Department of Biology
A.B. Smith College; Ph.D. University of Pennsylvania

Jacqueline Soteropoulos Incollingo

Assistant Professor, Department of Communication and Journalism
B.A. Connecticut College; M.A. Philip Merrill College of Journalism,
University of Maryland; Ph.D. Philip Merrill College of Journalism,
University of Maryland

Danielle L. Jacobs

Associate Professor, Department of Chemistry, Biochemistry and Physics
B.S. Haverford College; Ph.D. The University of North Carolina at Chapel
Hill

Tamar Jacobson

Professor, Department of Teacher Education
B.A. University at Buffalo, The State University of New York; M.Ed.
University at Buffalo, The State University of New York; Ph.D. University
at Buffalo, The State University of New York

Barry T. Janes

Professor, Department of Communication and Journalism
B.A. Rutgers, The State University of New Jersey; M.A. Rutgers, The State
University of New Jersey; Ph.D. New York University

Paul R. Jivoff

Associate Professor, Department of Biology
B.A. Hartwick College; M.S. The Ohio State University; Ph.D. University of
Maryland

Howard H. Joffe

Priority Adjunct Associate Professor, Department of Communication and
Journalism
B.A. Rutgers, The State University of New Jersey; J.D. Benjamin N.
Cardozo School of Law, Yeshiva University

Carol A. Johnson

Priority Adjunct Assistant Professor, Department of Information Systems
and Supply Chain Management
B.S. Rider University; M.A. Rider University; M.A. Rider University; Ed.S.
Rider University

Katherine L. Johnson

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice
B.M. University of Calgary; M.M. Manhattan School of Music

Rachelle Jonck

Priority Adjunct Associate Professor, Department of WCC Piano and
Voice
B.Mus. University of Stellenbosch, South Africa

James Jordan

Professor, Department of WCC Conducting, Organ and Sacred Music
B.M. Susquehanna University; M.M. Temple University; Ph.D. Temple
University; D.Mus. University of Aberdeen

Terra Walston Joseph

Assistant Professor, Department of English
B.A. Indiana University; M.A. University of Illinois; Ph.D. University of Illinois

Michele Wilson Kamens

Professor, Department of Teacher Education
B.S. Rutgers, The State University of New Jersey; M.Ed. Rutgers, The State University of New Jersey; Ed.D. Temple University

Jonathan Karp

Professor, Department of Biology
B.A. Colgate University; Ph.D. Vanderbilt University

Mark A. Kasrel

Executive in Residence Harper Professor, Department of Marketing, Advertising and Legal Studies
B.S. West Virginia Wesleyan College; M.A. Seton Hall University

Kenneth Kauffman

Assistant Professor-Librarian, University Libraries
B.A. Goshen College; M.M. University of Illinois; M.L.I.S. University of Wisconsin–Milwaukee

Jay A. Kawarsky

Professor, Department of WCC Music Composition, History and Theory
B.M. Iowa State University; M.M. Northwestern University; D.M. Northwestern University

Shawn P. Kildea

Associate Professor, Department of Communication and Journalism
B.A. Rider University; M.A. Rider University; Ph.D. Rutgers, The State University of New Jersey

Joe H. Kim

Associate Professor, Department of Marketing, Advertising and Legal Studies
B.A. Soongsil University; MBA Yonsei University; Ph.D. Saint Louis University

Hee Young Kim

Assistant Professor, Department of Management
B.A. University of Pennsylvania; Ph.D. Stern School of Business, New York University

Amy K. Kimura

Assistant Professor-Librarian, University Libraries
B.A. Skidmore College; M.S.I.S. University at Albany, State University of New York; M.A. University of Michigan

Arkady K. Kitover

Priority Adjunct Professor, Department of Mathematics
M.S. Saint Petersburg State University; Ph.D. Saint Petersburg State University

Harvey R. Kornberg

Associate Professor, Department of Political Science
B.B.A. The City College of New York; M.A. Brown University; Ph.D. Brown University

Anthony J. Kosar

Professor, Department of WCC Music Composition, History and Theory
B.M. West Liberty University; M.M. Southern Illinois University; Ph.D. The Ohio State University

Eugene J. Kutcher

Associate Professor, Department of Management
B.S. Rutgers, The State University of New Jersey; M.A. Montclair State University; Ph.D. Virginia Polytechnic Institute and State University

Robert J. Lackie

Professor-Librarian, University Libraries
B.S. The University of the State of New York; M.L.I.S. University of South Carolina; M.A. Rider University

Fred Lasser

Priority Adjunct Assistant Professor, Department of English
B.R.E. Yeshiva University; B.A. Yeshiva University; M.A. The City College of New York; Ph.D. Rutgers, The State University of New Jersey

David A. Laviska

Assistant Professor, Department of Chemistry, Biochemistry and Physics
B.S. Cornell University; M.S. University of Washington; Ph.D. Rutgers, The State University of New Jersey

Anne Law

Professor, Department of Psychology
B.A. University of New Hampshire; M.A. University of New Hampshire; Ph.D. University of New Hampshire

Phyllis A. Lehrer

Professor, Department of WCC Piano and Voice
B.A. University of Rochester; M.S. The Juilliard School of Music

Christine Lentz

Associate Professor, Department of Management
B.S. Drexel University; M.S. Northwestern University; Ph.D. Northwestern University

Robin W. Lewis

Assistant Professor, Department of Theatre and Dance
B.S. The University of Alabama at Birmingham

Sherry Fang Li

Associate Professor, Department of Accounting
B.Ec. Tsinghua University; Ph.D. University of Massachusetts Amherst

Feng-Ying Liu

Professor, Department of Finance and Economics
B.S.B.A. National Taiwan University; MBA Drexel University; Ph.D. Drexel University

Lillian Livingston

Priority Adjunct Associate Professor, Department of WCC Piano and Voice
B.M. Indiana University

Charmen Loh

Associate Professor, Department of Finance and Economics
B.S.I.E. University of Arkansas; MBA University of Arkansas; Ph.D. University of Arkansas

Maxim J. Losi

Priority Adjunct Assistant Professor, Department of English
A.B. Princeton University; M.A. New York University; Ph.D. New York University

Phillip L. Lowrey

Associate Professor, Department of Biology
B.S. Vanderbilt University; Ph.D. Northwestern University

Cynthia Lucia

Professor, Department of English
B.S. Indiana University of Pennsylvania; M.A. New York University; M.A. New York University; Ph.D. New York University

Jamie Ludwig

Assistant Professor, Department of Chemistry, Biochemistry and Physics
B.A. Illinois Wesleyan University; Ph.D. University of Texas

Katherine G. Magrino

Priority Adjunct Instructor, Department of Communication and Journalism
B.A. The College of New Jersey; M.A. Thomas Edison State College

Andrew Markoe

Professor, Department of Mathematics
B.S. The City College of New York; Ph.D. Brown University

Nowell Marshall

Associate Professor, Department of English
B.A. University of Wisconsin–Madison; M.A. Arizona State University; Ph.D. University of California, Riverside

Linda S. Materna

Professor, Department of Languages, Literatures and Cultures
B.A. Beloit College; M.A. University of Wisconsin-Madison; Ph.D. University of Wisconsin-Madison

Biju Mathew

Associate Professor, Department of Information Systems and Supply Chain Management
B.A. Nizam College, Hyderabad, India; M.A. XLRI – Xavier School of Management, Jamshedpur, India; Ph.D. University of Pittsburgh

Katherine K. Maynard

Professor, Department of English
B.S. The College at Brockport: State University of New York; Ph.D. University of Rochester

Charles W. McCall

Associate Professor, Department of Finance and Economics
B.A. Lycoming College; M.A. Temple University; Ph.D. Temple University

Sean McCarther

Assistant Professor, Department of WCC Piano and Voice
B.M. Baylor University; M.M. Indiana University; D.M. Indiana University

Jason G. McCullough

Assistant Professor, Department of Mathematics
B.S. Michigan State University; B.S. Michigan State University; M.S. University of Illinois; Ph.D. University of Illinois

Roderick A. McDonald

Professor, Department of History
M.A. University of Aberdeen; M.A. The University of Kansas; Ph.D. The University of Kansas

Evelyn A. McDowell

Associate Professor, Department of Accounting
B.B.A. Baldwin Wallace University; MAcc Case Western Reserve University; Ph.D. Case Western Reserve University; CPA, CGMA

E. Graham McKinley

Professor, Department of Communication and Journalism

B.A. Yale University; M.M. Westminster Choir College, Rider University; Ph.D. Rutgers, The State University of New Jersey

Sharon S. McKool

Associate Professor, Department of Teacher Education
B.S.Ed. Texas State University; M.Ed. Texas State University; Ph.D. The University of Texas at Austin

Susan J McManimon

Priority Adjunct Assistant Professor, Department of Communication and Journalism
B.A. Kean University; M.A. Montclair State University; Ph.D. Indiana University of Pennsylvania

Dorothy A. McMullen

Associate Professor, Department of Accounting
B.S. LaSalle University; MBA Drexel University; Ph.D. Drexel University

Jonathan Mendilow

Professor, Department of Political Science
B.A. The Hebrew University of Jerusalem; M.A. The Hebrew University of Jerusalem; Ph.D. The Hebrew University of Jerusalem

Ilhan Meric

Professor, Department of Finance and Economics

Joel Phillips

Professor, Department of WCC Music Composition, History and Theory
B.M. The University of Alabama; M.M. Eastman School of Music, University of Rochester; D.M.A. The University of Alabama

Steven Pilkington

Associate Professor, Department of WCC Conducting, Organ and Sacred Music
B.A. St. Olaf College; M.M. University of Illinois; Ph.D. Drew University

Mary Poteau-Tralie

Professor, Department of Languages, Literatures and Cultures
B.A. Temple University; M.A. Princeton University; Ph.D. Princeton University

Kathy Kessler Price

Assistant Professor, Department of WCC Piano and Voice
B.A. University of Richmond; M.M. University of Maryland; Ph.D. The University of Kansas

Larry M. Prober

Associate Professor, Department of Accounting
B.S.B.A. University of Delaware; MBA University of Massachusetts; M.S. Temple University; Ph.D. Temple University; CPA, CMA, CVA, CGMA

J. Drew Procaccino

Associate Professor, Department of Information Systems and Supply Chain Management
B.A.B.A. Ursinus College; B.S.B.A. Rider University; MBA Rider University; Ph.D. Drexel University

Mark D. Promislo

Assistant Professor, Department of Management
B.S. Tulane University; MBA Northwestern University; Ph.D. Temple University

Magnolia Pérez-Garrido

Priority Adjunct Instructor, Department of Languages, Literatures and Cultures
B.A. The College of New Jersey; M.A. Villanova University

William Quirk

Priority Adjunct Instructor, Department of English
B.A. University of Colorado; M.A. University of Washington

Amanda R. Quist

Associate Professor, Department of WCC Conducting, Organ and Sacred Music
B.M. Western Michigan University; M.M. Western Michigan University; D.M.A. University of North Texas

Maury R. Randall

Professor, Department of Finance and Economics
A.B. New York University; M.A. University of Chicago; Ph.D. New York University

Mitchell Ratner

Associate Professor, Department of Finance and Economics
A.B. Lafayette College; MBA Drexel University; Ph.D. Drexel University

Laura Brooks Rice

Professor, Department of WCC Piano and Voice
B.M. Georgia Southern College; M.M. Indiana University

Eric Rieger

Assistant Professor, Department of WCC Piano and Voice
B.M. Eastman School of Music, University of Rochester; M.M. The Royal Conservatoire of Scotland; D.M.A. Eastman School of Music, University of Rochester

Jerry E. Rife

Professor, Department of Fine Arts
B.S. Kansas State University; M.M. Kansas State University; Ph.D. Michigan State University

James E. Riggs

Professor, Department of Biology
B.S. Delaware Valley College; M.S. University of Massachusetts Amherst; Ph.D. University of Massachusetts Amherst

George Ritchie

Professor, Department of Chemistry, Biochemistry and Physics
B.S. Hampden-Sydney College; Ph.D. University of Pennsylvania

Daryl Robinson

Assistant Professor, Department of WCC Conducting, Organ and Sacred Music
B.M. The University of Houston; M.M. Rice University

Jane E. Rosenbaum

Priority Adjunct Assistant Professor, Department of English
B.A. The City College of New York; M.A. University of Pittsburgh; Ph.D. University of Pittsburgh

Deborah M. Rosenthal

Professor, Department of Fine Arts
A.B. Barnard College, Columbia University; M.F.A. Pratt Institute

Kelly Ross

Assistant Professor, Department of English
B.A. The College of William & Mary; M.A. The University of North Carolina at Chapel Hill; Ph.D. The University of North Carolina at Chapel Hill

Guy Rothfuss

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice
B.A. Lycoming College; Artist Diploma Curtis Institute of Music

Julia Kemp Rothfuss

Priority Adjunct Assistant Professor, Department of WCC Piano and Voice
B.Mus. Westminster Choir College, Rider University; Artist's Diploma Curtis Institute of Music

Frank L. Rusciano

Professor, Department of Political Science
B.A. Cornell University; M.A. University of Chicago; Ph.D. University of Chicago

Erica J. Ryan

Assistant Professor, Department of History
B.A. Sarah Lawrence College; A.M. Brown University; Ph.D. Brown University

Anne T. Salvatore

Professor, Department of English
A.B. Chestnut Hill College; M.A. The College of New Jersey; Ph.D. Temple University

Maria H. Sanchez

Professor, Department of Accounting
B.S. Villanova University; MBA Drexel University; Ph.D. Drexel University

Nuria Sanjuán

Assistant Professor, Department of Languages, Literatures and Cultures
B.A. Universidad de Alicante, Spain; M.A. University of Minnesota, Twin Cities; Ph.D. Princeton University

Elizabeth S. Scheiber

Professor, Department of Languages, Literatures and Cultures
B.A. Western Kentucky University; M.A. Indiana University; Ph.D. Indiana University

Margaret R. Schleissner

Professor, Department of Languages, Literatures and Cultures
B.A. Kirkland College; M.A. Princeton University; Ph.D. Princeton University

Joy A. Schneer

Professor, Department of Management
B.A. Barnard College, Columbia University; MBA Baruch College; Ph.D. The City University of New York

George Otto Schneller

Priority Adjunct Associate Professor, Department of Mathematics
B.S. Mount Union University; M.A. Lehigh University; Ph.D. Lehigh University

Charles F. Schwartz

Professor, Department of Mathematics
A.B. University of Pennsylvania; Ph.D. Rutgers, the State University of New Jersey

Reed A. Schwimmer

Associate Professor, Department of Geological, Environmental, and Marine Sciences
B.S. Rider University; M.A. Bryn Mawr College; Ph.D. University of Delaware

Elaine A. Scorpio

Associate Professor, Department of Psychology
B.A. Rhode Island College; M.A. Rhode Island College; Ph.D. Syracuse University

Joan Serpico

Assistant Professor-Librarian, University Libraries
B.A. University of Notre Dame; MAT Trinity College; M.L.S. University of Maryland

Raymond Setters, II

Priority Adjunct Assistant Professor, Department of English
B.A. Rider University; M.F.A. Rosemont College

Tom T. Shelton, Jr.

Assistant Professor, Department of WCC Conducting, Organ and Sacred Music
B.M.E. The University of North Carolina at Greensboro; M.M. The University of North Carolina at Greensboro

Jia Shen

Associate Professor, Department of Information Systems and Supply Chain Management
B.S. Beijing University of Technology; M.S. New Jersey Institute of Technology; Ph.D. New Jersey Institute of Technology

Nikki Shepardson

Associate Professor, Department of History
B.A. University of Rochester; M.A. Rutgers, The State University of New Jersey; Ph.D. Rutgers, The State University of New Jersey

Rebecca Simon

Priority Adjunct Assistant Professor, Department of Theatre and Dance
B.A. University at Buffalo, The State University of New York; M.F.A. Florida Atlantic University

Thomas Simonet

Professor, Department of Communication and Journalism
B.A. Georgetown University; M.S. Columbia University; Ph.D. Temple University

Gabriela W. Smalley

Associate Professor, Department of Geological, Environmental, and Marine Sciences
B.S. University of Maryland; Ph.D. University of Maryland

Wayne J. Smeltz

Associate Professor, Department of Management
B.B.A. College of Insurance, St. John's University; MBA University of Houston; Ph.D. University of Houston

Bryan D. Spiegelberg

Associate Professor, Department of Chemistry, Biochemistry and Physics
B.S. Denison University; Ph.D. Duke University

Ira Sprotzer

Associate Professor, Department of Marketing, Advertising and Legal Studies
B.A. Binghamton University, State University of New York; J.D. Boston College Law School; MBA Miami University

Betty H. Stolloff

Priority Adjunct Associate Professor, Department of WCC Piano and Voice
B.M.A. University of Michigan; M.A. Columbia University

Susan Strom

Priority Adjunct Instructor, Department of English
B.A. University of Toronto; M.A. University of Cincinnati; M.Ed. Temple University

David Y. Suk

Associate Professor, Department of Finance and Economics
B.A. Sogang University; M.A. The Ohio State University; Ph.D. The Ohio State University

John R. Suler

Professor, Department of Psychology

Cathleen Zucco-Teveloff

Priority Adjunct Lecturer, Department of Information Systems and Supply
Chain Management
B.A. LeMoyne College; M.S. Syracuse University

GRADUATE

Rider University's Vision and Mission

Rider's Vision

Rider University will be a leader in American higher education celebrated for educating talented students for citizenship, life and career success in a diverse and interdependent world. Rider will achieve distinctiveness by focusing on students first, by cultivating leadership skills, by affirming teaching and learning that bridges the theoretical and the practical and by fostering a culture of academic excellence.

Rider's Mission

Rider attracts and graduates talented and motivated students with diverse backgrounds from across the nation and around the world and puts them at the center of our learning and living community.

As a learner-centered University dedicated to the education of the whole student, Rider provides students the intellectual resources and breadth of student life opportunities of a comprehensive university with the personal attention and close student-faculty interactions of a liberal arts college.

Through a commitment to high quality teaching, scholarship and experiential opportunities, faculty on both campuses provide undergraduate and graduate students rigorous and relevant programs of study to expand their intellectual, cultural and personal horizons and develop their leadership skills. Our highly regarded programs in the arts, social sciences, sciences, music, business and education challenge students to become active learners who can acquire, interpret, communicate and apply knowledge within and across disciplines to foster the integrative thinking required in a complex and rapidly changing world.

Rider attracts highly qualified faculty, staff and administrators with diverse backgrounds who create an environment which inspires intellectual and social engagement, stimulates innovation and service and encourages personal and professional development. As key members of our University community, it is their commitment to our values, vision and mission that will ensure Rider's success.

The University's institutional identity will continue to reflect the strengths of its people, history, location and shared values, among which are a commitment to diversity, social and ethical responsibility and community.

The success of our graduates will be demonstrated by their personal and career achievements and by their contributions to the cultural, social and economic life of their communities, the nation and the world.

Accreditations

Rider University is regionally accredited by the Middle States Commission on Higher Education.

The University also holds many specialized accreditations that attest to the quality of its academic programs. Rider is among the select business schools to have attained AACSB International (Association to Advance Collegiate Schools of Business) accreditation and the only school in New Jersey to hold the specialized AACSB accreditation in accounting. Elementary and secondary education programs and their applicable graduate programs on both campuses are accredited by the National Council for the Accreditation of Teacher Education (NCATE). The undergraduate and graduate music programs of Westminster Choir

College are accredited by the National Association of Schools of Music (NASM). In addition, Rider's graduate counseling services program in the School of Education holds the Council for Accreditation of Counseling and Related Education Programs (CACREP) national accreditation, and its school psychology program holds the National Association of School Psychologists (NASP) accreditation. Rider's chemistry program is accredited by the American Chemical Society.

Rider University is a member of the National Collegiate Athletic Association (NCAA) Division I for both men's and women's athletics. The University offers 20 sports—10 men's and 10 women's teams. Rider is a member of the Metro Atlantic Athletic Conference (MAAC), Eastern Wrestling League (EWL) and the Eastern College Athletic Conference (ECAC).

Notice of the Title IX Coordinator

As a community of educators and learners, Rider University is committed to fostering an environment dedicated to learning and mutual respect as reflected in the University's mission, Statement of Community Values, Anti-Harassment and Non-Discrimination Policy and Title IX. All students, faculty, administrators and staff at the University have the right to expect an environment that allows them to enjoy the full benefits of their work or learning experience. The University, therefore, does not condone violations of its Anti-Harassment and Non-Discrimination Policy and treats all allegations about violations very seriously. As outlined in the Anti-Harassment and Non-Discrimination Policy (<http://www.rider.edu/sites/default/files/docs/anti-harassment-non-discrimination-2014-15.pdf>), the University prohibits all forms of discrimination, harassment, sexual assault, sexual misconduct, sexual harassment, dating violence, domestic violence and stalking.

Rider University is an Equal Opportunity and Affirmative Action Employer.

No one will be denied employment at, admission to, or the opportunity to participate in educational programs and activities at the University on the basis of race, creed, color, religion, handicap/disability, gender, age, marital status, sexual orientation, gender identity, national origin, ethnicity, status as a Vietnam-era qualified disabled veteran or other protected veteran, or status as a member of any other protected class under federal or state law. The University does not discriminate on the basis of any of the aforementioned protected bases in the recruitment and admission of students, the recruitment and employment of faculty, administrators and staff, and the operation of any of its programs and activities.

The Associate Vice President for Human Resources serves as both the Affirmative Action Officer and the Title IX Coordinator for the University, and is the resource available to anyone seeking additional information or wishing to file a complaint related to Affirmative Action and discrimination on the basis of race, creed, color, religion, handicap/disability, gender, age, marital status, sexual orientation, gender identity, national origin, ethnicity, status as a Vietnam-era, qualified disabled veteran or other protected veteran, or status as a member of any other protected class under federal or state law.

The Affirmative Action Officer and the Title IX Coordinator for the University may be contacted as follows:

Colleges and Schools

- College of Business Administration (p. 689)
- College of Liberal Arts, Education, and Sciences (p. 711)

College of Business Administration

Business administration is for anyone who wants to develop the skills needed to turn ideas and dreams into reality. Whether it's creating your own company or rising to the top of a major corporation, the key is having the skills to make it happen.

In each of its 13 majors and four graduate degrees, the College of Business Administration (CBA) seeks to develop in students the skills needed to perform effectively in a variety of organizational settings—small business, multinational corporation, service industry, not-for-profit, family company, governmental or Wall Street—depending upon the student's interests and goals. Each program is designed to provide an educational experience for the whole person by combining theory and practice. Business students participate in a learning environment that offers both the practical skills needed to launch a career and the learning skills needed for continued growth.

Degree Programs

Master of Accountancy (MAcc), Online Master of Accountancy (OLMAcc), Master of Business Administration (MBA) and Executive Master of Business Administration (EMBA) degree programs are offered.

The Rider University College of Business Administration (CBA) has a distinctive approach to business education and learning as defined by the mission statement. Graduate business programs strive for excellence through a strong emphasis on:

- Providing an innovative, flexible and dynamic curriculum with focus on the challenges facing today's businesses;
- Developing students through experiential learning, career support and networking;
- Implementing alliances with local and international businesses and international universities; and,
- Driving quality and continuous improvement in everything we do.

The MBA and MAcc programs are focused on developing the analytical skills and business knowledge for fully-employed business professionals and managers, as well as selected full-time students.

The Executive MBA is a cohort-based program designed to meet the needs of more experienced managers and executives, placing particular emphasis on leadership and advanced management skills.

The Online MAcc is also a cohort-based program structured to support working professionals meet the educational requirements for sitting for the CPA exam in all 50 states and provide them with the knowledge and skills needed to accelerate their careers in accounting. As part of the Online MAcc, students can achieve a concentration in Fraud and Forensic Accounting, one of the fastest growing areas in the accounting profession.

Faculty

Courses are taught in small sections, usually by full-time faculty holding doctorates. Most faculty members are engaged in research in their fields, and have relevant business experience as well. We draw our adjunct faculty from the ranks of executives from major corporations and thought leaders in business and service organizations. In addition, since most of the students are employed in professional or managerial positions, they bring a wealth of business experience to share with their peers as part of the learning process.

Professional Accreditation

Rider University's College of Business Administration graduate and undergraduate programs are accredited by AACSB International – The Association to Advance Collegiate Schools of Business. The initial accreditation was achieved in 1993 and reaffirmed in 2012. In addition, the accounting program was further recognized for excellence with AACSB International Accounting Accreditation in 2000 and reaffirmed in 2012.

Objectives and Program Summaries

Introduction

The EMBA, MAcc, Online MAcc and MBA programs are designed for students with full-time professional, managerial or executive positions. The MBA and MAcc programs are also available for students who wish to pursue their degrees as full-time students. For the MBA and MAcc programs, courses are typically offered during evening hours, Monday through Thursday in the fall, spring and summer semesters, with some courses offered in the late afternoons and online. While most students pursue the program on a part-time basis, courses are scheduled to allow a student to fast track a degree full-time by enrolling in up to four courses each semester. For the cohort-based EMBA program, courses are offered in an accelerated program structure across 16 months, with classes on Saturdays and selected Friday evenings, and includes up to two weeks of an international study tour. The Online MAcc program is also cohort-based and is offered over 16 months starting in September each year.

The Master of Accountancy (MAcc)

The MAcc program prepares individuals for a flexible career path and, ultimately, leadership positions in the accounting profession. Those students who wish to pursue a career in public accounting will develop specialized technical competencies to meet the 150 credit-hour requirement for licensure. Accounting career paths in corporate, financial or governmental sectors are facilitated through the core curriculum and specialized elective courses. The comprehensive curriculum focuses on

development of analytical and professional skills necessary for success in today's global business environment.

Required courses emphasize an integration and synthesis of accounting theories and concepts. Course work assumes that students have established a basic foundation level of accounting at the undergraduate level. Students without an undergraduate accounting degree are required to complete preliminary courses prior to beginning the MAcc core curriculum.

Students have the option to personalize their MAcc degree by creating a skill set from a menu of MBA and MAcc electives. Students may also elect to concentrate in one of the functional disciplines of finance, management, computer information systems, or business analytics, or pursue an interdisciplinary concentration in entrepreneurship, global business, corporate accounting for managers, or fraud and forensic accounting.

Graduate accounting courses are offered in the evening, with a limited offering scheduled during afternoons and online. Both accounting and non-accounting electives (i.e., MBA electives) are available in the evening.

Please see the MAcc website at www.rider.edu/macc (<http://www.rider.edu/macc>) for up-to-date information on the program and faculty.

The Online Master of Accountancy (OL MAcc)

Similar to the on-campus MAcc, the Online MAcc program prepares individuals for a range of careers in the accounting profession, using the online educational format. In a 16-month, structured suite of courses, students who have both academic and professional backgrounds in accounting can earn the same graduate degree as our on-campus Master of Accountancy.

The OL MAcc supports students in developing their competencies and knowledge to sit for the CPA examination in all states and to meet the education credit-hour requirements for licensure. Accounting career paths in corporate, financial or governmental entities are facilitated through the core MAcc curriculum and specialized elective courses. These electives, built right into the curriculum, include courses that address some of the required topic areas on the CPA examination such as Business Law and Governmental Accounting. In addition, in the Online MAcc program, students can achieve a concentration in fraud and forensic accounting.

Required courses emphasize an integration and synthesis of accounting theories and concepts. Course work assumes that students have established a basic foundation level of accounting at the undergraduate level.

The Online MAcc courses are offered in a 16-month cohort-based program with a required one (1) day orientation. The schedule is shown in the detailed curriculum description.

Please see the Online MAcc Web site at www.rider.edu/onlinemacc (<http://www.rider.edu/onlinemacc>) for up-to-date information on the program and faculty.

The Master of Business Administration (MBA)

The MBA program prepares individuals for career advancement as business professionals, managers and leaders of organizations. Structured around contemporary business knowledge and the development of strong analytical and leadership skills, Rider has developed a forward-looking MBA program built on a long tradition of

business education excellence. The curriculum provides a distinctive and effective business learning environment that emphasizes advanced business theory, interpersonal and communication skills, cross-functional integration of business theory and practice, and the ability to manage in a changing environment.

MBA program flexibility is supported by a variety of MBA and MAcc electives. MBA students have the option to pursue a general MBA that allows them to select graduate level electives based on their individual professional needs. They may also elect to concentrate in one of the functional disciplines of finance, management, business analytics or computer information systems, or pursue an interdisciplinary concentration in entrepreneurship, global business, or corporate accounting for managers. Additionally, MBA students with an undergraduate accounting education can complete a concentration in forensic accounting.

Please see the MBA Web site at www.rider.edu/mba (<http://www.rider.edu/mba>) for up-to-date information on the program and faculty.

The Executive Master of Business Administration (EMBA)

The Executive MBA program allows experienced business professionals to earn an MBA in less than one and one-half years (16 months), while continuing to work full-time. It also allows students to enter the program, complete classes and graduate with the same integrated group of up to 25 students. The program consists of two parts: the first part sets expectations concerning what it means to operate at an executive level and then delivers a solid foundation in business concepts and basic leadership and team skills. The second part of the program provides advanced executive sessions on a variety of current business topics of relevance to today's executive. A personal, professional coaching program called Leadership Edge is also included in the curriculum.

In addition, there is a seminar on international business, which includes up to two weeks of travel in a key economic region of the globe. Other program highlights include: learning advanced business theory from the faculty while receiving practical insights from executives who work alongside the faculty in the classroom. The program has convenient scheduling, and classes are held at a local (Princeton area) executive conference center.

Please see the Executive MBA Web site at www.rider.edu/emba (<http://www.rider.edu/emba>) for unique admission requirements, program schedules and other relevant information.

Business Analytics Graduate Certificate Program

Program Overview

Rider's Graduate Certificate program in Business Analytics helps business professionals develop the skills and gain the knowledge of the technologies, applications and processes used by organizations to drive their decision making across all aspects of business including finance, marketing, accounting and operations.

Endorsed by SAS (http://www.sas.com/en_us/home.html?gclid=CLPH-MX7m8UCFuk6gQodGTEAvg&keyword=sas&matchtype=e), the leader in business analytics software and services, this certificate program has been designed with the valuable input of executives in the analytics field to ensure that the program meets the needs of employers.

Curriculum Overview

Rider's Graduate Certificate Program in Business Analytics allows students to follow one of two tracks: one for business professionals (<http://www.rider.edu/academics/colleges-schools/cba/graduate-business/business-analytics-certificate/business-professionals-track>) and one for Information Technology (IT) professionals (<http://www.rider.edu/academics/colleges-schools/cba/graduate-business/business-analytics-certificate/it-professionals-track>) with advanced skills in programming, data management and a working knowledge of SAS software.

Each track requires four graduate-level courses (12 credit hours) that are highly applied in nature, integrating project-based learning, simulations, case studies, and field experience with industry partnerships.

The program is structured so it can be completed within a year on a part-time basis. Students can start the certificate in any semester and courses are taught in the evening on Rider's Lawrenceville campus and online.

Completion of the Certificate

To complete this certificate program, students must meet the following requirements:

- Overall GPA of 3.0 in the Business Analytics Certificate Program; and,
- Cannot have any grades below a "C".

Current MAcc or MBA students at Rider

Current MAcc and MBA students can easily work the Business Analytics Certificate Program into their graduate degree program. For students in the MAcc program at Rider, these four courses will count as electives toward their degree. For MBA students at Rider, one of the courses will fulfill their Analytical Menu requirement and the remaining three courses will count as electives in their degree program. Students may also pursue a concentration in Business Analytics by taking three classes in Business Analytics. To satisfy the requirements of the concentration, they must achieve a 3.2 GPA in the three courses, with no grades below a "B".

Program Requirements for the Business Analytics Graduate Certificate Program

The Graduate Certificate in Business Analytics (BA) allows students to follow one of two tracks; one for business professionals and one for information technology (IT) professionals with advanced skills in programming, data management, and a working knowledge of SAS software. Each track requires four graduate-level courses (12 credit hours.)

Business Professionals Track

PMBA 8312	Bus Intelligence Tech-Data Mining	3
PMBA 8317	Applied Data Mgt for Bus Users	3
PMBA 8357	Bus Analytics for Managers	3
PMBA 8380	Business Analytics Optimizatio	3
Total Credits		12

Information Technology Professionals Track

PMBA 8312	Bus Intelligence Tech-Data Mining	3
PMBA 8317	Applied Data Mgt for Bus Users	3
PMBA 8357	Bus Analytics for Managers	3
PMBA 8902	Independent Studies in Business Adm. ¹	3
Total Credits		12

¹ This independent study in Business Analytics will teach students to write SAS programs, to manipulate data using SAS DATA and the procedure steps to access, transform, and summarize SAS data sets. The course also provides a review of the five exam content areas in the SAS Base Programmer Certification Exam, including importing and exporting raw data files; manipulating and transforming data, combining SAS data sets, creating basic detail and summary reports using SAS procedures, and identifying and correcting data syntax and programming logic errors.

Certificate Completion

To complete the BA Certificate Program, students must meet the following requirements:

- Overall GPA of 3.0 in the Business Analytics Certificate Program;
- Cannot have any grades below at "C".

Business Analytics Graduate Certificate Program Policies

Prerequisites

To be admitted to the Business Analytics Graduate Certificate Program in either track, students must meet the following requirements:

1. **Completion of at least a bachelor's degree or equivalent from an accredited institution of higher learning with a GPA of 3.0 or better.**

2. **Demonstrated statistics proficiency by satisfying ONE of the following conditions:**

- Earn a grade of "B" or better in statistics coursework equivalent to Rider's MSD 200 - Statistical Methods I and MSD 201-Statistical Methods II at an accredited four-year institution within six years prior to the semester admitted; OR
- Complete PMBA 8051 Fundamentals of Statistical Analysis with a grade of "B" or better; OR
- Take the proficiency exam for PMBA 8051 with a grade of "B" or better.
- Students in the IT track must be proficient in the use of SAS in the foundation statistics course(s).

3. **Demonstrated technology proficiency by satisfying ONE of the following conditions:**

- Earn a grade of "B" or better in course work equivalent to Rider's CIS 185 Information Systems Essentials at an accredited four-year institution within six years prior to the semester admitted; OR
- Complete PMBA 8010 Information Technology Proficiency with a grade of "B" or better; OR
- Take the proficiency exam for PMBA 8010 with a grade of "B" or better.

Certificate Completion

To complete the BA Certificate Program, students must meet the following requirements:

- Overall GPA of 3.0 in the Business Analytics Certificate Program; and,
- Cannot have any grades below at "C".

Courses and Descriptions

PMBA 8312 Bus Intelligence Tech-Data Mining 3 Credits

In this course, students will learn to solve problems/exploit opportunities by processing datasets, interpreting results, and deploying solutions. This course provides hands-on experience with these tasks. Upon this base of experience, students will build a robust data mining methodology that can be applied to real-world investigations. The course of study will include Online Analytical Processing (OLAP), statistical and machine learning techniques, and unstructured text analysis. Students will learn to apply these techniques through the study of payroll, procurement, and expense report fraud. Cell phone and credit card fraud, credit and bankruptcy analysis, and customer relationship management will also be covered. This course applies to the Information Systems, Forensic Accounting, and Fraud & Forensic Accounting concentrations. This is part of the Analytics Menu.

PMBA 8317 Applied Data Mgt for Bus Users 3 Credits

Learn the benefits of data sharing in a business organization, the benefits of the relational database model, how data is structured in a relational database model, and how data can be accessed in a relational database using the structured query language (SQL). The process of formatting, loading, and accessing data for data analytics will be shown as well as the interaction with data warehouse schemas such as the star schema and snowflake scheme.

PMBA 8357 Bus Analytics for Managers 3 Credits

Business Analytics, the data driven approach to management, is essential to achieve effective business decision-making and competitive advantage. All business managers need to analyze data and make quantitative-based decisions in their business careers. The focus of this course is to equip students with a variety of data analysis methods and tools that are useful to uncover trends, patterns, relationships, and other useful information. The course will take a hands-on, example-based approach and introduce fundamental concepts as they are needed. The primary tool is spreadsheet software—specifically Microsoft Excel. This course is part of the Analytics Menu.

Prerequisites: PMBA 8010 and PMBA 8051.

PMBA 8380 Business Analytics Optimizatio 3 Credits

This course has been designed to provide professional MBA students with the current knowledge and practice of optimization business analysts use. Optimization aims at selecting the best alternative from among available alternatives according to a predetermined objective. In general it involves building a mathematical model and finding the best alternative through a mathematical procedure. Optimization techniques help decision-makers make fact (i.e. data) based decisions and offer the potential of making significant profits or cost savings. The main focus of this course will be on developing modeling skills to gain insight into a wide variety of business decision problems. In other words, the emphasis in this course will be on modeling practical business decision problems, use of relevant software for optimal solution, interpretation of results, and sensitivity analysis rather than the theory of mathematical solution techniques. Coverage of course material will follow the typical sequence of (1) identification and discussion of a business decision problem; (2) developing a graphical model (e.g. influence diagram); (3) developing a mathematical model; (4) computer solution; (5) interpretation of results and sensitivity analysis; (6) discussion of insights gained from the experience; (7) discussion of implementation issues. In addition, heuristics will be discussed when optimization techniques are not available or too costly.

Prerequisites: PMBA 8010 and PMBA 8051.

PMBA 8902 Independent Studies in Business Adm. 3 Credits

Involves a program determined by the individual faculty member and approved by the program director. Written assignments are required as part of this rigorous academic experience. Students are eligible for a maximum of one independent elective and should have completed at least three breadth courses prior to the start of the independent study. **Prerequisite(s):** Completion of MBA pre-program courses and permission of the Assistant Dean of Graduate Programs.

NOTE: This independent study will be in Business Analytics and will involve students in teaching students to write SAS programs, manipulate data using SAS DATA and procedure steps to access, transform, and summarize SAS data sets. The course also provides a review of the five exam content areas in the SAS Base Programmer Certification Exam, including importing and exporting raw data files; manipulating and transforming data, combining SAS data sets, creating basic detail and summary reports using SAS procedures, and identifying and correcting data syntax and programming logic errors.

Executive MBA (EMBA)

Course Requirements

The Executive MBA is a 46.5-credit, 16-month program, taught in an integrated group setting. While there are many students with undergraduate business degrees in the EMBA program, it is especially appropriate for individuals who have non-business educational backgrounds and those who are transitioning to positions requiring higher levels of business, management, and leadership skills. A key goal of the program is to emphasize application of the information and skills being taught; therefore, students will find this emphasis throughout all aspects of the program.

The program consists of two parts: the first part sets expectations concerning what it means to operate at an executive level and then delivers a solid foundation in business concepts and basic leadership and team skills; the second part provides “advanced executive sessions” on a variety of current business topics of relevance to the business executive.

The EMBA program also has multiple coaches who work with the students individually throughout the 16-month program to develop essential management, leadership, time management, stress management, and personal career development skills.

Integrated Business Foundation

EMBA 9001	Top Management Perspective (Fall)	3
EMBA 9250	Statistical Analysis for Bus (Fall)	3
EMBA 9251	Service/Product Management (Fall)	3
EMBA 9260	Strategic Marketing (Fall)	3
EMBA 9270	Management/Team Skills (Fall)	3
EMBA 9230	Economics Principles (Spring)	1.5
EMBA 9231	Economic Analysis and Decision Making (Spring)	3
EMBA 9220	Financial Accounting (Spring)	3
EMBA 9240	Corporate Finance (Spring)	3

Advanced Topics

EMBA 9362	Product Development and Commercialization (Summer)	3
EMBA 9303	Intl Bus Seminar W/ Travel Exp (Summer)	3
EMBA 9302	Corporate Performance Evaluation (Summer)	3
EMBA 9271	Leadership (Summer)	3
EMBA 9301	Corp Governance Legal Ethical Issues (Fall)	3
EMBA 9310	Information Technology and Management (Fall)	3
EMBA 9880	Strategic Management: a Capstone Course (Fall)	3

Total Credits 46.5

Waiver of Program Coursework

There are no course waivers granted for the EMBA program.

Executive-in-Residence Program

Successful business executives, each with their own specialization, are brought in to work alongside the Rider faculty to lend their personal insight to classroom discussion during several of the courses in the “advanced executive session” portion of the program.

International Experience

The international experience includes up to two weeks traveling in developing and/or emerging countries around the world. The actual location for each integrated group is partially dependent upon the interests and needs of the group. Through a series of site visits, the group will meet with business leaders, develop relationships with overseas firms, and get an up-close look at how business is done in some of the world’s most dynamic emerging markets.

Cost

The cost of the program is all-inclusive, covering tuition, books, food, fees, and the international study experience.

Application Procedures

To apply for admission to the Executive MBA program, the procedures are:

- Obtain and complete an application for admission from the Office of Graduate Admission or online at www.rider.edu/gradadmission (<http://www.rider.edu/gradadmission>).
- Return or submit electronically the application with your resume, statement of aims and objectives, and the nonrefundable \$50 application fee to the Office of Graduate Admission.
- Submit two work-related recommendations (employer or another business-related resource) to the Office of Graduate Admission.
- Arrange to have an official transcript(s) sent to the Office of Graduate Admission by every institution of higher learning attended (including Rider University). A transcript should be sent even if only one course was taken at the institution. Only official transcripts will be accepted. Transcripts sent to the student are not acceptable unless they are sealed in the original envelope when received by the Office of Graduate Admission.
- International students are asked to have their transcripts evaluated (and translated, if necessary) for program equivalency by a recognized credential evaluation service. World Education Services in New York City is suggested for this evaluation.
- For international students, a notarized financial resource statement or notarized bank statement is required to demonstrate the student’s ability to pay the total cost of attendance.
- Upon submission of all application materials, applicants will be asked to take part in an admissions interview with the Director of the Executive MBA Program.

Application Deadlines

The application deadline for application to the EMBA program is July 1. Applications received after the official deadlines may be given consideration at the discretion of the College of Business Administration.

EMBA 9001 Top Management Perspective 3 Credits

This team-taught course will serve as the initial course of the EMBA program. The course will take place over three weekends. Top managers will also attend and provide their perspectives to students and faculty in attendance. This course will explore the “art” of case study analysis. Students will focus on identifying, analyzing, and resolving issues from a top management perspective. This course will consider various issues confronted by top managers and heavily emphasizes contemporary cases that illustrate a wide range of management issues. By having the course team-taught by a faculty member and an Executive-in-Residence, both the academic and applied aspects of business will be represented in the classroom. This sets the tone for the approach and philosophy of the entire program - a blending of business theory with real world application. Another of the course’s purposes is to allow the students to get to know one another, become acquainted with the faculty who will be teaching in the program, and receive an overview of the material that will be covered.

EMBA 9220 Financial Accounting 3 Credits

This course provides a managerially-oriented focus on the aspects of financial accounting most relevant to business decision makers. Students will develop the ability to read, analyze, and interpret financial information for decisions regarding operating, investing, and financing activities as well as serving as a foundation for more advanced analysis in areas such as credit and equity decisions.

EMBA 9230 Economics Principles 1.5 Credits

This course focuses on how markets work in different settings (structures). The course begins by establishing basic relationships between consumer behavior and demand, and production costs and supply. The remainder of the course focuses on profit-maximizing strategies in different market structures (perfect competition, monopoly, and imperfect competition). Also, this course provides an introduction to the basic economic concepts to prepare students for EMBA 9231, Economic Analysis and Decision Making.

EMBA 9231 Economic Analysis and Decision Making 3 Credits

This course focuses on using economic methods for making managerial decisions affecting the value of the firm. Topics include demand analysis, production and costs, employment decisions, project evaluation, profit-volume analysis and pricing strategies under a variety of settings. The course emphasizes integration between economics, accounting, and finance.

EMBA 9240 Corporate Finance 3 Credits

This course introduces modern corporate finance principles that today’s managers should know. Its purpose is to give students a thorough introduction to the theory and practice of financial management. The course reviews the principles executives need to acquire to manage for value creation. Topics covered include valuation of securities, capital budgeting, cost of capital, capital structure, and value-creating decisions in a global environment.

EMBA 9250 Statistical Analysis for Bus 3 Credits

This course introduces students to basic concepts and methodologies in probability theory and statistics. Emphasis is on real-world application of reasoning techniques used for interpreting data for decision criteria of managerial decision making. Topics include probability, variables, estimation, hypothesis, regression, and sampling. Concepts of learning are facilitated through real-world practices.

EMBA 9251 Service/Product Management 3 Credits

This course focuses on the issues, concepts, skills, and techniques related to the management of operations of organizations. Students are introduced to various techniques of operations research and management science as they are applied to decision making in the management of operations. Topics include productivity, supply chain management, manufacturing strategies, and competitiveness.

EMBA 9260 Strategic Marketing 3 Credits

The focus of this course is to provide students with the analytical skills required to understand and assess complex marketing situations in order to develop and implement appropriate marketing strategies. Identifying individual case factors and understanding the relationship between developments of strategies is emphasized. Students will apply the material using real-world cases faced by organizations.

EMBA 9270 Management/Team Skills 3 Credits

This course is based on the assumption that management and team skills can be learned. To learn skills requires active involvement in the classroom exercises and many learning opportunities come from group activities. To develop these skills, students will need to set personal goals and experiment with new behavior. This course will involve a variety of in-class exercises including self-assessments, interpersonal activities, and a team project.

EMBA 9271 Leadership 3 Credits

This course has been designed to provide students with an understanding of leadership from both a scholarly and a practitioner perspective. The purpose is to help students understand what it means to be a leader in general and in the current business environment specifically. Students will be encouraged to consider their own leadership aspirations, to observe others in leadership roles, and to test their own leadership acumen.

EMBA 9301 Corp Governance Legal Ethical Issues 3 Credits

This team-taught course provides an overview of corporate governance. The governance structure specifies the distribution of rights and responsibilities among different participants in the corporation, such as the board of directors, managers, shareholders, and other stakeholders. In this course, students will discuss the importance of corporate governance and the roles of various stakeholders in the governance structure. Conflicts of interest that arise between the stakeholders and approaches to mitigate those conflicts will be a central focus of the course. Because corporate governance plays an integral role in creating a culture in which ethical behavior is the norm, this course will also focus on identifying, analyzing, and resolving ethical dilemmas in business. The course will consider ethical issues confronted by managers and heavily emphasizes contemporary cases that illustrate a wide range of ethical issues.

EMBA 9302 Corporate Performance Evaluation 3 Credits

This team-taught course emphasizes to executives that shareholder value creation should be an enduring focus of concern because value is the foundation of survival and prosperity for the enterprise. The course introduces multiple perspectives in evaluating the performance of the firm. Among them are management control systems, financial statement analysis, cash flow analysis, and the balanced score card (BSC) including Economic Value Added. The nature of these approaches to evaluation draws from the disciplines of accounting and finance. Structuring the course as a team-taught course in which instructors from both of these disciplines will be present helps to ensure that students will receive a comprehensive and integrated understanding of the course topics. Students will experience using real-world cases in evaluation.

EMBA 9303 Intl Bus Seminar W/ Travel Exp 3 Credits

The purpose of this course is to examine the intricacies of conducting business internationally. With each offering, the course will focus on parts of the world where emerging economies are becoming influential players in international business. Examples of these emerging economies include China, South America, Argentina and Chile in particular, and Eastern Europe or Southeast Asia. The influence of external forces resulting from the socio-cultural, economic, technological and political aspects of the macro-environment will be examined. The competitive environment will be examined from the perspective of both multinational and domestic corporations. Finally, consideration will be given to the corporate level strategies and the functional operation of these corporations as they compete for market share, financial investment and human resources.

EMBA 9309 Special Topics 3 Credits

The study of a timely topic that represents a dimension of business administration not covered in a regular course. Such a topic may be offered by any department of business administration. The nature of the course will be described in the appendix of the registration materials for the semester when the course will be offered.

EMBA 9310 Information Technology and Management 3 Credits

This course enables current and future senior executives to gain a strategic perspective of information technology resources within the organization. The focus is on opportunities and challenges associated with managing technological resources as well as how the effective management of information technology can improve competitive positioning and operational performance. Course format will be a combination of lectures, guest speakers, case studies, and hands-on exercises. Experiential learning opportunities will allow students to work with real-world case studies using relevant technologies.

EMBA 9362 Product Development and Commercialization 3 Credits

The purpose of this course is to provide an in-depth overview of the Product Development and Commercialization (PD&C) process. This will be done through the analysis of cases that describe actual PD&C as well as innovation problems faced by a variety of organizations (e.g. consumer, health care service). Topics covered include innovation funding, opportunity analysis, common PD&C challenges and issues, and the interface among various disciplines to achieve best-in-class PD&C strategies.

EMBA 9880 Strategic Management: a Capstone Course 3 Credits

The capstone course focuses on the elements required to make effective strategic decisions in organizations with reference to the impact these decisions have on all stakeholders. The purpose of this course is to provide students with an understanding of the strategy process through an analysis of how a firm develops a mission, vision, and establishes a sense of purpose while simultaneously monitoring the external environment for emerging opportunities and threats. Topics focus on real-world cases, the evolution of strategic management processes, and strategies for a global world.

EMBA 9900 Leadership Edge 0 Credits

This course is structured as pass/fail. It provides students at, or aspiring to, executive positions within their organization's career, leadership and management development with a real-time, practical approach to leadership. This differentiator and developmental component is referred to as "The Leadership Edge." Students will reflect on self-assessments completed as part of the program. They are then able to leverage the Leadership Edge experience by pursuing different methods of developing career, leadership, and management competencies to fill identified gaps. Opportunities for development are met through group sessions and student participation in individual (private) coaching or group seminars to discuss personal career and organizational situations. The choice of which avenue is taken (individual or group) is made on an integrated group basis.

EMBA 9906 Special Topics in Bus Adm 3 Credits

The study of a timely topic that represents a dimension of business administration not covered in a regular course. Such a topic may be offered by any department of business administration. The nature of the course will be described in the appendix of the registration materials for the semester when the course will be offered.

EMBA 9907 Special Topics in Bus Adm 3 Credits

The study of a timely topic that represents a dimension of business administration not covered in a regular course. Such a topic may be offered by any department of business administration. The nature of the course will be described in the appendix of the registration materials for the semester when the course will be offered.

EMBA 9908 Special Topics in Bus Adm 3 Credits

The study of a timely topic that represents a dimension of business administration not covered in a regular course. Such a topic may be offered by any department of business administration. The nature of the course will be described in the appendix of the registration materials for the semester when the course will be offered.

EMBA 9909 Special Topics in Bus Adm 3 Credits

The study of a timely topic that represents a dimension of business administration not covered in a regular course. Such a topic may be offered by any department of business administration. The nature of the course will be described in the appendix of the registration materials for the semester when the course will be offered.

Master of Accountancy (MAcc)

Program Overview

Students in the Master of Accountancy program are able to take their careers to a higher level. With this program, they develop and hone the required technical competencies and meet the evolving credit-hour requirements for licensure in the rapidly changing accounting field. Students may choose to develop a career path in areas outside of public accounting, including corporate, financial or governmental entities through the numerous elective course offerings.

Most students in the program are employed in professional or managerial positions and bring a wealth of business experience to share. Students who wish to gain experience in the field of accounting are encouraged to participate in internships. Opportunities are available throughout the New York, New Jersey, and Pennsylvania tri-state area.

Curriculum Overview

Courses are taught in small sections, usually by full-time faculty holding doctoral degrees. Most faculty are engaged in research in their fields and have business experience as well. The program has earned the AACSB

Accounting accreditation, the international standard of excellence in accounting and business education.

As many students work full time, classes are offered in the evening, Monday through Thursday, with some afternoon sessions. All basic requirement courses are offered during the fall, spring and summer semesters. While most students pursue their MAcc on a part-time basis, courses are also scheduled to permit students to enroll on a full-time basis (four courses or 12 credits).

Students may also select electives to concentrate in a particular area of interest, though concentrations are not a program requirement and many students may be best served by selecting electives from several different functional areas.

Degree Offered

- Finance (p.)
- Forensic Accounting (p.)
- Global Business (p.)
- Information Systems (p.)
- Management (p.)

Master of Accountancy Program Requirements

The MAcc program consists of 30 semester hours at the graduate level, (MAcc 600 and PMBA 8000 levels only). At least fifteen semester hours are in accounting courses and the remaining semester hours are to be taken as MBA or MAcc electives. Please refer to the MBA course descriptions for a listing of PMBA elective courses. MAcc students may elect to use both MAcc and MBA electives to create concentrations. See the "Concentration" section provided in this catalog. Required graduate accounting courses are offered each semester. Graduate accounting electives are typically offered on a three-semester rotational basis. Students may also be required to take an additional 27 credit hours of pre-program requirement based on their educational and professional experience.

Upper Level Required Accounting Courses

MAcc 650	Seminar in Federal Taxes	3
MAcc 652	Analysis of Accounting Data	3
MAcc 654	Issues in Financial Reporting	3
MAcc 656	Interntnl Dimensions of Acct	3

Elective Courses

Students must take 18 credit hours of graduate business electives (MBA and MAcc) with at least one MAcc elective from those listed below.

MAcc 658	Govt & Not for Profit Acctng
MAcc 662	Auditing Practice & Problems
MAcc 663	Fraud and Forensic Accounting
MAcc 664	Issues in Managerial Accountng
MAcc 665	Fraud Detection and Deterrence
MAcc 667	Bus Val:fund, Tech & Theories
MAcc 670	Accounting Internship (requires prior approval of the Accounting Department Chairperson)
MAcc 690	Special Topics: Entrp Risk Mgt

Total Credits

30

Note: Because Rider has earned AACSB Accounting accreditation, students who graduate with the MAcc degree are deemed to have met educational requirements to sit for the CPA exam in any state. However, students planning to take the exam should consider elective courses in Business Law (PMBA 8491) and Govt & Not for Profit Acctng (MAcc 658).

MAcc students who hold an undergraduate degree in an area other than business will need to complete all of the Business Core Requirements and Accounting Core Requirements before taking any Upper Level Accounting Courses.

MAcc students who hold an undergraduate business degree in an area outside of accounting may waive the Business Core Requirements but must complete the Accounting Core Requirements before taking any Upper Level Accounting Courses.

MAcc students who hold an undergraduate degree in accounting may waive the Business Core Requirements and the Accounting Core Requirements.

Waiver of these courses follows the guidelines defined under the Waiver of Courses section.

Business Core Requirements

9 credits (for students with a non-business undergraduate degree or outdated course work that does not meet the waiver requirements). See the communications requirement noted below.

PMBA 8020	Fundamentals of Accounting	3
PMBA 8030	Economic Analysis	3
PMBA 8060	Basic Marketing Principles	1.5
PMBA 8070	Management: Theory & Application	1.5
Total Credits		9

Note: One objective of the MAcc program is to develop strong communication skills. This will be done both formally, through a class for those not demonstrating a level of proficiency expected for business professionals, and informally for all students through faculty review of student-prepared course materials such as research reports, case study write-ups and papers.

Students must have a 4.0 score or higher on the Analytical Writing Section of the Graduate Management Admissions Test (GMAT). This proficiency level demonstrates adequate writing skills and at this level, students will be waived from taking the required business writing course. If a student's score is lower than 4.0, he/she must take the English Department's course ENG 321 Workplace Writing, or a similar writing

course, at a U.S. accredited university at the Junior (300), Senior (400) or Graduate (500 and above) levels. The student must achieve a "C" or better in the course, demonstrating basic proficiency. Course work done outside of Rider University must be approved by the Assistant Dean for Graduate Programs. This requirement must be met within one year of the start of a student's first semester in the MAcc program.

Accounting Core Requirements

18 credits (for non-accounting business undergraduate degree or course work that does not meet the waiver requirements)

ACC 302	Cost Management	3
ACC 310	Acct Theory & Concepts I	3
ACC 311	Acct Theory & Concepts II	3
ACC 400	Principles of Auditing	3
ACC 405	Acct Problems & Practice	3
ACC 410	Fund of Federal Taxation	3
Total Credits		18

The Master of Accountancy (MAcc)–Waiver of Courses

A waiver of a course from the "Business Core Requirements" may be granted under the following conditions:

- If the student has graduated from an AACSB-accredited business program within five years prior to semester admitted, and the student achieved a "B" or better in the equivalent course or sequence of courses.
- If the student has achieved a "B" or better in an equivalent undergraduate course (at an accredited four-year institution) or graduate course (at an AACSB-accredited university) within six years prior to the semester admitted.
- Based on a combination of education and work experience at the Assistant Dean of Graduate Programs' discretion.
- With the approval of the Assistant Dean for Graduate Programs, students may take proficiency exams to test out of the Business Core Requirements courses if the above criteria are not met. A grade of "B" or better is required on the proficiency exams. Within the first year of matriculation, a student is able to take the proficiency exam once on one of the six specified dates. Students may not repeat any proficiency exams.

Waivers of courses for the "Accounting Preliminary Requirements" may be granted as outlined in conditions 1 and 2, if the student receives a "C" or better for these courses. There are no waiver examinations for the "Accounting Preliminary Requirements" for the MAcc program.

When the MAcc "Accounting Preliminary Requirements" or the MBA "Pre-Program Requirements" are waived, the student is responsible for a satisfactory level of competency with the representative material. If necessary, the student should review and/or seek tutoring support for the waived material in preparation of advanced courses. Any appeal of a waiver decision based on previous course work must be made to the Assistant Dean for Graduate Programs within the first semester of the program.

Academic Plan of Study

The MAcc program can be completed on a full or part-time basis. Students should develop a plan of study with the Graduate Business Academic Coordinator.

Courses and Descriptions

MACC 650	Seminar in Federal Taxes	3
MACC 652	Analysis of Accounting Data	3
MACC 654	Issues in Financial Reporting	3
MACC 656	Internatl Dimensions of Acct	3
MACC 658	Govt & Not for Profit Acctng	3
MACC 662	Auditing Practice & Problems	3
MACC 663	Fraud and Forensic Accounting	3
MACC 664	Issues in Managerial Accountng	3
MACC 665	Fraud Detection and Deterrence	3
MACC 667	Bus Val:fund, Tech & Theories	3
MACC 668	Enterprise Risk Management	3
MACC 670	Accounting Internship	3
MACC 690	Special Topics: Entrp Risk Mgt	3

Master of Business Administration (MBA)

The Rider MBA program provides advanced preparation for successful participation in a rapidly changing world. Students are exposed to real-world situations that encourage students to question and analyze. The MBA program is accredited by the AACSB International (<http://www.aacsb.edu>) (Association for the Advancement of Collegiate Schools of Business).

Course Requirements

The MBA Program requires a core of 31.5 credit hours of Breadth course requirements and 9 credit hours of elective courses. Students may also be required to take up to an additional 19.5 credit hours of Pre-Program requirements based on their educational and work experience. A student must complete between 40.5 and 60 semester hours for the MBA, depending on the number of Pre-Program courses that are waived.

To enrich the MBA degree, students may concentrate their electives in the areas of entrepreneurship, global business, finance, management, computer information systems, business analytics, corporate accounting for managers, or forensic accounting.

Breadth Course Requirements

PMBA 8200	Managerial Decision Making	3
PMBA 8210	Information Technology Management	3
PMBA 8220	Strategic Accounting for Manager	3
PMBA 8230	Managerial Economics	3
PMBA 8240	Applied Corporate Finance	3
Analytical Menu Course - choose one of the following		3
PMBA 8250	Operations & Supply Chain Management	
PMBA 8312	Bus Intelligence Tech-Data Mining	
PMBA 8357	Bus Analytics for Managers	
PMBA 8346	Financial Modeling	
PMBA 8317	Applied Data Mgt for Bus Users	
PMBA 8380	Business Analytics Optimizatio	
PMBA 8260	Mkt Analysis & Decision Making	3
PMBA 8270	Adv. Organizational Behavior	3

PMBA 8290	Legal and Ethical Aspects of Management	3
PMBA 8880 & 8880L	Strategic Planning and Strategic Management Simulatn	4.5

Elective Courses

Students are required to complete 9 semester hours of electives to complete the program requirements.¹

Total Credits **40.5**

¹ A minimum of one elective course (3 credit hours) must be on an international business topic. However, for the corporate accounting for managers, forensic accounting or entrepreneurship concentration, the international elective requirement is waived.

Pre-Program Requirements – Courses

(19.5 credits for non-business undergraduates or business undergraduates with outdated course work or course work that did not meet waiver standards)

PMBA 8000	Executive Communications	1.5
PMBA 8010	Information Technology Proficiency	1.5
PMBA 8020	Fundamentals of Accounting	3
PMBA 8030	Economic Analysis	3
PMBA 8040	Basic Financial Principles	1.5
PMBA 8050	Introduction to Calculus	1.5
PMBA 8051	Fund of Statistical Analysis	3
PMBA 8052	Models and Methods of Operations Mgt	1.5
PMBA 8060	Basic Marketing Principles	1.5
PMBA 8070	Management: Theory & Application	1.5

Note:

- One of the learning objectives of the MBA and MAcc programs is to improve the writing skills of the students, which will be done informally for students through faculty review of student-prepared course materials such as research reports, case study write-ups and papers. More formally, all students' writing skills will be assessed by the Analytical Writing Section of the Graduate Management Admissions Test (GMAT). A score of 4.0 or higher on this measure demonstrates adequate writing skills and, at this level, no further courses will be required. If a student's score is lower than 4.0, which demonstrates a level of proficiency lower than that expected for business professionals, the student will be asked to take the English Department's ENG 321 Workplace Writing: Business and Professional Contexts, or a similar writing course at a U.S.-accredited university at the Junior (300), Senior (400) or Graduate (500 and above) levels. The student must achieve a "C" or better in the course, demonstrating basic proficiency. Course work done outside of Rider University must be approved by the Associate Dean for Graduate Programs. This requirement must be met within one year of the start of a student's first semester in the MBA or MAcc Program.

The Master of Business Administration (MBA) – Waiver of Courses

A waiver of a course from pre-program requirements may be granted under the following conditions:

- If the student has graduated from an AACSB-accredited business program within five years prior to semester admitted, and the student

has achieved a "B" or better in the equivalent course or sequence of courses.

- If the student has achieved a "B" or better in an equivalent course (at an accredited four-year institution) or a graduate course within six years prior to the semester admitted.
- Based on a combination of previous education and work experience at the Associate Dean for Graduate Programs' discretion.
- With the approval of the Associate Dean for Graduate Programs, students may take proficiency exams to test out of the pre-program courses if the above criteria are not met. A grade of "B" or better is required on proficiency exams. Within the first year of matriculation, a student is able to take a proficiency exam once on one of the six specified dates. Students may not repeat any proficiency exams.

If a student is granted a waiver for any pre-program requirements, the student is responsible for a satisfactory level of competency with the representative material. If necessary, the student should review and/or seek tutoring support for the waived material in preparation of advanced courses. Any appeal of a waiver decision based on previous course work must be made to the Associate Dean for Graduate Programs within the first semester of the program.

It is possible for students to substitute an elective for an MBA Breadth course in the following situations, so as not to duplicate course work that may have been done as undergraduates:

- Students who graduated in the last five years as marketing majors and had at least a 3.0 in their marketing courses will not need to take PMBA 8260 Mkt Analysis & Decision Making. In its place, students must take an additional elective from the MBA or MAcc programs.
- Students who graduated in the last five years as accounting majors who graduated with at least a 3.0 in their accounting courses, will not need to take PMBA 8220 Strategic Accounting for Manager. In its place, students must take an additional elective from the MBA or MAcc programs.
- Students who graduated in the last five years with an undergraduate degree in Information Systems/Technology, Computer Science or Electrical Engineering with at least a 3.0 GPA in their major area courses and have at least five years professional experience in IS/IT and strategy, OR for students with a graduate degree in Information Systems/Technology, Computer Science or Electrical Engineering and over five years professional experience in IS/IT and strategy will not need to take PMBA 8210 Information Technology Management. In its place, students must take an elective from either the MBA or MAcc program.

Note:

- All students in the MBA program are required to take the Executive Communications course, PMBA 8000 or take the waiver exam. The waiver exam is offered two times a year. Students graded as proficient on their speaking and presentation skills will have PMBA 8000 waived, though they may choose to take the course for their professional development. Students must complete this requirement within one year of their entering semester.

PMBA 8000 Executive Communications 1.5 Credits

This course will provide students with knowledge, skills, and techniques to further develop their presentation skills. This course, which is taught in a workshop style, challenges the students to improve their formal presentation skills, increase the impact of their presentations, and strengthen their confidence. Students will be introduced to different media tools that will support them in advancing their speaking and presentation skills.

PMBA 8010 Information Technology Proficiency 1.5 Credits

Computing proficiency requires understanding implications of advanced information technologies and the ability to successfully apply these technologies in an increasingly global society. This course will enable students to effectively use specific information systems tools (spreadsheet and database management) to begin to design applications for effective decision making.

PMBA 8020 Fundamentals of Accounting 3 Credits

For those students having no previous knowledge of accounting. Subject is approached from the point of view of the user of accounting information rather than that of the accountant who supplies the information. Surveys mechanics of accounting as a means to an end, emphasizing accounting as a tool of management and the language of business. Problems and cases bring out the managerial implications of accounting.

PMBA 8030 Economic Analysis 3 Credits

An intensive exposition of the essentials of price theory and income and employment theory. For students with less than a year of introductory economics at the undergraduate level. Topics include an analysis of markets, the nature and characteristics of producer behavior, the theory of pricing in competitive and non competitive markets, and their welfare effects. At the macro level, coverage of the economy in the short run deals with economic fluxuations, fiscal policy, and monetary policy. An examination of the economy in the long run covers factors effecting economic growth.

PMBA 8040 Basic Financial Principles 1.5 Credits

The central unifying theme of this course is valuation. Valuation is the basis for decisions in all major areas of finance. This course begins with a discussion of basic concepts including time value of money and its application for valuation of stocks and bonds and analysis of risk and return. Further application of valuation for capital investment projects made by a firm is explored by introducing the techniques of capital budgeting.

PMBA 8050 Introduction to Calculus 1.5 Credits

This course has been designed to prepare students for courses in the MBA program in which calculus is used. Topics include limits, derivatives, functions of two or more independent variables and maxima and minima in one and two independent variable(s).

PMBA 8051 Fund of Statistical Analysis 3 Credits

Covers basic statistical techniques useful in business decision making. Includes descriptive statistics, event probability, random variables, sampling distributions, regression analysis and topics in statistical inference.

Prerequisite(s): MSD 105 (or equivalent).

PMBA 8052 Models and Methods of Operations Mgt 1.5 Credits

This course provides students with some of the most frequently used quantitative tools necessary in analyzing and resolving issues and problems in managing service and/or manufacturing operations. These tools are required in PMBA 8053 Operations and Supply Chain Management, and may also be used in other PMBA courses such as Economic Analysis and Decision Making, and Business Intelligence.

PMBA 8060 Basic Marketing Principles 1.5 Credits

The purpose of this course is to provide students with an operational understanding of basic marketing principles and concepts. This will be done through interactive exercises and discussions based both on primary source and textbook readings as well as discussions and critical examinations of current marketing practices in companies and industries of interest to the students. Topics covered include environmental analysis, target marketing, product and service strategy, integrated marketing communications, channels of distribution, pricing practices, and the interface between marketing and corporate strategic planning.

PMBA 8070 Management: Theory & Application 1.5 Credits

A foundation course that provides an introduction to the theory and practice of management. The management functions of planning, organizing, leading, and controlling provide an organizing framework for examining current management challenges (e.g. globalization, ethics, diversity, and multidimensional organizational structures).

PMBA 8200 Managerial Decision Making 3 Credits

In this course, students will improve their managerial and analytical thinking skills through a range of approaches and techniques. Students will learn to analyze business problems within the context of managerial decision making. The course is designed as a series of seminars and will be organized in three areas, each with its complementary learning goals: Business Intelligence, Enterprise Analysis, and Executive and Managerial Decision Making.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8210 Information Technology Management 3 Credits

This course introduces the theory and practice of Information and Communication technologies deployment in organizations. This includes planning, analysis, design, and implementation of computer-based management information systems (MIS). The course emphasizes an understanding of emergent cutting-edge technological phenomena and the effect of information systems on the practice of management.

Prerequisite(s): Completion of PMBA 8010.

PMBA 8220 Strategic Accounting for Manager 3 Credits

This course emphasizes the issues encountered by managers regarding performance measurement, incentives, ethics and strategic management accounting tools. Students will learn to recognize ethical issues and apply a code of conduct to those issues, understand the criteria for recognizing revenue, analyze cash flows for investment decisions, compute measures of returns on investments, and understand the uses of a Balance Scorecard in performance evaluation. This course will also cover transfer pricing issues and methods in domestic and international settings, the application of differential analysis to a variety of short-run decisions, and the application of traditional costing methods, activity-based costing, activity-based management, and target costing to products and services. Preparation of a master budget and its role in planning, control, and decision making is also discussed. This course is not open to MAcc students.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8230 Managerial Economics 3 Credits

Focuses on using economic methods for making managerial decisions affecting the value of the firm. Topics include demand analysis, production and costs, employment decisions, project evaluation, profit-volume analysis and pricing strategies under a variety of settings. The course emphasizes integration between economics, accounting, and finance.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8240 Applied Corporate Finance 3 Credits

This course is designed to further develop the students' skills through practical application of concepts and tools taught in prior finance courses. Students will learn by solving real-world case studies and learning to communicate clearly their decisions to both sophisticated and lay audiences. The primary method of instruction is the preparation, presentation, and discussion of finance cases. Each case study session will be preceded by lectures and discussion of the main theoretical concepts. The case studies considered will cover a wide range of corporate financial problems including value creation, capital budgeting, capital structure, cost of capital, and mergers and acquisitions. Throughout the course, attention will be given to the international dimensions of the issues and problems presented and discussed. This course applies to the Corporate Accounting for Managers concentration (MAcc only).

Prerequisite(s): Completion of PMBA 8040 and PMBA 8220.

PMBA 8250 Operations & Supply Chain Management 3 Credits

This course provides MBA students with the current knowledge and practice of operations and global supply chain management. Supply chain management has become one of the most important and talked about topics in business in recent years. Many companies have realized that they can reduce their costs, increase profits, and increase customer satisfaction by improving their supply chain practices. It is also evident that most supply chains extend beyond the borders on the U.S., and consequently, have global components and challenges. This course is designed to prepare students to meet operations and supply chain related challenges in their careers. This is part of the Analytics Menu.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8260 Mkt Analysis & Decision Making 3 Credits

The purpose of the course is to provide the analytical skills required to understand complex marketing situations in order to develop and implement appropriate marketing strategies. The decision-making processes in the management of product planning, pricing practices, selection of channels of distribution and development of effective promotion programs are investigated. This involves identification and selection of appropriate target markets, the effective use of marketing research and recognition of organizational dynamics. The case approach is used to develop communication skills and further build team skills as students interact with peers in solving problems.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8270 Adv. Organizational Behavior 3 Credits

A study of key individual, group, and organizational processes. At the individual level, the focus is on different personalities, job attitudes, and work motivation. The implication of individual factors is then considered in a team context focusing on the processes of communication, influence, conflict, and leadership. Finally, we examine the impact of organizational culture and change on workplace behavior. In order to integrate the individual, group, and organizational levels of study, the course emphasizes a team-based approach to learning.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8290 Legal and Ethical Aspects of Management 3 Credits

The purpose of this course is to prepare students to meet the legal, ethical, and regulatory challenges and opportunities they will encounter as they conduct business as managers and entrepreneurs. To excel, managers and entrepreneurs must recognize that the law is important to firm success and that they must always consider the legal ramifications of their business decisions. Students will learn how to identify legal and ethical issues before they become legal problems and how to communicate and work collaboratively with legal counsel. The course begins with an overview of business ethics and social responsibility and goes on to cover the U.S. court system and the laws of contracts, torts, and intellectual property. The course covers corporate governance issues including the fiduciary duties of officers, directors, and controlling shareholders, public and private offerings of securities, and securities fraud. Environmental regulation, product quality, legal aspects of the employment relationship (as they relate to the liability of the corporation and managers for the acts of their employees), wrongful termination, discrimination, and sexual harassment will also be covered.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8303 International Business Study Tour 3 Credits

This course provides a cross-cultural perspective for conducting business outside of the United States. Students will gain a better appreciation of how culture, history, and politics influence organizational dynamics, transactions and business customs. This course applies to the Global Business concentration. This course will satisfy the International elective requirement.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8312 Bus Intelligence Tech-Data Mining 3 Credits

In this course, students will learn to solve problems/exploit opportunities by processing datasets, interpreting results, and deploying solutions. This course provides hands-on experience with these tasks. Upon this base of experience, students will build a robust data mining methodology that can be applied to real-world investigations. The course of study will include Online Analytical Processing (OLAP), statistical and machine learning techniques, and unstructured text analysis. Students will learn to apply these techniques through the study of payroll, procurement, and expense report fraud. Cell phone and credit card fraud, credit and bankruptcy analysis, and customer relationship management will also be covered. This course applies to the Information Systems, Forensic Accounting, and Fraud & Forensic Accounting concentrations. This is part of the Analytics Menu.

PMBA 8313 Electronic Commerce 3 Credits

Electronic commerce involves the use of information technology to improve, enhance, simplify or enable business transactions. This course examines such business, social, and technical issues of electronic commerce as the technology of the Internet, effective system strategies to attract and maintain customers, security, and electronic payment systems. This course applies to the Information Systems and Entrepreneurship concentrations.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8314 Project Management 3 Credits

in our complex world of global economies and pervasive technology, change is constant. It is a persistent challenge to manage this change. It is the body of knowledge that is project management that helps managers address this change. This course will introduce students to project management for a variety of disciplines. The methods and techniques taught will be applicable not only to software development, but to any series of tasks that could constitute a project. The course content will cover the identification, approval, and management of complex projects. Various project management tools, techniques, and approaches will be covered. This course applies to the Information Systems and Entrepreneurship concentrations.

PMBA 8315 Globalization and Technology 3 Credits

The emergence and growth of the global economy constitutes an epochal shift in the organization of the world. Technology has been a key component in the production and acceleration of these phenomena. This course introduces students to the latest theoretical and empirical literature on globalization as shaped by technology. This course applies to the Information Systems and Global Business concentrations. This course will satisfy the International elective requirement.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8317 Applied Data Mgt for Bus Users 3 Credits

Learn the benefits of data sharing in a business organization, the benefits of the relational database model, how data is structured in a relational database model, and how data can be accessed in a relational database using the structured query language (SQL). The process of formatting, loading, and accessing data for data analytics will be shown as well as the interaction with data warehouse schemas such as the star schema and snowflake scheme.

PMBA 8319 Selected Topics in CIS 3 Credits

The study of a topic (or combination of topics) that represents some dimensions of computer information systems or has important and direct implications for CIS management. Topics recently covered include project management, data mining and data privacy. Theoretical foundations as well as applications may be explored. Readings, research, lectures, projects, discussions or other appropriate methods are employed to stimulate student learning. This course applies to the Information Systems concentration.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8321 Managerial Taxation and Strategy 3 Credits

This course is designed for students who are embarking on (or already in) careers in investment banking, corporate finance, strategy consulting, money management, or venture capital. The focus of the course comes from integrating the tax law with the fundamentals of corporate finance and microeconomics. This course applies to the Corporate Accounting for Managers Concentration.

Prerequisite(s): PMBA 8020.

PMBA 8324 Financial Accounting & Report 3 Credits

Focus is on analysis and evaluation of alternative accounting methods and the relationship to company policy. Insight is gained through the reading of articles in leading accounting and financial periodicals and Internet research. Cases demonstrating financial reporting methods are assigned and discussed in class. Term project required. Topics include financial instruments, earnings per share, deferred taxes, post-retirement benefits and the accounting rule-making process. This course applies to the Corporate Accounting for Managers concentration.

Prerequisite(s): PMBA 8020 and PMBA 8040.

PMBA 8325 Enterprise Risk Management 3 Credits

This course explores current issues and world-class practices of risk management at an organizational level. Emphasis will be placed on the overall risk management cycle of identifying, assessing, responding and managing strategic, reputational, financial and operational risks using contemporary risk management tools.

Prerequisites: ACC 302 or PMBA 8220.

PMBA 8335 International Trade & Invest 3 Credits

A study of the international economy in which business firms operate, and public policies that influence their activities. Includes international trade theory, balance of payments analysis, the international monetary system, barriers to trade, and the role of multinational corporations. This course applies to the Global Business concentration. This course will satisfy the International elective requirement.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8341 Corporate Treasury Management 3 Credits

This course is designed to provide an understanding of modern principles and techniques for corporate treasury management. The course materials are useful for finance, banking, accounting and information system professionals or small business owners. Topics include analysis of liquidity and solvency, credit and accounts receivable management, cash collection and disbursement systems, short-term investment and borrowing, management of treasury information and technology, multinational cash management, and other related topics. Success in this course will help students preparing for the Certified Cash Manager (CCM) exam. This course applies to the Finance concentration.

Prerequisite(s): Completion of PMBA 8040.

PMBA 8343 Investment Instruments and Strategies 3 Credits

Principles of investment analysis and portfolio management. Includes analysis of stocks and fixed income securities, mutual funds, international investing, margin trading and short sales, convertibles, stock options and financial futures. Hedging strategies, market forecasting and tax advantaged investments are also discussed. Makes considerable use of problems to illustrate concepts. This course applies to the Finance concentration.

Prerequisite(s): Completion of PMBA 8040.

PMBA 8344 Financial Market Operations 3 Credits

Flow of funds analysis is used to study financial intermediation and interest rate determination in money and capital markets. Includes the flow of funds accounts, funds flow through financial institutions, the demands for and supply of credit by economic sectors, and the impact of public policies on financial market behavior. This course applies to the Finance and Global Business concentrations.

Prerequisite(s): Completion of PMBA 8040.

PMBA 8345 International Financial Management 3 Credits

The techniques of multinational financial management are developed for enterprises that do business in more than one country and/or have assets and liabilities denominated in more than one currency. The management of foreign exchange and country risks is applied to working capital, capital budgeting, and capital structure decisions. This course applies to the Finance and Global Business concentrations. This course will satisfy the International elective requirement.

Prerequisite(s): Completion of PMBA 8040.

PMBA 8346 Financial Modeling 3 Credits

Spreadsheets are utilized to analyze problems and cases. Students receive instruction in computer use beyond that available in other finance courses. Spreadsheet applications include valuation models, cost of capital, capital budgeting, risk and return, portfolio analysis, stock market analysis, and options and futures. This course applies to the Corporate Accounting for Managers, Finance and Entrepreneurship concentrations. This is part of the Analytics Menu.

Prerequisite(s): Completion of PMBA 8040.

PMBA 8347 Portfolio Management 3 Credits

Real-world application of the concepts and techniques of investment analysis and portfolio theory. Students interact with and make recommendations to professional portfolio managers. Topics include stock valuation methods, major forces driving movements in current equity markets, international investment opportunities, industry analysis, technical analysis and investment timing, evaluation of portfolio performance, analysis of business conditions and interest rates, and hedging portfolio risk with stock index options and financial futures. This course applies to the Finance concentration.

Prerequisite(s): Completion of PMBA 8040.

PMBA 8348 Fixed Income Sec. & Alt Invest 3 Credits

This is an introductory course in fixed income securities and alternative investments. The first part of the course covers the markets for fixed income securities and their derivatives. Valuation of these securities and determination of the risk inherent in these securities are discussed. Methods for managing that risk, such as hedging and credit derivatives, are also discussed. The second part of the course covers a variety of alternative investments, including real estate funds, venture capital, hedge funds, and commodities. Valuation of these investments and determination of their risk are discussed.

Prerequisite(s): Completion of PMBA 8040 or any MAcc student with PMBA 8020 completed.

PMBA 8349 Personal Financial Planning 3 Credits

This course provides a background and an appreciation of the fundamental concepts and processes associated with Personal Financial Management. Various technical elements that are part of the study for a Certified Financial Planner certification will be covered including risk management, investments, tax planning, retirement planning, employee benefits, and estate planning.

Prerequisite(s): Completion of PMBA 8040 or any MAcc student with PMBA 8020 completed.

PMBA 8354 Quality Assurance and Total Quality Mgt 3 Credits

This course integrates the concepts of statistical quality control and the practices of today's leading companies in creating systems of total quality management (TQM). Considers how various business functions (e.g., production, engineering and design of products and services, purchasing raw materials, providing technical assistance to customers, and statistical quality control) and their interrelationships can be used to create high-quality products, and, thus, high levels of customer satisfaction. Includes traditional statistical methods for process control, acceptance sampling, reliability and quality improvement, as well as numerous examples of U.S. and foreign firms at the cutting edge of TQM. Introduces current thinking of leading figures in TQM.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8357 Bus Analytics for Managers 3 Credits

Business Analytics, the data driven approach to management, is essential to achieve effective business decision-making and competitive advantage. All business managers need to analyze data and make quantitative-based decisions in their business careers. The focus of this course is to equip students with a variety of data analysis methods and tools that are useful to uncover trends, patterns, relationships, and other useful information. The course will take a hands-on, example-based approach and introduce fundamental concepts as they are needed. The primary tool is spreadsheet software-specifically Microsoft Excel. This course is part of the Analytics Menu.

Prerequisites: PMBA 8010 and PMBA 8051.

PMBA 8361 Business to Business Marketing 3 Credits

The practices and policies used in the marketing of goods and services to business and industrial buyers are analyzed, focusing on the market and demand for products, marketing research, product planning, channels of distribution, pricing policies and practices and the development of sales program and service policies.

Prerequisite(s): Completion of PMBA 8060.

PMBA 8362 Marketing Communications 3 Credits

This course dynamically blends the concepts and issues of integrated marketing communications with real world experiences. It is highly interactive, with students spending time in teams creating solutions, presenting, and feeling the experience of being in real life marketing communications situations. Students also will be exposed to current and classic literature pertaining to the course content.

Prerequisite(s): Completion of PMBA 8060.

PMBA 8363 Consumer Behavior 3 Credits

The purpose of this course is to provide the analytical skills required to understand the nature of consumer decision making and internal and external factors that influence buying decisions in order to develop and implement appropriate marketing strategies. A case study approach is utilized in this course. This will be done through the analysis of actual marketing problems faced by a variety of organizations. The readings and class discussions will also include internal and external influences on consumer behavior, marketing research tools, marketing strategies to reach consumers and shape consumers' opinions, the role of marketing communications and marketing mix elements in creating a unique value proposition, and managing consumer relationships.

Prerequisite(s): Completion of PMBA 8060.

PMBA 8364 Marketing Research 3 Credits

An overview of the subject matter which will assist students in developing an appreciation for the use by marketing management of marketing research and marketing information systems in making marketing decisions. Topics include specific research procedures for gathering, processing, analyzing and presenting information relevant to marketing problems in such areas as: advertising effectiveness, product development, distribution channels, sales techniques, consumer behavior, and forecasting study of research planning, implementation, and interpretation of findings is facilitated by the use of cases or projects.

Prerequisite(s): Completion of PMBA 8060.

PMBA 8365 International Marketing Mgmt 3 Credits

Examination of the nature and scope of global marketing activities, including the theoretical framework of international marketing, foreign marketing environments, multinational markets, MNC information systems, strategic marketing decisions, and organization for transnational marketing. This course applies to the Global Business concentration. This course will satisfy the International elective requirement.

Prerequisite(s): Completion of PMBA 8060.

PMBA 8369 Selected Topics in Marketing 3 Credits

The study of a topic (or combination of topics) that represents some dimension of marketing or has important and direct implications for marketing management. Theoretical foundations as well as special applications of marketing decision-making may be explored. Readings, research, lectures, discussions or other appropriate methods are employed to stimulate student learning.

Prerequisite(s): Completion of PMBA 8060.

PMBA 8371 Human Resource Management 3 Credits

This course is an introduction to the field of human resource management (HRM). The goal is to provide students with an understanding of current corporate HR practices. Common HR problems and the tools and procedures for dealing with them will be discussed. Contemporary topics such as strategic HR planning, international staffing, career planning, workforce diversity, work/family balance, and work motivation will be examined. EEO guidelines and their implications for human resource functions will be discussed as well. A combination of conceptual and experiential approaches include discussions, case studies, exercises, small group activities, and lectures. This course applies to the Management concentration.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8372 Management Skills 3 Credits

This is a practicum in interpersonal skills that are useful for practicing managers. Topics include motivating oneself and others, persuasive communication, creative problem-solving, managing conflict, using power constructively, managing change, and team management. Students are given opportunities to practice these skills in class and are asked to apply them to their current lives and report on the results of their applications. The course will provide students with a better understanding of the art of managing and of themselves as current or future managers. This course applies to the Management concentration.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8375 International Management 3 Credits

This course focuses on the complexities of working and managing in a global business environment. Emphasis is placed on cross-cultural awareness, international communication, and negotiations. Students will explore the effect of culture on organizational behavior, managerial decision making, and global leadership. This course applies to the Management and Global Business concentrations. This course will satisfy the International elective requirement.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8376 Org Development & Effectiveness 3 Credits

This course focuses on Organization Development (OD), a discipline concerned with improving organizational effectiveness by means of planned, systematic interventions. The course will acquaint students with OD concepts, techniques, and skills. The course provides opportunities for students to explore and enhance their personal skills as change agents and consultants. The teaching/learning process emphasizes experiential activities and case analysis. This course applies to the Management concentration.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8377 Managing Workforce Diversity 3 Credits

This course explores the opportunities and challenges of the increasingly diverse workforce emerging in the U.S. today. It will address the knowledge and skills managers must develop in working with others who are different from themselves. Some of these differences are obvious - gender, race, age, and physical characteristics. Other differences are not as easily observed such as family structure, educational level, social class, and sexual orientation. Understanding and valuing diversity requires attitudinal self-assessment and change. Values, stereotypes, and prejudices will be explored through readings, reflective writing, and active involvement in discussions, projects, and activities. This course applies to the Management concentration.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8380 Business Analytics Optimizatio 3 Credits

This course has been designed to provide professional MBA students with the current knowledge and practice of optimization business analysts use. Optimization aims at selecting the best alternative from among available alternatives according to a predetermined objective. In general it involves building a mathematical model and finding the best alternative through a mathematical procedure. Optimization techniques help decision-makers make fact (i.e. data) based decisions and offer the potential of making significant profits or cost savings. The main focus of this course will be on developing modeling skills to gain insight into a wide variety of business decision problems. In other words, the emphasis in this course will be on modeling practical business decision problems, use of relevant software for optimal solution, interpretation of results, and sensitivity analysis rather than the theory of mathematical solution techniques. Coverage of course material will follow the typical sequence of (1) identification and discussion of a business decision problem; (2) developing a graphical model (e.g. influence diagram); (3) developing a mathematical model; (4) computer solution; (5) interpretation of results and sensitivity analysis; (6) discussion of insights gained from the experience; (7) discussion of implementation issues. In addition, heuristics will be discussed when optimization techniques are not available or too costly.

Prerequisites: PMBA 8010 and PMBA 8051.

PMBA 8383 Entrepreneurship 3 Credits

The course deals with new business venture start-up. Topics include entrepreneurship concepts and characteristics, new venture types and pros/cons, choice of products/services, market study, marketing planning, financing, and business plan preparation. Practical exercises in developing business plans for new business ventures are part of the course. This course is required for the Entrepreneurship concentration. This course applies to the Management concentration.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8384 Consulting for New and Small Ventures 3 Credits

This course provides experience-based learning to students through the use of student teams to assist area small businesses/organizations. These small firms could have a variety of needs ranging from market research, improving financial reporting and bookkeeping, business planning, streamlining operational procedures, etc. This course will provide students the opportunity to experience in-depth analysis of an individual organization. The emphasis is on student consultants generating immediate, actionable recommendations for the client. Thus, this course is useful not only for those considering small business ownership, but provides an opportunity to students to learn entrepreneurial thinking. This course applies to the Entrepreneurship concentration.

Prerequisite(s): Completion of MBA pre-program courses and permission of instructor.

PMBA 8385 New Venture Launch 3 Credits

Students will start and run a new venture while under the supervision and guidance of faculty. Students will take a business plan they have developed and execute it. This is an opportunity to experience the launch process and learn hands-on how to adapt to the marketplace. Some businesses started in this class may also be eligible to receive venture funding from Rider. This course applies to the Entrepreneurship concentration.

PMBA 8386 Green Entrepreneurship 3 Credits

This course is both a traditionally academic graduate course and a practical, case study based, business development course. Lectures will present the scientific, technical, financial, and business underpinnings required to understand the rationale for and the range of solutions possible that businesses can utilize when initiating or developing sustainable practices or new entrepreneurs can consider as they develop new businesses. Students will be learning about real business examples and discussing how the technical aspects of sustainability interact with the more practical and immediate demands of running a business – making a profit and maintaining positive cash flow while acting ethically.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8389 Tax Planning for Entrepreneurs 3 Credits

The business and personal finances of an entrepreneur are integrally related. Often personal resources fund business operations and business resources fund individual necessities and obligations. This course is designed to familiarize the entrepreneur with wealth maximization and tax minimization strategies for business and personal activities. This course covers basic tax compliance concepts and includes personal financial planning and estate planning issues. Restricted to MBA students only. This course applies to the Entrepreneurship concentration.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8397 Evidence Management and Presentation 3 Credits

This course addresses legal issues and practical considerations involved in the collection, acquisition, analysis and storage of digital evidence and presentation of digital and technical evidence to judges, juries and other decision makers. The law of evidence and its implications for the manner and method technical evidence is acquired and presented for consideration in court or in other proceedings (i.e. criminal, civil, or administrative). Requirements and preparation for the presentation of technical evidence as an expert or fact witness.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8402 The Business of Sports 3 Credits

This course examines diverse managerial issues involving the sports industry. The course covers topics at the league level, the team level, the athlete-agent level, and the college level. The constituencies with interests in sports issues such as athletes, fans, media, companies, advertisers, and legislators are discussed along with global aspects of sports enterprises. Valuation issues related to sports teams are also covered. The course is designed to integrate all aspects of businesses as they apply to sports with an emphasis on strategy, management, marketing, and finance.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8491 Business Law 3 Credits

Considers in depth the law relating to the sale of goods, commercial paper, and secured transactions as promulgated by the Uniform Commercial Code. Explores warranties, guarantees, remedies, and product liability. Also considers the law of agency, partnerships and corporations. International dimensions of sales law and related topics are addressed. Students who have taken BUS 211 Commercial Law or BUS 214 Advanced Business Law cannot take this course. This elective is particularly appropriate for students in the MAcc program and in anticipation of CPA law requirement; this course applies to the Entrepreneurship concentration.

Prerequisite(s): BUS 210 Introduction to Law: Contracts or its equivalent at another college or university; requires completion of MBA pre-program courses.

PMBA 8492 Ethical Issues in Business 3 Credits

An introduction to identifying, analyzing and resolving ethical dilemmas in business. The course begins with a general introduction to ethics, considers ethical issues connected with the economic systems within which modern business takes place and heavily emphasizes contemporary cases that illustrate a wide range of ethical issues.

Prerequisite(s): Completion of MBA pre-program courses.

PMBA 8880 Strategic Planning 3 Credits

This course provides an understanding of the strategic management process. Students will analyze and discuss concepts and cases relating to strategic management, make strategic decisions for a hypothetical company in the online computer simulation project, and develop a detailed action plan to resolve a hypothetical business situation (PMBA 8880L). This course will cover the analysis of the strategic process of studying and forecasting the external environment of the firm, assessing the present and future enterprise strengths and weaknesses, setting enterprise goals with recognition of personal and societal goals, and evaluating performance and progress toward those goals. Provides the student with an integrated view of the functional decisions and corporate strategy. **Prerequisite(s):** All other MBA breadth courses.

Corequisite(s): PMBA 8880L.

PMBA 8880L Strategic Management Simulatn 1.5 Credits

Students will analyze and discuss concepts and cases relating to strategic management, make strategic decisions for a hypothetical company in the online computer simulation project, and develop a detailed action plan to resolve a hypothetical business situation.

Corequisite: PMBA 8880.

PMBA 8902 Independent Studies in Business Adm. 3 Credits

Involves a program determined by the individual faculty member and approved by the program director. Written assignments are required as part of this rigorous academic experience. Students are eligible for a maximum of one independent elective and should have completed at least three breadth courses prior to the start of the independent study.

Prerequisite(s): Completion of MBA pre-program courses and permission of the Assistant Dean of Graduate Programs.

PMBA 8905 Internship 3 Credits

In order to supplement in-class learning with practical training, an internship may be taken for three elective credits. The internship may not be done at a student's current employer. An internship may only be taken if the student has been enrolled for at least one full academic year and during the semester he/she receives credit for the internship is taking at least three graduate-level classes (including the internship course). The course will be supervised by a full-time faculty member and will follow a structure similar to that of independent study. Course grades will be determined by evaluations from the student's on-site supervisor, as well as the sponsoring faculty member.

Prerequisite(s): Completion of MBA pre-program courses and permission of the Assistant Dean of Graduate Programs.

PMBA 8906 Selected Topics in Business Administration 3 Credits

The study of a timely topic that represents a dimension of business administration not covered in a regular course. Such a topic may be offered by any department of business administration. The nature of the course will be described in the appendix of the registration materials for the semester when the course will be offered.

Prerequisite(s): To be announced and completion of MBA pre-program courses.

PMBA 8907 Selected Topics in Business Administration 3 Credits

The study of a timely topic that represents a dimension of business administration not covered in a regular course. Such a topic may be offered by any department of business administration. The nature of the course will be described in the appendix of the registration materials for the semester when the course will be offered.

Prerequisite(s): To be announced and completion of MBA pre-program courses.

PMBA 8908 Selected Topics in Business Administration 3 Credits

The study of a timely topic that represents a dimension of business administration not covered in a regular course. Such a topic may be offered by any department of business administration. The nature of the course will be described in the appendix of the registration materials for the semester when the course will be offered.

Prerequisite(s): To be announced and completion of MBA pre-program courses.

PMBA 8909 Selected Topics in Business Administration 3 Credits

The study of a timely topic that represents a dimension of business administration not covered in a regular course. Such a topic may be offered by any department of business administration. The nature of the course will be described in the appendix of the registration materials for the semester when the course will be offered.

Prerequisite(s): To be announced and completion of MBA pre-program courses.

PMBA 8989 Spec Topics Entrepreneurship 3 Credits

Special Topics in Entrepreneurship.

Online Master of Accountancy (OL MACC)

Program Overview

The Online Master of Accountancy (MAcc) is designed for working professionals with a background in accounting who seek advanced credentials and education for CPA or other professional licensures.

The program provides additional knowledge and depth required of accounting professionals while meeting the educational requirements for CPA licensure. In addition to four required courses, the MAcc allows for concentrations in specialized areas including forensic accounting as well as a CPA track. The accounting faculty who teach in the program research in top accounting publications and are actively involved in the professional community.

Curriculum Overview

Course work and connections with fellow students and faculty are facilitated through our user friendly technology platform. Students also have access to the MAcc resource center including webinars from leading accounting professionals on matters in the profession and CPA licensure.

The program consists of four required courses and provides for six electives to customize the MAcc experience.

Associate Professor and Chairperson

Sweigart Hall 350

609-895-5505

oreillyallen@rider.edu (oreillyallen@rider.edu)

Degree Offered

- MAcc Master of Accountancy

Program website www.rider.edu/cba (<http://www.rider.edu/cba>)

Associated Department: Business Administration

Related programs

- Executive MBA (p. 693)
- Master of business administration (p. 697)

The Online MAcc program is designed for students who have completed an undergraduate accounting major or have completed a series of both business and accounting prerequisite courses as part of an undergraduate/graduate program or independently at a four year university. The program consists of 30 semester hours at the graduate level and is structured as a 16-month cohort-based program.

For students who do not have an undergraduate degree in accounting or business the following courses must be taken prior to enrolling in the online MAcc.

Business Core Requirement Courses

- Macroeconomics and Microeconomics (6 Undergraduate Credits)
- Principles of Marketing (3 Undergraduate Credits)
- General Accounting and Managerial Accounting (6 Undergraduate Credits)
- Fundamentals of Management

(3 Undergraduate Credits)

Accounting Core Requirement Courses

- Intermediate Accounting I & II (6 Credits)
- Advanced Accounting (3 Credits)
- Cost Accounting (3 Credits)
- Federal Taxation (3 Credits)
- Auditing (3 Credits)

MACC and Online MACC–Waiver of Courses

A waiver of a course from the “Business Core Requirements” may be granted under the following conditions:

- The Preliminary Requirements (business core courses) may be waived if the student has graduated from an AACSB-accredited business program within five years prior to semester admitted, and the student achieved a “B” or better in the equivalent courses or sequence of courses.
- One or more Business Core Requirement courses may be waived if the student has achieved a “B” or better in an equivalent undergraduate course (at an accredited four-year institution or graduate course (at an AACSB-accredited university) within six years prior to the semester admitted.
- One or more Business Core Requirement courses may be waived based on a combination of education and work experience at the Assistant Dean for Graduate Programs’ discretion.
- With the approval of the Assistant Dean for Graduate Programs, students may take proficiency exams to test out of the Business Core Requirements courses if the above criteria are not met. A grade of “B” or better is required on the proficiency exams. Within the first year of matriculation, a student is able to take any of the proficiency exams once. They will be offered on specified dates throughout the year. Students may not repeat any proficiency exams.

Waivers of courses for the “Accounting Core Requirements” may be granted as outlined in conditions 1 and 2, if the student receives a “C” or better for these courses. There are no waiver examinations for the “Accounting Core Requirements” for the MACC program. When the MACC “Accounting Core Requirements” or the MBA “Pre-Program Requirements” are waived, the student is responsible for a satisfactory level of competency with the representative material. If necessary, the student should review and/or seek tutoring support for the waived material in preparation of advanced courses. Any appeal of a waiver decision based on previous course work must be made to the Assistant Dean for Graduate Programs within the first semester of the program.

Upper Level Required Accounting Courses

or MACC 667	Bus Val:fund, Tech & Theories	

PMBA 8491	Business Law	3
Total Credits		30

Concentrations for MBA, MACC & EMBA Students

Concentration Overview

The required courses in the MBA, MAcc and EMBA provide a distinct and consistent advanced business knowledge and skill structure for all students in the programs. The electives allow the student to tailor the graduate educational experience to fit individual needs.

Concentrations are comprised of three-course elective (nine credit hours) sequences defined from a menu of electives by either the functional area (finance, computer information systems, business analytics, management, forensic accounting or fraud and forensic accounting) or interdisciplinary area (entrepreneurship, global business, or corporate accounting for managers).

Electives counted toward a concentration must carry a grade of “B” or better, and students must achieve a 3.20 GPA in those electives. Students may elect to pursue a general management option in lieu of a specific concentration.

Concentrations for MBA, MAcc and EMBA students

- Business Analytics (p. 706)
- Corporate Accounting for Managers (p. 707)
- Entrepreneurship (p. 707)
- Finance (p. 707)
- Forensic Accounting (p. 707)
- Fraud & Forensic Accounting (MACC Students) (p. 707)
- Global Business (p. 707)
- Information Systems (p. 708)
- Management (p. 708)

Business Analytics

Policies

Admission Requirements

MBA, MAcc, and Online MAcc

No decision is made on an application for admission to the graduate programs of business administration until all required credentials have been submitted. These include a completed application form, a \$50 application fee, official notification by GMAC as to the score achieved on the Graduate Management Admissions Test (GMAT), resume, statement of aims and objectives, and an official transcript from every institution of higher learning attended. To be admitted to the programs, an applicant must show evidence that he or she has earned a bachelor's degree or equivalent from an accredited institution of higher learning and has the potential to perform satisfactorily at the graduate level. The primary criteria used in making admission decisions are the undergraduate grade point average, the score achieved on the GMAT, professional experience, and graduate level GPA (if applicable). The Graduate Record Examination (GRE) is acceptable as an admissions examination in place of the GMAT.

The GMAT requirement will be waived for MAcc or MBA applicants who have passed the CPA certifying exam or hold a Ph.D. from an accredited university in the United States. The GMAT requirement will also be waived for MAcc students who have passed the CMA exam.

The GMAT will be waived for potential MAcc students who:

- Have completed at least 90 undergraduate credits in an accounting program from a U.S. AACSB-accredited university in the last five years.
- At the time of application, have an overall GPA of at least 3.3 and a 3.3 GPA in accounting.

Students who meet the criteria will be accepted conditionally into the MAcc program. The conditions of admission will be to maintain

the minimum GPA requirement throughout the remainder of the undergraduate program and successfully complete the undergraduate program. After the conditions are met, students will be formally admitted into the MAcc. Accounting graduates, who meet the above criteria, will be directly admitted to the MAcc program.

International students are required to present evidence of completion of a university degree equivalent to, or higher than, a bachelor's degree in the United States. A program equivalency evaluation by a recognized evaluation service is required. World Education Services in New York City is suggested for this service. International applicants must also provide a notarized financial resource statement or notarized bank statement demonstrating their ability to pay the total cost of attendance at Rider.

If a student is conditionally admitted, (i.e., not satisfying one of the requirements above), he/she has no more than four months to satisfy the conditions. Exception to satisfying the conditions can only be approved by the Associate Dean of Graduate Programs.

EMBA

To qualify for the program, you must demonstrate the following:

Academic Background

- Bachelor's degree from an accredited university
- Minimum 3.0 GPA (if the student's GPA is less than 3.0, the GMAT may be required)

Business-Related Background

- Full-time employment
- Minimum five years of work experience
- Three years managerial/supervisory experience
- Two work-related recommendations (employer or another business-related source)

Interview

Students will also have a personal interview with the EMBA Program Director to assess their academic and professional qualifications and readiness for the program.

Admission Classifications

Each student admitted to the MBA or MAcc program is assigned to one of the following classifications:

Full Standing

Students who have full standing are permitted to register for any pre-program courses that have not been waived or for certain breadth courses, if those courses are needed by the student.

Special

Special student status is granted to those students enrolled in a graduate program at another institution who have been granted permission to take graduate business courses at Rider.

Non-matriculated MBA and MAcc Students

Students are allowed to take up to a total of 12 credit hours (a maximum of 6 credit hours in any one semester or summer session, a total of 12 in one and one-half years) as non-matriculated students if they meet the following criteria:

- They have had two or more years of work experience after the completion of their undergraduate studies;

- They have achieved a 3.0 GPA in their last 60 credit hours or a 3.0 overall GPA for their undergraduate degree at an accredited university;
- They meet the prerequisites for the specific class; and.
- The classes that they are taking as non-matriculated students are not classes that could be waived if they were admitted to the program.

At any point up to four years after successful course completion (defined as "B" or better), should the student decide to apply to the MBA or MAcc program and be accepted, these courses will be "transferred" and count towards the completion of the degree.

For any student who achieves a 3.3 or higher for the twelve (12) credit hours of CBA graduate course work completed as a non-matriculated student, with no grades below a "B" (no B-'s or below), we will waive the GMAT (or GRE) requirement, and evaluate their admission to our program based on their professional and academic record and professional experience. The twelve (12) credits used for admission evaluation purposes cannot include PMBA 8000 Executive Communications or PMBA 8010 Information Technology Proficiency, which are pre-program requirements not necessarily indicative of graduate academic performance.

Executive MBA students are admitted as "full standing" only.

Transfer of Courses

A student may request the transfer of a graduate course taken at an AACSB-accredited institution. Such a request may be granted if the course was taken within the past three years, was passed with a grade of "B" or higher, and was taken before admission to the MBA program at Rider. Once a student has been admitted to the program, graduate courses taken at other AACSB-accredited institutions must have prior approval of the Associate Dean for Graduate Programs before transfer credit will be allowed. A maximum of six semester hours of transfer credit may be granted for application against the elective requirements. No academic credit will be granted for corporately-sponsored management or professional development courses.

As the EMBA program is cohort-based, the transfer of courses does not apply.

Advising

The Academic Coordinator of Graduate Programs is the advisor to students in the MBA and MAcc programs and tracks program progress. The Director of the Executive MBA Program is the advisor to the EMBA students. Students are also encouraged to contact members of the faculty and the programs' executives-in-residence for career and related advising.

Note: The most significant policies and procedures for the graduate business programs are covered in this catalog. Questions and issues not addressed here default to *The Source* and other University-wide policy statements.

Course Repeat Policy

With the written permission of the Associate Dean for Graduate Programs, MBA and MAcc students may repeat graduate courses for which they received grades of "C+" or lower. Both grades will appear on the student's transcript, but only the second grade will count in the GPA.

Academic Integrity

Students are expected to conduct themselves professionally and with the highest standards of academic integrity. See Rider's Code of Academic Integrity (p. 968) in this catalog for further information.

Dismissal

Rider University reserves the right to dismiss any student when, in the judgment of the faculty or officers of Rider, such action seems advisable. A student in a graduate business program will be subject to dismissal based on academic standing for any of the following reasons:

- Receiving more than two grades of "C+" or below in graduate-level work;
- Completing graduate course work with a cumulative grade point average of less than 3.0; or,
- Failure to complete the MAcc or MBA program in the required six years.

In all cases of dismissal, graduate business students have the right of appeal. Academic standing dismissal is a progressive process with student participation and advising designed to help students regain good academic standing. Students approaching the six-year time limit to complete the MBA or MAcc may request a time limit extension prior to actual dismissal. The request should be based on unique work requirements, personal, or other reasons. Time limit appeals will be reviewed and acted on by the Associate Dean for Graduate Business Programs.

Honors Graduates

Students who graduate with an overall grade point average of 3.85 or better are designated as graduating with distinction. This term appears on the student's official transcript, below the student's name in the commencement program and on the diploma.

Graduation Requirements and Application

To graduate from the MAcc or MBA program, students must have completed all of the course requirements as described above, within the six-year time frame, and have a cumulative Grade Point Average (GPA) of 3.0 or above. In addition, a candidate for graduation:

- Cannot have received more than two grades of "C+" or below; or,
- Cannot have any grades below a "C."

A student who expects to graduate must complete and file a degree application form no later than the date indicated on the calendar for each semester, found at the front of this publication.

Undergraduate Students Taking Graduate Business Courses

Seniors enrolled in any business major can take one or two graduate business courses (MBA or MAcc) in their senior spring (or equivalent) semester if the following conditions are met:

For taking an MBA course:

- Students must have at least a 3.5 GPA
- Students may take an elective or MBA breadth course if all prerequisites have been met.

For taking a MAcc course:

- Students must have at least a 3.3 GPA or higher.
- Students may take either MAcc-654 or a MAcc elective, if all the prerequisites have been met.

A graduate business course taken as an undergraduate can fulfill the requirements of only one program, either graduate or undergraduate. There is no "double dipping" of coursework between graduate and undergraduate programs. Permission to take such courses will be granted by the Associate Dean for Graduate Business Programs based on a review of a student's academic record.

College of Liberal Arts, Education, and Sciences

The College of Liberal Arts, Education, and Sciences offers students the intellectual experience, challenge and skills to become inspired and motivated leaders of tomorrow whether as teachers, doctors, chemists, or writers.

School of Education

The **School of Education** (<http://www.rider.edu/soe>) prepares students to be effective educators. Rider was the first private New Jersey institution to hold the highest accreditation possible in teaching from the National Council for the Accreditation of Teacher Education (<http://www.ncate.org>) (NCATE). This in turn offers graduates added value and recognition nationwide when seeking employment or admission to graduate study. The School has created partnerships with local schools, businesses, and government and community agencies so that students work collaboratively to develop high-quality programs. Professors value excellence in teaching, scholarship and service and serve as devoted advisors and mentors who relate well to each and every student.

School of Liberal Arts and Sciences

The goals of the liberal arts programs at Rider University help students learn critical skills to analyze information and alternatives critically, focusing on collaboration with students and faculty members and those who may differ from us in background and experiences. The programs at Rider provide real-world learning experiences to prepare students for a successful future. No other form of education provides such characteristics and preparation for living. And our graduates prove (<http://www.rider.edu/outcomes>) just how diverse the liberal arts program is. Bankers, journalists, lawyers and authors have all received degrees in liberal arts.

Learn more about our exciting programs and enriching connected learning and internship (<http://www.rider.edu/academics/colleges-schools/college-liberal-arts-education-science/internships>) opportunities.

The College of Liberal Arts, Sciences, and Education (<http://www.rider.edu/claes>) also offers other exciting programs.

School of Education: Graduate Education, Leadership, and Counseling

The **Department of Graduate Education, Leadership, and Counseling** strives to provide quality programs with personal attention. Our full-time faculty, all of whom have doctoral degrees, teach the majority of our courses. Our School of Education is accredited by the National Council for the Accreditation of Teacher Education (NCATE/CAEP) and our Master's degree in Counseling Services is accredited by the Council for the Accreditation of Counseling and Related Educational Programs

(CACREP). Other programs that have received national accreditation include: School Psychology; Educational Leadership.

Classes are scheduled to enable those who work full-time to complete their programs. Class sizes are moderate to small, and many degree programs have internships.

The department offers educational specialist degrees, master's degrees, and certifications and endorsements in a variety of areas. These degree programs of study, their descriptions, and the certifications associated with them appear under programs and certificates. Course descriptions for each program can be found in this catalog and on the Registrar's Office website. All programs require an application available from the Office of Graduate Admission.

You may also apply to be a special student in some programs. Students enrolled in graduate programs elsewhere or students seeking course work for professional development not leading to a degree, certification or endorsement from Rider University may take courses as a special student. Apply to the Office of Graduate Admission. A bachelor's degree and two letters of recommendation are required.

Mission Statement

- The School of Education prepares undergraduate and graduate students for professional careers in education, organizations, and agencies in the diverse American society.
- The School of Education fosters the intellectual, personal, and social development of each student for a changing world by creating and providing programs that embody the highest academic and professional standards.
- The School of Education develops students who are committed, knowledgeable, professional, and reflective and who value service, ethical behavior and the improvement of one's self and profession.
- The School of Education promotes a climate of scholarly inquiry, high expectations for achievement, and best professional practices, while establishing beneficial relationships with the public and exchanging relevant ideas and services that speak to emerging needs.

School of Education Conceptual Framework Knowledgeable

The School of Education emphasizes content and pedagogical knowledge, which candidates implement in supervised classroom and field experiences. Candidates use acquired technological expertise and reference relevant standards for planning and reflecting on their classroom work.

Professional

Novice and experienced educators enrolled in the School of Education are on a career-long path toward professionalism that does not end with graduation. We encourage candidates to become thoughtful, creative problem-solvers.

Reflective

The School of Education defines reflection as the process of thinking clearly and deliberately to promote understanding about professional practice. Reflection, grounded in active experience, has value for developing educators, through classroom observation, self-assessment, and journal writing.

Committed

Commitment, highly prized by the School of Education, serves as an essential cornerstone for teaching and learning. Commitment is a set of connected attitudes, values, and beliefs that result in professional behaviors expected of dedicated educators.

Admission Status

Upon completion of the steps in the application procedures described below, the applicant will be assigned to one of the following classifications once admitted:

Graduate Standing

The student is qualified to undertake graduate study and is recognized as a degree or certification candidate upon admission;

Conditional Standing

Students who do not satisfy all of the admission requirements or have not completed all of the undergraduate preparatory requirements or both may be permitted to enroll in studies during a probationary period not exceeding 12 graduate credits with a minimum grade point average of 3.0. Students who fail to attain a 3.0 grade point average upon completion of up to 12 graduate credits will be subject to dismissal.

Special Standing

The student does not plan to be a degree candidate or certification candidate in a department/graduate program. Certification students enter the program under this classification. (If a certification student applies for admission to a master's or specialist degree program and is accepted, the student may apply for transfer of certificate course credits according to the policy guidelines of the department.)

Transfer of Credit

Upon application to and before admission to any graduate degree program in education, leadership, and counseling, students may request transfer of up to 12 semester hours of graduate credits completed at an accredited institution. These credits must have been earned within six years of the date of credit transfer approval. All transfer credits must be approved by the advisor and the department chair. Courses accepted for transfer must be similar to required or elective courses that are approved for the respective programs, and a grade of at least "B" must have been earned in each of these courses.

Students who are eligible to transfer graduate credits from other institutions must submit official transcripts of these credits. The Department of Graduate Education, Leadership, and Counseling will consider specific written requests for appropriate transfer credits. Official transcripts covering courses submitted for transfer must accompany the written request for such transfer if the transcripts have not already been filed.

Transfer of Credit for Educational Specialist (Ed.S.) Students

The Department of Graduate Education, Leadership, and Counseling recognizes that students enrolled in an educational specialists program may enter after completing an appropriate master's program. Consideration is typically given to their prior graduate training and its application to the current degree. The program director/designee and the department chairperson will determine the number of credits to be transferred given the following guidelines.

Guidelines for Transfer of Credits for Ed.S. Students

- All transfer credits must carry a letter grade of at least "B."
- Transfer credits must be taken within the six years from the date of acceptance into the program. Exceptions may also be granted by the program director/designee for courses where content remains consistent over time and supports current program objectives.
- For students in the School Psychology Program up to 18 credits may be transferred so long as course equivalency can be thoroughly documented. Students in the Counseling Services Program may transfer up to 48 credits from a CACREP approved program. Students admitted from a non-CACREP approved program may transfer up to 36 credits.
- Official transcripts must accompany the request for transfer of credit. The program director/designee must approve the credits to be transferred upon admission.
- Credits approved for transfer will be added to the student's transcript at the time of admission to the program.
- Course descriptions and/or syllabi of the courses being requested for transfer may be required.

Guidelines for Transfer of Credits for MA in Organizational Leadership Students

- All requests for transfer credits must be made at the time of application.
- Courses accepted for transfer to fulfill core or concentration requirements must be substantially similar to those students would take at Rider University.
- Courses accepted for transfer to fulfill elective requirements must be approved by the program director/designee.
- Course syllabi for transfer requests must be provided.
- Decisions for accepting courses for transfer credit will be made by the program director/designee and appropriate faculty subject experts.
- Not all concentrations allow transfer credit.
- If not already filed, official transcripts must accompany the application for transfer of credits.
- All courses used for transfer of credit must be "B" or better.
- Courses used for transfer of credit must have been taken within six years from the date of admission to the program.

Course Repeat Policy

Students may not repeat any graduate course for credit that they have already taken, except a course in which they have received a grade lower than "B" or one from which they withdrew. Any exceptions must be approved by the department chair.

Comprehensive Examination

Students who are pursuing a graduate program leading to the Master of Arts in counseling services; clinical mental health counseling; organizational leadership; reading/literacy education; or special education, must successfully pass a comprehensive examination covering knowledge of a specialized field; major concepts, theories and ideas; techniques for applying to a problem area knowledge of the specialized field and/or the related areas of foundations and research; adequate communication of ideas in light of the question(s) posed.

The comprehensive examination is administered once each regular semester during the academic year. Only those students who have

achieved the following requirements for the MA degree are eligible to sit for this exam:

- A cumulative average of 3.0 or better by the time of application for the comprehensive exam.
- In the last semester of the program; or, may take the examination in the spring if only one course remains and will be taken in the summer. Permission of program director/designee is required.

Application for Comprehensive Examination and Graduation

A student who plans to take the comprehensive examination and graduate must fill out and file an Application for Comprehensive Examination and Graduation form on or before the date specified in the graduate calendar for his or her final semester. This form must be filed with the chair of the Department of Graduate Education, Leadership, and Counseling.

Dismissal

Any of the following situations will result in the automatic dismissal of a student working toward a graduate degree or certification program in the Department of Graduate Education, Leadership, and Counseling:

- Receiving two grades of "F" in graduate course work;
- Receiving any grade of "C" (C+, C, or C- or lower) in more than two graduate courses;
- Not attaining a grade point average of 3.0 after taking twelve or more graduate credits at Rider University;
- Failing the comprehensive examination for the second time (pertains only to students enrolled in degree programs that require the examination);
- Failure to complete degree requirements in six years;
- The Department of Graduate Education, Leadership, and Counseling reserves the right to dismiss any student when, in the judgment of the faculty or the officers of Rider, such action seems advisable.

Honors Graduates

Students who graduate with an overall grade point average of 3.85 or better are designated as graduating with distinction. This term appears on the student's official transcript, below the student's name in the commencement program, and on the diploma.

Programs of Study

Degrees and Certifications Offered

The Educational Specialist (Ed.S.) degree is offered in the following areas:

- Counseling Services (p. 725)
- School Psychology (p. 752)

The Master of Arts (M.A.) degree is offered in the following areas:

- Clinical Mental Health Counseling (p. 718)
- Counseling Services (p. 722)
- Educational Leadership (p. 733)
- Organizational Leadership (p. 746)
- Special Education (p. 758)
- Teaching (p. 773)
- Teacher Leadership (p. 763)

In addition, the department provides opportunity for study leading to teacher certification and other types of educational and human services certification.

Educational Certificates

The Department of Graduate Education, Leadership, and Counseling provides opportunity for study leading to teacher certification and other types of educational certification in the following areas:

- Bilingual Education (p. 715)
- Business Education Teacher (p. 717)
- Director of Counseling Services (p. 731)
- Elementary Teacher (K–6) (p. 738)
- English as a Second Language (ESL) (p. 739)
- English Teacher (p. 741)
- Mathematics Teacher (p. 743)
- Music Teacher (p. 744)
- Early Childhood Preschool–Grade 3 Teacher (P–3) (p. 732)
- Reading Specialist (p. 764)
- School Administrator (Principal) (p. 750)
- School Counselor (p. 722)
- School Psychologist (p. 752)
- Science Teacher (Biological Sciences, Chemistry, Physics, Earth Science) (p. 756)
- Social Studies Teacher (p. 757)
- Supervisor of Instruction (p. 762)
- Teacher Leadership (p. 770)
- World Languages Teacher–French, German, Spanish (K–12) (p. 776)

Endorsement to Existing Teaching Certificates

- Bilingual Education (p. 715)
- English as a Second Language (ESL) (p. 740)
- Early Childhood Preschool–Grade 3 Teacher (P–3) (p. 732)
- Teacher–Coordinator of Cooperative Vocation/Technical Education (p. 721)
- Teacher of Students with Disabilities (p. 772)

General Master’s Degree Application Requirements

All programs require an application available from the Office of Graduate Admission. A decision is made about an application for admission only when all required credentials have been submitted. Applications must be received by April 1 for summer session, May 1 for fall session, and November 1 for spring session unless otherwise specified for specific programs. Completed applications received after the official deadline may be given consideration pending program capacity.

The faculty encourages prospective students from diverse ethnic and cultural backgrounds to apply. The following are due by the application due date:

- A completed application form, with a non-refundable \$50 application fee;
- Official transcripts from all colleges and universities attended;
- Other such admission requirements as specified within the particular program to which you are applying;

- If the due dates are different, they will be specified within the program requirements.

General Master’s Degree Requirements

To qualify for the degree of Master of Arts, the candidate must:

- Comply with the general requirements concerning graduate study;
- Enroll in graduate study at Rider for no fewer than two academic semesters or the equivalent thereof;
- Complete at least 33–60 semester hours of graduate credit in an approved program of studies;
- Complete an internship/practicum as required by individual programs;
- Successfully pass a written comprehensive examination except for the Master of Arts in Teaching degree; Educational Leadership degree; and Teacher Leadership degree;
- Maintain a grade point average of “B” (3.0) or better for work submitted for the master’s degree with no more than two “C”s; and
- Complete the program within six years of the date the student enrolled in his/her first course unless an extension is approved by the Department of Graduate Education, Leadership, and Counseling. Students in the Clinical Mental Health Counseling program have ten years and students in Counseling Services program have eight years to complete the program.

Guide to Programs

Bilingual Education Certificate

Program Overview

Rider's bilingual endorsement program trains future educators to be sensitive to the cultural, sociological, linguistic, and psychological diversities that ELL students bring with them to school. The mission of the bilingual program is to provide the skills, attitudes and understandings necessary to teach non-native speakers of English in order for them to achieve their greatest potential through education for life. Furthermore, the program introduces future educators to the different laws and programs that influence the bilingual classroom.

The course work in this program counts toward completion of the Master of Arts in Teaching (MAT) (p. 773).

Curriculum Overview

This is a 27 credit program requiring six courses taken in late afternoons/evenings followed by a full semester of full-time student teaching in a host school in the region.

EDUC 560	Educating and Evaluating the Bilingual Child	3
GLTP 570 or GLTP 571	Seminar and Internship in Teaching Supervised Practicum in Teaching	9
Total Credits		27

Additional requirements for GLTP completion

- Completion of all courses before internship with a "C+" or better in each course and with a 3.0 grade point average.
- Completion of GLTP 570 with a "C+" grade or better.

Courses and Descriptions

GLTP 500 Conceptual Frameworks for Teaching and Learning 3 Credits

This course provides psychological and interdisciplinary perspectives on teaching and learning. Within the theme of optimal development of creative intelligence, students use these perspectives to guide their reflective professional development throughout their program. The course develops knowledge, skills, and dispositions pertinent to (a) child and adolescent development, (b) learning theories, (c) philosophical and historical perspectives on education, (d) sociocontextual and interdisciplinary influences on education, and (e) higher-order creative and critical thinking.

CURR 548 Curriculum and Instruction for Diverse Learners 3 Credits

This course will examine the curricular and instructional issues that educational leaders must address in accommodating the school program to the needs and abilities of diverse learners. A historical perspective will be developed with an emphasis on how schools have responded to meet the needs of the exceptional child. Legal issues and programmatic trends will be examined and assessed since the inception of the Individuals with Disabilities Education Act. Multicultural issues will be introduced within the context of school and society. The responsibility of the educational leader in fostering a multicultural perspective pertaining to curriculum and instruction, governance, bias and prejudice and school climate and culture will be emphasized. Students will identify and develop curricular possibilities and solutions in school settings to accommodate learners' diverse needs. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

Prerequisite(s): CURR 531 and CURR 538.

READ 518 Social and Cultural Practices and their Effects on Learning in School 3 Credits

This course focuses on the customs and cultures of culturally and linguistically diverse learners and how their diversities affect their enculturation into American communities. These differences will be studied by reviewing professional literature and children's literature whose stories are set in the varied locations where these customs are practiced.

EDUC 520 Introduction to Linguistics and Psycholinguistics 3 Credits

This course provides an introduction to the properties of human languages and to their systematic study in the field of linguistics and psycholinguistics. Topics include the nature of human language as distinct from other communication systems; sound patterns (phonology), word-formation (morphology), sentence structure (syntax), and meaning (semantics) in the world's languages; relations to cognition, communication, and social organization; dialect variation and language standardization; language learning by children and adults; and the nature and history of writing systems. Intended for any undergraduate and graduate interested in language or its use. It is assumed that students have had no prior course work or exposure to linguistics and will begin with the basic assumptions that are shared by those who study language from a variety of perspectives. Students analyze their own speech patterns, investigate different speech acts in different languages and develop a research project using a linguistic construct in order to apply it to the second language classroom. Students present this project in a poster format to the university community at the end of the semester.

READ 508 Literacy and the Bilingual/Bicultural Child 3 Credits

Presents multidisciplinary and interdisciplinary perspectives on bilingual/bicultural children and their reading process. Strategies and materials for second language reading instruction are suggested and discussed.

EDUC 521 Teaching a Second Language 3 Credits

This course focuses on interactive methods of teaching a new language as well as cross-cultural understanding. Students learn to plan using national and state standards for language instruction, organize activities, design and direct language learning tasks, and assess learning. Includes theoretical positions on communicative language learning and teaching, the use and evaluation of currently used materials, the design of new materials, and field experiences in the language to be taught. Students develop their professional portfolio, participate in an E-seminar, prepare a unit of study, and present lesson segments. Open to prospective world language teachers, ESL and bilingual teachers, as well as practicing teachers seeking certification. *NOTE: This course is cross-listed as READ 517. Student cannot get credit for both READ 517 and EDUC 521.

EDUC 560 Educating and Evaluating the Bilingual Child 3 Credits

An examination of the historical, legal and pedagogical aspects of the education of language minority students. Considers the design of school programs for minority students including legal mandates, testing, staffing and funding. Emphasis is placed on the evaluation of bilingual students as they enter, develop and exit from special programs of study.

GLTP 570 Seminar and Internship in Teaching 9 Credits

This course, designed for those seeking initial certification, requires full-time supervised daily participation in a school setting. The student gradually assumes a full load of teaching responsibility at the school. The experience will test the translation of educational theory into meaningful practice. A student-teaching fee is charged for this course. (nine semester hours).

GLTP 571 Supervised Practicum in Teaching 3 Credits

This practicum is a condensed version of the Internship in Teaching. It is available only to interns seeking teacher certification who already have a year of successful, full-time teaching experience or its equivalent. A special application must be made and approved for enrollment in the course. The practicum requires six weeks of full-time, supervised daily participation in a school setting. After a brief period of orientation to the school and classroom, the intern assumes a full load of teaching responsibility at the school. The experience finetunes the teaching abilities of interns and enables them to demonstrate competence in the specialty for which they seek certification.

Prerequisite(s): Permission of instructor.

Business Education Comprehensive (K-12) Certificate

Program Overview

The Business Education/Marketing Education Comprehensive (K-12) graduate-level certificate program is designed for college graduates seeking initial certification as a teacher of business education. The streamlined, rigorous, and sequential program of professional studies combines the best of theory, research, and practice. It is designed for part-time students who take one or two late afternoon/evening courses per semester. The teaching internship (student teaching) at the end of the program requires full-time enrollment for one semester. The program is state approved and nationally accredited.

The course work in this program counts toward completion of the Master of Arts in Teaching (MAT) (p. 773).

Curriculum Overview

This is a 21 credit program requiring four courses taken in late afternoons/evenings followed by a full semester of full-time student teaching in a host school in the region.

Total Credits		21

Additional requirements for GLTP completion

- Completion of all courses before internship with a "C+" or better in each course and with a 3.0 grade point average.
- Completion of GLTP 570 with a "C+" grade or better.

Courses and Descriptions

GLTP 500 Conceptual Frameworks for Teaching and Learning 3 Credits

This course provides psychological and interdisciplinary perspectives on teaching and learning. Within the theme of optimal development of creative intelligence, students use these perspectives to guide their reflective professional development throughout their program. The course develops knowledge, skills, and dispositions pertinent to (a) child and adolescent development, (b) learning theories, (c) philosophical and historical perspectives on education, (d) sociocontextual and interdisciplinary influences on education, and (e) higher-order creative and critical thinking.

GLTP 503 Curriculum and Instruction in Reading/Language Arts: Literacy and Learning in Content Areas 3 Credits

Current strategies for providing instruction in vocabulary, comprehension, composition and language study in content areas in upper elementary grades through high school. Pedagogy for all learners, ranging from gifted to diverse learners in general education. Prerequisite(e): GLTP 500.

GLTP 520 Curriculum and Teaching in Middle/Secondary Schools 3 Credits

This course is designed for students seeking the initial teaching certificate and introduces them to curriculum and instruction in middle, junior and senior high schools. The history and rationale for secondary-level education is developed. Students acquire skills in instructional planning and classroom management. Field experiences will supplement classroom instruction.

Prerequisite(s): GLTP 503.

BSED 530 Emerging Instructional Strategies in Business Education 3 Credits

Emphasis is placed on the enhancement of teaching effectiveness in business education as emerging instructional strategies are reviewed and studied. Special attention is devoted to the new technology and its use in business education while focusing attention to the present and future needs of the employer. Current instructional materials are presented and utilized. Master practicing business education teachers will augment the instructor's presentations.

GLTP 570 Seminar and Internship in Teaching 9 Credits

This course, designed for those seeking initial certification, requires full-time supervised daily participation in a school setting. The student gradually assumes a full load of teaching responsibility at the school. The experience will test the translation of educational theory into meaningful practice. A student-teaching fee is charged for this course. (nine semester hours).

GLTP 571 Supervised Practicum in Teaching 3 Credits

This practicum is a condensed version of the Internship in Teaching. It is available only to interns seeking teacher certification who already have a year of successful, full-time teaching experience or its equivalent. A special application must be made and approved for enrollment in the course. The practicum requires six weeks of full-time, supervised daily participation in a school setting. After a brief period of orientation to the school and classroom, the intern assumes a full load of teaching responsibility at the school. The experience finetunes the teaching abilities of interns and enables them to demonstrate competence in the specialty for which they seek certification.

Prerequisite(s): Permission of instructor.

Clinical Mental Health Counseling (M.A.)

Program Overview

The Master of Arts in Clinical Mental Health Counseling is a 60-credit program that prepares students for counseling positions in community agencies, mental health agencies, hospitals, government facilities, institutions of higher education, industry and private practice. This program meets the academic requirements for the Licensed Professional Counselor (LPC) (<http://www.njconsumeraffairs.gov/pc/Pages/default.aspx>) in New Jersey, Pennsylvania, and most other states. It also meets all educational requirements for certification as a National Certified Counselor (NCC), (<http://www.nbcc.org/Certification/NationalCertCounselor>) Approved Clinical Supervisor (ACS) (<http://www.cce-global.org/ACS>), and Board Certified Coach (BCC) (<http://www.cce-global.org/bcc>).

Students may take two additional courses and a SAC practicum in a school to qualify for the Student Assistance Coordinator (SAC) CEAS (<http://www.state.nj.us/education/educators/license/endorsements/3461CEAS.pdf>). Master's students in their final year are provided with preparation for the National Counselor Exam (NCE) (<http://www.nbcc.org/Exam/NationalCounselorExaminationForLicensureAndCertification>) which is taken during their last semester at Rider.

In keeping with the University's core mission, all degree and certification programs are student-centered, created to be flexible to meet the needs of returning and professional students with busy lives, provide cutting-edge instruction, hands-on practice in mental health organizations and agencies, and supportive faculty who are dedicated to mentoring students. The faculty and training are focused on wellness counseling and positive psychology, with an emphasis on clients' strengths, rather than on deficits.

Curriculum Overview

All students in this area of study are required to complete 60 credits of coursework and to participate in at least 700 hours of counseling fieldwork in an agency. An appropriate agency for the intern is one which provides a program of services designed to help individuals function to their optimal capacity. Such programs exist in a wide variety of settings, such as mental health clinics, correctional facilities, hospital settings, family service centers, comprehensive rehabilitation centers, social service organizations, vocational counseling programs, private counseling programs, substance abuse treatment programs, employee assistance programs, college counseling centers, and other appropriate sites.

All degree candidates must purchase student professional liability insurance.

Courses and Descriptions

CNPY 502 Theories of Counseling and Helping Professions 3 Credits

Introduces the theoretical constructs of the primary contemporary counseling psychology theories being used in the counseling profession today. The theoretical constructs will be explored for use for self-reflection and self-development and to serve as the basis for development of psychological maps for understanding purposes of clients' behaviors.

Prerequisite(s): COUN 500 or as corequisite.

CNPY 514 Psychopathology 3 Credits

A survey of the study of abnormal psychology. Includes classification, assessment, and treatment and prevention of psychopathology. Characteristics of healthy psychological functioning are examined. Biological, psychological, and sociocultural bases of well-adjusted and maladjusted behavior patterns are considered. Stress, anxiety, and milder forms of psychopathology are considered, as are more severe psychopathological conditions.

CNPY 516 Advanced Psychopathology 3 Credits

An in-depth study of psychopathology with emphasis on developmental and personality disorders, and physiological disturbances. Includes assessment, classification, and treatment with emphasis on utilization in a variety of counseling and school settings. Biological, pathological, pharmacological bases of mental disorders are introduced and discussed in relationship to specific disorder classifications.

Prerequisite(s): CNPY514 or permission of instructor.

CNPY 518 Counseling Children, Adolescents and Families 3 Credits

This course will emphasize counselor and consultant behaviors that facilitate the helping process with children, adolescents, and their families. Information and activities will be provided that address age, ethnic, and developmental considerations in counseling children and adolescents. Issues and practices related to crisis intervention will be explored.

COUN 500 Introduction to Counseling and Helping Professions 3 Credits

Educational, social, and psychological foundations of counseling services. Basic theories, principles, and techniques of counseling and related helping professions, such as coaching, and their applications to professional services. Emphasizes self-awareness as related to becoming a facilitator of helping skills. The team approach to counseling services and the contribution of the various specialties within the total counseling services program are stressed.

COUN 503 Group Counseling 3 Credits

Analyzes the historical development of group treatment methods, theories, practices, methods for appraising outcomes of treatment, and research findings. Includes critique of recordings, demonstrations, and students' own group experiences as counseling group members.

Prerequisite(s): COUN 500, CNPY 502.

COUN 505 Vocational/Career Development 3 Credits

Includes organizational change and vocational development theories, research, and literature in the field to inform practice with clients with vocational/career concern. The problems and techniques of using occupational and career information, assessment tools, educational and vocational goal setting, conflict management strategies, and individual and group processes are stressed. Includes concepts of career/life planning and counseling and coaching techniques, lifespan transitions, and the interrelationships among work, family, and other life roles.

COUN 508 Foundations of Clinical Mental Health Counseling 3 Credits

This course will provide the foundation of community counseling including roles, policies, history, diversity, systems, programs, interventions, fiscal issues, community resources, consultation, advocacy, and assessment that are unique to community counselors. Projects include searching for government and foundation funding, writing a grant proposal, developing a resource directory, visiting and writing reports evaluating community agencies. This course also meets Council for Accreditation of Counseling and Related Educational Programs (CACREP) standards for Community Counseling Programs.

COUN 510 Approaches to Family Counseling 3 Credits

Presents a basic understanding of major approaches of family counseling. Family counseling approaches covered include structural, systems, Ackerman, Satir, and analytical. These approaches are presented as related to major problem centered family concerns—child-rearing concerns, alcohol, drugs, child abuse, dysfunctional marriage, divorce, etc. Emphasizes self-awareness as related to family development.

Prerequisite(s): COUN 500, CNPY 502, or permission of instructor or advisor.

COUN 515 Substance Abuse Counseling 3 Credits

Analyzes the development, intervention, and treatment of drug abuse and alcoholism. Designed to assist counselors in identifying drug abuse and alcoholism, examining the specialized approaches of counseling with these clients and reviewing the related elements; i.e., family participation, physical problems, effects on school or job, etc.

COUN 516 Strategies in Addiction Counseling 3 Credits

Analyzes the development, intervention and treatment of co-dependents. Designed to focus on the characteristics of co-dependency and how they were initiated in alcoholic families as well as other dysfunctional families. Symptoms will be discussed in terms of problems with intimacy, trust, eating disorders, assertiveness, love relationships and the differences among co-dependents. Specialized approaches to treating these areas will be discussed. (Classes will involve lecture, discussion and students will learn and experience group exercises for co-dependency treatment.)

Prerequisite(s): COUN 515 or permission of instructor.

COUN 520 Multicultural Counseling and Relationship Development 3 Credits

Introduces, examines, and critically analyzes and reflects upon major origins and dimensions of human similarities and differences. Explores and personalizes the social-psychological and behavioral implications of these similarities and differences. Examines issues of racism, reverse racism, age and handicapped discrimination, sexism, sexual orientation, etc., in the light of theories of individual and group identity development and the impact of these on, between and within group relationships.

Each student is expected to utilize this knowledge for the development of healthy multicultural skills. A semester-long engagement in a multicultural interaction and a presentation of a multicultural discovery project are required.

COUN 525 Gender Issues in Counseling 3 Credits

Examines the psychological, physiological, historical, and socio-cultural factors that affect the development of women and men across the life span and discusses implications for counseling. Focuses on relevant gender issues including gender bias and equity, misdiagnosis, self-esteem, depression, violence and sexual abuse, the feminization of poverty, and the importance of relationship for women. Presents an overview of feminist psychotherapy and explores the context of the behavioral, emotional and biological problems that impact on mental health. Also discusses the emerging men's movement and trends in counseling men; introduces gay and lesbian issues, the issues of minority women, and factors in counseling the HIV/AIDS client.

COUN 530 Legal and Ethical Issues in Counseling and Psychotherapy 3 Credits

Examines and analyzes the legal, ethical, and professional parameters of counseling and psychotherapy. Discusses legal liabilities and malpractice cases arising from constitutional, tort, contract, family, privacy, and criminal laws. Examines client rights and counselor duties and responsibilities. Explores legal, ethical, and professional implications of third party payment, informed consent, medication, case documentation, client termination and abandonment. Advertisement of counseling services, crisis and case management, consultation and supervision, "duty-to-warn" and court appearances of an expert witness will be explored. Special attention will be given to child abuse reporting issues, dual relationships and to regional legal and ethical developments.

COUN 535 Holistic Wellness Counseling 3 Credits

Based on current methods and research, students will explore holistic wellness (e.g., spirituality, self-direction, work and leisure, friendship, and love) positive psychology (e.g., hope, forgiveness, etc.), and human change from personal and interpersonal perspectives.

Prerequisite(s): CNPY 502.

COUN 550 Counseling Techniques Laboratory 3 Credits

A basic laboratory pre-practicum for counseling services majors which provides opportunities for both observation of and participation in counseling activities. The purpose of this course is to provide students with their initial counseling experience under closely supervised conditions. The focus of this course is the development of basic counseling skills through an emphasis on techniques (basic and advanced listening and helping skills), strategy (the counseling process), and self development (the student as counselor) grounded in professional counseling theories.

COUN 585 Clinical Mental Health Counseling Practicum 3 Credits

A supervised experience in counseling and consulting techniques in mental health facility, community counseling agency, or college setting. Includes seminar discussions, interview analyses or audiotape/videotape observations, and individual supervision with the instructor. For the experienced counselor or the advanced counselor in training who desires to review and/or strengthen individual counseling and consulting techniques. A field placement of 100 hours is required with a minimum of 40 direct contact hours with clients. Students registering for this course should contact the instructor the semester prior to the course being offered.

Prerequisite(s): To be taken semester prior to COUN 590.

COUN 590 Internship in Counseling I 3 Credits

An internship that provides 300 hours of on-the-job experience, including all activities that a regularly employed staff member would be expected to perform. The internship placement is selected on the basis of the student's career goals. School and agency counselors who supervise interns determine the structure and the content of the internship in cooperation with the Rider supervisor. The approval and cooperation of the student's superintendent, principal, or other appropriate administrative personnel must be obtained the semester before the counselor candidate's internship is scheduled.

Prerequisite(s): all other required course work must be completed or in progress and permission of the Rider supervisor must be obtained; any exceptions must be approved by the instructor.

COUN 591 Internship in Counseling II 3 Credits

The continuation of an internship that provides a 300-hour field experience including all activities that a regularly employed staff member would be expected to perform (n.b., a regularly employed staff member is defined as a person occupying the professional role to which the student is aspiring). The internship placement is selected on the basis of the intern's career goals. School and agency counselors who supervise interns determine the structure and the content of the internship in cooperation with the faculty supervisor. The approval and cooperation of the intern's agency or school field supervisor must be obtained the semester prior to the actual placement.

Prerequisite(s): COUN 590 and all other required course work must be completed or in progress and permission of the faculty supervisor must be obtained; any exceptions must be approved by the faculty supervisor.

COUN 660 Counseling Supervision: Issues, Concepts and Methods 3 Credits

This course introduces and critically examines issues and concepts that arise in the supervision of counseling and psychotherapy practitioners and trainees. Methods and techniques of supervision are presented to enable students to become knowledgeable and skilled providers of proficient clinical supervision. Psychotherapeutic, behavioral, integrative, systems, experiential, and developmental models of supervision are studied. The unique problems encountered in group, family, and couples counseling supervision are raised as well as legal, ethical, and multicultural issues. Administrative and contemporary issues such as inter- and intra-agency supervision, inter-agency communication, record keeping, evaluation, and taping of counseling sessions are examined.

Prerequisites: COUN 590.

EDPS 502 Psychological Development of the Child and Adolescent 3 Credits

Surveys of psychological principles applied to counseling services with emphasis on developmental processes, individual differences, and mental health. Concepts and theoretical orientations to human development from conception through adolescence. The analysis, interpretation, and practical implications of significant research that has contributed most to the knowledge of human development of the child and adolescent.

EDPS 503 Human Growth and Development 3 Credits

Provides an overview and broad understanding of life span developmental theories and research applied to counseling services with special emphasis on developmental processes, individual differences and mental health. Includes strategies for working with developmental issues across the life span.

EDPS 520 Measurement, Tests and Assessments in Counseling/School Psychology 3 Credits

The first course in a two-course sequence on measurement and research. It will develop the ability to calculate descriptive statistics, and administer, evaluate and interpret assessment instruments commonly used in the counseling profession. Topics include descriptive statistics, reliability and validity, social and ethical considerations in testing, the appropriate selection and usage of standardized tests, and the communication of their results. Computer literacy is required in this course.

EDPS 521 Statistics and Quantitative Analysis 3 Credits

Prior to the beginning of this course, the student should have designed both a survey and an interview format in an area of interest to them. Inferential statistics and quantitative techniques for analyzing, interpreting and reporting research data will be applied to this data.

Prerequisite(s): EDPS 520, EDUC 500.

EDUC 500 Introduction To Research 3 Credits

Introduces basic research and evaluation concepts for the purpose of facilitating reading of journal articles and communication with researchers. Designed for students in business education, educational administration, and selected special students.

EDUC 530 Introduction to Student Affairs in Higher Education 3 Credits

This course is designed to cover a variety of issues associated with the management and administration of student services and programs in higher education. The course will begin with an overview of historical and philosophical foundations of the profession, especially its goal of addressing students' economic, social, developmental, and academic needs. Understanding the characteristics and changing demographics of student populations will be contrasted with the appropriate preparation and continued professional development of the practitioner.

Cooperative Education Coordinator Certificate

Program Overview

Rider University offers the two required graduate courses for this certificate. The applicant should refer to the certification requirements on the NJDOE website (<http://www.state.nj.us/cgi-bin/education/license/endorsement.pl?string=999&maxhits=1000&field=2>).

COUN 505	Vocational/Career Development	3
Total Credits		6

Courses and Descriptions

BSED 508 Organizing and Administering Cooperative Work Experience Programs 3 Credits

An overview of the current administrative and instructional strategies used in organizing and administering cooperative work experience programs at the secondary and post-secondary levels. Up-to-date concepts are reviewed relative to program approval, teacher coordinator certification, work agreements, labor laws, funding, reporting supervision of student learners, related instruction, student wages, and vocational student organizations. Current instructional materials are reviewed and evaluated. Improvement in the organization and administration of cooperative work experience programs is the primary goal.

COUN 505 Vocational/Career Development 3 Credits

Includes organizational change and vocational development theories, research, and literature in the field to inform practice with clients with vocational/career concern. The problems and techniques of using occupational and career information, assessment tools, educational and vocational goal setting, conflict management strategies, and individual and group processes are stressed. Includes concepts of career/life planning and counseling and coaching techniques, lifespan transitions, and the interrelationships among work, family, and other life roles.

Counseling Services (M.A.)

Program Overview

The Master of Arts in Counseling Services (*school counseling concentration*) is a 48-credit program that prepares students for school counseling positions in elementary and secondary public and private schools. This program meets the educational requirements for state certification as a K-12 school counselor in New Jersey (<http://www.state.nj.us/education/educators/license/endorsements/2702S.pdf>), and meets the certification requirements of most other states. In addition, the program prepares students for the eight core content areas of the National Counselor Exam (NCE) (<http://www.nbcc.org/Exam/NationalCounselorExamForLicensureAndCertification>), required by the National Board of Certified Counselors (NBCC) in order to become a National Certified Counselor (<http://www.nbcc.org/Certification/NationalCertCounselor>). Students completing this program will also have met the educational requirements for Board Certified Coach (BCC) (<http://www.cce-global.org/bcc>) and, with two additional courses, for the Student Assistance Coordinator (SAC) (<http://www.state.nj.us/education/educators/license/endorsements/3461CEAS.pdf>) certificate.

In keeping with the University's core mission, this program is student-centered. Courses are offered in the evenings with full-time and part-time enrollment options available to meet the needs of returning and professional students with busy lives. Cutting-edge instruction, hands-on practice in schools, and supportive faculty who are dedicated to mentoring students are core program components. The faculty and training are focused on wellness counseling and positive psychology, with an emphasis on the strengths of the individuals served, rather than on deficits.

Curriculum Overview

All students in this area of study are required to complete 48 credits of coursework and to take classes that cover the theories of counseling and psychotherapy, ethical and legal issues, counseling children, adolescents and their families, along with an elementary school counseling or secondary school counseling practicum and two internships. The practicum and internships require 700 hours of fieldwork in preparation for professional practice. Fieldwork placement occurs through close collaboration with Rider's clinical coordinator and is supervised by both practitioners in the field and professors in the classroom.

All degree candidates must purchase student professional liability insurance once they enter the field.

Courses and Descriptions

CNPY 502 Theories of Counseling and Helping Professions 3 Credits

Introduces the theoretical constructs of the primary contemporary counseling psychology theories being used in the counseling profession today. The theoretical constructs will be explored for use for self-reflection and self-development and to serve as the basis for development of psychological maps for understanding purposes of clients' behaviors.

Prerequisite(s): COUN 500 or as corequisite.

CNPY 514 Psychopathology 3 Credits

A survey of the study of abnormal psychology. Includes classification, assessment, and treatment and prevention of psychopathology. Characteristics of healthy psychological functioning are examined. Biological, psychological, and sociocultural bases of well-adjusted and maladjusted behavior patterns are considered. Stress, anxiety, and milder forms of psychopathology are considered, as are more severe psychopathological conditions.

CNPY 518 Counseling Children, Adolescents and Families 3 Credits

This course will emphasize counselor and consultant behaviors that facilitate the helping process with children, adolescents, and their families. Information and activities will be provided that address age, ethnic, and developmental considerations in counseling children and adolescents. Issues and practices related to crisis intervention will be explored.

CNSC 580 Elementary School Counseling Practicum and Student Assistance Coordinator Practicum 3 Credits

A 100-hour supervised experience in counseling and consultation in an elementary school setting. Students will obtain a minimum of forty (40) contact hours with clients. The course will also provide an historical overview of the school guidance and counseling function. Current practices for assessing, organizing, implementing and evaluating school counseling services will be reviewed. Students will develop knowledge and skills in the development of primary, secondary, and tertiary interventions designed to promote the academic and social development of children of elementary school age. Students will apply knowledge and skills developed in pre-practicum experiences in addressing the needs of school children. Students must be supervised by a Substance Awareness Coordinator (SAC).

Prerequisite(s): COUN 515 or COUN 516.

CNSC 581 Secondary School Counseling Practicum and Student Assistance Coordinator Practicum 3 Credits

A 100-hour supervised experience in counseling and consultation in a secondary school setting. Includes seminar discussions, interview analyses, videotape observations, and individual supervision with the faculty supervisor. Provides the counselor in training with the opportunity to develop and practice skills and techniques necessary for the effective delivery of counseling services in the secondary school setting. Reviews current practices for assessing, developing, organizing, implementing, evaluating, and reflecting on counseling services as they address the special needs of secondary school students. Students must be supervised by a Substance Awareness Coordinator (SAC).

Prerequisite(s): COUN 515 or COUN 516.

COUN 500 Introduction to Counseling and Helping Professions 3 Credits

Educational, social, and psychological foundations of counseling services. Basic theories, principles, and techniques of counseling and related helping professions, such as coaching, and their applications to professional services. Emphasizes self-awareness as related to becoming a facilitator of helping skills. The team approach to counseling services and the contribution of the various specialties within the total counseling services program are stressed.

COUN 503 Group Counseling 3 Credits

Analyzes the historical development of group treatment methods, theories, practices, methods for appraising outcomes of treatment, and research findings. Includes critique of recordings, demonstrations, and students' own group experiences as counseling group members.

Prerequisite(s): COUN 500, CNPY 502.

COUN 505 Vocational/Career Development 3 Credits

Includes organizational change and vocational development theories, research, and literature in the field to inform practice with clients with vocational/career concern. The problems and techniques of using occupational and career information, assessment tools, educational and vocational goal setting, conflict management strategies, and individual and group processes are stressed. Includes concepts of career/life planning and counseling and coaching techniques, lifespan transitions, and the interrelationships among work, family, and other life roles.

COUN 530 Legal and Ethical Issues in Counseling and Psychotherapy 3 Credits

Examines and analyzes the legal, ethical, and professional parameters of counseling and psychotherapy. Discusses legal liabilities and malpractice cases arising from constitutional, tort, contract, family, privacy, and criminal laws. Examines client rights and counselor duties and responsibilities. Explores legal, ethical, and professional implications of third party payment, informed consent, medication, case documentation, client termination and abandonment. Advertisement of counseling services, crisis and case management, consultation and supervision, "duty-to-warn" and court appearances of an expert witness will be explored. Special attention will be given to child abuse reporting issues, dual relationships and to regional legal and ethical developments.

COUN 550 Counseling Techniques Laboratory 3 Credits

A basic laboratory pre-practicum for counseling services majors which provides opportunities for both observation of and participation in counseling activities. The purpose of this course is to provide students with their initial counseling experience under closely supervised conditions. The focus of this course is the development of basic counseling skills through an emphasis on techniques (basic and advanced listening and helping skills), strategy (the counseling process), and self development (the student as counselor) grounded in professional counseling theories.

COUN 580 Elementary School Counseling Practicum 3 Credits

A 100-hour supervised experience in counseling and consultation in an elementary school setting. Students will obtain a minimum of forty (40) contact hours with clients. The course will also provide an historical overview of the school guidance and counseling function. Current practices for assessing, organizing, implementing and evaluating school counseling services will be reviewed. Students will develop knowledge and skills in the development of primary, secondary, and tertiary interventions designed to promote the academic and social development of children of elementary school age. Students apply knowledge and skills developed in pre-practicum experiences in addressing the needs of school children.

Prerequisite(s): To be taken semester prior to COUN 590.

COUN 581 Secondary School Counseling Practicum 3 Credits

A 100-hour supervised experience in counseling and consultation in a secondary school setting. Includes seminar discussions, interview analyses, videotape observations, and individual supervision with the faculty supervisor. Provides the counselor-in-training with the opportunity to develop and practice skills and techniques necessary for the effective delivery of counseling services in the secondary school setting. Reviews current practices for assessing, developing, organizing, implementing, evaluating, and reflecting on counseling services as they address the special needs of secondary school students.

Prerequisite(s): To be taken semester prior to COUN 590.

COUN 590 Internship in Counseling I 3 Credits

An internship that provides 300 hours of on-the-job experience, including all activities that a regularly employed staff member would be expected to perform. The internship placement is selected on the basis of the student's career goals. School and agency counselors who supervise interns determine the structure and the content of the internship in cooperation with the Rider supervisor. The approval and cooperation of the student's superintendent, principal, or other appropriate administrative personnel must be obtained the semester before the counselor candidate's internship is scheduled.

Prerequisite(s): all other required course work must be completed or in progress and permission of the Rider supervisor must be obtained; any exceptions must be approved by the instructor.

COUN 591 Internship in Counseling II 3 Credits

The continuation of an internship that provides a 300-hour field experience including all activities that a regularly employed staff member would be expected to perform (n.b., a regularly employed staff member is defined as a person occupying the professional role to which the student is aspiring). The internship placement is selected on the basis of the intern's career goals. School and agency counselors who supervise interns determine the structure and the content of the internship in cooperation with the faculty supervisor. The approval and cooperation of the intern's agency or school field supervisor must be obtained the semester prior to the actual placement.

Prerequisite(s): COUN 590 and all other required course work must be completed or in progress and permission of the faculty supervisor must be obtained; any exceptions must be approved by the faculty supervisor.

EDPS 503 Human Growth and Development 3 Credits

Provides an overview and broad understanding of life span developmental theories and research applied to counseling services with special emphasis on developmental processes, individual differences and mental health. Includes strategies for working with developmental issues across the life span.

EDPS 520 Measurement, Tests and Assessments in Counseling/School Psychology 3 Credits

The first course in a two-course sequence on measurement and research. It will develop the ability to calculate descriptive statistics, and administer, evaluate and interpret assessment instruments commonly used in the counseling profession. Topics include descriptive statistics, reliability and validity, social and ethical considerations in testing, the appropriate selection and usage of standardized tests, and the communication of their results. Computer literacy is required in this course.

EDSO 501 Foundations of School Counseling: Referral Sources for Clients and Students With Special Needs 3 Credits

Addresses community social services available to clients and special needs students. Reviews principles and methods utilized by social agencies. Representatives of various community agencies are invited to discuss the role and function of the agencies they represent. Students visit various community agencies and report on their work.

EDSO 510 Sociological and Cultural Foundations of Education 3 Credits

The American public school as a social organization which influences and is influenced by local, national and international cultural evolution. An exposition and analysis of the vibrant multicultural issues that sometimes determine the outcome of public education. An exploration of contemporary educational problems and challenges resulting from changing social and cultural conditions. A perceptive and reflective placement of these changes in a historical context to enable students put the future in perspective.

EDUC 500 Introduction To Research 3 Credits

Introduces basic research and evaluation concepts for the purpose of facilitating reading of journal articles and communication with researchers. Designed for students in business education, educational administration, and selected special students.

Counseling Services, Educational Specialist**Program Overview**

The Ed.S. in Counseling Services is a 66-credit program that meets the academic requirements for the Licensed Professional Counselor (LPC) (<http://www.njconsumeraffairs.gov/pc/Pages/default.aspx>) in New Jersey, Pennsylvania, and most other states. It also meets all educational requirements for certification as an Approved Clinical Supervisor (ACS) (<http://www.cce-global.org/ACS>) as per N.J.A.C. 13:34-10.2 and 13.1 and as a National Certified Counselor (NCC) (<http://www.nbcc.org/Certification/NationalCertCounselor>). Students may also qualify for the Student Assistance Coordinator (SAC) CEAS (<http://www.state.nj.us/education/educators/license/endorsements/3461CEAS.pdf>). It also provides opportunity for candidates whose masters degree in counseling was completed with 48 or less credits, to complete the 60 credits now required for LPC by many state counseling licensure boards. Such candidates may apply to the EdS program as advanced students and apply their already-completed MA credits toward the EdS degree.

Flexibilities built into the Ed.S. degree program allow for career change for both LPC's and school counselors. LPC's who wish to become school counselors can complete courses required to become certified school counselors and master's-level school counselors can complete the courses required for LPC's in many states. Practicing counselors who wish to become certified as Director of School Counselor Services (<http://www.state.nj.us/education/educators/license/endorsements/0602S.pdf>) or as Student Assistance Coordinators may also complete these through the EdS program. Clinical supervised hours obtained during the Ed.S. post-Master's program may count toward satisfying a portion of the supervised professional counseling experience requirement as per N.J.A.C. 13:34-11.2. Program faculty work with students to develop a customized plan of study necessary to accomplish their desired career goals.

Curriculum Overview

The Ed.S. in Counseling Services is a 66-credit program that is customized to the student's career goals.

There are three concentrations:

- school counseling
- community counseling
- director of school counseling services

Individualized advising helps candidates develop and grow professionally in the following specialty areas:

- multicultural counseling issues
- college counseling and higher education affairs
- group counseling and process
- special needs of at-risk students
- legal and ethical issues in counseling
- career counseling and development
- substance abuse

- geriatrics/hospice issues
- probation/parole counseling
- elementary/secondary school counseling
- family and marital issues in counseling
- grief and crisis counseling
- grant writing/management

Total Credits**66-69**

Courses and Descriptions

COUN 500 Introduction to Counseling and Helping Professions 3 Credits

Educational, social, and psychological foundations of counseling services. Basic theories, principles, and techniques of counseling and related helping professions, such as coaching, and their applications to professional services. Emphasizes self-awareness as related to becoming a facilitator of helping skills. The team approach to counseling services and the contribution of the various specialties within the total counseling services program are stressed.

COUN 503 Group Counseling 3 Credits

Analyzes the historical development of group treatment methods, theories, practices, methods for appraising outcomes of treatment, and research findings. Includes critique of recordings, demonstrations, and students' own group experiences as counseling group members.

Prerequisite(s): COUN 500, CNPY 502.

COUN 505 Vocational/Career Development 3 Credits

Includes organizational change and vocational development theories, research, and literature in the field to inform practice with clients with vocational/career concern. The problems and techniques of using occupational and career information, assessment tools, educational and vocational goal setting, conflict management strategies, and individual and group processes are stressed. Includes concepts of career/life planning and counseling and coaching techniques, lifespan transitions, and the interrelationships among work, family, and other life roles.

COUN 508 Foundations of Clinical Mental Health Counseling 3 Credits

This course will provide the foundation of community counseling including roles, policies, history, diversity, systems, programs, interventions, fiscal issues, community resources, consultation, advocacy, and assessment that are unique to community counselors. Projects include searching for government and foundation funding, writing a grant proposal, developing a resource directory, visiting and writing reports evaluating community agencies. This course also meets Council for Accreditation of Counseling and Related Educational Programs (CACREP) standards for Community Counseling Programs.

COUN 510 Approaches to Family Counseling 3 Credits

Presents a basic understanding of major approaches of family counseling. Family counseling approaches covered include structural, systems, Ackerman, Satir, and analytical. These approaches are presented as related to major problem centered family concerns—child-rearing concerns, alcohol, drugs, child abuse, dysfunctional marriage, divorce, etc. Emphasizes self-awareness as related to family development.

Prerequisite(s): COUN 500, CNPY 502, or permission of instructor or advisor.

COUN 515 Substance Abuse Counseling 3 Credits

Analyzes the development, intervention, and treatment of drug abuse and alcoholism. Designed to assist counselors in identifying drug abuse and alcoholism, examining the specialized approaches of counseling with these clients and reviewing the related elements; i.e., family participation, physical problems, effects on school or job, etc.

COUN 516 Strategies in Addiction Counseling 3 Credits

Analyzes the development, intervention and treatment of co-dependents. Designed to focus on the characteristics of co-dependency and how they were initiated in alcoholic families as well as other dysfunctional families. Symptoms will be discussed in terms of problems with intimacy, trust, eating disorders, assertiveness, love relationships and the differences among co-dependents. Specialized approaches to treating these areas will be discussed. (Classes will involve lecture, discussion and students will learn and experience group exercises for co-dependency treatment.)

Prerequisite(s): COUN 515 or permission of instructor.

COUN 520 Multicultural Counseling and Relationship Development 3 Credits

Introduces, examines, and critically analyzes and reflects upon major origins and dimensions of human similarities and differences. Explores and personalizes the social-psychological and behavioral implications of these similarities and differences. Examines issues of racism, reverse racism, age and handicapped discrimination, sexism, sexual orientation, etc., in the light of theories of individual and group identity development and the impact of these on, between and within group relationships. Each student is expected to utilize this knowledge for the development of healthy multicultural skills. A semester-long engagement in a multicultural interaction and a presentation of a multicultural discovery project are required.

COUN 525 Gender Issues in Counseling 3 Credits

Examines the psychological, physiological, historical, and socio-cultural factors that affect the development of women and men across the life span and discusses implications for counseling. Focuses on relevant gender issues including gender bias and equity, misdiagnosis, self-esteem, depression, violence and sexual abuse, the feminization of poverty, and the importance of relationship for women. Presents an overview of feminist psychotherapy and explores the context of the behavioral, emotional and biological problems that impact on mental health. Also discusses the emerging men's movement and trends in counseling men; introduces gay and lesbian issues, the issues of minority women, and factors in counseling the HIV/AIDS client.

COUN 530 Legal and Ethical Issues in Counseling and Psychotherapy 3 Credits

Examines and analyzes the legal, ethical, and professional parameters of counseling and psychotherapy. Discusses legal liabilities and malpractice cases arising from constitutional, tort, contract, family, privacy, and criminal laws. Examines client rights and counselor duties and responsibilities. Explores legal, ethical, and professional implications of third party payment, informed consent, medication, case documentation, client termination and abandonment. Advertisement of counseling services, crisis and case management, consultation and supervision, "duty-to-warn" and court appearances of an expert witness will be explored. Special attention will be given to child abuse reporting issues, dual relationships and to regional legal and ethical developments.

COUN 535 Holistic Wellness Counseling 3 Credits

Based on current methods and research, students will explore holistic wellness (e.g., spirituality, self-direction, work and leisure, friendship, and love) positive psychology (e.g., hope, forgiveness, etc.), and human change from personal and interpersonal perspectives.

Prerequisite(s): CNPY 502.

COUN 550 Counseling Techniques Laboratory 3 Credits

A basic laboratory pre-practicum for counseling services majors which provides opportunities for both observation of and participation in counseling activities. The purpose of this course is to provide students with their initial counseling experience under closely supervised conditions. The focus of this course is the development of basic counseling skills through an emphasis on techniques (basic and advanced listening and helping skills), strategy (the counseling process), and self development (the student as counselor) grounded in professional counseling theories.

COUN 580 Elementary School Counseling Practicum 3 Credits

A 100-hour supervised experience in counseling and consultation in an elementary school setting. Students will obtain a minimum of forty (40) contact hours with clients. The course will also provide an historical overview of the school guidance and counseling function. Current practices for assessing, organizing, implementing and evaluating school counseling services will be reviewed. Students will develop knowledge and skills in the development of primary, secondary, and tertiary interventions designed to promote the academic and social development of children of elementary school age. Students apply knowledge and skills developed in pre-practicum experiences in addressing the needs of school children.

Prerequisite(s): To be taken semester prior to COUN 590.

COUN 581 Secondary School Counseling Practicum 3 Credits

A 100-hour supervised experience in counseling and consultation in a secondary school setting. Includes seminar discussions, interview analyses, videotape observations, and individual supervision with the faculty supervisor. Provides the counselor-in-training with the opportunity to develop and practice skills and techniques necessary for the effective delivery of counseling services in the secondary school setting. Reviews current practices for assessing, developing, organizing, implementing, evaluating, and reflecting on counseling services as they address the special needs of secondary school students.

Prerequisite(s): To be taken semester prior to COUN 590.

COUN 585 Clinical Mental Health Counseling Practicum 3 Credits

A supervised experience in counseling and consulting techniques in mental health facility, community counseling agency, or college setting. Includes seminar discussions, interview analyses or audiotape/videotape observations, and individual supervision with the instructor. For the experienced counselor or the advanced counselor in training who desires to review and/or strengthen individual counseling and consulting techniques. A field placement of 100 hours is required with a minimum of 40 direct contact hours with clients. Students registering for this course should contact the instructor the semester prior to the course being offered.

Prerequisite(s): To be taken semester prior to COUN 590.

COUN 586 Group Counseling Practicum 3 Credits

A supervised experience in group counseling. Each student is expected to screen and select prospective clients and do group counseling for two groups of clients. Individual and group supervision is provided throughout the semester. Each student is expected to critique at least one audio recording each week with a fellow student. Besides making and critiquing audio recordings, students periodically are asked to make and critique video recordings of their group counseling sessions. Students registering for this course should contact the instructor the semester prior to the course being offered.

Prerequisite(s): COUN 503, need permission of advisor.

COUN 590 Internship in Counseling I 3 Credits

An internship that provides 300 hours of on-the-job experience, including all activities that a regularly employed staff member would be expected to perform. The internship placement is selected on the basis of the student's career goals. School and agency counselors who supervise interns determine the structure and the content of the internship in cooperation with the Rider supervisor. The approval and cooperation of the student's superintendent, principal, or other appropriate administrative personnel must be obtained the semester before the counselor candidate's internship is scheduled.

Prerequisite(s): all other required course work must be completed or in progress and permission of the Rider supervisor must be obtained; any exceptions must be approved by the instructor.

COUN 591 Internship in Counseling II 3 Credits

The continuation of an internship that provides a 300-hour field experience including all activities that a regularly employed staff member would be expected to perform (n.b., a regularly employed staff member is defined as a person occupying the professional role to which the student is aspiring). The internship placement is selected on the basis of the intern's career goals. School and agency counselors who supervise interns determine the structure and the content of the internship in cooperation with the faculty supervisor. The approval and cooperation of the intern's agency or school field supervisor must be obtained the semester prior to the actual placement.

Prerequisite(s): COUN 590 and all other required course work must be completed or in progress and permission of the faculty supervisor must be obtained; any exceptions must be approved by the faculty supervisor.

COUN 600 Independent Study and Research in Counseling Services 1-3 Credits

Students may take two independent studies. However, under special circumstances, such as students seeking certifications (e.g., Student Assistance Coordinator), students may be approved by their advisor to take up to six COUN 600 3-credit courses for a total of 18 credits.

COUN 660 Counseling Supervision: Issues, Concepts and Methods 3 Credits

This course introduces and critically examines issues and concepts that arise in the supervision of counseling and psychotherapy practitioners and trainees. Methods and techniques of supervision are presented to enable students to become knowledgeable and skilled providers of proficient clinical supervision. Psychotherapeutic, behavioral, integrative, systems, experiential, and developmental models of supervision are studied. The unique problems encountered in group, family, and couples counseling supervision are raised as well as legal, ethical, and multicultural issues. Administrative and contemporary issues such as inter- and intra-agency supervision, inter-agency communication, record keeping, evaluation, and taping of counseling sessions are examined.

Prerequisites: COUN 590.

COUN 690 Internship in Counseling Speciality I 3-6 Credits

This internship provides on-the-job clinical experience in approved settings. Placement is selected based on students' specialty area goals and must be approved by the faculty advisor the semester prior to actual placement. Students must also submit in writing a description of clinical activities available in the field site before the placement is approved. Students will be required to attend a weekly seminar during which time each student will present and/or discuss legal, ethical, multicultural, contemporary, and clinical issues in her/his specialty area.

CNPY 502 Theories of Counseling and Helping Professions 3 Credits

Introduces the theoretical constructs of the primary contemporary counseling psychology theories being used in the counseling profession today. The theoretical constructs will be explored for use for self-reflection and self-development and to serve as the basis for development of psychological maps for understanding purposes of clients' behaviors.

Prerequisite(s): COUN 500 or as corequisite.

CNPY 503 Psychological Development of the Adult and Aging 3 Credits

Surveys psychological principles applied to counseling services with emphasis on developmental processes, individual differences, and mental health. Concepts and theoretical orientations to human adult development and transitions throughout the adult life span. The analysis, interpretation, and practical implications of significant research that has contributed most to the knowledge of human development of the adult and aging will be examined.

CNPY 514 Psychopathology 3 Credits

A survey of the study of abnormal psychology. Includes classification, assessment, and treatment and prevention of psychopathology. Characteristics of healthy psychological functioning are examined. Biological, psychological, and sociocultural bases of well-adjusted and maladjusted behavior patterns are considered. Stress, anxiety, and milder forms of psychopathology are considered, as are more severe psychopathological conditions.

CNPY 515 Consultation in School and Agency Settings 3 Credits

This course provides an introduction to school and agency based consultation theories and practices. Contemporary models of consultation are presented with students' emphasis on mental health, behavioral, and systems approach. In addition to the study of conceptual models, the development of skills in the consultation process in school and/or agency settings is emphasized. Students engage in behavioral consultations with consultees in approved placements.

CNPY 516 Advanced Psychopathology 3 Credits

An in-depth study of psychopathology with emphasis on developmental and personality disorders, and physiological disturbances. Includes assessment, classification, and treatment with emphasis on utilization in a variety of counseling and school settings. Biological, pathological, pharmacological bases of mental disorders are introduced and discussed in relationship to specific disorder classifications.

Prerequisite(s): CNPY514 or permission of instructor.

CNPY 518 Counseling Children, Adolescents and Families 3 Credits

This course will emphasize counselor and consultant behaviors that facilitate the helping process with children, adolescents, and their families. Information and activities will be provided that address age, ethnic, and developmental considerations in counseling children and adolescents. Issues and practices related to crisis intervention will be explored.

CURR 531 Strategies for Curriculum Development, Design, Innovation and Change 3 Credits

This course will address the importance of philosophy, historical precedents, learning theory, developmental theory, emerging social trends and issues, and recent trends in content knowledge as bases for designing and developing the K-12 curriculum. The articulation of curriculum aims and goals, the development and selection of learning experiences, the organization of learning experiences, and plans for evaluating curriculum outcomes are used as steps for developing the curriculum. Students investigate the roles teachers, teacher leaders, supervisors and administrators play in implementing curriculum designs in school settings. Students are expected to demonstrate course understandings through actual school applications and field experiences that are referenced to core curriculum content standards, professional development standards and national school leadership standards.

EDAD 501 Educational Leadership and Organizational Theory 3 Credits

This introductory course will provide leadership candidates with a framework for understanding the complexity of organizational behavior in an educational setting. Theories and issues in the technical core of teaching and learning, educational governance, leadership, communication patterns, decision-making, school culture, organizational problem solving and school change will be presented, examined and applied through a series of case studies and student initiated inquiry/ research projects and presentations. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

EDAD 505 Supervisor/Teacher Leadership for Improved Instruction and Student Learning 3 Credits

This course will explore the supervisory and evaluation practices in K-12 settings by examining and identifying the relationships among collegiality and collaboration, educational leadership, and the improvement of instruction. This course will emphasize the development of practical observation skills and approaches and the development of appropriate professional growth plans to enhance staff performance and bring about increased student learning. Multi-track evaluation programs will be examined as well as an analysis of current observation and supervisory approaches used in school districts. Participants in the course will develop a personal supervisory platform. This course will emphasize the development of collaborative and clinical supervision approaches as well as communication skills and interpersonal qualities of the effective supervisor. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

EDPS 502 Psychological Development of the Child and Adolescent 3 Credits

Surveys of psychological principles applied to counseling services with emphasis on developmental processes, individual differences, and mental health. Concepts and theoretical orientations to human development from conception through adolescence. The analysis, interpretation, and practical implications of significant research that has contributed most to the knowledge of human development of the child and adolescent.

EDPS 503 Human Growth and Development 3 Credits

Provides an overview and broad understanding of life span developmental theories and research applied to counseling services with special emphasis on developmental processes, individual differences and mental health. Includes strategies for working with developmental issues across the life span.

EDPS 520 Measurement, Tests and Assessments in Counseling/School Psychology 3 Credits

The first course in a two-course sequence on measurement and research. It will develop the ability to calculate descriptive statistics, and administer, evaluate and interpret assessment instruments commonly used in the counseling profession. Topics include descriptive statistics, reliability and validity, social and ethical considerations in testing, the appropriate selection and usage of standardized tests, and the communication of their results. Computer literacy is required in this course.

EDPS 521 Statistics and Quantitative Analysis 3 Credits

Prior to the beginning of this course, the student should have designed both a survey and an interview format in an area of interest to them. Inferential statistics and quantitative techniques for analyzing, interpreting and reporting research data will be applied to this data.

Prerequisite(s): EDPS 520, EDUC 500.

EDSO 501 Foundations of School Counseling: Referral Sources for Clients and Students With Special Needs 3 Credits

Addresses community social services available to clients and special needs students. Reviews principles and methods utilized by social agencies. Representatives of various community agencies are invited to discuss the role and function of the agencies they represent. Students visit various community agencies and report on their work.

EDSO 510 Sociological and Cultural Foundations of Education 3 Credits

The American public school as a social organization which influences and is influenced by local, national and international cultural evolution. An exposition and analysis of the vibrant multicultural issues that sometimes determine the outcome of public education. An exploration of contemporary educational problems and challenges resulting from changing social and cultural conditions. A perceptive and reflective placement of these changes in a historical context to enable students put the future in perspective.

EDUC 500 Introduction To Research 3 Credits

Introduces basic research and evaluation concepts for the purpose of facilitating reading of journal articles and communication with researchers. Designed for students in business education, educational administration, and selected special students.

Developing People and Organizations Certificate

Program Overview

This track is aimed at preparing students to be successful, strategic and impactful professionals who are able to work effectively through others.

The program offers insight into:

- human and organizational relationships;
- enhances the capacity for sound analytical judgment; and
- encourages the ability to see the "big picture" as it relates to an organization and its environment.

Curriculum Overview

Coursework focuses on applied action grounded in theory, and embraces principles applicable to administrative issues in the private, public and nonprofit sectors. The courses enable students to enhance their knowledge and skills in the areas of:

- recruitment,
- leadership development,
- group dynamics,
- organizational change,
- management of conflict,
- succession planning,
- training and
- adult learning theory.

LEAD 533	Conflict and Crisis Resolution in Organizations	3
LEAD 534	Team Effectiveness and Creativity in Organizations	3

Courses and Descriptions

LEAD 510 Organizational Communication 3 Credits

This course will acquaint students with classic and contemporary approaches to organizational communication and provide them with analysis and research assignments to further the process of graduate-level scholarship. Students will gain knowledge of the breadth of theoretical approaches to understanding communication in organizations as well as processes relevant to communicative life in organizations. Students will gauge the presence of various approaches to organizational communication and communication processes in organizations in which they work, study, or volunteer and evaluate their effectiveness. Students will ask questions that can be answered by systematic research in academic and professional/practitioner organizational communication literature, demonstrating information literacy skills.

Prerequisite(s): LEAD 500 or concurrent with LEAD 500.

LEAD 511 Facilitating Culture and Process Change in Organizations 3 Credits

Organizational culture and existing processes can enable productive and effective environments, or they can be barriers to carrying out the central missions of corporations, not-for-profits, governmental or educational institutions. For organizations to thrive and survive in the future they must be able to change and develop rapidly. This course provides a working knowledge of the key theories and practices necessary to be an effective change agent. Students develop skills in diagnosis, design of interventions and strategies for communicating change.

Prerequisite(s): LEAD 510 or concurrent with LEAD 510.

LEAD 512 Forms of Diversity in Organizations 3 Credits

Increasingly, leaders and employees are part of a more diverse, multiethnic and globally influenced workforce. Students will become more conversant with forms of diversity, such as different cultural traditions, as well as differences in generational sensibilities, ableness, gender, and level of adult development. Students will learn about the different “worldviews” which organizational members bring into the organization, and how that affects their ability to work together. The course develops students’ knowledge of and skills in practicing: principles for optimizing human performance in organizations, cultural intelligence, human diversity, and leading multicultural organizations.

LEAD 513 Media and Technology in Organizations 3 Credits

Students will learn how digital technology affects effective communication by leaders and will gain basic skills in the use of new media in organizations. From social media to mobile applications and video blogging, organizations now operate in complex communication environments. Making use of these new means for communication is an organizational challenge and opportunity, of especial importance to the leadership and implementation of change.

LEAD 531 Developing The Human Side of Organizations 3 Credits

This course examines the evolving human resources function within today’s organizations, and it is designed to provide students with a comprehensive understanding of the use of human resources from a systemic and strategic perspective. Students learn the processes used to select, evaluate and develop employees and leaders and develop a Human Resource Development (HRD) program.

LEAD 532 Program Design for Training and Development in Organizations 3 Credits

This course provides a full circle approach to workforce training and development that is applicable to professionals in human resources, organizational development, or other leaders who see themselves as trainers, mentors and coaches. The course is designed for students to explore “real world” applications for programs, services and operations in a training environment, and covers key principles such as adult learning theory, facilitation skills, curriculum development, needs assessment, training methodology and techniques, resources and constraints, as well as learning how to evaluate and improve the efficacy of training programs.

LEAD 533 Conflict and Crisis Resolution in Organizations 3 Credits

Leaders face conflict and crisis in their organizations. Being effective in their resolution is an important leadership attribute. Skills that support positive and integrative outcomes include mediation, negotiation and crisis resolution skills. This course will use multiple case studies and role-playing assignments to engage students in understanding how individuals and teams handle mediation and negotiation scenarios. The course will also use multiple case studies to enhance students’ understanding of the components of effective and ineffective leadership for crisis.

LEAD 534 Team Effectiveness and Creativity in Organizations 3 Credits

In organizations, teams are used for many purposes. Some teams reach high performance, generating quality outcomes. Some cross-functional teams, such as those used for new product development, are expected to be both effective and creative. This course examines the characteristics and behaviors of teams that produce good results and those that generate new ideas. The focus of the course is on functioning as teams and developing team facilitation capabilities, so that students may be more effective as team members and play a consultative role in organizations.

Director of School Counseling Services Certificate

Program Overview

The program is designed for school counselors who wish to be certified as director of school counseling services. The Director of School Counseling Services endorsement authorizes the holder to serve as a director, administrator or supervisor of school counseling services, including the supervision of educational activities in areas related to and within the counseling program in grades preschool through 12.

Curriculum Overview

The applicant’s academic and professional background are assessed in terms of state certification requirements (<http://www.state.nj.us/education/educators/license/endorsements/0602S.pdf>) in order to determine an appropriate plan of study, however, three courses are typically required.

EDAD 505	Supervisor/Teacher Leadership for Improved Instruction and Student Learning	3
or COUN 660	Counseling Supervision: Issues, Concepts and Methods	

Courses and Descriptions

CURR 531 Strategies for Curriculum Development, Design, Innovation and Change 3 Credits

This course will address the importance of philosophy, historical precedents, learning theory, developmental theory, emerging social trends and issues, and recent trends in content knowledge as bases for designing and developing the K-12 curriculum. The articulation of curriculum aims and goals, the development and selection of learning experiences, the organization of learning experiences, and plans for evaluating curriculum outcomes are used as steps for developing the curriculum. Students investigate the roles teachers, teacher leaders, supervisors and administrators play in implementing curriculum designs in school settings. Students are expected to demonstrate course understandings through actual school applications and field experiences that are referenced to core curriculum content standards, professional development standards and national school leadership standards.

EDAD 501 Educational Leadership and Organizational Theory 3 Credits

This introductory course will provide leadership candidates with a framework for understanding the complexity of organizational behavior in an educational setting. Theories and issues in the technical core of teaching and learning, educational governance, leadership, communication patterns, decision-making, school culture, organizational problem solving and school change will be presented, examined and applied through a series of case studies and student initiated inquiry/research projects and presentations. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

EDAD 505 Supervisor/Teacher Leadership for Improved Instruction and Student Learning 3 Credits

This course will explore the supervisory and evaluation practices in K-12 settings by examining and identifying the relationships among collegiality and collaboration, educational leadership, and the improvement of instruction. This course will emphasize the development of practical observation skills and approaches and the development of appropriate professional growth plans to enhance staff performance and bring about increased student learning. Multi-track evaluation programs will be examined as well as an analysis of current observation and supervisory approaches used in school districts. Participants in the course will develop a personal supervisory platform. This course will emphasize the development of collaborative and clinical supervision approaches as well as communication skills and interpersonal qualities of the effective supervisor. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

COUN 660 Counseling Supervision: Issues, Concepts and Methods 3 Credits

This course introduces and critically examines issues and concepts that arise in the supervision of counseling and psychotherapy practitioners and trainees. Methods and techniques of supervision are presented to enable students to become knowledgeable and skilled providers of proficient clinical supervision. Psychotherapeutic, behavioral, integrative, systems, experiential, and developmental models of supervision are studied. The unique problems encountered in group, family, and couples counseling supervision are raised as well as legal, ethical, and multicultural issues. Administrative and contemporary issues such as inter- and intra-agency supervision, inter-agency communication, record keeping, evaluation, and taping of counseling sessions are examined.

Prerequisites: COUN 590.

Early Childhood Teacher (Preschool-3) Certificate

Program Overview

The graduate-level Early Childhood Teacher Certification Program is designed for college graduates seeking initial certification as a preschool-grade 3 teacher. This is a streamlined, rigorous, and sequential program of professional studies that combines the best of theory, research, and practice. It is designed for part-time students who take one or two

late afternoon/evening courses per semester. The teaching internship (student teaching) at the end of the program requires full-time enrollment for one semester. The program is state approved.

The course work in this program counts toward completion of the Master of Arts in Teaching (MAT) (p. 773).

Curriculum Overview

This is a 24 credit program requiring five courses taken in late afternoons/evenings followed by a full semester of full-time student teaching in a host school in the region.

Additional requirements for GLTP completion

- Completion of all courses before internship with a "C+" or better in each course and with a 3.0 grade point average.
- Completion of GLTP 570 with a "C+" grade or better.

Courses and Descriptions

GLTP 500 Conceptual Frameworks for Teaching and Learning 3 Credits

This course provides psychological and interdisciplinary perspectives on teaching and learning. Within the theme of optimal development of creative intelligence, students use these perspectives to guide their reflective professional development throughout their program. The course develops knowledge, skills, and dispositions pertinent to (a) child and adolescent development, (b) learning theories, (c) philosophical and historical perspectives on education, (d) sociocontextual and interdisciplinary influences on education, and (e) higher-order creative and critical thinking.

GLTP 502 Curriculum and Instruction in Reading/Language Arts: Early Literacy 3 Credits

Current strategies for teaching beginning learners vocabulary, comprehension, composition, and language study. Pedagogy for all learners, ranging from gifted to diverse learners. How to manage literacy instruction through content areas in general education in preschool and primary grades.

Prerequisite(s): GLTP 500.

ECED 507 Emergent Literacy 3 Credits

Examines perspectives on literacy acquisition including the social-constructivist perspective. Examines the processes of comprehension and composition through the language systems for written language: the grapho-phonetic, syntactic, semantic, and pragmatic. Explores the components of these processes including concepts of print, knowledge of the alphabet, phonological awareness, language play, literary genres, spelling development, vocabulary development, and word recognition.

ECED 532 Issues and Challenges in Early Childhood Education 3 Credits

This course addresses the role of parents of young children within the context of school, home and society, as well as the influence of culture, traditions and current issues in early childhood education. Students will explore the efficacy of parenting techniques and behaviors on child development in the early years, including cognitive growth, emotional and social well-being and physical health. Students will investigate strategies for fostering home-school partnerships that enhance child development and educational success, as well as the influence of community, culture and socio-economic status on families and schools throughout our world. In addition, this course addresses current issues and challenges in the early childhood profession including inclusion of children with special needs, advocacy for quality care and education for all young children, and any other subject that might arise - either from the lives of children and families, teachers' professional development, or community agencies. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

ECED 550 Development Methods and Assessment in Early Childhood Education 3 Credits

The focus of this course is developmentally appropriate and culturally responsive curriculum and teaching P-3 settings as delineated in the guidelines of the National Association for the Education of Young Children. Students will learn how to make curriculum and teaching decisions based on knowledge of child development, content area, curriculum content standards, and home and community cultures. In order to meet the ever-changing needs, interests, and growing strengths of individual children, careful observation and assessment provides teachers with information on which to base adjustments of teaching plans. This course will provide opportunities to deepen understanding of child development; gain an appreciation for the professional responsibility of ongoing assessment of children; and, develop the necessary skills to gather, record, and interpret information in a deliberate and reflective manner. A cumulative GPA of 2.75 is required.

Prerequisite(s): EDU 106 and EDU 206.

GLTP 510 Curriculum and Teaching in the Elementary School I: Mathematics 3 Credits

This course introduces students to the elementary curriculum and focuses on the teaching of mathematics that is developmentally appropriate for students from nursery to grade eight. In keeping with NAEYC and NCTM standards, emphasis is placed on planning for and implementing an integrated curriculum approach, discovery learning, hands-on experiences, use of technology, lesson planning, and traditional and non-traditional assessment strategies. Students will also explore positive models for classroom management and discipline. Field experiences will consist of classroom observations and teaching individuals and/or small groups of students.

Prerequisite(s): GLTP 502.

GLTP 570 Seminar and Internship in Teaching 9 Credits

This course, designed for those seeking initial certification, requires full-time supervised daily participation in a school setting. The student gradually assumes a full load of teaching responsibility at the school. The experience will test the translation of educational theory into meaningful practice. A student-teaching fee is charged for this course. (nine semester hours).

GLTP 571 Supervised Practicum in Teaching 3 Credits

This practicum is a condensed version of the Internship in Teaching. It is available only to interns seeking teacher certification who already have a year of successful, full-time teaching experience or its equivalent. A special application must be made and approved for enrollment in the course. The practicum requires six weeks of full-time, supervised daily participation in a school setting. After a brief period of orientation to the school and classroom, the intern assumes a full load of teaching responsibility at the school. The experience finetunes the teaching abilities of interns and enables them to demonstrate competence in the specialty for which they seek certification.

Prerequisite(s): Permission of instructor.

Educational Leadership

Program Overview

The program in Educational Leadership at Rider University prepares candidates for leadership positions at different administrative levels in elementary and secondary schools, colleges and related educational organizations. All programs are accredited by NCATE/CAEP. The program has been designed to be developmental and experiential in nature, fostering ethical behavior and the improvement of self and

one's profession. Candidates are prepared for leadership opportunities in a collegial and collaborative academic environment that promotes inquiry and discovery, personal growth and initiative, and professional development. The Option Sequences build upon and reference the Interstate School Leaders Licensure Consortium (ISLLC); Standards for School Leaders, and the Standards of the National Policy Board for Educational Administration, utilized by the Educational Leadership Constituent Council (ELCC).

Preparing Principals for New Emerging Needs

Rider's Educational Leadership program recognizes that it is principals who are best positioned to lead the effort in their schools to ensure that teaching and learning are as excellent as possible. Principals who have a school-wide focus on better teaching and learning, who know how to create a vision and share authority, and who are prepared to be accountable for achieving the school's educational goals, are vital to ensuring the quality of our children's education. The professionals in our School of Education work with our participants to develop and evaluate curricula, use data to diagnose student needs, coach teachers, plan professional development in their schools, and establish school-wide norms that support high quality teaching and learning.

Curriculum Overview

Leading to an Master of Arts in Educational Leadership, the Principal Leadership program's cohort-based, executive-style format brings educational peers together to study, network and learn as a unit throughout the program. Participants engage in online classes during the school year, and attend two residencies on Rider's Lawrenceville campus each summer. The program's flexible blended learning format recognizes the demands of the teaching profession while maintaining the rigors of a quality leadership training program. Participants pursue their graduate studies without interrupting their professional and personal responsibilities. Candidates complete their graduate studies in two years, and are eligible to apply for both the principal and supervisor certificates.

Educational Leadership Highlights

The 36-credit program of study consists of 12 courses that focus on three areas of leadership:

- personal leadership
- instructional leadership
- school culture leadership

An accomplished and distinguished faculty whose members bring deep practical and theoretical knowledge to their disciplines leads the program. There is close integration of coursework and fieldwork, using techniques such as case studies, problem-based learning and journaling to encourage continuous reflection about the connections between theory and practice. The curriculum heavily emphasizes teaching and learning, school redesign and collaborative decision-making. Relevant field-based experiences (Leadership Growth Projects) are also integrated throughout the program of study, beginning with the very first course.

Planned Internship Experiences

This year-long aspect of the program emphasizes both the management and instructional facets of leadership for increased student performance. Coordinated by the program director at Rider and a school-based mentor, participants develop the skills needed to strategically transform public schools that prepare students for college and career success.

Total Credits

36

1. Meet general master's degree requirements.
2. Candidates will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.
3. Reference the ISLLC and ELCC Standards throughout the program.

4. Develop and refine the personal leadership platform statement throughout the program.
5. Complete a 9–12 hour standards and outcome-based growth project in each class and a 300 hour “capstone internship” in the Seminar/Practicum courses in Educational Leadership (EDAD 591/EDAD 592). Teacher Leadership candidates need only complete a 150 hour “capstone internship” in the Seminar/Practicum course EDAD 510.
6. Submit an electronic Leadership Growth Project Portfolio.
7. Complete a comprehensive standards-based self-assessment.
8. Complete a “Capstone School Improvement/Change Project.”

Courses and Descriptions

EDAD 501 Educational Leadership and Organizational Theory 3 Credits

This introductory course will provide leadership candidates with a framework for understanding the complexity of organizational behavior in an educational setting. Theories and issues in the technical core of teaching and learning, educational governance, leadership, communication patterns, decision-making, school culture, organizational problem solving and school change will be presented, examined and applied through a series of case studies and student initiated inquiry/research projects and presentations. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

EDAD 505 Supervisor/Teacher Leadership for Improved Instruction and Student Learning 3 Credits

This course will explore the supervisory and evaluation practices in K-12 settings by examining and identifying the relationships among collegiality and collaboration, educational leadership, and the improvement of instruction. This course will emphasize the development of practical observation skills and approaches and the development of appropriate professional growth plans to enhance staff performance and bring about increased student learning. Multi-track evaluation programs will be examined as well as an analysis of current observation and supervisory approaches used in school districts. Participants in the course will develop a personal supervisory platform. This course will emphasize the development of collaborative and clinical supervision approaches as well as communication skills and interpersonal qualities of the effective supervisor. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

EDAD 507 Education and the Law 3 Credits

This course will address legal issues and requirements confronting educational leaders in school settings. Students will be introduced to varied legal requirements that pertain to educational settings. Legal concepts and issues, and policies and procedures relating to students, parents, teachers and administrators, the board of education, and the community will be introduced and examined. Some of the topics referenced will include: regulations and the key concepts in the Individuals with Disabilities Education Act and the Americans with Disabilities Act; No Child Left Behind legislation; church-state issues; free-speech rights of students, teachers and extracurricular groups; curriculum development and implementation; rules governing student and staff conduct; creating and maintaining a safe school environment; child abuse; search and seizure procedures; affirmative action requirements; and, due process procedures. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

EDAD 508 Leadership in School Business Adm. 3 Credits

The educational leadership required to establish an effective relationship between school business services and the success of the total educational program is the primary focus of this course. The professional and legal responsibilities of the school business administrator to manage the organization and resources, identifying and solving problems and issues related to the effective and efficient operation of school district, will be reviewed. Specific legal and code requirements and best-practice organizational and management procedures critical to the administration of a public school district will be examined. Among the topics of study in the course will be: the organization and management of the district business office; the development of strategic planning models; traditional and program oriented budgets; and, the application of technology to instruction and the management of school and district fiscal operations. Special emphasis will be given to the importance of “generally accepted accounting procedures” in district operations. Other topics to be addressed will include: personnel, enrollment, and resource forecasting; debt service and insurance expenses; food services, transportation, and facility operations; supply management and facility maintenance; and temporary financial investments. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

EDAD 509 School Financial Mgt and Accounting 3 Credits

This course examines the historical precedents and current procedures that regulate and control the funding and financial operations of school districts. The leadership role of the school business administrator, ensuring the operation of the district in compliance with policy, procedure, and code, is a central theme. Judicial decisions, federal and state legislation, the planned curriculum, and generally accepted business practices that impact on the operation of the total educational program in school districts will be reviewed. Some specific topics of study will include: the leadership role of the school business administrator in monitoring, assessing and reporting on fiscal operations; determining taxation rates; and, developing non-public sources of revenue. The impact of state imposed "cap" regulations and negotiated bargaining unit benefit packages and agreements will be assessed with regard to possible budget growth and development. Enrollment, revenue, and cash flow projections; the fiscal controls used to approve, manage and track expenditures; regulations and restrictions on the use of school funds; school district surplus and debt regulations; current and emerging fiscal concerns in school budget planning and development; and, the role of the school fiscal structure in relation to the local, state, and federal governments are other important topics to be developed. Advanced study in double entry accounting procedures will be a major component in the course. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

EDAD 510 Seminar/Practicum in Teacher Leadership and Supervision 3 Credits

This course requires the student to self-assess supervisory leadership strengths for the purpose of establishing an agenda for an extensive site-based internship. The internship agenda is guided by national leadership standards that ensure a comprehensive exposure to supervisory responsibilities. Students deepen their understanding of supervisory theory and best practice and apply this knowledge to the development and refinement of a personal leadership platform. Considerable attention is placed on understanding the ethical basis of supervisory practice. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

Prerequisite(s): CURR 531, CURR 532 or CURR 538, and EDAD 505.

EDAD 511 Group Process in Supervision for Creative Change and Collaboration in Schools 3 Credits

This course will apply theory and research to the supervisory function of developing group capacity in educational settings. Students will identify group process "best practices" to be modeled by educational leaders. Candidates will develop and refine techniques, strategies, and personal skills facilitating the development of helping and caring relationships with faculty and staff, while promoting interactive communication with stakeholders concerned with improving teaching and learning. Students will demonstrate effective supervisory behaviors in class sessions and simulations that represent daily challenges and opportunities present in school settings. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

Prerequisite(s): EDAD 505.

EDAD 512 School Facility Planning and Development 3 Credits

This course will examine the leadership role of the school business administrator in facility planning, renovation, and expansion. The essential linkage between guiding principles, existing and proposed facilities, and the implementation of the total educational program is considered from both theoretical constructs and practical applications. Major topics of study will include: the development and revision of long-range facility plans; the role of the state Economic Development Authority; the critical review of state proposed "model" school buildings; and, the process of drafting educational specifications. In addition, required site plan reviews by state and local officials; the referendum approval process; and, the integral role of professional services (public opinion consultants, attorneys, demographers, architects, financial consultants, public information agencies, etc.) will be discussed. Students will evaluate geographic, socio-political, financial, and ecological considerations in proposed school construction. Planning for new and emerging technology, addressing health, safety, and security considerations, ensuring barrier-free access, incorporating energy conservation measures, and the utilization of school buildings by the greater community will be overarching themes developed. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

EDAD 513 Human Resources in Education 3 Credits

This course will develop the practical and theoretical knowledge of the human resources function in the educational setting. Emphasis will be placed on understanding and utilizing human resources functions and processes to identify needs and address issues in both instructional and non-instructional positions. The student will gain an understanding of the inter-relationship that exists between organizational climate, strategic planning, and the established policies and regulations of the human resources function. Students will develop a comprehensive understanding of the importance of recruitment, selection, mentoring and evaluation of faculty and support staff. Emphasis will be to continuously identify issues that are legal requirements in human resources administration or required by federal or state regulations. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

Prerequisite(s): EDAD 505 and EDAD 511.

EDAD 514 School Finance and Fiscal Management 3 Credits

This course will examine the principles and court decisions involved in shaping the legal framework of school finance. Students will examine the historical spending patterns of a school district budget and develop new budget proposals using "generally accepted accounting procedures" and the appropriate state budgeting codes. Students will study school budgeting procedures as a tool for program and school improvement. The class will examine the financial implications associated with site-based management models and whole school reform. Legislation pertaining to the financing of short and long term debt will be examined. Students will use technology to gather data; identify non-tax based resources; create presentations for specific audiences; and, work with models of data driven indicators to examine issues of equity, efficiencies and resource deployment. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

Prerequisite(s): EDAD 501.

EDAD 515 Mentoring Beginning Teachers 3 Credits

This field-based practicum requires that each student work with a novice teacher (student teacher or beginning teacher) while enrolled in the course. Through reading, observation, biography and interview, students will explore how novice teachers acquire teaching knowledge and skill. By researching their own practice as mentors, reading relevant literature and participating in critical dialogue in seminars, students will explore and evaluate methods of facilitating and supporting novice teachers' professional growth.

EDAD 521 Using Research Strategies and Analysis of Data to Make Decisions in Schools 3 Credits

This course will develop the skills needed by educational leaders at all levels to interpret, use, and apply statistical concepts and research methodologies in critical administrative and supervisory functions. Statistical methodology will be used to further understanding of different research strategies. Students will interpret data and make informed decisions regarding the frameworks, implementation, and evaluation of instructional programs and practices designed to improve teaching and learning in school, district, and national settings. Course activities and field work will include: scenario and case study analyses; the use of critical friends' discussion groups; the application and use of different technologies and software programs; and, the identification of appropriate problem solving and resolution strategies. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

Prerequisite(s): EDAD 501 and EDAD 514.

EDAD 591 Seminar/Practicum in Education Leadership 3 Credits

This is the first of two "capstone" internship courses for candidates in the leadership program in educational administration. The course meets New Jersey Department of Education requirements for an extended administrative internship in the schools. This course is taken in the fall semester and is followed in the spring semester with EDAD 592. After analysis of leadership strengths, based on a self-assessment completed by the candidate, specific internship experiences will be cooperatively planned by the candidate, site-based mentor, and instructor. The capstone internship will build on strengths, develop growth experiences, be substantial and sustained, and be ethically informed. Students will cooperatively evaluate and problem-solve internship experiences, assess leadership performance from best-practice perspectives, finalize the development of a leadership platform statement, review and discuss topics and scenarios derived from readings and other resources, engage in simulations and case analyses, and interact with students in other graduate programs. Presentations by practicing administrators and other school personnel will provide understanding of the patterns of interaction that occur among different leadership positions in educational institutions. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council. Enrollment by permission of instructor.

EDAD 592 Seminar/Practicum in Educational Leadership 3 Credits

This is the second of the "capstone" internship course sequence that coincides with the school-year calendar and is taken during the spring semester. In combination with EDAD 591, the course meets New Jersey Department of Education requirements for an extended administrative internship in the schools. Students will continue pursuing field-based internship projects initiated in EDAD 591 in collaboration with a site mentor and the course instructor. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council. Enrollment by permission of instructor.

Prerequisite(s): EDAD 591.

EDAD 600 Independent Study and Research in Educational Administration 1-3 Credits

Course content varies with the academic research interests of students who wish to engage in independent study related to the overall content of educational administration.

Elementary Education (K-6) Certificate

Program Overview

The graduate-level Elementary Education Teacher Certification Program is designed for college graduates seeking initial certification as a teacher in elementary school settings. This is a streamlined, rigorous, and sequential program of professional studies that combines the best of theory, research, and practice. It is designed for part-time students who take one or two late afternoon/evening courses per semester. The teaching internship (student teaching) at the end of the program requires full-time enrollment for one semester. The program is state approved and nationally accredited.

The course work in this program counts toward completion of the Master of Arts in Teaching (MAT) (p. 773).

Curriculum Overview

This is a 21-credit program requiring four courses taken in late afternoons/evenings followed by a full semester of full-time student teaching in a host school in the region.

GLTP 570 or GLTP 571	Seminar and Internship in Teaching Supervised Practicum in Teaching	9
Total Credits		21

Additional requirements for GLTP completion

- Completion of all courses before internship with a "C+" or better in each course and with a 3.0 grade point average.
- Completion of GLTP 570 with a "C+" grade or better.

Courses and Descriptions

GLTP 500 Conceptual Frameworks for Teaching and Learning 3 Credits

This course provides psychological and interdisciplinary perspectives on teaching and learning. Within the theme of optimal development of creative intelligence, students use these perspectives to guide their reflective professional development throughout their program. The course develops knowledge, skills, and dispositions pertinent to (a) child and adolescent development, (b) learning theories, (c) philosophical and historical perspectives on education, (d) sociocontextual and interdisciplinary influences on education, and (e) higher-order creative and critical thinking.

GLTP 502 Curriculum and Instruction in Reading/Language Arts: Early Literacy 3 Credits

Current strategies for teaching beginning learners vocabulary, comprehension, composition, and language study. Pedagogy for all learners, ranging from gifted to diverse learners. How to manage literacy instruction through content areas in general education in preschool and primary grades.

Prerequisite(s): GLTP 500.

ECED 507 Emergent Literacy 3 Credits

Examines perspectives on literacy acquisition including the social-constructivist perspective. Examines the processes of comprehension and composition through the language systems for written language: the grapho-phonetic, syntactic, semantic, and pragmatic. Explores the components of these processes including concepts of print, knowledge of the alphabet, phonological awareness, language play, literary genres, spelling development, vocabulary development, and word recognition.

GLTP 510 Curriculum and Teaching in the Elementary School I: Mathematics 3 Credits

This course introduces students to the elementary curriculum and focuses on the teaching of mathematics that is developmentally appropriate for students from nursery to grade eight. In keeping with NAEYC and NCTM standards, emphasis is placed on planning for and implementing an integrated curriculum approach, discovery learning, hands-on experiences, use of technology, lesson planning, and traditional and non-traditional assessment strategies. Students will also explore positive models for classroom management and discipline. Field experiences will consist of classroom observations and teaching individuals and/or small groups of students.

Prerequisite(s): GLTP 502.

GLTP 515 Curriculum and Teaching in the Elementary School II: Science, Social Studies and the Arts 3 Credits

This course focuses on methods and materials of instruction in science, social studies, and the arts that are developmentally appropriate for students in preschool through grade eight. Emphasis is placed on integrated curriculum, theme cycles, unit planning, hands-on learning experiences, discovery learning, and traditional/non-traditional assessment strategies. Field experience will consist of observation and analysis of a unit of study over time in at least one field site as well as continued teaching of lessons to individual and/or groups of children.

Prerequisite(s): GLTP 502.

GLTP 570 Seminar and Internship in Teaching 9 Credits

This course, designed for those seeking initial certification, requires full-time supervised daily participation in a school setting. The student gradually assumes a full load of teaching responsibility at the school. The experience will test the translation of educational theory into meaningful practice. A student-teaching fee is charged for this course. (nine semester hours).

GLTP 571 Supervised Practicum in Teaching 3 Credits

This practicum is a condensed version of the Internship in Teaching. It is available only to interns seeking teacher certification who already have a year of successful, full-time teaching experience or its equivalent. A special application must be made and approved for enrollment in the course. The practicum requires six weeks of full-time, supervised daily participation in a school setting. After a brief period of orientation to the school and classroom, the intern assumes a full load of teaching responsibility at the school. The experience finetunes the teaching abilities of interns and enables them to demonstrate competence in the specialty for which they seek certification.

Prerequisite(s): Permission of instructor.

English as a Second Language Certification

Program Overview

The mission of the English as a Second Language program at Rider University is to provide the skills, attitudes and understandings necessary to teach non-native speakers of English in order for them to achieve their greatest potential through education for life.

The course work in this program counts toward completion of the Master of Arts in Teaching (MAT) (p. 773).

Curriculum Overview

This is a 24-credit program requiring five courses taken in late afternoons/evenings followed by a full semester of full-time student teaching in a host school in the region.

Certificate Offered

Courses and Descriptions

CURR 548 Curriculum and Instruction for Diverse Learners 3 Credits

This course will examine the curricular and instructional issues that educational leaders must address in accommodating the school program to the needs and abilities of diverse learners. A historical perspective will be developed with an emphasis on how schools have responded to meet the needs of the exceptional child. Legal issues and programmatic trends will be examined and assessed since the inception of the Individuals with Disabilities Education Act. Multicultural issues will be introduced within the context of school and society. The responsibility of the educational leader in fostering a multicultural perspective pertaining to curriculum and instruction, governance, bias and prejudice and school climate and culture will be emphasized. Students will identify and develop curricular possibilities and solutions in school settings to accommodate learners' diverse needs. Students will demonstrate course understandings through actual classroom and school applications that are referenced to state adopted core curriculum content standards and professional development standards, the Standards for School Leaders of the Interstate School Leaders Licensure Consortium, and the candidate proficiencies developed by the Educational Leadership Constituent Council.

Prerequisite(s): CURR 531 and CURR 538.

EDUC 520 Introduction to Linguistics and Psycholinguistics 3 Credits

This course provides an introduction to the properties of human languages and to their systematic study in the field of linguistics and psycholinguistics. Topics include the nature of human language as distinct from other communication systems; sound patterns (phonology), word-formation (morphology), sentence structure (syntax), and meaning (semantics) in the world's languages; relations to cognition, communication, and social organization; dialect variation and language standardization; language learning by children and adults; and the nature and history of writing systems. Intended for any undergraduate and graduate interested in language or its use. It is assumed that students have had no prior course work or exposure to linguistics and will begin with the basic assumptions that are shared by those who study language from a variety of perspectives. Students analyze their own speech patterns, investigate different speech acts in different languages and develop a research project using a linguistic construct in order to apply it to the second language classroom. Students present this project in a poster format to the university community at the end of the semester.

EDUC 521 Teaching a Second Language 3 Credits

This course focuses on interactive methods of teaching a new language as well as cross-cultural understanding. Students learn to plan using national and state standards for language instruction, organize activities, design and direct language learning tasks, and assess learning. Includes theoretical positions on communicative language learning and teaching, the use and evaluation of currently used materials, the design of new materials, and field experiences in the language to be taught. Students develop their professional portfolio, participate in an E-seminar, prepare a unit of study, and present lesson segments. Open to prospective world language teachers, ESL and bilingual teachers, as well as practicing teachers seeking certification. *NOTE: This course is cross-listed as READ 517. Student cannot get credit for both READ 517 and EDUC 521.

EDUC 560 Educating and Evaluating the Bilingual Child 3 Credits

An examination of the historical, legal and pedagogical aspects of the education of language minority students. Considers the design of school programs for minority students including legal mandates, testing, staffing and funding. Emphasis is placed on the evaluation of bilingual students as they enter, develop and exit from special programs of study.

GLTP 500 Conceptual Frameworks for Teaching and Learning 3 Credits

This course provides psychological and interdisciplinary perspectives on teaching and learning. Within the theme of optimal development of creative intelligence, students use these perspectives to guide their reflective professional development throughout their program. The course develops knowledge, skills, and dispositions pertinent to (a) child and adolescent development, (b) learning theories, (c) philosophical and historical perspectives on education, (d) sociocontextual and interdisciplinary influences on education, and (e) higher-order creative and critical thinking.

GLTP 570 Seminar and Internship in Teaching 9 Credits

This course, designed for those seeking initial certification, requires full-time supervised daily participation in a school setting. The student gradually assumes a full load of teaching responsibility at the school. The experience will test the translation of educational theory into meaningful practice. A student-teaching fee is charged for this course. (nine semester hours).

GLTP 571 Supervised Practicum in Teaching 3 Credits

This practicum is a condensed version of the Internship in Teaching. It is available only to interns seeking teacher certification who already have a year of successful, full-time teaching experience or its equivalent. A special application must be made and approved for enrollment in the course. The practicum requires six weeks of full-time, supervised daily participation in a school setting. After a brief period of orientation to the school and classroom, the intern assumes a full load of teaching responsibility at the school. The experience finetunes the teaching abilities of interns and enables them to demonstrate competence in the specialty for which they seek certification.

Prerequisite(s): Permission of instructor.

READ 508 Literacy and the Bilingual/Bicultural Child 3 Credits

Presents multidisciplinary and interdisciplinary perspectives on bilingual/bicultural children and their reading process. Strategies and materials for second language reading instruction are suggested and discussed.

English as a Second Language Endorsement Certificate

Program Overview

This program is designed for the teacher with a certification in another area who wants to add an endorsement (additional certification) as an ESL teacher who helps non-English speakers become fluent in the English language. This is a streamlined, rigorous, and sequential program of professional studies that combines the best of theory, research, and practice. It is designed for part-time students who take one or two late afternoon/evening courses per semester. The teaching internship (student teaching) at the end of the program requires full-time enrollment for one semester. The program is state approved and nationally accredited.

The course work in this program counts toward completion of the Master of Arts in Teaching (MAT) (p. 773).

Curriculum Overview

This endorsement provides ESL teaching credentials for those already certified in another specialization. For example, teachers certified in elementary education or in a secondary specialization can become credentialed to teach ESL through this program track. This is a 15 credit program requiring five courses taken in late afternoons/evenings.

GLTP 503 Curriculum and Instruction in Reading/Language Arts: Literacy and Learning in Content Areas 3 Credits

Current strategies for providing instruction in vocabulary, comprehension, composition and language study in content areas in upper elementary grades through high school. Pedagogy for all learners, ranging from gifted to diverse learners in general education. Prerequisite(e): GLTP 500.

GLTP 520 Curriculum and Teaching in Middle/Secondary Schools 3 Credits

This course is designed for students seeking the initial teaching certificate and introduces them to curriculum and instruction in middle, junior and senior high schools. The history and rationale for secondary-level education is developed. Students acquire skills in instructional planning and classroom management. Field experiences will supplement classroom instruction.

Prerequisite(s): GLTP 503.

GLTP 504 Teaching English Language Arts in Secondary Schools 3 Credits

Students preparing to teach English in middle schools and senior high schools explore strategies for the imaginative teaching of literature, poetry, drama, grammar, composing processes, vocabulary, and oral language use. Students research, develop, and critique thematic units, analyze curriculum, and study the selection, development, and use of a wide variety of teaching materials. Traditional and alternative methods of assessment are explored.

Prerequisite(s): GLTP 520.

GLTP 570 Seminar and Internship in Teaching 9 Credits

This course, designed for those seeking initial certification, requires full-time supervised daily participation in a school setting. The student gradually assumes a full load of teaching responsibility at the school. The experience will test the translation of educational theory into meaningful practice. Life and Career Coaching Certificate

Program Overview

The Life and Career Coaching certificate program at Rider University is designed to meet the educational requirements for certification as a Board Certified Coach through the Center for Credentialing and Education, Inc. (<http://www.cce-global.org/bcc>) Coaches are helping professionals who assist clients in achieving goals in areas such as life transitions, significant relationships, physical health, emotional well-being, career choices, and spirituality. Some coaches carve out a niche by working with business leaders as executive coaches. Coaches differ from other mental health professionals in that they do not work with clients with mental disorders.

Curriculum Overview

There are three pathways to completion of required coursework, depending on a student's educational and professional background. These pathways range from one to three courses.

Certificate Offered

Board Certified Coach

Life and Career Coaching Certificate Requirements

There are three pathways to the Life and Career Coach certificate in order to meet the educational requirements for certification, depending on a student's educational and professional background.

For students who hold a *bachelor's degree or a graduate degree in a field outside of social or behavioral science* (e.g. mathematics, biology), three courses are required.

COUN 500	Introduction to Counseling and Helping Professions	3
CNPY 502	Theories of Counseling and Helping Professions	3
COUN 505	Vocational/Career Development	3

For students who hold a *master's degree in counseling or a doctoral degree in a social or behavioral science* (e.g. social work, education, health, or business), one course is required.

COUN 501	Coaching Principles and Practices	3
----------	-----------------------------------	---

For students who hold a *master's degree in a social or behavioral science other than counseling* (e.g. social work, education, health, or business), two courses are required.

COUN 501	Coaching Principles and Practices	3
An elective		3

Courses and Descriptions

COUN 500 Introduction to Counseling and Helping Professions 3 Credits

Educational, social, and psychological foundations of counseling services. Basic theories, principles, and techniques of counseling and related helping professions, such as coaching, and their applications to professional services. Emphasizes self-awareness as related to becoming a facilitator of helping skills. The team approach to counseling services and the contribution of the various specialties within the total counseling services program are stressed.

CNPY 502 Theories of Counseling and Helping Professions 3 Credits

Introduces the theoretical constructs of the primary contemporary counseling psychology theories being used in the counseling profession today. The theoretical constructs will be explored for use for self-reflection and self-development and to serve as the basis for development of psychological maps for understanding purposes of clients' behaviors.

Prerequisite(s): COUN 500 or as corequisite.

COUN 501 Coaching Principles and Practices 3 Credits

The course covers core coaching competencies, including coaching screening and orientation, fundamental skills, assessment, approaches for organizations, and coaching ethics. The course meets all 30-hour educational requirements for certification as a Board Certified Coach (BCC) through the Center for Credentialing and Education and is required course for the 60-hour BCC educational requirements.

COUN 505 Vocational/Career Development 3 Credits

Includes organizational change and vocational development theories, research, and literature in the field to inform practice with clients with vocational/career concern. The problems and techniques of using occupational and career information, assessment tools, educational and vocational goal setting, conflict management strategies, and individual and group processes are stressed. Includes concepts of career/life planning and counseling and coaching techniques, lifespan transitions, and the interrelationships among work, family, and other life roles.

Mathematics (K–12) Certificate

Program Overview

This graduate-level program is designed for college graduates seeking initial certification as a teacher of mathematics. The streamlined, rigorous, and sequential program of professional studies combines the best of theory, research, and practice. It is designed for part-time students who take one or two late afternoon/evening courses per semester. The teaching internship (student teaching) at the end of the program requires full-time enrollment for one semester. The program is state approved and nationally accredited.

The course work in this program counts toward completion of the Master of Arts in Teaching (MAT) (p. 773).

Curriculum Overview

This is a 21-credit program requiring four courses taken in late afternoons/evenings followed by a full semester of full-time student teaching in a host school in the region.

Courses and Descriptions

GLTP 500 Conceptual Frameworks for Teaching and Learning 3 Credits

This course provides psychological and interdisciplinary perspectives on teaching and learning. Within the theme of optimal development of creative intelligence, students use these perspectives to guide their reflective professional development throughout their program. The course develops knowledge, skills, and dispositions pertinent to (a) child and adolescent development, (b) learning theories, (c) philosophical and historical perspectives on education, (d) sociocontextual and interdisciplinary influences on education, and (e) higher-order creative and critical thinking.

GLTP 510 Curriculum and Teaching in the Elementary School I: Mathematics 3 Credits

This course introduces students to the elementary curriculum and focuses on the teaching of mathematics that is developmentally appropriate for students from nursery to grade eight. In keeping with NAEYC and NCTM standards, emphasis is placed on planning for and implementing an integrated curriculum approach, discovery learning, hands-on experiences, use of technology, lesson planning, and traditional and non-traditional assessment strategies. Students will also explore positive models for classroom management and discipline. Field experiences will consist of classroom observations and teaching individuals and/or small groups of students.

Prerequisite(s): GLTP 502.

GLTP 520 Curriculum and Teaching in Middle/Secondary Schools 3 Credits

This course is designed for students seeking the initial teaching certificate and introduces them to curriculum and instruction in middle, junior and senior high schools. The history and rationale for secondary-level education is developed. Students acquire skills in instructional planning and classroom management. Field experiences will supplement classroom instruction.

Prerequisite(s): GLTP 503.

GLTP 507 Teaching Mathematics in Secondary Schools 3 Credits

The critical analysis of the aims of teaching mathematics in the secondary school; review of recent research in the content and teaching of mathematics by individuals and groups; demonstration lessons (reflective teaching) to illustrate techniques of teaching; the planning of lessons; selection and organization of materials and subject matter; and evaluation of lesson presentation.

Prerequisite(s): GLTP 520.

GLTP 570 Seminar and Internship in Teaching 9 Credits

This course, designed for those seeking initial certification, requires full-time supervised daily participation in a school setting. The student gradually assumes a full load of teaching responsibility at the school. The experience will test the translation of educational theory into meaningful practice. A student-teaching fee is charged for this course. (nine semester hours).

GLTP 571 Supervised Practicum in Teaching 3 Credits

This practicum is a condensed version of the Internship in Teaching. It is available only to interns seeking teacher certification who already have a year of successful, full-time teaching experience or its equivalent. A special application must be made and approved for enrollment in the course. The practicum requires six weeks of full-time, supervised daily participation in a school setting. After a brief period of orientation to the school and classroom, the intern assumes a full load of teaching responsibility at the school. The experience finetunes the teaching abilities of interns and enables them to demonstrate competence in the specialty for which they seek certification.

Prerequisite(s): Permission of instructor.

Music Education (K-12) Certificate

Program Overview

This graduate-level program is designed for college graduates seeking initial certification as a music teacher. The streamlined, rigorous, and sequential program of professional studies combines the best of theory, research, and practice. It is designed for part-time students who take one or two late afternoon/evening courses per semester. The teaching internship (student teaching) at the end of the program requires full-time enrollment for one semester. The program is state approved and nationally accredited.

The course work in this program counts toward completion of the Master of Arts in Teaching (MAT) (p. 773).

Curriculum Overview

This is a 21-credit program requiring four courses taken in late afternoons/evenings followed by a full semester of full-time student teaching in a host school in the region.

Additional requirements for GLTP completion

- Completion of all courses before internship with a "C+" or better in each course and with a 3.0 grade point average.
- Completion of GLTP 570 with a "C+" grade or better.

Courses and Descriptions

GLTP 500 Conceptual Frameworks for Teaching and Learning 3 Credits

This course provides psychological and interdisciplinary perspectives on teaching and learning. Within the theme of optimal development of creative intelligence, students use these perspectives to guide their reflective professional development throughout their program. The course develops knowledge, skills, and dispositions pertinent to (a) child and adolescent development, (b) learning theories, (c) philosophical and historical perspectives on education, (d) sociocontextual and interdisciplinary influences on education, and (e) higher-order creative and critical thinking.

GLTP 503 Curriculum and Instruction in Reading/Language Arts: Literacy and Learning in Content Areas 3 Credits

Current strategies for providing instruction in vocabulary, comprehension, composition and language study in content areas in upper elementary grades through high school. Pedagogy for all learners, ranging from gifted to diverse learners in general education. Prerequisite(e): GLTP 500.

GLTP 520 Curriculum and Teaching in Middle/Secondary Schools 3 Credits

This course is designed for students seeking the initial teaching certificate and introduces them to curriculum and instruction in middle, junior and senior high schools. The history and rationale for secondary-level education is developed. Students acquire skills in instructional planning and classroom management. Field experiences will supplement classroom instruction.

Prerequisite(s): GLTP 503.

ME 721 Curric Development & Eval 3 Credits

This course examines the relationship between curriculum theory and philosophy of music education. Through the study of traditional and contemporary models of curriculum development and evaluation, students broaden their understanding of curriculum as it impacts the learning process. Post modern theory consistent with the Department's commitment to Critical Pedagogy for Music Education provide the focal point for the development of curricula that enhance and support quality music education. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching.

ME 581 Praxis in Elementary Music 3 Credits

This course prepares students to teach music in elementary schools. Consistent with the department's commitment to Critical Pedagogy for Music Education, the course covers materials and methodologies to engage young children in musical experiences that are significant, transformational, and that connect to the social context in which they teach. Students learn to write and evaluate curriculum and to integrate curriculum with academic core subjects. An off campus field experience in local elementary schools is an integral part of this course. Students must provide their own transportation to practicum sites. It is recommended that students complete Developmental or Educational Psychology before taking ME 581. course content, activities and experiences in this course connect to the New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. Music Education majors will receive priority registration for this class. A minimum 2.75 cumulative GPA is required.

Prerequisite(s): For undergraduates only; ME 171, ME 172 ME 271; two semesters of Piano Secondary, not including PI 045; TH 142.

ME 582 Praxis in Secondary Music 3 Credits

This course prepares students to teach music in secondary schools. Consistent with the department's commitment to Critical Pedagogy for Music Education, the course covers materials and methodologies to engage middle school and high school students in musical experiences that are significant, transformational, and that connect to the social context in which they teach. Students learn to write and evaluate curriculum and to integrate curriculum with academic core subjects. An off campus field experience in local middle and high schools is an integral part of this course. Students must provide their own transportation to practicum sites. Course content, activities and experiences in this course covers New Jersey Core Curriculum Content Standards for Music and prepares students to meet the New Jersey Professional Standards for Teaching. It is recommended that students complete ME 581 and either Developmental or Educational Psychology before taking ME 582. Music Education majors will receive priority registration for this class.

Prerequisite(s): completion of two semesters of Piano Secondary, not including PI 045, TH 142, and a minimum 2.75 cumulative grade point average.

GLTP 570 Seminar and Internship in Teaching 9 Credits

This course, designed for those seeking initial certification, requires full-time supervised daily participation in a school setting. The student gradually assumes a full load of teaching responsibility at the school. The experience will test the translation of educational theory into meaningful practice. A student-teaching fee is charged for this course. (nine semester hours).

GLTP 571 Supervised Practicum in Teaching 3 Credits

This practicum is a condensed version of the Internship in Teaching. It is available only to interns seeking teacher certification who already have a year of successful, full-time teaching experience or its equivalent. A special application must be made and approved for enrollment in the course. The practicum requires six weeks of full-time, supervised daily participation in a school setting. After a brief period of orientation to the school and classroom, the intern assumes a full load of teaching responsibility at the school. The experience finetunes the teaching abilities of interns and enables them to demonstrate competence in the specialty for which they seek certification.

Prerequisite(s): Permission of instructor.

Organizational Leadership

Program Overview

The Master of Arts in Organizational Leadership is designed to enhance students' leadership capabilities and understanding of the world in which today's leaders must function. The knowledge and skills that students will attain through the study of leadership can help them advance in their careers in such specialties as developing people and organizations, higher education and information technology, and counseling-related services.

While cultivating the ability to ethically lead organizations is the focus of the program, students will also develop and refine their critical thinking and problem solving skills, ability to motivate and empower others, and aptitude to communicate effectively and persuasively. Through a concentration of courses, students will apply the concepts of leadership as they pertain to the advanced study of another academic discipline. Graduates of the program will have developed a vision of leadership, the values to guide their decisions, and the skills and knowledge to translate their vision into reality.

By successfully completing the program, students will develop a core set of leadership skills and knowledge that will enable them to:

- understand and apply effective leadership styles and models;
- utilize frameworks of ethical decision-making;
- communicate effectively and persuasively within all levels of an organization;
- write and think more critically;
- understand how to utilize strategic planning and financial resources to advance organizations.

In addition to developing a core set of leadership skills and knowledge, the program (depending on the selected area of concentration) will provide students with skills and knowledge requisite to:

- Leadership in Higher Education
- Developing People and Organizations
- Leadership in Counseling-Related Services
- Leadership in Information Technology

Curriculum Overview

Students' broad understanding of leadership and organizations is accomplished through the study of the program's core courses.

Developing an effective leadership practice takes self-knowledge, knowledge of others, financial and strategic acumen, a grasp of contextual forces and organizational dynamics, and a rigorous approach to making decisions and solving problems creatively.

In addition to the study of organizations, students pursue deep study of focal areas. One area is higher education administration and the unique opportunities of academia, particularly from a student affairs perspective. Students become more aware of the history and processes involved in executing higher education missions.

Another area is the field of organizational development, with an emphasis on enhancing organizations through knowledge of contemporary issues, the development of individuals and the cultivation of organizational change. Students become more adept at creating and delivering initiatives for improved effectiveness in teams and organizations.

A third curriculum area is the study of human services from the point of view of those in the helping professions. Acquiring knowledge of the foundations of counseling and mental health enables students to gain greater awareness of how human services organizations and agencies fulfill their promise to clients.

A fourth curriculum area is in the field of information technology, with a focus on how organizational objectives can be enabled through the use of technology. Students examine current topics that affect the constraints and opportunities that arise from using these technologies for reaching organizational goals.
