The quickest way for students to register for classes is to select their sections using the Enhanced Course Roster found in the “View Open and All Course Lists”. (Please see separate documentation for using the Enhanced Course Roster.)

Once you have selected your sections, and noted the relevant CRNs (Course Request Number), you may quickly register for classes using “Register or Add Classes by CRN”

Select the appropriate term then click Submit:
Once you know the CRNs for the sections for which you would like to register, you can enter each CRN in a separate box under the Add Classes Worksheet.

Once you have finished entering each CRN, click Submit Changes.

After you click Submit Changes, the classes you registered for will appear on the top part of the screen prefaced by **Registered** or **Web Registered** with the date the registration took place.

If you have any registration errors, they will appear between your schedule and the Add Classes Worksheet. A list of registration errors are listed at the end of this document. You may not register for a class with registration errors unless the errors are resolved.
Note at the bottom of this page, there are links to view:
